ORNAMENTAL
AND
BLOCK LETTER SIGN MANUFACTORY,

No. 84 Broad Street,
NEW-YORK.

PUBLIC HEALTH.

A R C A D E B A T H .

39 Chambers Street,

Warm, Cold, Shower and other Baths.

This establishment has recently undergone a thorough improvement, and is now in successful operation. It has 75 feet on Chambers-street, and extends through to Reade, opposite Elm-street, giving to the fine hall of 150 feet, immense advantage for air, and the beautiful perspective extending the length of Elm-street, and exhibiting a lively picture or moving panoramic view of a populous city, which has excited the admiration of all who have seen it. The whole arrangement of the Bath is tasteful, rich and convenient, and is said to bear a favourable comparison with the best establishment of the kind in Europe. The front, on Chambers street, is three stories high, and has much architectural beauty. The interior gives about 80 rooms for bathing, and connected with the ladies' bathing apartments, (which are entirely distinct from those for gentlemen,) is a neatly furnished parlour for their accommodation.

CHARLES G. STOPPANI, PROPRIETOR.

The first number of the Seventeenth Volume of

THE NEW-YORK MIRROR

Was issued on the 29th day of June last.

It contains a Portrait of Prosper M. Wetmore, Engraved by Parker from a Painting by Inman, and a Vignette Titlepage. These will be succeeded by four costly and magnificent engravings on steel, by the best artists, designed and engraved from original paintings expressly for the work. Etchings on wood by Adams, Johnson, and others, will also embellish the forthcoming volume; besides fifty pieces of rare beautiful and popular Musick, arranged for the pianoforte, guitar, harp, &c.

THE New Volume will contain articles from the pens of well-known and distinguished writers, upon every subject that can prove interesting to the general reader, including Original Poetry—Tales and Essays, humorous and pathetic—Critical Notices—Early and choice selections from the best new publications, both American and English—Scientific and Literary Intelligence—Copious notices of foreign countries, by correspondents engaged expressly and exclusively for this Journal—Strictures upon the various productions in the Fine Arts, that are presented for the notice and approbation of the public—Elaborate and beautiful specimens of Art, Engravings, Musick, etc.—Notices of the acted Drama and other amusements—Translations from the best new works in other languages, and an infinite variety of miscellaneous reading relating to passing events, remarkable individuals, discoveries and improvement in Science, Art, Mechanicks, and a series of original papers from American writers of distinction.

LAFAYETTE

Burr Millstone Manufactory.

WILLIAM TYACK has been in the habit of going to France annually and selecting the Blocks at the Quarries with his own hand, personally; it insures to the Burrs of his manufacture, a decided preference over the Blocks imported by merchants to order, who are not, nor can they be, accurate judges of the article, unless they manufacture them.

Persons giving orders for Burrs, are requested to be very particular in stating whether they are wanted for all kinds of Grain—say country work generally—or for flouring alone, as it is of the utmost importance that the temper of the Burr should correspond with the kind of Grain to be manufactured.

W. T. having had considerable experience in Mills, is well aware of the great importance of having Burrs made in the most faithful and perfect manner.

This very valuable article, although it has been many years in use in this country, yet its qualities in its perfect state are but little known, owing to the defect in the materials and workmanship.

They will be made to order, and forwarded to any part of the United States or the Canadas, warranted, with my name on them.

Millwrights, Millers, and Gentlemen who are judges of the article, are invited to call at No. 240 Washington-street, corner of Robinson, and examine the materials and workmanship.

Dutch Bolting Cloths, from the most approved manufactories in Holland; Esopus and Cologne Stones, also Mill Irons, wrought and cast, of any pattern, furnished at the shortest notice.

Spindles, Hoisting Screws, Gudgeons and Wheels for Grist Mills, Cranks, Stirrups, and Pitmans. Casting and Wrought Iron Work for Saw Mills.

Screws for pressing Paper, Hay, Oil, Tobacco, Cotton, &c. of all sizes. All kinds of Mill-Work furnished at a short notice, stamped and warranted. All articles warranted, and sold at fair prices.

WILLIAM TYACK, AGENT,
240 Washington-street, corner of Robinson, New-York.

NOTES.

Almanacs heretofore have been suited to the Dial, which in the age of antiquity, was perhaps the only instrument in use for the mensuration of time: but the present calculations are adapted to Clocks and Watches, those machines of more modern invention so generally used in the present day.

VI. JUNE, begins on Monday, 30 days 1840

Rule to find the length of the day Add 12 hours to the time of the Sun's setting, and from the sum subtract the time of rising.

The old Rule, which was to double the time of the Sun's setting is not correct when the Equal Time is reckoned.

The day will be found, throughout the year, a few minutes longer than formerly, on account of the horizontal refraction having been allowed in making calculations.

POST-OFFICE.

The Post-Office is situated in the Park, at the north-east corner in the building formerly called the Rotunda.

The Branch Office is situated on the north-west corner of William-street and Exchange Place.

Single Letters.

For any distance not exceeding 30 miles	-	-	-	6 cents.
Over 30, and not over 80 miles	-	-	-	10
Over 80, and not over 150 miles	-	-	-	12½
Over 160, and not over 400 miles	.	-	-	18½
Over 400 miles	-	-	-	25

Double Letters, or those composed of two pieces of paper, double those rates. *Triple Letters*, or those composed of three pieces of paper, triple those rates. *Quadruple Letters*, or those composed of four pieces of paper, quadruple those rates. *Packets*, or letters composed of one or more other articles, and weighing one ounce avoirdupois, quadruple those rates, and in that proportion for all greater weight. *Ship Letters*, not carried by mail, are chargeable with 6 cents.

Newspapers.

Each paper, carried not over 100 miles	-	-	-	1 cent.
Over 100	-	-	-	1½

But if carried to any place within the State where printed, whatever be the distance, the rate is only one cent.

Periodicals, Magazines, and Pamphlets,

Are rated by the sheet.

Carried not over 100 miles, per sheet	-	-	1½ cent.
Over 100	-	-	2½

Not periodical.

Not over 100 miles, per sheet	-	-	-	4 cents.
Over 100	-	-	-	6

Every printed pamphlet or magazine, which contains more than twenty-four pages on a royal sheet, or any sheet of less dimensions, shall be charged by the sheet; and pamphlets, printed on a half or quarter sheet of royal or less size, shall be charged with half the amount of postage charged on a full sheet; and there shall be printed or written on one of the outer pages of all pamphlets and magazines to be sent by mail, the number of sheets they contain; and if such number shall not be truly stated, double postage shall be charged.

Letters and newspapers are delivered out of the office every day, except Sundays, from 7½ A. M. till 7½ P. M., and on Sundays from 9 to 10 A. M. and from half past 12 to half past 1 P. M.

Newspapers to be forwarded by mail should be enclosed in a cover, and left open at one end, and the number of free papers, and those for subscribers respectively, endorsed on each packet; and all newspapers enclosed in one package, provided they should not exceed twenty in number. If a *letter* or *memorandum* in writing is contained in any newspaper, the person who deposits the same forfeits *five* dollars, and the package becomes liable to letter postage.

Letters to be sent by mail should be addressed to the place of their destination *in the clearest manner*; they should always be directed to the nearest post-office, if the person to whom addressed does not reside where there is an office, and the name of the State should not be omitted; letters are often mis-sent, from their ambiguous direction—a punctual attention to this rule may prevent delays and miscarriage.

☞ If an abatement of letter postage be claimed, the letter must be opened in the presence of the postmaster, or one of his assistants; and if such letter should, instead of being overcharged, happen to be undercharged, the deficiency must be made up by the applicant.

All letters which are lodged to go by the packets must be distinguished by writing *per packet*, for there are places of the same name in the United States, similar to those in Europe.

BANKS

Established under the General Banking Law.

THE NEW-YORK

STATE STOCK SECURITY BANK.

This institution, under provisions of the General Banking Law, issues FRACTIONAL PARTS OF THE PUBLIC DEBT OF THE STATE OF NEW-YORK.

It has been established by a single individual (Mr. L. Bonnefoux,) upon this peculiar principle, that New-York State Stocks only, *to the exclusion of any other kind of securities*, are deposited in the hands of the Comptroller; the certificates of *said stocks* being transferred to the Comptroller *in trust* for the special purpose (as is expressed in the body of the certificates and on the book of transfer) of redeeming the notes so issued, if need be, the bills of this institution can therefore be denominated with perfect truth, *Fractional parts of the Public Debt of this State*, the issue of those Fractional parts being thus (under the supervision of the Comptroller) authorised by the General Banking Law, it thereby creates *a circulating medium* equal to any existing, giving to the bill holder the security of the State of New-York for the redemption of the notes.

The notes of the above named institution are at present redeemed at the *Greenwich Bank*.

1839-1840.

LONGWORTH'S NEW-YORK DIRECTORY.

FOR THE

64th year of American Independence.

The word lane, alley, slip, place, is generally expressed ; the word *street* is not expressed, but understood ,—so also the word *store*, or counting-house ; the place of business is named first, then the place of residence.

h. stands for house—n. near—c. corner.

IMPORTANT OBSERVATIONS TO THOSE USING THIS WORK.

Throughout this Directory the christian names, of those where there are more than one of the same surname, are alphabetically arranged. The firms are always placed at the last of those of the same name ; when females are known to be widows, they are so designated, and placed immediately preceding the firms ; and a strict alphabetical arrangement (carefully conformable to the proper spelling of the name) is scrupulously observed throughout this work.

The directions are for the most part plain, intelligible and to the point. The numerically named streets are particularized thus : No. 77 Sixteenth (street) n. Avenue 9th ; a figure being always used to designate the name of the Avenue, but figures are not used to designate names of streets ; and the printing is always thus—Avenue B, Avenue C, Avenue 6th, Avenue 3d ; but it never is 3d Avenue, or 6th Avenue.

In searching for a name, the inquirer must know the proper spelling : a person seeking for — Lawrance will not find the one sought for if he take the direction appended to — Lawrence ; so also, for — Harison, he should not seek among the Harrison ; for — Neilson, he should not look for — Nelson. The peculiarities and variations in the spelling of names are numerous : *e. g.*—Bailey, Bailly, Bailie, Baillie, Bailly—Beatie, Beattie, Beatty, Beaty—Bogart, Bogert—Casey, Kasey—Curtis, Curtiss—Davies, Davis—Dean, Deane, Deen—Downes, Downs—Eliot, Elliot, Elliott,

—Fagan, Fegan—Gausmann, Gosman—Hallstead, Hallsted, Halstead, Halsted—Jacques, Jaques—Kelley, Kelly—M'Cauley, Macauley—M'Kay, Mackay—Pearson, Pierson, Pirsson—Pairce, Pearce, Pearse, Peirce, Persse, Pierce—Read, Reade, Reed, Reid—Sandford, Sanford—Slason, Slauson, Slawson, Slosson—Tallmadge, Talmage—Wahl, Wall—Walsh, Welch, Welsh—Weeks, Weekes, Weeks—Weise, Wise—Wescoat, Wescott, Westcott—White, Wight—Whittelsey, Whittlesey—Wirth, Worth, and others to a great number.

The cause of all *charges* of inaccuracy in this work, 99 times in 100, is attributable solely to the want of a knowledge of the correct spelling of the name sought for; therefore, *you must know how to spell the name*, else censure not the publisher if you yourself do not find it—mind this.

Observe, that the U and V are not interchangeably arranged, but the U takes precedence: so also of I and J.

Any person who actually finds, or thinks that he has found an error or omission, is requested to give intelligible notice to the Editor.

PUBLIC LANDS.

The quantity of lands ceded by the states and territories to the United States is estimated at	319,536,232 acres
Up to Sept. 30, 1838, the sales amounted to	77,134,821 dols.
The surveyed land unsold at the same time amounted to	213,668,401 acres
The public lands beyond the states and territories estimated at	750,000,000 acres
To the new states have been ceded for Common Schools,* Colleges, &c.	12,690,338 acres
And to these new states have been paid a per centage on land sold	3,967,521 dols.

* *Common* indeed.

A *New-York Milk Cart*:—an offensive, rattling noisy four-wheeled vehicle—a particular nuisance in desecrating the Sabbath day, when it is employed in distributing “pure milk” at the dwelling houses of many zealous and uncompromising advocates for the suppression of Sunday Mails.

ADVERTISEMENT.

NEW-YORK, JULY 29, 1839.

To his Patrons, those who purchase the work, the Editor of the New-York Directory tenders his sincere thanks.

In the publication of the work, no one can be more deeply concerned and interested than the Editor; and to those who condescend to give any serious considerations to the subject, it cannot be necessary to make any declarations of his anxious desire to execute his annual task in a manner perfectly satisfactory to the public: and to this he is prompted by considerations of his own convenience, by his pride and, perhaps, his interest; these impel him to exert himself to the utmost; he thinks, that the diligence with which he has laboured in his vocation could scarcely be exceeded. Perhaps the Book might have been published some four or five days earlier, were there no obstacles in a Printing-office,—but the difficulties in the business, prophetically denominated the “Black Art,” are beyond his control.

But few people are aware that the entire volume, each year, is the work of renewed labour; that each line is the result of actual new collection, of new compilation, and of renewed charges.

The entire compilation of the work is performed by the Editor himself, the present constituting the thirty-third volume of his labours.

The number of names in the present volume does not offer comparative data for an estimate of the probable increase of population in the city; though it contains some thirty-nine thousand names,—yet, had the canvas been made with the same degree of minuteness as was formerly exercised, especially in the suburbs, the number would probably far exceed forty thousand.

The compilation and execution of the work some ten years ago was then arduous and difficult; but, ~~at a~~ ^{at} present magnitude, it has become a laborious task,—vexatious in its operations, unsatisfactory in its results; if the present edition, consisting of some

two or three and twenty hundred copies, cannot be entirely disposed of in this great commercial metropolis, this city of theatres and of charitable societies, it cannot be expected that the publisher will have much appetite for a return of his task, without a more determined regard for his own welfare and interest in the matter.

Thousands of his fellow-citizens, a great number possessing ample fortunes, daily resort to the use of a *borrowed* Directory; escaping the purchase of the book by the most paltry subterfuges, and enduring a pitiful dependence upon the charity of the publisher;—his “position” is singular, the rich and the poor being the eleemosynary recipients of his beneficence throughout the year:—but it is a beneficence for which he covets no commendation, inasmuch as it is accorded greatly against his will: a revelation of facts, upon this subject, would be personally offensive in proportion to the truth; he therefore abstains from any disclosures.

The numbering of the houses in Avenue 3d has been changed since the printing of the work.

The number of new names contained in the present, and not found in the preceding volume, is about nine thousand five hundred—the number of removals and alterations considerably exceeds eleven thousand; and the entire number of names in the book is about thirty-eight thousand eight hundred, being about one thousand seven hundred more than was contained in the volume of last year.

It is characteristic of the present day that every man, however uninformed he may be, arrogates the right to form and express a dogmatic opinion upon all subjects; it is therefore no way surprising that so much error prevails in relation to this book and the facts connected with its publication. If not presumptuous, the Editor would venture to express his opinion sincerely entertained, that no book published in the United States is in fact so cheap, that none so richly merits the price charged, as the New-York City Directory. For the sake of his patrons he anxiously hopes that the present volume will prove sufficiently accurate to secure to him not only their continued support, but also their kind approbation.

Some few corrections have been made, but otherwise not much has been done the present season to add to the value of the

RUNNER'S VADE MECUM:

Comprising an extended list of all the Streets, Lanes, Alleys, and Slips, in the City, as in the year 1839.

Showing their commencement, progress, and termination, with the numbers of the houses at each corner, enabling a person to ascertain the precise location of almost every house in the city, so that the same may be found by night as well as by day. The words *right* or *left*, added to the name of a street, points out that the odd numbers are on the left or right hand side of that street; and it must be noted, that at the commencement of a street, the house on the corner is not always the one bearing the first number, which is, in some cases, affixed on the house next to the corner; and in many instances the numbering is so inaccurate as to render it difficult to ascertain the numbers that should be attached to the corner houses.

The letters *c. m. p. b.* are intended to designate that at such a corner is either a church, a market, a public building, or a burial ground.

Most persons who possess the Directory have perceived and appreciated the great convenience and utility of this Table; still, by many, it is overlooked. Its use may be explained by supposing you desire to find a person, who, by the Directory, you perceive keeps an office at 89 South-street; the Vade Mecum shows 88 South-street to be at the upper corner of Burling-slip. Again—wishing to find a person, who, by the Directory, you perceive resides at 143 Eldridge-street, turning to the Vade Mecum, you first observe that the odd numbers in Eldridge-street are on the left side of the street, then that the house on the corner of Rivington-street is No. 145, you are therefore instructed that the person sought for resides in the second house south of Rivington-street, on the left hand side of the street, going from Division-street.

FIREMEN'S GUIDE.

The City is divided into Five Districts, which are pointed out by the bell as follows :

- 1st district—one stroke of the bell.
- 2d district—two strokes of the bell.
- 3d district—three do. do.
- 4th district—four do. do.
- 5th district—a continual ringing.

The First District is comprehended by a line from the foot of Murray-street to the City Hall, and in a line from the N. W. corner of the City Hall, parallel with the North River to Twenty-first-street.

The Second District is bounded by the latter line, and a straight line from the City Hall to Avenue 3d at Twenty-first-street.

The Third District is bounded by the latter, and a line from the City Hall to the East River above the Dry Dock.

The Fourth District is bounded by the latter, and comprehends all the space between that and the East River, as far down as Frankfort-street.

The Fifth District is all that part of the city below Frankfort and Murray-streets.
