Our Population.

The impression prevails generally that Newspaper and Directory publishers invariably claim a greater population for their cities than they really contain, and little reliance is placed upon their figures, regardless of the care, expense and experience employed in attaining them. In order to demonstrate to fair-minded people the fallacy and absurdity of such ideas as "watering" the population, the following brief details are given to show how the approximation is made from the Directory for the population of this city:

The number of names contained in the alphabetization is 17,342. Of this number, five per cent. is deducted for the names of corporations, firms, and other paragraphs not referring to individuals, which leaves 16,425. These figures represent the population over 18 years of age, except married women who are not engaged in mercantile or professional pursuits; these are estimated at 52 per cent. (which is the lowest on record)—8,240—making a total of 24,765. This gives what is known as the adult population.

To this is added the official enrollment for the public schools, 11,550, and for children under school age, approximated at one-third the number of the former, 3,850; a total of 15,400 under 18 years of age, and a grand total population of 40,165.

Another system for approximating the population of a city is to multiply the number of actual names in the directory by two and one-half, and by three in older communities. There being 16,425 names enumerated, it would show the population to be 41,068 at the minimum rate.

This system, however, is not now considered accurate, as women have of late years largely added to the mercantile and professional classes.

Practically the same results are attained by approximations made from the number of voters registered by the commissioner of elections during the past year.

For directory purposes, the canvass for names is extended beyond the corporate limits of the city, and consequently the population of these districts is included in the figures given above.

SAM RADGES, Publisher.

To the Patrons of the Directory.

IN presenting the new publication to an interested public, I want to say, *don't expect infallibility in a Directory*, because you will never find it; and there are a hundred or more good reasons why it can't be, although every human effort and the experience of a lifetime are exerted in its compilation and construction.

Of all known books, the Directory stands alone in being without an author; a silent yet eloquent proof of a city's growth and progress, or of its retrogression and decay. Errors may and must occur upon its pages, but the publisher should not be too severely criticised, for the fault is due, not so much to him as to the indifference or ignorance of those from whom information is obtained. Some person in each office, store or residence is the responsible author of the information gathered there, and just so far the accuracy of the work depends upon them; and few realize the importance of absolute accuracy. Some, from fear that it may affect taxes or other personal interests, are reticent, and there are instances where they peremptorily refuse to give names. There is no arbitrary or imperative rule for spelling or pronouncing names, and it should not be supposed or expected that the thousands that fill the pages of a Directory are all copied from the family Bible, or that each person can be compelled to write his or her name; and it is likely that either of these methods would produce far worse results than is shown by the average reference book. As an illustration: There are over a thousand clerks employed in the A. T. & S. F. offices in this city, quite as well educated and far more familiar with the use of a pen than the majority of people. Each of these is provided with a printed blank asking his full name, occupation or position and address for the Directory, coupled with the request that they be written very plainly in order to avoid mistakes in printing; yet when these blanks are collated it is found that twenty per cent. of the names are so badly written that a Philadelphia lawyer could not translate them, for it is a well-known fact that, as a rule, a business man's signature is the least legible of all his penmanship. A scrawl, a hop-skip-and-jump run that ends in a pigeon-wing flourish, gives his long-suffering fellow-beings an autograph requiring years of familiarity to prevent an hour of painful study, if not of profanity. To the stranger or the compositor or the person to whom time is money, it remains

RADGES' TOPEKA DIRECTORY.

an unguessed problem. Care is taken to secure men to canvass for a Directory who write plainly, yet mistakes will occur in forming the letters of a name, and vowels get tangled in a proper name, that, in ordinary words, would cause no trouble. An undotted *i* will pass for an *e*, an *o* for *a*, *u* resembles *n*; and the letters *t* and *l*, where the *t* is not carefully crossed, are indistinguishable from each other. There are many other letters that are liable to be so written as to make errors in a name that may be amusing or annoying — we quote but a few. And capital letters, when used for initials, are often an unanswerable enigma if the fellow who wrote them is not around to have the last guess. Stand on the step of your own house, and try to write a dozen unfamiliar names on wind-blown strips of paper, and you may hereafter make allowance for errors of illegibility or wrong spelling.

After the names are compiled alphabetically, they go to the printer, and as he is human, and liable to make mistakes, the possibilities are that he adds the finishing touch to the comedy of errors.

Then when the book is out, what more natural than that each person look for his own name; and if it contain the most trivial technical error, one that would be invisible to other eyes, woe to the publisher, who is held personally to blame. It is an unpardonable sin, and the whole work is condemned as worthless and utterly unreliable. Then, some one was away from home. The canvasser did not find him or hear of him; and the first opportunity that presents he will ask indignantly why his name was omitted—"it was in the *last* Directory, why not in this?" Because, my friend, as I have said already, your name was not given to the enumerator when he called. No reference is ever had to former directories, for you might have died since, or worse, moved to New Jersey. Your name was not given, and some one at your home is responsible for the omission. A slight error in spelling a name does not depreciate the value of a Directory, for if the name is found and the location of the person sought, the object of the Directory is accomplished,—and that is all any fair-minded person desires. But "there are others."

And now, having explained satisfactorily, I hope, that which may have annoyed or disappointed you, I turn to a brighter page—the future, that eternal and immortal *manana* in which we live, move and have our being far more than in the present.

A writer who has proven himself a poet, a historian and a patriot,—if loving loyalty to home is patriotism,—has written on another page of the birth, the growth, the struggles and the triumphs of Topeka. He has made the motto of Kansas hers, in her ambition and her high purpose. He has glorified with

The City of Topeka.

Historical.

WRITTEN ESPECIALLY FOR THIS WORK BY WILLIAM ELSEY CONNELLEY. ^{c/s}

TOPEKA is the county-seat of Shawnee county and the capital of the great State of Kansas. From its founding it was designed for the capital city of Kansas. It was originally confined to a tract of land containing 640 acres, allotted to Isaiah Walker, a Wyandot of not more than one-sixteenth Indian blood. The patent was issued to him in compliance with the terms of a treaty made with the Wyandot tribe at Upper Sandusky, Ohio, March 17, 1842. The birth of the city may be dated from an agreement entered into by Cyrus K. Holliday and eight other persons, Dec. 5th, 1854. In those stirring days it was established as a Free-State town, and it was always a stronghold of the great commonwealth erected here and dedicated to freedom. It is not the purpose of this brief sketch to enter at all upon the history of the city, but it may not be amiss to merely state that many exciting scenes were enacted here in the old Territorial days, in which the citizens of Topeka always and uniformly acquitted themselves well in freedom's cause.

Topeka was made the State Capital at an election held November 5, 1861. From that date her future was assured. But her present greatness was not attained without hard work and that strenuous effort for which her public-spirited citizens have ever been noted. Her first successful step in material progress was in securing the Atchison, Topeka & Santa Fe Railroad. Indeed, it may be truthfully said that this great railroad system was organized and carried to a successful issue by Topeka. It was projected by Cyrus K. Holliday, Dr. F. L. Crane, and other citizens of our city; and in the face of many discouragements it was put on a sound and enduring basis, from which it has grown to be one of the greatest railroad systems in the world. Other lines of railroad have been secured, and many other enterprises in all the lines of modern industry put into successful operation, until now our city is one of the best and most progressive in the United States.

The city is built on both sides of the Kansas river, which flows through it

from west to east. The stream is here a great river, nine hundred feet wide, and having a swift current. It is spanned by a Melan arch bridge, the largest of its kind in the world, completed in 1898, at a cost of nearly \$200,000, and is one of the finest bridges in America. It is a part of Kansas avenue, the main business street. The principal portion of the city lies south of the river, on one of the best and fairest sites ever selected for a city. The land is a high, rolling prairie, constituting the water-shed between the Kansas river and Shunganunga creek. The ground rolls in gentle undulations, not unlike the great swells of the ocean. The drainage is perfect; there are no ponds, nor swamps, nor sluggish sloughs. The drainage is to the Kansas river, which has the immense volume of two thousand cubic feet per second. A better guarantee of health was never vouchsafed to any city. And added to these favorable conditions, we are nine hundred feet above the level of the sea. These blessings are all enhanced by our position in the center of one of the greatest plains on the globe, extending from the Gulf of Mexico to the Arctic ocean, without once rising into mountain or even table-land. This plain is now, with less than a hundredth of its arable area in cultivation, one of the principal granaries of the world.

Having seen that nature was lavish in bestowing advantages on our city, we will notice the manner in which its founders benefitted by them. The very site was elevating and inspiring even in its wild state. After viewing it over with its magnificent swells and gentle undulations, it was impossible to begin the city on a narrow basis, or project a narrow or crooked street. Our broad avenues are as much the inspiration of the noble town-site as they are of sound business sense. It may be claimed without any fear of successful contradiction that Topeka is the best laid-out city in the West. The streets and avenues vary in width from eighty to one hundred and thirty feet. Sidewalks are broad, and there is a park on each side of every residence street. These parks vary in width from twelve to thirty feet; here there is a park in front of every man's door. These parks are now beautifully set with flowers and bluegrass; and while Topeka was laid out on a bare prairie, a view from the State House dome shows it to be now in a forest, three-fourths of the buildings being concealed by trees,—beautiful trees, growing in the parks along the avenues. Nothing could be more conducive to beauty, comfort, and health. In the matter of street improvements, Topeka is in advance of every Western city. There are miles and miles of streets paved with vitrified brick, and other miles paved with asphaltum. Sidewalks are of brick or stone, and no city has broader or better ones. Along our beautiful streets and avenues are hundreds of fine residences, many of them

as good as can be seen west of the Mississippi. We contend that Topeka is the most beautiful city in the Louisiana Purchase.

Topeka is a good business town. Her business buildings are large, and built on modern plans. There are miles of fine business blocks, and every line of business is represented, many extensive wholesale establishments being found here. The retail stores are large and up-to-date in stocks and methods. We have not space to enumerate our manufactories: they include foundries, packing-houses, ice plants, cold-storage houses, flouring-mills, elevators, brick manufactories, publishing-houses, and the great shops of the Santa Fe Railway system. Thousands of men are employed here in this business of manufacturing, and the wages paid them amounts to more than \$6,000,000 per annum. We have the Atchison, Topeka & Santa Fe, the Union Pacific, the Rock Island, and the Missouri Pacific railroads. They do an immense amount of business, bringing in last year more than six hundred million pounds of freight, and carrying out more than four hundred million pounds. Topeka has always been proud of her solid financial institutions. We can but allude to them here. Her bankers are among the most wealthy and successful in the West. The banks of our city have millions of dollars on deposit belonging to our great institutions, and a contented, prosperous and happy people. We have Life and Fire Insurance Companies, and Building and Loan Associations, all large, sound, well managed, and flourishing.

In the matter of those things essential to metropolitan life, we are very fortunate. Our street-car system covers every part of the city, and is supplied with the last improvements in the way of equipment. We have a very extensive electric-light system, (the property of the city.) Our water-works are valued at three-quarters of a million, and are being extended all the time. Telephone and telegraph companies maintain extensive offices and exchanges. Our hotels are the best in the country in buildings, furnishings and service. The State Capitol is one of the finest in any State, having cost about four million dollars. The State Insane Asylum, now called the Topeka State Hospital, is located here; the grounds and improvements have cost more than a million. The State Reform School for Boys, now officially Kansas Industrial School, is also located here, and has extensive grounds and fine buildings. There are six hospitals in our city, all first-class. We have three daily newspapers, all bright, clean, well managed, well edited, sound, patriotic, and loyal to Topeka and Kansas. We have a large number of good weekly and monthly journals, all doing good work in the building up here on the plains one of the greatest of American States. The library of the State Historical Society is one of the largest and best in the

United States, and the State Library contains more than 60,000 volumes. The Topeka Free Library owns its building, and is extensive and well managed.

The educational advantages of Topeka are very superior. The public schools are believed to be the best in the State. There are large school buildings in each ward, supplied with the latest improvements and appliances, and presided over by a corps of principals and teachers. The High School is one of the best in the West. Washburn College is located here, as is also the College of the Sisters of Bethany. There are private schools, business colleges, conservatories of music and oratory.

The churches of Topeka are her special pride. The buildings are fine and commodious, the congregations large and intelligent, and the ministers learned, eloquent, and zealous in every good work. All the principal denominations are represented. No community has a higher moral tone.

In the foregoing brief sketch we have touched only the principal things, and have not gone into details. The city of Topeka has many advantages and institutions not mentioned here. We close by saying that "Everything good for the sons of men" can be found in Topeka.

An addition has recently been completed with a frontage of over forty feet, to the left of the above view.

THE AUDITORIUM AND CITY BUILDING.

Was erected by the city in 1900, at a cost of \$100,000, occupying a frontage of 300 feet, within a block of the business center. The Auditorium has a seating capacity of nearly 5,000, and is one of the handsomest audience halls in the country. Besides the offices of the City Government, the headquarters of the Fire Department is located in the north end of the building, and also ranks among the best equipped and most efficient in the West.

Street and Avenue Guide.

[COPYRIGHT 1901, BY SAM RADGES.]

THE houses throughout the city are numbered in accordance with what is known as the Philadelphia or decimal system, the base or dividing line for streets running north and south being Kansas avenue, the principal business thoroughfare, and First avenue for all streets running east and west.

Under this system, one hundred numbers are set apart for the houses between every two streets in the city—except Huntoon and King streets, which run parallel with the numerically named streets. Commencing at First avenue with 100, numbers increase, with the odd figures on the west side, to 135, where Second street is reached; here 200 commences, and so on, increasing one hundred to the block to the city limits. North of First avenue the numbers also commence at 100; at Crane street 200, and on the north bank of the Kansas river at 500, allowing the intervening two hundred for the bend in the river in the eastern portion of the city, where there are streets north of Crane street, south of the river. At Kansas avenue, all streets running at right angles with it are divided east and west, the even numbers being on the north side of the streets. Commencing at 100 on the first twenty-five feet of ground fronting south, regardless as to the frontage of the building located thereon, the numbers increase two for each twenty-five feet of space in the block, 122 being reached at the intersection of the next street. Two hundred then commences on the opposite corner, and increases in like manner for the next block, and so on, increasing one hundred for each block, Topeka avenue being reached at 500 on the west, and the same number on the east side of the city at Jefferson street.

The simplicity of this system enables every person to readily locate any address, and it at the same time furnishes an idea of the distance to the locality. If the desired number is 320, on any street running east or west, it is on the third block from Kansas avenue, No. 720 on the seventh block, and so on; the hundreds designating the number of streets distant from Kansas avenue, and the tens and units the exact house in the block.

Fire Bell Signals.

Fire alarms are sounded upon the tower bell at Fire Department headquarters by striking the number of the signal station nearest to the fire, in the following manner: If for box 4, four distinct strokes, and repeated; if for No. 13, one stroke, a short pause, then three strokes, and repeated, thus: I-III, I-III, etc.; and if for 22, II-II, II-II, etc.; 22 is sounded for all fires within the district bounded by Fourth, Ninth, Harrison and Monroe streets. Ten strokes, and repeated, followed by the number of the signal station nearest to the fire, is the second alarm, for a serious fire. Three strokes, followed by twelve, and repeated, thus: 3-12, 3-12, etc., is the general alarm for a very threatening and dangerous fire. This calls the entire fire department and a large detail from the police department. Two strokes, slowly, indicates "fire out."

Shawnee county was organized in 1855, while Kansas was yet a Territory. It ranks as the second county in the State in population, and has an area of 558 square miles. In addition to the Capitol, the buildings belonging to the State and located near the city are: the State Reform School, about two miles north from the city, and one of the insane asylums, a short distance northwest from the Capitol building. Rossville and Silver Lake, in the northwestern portion, are towns of much importance to the surrounding country. The towns of Richland and Auburn, in the southern and southeastern portions of the county, and Tecumseh, four miles east of Topeka, are also of considerable importance to their localities.

State Government of Kansas.

The Territory of Kansas remained unorganized and almost unpeopled until the 30th of May, 1854, when President Pierce signed the famous Kansas-Nebraska bill, organizing the Territories of Kansas and Nebraska. In July, 1859, the Constitutional Convention met in Wyandotte, and on the 29th of July signed the "Wyandotte Constitution." This was ratified by the people in October of the same year, but it was not, however, until January 29, 1861, that President Buchanan signed the act of Congress admitting Kansas under the Wyandotte Constitution; and then her existence as a State legally began.

The State of Kansas includes an area of 82,080 square miles, or 52,531,200 acres, and is larger than the whole of the New England States and Delaware and Maryland added; equal to North and South Carolina combined, and is twice as large as Ohio. According to the United States census, the population was 1,469,496.

Pointers.

Legal Interest, six per cent.; rate allowed by contract, 10 per cent.

Statute of Limitation. Three years on open accounts; 5 years on notes, etc.; 5 years on judgments.

Qualification of Voters. Citizens of the United States or aliens who have declared their intention.

Previous residence required in State, six months, *and* in county, town or precinct, 30 days. Persons excluded from suffrage: felons, insane, felons not restored to citizenship. Australian ballot law is in force.

Elections.

Elections are held on the Tuesday next succeeding the first Monday in November, in each year. The governor, secretary, treasurer, auditor, attorney-general, superintendent of public instruction and members of the house of representatives are elected in the even year, for a term of two years. State senators are elected every four years. Judges of the supreme court are elected in the even years for a term of six years, one being elected every two years. The State printer is elected every two years, by joint ballot of the legislature; and United States senators are elected in like manner for a term of six years. A State superintendent of insurance is appointed by the governor, by and with the approval of the senate, once in four years, his term commencing in July after his appointment.

The gubernatorial term commences on the second Monday in January, following the election; and regular sessions of the legislature are held biennially, commencing on the second Tuesday in January, in the odd years.

Electious are held on the first Tuesday following the first Monday in November in even years.

Legal Holidays.

There are only three legal holidays authorized or recognized by law in this State, and they are as follows: DECORATION DAY, 30th May, was made a legal holiday by chapter 125, Laws of 1886, (General Statutes of 1889, paragraph 3251.) LABOR DAY, the first Monday in September, was made a legal holiday by chapter 145 of the Laws of 1891. WASHINGTON'S BIRTHDAY, February 22d, was made a legal holiday by chapter 161, Laws of 1895. It is a popular notion or belief that new-year day, January 1, independence day, July 4, thanksgiving day, as fixed annually by the president or governor, Christmas day, December 25, and arbor day, in April, are legal holidays; but the legislature of Kansas has never declared any or either of said days to be legal holidays. The section which stands as paragraph 481 of the General Statutes of 1889, in the act relating to bonds, bills, and promissory notes, was first enacted in 1868 as it now stands, except that in 1870, by chapter 37, the word "preceding" was substituted for "succeeding" next before the words "business day"; but this section applies to all Sundays as well as to the other days named, and simply regulates the time at which "days of grace" allowed on commercial paper shall expire; but Sundays have never been declared or even recognized as legal holidays, and the section referred to does not declare any or either of the days named to be a legal holiday.

Counties of Kansas.

Origin of Their Names and Date of Organization.

- Allen.** Organized in 1855. County seat, Topeka. Named in honor of Wm. Allen, of Ohio, who was for many years a member of the United States Senate from that commonwealth, and also its governor. He favored the doctrine of popular sovereignty on the opening of the Territory of Kansas to settlement, and the most ultra measures for the perpetuation of slavery.
- Anderson.** Organized in 1855. County seat, Garnett. Received its name from Jos. C. Anderson, of Missouri, who was a member of the first Kansas Territorial legislature, and speaker *pro tem.* of the house of representatives. He figured in the "Wakarusa War" in December, 1855, and his name appears in connection with a proposition to march under the "black flag" to Lawrence.
- Atchison.** Organized in 1855. County seat, Atchison. Named for David R. Atchison, a senator from Missouri, and president of the United States senate at the date of the passage of the act for the organization of the Territory of Kansas. He was a pro-slavery Democrat, and zealous partisan leader in the discussions and movements affecting the interests of slavery and its attempted establishment in the new State to be created. He was conspicuous among the mob at the sacking of Lawrence, on the 21st of May, 1856.
- Barber.** Organized in 1873. County seat, Medicine Lodge. In honor of Thomas W. Barber, a Free-State settler of Douglas county, who was killed in consequence of the political troubles, near Lawrence, December 6, 1855. (The county was originally named in the statute as "Barbour," but was corrected by the legislature in 1883.)
- Barton.** Organized in 1872. County seat, Great Bend. In honor of Miss Clara Barton, of Massachusetts, who won great distinction during the war for the Union by her remarkably effective philanthropic career in the sanitary department of the army.
- Bourbon.** Organized in 1855. County seat, Fort Scott. Received its name from Bourbon county, Kentucky.
- Brown.** Organized in 1855. County seat, Hiawatha. After Albert G. Browne, of Mississippi, who had been senator and member of the house of representatives from that State; was United States senator at the date of the act organizing Kansas Territory.

Holidays.

There is no national holiday, not even the Fourth of July. Congress has at various times appointed special holidays. In the second session of the Fifty-third Congress it passed an act making Labor Day a public holiday in the District of Columbia, and it has recognized the existence of certain days as holidays, for commercial purposes; but, with the exception named, there is no general statute on the subject. The proclamation of the president designating a day of thanksgiving only makes it a legal holiday in those States which provide by law for it.

* The Democratic party of to-day claims lineal descent from the first Republican party, and President Jefferson as its founder.

† Political parties were disorganized at the time of the election of John Quincy Adams. He claimed to be a Republican, but his doctrines were decidedly Federalistic. The opposition to his administration took the name of Democrats, and elected Andrew Jackson President.

State Nomenclature, Etc.

Alabama. Takes its name from its principal river, and is supposed to mean "here we rest," which words are the motto of the State. The name was first given to the river by the French in the form of *Alibamon*, from the name of a Muskogee tribe that lived upon the banks. Admitted as a State December 14, 1819.

- Florida.** This name was given to a larger territory than the present State by Ponce de Leon, in 1572, from the Spanish name of Easter Sunday, *Pascua Florida*, "flowery pasture," the day upon which it was discovered. Admitted to the Union March 3, 1845.
- Georgia.** Named as a colony in honor of George II. Originally it was included in the Carolinian charter of 1603, but was surrendered to the crown in 1729. Ratified the constitution of the United States January 2, 1788.
- Idaho,** and its capital, Boise City, have so far escaped historical nomenclature. It was admitted as a State in 1890.
- Illinois.** Takes its name from its principal river. According to Albert Gallatin, the term is derived from the Indian word *leho*, *lini* or *illini*, meaning "real" or "superior me," the termination being French. Admitted as a State December 3, 1818.
- Indiana.** Called from the word Indian. Admitted as a State December 11, 1816.

- Maryland.** First called "Crescentia," but in the charter for the colony it was styled *Terra Mariae*, "Mary's Land," in honor of Henrietta Maria, queen of Charles I. Ratified the constitution of the United States May 23, 1788.

THE KANSAS MUTUAL LIFE INSURANCE

TOPEKA, COMPANY, KANSAS.

HOME OFFICE, 701-703 JACKSON STREET.

REGISTERED POLICIES

This Company issues modern, up-to-date, attractive Ordinary Life, 10, 15, and 20 Payment Life, and 10, 15, 20, 25, and 30 Year Endowment Policies, with definite surrender values. It has recently gotten up a very fine investment policy known as **THE TEN-YEAR GOLD BOND**.

**A WESTERN COMPANY. A HOME COMPANY. A REGULAR LEGAL RESERVE
OLD LINE COMPANY. A PURELY MUTUAL COMPANY.**

THE STATE OF KANSAS is trustee for all the policy-holders of this Company. Its policies are all registered in the office of the State Superintendent of Insurance; and the State Treasurer actually holds on deposit, in approved interest-bearing securities, every dollar of the reserve (the liability to policy-holders). By the registration and deposit system of the Kansas Laws, under which The Kansas Mutual Life operates, the security to the policy-holder is equal and quite similar to that placed on National Bank notes by the United States Treasury Department. As that department holds in trust for the note-holders the bonds deposited by the bank, so the Treasury Department of the State of Kansas holds in trust for the policy-holders the securities deposited by The Kansas Mutual Life Insurance Company, thus making every policy as secure as a National Bank note. All policies issued by The Kansas Mutual Life Insurance Company are non-forfeitable after three years, and contain liberal provisions for loan, cash, paid-up, and extended insurance values, thirty days' grace for payment of premiums, privilege to insured of changing beneficiary, freedom of travel, and other attractive features.

TO THE PUBLIC:-

The above company have located their Kansas Department in the Central National Bank Building, Topeka, and are doing a business in this State far in excess of their expectations.

While writing all the different forms of old-line life insurance, the Company makes a specialty of its ten-year endowment bonds. These bonds are written for \$300.00 and upwards; are exempt from taxation and execution as by law provided; are written for both sexes, the deposits the same for all ages from five to sixty inclusive; are guaranteed payable in the gold coin of the United States at its present weight and fineness; every bond is secured by a deposit with the Auditor of the State of Iowa of approved interest-bearing securities, being first mortgages on farms. These bonds give an unconditional guarantee of the return of the face value in gold coin, together with all the accumulations from lapses in the reserve and savings fund and interest thereon.

Among the Directors are found the following well-known men: Leslie M. Shaw, Governor of Iowa; Geo. L. Dobson, ex-Secretary of State; Geo. E. Pearsall, Cashier Citizens National Bank, Des Moines; D. G. Edmundson, Pres. Security Loan and Trust Co., Des Moines; N. E. Coffin, of Dudley & Coffin, Attorneys, Des Moines; P. M. Starnes, Secretary, Des Moines; S. J. WE CLAIM THAT

OUR FLOUR

Contains a larger percentage of gluten than most winter-wheat flour, as proven by chemical analysis. The larger the percentage of gluten, the more bread can be made from a given quantity of flour.

THE FOLLOWING IS ONE OF
NUMEROUS TESTIMONIALS:

W. A. Thomas, of Alyth, Scotland, gives Topeka flour quite a puff in an American milling paper. After saying they have better wheat and greater skill in making flour in Hungary than anywhere else, he adds: "The nearest flour to Hungarian I have seen from the United States is this season's A. A. A., from Crosby Mill Company, Topeka, Kan."

Our One Ambition

Has been to build in the Capital City of Kansas a clothing business so clean and legitimate that no living man, woman, or child can ever charge us with resorting to "fake" schemes or subterfuge.

The Dream of Success

Has been more than realized, and in two years of legitimate merchandising we stand at the head for volume of business, employing a larger working force than any other exclusive clothiers in the city, and are recognized everywhere as the fastest growing Clothing Store in Kansas.

UNION PACIFIC

"THE OVERLAND ROUTE"

IS THE MOST DIRECT LINE TO ALL

PRINCIPAL POINTS WEST.

And on account of the varied character of the country it traverses, offers to those who contemplate going West a more greatly diversified territory to select from than does any other

TRANS-CONTINENTAL LINE,

passing as it does through, or reaching via its connections,

NEBRASKA, KANSAS, TEXAS, NEW

MEXICO, COLORADO, WYOMING, UTAH,

IDAHO, MONTANA, OREGON, AND

WASHINGTON.

EVERY BUSINESS INTEREST IS TO BE FOUND ALONG ITS LINE.

FOR THE FARMER, thousands of acres of rich agricultural land are yet open for settlement.

FOR THE STOCK-RAISER, immense areas of excellent grazing lands can yet be secured.

FOR THE MINER, the great mountains of the West await but the opening to become the source of large fortunes; and

FOR THE BUSINESS MAN, the growing cities and towns of the West are daily offering unequalled opportunities for investment of capital and location of industries which are unsurpassed by older sections of the United States.
