NOTE.—The first church erected in Morris County, N. J., was at Whippany, and in the ground about it the earliest settlers of this region were buried. The church was afterwards removed to Hanover, about three miles to the eastward, and subsequently burials were made both at Whippany and around the new church. Genealogists who have traced the families here represented, have had frequent occasion to search for and copy inscriptions on the grave stones found in these cemeteries. To preserve these records from destruction exact copies have been taken, and to make them convenient for examination this pamphlet has been printed. As far as possible, eccentricities of spelling, &c., have been carefully preserved.
