NEWSPAPERS

UBIQUITOUS

NOAH WEBSTER defines ubiquity as "existence everywhere at the same time." While the power is not given to mortals, its closest approach is given to you through the activities of such newspapers as these. The activities of men, the progress of events, the new discoveries in science, philosophy, invention, the latest revelations of art and letters, the manifestation of nature, all over the world are brought to you through the far-reaching facilities of the newspaper. In every land, on every sea, in the air and underneath the earth and waters, the newspaper gathers for you the news of the times, the lore of the past.

The wings of the wind, the flash of cinema, the spark of electricity

are all potent powers the newspaper employs to bridge time and space for your education and the most marvelous machinery evolved from the brain and ingenuity of man have been adopted and adapted to your service. News, editorials, advertisements, cartoons and illustrations all contribute to your fund of knowledge, your better living, your health, your gayety and the moulding of your mind and character.

And all for 3 cents per day. Such value and service is not to be purchased elsewhere in the world than is given to the subscriber of these newspapers.

Such value and service gains its own reward. It has been manifested in these papers by their rapidly growing circulation.

OSTEOPATHY

OSTEOPATHY

ADJUSTMENT
THE KEYNOTE

"OSTEOPATHY deals with the body as an intricate machine, which, if kept in proper adjustment, nourished and cared for, will run smoothly into a ripe and useful old age. As long as the human machine is in order, like the locomotive or any other mechanical contrivance, it will perform the functions for which it was intended. When every part of the machine is adjusted and in perfect harmony, health will hold dominion over the human organism by laws as natural and immutable as the law of gravitation. Every living organism has within it the power to manufacture and prepare all chemicals, materials and forces needed to build and repair itself, together with all the machinery and apparatus required to do this work in the most perfect manner."

East Liverpool, Ohio

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. POLK & CO. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertisements or subscriptions.

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or "get-rich-quick" concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

INTRODUCTION

The volume herewith presented constitutes the 1921 Edition of R. L. Polk & Co.'s East Liverpool City Directory. The work has been compiled with great care and the publishers feel assured that it comprises a full and complete epitome of the civic, social, commercial and industrial interests and activities of the city, and that the work will fully meet the requirements of its patrons and the public generally.

All features of the Directory embraced in former issues have been retained and improved upon where possible. The several departments of the Directory are arranged in the order following:

The Buyers' Guide, printed on tinted paper, is included in pages 5 to 30.

The Miscellaneous Department, pages 33 to 49, includes important data concerning city and county officials, public and private institutions, banks, cemeteries, churches, courts, hospitals and homes, libraries, schools, newspapers, parks, public buildings, halls, post office, railroads secret and benevolent societies and other information relating to every civic and social activity in the territory covered by the Directory.

The Street and Avenue Guide and Directory of Householders extends from page 51 to page 111.

The Alphabetical List of Names of citizens, business firms and corporations in East Liverpool, Chester and Newell, is embraced in pages 113 to 444.

The Classified Business Directory is included in pages 445 to 488; this feature of the Directory shows the various manufacturing, mercantile and professional occupations alphabetically arranged under headings appropriate to the class of business pursued.

EAST LIVERPOOL

THE POTTERY CENTER OF AMERICA.

By H. B. Barth, Secretary Chamber of Commerce

EAST LIVERPOOL is located in the heart of the Ohio Valley, which is appropriately called the "Work Shop of the World," and on the Lincoln Highway. It is 44 miles west of Pittsburgh, 47 miles north of Wheeling and 104 miles southwest of Cleveland, on the Central Division of the Pennsylvania Lines West. Settled in 1798. Incorporated as a city in 1889. The Federal Census of 1920 credited the city with a population of 21,839.

Directly across the Ohio River and connected by two all-steel suspension bridges and frequent trolley service, are the towns of Chester and Newell, W. Va. The first named with about 3,000 population and the latter about 2,000.

These adjacent towns, together with Wellsville, Ohio, and Midland, Pa., make East Liverpool the center of a population of about 40,000 people, with excellent interurban trolley connections.

Abundant fuel-bituminous coal of the famous "Pittsburgh" quality, natural gas from the West Virginia fields and electric power in unlimited quantity for manufacturing purposes from the largest generating unit in the world at Beach Bottom, W. Va., are other industrial advantages.

East Liverpool is known as the Pottery Center of America, has thirty-nine potteries making general ware and electrical porcelain, and is conspicuous for its 296 bottle-kilns projecting above the roofs of the buildings.

The entire United States forms the chief market, but large quantities are also shipped to Canada, Cuba, the Hawaiian Islands and South America.

The pottery industry of East Liverpool was founded by James Bennett, an English potter, in 1839, who

found clay in its hills, built a pottery, and manufactured yellow and Rockingham ware. The manufacture of white ware was introduced about 1879, and this was followed by the use of underglaze decorations.

While potteries constitute the chief industry, in addition there are two rubber plants, a steel mill, large machine works, three flint works and numerous small industries.

There is a modern Y. M. C. A., Carnegie Library, excellent schools, including a first-class High School and a Business College, good churches, two city parks, a thoroughly equipped City Hospital, motorized fire department and City Water Works, including a modern filtration plant, costing one-half million dollars.

THE EAST LIVERPOOL CHAMBER OF COMMERCE.

In every commercial and industrial community there is an organization of business men whose foremost ambition is to promote the natural advantages of the city to their highest stage of development and in advancing the civic ideals of the city. Such an organization is the East Liverpool Chamber of Commerce.

ADVERTISING EAST LIVERPOOL

Copies of this Directory are placed by the publishers in the Directory libraries maintained in the larger cities of the country, where they are accessible for reference. The advantage of this widespread publicity is obvious for there is no medium that contributes more to the development of a community than a clear exploitation of its resources and advantages which is one of the important functions of a Directory.

Secretary's Office, 125-135 Church St., New York City

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. POLK & CO. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertisements or subscriptions.

R. L. POLK & CO.

Secretary's Office, 125-135 Church St., New York City

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.

LAKE LINES

For Business and Pleasure Trips Use D & C Line Steamers

The Delights of a Lake Trip

REST after work is necessary to human endurance, and holidays are a wise economy. The Great Lakes of America offer more vacation opportunities than any other source in the country. The steamers of the Detroit and Cleveland Navigation Company operating to all important ports are unrivalled in point of elegance, comfort and quality of service—the perfect freedom offered by the saloon and promenade decks, the commodious state rooms, luxurious furnishings and excellence of cuisine make life aboard these floating palaces, a solace to the weary mind and body.

WHERE YOU CAN GO

Daily service is operated between Buffalo and Detroit, Detroit and Cleveland, six trips weekly between Detroit and Mackinac Island, the historic summer resort of the North Country, and from July 1st to September 14th a special steamer will be in commission between Cleveland and Mackinac Island, stopping at Detroit enroute every trip. During July and August special daylight trips between Detroit and Cleveland.

RAILROAD TICKETS AVAILABLE

Tickets reading via any rail line between Buffalo and Detroit, Detroit and Cleveland will be honored for transportation on D. & C. Line Steamers in either direction. Send 2 cent stamp for illustrated pamphlet and Great Lakes Map. Address G. P. A., Detroit, Mich.
