Volume VI is dedicated to the memory of:

MYRON D. KRETZINGER
(1922-1985)

Mr. Kretzinger was born in Canton, Ohio and had resided in the Massillon area for the past 40 years. He was a self-employed painter and decorator and was previously employed by the Stark County Building and Grounds Department. He was Vice President of the Stark County Chapter, Ohio Genealogical Society in 1984 and was responsible for the programs that year. He was an active genealogist and attended meetings as long as his health permitted.

ACKNOWLEDGEMENTS

It is impossible to include the names of all of the people who have helped with the preparation of this book. Those who read the tombstones in each cemetery are listed at the end of the cemetery. We are indebted to Esther Sukosd of East Canton, Ohio for translating European language tombstones from St Joseph's Catholic Cemetery in Massillon. This permitted us to include these names in the Index. Special recognition is given to the three typists: Helen S Mattson, Hazel Murphy and Dorothy Wig. The Stark County Historical Society provided the materials for the covers and the map.

CCF# 140566

Stark County, Ohio was formed in 1809 from Columbiana County. It subsequently lost Brown, Harrison and Rose Townships to Carroll County in 1833 and Green and Franklin Townships to Summit County in 1840. It contains seventeen townships today. Its cemeteries date from 1805 when the first settlers came. There are 200 cemeteries today. This volume covers the central Township of Perry and includes all the cemeteries in the City of Massillon. There are twelve cemeteries in this volume.

Much use has been made of the previous cemetery book entitled Cemetery Records, Stark County, Ohio. It was researched by E. T. Heald, H. T. O. Blue and H. D. Paxton. It was compiled, edited, and indexed with a foreword by Dorothy Sommer, Head, Reference Division, Canton Public Library Association. The project was sponsored by the Stark County Historical Society. It consisted of four volumes, one of which was the index, and was typed in 1955. It covered 158 cemeteries from the earliest time until about 1900. Most of the inscriptions were copied in the 1940's. Much credit must be given to the researchers because many of the tombstones which they copied are unreadable or nonexistent today. The map used by E. T. Heald to locate the cemeteries in the 1940's was made available by the late Eva Sparrowgrove of The Stark County Historical Society.

In this volume the cemetery numbers assigned by Heald have continued to be used. The description of the locations of the cemeteries in Stark County were submitted by Marilyn Oyster and Evelyn Jessup to The Ohio Genealogical Society for inclusion in their 1978 book entitled Ohio Cemeteries, which lists the location of every cemetery in the State of Ohio. The same descriptions are used in this volume.

An attempt has been made to read the tombstones in rows so that a person can locate a particular stone from the description. This has not always been possible because of the haphazard manner in which some cemeteries are laid out. All stones have been included to the present day. Stones illegible or missing, but listed in Cemetery Records, Stark County, Ohio, referenced above, have been included and are so indicated.

The project continues to its conclusion. All the cemetery inscriptions in Stark County have now been read. The typing and indexing of the inscriptions in West Lawn Cemetery in Canton remains to be done. This one very large cemetery will comprise all of Volume VII and its completion is anticipated in the Spring of 1986.

ST JAMES SECTION: This section has been divided into five parts because the rows run in different directions.

In the first part, rows #1 thru 4 are read left to right, the 1st row being the one closest to the road on the east end. These rows run S to N. In the second part of the section the rows run east to west. Row #5 begins at the NE side and corner. These stones face north. Row #14 begins near the statue in the center of the ST JAMES SECTION where the southern half of this part has stones facing south. & These rows are read l to r; or W to E, thru Rows # 24 next to the road.

The third part of this section consists of 4 rows of ground stones dissecting the east half from the west half. These rows run N to S and each row is read left to right. These Rows are numbered 25 thru 28. Row #29 begins the fourth part where the rows again run from E T W in the northern half and W to E in the southern half. & This part consists of rows 29-55. Rows #56 thru #58 run N to S and are the last part of the St James Section.

PERRY TOWNSHIP. OLD ST. JOSEPH'S CATHOLIC CEMETERY

LOCATION: S 20. Entrance was from Richville Ave, now Walnut Road SE by way of a lane north of present Fay Street.

St. Joseph's officially became a parish in 1863 and some time later the cemetery was established.
