H. C. Tanner,

...CATERER...

24 Main Street - - Haverhill.

WEDDING BANQUETS and all kinds of SOCIETY EVENTS CATERED for at short notice. Everything of first-class quality and the best of service. A quarter of a century of practical experience has placed Mr. Tanner at the head of his profession. Connected with his establishment are three large halls, the finest in the city, well-lighted and ventilated, and with perfect acoustic properties, which can be used for lectures, banquets and all functions; can be hired at reasonable rates.

"The Pines," Groveland, Mass.

One of the most beautiful "Summer Resorts" in New England. The waters of the Merrimac wash its banks and the fragrant pines send out an invigorating and healthful atmosphere. The menus are excellent and prices reasonable. Some of the best variety shows are engaged for its stage; in short, it forms an ideal place for a day's outing.

The fact that an alarm box is located near their residence, and where the key is kept, should be known by all persons, both male and female; and the simple matter of giving an alarm in case of fire should be a matter of common education. The board of Engineers recommend to all persons who may see this notice that they make the necessary inquiries to enable them, in case of need, either to get the key and pull the box, or direct others to do so. Time saved in this way may sometimes save a conflagration.

DIRECTIONS.

Get the key to the nearest box to the fire, open the box, pull the hook down once and let go. After giving the alarm, remain awhile, if possible, by the box to direct the firemen to the fire. Each box contains a small bell, which, if heard before you pull, indicates that the alarm has been previously given. Do not pull a box while an alarm is being sent in from another box. Never open the box or touch the apparatus except in case of fire. Never sound an alarm for a fire seen at a distance. Be reasonably sure there is a fire before sounding an alarm.

Caution—To persons holding keys: Never let the key go out of your possession except to some responsible person to give an alarm.

Any person holding a key who should change his residence, or place of business, will please return the key to the nearest Fire Station, or to a police officer.

City Hall and Walnut sq. school bells and Jacques' whistle will give number of box thus: Alarm from box 24—bell and whistle will strike and blow twice (- -), pause, then four times (- - - -), repeating the same.

SPECIAL SIGNALS.

Test Stroke—At 12.45, Sundays and Holidays excepted.

Two Strokes—After an alarm indicates that the fire is under control.

Three Strokes, three times—Fire out of town.

Four Strokes, two times—High water signal.

Ten Strokes, two times—Police call.

Twelve Strokes, three times—Military call.

Two Strokes, three times—No school.

NO-SCHOOL SIGNALS.

Two strokes, struck three times at 7.30 a. m., indicates that there will be no forenoon session of the Public Schools; the same signal struck at 11.15 a. m. or 1.15 p. m. indicates that there will be no school session in the afternoon. When struck at 11.15 the Grammar Schools will continue their session one hour longer than usual. During November, December and January the signal is given at 12.30, instead of 1.15. When struck at 6.15 there will be no session at the Evening School. Fire at all other times.

I. L. E. A.,

MANUFACTURER OF FINE

Custom Shirts

*ALL KINDS OF PATTERNS
FOR FANCY SHIRTS.*

We make a specialty of fitting Difficult Forms. All our work is First-Class. Measures taken at residence or at our office, as desired.

It probably seems strange to some that the careful dresser should be so fastidious as regards the fitting of shirts, which are scarcely seen, except when worn in connection with evening dress; but the truth of the matter is, that aside from the discomfort of wearing an ill-fitting shirt, it is practically impossible to get out a garment to fit as it should, when worn over such an article.

The great popularity of the shirts manufactured by us, is due in a great measure to the shapeliness of their design, to the fact that excellent fit is assured in every instance, a specialty being made of fitting difficult forms.

With over thirty years' experience in shirt-making, the utmost care is always taken in selecting goods.

The best of experienced help is employed. So for workmanship and durability we are second to none.
