PREFACE

THIS volume continues the story of the hard conditions confronting the people of Maine after the close of the Revolutionary War. They had made great sacrifices for the preservation of their homes, many of which, located upon land subject to conflicting claims, rendered their tenure insecure, and many whose titles were unquestioned were too poor to pay the taxes levied upon them by the Government for the expenses of the war and its own maintenance; in fact, they were subject to innumerable difficulties which compelled them to seek relief from the Government, which must have put its members to their wit's end to devise measures of relief. To attain a settled condition in the remoter parts of Maine was for many years a task which must have seemed almost hopeless to settlers and legislators. It was, however, at last accomplished, and in a manner which reflects credit upon all concerned.

As usual I am indebted to Mr. Edward Denham for the Index.

DOCUMENTARY HISTORY

OF THE

STATE OF MAINE

Amendment to Salmon Fishery Act.

Commonwealth of Massachusetts In the year of our Lord
one thousand seven, hundred & Eighty five

An Act, for altering one Clause in an act passed Octo^r 24th
1783 Intitled an act to Regulate the Catching of Salmon,
Shad & Alewives and to remove & prevent obstructions in
Merrimack River & in the other Rivers & Streams runing
into the same within this Commonwealth

Whereas in the fourth enacting Clause of the aforesaid act,
it is enacted that no person or persons shall at any time catch
any Salmon Shad or Alewives with Sienes, nets, pots or any
other way at the mouth or Entrance of any of the aforesaid
Rivers or Streams or within Eighty Rods of the Same—
whereby all persons are prohibited fishing at any time at the
mouth of said Merrimack River, be it therefore Enacted by
the Senate & House of Representatives in General Court
Assembled & by the authourity of the same that any & every
Person has full Liberty to Catch fish in any way at the mouth
of Merrimack River aforesaid on Such days as is allowed by
the Law aforesaid.

In the House of Representatives March 14, 1785

This Bill having had three several Readings passed to be
Engrossed

Sent up for concurrence

Sam A Otis Spk^r

The Legislature of the State of New Hampshire having, by request of the Legislature of this Commonwealth, passed a similar Act to that passed Octo. 24, 1783—how far will it be thought by that State—generous to extend the fishery at the mouth of Merrimack River beyond the Liberty given by said Act—without first proposing it to that State—?

Pownalboro Jan'y 22, 1785

Sir:

I herewith transmit the copies & Extracts you wrote for, and must beg pardon for not sending them sooner. I received your first letter when from home, and on my return laid it by and thro divers avocations & Businesses it escaped my memory. Upon the receipt of your other letter I applied myself to the work, and take this first opportunity to send them. It has cost me much Time as I had to go through the whole Records, and hope they will answer your purpose; the paper I made use of is bad, but the best I could procure here—The Time & Trouble it has cost me I think is worth Ten Dollars which please to pay the Bearer.

I am with due regard your most humble

Servant Tho Rice

Hon^{ble} Henry Knox Esq

Boston Feb'y 21, 1785

Sir

I have written to you repeatedly for certain papers relative to the Estate of the late Thomas Fleecker, Esq.^r I have sent three copies of the same tenor and date— I request you in the most earnest manner that you would immediately

forward me the papers I have requested in those letters, and you shall be paid the customary fees upon the receipt thereof.

I am Sir

Your hum^l

H. Knox.

Tho^s Rice Esq.

Forwarded by Steward Hunt

who lives within half a mile of Mr. Rice.

Boston 5 April 1785

Sir

I should have answered your letter immediately upon its receipt but I was not possessed of the circumstances which would enable me to do it with propriety. Indeed this is the first opportunity—I cannot settle the amount which you state against Mr. Fleecker's Estate—This must be the work of Commissioners who may be hereafter appointed to examine all the claims which shall be brought the Estate—All that I can observe in general that candor, and integrity, on both sides will be the only valid means by which the party deficient expect to derive confidence and forbearance

I shall return here in June, when it is probable I shall wait upon you and enter more minutely into the affairs.

I am Sir

Your humble s^t

H. Knox.

Gen^{er} Palmer

Boston July 14, 1785

Dear Sir

The Gen^l Court having, after your departure, passed a Resolve relative to the claim under Beauchamp & Leverett, I have inclosed it for your inspection. As it was a long time

in the Governour's possession I did not know whether it would finally pass or not, & therefore began to copy the proceedings from the Journal relative to this subject which I will finish & transmit if you shall be in need of them.

I am Sir

Your humb. Serv^t

Gen^l Knox

N York

Boston August 16, 1785.

Sir

I arriv'd here from St. Georges the 30th of July last, with 156 Hogds. Lime. Was in hopes to have seen you before you left Town. I receiv^d your letter by the hand of Mr. I. Winslow Jun^r. I should have wrote you before had I not Expected you down to St. Georges after the last session of the Gen^l Court was over — It was out of my power to compromise matters with the Lime burners, there was not one that would comply fully with the Terms, that was Nath^l Fails — Col^o Jones Representative for the Town Bristol Sent a Circular Letter to the Towns and Plantations on the patent which made a Great of uneasiness for a while. I have Inclosed you a Copy of the Letter — which Accidentally fell into my hands. Col^o Wheaton and my Self thinks it highly necessary for you to come down this Fall as there is a great deal to be done this winter if the business is Carried on another Summer. Excepting these Lime burners can be Stop^d Burning, it would not be worth our attention another year, there is five kills in Thomaston, two of them built new this Summer—everything Round us looks in a ruinous Situation, there is a fence wanting to inclose the two Farms, of one mile and a half in length—we find it very hard in raising our

Lime Stone—Expect to burn Nine Hundred Hogds—Lime kills very dull here. I shall sail tomorrow for St. George—

I am Sir with Respect

Your very Humb^l

Serv^t James Hall

Petition of William M^cCobb.

Commonwealth of Massachusetts

To the honorable Senate & honorable House of Representatives of the Commonwealth of Massachusetts in General Court assembled —

The Petition of William McCobb of Boothbay in the County of Lincoln Humbly sheweth

That in the month of February Anno Domini 1780 a Complaint was regularly preferred to your Petitioner as a Justice of the Peace for the said County against Patrick McGuyer, Thomas McGuyer and Ebenezer Fullerton all of the same County upon a Law of the then State of Massachusetts entitled “An Act for prescribing and establishing an Oath of Fidelity and Allegiance” passed in the year 1777, as persons inimical to the United States of America—that in consequence of the said Complaint the said Patrick Thomas & Ebenezer were legally convened before your petitioner, who tendered to them severally the Oath of fidelity required by the said Act, but the said Patrick Thomas & Ebenezer obstinately persevered in their refusal to take the same Oath, whereupon your Petitioner after much persuasion with the said Patrick, Thomas & Ebenezer to no purpose was compelled tho’ very reluctantly to issue his Warrant of Commitment against the said Persons; pursuant to which they

were all conveyed to the common Goal in the said County, but before they were actually committed to Prison, they made Application to Jonathan Bowman Esq^r who lived in the neighbourhood of said Goal, & expressed a desire of taking said Oath rather than go to Goal—Whereupon M^r Bowman & Charles Cushing Esq^r then Brigadier of the same County wrote to your Petitioner advising him to liberate the said Persons upon their taking the said Oath especially as they appeared to be very penitent That upon the Receipt of those Letters your Petitioner immediately laid them before the Committee of Safety for the said town of Boothbay and took their advice as to the measure therein proposed which the said Committee approved of & thereupon your Petitioner immediately went to the said Goal which is thirty miles distant from his place of Residence & administered the said Oath to the said Persons, and then discharged them, previous to which they each of them gave your Petitioner a note of hand for the sum of One hundred & twenty one pounds ten shillings in the then currency for the costs that had already arisen, & some time afterwards they came to your Petitioner paid him the money & took up the said notes without making any Objection thereto in a little time after this the said Persons began to propagate a report very injurious to your Petitioners Character that he had altered each of the said notes while in his hands from the said sum of One hundred & twenty pounds ten shillings to the sum of One hundred & thirty pounds ten shillings & the said Thomas McGuyer actually brought his Action against your Petitioner for money had & received to the amount of the last mentioned sum, Whereupon your Petitioner at the particular request of the said Thomas & the others agreed that the said action should be dropped & that all matters in controversy between your Petitioner & each of said Parties respecting said matter should be left to the Arbitration of John Stinson Esq^r &

two other Gentlemen & at the same time it was agreed between the said parties that neither of them should have an Attorney before the said Arbitrators—that some time afterwards the said Arbitrators met upon the said Business when your Petitioner was very much surprized to find that the said Persons had procured an Attorney contrary to their said Agreement who insisted on arguing their cause before the Arbitrators tho' your Petitioner strongly objected to it as being very unfair, but as the said Attorney persevered in his resolution your petitioner was obliged to send twenty miles to procure an Attorney on his part, but without success & thereupon consented by the persuasions of the said Arbitrators to come to a hearing without any attorney—That upon the trial the said Arbitrators refused to admit the testimony of a man who was introduced by your petitioner as a witness merely because he had been formerly a complainant against them the said persons, That the said three persons were each admitted as Evidence for the others tho' your petitioner has since learned & can now fully prove that they were all equally interested in the vent of each suit, & that they had entered into an agreement before the trial to bear their equal proportion of the costs that might arise in the pursuit of all the said suits—That after this unequal hearing was over the said Arbitrators published their Award wherein they determined that your petitioner should pay to the said Thomas McGuyer, Patrick McGuyer and Ebenezer Fullerton a large sum of money each amounting in the whole to near Eighty pounds lawful money in specie & all upon this Idea that your Petitioner did in truth alter the said notes, which they could only gather from the partial Evidence of the said Persons for each other, & also from a mistaken notion that the Arrest of the said Persons was illegal because they conceived that the said Law was unjust, but they ought to have remembered, that tho' the Law might be unjust, yet

your Petitioner was obliged by the Law to arrest the said Persons upon complaint being made to him as aforesaid— That your Petitioner conceiving the said Award to be unjust & highly injurious to his Character refused to comply with it, whereupon the said Ebenezer Fullerton brought his Action upon the Arbitration Bond against your Petitioner, who by the advice of his Counsel became default & appealed for a hearing in Chancery upon the Supposition that the facts aforesaid might be there disclosed & taken advantage of but your Petitioner is now informed that those facts can be only taken advantage of by a special plea in a Common Law Court. he therefore most earnestly prays your honors that the said default may be taken off that he may have an Opportunity of a fair hearing & of vindicating his Character as a Man & public Magistrate from the injurious aspersions that have been thrown upon it & as in duty bound will ever pray.

Governor's Speech.

Gentlemen of the Senate and Gentlemen of the House of Representatives.

You having done me the honour of electing me to the office of chief magistrate of the commonwealth, I take this opportunity of declaring my acceptance of it.

I have a due sense of the honour you have conferred, and shall express it more fully, as soon as may be after the complete organization of the government. I have understood, Gentlemen, that several things have, with great assiduity, been suggested to the disadvantage of my political character;

and particularly that I am under british influence. The other suggestions (so far as I have heard of them) are of little importance: but this is of such a nature, that I find myself obliged to take some notice of it. I would therefore observe, that an honest man, whose character as such I am conscious belongs to me cannot take the oath of office required by the constitution, and at the same time be under Such an influence.

That oath was deemed a sufficient guard against the influence suggested; and my taking it may satisfy you, there was no ground for the suggestion. But, Gentleman, as it is Essential to the good of the commonwealth, that the people at large and the General Court in particular Should have a firm trust and confidence in the integrity of their first magistrate, my duty to them, and to my own character, requires, that I should explicitly declare at my first entering upon that important office, and I do accordingly declare that I never have been, that I am not, and (so far as a man can affirm in regard to his future conduct) that I will not be, under any foreign influence whatever: but on the contrary, that the whole of my administration shall, in every respect, according to my best knowledge and ability, be conducted by the principles of the constitution. Though this declaration may be unnecessary with regard to you, Gentlemen, as I am sure it is in regard to those who are fully acquainted with my political principles and character, it may notwithstanding be needful, in reference to the good people of the commonwealth in general, especially as the suggestions above-mentioned have been very widely disseminated.

I am now ready, Gentlemen, to take the oaths of office, pursuant to the requisitions of the constitution

Report of Committee on Unappropriated Lands.

Commonwealth of Massachusetts—

June 1, 1785

The Committee appointed by a Resolve of the 28th of Oct^r A. D. 1783. on the subject of unappropriated lands in the County of Lincoln and by a Resolve of the 10th of March A. D. 1785—to sell sundry parcels of lands belonging to

this Commonwealth and lying in the County of Cumberland — take leave to report, that agreeable to the Resolves of the General court they have attended in their office in Boston on the first and third Wednesdays and Thursdays in each month, and at such other times as the business assigned them particularly required —

The Committee since their appointment have received the applications of persons settled on the lands of Government in the County of Lincoln, who have expressed a Desire that the lands whereon they are settled may be granted and confirmed to them, on such terms as Government shall think reasonable, for about one hundred thousand acres exclusive of the twelve townships so called —

The Committee have also received applications from persons who have expressed a Desire to become purchasers of the unappropriated lands of the Commonwealth in that County for several tracts amounting, in the whole, to three hundred & thirty thousand acres or more; about two hundred thousand acres of which lye in the neighbourhood of Penobscott river, the Waldo and Indian Lands, and which cannot be located or disposed of till the boundaries of the Grant to Beauchamp & Leverett, and the authenticity of the Indian titles to lands on that river are ascertained.—

The Committee have surveyed and located about one hundred and eighty seven thousand acres of said unappropriated lands, the expence of which surveys amount to two hundred & fifty pounds being one farthing and one third of a farthing per acre nearley —

And further to forward those surveys the present year the Committee have engaged Rufus Putnam Esq^r and three other surveyors to act under him, with eighteen hands as chainmen; &c. to proceed next week, with six months provisions, to the County of Lincoln to continue the surveys begun the last year, in the passamaquoddy Country—to

survey some Islands, and other lands in that County—the chainmen at three pounds per month, and the said under surveyors at six, seven, and eight, and the said Putnam at twelve shillings per day—

The Committee are induced to forward the surveys the present year considerably, that they may have in readiness for sale different tracts of said lands to suit different purchasers; and because they are induced to believe they cannot, after the present year, have the assistance of their first and principal surveyor—

The Committee have advertised the lands already surveyed for sale, with a description of the quality and situation thereof, by dispersing printed advertisements in the several parts of the Commonwealth—

The Committee have also entered into several contracts with purchasers of the aforesaid unappropriated lands in the County of Lincoln—with Moses Knap Esq^r and Company—James Swan Esq^r—Col^o Paul D Sargent—Col^o Allen—Col^o Eddy and others which, together with the proposals made respecting the five townships amount to twenty thousand pounds in Government securities, and the lands sold & contracted for, amount to about seventy nine thousand acres, and average at the price of four shillings one farthing per acre nearly, and the expences of laying out and selling said lands are hitherto something less than two per Cent on the proceeds of the rates considering said securities at their nominal value.—

The Committee are fully convinced that the rate of the unappropriated lands of the Commonwealth in the County of Lincoln would be greatly expedited by ascertaining, as soon as possible, the bounds of the grant to Beauchamp and Leverett and the lands to be held by the Penobscott Indians—as the lands on penobscott river, and between that and Kennebeck river from their quality and central situation appear

by the applications of purchasers for them to be much more saleable than any other lands in that County The Committee have attended to the Claims of the Plymouth Company so called, and shall in a day or two report a Statement thereof—and as soon as may be a statement of the other Claims laid before them to the lands in that County wherein the Commonwealth appears to be interested—

Petition of Selectmen of Falmouth.

To the Honorable Senate, and the Honorable House of Representatives of the Commonwealth of Massachusetts—in General Court assembled—

The Petition of the Subscribers—Selectmen of the Town of Falmouth in the County of Cumberland—humbly sheweth—

That about thirty years ago the General Court of the said Commonwealth granted a Lottery for the building of a Bridge over Pesumpscot River in said Town of Falmouth—That a Bridge was accordingly built over said River—but is now very much out of repair and indeed is in such a Condition that it is become dangerous to pass over the same—That the Town is not liable to maintain the same, nor is it

possible under the present circumstances attending it, which will be particularly represented to your Honors by Joseph Noyes Esq the Bearer hereof to have it repaired, without the interfering Aid of this Honorable Court—

It is a Bridge necessary to be pass'd by all who travel to the County of Lincoln and the eastern part of this County and would be of very great public advantage if it were in good Repair

Your Petitioners therefore in behalf of this Town in particular—and to benefit & accommodate the Country in General—humbly pray that your Honours would grant a Lottery for the purpose of repairing said Bridge, & keeping the same in good repair in time to come—and as no Lottery since that above mentioned has been granted to this part of the commonwealth for any purpose whatever—they humbly hope your Honors will not deny their request—And as in duty bound will pray

Petition of Moses Ames in behalf of town of Fryeburg.

Commonwealth of Massachusetts

To the Honourable the Senate and the House of Representatives in General Court assembled June 1785

The Memoreal of Moses Ames in behalf of the Town of Fryeburg humbly Shewith, That the Town of Fryeburg was Doom^d in the Valuation Settled in the Year 1778, by Reason of their not Receiving the Requisition from the General Court, ordering them to Render an account, of the Polls, and Rateable Estate, within said Town, till after the Valuation was Settled'd—that upon Application being made to the General Court in the year 1780, the Court Resolv^d that the assessors of said Town Should Stay all Proceedings on the then Last tax act till Provision of the Valuation Should take place—

That on application being made to the General Court in the year 1781, Febr^y 16th The General Court Resolv^d That the Treasurer of the Commonwealth be Directed to Stay all Executions from the Town of Fryeburg untill Further order of the Generall Court, provided said Town of Fryeburg, pays in the one half of all Taxes laid on said Town, Since the Last Valuation was taken—Your Memoreilist begs Leave to observe that the Town of Fryeburg was Doom^d more than Double what it ought to have ben as appears by the Settlement of the last valuation, and Still Stands Charg^d on the

Treasurers Book, for the whole Sum (Except the Gold and Silver Tax)

Your Memoreilist humbly prayes that this Honr^{bl} Court would Excuse the Town of Fryeburg from such a part of all the Taxes laid on them as may by the last Valuation appear more than their just proportion by Being Doom^d as aforesaid, or Release the said Town as your Wisdom Shall see fitt — and your Memorilist as in Duty bound Ever prayes —

In re Unappropriated Lands in County of Lincoln.

The Committe appointed by a Resolve of the General Court of the 28th of Oct^r 1783, on the subject of unappropriated lands in the County of Lincoln received from Rufus Putnam Esq^r on the 17th of Nov^r last a plan of seven townships on the

Passamaquoddy River & Bay, & lying between the Rivers Schoodic & Cobscook, together with Moose Island, Dudley's Island & Trade Island, all surveyed by him, on which is represented the mouth of the Maggaeadava, as taken from an Hallifax plan.—they have also received a return of the quantity and quality of the land in each Township, and also of the names of those who have entered thereon:—The Committee immediately proceeded to advertize in the Independent Chronicle, and in the Essex, Springfield & Worcester Newspapers, the Townships & Islands above mentioned, giving a general description of the situation & quality of the same, & notifying the times & places, where more particular Intelligence might be obtained concerning them.

None of the land above mentioned has yet been sold, but there are some who propose to purchase if they should approve of the soil, & are waiting untill the removal of the snow will admit of their forming a better Judgment of its quality.

On the 17th of December last, an agreement was made by your Committee to sell to Jonathan Eddy Esq^r & his Associates, a Township on the east side of Penobscot River, above the head of the tide, adjoining on the lands lately surveyed by Barnabas Dodge & on the said River, the same to contain twenty five thousand acres, including a landing place) three acres of the land lying on the northwesterly corner of the lands, lately surveyed by the said Dodge, & exclusive of lakes,—the said Town ship to extend six miles back from the said River,—reserving two hundred acres of good land, near the center of the said Township for the future disposition of Government,—And the said Eddy agreed to pay to your Committee the sum of eight thousand dollars in the consolidated Securities of the Commonwealth, as soon as a deed of the said land shall be ready to be delivered, and the like sum of eight thousand dollars——in like manner, in one year from the delivery of the said deed & to give satisfactory

security for the last mentioned sum;—And the said Eddy further agreed to produce evidence to the General Court that the Penobscot Indians have relinquished their pretensions to the said Township, & to settle thereon, thirty families in one year from the first day of June next, & to appropriate two hundred acres to the use of the ministry; two hundred acres to the use of the first settled minister & two hundred & eighty acres to the use of a grammar School in the said Township, near the center thereof;—but it was nevertheless provided, that if the General Court shall not approve of the said agreement, that the same shall be null & void. —

Your Committee on the 14th of this instant February agreed with Robert Page of Winthrop to sell to him, or to him & his Associates a' gore of land adjoining to Livermore's town, containing about six thousand seven hundred acres, including ponds & bogs, for the sum of five thousand dollars, one half to be paid on or before the first Wednesday of June next, when a deed of the same is to be given, and the other half to be paid in one year afterward.

Your Committee have lately received from Rufus Putnam Esq^r a letter on the subject of the eastern boundary of this Commonwealth, which they apprehend contains matter that merits the attention of the Legislature which is herewith presented..

Declaration of Thos. Boyd Jr.

I Thomas Boyd jun^r of Lawful Age do testify and Say, That Sum time in the year of our Lord 1781 I was in company With Tho^s McGuyer and the Hon. Timothy Langdon Esq^r at which time the said McGuyer was adviseing with the said Langdon Respecting a matter between him his Father & Eben^r Fullerton against Justice Will^m McCobb. of Boothbay about altering certain notes that as I understood was Given by the said McGuyers & Foolerton for cost of their being committed to Goal & taken out (or admitt by advice of certain leading men of the County to come out.) for their being suspected to be persons Enemical to the United States of America; After M^r Langdon had inquired into the matter and Examined the Said McGuyers papers, he advis^d the said McGuyer, for one of them to bring an Action first against Justice McCobb, and the other two wou^d be allow^d Evidences & if that one recover^d the other might bring his action at the next Court & the third at a third Court, & Stil their wou^d be two for Evidences; but M^r Langdon said if they recovered on the first action, the other two Justice McCobb wou^d Settle as they ware all cimelar—Afterwards I heard the McGuyers

and fullerton agree for Tho^s to bring his Action first and old M^r Patrick McGuyer told me they were all to bare an Equal proportion of the Cost—And I very well remember that I was at pownalborough Court (I think the first tuesday of Sept^r the same year) when the cases of Tho^s McGuyer v^s S^d McCobb came to a hearing & Justice McCobb I understood recover^d Cost & McGuyer appeal^d to the Supreme Judicial Court: however in the mean time at Said Court patrick McGuyer told me that he & Fullerton attended Court there at their own Expence and that they had Fee^d a Lawyer. I think he mentioned Coll^r Taylor & that he gave two Dollars out of his own pocket to plead the caus for Tho^s McGuyer. Sum time afterwards I hapn^d to be in company with the two McGuyers & they both requested of me to try to get Justice McCobb to leve the matter to Arbitration for they did not want to go to the Supreme judicial Court with it, (or to that Affect) and agreable to the s^d Request I took an opportunity & talk^d with Justice McCobb about the matter, the said McCobb said he wou^d consider about it, until another oppertunity and afterwards he told me he wou^d concent to leve the matter to arbitration—And afterwards, a few days, I hapned to be in company with the two McGuyers & Fullerton & told them that Justice McCobb had consented to leve the matter to Arbitration, they three then went by themselves and had a long conference in private—a fue days afterwards I saw patrick McGuyer who then told me he had been to M^r Langdon advisery about the Matter, and Shewed me a Letter Sign^d by the s^d Langdon, directed to Tho^s McGuyer adviseing him by no means to sign joint Bond with his Father and Fullerton or it wou^d distroy their Evidance (as I understood being Evidances for one another) but Each to give and take Seprate Bonds—soon after a time and place was appointed for the parties to meet to come under Bonds, and agreable thereto the parties met, I hapned to be present, and the

McGuys & Fullerton Sign^d Seprate Bonds to Justice McCobb & he to them to leve the matter to the determination of John Stinson Esq^r Nath^l Thwing Esq^r & Deacon Edw^d Young and after the signing and delivery of those Bonds I heard Justice McCobb ask Tho^s McGuyer whether he was amind to have Lawyers to plead befor the arbitrators for he wanted them to know that he might prepare himself accordingly—I heard Tho^s McGuyer ask his Father what whas best, and the old Gentleman advis^d to have none, and finaly it was agreed upon by the parties to have no attorneys to plead before the Arbitration but each party plead for themselves—

When the Arbitrators met to decide the matter I was call^d upon as an Evidence and heard the whole trial—and Justice Langdon appear'd as an attorney for the McGuys & Fullerton to plead their caus, before the Arbitrators, Justice McCobb objected against it, mentioning the agreement that no attorneys was to plead on Either side, and that he was no weis prepar^d to the contrary of that agreement—Justice Langdon notwithstanding insisted on pleading the caus of the McGuys side let the consequence be what it wou'd for he said he had a right to plead before any Court whatever. Then Justice McCobb moov^d for a continuance until he cou^d Send for an Attorney to plead on his side so as to have an Equal chance with the advance party—which continuance was Granted, & Justice McCobb Sent for me, and the Messenger next day return^d & brought intelegence that the gen^t he sent for was Engag^d & cou^d not come—after which Justice McCobb concented to let the matter come to a hearing notwithstanding their having the advantage of a Lawyer & he none—I well remember upon trial of the caus that Justice McCobb had one Capⁿ Ichabod Pinkham there as an Evidence in the caus and the Arbitrators refus^d to admit him to give Evidance for no other reason as I understood than that he

was one of the first Complainers against the s^d McGuyers & Fullerton for their being Enemical against the States & that they Suppos^d he receiv^d part of the money the s^d McGuyers & Fullerton paied on that Account And I heard Justice Langdon Say after the award was given in that he call^d himself a very good hand to make up a bill of cost (or words to that affect) and that the arbitrators had allow^d his cliants all their demands Excepting a few shillings — I well remember that patrick McGuyer & Ebenezer Fullerton was allow^d Evidences before the Arbitrators in the caus of Tho^s McGuyer against Justice McCobb — and further saith not —

Testimony of Andrew Wall.

Andrew Wall of Lawfull Age, Testifies, that in February in the year A. D. 1780 that he was Summon^d as an Evidence Respecting an examination or trial before Justice McCobb of Boothbay of Ebenezer Fullerton, Patrick McGuier and Tho^s McGuier all of Boothbay, which three parsons were complained against to s^d Justice of their Corrasponding with the Enemies of America at Begeduce & elsewhere, when the above three persons were Conven^d before Said Justice they were Required by the Justice to take the Oath of Fidelity or Allegiance to the State of Massachusetts, but they all Refus^d taking said Oath, and after the matter being debated between them and ^{re} Justice for about the Space of three Hours Fullerton & the two McGuiers went to Bed, next morning the Justice finding them obstinate in not taking Said oath, Said Justice Sent them all three to Goal, I being one of the Guard to Convey them to the said Goal and on our way thither and as Justice McCobb was not far behind who followed us to Wilscasset Point, I persuaded one of the McGuiers to take y^e above oath who answar^d he wo^ud be Dam^d if ever he wou^ud take said oath, when we got to the goal Fuller-

ton and the two McGuiers plead with the offier who had them in Custody not to put them in goal, and that thay wou'd take the oath next morning & go hom together, next morning they went to Esq^r Bowmans to have the oath administr^d to them but he declin'd their Request and told them it was most proper for Justice McCobb to admitt them to their oaths, upon which they desired Esq^r Bowman to write a few lines to Justice McCobb desiring him to Com and administer the oath to them and that they wou'd be willing to pay all the Cost that had hitherto arisen, — Sometime after I think about a day or two, I was Requested at Booth Bay by Justice McCobb to call the Committee of Safeity to gather to see if said Commitee would Consent that Justice McCobb Should Release the three prisoners viz^t Ebenezer Fullerton, Patterick McGuier & Thomas McGuier

afterwards I was present at an arbitration on a dispute between Justice McCobb & Tho^s McGuier, and that Ebenezer Fullerton was admitted to give evidence for Tho^s McGuier, and farther Saith not. —

Re:selling Confiscated Estates in the County of Cumberland.

To the Hon^{ble} Senate, & the Honorable House of Representatives of the Commonwealth of Massachusetts in General Court assembled June 1785.

May it please your Honors

We the Subscribers, a Committee for selling confiscated Estates in the County of Cumberland, having lately received a Resolve of the General Court, to make sale of the Estate of Francis Waldo Esq^r late of Falmouth in said County, an absentee—beg leave with all deference, to offer your Honors their Sentiments upon the Subject—

1. As, in obedience to said Resolve, they have considered it their duty to advertise the said Lands for Public Sale, they judge in the part of the State where money is extremely scarce, they will be sold for but a small part of their real value.

2.—We are informed, that Brig Waldo, whose Debts, by said Resolve, the said Treas Waldo's Estate is to pay one fifth part of—had near a thousand Acres of Land in this Town—and a large quantity in the County of Lincoln (not yet divided among his Heirs, which we think ought in the first place to be appropriated to pay his Debts, before any part of Francis Waldo's Estate is sold for that purpose— and

3. The said Francis Waldo as we are also informed, has also a large quantity of Land in the said County of Lincoln, which has not been confiscated and which we humbly think ought to be applied to the payment of the said Brigad Waldo's Debts, either in whole or in part—& that his whole share of Debts ought not to be paid out of the Lands confiscated in this County—

If your Honors should notwithstanding, adhere to said Resolve & order the said Land to be sold as therein directed we beg leave further to suggest to your Honors the expediency of instructing us to give some reasonable Credit for Payment—on good Security—

M^r Freeman waits upon your Honors with this Memorial and as the 4th day of July next is fixed upon by the Committee in conjunction with M^r Wetmore & his Wife Administrators

upon the Estate of the said Brig Waldo for the sale of said Lands we pray your Honors to order that he be immediately notified hereof— and such seasonable instructions given us in their Repport as your Honors, in your wisdom shall judge best

And as in duty bound will pray

Gentlemen of the Senate & Gentlemen of the House of Representatives

By a Letter I have received from M^r James Avery Collector of Excise at Machias, dated 10th of May last, he informs me, that the Fort & Blockhouse at that place, were built on land belonging to M^r Nathan Longfellow: & that said Longfellow had begun to pull down the Blockhouse but on his forbidding him, he desisted.— In July 1783 the

General Court passed some Resolves relative to that Fort, which afterwards were in part suspended. As M^r Avery wishes to be instructed on that head, you will please to let me know what instructions will be proper to be given him—

Beauchamp & Leverett Resolve.

Commonwealth of Massachusetts

In the House of Representatives June 1785

The Committee appointed to confer with the Claimants under the grant to Beuchamp and Leverett, report by way of resolve.

Resolved that Rufus Putnam Esq^r with power of appointing a deputy and chairmen all of whom shall be sworn to the faithful discharge of their office, be and hereby is impowered and directed, to make an accurate survey of the Rivers Kennebeck and Penobscott and the sea Coasts adjacent,—taking the Distance between the said Rivers, at least in three places, the highest distance to be taken at the head of the Tide on Penobscott River, and keeping a Compleat field Book, of all Rivers, Streams, Bays, Ponds and mountains and other remarkable places within the said Limitt making all such Boundary marks as may be necessary and Lay the same as soon as may be before the Justices of the Supreme Judicial Court, who are here by impowered and Requested finally to determine in Law and equity the boundaries of the patent granted to Beauchamp and Leverett, and the said Justices of the said Supreme Judicial Court are hereby impower'd to cause Deeds of Quit claim and Division to be executed with the aforesaid Patentees, which final Determination Shall Bar any and all Demands of this Commonwealth & the said Patentees, their heirs and assigns each upon the other

Provided that the said Patentees shall be and hereby are held bound and Obligated to execute good and sufficient warrantee Deeds in fee simple of one hundred Acres to each and every settler who may fall within the aforesaid Patents not possessing legal titles, each Letter paying or securing to said Patentees the Value of the said hundred Acre Lotts respectively, which Lotts are to be estimated according to the Value of the Land when they severally took possession thereof —

Commonwealth of Massachusetts

In Senate March 15th 1785.

Whereas it is highly expedient that the Limits of the Grant made by the Council of Plymouth in the year 1629 to Beauchamp and Leverett Should be so ascertained, as to avoid all future Litigation, or doubt, respecting the same— And whereas from a thorough enquiry into the nature and extent thereof, it appears to be eligible for this Commonwealth to Confirm to those Deriving title from the said Grant a Tract of Land equal to a tract thirty Miles Square with the Islands contiguous, and that in such form as to give validity to the past doing of those deriving title as aforesaid, and with Due attention to Individuals who may have made settlements on Lands by themselves supposed not to be included within the aforesaid Grant, upon such Terms and Conditions as are Conservant to the great Principals of Mutual Right and equity— Be it therefore

Resolved that the Legislature will and do hereby Confirm to those interested in and Deserving Title from the aforesaid Grant— The following tract of Land (to wit)

Beginning at a Point of Land called Rumsons Point being East of the mouth of the River Muscongus and Extending up the said River according to its General course into the Country as near as may be until it intersects a Line fifteen Miles East of Kennebeck Thence Extending northwardly in

a line fifteen Miles Distant from the said River Kennebeck until it intersects the West line from Penobscot River hereafter mentioned — Then begining at the aforesaid Rumsons Point and from thence Runing along the Sea Coast and by the bay of Penobscot to the mouth of the River Penobscot and from thence Extending up the said River to a Stream called Hathorne Mill Stream from thence Extending a due north Course one hundred and five Chains and Twenty six Links, and from thence a West Line to be Drawn to the Line fifteen miles east of Kennebeck — The same west Line being the northern boundary of a Tract of Land assigned to William Vossel Richard Leachmore and others named in a Deed indorsed and made May 31, 1773 Between Francis Waldo Thomas Flucher and Hannah his Wife, and Isaac Winslow on the one part, and the said Vossel Leachmore and others therein named on the other part as by Referring to the same will fully appear — Together with any Island whose center falls within Three Miles of any Part of the aforesaid thirty Miles Square

Provided the Premises aforesaid do not interfere with any former Grant.

All of which nevertheless is on the following Conditions, that those to whome this Confirmation is made shall pay to the Commonwealth the full Value of the surplus Quantity of Land if any there be which the aforesaid Deposition upon survey thereof shall contain over a Tract equal to thirty miles square Exclusive of the Islands aforesaid ^A Within Eighteen months from the Passing this Resolve and the Interest for the same from the Time the value of the said Surplus Land shall be Determined untill paid and shall Submit to such Terms of Settlement of the said Surplus Land as the committee appointed for the sale of unappropriated Lands in the County of Lincoln may think Just and Equitable, and in order to avoid any Dispute about the part

of the aforesaid Land on which the estimate of the said Surplus Land Shall be made and Determining the Value thereof Be it Resolved that so much of the north part of the afore Described Land Extending in Equal Widths from the River Penobscot to the Line fifteen miles east of Kennebeck as the said surplus shall amount to—and the said Surplus land to be paid for at its Value which Value is to be Determined by comparing the Situation and Quality of the said Lands with the Situation and Quality of other Lands in the county of Lincoln which are or may be sold in behalf of the Commonwealth, and the value of the said surplus Land to be Determined by the Committee appointed to Sell Lands in the said County of Lincoln or the Major Part of them, in manner, and by the Rules aforesaid ^B and that all Persons now in Possession of Lands which may happen to fall within the said surplus by actual improvement made thereon, and who had such Possession before the first Day of January 1784 and not by Lawful Deed claiming or holding such Possessions under those Interested in and Deriving Title from the aforesaid Grant, shall have such ^A Quantity; ^A thereof conveyed to them by those to whom this confirmation is made and on such Terms as the Legislature shall within One year from the Passing of this Resolve Determine ^D And that those to whom this Confirmation shall enure shall make and Execute a Release and Quit Claim of all other lands (except those contained in the Discription aforesaid) to whom they Claim Title to from the aforesaid Grant to Beauchamp and Leverett, and Lodge the Same in the Secretary's office within three months after the Survey of the aforesaid Land shall be Completed— Provided allways that if any of those by whom it is Requisite by this Resolve that the said Release or any conveyance shall be made are under any Legal Incapacities the Time for Executing the same or their parts shall be Extended untill three

months after such Incapacities are Removed and no Longer, and that No Right or Rights which may have escheated to this Commonwealth be included in the said Confirmation—

Sir

I sat out on my Journey to attend Falmouth Court to be held ye 4th Tuesday of May by adjournment, but was taken sick at Wells and obliged to return — I wrote to M^r Frothingham the Bearer of this respecting the Action of Cushman against the Inhabitants of Plympton in particular and requested him in behalf of said Inhabitants for whom I was engaged to get it continued on aecount of my inability to attend on their behalf or if he could not, to carry it up by demurrer, but I am this moment informed by him that the Court would not continue it, and the Ptt^s Council would not consent to a demurrer; & therefore he supposed the Inhabitants to be defaulted without defence & did not appeal — I am surprised he did not plead to issue & appeal. But as the matter is circumstanced, There cant be a doubt, but upon your immediately petitioning the General Court, they will order the Execution to stay, and the default to be taken off

and the Inhabitants to be admitted to make defence next Terme.— I would advise you to do it without delay while the Bearer Mr Frothingham is in town who can move the facts necessary to support the Petition —

I would have drawn one for you but he is in hast & cannot stay.

It is very unfortunate for you, & had I failed you on any other account than sickness I should have been very uneasy about it; & I cannot but think it very hard as a town was concerned & their Council sick that neither a Continuance nor Demurrer could be obtained — but the action defaulted — especially where there was such good ground for defending the action —

Petition of Inhabitants of Majorbigwaduce.

Commonwealth of Massachusetts

To the honorable the Senate of said Commonwealth —

The Inhabitants of Majorbigwaduce humbly shews

That the Bill for their Incorporation into a Township by the name of Penobscot, now laying before your Honors, was brought before the Legislature by the express Permission of the two Houses in Consequence of the Report of the respectable Committee appointed by the Government for the Sale of Eastern Lands &c & which Report was founded on the Petition of a very large Majority of the said Inhabitants, praying for Aid & Relief in their unfortunate Circumstances; Your Petitioners would beg leave humbly to suggest to your Honors that there are One hundred & thirty Families & upwards settled within the Limits mentioned in the Bill who for several Years during the late War laboured under various

Distresses & Difficulties from being under the Controul & within the Power of the British Troops; That since the Peace they have been exceedingly desirous of being the liege subjects & useful Citizens of this Commonwealth, to discharge the Duties, pay the Taxes & enjoy the Rights common to the other Inhabitants of the State, & for these interesting & substantial Ends, they have solicited for the Privileges annexed to a Corporation, which being an Incorporeal Hereditament can in no wise determine the Right of Soil to belong to your Petitioners, who are ready to treat with the Government for whatever Estate they possess in the whole of said Lands as soon as the State Agents shall think proper to make an Offer to the Individuals who compose the Plantation on the Subject, but as the Purchase of the Soil is to be individually made, the Town would have nothing to do with it as a Corporation & consequently the Bill which we humbly pray your Honors Assent to could in no wise affect the Bargain; Your Petitioners are Citizens of the Commonwealth & compose a larger number of Inhabitants than many Towns in the State, they pray to become useful by being incorporated & to feel themselves members of the Government by enjoying the Privileges common to its other subjects.

The Govr's Speech to the Gen^l Court Oct^r 20, 1785.

Gentlemen of the Senate and Gentlemen of the House of Representatives —

Before I offer any new business for your consideration, it is proper you should be informed what has been done in regard to divers matters, which have already been the subjects of your Acts and Resolutions. Accordingly I should inform you: That another Commissioner is authorized to settle accounts between the United States and this Commonwealth, and will probably be here in a few days to enter upon the duties of his office.— It may be expected therefore that that business will be brought to an issue as soon as it can be: and this expectation is supported by a letter from the Secretary of Congress, who writes me, that from the progress made in settling the accounts between the United States and individual States, — .. — .. — | and private creditors within the same, and from the measures taken to hasten and facilitate the progress of such settlement, there is reason to hope,

the great work will soon be completed. With regard to the line of jurisdiction between this Commonwealth, and the State of New York, so far as it respects the Eastern boundary of the latter, our Delegates, to whom, as well as to Governor Clinton, I sent an authenticated copy of the Act of the General Court, empowering Commissioners to settle that line, write me, that the Delegates of the two States had met on that business, but had not then been able to agree on suitable persons as Commissioners, which makes it probable, that Congress will have the appointment of the Commissioners, pursuant to the mutual Acts of the two States, without any such previous agreement.

With respect to the conduct of New York relative to the Western Territory claimed by this State, I wrote, agreeably to your request, to Governor Clinton, and to our Delegates concerning it. A conference between them was had upon the subject. The substance of it you will find represented in a letter from our Delegates: in agreement with which Governor Clinton informs me, that according to the duties of his office he shall not fail to lay my letter and the concurrent resolutions of the Senate and Assembly before the Legislature of New York at their next meeting; and that the earliest opportunity will be embraced of communicating whatever they may direct on the subject.

In compliance with your request Gentlemen, expressed in several resolutions the last session. I transmitted to the several States in the Union a copy of the Act you then passed for regulating navigation and commerce. It was accomplished with a circular letter of mine to the Governor of those States respectively: in which letter among other things, it is represented, that it is much to be desired that Congress may be vested with a well guarded power to regulate the trade of the United States: which being effected our Act will cease to

operate; that in the mean time we have a full confidence, that the mutual friendship of the several States towards each other, and their sentiments of honor and justice will be a sufficient pledge, that when measures wisely calculated to defeat the unjust designs of any foreign power against the trade or general interest, of the United States, are taken by any individual State, they will be adopted by all: so that no one State may be left to suffer essentially in its own trade by its laudable zeal and exertions for the common safety. To this letter the Governors of several States have replied that they will lay it before their respective Legislatures at their next meeting. With respect to the Legislature of the State of New Hampshire, I have the pleasure to inform you, that with a generosity and magnanimity becoming one of the United States, and which I am persuaded the rest will not be backward to manifest, they early passed an Act correspondent to ours for regulating navigation and commerce. Such correspondent Acts adopted by all the States would be productive of happy effects, until Congress should ordain regulations for the general Commerce of the confederated body.

In regard to the enlargement of the powers of Congress, I signed and forwarded to our Delegates, agreeably to your request, the several letters you had prepared on that subject. They viewed it, and justly, as being of great consequence; and wishing their sentiments on it might be known to their Constituents, they have, from a sense of the duty they owe them, delayed taking any measures concerning it, until they shall receive your further instructions. The reasons of the delay their letters of the 18th of August and 3^d of September will inform you.— This being a matter of great importance will require your attentive consideration.

There are divers other things, that have been the subject of the Acts and Resolutions of the General Court, and the State of them will be communicated to you by message.

I shall now lay before you several matters, which you will probably think require your immediate attention.

By a letter I have received from Mr Secretary Thomson of the 24th of August, it appears, that it is become necessary & essential to the harmony of the Union, that Congress should be furnished with the means of settling the proportion, to be born by each State, of the General expences, that have been, or may be, incurred for the common defence and general welfare. And I am requested to bring this subject again under the view of the Legislature of this State, and earnestly to recommend to them, as they have adopted the new rule of appointment, to take speedy and effectual measures for numbering the inhabitants of this State, and make a return thereof to Congress. As by that letter it seems probable that the new rule will be adopted by all the States, I do, in compliance with the request, earnestly recommend to you, Gentlemen, to take speedy & effectual measures for the said purpose. On a former requisition of Congress an Act was passed the last year upon the principles of the rule mentioned in the eighth article of the consideration: by which Act, the number of the inhabitants in the Commonwealth, was ordered to be taken pursuant to that requisition and returned by a certain day into the Secretary's Office. Accordingly a great number of towns, but not the whole, have made return. Perhaps the carrying the Act into full execution relative to the number of our Inhabitants, will answer the intention of the new requisition.

With the said letter were enclosed several resolutions of Congress, and particularly one of April 18th 1783, to which a further attention is intimated to be necessary, for the purpose of establishing permanent and adequate funds, which shall operate generally, & in just proportion towards doing compleat justice to the public creditors, and for restoring

public credit: and it is observed in the letter, that every day's delay increases the embarrassments of the union.

By a resolution of Congress of the 27th of September you will observe Gentlemen, that for the service of the present year, and for the payment of one year's interest on the foreign & domestic debt, and other purposes, it will be necessary, that three million dollars, in addition to six hundred forty nine thousand eight hundred and eighty dollars, be paid into the common treasury on or before the first day of May next. These two sums are the whole amount of the present years estimate: from which the latter sum is deducted by reason that so much of the Dutch loan was applied towards a discharge of the last years estimate, and which the sums required from the States last year will replace: a compliance with that requisition being relied on by Congress to discharge, or make good, the said deduction. Our quota of the three millions is set at four hundred forty eight thousand eight hundred and fifty four dollars: for the seasonable payment of which, it is incumbent on you, Gentlemen to make the necessary provision.

As a motive for the chearful payment of the sum now called for, as well as of past arrearages, the States are reminded, that Congress have passed an ordinance for the survey & sale of the western territory of the United States; and that the proceeds thereof will be applied as a sinking fund to extinguish the domestic debt. Future requisitions for interest on the domestic debt, will therefore be reduced in proportion as this fund may be rendered productive.

Your attention Gentlemen is also called to the state of our own particular debt, and to ways and means of discharging it. The total amount of it by the Treasurer's account is one million four hundred sixty eight thousand five hundred fifty four pounds seven shillings and five pence, and the annual

interest of it is eighty eight thousand one hundred and twelve pounds thirteen shillings and three pence. The means of discharging the debt are, the product of the Impost and Excise, which from June 1784 to June 1785 was fifty seven thousand three hundred and fifty three pounds thirteen shillings and eight pence; and the one per Cent on the business of Auctioneers, which for the same time was eleven hundred seventy three pounds eleven shillings & six pence. These products, with that of the New Impost and Excise, may be estimated equal to the interest of the debt; in which case whatever sum you think proper should be annually raised by tax, or in any other way, will, after deducting the common charges of Government, discharge so much of the principal of it. By my direction the Treasurer has found a plan and calculation for the gradual payment of the whole debt. According to that plan an annual Tax of one hundred thousand pounds with the aforesaid revenue, as above stated, will cancel the whole debt, both Interest and principal, in fifteen years; and at the same time pay the ordinary charges of Government.— Such a tax, with the annual requisitions of Congress for our proportion of the national debt, will not be distressing to the State: especially as in the future requisitions there probably will be provided certain facilities of payment, in like manner, as there are in the present requisition.

Punctuality in the payment of Taxes is so essential to public credit, that the existence of the latter depends upon it. To insure it, I would recommend to your consideration whether in future Tax-Acts it should not be provided that in every town on each person's tax, not paid by a given day, interest should be required from that day to the time of payment. This requisition would be a stimulus to punctuality, which would be further excited by an allowance of five per Cent. for prompt payment. Such a charge of interest is due to the Commonwealth at large, and justice demands it, with

regard to those towns & individuals, who have been, and are, punctual in paying their Taxes.

There is a large sum now due for past Taxes, the greater part of which is appropriated for the redemption of new Emission bills, and of State Notes payable in 1784. When these taxes are all paid, there will remain, after making an allowance for those appropriations, a considerable balance, perhaps about eighty thousand pounds, subject to your appropriation. The honour and faith of the Government being plighted for that redemption, the reminding you of it, I am persuaded, will procure effectual measures to be taken for the payment of those Taxes.

On the present year are laid several Taxes, amounting to a large sum. They are appropriated for the payment of such a part of the consolidated notes as becomes due the present year; and for the redemption of the remaining army Notes including such of them as will be payable the next year.

These several notes exclusive of the Interest due on them amount in the whole to two hundred seventeen thousand two hundred and fifty eight pounds thirteen shillings and six pence, and are included in the total aggregate of debt above mentioned.

If you should think this sum, with the present requisition of Congress, too large to be raised the present year, and the Taxes laid on the several succeeding years for redeeming the other consolidated Notes, too large for those years, especially when connected with the annual requisition of Congress, you may possibly think it needful to take a minute view of the State of our whole debt, and the taxes now laid on the present and future years for canceling it, and adopt the above mentioned, or some other, plan for that purpose. But in that case, Gentlemen, I imagine you will think it necessary, in order to maintain the plighted faith of the Government, to procure the consent of the Government creditors, previous to the

adoption of such a plan. I cannot apprehend there will be any difficulty in obtaining their consent, as the provision, made by the Acts of Impost and Excise, will, probably be sufficient to enable the Treasurer to pay the annual interest of the debt punctually at the time it shall become due, untill the whole debt be extinguished.

In considering the means of cancelling the public debt, it will occur to you, that the unappropriated lands belonging to the State may be applied to that purpose: but as the sale of them, the time and manner of payment, and the productiveness of the sale, must be very uncertain, they should not, in my idea of the plan, be considered as one of the means, on which the executing of it should depend. If the sale however, should be productive, the product may be applied, from time to time, towards the lessening of the debt, and hastening the discharge of it. Such a plan well laid, and punctually executed, would, not only extricate us from the embarrassments of a heavy debt, but restore the public credit: on which the honour and welfare of the Commonwealth so essentially depend.

A much speedier method, than the one above proposed, for annihilating the public debt, would be to permit the present tax laws to operate. In which case, the whole debt, both interest and principal, might be paid in three years, or by the end of the year 1788: beyond which no taxes are laid. But of the practicability of it, you are not only the constitutional, but in fact the best judges.

The state of the Militia, which is the Constitutional and the safest defence of the Commonwealth, merits your consideration.

In the several Brigades the Regiments are in a considerable degree destitute of Officers, occasioned by the resignation of their Commissions. Many of them by virtue of their Commissions having obtained rank, and an exemption from

the common Militia duty, have very early, for reasons without doubt satisfactory to themselves, resigned their Commissions: and this practice will probably be continued unless some effectual measures be taken to prevent it. As the Militia-Act needs some amendments, a clause in a Supplementary Act, making the rank and privileges of Officers as such, depend on their holding, for a given time & with reputation, their respective Commissions, might go far to remedy the evil: which unhappily has been so long prevalent.

You will also please to recollect, that each of the four divisions of the Militia is to have a Major General, whom the Act makes a very essential Officer to the well ordering of the militia. As there are but three Major Generals commissioned and two of them in the same division, you will think it needful to elect a fourth, and assign to each of the other his respective division. Permit me to urge a speedy attention to this business.

There is another matter, Gentlemen, essentially important to the well-being of the Commonwealth, which claims your most serious attention; and which, by the unanimous advice of the Council, I now lay before you. It refers to a design against the Commonwealth, of very evil tendency, being calculated for the purpose of effecting the dismemberment of it. That design has been for some months evident by a great number of publications in the Falmouth Gazette: calling upon the people of the Counties of York, Cumberland & Lincoln to assemble together for the purpose of separating themselves from the Government of this Commonwealth; and of withdrawing from the duty and allegiance they owe to it. In consequence of those calls about thirty persons, as I am informed, assembled on the fifth instant at the Meetinghouse in Falmouth, and voted to choose a Committee to draught a circular Letter to the several Towns and plantations in those three Counties, requesting them to meet in Convention, by

their Delegates on the first Wednesday of January next, to consider the expediency of the said Counties being formed into a separate State.

The duty I owe to the Commonwealth in general, and to the people of those Counties in particular, in dispensibly obliges me to lay this matter before you, that you may take such measures concerning it as your regard for the collective body of the Commonwealth shall dictate.

What I have further to communicate to you Gentlemen, will be by way of message. The Letters and papers referring to the communications now made, will be delivered to you by the Secretary.

Action on Governor's Address.

May it please your Excellency

The two branches of the Legislature, met your Excellency at the time of the late adjournment, with a full confidence,

that during the recess (the first since your Excellency's administration of the executive department of Government,) a just attention had been paid to those important matters, which the Legislature had entrusted to your care, as well as those which naturally fell within the line of your duty,—their expectation has by no means been disappointed. — Your Excellency's speech, communicated to the Legislature, the measures that you had taken, to carry into effect the Acts & Resolutions of the General Court, in their preceeding session; and also, such other matters, as by the Resolutions of Congress, called for their attention: and after having given a concise view of the state of the finances of the Government,—suggested such measures, as appeared to you likely, to put them on a more respectable footing. These communications were made in a plain & intelligent manner, as became a republican Governor; and your Excellency will not expect a reply, in any terms but such, as become a free, independant & republican Legislature, whose duty it is, to watch over the conduct of the highest servants of the Commonwealth,—to testify their approbation of their conduct ¹ without flattery when it merits it; as well as their disapprobation ² without asperity when otherwise. ³ The critical situation of the common of America; & the peculiarly distressing state of it in this Commonwealth made it necessary, that some decisive & vigorous measures should be taken, to arrest it in its flight; and if possible, to bring to their senses those foreign Powers, who, without benefit to themselves, seem to be desirous of encreasing our embarrassments: ⁴ these measures will not have the full effect desired; unless our sister States ⁵ have similar ideas ⁶ to impress them suitably on that head, your Excellency's Letters appeared to be ⁷ verry well adapted; and state with strict propriety, the importance of a coincidence of measures, to be produced by a sense of common dificulty & mutual affection. ⁸ The effect produced by these Letters is strongly

marked in the answers from the Executives of the several States. ⁹—The attention which your Excellency has paid to the finances of the Commonwealth; ¹⁰ and the knowledge of them, which you appear in so short a time to have attained ¹¹ we cannot omit to recognize. It is by a knowledge of this business, & an investigation of the ¹² resources ¹³ of the Commonwealth ¹⁴ to supply the necessary means of supporting the credit ¹⁵ and safety of the Government, that the greatest good may be derived to the Community: this knowledge, & this investigation, can be obtained & pursued, with so ¹⁶ much greater advantage, by ¹⁷ one person at the head of the Government, than in any other way,—that we still look to your Excellency to pursue the tract, with that patience, which you have hitherto exerted & hope, that still further advantageous ideas, on this subject, may be laid before the Legislature. ¹⁸

19X The General Court went into an immediate consideration of the requisitions of Congress; but as the business of valuation has been in hand at this sitting, & not yet fully compleated: and as this ²¹ in our Government ²² was necessary to be settled before ²⁰ a new & so important a tax ²¹ could be assigned on the people no decisive measures have yet taken on those requisitions; after a ²² very short recess, they will be seriously taken up, & we doubt not this State will still ²³ be distinguished by ²⁴ every measure which is calculated to promote the general union, & the credit of the United States.—

Your Excellency will find that such further measures as were deemed necessary, have been taken for numbering the inhabitants of the Commonwealth.

²⁵ The state of our own particular debt, lies with great weight on the minds of the Legislature: effectual measures to support its credit have been postponed for the same cause, which has occasioned the consideration of the Continental requisitions to be postponed. Some measures have been taken to enforce the payment of taxes, & to punish delinquents. ²⁶

The State of the Militia has been attended to by the Legislature, & a bill is now under their consideration²⁸ to render it respectable.

The Legislature strongly feel the danger & impropriety of individuals, or bodies of men, attempting to dismember the State:²⁹ it would be improper for them, to give a name to an offence, which, is doubtless of a very high nature, and which if necessary, must be judicially determined on. Further legislative Acts to prevent such attempts in future, appear to be necessary, & a Committee is chosen to bring in a bill for that purpose as confusion & every disorder must naturally follow, if such attempts are not timely defeated.³⁰ —

The union of the several branches of the Legislature, with the Supreme Executive, in all measures that concern the public welfare, is at all times, a most desirable object; the exercise of the utmost constitutional freedom in deliberating on these measures, is the most probabal means, to produce that union, while the views of those concerned in the public departments are pointed to the good of the whole. The happy union which has subsisted between your Excellency & the Legislature gives us great satisfaction, as being founded on this basis, as we doubt not, your Excellency will continue in these views, we hesitate not, to assure you of every constitutional support of the Legislature.

Memorial of James Sullivan.

To the Honorable the Senate and House of Representatives of
the Commonwealth of Massachusetts in General Court
assembled

The Memorial of James Sullivan Humbly shews, that in the year 1782 the Inhabitants of a plantation At the head of the township of New Bristol delivered him a petition which he now begs leave to prefer to your honors, instructed him to offer it to the then general Court, that he Either through forgetfulness, or for reason which he cannot now recollect omitted presenting it according to his engagement. by which the petitioners consider themselves as agrieved and request him now to offer it with the above state of facts hoping that it can be no less effectual now than it would have been at that time he is also requested to inform your honors that the petitioners would have purchased the Lands which they have Cultivated of the Committee who have the direction of such sales but have it not in their power to pay either money or public Securities for them, but now take leave to propose that a Conditional Grant may be made them in the following manner viz that the same Act which Grants them the soil may Incorporate them as a Town, and that the Grant be upon Condition that they within such time as your honors shall think fit by their Agents Lawfully appointed shall lodge in the Treasurers office their bond for such sum as the same Land Shall be Set at payable at such day as shall be directed. Your Memorialist only begs leave to add that when he considers the suffering of these people during the late War their most perfect inclination to yield obedience to the Laws, and the distress which must be consequent upon rejecting their Petition, he feels himself well assured that they will have all the attention which they can expect, and which good policy may at this time dictate

To the Honourable the General Court of the Common Wealth
of Massachusetts —

Humbly shew the subscribers Inhabitants of a Tract Lying at the Head of the Township of New Bristol in the County of Lincoln and belonging to the Government that they have settled more than fifteen years ago upon the same Lands having then no doubt but that the Government would in Consideration of the adjacent Lands being made better by their Labours quiet them in their possessions and therefore humbly relying upon the Clemency of the Government they have expended much time and toil upon their new plantation but being as to Town Government in a state of nature, they find great difficulty in preserving from the hand of Rapine the fruit of their honest industry—that they have since the Commencement of the present war uniformly exerted themselves in defence of their Country and have within the last Summer put their Lives and property at hazzard and undergone all the hardship necessary incident to an invaded People in defending those Labours which can never be of advantage to them or their Families without your Honours attention to their Petition —

Wherefore they Most humbly pray that your honours would consent that a Township shall be laid out there, of twelve miles Square and make a grant thereof to your Petitioners for such Sum, or on Such Conditions, and with such reservations, as your honours shall think to be most condusive to the Public Good and should any part of the same be reserved to the State the Cultivation of the residue will Soon impress more value upon the part referred than the whole can in any other way be made worth and as we in Duty bound shall Ever pray

*Letter of resignation from William Lithgow Jr Esq.*George-Town 19th October, 1785

Sir,

Conscious that my duty as a member of the Legislative Body, demands at least a general application to public business, during the several sessions of the General Court; but sensible at the same time, that various private engagements, and an indispensable attachment to the business of my profession, prevent me at present, from paying that attention to the important concerns of the Public, which my duty suggests and my inclination strongly urges me, in a public Character, to adopt; I feel myself therefore constrained from motives of Justice to my Constituents, and a zealous undivided attachment to my Country, and this Commonwealth in particular, to resign my seat in the Honourable Senate: to which I have the honour of being elected, as a Member for the County of Lincoln

I have only to add my sincerest wishes, for the present and future happiness, prosperity, and glory of the Commonwealth, and flatter myself that this notice of my Resignation, will arrive seasonably for New Election agreeably to the Constitution

Govr's Message, Oct^o 27, 1785.

Gentlemen of the Senate and Gentlemen of the House of Representatives —

I received yesterday two Packets by the Post from New York. One of them from the Minister for foreign Affairs, giving information, that the Algerines had declared War against the United States.

As this Event must greatly effect the Commerce of the United States in General, and of this State in particular, it is a natural presumption that Congress will make it the Subject of their speedy and attentive deliberation; and that the several States, and this among the rest, will very soon hear from them in regard to it.

In the mean time you will without doubt think it proper, that this intelligence, and the letter, upon which it is founded, should be published in the News Papers for the information, particularly of those, who are in the mercantile line.

The other Packet, dated the 18th ins^t at New York is from Nathaniel Sackett Esq^r accompanied with a printed copy of a Memorial presented by him to Congress proposing the Settlement of a new State whose boundaries are described in the Memorial. He represents it as essentially necessary to establish a new State in the situation proposed, in order that it may be a Barrier against the British settlements in that neighbourhood, which are carrying on with great rapidity. Mr Sackett thinks such an establishment of great importance to the United States; & that the Memorial should pervade every State in the Union to bring it forward. The Memorial, with divers letters and Newspaper-Accounts printed with it, are now laid before you for your consideration.

I have a few lines from our Delegates, enclosing a Resolve of Congress of y^e 12th Instant which will be delivered to you for your information.

Governor's Message Nov^r 24th 1785.

Gentlemen of the Senate & Gentlemen of the House of Representatives.

Upon receiving information from our Excise Officer at Machias, that the Inhabitants of Moose Island in Passamaquoddy Bay in this Commonwealth had been notified by the Sheriff of the County of Charlotte, in the British Province of New Brunswick, to send jurors to that County Court, on penalty of forfeiting their Estates in case of refusal, I wrote a Letter on the Subject to M^r Carlton, Governor of that Province dated the 9th of September. As I was not informed, that Gov^r Carleton had interposed his authority, I mentioned

to him, that I was inclined to believe my informant was mistaken in his opinion, that the Government of New Brunswick had given its sanction to a measure altogether unexpected & insupportable; & that I assured myself he would issue orders effectually to prevent the above mentioned, & every other encroachment on the territorial rights & Sovereignty of this Commonwealth, & of the United States—

To that Letter I have received an Answer, dated at St John the 18th of Oct^r, which not only justified the proceedings of the Sheriff; but contains an implied declaration, that the said Island, with several other Islands, is, by virtue of the treaty of Peace, within that province.

As it seems clear, they mean to obtain possession of those Islands by compelling the inhabitants to acknowledge the right of jurisdiction to be in the Government of New Brunswick, I think it highly expedient you should be informed of their proceedings as soon as may be, that such measures may be adopted concerning them as you shall judge suitable.—

Of those proceedings Congress have been informed by my letter to our Delegates: & have sent an Account of them to the Minister of the United States at London—

My letter to Governor Carleton & his answer to it will be delivered to you Gentlemen by the Secretary.

Commonwealth of Massachusetts

Whereas the Committee appointed by a Resolve of the General Court of the 28th of October 1783, on the subject of unappropriated lands in the County of Lincoln, and among other things to ascertain the extent & authenticity of private Claims to lands in the County aforesaid, have made report, that they have particularly attended to the Claims of the Plymouth Company (so called) to lands on Kenebeck river, and that in the prosecution of their enquiry, several propositions for an adjustment of the matter in controversy between the Commonwealth and the said Company have been made; from an examination of which, and from a conviction that a speedy adjustment of all matters in dispute in the Eastern County between Government and individuals and Companies must be for the interest of the Commonwealth, the Committee finally thought it best for the Commonwealth to meet the Company on the following proposition, to wit— That the general course of Kennebeck River shall be pursued up to the mouth of Wesserunsett that a line shall be drawn through the mouth of the said Wesserunsett, at right angles with the said general course of Kennebeck River, and extended fifteen miles into the woods on each side of Kennebeck River—that another right line shall be drawn parallel to the said right line passing through the mouth of Wesserunsett, six miles above it, on a perpendicular distance between the said lines, and extended into

the woods fifteen miles on each side of the said Kennebeck River—and that the said upper line shall be the Northern boundary line of the Company's Claims:—that the said Company shall release to the Commonwealth all Claims, that they may have to any lands above the said upper line; and that the Commonwealth shall release to the said Company, all Claims they have to any lands between the said upper line and the Sea, and within fifteen miles of Kennebeck River on both sides of it:—and that the said Company shall have, for one year after a settlement is made, the right of pre-emption to any lands within five miles of the said upper line above it.

And whereas the said Committee on the best principles & calculations in their power to adopt, were induced to think it would be for the interest of the Government to meet the Company on this proposition—

Resolve on Foregoing.

Resolved that the General Court do approve of the said proposition, & that this Commonwealth doth hereby release, and grant unto the said Plymouth Company, otherwise called the proprietors of the Kenebeck purchase, from the late Colony of New Plymouth, their heirs & assigns forever, all the right, title & interest, which the said Commonwealth hath in or to, all that Tract or Parcell of land lying and being in the County of Lincoln, and Commonwealth of Massachusetts, bounded Northerly by a line running across said Kennebeck

River at right angles with the general course of said Kennebeck River, from the mouth thereof to the mouth of the river Wesserunsett, at the perpendicular distance of six miles above, or to the northward of the mouth of the river last mentioned, the said line extending fifteen miles into the woods on each side of the said Kennebeck River /: and Southerly by the Sea or Ocean; and lying between the said upper or Northerly line and the Sea, and within fifteen miles of the said Kennebeck on each side thereof from the said Northmost line to the Sea. And it is hereby further granted to the said Proprietors of the Kennebeck purchase, that they shall have for one year after the date hereof the right of preemption to any lands within five miles of the said upper line above it.

Provided always that the said Company shall within the space of six months, execute & deliver to the Secretary of this Commonwealth, a good & authentic Release & Grant, of all their right, Title, & Interest therein & to all lands in the said County of Lincoln, not to them released & granted in manner above said —

Statement of the Kennebeck Claims.

The Committee appointed by a resolve of the General Court of the 28th of October A. D. 1783, on the subject of unappropriated lands in the county of Lincoln; and, among other things, to ascertain the extent and authenticity of private claims to lands in that county,—have particularly attended

to the claims of the Plymouth Company (so called) to lands on Kennebeck river: and as they claim extensive tracts there, by patent, Indian deeds of ancient date, and by various titles derived from other companies, which involve in them some things worthy a particular inquiry, the Committee beg leave to report a particular statement of the said claims.

November, A. D. 1620, King James I. granted to the Council, established at Plymouth, in the county of Devon, in England, for the planting, ruling, ordering, and governing of New England, and to their successors and assigns, all that part of America, lying between the thirty-ninth and forty-ninth degrees of north latitude, and the Atlantic and the Eastern oceans, to hold in fee, in free and common soccage, rendering one fifth part of the ore of gold and silver;—within which limits, the said Kennebeck lands are situated, whereof it appears the natives of that country were then in possession, claiming the soil and jurisdiction of the same.

About the year 1620, William Bradford, and others, settled at New Plymouth, where they made considerable settlements, and, in the year 1629, had increased to the number of three hundred families: in consideration whereof, and in consideration they might aid and assist those persons, who might fall on the coast of America, the said Council, A. D. 1629, granted to the said Bradford his heirs, associates, and assigns, that tract of land formerly called the Old Plymouth colony, and a part of the Kennebeck lands now in question, in the words and form following, to wit,—

“KNOW ye, that the said Council, by virtue and authority of his said late Majesty’s letters patents, and for and in consideration, that William Bradford, and his associates, have, for these nine years, lived in New-England aforesaid; and have there inhabited and planted a town called by the name of New-Plymouth, at their own proper costs and charges:

and now seeing, that by the special providence of God, and their extraordinary care and industry, they have increased their plantation to near three hundred people, and are, upon occasions, able to relieve any new planters, or other his Majesty's subjects, who may sail on that coast — Have given, granted, bargained, sold, enfeoffed, allotted, assigned, and set over, and by these presents, do clearly and absolutely give, grant, bargain, sell, aliene, enfeoff, allot, assign, and confirm, unto the said William Bradford, his heirs, associates, and assigns, all that part of New-England, in America aforesaid, and tract and tracts of lands, that lye within or between a certain rivulet or rundlett, there commonly called Coahasset, alias Conahasset, towards the north, and the river commonly called Narraganset-river, towards the south, and the great Western Ocean towards the east, and between and within a straight line, directly extending up into the main land, towards the west, and from the mouth of said river, called Narraganset-river, to the utmost limits and bounds of a country or place, in New-England, commonly called Pocanacutt, alias Sawomset, westward, and another like straight line, extending itself directly from the mouth of the said river called Coahasset, alias Conahasset, towards the west, so far up into the main land, westward, as the utmost limits of the said place or country, commonly called Pocanacutt, alias Sawomset, do extend; together with one half of the said river called Narraganset, and the said river, or rundlett, called Coahasset, alias Conahasset, and all lands, rivers, waters, havens, creeks, ports, fishings, fowlings, and all hereditaments, profits, commodities, and emoluments whatsoever, situate, lying and being, or arising within or between the said limits and bounds, or any of them.

And forasmuch as they have no convenient place, either of trading or fishing, within their own precincts, whereby (after so long travel and great pains) so hopeful a plantation may

subsist, as also that they may be encouraged the better to proceed in so pious a work, which may especially tend to the propagation of religion, and the great increase of trade to his Majesty's realms, and advancement of the public plantation — the said Council have further given, granted, bargained, sold, enfeoffed, allotted assigned, and set over, and by these presents do clearly and absolutely give, grant, bargain, sell, aliene, enfeoff, allot, assign and confirm unto the said William Bradford, his heirs, associates and assigns, all that tract of land, or part of New-England, in America, which lyeth within or between, and extendeth itself from the utmost limits of Cobbiseconte, alias Comaseconte, which adjoineth to the river of Kennebeck, alias Kenebekike, towards the Western ocean, and a place called the Falls, at Neguamkike, in America aforesaid, and the space of fifteen English miles on each side of the said river, commonly called Kennebeck-river; and all the said river called Kennebeck, that lies within the said limits and bounds, eastward, westward, northward or southward, last above-mentioned; and all lands, grounds, soils, rivers, waters, fishings, hereditaments, and profits whatsoever, situate, lying and being, arising, happening or accruing, or which shall arise, happen or accrue in or within the said limits or bounds, or either of them; together with free ingress, egress and regress with ships boats, shallops, and other vessels, from the sea commonly called the Western ocean, to the said river called Kennebeck, and from said river to the Western ocean; together with all prerogatives, rights, royalties, jurisdictions, privileges, franchises, liberties and immunities; and also marine liberty, with the escheats and casualties thereof (the Admiralty jurisdiction excepted), with all the interest, right, title, claim and demand whatsoever, which the said Council and their successors now have, or ought to have and claim, or may have or acquire hereafter, in, or to any of the said portions or tracts of land hereby mentioned to be

granted, or any the premises, in as free, ample and beneficial manner, to all intents, constructions and purposes whatsoever, as the said Council, by virtue of his Majesty's said letters patents, may or can grant"—To have and to hold the said tract and tracts of land in fee, rendering to the King, his heirs and successors, forever, one fifth part of the ore of the mines of gold and silver, and one fifth part thereof to the said Council.

And the said Council further granted to the said Bradford, his heirs, associates and assigns, their factors, agents, tenants and servants, liberty to trade and traffic, as well with the English as the natives, within the precincts aforesaid; "with liberty of fishing upon any part of the sea-coasts and sea-shores of any of the seas and islands adjacent, and not being inhabited or otherwise disposed of by order of the said President and Council."

Also it is further granted, that it should be lawful for the said Bradford, and his associates, by some usual or fit name and title, to form him, or themselves, or the people there inhabiting under him or them, into a body politic and corporate, for the better government of their affairs, in America.

And the said Council constituted Edward Winslow, and others, their attornies, to enter, and take possession and seisin of the granted premises, and to deliver possession and seisin thereof, to the grantees;—which was done and performed accordingly.

August 8th, 1648,—Monquine, alias Natahanda, who called himself son of old Natowormet, Sachem of Kennebeck river, sold, and set over to the said Bradford, and others, "all the lands on both sides the said river, from Cushenock upward, to Wesserunkeik; to have and to hold to them, and their heirs forever; with all the meadows, waters, soils, profits, liberties and privileges, any way belonging thereunto, or

arising from the same, for and in consideration" of four hogsheads of provisions, and some other small articles. This deed is signed by two witnesses, who, A. D. 1672, made oath, before the Deputy-Governour, that they saw Monquine sign the said deed.—On this paper, below the attestations of the witnesses, made A. D. 1672, there is a certificate, signed by Agodoadomago, the son of Wasshemet, and by Tafuch, brother of Monquine, by making their marks, signifying, that they consented to the above sale, attested by three witnesses; two of whom made oath, before the said Deputy Governour, June 29th, A. D. 1672, that they saw the payment made to Monquine, and that Baggadusiett, being present, received a part of the goods, for the lands aforesaid.

This instrument appears to have been recorded in the records of deeds for the county of Lincoln, February 9th, A. D. 1761.

September 10th, 1653.—Essemenosque certifies as follows, to wit,—“This is to certify all whom it may concern, that I Essemonosque, inhabitant in Kennebeck-river, and one that is one of the right owners of Teconett; the which place as also all that tract of land from Cobbiseconte, unto a place where I now dwell, called Usserunscut: all which land was sold by Monquine, alias Muttahanada, unto Wm. Bradford, of Plymouth, and his associates: all which lands and places, I was willing to the sale of, and did give my consent to, and did receive part of the pay; as also, I do testify, that neither I, nor any other Indian, did ever blame him for it, but we did all freely approve of it. And as for myself, and so many others, are sorry that Lawson doth now build at Toconett; and that I never did give way to it; and Baggadusett did it against his will, by the importunity of Mr Lake, Roger Spencer and Lawson, and told them moreover, when they did desire to buy it, he would not sell it until he had spoken with

John Winslow; yet they did prevail with him: for which he did tell all the Indians he was sorry, and would repay what he had received again. All which I do witness by my hand and mark. Also I do affirm, that Toconett, which Bagga-dussett did sell to Mr Luke and the rest, he had nothing to do to sell, the place being properly mine and Watchogoe's wife's, and that Lawson hath lately desired to buy it of us, which we have and shall refuse to do.

Essemenosque, **X** his mark.

This writing is signed by three witnesses; one of whom, June 29th, 1672, made oath, before the Deputy-Governour, that he signed, "as a witness, the writing above, signed by Essemenosque, by his mark on the day of the date thereof;" and the hand writing of another of the witnesses is attested to, before one of the assistants, September 10th, 1670.

February 9th, 1761, said writing was recorded in the records of deeds for the county of Lincoln.

October 27th, 1661.—The General Court of the said colony of New Plymouth, the heirs, successors, and assigns, of the said Bradford, and others, to the said Kennebeck lands, reciting the aforesaid grant from the Council of Plymouth, of the lands at Kennebeck, in consideration of four hundred pounds sterling, granted the lands, (in the same words, and by the same description) to Ancipas Boyes, and others, and their heirs, whose successors the said Plymouth Company are. And also, the said General Court, by the same deed, granted to the said Boyes, and others, all the lands purchased by the said Indian deeds, by these descriptive words, to wit, "As also all the lands on both sides of the said river, from Cushenock upwards, to Wesserunset, bought by us of Mon-quine, alias Mattahannada." Recorded February 9th, 1661.

July 8th, 1665.—Baggadussett made his writing of the form following, to wit,—Know all men by these presents, that whereas Monquine, alias Mattahannada, the son of old Nattawormet Sagamore, hath formally sold unto William Bradford, Edward Wislow, Thomas Prince, Thomas Willett, and William Paddy, all the lands upon both sides of Kennebeck-river, from the lower end of Cobbiseconte, to the upper side of Wesserunskeik; to have and to hold to them and their heirs forever—And whereas Baggadussett, Sagamore, doth challenge and lay claim to the said lands, as the lawful proprietor of the same: now, so it is, that the said Baggadussett hath, this present day, sold, enfeoffed, and set over all his right, title, and interest, unto John Winslow, senior, late of Plymouth, and the rest of his partners, to him and them, and to his and their heirs, executors, and assigns, all the said lands, on both sides the river, with all and singular the woods, meadows, rivers, with all the privileges and appurtenances thereunto belonging: and for performance hereof, the said Baggadussett doth bind himself, his heirs, and executors, forever, firmly by these presents; as witness my hand, this 8th day of July, 1665. And in consideration hereof, the said John Winslow, for himself and his partners, hath given to the said Baggadussett and the worth of two skins—of liquor, and the worth of one skin of bread, to Abomkett, alias Watchogo.

X the mark of Baggadussett.

This writing is signed by three witnesses, and has the marks of four Indians thereon. This writing does not appear to be acknowledged, nor the execution, or delivering of it, to be proved by the oaths of the subscribing witnesses.

February 9th, 1761, this writing was recorded in the records of deeds for the county Lincoln.

In the royal charter of William and Mary, for the province of the Massachusetts-Bay, in the third year of their reign, incorporating therewith the old colony of Plymouth, the province of Maine, and extending the jurisdiction thereof to the tract of country between the rivers Kennebeck and St. Croix, it is granted and ordained, that all such lands, tenements, and hereditaments, and other estates, which any person or persons, or bodies politic, &c. do hold or enjoy, or ought to hold and enjoy, within the bounds aforesaid, by or under any grant or estate, duly made or granted by any General Court formerly held, or by virtue of letters patents, or by any other lawful title, shall be, by such person or persons, or bodies politic, &c. their respective heirs, successors, and assigns, forever hereafter held and enjoyed, according to the purport of such respective grant, paying the rents therein reserved.

And that no grants, or conveyances of any lands, tenements, or hereditaments, to any towns, colleges, schools of learning, or to any private person or persons, shall be adjusted or taken, to be avoided or prejudiced, for, or by reason of any want or defect of form, but that the same shall remain in force, according to the laws and rules in being previous to the granting said charter, and the judgment of Chancery for cancelling the former charter.

In the year 1757, the proprietors holding under Clark and Lake, and the said Plymouth Company having several matters in dispute, respecting the said Kennebeck lands, submitted them (by rule of Court) to the determination of Mess'rs Wolcot, Gridley, Pratt, Worthington and Hawley, who, reciting that the Plymouth Company claimed all the lands fifteen miles on both sides of Kennebeck-river from the Western ocean, to the northern or uppermost part of a place called Wesserunsett, with all the islands within that extent: and that the said proprietors, holding under Clark and Lake,

(who held under Lawson) claimed to themselves, all the lands on the west side of the said Kennebeck-river, from the lower or southerly end of a place called Negumke, and so, going up said river four miles above the falls at Toconett, and extending from said river ten miles westerly into the woods:— Also, another tract, lying on the east side of the said river Kennebeck, adjoining to the said river Kennebeck, adjoining to the said river on the north-west, and so south-westerly to the southernmost island of Nequamke, and six miles from Toconett falls, north-eastward, and so fifteen miles along from the said river Kennebeck into the main land, south-eastward:— Also, another tract of land, lying on Kennebeck-river aforesaid, and extending from the northermost part of a certain place called Cobbisconte, unto a certain place called Swan-Alley, and so extending ten miles into the woods, on each side of the said river, east and west throughout all the length:— Also, another tract of land on the east side of the said river, bounding northerly on the tract last mentioned, and eastwardly partly on Sheepscut-river, and south-easterly and southerly on Monsweeg and Towasset bays, and westerly on said Kennebeck-river; together with the island called Arrowseek island; and a tract of land on Parker's-island, so called, bounded as follows, to wit, Beginning at a point of land commonly called the Flying-point, and then running down on the eastern side of the little river, which runneth down by Arrowseek-island, into the main river of Kennebeck, to the fourth side of the mouth of the First Great Long Marsh, lying in the Great Bay Creek Thatch, (as the said bay was formerly called) and from the south side of the mouth of the aforesaid Long Marsh, along the wood's side on the southeast and eastern side of the aforesaid Long Marsh, to the eastern side of the head of the cove that runs from the bay called Jeremy Squam-bay, and from thence round that part and parcel of land on the

north east and northward side round to Flying-point aforesaid, containing about four hundred and fifty acres—Awarded, that the said proprietors should hold a tract of land on the east side of Kennebeck aforesaid, beginning at Merry-Meeting bay, so called, one hundred and sixty rods northward of the northerly corner of a tract of land laid out for a township by the proprietors under Clark and Lake, at a place called Nequasset; from thence running east-south-east, without variation of compass, to Monsweeg-river; thence running southerly down said river to Monsweeg-bay, and so round southerly to a place called Hell's Gate, Nequasset and Towassett bays, and westerly on Kennebeck-river and Merry-Meeting bay, and northerly on the same river to the first-mentioned bounds; also, Arrowseek-island; also, the above-mentioned tract of land or Parker's-island.

And they further awarded all the rest and residue of the lands aforesaid, (above-recited) on the said river Kennebeck, (herein not before especially awarded) to the Plymouth Company, viz. From the northermost part of Wesserunsett aforesaid on the north, to the Western ocean on the south, and extending the space of fifteen English miles into the woods on each side of the said river Kennebeck, together with all the islands within those bounds, except Arrowseek, and part of Parker's-island above-mentioned.

And that the said Company and the said Proprietors should grant, release, and quit claim to each other accordingly; which they did and performed, according to the award, by deeds, executed, acknowledged and recorded.

The first of the above tracts of land, recited in said award, appears to have been purchased, by the said Lawson, of Wasshemet, an Indian Chief; as also all that part of the second tract therein recited, which extends from said Kennebeck-river into the woods fifteen miles, by deed dated May

24, 1653, signed, sealed, delivered, acknowledged and recorded.

The third tract in said award, above-recited, appears to have been purchased, by the said Lawson, by deed dated October 10, 1649, of Abscaduset and Kencbis, Sagamores. This deed is recorded in the county of York, and the execution of it proved by the oath of one of the subscribing witnesses.

The fourth tract therein recited appears to have been purchased, November 7, 1639, of the natives.

The deeds of Washomacke, dated June 25, 1653, are found and produced — one, of the second tract of land above-recited, and the other deed, of a part thereof, lying about Washrong-river. The first of these two deeds is proved by the oath of one of the subscribing witnesses, but does not appear to be recorded. The execution of the second is proved in the same manner, and appears to be entered and recorded the twenty-third of November, 1666.

Another deed, dated September 9, 1653, of the said second recited tract, from an Indian, called Chogoandoe, to the same Lake and Spencer, who are the grantees in two deeds of Washomacke, is produced. The execution of this deed is proved by the oath of one of the subscribing witnesses, July 29, 1654, and appears to be entered and recorded, November 23, 1666, in the book of records, folio 18.

February 20th, 1658.—The said Plymouth Company made a settlement with a Pejepscot Company, so called, who claim under Richard Wharton; and by deed, executed and acknowledged by their Clerk, and recorded, the said Pejepscot Company released all their right and title, to the said Plymouth Company, in the lands following, to wit, all the lands lying within the said Pejepscot claim, northward of a line beginning at the mouth of Cathance river, and running a west-north-west course, without variation of compass, until

it meets the westerly line of the said Kennebeck purchase, which is fifteen miles from the said Kennebeck-river; and also the lands from Merry-meeting-bay, extending southerly and lying on the west side of Kennebeck, to the mouth thereof, where it empties itself into the sea, and from thence to run westwardly on the sea-coasts round Small Point; thence running northerly on the sea shore up to New-meadow-bay, alias Stephen's river, until it meets with Stephens'-carrying-place, so called, and from thence to run a west-north-west course, without allowance for the variation of the compass, to Merry-meeting bay, with all the islands in Kennebeck-river; and on the sea-coasts, from the mouth of the said Kennebeck to the western line of the said Kennebeck Company's claims, except the islands Sebascodegan, and Little Damaris Cove island, and the islands in the river Androscoggin and Pejepscot; to hold in fee.

This deed appears to have been made in consideration of five shillings, and a like release of lands, lying southward of the first above-mentioned line, by the Kennebeck Proprietors.

The part of the Company's claim, which is supported by the title of the Pejepscot proprietors may be stated as follows:—

July 7th, 1684—Warumbee, and five other Indians, who called themselves Sagamores, by their deed to Richard Wharton, recited, that, near sixty years before, Thomas Purchase came into this country, as they were well informed, and that he did, as well by power and patent from England, as by the consent and agreement with the proprietors “of all the lands lying on the easterly side of Casco-bay, and both sides of Androscoggin-river and Kennebeck-river, enter upon, and take possession of, all the lands lying four miles westward from the uppermost falls on the said Androscoggin-river, to Maquoit in Casco-bay, and on the lands on the other side

Androscoggin-river, from the said falls down to Pejepscot and Merry-meeting bay, to be bounded by a south-west and north-east line, to run from the uppermost part of said falls to Kennebeck river, and all the lands from Mequoit to Pejepscot, and to hold the same breadth, where the land will bear it, down to a place called Atkins-bay, near to Sagadehoc, on the westerly side of Kennebeck-river; and all the islands in said Kennebeck-river, and the land between the said Atkins-bay and Small Point harbour, and the lands and rivers and ponds interjacent, containing there in breadth about three English miles, more or less”—and “that they were well assured, that Major Nicholas Shapleigh, in his life time, was, both by purchase from the Indian Sagamores, their ancestors, and by consent of Mr. Gorges, Commissioner, possessed, and died seized of the remainder of the lands lying and adjoining upon the main, and all the islands between the said Small Point harbour and Maquoit aforesaid, and particularly a neck of land called Merrcioneeg, and an island called Sebascodegin”—and that “the relict and heirs of said Mr. Purchase and Major Nicholas Shapleigh have reserved accommodations for their several families, sold all the remainder lands and islands to Richard Wharton”—and that as “said Purchase did personally possess, improve and inhabit at Pejepscot, near the middle of the lands aforesaid, for near fifty years before the then late war”—and that “as said Wharton had desired an enlargement between Androscoggin and Kennebeck-river, and to encourage him to settle an English town, and to promote the salmon and sturgeon fishery, by which they promised themselves great supplies, and for other good causes, and for a sum of money received”—the said Warumbee, and the others, Sagamores of all the aforesaid and other rivers, and lands adjacent, for further confirmation of his the said Wharton’s title and property, gave, granted, ratified and confirmed to him “all the aforesaid lands, from the uppermost

part of Androscoggin falls four miles westward, and so down to Maquoit, and by said river of Pejepscot; and, from the other side of Androscoggin falls, all the lands from the falls to Pejepscot and Merry-meeting-bay, to Kennebeck and towards the wilderness, to be bounded by a south-west and north-east line, to extend from the uppermost part of the said Androscoggin uppermost falls to the river of Kennebeck; and all the lands from Maquoit to Pejepscot, and so to run and hold the same breadth, where the land will bear it, unto Atkins-bay in Kennebeck-river, and Small Point harbour in Casco-bay; and all the islands in Kennebeck and Pejepscot rivers, and in Merry-meeting bay, and within the aforesaid bounds, especially the aforesaid neck of land called Merriconeeg, the island called Sebascodegin, together with all the rivers, rivulets," &c. and all the use of the salmon and sturgeon fishery in the said bays and rivers within said bounds—And the said Warumbee and others, for the consideration aforesaid, gave, granted, bargained, sold and confirmed to the said Wharton, "all the lands lying five miles above the uppermost of the said Androscoggin-falls, in breadth and length, holding the same breadth from Androscoggin-falls to Kennebeck-river, and to be bounded by the aforesaid south-west and north-east line; and a parcel of land at five miles distance, to run from Androscoggin to Kennebeck-river aforesaid"—with all the privileges, &c. and particularly the salmon and sturgeon fishery within the said bounds—to hold in fee—And the said Sagamores covenanted, that they had good right so to confirm and convey the premises, and to warrant and defend the same against the lawful claims of any persons under them, or from any of their ancestors—with the following provisoes, to wit—Provided, nevertheless, that nothing in this deed be construed to deprive us, the said Sagamores, successors or people, from improving our ancient planting-ground, nor from hunting in any of the said lands, being not enclosed,

nor from fishing, for our provision, so long as no damage shall be to English fishery—Provided, also, that nothing herein contained shall prejudice any of the English inhabitants or planters being at present actually possessed of any part of the premises, and legally deriving right from the said Mr Purchase and our ancestors”—Signed, sealed and delivered in presence of five witnesses, who subscribed their names as such. The evidence of the execution of this deed of livery and seisin, &c. is noted on the same, as follows, to wit—“Memorandum, that upon the day of the date of the within-written deed, the several Sagamores, whose names are subscribed thereto, and inserted therein, did, at the fort of Pejepscot, deliver quiet and peaceable possession of the premises, with livery and seisin, to Mr. John Blaney and wife, in their own right, as she is administratrix to the estate of Mr. Thomas Purchase, deceased; and in right of his children. Also, the said Blaney, as attorney to Mr. Eleazer Way, did, the same day, deliver quiet and peaceable possession, with livery and seisin of the premises, to Mr. Richard Wharton, the quantity of seven hundred acres of land, being excepted according to a former agreement.

Henry Waters, John Parker

Taken upon oath this 19th day of July, 1684—this was sworn to by John Parker, before me,

Edward Tyng, Justice of the Peace.

James Andrews, (one of the subscribing witnesses) aged forty-nine years, testifieth, upon oath, that he saw this deed or instrument sealed and delivered by the six Sagamores, within-named, to Richard Wharton, and saw John Parker and George Felt, the other witnesses, subscribe as witnesses, as now they are on the endorsement above.—Sworn before me, this 21st of July, 1684.

Edward Tyng, Justice of the Peace.

Falmouth, in Casco-bay, July 21, 1684.— Warumbee, the Sagamore within-named, this day appeared before me, and, in behalf of himself and other Sagamores that sealed and delivered the within-written instrument, acknowledged the same to be his and their free act and deed.

Edward Tyng, Justice of the Peace.

John Parker, of Kennebeck, aged about fifty years, deposeth, that he saw this deed signed, sealed and delivered by the several Sagamores within named, and saw possession, together with livery and seisin of the premises, as is expressed in the other endorsement on this deed, and in presence of the several witnesses thereto subscribing: and further the deponent saith, that upon the eleventh day of this instant month, he, with Mr. Henry Waters, were present, saw Warumbee deliver possession and livery and seisin, by a turft and twig and bottle of water taken by himself off the land, and out of the main river above Androscoggin-falls, to Richard Wharton, in full compliance with the conveyance of the premises within granted and confirmed.

Taken upon oath, 9th (probably 19th) of July, 1684, before me,

Edward Tyng, Justice of the Peace.

A true copy of this deed or instrument within-written, subscribed by several Sagamores, to Mr. Richard Wharton, acknowledged by Warumbee, and attested as by divers witnesses above-written; transcribed out of the original, and therewith compared, this 26th July, 1684, per Edward Rishworth, Recorder; this was taken from a copy from the county of York, lib. 4, fol. 15 and 16, and was attested by Daniel Moulton, Register.

Falmouth, in Casco-bay, August 4, 1726.— This instrument was shewn to Wine-meuel, chief Sachem of Penobscot,

and his tribe, at the ratification of the peace, then made between the government of the Massachusetts Bay and the Penobscot and other eastern Indians: this was done by a Committee of the General Court appointed for that purpose.—
Attested,

John Wainwright, Chief Concilii.

The above attestation is rendered and attested on a copy of said Indian deed produced at said treaty, in my hands.

Belcher Noyes, Prop. Clerk.

The contents and evidence of the execution of this deed and title must be taken in connection with the subsequent doings of the General Court.

June 10, 1715.—To encourage the settlement of Brunswick and Topsham, it was “voted that the Court—give a confirmation to their purchase, as bounded and laid down in their proposals,” (referring to the Pejepscot purchase) “with a saving for any or all other grants, titles, interests or estates that may be found within the same, and particularly that of Harvard College, and with a reservation of the rights, improvements and possession of any inhabitants or proprietors; provided always, and it is to be understood, that those persons shall be subject to such regulations of this Court, as have been made, their settling in a defensible manner.”—By the foregoing vote it appears, the lands therein referred to were confirmed, &c. to the Pejepscot Company, according to the proposals laid by them before the Court. Respecting these proposals, is the following, to wit,—

Province of Massachusetts-Bay.—In obedience to an order of the Great and General Court of said province, bearing date January 26, 1764, published in the several public prints, directing all persons claiming land in the late Province of Main, and without the bounds of any town, by virtue of any grant or title whatsoever, to make return of the bounds of such

claims into the Secretary's office, on or before the first day of June next.

The proprietors of certain lands at Pejepscot, bordering on Androscoggin-river, do hereby represent the bounds of their claim to said lands, derived by legal purchase from the Indians, anno 1684, and confirmed by the General Court of the said province anno 1715, viz.—Running from five miles above the uppermost falls of Androscoggin-river, on a north-east line, over to Kennebeck-river, including what land lyes to the southward of that line, down to Merry-meeting-bay—Likewise running from said Androscoggin uppermost falls four miles west, and so southerly down to Maquoit, taking in the lands lying four miles west of said river—Likewise the lands lying southward of Merry-meeting-bay, on the westerly side running down to Small Point harbour, including Merri-coneeg-neck, and the island Sebascodegin, with the other islands interjacent—and on the easterly side running round Wineganee-point, and so down Segadahoc-river, along by Arrowseek-island down to Atkins-bay.

Out of which tract of land, since the confirmation of the General Court in 1715, said proprietors have settled three townships, to wit, Brunswick, Topsham and Harpswell—are now prosecuting the settlement of a fourth township above Brunswick and Androscoggin-river.

In behalf of the proprietors—Signed,

Belcher Noyes, Prop. Clerk.

The above is a true copy of the Pejepscot claim on file in the Secretary's office, exhibited by Belcher Noyes, Esq.—

Attested, John Cotton, D. Sec'ry.

The Committee do not find on the records of government, or know of any objection that has been made to the above description of the Pejepscot claim; from whence (from the presumption the Company, in their proposals to the General

Court in 1715, stated the bounds of their claim according to their Indian deeds, and from taking the whole evidence together respecting the subject) they conceive the evidence to be in favour of the confirmation of the claim as it is laid down by the Company.

June 13th, 1762.—The said Plymouth Company made a settlement with the Witscaset Company, commonly called, who claim under the heirs of George Davis; and the said Witscaset Company, by deed executed and acknowledged by James Halrey, their Clerk, and recorded in the records of deeds in the county of Lincoln, July 10th, 1762, granted, released and quit-claimed, to the said Plymouth Company, the tract of land following, to wit, Beginning at the upper narrows of Sheepscut-river, at the northermost part of a point of land on the easterly side of said Sheepscut-river, called Flying-point; from thence to run across said river a north-west course, without variation of compass, half way over to Kennebeck-river; from thence to run southerly, keeping an equal distance between said Sheepscut-river and said Kennebeck-river, until it meets the northern boundary line of a tract of land claimed by the Company holding under Clark and Lake, and the Andover proprietors; from thence to run east-south-east, on said northerly line, until it meets with Monsweeg-brook, and river, to the mouth thereof, where it empties itself into Monsweeg-bay; then turning easterly round a point of land, (a little to the southward of which point of land is an island lying in said bay) and to run northerly up said bay and Sheepscut-river, on the west side of Jeremy Squam island, to said Flying-point, to the first-mentioned boundary line, except certain lots mentioned and reserved in said deed.

This deed was given in consideration of a like deed of release by said Plymouth Company to the said Witscaset Company, of other lands.

The lands aforesaid, granted and released as aforesaid by the said Witscaset Company, were purchased of the Indians, Modocahant and others, Sagamores, by George Davis, by deed dated Dec. 21, 1663, recorded by the Clerk of the Committee of Eastern Claims, and are a part of the lands contained in the said deed, and within the limits following, to wit,—All that parcel or quantity of land lying on the west and north side of Witscaset-bay, with the land lying on the west or north side of Monsweeg-bay, with a certain island, lying to the east of Sheepscut-narrows and Monsweeg-bay, containing by estimation about four thousand acres; the consideration of which purchase from the Indians was 20 l. sterling. In the constructions of the deeds and patent aforesaid, and in ascertaining the boundaries of the lands thereby conveyed, a number of questions arise, that deserve the greatest attention, as well on account of their ambiguity, as of their importance to the parties interested: the Committee, therefore, find it necessary and expedient, to pursue the claims of this Company, in their several parts, as they are founded on distinct titles, to collect and state the evidence touching the boundary lines of the respective claims, where they are obscure and doubtful, and to put that construction on the several parts of the said deeds and patent, and on the acts and doings of Government, and parties interested in the land in question, which may be most agreeable to law, justice and reason.

As the claims of this Company now extend, and involve in them almost all the considerable matters of controversy which have existed this century and more, past, between the Government and individuals, respecting the Sheepscut, the Kennebeck, and the Androscoggin lands, and remain undivided, the Committee find it difficult to give any idea of the situation of these claims, without entering somewhat minutely into the state of them, and of the imperfect evidence that can now be collected.

In examining this claim, the most material general questions that arise, are,

1st. Respecting the northern and southern lines of the patent lands.

2d. The extent of the lands granted by Monquine and Essemenosque, as granted and confirmed to Boyes, and others, A. D. 1661.

3d. The extent of the lands conveyed by Beggadusett.

4th. The extent of the Pejepscot claim, westwardly. And

5th. The extent of the lands, owned by Government, below Cobbiseconte, &c.

And first, to fix the northern and southern lines of the patent tract on Kennebeck-river, granted to Bradford, and others, the Committee have endeavoured to ascertain the meaning of some of the descriptive words of the grant, as the expressions "Cobbiseconte," "the utmost limits of Cobbiseconte," "river Kennebeck," "falls at Negumkike," "towards the Western ocean," &c. by comparing them with similar expressions used in other grants, about that time, and from the best evidence they can collect; and by attending to the apparent design of the grant, and the manner in which it was heretofore understood.

The lands granted by the patent aforesaid, appear to be a tract lying between the utmost limits of Cobbiseconte, (which adjoineth to Kennebeck) toward the Western ocean, and a place called the Falls, at Neguamkike. If the boundary objects, Cobbiseconte and Falls at Neguamkike, can be found and fixt with certainty, there would be less difficulty in fixing a literal meaning, at least, to the ambiguous expressions aforesaid, and the situation of the above-mentioned lines.

There is much evidence extant of two places on Kennebeck-river, one about four miles below the mouth of the river Cobbiseconte, and one about fifteen miles above, which have

been called by the names of Nehumke, Nehumkeeg, Negumkike, and by other similar names; each of which has been fixed upon as the falls and bounds mentioned in the said patent, by different companies and interests, who have delineated the same, and laid them down in their respective plans accordingly.

At the lower place is laid down in a plan printed A. D. 1752, a stream called Nahumkee, but no falls, and at the upper place, Negumkikee-falls. In a plan, said by some to be an ancient plan, is marked, about four miles below the mouth of Cobbiseconte, a place called Nehumke. In Colonel Heath's survey made A. D. 1719, and in Jones's survey, made 1731, is noted, at the same place, Nehumkeeg. In North's survey made 1752, the same place is marked Negumkike, or Nehumkeeg.

Thomas Johnson, in his deposition taken in perpetuum, &c, A. D. 1753, testifies, that the words Negumkikee falls, mentioned in the said printed plan, were not in the said ancient plan, but were inserted by order of one Mr Gibbs.

John Bane, October 19, 1752, aged 76 years, testifies, that in the year 1692 he was taken captive by the Indians, and kept with them seven years and ten months, learned their language, and travelled about with them in Kennebeck-river — well remembered the rivulets that run into it, and a small river or rivulet called Cobbiseconte, about twelve miles above Richmond-fort; also, that there is a place called Negumkike, on the east side of said Kennebeck-river, about fifteen or sixteen miles up the river Kennebeck from Cobbiseconte, near which place are some falls; that also on the east side of said Kennebeck-river is a place called Nehumkee, about four miles down the river below Cobbiseconte, and that Nehumkee and Negumkike are two distinct places, about twenty miles distant from each other, which several places were constantly so called by the Indians.— Taken in perpetuum, &c.

Joseph Bane, October 21, 1752, testified as above as to his captivity, travel, &c.— that he well remembered the river Kennebeck, from the mouth of it to Norridgwalk, and a place called Nahumkeeg-brook, and falls on the east side of Kennebeck, about seven miles above Swan-island; and also a place or river called or known by the name of Cobbiseconte, about ten or twelve miles above said Swan-island; also a place called by the Indians Warunskiek, being a branch of the aforesaid river, on the east side, near old Norridgwalk; he further testified, that he always understood, by the Indians and English, that Kennebeck-river was called Kennebeck to the sea or ocean, and that he understood the Indian language well; and that the mouth of Kennebeck-river was called by the Indians, Sunkadarunk, which the English call Sagadahock.— Taken in perpetuum, &c.

Jabez Bradbury, Esq. among other things, deposed, that he was one of the magistrates who took the first deposition of Bane above-mentioned — that said deposition being produced and read to Bane, he in the main approved of it — that some gentlemen present inquired of him respecting Nehumkike, said to be in the deposition fifteen or sixteen miles above Cobbiseconte; as, Are there falls? to which he answered, Near to that place is falls; and accordingly it was put down.— Taken in perpetuum, &c.

May 25, 1753.— Phillip Call, Obadiah Call, and James Collar, testified, that they had been well acquainted with Kennebeck-river for about twenty years, and well acquainted with it from the mouth up to Toconeek or Neconet-falls, about thirty-six miles above fort Richmond, and sixty two miles from the mouth of said river Kennebeck; and that they were well acquainted with all the noted places, brooks and small rivers, from said Richmond-fort up to Toconeek-falls, to wit, a small river, called Nifcumskiek-falls, about five miles above

the said fort; Nehumkeeg or Negumkike-falls, about seven miles above the fort; Cobbiseconte-river, about ten miles, &c. — that Toconeek-falls are about thirty-six miles, and that they never knew or heard of any place called by the Indians or English Nehumkeeg or Negumkike-falls, but the place above-mentioned, which is two or three miles below Cobbiseconte.— Taken in perpetuum, &c.

John Harron testified nearly to the same purpose as Call and others, as to the falls and Cobbiseconte-river.

Jabez Bradbury, Esq. deposed, as to those facts, nearly to the same purpose: and he further deposed, that Weffrumkeeg is just below the great falls Squahegon, and about ten miles below Norridgwalk; and that Bombazeen had told him, that on the east side of Kennebeck-river, opposite to Merry-meeting-bay, was the place where his uncle Baggadusset had lived. — Taken in perpetuum, &c.

May 12, 1753.—Mr. North and three other persons declared, that they had surveyed Kennebeck-river up twenty-four miles above Cobbiseconte, and that they saw no falls in Kennebeck-river for that distance; but that there are several small islands in that river, and strong current above Cushana.

By said Indian deed to Lawson, all the lands on the west side of Kennebeck-river are conveyed, from the lower or southerly end of a place called Negumke, to a place four miles above the falls at Toconeek; and also a tract of land on the eastern side of said river, from the southermost island of Negumke to a place six miles above Teconett-falls, as above mentioned.

In the Plymouth colony's deed to Boyes, and others, all the lands described in the said patent, as also all the lands on both sides of Kennebeck-river, from Cushenock to Wesserunsett, were conveyed.

Soon after the patent was granted, the patentees, it appears, made settlements, and built a trading-house at Cushenock, which is some miles higher up Kennebeck-river than any part of Cobbiseconte river, which was out of the patent, upon the idea, that the falls below Cobbiseconte, were intended by the expression, "Falls at Neguamkike."

From the best information the Committee can obtain, from persons now living, respecting these falls, it appears, there is a place, about fifteen or seventeen miles above the mouth of Cobbiseconte, now considered as falls, in Kennebeck-river; perhaps the same that is mentioned by North, and others, under the descriptions of some islands and a strong current.

By the evidence aforesaid, it appears beyond a doubt, that about three or four miles below the mouth of Cobbiseconte, there is a place and falls called Nehumke, and by other familiar Indian names: but from the plans and depositions above-recited, or from any plans or evidence to be found, it does not so clearly appear, that there are any falls in Kennebeck-river between Cobbiseconte and Teconett-falls, heretofore called or known by the name of Neguamkike, or by any other like name. But considering the evidence above produced, tending to establish the fact, that there were no such falls between the two last-mentioned places, is merely negative, and stands opposed to the said first-recited deposition of Bane, the observations of North, and others, respecting the islands and a strong current, and to some positive evidence collected from persons now living, and acquainted with the river; but especially to the expressions of the patent, the aforesaid Indian deed to Lawson, the said colony deed to Boyes, and others, which are, though imperfectly, explained by the doings of the government, and settlements of the grantees, in the more early periods of those grants,—it may be inferred, that there were, at the time the patent was given, falls called

Neguamkike, or by some similar name, about fifteen or sixteen miles above the mouth of Cobbiseconte. As the lower falls above-mentioned, are situated rather between the northern and southern extremes of Cobbiseconte, no rational construction can be given to the words of the patent, on the supposition those falls were intended by the words in it, falls at Neguamkike; and the settlements made at Cushenock, by the patentees, must clearly have been made some miles above the patent tract. In the institution of Government at Kennebeck, under the Commissioner, Thomas Prince, A. D., 1653, it appears, the people, residing at Cushenock, were included therein, and took the oath of fidelity to the Government; which could not have been, unless they were within the lands and jurisdiction of the colony of Plymouth. The persons who claimed under the said deed to Lawson, do not appear to have extended the lands, thereby granted, any further down Kennebeck-river, than to the place where the upper falls aforesaid are placed. These facts tend to explain the original ideas of the grantors and grantees of the said boundaries, which must be considered as a necessary and a rational kind of explanation in these cases.

Another ambiguous expression in the descriptive words of the premises of the patent, respecting the Kennebeck lands, is, "the utmost limits of Cobbiseconte." These words or the expression, have been long a subject of much controversy amongst the different Companies interested in that country.—Some supposed, by Cobbiseconte is meant a river only: some, the waters and ponds adjoining to the river of that name; and some, the tract of country, including those ponds and waters. This river, Cobbiseconte, is an inconsiderable stream, taking its rise some miles to the west of Kennebeck-river, in a number of ponds which extend four or five miles, and make its general course south-easterly towards Androscoggin-river, till it comes within six or seven miles of Swan-

island; then makes its course back into the country about five miles, and empties itself into the river Kennebeck: extending southerly from the lower or southern bend or part of Cobbiseconte river, is a pond and collection of waters, quite down to Androscoggin. Now, the Committee find no evidence that those ponds, waters, or that tract of country, were ever called Cobbiseconte; except what arises from some modes of expression in the said patent, and in some Indian deeds.

The patent conveys all the lands between the utmost limits of Cobbiseconte, towards the Western ocean, &c. which words, utmost limits, seem to apply with more propriety to a tract of land that has extent and boundaries, nearer and remoter parts, than to a small stream, to which those terms are seldom or never applied.

Baggadussett, in his deed, recites, that Monquine had sold all the land from the lower end of Cobbiseconte, &c. and another sells all the land from the northermost part of Cobbiseconte, &c. which expressions improperly apply to Cobbiseconte-stream, and especially, considering the situation and form of it, and its general course from east to west: but this is a kind of evidence, perhaps of little weight, when we attend to the many inaccurate and redundant expressions and words in instruments written an hundred and fifty years ago; a kind of evidence balanced by natural supposition, that those words did not, a century and an half past, convey precisely the same ideas they now do; nor are there many instances to be found, especially among the Indians, of countries lying contiguous to rivers being named after them; and there must have been less reason for naming lands, lying in the neighbourhood of the two large rivers Kennebeck and Androscoggin, after the name of a small stream that passes through them, as in the present case, than in many other situations.

That the aforesaid stream has been uniformly called Cobbiseconte, there can be no doubt. In most of the before-recited

depositions, and in all the plans extant, the stream or river Cobbiseconte, is noted or mentioned. Wherefore, the fairest and most natural conclusion appears to be, that by the word Cobbiseconte, in the patent used, is intended the river or stream of that name; and that by the words utmost limits of Cobbiseconte, is meant the lower or southern verge, bend, or port of it, southward, or towards the Western ocean.

Fixing, then, the lower or southern bend at Cobbiseconte-river as the southern boundary of the patent tract, and the said upper falls as the northern one, between which bend the falls is a distance of about twenty miles, and between which extremes the patent tract may be supposed to lye, the literal meaning of the descriptive words of the Kennebeck patent may be ascertained with a good degree of certainty; especially, by comparing therewith like modes of expression in other instruments, from the same Council of Plymouth, and other instruments of the last century.

In making grants in the first settlements and transfers of lands in this country, it appears, in a multitude of instances, that the grantors attended particularly to the rivers, seas, mountains, and other objects or things that served as boundaries; then described and granted the lands lying within or between those bounds, or extending themselves from one bound to the other, and mentioned or described the rivers, &c. that served as bounds as lying or being towards the north, towards the east, towards the south, &c. meaning thereby, that the river or other boundary mentioned, lye northward, eastward, southward, &c, of the lands granted. An instance of this nature is to be observed in the aforesaid patent of the Old Plymouth colony, whereby all the lands are granted lying and being within or between the river Conahasset, towards the north, and the river Narraganset, towards the south, and the Western ocean, towards the east; meaning thereby, that

Conahasset-river lyes to the northward of the land granted; Narraganset to the southward, and the ocean, to the eastward. Many other like expressions are to be seen in the deeds of the same Council of Plymouth, of lands in America, and in other instruments, written in the last century. The substantial descriptive words in the premises of the Kennebeck patent, appear to be reducible to this form, to wit,—“All the lands between the utmost limits of Cobbiseconte, towards the south, or Western ocean, and the falls at Neguamkike, and extending fifteen miles on both sides of the Kennebeck-river.” Suppose, then, a line to be draw over said falls, and another line over the said bend of Cobbiseconte-river, at right-angles with Kennebeck-river, and considered as the northern and southern lines or boundaries of the patent lands, the external relative objects between which the granted lands are, the words of the Kennebeck patent may have the same unforced construction, as the grant aforesaid of the colony of Plymouth; and the lands conveyed by the said Council, in the Kennebeck country, may be considered as a tract lying between a certain bound or place called Neguamkike, towards the north, or northward, and a bound or place called the utmost limits of Cobbiseconte, towards the Western ocean, towards the south, or southward of the granted lands.

But the greatest difficulty in fixing the bounds of the Kennebeck patent arises from an apparent inconsistency between the preamble, and the descriptive words of the premises.

Governour Bradford, in his history, mentions a circumstance which took place about two years before the patent was obtained, which supports, in some degree, the idea of the preamble—That some difficulties and controversies had subsisted between the people of the colony of Plymouth, and the people settled at Piscataqua, and to the eastward of them, about the trade of Kennebeck-river, that the latter and the

fishing-ships envied the trade of the former at Kennebeck, and threatened to get a patent to exclude them. In consequence of which, a gentleman was sent to England, among other things, to procure a patent for the colony of Plymouth—which was obtained accordingly; and which, in the preamble, recites, that, whereas the said Bradford, and his associates, had no convenient place for trade and fishing, after the many difficulties they had struggled with—Then follows the grant of a place at Kennebeck for those purposes. If a general trade and fishery were intended, which appear to be the ideas conveyed by the preamble of the grant, it is difficult to say, for what valuable purpose a tract of land, between Cobbiseconte and Neguamkike-falls, could be granted,—the nearest part of which to the sea, is about thirty-six miles from it. A desire so to construe this grant as to make it answer the ends of a general trade and fishery, and some expressions in the patent itself, have produced another construction of the said descriptive words in the premises, to wit, that by the words, “towards the Western limits of Cobbiseconte, or the north part thereof, towards, or to, the Western ocean. But this construction, being repugnant to the literal and more apparent meaning of the said descriptive words contained in the body or part of the deed, that must controul the preamble, ought not, the Committee conceive, be admitted, without the fullest evidence, that the design of the grant was to convey a convenient place for trading and fishing in general, and that the design of the grant must be frustrated, unless it be extended to the sea, or near to it.

By the said preamble, and the aforesaid passage recited from Governour Bradford’s history, which mention trade generally, and by which passage it appears the fishing-ships were concerned in the trade of that river, and which are usually connected with foreign trade, the conclusion seems to be, that a general trade and fishery were intended.

To consider further that this was a grant made to a government, in a young and unsettled country, in fee, and to continue forever, wherein, it is reasonable to suppose, the parties looked forward beyond the temporary trade of the Indians, it appears more difficult to conclude, that an inland tract only was intended by the grant.

But the trade in fact carried on in that country for near a century and a half, tended to prove, that a particular trade was intended. No trade appears to have been carried on during that time, except in one or two instances, but with the Indians. For the most part, from the year 1645, to the year 1669, the trade of Kennebeck was rented out to Bradford, and others; and the rent appears to have depended, almost entirely, on the state of the Indian trade:—When war broke out, the rent in a manner ceased, and when peace returned, the rent was renewed. The grantees, at a very early period, built a trading house at Cushenock, a place about half way between Cobbiseconte and Neguamkike-falls.

1662, the said Boyes, and others, built a fortification at Musequoite, and were concerned in some trade at Arrowseek.

If a foreign and general trade and fishery were intended, the Committee are convinced, that the grant of an inland tract could not answer those purposes: but considering the easy navigation of the river Kennebeck, or Sagadahoe, from the sea to Merry-meeting-bay; that the Kennebeck lands were then full of Indians—at times troublesome and hostile—a situation extending from Merry-meeting-bay, or from any place a small distance above it, into the country, twenty or twenty five miles, might serve, at least, the valuable purposes of uniting the Indian, salmon and other trade of the river, with the cod-fishery and a foreign trade; and to unite the interest and strength of the grantees, necessary to carry on and protect both, in a central and advantageous manner.

Previous to the year 1639, many families settled about Merry-meeting-bay, and on the sea-coasts, near Kennebeck, or Sagadehoc-river; and many of them, probably, before the grant was made. In 1653, said Prince was commissioned to govern, at Kennebeck, with assistants, the affairs of the colony; who assembled the people at Merry-meeting-bay, to take oath of fidelity; when Atkins, who, probably, lived near Atkins-bay, Parker, and others, who, probably, lived on the islands near the sea, which now bear their names, were present, and took the oath: which place of meeting and which islands, upon the supposition the patent did not extend below Cobbiseconte-river, were out of the limits of it. But considering that, previous to this time, more extensive jurisdiction of government had been granted to the said colony, by the government and Council of state, in the time of Cromwell, so that the colony might extend its government to lands and people not within the lands granted by the said patent, but little can be inferred from this circumstance, for or against extending the grant to the sea.

Nor can much, on a careful perusal of the authorities, be inferred from the words in the patent, to wit, on each side of Kennebeck, or from the like expressions frequently to be found in the proceedings of the late colony of Plymouth, wherein frequent mention is made of their people, their estates, their trade, &c. at Kennebeck; for, though in many histories and manuscripts, written in the early settlements of that country, the river between Merry-meeting-bay and the sea is called Sagadehoc, there are as many instances wherein it has been called Kennebeck, to the sea.

In the clause in the patent, respecting the Kennebeck lands, "free ingress, egress and regress, to pass from the sea to Kennebeck-river, and from thence to the sea," is granted.—This shews, that the Company, to whom the grant was made, must pass through the territories of others, to come to their own;

for, if their grant of the lands extended to the sea, the river of course passed with them, and those words redundant; and though many redundant and unnecessary words are often used in conveyances, yet, here, these words being particularly applied to the Kennebeck, and not to the grant of the old colony of Plymouth, there cannot be so much reason to suppose them superfluous.

But, why ingress, &c. should be granted from the sea up to Kennebeck, and not up Kennebeck-river to the lower boundary of the patent, or Cobbiseconte, which is five or six miles from the mouth of Kennebeck, admitting it to begin at Merry-meeting-bay, does not appear.

There are some instances, wherein the Company have procured grants and quit-claims of the natives, perhaps the only legal proprietors of the soil, in aid and support of their patent title, of the rights of the Indians to all the lands on Kennebeck, from Wesserunsett to the lower end of Cobbiseconte; but there is no evidence, that they ever attempted to procure any deeds from the Indians of any lands below Cobbiseconte.

Further, it was intended that this grant should extend to the sea, words proper to express that intent must have readily occurred to the parties—This circumstance, of not using such words, but of using words that apparently, in their literal construction, confine the grant to an inland tract, must be a weighty reason for concluding, that it was not originally intended, that the patent should extend to the sea, or Western ocean.

The Committee are rather of opinion, that the said utmost limits of Cobbiseconte ought to be fixed at the southern bend, aforesaid, of the river of that name; but whether they are right as to this fact, is a matter of some doubt; or whether the utmost limits of Cobbiseconte, "towards the Western ocean," ought not to be extended as far down as the southernmost part of the said waters that adjoin to the said river, at

the aforesaid bend, which extend down five or six miles towards Androscoggin-river.

Baggadusset, by his aforesaid deed, released all his right to the lands on Kennebeck, as far down as the lower end of Cobbiseconte; and it appears that Baggadusset lived near Merry-meeting-bay, a little below the body of said waters.

The second general question, that naturally arises in the statement of this claim, is respecting the extent of the lands conveyed by Monquine, Washemet, and other Indians, between Cobbiseconte and Wesserunsett, as confirmed by the said deed from the colony of Plymouth to Boyes and others, and by the doings of Government, and Indians, since.

Monquine, by his deed aforesaid, sold all the lands on both sides of Kennebeck-river, from Cushenock upwards to Wesserunsett, but does not mention or describe the breadth of the land sold; nor does it appear that he meant to continue the patent tract upwards, as he begins and fixes his lower boundary at Cushenock, about the middle of the patent lands.

Washemet, by his deed aforesaid, conveyed the lands on the west side of Kennebeck-river, from Neguamkike-falls to a place four miles above Teconett-falls, and extending ten miles into the woods; and all the lands on the east side of Kennebeck, from Neguamkike-falls to a place six miles above Teconett-falls; which place, as appears by the plans extant, is about two miles below the mouth of the river Wesserunsett; which lands the Company now hold under the aforesaid settlement, with the proprietors holding under Clark and Lake.

Essemenosque, by his writing aforesaid, certified, that Monquine had sold all the land from Cobbiseconte unto a place where Essemenosque then dwelt, called Usseunsett. This mode of expression cannot extend upwards any further than the words in the deed of Monquine; and the words, unto a place called Usseunsett, where I now dwell (admitting

by Usserunset is meant a country) cannot include any part of the lands of Usserunsett; for the words up to Usserunsett evidently excluded; and the words, where I now dwell, refer to Usserunsett, that is, up to Usserunsett, where, at which place, or at which Usserunsett, I now dwell; nor does it appear by this writing, how far the lands sold by Monquine, or by this writing, extend into the woods on each side of Kennebeck-river.

The conveyances of the lands between Cobbiseconte and Wesserunsett river, by the natives of the country, having been acknowledged by the General Court of the old colony of Plymouth, whose acts and doings are binding on the present government, by their aforesaid deed to Boyes and others, the predecessors of the present Plymouth Company, it is unnecessary now to inquire particularly into the forms and execution of those conveyances.

The said General Court, by their aforesaid deed, conveyed to Boyes and others, all the lands contained in the Kennebeck patent, by the same descriptive words of the premises of it; as also all the lands from Cushenock to Wesserunsett, contained in the deed of Monquine, or Natahanda.

Taking these deeds together, the question, respecting the breadth of the lands conveyed by Monquine, becomes of much less importance, especially as to the lands on the east side of the river Kennebeck.

In two or three instances, in the treaties between the government and Kennebeck Indians, the Indians complained that the English had intruded on the Indian lands; to which the government answered, that the Indians had, for valuable considerations, parted with all their lands, to the English, fifteen miles on both sides of Kennebeck, as high up as Wesserunsett; which answers the Indians did not deny, but endeavoured to evade them.—These complaints and answers are to be seen more particularly in the treaties of 1732 and 1753.

Government, also, in these instances, are said, directly or by implication, to have approved of the conveyances made by the natives.

On the third general question in this statement, to wit, What lands were there conveyed by the aforesaid deed of Baggadussett to Boyes, and others?—large interest depends. On the validity and construction of this deed depends the ownership and title to a tract of land thirty miles in length, and about twenty seven miles in breadth, mostly laid out by the Company, and in their possession, and some parts thereof settled under them.

On this point, the Committee find no facts that took place before or since the date of that writing, or any doings of the respective General Courts, that throw any light on the subject.

This question the Committee have examined, and stated under four points of view :—The title Baggadussett probably had to those lands—the validity of this writing—its efficacy as evidence of what Monquine had before sold—and the extent of the lands, if any, conveyed by it.

By the aforesaid deposition of Jabez Bradbury Esq. and from the name of a point of land near Merry-meeting-bay, called, in many plans and surveys, Abbagadasset, it appears probable, that Baggadussett lived there; from which point of land to the lands above Wesserunsett, is about forty five or fifty miles.

From the history and the modes of living amongst the Indians in this country, there can be no great doubt but that they originally held their lands as tenants in common, in a state of nature; and though they have formed themselves into tribes and clans, yet the members of those tribes still retain a common and undivided right to the lands of their respective tribes; but from the respect they have constantly had for their Sachems and Chiefs, and from long usage and custom among them, the Sachem, or Chief, has acquired a right,

founded in tacent consent, a kind of legal authority and power to dispose of the lands of his tribe or subjects, and especially with the consent of some of his principal subjects, or his counsellors.

A distinction, however, has sometimes been made, that a Sachem is considered only as a Wise Man, and a Sagamore as the first legal Magistrate.

That Baggadussett was a Sagamore, and Monquine a Sachem, son of Nattawormet, Sagamore, as they style themselves in their writings, the Committee find it no where controverted.

The lands claimed by virtue of this deed or writing, extend from the lower end of Cobbiseconte, to a place of about twenty seven miles above the mouth of the river Wesserunsett; within which limits are contained, a large tract of land, about Wesserunsett, east of Kennebeck-river, and a large tract west of it — the Norridgwalk lands, the Teconett lands; the lands about Cobbiseconte, Cushenock, Weskrong, and many other places of some note, and on which lands lived the Norridgwalk Indians, and, probably, some other tribes, among which there were a number of Sachems and Sagamores — that fact is rather confirmed by the aforesaid Indian deeds. In the year 1648, Monquine called himself Sachem of Kennebeck-river, and sold all the lands from Cushenock to Wesserunsett; to which Agododomago, son of Wasshemet, and Tasuch, brother of Monquine, consented, and Baggadussett received a part of the goods for which Monquine sold those lands. — 1653, five years after, Wasshemet sold to Lawson, part of the lands contained in Monquine's deed, consented to as aforesaid by Wasshemet's son. — 1653, Essemenosque certified, that he was one of the right owners of the Teconett lands, which, also, are contained in Monquine's deed, and partly in Wasshemet's, and that he lived at Wesserunsett — that he consented to the sale of Monquine, and received a part of the pay — that the

Indians all approved of that sale—that Baggadussett sold Teconett Lake, and the rest, against his will, but that Baggadussett had no right to it, the place being the property of Essemenosque and the wife of Watchogo.

In the sale of Baggadussett, Abonskett or Watchogo received part of the pay.—From these circumstances there appears to have been a kind of aristocracy of Sachems and Sagamores, or Chiefs, among these Indians, so far as respects their rights and powers to convey their lands: nor can it be inferred, that any one of them had a right to all the lands extending from Cobbiseconte even to the river Wesserunsett. Monquine sold the lands at Teconett—so did Wasshemet and Baggadussett; and, Wasshemet's son living, the father consented to the sale of Monquine; and Essemenosque affirmed about the same time, that the same lands belonged to him and the wife of another Indian,—and the husband, Watchogo, as having a right, received a part of the equivalent given. Now, Watchogo and his wife must have been of different families, or descended from a remote ancestor. Wasshemet sold to Lawson without the consent of the rest; whence, it is probable, he was the Chief of a distinct tribe—Monquine and Baggadussett were living, and Chiefs, at the same time, and acted as such; by which it may be inferred, from the laws and customs of the Indians, that they were Chiefs of different tribes. From all which, the most natural conclusion, the Committee think, is, that even the lands between Merry-meeting-bay and the river Wesserunsett, belonged to different Chiefs, and that no one Chief had a right to convey the whole: and as Baggadussett lived near Merry-meeting bay, probably, the presumption is, that he had no right to a large tract of country above Wesserunsett-river, some of it seventy miles distant from Baggadusset or Abagadasset-point.—These circumstances or considerations may be a further reason for not extending the construction of

Baggadussett's deed, and for not supposing that Monquine ever sold lands so high up as twenty-seven miles above Wesserunsett.

As to the validity of the deed of Baggadussett, it does not appear that it was ever acknowledged, or the execution of it proved by the oath of the subscribing witnesses. In the year 1761, it was recorded, when the other Indian deeds aforesaid to this Company were put on record, in the county of Lincoln. The said other Indian deeds were acknowledged, or proved, 1672. This deed of Baggadussett is mentioned by the Pejepscot proprietors, 1753, when they were the opponents of the Plymouth Company, and engaged in a controversy with them; but no particular objection appears then to have been made to it by those proprietors; nor does it appear that, at that time, either the Company or said proprietors had any idea that the lands, intended by the expressions of this writing, extended further up Kennebeck river than to the river Wesserunsett; nor does it appear, by any expression or words in that writing that there was a delivery of it or that it was intended to operate wholly as a release or quit-claim deed; or that any livery and seisin, or actual possession, accompanied it. This writing, or deed, as to the lands above Wesserunsett river, must operate as a deed of bargain and sale, if it had any effect—or serve as evidence, that Monquine had before conveyed those lands—and operate as a release of any right that Baggadussett might have to the lands below Wesserunsett.

This deed can never be considered as evidence that Monquine had before conveyed the said upper lands; for had Baggadussett declared, on oath, that Monquine had sold them, it could be no evidence of the sale of lands by the laws ever in force and practised upon in this country; and such evidence must not only be of no consequence in itself, but directly against the words of the only deed found or produced

from Monquine. But this deed, as to the boundaries, misrecites Monquine's, and in a manner that might easily escape the notice of an Indian, or any one not intimately acquainted with the language in which that writing is wrote.

To the operation of Baggadasussett's deed, as a bargain and sale of lands above the river Wesserunsett, there are two objections. — 1st. It recites, that Monquine has sold all the lands on both sides of Kennebeck-river, from the lower end of Cobbiseconte to the upper side of Wesserunsett, and that Baggadasussett laid claim to those lands; then uses the words, "sold, enseossed, and set over, all his right, title, and interest," unto John Winslow: and though the words, sold, &c, are proper words to be used in a deed of bargain and sale, yet, when coupled with the words, "his right, title and interest," nothing more appears to be expressed, than an intention to release or quit his right in the lands sold by Monquine. 2d. The Indans, like almost all other nations who have not substituted the methods of recording their instruments of conveyance, as evidence of transferring real property, appear, generally, to have been accustomed to the making of livery and seisin, of giving actual possession, or of doing some such act of notoriety, when they transferred their lands; none of which forms appear to have been observed in this case.

In stating or examining this question, as to the extent of the lands that were intended by the expressions in Baggadasussett's deed, it is necessary to inquire, what is to be understood by Wesserunsett. There can be no doubt but that there is, not far below Norridgwalk, a river called Wesserunsett, Usserunsett, Wessorunskeik, and by other similar names — it is noted in the late plans, and is mentioned in some depositions taken thirty years ago; but the Committee find no evidence, except what arises from the modes of expression in this and some other deeds, that those Indian words or names ever signified a country or tract of land — But if by these

words was intended a country, that country, deriving its name, probably, from the said river Wesserunsett, would be limited to the lands about that river, and east of Kennebeck; and therefore, supposing a tract of land is meant, it would be unnatural to include the lands under that name on the west of Kennebeck-river.

Some things to be found in the said treaties seem to confirm the idea, that the Indians had not disposed of any of their lands above Wesserunsett-river: they were told, they had parted with their lands to Wesserunsett; but nothing is mentioned that shews they had parted with them above that river.

The report of the referees aforesaid, in the cause between the proprietors holding under Clark and Lake, and the Plymouth company, which appears to consider this Kennebeck claim as extending to the northerlymost part of Wesserunsett, ought to have its weight; but that report cannot be material, or of much consequence, in the present question — for in that inquiry it was not material whether this claim extended above the mouth of Wesserunsett, or not; and therefore it may be presumed, that the referees took the upper boundary of the Kennebeck claim as it was stated to them by the party.

The laws of the old Plymouth colony, and of the Massachusetts, and the statute of the 13th of William III. have often been produced, to invalidate these and other Indian deeds; but the Committee, on a careful perusal and a fair construction of those laws, do not see their application; for, the deeds of Monquine, Bagdadussett, and Washemet, in part, were of lands out of the limits or jurisdiction of the respective governments, when those deeds were given, and those laws of the separate colonies were made. And, though the law of the 18th of William III. declared, that all Indian deeds, obtained since the year 1633, of lands in this then colony, not confirmed by the respective governments, should be deemed

void; with an exception as to lands eastward of Piscataqua-river; with an exception, also, as to the lands purchased in Dukes-county, and Nantucket, from the natives, for further confirmation of the other lawful titles and possessions of the purchasers; which last clause, for further confirmation, &c. has been often extended to refer as well to the lands purchased eastward of Piscataqua-river, as in the said southern counties; which does not appear to be a just construction of that clause, especially as such a construction must give the law, as far as it respects eastern lands, a retrospective operation—an operation to avoid deeds that might originally be good, yet such declaratory clause, as it looks back, ought to be confined to the purchases made in the said counties where the said deeds were obtained against the laws then in being.

In the fixing the extent of the Pejepscot claim westerly, a material fact ought to be settled, respecting the uppermost falls in Androscoggin river, mentioned in the said deed to Wharton. This river empties itself into Merry-meeting-bay, and extends eighty or a hundred miles into the country, westerly or north-westerly: near Brunswick are falls; and about twenty miles from its mouth, are another set of falls, and near Bakerstown; and about sixty miles from the mouth, are a third set of falls, near Phipps' Canada, and as large as the former; and some small falls still further up this river. Which falls (the twenty miles falls, or the sixty miles falls) are intended by the expression, "uppermost falls in Androscoggin-river," described in the said deed of Warrumbree and others, to Wharton, is a question, for the determination of which, but little evidence is to be found.

As the lands are conveyed, by this deed, to the uppermost falls in this river, and the sixty mile falls are as large or larger than the twenty mile falls, the presumption, from this form of expression, and the usual construction of deeds in

favour of the grantees, must be, that the sixty mile falls were intended, till the contrary can be shewn. That the falls at Phipps' Canada were known to the parties to this deed, at the time it was given, the evidence is, a note in Sheppard's plan, which mentions, that an Indian fort was destroyed 1676, at a place a little above said sixty mile falls; but no authority or evidence is found by the Committee to support this note of Sheppard — Also, the depositions of two aged persons, who testified, that they travelled up Androscoggin-river about sixty miles, where they found these falls, a little above which had been an Indian town.

On the other hand, it can hardly be supposed, that the said Indians granted to Wharton a tract of land extending from the sea into the country near seventy miles, lying in a narrow tract, on Androscoggin river. In the year 1765, the next year after the Pejepscot Company lodged in the Secretary's office, by order of Government, a copy of the descriptive part of their deed from the said Sagamores, the township of Bakerstown was granted, and bounded easterly on the head line of the said Company's patent, beginning at the falls called the Great Falls, or twenty mile falls; which falls, it appears, then were understood by the General Court, to be the falls intended in the said deed to Wharton: and nothing appears to the committee that this Company made any objections to the laying out of this township, or to the said doings of the General Court. If the Company can support their claim to the lands up to the sixty mile falls, a line drawn from thence to Kennebeck, a north-easterly course, according to the said deed, they will hold the lands on the west side of Kennebeck river, much higher up than Wesserunsett. These Sagamores recited, that Purchase lived near the centre of the lands granted by their said deed, at Pejepscot: and Pejepscot being about half way between said twenty mile falls and the sea, it may be considered as circumstantial evidence of some

weight, that those twenty mile falls were the falls intended in said Indian deed to Wharton.

The last general question, respecting the quantity of lands owned by the commonwealth between the lower part of Cobbiseconte and the sea, within fifteen miles of Kennebeck, or Sagadehoc, is made material by the proposition for an adjustment, hereafter mentioned, proposed by the Company and Committee. X

Bringing or extending the patent lands as low down Kennebeck-river as the southern bend of Cobbiseconte, a tract is left, on the east side of Kennebeck, between the patent and the sea, fifteen miles wide, and about nineteen miles long; and on the west side, a tract fifteen miles wide, and about twenty-one miles long: of which, all the lands between Cobbiseconte and Swan-Alley, and extending ten miles on each side of the river, are included in the aforesaid deed to Lawson, dated 1649, which the Company hold by virtue of their settlement, aforesaid, with the proprietors holding under Clark and Lake: of which lands, also, between Cobbiseconte and the sea, the Company hold another tract by virtue of the same settlement, and partly by the said settlement with the Witchcaset Company, including all the lands east of Kennebeck or Sagadehoc-river, and between that and Sheepscut-river, except a part of Parker's-island, about eight hundred acres, according to the plans of that island.

Whence there appears to be, on the east side of Kennebeck-river, within fifteen miles of it, a piece of land of about six miles long, and four and a half wide on an average, lying south of the patent land, and east of the lands claimed under the said deed to Lawson, to which the Company make no title, upon the supposition that the patent tract extends no lower down than the said southern bend of Cobbiseconte, but which is included in the patent nearly, if it extend as low down as the southern part of the said pond of Cobbiseconte; which

piece of land of six miles by four and a half is now included in towns incorporated.

Of which tract, also, between Cobbiseconte and the sea, there is another piece of land, lying east of Kennebeck or Sagadahoc-river within fifteen miles of it, between Sheepscut and Damaris-Cotta rivers, about thirteen miles long, and three and an half wide, on an average, to which the Company also have not made any title, unless they may have title thereto under the patent; the greatest part of which lye within the township of Boothbay, incorporated A. D. 1764; and also within the claims by persons claiming under the Indian deeds.

Of which lands, also, between Cobbiseconte and the sea, on the west side of Kennebeck or Sagadahoc-river, and within fifteen miles of it, the Company make title to themselves and the Pejepscot Company, with whom they have made settlements under the said title of Wharton, to all the lands, except a tract near Maquoit, south-west of a line drawn from a point four miles west of said uppermost falls to Maquoit. This tract cannot be very large, or contain more than fourteen or fifteen square miles; and much less, if said line be drawn to the south-west part of Maquoit. This tract lyes within towns incorporated and principally settled.

In the prosecution of this inquiry, several propositions for an adjustment of the matters in controversy between the Commonwealth and the Company have been made;—from an examination of which, and from a conviction that a speedy adjustment of all matters in dispute, in the eastern country, between government and individuals and companies, must be for the interest of the state, the Committee have finally thought it best for the Commonwealth to meet the Company on the following proposition, to wit,—That the general course of Kennebeck-river shall be pursued up to the mouth of Wesserunset—that a line shall be drawn through the mouth of said Wesserunsett at right angles with the said general

course of Kennebeck-river, and extended fifteen miles into the woods on each side of Kennebeck-river—that another right line shall be drawn parallel to the said right line, passing through the mouth of Wesserunsett, six miles above it, on a perpendicular distance between said lines, and extended into the woods fifteen miles on each side of said Kennebeck-river—and that the said upper line shall be the northern boundary line of the Company's claims:—that the said Company shall release to the Commonwealth all claims that they may have to lands above the said upper line—and that the Commonwealth shall release to the said Company all claims they have to any lands between the said upper line and the sea, and within fifteen miles of Kennebeck-river on both sides of it—and that the said Company shall have, for one year after a settlement is made, the right of pre-emption to any lands within five miles of the said upper line above it.

The Committee, on the best principles and calculations in their power to adopt, were induced to think it would be for the interest of the Government to meet the Company on this proposition.—

Letter from W^m Lithgow Esq^r.

Boston, 29th Nov^r 1785

Sir,

Having been appointed, jointly with Thomas Rice and Rufus Putnam Esquires, by a Resolve of the Hon^{ble} the Legislature of this Commonwealth of March last, to treat with the Indians of the Penobscut Tribe, respecting their claims to certain Lands on the Penobscut River, I very soon after the date of that Resolve, saw and conversed with Mr Rice upon the subject, who agreed with me that the beginning of July would be a very proper time to prosecute the business assigned us, as we were sensible the Indians must by that time have finished their spring Hunting, and would probably be returned to their settlements upon the River.

Pursuant to this idea, I took the earliest opportunity of writing to M^r Putnam, to whom I communicated in substance the preceding Resolution, with our deliberations thereon, but as he happened at that time to be engaged on a distant survey at the eastward, I did not receive his answer untill about the first Ult^o, when he informed me by Letter that my communication had reached him but a little before that time, at

Machias, but that he expected to be on the Penobscut very soon, and should be ready to attend the proposed Treaty by the middle of November; but M^r Rice and myself united in sentiment that the period mentioned by M^r Putnam was by no means eligible for the purpose of a conference with the Indians; both on account of the advanced, and probably inclement season of the year, which in that Country always renders the travelling extremely difficult, if not hazardous in a variety of Instances, and because we were well assured that the Indians could then by no possibility be collected together, as that would be the height of their season for hunting; and for these reasons we thought it advisable to postpone the prosecution of the business, to a more favorable opportunity.

These facts I conceived myself bound in Justice to the Gentlemen appointed to state to the Hon^{ble} Legislature, lest they might be deemed guilty of an unpardonable inattention, to the duties of their delegation.

It may not be improper to add, that during the summer past, I have frequently heard that the Indians were early apprized of, the before mentioned Resolution, and often expressed an ardent wish to meet us in conference upon the Subject of it; and should the Hon^{ble} Legislature still think a Treaty with them respecting the Lands in question, an eligible Measure, I beg leave to suggest the propriety of appointing Persons for the purpose, who, by residing not so very distant from each other may from that circumstance, be better able to embrace the most favorable opportunity of attaining the object of their appointment.

I am Sir, very respectfully

Falmouth January 27th 1786.

This May Certify: That some time in the month of September, 1784, The Widow Mary Ellis left in my keeping Two Consolidated State Notes (so called) One Note being in the sum of Sixty two pounds two shillings, & two pence; the other Note being in the sum of Thirty five pounds twelve shillings & six pence — (both Issued in her Name & then her Property) That said Notes was put into a small Draw in my Desk; where was no other papers That a few days after, a Small Girl pick'd up the smallest of Said Notes in the Street, & it was delivered to me; I went Immediately to the Desk, & found that the other Note was gone, I could not conceive how these Notes could be taken out of the Desk & Lost in the Street; but upon Inquiry; was informed by my Wife, That She went into the room the day before and saw two small

Boys at the Desk, (the keys having accidentally been left in, & the desk unlock'd) She Ask'd them what business they had there; & lock'd the Desk, but did not perceive that they had taken any thing out; (these Boys were her Sisters Children who went to School, and living at some distance therefrom, often came to the house between Schools;) & that the Boys immediately set of home; & did not stay for their Dinner as Usual or go to School in the afternoon; That it was Observed about this time, that these Boys were very busy about making Kites; & picking up all the waste paper they could find, And I verily believe, that one of these Boys took said Notes, out of the Desk for that purpose, not knowing their value, and lost the one that was found in the Street, and perhaps the other (or tore it up about their kites) and it might be trod into the mud or blown away, as it was very rainy windy weather, and the note that was found was very wet & torn;— That I soon after Checkt said lost Note at the Treasury Office, And Advertised it in The Falmouth Gazette, for three weeks; but it hath not as yet been found.—

Petition of Mary Ellis of Falmouth.

To the Honorable Senate and the Honorable House of Representatives of the Commonwealth of Massachusetts—in General Court assembled—

The Petition of Mary Ellis of Falmouth in the County of Cumberland—in said Commonwealth Widow humbly shews—

That on the first day of February A. D. 1783 she received from the Treasury of said Commonwealth, a consolidated note for £62—2—2, in lieu of two Depreciation Notes which before that time were given her for part of what was due to her late Husband Paul Ellis who was a Captain in Coll. Bigelows Regiment—and who was killed at the Battle of Monmouth—That some time in October last she unfortunately lost said consolidated Note (nine months Interest then having been paid upon the same) — That this was the greatest part of what was due for her late Husbands Services & it would be hard for her to lose it — The Circumstances which attended the Loss of it will be related to your Honors by Joseph Noyes Esq^r a member of the Honorable House—and she doubts not will be satisfactory evidence of the Fact

She therefore requists that your Honors would direct the Treasurer aforesaid, to give her a New Note in lieu of it—and as in duty bound—she will ever pray

Petition of Town of Machias.

To the Honorable Senate & House of Representatives of the Commonwealth of Massachusetts in General Court Assembled—

The Petition of the Town of Machias Humbly Sheweth

That the Eastern part of the County of Lincoln labour under the greatest inconvenience & distress by reason of the

largeness and extent of said County and the Distance they consequently are from the Shire-Town which is above two hundred & twenty miles from this Place—Some time past the honorable Court were pleased to take the matter into their Consideration and granted us relief so far as to Sett off “that part of the County of Lincoln Eastwards of Union River” a Seperate district, so far as regards the Court of Probate & Register of Deeds, but did not at that time think proper to Establish a Court of General Sessions of the Peace & Court of Common Pleas —

We experience great relief & are free'd from a considerable expence by having the Court of Probate & a Register of Deeds, but still lay under the heaviest part of the Burden, by being obliged to attend the Courts at Pownalboro' both in Civil & Criminal Cases. we therefore beg leave to call your serious attention to our situation while we give a true State of Facts, and offer some few reasons in support of our request — To Shew it will not only be serviceable to this district but beneficial to the Commonwealth to grant it, and that this place will be most suitable for the Shire town Machias is the first settlement to the Westward of Passamaquoddy and there being many Refugees lately settld there, in case there should be any dispute between them & the Citizens of America, Machias would be an Asylum for the distressed Americans — Where they could find immediate assistance and support — and as many of the Refugees that are settled at Passamaquoddy and other parts of New Brunswick will find it difficult to get Employ in that Province, they will Naturally seek it this way & perhaps many of them have led vicious lives, may be & are often guilty of Theft, house breaking, assaults & other enormities which deserve exemplary punishment, but must escape with impunity, if no relief is granted — for to prosecute any crime at Pownalboro' (distance more than 200

miles) wou'd almost ruin the Prosecutor if he is in comfortable circumstances, and in Case of a commitment it must first fall very heavy upon the Civil officers and finally on the County for persons who are guilty of Crimes of that Nature are seldom able to pay small charges much less such an enormous sum as must arise in that case—in all Civil Actions in this district the Sheriff charges nearly 64/ for travel to Pownalboro' which is very distressing to the Inhabitants more particularly so in a County where Money is so difficult to be obtained

By Erecting this district into a Seperate County many of those difficulties wou'd be removed, which wou'd encourage settlers to come into the Country and raise the Value of the Lands belonging to the Commonwealth—

During the late War between Great Britain & the United States this district exerted itself to the utmost in defending the County against the Enemy & since the Peace have continued loyal to the Commonwealth and have not taken any part toward dismembering the same—

We therefore Humbly pray that you will be pleased to take our situation into your wise consideration and be pleased to grant us relief by erecting this Eastern District into a seperate County by the Name of _____ and shou'd the Honorable Court grant our Request we must further beg that you will be pleased to make Machias the Shire Town of the County (as it is now of the district) it being near the Centre (about 45 miles from the River S^t Croix the Eastern boundary and 55 miles from Union River the Western boundary) and also being the most Suitable place of any in this district the Inhabitants living more Compact where Strangers cou'd get Entertainment, we have a Meeting House that wou'd for the present serve for a Court House & the Block House cou'd be turn'd into a Goal which will prevent putting the District at any additional expence at this Time which they are so

little able to bear — And your Petitioner as in Duty Bound
will ever pray

*Letter from E Storer.*Boston, June 15th 1786.

Sir

Agreably to a desire of the Committee I enclose a memorandum of Grants in the new Townships—the reason you did not have it with the other papers was, because there was a Committee of the Corporation appointed to represent that matter to the General Court by way of Memorial.—

I am Sir with much respect, Your humble servant

E. Storer

P. S. I would just observe, perhaps it may not be thought foreign to the purpose that the Ferry wh^h has been reckoned a valuable Income has not earned from the year 1775 to the present time but about £350 owing to the rents being rec^d in paper money & the great expence in repairing length of boat & widening the way &c—

In Senate March 3rd 1786

Whereas it appears to this Court that Francis Hatch Jun^r of Wells in the County of York who was a Sergeant in the

continental Service in Cap^t Samuel Sayer's Company in Coll^o John Pattersons Regiment, was captivated in the year 1776 by the Indians at a place called the Ceders & thence carried to Quebeck & that he received Wages no longer than untill the End of that year tho' he remained in Captivity untill the 7th day of July 1777 therefore

Resolved that there be allowed & paid out of the publick Treasury of this Commonwealth, to the said Francis Hatch Jun^r, the sum of Fifteen pounds, in full for Wages during his Captivity, & that the sum be charged to the United States.

Papers endorsed: M^r Wells to bring in Resolve provid^d for payment of Wages March 24th 1786 Refer'd to next Gen^l Court.

July 8, 1786 Refer'd to next session

Francis Hatch Jun^{rs} Memorial.

To the Hon^{ble} Senate & House of Representatives of the Commonwealth of Massachusetts in general Court assembled Feb^y 1786

The Memorial of Francis Hatch Jun^r of Wells in the County of York humbly shews that in the year 1776 he enlisted into the Continental Army to serve in the Company under the Command of Cap^t Samuel Sayer dec^d in Coll^o John Pattersons Regiment that in the month of May in the same year Your Mem^o was captivated by the Indians at a place called the Ceders & thence carried to Quebec when he remained above Six Months & from thence was sent to Halifax & from thence to Boston where he arrived on the 7th day of

July 1777, that he lost his Cloaths Fire Arm & other Accoutrements of the Value of Fifteen pounds, that your Mem^o never received any Compensation for his Loss sustained as aforesaid neither did he receive Wages any longer than untill the first day of January 1777 so there still remains due to him Wages for Six Months & seven days, which as your Mem^o was a Sergeant will amount to Fifteen pounds, that your Petitioner suffered great hardships, during his Captivity & is a very poor Man Wherefore your Mem^o prays that his Case & Circumstances may be considered by the Legislature & that a reasonable Compensation may be granted him for his Loss Sufferings & Services & your Mem^o as in duty bound will ever pray &c

The Committee to whom was refered the Petition of Francis Hatch Jun^r, & who were directed to consider the case of Persons in Simelar circumstances, have Attended the Service Assigned them, and find that Provision has been made by Congress for the payment of the Wages of such Officers & Soldiers as have been Prisoners in the course of the late War; that no Provision has been made for compensating Officers & Soldiers for losses they have Sustained in Clothing &c in consequence of their being Captivated by the enemy & in Battle; and as it would be exceeding unequell that such Losses should be payed for by this Commonwealth, without a reimbursement thereof by the United States; Your Committee take leave to Suggest the Propriety of requesting His Excellency the Governor, to Write to the Delegates from this Commonwealth in Congress, informing them that it is the Pleasure of the General Court that they Lay the matter before Congress, and use their endeavour that Provision be made to compensate for such Losses.

Governor's Message Feb^{ry} 10, 1786.

Gentlemen of the Senate & Gentlemen of the House of Representatives

I sent you a message the 24th of November last, relative to the encroachments, which the Government of the new british Province of New Brunswick were disposed to make on the territorial rights, & sovereignty of this Commonwealth, and of the United States. Since which a letter has been received from James Avery Esq^r our Excise Officer at Machias, dated the 24th of December last: in which he mentions he had just received advice from Passamaquoddy, that M^r Weir the House Sherriff for Charlotte County in that Province, a few days before went on to Moose Island, & took the body of M^r Tuttle Deputy Collector of Excise on an Action of debt; & told him he must either find bail, or be carried to Goal at S^t Andrews. Upon M^r Tuttle's informing the Sherriff, that he considered himself a subject of this State, & should not regard him as an officer the Sherriff called on some of the inhabitants to

assist him to carry M^r Tuttle to Goal, but they refusing, he informed them, he should go to the neighbouring Island of Campo Bello, & get assistance from the Ship lying there: being determined to carry the said Tuttle to Goal; & that orders had come from S^t Johns to exercise jurisdiction over the inhabitants of Moose Island.

This account is in part confirmed by a letter communicated to me by Leonard Jarvis Esq^r who, as he has lately been in that Country, can give information concerning the circumstances of it.

M^r Avery concludes his letter with his expressed hope, that Government will take some steps to prevent its subjects from being insulted by a foreign power; & being liable to be dragged away by armed force.

In my former message on this subject I acquainted you, Gentlemen, that Congress had been made acquainted with all the proceedings referred to in that message; and had sent an Account of them to the Minister of the United States in London.

This affair, Gentlemen, merits your serious consideration. M^r Avery's letter, which will be laid before you, mentions several things respecting the duty of his Office; & that of the Naval Officers within his District: which may also require your consideration.

Govr's Message Feb. 14, 1786.

Gentlemen of the Senate, and Gentlemen of the House of
Representatives

By the Returns made into the Secretary's Office of the
number of Inhabitants in the several Towns and Plantations

in this Commonwealth, pursuant to an Act and Resolution of the Legislature, it appears there are three hundred & fifty two thousand, one hundred & seventy one Whites; and four thousand three hundred and seventy one Blacks: the particulars of which you will observe by the account taken of them by the Secretary from those Returns.—As neither the Act nor Resolution contains any order for transmitting such account to Congress, you will please Gentlemen, to give the needful directions for that purpose; expressing your mind, whether a copy of that Act and Resolution shall be sent with that account.

I have received Letters from the Secretary of Congress, (which will be laid before you) enclosing a state of the Representation of the United States in Congress for each of the months of November, December and January last: by which it appears, that no more than seven States have at any time in those months been represented: a circumstance much to be regretted, as such a representation, according to the Confederation, is not competent to business of importance. We have however, the satisfaction of knowing, that this deficiency is in no part of it attributable to this Commonwealth.

Report of Committee on Kennebec Claim.

The Committee appointed on the Kenebeck Claim and on the several Petitions from Booth Bay N^o IV & N^o V on Blew hill Bay N^o VI & N^o I on Union River and a Place called New Bowdoin and of Sandy River ask leave to report a State of facts.

That soon after the Printed statement & the said Petitions were committed to them, they entered on a consideration of the business.

That a Captain Leach appeared before the Committee and informed them, that he had a claim to a considerable tract of Lands, included in the Lands proposed to be quit claimed or ceded to the Plymouth Company, and requested he might be heard by Council before the Committee, James Bowdoin Jun^r Esquire and the Members of the Honourable House from the County of Lincoln made the same request, the first on the part of the said Company & the latter in behalf of the Settlers on the Lands; the committee conceived that they should be justly chargeable with partiality should they refuse these applications, they therefore appointed a time for the purpose. M^r Benjamin Lincoln Jun^r appeared in behalf of Captain Leach the Honourable John Lowell Esquire in behalf of the Plymouth Company and the Honourable James Sullivan Esquire in behalf of the Settlers

The Hon^{ble} M^r Sullivan observed that the Committee who compiled the Printed statement, were mistaken with respect to the Geography of the Country and the Falls of Negumkike, and requested a longer time to prepare to state the matter to the Committee to which the Committee acceded.

The committee conceiving this a subject of great importance, and involveing in it many intricate points, thought it their duty to lay the foregoing statement before the House that they might take such order thereon as they may think proper.

Re: Bill Regulating Townships.

March 7th 1786

Sir

The Act for Regulating of Townships & Town meetings is inclosed for the Consideration of the general Court, Which some of the revising Committee, are desirous Whenever the

Code of Laws is Printed, should appear at the beginning of the Statutes, as it seems to be the grand Stepping Stone to every species of Power in the Commonth some of the Committee since the Bill is drafted seem to be of Opinion, that it would be eligible to fix the Time to the first Monday of April instead of the Month of March, in order that there might be a more general attendance of the Inhabitants for other Elections that are by the Constitution Assigned to that Time, should that be the opinion of the general Court it may easily be effected, and another short Clause introduced to transfer all matters cognizeable in March Meetings by other Statutes to the first Monday in April.

To the Honorable Senat and house of Representatives

Humbly sheweth John Nichols, in behalf of the Town of Washington That Havens Shearman Collector of Taxes for said Town, after Collecting a considerable sum, did abscond with the same in his hands, and that upon application made to this Court at their first Session, The Treasurer of this Commonwealth was directed to stay his Execution against Said Collector for the term of nine Months, which being Nearly expired, and Said Town having since the passing the said order, Settled with said Collector, by receiving from him a Small piece of Land, which was all that they could obtain, and which Cannot be sold for money at present, and whereas Said Town is Very poor, and unabl at present to pay the

Same, Your Petitioner therefore prays Your Honours to take the matter under your wise Consideration, and that Said Treasurer may be directed to Stay his said Execution, for the further time of nine months in order that said Land may be Sold or that Said Town may have opportunity to Discharge the said Tax some other way,

as in duty bound will ever pray

Commonwealth of Massachusetts

In the House of Representatives March 13, 1786

On the Petition of Paul Dudley Sargent Esq praying for a Compensatory Grant out of the unlocated Lands belonging to this Commonwealth in the County of Lincoln

Resolved that Eight hundred acres of unappropriated lands in the County of Lincoln be granted to the said Paul Dudley Sargent in full for the expences made in purchasing eight hundred acres granted to the Soldiers by the General Assembly of the late Province of the Massachusetts Bay in the year 1734, in the Township called Souhigan West N° 3 which by the Settlement of the line between said Province and that of New Hampshire fell within the limits of the latter Government as Set forth in said Petition, and which Grant Shall be in full for all claims said Petitioner may have on this State by means of the Aforesaid Settlement —

Resolved that the Committee for Selling the unlocated land in the County of Lincoln be and they are hereby directed to Sett of eight hundred acres of land to Paul Dudley Sargent Esq^r and his heirs for ever, out of the Land in the County Aforesaid and in such parts thereof as said Committee may see fit —

Memorial Paul D. Sargent.

Commonwealth of Massachusetts

To the honorable the Senate, & to the honble the House of Representatives of said Commonwealth in General Court assembled at Boston October 1785.

Paul Dudley Seargent humbly sheweth That in the year 1734 the General Assembly of the then Province of the Massachusetts Bay granted a Township six Miles square called

Souhegan West N° 3 to the Widows, Children & Heirs of the Soldiers engaged in the Narraganset Expedition, or Pequod War; Two Rights of which District consisting of eight hundred Acres, were purchased the same year by the Father of your Petitioner from the Heirs of two of said Soldiers: That Anno 1736 by the settlement of the Line between said Province & that of New Hampshire the whole of said Township fell within the Limits of the latter Government, the Soil & Freehold became vested in that Province & the Grant from Massachusetts was vacated, notwithstanding the terms of the Grant had been completely fulfilled & the Dues done by the Grantees or their Assigns, by Means whereof your Petitioners Father was put to a very considerable Expence in repurchasing said Lands & obtaining a Quiet Occupancy & which Expences have never been reimbursed, or any Compensation made by this Government to said Purchaser or his Heirs: Your Petitioner therefore prays that this honorable court would make him a compensatory Grant out of the unlocated Lands belonging to this Commonwealth lying in the County of Lincoln, or take such other Order on the Premises as they in their Wisdom shall think to Right & Equity appertains. And your Petitioner as in Duty bound shall ever pray

Message of Governor.

Gentlemen of the Senate & Gentlemen of the House of
Representatives

A number of persons, who appear to be inhabitants of Moose Island in the Bay of Passamaquoddy, have by their letter of the third of January just received, represented, that the Officers of the neighbouring British Province of New

Brunswick are pursuing every method to subjugate them; & that several writs have been executed upon them: imploring the interposition of this Government, & that such steps may be immediately taken as are necessary to quiet their minds, and give them full possession of their rights in the said Islands: as you will observe by their said letter.

This matter, in consequence of former similar representations, has been at your request laid before Congress; and as it is in a train of settlement, there seems to be nothing further necessary to be done, but to quiet the minds of those inhabitants, by informing them that Congress had taken measures to procure an amicable adjustment of the dividing line between the territory of the United States, & the said Province of New Brunswick; to commend them for their resolution, that no allurements or threats shall induce them to forsake that system & Constitution, by which they very justly think their natural rights & privileges will be secured; and to exhort them to abide by that resolution.—

The said letter, Gentlemen, is laid before you, for your determination concerning it.—

May it Please your Excellency

The very great trouble and distress, which we now Labour Under, Call aloud in behalf of ourselves & Famelys to Solicite the attention of your Excellency—the Island we now Live on appears to be in dispute, between the United States and Britain. The later now pursuing every Method to Subjugate us—Several writs have been Executed, & by the Vigilant & Active Conduct of the Emmissires of Britain, several

Credulous & Ignorant persons have Doubted the American Claim—As to Ourselves No Allurements or Threats will prompt us to foresake that system & Constitution, which we hold as our Natural Rights & privelidges—Always Confiding in the Assistance of the United States—and that the Island Lyes within their Jurisdiction—We are people who depend upon Our Industry for Subsistance, & have little time to Attend to such Disputes—We have therefore taken this Method to Beseech & Implore the Interposition of your Excellency & the Hona^l Council to take such Immediate Steps as are Necessary to Quite our Minds and Give full Possession of our rights and titles to said Island—

We woud further Observe to Your Excellency that should said Island fall into British Lines, it intercepts all Trade with Cobscok, which Britain Allows to fall within the States—With a full relyence & dependence upon Your Excellencys Attention

Petition of Inhabitants of Cumberland & Lincoln Counties to cut a Canal from New Meadow to Merry Meeting Bay.

Commonwealth of Massachusetts

In Senate March 22, 1786.

On the petition of sundry Inhabitants of the Counties of Cumberland and Lincoln, praying for license to cut a Canal

from New-Meadow River to Merry Meeting Bay: Ordered, that the petitioners cause an attested copy of their said petition and this Order thereon, to be published in the Falmouth News Paper thirty days, at least, previously to the second Wednesday of the next Session of the General Court, that notice may thereby be given to any person or persons to shew cause (if any there be) on the said day, why the prayer of the said petition should not be granted —

Petition Inhabitants Cumberland and Lincoln.

To the Hon^{ble} the Senate and House of Representatives of the Common Wealth of Massachusetts, in General Court assembled.

The Petition of the Subscribers (being Inhabitants of the Counties of Cumberland and Lincoln) humbly sheweth, That your Petitioners being sensible that by cutting a Canal from the Head of New-Meadow River into Merry-meeting Bay, many and great Advantages would accrue not only to the Inhabitants of this Vicinity in particular, but to all the Maritime Towns to the Westward of said River in this Common Wealth, and to the Publick in general — as Merry-meeting Bay is the Place where the two great Rivers of Kennebeck and Androscoggen meet, and is just above those dangerous Narrows called the Chops — Through which Canal, might be brought Lumber & Masts from any part of Kenebeck River in Rafts, directly into Casco-Bay and to Falmouth, without

going to Sea or running the Hazard of going down that rapid Torrant, the main Stream of Kenebeck — New-Meadow River empties itself into Casco-Bay about one League and an half to the Westward of Small-Point, and is a very safe & commodious Harbour even in the most rugged Season of the Year for Shipping of all Sizes — From the Head of New-Meadow River into Merry-Meeting Bay, is called little more than one Mile and is all the Way (excepting a very small Distance) low, swampy Ground and Salt-Marsh, thro' which is proposed to cut said Canal, at the Expençe of Subscribers; and your petitioners are willing that the Owners of the Land & Marsh be intituled to reasonable Dammages (if any they require) from the Subscribers to carry on said Business. Therefore your Petitioners pray your Honors Approbation, & that in your great Wisdom you would grant Leave for said propos'd Canal to be cut through — And your Petitioners as in Duty bound, will ever pray

To the Honorable Court of General Sessions of the Peace for the County of Cumberland in the Common Wealth of Massachusetts

The Petition of a Number of Inhabitants of two towns one called Bucktown or No 5 The other Called Butterfield or No 6 in the County of Cumberland

Your Petitioners Humbly sheweth — That the Committee appointed by the Honorable General Court for Selling unappropriated Land in the county of Cumberland Have Sold the above said Two Towns and there being between Seventy and Eighty families Settled in said Townships

That they Labour under Great Inconveniencies for Want of an open and Established Road from Bucktown through part of Shepardfield and Bakerstown as far as the Great Bridge on Little Amouriscogin River in Bakerstown

The Road that is used now is frequently filled up by Persons who wish it to be differently laid out — some say it to be in one place and some in another —

Your Petitioners therefore Humbly Pray that your Honours Would be pleased to send a Committee (or appoint some other way) So that there may be an open and Established Road from Bucktown to the Great Bridge above said so that they may pass and Repass Without so many fences and other incumbrances

And as in Duty Bound they will Ever pray

To the Honorable Senate and the Hon^{ble} House of Representatives of the Commonwealth of Massachusetts in General Court assembled —

The Petition of Abijah Buck, for himself & in behalf of forty nine others, Inhabitants of the Plantations of Bucktown and Butterfield in the County of Cumberland humbly shews

That they labour under great Inconveniences for want of an open and established Road from said Bucktown through part of Sheppardsfield and Bakerstown as far as the Great Bridge on Little Androscoggin River in said Bakerstown — The Road that is now used is frequently filled up by persons who wish it to be differently laid out, some in one place & some in another

He therefore prays that your Honors would impower and direct the Court of General Sessions of the Peace for the said

County of Cumberland to appoint a Committee to lay out open & establish a Road from said Bucktown to the Bridge aforesaid, in such a manner as they may judge best —

Your Petitioner & the 49 other Inhabitants aforesaid, supposed the Court of General Sessions afores^d were by Law empowered to lay out Road through Plantation & signed the Petition accompanying this. which he begs leave to present to your Honors to shew that that number of Persons at least in y^e Plantations aforesaid wish to have said Road established — but finding upon his coming to said Court that they are not invested with this Power—he humbly lays his & their Request before your Honor & prays for your Honors Order thereon —

Letter from Jas Lyon to Jas Avery.

Machias, May 17, 1786

Sir

I am exceedingly obliged to you for your very friendly letter and the great attention you are pleased to give to my interest, which is now depending in the General Court. I trust, the reflection of having, at least endeavored to serve me in this matter, will always give you pleasure; for no person can have a better claim to said Lands, unless it is given by the Court, than I have. This claim I cannot present to the Court, in my own person, but beg the favor of your doing it, if consistent. And what you are pleased to do will be acceptable to me. My Memorial, to which I refer you, contains my claim in full. I shall only add, that no person, to my knowledge, who now makes any pretentions to said Lands ever labored one hour on them except myself and those under whom I claim. And, I presume a person fixing his eye

on it 20 or even 30 years ago, & ever calling it his, will never give him a just claim. Should the Hon^{ble} Court see fit to grant me my Petition, & consider the rations &c. a sufficient compensation, I shall be fully satisfied — But rather than loose the money I have paid to original claimers, & my own expense & labor, I will pay for them, as others pay for wild Lands, tho' it distresses me considerably — My choice you will easily guess — I wish, if I know myself, for nothing unjustly. And could I think the claim of any other person to the aforesaid Lands better than my own, I would instantly relinquish them. Nor do I wish to be favored by the Great & General Court farther than they would favor another person, in my situation & circumstances. I also wish to have the matter determined as soon as may be, that I may proceed to further improvements on said Lands, if mine. And I fully rely on your friendship, & the due application of your influence. And I not only wish you success in this, but also in all business, in which your own interest, and that of the public is concerned —

I am, Sir; very respectfully, Your Most humble & obliged servant

in General Court Assembled

The Petition of Benjamin Sawyer of Boothbay Humbly
Sheweth

That while hostilities continued between Britain & America your Petition was exposed by his Local situation to the open ravages of the common foe; that his uniform zeal & activity in the cause of his Country drew on him & his family a peculiar share of the enemy's vengeance; for this his house was plundered & robbed of his property to a considerable amount; that hereby he was reduced to no small distress: that a brief statement of his losses with proper Vouchers was laid before the Hon^{ble} Court in the fall-Session 1784 — which, together with the Petition that accompanied it still lies before your Honors.

That by long sickness his family has been reduced to such circumstances as can ill bear to ly under these difficulties — That in addition to all this, Your Petitioner having sold out a real estate Was induced to place the money received in pay for it into the public funds: & there it remained till by the depreciation of the Currency it lost of its value more than

four hundred pounds, & the remainder he cannot get out of the funds now

That by this means he has been disabled to discharge his own honest debts; & therefore is sued by his Creditors & exposed to be harassed, if not undone.

Your Petitioners therefore begs leave thus to lay his case repeatedly before your Honors; entreating the Hon^{ble} Court to take his case into your wise & candid consideration & grant him such relief in the premises as to your Honors in your wisdom & equity Shall seem meet

& your Petitioner as in duty bound Shall ever pray

The Govr's Speech to the General Court.

Gentlemen of the Senate & Gentlemen of the House of
Representatives

Agreeably to the request of the last General Court, I transmitted to our Delegates in Congress a Copy of the several papers, that relate to the transactions of the Commissioners for settling the Eastern boundary line of New York, & of the Courts' Resolve, giving them certain powers for effecting a Settlement of the interfering claims of the two States, to lands in the Western Territory.

With respect to the first, I desired those Gentlemen to communicate to the new Commissioners, appointed by Congress to run that line; & to procure from them the needful information of the time they would attend on this business: the time mentioned in their first letter being rendered precarious by their second letter: in consequence of which those papers were transmitted. But no further information has been yet received from them on the subject.—One of the

Agents appointed on the part of this State, the hon^{ble} Mr Sedgewick, informs me by his letter of the first of May, that his prior engagements to the Government as a Delegate in Congress, & his obligations to his colleagues, render his attention to this business impracticable; & he is therefore obliged, though with reluctance, to decline the honor of the appointment.—Perhaps, Gentlemen, you may think it proper to appoint another Agent in his stead.

With respect to the interfering claims of the two States, I have receiv'd a Letter from our Delegates, dated the 19 of May enclosing a copy of a supplementary Act of the Legislature of New York, passed the 28th of April last: appointing seven Gentlemen Agents, for vindicating the right & jurisdiction of that State, against the claims of this State: & any five or more of them are by that act empowered to settle the controversy between the two States, otherwise than by the federal Court, in such manner as they shall judge most conducive to the interest of that state. You will consider, Gentlemen, whether it would not be eligible to give the Agents on our part similar powers: & whether in that case the probable consequence would not be a speedier decision of the controversy.—

Among the subjects, that claim your attention, Gentlemen, the University at Cambridge is not the least important: The encouragement of literature & the diffusion of knowledge were among the first cares of the worthy ancestors. After providing the common means of instruction, they instituted Harvard College which from that time to the present has amply answered the end of its institution.

It has always been under the patronage of the General Court, who from time to time have made grants for the support of its President and Professors. The last Grant for that purpose was in June 1784, for their salaries to the preceeding January.—With you, Gentlemen, who must be sensible of the great benefits derived to the Commonwealth from that

institution, there can be little occasion of using arguments for continuing those Grants. The meer representation of the arrearage, I am persuaded, will induce you to provide for the payment of it: especially as the Constitution declares, that "it shall be the duty of legislators & magistrates, to cherish the interests of literature & the Sciences, & all Seminaries of them, especially the University at Cambridge."—Considering too, that in most of the United States, there is now a remarkable disposition in favor of literature & Science for promoting & encouraging of which, there appears among them a most laudable spirit of emulation.—

Under the regal Government, to which it is hoped, the republican will in no instance be inferior, those Grants were regularly made. Besides which, about twenty years before, & down to, the time of its abolition, there was in every new-granted township one share reserved for, & granted to, Harvard College, exempted from all taxes, & similar reservations were intended to be made in all after-grants of townships, until the College-estate should produce a yearly income so large, as that all further grants, both of land & money, might with propriety & without discouraging Literature, be discontinued —

I would recommend it to your consideration, Gentlemen, whether, upon these principles, it would not be proper to confirm to the College all the land-grants that have been made to it as above-mentioned; & to secure to it one share in such townships as may hereafter be granted.

Another subject, & a most important one, that requires your immediate attention, Gentlemen, is a Resolution of Congress of the 15th of February last: most earnestly recommending to the deficient States on immediate & full compliance with the revenue System, proposed by that honorable body, by their Act of the 18th of April 1783. I communicated it to the General Court at their last Session: but they

thought proper to refer it to the consideration of the present General Court.

Among the States, which have only in part acceded to that System, is the Commonwealth of Massachusetts: whose Legislature, with the Legislatures of the other deficient States, is with unusual anxiety, & with a solemn earnestness, called upon by Congress to pass Laws in full conformity to it. They urge a compliance from motives & considerations of great moment, which must make a deep impression on everyone, who has a real concern for the honor & happiness of the United States: & if a better system cannot be proposed, this single consideration, that our freedom & independence were purchased by the debt it was intended to discharge, should invigorate every exertion to carry it into execution—

Some of the States do not seem sufficiently sensible, that the freedom & independence, thus derived to them, have given them a new & important character—a national character, from which, as relative to each other individually, & to the united body collectively, new duties have originated, which they are indispensably held to perform; & some of which are expressly pointed out by the confederation.—By the confederation the States respectively do solemnly pledge & engage their faith, to abide by the determinations of Congress on all questions, which by the confederation are submitted to the decision of Congress; & that the Articles of it shall be inviolably observed.—

By those articles Congress have authority to borrow money on the credit of the United States; & to ascertain the necessary sums to be raised for the service of the States; & to appropriate & apply the same for defraying the expence of that service: & the several States are held to supply those sums in certain proportions; for paying which, taxes shall be laid & levied by the authority of their respective Legislatures within the time agreed upon by Congress.

Upon the faith & promise of the United States, thus pledged & engaged, & to carry on the War, Congress procured Loans from France, Spain & Holland, & from Citizens of the States, which with other charges incurred by the War, amount to a considerable sum. The nations & individuals, to whom this sum is due, have a right to expect, & they do expect, that it will be paid according to that pledge & engagement: & the several States in the Union are under every obligation of justice, honor & good faith, to exert their utmost ability for that purpose. And you will permit me to add, that it is particularly incumbent on you, Gentlemen, as the Legislature of this State, to make provision for the payment of our proportion of that debt.

To extinguish the debt, a mode is pointed out by the revenue System abovementioned, which Congress, after the most mature deliberation, declares to be the best in their power to propose. It recommends to the general States to invest Congress with a power to levy, for the use of the United States, certain duties upon goods imported into the said States from any foreign port. And also to establish for twenty five years, & to appropriate to the discharge of the debts contracted on the faith of the United States, substantial & effectual revenues, of such a nature, as they may judge most convenient for supplying their respective proportions of one million & five hundred thousand Dollars annually, exclusive of the aforesaid duties: Provided that, until the rule of the Confederation (or some other rule) can be carried into practice, the proportions of the said sum shall be as mentioned in the said Revenue Act: which assigns to this Commonwealth the annual proportion of two hundred twenty four thousand, four hundred & twenty seven dollars.

The former part of this recommendation has been complied with by the legislature of this State; with this deviation however, that instead of empowering Congress, they have

an Act of their own, laid the recommended duties: subject to this proviso, conformably to the recommendation, that the Act Shall not operate until all the United States have passed acts for imposing the like duties —

The resolutions of Congress relative to this business, together with a message of the 27th of February last, to the General Court on the same subject, are on the files of the Court, & to which you will please to be referred —

The Commissioners of the Treasury of the United States have transmittted a book, containing their account of taxes with each particular State, exclusive of specified supplies, stated to the first of November last: & also an Account of those supplies, that have been demanded of each State. It would have been communicated to the General Court at their last Session, had it not, by some accident, been mislaid. The former account includes taxes & credits for old Emission dollars, New Emission, & specie dollars; & the balances due in each.—

With respect to the first mentioned account with Massachusetts there was a balance due from this State in the old emission. On finding it right, & a much larger sum of the old emission dollars being in the Treasury, a warrant was immediately issued on the Treasurer to pay that balance to the Loan Officer of the United States: & it has been accordingly paid. There is the appearance of a large balance of new emission dollars due from this State: but when we are credited for the payments made by the late Treasurer Gardner, for the sums cancelled, or burnt, by a Committee of the General Court, & for what the present Treasurer has in hand, the remaining balance will be comparatively small, & may in a short time be wholly paid; if the extant taxes, intended to redeem that emission, be properly called for.—

The balance in specie appears also to be large: but it will be greatly reduced, when all the sums paid are credited, &

the amount in other respects properly adjusted. The State however, is, with regard to this balance, considerably in arrear; & the loan officer has been with me, requesting, that I would represent to the General Court the urgent necessity, which presses for the speedy payment of it. Upon this head I sent Messages to the General Court dated the 24th of October, the 3^d of November, & the 3^d of February last, accompanied with several letters from the Commissioners of the Treasury, & Mr Secretary Thomson; together with a resolution of Congress of the 12th of October, which are all upon the same subject: earnestly urging the payment of arrearages, due on the several requisitions of Congress prior to the last; & representing in very forcible terms the evil consequences, that must result from delay—By recurring to those papers Gentlemen, you will see the great importance of fully complying with those requisitions; & must be induced to take vigorous measures for enforcing the collection of the taxes laid for that purpose—

At the same time, Gentlemen, you are providing means for complying with the requisitions of Congress, you will naturally take into consideration the state of our own particular debt. A general view of it was exhibited to the last Court; & you can at pleasure recur to that exhibition—

It is particularly necessary you should attend to the State of the debt, as it respects the last & present year.—Among other purposes, the last tax-Act provides for the redeeming of one hundred thousand pounds of the Army notes: going upon the idea, that that sum would redeem the whole remainder. But there will still be a remainder of ten thousand one hundred & fourteen pounds four shillings & four pence of those notes, for the redemption of which the Act does not make provision.—That remainder, however, need not for the present be considered, as the Sale of State lands, & some

other means, already provided, may be sufficient to redeem it.—

Of the consolidated securities, issued by the Treasurer, there is one hundred seven thousand five hundred & ninety five pounds fourteen shillings & eleven pence half penny, that was payable the last year: which with three hundred forty five thousand four hundred & eighteen pounds nineteen shillings & eight pence half penny of the like securities, payable the present year, makes four hundred fifty three thousand & fourteen pounds seventeen shillings & eight pence: the greatest part of which is now payable, & the whole will be so, at the end of the year, besides the interest that will then be due.—

The payment of these securities is provided for by five taxes laid on the year 1785 for four hundred twenty three thousand two hundred & fifty pounds; & by four taxes on the present year for three hundred eighty six thousand two hundred & fifty pounds; for which taxes the Treasurer is empowered & directed to issue his warrants, in case the General Court should not by the first of July in each year, agree upon a tax act for apportioning those taxes upon the Commonwealth. The Acts laying those taxes were passed the 17th of February, the 15th of May, & the 5th of July 1781; & the 25th of March 1783: & it will be the duty of the Treasurer, after the first of July next, to issue his warrants for apportioning & collecting them, at least to the amount of the aforesaid sum of four hundred fifty three thousand & fourteen pounds seventeen shillings & eight pence, exclusive of the interest.— The reason why the taxes so much exceed the debt they were intended to discharge, may be conjectured from an Act passed the 6th of March 1782: by which an alteration was made in the time of payment of Government securities issuable, & some of which had been issued, by virtue of anterior Acts. The payment was postponed a year, without a correspondant postponement of the taxes.

It would be for the honor & reputation of the Government, if its debt could be paid at the several times it will become due. But if the tax, laid upon the present year by the last tax act, of three hundred thousand, four hundred & thirty nine pounds one shilling & three pence, connected with the sum aforesaid, exceeds the ability of the Commonwealth, concerning which you, Gentlemen, are the judges, would it not be advisable to propose to its creditors a system of payment, by which certain proportions of the debt, to which the public ability would be equal, should be annually paid, until the whole be extinguished.—If this, Gentlemen, should be your opinion, you may think it proper to extend the proposal to the remaining creditors of the Commonwealth: to whom there will be due on consolidated securities in 1787, including the debt to a mercantile house in France, three hundred fifty eight thousand five hundred & fifty one pounds fifteen shillings & eight pence half penny—in 1788 three hundred forty five thousand four hundred & eighteen pounds nineteen shillings & eight pence half penny; & in 1789 two hundred thirty seven thousand eight hundred & twenty three pounds one shilling & nine pence.—The amount of all the consolidated securities, that have been issued by the Treasurer, & are now extant, according to a memorandum I have had from him, is one million three hundred ninety four thousand, eight hundred & eight pounds fourteen shillings & ten pence, exclusive of interest.

For the payment of the first sum, taxes are laid on the year 1787, for three hundred eighty six thousand two hundred & fifty pounds, & for the payment of the two last mentioned annual sums, both amounting to five hundred eighty three thousand two hundred & forty two pounds one shilling & five pence half penny; taxes are laid on the year 1788, for three hundred eighty six thousand two hundred & fifty

pounds: which with the surplus age taxes laid on the year 1785 & 1786, are the fund for securing that payment.

This, Gentlemen, is the State of the domestick debt as it stood the 27th of the last month: & these are the funds for the payment of it. There will be some addition to be made to it, as all the accounts relative to the Penobscot Expedition, & other matters of charge have not yet been settled. It is justly expected, however, that the cost of that expedition will be allowed to us by Congress.—

A well digested system of payment, supported & recommended by proper tax-acts, with such provisions as would insure a punctual payment at the stipulated times, would probably meet the approbation of the creditors of the Commonwealth; & be acceptable to the people in general. In that case, the former would receive their debt in reasonable proportions at the stipulated times; & the latter be relieved, not only by a division or distribution of the taxes upon a number of years, but by the increasing population; which would annually supply new & additional subjects to bear a part of the taxation—

If however, by a vigorous exertion we could cancel the domestick debt within the time, at which the securities of the remotest payment are payable, viz^t 1789, transferring to that year a sufficiency of the overplus tax of the last & present year, & annihilating the rest of the overplus, it might be more for the benefit of the Commonwealth—than to procrastinate it.—This Cancellation being effected, & all our finance resources directed to one point, ways & means might be found to supply our proportion of the foreign debt without much difficulty—

Such an exertion, founded on the unalterable principles of rectitude, & communicative justice—a basis, on which the happiness & prosperity of nations, as well as of individuals, so essentially depend—would be productive of good effects;

&, systematically pursued, would in a short time, not only greatly reduce the debt, but proportionably advance the credit & reputation of the Commonwealth.

There are other matters, Gentlemen which require your consideration, & which I shall communicate to you by message.

The Letters & Papers, referring to those above mentioned, will be delivered to you by the Secretary—

Council Chamber June 2^d 1786.

To the honorable the Senate and the honorable House of Representatives of the Commonwealth of Massachusetts in General Court assembled.

The Petition of the Subscribers, Inhabitants of the County of Lincoln humbly sheweth,—that your Petitioners, influenced by an earnest desire to Alleviate the distress of their fellow creatures in general, to promote the good of the Citizens of this Commonwealth in particular, and to see the Maritime and Mercantile Interest thereof in a flourishing condition, and being fully persuaded that the erection of a Light-House upon the Island called Seguin will greatly tend to advance these important purposes, think it their duty to apply to your Honors our political fathers, whose Characteristic it is (and who are so fertile in expedients) to advance the true interest of their Constituents and the benefit of Mankind in general, to cause a Light-House to be erected on the above mentioned Spot. The Island Seguin seems to be designated by Nature for this purpose, being situated at the Mouth of the great River Kennebeck, and being an excellent direction not only for that Harbour, but likewise for the Harbour of Falmouth, Booth-bay, Wiscasset-Point, New-meadows, and Harpswell. This Island is well known to

Foreigners being pointed out in the sea Charts &c—Your Petitioners think that if there was a Light upon this Island Many Vessells would be saved from Shipwreck, and many Persons preserved from immature Deaths, therefore humbly pray your Honors, to take this matter into your Consideration, and to act thereon, as to your Honors in your great wisdom shall seem fit—And your Petitioners as in duty bound will ever pray

Sir

Since writing the Inclosed, Information has been lodged in my Office; that an English Vessel was loading about Ten Mile off — Tho' Night I proceeded to the place were she was and found her a Vessel M^r Lee was Concern'd in, for which a regester was taken from the late Naval Officer previous to the act in his Name and as his property. The Master and Mate are new Owners. The former late an Officer of a

British man of war; the latter a Notorious Refugee and plunderer who Commanded a privateer out of this place in the War—he is now here for the purpose of giving Intelligence, if any muster should be made here to go after them. He has many friends in this place and cou'd Command assistance. Persuming upon this he bids defiance to the Laws publickly. The Vessel has landed one Cargo at Halifax—is now from Shelburne—the freight Consign'd to M^r Lee is run and out of my way securely. The Cargo's they take are previously Collected by M^r Lee, I find myself quite Inadequate to the Arderous undertaking of Naval officer for this place—Surrounded by people of the foregoing discription, who Accumulate fast from Shelburne—and other British Settlements you'll easily Conceive the situation of this Eastern Country and the Consequences that must ensue in course of time. From a Country which abounds with Lumber of all Kinds—and of the Best quality, are the English tho' the Medium of their New settlements supply^s in some measure there West India Islands, which there is received as the produce of Novier Scotia. There is room to suppose if some measures are not devised to hinder such proceedings By means of Agents from Shelburne &c in Course of Time it may amount to a supply. I am Sir with perfect Respect

On the 14th of July being Informed by William M^cCobb Esq^r at Boothbay—I was appointed Naval Officer for Penobscot as I was then bound on a Voyage—and knowing the Necessity of an Officer at Majorbigwaduce—I Consigned my business qualified myself and proceeded for that place—On my arrival here the (18th July) I found several Vessels Two of which were British.

Upon Investigating Circumstances, I concluded one of them a Ship (of 400 Tons) had not been entered altho' Cargo was then taken on Board and Goods had been landed. I thought it my Duty to make application to the late Naval Officer—from him I had no determined answer whether the Ship had been entered or not. I requested to know whether he had received a Certificate from the Deputy Collector if so whether I might be permitted to see it. Finding no Information could be obtained from M^r Hibbert I went to the Dep^y Collector M^r Lowder and of him requested to know if the Ship had been entered, he answer'd She had and by M^r Hibbert: I asked to see the Bonds that were passed for the Duties of Impost. He said he did not conceive it necessary I should

see them. I requested to see the Ships Manifest and was refuse'd. Finding those persons disposed to conceal their proceedings. I took Suspicion that matters had been in an easy manner, I demanded of M^r Hibbert a sight of the bonds that all acts &c shou'd be obey'd likewise every paper belonging to the Naval Office. I obtained of him a manifest (p^r Copy) signed by the Master of the Ship attested to before M^r Hibbert at which time M^r H was in Boston, being the 29th June. I received a Certificate from him at the same time (as p^r Copy) of the same date as the Manifest—From these and other Circumstances it appeared to me the Laws had been violated, and means had been Concerted between the Master—Consignee—and Officers to Cover their illegal proceedings. Their being proof of M^r Hibberts being in Boston at the time the Manifest was attested to; and Certificate passed, which with the Collectors declaring he shou'd not Injure any Foreign trading to those parts. I conceived it my Duty to seize the Ship. On my appearing allong side I was denied admittance on Board by the Master threatning me with the Consequences if I shou'd presume to Come on board—his people at the same time appearing in an hostile manner. I cou'd not attempt it. But by virtue of Authorety Vested in me—order'd the Master not to get the Ship under way—which he was about to do. I Immediately went on shore to the Store of the Consignee into which the goods were landed Requested admittance to take the same he directly said I should not have them run into his Store—Shut the Door against me, after which he open'd a window from which he levell'd a Gun at me and swor he wou'd blow my brains out if I attemp^d to enter. After this I took Boat and went about three Miles to assemble a force to Stop the Ship which by this time they had got under way by Slipping her Cable & the Assistance sent them by the Consignee—Before I cou'd accomplish my design, they had got her so far to Sea as to make

it Impossible to Stop them with a Boat. they proceed^d as I afterwards learned to an Island in the Bay of Penobscot— from which they took wood and Water and proceeded to Sea. The above is a True Statement of Facts which took place from the 18th to the 20th July the day on which she went off.

Geo: Billings

Majabigwaduce Penobscot July 20th 1785 The anchor and part of the Cable still remain were they Slipt it. The Ship arrived in this port the 24th of June, and took on Board Cargo the third day after her arrival.

Sir

As Naval Officer for this port I found it Compatable with my Duty to Seize a Certain Ship, which I conceive was received from me. Being Informed it is necessary to acquaint you with the same—I take the liberty to address you on the subject Inclosed is a relation of Circumstances I have endeavoured to be as clear therein as is in my power. It wou'd have been more agreeable to me to have Communicated them in person, but as I cannot leave this place I have taken this Method. If after perusal you shou'd think I have acted with propriety shou'd Interest yourself and seek the Damages—if Requisite I wou'd come up upon Immediate Notice. Mr Lee to whom the Ship was Consigned left his Country in war Time and has lately been Naturalized—I find great Interruption from him in the Duties of my Office—his Influence is great and was the Man and Connections known my assertions wou'd need no further Support. Their is a Cap^t Middleton, (now in this place and will be here this Two Months) who went on board the Ship—aided and assisted the Master, in getting her under way and Piloted her to the Island were they Wooded & Water'd—This Man was 5th Lieu^t on Board Admiral Rodneys Ship in the War And is now Concerned with Mr Lee and Two other Merch^{ts} at Port Roseway in fitting a Ship which I have suspicion they mean to get out of this port without Conforming to the late Law its not in my power to Command assistance in this Wilderness. They have already carred on english Brig from the port in a Clandestine manner, the Register of her being deposited in my Office, this Vessel was owned at Port Roseway and is gone without any Regester for that port. The Revenue will be considerably defrauded if this Ship gets away as she is intirely the property of Foreign^{rs}

If People are disposed to Act Contrary to Law, it is out of the Power of an Officer to prevent it in a place almost in

a State of Nature. However I shall use every means in my Power to prevent the ships being carried of in the Manner the Brig was. Evedence can be obtain'd that Mr Lee's Boats were employe'd in rescuing the Ship Their was several of his servants assisted in getting her underway likewise sufficient Evedence that Cap^t Middleton aided; & piloted the Ship to the Island. The Boats and People Return'd the Night following: It will be Impossible for an Officer to do his duty here unless a Guard is Orderd for the port. I have confined myself Intirely to facts. and shall be oblidg'd for your sentiments on the Transactions that have taken place likewise if you think I have acted with propriety. A Trade has been carry'd on with port Roseway ever since the peace and their is no doubt but the Revenue has been greatly defrauded by inattentions. I have particularized on this Subject Knowing that it will be taken Notice off if addressed to you —

Petition of the Inhabitants of the Upper Plantation on the West Side of Penobscot.

The upper Plantation on the West side of Penobscot June 6, 1786.

To the Honorable, the Senate, and the House of Representatives in General Court assembled.

Your Memorialists beg leave to inform your Honors of our scituation (and we think) our inability (at present) to pay the tax levid upon us.

We have no title to our Lands.

Our farms, farming-tools, and live stock, have been greatly injured by the late war. Lumber affords little or no cash at all: Our fishery (this season) instead of relieving our necessities, hath involvd us into greater Difficulties: We have not a setl'd Minister within sixty miles, we propose immediately to settle the Gospel among us, which will be extremely difficult, if our tax is demanded at present. Taking these things into consideration; we flatter ourselves, your Honors will consider our case, and order our tax to be postponed for the present. Your Memorialists, as in Duty bound, shall ever pray.

Petition of Selectmen of Pownalboro' in re Wiscasset.

Common Wealth of Massachusetts

To the Honourable the Senate and house of Representatives

June 1786—

The Petition of the Select men of the Town of Pownalboro' Humbly Sheweth, that the port of Wiscasset in Sheepscott River being the Principle place of Trade in the County of Lincoln, and the Merchants & Masters of Ships & other Vessels are obliged to go to Boothbay to Enter & Clear the Same—which is more than fifteen miles, and obliged to Cross Rivers and go through Woods in the worst of Roads, whereby the whole place Labours under many disadvantages, and the Revenues of the Commonwealth Rendered Doubtful & uncertain,—We therefore humbly pray your Honours that an act of Court may pass makeing Wiscasset in Sheepscott River a Naval Port, and that some Suitable person may be Chose as Naval Officer for said Port, and we as in Duty bound will ever pray—

David Silvester Georg Lilly } Selectmen for Pownalboro

Governor's Message June 8th 1786.

Gentlemen of the Senate and Gentlemen of the House of Representatives—

The Major Generals chosen for the several divisions of Militia have respectively accepted the choice: and Commissions have in consequence of it been sent to them viz^t

To Major General Lincoln of the first division comprehending the County of Suffolk

To Major General Titcomb of the second division comprehending the County of Essex

Major General Brooks of the third division comprehending the County of Middlesex —

Major General Shepard of the fourth division comprehending the County of Hampshire.

Major General Cobb of the fifth division comprehending the Counties of Plimouth, Barnstable, Bristol, Dukes County, & Nantucket.

Major General Goodwin of the sixth division comprehending the Counties of York and Cumberland —

Major General Warner of the seventh division comprehending the County of Worcester —

Major General Lithgow of the eighth division comprehending the County of Lincoln —

Major General Patterson of the ninth division comprehending the County of Berkshire

In carrying the militia laws into execution a difficulty has occurred in regard to the electing of Officers. In those laws no direction is given as to the time and manner of convening the electors, of collecting votes, and of certifying to the Governor the Officers elected: all which circumstances the Constitution requires should be regulated by standing laws.

In considering this matter, Gentlemen, you will please to consider also, whether in the new supplemental law (if you should think proper to pass such an one) it should not be provided, that all vacancies at the time of passing it, should be filled up within a given time; and all after-vacancies within a given time also, after they should respectively happen? Whether there should not be a prescribed mode of notifying the Officers of their election? and in cases, in which the electors refuse, or neglect, to meet and choose their Officers at the time assigned, whether the time and mode of notifying it to the Governor should not be ascertained, that, as soon as may be after the notification, he may appoint such Officers pursuant to the Constitution?

And if in any town, there should be a regiment or companies destitute of Officers should it not be made the duty of the Selectman of such town, on the requisition of the Major General, to notify the qualified electors to meet and elect their Officers; and in all respects proceed in that business according to law.

Would it not be proper also, that beside laws for regulating the militia in a time of tranquility, there should be formed a well digested body of martial law: to which recurrence may be had in any future exigency?

I have had a letter from the Major General of the first division upon the subject of the militia laws, which will be communicated to you

To the honorable the Senate and House of Representatives for the Commonwealth of Massachusetts in General Court assembled,

the petition of Paul Reed of Boothbay in the County of Lincoln,—humbly sheweth, that in the year of our Lord 1781, your petitioner was on a cruize in a small privateer against the enemies of the United States, in penobscot bay boarded a Schooner commanded by one Robert Douglas, a british subject, who produced papers, certifying him to be owner of said Schooner, mean time your petitioner was chased by a british Ship and drove on Shore: said Ship took the said Schooner and delivered her to said Douglas; and some time afterwards, said Schooner was captured by an American privateer, and carried into Sheepscent river, & was libeled and tried before maritime Court, Eastern District, said Douglas & him only laid in a claim to said Schooner, but to no effect.

She was condemned to be a lawfull prize to the Captors. Afterwards your petitioner was prosecuted by one Billings Putnam of Newburyport for this same Schooner, said action was continued several Courts, and at length refered to a rule, and the said rule sat & judged upon the matter, when your petitioner was on a voyage to a foreign Country, and could not attend on the rule, and was disappointed of an attorney to attend in his name, notwithstanding the Rule went on, and awarded your petitioner to pay a large sum of money, without any hearing on the side of your petitioner wherefore your petitioner is of opinion that he has suffered great injury and injustice—Therefore your petitioner humbly prays your Honors would take the matter into your wise consideration & order that Judgment to be set aside, so that your petitioner may have a fair tryal in law, and your petitioner as in duty bound shall ever pray

Humbly shews— Billings Putnam of Newbury Port in the
County of Essex, in answer to the Petition of Paul Reed of

Booth Bay in the County of Lincoln, praying to set aside a Judgment recovered by your Respondent, and to be admitted to a trial at law of the action, in which the said judgment was rendered: that the said judgment ought not to be set aside, because, after the action had been pending some time from the delays of the said Paul, the Parties agreed to refer the determination thereof, by a Rule of Court, to impartial men chosen by the parties—That your Respondent was apprehensive, that the said Paul would further delay the decision of the cause, by refusing to appear before the Referees, and to prevent which, it was agreed by the parties, that if either of them refused to appear upon reasonable notice, the Referees might proceed *ex parte*—That the Referees gave repeated notice to the said Paul to attend, and to give time even to the most dilatory person, deferred making their report for a year—that thereupon the said Paul wrote them his defence, and sent them all the evidence his cause would admit of, and told them in his letter, that he did not conceive his presence necessary, and submitted the cause to them upon his written defence, and the evidence sent them—That your Respondent had no council to assist him, and only laid his evidence before the Referees—who thereupon made their report—If it was fit to go into the merits of the cause, your Respondent has no doubt but he could shew your Honours, that the Referees determined justly—That he was the owner of the Vessel, that she was employed in fishing, and that one Beal was the skipper, and Douglas had no concern in her—What became of her, after the said Paul had unjustly wrested her from him, he knows not, but this he knows, that he has wholly lost her—Of these matters he does not go into the consideration—as he is advised, that your Honours do not enquire into the merits of the cause, but whether the Petitioner has been deprived of the Benefits of the law, without any neglect of his own—Your respondent humbly conceives, that the said Paul

has been heard before the Referees as fully as if he had been personally present, and that his being absent was owing wholly to his own neglect, which ought not to prejudice your respondent— The said Paul had expressly agreed, that if he did not attend upon notice, the Referees should proceed ex parte, and that judgment should be final on their report— Upon this state of facts, which your respondent is ready to verify by the records of Court, and the affidavits of the Referees, one of which (General Titcomb) has a seat in the House of Representatives, your Respondent prays that the said Paul may be held to his agreement, that his Petition may be dismissed, that your Respondent may not again be compelled to go thro' a cause of law to establish his right, at a great expence to himself, and to the delay of Justice— And your Respondent as in duty bound shall ever pray—

Governor's Message — June 19, 1786.

Gentlemen of the Senate and Gentlemen of the House of Representatives

By a Letter from James Avery Esq^r our Excise Officer at Machias to the Secretary, dated at Majabagaduce, of the 31st of May, and which accompanies this Message, it appears, that in each Bastion of the Fort, which the British Troops built upon that land, there were Arches and apartments of great thickness, and Bomb-proof, in which there cannot be less than four or five hundred thousand of Bricks: That one M^r Perkins is now pulling down those Arches, and selling the Bricks to the inhabitants as his property, as being on land belonging to him by possession: That this proceedure must be an injury to the public, as he conceives those Arches, and the whole remains of the Fort, are in fact the property of the Commonwealth, upon whose land the Fort was built: And that the Bricks, if properly taken care of, would be of considerable value to the Government. If this should be your Opinion, Gentlemen, the measures, necessary to be taken to secure them for the use of the Government, cannot be too expeditious —

Bill Empowering y^e Sessions to Lay out roads through Plantations.

Commonwealth of Massachusetts in the year of our Lord 1786

An Act to empower the courts of Sessions in this Commonwealth to lay out roads through Plantations

Whereas there is no Law making provision for opening and maintaining of Roads in, and thro Plantations, within this Commonwealth, Be it therefore enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, That the Courts of General Sessions of the Peace within the respective Counties of this Commonwealth where such Plantations lie, be, and they hereby are authorized and impowered, upon application to them made by the inhabitants of such Plantations, or the major part of said inhabitants, to cause such Road, or Roads to be laid out, in such manner as may be most beneficial to the Public, and least prejudicial to private property. The charges of which shall be borne by the County in which said Road or Roads are laid. And the costs of opening and repairing said Roads, when so laid out, and accepted by the Court of Sessions ordering the same, shall be borne by the Plantation or Plantations thro' which said Roads are laid out. and shall be assessed in due proportion upon the polls and estates of the inhabitants, and on the lands in said Plantation, or Plantations respectively, where the costs of opening and repairing said Roads may arise. And shall be collected and paid into the treasury, or treasuries of such Plantation, or Plantations respectively, for the purpose of defraying the charges aforesaid, in the same way and manner, as other assessments are made and collected, until said Plantation, or Plantations shall be incorporated. And the Plantations thro which said Road, or Roads are laid out and accepted in manner as aforesaid, shall be liable to be presented by the Grand Jury of the County in which they lay, for not opening & repairing said Road, or Roads, as they would be if incorporated into towns

Petition Selectmen of Falmouth.

To the Honorable Senate and the Honorable House of Representatives of the Commonwealth of Massachusetts in General Court assembled

The Petition of the Selectmen of the Town of Falmouth in the County of Cumberland in said Commonwealth—humbly shews—

That, about eight months since, the lower Bridge upon Presumpscot River in said Falmouth was with several other Bridges in said Town carried away by an uncommon Freshet—That the Inhabitants of said Town at the Expence of more than Six hundred Pounds have repaired all but the first mentioned Bridge—several of which were again greatly injured by another very high Freshet the last Spring—That a Bridge near where the lower Bridge aforesaid stood is very much wanted not only for the accommodation of the Inhabitants of said Town but of all the Towns through which the County Road passes and for all Persons who travell to the Eastward That the said Town of Falmouth are burthened with the expence of maintaining four other large Bridges over Presumpscott River the least of which is two hundred and thirty seven feet in length—and one over Stoutwater River which is three hundred & ninety feet long, besides five Bridges over Piscataqua River of one hundred & thirty feet in length each—and a number of smaller Bridges which in the whole occasions a very considerable Expence.—That every Town in the County aforesaid except the Towns of Gorham and Standish is greatly benefited by one or others of these Bridges—and some much more than the said Town of Falmouth itself.—That this Town is utterly unable at its own Expence to rebuild the Bridge first abovementioned and that in the Opinion of your Petitioners it ought to be built and maintained by the several Towns in the County excepting the s^d two Towns of

Gorham and Standish — They therefore pray that your Honors would impower & direct the Court of General Sessions of the Peace for s^d County to cause a Bridge to be built in the most convenient place over the lower part of the River aforesaid — and to raise such a Sum upon the Towns aforesaid — viz the several Towns in the said County, excepting as aforesaid as shall be necessary to compleat the same — or make such other provision for building of said Bridge as your Honors shall judge best — And as in duty bound will pray —

Nath^l Carll, James Frost.

Falmouth June 15, 1786.

Note The Bridge aforesaid was original built by Lottery — and Application was not long since made to a former General Court to repair it in the same way but the Court judged it inexpedient to comply with this Request.

Governors Message July 7, 1786.

Gentlemen of the Senate and Gentlemen of the House of
 Representatives

The last evening by M^r Henry Thaxter I received a letter
 from Stephen Jones and James Avery Esq^{rs}, dated at
 Machias the 29th of June. They mention in it, that by
 letters from Colonel Allan and M^r Delesdernier (a copy of
 which was enclosed) they are informed of a most daring in-
 sult upon the dignity of the Commonwealth and the United
 States, committed on the 26th of that month by the civil and
 custom house Officers of the British Province of New Bruns-
 wick, in seizing two vessels, the property of the Citizens of
 this Commonwealth, and within the acknowledged Jurisdic-
 tion of it. Colonel Allan's letter, dated at Dudley Island the
 27th June mentions, that the Acts of New Brunswick, which
 are now published, extends the Western boundary of Charlotte
 County to the western shore of Passamaquoddy Bay; that the
 seventh Parish, called the West Isles, include Moose, Dudley,
 and Frederick Islands expressly; and consequently that the
 United States are wholly debarred from all navigation in &
 into that Bay.

By enquiry of M^r Thaxter I find the two vessels were
 seized, as they lay at anchor near the Western shore, of the

West Passage into Passamaquoddy.—This conduct corresponds to those acts, and both together shew a disposition to exclude us from the navigation of that Bay; and at the same time must be considered as a violation of the definitive Treaty of Peace between the United States and Great Britain

I have lately received depositions from Mr Avery above-mentioned, dated the 12th of May at Moose Island, concerning the conduct of Sheriff Weir, an Officer of New Brunswick: which have been obtained in consequence of a Resolve of the General Court passed at the last Session.—These with the letters above referred to, will be laid before you, Gentlemen, for your information, and determination concerning the subject of them.

Petition of Bridgetown Plantation. .

Commonwealth of Massachusetts October 1786 }

To the Hon^{ble} the Senate and the House of Representatives
of the Common Wealth aforesaid in General Court
assembled

The inhabitants of the Plantation of Bridgeton humbly shew that whereas in time past they have repeatedly Petitioned this Hon^{bl} Court that they might be free^d from paying a Publick Tax for the present. That they have plainly Set forth their Situation and Sircumstances which are Such as renders it Out of their Power to Rais Even a Very Small Sum of Money on any Occasion. That they have likewise pray^d this Hon^{ble} Court that there might be a Com^{tee} Sent to View them whereby their Sircumstances might be fully known to the Court, But your Petitioners have not been So happy as to have the prayer of their Petitions Granted as

appears by an Execution which has Lately been Sent to the Sherriff of the County of Cumberland for Taxes Leveyd uppon s^d plantation in 1778 and 1779. That in addition to the Difficulties Mentioned in their Former petitions there has an Epidemical Distemper prevailed amongst them in the year past that has Swept away more than one Sixth part of the Inhabitants. Permit your petitioners therefore (who stand Shuddering at the appearance of the Evils they must soon feel) once more to Solicit your Honours that the Prayer of their former Petitions may be Granted in freeing them from paying a Publick Tax for the present and Give Order that s^d Execution may be with Drawn, or that they may be Reliev^d in Such Other Manner as your Honour^s Wisdom may Suggest and as in Duty Bound Shall ever pray

Governor's Address in re Indians.

Gentlemen of the Senate and Gentlemen of the House of Representatives

The Commissioners appointed by a resolve of the General Court of the sixth of July last, to treat with the Penobscot tribe of Indians, respecting their claim to lands on Penobscot river have, with their letter to me, dated at Penobscot the 30th of August, transmitted a report of their proceedings with those Indians.

By the report it appears, that it was agreed by the said Indians on their part, that they would relinquish all their claims and interest to, & in all the lands on the west side of Penobscot river, from the head of the tide, up to the river Pasquataquis, being about forty three miles; and all their claims and interest on the east side of the river, from the head of the tide aforesaid, up to the river Mantawomkeektook,

being about eighty five miles; reserving only to themselves the Island, on which the old town stands, about ten miles above the head of the tide, and those islands, on which they now have actual improvements, in the said river, lying from Sunkhaze river about three miles above the said old town to Passadunkee Island inclusively, on which island their new town, so called, now stands.

In consideration hereof the Commissioners, in the name & behalf of the Commonwealth, engaged, that the said Indians should hold and enjoy in fee the islands reserved as afore-said, and the fee of two islands in the Bay, called and known by the names of white Island and black Island, near Naskeeg point.— And the Commissioners further agreed, that the lands on the west side of the river Penobscot to the head of all the waters thereof, above the said river Pasquataquiss, and the lands on the east side of the river to the head of all the waters thereof, above the said river Montawomkeektook, should lie as hunting ground for the indians; and should not be laid out or settled by the State, or engrossed by any individuals thereof and they further agreed to make the Indians a present of three hundred and fifty blankets and two hundred pounds of powder, with a proportion of shot and flints.

And the Indians on their part further agreed & engaged that as soon as the agreement should be confirmed on the part of the Commonwealth, and the blankets, powder, shot and flints delivered, that they would sign a relinquishment of all their right and interest to the lands, agreeably to the above contract.

The sketch of the river from the head of the tide to its source, will give an idea of what the indians have surrendered, & what they retain.

As the Commissioners think it a matter of real importance, that the blankets and other articles should be forwarded as

soon as may be, you will probably think fit, Gentlemen, to make provision for that purpose; and appoint the Chairman, or some one of the Commissioners, to compleat the negotiation, by delivering to those indians the stipulated articles, upon his receiving, in behalf of the Commonwealth, a proper deed of the ceded lands. At the same time he should be instructed to attend to their complaints, in regard to the fraudulent conduct of a french Priest among them.

The same Commissioners, by their report and letter of the 12th of September, have in consequence of their instructions, given it as their opinion, that it is a matter interesting to the Commonwealth in General, as well as to the inhabitants settled to the eastward of Penobscot river, that a road should be opened there-from eighty feet wide to the bay of Passamaquoddy near the mouth of Schooduck river: the lines of which road are particularly described:— That there is a number of Plantations to the eastward of Penobscot river, proper to be incorporated and whose circumstances require it:— That there is a number also to the westward of Penobscot, to whom incorporation would be beneficial: but the Commissioners are restrained from reporting as fully in favor of incorporations on that side of the river, because the limits and extent of several Patents & claims are not yet ascertained and agreed on:— That the great remove of the people in the eastern part of the County of Lincoln, from the Courts of Justice, makes it needful, that two new counties should be formed there; the lines of which are described:— That many marriages having been performed in that County, in a way not agreeable to law, a return of such should be made to the Secretary's Office for confirmation by acts of the Legislature:— That for want of the late tax-acts, they have not known in what mode to make assessments of taxes:— That a new edition of the laws, especially for that Country, has become highly necessary: and that a Proclamation should be issued relating to, & forbidding

all trespass on, lands there belonging to the Commonwealth.

These matters, Gentlemen, concerning which the several reports and letters of the Commissioners will give you fuller information, appear to merit the attention of the General Court

Report of Committee on Penobscot Indians.

Commonwealth of Massachusetts

To his Excellency the Governor and the Honorable the Council

May it please your Excellency and Honors —

In virtue of a resolve of the General Court, by which the under signers were on the 6th of July last authorized, to treat with the Penobscot Tribe of Indians, respecting their claims to land, on the river Penobscot; to make full enquiry into the nature and extent of their said claims, and by an amicable treaty to adjust & ascertain the same so far as may be practicable: And in behalf of this Commonwealth, by the use of all fair, open, and honorable methods to endeavor to obtain

from the said Indians, an acquittal & relinquishment of their possessions, and a release of all their claims, and pretensions, of title to the said lands; and in case the same cannot be obtained, to agree upon and limit the boundaries of their said claims and possessions on terms mutually advantageous and satisfactory to the parties.—

We met on the 28th Instant about sixty five of the said tribe, with four of their Sachems, or heads, who appeared as representatives of the whole, Viz, Orino, Ossang, called Esquire Ossang, Colonel John Neptune, & Victor Barvett,

We represented to them in the first place that by the termination of the war, a favorable opportunity offered for settling all the lands, in this part of the Commonwealth; therefore it was that the General Court, equally attentive to the Interest of the Penobscot Tribe, as to that of their other Inhabitants, had directed us to inquire into the nature and extent of their claims, lest in executing their designs of Settling their lands, they should infringe on those claims. This drew from the tribe a declaration that they would limit their claims to a small river about six miles above the head of the Tide, (which head of the tide was the boundary of their former claim,) thence to the head of the river, This claim they founded on the doings of the Provincial Congress at Watertown on the 21st of June 1775. We then explained to them the nature of that resolve, and that if they held all the lands mentioned therein, which was 6 miles on each side of the river from the head of the tide it would be of little use, if the state should settle the other lands, the strip left, would be no hunting ground for them, that it was therefore much for their Interest, to quit all pretensions to lands below for more extended limits above, After much time being spent on the Subject and in leading them into a belief that the state really wished to promote their happiness it was agreed by the said Indians on their part that they would relinquish all their

claims & Interest to all the lands on the west side of Penobscot river, from the head of the tide, up to the river Pasquataquiss being about Forty three miles, And all their claims & Interest on the east side of the river from the head of the tide aforesaid up to the river Mantanomkeektook being about 85 Miles — reserving only to themselves the Island on which the old Town stands, About 10 Miles above the head of the tide, and those Islands on which they now have actual Improvements in the said river, lying from Sunkhaze river, about 3 Miles above the said old town to Passadunkee Island, inclusively, on which Island their new Town so called, now stands. — In consideration hereof We in the name and in behalf of the Commonwealth engage that the Indians should hold and enjoy in fee the Islands reserved as aforesaid and the fee of two Islands in the Bay called & known by the name of White Island, & Black Island, near Naskeeg point, And we further agreed that the lands on the west side of the river Penobscot, to the head of all the waters thereof, above the said river, Pasquataquiss & the lands on the east side of the river to the head of all the waters thereof, above the said river Montanomkeektook, should ly as hunting ground for the Indians and should not be laid out or settled by the state or engrosed by Individuals thereof, & We further agreed as aforesaid to make the Indians a present of Three hundred & fifty Blankets, Two hundred pounds of Powder with a proportion of Shott & flints!—

We further report that prior to a termination of the above agreement and very early in the Conference we discovered a total aversion in the Indians to surrender all their claims agreeably to a wish of the General Court expressed in the Resolve aforesaid.— The Indians were so far from doing this, that when they were urged to relinquish as far North as the west side of the river as on the east side they absolutely refused on any terms whatever, to comply with the proposition.

We then discovered that this could not be further insisted on, and we preserve that line of conduct which would give satisfaction to the Indians, a Circumstance which we desired to effect, as thereby we should at once gratify our own feelings, & we trust evidence our attention to the wishes of our Constituents, & the spirit of their Resolve.— The Indians further agreed & engaged that as soon as the agreement should be confirmed on the part of the Commonwealth, and the Blankets, Powder, Shott & Flints, should be delivered that they would sign a relinquishment of all their right and interest to the lands agreeably to the above Contract.—

Matters being thus agreed, the Tribe took leave of us with evident marks of Satisfaction in what had been done, and of esteem & Love to the Commonwealth.—

Report in re Cannon lost Penobscot Expedition.

Penobscot September 12th 1786.

Sir

We have been honor'd with the receipt of your Excellencys order in council, of the 8th Ult^o relative to the information, you had received, on the subject of Cannon recovered from those lost in Penobscot, after raising the seige against the enemys Post on that river—

We paid the earliest attention to the order, & although it is evident, that cannon have been recovered, besides those taken up by the enemy, yet we cannot learn by whom, & we see no prospect of there being regained, as it was done at a time, when the Country was fully in the power of the enemy—and as we have no reason to suppose that any of them are now in the hands of the present inhabitants.

Some more might possibly be taken from the wreck, yet probably, the expence of doing it, would much exceed the Value of such cannon when obtained —

We have the honor to be with Sentiments of great esteem

Commonwealth of Massachusetts

September 12th 1786

Sir

From a persuasion that it will be considered, as the duty & interest, of this commonwealth at all times, to pay a proper attention, to the reasonable complaints of the Indians within this State, and that policy and justice, unitidly, demand from us a redress of all their grievances where the means of it are within our power.—We are induced to relate to your Excellency, a complaint exhibited to us by Colonel John Neptune, one of the chiefs in the Penobscot Tribe, against the Priest appointed to officiate in that tribe; that he put into the hands of the Priest thirty seven Beaver skins which he engaged to sell for him in Boston; and account with him for the proceeds.—Upon the return of the Priest, some time since, he was informed by him that he could not pay for the skins, as the money was taken from him in Boston, to pay for some clothing, he the chief had these, which clothing at the time he received it, he supposed was given to him by the commonwealth.—If the Priest has made this declaration & it has no foundation in truth, he ought to be compelled to set the matter right, in justice to the State, and to compensate Neptune for the Skins.—If the account the priest has given

is true, and any officer of government, under their direction, has received the money, care should be taken in that case, to convince the Indian chief, that it was not intended, that the cloths should be given, and that he was in an error, at the time by considering the matter in that light.—

However small this may appear to be, and really would be, among our selves, yet it is of importance, as it relates to the Indians.— We are further induced to trouble your Excellency on the subject, from a belief that the Priest received his Appointment from the commonwealth, and that hereby he is Amenable to the state for his conduct, as it relates to his moral Character, besides his being, with other citizens, accountable to the laws of the state. We are persuaded that a little attention to this matter, will have a good effect, on the minds of the Indians, and have a tendency to secure, not only their obedience but their confidence & esteem.—

We would further communicate to your Excellency, that there are some people, in the eastern part of the county of Lincoln, who have been married by persons not authorized by law to marry — Their great remove from such officers, has led to this irregularity; in some instances the ceremony has been performed by the senior Military officer present, and in other instances, by the naval officer in the lower part of the county. Such marriages, if the parties have been sincere, may be, and doubtless are justifiable in the eye of him who regards the intention.—

Yet evils in some after day may be experienced, by such a departure from that system, which the laws of our country have wisely pointed out.—

If there exists but a possibility, that consequences injurious may be felt hereafter, would it not be well, in time, to guard against them.— Should there not be a return of all such marriages called for, and they established, the defect in form notwithstanding, by an act of the Legislature—

We have the honor of being with the most perfect esteem
Your Excellency's most obedient servant

B Lincoln, Tho^s Rice, Rufus Putnam
His Excellency Governor Bowdoin

P. S. Among the complaints which were exhibited by the people, in some of the plantations, they mentioned, that the laws had not been forwarded to them, which neglect left them ignorant of the mode of assessing the late tax, and how it should be collected —

Letter of B. Lincoln to Governor.

Boston Sep^t 19, 1786.

Sir

In my several tours to the eastern part of this State I have discovered a disposition among the inhabitants in general to submit to the laws of their country and I am convinced that they oftener offend from want of information than from an untoward disposition. Near thirty years have passed since the last edition of the laws of this commonwealth; in this time a large number of towns have been incorporated and a great additional number of Justices of the peace have been commissioned all of whom I suppose wish to have a set of the laws — That towns should have them is an indispensable duty but they are not to be obtained and not only new towns in the remote part of the State but officers lately commissioned there must be destitute until a new impression. I know it has been given out that this would be done as soon as the revision of the laws was over — This business has already been a work of time and much more probably will be consumed before that

arduous and necessary business will be fully completed. A volume might now be pretty perfect—binding of it may be omitted untill it shall be more so finally the whole may be bound together

It has been a long practice, well known to your Excellency, for people to set themselves down on public property in the eastern part of this State—The commonwealth has wisely, I think, established a rule for quieting those who so settled before the first of Jan^y 1784—No provision has been and probably none ever will be made for those who have taken up such lands since that date.—This, sir, I think, will be a source from which great discontent will flow hereafter Many will, and I suppose may justly say, that from the want of information they have been led into the mistake and that they expected to be quieted in their possessions as others had been—I beg leave therefore to suggest to your Excellency the propriety of issuing a proclamation and of having many copies of it spread through that part of the country giving a full representation of the matter that whoever trespasses hereafter may do it clearly in his own wrong—This measure cannot operate to the injury of people who want settlements for lots are now to be given away in many towns so that they may now have as much land and as good a title from individuals as they have heretofore received from the State I cannot help thinking but it is a duty incumbent on Government to attend to this matter and that it will be productive of valuable consequences, we cannot, in my opinion, pay too early an attention to these people I wish we may thereby fully obtain a knowledge of their circumstances and remove very just ground of complaint now existing and prevent the being of any hereafter.

I have the honor of being with sentiments of our esteem
Your Excellency's most obedient servant

B Lincoln

His Excellency Governor Bowdoin.

*Letter of Committee to Governor in re Indians.*Penobscot River, August 30th 1786

Sir

We embrace the earliest opportunity to inform your Excellency that the report relative to the hostile intentions of the southern Indians appears to us to be altogether without foundation and that the tribe had been imposed upon.— Before we closed our conference with the Indians we represented to them the evils which existed in consequence of the report and cautioned them against giving countenance to, or propogating such in future, unless there was pretty good reason to suppose they were true.— We did not however forget to remind them that they ought to be attentive to the motions of those who were hostile to us and that they should notify us of every circumstance which had the appearance of a mischievous design

They assured us that they would be attentive, & requested our watchfull eye over movements which might indanger their safety.—

We arrived at the head of navigation on Penobscot river on the 25th Instant and Immediately forwarded an express to collect the Penobscot Tribe informing them that we had something to communicate interesting to them this brought together about sixty five of their tribe with four of their sachems, or heads, of these they have six but one was so far hunting, as was also a part of their tribe, that neither he nor they could be notified, the other was sick, these four appeared as representations of the whole, and from what we could learn from the Inhabitants they were really the principal as well as the Majority of the heads— As our commission led us we first requested to know the extent and nature of their claims.— To this they did not give a full answer but said they would now limit their claims to a small brook six miles above the head of

the tide this they considered as giving up the six miles for they had before considered the head of the tide as their bounds. From their silence on the subject we supposed that they had given up the idea of a claim to all the lands on this river as being planted on them by the God of nature, which they strongly urged two years since.—After reminding them that they Surrendered to Governor Pownall all their rights and interests in these lands, We mentioned to them that if they had their present possessions in Virtue of the resolve of the provincial Congress of June 1775 they could hold thereby only six miles on each side of the river which lands could not avail them if the Commonwealth should lay out & settle the remainder.—They appeared to be much hurt and disappointed when this was mentioned as they supposed before they had the whole width of land as far as the waters of this river extended East & West—This led them to complain that as they could not read they were imposed on and that writings were of no value to them.—

We endeavoured to remove this unfavourable idea by shewing them that this commonwealth had most sacredly attended to the said resolve And that they might place confidence in what should be done in consequence of our report, We endeavoured also through the whole of our proceedings to convince the Indians that the State had a sincere regard to their happiness & were at all times disposed to make their situation agreeable.

We think it a matter of real importance that the Blankets Ammunition &c should be forwarded before the sitting of the General Court, should it be deferred to that late period these articles cannot be delivered untill the next Spring, a season when they will not be so much needed, consequently the value of the present will in their minds be greatly diminished besides it will be difficult to make them believe that we really

intend a settlement, should such a delay take place although we have endeavoured to prepare them for it.

We hope the State will fully carry into effect our doings should they not the disgrace brought on us thereby will be an evil too small to be remembered with those which will arise from the state of uncertainty into which the Indians will be thrown and the loss of confidence in consequence thereof which may prevent any succesfull Negotiations hereafter. We have the pleasure of inclosing a sketch of the river from the head of the tide to its source this will give an idea of what the Indians have surrendered & what they are now to Improve

We have the honor of being with the highest esteem, your Excellency's obedient & most humble servant

B Lincoln Tho^s Rice, Rufus Putnam

P. S. we wish your Excellency would give early instructions to the committee for y^e sale of Eastern lands, not to sell the said white Island & black Island which we have assigned to y^e Indians.

To the Honorable the Senate and House of Representatives
of the Commonwealth of Massachusetts in General Court
assembled

Humbly Shews Eliakim Ayers — that in the year 1784 he came away from Saint Johns within the Government of the King of Great Britain in Consequence of which the British Government has confiscated his Estate which he left there, that he Erected a Sawmill on the Saint Croix within this Commonwealth & within what is now called the Township number five with an expectation to purchase the place of the

state. that the expence of said mill amounts to Eleven hundred Dollars which has exhausted all the property he has in the world. that the persons with whom he expected to purchase the same Township has failed him by reason whereof he must loose all his Labour & money expended and be brought to beggery unless your Honors will sell him the place where the same Mill stands wherefore he humbly prays that your honors would Sell one hundred acres including the same Mill for such price as you shall Judge to be reasonable, and he will ever pray

Your Memorialists beg leave to inform your honors, that sundry of us have been upon these Lands more than twelve years, labouring (we hoped) for our ourselves & children, as well as for the common good of America; but we are informed the General Court, hath latly ordered, all unapropriated Lands in the County of Lincoln to be sold.

We trust your Honors, do not wish to deprive us of our labours, without making us some compensation.

We have suffered extremly, by the late war, It is not without great difficulty; that the first settlers, fix themselves in

an inhospitable wilderness. Their labors raise the price of Lands in the vicinity at least one half. We pray your Honors will take your condition into your wise consideration; and grant each of us one hundred Acres of Land where we have improved, and settled; and your Memorialists, as in duty bound:

To the Hon^{ble} Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled Octob^r y^e 18th 1786 —

The Petition of the Inhabitants of the Town of Parsonsfield in the County of York, By their Committee

Humbly Shew,

That we your Petitioners Humbly Conceive, that your Honours in Proportioning the Publick Charges Designed an Equitable part to Each Town in the Commonwealth, But never yet having the Valuation of Parsonsfield (not being called for) have Charged your Petitioner much more than appears to be their Proportion with other Towns

That a Just State of the matter may Appear to your Honours an Inventory Shewing the Amount of the Valuation of s^d Town is Anexed hereto which by Compaireing with other Towns y^r Petit^{rs} find the Diference of Ruther more than four to one against them. Your Petitioners further Conceive that the Difference in Situation we being Thirty Two miles from any Markit Makes a Material Odds in the Value of Estates, by the Time produce is Transported to markit by Teems & Exchanged for Cash the Expences Take up near one half Your Petit^{rs} Humbly Shew that they are the Greatest part Very poor That our Stocks of Cattle by near Seven mounths winter and by Flyes in y^e Summer are of Little income

That our Lands will not produce Flax Eaql at Intervals or old Farms that the Destruction of Sheep by wolves has Hitherto hindred us from Raiseing much wool By Deep Snows in y^e Winter they are hindred from makeing any Profitable use of their Teems and that the procuring of money for their Taxes is Extreemly Difficult

Being Desirous of Manifesting that Loyalty which is Due to Govern^t by Seasonably Paying and Strictly adhereing to the Calls of Govern^t which by the Debt now laying against us we are Unable to Do; Therefore your Petitioners Humbly pray your Honours would abate So much of Said Debt as will put us upon Eaql Futing with other Towns and what more our Needy Circumstances appear in your Wisdom to require And they as in Duty Bound will Ever Pray—

Governors Message resp^d the claim of Mons^r Gregoire & Lady to Lands.

Gentlemen of the Senate and Gentlemen of the House of Representatives —

A few days ago arrived here from France by the way of New York, Messieurs Gregoire and his Lady. They claim in her right a Tract of Land in the County of Lincoln, fronting on the Sea two leagues, and extending from thence into the land two leagues; together with the Island of Mount Desert, and the neighbouring Islands: the said two leagues square having Mount Desert in its front —

They represent their claim to be founded on a Grant, made to her Grandfather Monsieur La Motte Cadillac in 1688, under the authority of Louis XIV, then King of France.

I received by Monsieur Gregoire a Letter from the Marquis La Fayette, dated at Paris in August last, and a Letter from Monsieur Otto Charge d'affaires to Congress from our illustrious Ally, the King of France, dated at New York the 23^d of October: in which Letters they recommend the claim of Madam Gregoire to the consideration of this Government; as the land claimed is within its jurisdiction —

A memorial in behalf of the claimants, was presented to the General Court by the Consul of France in June 1785: but nothing final was done thereon.—

As the Claimants are come hither from France, for the purpose of settling this claim with the Government, it is their earnest prayer, that the General Court would give an immediate attention to it: agreeably to their Petition herewith exhibited.—

Governors Message Nov^r 11, 1786.

Gentlemen of the Senate and Gentlemen of the House of Representatives

In consequence of the resolve of the General Court relative to the Penobscot Indians, General Lincoln was appointed, by

advice of the Council, to compleat the agreement, which he and the other Commissioners, connected with him in that business, had made with those Indians in August last —

Unfortunately the Indians were gone upon their Fall-Hunt: by which means he had an opportunity of speaking only with one of their chiefs, to whom he communicated the Government's confirmation of the agreement with them; and informed him of the quantity of Blankets and ammunition he was charged with, and which were to be delivered to them on their fulfilling their part of the agreement; and signing the Deed, by which they were to relinquish to this Commonwealth all claim to the lands stipulated in the agreement.—

In the report of his proceedings General Lincoln mentions, that he had placed those goods in the hands of M^r John Lee of Majabagwaduce, whose abilities, integrity, fortune and attention to business, he could, from his own knowledge of him, depend upon. He has taken M^r Lee's receipt for the Goods: which, as appears, by the receipt, he has engaged to deliver to those Indians, agreeably to General Lincoln's written directions to him —

The said report and receipt, with the several Papers accompanying them, are herewith, Gentlemen laid before you.

Mr Pierson of Falmouth sued Cap^t Pearse for April Court at Ipswich 1786 he gave bail — some proposals being made between the parties, it was agreed, that the action shou'd not proceed — however it was entered & no writ appearing, the Sheriff was call'd upon to return it — he declared he had serv'd & return'd it — the action stood continued to July term — before that Term the Pltff commenced another suit against Pearse, for the same cause | as it is paid | for Falmouth Court in May 1786 — but further proposals being made between Pearse & the Pltff's Att^y here | that is y^e Att^y in the Essex action it was agreed that he shou'd write to the Pltff at Falmouth for his assent to the proposed reference | & it was said that the Pltff doubtless wou'd assent to it — but at Essex July Court the first suite standing continued the Def^t call'd again for the writ, the Clerk declared to the Court that he had never seen it & that it had not returned to him — the Sheriff was call'd upon again & declared he had returned it to some person but cou'd not say to whom — the Def^t having no notice from Falmouth & relying upon a reference or discontinuance of that suit as proposed was defaulted & Judgment went against for £63=1=2 & costs & he has been compell'd to pay both to

A petition of Henry Dearborn And others.

To the Honorable the Senate & House of Representatives in
General Court Assembled —

Humbly shows your Petitioners that in the year 1782 five of your Petitioners & one other man traveled from Hallowell on Kennebeck River in the County of Lincoln over that large tract of uninhabited country laying between said Kennebeck River & Connecticut River for the purpose of exploring the Country & of looking out & laying a Road so as to open a communication from one, to the other of those two Rivers, that your Petitioners did, after exploring the aforesaid Country, look ovr & Survey a Road from Connecticut River to Bumbarhook on Kennebeck River, and found the distance to be about eighty five miles, that opening the communication between those two Rivers would be of Publick utility. and having found that there is a very large tract of unappropriated land between the aforesaid Rivers within this Common Wealth your Petitioners humbly pray for a grant of two Townships of land six miles square laying on what is call'd Webs River (which is near the senter between the two aforesaid Rivers) upon such conditions & under such Restrictions, as, (taking all circumstances into consideration) shall to your Honours seem best, and as in duty bound shall pray —

The petition of the Subscribers Humbly Sheweth

That Early in the Late war with Britain, when the Exigencies of Government required the Expenditure of Large Sums of Money, your peti^{rs} Exerted themselves, to assist Government with the Loan of their Money, taking Notes payable some in the year 1781 some in 1782 & some in 1783.— In the year 1781 the Necessities of Government were so pressing; That a Law was made to Enable the Treasurer to borrow large sums of Money, in which were included the notes payable at the above discribed Dates, & also the Notes called

Depreciation Notes promising a County, Exemption from Taxes &c But a further pay Day must be allowed, Relying upon the Faith of Government, your Petitioners complied, & their Notes were Consolidated by the scale of depreciation & new Notes were received, and by the same Law an Establishment was made for the payment of the Interest annually & the Redemption of the principal in part, at Different periods, since the Interest first became due your peti^{rs} have received the same untill within about two years past since which time there has been a failure of payment,—if we apply to the Treasurer for payment which has repeatedly been the Case, The answer is he has no Money, if we take an order upon the officer of Excise & apply for payment the answer is the same he has no money, and often adds that he takes none, if we should take an order upon some former Constable who is in arrear for taxes previous to the year 1784 which the Treasurer wou'd readily Give we beg Leave to say that the Towns to which we belong have long since paid or very nearly paid all those Taxes, and we know not what Constable to apply to, unless to one who belongs to those Counties who of Late are Governed by Men Instead of Laws, our Success in the Latter Case, is too obvious to need mentioning, our necessities for the Interest of our Money is pressing, but the anxiety of our Minds for the Faith, Credit & Even Existance of the Government & its Constitution, are still more painfull, we profess our selves to be its faithfull Friends & to obey its Constitutional Commands with our best services, and we now most humbly Implore your Honours attention to our necessities & grant such Relief in the premises as to your Honors Shall seem meet —

An Act for determining at what times and places the several Courts of General Sessions of the peace, and Courts of Common pleas shall be held—within and for the several Counties within this Commonwealth, and for repealing all Laws heretofore made for that purpose

Be it enacted by the Senate and House of Representatives, in General Court assembled, and by the Authority of the

Sherburn, on the last Tuesday of March and the first Tuesday of October.—Within and for the County of Worcester, at Worcester on the last Tuesday in March; on the first Tuesday in September, and the first Tuesday in December.—Within and for the County of Cumberland, at Portland on the last Tuesday in May, and the last Tuesday in October,—Within and for the County of Lincoln at Hollowell on the second Tuesday in January; at Pownalborough on the first Tuesday in June; and at Waldoborough on the second, Tuesday of September.—Within and for the County of Berkshire, at _____ on the _____ Tuesday of _____

And whereas a General attendance of the Justices of the peace on the Courts of General Sessions of the peace, within and for the several Counties in this Commonwealth at every term for holding the said Courts, is expensive & unnecessary—

Be it therefore further enacted by the Authority aforesaid, that from and after the first day of January next, no justice of the peace (other than the Justices of the Courts of Common pleas and special Justices of that Court and Justices of the quorum shall receive any pay for travel or attendance on any Court of General Sessions of the peace within this Commonwealth, at any other term, than the term which now is or shall hereafter be designated by Law, for granting Licenses to Innholders and retailers.

Sam^l Phillips jun^r Presid^t

To the Hon^{ble} Senate & house of Representatives now sitting at Boston within & for the Commonwealth of Massachusetts in February 1787 —

The Memorial of John Sullivan of Durham in the County of Strafford & State of New Hampshire Esq^r Humbly sheweth

That your Memorialist in Oct^r 1773 at the request of Lydia Lord, relict of Sam^l Lord 3^d late of Berwick in the County of York Trader deceased intestate, joined with her in the administration upon s^d intestates estate — That the said Sam^l at the time of his death was possessed of only a small real & personal estate exclusive of some notes of hand which were a little before the death of the said Samuel transfered to him

in right of the said Lydia as her proportion of the personal estate of her father Thomas Wallingford Esq^r deceased by indorsement of the Administration of her said fathers estate — That the said Sam^l left six children all minors & most of them in a state of Childhood at the time of his decease — That your memorialist immediately after administration was granted caused an inventory to be made of all the real & personal estate of the said Samuel, & used every possible exertion to complete the settlement of his accounts which were very numerous — That before a settlement of s^d estate could possibly be completed — the contest between Great Britain & America took place, & warm recommendations were sent from the friends of American freedom to every quarter, urging the necessity of avoiding suits at Law until a settlement of the controversy should take place; in consequence of which almost a total stop was soon after put to the recovery of debts — That in the year 1774 your memorialist was called to Congress as a Member returned home only for a short time, & served again in 1775, until he was called upon to join the American army, where he remained till Decem^r 1779 — That the said Lydia during his absence married John Costelloe who with her undertook the support & education of the children & laid out great sums of money therefor without taking out letters of guardianship or even conceiving it necessary — And your memorialist being constantly engaged in the service of his Country had no opportunity of advising them what to do or of knowing what they had done —

The said John & Lydia also made some efforts towards settling the estate but certain Acts which made paper money a tender in this & the neighbouring States for a number of years when paper bills were in a very depreciated state induced them to forbear making demands & bringing actions & subjected them to great loss upon such sums as they were compelled to receive from persons who by virtue of those Acts

tendered them the paper bills when they were not in fact worth a quarter part of the nominal sum in silver money, that since the conclusion of the war your memorialist has made repeated efforts to settle with the now surviving heirs of the said Samuel Lord most of whom have arrived to twentyone years of age, but they refuse to allow any thing for the maintenance & education of the minors to make any consideration for the loss on the monies received or to submit the same to the judgment of judicious & disinterested persons — Your memorialist thus circumstanced was compelled to exhibit an account to the Judge of probate for the County of York, charging for the support of the minors & for their education, in the Administration account against the estate, but the Judge of probate refused allowing anything, on account of letters of guardianship not having been taken out & because he supposed each minor ought to be answerable for his own education & maintenance out of his own particular share, & decreed accordingly, from which Judgment an appeal was taken to the Sup^r Court to be holden at York in June next, when a final Judgment is to be given thereon — And should the Superior Court determine that no allowance can be made but to guardians for maintainance & education, according to the rigid rules of Law however just & equitable the claims may appear, Your memorialist will be compelled after having Judgment rendered against him to involve himself in a number of expensive Law suits to obtain satisfaction from the respective heirs: And even after Judgment it is far from being certain that satisfaction could be obtained Your memorialists is convinced that your honors would not willingly suffer him to be injured & perplexed when he has so equitable a claim against the heirs & which he was prevented from rendering strictly legal by attending to that service which his Country demanded from him —

Your memorialist would not trouble your honors with his request if a Court of Chancery was established in this Commonwealth, or if any other Court was clothed with power of a Court of Chancery, as then a number of expensive & tedious lawsuits might be prevented & the whole settled by one just & equitable decision —

Your memorialist therefore humbly prays that an Act or resolve may be passed empowering three or more Commissioners to examine the whole affair, to make such allowance for maintenance, education & loss by depreciation as shall appear just & equitable, & give to the respective heirs their full proportion of the estate of the said Samuel, or that your honors will empower the Superior Court to appoint such Commissioners with ample powers, or grant your memorialist such other relief, as your wisdom shall direct & your memorialist as in duty bound will pray

York Ss } At a Court of Probate held at York 31st of August
1786 The foregoing account having been for some time un-
der my consideration, & being now sworn to by the said John
Sullivan & being examined I do disallow of the charge made
therein of one third part of the personal estate amounting to
—£181-6-8 becaus I do not find any law that impowers

Administrators as such to appropriate the personal estate, or any particular part or proportion of it to their own use nor do I find that the Widow of an intestate is intitled to one third part of the personal estate until after the payment of debts &c I also disallow of the several articles charged for boarding, cloathing & supporting Samuel Lord & other children amounting to £1336 .. 8 because it seems to me that on the death of an intestate his estate immediately vests in his widow & children, in the proportion the law prescribes subject to the claims & creditors & the necessary expences arising in transacting the settlement of the estate: that if I allow these articles for the supporting & maintaining the Children out of the estate at large it will be in effect making a different distribution of the estate, than the law directs, for it appears to me, that each Child, if it needs support & maintenance ought to have it from its own particular share or part of the estate — I also disallow of the charge of £77 — as paid George Boyd, there appearing no voucher for the same — The other charges in the Deb^t side of said account, amounting to £100 — 1 — 21½ being duly vouched are allowed: which makes a ballance of six hundred & four pounds four shillings & ten pence in the hands of the Administrators, for which they are accountable—

Joseph Simpson Judge

The said John Sullivan claimed an Appeal from this decree, unto the next Supreme Court of probate to be held for this County, which was granted & at the same time filed his reasons of appeal in the probate office, & gave bonds in the sum of twenty pounds with two sureties viz Paul Dudley Woodbridge & William Frost to prosecute the said appeal with effect—

Lord the third, late of Berwick in the County of York deceased intestate, Viz,

First— That the Judge has disallowed the several charges for support & maintenance of the children while Minors, which ought to have been allowed

2^{dly} That the Judge has disallowed the charge to the Widow which she makes, of one third of the personal in her favour, when he has allowed the charge against her for the whole of the personal estate —

3^{dly} Because the Judge has disallowed many charges in the account which ought to have been allowed & has curtailed many others, which ought to have been allowed in full —

Sir

I have The honor to Inclose you for the perusal of the honorable General Court a Copy of my memorial with the order of Court and any affidavit Thereon of the service on two of the heirs of Samuel Lord deceased. There is one other Daughter married to an osborne who lives somewhere in the County of Cumberland I did not suppose it necessary to serve them all; of Course he was not served; but I presume that he was instantly notified by the others — a son of the Deceased by the name of George. The Administrators have paid off and Taken a release in full we could not therefore suppose it necessary to notify him; a Younger son called Isaac is now under our care at a Salem school in the Country at a Distance where he has resided for some time he is a minor & I could see no use in serving him with a Copy nor could I suppose it necessary by the order of Court to Leave more than one Copy. I hope the service made will therefore be agreeable to the sentiments of the Hon^{ble} House. I now find myself under the painful necessity of asking the favor from the Courts to put over the hearing untill their next session It unfortunately happens

That The day appointed for the hearing is on the Day of our Election in this state and I need not inform you That it is not possible for me to attend the hearing at that time or at any time during our June Sessions and without my being present it will be impossible That the honorable Court Can have the matter fully explained to them & the Difficulties attending The Administration clearly pointed out I therefore beg That the hearing may be postponed to the next session at which time I will appear in person & I flatter myself be able to convince The honorable Court that it is not possible to have the Estate of M^r Lord settled with Justice to the Administrators, & heirs in the common Course of Law. Your honors can easily discover the necessity of this request & to Gentlemen who have the weight of public business upon them Arguments would be unnecessary to convince them of the Importance of attending to public business at this Critical moment. The heirs cannot be injured by granting This request as I will venture to affirm that in Justice There is not a farthing coming to either of them out of the personal Estate of the Deceased & the Real Estate remains untouched. on the Contrary a very Large sum is Due each of them to the Administrators for Boarding Schooling Cloathing and if they wished for nothing more than Justice They could have no objections to Commissioners being appointed who could & would take time to Examine the whole affair to the Bottom & do strict Justice to all parties which if they prefer to having the matter postponed I now agree that the general Court shall appoint any Characters Whom they may think proper I have no objections to any Gentlemen in the County Whom the Court may think proper to name only begging Leave to exclude the Hon^{ble} Judge Sewall & Daniel Sewall Esq^r for reasons that are not necessary to mention: There are Enough beside them in the County, and in Case the heirs wish to have Justice done to the administrators as well as to themselves They cannot object

to this proposal and if they incline to use their utmost Efforts to gain unfair advantages over the adm^{rs} which from Experience I am strongly inclined to believe I must rely on the Justice of the Hon^{ble} Court, to give me an opportunity of appearing & seeing for myself which they must all be sensible is out of my power at this time—I have employed no Counsel to appear for me before the honorable Court I rely on the Justice of the Case the fairness of my proposals & the wisdom & Candor of the members not having the Least Apprehension That I shall want advocates in an assembly famed for their Love of Justice and watchfulness to prevent disadvantages from being taken of those whose Duty as servants of the public compel them to be absent.

With the most perfect consideration I have the honor to be
sir your most obedient & very humble serv^t

To the hon the Senate and house of Representatives of the Commonwealth of Massachusetts in general Court assembled

Joseph Parsons and Lydia his wife, David Hobbs & Charlotte his wife & James Osborn and Nancy his wife which said Lydia Charlotte & Nancy are three of the Children and heirs of Samuel Lord late of Berwick in the County of York trader deceased in answer to the Petition of the honorable John Sullivan Esq one of the administrators of the Estate of the said Samuel deceased intestate praying for the appointment of Commissioners for certain purposes mentioned in said petition humbly beg leave to observe, that they do not conceive it to be at all necessary for the first of those purposes in examining the whole affair of the administration upon said Estate, that such Commissioners should be appointed; because that whole affair is depending by appeal before the supreme Judicial Court as the Supreme Court approbate to be holden at York on the fourth tuesday of June next and as they are the legal Judges of it so it is apprehended they are as well qualified & as Competent to the business as any Commissioners that might be appointed — Nor does it appear to your respondents at all necessary for the second purpose mentioned in making reasonable allowance to the administrators for any loss by depreciation of paper money by them rec'd in payment of debts due to the estate, because the said supreme Court of probate have as your respondents conceive as full power to make such allowances if just & equitable as is necessary or as any Commissioners ought to have — But upon this head they beg leave to observe that the whole sums of debts credited by the administrators is but about one hundred pounds — that no loss is specified upon any of those debts, nor was any allowance requested therefor before the Judge in the Administration account exhibited & that they have no reason to believe that any of said debts were rec'd in paper

money.— They would further observe that if any were so received, the administrators might have kept the money and the heirs would have been obliged to receive it by law; If any of them thought proper to speculate with it, they ought to bear the loss if there was any. There appears to your respondents less reason still for the appointment of Commissioners for the third purpose mentioned in the making reasonable allowance to the administrators for sums said to be expended for the education and maintenance of the heirs.

The petitioner seems to be sensible & from his acquaintance with the law must know that y^e Education & maintenance of y^e Children of the intestate is no part of the business or duty of Administrators — and indeed the allowance of sums so expended out of the estate would work the greatest injustice, by depriving Creditors of their just debts, and by distributing the Estate, in effect, among the heirs in very different & unequal portions & otherwise than the law would distribute it. As there are good reasons why the Supreme Court of probate should not allow such charges, so they are equally good against Commissioners allowing them, and of Consequence against the appointment of such Commissioners. Your Respondents beg leave to note the fallacy of the petitioners plea under this head for such appointment in that those sums were expended by John Costeloe who married the other administrator, in the absence of the Petitioner in the service of his Country, the said Costeloe not knowing the necessity of taking out letters of guardianship, & not being able to receive the advice & direction of the Petitioner upon the subject; whereas it appears from the administration account exhibited to the Judge by the petitioner himself, that those Charges for y^e Education & support of the heirs begun at the time of the intestates decease the year before General Sullivan went to Congress in 1774 — and were continued several years after his return from the army in 1779 — untill the year 1782.

Your respondents would further observe that those Charges cannot be considered in any other view than as separate demands of the said Costeloe in his private Capacity against the heirs respectively for necessary Education food & Clothing while Minors, & that his legal remedy for recovery of them is by commencing actions against each of them at Common law — and that they have each of them a right to dispute those demands in law, and a right to a trial by Jury agreeable to the 15th Article of the bill of rights which expressly declares that in all controversies concerning property and in all suits between two or more persons, except in cases in which it has heretofore been otherwise practised the parties have a right to a trial by Jury & this method of procedure shall be held passed ; But should your honours appoint Commissioners to try and determine these demands & make allowance for them to the Administrators, it would deprive your respondents of the Right of trial by Jury in Cases in which such trial has heretofore been immemorially used & in which it has never been otherwise practised, & would besides be creating a Contract between the Petitioner & your respondents, and making him a Creditor for Sums never advanced by him & which they never either expressly or by implication of law promised to pay . Your Respondents would further object to the appointment of Commissioners, because it will tend to create further delay, above six years have elapsed since the return of General Sullivan from the army, the impediments mentioned in his petition have been long since removed, and the estate is not yet settled — They hoped for a final Judgment at the next Supreme Court of Probate, but if the Cause is withdrawn from their Jurisdiction to that of Commissioners it will be impossible to say when there will be an end of it.

They would further observe that there is nothing peculiar in the present case to take it out of the Common Course of law — and the appointment of a Court of Commissioners to try

it would establish a precedent, and lay the foundation for innumerable applications of the like kind & great part of the business of probate Courts would be drawn before novel Jurisdictions & Courts of Commissioners.

They admit they did decline a submission of the dispute to arbitrators which was never proposed till the year 1785 because they conceived that considering their own ignorance & inexperience compared with the legal knowledge abilities & influence of General Sullivan & the difficulty & expence of procuring Council before arbitrators, they would labour under great disadvantages, and because they conceived that the Controversy might as speedily & as equitably be determined by the Supreme Court of probate as by any Arbitrators whatever.

They would further observe that they should have no objection to allow and pay out of their respective shares of their Fathers Estate any just demands for Education & maintenance, but they obliged to deny that large or indeed any considerable sums were expended for that purpose by the said Costeloe, and on the contrary to declare that their education was shamefully neglected by him that they were cruelly treated, & some of them turned out of doors & yet the enormous sum of £1336..8 is charged for their education and maintenance a sum large enough to sweep away all their paternal Inheritance real & personal, When your respondents suppose that the interest of the personal Estate great part of which being debts received on notes of hand, is not credited nor accountable for, and the income of the real Estate with their own labour properly directed would have been sufficient to defray the expence of all the poor education & maintenance they ever received.

Wherefore and for other reasons too many to trouble your honours with in this answer. Your Respondents humbly pray that the Petition aforesaid may be dismissed, and that

the decision of the Disputes aforesaid may be left in the hands of the Supreme Court of probate & of the Courts of Common Law, respectively to which the Constitution & laws of the land have wisely committed them.

And your Respondents as in duty bound shall ever pray &c

Petition of a Committee of the Town of Lebanon in County of York.

To the Honourable Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled February 21st 1787.

The Petition of Thomas Wentworth Samuel Copp and Peter Keay a Committee of the Town of Lebanon in the County of York for such Special Purpose appointed together with the non resident Proprietors and owners of Grants and Lotts of Lands in Said Town Humbly Sheweth That Whereas the Proprietors of the Common and undivided Lands in the Plantation of Lebanon in the County of York in the Year one Thousand Seven Hundred and Sixty five being Sometime before the Same was incorporated into a Town contracted with M^r Isaac Hasey in Consideration of his settling in the Work of the Ministry in said Place to pay him annually eighty six Pounds Thirteen Shillings and four Pence Lawfull Money for the first eight Years of his Ministry in said Township and the Sum of Seventy Three Pounds Thirteen Shillings and four Pence like Money after the Term during his Ministry in said Township— Which Contract on the Part of said Hasey has hitherto been fully complied with and the said Hasey yet remains the settled & ordained Minister

of the Congregational Church and Assembly in said Town —

That said Proprietors have paid and satisfied the annual Sums agreed upon with said Hasey untill the Twenty Six Day of June Anno Domini one Thousand Seven Hundred and eighty two Since which Time the annual Salary due to Said Hasey for his Ministerial Labours in said Town is in Arrear and unpaid.

And near or quite all the Lands being divided and held in severalty The Proprietors find themselves unable (agreeable to the Laws of The Government as they now stand) to comply with their said Agreement by Assessments thereon — And whereas the Inhabitants of the Town of Lebanon and the non-resident Proprietors and owners of Grants and Lotts of Land within the Grounds and jurisdiction of the Town of Lebanon have mutually agreed to have a Tax laid and Assessed upon all the Lands within the Bounds and jurisdiction of said Town only, and upon every Acre thereof equally improved or not improved (excepting such Lands as are by Law exempted from Taxation for the Support of Government) exclusive of Polls and Personal Estate) for the Purpose of raising a Sum Sufficient to pay said Hasey his Salary that is now due him for Past Services — And Also to Assess Such Sum Annually, upon the Lands only and upon evry Acre thereof equally as will Pay said Hasey the aforementioned Sum of Seventy three Pounds Thirteen Shillings and four Pence during his Ministry in said Town or So long as the Town shall Choose such a Mode of Taxing for said Purpose which seems to be the Meaning and Intent of the original Contract and Agreement

Wherefore we pray your Honours that an Act of the General Court may pass to authorize Said Town of Lebanon to Assess upon the Lands and upon every Acre thereof equally within the Bounds and Jurisdiction of said Town (exclusive of Polls and Personal Estate) improved or not improved

(excepting Such Lands as are by Law exempted from Taxation for the support of Government) a Sum Suffieient to pay M^r Hasey the sum due to him from the Twenty sixth of June one Thousand Seven Hundred and eighty two to the Twenty Sixth of December one thousand Seven hundred and eighty Six And from that Time his Salary Annually so long as the Town shall agree upon that Mode of Taxing for said Haseys Suport agreeable to the original Contract also Sums to pay for Assessing and Collecting the Same

And that the Said Contract and Agreement of Said Said Proprietors of Lebanon aforesaid made with Said Hasey so far as relates to the Payment of his Salary before recited already due and Such as may hereafter become due during the Time M^r Hasey Shall continue in the Ministry in said Town be transferred from Said Proprietors to the Inhabitants of the Said Town of Lebanon in as full a Manner as if the said Inhabitants had in their corporate Capacity originally made and entred into said Agreement with Said Hasey—under Such Regulations as your Honors may think Necessary to secure the Annual Payment of M^r Haseys Salary upon the Plan and Method Proposed in the foregoing Petition and as in Duty bound your Petitioners Shall ever Pray

Lebanon October 30th 1786

Tho^s M Wentworth, Samuel Copp, Peter Keay }

Committee in behalf of the Town of Lebanon

We the Subscribers non resident Proprietors and owners of Grants and Lotts of Lands within the bounds and Jurisdiction of the Town of Lebanon aforesaid do agree to the foregoing Petition and join with said Town of Lebanon in the Prayer thereof that an Act may be passed for carrying the Same into Execution as above pray'd for

Domineus Goodwin,
Ichabod Goodwin,

James Goodwin,
Moses Carr,

Moses Ricker,
Jonathan Hamilton,
Rich^d F Cutts,

Thomas Wallingford,
T. Rollins,
John Haggins.

I the subscriber consent that the Contract which the Proprietors of the Town of Lebanon in the County of York made with me for my Support in the Work of the Ministry in said Town so far as it relates to the Payment of my Salary may be transferred to the Inhabitants of said Town of Lebanon provided that the said Inhabitants in their corporate Capacity be subjected to fullfil said Contract and pay s^d Salary.

Isaac Hasey

This Certifies that I the subscriber have served as Clerk of the Proprietors of Lebanon from the year 1754 to the time of their compleating the division of all their Lands in s^d Township into Lotts which was in the year 1783 which is now held in severalty and that the Person signing on the other side as non resident proprietors are persons who usually transacted business at their Meeting before a final decision took place and I suppose now all the principle owners of the Lotts in s^d town but what are owned by the Inhabitants and I do agree that the prayer of the within petition may be granted so far as I am interested in any of the Lotts or Grants of Land within s^d Town of Lebanon under such regulations as the General Court think proper

for the plan^t when there are more than one Def^t & living in different Counties in this Commonwealth

Be it enacted by the Senate & House of Representatives in General Court assembled, and by the Authority of the same, in all causes against two or more persons inhabiting in several counties, or where the def^t or def^{ts} have any goods or estate in any county or place other than that wherein the Def^t or Def^{ts} may reside, the writ of Attachment may run into the county where either of the def^{ts} live or have any real or other estate, & in such cases shall be executed by the sheriff or other officer to whom the same may be directed.—

Be it further enacted by the Authority aforesaid that the plaintiff or plaintiffs in any action of trespass Quare clausum fugit — Action of covenant upon a deed for transferring real estate Action of debt on Judgment or of debt or covenant on Bonds or other specialties when the penalty may by Law be chancer'd — Actions against any town or other Corporation, or against any sheriff or any neglect in his office,— Actions of Replevin, and Actions on the Absconding Act, may originate in the Court of Common pleas, provided the demand does exceed the sum of four pounds, any Law, Usage or Custom to the contrary notwithstanding.—

Be it enacted by the Authority aforesaid, That if either party think themselves aggrieved at the Judgment of any Court of Common pleas they may appeal from said Judgment to the supreme Judicial Court in the same manner as if the Action had been originally commenced there.—

Be it enacted by the Authority aforesaid that if the plaintiff fails to appear & prosecute his suit, the Justice shall award to the def^t his costs taxed as the Law directs

Be it enacted by the Authority aforesaid that when it happens that the def^t is not an inhabitant or sojourner within this Commonwealth, or is absent out of the same at the time of commencing such suit, & shall not return before the time for

tryal the Justice before whom such suit shall be brought shall continue the action for the term of three months and if the defendant does not appear by himself or Attorney, & is so remote that the notice of such suit depending could not probably be conveyed to him, during the Vacancy the said Justice at such next court may further continue the action for the further term of two months, & no longer, & in such case where judgment is entered up by default, after two continuances, as aforesaid, Execution or writ of seizen shall be stayed, & not issue untill the plaintiff or demandant shall have given bond with one or more sufficient securities, in double the value of the estate, or sum recovered by such judgment to make restitution & to refund & pay back such sum as shall be given in debt or damage, or such as shall be recovered upon a suit therefor to be brought within twelve months next after entering up the first judgment, if upon such first suit the judgment shall be recovered, annulled or altered, the security aforesaid to be no further answerable than for the recovery which shall be made upon such suit to be had within twelve months as aforesaid.—Provided also That no real estate taken in Ex^{on} granted upon such first judgment, shall be alimated or put away, untill after the Expiration of the said twelve months, to the intent that restitution thereof may be made in case as aforesaid.—

Be it further enacted by the Authority aforesaid That when an Ex^{on} issued by any justice of the peace shall be extended on any Land or other real estate, the same proceedings shall be had thereon in every respect as are provided in and by an Act entitled an Act “directing the issuing, extending and serving of executions —

Be it further enacted by the Authority aforesaid that nothing in this Act, or the Act to which this is an addition shall be construed so as to prevent the Citizens of this Commonwealth from any remedy they had against the Citizens or

subjects of any other state or kingdom before the passing thereof —

Extract from Document entitled "Choice of Town-Officers, &c."

Town-Clerk to record such as are sworn into office

And if the person summoned shall make default, or appearing, shall not shew sufficient cause to the Court for his refusal, the Court shall order a warrant under the seal thereof, directed to any of the constables of the same town then in office, to levy the line by distress and sale of the offenders goods and chattels, returning the overplus, (if any be) together with the costs arising on such prosecution; and for want of goods and chattels, to commit the delinquent to prison until the same shall be paid. And the Town-Clerk, shall make a record of such persons as shall from time to time, be sworn into office before him, or of such as shall file certificates of their being sworn as aforesaid.

In case of vacancy in any office, towns may proceed to a new choice.

And be it further enacted, That when by reason of non-acceptance, death or removal of any person chosen to office in any town, at the annual meeting for the choice of town officers, or at any other time, or by reason of a person's becoming noncompos, there is a vacancy, or want of such officers, the town, being orderly assembled in the manner this act directs, may proceed to a new choice of officers to supply and fill up such vacancy; and the person or persons thus chosen and sworn before the town-clerk, or a Justice of the Peace, (in case an oath of office is by law required) shall have the same power and authority to discharge the duties of the office, as though chosen at the annual meeting for the choice of town-officers.

Manner of calling town-meetings.

And be it further enacted by the authority aforesaid, That when there shall be occasion of a town meeting, the constable or constables, or such other person as shall be appointed for the purpose, by warrant from the selectmen, or the major part of them, shall summon and notify the inhabitants of such town to assemble at such time and place, in the same town, as the selectmen shall order, the manner of summoning the inhabitants to be such as the town shall agree upon; and when ten or more of the freeholders of a town shall signify in writing their desire to have any matter or thing inserted in a warrant for calling a meeting the selectmen are hereby required to insert the same in the next warrant they shall issue for a meeting, or call a meeting for the express purpose of considering thereof; and no matter or thing shall be acted upon in such a manner as to have any legal operation whatever, unless the subject matter thereof be inserted in the warrant for calling the meeting; and in case the selectmen shall unreasonably deny to call a meeting upon any public occasion, any ten or more of the freeholders of such town may apply to a Justice of the Peace within and for the same county, who is hereby authorized and empowered to issue his warrant under his hand and seal, directed to the constable or constables of the town, if any such there be otherwise to any of the freeholders applying therefor, directing him or them to notify and warn the inhabitants qualified to vote in town affairs, to assemble at such time and place in the same town as the said Justice shall in said warrant direct, and for the purpose in the same warrant expressed. And when by reason of death, removal or resignation of selectmen, a major part of the number originally chosen shall not remain in office within any town, in every such case, a major part of the survivors, or of such as remain in office, shall have the same power to call

a town meeting as a major part of the whole number first chosen.

Town-Meetings regulated.

And be it further enacted by the authority aforesaid, That at every town-meeting, a moderator shall be first chosen by a majority of votes, who shall be thereby empowered to manage and regulate the business of the meeting; and when a vote, declared by the Moderator, shall immediately after such declaration, be scrupled or questioned by seven or more of the voters present, the moderator shall make the vote certain, by polling the voters, or such other way, as the meeting shall desire. And no person shall speak in the meeting before leave first had and obtained from the moderator nor when any other person is orderly speaking; and all persons shall be silent at the desire of the moderator, on pain of forfeiting five shillings for the breach of every such order, to the use of the town: and if any person shall, after notice from the moderator, persist in his disorderly behaviour, then it shall be lawful for the moderator to direct such disorderly person to withdraw from the meeting; and such disorderly person, upon his refusal or neglect to withdraw, shall forfeit and pay a fine of twenty shillings, to the use of the same town; and may also, by direction of the moderator, be carried out of the meeting by some constable of said town, and put into the stocks, cage, or some other place of confinement, and there be detained for the space of three hours, unless the town-meeting shall sooner adjourn or dissolve. And all suits and information for fines incurred by a breach of this act, not exceeding forty shillings, may be heard and determined before any Justice of the Peace in the same county, not an inhabitant of the same town, unto whom the penalty or any part thereof is given, who, upon conviction, may enforce the payment thereof by a similar process, as is herein prescribed in the Court

of General Sessions of the Peace for persons who refuse to serve in the office of constable.

Proviso.

Provided always, That town-meetings for the choice of governour, lieutenant-governour, and senators, shall be regulated as the constitution directs, and for the choice of representatives as is otherwise by law prescribed; any thing in this act contained to the contrary notwithstanding. And the moderator of any town-meeting, chosen as aforesaid, is hereby authorized, in case no Justice of the Peace be present, to administer to the clerk, in open town-meeting, the oath by law prescribed to the same office.

Towns empowered to grant & assess money for necessary charges

And be it further enacted by the authority aforesaid, That the free-holders, and other inhabitants of each respective town, qualified as aforesaid, at the annual meeting, for the choice of town-officers, or at any other town-meeting regularly warned, may grant and vote such sum or sums of money, as they shall judge necessary for the settlement, maintenance and support of the ministry, schools, the poor, and other necessary charges, arising within the same town; to be assessed upon the polls and property within the same, as by law provided; and they are also hereby empowered to make and agree upon such necessary rules, orders and by-laws, for the directing, managing and ordering the prudential affairs of such town, as they shall judge most conducive to the peace, welfare and good order thereof; and to annex penalties for the observance of the same, not exceeding thirty shillings for one offence; to enure to such uses as they shall therein direct; provided they be not repugnant to the general laws of the government; and provided also, such orders and by-laws shall have the approbation of the Court of General Sessions of the Peace of the same county: And may also allow and approve

of any town or private way laid out by the selectmen of the same town, or alter or discontinue any town or private way, heretofore laid out and improved as such, when it shall appear that the same is unnecessary for the inhabitants of such town. Saving always, to any person aggrieved, or who thinks himself injured, liberty of applying for remedy to the Court of General Sessions of the peace in the same county, who are hereby empowered and directed, to enquire into and determine the matter by a jury, thereunto appointed, as well with respect to the necessity and convenience, by such discontinuance, laying out, or alteration, as to the damage that may happen or accrue, to any particular person or persons thereby; and thereupon to assess damages for the party injured, to be paid by such town; unless it appears, that the person on whose behalf application has been made, had no just cause of complaint; in which case the complainant shall pay all such costs and charges as may arise by such application to the Court of Sessions. And the verdict of a jury being received and recorded, shall be final and conclusive. Provided, such application be made to the Court of General Sessions of the Peace, within twelve months after such way is approved, altered, or discontinued, as aforesaid, and not otherwise.

Inhabitants of every town, declared a body politic.

And be it further enacted by the authority aforesaid, That the inhabitants of every town within this government, are hereby declared to be a body politic and corporate; and as such, may commence and prosecute any suit or action in any Court proper to try the same; and may also defend any suit or action commenced against them, and for this purpose, the said inhabitants, qualified and convened in manner aforesaid, may nominate and appoint one or more agents or attornies. The choice of the agent or attorney certified by the town-clerk, shall be deemed and taken sufficient evidence of such appointment. And when any suit shall be commenced against

any town, (or other body corporate) a copy of the writ or original summons, or such other legal process as may issue against them, shall be left with the clerk of such town, or with one or more principal inhabitants thereof, (or with the clerk or some principal member of the body corporate, thirty days at least before the day of the sitting of the Court, unto which the same shall be returnable.

Privileges and powers of districts.

And be it further enacted by the authority aforesaid, That all places incorporated by the name of districts, before the first day of January, one thousand seven hundred and seventy-seven, are hereby declared to be towns to every intent and purpose whatever; and places incorporated by the name of districts since the same first day of January, one thousand seven hundred and seventy-seven, or such places as may hereafter be incorporated by the name of district, are and shall be entitled to all the privileges, and vested with all the powers in this act expressed, as amply to every intent and purpose as they could have been if expressly named herein.

Matters and things by law directed to be done at March meetings, may be transacted in April.

And whereas in divers laws, provision is made relating to the annual meetings in March, which it is necessary should be extended to the meetings holden in the month of April, in case the annual meeting of any town should be holden in that month;

Be it therefore enacted by the authority aforesaid, That all matters and things, which by any law or resolve of this Commonwealth, are directed to be done, and transacted at the town-meetings in March, may hereafter be done, and transacted at a town-meeting in April; anything in such law or resolve, to the contrary notwithstanding.

And be it further enacted by the authority aforesaid, That all laws heretofore made for the purposes mentioned in this

act, be, and they hereby are repealed, and rendered null and void. [This act passed March 23, 1786]

An Act directing the Time and Manner of appointing
County Treasurers.

Be it enacted by the Senate and House of Representatives, in General Court assembled, and by the authority of the same, That there shall be annually chosen in each county within this Commonwealth, in the month of March or April, by the written votes of such persons as are by the constitution qualified to vote for Representatives in the several towns or districts, a discreet suitable person, being a freeholder, and resident in the same county, for a County Treasurer; the votes to be counted and sorted in the town or district meeting by the moderator thereof and town-clerk; the names of the persons voted for, and the number each person had, shall be recorded by the clerk in the town or district book, and an attested copy of such record shall be transmitted under seal to the next Court of General Sessions of the Peace, to be held within and for the same county, on the first day of the Court's sitting; there to be opened and compared with the like returns from the several towns and districts in such county: and the person having the majority of the said votes, and accepting of the said office, after being sworn to the faithful discharge of the trust before the said Court, or any two Justices thereof, quorum unus, and giving bond for the faithful discharge of the trust, with sufficient sureties in such penal sum as the Court shall direct, to the clerk of the peace for the same county, for the time being, and his successor in that office, shall continue in the said office for the term of one year, and until some other person shall be chosen and qualified as aforesaid in his room.

When no one person shall have a majority of the votes returned, Justices of the Court of Sessions may appoint a suitable person.

And in case, upon comparing the votes returned as aforesaid, no one person shall have a majority of the whole number of votes returned, or the person chosen shall decline accepting the office, or after accepting shall die, or resign, or remove out of the county, within the year; then, and in such case, it shall be lawful for the Justices of the same Court to appoint by ballot a suitable person, being a freeholder in the same county, to that office;

To the Hon^{ble} Senate & house of Representatives of the State of Massachusetts

The memorial of the People of the Plantation of Canaan Humbly Sheweth —

That your memorialists about 14 years ago, being in low & Indigent circumstances removed in this, then, Intire wilderness, thro' innumerable hardships have subsisted hitherto,

using the utmost Industry for Subdueing the land & procuring a very mean & wretched Subsistence for their numerous families in hopes, that In time, they Shall be more Comfortable, & be able to assist their Brethren in other parts of the State to bear the publick Burdens; But on acc^t of many disadvantages, they labour under thro the length of their winters, the Difficulty of clearing this heavy timbered land, & want of Road, & no market, & more than 30 miles from navigation, & of mills, they having been obliged to go 15 miles to mill & pay 10^d p^r Bushell for transport across the carrying place, & the Beasts of prey, which Renders our Small Stocks, both of Sheep & Cattle, very precarious, & thro' many other Inconveniences they find; at this Day, that they cannot procure even the necessaries of life, in a tolerable degree, for their families, being often forced to live for weeks together without any Bread, & without meat for more than half the time, a very few excepted, & to go almost naked, even in this Severe climate, & to live in hutts Incomparibly worse, than ordinary Stables to the Westward, & therefore we are obliged to remonstrate to the Hon^{ble} Court, our total Inability to pay anything into the publick treasury —

That your memorialists labour under peculiar disadvantages for want of Incorporation, which disables them from collecting the little Strength they have to make roads, & do other things of Publick utility which inconvenience they have long endeavoured to remove by Repeated & Dutifull applications to this Hon^{ble} Court, but hitherto have not obtained what they think is their just right, & most reasonable request, but are still left in an unhinged state, after many months attendance on the Courts at Sundry times, in all which, they have, on a reasonable Computation, been at more than 80£ Expence, by which they are discouraged & disabled from any further attendance — but must leave this to the mercy of the Court —

That notwithstanding these distresses, which they have several times laid before this Hon^{ble} Court, they have a number of taxes laid on them, & hear that Executions are out against the assessors, which should they be levied, would intirely break up this Plantation, as all the stock & moveables in it, Sold in the ordinary way, would not satisfy them —

Your memorialists in view of these sore calamities are filled with distress, & even with Despair, unless this Hon^{ble} Court will compassionate their State & make some provision for their relief.

Therefore with all the earnestness of Suppliants, & hearts yearning over their Naked, & almost Starving children, they cast themselves, once more at the feet of their civil Fathers, & humbly beseech them to take their distressed circumstances into their wise & Compassionate consideration, & abate the taxes that have been laid on them, & spare them for the future till they Shall be in a capacity to pay, or if this Should be thot to much, it being impossible to pay either money grain or lumber into the publick treasury; they pray that the taxes called for, may be collected by the assessors or collectors in labour & other materials, part of it to be laid out in making & Repairing roads, building bridges many of which are actually necessary in this plan & 2 large Streams both of which will require 24 Rods of Bridge to render them passable; & part of it for Building a meeting house for the publick worship of God, of which we are Destitute & unable otherwise to Build & your memorialists as in Duty Bound Shall Ever pray

The Petition of the inhabitants of Otisfield plantation
Humbly Sheweth

That whereas your humble Petitioners have Rec^d a Warrent from Thomas Ivers Esq^r, Treasurer &c, dated Boston April 10th 1786 Requesting us to assess and, collect the sum of £90 to be paid into the Publick Treasury

Though we wish ever to be obsequious to Legislative Authority Yet we under a sense of our inability think it our duty to petition your Honours to suspend s^d Warrent, as we are too sensible of our presant need, and want of ability to Contrabute any thing to the Publick Chost, Though we wish it in our power,

We being an Infant plantation, our Setlors of the poorer part which lays us under a double disadvantage to that of older Towns.

Our distance from a Sea port, which is near 45 Miles, together with the badness of our Roads, and our Infancy, make it difficult for us to get the necessaries of Life, The fewness

of our number renders it impossible to remove that difficulty at present, as the most of our setlors have mov^d in since 1781 many of them by the Unhappy affects of the late War) or by the Depreciation of paper Money have moved here with Families destitute of almost every necessary of Life, and we as yet number but 22 Families, many of them are not able to keep a Cow and some destitute of that necessary Animal our Country being new we keep no Sheep and raise little or no Flax.

Our houses consist of Logs covered with barks and we are not in circumstances to make them better as it is but six Months since we have had a sawmill within 12 Miles We wish not to trouble your Honours by enumerating every peticular of our disadvantage, as a Word to the wise is sufficient.

Therefore we your Humble petitioners pray your Honors would take our Case into your wise consideration not Doubting our prayer will find a favourable reception and we your Dutiful subjects Exempted from paying s^d Tax And your petitioners as in Duty bound will ever pray

To the Hon^{le} the Senate, and House of Representatives in
General Court Assembled.—

The Memorial of the Delegates for the several Towns, and Plantations, east side of Union River, Viz N° 1, N° 3, N° 4, N° 5 N° 6 and N° 22 in the County of Lincoln in Convention Assembled, humbly Shews — Whereas, by an Act of the General Court in March last, a Tax was levied against the unin-corporated Towns, and Plantations, in said County, with directions for collecting the same, addressed to their Assessors ; Wherefore your Memorialists beg leave, to lay claim to that happy privilege, (which from our good Constitution we enjoy) of being heard, and making known our grievances to that Body, who having the Power, we hope have the Will to redress.— The utter impossibility of paying the present Tax, is well known to every one who has an acquaintance with the situation of this eastern part of this Country, And your Memorialists beg leave, to lay before your Honors that situa-tion, and feel themselves confident, that it requires little else than the representation, to ensure a repeal of that Act, so far as it respects these Plantations.— From the first settlement of these Towns, or Plantations, the Inhabitants almost to a Man, have applied themselves to the Lumber trade to the neglect of Agriculture, their Business being wholly stagnated during the War, depopulation in a great measure took place ; the few who tarried, and were fortunate enough to find a little piece of Ground fit for tillage ; by unremitted industry, and applycation barely subsisted :— When the Peace took place, though our Mills were either distroyed, or much out of repair, yet the encouragement for making Lumber was so great, that the People were induced to run themselves deep in Debt to build, and repair their mills, but notwithstanding, had the Trade continued to have flourished, the People by this time would have been able, with the willing Hearts of good

Subjects, to have contributed something to the support of Government.—But the late stagnation, and fall of our Lumber, (occasion'd as we humbly conceive by our Ports being shut, which however Judicious the Acts may have been, and tending to the emolument of the Western part of this Com: Wealth sinks us down to that Poverty, and distress which we experienc'd in the War, and obliges us again to cultivate the Pine Wilderness for Bread.—Your Memorialists further beg your Honors would conceive, the distress of a People who from the uncultivation and natural infertility of their Soil are oblig'd to import almost every Article of consumption, and the only Staple of exportation stagnated. At the same time we cannot omit mentioning that our unsettled situation respecting the title of our Possessions in Lands, which has greatly retarded not only the settlement, but the improvements which otherways might have been made.—These inconveniences, may it please your Honors that the people of this Eastern Country labour under, also the enticeing Offers made, and encouragements given, to emigrate into Nova Scotia, by our Near Neighbours the Brittish, have already drain'd us of many of our young men, and we are Apprehensive that unless some different measures are taken by Government relative to the settlement of the Country, our numbers will still continue to decrease.—And your Memorialists wish further to represent, that as our Whole Trade, consists in the small Barter, between one Neighbour, and another, & possessing no Vessels to carry on any commerce with other parts, we are entirely destitute of any circulating Currency among us; therefore with respect to raising the present Tax, it is our humble Opinion, that was the whole Property of the Country put up at Auction, it would not raise a sufficient Sum to satisfy the demand—Although we feel the warmest attachment to the Government from which we receive protection and have the strongest desire to contribute

to its Support, as far as in us lays; yet under the Present circumstances, which we have here refer'd to, added to our Legal incapacity of representation we view ourselves entirely unable to comply with the present requisition of Government; Wherefore we Pray in behalf of our selves and Constituents that your Honors would take our Case into your most serious consideration, and relieve us in that way, and manner, which you in your known wisdom shall think most expedient — For further particulars we beg leave to refer your Honors, to Alexander Campbell Esq^r who will be the Barer of this Memorial and as in duty bound your Memorialists shall ever Pray —

Petition Inhbts. Town of Francisborough.

To the honerable Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled Feb^y 1787

The Petition of the Inhabitants of the plantation of francisborough in County of York humbly shews that they leatly Received a warrant from the Treasurer of the Commonwealth for assessing the Said Plantation the Sum of one hundred and Twenty five pounds twelve shillings & six pence witch is qual to all the personal Estate in the Plantation the Number of Polls in Said Plantation is Twenty seven Most of witch are very poor and unable to pay Taxes the first setelment was made about seven years ago and most of the other settlements have been made within three years last past

and sum of them within the last year there are only three Barns and six fraimed Houses in the plantation and but a very little Land Cleared for Tillage or mowing the Planttation is about thirty five miles from Navigation in short it is unposible for them to pay the Tax ordered to be assessed the Inhabittance have Reson to think if thair Circumstances had been known by the Legislature no Tax as yet would have been Laid upon them wherefour your Petitioners pray that they may be Exempted and Excused from paying Taxes for a Number of years to Come and until their Circumstances may be such as to Enable them to pay the same and as in Duty Bound will Ever pray and so forth.

*Report of the Committee for selling Certain Strips or Gores
of Land in the County of York.*

Commonwealth of Massachusetts Feb^y 21, 1787—

The Committee appointed March y^e 20, 1784 to sell certain Strips or Gores of Unappropriated Land belonging to this Commonwealth lying in the County of York, made Report on the 9th of November 1784 of their Sale of sundry Pieces of Land, the Proceeds of which amounting to £875.6.8 were paid into the Treasury, since which time they have sold several other Pieces, paid into the Treasury £134.14.11 and have herewith exhibited an Account of Sales.

One of the said Gores, described in the Plan committed to your Committee as containing a Quantity which they were directed to sell (in which are contained the Lands sold to Sam. Andrews & Jonathan Hamilton) have been found to fall short of the Quantity therein designated, but the exact Quantity cannot be fully ascertained untill the true Lines between the said Lands & those belonging to Shapleigh & Lebanon are determined. It is also apprehended that one other of the said Gores, according to the said Plan containing Fifteen Hundred & ninety Four Acres (Five Hundred & Forty of which your Committee have sold) will fall very considerably short of the full Quantity, and will probably render an actual Survey necessary.

Eleven Lots of Land adjoining to Fryebourg remain unsold. No offer has as yet been made for them—

Memorial of Representatives from the Eastern Counties.

To the Honourable Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled March 1787

the memorial of the Representatives of Several towns in the Counties of York Cumberland and Lincoln in behalf of the towns in those Counties

Humbly Shews that in the Course of Last Summer those Counties by the Dispensation of providence were visited with

a great Drought which has Continued ever Since have Suffered, in Consequence of which they in many Respects more especially in their Lumber trade, that the Inhabitants of those Counties almost intirely depend upon Lumber more especially Boards for the purpose of procuring wherewith all to pay there taxes which cannot be procured untill there is a Sufficient plenty of water for that purpose and after Lumber is procured a Reasonable time is necessary for the purpose of transporting the Same to Boston and other markets within the Commonwealth, that it is evident that it is altogether out of the power of the Said Inhabitants to pay any part of their Taxes at so early a period as the first of April next and it will be impossible for those Inhabitants to make any considerable payments of their taxes untill Some time in the next Summer that an attempt to enforce the payment of taxes immediately will tend to throw the Said Inhabitants into a State of Disparation and at the Same time to induce them to Conclude that a proper attention is not paid to their Circumstances —

Wherefore your memorialists pray the time for paying the taxes granted in March last may be postpond^d to Some future period which they wish may be no longer than is indispensably necessary but at the Same time So Long as that it may be within the Limits of possibility for the Said Inhabitants to discharge their Said tax or grant the Said Inhabitants Relief in Such other way as the Court in their Wisdom Shall think fit and your memorialists as in Duty bound will ever pray

Petition of Monsieur Gregoire.

Commonwealth of Massachusetts

To the Hon^l Senate, & Hon^l House of Representatives in
General Court assembled at Boston March 1787 —

The Remonstrance of Monsieur and Madam Gregoire humbly shews:—

That whereas their Honors the Justices of the Supreme Judicial Court have declined giving their opinion on the validity of your Petitioners title to certain Lands claimed by them as the same may effect individual possessors not parties to the application. And whereas your Petitioners circumstances will not enable them to prosecute their Claim at Common Law, where they could have little hopes of success under a Trial by a Jury of the Vicinity, composed probably of the very persons whose possessions would be effected by the decision; Your Petitioners would therefore humbly propose to this Hon^l Court an accommodation of their Claim aforesaid on the terms and Conditions following— viz^t

That the said Monsieur & Madam Gregoire will on their part grant remise & release to the Commonwealth or their Grantees, all such parts of the Lands, lying within their Grant aforesaid, made to them by his most Christian Majesty Louis 14th as shall have heretofore at any time have been granted, ceded, bargained, sold or released by the Government, to any person or persons whatever, & which are not now revested in the Government by confiscation, forfeiture or otherwise & not remaining in them; And will further remise, release and quit claim to all the other individual possessors of said Lands, such other parts of said Lands as are by them actually improved, and which in the opinion of the Committee of this Hon^l Court for the Sale of Eastern Lands ought to be quieted to them— On Condition that this Court will grant, release, convey & confirm to your Petitioners all the Lands lying within their Claim aforesaid, excepting such parts as have been heretofore granted or sold by the Government & not revested & remaining in them,—and excepting also such other parts as are in the actual improvement of any Individuals whatsoever & which the Committee for the

Sale of Eastern Lands, shall think ought to be quieted to the present Occupants, & released by your Petitioners

As this mode of settlement can effect only the Commonwealth & Your Petitioners, who are the sole parties thereto, & the Claims of Individuals will be strengthened & confirmed thereby, they flatter themselves, that this Hon^l Court will most readily accede to this proposition and render the best possible Justice to Your Petitioners

& they as in Duty bound shall ever pray &c

The Committee of Both Houses to whom was committed the Petition of Monsieur & Madam Gregoire, tendering an Accommodation of their Claim to Certain Eastern Lands beg leave to report thereon the following Resolve — viz^t

Whereas Monsieur & Madam Gregoire, as she is grand Daughter, & immediate Heir at Law of the late Monsieur De La Motte Cadillac, late of a place called DeTrois have been at great Expense & Trouble in coming from France to this Country to prosecute their Claim to a Tract of Land situate

& being in the County of Lincoln within this Commonwealth, and once granted to said De La Motte Cadillac, by his late most Christian Majesty Louis the XIVth And Whereas this Claim aforesaid to said Lands, has been countenanced as well by the most eminent American Characters at foreign Courts, as by the first Law Characters in France; And Whereas it is essential to the best Interest & Happiness of this Country, to preserve entire the Union & good Understanding, subsisting between the Subjects of our late Great & generous Ally, the King of France, and our own Citizens, and to cement that Union by every Act of Generosity, & unequivocal Justice, And Whereas said Monsieur & Madam Gregoire have agreed to remise & release all such of said Lands as have been granted or ceded by this Government, & not now remaining in them, and to quiet all such possessors of said Lands, as the Committee for the Sale of Eastern Lands, shall think it necessary & expedient to be quieted: It is therefore Resolved that the said Committee for the Sale of Eastern Lands be, & they hereby are, authorized & impowered to make & execute, in behalf of this Commonwealth, a good & sufficient Deed in fee simple to said Monsieur & Madam Gregoire to hold to them their Heirs and Assigns forever of all the Lands lying within the boundaries of their Grant aforesaid, made to them by his said most Christian Majesty Louis 14th, excepting and reserving thereon all such Lands, lying within the Tract aforesaid, as shall have at any time heretofore been granted ceded, bargained or sold by the Government of Massachusetts & which are not now vested or revested in them; and also excepting thereout all such other Lands as are in the actual improvement & Possession of any Individuals, & which in the Opinion of said Committee ought to be quieted to the present Occupants. On Condition however that upon the Execution & Delivery of said Deed by said Committee to said Monsieur & Madam Gregoire they the said Monsieur &

Madam Gregoire shall and will on their part execute and Deliver to said Committee good & sufficient Deeds of Release to this Commonwealth, or to the present Occupants or Grantees under the Commonwealth, of all such of said Lands as have heretofore been granted ceded bargained or sold by the Government of Massachusetts, & are not now vested or revested in them, & of all such other parts of said Lands, as are now in the actual Improvement of any Individuals whatsoever, which in the Opinion of said Committee ought in Justice or expediency to be quieted to the present Possessors—

The said Opinion of said Committee in Ascertaining the Individuals, whom they think ought to be so quieted, to be given to said Monsieur and Madam Gregoire, as soon as may be, with the Number of Acres, which are to be released to each Individual, and a Duplicate thereof to be lodged in the Secretary's office

Petition of Inhabitants of Gouldsbrough.

To the Honorable Legislative Body of the Common Wealth
of Massachusetts.

The Petition of the Free-holders, Inhabitants of the Township of Gouldsbrough or Number three on the East side of Union River, in the County of Lincoln—

Humbly Shews—

That whereas there was a Petition for Incorporateing this Township sent to the General Court, a Copy of which we have Receiv'd with an order of the Court thereon, to shew cause if any we have why this Township Shall not be Incorporated; Said order of Court has been this day acted upon at a Legal Town-Meeting, and we beg leave to shew the following Reasons why this Township Shall not be Incorporated. Viz^t

That there is but Twenty seven Settled Familys within the Bounds of this Township, and the greater part of them so poor, that it is with extreme Difficulty they can make a bare Existence the Year Round, Therefore, unable to pay taxes; and as to the former Petition, that but very few of the proper settlers of this Township had any knowledge of it until after it was put in execution, and that the greater part of the Signers of said Petition are single men, some of which are no way likely to settle here, some not of Lawful Age, and some of their Names has never been known to have lived here; the Signing of said Petition having been carried on without the Consideration and Regulation of a Town Meeting.

The Petitioners beg leave to inform that they have not Receiv'd the order of Court untill the Seventh of May Instant.

The Petitioners beg leave to add that the foregoing is a True Representation, and humbly Relys on the Virtue of our Legislature, that they will consider our Inability & Post-

pone our Incorporation untill better fitted for it, and we as in Duty bound will ever pray —

Petition from the Town of Berwick.

Commonwealth of Massachusetts

To the Honourable House of Representatives now Sitting in
Boston

The memorial of the Selectmen of the town of Berwick in the County of York in behalf of said town Humbly Shews —

That this town from its being first Incorporated into a town which is more then sixty years has never neglected Choosing a Representative to Serve in the General Court in any one year untill the present: And Least it should be construed as a neglect of the town in not choosing one the present year — we think it our Duty to give a true Statement of the matter. The Selectmen of this town for the last year did not call the annual meeting for the choice of town officers to be held till the first Monday of Aprill, the day appointed by the Constitution for voting for a Govourner and Senators, It has been the usual practise of this town to Chuse five Selectmen and they to do the business of assessors, but at this meeting the town altered that mode and chose there Selectmen and three assessors; and after Choosing town officers the meeting was adjourned to the fourteenth day of May in

order to fill up any vacanceys that might happen in the town offices Declining Serving and Supposed it might be a proper time to have the meeting Called for the Choice of a Representatives, but two out of three that were Chosen Selectmen Declined Serving, one accepted and took the oath of alegiance agreable to the late Resolve of the General Court then a Doubt arose wither one having taken the oath did not so far Superceed the Last years Selectmen, as that they were not authorized to call and preside in the meeting; The one who had Quallified himself thought he was not authorized to Call Said meeting; On the adjournment of the meeting the vacances were filled up of persons not present, and before they were Quallified to act, it was too Late to Call a meeting for the Choice of a Representative agreable to the Constitution, and thus it is the misfortune of the Town to be without a Representative the present year which we Request having thus Stated the matter we flatter ourselves that no Imputation of Blame will fall upon the town or any Design in not Sending or in the officers

Wherefore we pray your Honours will not Amorce the town with any fine for chusing a Representative the present year

as in Duty Bound will ever pray

Petition of Alex^r Barr of Portland.

To the Hon^{ble} Senate and House of Representatives of the Commonwealth of Massachusetts

Robert Barr and Alexander Barr of Portland in the County of Cumberland Humbly Shews —

That by a Resolve of the Hon^{ble} Court passed the 16th day of November last past, there was granted to your petitioners the sum of two hundred pounds to enable them to compleat certain Machines for the spinning &c of wool, then making by orders of the General Court — That by one other Resolve passed the 2^d of May last the account of the expenditures of that sum was laid before the Court and allowed — That upon their return to said Portland viz upon the fourth day of May aforesaid they received a Due bill from the Treasurer General on John Waite Esq^r Sheriff of the County of Cumberland for the sum of one hundred and twenty one pounds 7/; which bill they presented to the said Sheriff on their arrival here, who informed your petitioners he was not able to pay the same. And your petitioners are unable to raise the money on said bill unless they dispose of the same at a very great discount; the sum arising therefrom should sell said bill scarcely will amount to the money they advanced while employed in working on said Machines, much less will it be equal to common wages, or in any degree answer the intentions of the General Court liberally to reward them for

“their ingenuity” — They therefore pray your Honours to take their case into your consideration, and to exchange said order from N° 2 to N° 5 or to act thereon as the Court in their wisdom & generosity may think expedient. And as in Duty bound will ever pray —

Petition Portland Convention.

To the Honourable Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled.

The Petition of the Inhabitants of the Towns and Plantations of the Counties of York, Cumberland, and Lincoln, by their Delegates, met in Convention, at Portland the thirty first day of January, 1787 humbly sheweth

That the Inhabitants of said Counties previous to the late Revolution, considered themselves a part of the Government of Massachusetts, and at the formation of the present Constitution they either approved of, or submitted to the same, and have cheerfully joyned in support of Government and have paid due obedience to the Laws thereof, and at the present time they feel, most sensibly, the difficulties in common to the various parts of the Commonwealth, and are ready to exert themselves to the utmost of their power to remove them by paying their taxes and supporting good order and the Laws of the Government; but when they take a View of the Political disadvantages they labour under, peculiar to their local situation, being separated from the other part of the Government by the intervention of another State, as well as their great distance from the seat of Government, they look upon it a duty they owe themselves and their brethren in the other part of the State, and to the United States in general, in a peaceful and dutiful manner, and agreeably to the Constitution, to lay them before the Honourable Court, and request that they would relinquish all right of jurisdiction over said Counties, and consent that they may be formed into a seperate Government, as they apprehend this the only adequate remedy to the difficulties complained of.

And while they are taking this peaceful measure to obtain a redress of their great political evils, by asking for a separation from the other part of the Commonwealth, they do not entertain an idea of throwing off the weight of the publick debt, at this time laying upon the Government at large, or to prevent the other part of the Commonwealth from having their just proportion of the unappropriated lands; but like friends and brethren most ardently wish to have all matters adjusted upon the broadest basis of equity and fair dealing. Therefore your Petitioners humbly pray that your Honours would take their circumstances into your Wise considera-

tion, and adopt such measures as you in your wisdom may think fit; and they, as in duty bound will ever pray.

Petition of Town of Machias.

To the Honble Senate and House of Representatives of the Commonwealth of Massachusetts

The Petition of the Town of Machias Humbly Sheweth

That the General Court in March 1786 Taxed all the settlements in the Eastern parts of this Commonwealth among which this Town was Taxed £301—the tax Act not coming into the hands of the Assessors 'till last fall and all communication being stoped between this place and Boston during the Course of the winter prevented our making application to the Hon^{ble} Court before,—we now beg leave to lay before your Honors a True & unexaggerated State of our situation and the difficultys & burthens we have & still Labour under

In the month of May 1763 about 12 men and two or three women came to Machias and began to Erect a double Saw Mill, and in the month of August the same year the remainder

of their familys came down. the next year a number of other familys having Joined them, they supposing themselves to be within the Jurisdiction of the Province of Nova Scotia applied there for a grant of a Township, but that Government supposing them not to be within there Limits refused making them a grant—in the year 1766 they having considerably increased in number made an application to the Government of Massachusetts but there being some Errors in their petition they faild, they repeatedly renewed their application untill the year 1770 when a grant passed the Legislature, but then the King's approbation was to be obtained before the grant was to be valid. during all this time and 'till the war commenced the people were in a state of uncertainty respecting their lands, therefore devoted the most of their time to Lumbering and had made but very little improvement upon there Lands when hostilities commenced, at which time they had not 3 Weeks provisions in the Township, and the very early and active part they took in the late contest rendered them very obnoxious to the british commandors, & they had reason to apprehend their Vengeance and for the first year all kind of business but war was dropd, the next year attempts were made for improveing our Lands but the frequent alarms upon our Coasts embaras'd the people, so, that but little progress was made, and in the month of August, one Brigg that was loaded in our River & bound to the West Indies and two sloops that were loaded and bound to Newberry, were all taken off the mouth of our harbour soon after they sail'd, by reason of which some people suffered greatly—In the fall of the same year M^r Edy came along from Boston, having obtained some provisions by the order of the Gen Court, tho' not clothed with any authority by them, yet he proposed to carry on an expedition against Cumberland in Nova Scotia, and the Inhabitants of Machias full of Zeal to support the common cause immediately engaged with Edy and set out for

Cumberland, but were finally defeated after the severe season had set in, and had to make a retreat thro' the wilderness upwards of 300 miles thro' the snow, the next year an expedition was formed under the Authority of our Government against Nova Scotia and to enter that Province by the way of Cumberland the General Rendevouz to be at Machias, this the enemy got intelligence of and before any considerable number of the Troops or any cannon arrived here, a small squadron consisting of one Ship of 44 Guns three frigates and an Armed Brigg entered our harbour with a full determination to destroy us, but by the goodness of Devine Providence and the vegerous exertions of the people, they were repulsed with great loss on their part, and upon our side of one man killd, one wounded two dwelling houses two barns & one Mill burt—they afterwards collected in force at the mouth of the River S^t Johns, and we had frequent alarms and information, that they were determined to make another attack upon us, so that all the peoples time and attention was taken up in making the necessary preparations of defence, 'till the season closed when we were informed the enemy had retired into winter quarters,—In the year 1778 we had some little Tranquility and considerable exertions were made for improveing our lands but in the year 1779 we were again thrown into the greatest distress by the Enemys establishing a post at Bagwaduce, we then expected nothing but subjugation & people had no heart to do any thing — after our Troops arived & beseiged the enemy. Gen^l Lovell found a reinforcement was necessary & sent an order for one half of the Melitia to Join him, the draught was immediately made and set out with Colo Allan, and had got as far a Deer Island when they received intelligence that the seige was raised, the people then returned home again but were under constant apprehensions of being subjugated, the British commanders having Issued Proclamations denounceing Vengence against all those that

did not come in a short time and submit to the british Government and take the oath of Allegiance, many persons to the Westward of us were so discouraged as to propose to fall in with the british so far as to become Neuter and had petitions drawn for that purpose & sent to this Town to Join in the measure, but we refusing and the steps we took prevented those who were in favour of it from falling in, whereby the whole Country Eastward of Bagaduce was preserved—the people of this Town were now allmost reduced to a State of disparation, but still determined never to Submit untill reduced by superior force—altho all communication with the Metropolis and all other parts of the State from whence we had any hope of relief seemed to be cut off, frequent alarms now took place thro' this and the ensuing year, and whilst the war lasted the people were called out for to erect fortifications and keep guard—great pains was taken by the enemy to bring the Indians upon us and in the Fall of the year 1779 the noted Major Rogers was actually sent thro' by the way of S^t Johns to Canada to bring a body of Indians against us early in the spring and they came part of the way as we was afterwards informed untill the Indians belonging to S^t Johns River met them and persuaded them to return by telling them that the French and we were brethern, and to fight against us would be to fight against there father the French King—but as we had early intellegence of the business that Rogers was upon we realy expected him and was at the expence of keeping Scouts up the Rivers to discover the enemy if they approached—Several Vessels that were bound here with supplyes were taken and one that was loaded with fish furs and other valuable articles & owned in this place was taken on her passage to Boston, and others that had property on board belonging to the inhabitants were taken—the numerous alarms and the want of provisions very much impeded the improvement of the lands the remaining years of

the war and kept the people in a very naked situation. when the peace took place in 1783 and goods could be purchased for Lumber they were under the necessity of obtaining considerable credit in order to carry on their business & Cloath there familys — their Mills during the war went to decay and were rotted down, but Lumber being now in great demand & commanding a great price they were Excited to rebuild there Mills but were at a very great expence in doing it, as labour of all kinds was Exceeding high, had Just got under way and a prospect of discharging the demands against them, when the Navagation Act was passed, which immediately reduced the price of Lumber down from Eight to four Dollars per Thousand and is now a Drugg at three Dollars — thus were the people involved in the Utmost distress for most of them were in debt at the Commencement of the War and during the Contest had no means of Discharging it, even with paper Money, which they woud not even have wished to have done had it been in their power, and to their old debts they have been under the Necessity (as aforementioned) of ading a very considerable new Debt, and the Navigation Act was followed by two exceeding dry seasons Especially the last, when the drouth set in very severe in July the Mills were soon stoped for want of water & continued so the remaining part of the season and winter set in very early without rain, the Crops of Potatoes cut prodigiously short & no credit to be obtained so that the Inhabitants were reduced to greater streights the winter past then during any part of the War — They have also been at a great expence in running out their Township, laying out the lotts Setling a Minister & supporting him for fifteen years, building & providing places for public worship making Roads and many other heavy expeces which arise in bringing forward the Settlement of a new Township — as an almost total stop was put to all business during the war the Inhabitants in General were unable to pay their Minister

yearly, which obliged him to run in debt for the support of his family, and when peace took place there was nearly nine hundred pounds to be raised to pay his back Salery to enable him to discharge his debts which comes very heavy on the people add to this his Salery since the peace—£80 a year for public School, £250 year we have raised to make & repair Roads & high ways & £200 for repairing our meeting houses the present year with the other expences of the Town make it almost impossible to pay any State Taxes at present— And our great desire to support the Laws, renders it necessary for us to make still further applica- which is for a County to be erected in this district which if granted must be attended with considerable expences—but the Necessity of it makes us Anxious for the accomplishment of it, there is many strong & Cogent reasons for a Countys being established in this district, in perticular for the punishment of crimes against the Public, which altho' they are not numerous, yet there is some & amongst others those of Fornication and Bastardy, also for granting licences to persons as Inholders and retailers of Speritous liquors, for no person will be at the expence & fatigue of Traveling Two hundred miles & upwards thro' a Wilderness & exceeding bad roads & when they come there must seek friends to be Bondmen for them which perhaps as they are strangers it woud be impossible for them to obtain, and the consequence will be there will not be any licenced persons in this part of the County, liquors will be sold in a clandestine manner & if one sells another may and the matter will be so general that no person can be informed against or punished and individuals may thereby be very much injured by too free a use of Sprituious Liquors—a County road is also exceedingly wanted, which will not be obtained untill a County is Established here in short the reasons as before observed are too numerous to be mentioned—In the first years of the War the Gen^l Court found it

necessary to grant the Settlements on the Eastern shore considerable sums of Money to purchase provisions for the Inhabitants — this place received with the others and have paid the whole since the peace took place which amounted to near £1200 which we believe is the only place Eastward of Penobscott that has repaid Government any part of the Moneys received — neether has the other settlements been at the expence of supporting a minister, building meeting houses, raising Money for highways & Public Schools, which has been such a burthen on this place — we are informed that Honble Court have been pleased to ease Several of the plantations Eastward of Union River of their Taxes in consideration of their inability to pay and it is a fact that this place for the reason before mentioned is the least able to pay of any place in the Eastern parts of this Commonwealth — At the time we petitioned to be incorporated, several of the Members of the General Court informed us that it woud not be the means of bringing on Taxation any sooner, as they supposed it woud be unreasonable to Tax us any sooner then the other places adjacent which were more able to pay, only because we wished to be incorporated to come into better regulations among ourselves — We dont wish to flinch from the Public burden but whenever we are able to pay any thing towards it we will do it with cheerfullness — but from the many difficultys we Leaboured under during the war, our embarressed situation at the time & since the Peace took place the large sums we have been obliged to raise for the support of our Minister & other purposes, the punctual manner in which we have repaid Government the Money borrowed, togeather with our inability at present We humbly pray the Hon^{ble} Court to be pleased to take our distressd situation in to their wise consideration & grant us relief by Remiting our state Tax, and as in duty bound we will ever pray

To the Honorable Senate & the Honorable House of Representatives in General Court Assembled 30th of May A D 1787

The Memorial of James Gillmore & others Humbly Sheweth,
That your Memorialists preferred a petition to the General Court in February Last Setting forth that in an early stage of the Late war, Relying upon the faith of Government, they Lent their money for its use, but have Received no Interest for years on most of their notes, & praying for relief, said petition was presented so late in the session that nothing was done upon it, Your Memorialists further shew that the present Mode of Discharging Interest on Government Securities by the Treasurers Giving orders for one half to be paid by the Collectors of Excise, & the other half by Constables who are in arrears for Taxes payable before the year 1784, Especially orders upon the Latter, Can be of Little or no service to your Memorialists, who live at a Considerable Distance from the Constables in that predicament, besides those orders have long since become the Traffic of Speculators,) & perhaps have increased their Number | and are sold at a Discount, too painfull to mention, by those who have a Tender

feeling for the Credit of Government,—we think hard to pay our own Taxes, & half or two thirds of the Taxes of some of our fellow Citizens, who are of Equal ability with our selves, & who by Delay of payment avail themselves of those orders at their present Discount, But we trust that your Honors love for justice, will Induce you to take measures for the removal of these Temptations, & that Equity may take place between fellow Citizens as nearly as Circumstances will admit, your Memorialists therefore pray that your Honors would take this memorial & the petition refered to, into your wise Consideration, & order one years Interest to be paid on Each of their Notes, out of the specie part of Tax N° 5 Granted March 1786, by orders on the Constables of the Towns to which the petitioners belong, & which will Enable them to pay up their Tax for that year, & will be applying The money for the purpose for which a Large Sum of it was appropriated by Law, or relieve your memorialist in such way as to your Honors May seem meet, and as in Duty Bound Shall ever pray,

Re: Three Eastern Counties.

An Address,

Of a Convention held at Portland on Wednesday the 5th day of September, 1787, by adjournment—to consider of

the expediency of the Three Counties of York, Cumberland, and Lincoln being formed into a Separate Government—to the Inhabitants of said Counties—

Friends and Brethren,

The publick good is an object of the greatest importance to every society; and deserves the attention of the society in general, and of the members who compose it in particular. For upon the general weal depends the interest and happiness of every individual. Upon this principle have a Convention of the Three Eastern Counties proceeded, from time to time; and have written to, and addressed you accordingly.

Last January the Convention put into the hands of a Committee a petition to the General Court, praying for their consent that a separate government might be erected, including the three counties of York, Cumberland, and Lincoln. This they did upon the principle of such a separation's being consistent with the good of the Commonwealth at large, and highly beneficial to said counties. This petition now lays before the General Court (who are the political fathers of us all;) but they have not sufficient knowledge of the minds of the people, to proceed thereon. The Convention therefore, solicitous for the general good of the whole Commonwealth, and of these Counties in particular, wish to furnish them with all the evidence necessary upon such an occasion. They therefore recommend, that the inhabitants of the several towns and plantations in said Counties, would freely give their voices, by subscribing the following, yea or nay.

*Nay. Blank, Yea. Stephen Hinkley, Jeremiah Hall, Daniel Stevens, Simon Dearborn Jun^r Benjamin Wade, Peter Clark, Nathan Sweetland, Benjamin Wallker, Rufus Bent, Benjⁿ White, John Montgomery, Jabez Gold, Samuel Bulbin, Jason Livermore, Solomon Con[] Jotham Smith, Joseph Fletcher, John Beeman, Edmund Dana,

* See House Documents numbers 2712, 13 and 14, for different names.

Thomas Sewall, Isac Harden Jun', Nath^l Hinkley, Moses Sewall, Ezekiel Chase, William Stone, Noah Woodward, Samuel Coney, Daniel Chace, Sam^l S. Gilman

A Subscription for collecting the general voice of the Inhabitants of the Counties of York, Cumberland, and Lincoln — whether they wish to be formed into a Separate Government, or not. Those who for a separation will subscribe their names under the word yea; and those who are against it, under the word nay. Those towns and plantations who choose, are desired to take the sense of their inhabitants, at a meeting called for that purpose, whether the subscription shall be forwarded to Court or not.

And it is hereby recommended and desired, that the above subscriptions may be returned, by the second Wednesday of November next, to Stephen Hall, Esq. of Portland, Jacob Bradbury, Esq. of Buxton, Capt. James Carr, of Hallowell, or to either of them, as may be most convenient, being a Committee appointed to receive and forward the same to the General Court, whether the voice of the town or plantation be had thereon or not.

By order of the Convention.

William Gorham President,
Stephen Longfellow, jun. Clerk.

Petition Inhabitants of Waldoborough.

Commonwealth of Massachusetts

To the Hon^{ble} the Senate and the Hon^{ble} the House of Representatives in General Court assembled

The Petition of the Subscribers english Inhabitants of the Town of Waldoborough in the County of Lincoln — Humbly sheweth ;

That, a great Majority of the present Inhabitants of said Waldoborough are native Germans or their immediate Descendants who still retain & cultivate the german Language

That, for several years past they have supported a public Teacher of Religion in their own Language by a Town Tax annually granted in which the English Inhabitants are equally assessed with the Germans tho' they cannot participate with them in the Benefit.

That, Your Petitioners now have in Contemplation the Building a Meeting-House & procuring a Minister—but, That, their being obliged to be Assessed with the Germans in every Town Tax for the Support of the Gospel and having no legal power to raise monies for the Benefit of their own Society are Obstacles in the Way of effecting said important Objects :

Therefore your Petitioners pray your Honors to take their present Situation as a religious Society into your wise and good Consideration and to make an Act Incorporating the English Inhabitants in the 'Town of Waldoborough into a Parish distinct and separate from the Town & invested with powers & priveleges adequate to the support of the public Institutions of Religion

And Your Petitioners as in Duty Bound shall ever pray &c

Parsonfield Petition.

To the Honb^{le} Senate & house of representatives in General
court Assembled Boston Octob^r 1787

The Petition of the Inhabitants of the Town of Parsons-
field by their Committee Humbly Shew

That the Petition handed to your Hon^{rs} Setting fourth that
the Inhabitants of Parsonsfield, conceived — that the Propor-
tion of Taxes, charged to the Town of Parsonsfield, was more
than Ea^q^l to other Towns, that the Inventory Annexed was
Taken by persons wholly unacquainted in Such matters, and
not makeing a proper Allowance for Lands that are partly
seeded with grass & greatly Incumbered with Loggs &
Stumps, have thereby Exposed your Petitioners to great In-
jury by greatly enlarging the quantity of mowing Tillage &
Pasture Lands as appears by an Inventory thereof Taken by
persons under Oath hereto Annexed your Petitioners Humbly

Shew that the produce of their improved Lands are insufficient to supply the inhabitants with provisions y^r Petitioners Humbly conceive that if your Honors were sensible of the Extraordinary Expence that attends the Cultivation of Lands that are of such a quality as to require plowing and Tilling with great Expence of Labour & afford so small a crop as is by no means Ea^ql to the Expence, your Hon^{rs} would readily conceive that your Petitioners ware over Taxed your Petitioners Humbly Conceive that Valuing Parsonfield Lands Equal in quality to Limerick Lands would not be approved of by your Hon^{rs} if the Difference in the quality was known to y^r Hon^{rs}

The Lands in Limerick were taken up by the proprietors without being confined to any Certain boundaries Inclosed about thirteen Thousand Acres of the Best Land they could find in a compact Body but your Petitioners being confined to certain Boundaries Inclosed a Large quantity of mountainous and Unimproveable Lands, one ridg of Mountains Extends almost the wedth of the Town Near the middle which contains four ranges of Lots near one third part of the Town and are So Broken that but Very few Lots are or Can be Improved for farms and that the whole Town Contains but Sixty Lots that men of Judgment in Lands would Spend Labour and Cost to Improve for Farms that the Taxes upon the Unimprovable Lands can Neither be Collected from the owner nor obtained by the Sale of Such Lands

Y^r Petition^{rs} are apprehensive that an Error was Committed by the Hon^{bl} Committee appointed to Ascertain the Value of Parsonsfield of Two Hund^d & fifty pounds in the mowing & Tillage Lands and Humbly pray that your Hon^{rs} would make such an Abatement of y^e Sum Charged to your Petitioners as will be Ea^ql with other Towns and they as in Duty Bound will Ever pray

Commonwealth of Massachusetts

To the Hon^{ble} Senate and house of Representatives in General Court Assembled —

The petition of Joshua Bealls — humbly Sheweth that your petitioner being a Collector of taxes in the town of Windsor for the years of Eighty two and Eighty three, and had Committed in to my hands Town County and State taxes against Cap^t Nathan Harwood to the amount of near thirty pounds and the said Harwood refusing and Neglecting to pay the same, or turning out or shewing property whereon to Levy my warrant your Petitioner applied to the Assessors for a warrant of Commitment and attached the body of the said

Harwood — and then the said Harwood proposing to settle the same by paying part and the remainder as soon as possible — and he challanging the Legality of our Town Meetings saying that the Assessors had no right to grant a Commitment — and Your petitioner taking advice of the Selectmen and other principle Inhabitents was advised to let him go for the present, untill our Illegal Meetings could be ratified by the General Court — (which has since been done) and now the said Harwood being set at liberty still refuses to pay said taxes under protence that my taking his body and setting him at liberty again, has in the Eyes of the Law Discharged him from the whole of said taxes —

Therefore your petitioner humbly prays that as your petitioner has Set the said Harwood at liberty, partly on said Harwoods promise to pay the whole of said tax, and partly on the advice of the Assessors and Selectmen they fearing that the said Harwood might get some advantage by reason of our Town Meetings being illegal — that your Honours Would pass some Resolve inabling your Petitioner to Collect the whole of the taxes that are Justly due from said Harwood — in the same manner as your petitioner had a right to do by law had he never taken his body and as in duty bound Will ever pray

The Petition of Ezekiel Pattee in behalf of the Town of Winslow in the County of Lincoln —

Humbly sheweth

That by a Resolve of the General Court of the 10th of November 1786 the Plantations of Hancock & Canaan were discharged from paying to the said Town of Winslow the several Taxes that were assessed on them by the same Town: and by the same Resolve the Treasurer of the Commonwealth was directed to credit the said Town of Winslow with the amount of the Taxes assessed as aforesaid notwithstanding which, an Execution has issued against the said Town for the full of the said Taxes amounting to the Sum of £424.. 19.. 5 although that sum has been assessed and collected by the said Plantations and by them applied to the purposes directed by the said Resolve. Your Petitioner therefore humbly prays that the Treasurer of the Commonwealth be directed to recall the said Execution & Your Petitioner will ever pray —

Ezekiel Pattee

This certifies that about the middle of October last I was in the Plantations of Hancock and Canaan, where I saw the People of said Plantations busily employed in working upon the highways, and they informed me that they were then at work pursuant to a certain Resolve of the General Court, which permitted them to work out on the highways certain taxes that were assessed upon them by the Town of Winslow — they likewise informed me that they had almost compleated the business and from the improvements I discovered upon the Roads, I supposed and do still suppose the said information to be true

Protest of Henry Knox.

The protest of Henry Knox Esq^r agent on the Estate of the late Thomas Fleecker Esq^r appointed by this Commonwealth & representative of the heirs of the late Hannah

Fleecker deceased, of Samuel & Isaac Winslow (the younger) devisees of the late Francis Waldo Esq^r and of Isaac Winslow Executor of the last will of Isaac Winslow Esq^r decess'd representing the said heirs of said Isaac—Sets forth That for the purpose of ascertaining the bounds of the patent granted to Beauchamp & Leverett with the Commonwealth the aforesaid protesting persons (representing in their several capacities all the heirs of the late Brigadier General Waldo interested in the patent) did enter into a covenant with the Commonwealth the first of Novem^r 1785, under a heavy penalty in which covenant, it was expressly stipulated; that there should be confirm'd to the heirs of the late Brigadier Waldo & others interested in the patent granted to Beauchamp & Leverett a tract of Land equal to Thirty miles Square, they relinquishing all title to any other lands claim'd under the said patent than the said thirty miles Square; as by reference to the resolve of the hon^o court on which this agreement was founded will fully appear—That the ground of said resolve Viz that an agreement entered into in 1762 by the then province and proprietors to grant them six miles in length on penobscot river at the head of the patent in consideration of their relinquishing all title to lands to the eastward of said river was not compleated—is a wrong position and the persons herein protesting are in fact in possession of the said grant fully executed—yet notwithstanding the parties hereby protesting were willing to have accepted a tract of thirty miles square and did join in the expence of running the lines by the persons appointed by the Commonwealth, which lines by an error in the Survey do not contain the quantity stipulated of thirty miles square (by 39,088 acres) meant to be confirm'd to the proprietors—and if submitted to, will subject the persons hereby protesting, to the claim of a certain body of men interested in the patent known by the name of the Ten proprietors and who being indemnified

by the heirs of Brig^a Waldo as aforesaid, acceded to the agreement proposed by the hon^o Court, which said body had their lands located in the patent and at the head of it where by the grant of 1762, they had a right to be placed — The persons making this protest having humbly petitioned to have the deficiency of the thirty miles square made up to them at the head of the patent have had the report of the Committee in their favor rejected by the hon^{le} the Senate which they the protesters humbly conceive to be an infraction of the agreement of Novem^r 1st 1785. and therefore are constrain'd to assert their legal right to the possession of the lands whereon the ten proprietors are located and which they are rightfully in possession of, the same being survey'd & set off to them in 1773 as by the plan hereto annex'd will appear — and therefore make this public Protest & cause it to be delivered — to the Committee of the hon^o Court for Eastern lands to the end that all persons may be warn'd against purchasing and entering upon the lands so claimed & possess'd by the ten proprietors as the protesting persons are determin'd to defend them in this their legal possession in all the ways wherein property is guarded and defended in peaceable communities

Report of Committee on Roads and Action thereon.

The Committee appointed to consider what Measures are necessary to be taken to expidite the Sale & settlement of un-

appropriated lands in the Counties of York, Cumberland, and Lincoln taking into consideration the extent of territory the great difficulties for a want of Communication through the same in exploring the soil together with many other important considerations, are Clearly of opinion that it would Greatly facillitate the Sale of those lands to have a road opened from the line of New Hampshire to Passemaquady Bay and also a Road from Penobscott river to Kennebeck river and for that purpose ask leave to report the following Resolves —

Commonwealth of Massachusetts

In the House of Representatives Novem^r 1787

Resolved that there be Committees to survey, mark out and open a waggon road from Kenebec river near Fort Western, easterly to Penobscot river about one mile above the head of Orfan Island, thence easterly through part of N° one N° two & N° seven of the first division of Townships east of Penobscot river to the west Line of N° eight of the middle divisions of Townships three miles north of the south west Corner of the same thence east through the middle as near as may be of Townships N° eight nine ten eleven twelve & thirteen of the said middle division thence Easterly through number twenty three of the East division of Town ships thence through the northerly part of Machias to township N° thirteen thence easterly thro the same & part of township N° nine to the falls on Deneys River, thence as near as may be thro' the middle of townships N° two and one, to Passamaquoddy Bay, then to begin at the aforesaid Kennebec river near said Fort Western, and to run North Westerly thro' the plantation of Washington to Sandy river — thence westerly as near as may be on a line marked for a road by Dummer Sewal and others in the year 1782, to the boundary line between this Commonwealth and the State of New Hampshire

also another road from Penobscott river to Kenebec river, beginning at the mouth of Sowadabscock Stream from thence running west as near as may be thro' the middle of the first range of townships north of Waldo's patent to the river Sabasticook, from thence to Fort Halifax on Kenebeck river

And be it further Resolved that the whole expence, arising by surveying and clearing said roads; be defrayed & paid by the unappropriated Lands within the limits of that division where the same shall be, provided however, that the whole Charge shall in no case, exceed one Mile in Depth on one side of said Roads —

and it is further Resolved that the Committee who are or may be appointed in the Countyes of York Cumberland & Lincoln for the sale of unapropriated Lands, be & they are hereby authorized & impowered to Servey & open the Roads in their Respective districts Agreeably to the foregoing Resolve.

Resolve — Unlocated lands.

Commonwealth of Massachusetts

In the House of Representatives Nov^r 21st 1787

Whereas it is of great importance to this Commonwealth that the Sale & Settlement of the unlocated Lands in the Counties of York, Cumberland and Lincoln should be expedited & encouraged, as thereby the public Debt may be lessened and the means of discharging it encreased by an encrease of the population & Wealth of these Counties —

Resolved, that the Committee hereafter to be appointed for the sale of public lands in the Counties aforesiad are hereby directed to compleat a plan or plans as soon as may be of all the located Lands in the Counties of York, Cumberland & Lincoln agreeably to said Resolve and under the direction

of the said Committee the said Surveyor shall as far as practicable mark out the unlocated Lands, in the aforesaid Counties, into Townships or platts of six Miles Square—which Townships or platts shall be subdivided into lots of one mile Square

Resolved, that there be reserved in each Township four Lots of three hundred & twenty Acres each for public Uses Viz^t one for the first settled Minister, one for the Use of the Ministry, One for the Use of Schools & one for the Use of public Education in general—

Resolved that there be & hereby is appropriated to the building of a public Seminary of Learning upon such Conditions as the Legislature may hereafter direct, a Tract of Land of Six Miles Square, to be laid out Northerly of Waldo's Patent & as nearly central between the two Rivers Kennebec & Penobscot as a good Tract for the purpose may be found—

Resolved, that any of the Land belonging to this Commonwealth in the Counties aforesaid may be sold to any Foreigner or Foreigners who shall contract to settle thereon, within three years from the purchase, one Family to each Mile Square of Land—and Twelve Months residence if any Foreigner on said Land shall entitle him to all the privileges of a Natural born Subject of this Commonwealth, on his taking the Oath of Allegiance thereto—any Laws or Resolves to the contrary notwithstanding—

Resolved, that each Settler, who settled on any Land belonging to this Commonwealth, before the first Day of January, 1784—and shall pay the Committee aforesaid for the Use of this Commonwealth, five Spanish Milled Dollars, shall receive from them a Certificate of the payment thereof, which, shall entitle such settler, his Heirs or Assigns, to One Hundred Acres of Land, to be laid out, so as to include his Improvements & least detriment the adjoining land—

Resolved that with such as the honble Senate may join be a Committee for the sale of the lands in the Counties aforesaid — any two of whom may make sale of the Lands & execute Deeds thereof — & that they be allowed Two p^r Cent Commissions on the Sales for their Trouble

Resolved that the Committee aforesaid be & they are hereby authorized to sell the Lands in such a manner & to appoint such Agents under them for that purpose in the several Counties — as may be most for the Interest of the Commonwealth provided that none of said Lands be sold for less than two shillings p^r acre in the Consolidated Notes of this Commonwealth, if sold in Townships or Tracts of Six Miles Square, nor less than three shillings p^r acre if sold in smaller Tracts

Re: Petition of Sam^l M^cCobb.

The Commonwealth of Massachusetts

In the House of Representatives Nov^r 19th 1787

On the Petition of Samuel M^cCobb praying for a rehearing in a certain cause in which the said Samuel was Plaintiff and one John Rogers was Defend^t

Resolved that the said Samuel M^cCobb notify the said Rogers by leaving at his dwelling House an attested Copy of the said Petition and this order thereon thirty days at least before the third Wednesday of the next sitting of the General Court in order that he the said Rogers may then appear and shew cause if any he has, why the prayer of the said Petition should not be granted and that No Execution consequent upon the judgment recovered by the said Rogers against the petitioner be issued, and if any such execution has already issued upon the said judgment that the same be stayed

Petition of Samuel M^cCobb.

Commonwealth of Massachusetts

To the Honourable Senate and House of Representatives of
said Commonwealth in General Court assembled —

The Petition of Samuel M^cCobb, Humbly sheweth,

That your Petitioner commenced against one John Rogers an action upon his account tryable at a Court of Common pleas, holden at Pownalborough in the County of Lincoln on the last Tuesday of September 1786 — That the said Rogers filed in his account against the Plaintiffs demand, & after sundry continuances the cause was referred to three Persons, before whom the Parties had a hearing in August last but by improper evidence fraudulently & correctly admitted by the Refferrees they adjudged the Ptt to pay the Defendant a considerable sum of money, which is not due to him upon any principal of equity or justice: Your Petitioner therefore prays your Honors relief in the matter and that the report of the Refferrees may be set aside and your Petitioner may be indulged with a new tryal. and Your Petitioner will ever pray &c

Sam^l M^cCobb

Certificate of Wm. Lithgow.

This may certify that I well remember that Samuel M^cCobb Esq^r brought an action against one John Rogers at the Court of Common Pleas in the County of Lincoln, in the year 1786 — that Rogers filed in an Account by way of balance to the Plaintiffs demand — that the cause which was referred to three Persons came to a hearing last August, when it appeared that part of the said Roger's demand was

for a quantity of boards which the said M^cCobb had received & purchased of other Persons and the demand for the same board after the action was commenced, was transferred by the creditors of M^r M^cCobb to the said Rogers and as M^cCobb suggests by the influence and collusion of one of the Refferrees — that M^cCobb objected to the admission of that part of the defendents demand before the Refferrees but they over-ruled the objection & admitted the demand — that M^cCobb supposes this conduct was fraudulent and partial on the part of the Refferrees as he says he carefully proved that previous to the said hearing one of the Refferrees asserted that he the said M^cCobb would certainly loose the cause and ought to loose it — that the said Refferrees reported that M^cCobb should pay Rogers a sum of money which including the costs amounted (I think) to about £15 .. & that the said report has been accepted & judgment rendered thereon

Land Lottery Bill.

Commonwealth of Massachusetts

In the Year of our Lord, One thousand seven hundred & eighty seven

An Act — in Addition to an Act entitled “an Act to bring into the public Treasury, The Sum of One hundred & Sixty three thousand & two hundred pounds in public Securities by a Sale of a part of the Eastern Lands & to establish a Lottery for that purpose

Whereas on the drawing of the said Lottery, there remained two Thousand two hundred & eighty three Tickets unsold, which became the property of this Commonwealth and

the Sale of which, if continued, there is reason to believe will be greater than has hitherto been made, as the present State of the Lottery is more favourable to Adventurers, than at the first establishing thereof, & whereas it will be for the Interest of the Commonwealth & of those who have already been adventurous to continue the Sale

Be it enacted by the Senate & House of Representatives in General Court assembled & by the Authority of the same — That the Secretary deliver to the Managers the Tickets lodged with him — & that they continue the sale thereof agreeably to the Act to which this is an Addition, until the third Wednesday in October next, when they shall commence drawing the Tickets which may be sold & those which may then remain unsold — they shall previous to the drawing deposit in the Treasurers Office with a list of their Numbers respectively —

And to encourage the Sale of the Tickets & settlement of the Land

Be it enacted by the Authority aforesaid, That, if any Adventurer shall draw Prizes in different Townships, he shall have leave to exchange a part of the Lots he may draw for others, so as that the Quantity drawn may lay together — & those who have already drawn Lots & may hereafter become adventurers, shall have leave to exchange the Lots they may draw for others adjoining to those they have already drawn, provided the said Lots shall not be drawn by other Adventurers but remain the property of this Commonwealth — & they shall apply to make the Exchange within three months from the drawing of the Lottery

Petition of Penobscot

Commonwealth Massachusetts

The Honorable the Senate and House of Representatives in
General Court Assembled —

The Memorial and Petition of us the Subscribers Inhabitants Setlers on a Plantation Called and Known by the name of New Worcester in the County of Lincoln Humbly Sheweth

That your Memorialists being settled on that Tract of Land Which Was Sold and Deeded by Government to Moses Knap Esq^r and his associates and by that Means Brought into Grate Difficulty ; beg your Honours Indulgence Whilst we enter into the Merits of it. We Would Remind your Honours that we are Sensible of our Neglect in Not Makeing application for the Lands before it was sold. We Would Remind your Honours that the Lands Whereon We are Settled Were not advertised Among us that we Never had Notes that the Lands were Notified for sail untill they ware sold we Cannot Conceive, we Are allone to blame ; the Lands aught to have been Notified among us which Was not Done Which we also Conceive A Neglect —

We would Remind your Honours that your Petitioners have been at Grate Expençe in sending agents to Setle in our behalf (Viz) John Brewer & Simeon Fowler) to Contract and setle With your Honours Committee on the subject of unappropriated Lands in s^d County and s^d Brewer and Fowler Ware under the Necessity of Comeing into an agreement with Moses Knap Esq^r and his associates Bareing Date 22^d of March 1786 and also by a Resolve of the General Court Bareing Date 23 of March 1786 wherein s^d Brewer & Fowler in Behalf of them Selves and your Petitioner ware oblige to Give their security to the Treasurer of this Commonwealth for the Payment of £3000 in the Consolodated Notes of this Government to obtain the Lands whareon your Petitioners ware settled Which was the best Terms Could be obtained at that Time.

We Would further Remind your Honours we have Seen and Considered the Deed Given by your Honours Committee to s^d Brewer & Fowler in Consequence of that Resolve Wherein we are oblige to Pay So Large a Sum for our Land.

With great Difference we Look upon it that we are oblige to Pay So Large a Sum as one Thousand Pounds in specie

when at the Same time other Setlers Where Settlements have been made under the Proprietors:

(Viz) Jonathan Eddy Esq^r BucksTown N^o 2 and N^o 3 Now Penobscot; are oblig to Pay but thirty Shillings Specie for Eich Hundred acres — Where Seperate Improvements have been made; and your Petitioners are oblige by s^d Deed to Pay; sum five Pounds; in specie and others fourteen Pounds thirteen shillings & six Pence for Eich Hundred Acres he shall Hold

We Would Remind your Honours that we are all Poor and hard Put to it for a subsistence for our famileys by Reason of the Newness of the Country and the Scarcity of Money that If we are oblige to Pay for our Lands according to the Deed our families Must Come to Want and the Settlement be brooken up.

Therefore your Petitioners Humbly Pray your Honours Would take This our Verry Great Grievance into your Wise Consideration and Grant us Releaf by Relinquishing So much of the obligation Given by our Agents to the Treasurer of this Commonwealth as will set us on a footing With Setlers of the Townships before Mentioned and your Petitioners as in Dutie Bound Will Ever Pray

Bound^s of the Town of New Gloucester.

Pursuant to a Resolve of the General Court passed November twentieth one thousand seven hundred and eighty seven we herein Exhibit the Boundaries of the Town of New Gloucester as the same were fixed upon by a Committee of the General Court in November, one thousand seven hundred and sixty two, and as the same were again Confirmed by the Incorporation of the Town on the eighth day of March, one thousand seven hundred and seventy four, which is as follows viz Beginning at a Stake and heap of stones in North Yarmouth back line (seven miles and twenty six rods from the most westerly corner of North Yarmouth) in the most easterly corner of the plantation formerly called new Boston, now called Gray, and from thence upon Northyarmouth back line Northeast to the extent of it, and the same course continued beyond it untill the measure of four miles & a half and thirty eight rods in the whole is compleated, to a Beach tree marked the course North thirty three Degrees and forty five minutes West, with an heap of Stones about it, Also from said Stake and heap of stones North forty five degrees west seven miles and a half (by the nedle) thence North forty five degrees East by the needle untill a line North thirty three

degrees and forty five minutes West from the aforesaid Beach-tree intersects it.

We would Inform that the before mentioned Committee, Did not actually run the hed line from the Westerly Corner & therefore the northerly corner was not made by them, but it was run about three years ago by order of the Courts Committee for the sale of lands in the County of Cumberland—who ordered it to be run paralel with the foot line which is found by the variation of the Compass to be Noth forty three drees East in stead of Notheast & the line was run Accordingly & the northerly Corner made to their & our satisfaction. And M^r Titcomb who is serveyer for the Courts Committee for the sale of Eastern—ran & measured upon the same line and allowed it to be right last fall. But M^r Allexander Shepherd jun^r is striving to bring his Grant as low down as he can and therefore is aiming to have the said head line run Notheast by the needle without making the two degrees allowance for the variation which will cut us short in our measure, and which we shall dispute as we judge we have a right to the same course at the hed for Notheast that we are obliged to take at the foot.

We have not heard any Dispute about the Bounds of the Town since the year 1762 only relating to the running of the aforesaid hed line.—

Canaan Petition for Abatement of Taxes.

To the Senate & House of Representatives in General Court assembled

The petition of the Inhabitants of Canaan Plantation—
Humbly Sheweth

That your petitioners have often represented to this honourable Court their poverty & utter inability to pay the various tax bills the Court has sent them, & have as often prayed for a release from them and exemption from future taxes, till we Shall be able to pay. We have also as often laid before this Court a large Statement of facts which demonstrate our inability to pay, which we are sure were there a Committee from the Court on the Spot, the could not but be convinced of the truth of. But being loth to take up the time of the Court with a repetition of those facts, we have put a Statement of them into the hand of our agent to exhibit, if the Court will indulge him therein. We have rested our whole plea for a discharge from taxes hitherto, on our inability, wishing rather to act as Suppliants than to plead the bill of rights. We wish to rest the matter Still on the same principle, and earnestly Sollicit Compassion, as the demanding said taxes, would utterly brake up this plantation.

That in 1783 executions were issued against us, but on application to the Court, they were Stayed — that in 1785 they were issued again for the same bill on a general order of the Court; but were again recalled, as being issued beside the intention of the Court — that in 1787, they were again, by a like general resolve, issued, & were served on us a few weeks ago, & we put to great Charge & Costs; & we Suppose by a like error,

We therefore pray this hon^{ble} Court to Compassionate our case, & grant us a final discharge from the former bills sent us, & an exemption from future taxes till we Shall be able to

pay, or at least make large abatements in them, & order the remainder to be laid out in making & mending the roads & bridges in this place, & other necessary publick charges.

And your petitioner as in duty bound Shall ever pray

Petition of Plantation of Norridgwalk.

To the Honourable Senate and house of Representatives In General Court Assembled

The Petition of the Plantation of Norridgwalk Humbly Sheweth that whereas the Honoured Court we believe through

Miss information or for want of acquaintance with your Petitioners low Circumstances have Sent Several Tax-bills to this Plantation — which if the H^d Court fully understood your Petitioners poverty and the Disadvantages they labour under, in lue of Calling for taxes the Court would view their Petitioners with an Eye of grief and pitty as Misfortanate orphans.

Fatal Necessaty not Cureosity Brought the greatest part of the Inhabitants into this Cold Distant and uncultivated Wilderness, And the Small and unprofitable Beginnings we have made have been attend with almost Enuneduable Disadvantages — And while we have Viggarusly Exarted our Selve to the best purposes we Could under our Circumstances to Suppoart our Families altho but a poor and reched Subsistance we have gained suffering both hunger and Cold and we may say with great propriety we have been in the want of all things And since your Petitioners are Destitute of Money was Corn and grain as plenty as it is Scerce yet being Destitute of a Conveniant Road and the markets Being at such a masing Distance and likewise being obliged to make up of water carages and by reason of falls and the river in many places being very Reppid we are not only in Danger of loosing our Loading but our lives also by Carrying our grain to market.

If therefore your Petitioners are obliged to pay the taxes that have been sent for your Petiti^{rs} must Immediately Quit their Habitation and flee again to the Berron Wood for Sheltre. —

The Petition Gideon Philbrick Humbly Sheweth

That your Petitioner has ever made it his Endeavour to lead a Quiet Life as becomes a Peaceable Member of Society, nor has any Person ever Accused him of Offending against the Laws of his Country till Some Time in March last.—Your Petitioner being in company with one Edmund Mussey who was charged by a Sister of your Petitioner of being the Mother of the Child of which she was Pregnant and proposing to the s^d Mussey to Make up the Matter without any unnecessary Expençe—The s^d Mussey instead of a Friendly composition treated your Petitioner as he conceived with the highest Degree of abuse—And Intimated that the Child when it shou'd Come might be a Black, with many other

expressions of Ignominy and Bitter Reproach — Altho at the same time he pretended not to Deny his being the Father of the Child.— Your Petitioner with the most unfeigned Sorrow humbly confesses that being Deeply wounded by the Dishonor Done to his Father's House and to his Sister in Perticular — your Petitioner did Say to the said Mussey in the Anguish of his Heart.— That if he wou'd take a Gun or Sword or Pistol and go into the Field one or the other should be Dispatched before we return.— Your Petitioner by no Means will Attempt to Justify — He is convinced that the Law is Just and good which forbids every kind of threatning Language and would even shudder at the thought of shedding the Blood of one of his Fellow Men He confesses himself utterly to blame for the words spoken — And is convinced that he never harboured such a thought for the space of one Minute.— And is resolved to guard for the future with the greatest attention not his Actions only but his Word also — And being encouraged to hope that those who Confess and forsake their Faults shall find Mercy — Earnestly prays the Honorable Legislature — That the Words Spoken may be forgiven and that he may be restored to the Favour and Friendship of his Fellow Citizens and your Petitioner as in Duty bound shall ever Pray

I the subscriber was present with Gideon Philbrick and Edmon Mussey some time in March last and heard s^d Philbrick propose to the s^d Mussey To make up respecting the charge of his sister against s^d Mussey as above mentioned. S^d Mussey did not pretend to deny his being the father of the Child but used many provoking Exasperations as that The child When it should come it might be a Black one and if the child should be a boy if he Would Not be in a passion perhaps he Would Call it after his unkel mening Gideon and other language after the same Purpose

And I heard the s^d gideon tell s^d mussey that if He Would tack a gun or Sword or pestol and go out Into the field one or the other Should be Dispatched before we return —

Dated Vassalborough Feb^r 8th 1788

Petition of Lewiston.

Commonwealth of Massachusetts }

To the honorable Senate and house of Representatives In
General Court assembled

The Petition of the Subscribers in behalf of the Plantation of Lewiston humbly sheweth that, we conceive it was the intention of the Legislature, as appears by a resolve passed March 3. 1787 to abate all Taxes against said Plantation prior to the year 1784, but by some mistake or inattention of the Treasurer there is still charged against the Plantation the sum of one hundred and twenty Pounds — which we are at present unable to Pay

We therefore pray your honors to take the premises into your wise and Fatherly consideration, and abate the same to your dutifull & needy Petitioners, who as in duty bound will ever pray —

Representation of the Comptroller General.

Commonwealth of Massachusetts February 20th 1788

To the Honorable the Senate & the Honorable the House of
Representatives in General Court assembled —

The Comptroller General respectfully represents

That the Naval Office for the Port of Portland having become vacant, soon after the recess of the General Court by the death of Thomas Childs Esq, I appointed Mr Nathan¹ Fadre Fosdick to discharge the Duties thereof until the Legislature shall confirm him or appoint another in his stead.

I represented to your Honours, the last Sessions, that the Office of Collector of Impost & Excise was vacant, M^r James Avery whom you appointed thereto in June last having declined serving, as the vacancy was not filled up by your Honors, I appointed M^r Richard Hunnewell of Penobscot to the Office —

I am informed by the Collector of the Port of Boston that there are many Bonds in the office which were given to secure the Impost on Goods imported into this State, but owned by Citizens of other States, as those Goods were exported to the States where the Owners lived, a petition was presented to the Legislature that the Bonds might be given up, but the

Consideration of this Petition being referred over to another Session and Provision being made in the last Import Act that Goods in the like predicament should be exempted from Impost, it is presumed, that the Legislature did not design those Bonds should operate against the Obligers, and if so, is it not expedient that a Resolve be passed for their being cancelled on satisfactory Proof that the Goods were exported & landed in some other State? —

By the present Excise Act, Excised Articles exported are to be bonded, but as in some cases the legal Proofs for cancelling the Bonds cannot be obtained, although other ample proof may be produced of the Goods being landed to be consumed out of this Commonwealth, and as to insist on the legal proof, would, in all such Cases, be to prohibit exportation the expediency of making some provision to remove the difficulty is respectfully suggested —

It being, I humbly conceive the Wish of the Legislature to secure the Revenue by preventing, rather than to increase it by detecting, the Crime of Smuggling. I beg leave to mention the necessity of appropriating so much of the Seizure to the informer & Seizing Officer as shall induce a vigilance in detecting of Frauds.

As it is the Duty of the Comptroller, on the one hand, to point out such Alteration in the Acts as shall most effectually secure the Revenue, so it being equally, as I conceive, his duty to shew, on the other hand, where the Subject is unnecessarily burthened, I beg leave to represent, that as the Act at present stands, the Importer of excised Articles is to give Bond, previous to the unlading of the Goods, which is to be cancelled by an Excise Bond to be given when the Goods are weighed & gauged; and he is also in three months from the date of his Excise Bond to pay the Excise on produce Certificates for what he may have disposed of to execute the Law, according

to the letter of it, is attended with great trouble & inconvenience to the importer—it would relieve him & the Revenue be more effectually secured, if he was obliged to sign the Weigher & Gaugers Book & to account at stated quarterly periods—

All which is humbly submitted

Petition of Raymondstown.

The Hon^{ble} Senate and House of Representatives in General Court Assembled

The Petition of the Plantation of Raymondstown in the County of Cumberland, begs leave to shew, that on, or about the latter end of May last we received a Resolve of the Gen Court of the Commonwealth of Massachusetts Dated February 27th 1787, authorising & Directing us that some time in the Months of March or April next proceeding to proceed to choose assessors & Quallify them according to Law to take a Valuation of the Polls & Ratable property in said Plantation upon the Systim of the Last establish'd Schedules in Said Commonwealth, we beg leave further to Notice that although the time was expired in which our Authority depended before we Received said Resolve, and after advising with such persons as we thought was best able to direct us in the Matter was advised notwithstanding to Call a Meeting of Said Plantation & proceed as is directed in said Resolve In Consequence of which the Said Plantation duly assembled & Elected three Suitable persons as assessors who after being duly quallify'd proceeded to take a Valuation of Said Plantation according to the Requisition of Said resolve, which we, (Together with this petition) beg Leave to present—We beg leave further to Notice that we feel Conscious that we

cannot be justified in our proceedings with refference to the time appointed in said resolve as is before noticed, which has been the Occasion of the Delay in our returns; neither should we attempted it under Such circumstances, did not we conceive that y^e state of our affairs demanded an Immediate attention thereunto, & the good of the commonwealth require it— With refference to the Statement of our Small Valuation List we suppose in some Instances we Appear Inconsistant. Our Mowing Land Inadequate Is our Stock, in which case we beg leave to reply, that we are necessitated to purchase a supply of that article of the neighbouring Towns another Instance perhaps in Our dwelling houses In which we beg leave to Inform the Hon^{ble} Court that our places in which we dwell are chiefly Hutts built with round logs, & but one within the plantation that can with propriety be said to be called a House or to the Value of five pound — as to wood Land we entred upon our List we would further Notice that as we have No Market for our Wood that article cannot be of any Value as we are Obliged to burn it on our Land as we Clear it —

We beg leave to further Shew that we Understand that the Said Valluation is Intended to discover to the Hon^{ble} Court the Circumstances & abillity of the said plantation to Answer the previous demands of Government which stands against us as well as future. In which Valuation the Hon^{ble} Court will observe the State of Individual Interests and be able to Judge of their circumstances and how far it is possible that may be Able from their Small Incomes to contribute towards the defreying of the public charges, especially when it is Considered the Inconveniencies the Plantation is attended with in regard to Its Uncultivated State & Infancy. Our Soil is but Indifferent & produces but Little when Manured to the best in consequence of which the Inhabitants are Necessitated to buy the Greater part of Our Provision, we

are so remote, & our roads so bad that it is with the Greatest difficulty we can get to market, our Lumber which is our Staple commodity of commerce is so Low that it will not pay for the Transportation—we therefore conceive that when our real abilities and Circumstances are duly weighed it will evidently Appear that It must be Impossible for us to pay the demands without reducing the Inhabitants to the Necessity of parting with all the Movable property they are possessed off & perhaps driven to seek a Living in some Other part of the world—we feel ourselves willing & ready to Impart our Share at all times to the Support of Government whenever the necessities of our families will any way admit, we therefore Humbly Submit these considerations to the Hon^{ble} Court, declaring at the Same time that what is here presented is as near our circumstances as we are able to relate hoping that such attention will be had thereon & that the Hon^{ble} court will be pleased to Grant us such relief as our Cause Justly Merits, which we in duty bound shall ever pray—

Petition of Town of Scarborough.

Commonwealth of Massachusetts

To the Honorable Senate & Honorable House of Representatives in General Court Assembled February 27th 1788—

The Petition of William Thompson William Southgate and Ebenezer Libby Committee of the Town of Scarborough in the County of Cumberland, in behalf of said Town Humbly Sheweth that by Several Laws of said Commonwealth passed in the Years 1780 & 1781 Said Town was called upon for their Proportion of a Large Quantity of

Beef, a Considerable part of which was Collected and paid to David Noyes Agent to the Superintendent of Purchases for Said County, and agreeable to a further Resolve of said General Court Said Town Voted and assessed on the Inhabitants of said Towns a sum of mones sufficient to fully compleat said Requisitions which said money was collected and paid to the Treasurer of said Town before the 14th of June 1781, and by the salesmen of said Town was offered at the said Agents office in Portland on the 20th of the same month, but the said Agent being from home said money was not Received by him still remains in the Treasury of said Town of Scarborough, & said Town have since raised and paid to the Treasurer of said Commonwealth the whole of the Deficiency of the said Beef Requistitions, and whereas the said Superintendant and his Agents were Authorized by a Resolve of the said General Court to Receive the Bills of Credit of the United States at a Certain rate in Lieu of said Beef untill the 13th of May 1781 and by Another Resolve of the General Court aforesaid passed the 14th of June following said Agents were Authorized to Receive said Money at its Real Value Your Petitioners therefore Conceive that as said Town did seasonably Vote & assess said money and collect & pay the same to the Treasurer of said town & the said Town by their select men did all in their Power towards paying the same to the said Agent they Aught not to have been called upon afterwards to pay the same in Hard money save only such Part thereof as was Eaqual to the Depreciation of Said Bills of credit from the 13th of May to the 20th of June aforesaid for as the old currency aforesaid was offered by the selectmen of said Town on the 20th of June at the Agents office and as it was not the Town's fault that the said Agent was not in his office to Receive the same agreeable to the said Resolve of the 14th of June we conceive the said money ought to be considered as being in the Agent's Hands in

which case the agent would have paid the same to the Treasurer of the Common Wealth and the Town in that case must have been credited for the same Your Patrons therefore Pray that the Treasurer of this Commonwealth may be Authorized to Receive of the Treasurer of said Town the aforesaid Bills of Credit of the United States Amounting in the whole to the sum of Eighteen Thousand Six Hundred and fifty seven Pounds twelve shillings, and may Likewise be authorized and Directed to pay to the Treasurer of said Town & for the Towns Use the whole of the Money Assessed and Paid by the Inhabitants of Said Town as their Deficiency for the Several Requisitions of Beef in the years 1780 & 1781 together with the Poundage and other charges paid by said Town on the Treasurer's Execution Issued against said town for said Deficiency Excepting such part thereof as is Eaqual to the Depreciation between the said 13th of May and the 20th of June And your Petitioner as in Duty Bound will Ever Pray &c.

The Petition of the Subscribers Representatives of the Towns in the County of York in behalf of the Towns in said County humbly sheweth

That by reason of the severity of the Weather and the depth of the Snow during the present winter, the Inhabitants of said Towns have been incorporated to make sale of the Lumber &c which was the only recourse from which they expected to derive the means of discharging their back Taxes In Consequence of which they have been utterly incapable notwithstanding their most strenuous exertions to discharge the same Your Honours petitioners therefore pray you to take their distressed circumstances into consideration and grant them such longer time to pay said taxes in as your Honours shall

think proper. And your Honours petitioners as in duty bound shall ever pray.

Memorial of Plantations in Lincoln County.

To the Honorable Senate, and the Honorable House of Representatives of the Commonwealth of Massachusetts in General Court assembled — Feb^y 1788 —

The Proprietors of the several Townships numbered, One Four Five and Six lying in the County of Lincoln at the Eastward of Mount Desart or Union River by their respective Committees — the Subscribers hereof — humbly shew

That they are absolutely unable to pay the Sum of £1250 required by the Resolve of the General Court pass'd the 21st d of June A. D. 1785 — as a Condition for Confirming the Grant of said Townships.

Soon after the passing of said Resolve, — they assessed the said Sum on the several Rights in said Townships, and advertised them according to Law — but no Person appeared to take any of said Rights at such an Expence — They have since laid their Case before the Honorable Court, but have not yet obtained Relief — and have therefore been discouraged from making any further progress in the settlement of said Townships

They humbly apprehend it would be greatly for the Interest of Government — were this Condition taken off as in this Case the Proprietors would be induced to put themselves forward, and to use their best endeavours to promote the settlement of their Lands which in their present dormant State produce no profit either to themselves or the Public —

Your Petitioners therefore in the name and behalf of said Proprietors — humbly pray that your Honors would pass a Resolve to release them from payment of the Sum aforesaid — and allow them a further time to perform the other Conditions mentioned in said Resolve —

To the Hon^{ble} the Senate, and the Hon^{ble} house of Representatives of the Commonwealth of Massachusetts in General Court assembled:

The Memorial of Samuel Darby of York in the county of York, humbly sheweth,

That Edmund Bridge Esq^r Sheriff of the county of Lincoln, did petition your Honours at the last session of the General Court, shewing that the said Darby had recovered a Judgment against the said Bridge, before John Heard Bartlet Esq^r by default, and praying that he the said Edmund might be admitted to a trial of the said action at the Court of Common Pleas"—Which Petition of the said Edmund being before the Court at the last session, the said Samuel understood that he the said Samuel was ordered to be cited to appear at the said Court on the second Wednesday of the then next session to shew cause, if any he had, why the prayer of the said Petition should not be granted:—And the said Samuel having appeared accordingly, has understood that your Honours on the 4th instant had so far granted the petition of the said Edmund, as to order that the said Edmund should serve the said Samuel with a copy of the said Petition and order thereon, to the end the said Samuel should appear on the second Thursday of the next session of the General Court and shew cause if any he has why the prayer of the said Edmund's petition should not be granted:

Wherefore, as the said Samuel is here present with his evidence, he prays that your Honors would so far reconsider your order of the 4th instant, as that the said Samuel might be admitted to appear forthwith, and shew cause why the prayer of the said Edmund's petition should not be granted: and your petitioner shall ever pray &c Sam^l Darby

The Petition of Banker Farwell of Vassalborough in the County of Lincoln Humbly Sheweth That your Petitioner

having a Damand against Joshua Sincler of Hallowell in the same County for a Cartain yoke of oxon Which the said Joshua had converted to his one use sune time in March last, Commenced an action of the Case against the said Joshua for the recovery of the same oxen, before Ebenezer Farwell Esq^r a Justice of the peace Within and for said County and that your Petitioner and the said Joshua before the said Justice on the minth day of March last agreed to refer the said Dispute or Demand to the Determination of Capt. Henry Sewall, James Carr and Nehimiah Gatchel the Report of Whom or the Major part of whom being made as sone as might be to any Cort of Common pleas holden in and for said County of Lincoln and judgment thereon to be final— That the said Referees afterwards, to wit at the Cort of Common pleas hold at Pownalborough Within and for said County on the first Tuesday of June last made report that your petitioner should pay the said Sincler the Debt in said Action all the Corst & Charges that had arisen on the suit Commenced by your Petitioner against the said Joshua Sincler— That at the Time of the Hearing the Parties before the said Referees, your petitioner produced a Wittness to prove his Demand aforesaid against the said Sincler Whoes Testimony would beyond all Doubt have Determined the Case in favor of your Petitioner had he ben admitted, but the Referees refused to admit him to be sworn or to admit his testimony becose thay supposed that the said Wittness in Case your Petitioner shold recover Would be liable to a action from the said Sincler for the said oxon not Considering that the Testimony of a Wittness Which operate against him self is the best Evidence That the said Referees also agreeable to their Report have saved all the Cost viz^t the Plaintiff Cost as Well as the Defendant against your Petitioner Which your Petitioner has been obliged to pay— that it was not the Intent of the Referees that your Petitioner

should pay the Debt the Cost which he himself had advanced to prosecute his said Suit tho they inadvertently made such a Report and taxed said Corst in manner aforesaid Wherefore By Reason that the said Referees Rejected the Testimony of a good and legal witness your petitioner has lost a valuable yoke of oxon which he was justly entitled to and by Reason of the great Mistake made by the said Referees in taxen the Bill of Cost aforesaid, your petitioner has ben unjustly obliged to pay the sum of five pounds ten shillings & 11^d more then the real Cost what had accrued to the said Joshua in Defending the said Suit—Wherefore your petitioner humbly prays your Honors to take the matter into your Consideration and grant him Relief in the premises by seting aside the report of the said Referees and reversing the judgment of Cort thereon, and granting your petitioner a New hearing before the said Referees or a trial at sum Cort of Common pleas to be Holden Within & for said County—and your petitioner as in Dute bound &c

Hallowell Petition.

Commonwealth of Massachusetts

To the Hon^{ble} Senate and House of Representatives of said Commonwealth in General Court assembled —

The Memorial of the subscribers Inhabitants of the Town of Hallowell in the County of Lincoln

Humbly sheweth

That satisfied as we are, with our present Government and Constitution, we do not wish for a change, unless we could be assured, it would at least tend in some considerable degree to promote the General happiness of the People and the welfare of the federal Union; but we are apprehensive that the seperation so much wished for by some, in the Counties of York, Cumberland and Lincoln, from the Government of Massachusetts can not at present have the smallest tendency to obtain or secure either of those valuable ends: on the contrary we feel a conviction, that such a separation at this time, must greatly contribute to enervate our federal Government by an unnecessary increase of the number of Petty States, to impoverish the People by an additional weight of taxes, to render the proposed new State weak and contemptible, and in a great measure to destroy the influence and consequence of this Commonwealth in the great Council of the Nation.

Urged by these considerations, we think it our duty to communicate to your Honors, the extraordinary method which

a certain Party have taken in this town, in order to procure a majority of voices in favor of the said seperation — Subscription Papers have been formed under the auspices of a few particular Men, for the ostensible purpose of obtaining the sentiments of the People on this important question ; these Papers have been committed to a number of professed and zealous Advocates for the New State, who carried them about the Town, and applied to Individuals seperately, to whom they painted in lively colours, all the imagined advantages of a seperate Government, without any of its real inconveniences ; and by this means many honest well meaning Persons, have been induced to subscribe to the affirmative of the question, who we are sensible on having its true merits impartially stated and explained to them, would never have given their assent to this measure, which we conceive can answer no valuable purpose, unless it be to gratify the ambition and feed the vanity of a few Men, who under the fair guise of public spirit, the general good of the People in those Counties, and an affectation of superior political information are (we fear) only aiming at places of honor and profit for themselves ; but as a procedure so evidently partial, and unauthorized by any Legislative act, can never impose upon the wisdom of the honorable Body we address, so we content ourselves with stating facts, without making any comments upon the conduct of a Party, who have artfully made the People believe, that their doings in this instance were for the information, and undertaken at the desire of the General Court.

To the Honourable the Senate & House of Representatives
in General Court Assembled

humbly shews Joseph Boyd of Bristol in the County of
Lincoln Attorney to Jedediah Preble Commisary for supply-

ing the troops at Penobscot River in the year 1779 by order of Brig^r General Cushing, that the said Prebble supplyd the Troops at that Post with sundry Provisions to the Amount of Four Thousand nine hundred and eighty six pounds twelve shillings in the then currency which reduced according to the Scale amounts Two hundred & forty six pounds two shillings & eight pence; in 1784 your Memorialist applied to the Honble Legislature for the Discharge of the amount of said Prebble who refered the Settlement to the then committee on accounts to settle and ajust the same according to the best evidence they could Collect, the Committee attended the Business but from want of vouchers on the part of your memorialist which it was out of his power then to procure they allowed upon the said account no more than the sum of ninety eight pounds fifteen shillings & eleven pence, the necessary vouchers to the whole acc^t your memorialist has now in his possession wherefore as in Duty bound he prays this Hon^l Court that his account may be adjusted anew & settled in such manner as the Hon^l Court shall find to be Just and Eaqual

Govr's Message March 17 — 1788.

Gentlemen of the Senate & Gentlemen of the House of Representatives

The Secretary will lay before you a letter which I received from the Honourable Benjamin Lincoln Esq^r with a memorandum to which it refers for some facts — and also another letter from John Lee of Penobscot a Gentleman mentioned in General Lincoln's Letter.

By these Letters it appears that the line of property between the Commonwealth's land and those of the Penobscot Tribe of Indians is not formally settled and that a difficulty and dissention may take place unless some further attention is paid to that affair.

By the same Letters and by papers remaining in the Clerk's Office of the Supreme Judicial Court it appears that Andrew Gilman Archibald M^cPhetres and James Page have been committed upon suspicion of having murdered Peeal an Indian of that tribe, but no evidence appearing against them they were enlarged on recognizance to appear at the next term: least there should be a failure in the prosecution I have by advice of Council requested Joseph Hibbert and Charles Joy Esq^{rs} two Justices of the Peace near the place where the unhappy affair is said to have been transacted to convene before them and to recognize such Witnesses as may be had:

and have also requested them to give that Tribe of Indians notice when the Trial will take place, that such of them may attend as shall choose to be there.

I have also given the Attorney General notice of these measures and urged his attention to the business as a matter on which the peace & safety of some part of the County of Lincoln very much depend —

This is all that lays within my department in this business, but I conceive it to be my duty Gentlemen to request your attention to it as a matter that is of great consequence to the Commonwealth for though perhaps a very small force may subdue or extirpate that Tribe of Natives if they should commence hostilities, yet the effecting it would be more expensive & troublesome than the compleating a Treaty respecting their Lands can be. I need not observe that it is much more consistent with humanity to conciliate their affections, than to subdue them by force.

Re — Lands sold by Committee on Eastern Lands.

Commonwealth of Massachusetts, March 24, 1788.

To the Hon. House of Representatives.

The Subscriber, in behalf of the Committee on the Sale of
Lands & in Compliance with the Order of the Hon^l House
of Representatives to lay before them an Account of all
Lands sold by the Committee since the last Session of the
General Court, respectfully represents that the Committee
have only sold one Township adjoining to Machias—and
the Island in front of the same—for which Mes^r Lucas &
others—the purchasers have paid & are to pay, six thousand
one hundred & seventy pounds 1716—in Consolidated notes
—& fifty one pounds in specie to be paid by 34 settlers who
were upon the Lands prior to the 1st Jan^y 1784.
