# The Jacob Bach Co.

---

## "BETTER CLOTHES"

---

DEAL HOUSE BLOCK

# BUCYRUS CITY DIRECTORY

## ALPHABETICAL SECTION.

---

This section includes the names of all persons over 16 years of age with their occupation, place of business or employment etc. To learn their relationship to the household of which they are a part turn to the Street Section immediately following this and find their location on the Street where full information will be given, including the ownership or management of the property occupied.

Names printed in heavy faced type are patrons of the Directory either as subscribers or advertisers. These are the men who do most to make an up-to-date Directory possible.

Name in (parentheses) is wife of the person whose name immediately precedes.

House numbers in (parentheses) are the numbers on the house but are not the proper number for those houses. They are given to assist in identifying the house. Odd numbers are on west and south sides of street, even on east and north sides.

Where two different addresses are given the first is the place of business.

In the case of partnerships the names or initials of the members of the firm are given in (parentheses) after the firm name.

In the case of incorporated companies only the manager's name is given in this section. For full list of officers see Roster of Incorporated Companies in Front Section.

# BUCYRUS CITY DIRECTORY

## CENSUS BY STREETS

---

Streets in **Black Face** type, arranged in alphabetical order.

Streets in ordinary type are intersecting streets.

In residences family name appears first, followed by given names of all persons in the house.

In business places given name or initials appear first.

Names set in *italics* indicate owners of property. Where names are in (parentheses) they are owners or agents of the property.

Telephone numbers appear at the end of the line.

Punctuation: Name following a (:) is wife of preceding, names following a (;) are children of preceding, names following two (;;) are grandchildren, names separated by a (,) are brothers or sisters, names following a (—) are roomers or more distant relatives, names following a (†) are under 21 years of age, those following (||) parallel lines are under 16.

Where two house numbers are given the one in (parentheses) is the number appearing on the house but is incorrect.

Generally odd numbers are on the south or west side of the street and even numbers on the north or east.

Information concerning ownership is obtained generally from occupants or neighbors and accuracy is only approximate. Persons buying a property on installments are accounted owners.
