clarating the voyage, or time, for which they are shipped—on neglect, are liable to give the highest wages given at the port where said seamen shipped, and also forfeit 20 dollars for every such seaman.

That at the foot of such contract there shall be a memorandum of the day and hour on which such seamen shipped. And if any such seaman shall neglect to render himself on board the vessel at the time mentioned in such memorandum, and if the master of such vessel, shall on the day on which such neglect happened, make an entry in the log book of such vessel, of the name of such seaman, and note the time he so neglected to render himself, such seaman shall forfeit for every hour, which he shall so neglect to render himself, one day's pay. And if he wholly neglects to render himself on board of such vessel, so that the vessel proceed to sea without him, such seaman shall forfeit a sum equal to that which shall have been paid him by advance at the time of signing the contract, over and besides the sum so advanced.

That if the mate or first officer under the master, and a majority of the crew of a vessel bound on a foreign voyage, shall, after the voyage is begun (and before the vessel has left the land) discover that the vessel is leaky, or otherwise unfit in her crew, tackle, provisions, &c. and shall require such unfitness to be enquired into, the master shall, upon the request of said mate, &c. forthwith proceed to, or stop at, the nearest or most convenient port or place where such enquiry can be made, and there apply to the district judge, if he shall there reside, or if not, to some justice of peace of the place; and thereupon such judge or justice is authorised and required to issue his precept directed to three persons in the neighbourhood the most skilful in maritime affairs, requiring them to repair on board such vessel, and to examine the same, and make report to said judge or justice, in writing, in what respect said vessel is unfit to proceed on the intended voyage, and what addition of men, &c. and what repairs, &c. will be necessary: and upon such report the said judge or justice shall adjudge and determine, and shall endorse on said report his judgement, whether said vessel is fit to proceed, &c. and the master and crew shall conform to said judgement; and the master or commander shall, in the first instance, pay all the costs—to be taxed

and allowed by the judge or justice. But if the complaint of the crew shall appear upon the report and judgement, to have been without foundation, then the master, or the owner, or consignee of such vessel, shall deduct the amount thereof, and of reasonable damages for the detention, (to be ascertained by the said judge or justice) out of the wages growing due to the complaining seamen or mariners. And if after such judgment, such vessel is fit to proceed on her voyage, or after procuring such men, provisions, stores, repairs or alterations as may be directed, said seamen shall refuse to proceed on the voyage, it shall be lawful for any justice of the peace to commit by warrant every such seaman or mariner, who shall so refuse, to the common gaol of the county, there to remain without bail or mainprize, until he shall have paid double the sum advanced to him at the time of subscribing the contract for the voyage, together with such reasonable costs as shall be allowed by the said justice, and inserted in the said warrant.

That if any seaman or mariner, who shall have subscribed such contract as is herein before described, shall absent himself from on board the vessel in which he shall so have shipped, without leave of the master, or officer commanding on board, and the mate, or other officer having charge of the log-book, shall make an entry therein, of the name of such seaman, on the day on which he shall so absent himself, and if such seaman or mariner shall return to his duty within 48 hours, such seaman shall forfeit three day's pay, for every day which he shall so absent himself, to be deduc-

ted out of his wages ; but if any seaman or mariner shall absent himself for more than 48 hours at one time, he shall forfeit all the wages due to him, and all his goods and chattels which were on board said vessel, or in any store where they may have been lodged at the time of his desertion, to the use of the owners of such vessel, and moreover shall be liable to pay to him or them all damages which he or they may sustain.

That every seaman or mariner shall be entitled to demand and receive from the master of the vessel to which he belongs, one third part of the wages which shall be due to him, at every port where such vessel shall unlade her cargo, before the voyage be ended, unless the contrary be expressly stipulated in the contract ; and as soon as the voyage is ended, and the cargo or ballast be fully discharged at the last port of delivery, every seaman or mariner shall be entitled to the wages which shall be then due ; and if not paid in ten days after discharge, or if any dispute shall arise between the master and seamen touching the said wages, it shall be lawful for the judge of the district where said vessel shall be, or, in case his residence be more than three miles from the place, or of his absence from the place of his residence, then, for any judge or justice, to summon the master of such vessel to appear before him, to shew cause, why process should not issue against such vessel, her tackle, &c. to answer for the said wages ; and if the master shall neglect to appear, or appearing, shall not shew that the wages are paid ; in such case, the judge or justice shall certify to the clerk of the court of the district, that there is sufficient cause of complaint whereon to found admiralty process, and thereupon the clerk of such court shall issue process against said vessel, and the suit shall be proceeded on in the said court, and final judgment be given, according to the course of admiralty courts in such cases used : and in such suit all the seamen or mariners (having cause of complaint of the like kind, against the same vessel) shall be joined as complainants, and it shall be incumbent on the master to produce the contract, and logbook, if required, to ascertain any matters in dispute, otherwise the complainants shall be permitted to state the contents thereof, and the proof of the contrary shall lie on the master, but nothing herein contained shall prevent any seaman or mariner from having

action at common law for the recovery of his wages, or from immediate process out of any court having admiralty jurisdiction, wherever any ship or vessel may be found, in case she shall have left the port of delivery where her voyage ended, before payment of the wages, or in case she shall be about to proceed to sea before the end of ten days.

That if any seaman, who shall have signed a contract to perform a voyage, shall at any port or place, desert, or shall absent himself from such vessel without leave of the master, it shall be lawful for any justice of peace, within the United States (upon complaint of the master) to issue his warrant to apprehend such deserter, and bring him before such justice, and if it then shall appear by due proof, that he has signed a contract within the intent and meaning of this act, and that the voyage agreed for is not finished, altered, or the contract otherwise dissolved, and that such seaman has deserted or absented himself without leave, the said justice shall commit him to the house of correction, or common gaol of the city, town or place, there to remain until said vessel shall be ready to proceed on her voyage, or till the master shall require his discharge, and then to be delivered to said master, he paying all costs, and deducting the same out of said seaman's wages.

That every vessel belonging to a citizen of the United States, of the burthen of 150 tons or upwards, navigated by 10 or more persons in the whole, and bound on a voyage without the limits of the U. S. shall be provided with a chest of medicines, put up by some apothecary of known reputation, and accompanied by directions for administering the same, and in default of having such medicine chest so provided, and kept fit for use, the master of such vessel shall pay for all such advice, medicine, or attendance of physicians, as any of the crew shall stand in need of, in case of sickness, at every port or place where the vessel may touch at during the voyage, without any deduction from the wages of such sick seaman or mariner.

Every vessel bound across the Atlantic ocean, to be provided with 60 gallons of water, 100 wt. of meat, and 100 wt. of bread, for every person on board, and in proportion for shorter or longer voyages—on penalty that the master or owner shall pay to each of the crew one day's wages for every day they shall be put to short allowance.

Treasury Department, September 28, 1790.

THE following regulations, which have been adopted towards carrying into execution the act, making provision for the debt of the United States, are announced for the information of the public creditors.

WHEN a transfer is to be made from one person to another, the *certificate* or *certificates* of the debt to be transferred, must be produced at the proper office, in order that the same may be cancelled, and a new one, or new ones issue, as the case shall require.

When a transfer is desired from one office to another, application must in the first instance be made to the office where the credit exists, whereupon the certificate or certificates of the debt to be transferred will be cancelled, and a special one granted; as a voucher to the Secretary of the Treasury; upon the production and delivery of which to him a warrant will issue to the office, to which the debt is to be transferred, where the business will be completed. The form (A) at foot hereof, has been adopted for letters of attorney, to make transfers, which, and the directions for compleating it, it is expected will be carefully observed.

In every case of a transfer of the subscribed or *funded* debt, the new certificate will bear interest, only from the first day of the quarter, in *which* the transfer is made. The unpaid interest which may have accrued prior to that quarter, will be paid only to the person, who was stockholder at the time it accrued; or to his *special* assignee.

Fourteen days before the expiration of each quarter, the books of each office will be closed; so that no transfers will be made, nor except at the Treasury, will any subscriptions be received, or old certificates exchanged for new ones, on the application of non-subscribers, *during that period*. This, the proper distribution of the funds, and the preservation of order render indispensable.

On the subscribed or funded debt, interest as it becomes due, will be paid without production of the certificates issued for the same. On the unsubscribed debt, if any there shall be, the production of the certificates will be necessary, in order to the receipt of the interest, and an indorsement of the payment of it upon the certificates. This

however, in consideration of the risk and inconvenience of transmission, will not be required of those who hold certificates of the Register of the Treasury, and reside out of the United States. The form (B) at foot hereof, of a letter of attorney for receiving interest, and the directions therewith, it is expected will be carefully pursued.

By the Constitution of the above Society, they are to meet four times in a year, at such time and place as a majority shall appoint.

At a Meeting holden at New-Haven, on the 9th of Sept. 1790, it was

VOTED, That the members of this society in the several towns to which they respectively belong, do by themselves or a committee of their choice, enroll the names, ages and possessors of such persons as have been born since the 1st of March, 1784, and who by law will be entitled to their freedom at the age of 25 years; to examine whether the births of such persons have been recorded according to law—to enquire whether any persons are illegally holden in bondage—also whether the other laws of State relative to the gradual abolition of slavery are duly observed—and to look into the character and conduct of free Negroes and Mulattoes with respect to morality, industry and oeconomy, and report to the society, or their standing committee.

Having the table for all the dimes, if the value should be required of any number of cents above any certain dimes, but below the next higher, take first the dime next below the given number of cents, and to the shillings, pence, and farthings contained therein add those contained in the super-numerary cents and you will have the shillings, &c. contained in the said given number.

NOTE—That at the head of the columns *s.* stands for shillings, *d.* for pence, and *q.* for farthings.

So help you GOD.

As the following Act is to be read at the Town Meetings in December—it is here inserted for the conveniency of those whom it concern, and for the information of others.

An Act for the more effectual putting in Execution the Laws against Vice, Immorality and Profaneness, and for promoting Christian Knowledge.

Whereas putting in Execution the good and wholesome Laws for restraining, punishing and suppressing profane, immoral and irreligious Practices in this State, and promoting Christian Knowledge, will greatly tend to the honor of Religion, the Peace and good Order of human Society, and to suppress Vice and Wickedness: Therefore, that the same may be more generally and effectually done,

BE it enacted, &c. That all Judges and Justices of the Peace in the respective Counties in this State, be, and they are hereby required to be diligent and careful in put-

ting in Execution all such Laws and Acts as are or shall be made in this State, for the punishing, restraining or suppressing any Profaneness, Immorality, or irreligious Practices or Disorders, that thereby the good Ends proposed in such Acts and Laws may be attained.

That the Select-men from Time to Time, shall make diligent Enquiry of all Housholders within their respective Towns, how they are furnished with Bibles ; and if upon such Enquiry any Housholder be found without one Bible at least, then the Select men shall warn the said Housholder forthwith to procure one Bible at least, for the use and benefit of their Families respectively : And if the same be neglected, then the said Select men shall make Return thereof to the next Authority, who may deal with such Housholder's Family according to the directions of the Law relating to the educating and governing of Children.

And all such Families as are numerous, and whose Circumstances will allow thereof, shall be supplied with Bibles according to the number of Persons of Capacity to use the same in such Families ; and with a suitable number of orthodox Catechisms, and other good Books of practical Godliness, and the like.

That the Constables, Grandjury-men and Tything men in the respective Towns in this State, shall, and they are hereby required to make diligent Search after, and Presentment make of all the Breaches of the Laws which relate to their Office or Offices respectively.

And the Constables and Grandjury-men in the respective Towns shall, on the Evenings after the Lord's-Day, and other public Days of religious Solemnity, walk the Street, and duly search all Places suspected for harbouring or entertaining any People or Persons assembled contrary to Law.

Be it further enacted, &c. That the Justices of the Peace, Grand-jurors, Constables and Tything-men in the respective Towns in this State, shall annually meet in the respective Towns to which they belong, on the first Monday of *January*, and on the third Monday in *June*, at the Place where their annual Town-Meetings are held, or at some other Place by them appointed, there to advise, consider, and use their joint Interest in suppressing Profaneness,

Vice, and Immorality, and for the due Execution of all the Laws of this State, to which their Offices have Relation.

And be it further enacted, &c. That the Town Clerk of each respective Town in this State, at the opening of the public Town Meeting for electing Town-Officers in *December* annually, if present, and in his Absence the Select-men for the Time being, who shall be present, shall read or cause to be read this Act, and every Paragraph thereof publicly in this Meeting. And if such Clerk, being present, or such Select-men present in the Clerk's Absence, shall neglect or refuse publicly to read, or cause to be read this Act; then the said Clerk or Select-men in refusing or neglecting, shall forfeit and pay the Sum of Twenty Shillings; one half to the Complainer, who shall prosecute to Effect, and the other half to the Town-Treasury.

And the Constables and Grandjury-men are directed to enquire after, and due Presentment make of all Breaches of this Act, to some Assistant or Justice of the Peace; who are hereby impowered to hear and determine the same.

S C H O O L S.

BY the law of this State for establishing public schools, it is enacted, " That every town within this State wherein there is but one ecclesiastical society constituted, or that shall be constituted by the general assembly, wherein there are the number of 70 householders or families, or upwards, shall be at least 11 months in each year constantly provided with, and shall keep and maintain one good and sufficient school for the teaching and instructing of youth and children to read, and write; which school shall be steadily supplied with and kept by a master sufficiently and suitably qualified for that service. And every such town and society wherein there is not the said number of 70 householders or families, shall be provided with, and maintain a school and a school-master as aforesaid, at least one half of the year annually. And also there shall be a grammar school set up, kept and constantly maintained in every county town of the several counties that are, or shall be made in this State; which shall be steadily kept by some discreet person of good conversation, and well skilled in and acquainted with the learned languages, especially Greek and Latin."

The

The law makes it the duty of the civil authority and select-men to visit the schools from time to time, particularly once in each quarter of a year, and enquire into the time said schools are kept—the qualifications of the masters, and proficiency of the children : and they are to give such directions as they shall think needful to render such schools more serviceable for the increase of knowledge, religion and good manners.

Treasury-Department, Sept. 28, 1790.

THE following regulations, have been adopted towards carrying into execution the act, making provision for the debt of the United States.

WHEN a transfer is to be made from one person to another, the *certificate* or *certificates* of the debt to be transferred, must be produced at the proper office, in order that the same may be cancelled, and a new one, or new ones issue, as the case shall require.

When a transfer is desired from one office to another, application must in the first instance be made to the office where the credit exists, whereupon the certificate or certificates of the debt to be transferred will be cancelled, and a special one granted, as a voucher to the Secretary of the Treasury; upon the production and delivery of which to him a warrant will issue to the office, to which the debt is to be transferred, where the business will be completed. The form (A) at foot hereof, has been adopted for letters of attorney, to make transfers, which, and the directions for completing it, it is expected will be carefully observed.

In every case of a transfer of the subscribed or funded debt, the new certificate will bear interest, only from the first day of the quarter, in which the transfer is made. The unpaid interest which may have accrued prior to that quarter, will be paid only to the person, who was stockholder at the time it accrued, or to his *special* assignee.

Fourteen days before the expiration of each quarter, the books of each office will be closed; so that no transfers

will be made, nor except at the Treasury, will any subscriptions be received, or old certificates exchanged for new ones, on the application of non-subscribers, *during that period*. This, the proper distribution of the funds, and the preservation of order render indispensable.

On the subscribed or funded debt, interest as it becomes due, will be paid without production of the certificates issued for the same. On the unsubscribed debt, if any there shall be, the production of the certificates will be necessary, in order to the receipt of the interest, and an indorsement of the payment of it upon the certificates. This however, in consideration of the risk and inconvenience of transmission, will not be required of those who hold certificates of the Register of the Treasury, and reside out of the United States. The form (B) at the foot hereof, of a letter of attorney for receiving interest, and the directions therewith, it is expected will be carefully pursued.

“ At a Convention of the Committees of the General Assembly of the Presbyterian Church in the United States of America, and of the General Association of the State of Connecticut, on Wednesday the 14th of September, 1791, in the Chapel of Yale-College :

Considering the importance of universal harmony in the Christian Church, and the duty incumbent on all its pastors and members to assist each other, in promoting, as far as possible, the general interests of the Redeemer's kingdom ; and considering further, that Divine Providence appears to be now opening the door for pursuing these valuable objects, with a happy prospect of success ;

“ This Convention are of opinion that it will be conducive to these important purposes, that a standing Committee of Correspondence be appointed in each body, whose duty it shall be, by frequent Letters, to communicate to each other whatever may be mutually useful to the Churches under their care, and to the general interest of the Redeemer's kingdom.

“ That each body should, from time to time appoint a Committee consisting of three members, who shall have a right to sit in the others general meeting, make such communications as shall be directed by their respective constituents, and deliberate on such matters as shall come before the body ; but shall have no right to vote.

“ That effectual measures be mutually taken to prevent injuries to the respective churches, from irregular and unauthorized preachers.

“ To promote this end the Convention judge it expedient, that every preacher, travelling from the limits of one of these churches into those of the other, shall be furnished with recent Testimonials of his regular standing and good character as a preacher, signed by the moderator of the presbytery, or of the association, in which he received his

licence ; or of a minister, of his good standing and character as such, from the moderator of the presbytery or association, where he last resided ; and that he shall, previously to his travelling as a preacher into distant parts, further receive a recommendation from one member, at least, of a standing Committee to be hereafter appointed by each body, certifying his good qualifications, as a preacher ; also that the names of this standing committee shall be mutually communicated ; and also that every preacher travelling and recommended as above, and submitting to the stated rules of the respective churches, shall be received as an authorized preacher of the gospel, and cheerfully taken under the patronage of the Presbytery, or Association, within whose limits he shall find employment as a preacher."

ECLIPSES FOR THE YEAR 1793.

THERE will be **FOUR ECLIPSES** this Year, in the following order :—

I. The **FIRST** will be of the **MOON**, *February 25th*, in the evening ; visible in part—Calculated as follows :

Beginning,	-	-	-	4h. 36m. 52se.
☾ rises near 4 digits eclipsed, at	-	-	-	5 25 00
Middle of the Eclipse,	-	-	-	5 57 50
Eclipse ends,	-	-	-	7 18 48
Whole duration,	-	-	-	2 41 56
Duration of visibility,	-	-	-	1 53 48

II. The **SECOND** will be of the **SUN**, *March 12th*, at 1 o'clock in the morning, invisible.

III. The **THIRD** will be of the **MOON**, *April 21st*, at 9 o'clock 55 minutes in the morning, invisible,

IV. The **FOURTH**, and last, will be of the **SUN**, *September 5th*, in the morning, visible in part.

The centre of the penumbra will pass by the vertex of **NEW-LONDON** before sunrise ; consequently the beginning, and middle of the Eclipse, will be invisible to us : however, a small quantity of the going off, may be seen by those who have a good Horizontal prospect. The middle of the eclipse will be about 5 o'clock in the morning ; the Sun will rise at 5h. 36m. about $1\frac{1}{4}$ digits eclipsed, and at 5 o'clock 46 min. the Eclipse will end : so that the duration of visibility will be only 10 minutes.

UNITED STATES.

Treasury-Department, Sept. 28, 1790.

THE following regulations have been adopted towards carrying into execution the act, making provision for the debt of the United States.

WHEN a transfer is to be made from one person to another, the *certificate or certificates* of the debt to be transferred, must be produced at the proper office, in order that the same may be cancelled, and a new one, or new ones issue, as the case shall require.

When a transfer is desired from one office to another, application must in the first instance be made to the office where the credit exists. whereupon the certificate or certificates of the debt to be transferred will be cancelled, and a special one granted, as a voucher to the Secretary of the Treasury; upon the production and delivery of which to him a warrant will issue to the office, to which the debt is to be transferred, where the business will be completed.

The form (A) at foot hereof, has been adopted for letters of attorney, to make transfers, which, and the directions for completing it, it is expected will be carefully observed.

In every case of a transfer of the subscribed or *funded* debt, the new certificate will bear interest, only from the first day of the quarter, *in which* the transfer is made. The unpaid interest which may have accrued prior to that quarter, will be paid only to the person, who was stockholder at the time it accrued, or to his *special* assignee.

Fourteen days before the expiration of each quarter, the books of each office will be closed ; so that no transfers will be made, nor except at the Treasury, will any subscriptions be received, or old certificates exchanged for new ones, on the application of non-subscribers, *during that period*. This, the proper distribution of the funds, and the preservation of order render indispensable.

On the subscribed or funded debt, interest as it becomes due, will be paid without production of the certificates issued for the same. On the unsubscribed debt, if any there shall be, the production of the certificates will be necessary, in order to the receipt of the interest, and an indorsement of the payment of it upon the certificates. This however, in consideration of the risk and inconvenience of transmission, will not be required of those who hold certificates of the Register of the Treasury, and reside out of the United States. The form (B) at the foot hereof, of a letter of attorney for receiving interest, and the directions therewith, it is expected will be carefully pursued.

GEOGRAPHICAL DESCRIPTION OF THE UNITED STATES.

Situation, extent }
and boundaries } between { 31° and 49° N. lat.
of the United States. } { 9 E. and 24 W. long.
from Philadelphia.

Being about 1250 miles in length; 1030 in breadth.

BOUNDED, agreeably to the limits established by the Definitive Treaty of Peace between the United States and Great-Britain, ratified on the third day of September, 1783.

On the northwest and north by the highlands which lie to the eastward of the River St. Lawrence, & which divide the rivers that fall into the St. Lawrence from those that fall into the Atlantic Ocean; by upper Canada, the river Iroquois or Cataraquay, the Lakes; (viz.) lake Ontario, lake Erie, lake Huron, lake Superior, the Long Lake, the Lake of the Woods; and a line drawn due west from the north-westernmost angle of the last mentioned lake to the river Mississippi: On the west by the river Mississippi: On the south, by West-Florida, East-Florida, and St. Mary's river: On the east, by the Atlantic Ocean, the river St. Croix, and Nova-Scotja: Comprehending all islands within twenty leagues of the coast.

The late geographer of the United States, Mr. Hutchins, has computed that the surface contained within the above boundaries is one million of square miles; which amounts to 640,000,000 of acres. Of this, agreeable to his computation, 51,000,000 of acres are water. So that the land within the United States amounts to 589,000,000 of acres. About three fifths of which is comprised within the States that now compose the Union. The remainder, to wit, 220,000,000 of acres, lying west of the northern and middle states, and northwest of the river Ohio, and extending to the river Mississippi, together with an extensive territory south of the Ohio, originally ceded to the United States, by North Carolina, South Carolina, and Georgia, forms what is usually denominated the Western Territory.

A great proportion of this territory is yet claimed and occupied by the aboriginal natives.

UNITED STATES.

Treasury Department, Sept. 28, 1790.

THE following regulations have been adopted towards carrying into execution the act, making provision for the debt of the United States.

When a transfer is to be made from one person to another, the *certificate or certificates* of the debt to be transferred, must be produced at the proper office, in order that the same may be cancelled, and a new one, or new ones issue, as the case shall require. — When a transfer is desired from one office to another, application must in the first instance be made to the office where the credit exists, whereupon the certificate or certificates of the debt to be transferred will be cancelled and a special one granted, as a voucher to the secretary of the Treasury; upon the production and delivery of which to him a warrant will issue to the office, to which the debt is to be transferred, where the business will be completed. The form (*A*) at foot hereof, has been adapted for letters of attorney, to make transfers, which, and the directions for completing it, it is expected will be carefully observed.

In every case of a transfer of the subscribed or *funded* debt, the new certificate will bear interest, only from the first day of the quarter, in which the transfer is made. The unpaid interest, which may have accrued prior to that quarter, will be paid only to the person, who was stockholder at the time it accrued, or to his special assignee.

Fourteen days before the expiration of each quarter, the books of each office will be closed; so that no transfers, will be made, nor except at the Treasury, will any sub.

scriptions be received, or old certificates exchanged for new ones, on the application of non-subscribers, *during that period.*

On the subscribed or funded debt, interest as it becomes due will be paid without production of the certificates issued for the same. On the unsubscribed debt, if any there shall be, the production of the certificates will be necessary in order to the receipt of the interest, and an indorsement of the payment of it upon the certificates. This however, in consideration of the risk and inconvenience of transmission, will not be required of those who hold certificates of the Register of the treasury, and reside out of the United States. The form (B) at the foot hereof, of a letter of attorney for receiving interest, and the directions therewith, it is expected will be carefully pursued.

The acknowledgement may be taken before any judge of a
 court of the United States, or of a superior court of law or equi-

Shewing the number of Males and Females in each State, with the excess of Males and Females.

States.	Males.	Females.	Excess.

New-Hampshire,	70,937	70,160	777 ditto

Connecticut,	114,926	117,448	2,522 ditto

New-Jersey,	86,667	82,487	4,180 ditto
Pennsylvania,	217,736	206,363	11,373 ditto
Delaware,	23,926	22,384	1,542 ditto
Maryland,	107,254	101,395	5,859 ditto
Virginia,	227,071	215,046	12,025 ditto
Kentucky,	32,211	28,922	3,289 ditto
North-Carolina,	147,494	140,710	6,784 ditto
South-Carolina,	73,298	66,880	6,318 ditto
Georgia,	27,147	25,739	1,408 ditto
Vermont,	44,763	40,505	4,258 ditto

By this Table it appears that there is a plurality of Males in every State except three. Some suppose that the number of seafaring men in those States may account for it; others, that the great migrations from these States is more probably the reason, as in migrations more Males go out than Females.

RATES of GOLD and SILVER COINS, As established by Act of Congress, Feb. 9, 1793.

THAT after the 1st day of *July* 1793, foreign gold and silver coins shall pass current as Money within the United States, and be a legal tender for the payment of all debts and demands, at the several rates as follows, and not otherwise, viz.

The gold coins of *Great-Britain* and *Portugal*, of their present standard, at the rate of *one hundred cents* for every twenty seven grains of the actual weight thereof, the gold coins of *France*, *Spain*, and the dominions of *Spain*, of their present standard, at the rate of *one hundred cents* for every twenty-seven grains and two-fifths of a grain, of the actual weight thereof. *Spanish* mill'd Dollars, at the rate of *one hundred cents* for each Dollar, the actual weight whereof not to be less than 17 pennyweights and 7 grains; and in proportion for the parts of a dollar. Crowns of *France*, at the rate of *one hundred and ten cents*, for each Crown, the actual weight whereof not to be less than 18 pennyweights and 17 grains, and in proportion for the parts of a Crown. But no foreign Coin that may have been, or shall be issued subsequent to the 1st day of *Jan.* 1792, shall be a tender as aforesaid, until samples thereof shall have been found, by assay at the Mint, to be conformable to the respective standards required, and proclamation thereof shall have been made by the President of the United States.

That at the expiration of three years next ensuing the time when the coinage of gold and silver shall commence at the Mint of the United States (which time will be announced by the proclamation of the President of the United States) all foreign gold Coins, and all foreign silver Coins, except *Spanish* mill'd Dollars, and parts of such Dollars, are to cease to be a tender.

That all foreign gold and silver Coins (except *Spanish* mill'd Dollars, and parts of such Dollars) which shall be received in payment for Monies due to the United States after the said time, when the coining of Gold and Silver Coins shall begin at the Mint of the United States, shall, previously to their being issued in circulation, be coined anew, in conformity to the Act for establishing a Mint.

POLITICAL CALCULATION.

=

IF we take for granted, that the earth is inhabited by about one thousand millions of people, and counting 33 years for a generation, we find that one thousand millions die during that time. Therefore the number of deaths is every

But as the number of deaths is to the number of births as 10 to 12, there are born every

Second,	1 1-10

If men were not to die, there would at present about 173,000 millions be living upon earth: and as the continent of the world contains, at least, 1587 billions of square feet, there would still be for each inhabitant 9100 square feet.

Counting three generations for an age, and taking for certain, that the world is 5700 years old, we find there were since the creation 171 generations, 124 since the deluge, and 53 since the birth of Christ.

The number of the inhabitants of a country or of a city is renewed almost every thirty years, and in one hundred years the human race is renewed 3 1-3 times.

Iceland therefore is the poorest part as to inhabitants, and Maltha the richest.

Of all the inhabitants of a country, one fourth are living in towns, and three fourths in the country.

By comparing the bills of mortality of divers countries, it was found, that annually die in the villages 1 out of 40 ; in the small cities, 1 of 32 ; in the middling towns, 1 of 28, and in the large cities, 1 of 24. Of a whole country, we count 1 out of 36. Of 1000 we may count 28 that die annually.

Of 1000 infants that are nursed by the mother, 300 die, but of the same number committed to the charge of a strange nurse, 500 perish.

Of 115 deaths there may be reckoned one woman in child bed, but one only out of 100 dies in labor.

It is observed that more girls than boys die of the small pox in the natural way.

In the small-pox hospital in London out of

3434 inoculated children 10 only died, where out of 4656 children that had at the same time the small pox in the natural way, there died 1634.

From calculations founded on the bills of mortality, there is only one out of 3,125 that reaches the age of 100.

Men live every where to the age of 90 and 100 if their life is not shortened by external accidents.

More people live to a great age in elevated situations than in those that are lower.

From divers bills of mortality, a calculation has been made, how long a person of a certain age may with probability hope to live. The following result of that calculation will be found useful to tontines.

It is probable that a new born child will live to the age of 34 years and 6 months.

The age of 7 years is that, in which we may hope yet to live the greatest number of years.

At the age of 12—13 we have passed one fourth part of our life, at 28 and 29 we are in the midst of life, with 50 we have passed away three fourths of it.

It appears from the bills of mortality that the women after having passed a certain age, generally live longer than men.

Comparing the numbers of deaths we find that the number of men is to that of women, as 27 is to 25.

Married women live longer than those who are not married.

By observations made during the space of 50 years, it has been found that the greatest numbers of deaths have been in the months of March, September and August: and the fewest in the months of November, December, and February.

The half of all that are born, die before they reach the age of seventeen; so that those who out-live that period more or less, enjoy a preference, which one half of the human race does not attain.

The number of old persons who die during cold weather, are to those who die during the warm season, as seven to four.

The first month, especially the first day after birth, are marked by the greatest number of deaths; of 2735 infants, who die young, 1292 die on the first day, and the remainder during the first month.

The most healthy children are born in the months of January, February and March.

The number of those who die annually is to the births as 10 to twelve or 13.

The married women are to the whole female inhabitants of a country as one to three. The married men to all the males as three to five.

The number of boys above 13 years is to the whole

number of inhabitants of a country as 4 to 33, and the girls above 13, to the whole as 3 to 25.

If the whole number of inhabitants is divided into two parts, one part is old 27 years and above, and the other, which is however a little more numerous, is under that age.

The number of males, born annually, is to the number of females as 21 to 20, but as in their infancy 2.25 more boys die than girls; the number of males and females is towards the age of maturity again equal.

The number of twins is to that of the whole number of single births as 1 to 65.

The number of marriages is to that of the inhabitants of a country as 175 to 1000.

In a well peopled country we may count but one out of fifty annually that marries.

In country-places there are on an average 4 children born of each marriage; in cities we can reckon but 35 children to 10 marriages.

We may always reckon one fourth of the male inhabitants of a country to be able of carrying arms.

The number of widows is to that of widowers, as 3 to one, but that of widows who re-marry to that of widowers as 4 to 6.

The number of widows is to the number of the whole inhabitants as 1 to 51, that of widowers as one to 15.

The number of widowers, and widows is to that of marriages as 3 to 7.

It is confirmed by experience, and by the observations of physicians, that in large towns out of 100 persons, there are through the year never more than 20 sick for the space of a month, or 24 for a fortnight.

Of the whole number of female inhabitants of a country, the eighteenth only is brought to bed annually.

Births that happen before 9 months, are more frequent than those after 9 months.

That, upon the entrance of every vessel of the United States, from any foreign port, the owner shall make oath that, to the best of his knowledge and belief, the Register of such vessel contains the names of all the persons who are then owners of said vessel, or, if any part has been transferred, that such is the case ; and that no foreign subject or citizen hath any share by way of trust, confidence, or otherwise, in such vessel—and, if the owner does not reside at the port of entry, the master shall make oath to the like effect. If any vessel is found without her name, and the name of the port to which she belongs, painted on her stern, the owner forfeits 50 dollars one half to any person giving the information.

If any Register shall be knowingly used for any vessel not then actually entitled to the benefit of it, such vessel shall be forfeited.

The owner or master must be present at the time of endorsing a change of the master.

Seamen's Journals, School Books, Account
Books, and a general assortment of Stationary,
&c. constantly kept for sale, by THOMAS C.
GREEN, New-London.

[The returns made of military officers in the State of Connecticut, being partial and imperfect, are omitted in the Register this year. And the editor takes this opportunity to express his wishes that the Captains and Brigade-Inspectors would make their returns seasonably, the year ensuing, to the Adjutant-General, that the public may, for once at least, have a complete list of the military officers in the State. If such a list can be obtained, the editor proposes to enlarge on his plan another year, and to publish at an earlier period.]

[The foregoing list is the most accurate that the Editor could obtain from official and private sources. He had flattered himself with the idea of publishing a general return; and to effect it, made considerable exertions, and was obligingly assured of the assistance of the Adjutant-General, from whom he received a copy of all the returns made to his office, accompanied with the following letter.]

NORWICH, NOV. 14, 1795.

S I R,

FROM the order of his Excellency the Captain-General of this state, respecting the punctuality and correctness of the military returns, I had no doubt but it would have been within my power to comply with your request, and have furnished a complete list of the

officers' names now in commission in this state, that they might have been published in your register of this year; but for some cause, they have been received but partially; those which have come to hand, are now enclosed. I regret, that the gentlemen whose duty it is to make returns, should have neglected their duty in this particular; and hope that their punctuality in future will prevent any complaint on my part, of *inability* to gratify the public with a complete and accurate list for publication. *I am, &c.*
