COMPILER'S PREFACE.

After the lapse of more than a century, the difficulty of compiling a Roster of Georgia troops in the Revolution can be readily imagined. Much of the information which an earlier period might have furnished is now unhappily beyond our reach. Many important records have been lost. To compile an exhaustive roster, therefore, is humanly impossible. The utmost at which we can aim is an approximate degree of accuracy, within the limits of meager details; and to place before the public all the data which, at this late hour, can be obtained from official sources.

Georgia did not furnish a large body of troops to the Revolutionary struggle. She was the youngest of the English colonies, and, with only a scant population, was situated on the remote southern frontier. Nevertheless, the Georgia contingent gave a good account of itself, whether in the Continental Army or in the Home Guard, whether in overthrowing Toryism or in expelling British Regulars.

At the close of hostilities with England, she rewarded her brave defenders with substantial grants of land. To encourage the rapid settlement of her territory, by the best class of immigrants, she offered handsome inducements to the veterans of independence; and thousands, availing themselves of this offer, took the mountain trails which led to Georgia. Two large counties—Franklin and Washington—carved out of lands, then recently acquired from the Indians, were subdivided among the new comers, a large percentage of whom were soldiers from other States—compatriots and comrades-in-arms of the great Washington. The grants made to these soldiers were called bounties. Thus it came to pass that, while the contributions of Georgia to the army of independence were numerically small, she acquired a vast body of veterans who here found permanent homes; and today there is hardly a State in the Union whose soil is richer in Revolutionary dust.

The earlier land grants were in the nature of Head-Rights. These in time were superceded by grants made under the old Lottery System. Elsewhere, in an article written by the late Secretary of State, Hon. Philip Cook, the differences between the two methods of distributing land, are fully explained. Records still exist in the Capitol showing, in many instances at least, to whom these lands were deeded. Certificates from superior officers attesting the fidelity of men under them are still preserved; and from sources of information like these the roster has been obtained. Other helpful sources have been the Pension Rolls of the United States Government, the records of the Federal War Department, and the reports of the Smithsonian Institution. It is the aim of this roster to include within its survey not only all Georgians who enlisted in the struggle for independence, during the seven years of its continuance, but also all soldiers from other States who settled in Georgia subsequent thereto.

Too much credit, in the preparation of this work, cannot be given to help received from others. The Compiler, in this public way and at the very fore-

front of this volume, wishes to acknowledge his indebtedness to Miss Helen M. Prescott, of Atlanta, official genealogist for the Joseph Habersham chapter, Daughters of the American Revolution. The researches made by Miss Prescott, in this particular field of investigation, have been of priceless value, especially since the materials gathered by her, at great personal labor and expense, have been placed freely at the disposal of the State; and she is entitled, therefore, to the gratitude of all Georgians. Scarcely less, either in value or amount, has been the service to history rendered by Mr. Wm. L. Le Conte, of Atlanta, in digesting for convenient reference the voluminous records of the State Department. With this preliminary statement, we present the Roster. Errors there must be; but many of these, if not all, will be corrected in subsequent editions.

LETTER FROM SECRETARY KNOX, OF THE UNITED STATES WAR DEPARTMENT, SHOWING THE NUMBER OF GEOR- GIA TROOPS ENLISTED, STATE AND CONTINENTAL.

Extract from "American State Papers, Military Affairs, 1st Congress, 2d Session"; Vol. I, pp. 14 to 19:

"War Office of the United States, May 10, 1790.

"In obedience to the order of the House of Representatives, the Secretary of War submits the statement hereunto annexed, of the troops and militia furnished, from time to time, by the several States, toward the support of the late war. The numbers of the Regular Troops having been stated from the official returns, deposited in the War Office, may be depended on; and in all cases where the numbers of militia are stated from the returns, the same confidence may be observed.

"But, in some years of the greatest exertions of the Southern States, there are no returns whatever of the militia employed. In this case, recourse has been had to the letters of the commanding officer, and to well-informed individuals, in order to form a proper estimate of the numbers of the militia in service, and although the accuracy of the estimate can not be relied on, yet it is the best information which the Secretary of War can at present obtain.

"(Signed) H. KNOX, Sec. of War."

A statement of the number of non-commissioned officers and privates of the Regular Troops and militia furnished by the several States from time to time, for the support of the late war:

Georgia. From actual army returns.		Conjectural estimate of militia employed in addition to preceding.
1775.	00	1,000 militia, to serve 9 months.
1776.	351 in Continental pay.	{ 750 militia. 1,200 State troops.
1777.	*1423 Continentals.	
1778.	673 Continental troops.	{ 2,000 militia, to serve 6 months. 1,200 State troops.
1779.	87 men.	
1780.	00	750 militia.
1781.	00	750 militia.
1782.	00	750 militia.
1783.	145 Continentals.

*By the resolve of the 15th of July, 1776, Georgia was authorized to raise in Virginia, North and South Carolina, two regiments of infantry, and also two companies of artillery, of fifty men each. These troops were chiefly enlisted for one year, and the time expired in 1777.

The army in the Northern Department was discharged November 5, 1783, and in the Southern States on November 15, 1783.

OFFICERS OF THE GEORGIA BATTALION.**FEB. 16, 1776.**

(White's Historical Collections of Georgia, p. 94.)

In Provincial Congress, Savannah,
Feb. 10, 1776.

Province of Georgia:

Whereas a battalion upon the Continental establishment is now raising in this Province; and whereas doubts may arise how far the same is subject to the control of the Provincial civil power: Now, therefore, be it known, and we, the several subscribers, officers bearing commissions in the same battalion, do hereby declare that we hold ourselves and the non-commissioned officers and privates, also others belonging to the said battalion, subject and subservient to such supreme and civil power of this Province as are or shall be erected for the purpose of defending our rights and liberties.

And further, we bound ourselves upon the words of soldiers and men of honour, at all times to obey and carry into effect, as far as in us lies, the orders and commands of the present or any future Congress or Council of Safety of this Province as the same shall, from time to time, be issued by us.

Provided, nevertheless, That the same do not contradict or interfere with the orders or directions of the General Congress, or a committee thereof, or any General or other officer by them appointed over us.

In witness whereof, we have hereunto set our names, together with the rank and date of our commissions opposite thereto.

LETTER FROM COLONEL LACHLAN McINTOSH TO GENERAL WASHINGTON.

(White's Historical Collections of Georgia, pp. 92-93.)

Savannah, in Georgia, Feb. 16, 1776.

Sir,—My country having honoured me with the command of the Continental Battalion ordered to be raised by the General Congress for the protection and defence of this Colony (though I fear too partial to my poor abilities,) it becomes my duty to inform your Excellency of the state of our Province, as far as it concerns the service, as well as of the troops to be immediately under my command.

Our Province has a front along the sea-coast of above one hundred miles, covered by a range of islands, divided from each other by eight rivers from the mainland, which make as many good inlets and harbours, most of them capable of receiving any frigate, and, as some say, much larger ships. Our settlements extend back to the northwest above two hundred miles, in other parts to the southward not above ten, and very thinly inhabited; indeed, this large space of land, altogether, has not more than three thousand men, chiefly in the back country, and many disaffected and doubtful in our cause, especially the men of the greatest property among us. Our slaves will be above fifteen thousand souls, mostly within twenty miles of the sea-coast, and make above thirty-five thousand tierces of rice annually, besides many other articles of provision, which, with our fine harbours, make the security of this colony, though weak itself, of the utmost consequence to the whole continent of America; and we have every reason to think our enemies intend to make it a place of general rendezvous and supplies.

We are bounded south by the garrisoned Province of East Florida, who have now, as I am well informed, five hundred regulars in St. Augustine, and one thousand more expected there daily from Europe. On the west of us is the Province of West Florida, the numerous nations of the Creek, Choctaw, and Cherokee Indians, besides lesser tribes, supposed to have at least ten thousand gunmen, brave, intrepid, and eager for war, whom we will have the utmost difficulty to keep at peace with us, as we want every article of their usual supply, and now furnish them in great plenty from the two Floridas. Our metropolis is situated in the south corner of the Province, upon a bluff, or sand-hill, thirty feet high or more above the water, and fifteen miles up the river Savannah, from the inlet of Tybee, where five ships of war, the Syren, the Scarborough, the Raven, the Tamar, and Cherokee, besides tenders, are now lying, and two large transports, having it is said, above three hundred men on board, and expecting more in daily, with what design, whether for this Colony or Carolina, or both together, we are not yet informed. Our Province has declared itself in a state of alarm, and resolved not to supply the men of war with provisions, and ordered a draft of half the militia to the town of Savannah to oppose the landing of troops.

Our Provincial Congress having accepted the battalion ordered for their protection and defence, chose the officers the 29th and 30th ultimo, (a return of whom shall accompany this,) and made them sign the enclosed test before their commissions were delivered; and I have this day issued general orders for recruiting, which has been hitherto prevented by many obstacles in providing money for that and other necessary service, and I fear will yet be attended with some difficulty. We expect very few in our own Province; that of South Carolina is said to be already drained of such people as will enlist, by their Provincial regiments, besides their bounty, subsistence, &c., are so much better than ours.

Therefore, I expect we must have recourse, distant as it is, to North Carolina, with this additional disadvantage, that our currency passes in no other colony than our own, and we have received very little Continental money as yet.

I have received no kind of orders or instructions from the General Congress or your Excellency; nor have I yet been able to obtain even a copy of the American articles of war, which makes me at a loss how to act in many cases; therefore I shall wish any orders or directions your Excellency will please to send me, to be as full and frequent as possible; also to be informed how far we are under the control of the Provincial Congress, &c., of this or any other Province where we are upon duty, and what rank we hold when acting with militia or Provincial troops.

I shall take the liberty of appointing surgeons to the battalion, which are so indispensably necessary, that I suppose the neglect of not naming any must be owing to our delegates; and also to make Capt. Colson's a rifle company, when raised, which I think will be useful, and hope will meet with your Excellency's approbation; and I doubt not but we will be obliged to arm more with such guns, for want of others, which are very scarce.

I have the honour to be your Excellency's

Most obedient and most humble servant,

LACHLAN McINTOSH.

To his Excellency, George Washington, Esq.,

Commander-in-Chief of the American Forces.

LETTER FROM COLONEL LACHLAN McINTOSH TO GENERAL WASHINGTON.

(White's Historical Collections of Georgia, pp. 95-96.)

Savannah, in Georgia, April 28, 1776.

Sir:—I wrote to your Excellency the 16th of February and 8th of March, to which please to be referred; and now enclose you a report of our battalion made to me this day; which I deferred sending to you before, in expectation of our officers coming in with all their recruits, but the distance they were obliged to go rendered it impossible. I am informed that Captain Colson is on his way, with his Company, nearly complete; and with the other recruiting officers, may make above 70 or 80 men more than the report; and is altogether above half the complement of the battalion, which is more than the oldest battalion in South Carolina can boast of yet, though near twelve months standing, and their encouragements so much greater, their bounty being 25 pounds South Carolina currency, with the like sum for clothes, besides their rations and pay, which are also better than ours. And if the ease in which the poorest people generally live in the Southern Colonies, and the prejudice they have to any regular service on account of the restraint that any thing of a strict discipline requires, are considered, I flatter myself your Excellency will think we have not been idle. The chief of the men are enlisted for 12 months; some for 18; and a few who would not engage for more than 6 months, whom I have admitted, as I had not directions about the time, and I could not tell how soon we might have occasion for them. Our Province allows six dollars per man, enlisting money; and upon application have raised it now to eight dollars, which is still too little for the bounty of the men and expense of the officers, whose pay is so small, that they can barely afford to live in an extravagant country like this, where there are no kinds of manufactures, and the small remains of goods advanced to two or three hundred per cent. Indeed, I fear we shall be at the greatest loss to make out clothing of any kind for them, or what is far worse, proper arms. The officers who are not recruiting employ all their time in training themselves and the battalion; on which spectators are pleased to pay high compliments for the proficiency they had already made, and the appearance of the men. The Raven and the Cherokee are the only two ships of war which remains now stationed at Tybee in the mouth of the Savannah River, with whom we have no kind of communication.

Several armed vessels infest our other inlets to the southward, and have made several captures, which we cannot prevent, as we have not a single vessel of any force; but they have already been driven off the shore when they attempted to get a supply of provisions. We are informed there are 2,000 men now in St. Augustine lately arrived, and that they expect more daily; but this wants confirmation, as I think, in that poor starved colony, they must be much pinched for provisions. This Province is now raising a

troop of sixty horse to prevent their getting any cattle from our Southern boundary, and another troop of a like number, to protect our Western settlements from the insults of Indians, who are like to be troublesome; all things considered, I certainly think this Colony should have a considerable force to defend and secure it, as its safety is of the utmost consequence to the great cause of the Continent. The troops of our neighbouring Province are all upon Provincial establishment, and at a distance; therefore their assistance may depend upon many circumstances.

I have the honour to be

Your Excellency's most obedient and humble servant,

LACHLAN McINTOSH.

To His Excellency, George Washington, Esqr., }
General and Commander-in-Chief. }

E.*

Beginning with the letter "E." the remaining part of this list is the work of Mr. Wm. L. LeConte, of Atlanta, one of the most careful of investigators. It is all based upon actual certificates of service, on file in the office of Secretary of State.

Mr. LeConte was born December 28th, 1838, in Liberty County, Ga. His paternal stock was French Huguenot. Guillaume LeConte, his ancestor, came to America in 1698, after fifteen years' service in the armies of William of Orange. The family settled in St. John's Parish—now Liberty County—Georgia, in 1760. His father, William LeConte, was the elder brother of the distinguished scientists, John and Joseph LeConte.

His mother was Sarah A. Nisbet, of a Scotch-Irish family which settled in North Carolina, about 1750. His great-grandfather, John Nisbet, was a member of the first Constitutional Convention of North Carolina; his grandfather, Dr. James Nisbet, helped make the Georgia Constitution of 1798, and his uncle, Eugenius A. Nisbet, was a member of Congress, a Supreme Court justice, and a delegate to the Secession Convention. He also wrote the Ordinance of Secession, which separated Georgia from the Union.

Mr. LeConte was born in Liberty County, but on the death of his father, the family removed to Macon, where he grew up. He was educated at Franklin College (now the U. of G.), and Oglethorpe, receiving his A.B. degree from the latter in 1858.

He served through the late war, coming out as Adjutant of the 66th Georgia Regiment. He married, in 1866, Miss Virginia Trimble, of which union there were two sons, James A. and the late Dr. J. N. LeConte.

MERCER, REV. SILAS. This is to certify that the Rev. Silas Mercer, in the beginning of these times, was very active and useful in convincing the people of the justice of the cause of America, and after the British took possession of Savannah he spent much of his time in preaching to the armies, and obtained an excellent recommendation from Colonel Hammond to General Lincoln in order that he might preach to his army, and as he was on his way to Purisburg he came to Burke Jail to preach to my regiment and was there in the time of a very warm engagement, and behaved himself exceedingly well in time of the action, and soon afterward he left the State at the expense of the chief of his property, rather than surrender to the British Government: and I have been creditably informed that he has behaved himself honorably during his absence, and has spent much of his time in preaching to armies, and has at all times supported the character of a good Whigg. Therefore, I believe he is entitled to as much land as any gentleman of his rank. Benjamin Few, Col. Richmond Co., Daniel Coleman, Zacheus Fenn. Granted 650 acres as a refugee chaplain, with rank of Major, Feb. 24, 1784. Warrant 875.

EXPLANATORY.**HEAD-RIGHTS AND LOTTERY LAND GRANTS OF GEORGIA.**

There are two characters of land in this State; one known as Head-Rights, the other as Lottery Lands.

All of that territory of the State lying west of the Savannah River, and extending to the Apalachie and Oconee rivers, and also all lands east of original Wayne County, extending to the Atlantic Ocean, are known as Head-Right Lands. Grants to the same were first issued by the Trustees of the Colony of Georgia, under and by authority of King George the Third, of England; also by John Reynolds, Henry Ellis and James Wright, Governors of the Colony, under and by same authority.

During Henry Ellis' administration as Governor of the Colony, there was a good deal of dispute about the titles made by the Lord proprietors of Carolina, who claimed a considerable territory of the Colony of Georgia. He caused the following Act to be passed:

"An Act for establishing and confirming the titles of the several inhabitants of this Province to their respective lands and tenements.

"Forasmuch as many suits and contests may arise by means of pretended ancient titles to lands and tenements derived from and under the late Lord proprietors of Carolina, the conditions of which titles have not been complied with, and the lands have since been re-granted, for remedy and prevention thereof,

"Be it enacted, That all and every person or persons, that are now possessed of, or do hold any lands or tenements whatsoever within the said Province of Georgia, by and under grants from the late Honorable Trustees for establishing the Colony of Georgia, or by and under grants from his Majesty, obtained since the surrender of his charter of the said Trustees, are hereby established and confirmed in the possession of their several and respective lands and tenements; and such grants thereof are hereby accordingly ratified and confirmed, and declared to be good and valid to all intents and purposes whatsoever, against all, and all manner of persons claiming any estate or interest therein, by and under the said Lords proprietors of Carolina, or by or under any former grants obtained before the date of his Majesty's charter to said Trustees for establishing the Colony of Georgia, any Act, law or statute to the contrary notwithstanding.

"By order of the Upper House:

"PATRICK HOUSTON.

"By order of the Common House:

"DAVID MONTAIGUT, Speaker.

"Council Chamber, 24th September, 1759.

"Assented to, HENRY ELLIS."

This Head-Right territory, extending from Camden County to the south line of Wilkes County, was divided up during the Colonial period of Georgia, into parishes, viz.: Christ Church, St. Andrew, St. David, St. George, St. James,

St. John, St. Mary, St. Mathew, St. Patrick, St. Paul, St. Philip, and St. Thomas. After our independence the parishes were abolished and the territory divided up into counties.

There was passed at Savannah on the 7th day of June, 1777, "An Act for opening a land office, and for the better settling and strengthening this State." Under this Act every free white person, or head of a family, was entitled to two hundred acres of land, and for every other white person of same family, fifty acres of land, and fifty acres for every negro owned by said family, not to exceed ten.

This Act has been amended several times by the General Assembly, so any person, resident of the State, could head-right and have granted him, not exceeding one thousand acres of land (unless by special act of the Legislature).

The bounties of the Revolutionary soldiers were paid for their services in this Head-Right territory; most of them in the counties of Washington and Franklin.

An Act passed August 20th, 1781, entitled, "An Act to amend the several Acts for the better regulation of the militia of this State." Section 8 reads as follows: "And, Whereas, numbers of persons are daily absenting themselves and leaving their fellow citizens to encounter the difficulties of the present crisis, Be it enacted, etc., That any person or persons who shall produce a certificate from the commanding officer of the district to which he belongs, to the Legislature (on the total expulsion of the enemy from it), of his having steadfastly done his duty from the time of passing this Act, shall be entitled to two hundred and fifty acres of good land (which shall be exempt from taxes for the space of ten years thereafter); Provided, such person or persons can not be convicted of plundering or distressing the country."

Also, "An Act for opening the land office, and for other purposes therein mentioned," passed 17th February, 1783. Section 2, "Be it therefore enacted, That in case any officer or soldier or other person, claiming under such engagements as aforesaid, shall produce a certificate from his Honor the Governor, for the time being, that a tract of land is, or are due to him, that then such officer, soldier or other person, shall be entitled to a warrant and grant for any unlocated lands (agreeable to the quantity contained in his certificate) within this State."

Section 14 (same Act), "All the officers and soldiers, all the officers and marines of the navy, officers of the medical department, refugees and citizens, who are entitled to land in this State, as bounties for their service, in manner as above mentioned, shall be entitled to have included in their grants an additional quantity of fifteen acres to each hundred acres in full for and in lieu of any exemption of taxes. And every Act, and clause of an Act, allowing such exemption from taxation, shall be, and the same is hereby repealed, and declared null and void, anything to the contrary notwithstanding."

All soldiers were entitled to 250 acres of good land, free of taxes, for ten years. Under the above section he could have granted him 15 per cent more land, making 287½ acres, and commence to pay taxes on same.

Section 2 of the Act of February 17th, 1783, was amended so all officers, soldiers, seamen, etc., could present their certificates of service from their

commanding officer to the land court, at Augusta, Georgia, instead of to the Governor. Section 9 of an Act passed February 22, 1785, reads as follows: "Be it therefore enacted by authority aforesaid, That in future, all and every person or persons whatsoever, who conceive himself and themselves entitled to a bounty, shall lay his or their vouchers or credentials before the said Land Court, where they apply for the same; on a full consideration of all circumstances respecting the petitioner, either grant or reject the application, as coming or not coming within the scope and intention of the several laws of this State for granting bounties, and as no surveys of land due as bounties from this State shall be allowed, unless brought in and claimed within one year from and after the passing of this Act."

The above Act in regard to bounties was amended by subsequent legislation, relieving bounty warrants of being returned within the period of one year, but declaring bounty warrants never out of date.

But an Act passed December 10th, 1818, entitled, "An Act to limit the time for persons to take out their grants in this State so far as relates to land surveyed on Head-Rights and bounty warrants." Section 2 (of said Act) reads as follows: "The time hereafter to be allowed to persons who may hereafter have any land surveyed in this State, on Head-Right or bounty, shall be three years from the time of making such survey; and in case of failure of neglect to take out the grant, it shall revert and become the property of the State, and be subject to be surveyed and granted to any person or persons, who are hereby authorized to survey the same; Provided, nevertheless, that nothing herein contained shall be so construed as to operate against or prejudice the claim of any orphan or orphans."

This Head-Right territory of the State consists now of thirty-five (35) counties, viz.: Bryan, Bulloch, Burke, Camden, Chatham, Clarke, Columbia, Effingham, Elbert, Emanuel, Franklin, Glascock, Glynn, Greene, Hancock, Hart, Jackson, Jefferson, Johnson, half of Laurens, Liberty, Lincoln, Madison, McDuffie, McIntosh, half of Montgomery, Oconee, Oglethorpe, Richmond, Screven, Taliaferro, Tattnall, Warren, Washington and Wilkes.

LOTTERY LANDS.

There were five different lotteries of land authorized by the General Assembly of the State, viz.: 1805, 1820, 1821, 1827 and 1831.

All that territory of the State situated between the Oconee and Ocmulgee rivers was first purchased from the Indians and disposed of by lottery in 1805. In this lottery every white man, widow and orphan, resident of this State, was entitled to one draw, and every Revolutionary soldier was entitled to two draws. This territory at the time of survey, was covered by only two original counties—Baldwin and Wilkinson.

It was divided into districts, and each district numbered, each district was sub-divided into land lots, and each land lot numbered and contained 202½ acres each, except fractional parts of lots occurring on the rivers.

This territory is now divided up into thirteen (13) different counties, viz.: Baldwin, part of Bibb, Dodge, Jasper, Jones, Laurens, half of Montgomery, Morgan, three-fourths of Pulaski, Putnam, Telfair, Twiggs and Wilkinson.

All that territory of the State lying south of the Altamaha River to the Florida line and west of said river to the Chattahoochee river, after purchase from the Indians, was also divided into districts, and each district sub-divided into land lots. The land lots of original Appling and Irwin contain 490 acres each, and land lots of original Early contain 250 acres each. These lands were disposed of by lottery in 1820. This territory was covered by only three original counties at the time of survey and lottery, viz.: original Appling, Early and Irwin—divided since into twenty-four counties, viz.: Appling, one-fourth of Charlton, Clinch, Coffee, Echols, Pierce, Ware, three-fourths Wayne, Berrien, Brooks, Colquitt, Irwin, Lowndes, one-half of Thomas, three-fourths of Wilcox, three-fourths of Worth, Baker, Calhoun, part of Clay, Decatur, Dougherty, Early, Miller, and Mitchell.

The land lots of original Gwinnett, Hall, Rabun and Walton, of 202½ acres each, were also disposed of by lottery in 1820.

All the territory of the State lying north of original Irwin extending from Ocmulgee River west to the Flint River, after purchase from the Indians, was laid out into districts, and each district sub-divided into land lots of 202½ acres and disposed of by lottery in 1821.

At the time of lottery this territory was covered by only five counties; original Dooly, Houston, Monroe, Henry, and Fayette. Since that date it has been divided up into twenty-one different counties, viz.: Dooly, one-fourth of Fulaski, one-fourth Wilcox, one-half Worth, one-half Bibb, Crawford, Houston, one-fourth Macon, one-fourth Butts, Monroe, Pike, one-half Spalding, Upson, Clayton, DeKalb, Fayette, part of Fulton, Henry, Newton, Rockdale and Campbell counties.

All that territory of the State north of original Early county and lying between the Flint and Chattahoochee Rivers, composing the five original counties of Lee, Muscogee, Troup, Coweta, and Carroll, after purchase from the Indians, was also divided into districts and each district sub-divided into land lots of 202½ acres and disposed of by lottery in 1827. This territory, since the lottery, has been divided up into twenty-two different counties, viz.: part Clay, Lee, part Macon, Quitman, Randolph, part Schley, Stewart, Sumter, Terrell, Webster, three-fourths Chattahoochee, part Harris, Marion, Muscogee, Talbot, Taylor, part Heard, Meriwether, Troup, Coweta, Carroll, part Douglas, and three-fourths Haralson counties.

The remaining territory of the State lying north of the Chattahoochee river, bounded on the west by the State of Alabama and north by the States of Tennessee and North Carolina, is known as the "Cherokee Purchase." After purchase from the Cherokee Tribe of Indians it was laid out into sections, numbers 1, 2, 3, 4. These sections were sub-divided into districts, nine miles square, and each district sub-divided into square land lots of forty, and one hundred and sixty acres each. At the time of survey the forty-acre lots were supposed to contain gold and are known as "gold lots." The one hundred and sixty acre-lots are known as "land lots."

The "Cherokee Purchase" is now covered by twenty-three different counties, viz.: Bartow, Catoosa, Chattooga, Cherokee, Cobb, Dade, Dawson, part Douglas, Floyd, Forsyth, Gilmer, Gordan, part Haralson, Lumpkin, Milton, Murray, Pauling, Pickens, Polk, Towns, Union, Walker, and Whitfield counties.

Grants to a great many lots in the different lotteries were not taken out by the fortunate drawers, although the State extended the time by appropriate legislation several times, and the land lots finally reverted to the State by Acts of the General Assembly of Georgia.

These lots were then sold to different parties and regranted.

**LIST OF REVOLUTIONARY SOLDIERS FROM WILKES COUNTY, GEORGIA,
 AS TAKEN FROM LAND LOTTERY RECORDS.**

On the Land Lottery Records of Wilkes County, Georgia, Court of Ordinary, the names in this list are designated as those of "Revolutionary Soldiers." In some instances, the names of the widows of Revolutionary soldiers having been given, these were traced through the Deed Records, in office of Clerk of Superior Court, in this way, the names of the husbands of such widows having been reliably established.

While the list is not complete, it is correct thus far.

B. F. JOHNSON.

Office Secretary of State,

Atlanta, Ga., Oct. 17, 1902.

I hereby certify that the thirteen pages hereto contain the names of Revolutionary soldiers appearing twice in the first list of Revolutionary soldiers furnished the Atlanta and Piedmont Continental Chapters, under the direction of Mrs. William Lawson Peel.

Given under my hand and official seal this 17th October, 1902.

PHILIP COOK, Sec. of State.

THE HARVEY LIST.

Miss Margaret B. Harvey's alphabetical list of Georgia Revolutionary Soldiers, of all ranks and names, including Continentals, Militia, Provincials, Minute Men, Rangers, Partisans, Mariners, Sons of Liberty, Independents, etc. Published as Appendix F, in the Third Annual Report of the National Society, D. A. R., to the Smithsonian Institution. Senate Documents, Volume 16, Number 219, Fifty-sixth Congress, Second Session, 1900-1901, pp. 369-393.

NOTE.—The following list contained, when presented, nearly 300 more names than are in it now. Names which were in all respects identical with some in Appendix E (see Certified List Number 1) were eliminated to save space. Many names, however, which occurred in the first list without titles have been retained here, because of the added titles which facilitate identification.

The above list has been compiled from a great number of shorter ones. No doubt it contains numerous repetitions, but these were unavoidable. Two names nearly alike may refer to the same man, but it is not always possible to determine which of two forms was the correct one, hence the spelling has not been altered in any case; but the mere fact that two names are nearly alike is not sufficient evidence that they belong to the same individual. For instance, it is known that "James Aitkin," "James Akens," and "James Akins," were three different persons.

In some instances the first name was not given. Wherever it was possible to add a title as means of identification, this has been done.

It is quite a common occurrence to find a record of two or more men bearing the same name. Names repeated and intended for different persons are marked with figures or indicated by titles.

About half the names in the foregoing list are those of officers and eminent patriots. Unfortunately, it is not always possible to find the records of private and humble heroes who risked their lives and served their country just as faithfully as their better known contemporaries. But even if these records were immediately available, and the list extended so as to include all who actually fought for freedom in Georgia during the whole Revolutionary period, there would still be an undue proportion of officers. No regiment ever included the whole number of privates called for; and, in those days of irregular warfare, it was quite common for one officer to start out upon an independent expedition with less than twenty men under him.

Companies were hurriedly formed as occasion demanded, and frequently disbanded as soon as an emergency was past.

Civil officers as well as military actually bore arms. They were obliged to do so in order to defend their homes and families. During the whole period of British occupancy the various legislative bodies fled from place to place and skirmished with English and Tories in order to keep up the form of republican government.

It is confidently believed that the foregoing list contains no doubtful names. All, except a very few, were repeated a number of times. Every list examined was largely a repetition of others, thus rendering the process of gathering new names exceedingly slow, but at the same time tending to establish the authenticity of all. In a list of ten names one might be new, but that new name was likely to come up again with twenty old ones.

The above names were gathered from the following:
