THE
1889

The following list of Soldiers, Sailors and Marines, with rank and post-office address, is very incomplete, but has been made as correct as possible from turns of the several county clerks. The blame for errors in the names with this office, the county clerks, and the assessors, as the names have been so carelessly written by many of those officers that they cannot be correctly read. The omissions are to be charged to the assessors, whose duty it was to make the enumeration. Any person noting errors or omissions will confer a favor by sending correct information to this office for use in the next issue of the Roster in 1889, should such be made.
