ISSUED TO THE SUBSCRIBERS BY PHILLIMORE & CO., LTD.,

P R E F A C E .

So many parishes in S.E. Derbyshire have been dealt with in this Series that it was hoped and intended that the present volume would be devoted entirely to the High Peak district and would contain a compact group of adjacent parishes, an arrangement which always brings out in a peculiar degree the value of this method of printing the complete Marriage Registers of a whole district. Unfortunately it was not found possible to obtain sufficient MS. from the High Peak without delaying indefinitely the issue of the volume, already overdue. The latter third of the book, therefore, has been filled with the important Register of Repton, the MS. of which had been ready for some time. The Repton abstracts were made by Mr. Simpson and Mr. E. B. Smith; those of Chapel-en-le-Frith, which contain so many entries of old-established Peak families as to be of exceptional interest to genealogists, were done by Mr. W. Braylesford Bunting; and those of Fairfield and Buxton are kindly supplied by Mr. John Brandreth and Mr. G. D. Goodman respectively.

1379100

The thanks of the Subscribers must be accorded to the incumbents of all the parishes for kindly giving permission to print these abstracts.

It should be remembered that previous to 1752 the year was calculated as beginning on the 25th of March, instead of the 1st of January, so that a marriage taking place on say

20th February, 1625, would be on that date in 1626 according to our reckoning; but as the civil and ecclesiastical year were both used, this is sometimes expressed by 20th Feb., 162⁵/₈.

In all cases where the marriage is stated to have taken place by Licence, that fact is recorded, as the searcher thereby knows that further information as to the age, parentage and vocation of the parties is probably recoverable from the Allegations in the Archdeaconry or other office from which the Licence issued.

After 1753 it is to be assumed that all parties not otherwise described are stated to be of the home parish, and bachelor and spinster respectively.

It might be well to remind the reader that these printed abstracts of the Registers are not legal "evidence." For certificates application must be made to the local clergy.

Derbyshire Parish Registers.

Marriages at Chapel=en=le=Frith,

1621 to 1837.

NOTE.—The earliest existing Register at the Parish Church of Chapel-en-le-Frith commences 3rd Dec., 1620. There is no trace or sign of any earlier one.

Volume I. is strongly bound in leather boards, the backs being off and now tied to the book with string. It is in fair condition, though the edges are worn and the leaves stained by damp and age and rather brittle, but, with a few exceptions at the bottoms and lower corners, the writing is legible. The leaves measure 11 $\frac{3}{4}$ in. by 7 $\frac{1}{2}$ in., and the volume contains, in addition to three leaves of rough paper at the front and the like at the back, 220 leaves of strong, thick paper. The Register proper is contained on 198 leaves, the remainder being occupied by lists of the " officers of the Parish both for the Church and King " for the period covered by the Register, and by particulars of collections made on Briefs. At the foot of many pages of the Register appear the names of the minister, churchwardens, and parish clerk.

The Register is headed " Registrum seu liber Registrarm occurrentum omnium in parochiali Ecclesia Capella in le Frith ab anno incarnationis 1620. Guil. Bray tunc temporis ibidem curato." The first entry is on 3rd Dec., 1620; the last on 15th Nov., 1698, and there are about 2,639 Baptisms, 2,982 Burials, and 295 Marriages. One leaf is mutilated, a portion at the bottom which would contain about three entries having been apparently cut out, thus creating gaps between 6th June and 10th August and between 31st October and 5th November, 1680.

A blank page follows an entry on 16th June, 1697, the entry at the top of the next page being dated 5th September. This may have been intended to be filled up later and never completed.

Two instances are noted (30th Sep., 1652 and 4th Nov., 1662) where a marriage is entered out of its proper place and at the top

of a page the remainder of which contains a record of the issue of these marriages, names of god-parents, etc. From other evidence there is no doubt that these entries of marriage are in the handwriting of Mr. Thomas Bowden, of Bowden Hall, with whom in each case the parties were connected.

In several cases there are records of, apparently, the same parties being re-married at intervals of some weeks, but no explanations occur in the Register.

There are a few notes by the churchwardens as to allotments of seats, etc., and from time to time records of copies of the Register and delivery of same to the Archdeacon.

1st June, 1647 to 19th Oct., 1648 is in Latin, in a cramped hand, probably that of the minister, Rev. Robt. Gee; March, 165 $\frac{5}{8}$ to Oct., 1656 is badly and loosely written; June, 1664 to August, 1683 in straggling and untidy hand or hands; Oct., 1687 to March, 169 $\frac{3}{4}$ is in several hands and carelessly kept. The first page is in Latin in the same good hand as the inscription at the head of the Register. April, 1693 to the end is in Latin. The rest of the Register is in fairly good order.

Volume II. commences 10th November, 1696 and ends 14th May, 1745. An interpolated note on page 1, in a dark ink and modern hand, states: "The entries in this Regr. from Nov., 1696 to July, 1697 are copies (as it appears) from the Regr. No. 1, or are rather translations." See note to Volume I.

The book is stoutly bound in leather, the back being rather loose, many of the first 35 leaves being nearly loose, and some quite so; 5 leaves at the end are also loose. Some of the leaves are more or less worn at the edges, and in the middle of the book the ink is a good deal faded, as if by damp. On the whole it is not in such good condition as Volume I.

The Register contains 176 leaves (each 11 $\frac{3}{8}$ in. by 8in.) and 352 pages. Page 100 is blank, and so are even numbers to 250, also 260, 262, 268 to 276 even numbers. No Marriages are entered in these pages, but there are occasional notes as to burial in woollen, etc. and some few entries of Baptisms and Burials. Leaf No. 61 has evidently come loose and has been pasted backwards way, the order of the pages being reversed. On pp. 79-101 is a copy of a Conveyance, dated 22nd July, 1719, from Thomas Bagshaw, of Bakewell, esq., to the Governors of Queen Anne's Bounty of Lands in the parish of Chapel-en-le-Frith for the augmentation of the Benefice. All entries are legible, but the entries in some parts of the latter half of the Register are rather carelessly made.

Volume III. contains Marriage entries from 7th January, 1746 to 12th March, 1754. The book is in good order, but badly kept, and almost undecipherable in some places.

NO. 1 MARRIAGE REGISTER.—This book is labelled on the back “No. 1 Marriage Reg. from 1754 to 1783.” It is well bound in leather and is in good preservation except that the back has been patched. The leaves measure $16\frac{1}{2}$ in. by $11\frac{3}{4}$ in. It is an official book with the printed title “Register of Banns and Marriages . . . pursuant to the form prescribed by an Act of Parliament passed in the 26th year of King George II.,” etc. The title and one or two other pages are loose. The book contains 50 leaves or 100 pages of printed Marriage Register forms, four to a page, and the same number of leaves and pages of Banns five to a page. Following the last page of the Marriage Register a sheet of thin blue paper has been inserted, on which is pasted a written form as to the marriage of James Carrington and Elizabeth Hallam, duly signed by the parties, minister, and witnesses. This is subsequent in date to the last entry in the Register proper.

The Book thus contains 401 entries: the first on 14th May, 1754, numbered 1, the last on 12th January, 1793, numbered 399. The first page is numbered 1, the last 105. The numeration of the pages and entries of marriages has been rather careless. Page 13 is followed by page 19 (both on the same leaf); in the entries the numbers pass from 90 to 100; after 157, 148 to 157 inclusive are repeated; 167 occurs twice; 233 also occurs twice, and 234 is omitted. Entry number 15 (Pott and Burdikin) is out of order and should be 14. A word after “twenty” in this entry appears to have been erased, and the word “second” inserted. The first Banns entry is on 21st April, 1754; the last, 24th June, 1792. In all, 199 entries numbered correctly to 179, then 190 to 209.

NO. 2 MARRIAGE REGISTER.—This is an official book, printed by authority of 26 Geo. II. It is well bound in leather boards and is in good condition. The pages measure 13in. by $9\frac{1}{8}$ in., and about one-third of the book has been used; there is space for four entries on each page. The pagination and numbering of the entries is continued from the previous book, the first page being No. 106 and the last used 348, and the first entry is numbered 400. This numeration is continued to 516, the next entry being 134, and so on to 446. There are actually 575 entries, but the numbers are sometimes duplicated, and several times jump about ten at once. All the forms are filled up, and the book is in good order, but some of the entries are made in slovenly fashion. The first entry is dated 4th March, 1783; the last, 28th Dec., 1812.

NO. 3 MARRIAGE REGISTER.—This Register is a large folio book published by authority of the King’s Printers, and is in good condition. The pages and entries (of which there are three to each page) are numbered in print.

The actual number of entries is 520, and they end at No. 524. Entries Nos. 441, 443, and 444 are blank and are scored through. Entry No. 442 has been partly filled up in error, as is explained by a marginal note signed by the then Perpetual Curate, and is scored through. With these exceptions the book is in good order.

These abstracts have been made by Mr. William Braylesford Bunting, and are now printed under his supervision by permission of the Rev. J. Clifton Stredder, vicar of Chapel-en-le-Frith.

Marriages at Fairfield,

1756 to 1837.

NOTE.—There was a church at Fairfield in the middle of the 13th century, which was rebuilt between 1590 and 1600. The present church was built on the site of the old one in 1839.

The Registers for Baptisms and Burials date from 1738. The earlier registers were, it is said, destroyed by fire. The Marriage Registers do not commence till 1756. These are contained (so far as here published) in three paper volumes, and are very legible. The books are also in fairly good preservation.

Fairfield was an old chapelry of Hope, and it was customary for inhabitants of Fairfield to have the banns published at Fairfield and to have the marriage performed at the mother church. This no doubt accounts for the comparatively small number of marriages which appear in the Fairfield Registers. Contrariwise, Fairfield residents sometimes had the banns published at Hope and were married at Fairfield, and this latter fact is sometimes mentioned in the Registers. It therefore follows that the Hope Registers must also be searched for Fairfield marriages.

The township of Fernilee, also in the parish of Hope, adjoins Fairfield, and it sometimes happens that one or both of the contracting parties reside there and are married at Fairfield: the entry is then sometimes comprehensively put as "both of the parish of Hope"—Fairfield and Fernilee being both in Hope. Fairfield, too, is sometimes called a parish. It would seem, therefore, that some of the parties may not be actually resident in the township of Fairfield, and especially that searches for the marriages of Fernilee residents should be made both at Hope and Fairfield.

These abstracts have been made by Mr. John Brandreth, and are now printed under the supervision and with the permission of the Rev. Joseph Eayrs, Vicar of Fairfield.

Marriages at Buxton,

1718 to 1837.

NOTE.—Buxton was a chapelry in the great parish of Bakewell, but has an independent Marriage Register from the year 1718.

The first Register comprises 13 leaves of parchment, unbound, and fastened together by wire. It contains entries of baptisms, marriages, and burials indiscriminately from 1718 to 1751, and of baptisms and burials from 1751 to 1766. The reverse is headed "Marriages at Buxton," and contains marriages from 1756 to 1771.

The second Register is of parchment, bound in folio, and is headed "Buxton, Derbyshire. Baptisms, 1767-1812. Burials, 1767-1785." Many parchment leaves have been cut out, but only in the unused portion of the book, and this was probably done so that the first loose Register might be inserted for better custody.

The third volume is a folio of paper leaves, containing Marriages 1786-1812, Births and Christenings 1786-1803, and Burials 1787-1812. The portion for Marriages contains 27 used pages, with four entries on a page, on printed forms.

Volume IV. contains Marriages from 1813 to 1837.

These abstracts have been made by Mr. G. D. Goodman, and are now printed under his supervision by permission of the Rev. Canon C. E. Scott-Moncrieff, D.D., Vicar of Buxton.

Marriages at Repton,

1578 to 1837.

NOTES.—VOLUME I. (1578 to 1629).—This is the oldest register of Baptisms, Marriages, and Burials of the parish of Repton and the chapelries of Ingleby, Foremark, and Bretby, also the hamlets of Milton and Southwood, and extends from the time of Queen Elizabeth to that of King Charles I. It is a small folio of parchment, 13in. by 6in., and contains 45 leaves stitched in a very dilapidated and torn parchment cover. Some of the leaves are loose, and are very stained and worn. The writing in many places is of an exceedingly good character, but so faint that it is frequently quite illegible. The entries are mixed and written in English, with the exception of a few Christian names in Latin. The volume is divided into two portions, the first 33 leaves being presumably the entries for Repton parish. There is no heading to the first page, the first five leaves being loose, neither is any year recorded till about the end of the first page, when the date 1580 is given; but by tracing the months backwards it would appear to have commenced in 1578. It is presumable, therefore, that the register began at an earlier date than this, and leaves have been lost. There is also a *hiatus* between the present pages 8 and 9, as there are no entries recorded after 1585 until 1591, and therefore it is likely that some more leaves have been lost. The register is very irregularly kept between 1617 and 1628. The second portion commences on the 67th page, and is headed, "Here followeth the Register for Ingleby, Fornemark and Bretbye." Throughout the register are marginal notes referring to the various villages from whence the parties came, which have been recorded in this transcript. In some cases it has been difficult to know to which entry the note referred, and in the cases of Marriages whether it referred to both parties or only one. Both portions of the register down to 1602 are not original, but only transcripts, and it is interesting to note that the first portion includes many references to persons from Ingleby, etc., whilst in the second portion many Repton families are entered, *e.g.*, the schoolmasters, etc.; yet both registers commence about the same period.

VOLUME II. (1629 to 1655) is a coverless register of 18 leaves. 9in. by 5in., on parchment. The first page had only a few scattered readings on it, and some of the pages are very discoloured.

The entries are mixed down to the year 1648, when the register commences with Christenings, followed by Burials, and again by Christenings. It will be noticed that after 1647 there are no Marriages recorded in this volume, and the gap is continued in the next volume until 1659. The writing on the whole is good. The leaves in two places in this register have been wrongly stitched together at some time, viz., pages 7 and 8, which are really pages 9 and 10; whilst pages 33 and 34 are pages 36 and 35 in the original. In this transcript they are given in chronological order. The two last leaves have been torn across, but this does not prevent the writing from being decipherable.

VOLUME III. (1655 to 1670) is on parchment, and consists of 26 leaves, size $11\frac{1}{2}$ in. by $5\frac{1}{2}$ in., bound in thin parchment cover. The entries are kept separately, and they are arranged as follows: Baptisms, 1655 to 1668; Marriages, 1659 to 1669; Burials, 1655 to 1670; Baptisms, 1668 to 1670; Collections. Some of the pages are loose, and a number have been cut out, perhaps because they were blank, as no entries appear to be missing. The register on the whole is well kept, and the writing very clear and good, though some of the pages are very discoloured and the writing faint.

A complete transcript of the whole of the above three volumes, 1578 to 1670, was made by Mr. Simpson and privately printed in 1913.

VOLUME IV. (1665-1812) is a long folio volume, 21 in. by $8\frac{3}{4}$ in., and is loosely stitched in boards covered with vellum, in a very wrinkled and dilapidated condition, many of the leaves being loose and much damaged, the edges being frayed both at the sides and bottom. It consists of 80 leaves, 42 of which are occupied by Baptisms from 1665 to 1810; four leaves with Marriages, 1670 to 1753; and thirty-four with Burials, 1671 to 1812. The writing in the early portion is beautifully neat, but very small, and the lines close together, in some pages there being between 80 and 90 entries; later on the writing is very scrawly, larger, and indifferent. Many entries are crossed through. The Burials are entered at the reverse end of the volume. The first page is very faint, and the last one is torn, and only about one-third of it left. It contains a clause of the will of the Rev. W. Hunt, 1736, leaving a legacy to the poor of Repton.

VOLUME V. (1757 to 1778) is the usual printed Marriage Register Book, with Banns and Marriages combined on each form, of which there are four on each page. The register is on paper, and is stitched in a paper cover, some of the leaves being loose; in fact, the first leaf has been lost, and eight Marriages, 1754-5-6, are missing. This volume contains 262 Marriages.

VOLUME VI. (1779 to 1812), like the last, is printed on paper, with thin brown paper cover. There are four entry forms on each page, and it contains 354 Marriages.

VOLUME VII. (1813 to 1837) is the same as the last, on paper, but with three entry forms on each page, and contains 368 Marriages. It is bound in stiff vellum.

These entries have been extracted from the registers by Mr. Llewellyn Lloyd Simpson, assisted by Mr. E. B. Smith, of Derby, and are now printed by the kind permission of the Rev. S. J. Selwyn, M.A., Vicar of Repton.
