CEMETERY INSCRIPTIONS

Stark County, Ohio

Volume IV

CEMETERY INSCRIPTIONS
STARK COUNTY, OHIO
VOLUME IV

INCLUDED IN VOLUME IV IS THE TOWNSHIP OF LAKE
AND THE CEMETERIES OF DEAD MAN'S POINT AND FOREST HILL
IN PLAIN TOWNSHIP

DATE MICROFILMED	
MAY 18 1990	19
26077105	6075656
#555	

PREPARED BY THE MEMBERS OF THE
STARK COUNTY CHAPTER
THE OHIO GENEALOGICAL SOCIETY

MARCH 15, 1984

Almost three generations have passed since 1900 which was the cutoff date for tombstone inscriptions in the last book which covered the entire county. Although typed, that book was never published and its use was restricted to a few libraries. It is an ambitious project to cover the entire 195 cemeteries in Stark County, Ohio. This is the fourth book.

The contents of each of the other books are as follows: Volume I covers the cemeteries in the townships of Lexington, Washington, Paris and Marlboro. Volume II covers the cemeteries in the townships of Nimishillen, Osnaburg, Sandy, Pike, Bethlehem and Sugar Creek. Volume III covers the cemeteries in the townships of Tuscarawas, Lawrence and Jackson.

Volume IV covers the cemeteries in the township of Lake plus the cemeteries of Dean Man's Point and Forest Hill in Plain Township. Lake Township cemeteries comprise 110 pages. Dead Man's Point Cemetery contains only one grave. Forest Hill Cemetery takes up 283 pages. It will take another book to finish the cemeteries in Plain Township, which will be Volume V.

This will leave the townships of Canton and Perry for the future.

ACKNOWLEDGEMENTS

Many contributed to the success of this project. Those who copied the tombstones are acknowledged at the end of each cemetery. Special recognition is given to the two typists: Hazel Murphy and Dorothy Wig. Hazel Murphy continues to serve as Coordinator for the entire project.

We are indebted to Helen Christ of Canton, Ohio for translating over 50 tombstones from Forest Hill Cemetery which had Greek inscriptions. This permitted us to include these names in the Index.

Acknowledgement is also given to the Stark County Historical Society for furnishing the photograph of McKinley's Monument on the cover and the 1910 map of Stark County shown on page v.

CCF # 140560

Stark County, Ohio was formed in 1809 from Columbiana County. It subsequently lost Brown, Harrison and Rose Townships to Carroll County in 1833 and Green and Franklin Townships to Summit County in 1840. It contains seventeen townships today. Its cemeteries date from 1805 when the first settlers came. There are 195 cemeteries today. This volume covers the north central township of Lake and a portion of the cemeteries of Plain Township, immediately to the south of Lake. Nineteen cemeteries are included in this book.

Much use has been made of the previous cemetery book entitled "Cemetery Records, Stark County, Ohio". It was researched by E. T. Heald, H. T. O. Blue and H. D. Paxton. It was compiled, edited, and indexed with a foreword by Dorothy Sommer, Head, Reference Division, Canton Public Library Association. The project was sponsored by the Stark County Historical Society. It consisted of four volumes, one of which was the index, and was typed in 1955. It covered 158 cemeteries from the earliest time until 1900. Most of the inscriptions were copied in the 1940's. Much credit must be given to the researchers because many of the tombstones which they copied are unreadable or nonexistent today. The map used by E. T. Heald to locate the cemeteries in the 1940's was made available by Eva Sparrowgrove of The Stark County Historical Society.

In this volume the cemetery numbers assigned by Heald have continued to be used. The description of the locations of the cemeteries in Stark County was submitted by Marilyn Oyster and Evelyn Jessup to The Ohio Genealogical Society for inclusion in their 1978 book entitled "Ohio Cemeteries", which lists the location of every cemetery in the State of Ohio. The same descriptions are used in this volume and will be used in all volumes to be published.

An attempt has been made to read the tombstones in rows so that a person can locate a particular stone from the descriptions. This has not always been possible because of the haphazard manner in which some cemeteries are laid out. All stones have been included to the present day. Stones illegible or missing, but listed in Heald's book, have been included and are so indicated.

The project continues. All the cemeteries of Plain Township have already been read. Typing and indexing remain to be done. Many of the cemeteries of Perry Township have already been read but much work remains. Canton Township will be the last portion to be completed.
