NORWALK CITY DIRECTORY

STREET LIST

EXPLANATION.

A colon (:) is used between the names of husband and wife; a semi-colon (;) between names of parent and children; two semi-colons (;;) between grandparents and grandchildren; a comma (,) between brothers and sisters; a dash (—) between the immediate family and more remote relatives or roomers.

Where a (;) follows a name of a woman it always indicates Mrs. or mother.

B means Bell Phone; L means Local Phone. The small letter immediately following or preceding the number should be used with the number in calling for the party by phone.

Where the family name is given first it indicates the residence.

Where the Christian name or initials are given first it indicates place of business.

With the exception of Gray street the odd numbers are on the left and even numbers on right side of streets. All streets are numbered beginning at end of street nearest the Court House.
