There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising **suggests** wants and **creates** desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased, and gives information that the buyer wants **when he wants to buy**.

A Connecting Link

The weakness of display advertising is that often a need is not realised until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying, and where is so logical a place to look as **in this book**.

A Help to You

In your buying, use the lists in this book. If you see a name in **heavy type** it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page——", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to **you** as the one who can serve him best?

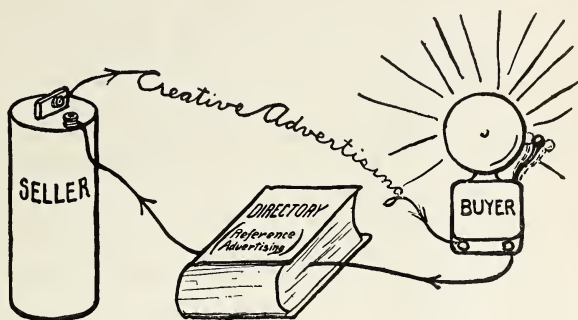

If not, make a note to do it in the next edition, and let us tell you **now** how little it costs to be **protected**.

The Return Circuit in Advertising

*The circuit must be completed before the bell will ring
The Buyer must find the Seller before a Sale is made*

Creative Advertising,—in newspapers, magazines, billboards, etc. tends to suggest wants and to create desire.

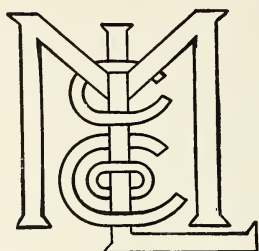

Before a sale results the initiative must pass from Seller to Buyer.

When this happens the Buyer begins actively to seek where he can best supply his wants.

This Directory is a logical place to look (at least our subscribers tell us they use it for this purpose) and the Reference Advertising herein has assisted many sales.

Have you made it easy for buyers' to find ***You?***

Helps you—as all legitimate publicity helps, by keeping your name and business before the public. It shows that you are a live, enterprising factor in the city's life, sure of yourself and confident of your business ability and permanence and with such persons, people like to trade.

Helps your neighbor—for in the long run the success of one is the prosperity of all.

Helps your City.—As this book is on file in the centers of trade all over the U. S., it will be consulted by business men everywhere and the city's enterprise largely estimated by the volume of advertising done by its citizens.

The Return Circuit in Advertising

*The circuit must be completed before the bell will ring
The Buyer must find the Seller before a Sale is made*

Creative Advertising;—in newspapers, magazines, billboards, etc. tends to suggest wants and to create desire.

Before a sale results the initiative must pass from Seller to Buyer.

When this happens the Buyer begins actively to seek where he can best supply his wants.

This Directory is a logical place to look (at least our subscribers tell us they use it for this purpose) and the Reference Advertising herein has assisted many sales.

Have you made it easy for buyers' to find ***You?***

Bricks Without Straw

In ancient times, we are told, the Israelites were forced to do their work without the proper materials. They did it—after a fashion—but at an enormous cost in time and labor. Labor was cheap in those days however, and their task masters had the power to insist upon the full quota being given in spite of limitations.

Now the labor market is high, yet, in many cases history repeats itself. We still often see business trying to get along without the proper tools or with antiquated equipment.

You *can* do business without the telephone; it is possible to get along without a typewriter; you may use a quill pen for your correspondence if you so desire; it is your privilege to be without insurance, or the latest directory. If you wish you may still use a mailing list that was old when grandfather was a boy.

If the results are not entirely satisfactory, it is up to you.

Some firms prate wisely of business efficiency and then lose time and money sending to wrong addresses culled from an out-of-date directory. Rather than spend the few dollars necessary to insure themselves being properly listed under all the headings applicable to their business, they run the risk of letting their competitor get their trade. They save the first cost of an up-to-date mailing list and waste postage stamps by the gross.

Would you improve on old methods? Then phone or write at once for particulars to

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it would it interest you?

The City Directory

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out.

Dictate, stop, start again Wait a minute or a week Correct as often as you want

IT makes no difference with the Dictaphone. Whatever personal reason you may have for thinking the Dictaphone does not fit your case—you're wrong.

"I can't use the Dictaphone. I make too many corrections and changes in my dictation." In just about two minutes we showed the man who said that that making corrections is the easiest thing in the world with the Dictaphone.

If you are like most men, *personal* convenience in dictating is just as important as money saving and increased efficiency in producing your typewriting. What has been stumping you? Dictate when you want? Certainly—day or night, before or after hours, holidays, Sundays, at home or at the office. Dictate at *your* speed? Certainly—as fast as you can talk or as slow as you want—word by word, jerky or smooth, it makes no difference to the Dictaphone.

That's *your* end of the Dictaphone. Your typist can typewrite your dictation as fast or as slow as she wants—she can make you repeat at will. And she will be producing finished typewriting all day long, with never a minute lost for taking dictation.

The only "Dictaphone" is **THE Dictaphone**

Dictaphone—our trade name
Man at the desk—our trade-mark

How to make this Book Serve You!

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity. **Put—"We are listed in the directory" in your copy.** Tie up all your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the business listings applicable to your business. The phrase will stick long after the newspaper has been mislaid and people will get in the habit of looking for your name when ready to purchase goods which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit.

Brass Founders .. Galvanizers

Sherardizers

Sherardizing is a heat-treating process employing pulverulent zinc: but instead of depositing a mere outer coating, as is the case with hot and electro-galvanizing, the zinc is driven into the metal, and actually forms an alloy with the iron, extending considerably below the surface and becoming an integral part of the whole.

Sherardizing also furnishes efficient protection to threaded parts without materially altering their dimensions.

How to make this Book Serve You!

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity. **Put—"We are listed in the directory" in your copy.** Tie up all your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the business listings applicable to your business. The phrase will stick long after the newspaper has been mislaid and people will get in the habit of looking for your name when ready to purchase goods which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit.

Some NAILED DOWN Facts

¶ If P. B. wasn't every bit as good as we claim it is we would not dare to advertise and trade-mark it.

¶ Advertising is death to inferior goods.

¶ It is because we are proud of P. B. that we want to be judged by its quality. We advertise and trade-mark P. B. because it is sold entirely on its merits. It is a healthful tonic and a bully-good drink. Try it and judge for yourself.

¶ P. B. is sold by the glass by dealers who do not substitute. The best bottle stores everywhere sell P. B. If yours does not, order from the brewery direct.

“Stop your typewriter a minute, please!”

—“I want to use the telephone!” says a distracted office executive. Miss Typist ceases her work and a minute—five minutes are wasted.

What would you give to have your writing machine “muffled” so that you wouldn’t have to seek some quiet place to do your thinking?

Model 8—The “Silent Smith”—makes so little noise that you don’t notice it. It is more like a clock ticking than the ordinary clatter of a typewriter.

This mechanically refined typewriter is equipped with every convenience the user can desire—a decimal tabulator, variable line spacer and all the other advantages that have made the business world recognize the

L. C. Smith & Bros. Typewriter

as a superior machine.

There is a branch office or dealer in your locality. Ask for free catalogue of Model 8, or write

The methods in use are of special service in obesity, constipation, rheumatism, and high blood pressure. Even incurable diseases may receive great benefit, for often the disease can be arrested or the rate of progress lessened.

HYDROTHERAPY & MASSAGE—In this department various water and radiant light baths are administered. The electric light baths with their thermic rays not only increase the skin action but penetrate the body and impart a powerful stimulus to the circulation. In this direction we also employ the healing power of photo and thermo therapy.

OSTEOPATHY

*Why get your ideas of Osteopathy from those who
are ignorant of, or oppose it?*

Go to a registered Osteopathic Physician and learn the truth. You'll find its best claim to consideration is the results attained.

You will learn that it is not a fad, but a legally recognized Scientific Method of Therapeutics. It rests upon the solid basis of common sense and a thorough knowledge of human anatomy.

It cures diseases by removing the cause.

It readjusts and puts the system in condition to resist disease.

It preserves the harmonious co-operation of all bodily functions, mental and physical.

Osteopathy offers but one criterion:—RESULTS

Direct Advertising Printing and the Miller Saw-Trimmer

¶ Unless you have a Miller Saw-Trimmer in your print shop, you are working under a big disadvantage in handling booklets, catalogs and other forms of direct advertising printing.

¶ This class of work consists largely of half-tones, color plates, and intricate display composition. Routing, mortising, mitering and corrections in plates are therefore continually necessary.

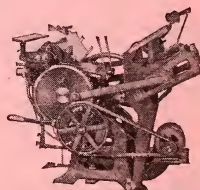

¶ With a Miller Saw-Trimmer equipment you can make all corrections in your own shop in the minimum time, and can make them absolutely right the first time.

¶ The Miller Saw-Trimmer is the only answer to the requirements of direct advertising printing. Write us today and let us explain how this machine will pay its way.
