paper, among which were those of Henry O'Brien, A. A. Brewster, Frederick Brown, Arthur Sadler, David O'Brien, Dr. Israel Town and others, nearly all of whom were heads of families. July 11, 1842, an organization was effected and services were regularly held in the old brick academy until it was sold, when services were again held over Kent & Brewster's store. At a meeting of the Vestry on January 6, 1846, discussed the necessity of a church building; Rev. A. Phelps, the Rector, offered \$100 of his salary toward the object, and a building committee, consisting of A. A. Brewster, David O'Brien and Joshua Hertzell, was finally appointed. A lot on the public square was secured, plans were drawn by S. C. Porter, and the corner-stone laid by Rt. Rev. C. P. McIlvaine, D. D., Bishop of the Diocese of Ohio, in April, 1846. It was completed in five months, and the opening services conducted on the 25th of September, 1846, by Bishop McIlvaine. The church was free from debt; provided with an organ through the exertions of the ladies of the church and the liberality of Mr. Brewster, and a bell as the gift of D. H. Arnold, of New York. In 1847, Mr. Phelps resigned his pastoral charge of the church to engage in the church school, which had been in contemplation some time, preaching one-half the time until August 1, 1848, when Rev. T. B. Fairchild was again invited, and accepted. He continued with the church until 1856, when he again resigned, and removed from town. The pulpit was temporarily supplied by Rev. L. L. Holder until June 1, 1859, when Mr. Fairchild was a third time invited to preach here. He accepted, and continued until 1870, when he resigned to accept a call to St. John's Church in Kewanee, Ill. The succeeding Rectors have been Rev. Robert A. McElhenney, 1871-72; Rev. Albert B. Putnam, 1873-74, and Rev. S. W. Garrett, October 4, 1874, and the present incumbent. In 1849, the town clock was presented to the society by Mr. Brewster; in 1875, a new vestry-room was added, at a cost of \$350; in the winter of 1876, a cabinet organ was purchased for the Sabbath school at a cost of \$100; and in May, 1878, a new organ was purchased for the church at a cost of \$700. There are about one hundred members at present.

The St. Mary's Catholic Church of Hudson dates to about the year 1858, when the present

small place of worship was built. Before this date, the Catholics of this section were visited monthly by pastors resident in Cleveland. The first priest to locate in Hudson was Rev. P. H. Brown, who remained five years ministering to the wants of the few scattered and poor people he found professing his faith. Mr. Brown died in Cleveland in 1879. He was succeeded by J. Hannon, who held charge for nine years, when he moved to Youngstown. Rev. A. Paganini succeeded him but remained only a year. He is at present located at Eagle Harbor, Mich. In July, 1877, the present Pastor, Rev. P. H. O'Mara, took charge of this church. Improvements have been added under each succeeding Pastor, and to-day the little church building, though not a very imposing structure, is neat and comfortable. Cuyahoga Falls and Peninsula are also attended by the Pastor at Hudson. The members of St. Mary's Church are generally farmers, some of them among the most substantial in the county. The church has recently purchased three acres of land in the corporation for cemetery purposes.

The common school preceded the church in Hudson one year. This project needed no outside assistance, and was established in 1801. The work of the founders was eminently characterized by thoroughness, and Mr. Hudson is found, on his visit to Connecticut, purchasing a library for public use, fashioned upon the old custom of the East. He expended \$100, not an inconsiderable sum in that time, and on his return sold shares in his library among the settlers in Hudson, Aurora and Mantua. This library has long since passed away, but its natural successor still occupies its place in the community in a public library for the Union School, which was established in 1871. The first school building was a rude log structure, located on the east side of Main street, on the public green, a little below Mr. Buss' store. A second was built a little south of this, and subsequently a frame building was erected on the other side of the street but in the near vicinity. The first school was taught by George Pease and the second by Miss Patty Fields. The third was taught by Miss Amy Cannon, of Aurora, in the southeast quarter, near John Oviatt's residence. Among the early teachers are remembered Titus Wetmore, Martha Filer and Benjamin Whedon, the latter teaching in 1807. Schoolhouses were erected in various parts of

the township, as the convenience of the growing population demanded, until, in 1825, the Township Trustees divided the township into five school districts, the first at the center, second in the northwest, third in the southwest, fourth in the southeast, and the fifth in the northeast. In 1827, another district was added, in 1830 one more, and, in 1838, District No. 1 was divided and others erected, making a total of nine districts in the township. In 1855, the two corporation districts were united, under the law of 1845, and the joint district set off as an independent one. The schools were graded, Misses Sabin and Birge being the first teachers under the new dispensation. In 1857, another school building was erected at the end of the old brick house then in use in the southern portion of the corporation, and a third teacher added. Matters worked harmoniously in this way until 1863, when the north corporation district withdrew from the union arrangement. The State School Commissioner decided against the validity of this action and the two districts reunited. The school facilities did prove satisfactory to a large part of the citizens, and an agitation for a high school began to be made. In 1865, therefore, a lot, No. 13, was bought of Mr. Porter, on which to erect a suitable structure for school purposes. In 1867, \$5,000 was voted for a schoolhouse, but, on receiving plans and bids, it was found insufficient for the purpose, and \$1,500 more was asked for and granted by the people in 1868. The contract was let to G. W. Church, for \$6,225, and completed and accepted by the Board of Education on the 18th of November, 1868. The proceeds of the schoolhouses and the sale of part of the lot, supplied the board with additional funds for furnishing the schoolrooms. In 1871, the new building was found to be too small for the accommodation of the district. The Seminary building, on Baldwin street, was secured for a part of the scholars, and is still used, though the board is seriously considering the question of building a new house. The question in regard to the removal of the Western Reserve College has suggested the feasibility of securing one of the college buildings in case of their becoming vacant, has caused a delay in taking measures to secure a more suitable building.*

* Among the students of Hudson's common schools may be mentioned Rev. Leonard Bacon and John Brown, both of whom have gained a national reputation.

The intellectual activity occasioned by the presence of a college in the village has given rise to repeated attempts to furnish a school for that class of youth for which the college made no provision. The history of these efforts, and especially that which sought to establish a school for young ladies in Hudson is nearly co-extensive with that of the college. In 1827, Mrs. Nutting, wife of tutor, afterward Prof. Nutting, opened a school for young ladies, Mrs. Raymond, sister of Rev. Mr. Hanford, opening the parlor of her residence on what is now Aurora street, for the schoolroom. This was the pioneer effort in the cause of female education in Hudson. Prof. Nutting gave instruction in the higher branches of English study, and Mrs. Nutting in the common branches, embroidery, painting in water colors, etc. Her pupils were from the families of Rev. Messrs. Pitkin and Coe, Dr. Thompson, Esquire Brown, Capt. Ellsworth and others. There was also considerable patronage from neighboring towns. This school was continued with varying success for several years, and was finally superseded by a select school, opened in the building just south of Farrar's Block, by a Miss Eggleston, from New York.

About 1832, a small school building was erected by subscription on land which was owned by Rev. Mr. Doolittle, Capt. Oviatt and Judge Humphrey. In 1833, Miss Upham, sister-in-law of Rev. Mr. Doolittle, commenced a school for young ladies in this building. This school numbered thirty or more pupils, and was liberally patronized from abroad.

In 1834, H. H. Gross came from Connecticut and opened a school on Aurora street, which was well patronized and encouraged him to erect in front of his schoolhouse a brick building which has become generally known as the "Brick Academy." This was a two-story building with a basement, and was erected in 1835 at an expense of \$3,000. The basement was designed for a primary school, the first story for a boys' school, and the second story for a young ladies' department. This building was subsequently purchased by a joint-stock company of the citizens of Hudson, and was furnished rent free to the teachers who depended on the receipts from tuition for their salaries. This institution was styled the Hudson Academy. The first teacher in the female department was Miss Smith, who afterward married

Lyman Hall, Esq., of Ravenna. In 1840, Miss Eunice Towne was employed in this department, and taught for some time with great acceptance. Her successor was Miss Rebecca H. Dana, now Mrs. Atwater, of New Haven.

In the spring of 1843, Miss Mary Strong became Principal of the school, and brought to its management such distinguished ability that the school which at first numbered not more than twenty pupils increased in interest and patronage until it often numbered sixty or more pupils. In 1845, Miss Strong erected a two-story frame building on the west side of Main street. In the following year, she opened the spring term of her school in the new edifice and christened it Hudson Female Seminary, the old "Brick Academy" in the meantime falling into the hands of the corporation school board. The seminary remained under Miss Strong's superintendence until the spring of 1854, when her health failed, and the school was suspended. During the continuance of this school there were three female seminaries in Hudson; the "Hudson Young Ladies Seminary," by Mr. Grosvenor, and the "Seminary for Ladies," by Mr. Phelps, in addition to Miss Strong's school. These, save the latter, were boarding and day schools, and, for a time, received a liberal patronage from the towns on the Reserve.

The "Hudson Young Ladies' Seminary" was opened in 1843 by Rev. Mason Grosvenor, in a building on the east side of the public square. Mr. Grosvenor gave instruction in Latin and mathematics, and his sister, Miss Lucy Grosvenor, presided in the schoolroom and gave instruction in the common branches of study, drawing, painting, etc. In 1845, Miss Grosvenor married, and the school was discontinued until the autumn of 1846, when Mr. and Mrs. Skinner, from Massachusetts, re-opened it. The next spring Miss Charlotte Lee took charge of the academic department, and Mr. and Mrs. Messer of the boarding-house. The school continued until about 1852. The third of these seminaries was opened under the auspices of the Episcopal Church, in 1849, by Rev. Mr. Phelps. The building occupied as a schoolroom, is now occupied as a blacksmith-shop by Mr. Farwell, on Aurora street, the boarding-house maintained in connection with the school now being used by Mr. Farwell as his residence. Miss Dever was Principal of the academic de-

partment until 1851, when the school was discontinued.

In 1853, Mr. J. W. Smith prepared a suite of rooms in the third story of the Pentagon for school purposes, furnished them with improved furniture ordered from Boston, visited the seminary at South Hadley, Mass., and secured the services of Miss Elizabeth Burt, as Principal, and became personally responsible for the expenses of the school. This seminary was well sustained for about two years, when the general business failure in 1855 closed the school. In the fall of this year, an association of gentlemen, citizens of Hudson, was formed, who purchased the school furniture, rented and repaired the "Hudson Female Seminary" building, and sent to Mount Holyoke Female Seminary for a teacher. In response to this application, a Miss Everett came on and assumed the direction of the school. This lady lacked that "*suaviter in modo*," which is conducive of the highest success, and, at the expiration of the academic year, the association found itself in debt, and the school greatly reduced in num-

bers. Then came a time chiefly remarkable for the short tenure of office, on the part of the teachers. Not less than five had charge of the school in four years, and, though most of them were competent and efficient teachers, such was the depressed condition of things in Hudson that the school made poor returns for the labor expended upon it.

In 1860, Miss Emily Metcalf assumed the charge, and a few years later purchased the building, and moved it to its present site on Baldwin street. The course of study was enlarged, and the school, for the greater part of thirteen years, received a flattering patronage. The advance of the high school system, the general opening of colleges to women, were causes that began to make an unfavorable effect upon the seminary in Hudson, and in 1873, it was again suspended. After the lapse of an academic year, it was again opened by Rev. B. W. Hosford, whose daughters conducted it for one year, when it finally suspended. The building is now used by the Board of Education of the independent district of Hudson.*

CHAPTER XV.†

HUDSON TOWNSHIP—THE WESTERN RESERVE COLLEGE—ITS LOCATION AT HUDSON—EARLY SUBJECTS OF AGITATION—DIFFERENT ADMINISTRATIONS—PREPARATORY SCHOOL—LIBRARY, APPARATUS, ETC.—THE REMOVAL.

IN 1801, when there could not have been 1,500 inhabitants on the Reserve, a petition to the Territorial Legislature by Rev. Joseph Badger, the only minister on the Reserve, except one, and the only one from Connecticut, praying for a charter that steps might even thus early be taken to found a college. The petition was not granted, but the petitioners bided their time.

Ohio was admitted to the Union as a State in February, 1803. The first Legislature convened on the 1st day of March. On the 16th of April, an act was passed incorporating the "Erie Literary Society." The preamble of the act declares that: "Whereas, it has been represented to this assembly by certain persons associated under the name of the Erie Literary Society, that a number of proprietors of land

within the county of Trumbull are desirous to appropriate a part thereof to the support of a seminary of learning within said county, and that the intent of such donations cannot be carried into effect without the interference of the Legislature, by incorporating a Board of Trust for the reception and management of any property, real or personal, that may be given for said purpose and for the establishment and direction of such seminary, as soon as funds sufficient shall be collected—Be it enacted, etc."

The first name in the list of corporators is David Hudson, and the last Joseph Badger. Trumbull County at that time embraced the whole Reserve, and the population was probably less than three thousand. The intention of these Trustees was to establish an academy

†Compiled by J. H. Battle, from a history by President Carroll Cutler.

*The matter pertaining to the seminaries of Hudson has been compiled chiefly from a sketch prepared in 1868 by Miss Emily Metcalf.

or college, with President, professors, instructors, library and apparatus, and the act gave them full powers to hold property, erect buildings, have a common seal, fill their own vacancies, and do all those things usually done by such corporations.

The small and scattered population, wholly occupied in clearing the land, making roads and gaining a livelihood, could evidently do but little for the endowment or patronage of such an institution as yet. But they showed their wisdom and proved themselves true sons of Connecticut, by thus early taking steps to establish the higher institutions of education. Common schools were of course established in all the scattered settlements, as fast as the numbers of the population would allow. Social libraries were early founded in many places. The Erie Literary Society received some gifts of land, by way of endowment. With the avails of these lands an academy building was erected in 1805, at Burton, and in that or the following year, the school was opened—the first of its kind in Northern Ohio. This school was maintained more or less continuously until 1810, when the building was burned, as was supposed, by an incendiary. In July, 1806, Mr. William Law, of Connecticut, a large land owner on the Reserve, donated to the society 1,130 acres of land, to revert, however, to his heirs, if the college should ever be removed from Burton.

It had become obvious that the sparse population could not support an academical school continuously. After the loss of the building, therefore, the Trustees were slow to move for a new one. The war of 1812, came on speedily, and produced as serious an effect on the prosperity of the Reserve as on that of any other part of the country. The educational movement was retarded with all other good causes. After the war, in 1817, the Trustees determined to erect another building, and open the school so soon as a suitable instructor could be found. They resolved "that the Principal should be a graduate of some American College." In May, 1820, the school was opened under the instruction of Mr. David L. Coe, a graduate of Williams College, and continued in operation under its charter until 1834.

It is probable that the chief movers in the Erie Literary Society were the land-owners, with an eye to speculation; but their movement was earnestly seconded by the clergy. In February,

1817, the Presbytery of Grand River, which embraced nearly all the Presbyterian and Congregational ministers and churches of the Reserve, formed itself into a society "for the education of indigent, pious young men for the ministry, within the limits of the Presbytery." They say that, "considering the destitute situation of many churches and congregations among ourselves, as to the means of religious instruction and edification, and the great and increasing call for ministerial labors in many parts of our land and the world at large; considering that at the present day there is a call for special efforts according as God has prospered His people, to raise up men to go forth into the extensive fields which are now becoming white to harvest; and, considering the importance of some general plan of operation, whereby many indifferent places may be enabled to act in concert, and bring their small scattered sums into a common stock, that they may be expended to the best advantage; the Grand River Presbytery think it important to form a general society" for the purpose.

They adopted a constitution, elected Trustees and a Treasurer, and endeavored to stir up the people to form auxiliary societies. The next year, they published an address to the "friends of science and religion," urging them to enter into this work. Young men were already coming forward to avail themselves of the aid thus proffered. These beneficiaries pursued their studies privately with some one of the ministers, more commonly with Dr. Giles H. Cowles, of Austenburg; Rev. John Seward, of Aurora; Rev. Caleb Pitkin, of Charleston, or Rev. Harvey Coe, of Vernon. After the school at Burton was re-opened, they studied there.

In 1818, the Presbytery of Portage was erected, and also formed itself into an education society in the same manner. These societies held their annual meetings, and took annual collections. The urgent need for more ministers to supply the destitute churches, and do missionary work, led these two Presbyteries, in 1822, to appoint committees to confer together for the purpose of devising "ways and means for establishing on the Connecticut Western Reserve, a Literary and Theological Institution." The committee of Grand River Presbytery were Rev. Giles H. Cowles, Rev. Harvey Coe and George Swift; that of Portage Presbytery were Rev. John Seward, Rev. Joseph Treat and

Elizur Wright. These committees met at Warren on the 16th of April, 1822." The afternoon of the day preceding was, by recommendation of the Presbyteries, observed as a concert of prayer by the churches, that the blessing of God might attend the deliberations of the committees, and lead to a happy result. "On the 13th of April, the two Presbyteries held a joint meeting at Warren," to hear and consider the reports of their committees. The report, which was adopted, recommends the Presbyteries to establish a theological institution, on the foundation of the Erie Literary Society, located at Burton, Geauga County, provided the Trustees accede to the following conditions, to wit :

1. That the Trustees enact laws binding themselves.

(a.) To appropriate to the education of pious, indigent young men for the Gospel ministry all moneys that may be intrusted to them for this purpose.

(b.) To allow no person to hold the office of President in the institution who is not a member of some Christian church.

(c.) To allow no person to hold the office of Professor in the Theological Department, unless he shall subscribe to the confession of faith, which every Professor supported on the Associate foundation in the Theological Seminary at Andover, Mass., is required to subscribe.

(d.) To permit, while this connection continues, the managers of the education fund annually to examine into the progress of the institution, the state of said fund, and the manner in which it is applied.

2. That the Trustees give bonds to re-convey to the managers of the education fund, within one year after demanded by them, all such unexpended property, personal and real, as they shall have received from them.

The conditions were unanimously accepted by the Trustees. The Presbyteries, having been certified of the fact, proceeded to appoint a Board of Managers of the Education Fund. The Presbytery of Grand River appointed for this purpose Zalmon Fitch, George Swift, Rev. Ephraim T. Woodruff and Rev. Amasa Loomis. The Presbytery of Portage appointed Elizur Wright, Joshua B. Sherwood, Rev. Caleb Pitkin and Rev. Benjamin Fenn. This Board of Managers was to have perpetual succession, and to fill their own vacancies. They were to receive and convey to the Erie Literary Society,

agreeably to the conditions named, all property intrusted to them for the education of pious and indigent young men for the sacred ministry, annually to visit the institution to examine into its state and progress and the application of the education fund, and to attend to such other business as shall by them be deemed necessary to promote the great objects of educating young men for the Gospel ministry. They were also to make a report annually to each Presbytery.

At this joint meeting at Warren, the Portage Presbytery appointed a committee to prepare and publish an address on the subject of education. This committee consisted of Rev. Messrs. Pitkin, Seward, Curtis and Stone, Mr. Benjamin Whedon and Mr. George Swift. They issued an urgent and spirited appeal "to the patrons of literature and religion, on the subject of establishing a literary and theological institution in the Connecticut Western Reserve." They say that, "as considerable delays must be occasioned and expense incurred by the formalities of obtaining a separate act of incorporation, and as ample powers and privileges were already given in the charter of the Erie Literary Society, it was judged expedient both to save time and money, and to preserve unity of design and harmony of feeling, to erect a theological department on the foundation of that charter.

The connection thus formed between this Board of Managers and the Erie Literary Society "continued a little more than two years, until June 3, 1824. In the course of the year 1823, the Managers became convinced that an institution equal to their desires and expectations and to the necessities of the public could not be built up at Burton. They, therefore, requested the Trustees of the Erie Literary Society to remove their establishment to a more eligible situation. The request was, at several meetings of the Trustees, fully discussed and ultimately rejected." The ground of this discouragement at Burton and effort to remove the institution, according to the testimony of many persons, was the supposed unhealthiness of the place. It is probable, also, that there was a desire to place the college nearer the center of the Reserve. During those years, Burton had been visited with very severe and fatal sickness, so as even to break up the school for a time. The effort of the Managers to in-

duce the Trustees to remove the institution to a more eligible situation, and "preserve the unity of design and harmony of feeling," fully proves that there was no discord between the boards on any other subject, and that they were willing to continue their co-operation. The unwillingness of the Trustees to accede to the request of the Managers is adequately accounted for by the fact that the Board held lands which must revert to the donors or their successors if the college should ever be removed from Burton. Those of the Trustees who were especially interested in that part of the Reserve doubtless believed also that the unhealthiness was merely temporary, which, indeed, proved to be the case. The academy at Burton was popular and useful for some years, after the withdrawal of the Managers, when the sickness which proved to be incident to the newness of the country had passed away.

"The managers applied to the Presbyteries to appoint four commissioners, two ministers and two laymen, from each, to meet at Aurora on June 2, 1824, for the purpose of consulting and advising as to the course which the Board of Managers shall pursue under existing circumstances." The Presbyteries complied with the request. The Presbytery of Grand River appointed Rev. Giles H. Cowles, Rev. Joseph W. Curtis and Mr. Titus Brockway; the Presbytery of Portage appointed Rev. John Seward, Rev. Joseph Treat, Mr. David Hudson and Mr. Lucretius Bissell; the Presbytery of Huron, which had been formed by dividing that of Portage, since the Board of Managers had been constituted, appointed Rev. Simeon Woodruff, Rev. Israel Shailer and Mr. Harmon Kingsbury. The Board of Managers met with these commissioners. At this meeting it was determined to discontinue the connection with the Erie Literary Society, and try to establish a separate institution. It was also resolved that it was expedient to request the Presbytery of Huron "to appoint four persons—two ministers and two laymen—who, together with the Board of Managers, should constitute the Board of Trustees for the contemplated institution." It was resolved to recommend the Presbyteries to appoint four commissioners each, to locate the institution, who should meet at Hudson on September 22, "and come to a decision as soon as practicable."

The Presbyteries approved of this action, and

appointed their commissioners, from Grand River, Revs. Giles H. Cowles and Harvey Coe, Mr. Abraham Griswold and Mr. Eliphalet Austin, Jr.; from Portage, Revs. John Seward and Joseph Treat, Col. Lemuel Porter and Mr. John H. Whittlesey; from Huron, Revs. Alfred H. Betts and Lot. B. Sullivan, Mr. Samuel Cowles and Mr. David Gibbs. These commissioners were directed in making their decision "to take into view all circumstances of situation, moral character, facility of communication, donations, health, etc." The principal places which competed to secure the location were Burton, Aurora, Euclid, Cleveland and Hudson. After several meetings at different places, the commissioners, in January, 1825, decided in favor of Hudson. The amount of the subscription at Hudson to secure the college was \$7,150, of which \$2,142 was contributed by Mr. David Hudson. In the competition between different locations within the town, Mr. Hudson gave 160 acres of land to secure it for the place it now occupies, rather than have it put half a mile south of the center of the town. The Presbytery of Huron now added to the Board of Managers, as they had been invited to do, the names of Rev. Simeon Woodruff, Rev. Stephen I. Bradstreet, Hon. Henry Brown and Mr. Harmon Kingsbury.

This Board of Managers, now called Trustees, held their first meeting at Hudson on February 15, 1825. They approved of the report of the Commissioners for locating the institution, made arrangements for erecting a college edifice, appointed Benjamin Whedon Treasurer, and David Hudson, Owen Brown and Heman Oviatt a Committee of Agency, to superintend the work of building. They also adopted a confession of their religious faith, and elected Rev. John Seward and Mr. Samuel Cowles members of the board. They began their efforts to procure funds, prepared a draft of a charter to be presented to the Legislature, and of a petition in favor of the charter, to be circulated for subscription on the Reserve; appointed Hon. Henry Brown "to procure the granting of the charter by the Legislature" at its next session, adjusted the lines of the college plat, procured deeds of the ground, drew up a detailed plan of the first building, and decided upon the mode of laying out the campus. Their plan was to erect the buildings in a line from north to south, on the height of ground where they

now stand, but facing toward the east; in front of the buildings, a street sixty feet wide was to be laid out, and on the east side of it, facing westward, were to be erected the houses for the President and Professors. Middle College was accordingly built facing eastward. The plan was changed for a west front in 1828, and the present location for Professors' houses was selected.

It is said that the effort to secure a charter encountered severe opposition in the Legislature, especially on account of the religious character which the institution was likely to bear. The names of the corporators contained in the petition were those of seven clergymen and seven laymen. There were men in the Legislature of infidel sentiments, who were unwilling that education should be so much under the influence of the clergy. These men so modified the draft of the charter asked for as to exclude all religious instruction from the college. It appears, also, that they made determined opposition to two names among the corporators, so that these had to be dropped. This is said to have been on account of personal hostility. Rev. E. T. Woodruff and Rev. Amasa Loomis had been appointed Managers of the Education Fund by the Presbytery of Grand River, and their names must therefore have been in the list of corporators in the petition, but they are not found in the charter. By some means, also, the name of Samuel Cowles was replaced by that of David Hudson. The corporators were thus seven laymen and five clergymen.

A copy of the charter thus amended was sent to Mr. Hudson, who laid it before Mr. Pitkin. Mr. Pitkin immediately started on horseback, in midwinter, for Brownhelm, and rode from there with Judge Brown to Columbus, to prevent the passage of this charter and secure an acceptable one. After laboring earnestly together for some time with the opponents, Judge Brown, seeing the situation, said to Mr. Pitkin: "You had better go home and leave me to manage this matter. This is a thing which sinners can manage best." Mr. Pitkin returned home, and Judge Brown secured, if not the charter asked for, at least an acceptable one—we trust not by sinful methods. The charter bears date of February 7, 1826. This was the fifth college chartered in the State, not counting the Erie Literary Society.

In accordance with the charter, the Trustees

met at Hudson on the 1st of March, 1826, and organized by electing Rev. Caleb Pitkin, President; Rev. John Seward, Vice President; Rev. William Hanford, Secretary; and Benjamin Whedon, Treasurer. They went immediately forward in their work with the greatest energy and harmony. They closed contracts for the building, fixed the proper forms for their business transactions, appointed agents to solicit funds, adopted a common seal, elected a prudential committee and determined their duties, appointed a committee to prepare by-laws, and "a committee to prepare a condensed history of the origin" of the college, and attended to their duties as managers of the education fund of the Presbyteries. Preparation of materials had been made during the previous winter for the new building, and under the superintendence of Mr. Heman Oviatt, the foundation was ready in April. On the 26th of April, the corner-stone was laid with great ceremony in the presence of a large assembly. It was a warm June-like day. A procession was formed at Mr. Hudson's house, and moved to the meeting house, where there was prayer and singing. The procession then moved to the college campus, where an address was delivered in Latin by Mr. Pitkin, and the stone laid with Masonic ceremonies. The procession then returned to the meeting house, where Mr. Bradstreet delivered an address on the principles which actuated the Trustees in the work they had undertaken.

Owing to innumerable hindrances and embarrassments, the building was not completed until August, 1827. But the work was thoroughly and substantially done, as is proved by the fact that, with very slight repairs, old Middle College did service until the summer of 1875, when it was thoroughly repaired within and without.

In the summer of 1826, a cabinet and a library were begun, the first books and minerals having been presented by Rev. Judah Ely. On the 22d of September, Mr. David L. Coe, a graduate of Williams College and an excellent scholar, "was appointed Tutor *pro tempore*, and authorized, if application should be made, to examine and admit those whom he should find qualified into a Freshman class, and to take the class under his particular care and instruction. Mr. Coe had been Principal of the Burton Academy from 1820 to 1824, and was now

teaching in the Academy at Tallmadge. He was not required to remove to Hudson because the building was not yet complete, and he could perform his office as Tutor while teaching the Academy. In December, he admitted to the Freshman class in college, Ellery Bascom, Charles M. Preston and Oren C. Thompson, and took charge of their studies during the year.

Thus the college was established, and was actually carrying forward in 1826 the work of building and the work of instruction. In the autumn of 1827, the first building was completed here and filled with students. In the catalogue of that year are found Sophomore and Freshmen classes, a preparatory class and students in a partial course, under the instruction of Mr. Ephraim T. Sturtevant, a graduate of Yale College.

It is astonishing with what energy the Trustees took hold of their work so soon as they secured their charter. The Trustees of the Erie Literary Society had made very little effort to establish and carry forward the college. Mr. William Law had made a donation of 1,130 acres of land for the college at Burton, but it does not appear that any effort was made for further endowment until after the managers of the education fund had united with them. The supposed unfavorableness of Burton as a location for the college and the consequent attempt to secure its removal, doubtless restrained the managers from any great exertion to increase the endowment while it remained there. They did, however, secure some donations of land and of money. But so soon as the college was located at Hudson, its Trustees and friends most earnestly and systematically began to canvass the Reserve and sent agents to the East to raise the means requisite to build and support instructors. Mr. Pitkin, Mr. Kingsbury and Mr. Coe, of the Trustees, labored especially in this work. A good deal of this kind of service was also performed by Rev. Daniel W. Lathrop and Rev. George Sheldon. A number of others, both clergymen and laymen, as much interested in the success of the college as its Trustees, engaged in agencies for short periods as special services were needed. Mr. Pitkin, who was President of the Board, seems to have been employed almost exclusively in some form of agency from January, 1826, until August, 1843. His devotion to the college, and that of all those early Trustees, was

most hearty and self-sacrificing. They never spared time, labor or expense when the interest of the college required their services. They would attend meetings of the Trustees or Prudential Committee four or five times a year, coming some of them fifty or sixty miles, through the horrible roads of a new country, with their own conveyances, and remaining from two to six days together in earnest council and action.

This unreserved devotion and indefatigable energy could not but secure them all the success which the nature of the case permitted. The country was yet very new and though population was increasing rapidly, there was yet very little acquired wealth; money was extremely scarce, access to markets difficult and the people still mostly engaged in the rough work of the pioneers. The contributions, therefore, were made chiefly in land which bore a very low price, or in cattle or in some form of merchandise which required much care, energy and prudence, to work them over into college buildings and professors' salaries. This kind of donations, from the nature of the case, lasted a long time, and was a great source of perplexity and embarrassment down to the close of President Pierce's administration. This is not to be thought of as a discredit to the donors in any respect. On the contrary, it was greatly to their credit that with so little of ready means, the people had such a sense of the importance of higher education, that they would give, though their gift might be small and of a kind not easily convertible. Thus, the college received donations of land and sold it for stone, lumber or labor. Mr. Pitkin received two-thirds of the compensation for his services in kind. Tutor Sturtevant received a part of his salary in board and washing. Mr. Daniel Metcalf, in 1827, gave the college \$450 in goods. In looking over the list of donations, many are found to have come in very queer forms. This "store pay," and what was worse, no pay, the Trustees and Faculty knew a great deal about for many years. These difficulties which met the Trustees at the beginning were inevitable. They foresaw them, of course, and being all hardy pioneers and pioneer missionaries they were never daunted by them.

The idea of a college which these men entertained, was of such an institution as they had been acquainted with and had enjoyed the

advantages of in New England. The Western Reserve was a second New England in all her interests and aspirations, especially as pertained to education and Christianity. All the clerical members of the board were college graduates—four from Yale, two from Williams and one from Dartmouth; of the lay members Mr. Elizur Wright was a graduate of Yale, and Judge Brown had been a student at Harvard; the rest were Connecticut men familiar with the organization, spirit and noble record of Yale College. The other ministers who so earnestly aided and encouraged the work of founding the college, from Father Badger's first petition for a charter in 1801, were almost all graduates of New England colleges. The people of the Reserve were mostly Connecticut people. They honored and loved those institutions, and believed that a college, which was to do the same work for the sons of New England, transplanted to a new soil, ought by all means to be of the same type, and should aim to be of the same rank. This explains how they came to speak of their college as the Yale of the West. The Reserve was very commonly called New Connecticut, both here and in New England; it was like in manner and for the same purpose to have its college, and it was both natural and probably wise, to pattern after that old college they had known and revered so well.

The instruction for the year 1827-28 seems to have been given entirely by Mr. Sturtevant. Mr. Hanford, then Pastor of the church in the village, and Secretary of the Trustees, was appointed to superintend the students, but it does not appear that he gave any instruction. In March, 1828, Rev. Charles Backus Storrs, then pastor of the church in Ravenna, was elected Professor of Sacred Theology. He accepted the appointment and entered upon his office in December, 1828. It does not appear that theology, beyond what forms a part of the course now, was taught at that day in the college, nor that there were special theological students here until 1831. But this chair was filled first on account of the prominence of the idea that the college was planted in order to raise up ministers for the destitute churches. Mr. Storrs probably instructed in mental and moral science, and the evidences of Christianity. Rev. Rufus Nutting, a graduate of Dartmouth College, was engaged in August, 1828, to give instruction for the fall term, and finally engaged for

the entire year. In March following, he was appointed Professor of Languages, and Mr. Elizur Wright, a graduate of Yale College, was appointed Professor of Mathematics and Natural Philosophy. In August, 1830, Rev. Beriah Green, a graduate of Middlebury College, was appointed Professor of Sacred Literature, and the theological department was established.

After many efforts to secure a President, Prof. Storrs was finally persuaded to accept that office in August, 1830. He was in all respects admirably qualified for it, except in the matter of bodily strength. He was born at Long Meadow, Mass., in 1794, descending from a long line of able and scholarly ministers. He had not graduated at any college, but had nearly completed the junior year at Princeton with the highest rank as a scholar, and distinguished alike for talents and diligence, when ill health compelled him to abandon his studies. After a time devoted to the restoration of his health, he studied theology in private, was licensed, and preached a year, when he was again compelled by feeble health to abandon labor. In 1817, he entered the theological seminary at Andover, and passed through the regular course of study there, after which he went South and labored as a missionary in South Carolina and Georgia. Again interrupted by poor health, he traveled northward through Ohio in 1822, and accepted a call to the church at Ravenna, where he labored with great success until he came to the college. He was very retiring, unselfish, unambitious, with a very deep and earnest religious devotion, inflexible in his adherence to principle, solid, acute and comprehensive in thought, greatly loved and revered by all the students, of wonderful eloquence as a preacher. As a theologian, he was of the school of President Dwight. His ill health had doubtless tended to make him more a man of reflection, and to heighten those qualities which excited the love and reverence of all who knew him. He was a quiet, unassuming man of power, suited to make deep and lasting impressions upon all who came under his instruction.

Mr. Sturtevant left the township in May, 1829. Mr. Charles M. Preston, of the Class of 1830, was tutor in 1831-32, and Mr. Ralph M. Walker, of the Class of 1832, did excellent service as tutor from 1832 to 1835. The first Faculty was at length organized, with two pro-

fessors and a tutor in the academic department, and two professors of theology. The institution was thus fully under way, but destined to encounter severe trials speedily. The few years which succeeded 1830 were years of great excitement upon most weighty questions respecting the internal management of the college, which arose here as they did almost everywhere else. The first was, whether so large a use of heathen authors, as they were called, in the course of study, was necessary or right; the second was respecting the manual labor system.

In regard to the former question, after considerable agitation, a committee of the Faculty was appointed to examine and report on the subject. In August, 1834, this committee presented an able and sensible report, taking the ground on which the college had always stood in favor of the classics, but recommending the study of the Bible also in the original languages. The discussion was carried on with much earnestness among the students and friends of the college, but good sense prevailed, and the classics in fact always retained their accustomed place in the course of study.

The manual labor system was, at that time, a fashionable hobby all over the land. The Presbyteries of Grand River and Portage, in their capacity as Education Societies, had, in 1822-23, by resolutions "recommended to the managers of the education fund, to adopt a system of manual labor for all students under their care, and that the avails be applied for the support of those students by whom the labor is performed.

In March, 1830, the Trustees resolved "that they deem it expedient that the students in this college, during term time, labor for exercise and the preservation of health, either in agriculture or some of the mechanical arts, at least two hours every day, except the Sabbath, according to regulations hereafter to be made, and that it be recommended to all students now connected with the college, and required of all who shall hereafter become members, to labor in conformity with such regulations, except in extraordinary cases, of which cases a committee appointed for the purpose shall determine."

To carry out this system, the college provided three workshops—a cooper-shop, cabinet-shop and wagon-shop—and a farm for those

who preferred that kind of work. They even went so far in 1837, as to consider the expediency of opening a blacksmith's shop. These shops and the farm were provided with tools and superintendents, and an earnest and persevering effort was made to carry out the plan successfully. At one time, the students formed a mechanical society to carry on work, and had a standing advertisement in the *Ohio Observer* of their cabinet wares. A steam engine was procured for the shops. No care or expense seems to have been spared. But the students, like so many other people, proved to be disinclined to manual labor. Very few had any knowledge whatever of the use of tools, and many had no capacity to learn to use them skillfully, especially as the inclination was wanting. The wares were found to be rude, ill-jointed, unworkmanlike and hard to sell. Many, for various reasons, got relieved from the requirement to labor, and an invidious distinction grew up between the workers and the non-workers. It even turned out that this unwilling labor was not beneficial to health. Gradually, after many shifts, one part of the system after another was reluctantly given up, until the whole was abandoned. The last lingering ray of it is found in the catalogue for 1851-52.

But greater questions than these agitated the college. About the time of founding the college, the slavery question began to agitate the country. It was in 1829 that Garrison came out boldly and decidedly in the advocacy of the immediate and unconditional abolition of slavery. He went on to attack the scheme of colonization as affording no remedy for the evil, and its advocates as enemies of the slave and real supporters of the system of slavery with all its horrors. The *Liberator* first published in 1831, quickly aroused the whole nation North and South. Many men of keen, moral sensibilities took up the cause of the oppressed with great fervor, and with true martyr-spirit were ready to sacrifice everything—to make all other questions and all other interests subordinate to this one. The *Liberator* found its way to the Western Reserve; it came into the hands of President Storrs, of Profs. Wright and Green, and into the hands of the students. Its arguments and appeals were here "like good seed sown on good ground." One of the students who had recently had an

interview with Garrison, and had brought a package of documents and copies of the *Liberator* to distribute in the college, calling on President Storrs "and, seeing the *Liberator* on his table, asked the slow-spoken, sedate thinker what he thought of Garrison's writings on slavery. The answer was, "I do not see how they can be refuted." President Storrs and Profs. Wright and Green immediately became ardent advocates of Garrison's views, and lost no opportunity to proclaim and defend them. They were able and eloquent men, and their advocacy had great influence in the community. In 1832, Prof. Wright began to write in the *Observer and Telegraph*, then published at Hudson, against colonization, and in favor of abolition. These articles aroused a great deal of opposition with some and great favor with others. In the summer of 1832, Profs. Wright and Green sent for Mr. Amos P. Hawley, of the sophomore class, and requested him to prepare a colloquy to be spoken at the ensuing commencement, and gave him for the subject of it "The Recaptured Slave." The colloquy was successful. At the opening of the next term, the question of negro slavery and its relations to colonization became prominent subjects of discussion among the students.

On the 8th of May, 1833, President Storrs and Prof. Green delivered addresses at the annual meeting of the Tallmadge Anti-Slavery Society. President Storrs spoke nearly three hours with great power. It was his last work. He had always been feeble in body, but now his lungs were seriously affected, and this great excitement and over-exertion prostrated him. On the 26th of June he received leave of absence for six months that he might travel and recruit his health. He went to Braintree, Mass., to the house of his brother, the Rev. R. S. Storrs, where he rapidly declined and died of pulmonary consumption September 15, 1833. Prof. Green received a call to the Presidency of the Oneida Institute, at Whitestown, N. Y. He resigned his professorship and left Hudson in June. Prof. Wright resigned at commencement in August. Thus only Prof. Nutting and Tutor Walker were left of the old Faculty.

When Profs. Green and Wright resigned, conservative people rejoiced, and declared that they had been dismissed by the Trustees and their course, and all their opinions on this sub-

ject, condemned. This was not true. There is no intimation of anything of the kind in any of the records of the college. Prof. Green declared it to be false in a letter to the *African Repository*. He resigned only because he deemed it his duty to accept his call to Whitestown. Prof. Wright, in a letter to the *Observer and Telegraph*, dated Hudson, September 9, 1833, says: "My resignation was produced, not by any attitude the board had assumed or was likely to assume, but simply by an invitation to another field of labor." The effect, however, of this year's transactions and of the misunderstandings which grew out of them, on the prosperity of the college was very great, and continued for a long time.

This was a reformatory era in other respects also, and the students were thoroughly impregnated with the spirit of it. They entered with ardor into the temperance movement under the lead of the Faculty. They had their Temperance Society, made investigations and published their reports. The Society of Enquiry entered into what was called the moral reform movement. They had a standing committee on lewdness, and published a lengthy report on the subject. In 1834, they formed what they called a "Magdalen Society," in defense of the seventh commandment, in sympathy with Mr. McDowell and his movement in New York. One of the students prepared and published a tract on the subject for general circulation. The young men went abroad lecturing on this subject also. They seem to have felt the moral burden of the world resting heavily upon their shoulders, and they were determined to discharge their responsibilities manfully. We cannot but admire their devotion to duty, as they understood it, and to righteousness. But it is difficult to imagine the students of the present day going about the country lecturing on slavery and the seventh commandment, however much they may debate any and all subjects of present interest in college.

On the 13th of July, 1831, the college church was organized with twenty members. Seven other persons joined the church on the same day. The reasons for forming a separate church are not stated in the record, nor is it known who were the chief movers in the matter. It is probable that the founders had before their minds the example of Yale College and Andover Theological Seminary. The college church

has been greatly blessed with frequent and powerful revivals from the first down to the present year, though the effect of these revivals is but partially seen in the membership of the church. Many young men born into the kingdom here have preferred to unite with churches at their homes. The church now unites with the village church in preaching services, maintaining, however, in all other respects, an independent organization.

The financial condition of the college, up to the close of President Storrs' administration, had been steadily improving. At the time the charter was obtained, the property in the hands of the Trustees amounted to about \$10,000. At the close of the year 1833, all the receipts from donations had amounted to about \$54,000. There had been expended for grounds, buildings, including Middle and South College, the President's dwelling-house,* the work-shop, etc., \$14,600; for agencies, instruction, library, apparatus, etc., probably about \$17,000. The funds in hand, therefore, aside from the buildings, grounds and appliances for instruction, were a little over \$22,000. Besides this sum in actual possession, more than \$32,000 had been subscribed, which, for various causes, was never paid, though there was then good reason to expect that it would be paid. President Storrs himself devoted very little of his time to financial affairs; he had not the health, and probably not the inclination for very much work of that kind. He was a student, a teacher and a preacher.

After commencement in 1833, the first work of the Trustees was to fill the chairs made vacant by death and resignation. The instruction for the succeeding year was provided for by the appointment of Mr. Clement Long, Instructor, and Mr. William C. Clark, Tutor, both graduates of Dartmouth College. In November, Rev. Nathaniel S. Folsom, a graduate of Dartmouth, was elected Professor of Sacred Literature, to succeed Mr. Green, and probably entered upon his work immediately. In March, 1834, Mr. Long was elected Professor of Intellectual and Moral Philosophy. The chair of Mathematics was not filled until 1835, when Mr. Jarvis Gregg, also a graduate of Dartmouth, accepted an appointment to it; the work meantime was per-

formed by Tutor Walker. Rev. George E. Pierce was elected President in March, 1834, but did not enter on his office until commencement. The college year 1833-34, was, therefore, an interregnum; but there was the same number of instructors as during the previous year, and the work went on probably with more calmness after the first anti-slavery excitement was over.

President Pierce was a Connecticut man, a graduate of Yale College in 1816, had taught an academy two years, studied theology at Andover, and had been a most successful Pastor of the church at Harwinton Conn., for twelve years. When he entered upon his office as President, he was just forty years of age, with good health and great animation, and his spirit and energy were immediately felt in everything. He was deeply imbued with the Connecticut idea of a college, and he kindled anew the determination to carry it out speedily and thoroughly. He immediately began the effort to increase the endowment, to erect new buildings, to establish new professorships, to elevate the standard of scholarship, to increase the library and apparatus for instruction.

The Trustees were ready to follow such a leader, and to support him in all his projects. The building of the chapel was begun early in 1835. President Pierce appealed, through the *Ohio Observer* and the *New York Evangelist*, to the friends of the college to contribute \$50,000 to increase its resources, and agents entered on the work of raising the money. There was an obvious and decided improvement of college affairs in all respects. The number of students increased, the requirements for admission were raised, the course of study was made much fuller, fences and grounds were improved, trees were planted in the college campus and on the streets. Everything showed that a man of taste, force and high ideal and decided views was at the head.

The work went forward with great rapidity. In 1836, the chapel was completed and dedicated at commencement, with a sermon by President Pierce. In the same year, Rev. Laurens P. Hickok, a graduate of Union College, came as Professor of Theology, the work of that department having been performed during the interim since President Storrs' death by President Pierce. After the accession of Prof. Hickok, President Pierce gave instruction in

* South College was built in 1830-31, at a cost of about \$5,000. The double-house for the President and Professor of Theology was built in 1830.

other branches of theology. Prof. Folsom having resigned, Prof. Elijah P. Barrows, a graduate of Yale College, came, in 1837, to the Chair of Sacred Literature. With this enlargement of the theological faculty, North College was built in 1837-38 for the use of divinity students. Prof. Gregg served but a part of a year in the Chair of Mathematics and Physics, and was then transferred to the Chair of Homiletics and Pastoral Theology. His sudden and premature death in less than a year from his first appointment was a serious loss to the college, for he was a man of fine scholarship, of great promise, greatly beloved by the Faculty and students. The Chair of Mathematics and Physics thus made vacant was immediately filled by the appointment of Mr. Elias Loomis, a graduate of Yale College, who went to Europe for a year's study and travel, commissioned also to procure books for the library and apparatus for the department of physics and instruments for the observatory. He brought to his chair great abilities and enthusiasm in his department and power of work. Under his guidance the mathematical part of the library and the apparatus were considerably increased, and, in 1838, the observatory was erected and admirably equipped. In 1838, Dr. St. John, a graduate of Yale College, was appointed Professor of Chemistry and Geology, and a large apparatus for that department was procured. This led to the erection of a new building for the accommodation of the two departments of physics and of chemistry and geology. This building, called Atheneum, was not completed, however, until 1843. Meantime, in 1840, Rev. Henry N. Day, a graduate of Yale College, had been added to the Faculty, taking the chair of Homiletics and Pastoral Theology; and in the same year Mr. Nathan P. Seymour, also a graduate of Yale College, had taken the Chair of Languages vacated by Prof. Nutting. In February, 1844, a modification of the charter was procured from the Legislature so as to allow the establishment of the medical department in the city of Cleveland. A course of medical lectures had been begun in Cleveland in the autumn of 1843 by Dr. Delemater and his distinguished associates. The department was fully organized, and the first class graduated in March, 1844.

It is evident that during the first decade of President Pierce's administration, there had

been a great enlargement and improvement of the institution. Three large, convenient and substantial edifices had been erected, and an astronomical observatory had been built and equipped. The Faculty had been increased from four to eight members, besides tutors. The number of students had increased from 83 to 140; the apparatus and library had been enlarged; the requirements for admission and those for graduation greatly increased; a new and flourishing department added. The Faculty which President Pierce gathered was composed of men distinguished for learning, general ability and teaching power, men who would have given honor and distinction to any institution. He showed himself to be an admirable judge of men. Not only did the broad foundation of the college seem to have been laid, but the Connecticut ideal seemed to have been actually realized. It was almost to the minutest particular a faithful copy of Yale College.

During the second half of President Pierce's administration, the financial difficulties of the college increased until they became well-nigh overwhelming. The causes of these difficulties were two—first, what seemed to be unwarrantably large expenditures for buildings and instruction; and, second, the opinion of some, whether well or ill founded, that the managers of the funds was not so careful and prudent as it should have been. The four buildings erected during the first half of President Pierce's administration, viz., the Chapel, North College, Observatory and Atheneum, cost but little above \$22,000, or the actual fund inherited from President Storrs' administration. If the question were asked whether these buildings were all necessary, we should have to reply that the plan on which Yale College was conducted was adopted here as the sum of all wisdom in such matters. The plan required abundant dormitories and a separate church—all the appliances for a community complete in itself, and separated from the rest of the world. It is easy now to find fault with the plan, and to point out other less expensive methods which have proved successful elsewhere. But the buildings then erected have proved very useful ever since, and are indispensable according to that plan. If we look at the expenditure for instruction, it certainly cannot be said that the salaries of the Faculty were ever large, and if we consider how much the President and

A. Sumner

Professors contributed to the fund of the college out of their salaries, it will be acknowledged that they were quite inadequate to their support. But even these small salaries, under the pressure of the circumstances, were often paid in a manner which made them by no means equal their nominal value. Seven hundred dollars was the highest salary paid to any one except the President, who received \$900; and President Pierce often gave out of this \$200 a year to the college, and the Professors were in general equally liberal in their donations. Indeed, it is doubtful if any college was ever served by such able men for so meager stipends. The number of the Faculty was such that the salaries of all, with that of the Treasurer, amounted from \$3,500 to \$7,500 a year. If the number of the Faculty should be drawn into question as unwise and unnecessary, the answer is easy, that it was the plan to have the institution a real college of the highest order; it must therefore be fully manned by able scholars and teachers. If the number of students was as yet small, it was reasonably expected that they would increase as the population grew, and that an able Faculty would attract students. Indeed, the number of students was increasing, and the learning and ability of the Faculty did establish for the college the highest reputation, until the operation of the second cause mentioned led on to the most serious disasters.

It has already been said that the financial necessities of the college kept President Pierce in the field as an agent a large part of the time for several years. His self-sacrifice and devoted labor in this hard and unpleasant task, we should think, have rarely been equaled; but, with all his toil, to make ends meet, it was impossible. As early as 1836, the college had a debt of \$6,000, though the nominal assets were \$60,000. But these assets were largely subscriptions, many of which, after years of waiting, finally failed altogether; others were land, or other property, which could not then be wisely converted, or converted at all without serious loss. This state of things continued—the expense going on, which must be met with ready money—the assets, however much they might be nominally, never answering to their face, and hard to bring into usable form. The debt steadily increased, until, in 1846, it stood at \$35,000, and the assets at \$38,000.

The annual deficit at that time was such that five years more would consume all the assets in hand, and leave only the fixtures and the debt. The difficulty in paying the salaries of the Professors, and the sacrifice required of them, led to the resignation of Prof. Hickok and Prof. Loomis in 1844, the former being called to the Chair of Theology in Auburn Seminary, and the latter to the Chair of Mathematics and Physics in the University of New York. This was in every respect a most serious loss to the college. But it was not to be expected that such men would submit to so much perplexity in the matter of support when they could do the same work elsewhere in more comfortable circumstances. Their places were, however, speedily filled, and the college went on doing its solid work, maintaining its high scholarly and literary character, but groaning under its financial burdens. Prof. Hickok's place was filled by the transfer of Prof. Long to the Chair of Theology; Prof. Loomis', by the appointment of Mr. James Nooney, a graduate of Yale College. Prof. Long's chair was filled by the appointment of Rev. Samuel C. Bartlett, a graduate of Dartmouth College.

In view of the failure of pledges and the depreciation of property, the board resolved, in 1845, to enter on an effort to raise \$40,000 to replace the losses and pay the debts. This subscription was completed in 1848. They immediately began a new effort to add \$60,000 to the permanent fund, the entire sum to be raised by January 1, 1850. This effort, entered upon with great vigor, was also successful. But the slowness with which payments were made left the college still in difficulty. Although the debt was diminishing, it was still \$28,000 in 1850. The pressure of creditors and the immediate necessities of life led to the practice of loaning the money of the permanent fund to the general fund. From this and other causes, such as an inadequate system of book-keeping, arose a suspicion, in the minds of some of the Trustees, whether well grounded or not, that the management of the funds was not good; that there was a lack of business accuracy and order; that the distinction between *meum* and *tuum* in the funds was not accurately kept. There can, of course, be nothing dishonest in the mere loaning from one fund to another; but, considering the difficulty in which the college then was—the pressure on every side—it

is not strange that it excited nervousness in the hard-worked and ill-paid Faculty, and among some of the donors. No one could for a moment question the perfect integrity and high Christian character of President Pierce and the Trustees. But "the best-laid plans of mice and men gang aft agley," and the college had had too serious an experience already of the uncertainty of pledges to trust the general fund too far with the sacred resources of the permanent fund. Moreover, it was the growing sentiment on all sides that the expenses should, by some means, be brought down to the probable income, or nearly to that, and that the general fund should be so managed as speedily to remove all indebtedness.

In 1850, the sum of \$60,000 had been subscribed to the permanent fund. In view of this fact and of the importance of the work of collecting and securely investing this, and in view also of the earnest request of President Pierce, that he might, as speedily as possible, be released from all financial responsibility, at the meeting of the board in March, a *finance committee* was appointed, consisting of President Pierce, Mr. Joseph Perkins, Hon. E. N. Sill and Mr. C. L. Latimer, all of them men who were skilled and practiced in financial business, to take charge of the whole matter of collecting and investing the new fund, of the administration of the general fund, and the payment of the debt. They were specially "charged to see that no part of the permanent fund was diverted from its proper purpose, or entangled with other funds or effects of the college." This committee, at the outset, made a full and minute survey of the state of affairs. With a debt of \$28,000 they find assets applicable to its payment of \$38,000. They declare that this debt must be paid without further delay, that the assets applicable to the purpose are "barely sufficient to meet the demands," and that "decision and energy will be very requisite" in the management of the matter, or "the funds will melt in our hands and our debts be left an incubus upon us." Besides interest, the annual expenses were then \$1,500 beyond the reliable income. But all attempts at the reduction of expenditure were met with opposition. There seemed to be a great desire on all hands to retrench, without retrenching; and the committee, finding at the end of a year and a half that, with all their efforts they could not

secure the requisite control, that the debt was reduced only \$7,500, while the available assets had shrunk \$16,000, resigned. Their duties returned to the hands of the prudential committee.

This brought on a crisis in the affairs of the college. This finance committee had been divided in opinion—on the one side, President Pierce, the Chairman, on the ground, with the actual control in his hands, and dreading in any degree to impair the number or efficiency of the Faculty, which had brought the institution up to his ideal in that respect—on the other side the other members who saw clearly and felt deeply the financial necessities of the case. The disagreement which brought about the resignation of this committee now entered into the board and divided it so that the casting vote was always in the hands of the President, and he always cast it with the same side. The division touched every question of policy and of popular action. The Faculty, feeling most deeply everything which threatened the honor, stability and efficiency of the college for which they had so devotedly labored and sacrificed, and, though not doubting the integrity and good will, yet doubting the ability of President Pierce and the prudential committee to successfully cope with the financial problem, insisted that the finance committee should be continued, and should have complete control of the funds according to its original plan. Disheartened and foreseeing evil from the resignation of that committee, Profs. Barrow, St. John and Bartlett resigned, Prof. Long having also resigned a few days before the committee. This was almost a breaking-up of the college, since there only remained besides the President, Prof. Day in the Theological Department, Prof. Seymour in the Academic, and Prof. Frost Shepherd, who never received a salary, was never responsible for any fixed duty, and who was here but a small part of the time. After much agitation and negotiation with meetings of the Alumni and of students to consider the subject, and express their opinions and wishes at commencement in July, 1852, Prof. Lord withdrew his resignation, and the other Professors were re-appointed, with the expectation that they would continue their labors, and the college would still live and flourish as of old. But these hopes were blighted. Personal disagreements had grown

up out of questions arising in the Faculty, as well as deep differences of opinion growing out of the financial and other questions arising in the Board of Trustees, and concerning general policy. The strong feelings excited could not be easily calmed. The Professors, being widely distinguished in their departments, had tempting offers of important positions elsewhere, where their fields would be larger and their salaries sure. The attempt to restore the old order of things failed. The Professors left, the students mostly left, and the labor and patience of many good men for many years, seemed to have failed of the promise.

Aside from the debt and the general fund available for its payment, the college had also a permanent fund, amounting nominally to \$85,000; but \$54,000 of this was in the form of subscription notes, for the most part on interest, and payable between the years 1850 and 1855; \$10,600 was in stocks and bonds; the remainder chiefly in real estate, bills receivable and the like, with \$3,000 in cash. The discords and contentions in the college interfered with the collection of the principal and interest of this fund as it became due, thus greatly reducing the expected income and increasing the embarrassment. They alienated many of the donors, also, as might have been expected, and undoubtedly had an injurious influence upon other young colleges in the West which were seeking to raise their first endowments. Men who had means to give to them had their fears excited that their donations might be lost through the discords, if not the mismanagement of boards of trust. In this view, the "Society for the Promotion of Collegiate and Theological Education at the West," which had between the years 1845 and 1848 given the college about \$13,000, and recommended it to the favor of the churches and Christian people at the East, took a deep interest in all these transactions here, and urged the speedy settlement of the difficulties. In February, 1855, this society even sent a committee of distinguished men, which met the Board of Trustees in their semi-annual meeting at Cleveland, and urged them to refer all their differences to arbitration. This friendly counsel was rejected by a majority of the board. They seemed to feel themselves bound to work the matter through without outside aid or advice.

At the beginning of the academic year

1852-53, the Faculty consisted of President Pierce, Prof. Seymour and Tutor Gates. Prof. Day still retained his office, but as the Theological Department had no students, he rendered no service. There were only two classes—the sophomore and freshman—with twenty-three members. In March, 1853, Rev. Alfred Emerson, a graduate of Yale College, was elected Professor of Mathematics and Physics, and entered on his duties at the beginning of the year 1853-54. In November, 1853, Rev. Henry B. Hosford, a graduate of Williams College, was elected Professor of Intellectual and Moral Philosophy and Rhetoric, and entered on his duties in January, 1854. Both these elections were opposed and strongly protested against by a portion of the board, not out of objection to the men, well qualified pledges, but because in their view it was necessary to the prosperity of the institution that President Pierce should retire from office, and that there should be an entire reconstruction.

At commencement in 1853 there were no graduates, and the commencement exercises consisted of the oration before the Alumni, by Mr. Hoadley, of the Class of 1844, the inaugural address by Prof. Emerson, two orations by representatives of the societies, and three masters' orations. In the next year, beside the President, there were three Professors, a Tutor and twenty-five students, all the classes being represented. The work of the college went on after the old fashion, according to the old standard, though the continued agitation in the newspapers and in private, must have made all parties extremely uncomfortable. Even through another year did this weary time of conflict extend.

On the 31st of May, 1855, President Pierce, having arrived at the age which he had long before set as the proper time for him to retire, resigned his office, and Rev. Henry S. Hitchcock, of Columbus, a graduate of Yale College and a distinguished minister, was elected his successor. All parties seem to have become weary of the conflict, as well they might. Mr. Hitchcock was inaugurated at commencement, on the 12th of July. Several members of the Board of Trustees resigned; there places were filled by men having the confidence of both parties, and the college entered upon its new era.

President Pierce lived sixteen years after his

retirement by the side of the college, rejoicing in its revived prosperity, its larger endowment, and in its faithfulness to the standard and the traditions which he had established. During these later years his health allowed him to do but little labor, but he had a keen interest in all public affairs and was full of sociality and good humor. Death came suddenly upon him at last without warning, and he was mercifully saved from a painful sickness, which he had always greatly feared. He died on Sunday morning, May 28, 1871, in the seventy-seventh year of his age.

The task which President Hitchcock undertook was one of great difficulty on account of the labor involved, and of great delicacy in consequence of the excited state of feeling concerning the college in the community and among the graduates. Every step he took was sure to be criticised; all his acts and every aspect of the college under him were sure to be compared with the great days of old when achievements as well as hopes were high and skies were clear. He came to the college in the prime of his life, at forty-two years of age, with his powers well-disciplined by seventeen years of ministerial labors, in which he had learned to manage difficult financial affairs as well as preach the Word. Singularly enough, he was a native of Burton, a pupil, and subsequently a teacher in the Academy of the Erie Literary Society, his father being a Trustee and all his family and friends stout defendants of that institution, when the attempt was made to remove it to Hudson. The sequel will show what a grand revenge Burton and that society had on Hudson and the Western Reserve College. He bore one of the most honored names in the history of the State of Ohio, and by his wisdom, prudence and earnest Christian labors had proved himself worthy of it. He was not only made President, which brought upon him the financial responsibility, but he was also made Professor of Christian Theology and Pastor of the College Church. The professorship of theology required that he should teach natural theology and evidences of Christianity as they are usually taught in colleges. As Pastor of the church he was expected to preach twice on Sunday in the chapel during term time, and to do whatever other pastoral labor he should find desirable. His preparation for this last office was abundant; for in all his min-

istry he had written faithfully and had acquired the habit of extempore speaking. The teaching which he did gave him one recitation or lecture a day for half the year. For this he always studied diligently and he had an admirable grasp of the subjects of his department.

The teaching and the preaching would certainly be considered a sufficient burden for one man to bear in ordinary circumstances; but President Hitchcock had other burdens greater than these. He had the financial burden of paying the debt and collecting the subscriptions from subscribers, many of them reluctant or hostile by the transactions which had occurred since they made their pledges; and the task of doing away with the prejudice in the community, engendered by the quarrels of the last five years, of winning back alienated friends and divided Alumni.

Few men could have been found willing to undertake such a work. It required a man who was ready to face long and incessant labor, willing to subject himself to ungrateful criticism, to encounter rebuffs, and to wait long for recognition and obvious success. President Hitchcock had all these qualities. When he had made up his mind that duty called him to the work, his whole soul was devoted to it, so that no obstacles daunted him, and nothing that he possessed was kept back. He had all the energy, devotion and spirit of self-sacrifice, which characterized President Pierce, but he was especially fitted for his difficult office because he was yielding and conciliatory in his temper, never asserting himself, but always putting forward his cause, and, while firmly adhering to principle, and always insisting on what was just and right, he was cautious not to offend. He was kindly, charitable toward all men, friendly with everybody, considerate of everybody. He was such a thorough Christian man that none who knew him could fail to see that he was not serving himself but God. His modest, unassuming Christian character impressed itself upon the students, and made it easy for him to govern and to lead them in right ways.

Another thing which fitted President Hitchcock for his general work outside the college, was his ability as a preacher and his tact and experience in revivals of religion. This made him a valuable man to the religious interests of this part of the State, in a way which everybody could see and appreciate. His value as a

man won friends to his cause. Indeed, we may almost say that Dr. Hitchcock had no quality, intellectual, moral or personal, and there was no event in his previous history which did not directly fit him for the laborious and delicate task which he now undertook.

The most pressing demand which President Hitchcock met when he entered upon his work was the payment of the debt. This debt he found, at the beginning of his term of office, about \$22,000. It had not been reduced at all since October, 1851. On the withdrawal of President Pierce it was increased to \$25,000 by the vote of the board to pay him \$3,000, rather as some small recognition of his past services than as a compensation for them. The general fund applicable to the payment of this debt had mostly disappeared. As no part of the permanent fund could be used for this purpose, it was necessary to raise the means by a special subscription. This was a hard thing to do, but one which absolutely must be done if the college was to survive. To this, therefore, the President applied himself. It was necessary that he should go about it by personal solicitation. The work went on slowly but steadily, as he could gain time from his other duties. It was no slight labor, meanwhile, to manage the obligations and to meet the interest. It was only after nine years, in 1864, that the last of the debt was paid. It had begun to accumulate as early as 1836, and thus, after twenty-eight years, having caused unspeakable vexation and having nearly swamped the college in the meantime, it was removed. The lesson was one which this college will not soon forget. The good friends who helped to lift that load deserve to be held in special gratitude.

But this was not the only financial work of the President during this period. The outstanding pledges to the permanent fund, which amounted, in 1855, to about \$43,000, were now all fully due, and needed to be immediately collected, principal and interest, and invested. This was essential in order to provide for the running expenses. But such was the state of feeling among many of the subscribers, growing out of the discords in the college, which had become so notorious, that we cannot wonder that they were very reluctant to meet their pledges. The financial crisis of 1858 brought a new difficulty in the case of many who had not yet paid. But the work was carried stead-

ily forward by this quiet, kindly, persistent man, until nearly the whole sum was paid or compromised. In connection with these labors, the President began, as early as April, 1856, to solicit new subscriptions to the permanent fund. This was necessary if the college was to maintain its old standard of scholarship and instruction; for the Faculty must be enlarged, and salaries must be raised in order to get and retain suitable Professors. The means for supporting instruction must not only be more ample, but must not be contingent, as in the olden times, nor would it do again to pay Professors with orders nor with store pay. In 1859, he began to secure donations to the general fund. These various labors he carried forward simultaneously, with such respites as the state of the country required, until the time of his death in 1873, when, it is found, that he added \$67,000 to the permanent fund and \$99,000 to the general fund, besides paying the debt and collecting all that was collectable of the money due on the pledges made between 1848 and 1850. A considerable portion of this general fund was afterward transferred to the permanent fund. And this work he did himself, not by agents, except in the matter of about \$6,000. Besides this, with the aid of the prudential committee, of course, he had the care of the funds, and of their safe investment—a duty of no small importance—which he performed with great wisdom and prudence.

Of the Faculty of the old palmy days, only Prof. Seymour remained under the new *regime*, Prof. Day retaining a mere nominal connection with the college until 1859. Prof. Emerson, who had come into the Chair of Mathematics and Physics during the interim, retired in April, 1856, and was succeeded in January following by Mr. Charles A. Young, a graduate of Dartmouth, who served the college with great success until February, 1866, when he resigned to accept the Chair of Physics and Astronomy at Dartmouth College—a chair which had been filled by his father and grandfather before him. In April of that year, Mr. Young was succeeded by Mr. Allen C. Barrows, of the Class of 1861, who served until the close of the year 1869-70, when Mr. Charles J. Smith, of the Class of 1870, the present incumbent, entered upon that office. Prof. Hosford came in, also, in what we may call the interim, to the Chair of Intellectual Philosophy and Rhetoric, which he

filled until December, 1859. He was succeeded by the present incumbent in April, 1860. Prof. Seymour retained the Chair of the Greek and Latin Languages until 1870, having entered upon this professorship in September, 1840. He thus served the college with distinction from the days of its greatest prosperity under President Pierce, through the period of conflict and darkness, until the time of its greatest prosperity in the new era. On his resignation, he was made Emeritus Professor. He has since given instruction on two occasions, when his services were needed. Mr. Edwin S. Gregory, a graduate of Harvard College, held the position of Adjunct Professor of Latin, and gave instruction in the college from 1861 to 1866, while he was Principal of the preparatory school.

On the retirement of Prof. Seymour, the professorship was divided. Mr. Thomas D. Seymour, his son, of the Class of 1870, being appointed to the Chair of Greek and Modern Languages, with leave of absence for two years, that he might study and travel in Europe. The work of the Greek Department was performed meantime by William R. Perkins, of the Class of 1868. The Chair of Latin and English Literature was taken by Prof. Allen C. Barrows, who filled it but one year, when he resigned to become Pastor of the church at Kent. He was succeeded immediately by Rev. Lemuel S. Potwin, a graduate of Yale, the present incumbent. In 1868, Mr. Edward W. Morley, a graduate of Williams College, was appointed Professor of Chemistry and Natural History, a chair which had been vacant since Prof. St. John resigned in 1852. The instruction in this department had been given, meantime, by lecturers—two years, 1855 and 1856, by Prof. Chadbourne, now President of Williams College, and from 1857 to 1868 inclusive by Prof. Cassell, of the Medical Department. Mr. Morley began his services as Professor in January, 1869. In 1860, Prof. Long returned to the college as lecturer for one term in the Department of Moral Philosophy. From 1869 to 1872, Hon. Thomas Hastings, of Cleveland, gave a course of lectures each year on Municipal Law. Since 1869, Mr. M. C. Read, of the Class of 1848, has given a course of lectures each year on Practical Geology and Zoölogy. Such were the changes in the Faculty during President Hitchcock's administration.

The prosperity of the college, which was obviously returning in all respects, received a severe check at the breaking-out of the war in 1861. It was then the first thought of every one that all else must be sacrificed if need be, for the salvation of the country. Young men in college were among the first to feel the patriotic impulse. Several students entered the army at the first call for volunteers. During the summer term in 1861, all the students entered heartily into military drill under the instruction of Col. Hayward, of Cleveland. At the beginning of the next term, the classes were very much diminished, a considerable number entering the service for the war. The grammar school also furnished a large quota of soldiers. It is much to be regretted that no record was kept of the undergraduates who entered the army. The catalogue of 1862-63, at the end of the summary, adds the remark: "In addition to those named and enumerated above, there are in the army sixteen members of college classes, and twenty-seven members of the preparatory school." Of course there were many others before and after that year who left to serve the country. In May, 1862, after the defeat of Banks in the Shenandoah Valley, President Lincoln issued a new call for volunteers to serve three months. The students had a well-drilled military company and immediately offered their services to Gov. Tod. They were accepted and repaired to Columbus, where they remained in charge of the military prison for three months, after which they were sent to Vicksburg in charge of a large body of prisoners for exchange. They were mustered out September 29. Commencement was held that year on the 15th day of October, and the first term of the new academic year began on the following day. This was the only interruption of the regular work of the college during the war, but of course the numbers were kept down and the financial progress was doubtless much retarded. Of those undergraduates who entered the army, quite a number lost their lives, and those who returned found themselves either past the college age, or from other causes unable to complete their studies. The war record of the college must be considered good, since somewhat more than 100 out of 402 of the academic alumni served in the army, to say nothing of the theological and medical graduates. They were found in all ranks from pri-

vate and hospital steward up to Major General.

It might well be supposed that no man could bear always such a burden of care and labor as that which President Hitchcock took upon his shoulders. He maintained great vigor and elasticity of health and constitution for several years; but, in 1867, his health seemed to be giving way, and it was obvious that he must rest or break down. He desired to be released from his connection with the college, but neither the Faculty nor the Trustees would consent to his resignation. The physicians advised at least six months of rest. At a meeting of the prudential committee in September, leave of absence was given him for eight months, the Faculty undertaking to do his teaching and to supply the pulpit during his absence. Leaving home on the 8th of October, he went to the southern part of France, where he spent the winter. After some travel he returned home in season for commencement the following June, very much recruited in health. But the old energy and power to work never fully returned. He went on, however, as before, with some assistance in the pulpit, still improving the financial condition of the institution, and discharging his ordinary public duties. But, in February, 1870, feeling too much the pressure of care, he tendered his resignation; but, at the earnest solicitation of the Trustees, withdrew it. Again, in June, 1871, he renewed his resignation, which was now accepted. He remained, however, in his professorship as Pastor of the church and in care of the financial affairs. He was really relieved only from the government of the college and from responsibility for home affairs. After the great improvement in the financial condition, it was the responsibility for the government which had especially worn upon him. Dr. Hitchcock continued in the discharge of his duties until the summer of 1873, when a few days before commencement he was taken sick and died on the 6th of July in the sixtieth year of his age.

On the resignation of President Hitchcock, at commencement, in 1871, Prof. Carroll Cutler was elected to fill the vacancy. He entered on the duties of the office immediately, but was not inaugurated until commencement in 1872. The presence of Dr. Hitchcock and the responsible position which he still filled caused the affairs of the college to go on as before, and

there was nothing to indicate to any one that any change had occurred. Before 1872, the question so much discussed in some other colleges of the same type with this, in regard to the admission of women to equal privileges of study and instruction, had been often privately considered by the Faculty. Especially when some women asked to be admitted to Wabash College and were refused, the question was sprung, "What course should we take in like circumstances?" It was unanimously agreed that if any woman thirsting for knowledge should seek it at their fountain she should not be refused merely because she was a woman. Neither the charter nor the laws of the college presented any obstacles to the admission of women, and, on inquiry, it was thought there would be no objection on the part of the Trustees. In his inaugural address, therefore, Mr. Cutler announced the fact that women would be admitted to all the privileges of the college on the same conditions with men. In the autumn of 1872, several young ladies entered the preparatory school; in 1874, one entered the Freshman class, and, in 1875-76, there was one in the Senior class, one in the Sophomore, and two in the Freshman class. So far they have been conducted with credit and maintained an average grade of scholarship.

During the existence of the Theological Department, its history was one with that of the college, and has been substantially recounted above. It really began operation when Mr. Green came here as Professor of Biblical Literature, in 1830, and continued until 1852. The time of its greatest prosperity was from 1842 to 1850. It was abandoned because there were not funds enough to support Professors. The necessity for a Seminary had ceased also, because two others had been planted since the opening of this, one in and another near the field which this was intended to occupy. The funds which were contributed as a permanent endowment of this department were very small. Mr. Heman Oviatt gave \$10,000 in 1837 to endow the Chair of Sacred Rhetoric. In 1853, Mr. Oviatt, in writing, expressed his desire to the Trustees that, in view of the then present state of the college, the Professor, on his endowment, should give instruction in the Collegiate Department. To the endowment of the other theological chairs, there was contributed only about \$5,800. Twelve hundred dol-

lars of this was given by "sundry persons," through Moses Allen, of New York, and no further record can now be found of it. Four thousand six hundred dollars were given by eighty-six persons in small sums, the largest single donation being \$212. All other funds were for current use.

The high character of the seminary is obvious from the ability of the men who filled its chairs of instruction, and also from the standing and usefulness of those who received their theological education here. One needs but to recall the names of President Storrs, Professors Green, Folsom, Long, Hickok, Barrows and Day to show that the instruction was nowhere abler. These names, also, as well as those of their pupils, clearly indicate the doctrinal views taught. Those who studied here have, many of them, occupied prominent positions, and all of them have been very useful in the ministry of the Presbyterian and Congregational Churches, in both the home and foreign fields. The seminary was linked to that ecclesiastical system which grew upon the Reserve, called the "Plan of Union." The Professors all entered heartily into it in good faith, as did most of the churches, until restless and grasping men on both sides drove forward the work of division. The seminary, however, and all the Professors, continued their adhesion to the Plan. The number of those whose names appear in the catalogue as theological students is 106. It does not look at present as though this department would ever be resumed, at least in its old form. The seminaries now in operation are enough for the wants of the country, and will be for a long time to come.

A preparatory school was opened in connection with the college at the very first. Perhaps it would be better to say that the college was first opened in connection with a preparatory school; for the first Freshman class was admitted and studied the first year at Tallmadge, in the academy, under Mr. David L. Coe, who was Principal of the school, and college tutor *pro tempore*. When the college opened in the new building at Hudson, in the fall of 1827, the first catalogue shows that there was a Sophomore and a Freshman class, a preparatory class and a class pursuing a partial course. There has been a preparatory class ever since. The name "Preparament" was first used in 1838. In 1843, there was a

Preparatory Department in two sections, classical and English. In 1850, this department was first called a "Grammar School," a name which it retained until 1860, since which date it has been called a "Preparatory School."

It was the expectation of the Trustees that it would be necessary to continue the school but a very few years, they supposing that academies would be established and endowed on the Reserve as they had been in New England. At one time there were as many as twenty academies in successful operation. First and last there have been more than thirty academies on the Reserve. But nearly all of these schools were entirely unendowed, and as the public schools improved, the number of pupils in them diminished, and as new, more exciting and more remunerative fields of labor opened, teachers could not be found for them, and they were abandoned. A number of them have been attached to the school system of the towns where they are as high schools. But they do not thus accomplish the object of endowed academies. The necessity for the preparatory school, therefore, continues to this day, and we can see no prospect that it will soon cease.

This school has always been under the supervision of the college Faculty, and taught for the most part by some of the younger graduates. Occasionally some of the Professors have given instructions there for brief periods, and Professor Gregory was Principal and carried on the school for five years, with the aid of a tutor, after he was made Adjunct Professor of Latin in college. The school has never been self-supporting, except for two years, 1850-52, under Mr. Turner. During the period when the great calamity and depression were upon the college, from 1852 to 1860, the teachers received only the tuition fees, but the college furnished for it a local habitation.

The early catalogues show that there were from the beginning, students here in a partial course. The precise nature and extent of that course is not indicated. As these men were not Bachelors of Arts, it is probable that they pursued the higher English studies with the college classes and received a certificate of proficiency, but not a degree. In 1855, when President Hitchcock entered on his office, a Scientific course was announced in the catalogue, "designed for those who desire a more complete education than is furnished by acad-

mies and high schools, without pursuing the learned languages." The course of study was intended to be three years. In 1839, the catalogue contains the names of two resident graduates, and in 1845, one besides those engaged in theological study. They were pursuing those studies which properly belong to a Philosophical Department. In 1847, appear the names of eleven Bachelors and Masters of Arts, who were engaged here in such work, and in 1848 there were six names in the same class.

The library has grown, but very slowly, to some 7,000 volumes, mostly by donations of books, while the college has paid out of the treasury probably about \$1,200 for this object previously to the year 1874. The library has now an endowment of \$3,700, and waits with strong desire for the payment of the remainder of the \$10,000 subscribed for its endowment at commencement in 1873. The society libraries contain about 5,400 volumes, purchased by the students from time to time.

The physical apparatus, which must have been reasonably good for so young an institution according to the ideas of those early times, was greatly increased by Prof. Loomis when he entered upon his work here in 1837. He brought with him from Europe the most important instruments for investigation and instruction, to the value of \$2,200. This apparatus has been well preserved, and since 1863, has been steadily increased by the addition of almost all those new instruments which the advance of science has made necessary or useful in a college in order that the instruction might keep pace with the times.

The astronomical observatory was built under the direction of Prof. Loomis in 1838, at a cost of a little above \$1,000, and furnished with a transit circle, equatorial telescope and sidereal clock, procured in Europe at an expense of \$1,750.

When Dr. St. John came, in 1858, \$2,500 was appropriated as an outfit for his department, some \$500 of which was probably expended in the purchase of chemical apparatus, and the \$2,000 upon the cabinet. Accordingly, the cabinet seems to have grown and prospered for some time; but, during the period of depression and disaster, it was almost entirely neglected. In 1858, it received a valuable accession from Rev. Horace S. Taylor, of the Class of 1840, and a missionary in India. He

procured a large fragment of a meteorite which fell within his field of labor February 28, 1857, and sent it to the college. This was broken up in consequence of many applications for specimens, and by exchanges the cabinet contains now a series of seventy-six different meteoric irons and stones. There are 1,450 named and labeled specimens of minerals in cases, 500 not labeled, 250 specimens of shells, with many duplicates, and a series of casts of typical fossils, 173 in number, which were added in 1874. There is also a small collection of archaeological specimens.

The chemical apparatus procured by Prof. St. John had almost wholly disappeared when President Hitchcock entered on his office. Very little was done in the way of repairing these losses until Prof. Morley came, in 1869. Since that date, this department has received its proper share of attention. An admirable apparatus for the purpose of analysis and research, as well as for use in instruction, has been procured, mostly purchased in Europe, at an expense of \$2,500. There is a well-furnished laboratory for the use of students, where the class perform, under the guidance of the professor, all those experiments which are suitable for them. The departments of natural science, which, from the very first, seem to have attracted the enlightened attention of the Trustees, have thus been well provided with the means of instruction.

At the present, an important change in the history of the college is pending, which must result in important consequences to the institution. At a meeting of the Trustees at Cleveland in 1876, the question was proposed to the President as to how much money would cover the cost of removing the college from Hudson to Cleveland. After deliberation, the sum was placed at \$500,000 by President Cutler, and an itemized statement to that effect was drawn up. Subsequently, Amasa Stone, Esq., of Cleveland, offered that amount if the removal should be effected. A movement was at once put in progress to secure this end, and the success of this effort seems to be not far from realization. There is, of course, a decided difference of opinion upon the wisdom of this course, some of the Alumni believing with the great majority of the citizens of Hudson that it does great injustice to those who have sacrificed a great deal in its behalf, and at the

same time carries the youth right into the midst of temptations from which it is of the greatest importance to shield them. On the other hand, it is urged that Cleveland is destined to attract a university, which, if the Western Reserve College should neglect its

present opportunity, would result disastrously to its interests. By removing to Cleveland, it is hoped that the scope of the college's influence will be enlarged, its prosperity enhanced, and that it will speedily assume that place which its founders hoped for in its inception.

CHAPTER XVI.*

CUYAHOGA FALLS—INTRODUCTORY—FIRST IMPROVEMENT—EARLY SETTLERS—LAYING OUT OF VILLAGE—INCORPORATION—ORGANIZATION AS A TOWNSHIP—INDIANS AND THEIR TRAILS—BANKS, CANAL AND OTHER BUSINESS—FACTS, INCIDENTS, ETC.

THE citizen of the incorporated village of Cuyahoga Falls who looks back upon the privations and labors which his predecessors went through, and sees how many comforts and advantages he has inherited, can hardly realize how short the time is since the work first begun. Those earliest laborers have all passed away except Henry Wetmore. He still resides in the town, at the age of over eighty years. He has seen every step of the progress of the place, from the first real emigration to the present time. He has been an active participant in all these changes, since the day he helped to mark the spot where the first work was to be done. He alone can have a full, a complete realization of the change that has been wrought. To chronicle the leading incidents which have taken place since the first settlement of the village, and to record the changes brought about since that period, is the object of this and the following chapter.

Cuyahoga Falls is among the most thoroughly enterprising villages in Ohio. With important manufacturing industries, fine business houses, and a progressive class of citizens, it is worthy of conspicuous notice in the history of Summit County. It is situated on the Cleveland, Mount Vernon & Columbus Railroad, thirty-four miles from Cleveland and five miles distant from Akron, the county seat. The place is four hundred feet above Lake Erie, with a healthy and pure atmosphere, abundance of purest water, fine churches and private residences, and one of the most complete school buildings in the State.

There is probably no point in Ohio which offers more desirable manufacturing advantages; and, as a place of residence, its elevated position freeing it from miasmatic influences, its beautiful scenery, and accessibility to the larger cities of the State, renders it most desirable. It has become a favorite resort for pleasure-seekers and excursionists during the summer months, where visitors can enjoy the beauties of natural scenery unequaled in Ohio. For the last twenty years its growth has not been rapid. According to the Federal census of 1860, the village had 1,516 inhabitants; increased in 1870 to 1,859; in 1880 to 2,294.

As early as 1812, the water-power of the Cuyahoga River, at the place where the stream is now crossed by the railroad, having been improved by Kelsey & Wilcox, there sprang up in that immediate vicinity a number of houses. This is still called the "old village." But the real founders of Cuyahoga Falls were Joshua Stow (nominally), William Wetmore and Henry Newberry.

The Western Reserve had been sold by the State of Connecticut to the Connecticut Land Company, who had it surveyed in 1797. It was laid off in townships five miles square, and was designated by numbers and ranges. Number 3, of Range 10, came into possession of Joshua Stow, of Middletown, Conn., and was named after him. The township of Tallmadge became the property of two companies, of one of which Roger Newberry was a member. His share was 1,000 acres. It lay in the northwest part of the township, now the southeast portion of Cuyahoga Falls. So it was that the

* Contributed by C. W. Butterfield.

two—Stow and Newberry—owned what afterward constituted (as will soon be shown) “the town of Cuyahoga Falls.”

The undivided half of 210 acres in the southwest corner of Stow’s township—which now embraces the northeast part of the village—was purchased by William Wetmore, and together they began the improvement of the tract in 1825. In 1814, Henry Newberry, the son of Roger Newberry, came on to see his lands which had been given him by his father, which have been just described as 1,000 acres lying in the northwest part of Tallmadge Township. Henry was so well pleased with his gift that he resolved to make there his future home. He did not remove to Ohio, however, until 1824. He first lived upon a farm at Stow Lake (now Silver Lake) two years, meanwhile making improvements at the Falls; so that those of Stow and Wetmore on the north, and those of Newberry on the south were begun at about the same period. The year 1825 may, therefore, be considered as the one from which to date the existence of Cuyahoga Falls.

While Henry Newberry was living at Silver Lake, he erected a log house for his workmen upon the spot where George Dyre’s house now stands, and cleared about an acre between it and the river. This was the first building upon his part of the town. Stow and Wetmore began their improvements by the erection of a cabin where the brown house now stands north of the livery stable, directly west of the upper dam. The improvements made by them of the water-power at this point will be noticed hereafter.

William Wetmore was born in Middletown, Conn., September 15, 1771. He was a descendant of Thomas Wetmore, one of the proprietors of Middletown, who purchased the site of the Indians in 1662. He removed to Ohio in July, 1804, and built the second house that was erected in what was afterward Stow Township. It stood about twenty rods eastwardly of the northeast corner of Lot 36. In 1808, Stow Township was organized, and he was elected a Justice of the Peace. In August of that year, the county of Portage being organized he was appointed Clerk of the Court at Ravenna. He afterward resigned the office, moved back to Stow and settled on his farm. He died at his residence on the east bank of Silver Lake, October 27, 1827. Henry New-

berry was born in Windsor, Conn., in January, 1783. In 1814, soon after the death of his father, he came to Ohio, as before stated, to look at his possessions in the Western lands. He first lived at Silver Lake two years, having moved there, as previously mentioned, in 1824, and then took up his residence at the Falls. He died in 1854, in the stone house, afterward the residence of James H. Cooke. Such, in brief, are the biographies of the founders of Cuyahoga Falls.*

In 1822, Elkanah Richardson came from Stow and built the house long known as the “Red House,” which stands a little north of the “Big Spring,” on the west side of Main street. This house was the first frame house erected south of the “old village.” The first frame building put up on Stow and Wetmore’s land was intended for a dwelling-house and store. It was built by William Wetmore, Jr., in 1826, and is now known as the “Perry House.” In 1828, the store now occupied by Giles L’Hommedieu was built, and the goods removed into it, leaving the first to be used for a dwelling only. It was not long before it became a place of entertainment for strangers, and finally a regular hotel. It was first kept by Benjamin F. Hopkins. He was succeeded by E. B. Morgan, and he by Ira Loomis. It was known as the American House. It has passed through several hands since then, but has been little changed. The same year (1828), Jabez Hamlin came and built the house next south of the “Big Spring,” and, soon after, the tannery now owned by C. Kettleberger. In 1829, Mr. Richardson built a log house in the southeast corner of what is now George Sackett’s yard, and afterward the third house south of Falls street, on Front street, in which he spent the rest of his life. He died in 1836.

John Wells came to Cuyahoga Falls not long after Jabez Hamlin, and built the house now owned by the widow of the late John Tift. In 1829, John Rumrill came as the foreman in Stow & Wetmore’s paper-mill. He built the house near the depot, known as the Jones House. Rowland Clapp came from Vermont and took up his residence in the village in 1828. He has made it his home in the place ever

*Although Joshua Stow came to the township named after him in 1804, he returned to Connecticut the next year; so that he can only be identified as one of the founders of the Falls from the circumstances of his having an interest therein. On that account no sketch of his life is given in this connection.

since. E. N. Sill came in 1829, and, in 1834 and the year following, built the center part of his house, the wings having been added at a later date. The builder was Mr. Lodge, who is still a resident of the Falls. Grant B. Turner, with his father, came in 1828; soon went to Ravenna, but returned in 1835, and has resided in the town since then. C. W. Wetmore and S. D. Wetmore came to the place in 1832, and built their houses soon after. John Eadie and George Dailey came in 1830. O. B. Beebe arrived in 1831, and Israel James in 1832. Before this date came also the following: Prescott Sawyer, Noah E. Lemoine, Henry James, William Lauson, J. T. Holloway, J. Blair, S. D. Clark, Alexander Gillispie, Noah Rice, John Willard, Birdsey Booth, Alexander English, Isaac Gill, Prince Hopkins (colored), Asa Mariner, Mr. Lamb, Mr. Teal, Thomas Gill, John Alexander, Simon Brown, William Perkins, Charles Hamlin, Henry Barger, J. Jenkins, A. Yockey, Joseph Beebe, Dr. C. W. Rice, John Brainard, Nathan Rose, "Judge" Burgess, William Alley, James Alley, H. N. Pool, David Wadsworth, A. Wadsworth. Many of these were heads of families.

The town of Cuyahoga Falls was first laid out in 1825, by Elkanah Richardson. It was subsequently re-surveyed, platted and recorded by Birdsey Booth. It was located in the townships of Stow and Tallmadge, and included all of the present platted village except so much as has since been platted east of the Cuyahoga River and north of the Tallmadge Township line. The part last mentioned was platted and recorded by R. A. Ashman, County Surveyor, in 1837. The original proprietors were Henry Newberry, Joshua Stow and William Wetmore. The proprietor of the addition was Joseph Hale. No allotment has been made to the original plat except the one of 1837. That part lying in the township of Stow was owned by Stow and Wetmore; that part included in Tallmadge was the property of Newberry.

The name of the village is derived from the falls in the Cuyahoga River, to be seen within its limits. The stream has cut a channel into the sandstone from eighty to one hundred feet in depth. This deep-cut channel extends over two miles. In it are the falls. The name first given to the village was Manchester; but, as there were many towns of that name in the Union, and the falls of the river were seen to

be of great value and importance, it was changed to Cuyahoga Falls.

By an act of the General Assembly of the State of Ohio, passed March 5, 1836, it was provided that "so much of the townships of Tallmadge and Stow as is comprised within the following limits, to wit: Beginning at the northwest corner of the township of Tallmadge and running south on the west line of said township, two hundred and forty rods; thence east two hundred and forty rods; thence north to the north line of Lots Nos. 1 and 2 in said [township] of Stow; thence west two hundred and forty rods; thence south to the place of beginning; and any addition thereto that may be hereafter platted and recorded, be hereby constituted a town corporate, by the name of Cuyahoga Falls." The act also provided for the election of a Mayor, Recorder and five Trustees—constituting the Town Council. This body was given power, among other things, to "provide for the election or appointment of a Treasurer, a Town Marshal, and such other subordinate officers as they may find necessary." Unfortunately, the provisions of this act were not known to the electors of Cuyahoga Falls "until after the day on which, by said provisions, the election of the Town Council should have been holden;" and doubts having "arisen whether the privileges granted by said act" had not ceased by the neglect of such election, therefore a bill was passed to revive and amend the before-mentioned act, giving it vitality and removing all doubts as to its legality; also providing for an election of officers to be holden "on the first or any succeeding Tuesday in April next," after the second act took effect.

Pursuant to public notice, on the 4th of April, 1837, the qualified electors of the town of Cuyahoga Falls met at the schoolhouse for the purpose of electing officers under the acts of incorporation just described. Henry Newberry was chosen Mayor; Grant B. Turner, Recorder; O. B. Beebe, Asa G. Bill, E. B. Dennison, E. N. Sill and Henry Wetmore, Trustees. On the 7th of the same month, these officers were qualified and the Council organized. Ogden Wetmore was elected Treasurer the same day, and, on the day following, Sherman Peck was chosen Marshal.

The town of Cuyahoga Falls, thus organized, continued its existence until March 1, 1852—a

period of nearly fifteen years. During that time, the following gentlemen filled, successively, the office of Mayor: Henry Newberry, C. W. Wetmore, Hosea Paul, C. W. Wetmore, Birdsey Booth, Hosea Paul, O. B. Beebe and C. W. Wetmore. It may here be mentioned that a township was organized in April, 1851, out of the corners of Tallmadge, Stow, Northampton and Portage, called Cuyahoga Falls. Some time subsequent to this, it was generally conceded by the denizens of the town of Cuyahoga Falls, that it would be to the benefit of all that the corporation should be given up and cease to exist—that it should be, in fact, merged into the newly created township of the same name. So, on April 30, 1853, "on motion," said the Town Council, "we do commit all interests of the town of Cuyahoga Falls to the Trustees of Cuyahoga Falls Township, and that we do now adjourn without day." So the town of Cuyahoga Falls ceased its corporate existence.

In March, 1868, there was presented to the Commissioners of Summit County, at their regular session, a petition of 215 residents and qualified voters of the township of Cuyahoga Falls, asking "that the territory known as the township of Cuyahoga Falls" be made an incorporated village, under and by the name of the incorporated village of Cuyahoga Falls. Thereupon, on June 3 of that year, the County Commissioners entered upon their records the following order:

The matter of the incorporation of the township of Cuyahoga Falls under and by the name of the "Incorporated Village of Cuyahoga Falls," came up for hearing to-day, as adjourned from the March session; and, on consideration thereof, we, the Commissioners of said county, do find and determine that due notice of the filing and pendency of said petition was given according to law; and we are of the opinion that the prayer of the petitioners should be granted. And we do order that said township of Cuyahoga Falls may be organized under and by the name of "The Incorporated Village of Cuyahoga Falls," and order the same to be recorded.

The "village" was organized by the election, September 1, 1868, of William A. Hanford, Mayor; Porter G. Somers, Recorder; Henry C. Lockwood, Treasurer; T. F. Heath, Charles Hunt, L. W. Loomis, W. M. Griswold and John Hinde, Trustees, and by these gentlemen, on the 9th of that month, taking the oath of the office to which they were severally elected, and assuming the duties thereof. The following

gentlemen have successively filled the office of Mayor: Richard Blood, C. P. Humphrey, J. L'Hommedieu, H. B. Camp, George W. Rice, William A. Hanford. The village is, as already shown, co-extensive with the township. Its exact limits will hereafter be given.

At the March session of 1851 of the Board of Commissioners of Summit County, "Hosea Paul and others came and presented a numerous signed petition, from the village of Cuyahoga Falls and vicinity, asking the Board of County Commissioners to construct a new township from the northwest corner of Tallmadge Township, the southwest corner of Stow Township, the southeast corner of Northampton Township, and the northeast corner of Portage Township." On Wednesday, March 5, 1851, "The Board all present. Then came Hosea Paul and others presenting a petition, and urging personally that a new township be formed out of the northwest corner of Tallmadge, northeast corner of Portage, southeast corner of Northampton, and the southwest corner of Stow Township, furnishing a map of the proposed new township; and the board being satisfied that all necessary legal preliminary steps had been taken, and there is an incorporated village (Cuyahoga Falls) within the bounds of the proposed new township, ordered that lots one, two, eleven and twelve (1, 2, 11, and 12), in the township of Stow; lots eight, nine and ten (8, 9 and 10), in the Township of Northampton; all of tract one and forty rods of the north part of tract five, in the Township of Tallmadge, and so much of the northeast corner of Portage Township as is embraced within the following boundary, to wit: Beginning at the northeast corner of said Portage Township, and running thence west on the north line of said Portage Township — rods to the west line of George Sackett's farm of $160\frac{61}{100}$ acres, thence due south to the Cuyahoga River; thence easterly on the north bank of said river to the east line of said Portage Township; thence on said east line to the place of beginning—be constituted a township, and that the legal steps be taken to organize the same under and by the name of Cuyahoga Falls Township, Hosea Paul pledging himself that he would give notices required by law, and that the new township of Cuyahoga Falls would defray all the expenses incurred by the creation of said township."

The township thus set apart from the cor-

ners of four others was erected by the County Commissioners for the purpose of accommodating the citizens of the town of Cuyahoga Falls. As the boundaries defined by the Commissioners were afterward adopted as the boundaries of the incorporated village, it follows, of course, as already mentioned, that one is co-extensive with the other; and the limits just given as those of the "township of Cuyahoga Falls" are the limits also of the "incorporated village of Cuyahoga Falls."

At the first election held in the Township of Cuyahoga Falls, on the 7th of April, 1851, the following persons were chosen officers for the year following: Trustees, Horace A. Miller, Henry Newberry, Jr., and Porter G. Somers; Township Clerk, Grant B. Turner; Township Treasurer, Lucius Bradley; Assessor, William H. Taylor; Constables, William W. Lucas and William J. Wilson; Supervisor, Seymour Deming. Upon the qualification of these officers, and their assuming the duties of their respective offices, the township of Cuyahoga Falls was legally organized.

The people of Cuyahoga Falls had before been dependent upon four townships for the administration of their affairs; for, of course, each township exercised jurisdiction over that part lying within its limits. This was a great inconvenience, as the citizens of the village felt that they had a unity of interests. As it was, a concert of action necessary to their relation with each other was impossible. The organization of the new township was therefore a relief in many ways, and gave a new start to the prospects of the town; but its history is so merged into that of the village, that the two are inseparable.

A writer, in speaking of Tallmadge Township, says:

"The water-power at the southwest and northwest corners of the Township concentrated population at these points till their numbers were so great that Middlebury and Cuyahoga Falls were made separate election districts, and, at length, the northwest corner was set off to the new township of Cuyahoga Falls.

"Of the aboriginal inhabitants, few, probably, had ever inhabited this part of the country even prior to the surrender of their title to the whites. There are, indeed, evidences that, at some remote period, this country was occupied by a people more numerous and of a higher

type of civilization; but this is true of Indians, who occupied the country at the time of its settlement by the whites. This had been the border ground of different tribes, and was otherwise an unfavorable location for a large people, depending mainly upon hunting for a subsistence. Wild game, though seemingly abundant to the whites, was yet too limited for the wants of a larger population.

"Living partly by a rude cultivation of the soil and by fishing, as well as by hunting, the Indians preferred the open and fertile bottom land of rivers and lakes. There were, indeed, some small and scattered villages or encampments of Indians in this vicinity. [The writer here speaks of Tallmadge Township, but the remark is equally true of Cuyahoga Falls.] A small number of Senecas lived near the junction of the main and Little Cuyahoga, at or near the place somewhat widely known in modern times as the Chuckery.

"An anecdote of Stigwanish, the chief of these Indians, has been related to me, which seems to furnish evidence of somewhat higher moral perceptions than has always been ascribed to untaught Indians. Stigwanish was friendly to the whites, and often visited the settlement at Hudson. It was at just about the time of the first settlement of Tallmadge that this chief was at the house of a Mr. Pease in Hudson, and, to persuade a son of Mr. Pease, a child of some four or five years of age, to come and sit upon his lap, he offered to give him his pipe-hatchet. The offer proved sufficient to overcome the repugnance of the child to the swarthy face of Indian. As the chief was about to leave, the return of the hatchet was proffered, but resolutely refused, Stigwanish saying, 'Musn't lie to children—no good.' This native chief had scarcely learned this precept from the whites, however frequently, in his intercourse with them, he might have had illustrations of its truth, and he who obeyed it could scarcely have been a savage. S. Pease, of Cuyahoga, was the recipient of the chief's hatchet."

"A branch of an Indian trail," writes Gen. Bierce, in 1854, in speaking of Cuyahoga Falls Township, "from Fort McIntosh, on the Ohio [Beaver, Penn.], to Sandusky, passes through this township. On arriving near Fish Creek, in Franklin, Portage County, it branches—one branch of the trail passing north, through the Indian towns in Northampton and Bath; the

other turning south to the Great Falls, called by the Indians 'Coppacaw.' This was a celebrated trail for the Indians in their war excursions, as well as with the 'Rangers' in their pursuit of them. It was on these two trails that Brady's men were divided, at the time of his defeat near the towns on the Cuyahoga, and on which a part made their retreat. Several years ago, a rifle barrel was found in the Big Spring, in this village, a remnant, probably, of that hasty flight.

"The trail passes nearly in front of Mr. Newberry's house, and, near where the canal bridge now is, was a plateau of about twenty-five feet square raised about a foot, where probably had been a council house. In his garden, as well as on the rise of ground north of the Big Spring, are remains of Indian wigwams. But poor 'Logan, the friend of the white man,' with his braves, who so often traversed these grounds, has gone to the spirit-land, where it is to be hoped his fidelity will receive a better reward than it did on earth—if not, justice is unknown in earth or heaven."

The topography of Cuyahoga Falls presents but few interesting features except in the immediate vicinity of the river. Back from the stream, the surface is gently undulating. The falls are the most striking natural objects within the limits of the village. The river, for a distance of about two miles in this township and Portage, has a descent of two hundred and twenty feet. There are, in that distance, three falls of considerable height, but the descent for the whole way is so rapid that it forms a continuous water-power. The river has made for itself a deep channel, with precipitous banks of great height, as already mentioned. These are clothed with evergreen and other trees, presenting very picturesque scenery. As will hereafter be shown, the effect of these natural embellishments in beautifying the landscape has been to cause it to become a favorite resort for parties of pleasure during the summer months. This scenery extends from north to south nearly through the whole length of the village. The town is underlaid by sand rock, in which is an abundant supply of pure water. The slope of the land is such as to render drainage an easy matter. This furnishes special reasons for the healthiness of the place.

Concerning the water-power of Summit

County, but particularly that of Cuyahoga Falls, a writer in 1837, in a published statement, says:

"The western part of the county of Portage [now Summit County] affords, indeed, a field full of interest, not only to the geologist, but also to the agriculturist, the merchant, the mechanic, and especially to the manufacturer, for here are to be found in rich profusion all the incentives to active industry and enlightened enterprise. Within the space of about fifteen miles north and south, and ten miles east and west, it contains an extent of water-power (so rarely to be found in abundance in the State) which is known to be equaled by any west of the mountains, and so distributed as to accommodate an abundant population and a great extent of country. This water-power is the result of the fall of the main Cuyahoga and the Little Cuyahoga Rivers from the high level of the country, about two hundred and fifty to three hundred feet to their junction, and the fall of their united streams thence to the north boundary of the county, being about one hundred and seventy-feet. The whole power is equal to drive 346 run of mill-stones, each run being capable of grinding 200 bushels of wheat a day; or, to 3,460 horse-power, each one being equivalent to raising 25,000 pounds one foot a minute." The writer divides the "runs" as follows: "At Franklin, 18; at Monroe Falls, 5; at Cuyahoga Falls (within town plat), 80; at the same place (within two miles of the center of the village), 114; Middlebury, 5; Akron (including accession by canal, etc.), 19; at the same place (on Little Cuyahoga, within three miles north), 9; on the main Cuyahoga River, at Niles, Boston, and other places, 94; total, 346 run." There are now (1881) five dams across the Cuyahoga within the limits of the village, and all within a distance of about a quarter of a mile. The river is crossed by four bridges—the iron bridge, which is the upper one, and is located at the "old village;" the stone bridge; the covered bridge, a wooden structure; and the high bridge, of iron. There is also a railroad bridge which crosses the stream at the "old village."

Coal of the best quality was discovered at an early day upon Mr. Newberry's land, and has been ever since mined with profit. The first coal carried to Cleveland was from these

mines, and the speculation proved a bad one. "It was in the summer of 1828," says H. V. Bronson, the pioneer of canal coal-carriers of this region, "that I carried the first load of coal over the Ohio Canal from the Tuscarawas Valley. It came from the mine of Henry Newberry, near Cuyahoga Falls—I can't tell the exact location. It was brought from the mine by wagon to Lock 20, where it was loaded on the boat. There was about one hundred tons of it. We took it to Cleveland, and it required Newberry three years to get rid of it, and he never sold one-third of that even. People would come along and ask what it was, and when told that it was cannel coal would take a chunk away as a curiosity, but they couldn't be induced to burn it; they didn't understand it, and preferred wood."

"When the Ohio Canal was opened to Akron, in 1827," says Col. Whittlesey, "it was thought coal might be taken in wagons from the mines, about three miles, to the canal at Lock 16, north of Akron. Mr. Newberry tried the experiment, I think, in 1828, but the Canal Collector's returns do not show receipts of coal till 1829."

"Deacon E. Wright," continues the writer, "and his son, Francis H. Wright, about this time made an entry on the east side of the coal hill, about one-fourth of a mile south of Newberry's. In 1830 or 1831, Cyrus Mendenhall, formerly of Cleveland, now of Jefferson County, made explorations and borings on Coal Hill. He found and opened coal at the south end of this hill, but it was too thin to work profitably. Another opening was made at the end of the ridge by Mr. Woodruff soon after, and this was worked until 1838. From 1829 to 1837, Mr. Newberry, F. H. Wright and Messrs. Whittlesey & Newton mined coal for Cleveland, which was hauled to the canal at Lock 16."

It was customary in early times in Cuyahoga Falls, as well as in other places, to make free use of whisky on most all occasions. For laborers it was thought to be almost as necessary as bread. Stow & Wetmore furnished a barrel a week to their workmen as their stated supply. They also kept it on their counter at the store for the use of all who chose to drink, and a few refused. But they were convinced that it was unnecessary and hurtful; and, after mature deliberation, they resolved to

banish its use and sale from their establishment. In May, 1828, they put their resolution into practice by refusing to furnish it to their workmen. Upon this, the workmen withdrew in a body to consult upon the course they should pursue. They soon returned and demanded their accustomed supply. Upon the repetition of the refusal, they left their work and demanded their pay. About one-third of the men came back on the new terms, but the rest held out, and it was two months before their places were filled by new men, and they could go on with their work. The firm adhered to their purpose, and never returned to the use or sale of it again. A temperance society was organized at the time, which is believed to have been the first in Ohio. It numbered at first but nine men; afterward sixty-five persons in Stow Township became members. There were at this time four distilleries in the township, but in less than two years they had all closed.

"On the north bank of the Cuyahoga, below the village of Cuyahoga Falls," writes Gen. L. V. Bierce, in his "Historical Reminiscences of Summit County," "is a remarkable cavern. I discovered it in 1826, when the country around there was a wilderness. It is on the very brink of the chasm cut by the river; and the small opening but just large enough to admit a person's body was on a level with the ground. A few leaves, or a rotten log, will easily conceal it. In company with Charles B. Thompson, Orville B. Skinner and Jabez Gilbert, formerly mail contractor from Pittsburgh to Cleveland, I entered it, and found it about ten feet high. It was divided into two rooms, with a small passage between, barely sufficient for a person to pass. There was no opening, except at the place where I entered, from which I was let down by my companions. It being totally dark in the cavern, I could make but few examinations; and, fearing some chasm in the bottom, I did not let my curiosity tempt me far in my explorations."

The Portage County Mutual Fire Insurance Company was incorporated in 1831. It was organized at Ravenna in 1832, by the appointment of William Coolman, Jr., Cyrus Prentiss, Frederick Wadsworth, Edwin Wetmore, Elias Smith, Charles Clapp and George T. Wallace, as Directors, and Samuel D. Harris as Secretary.

Geo. W. Crouse

No business was done by the company under this organization. In August, 1833, a new organization was effected, with Henry Newberry, Henry Wetmore, William Coolman, Jr., Edwin Wetmore, George T. Wallace, as Directors; Henry Newberry as President; E. N. Sill, Secretary, and the company's office located at Cuyahoga Falls. Its business commenced immediately, and continued during the twenty-five years of its chartered existence, under the same management, excepting only that, upon the resignation of Henry Newberry in 1839, Justin Gale was appointed President; and, upon his death in 1842, Frederick Wadsworth was appointed, and served till the close of the company's business. This company was the first mutual insurance company organized in the State, and one of the earliest in the country. Its operations extended over the entire State, and into the contiguous portions of the several adjoining States. The amount of its business and its benefits largely exceeded the anticipations of its original projectors. Its insurance covered many millions, and it paid a proportionate amount of losses.

No effort was made to extend the period of its charter, it being the opinion of its long-time manager that a different plan of fire insurance was better adapted to the changed financial condition of the country.

Another old "institution" of the village was the "Cuyahoga Falls Band." This was organized in 1834, and was the first of the kind in Northern Ohio. It was established upon temperance principles, no one joining it who did not pledge himself to refrain from the use of intoxicating liquors. Its leader was Henry W. Bill. It was composed of about a dozen members. In 1835, they went to Cleveland to celebrate the Fourth of July. The Cleveland committee sent a packet boat to Old Portage to convey them to the city. They also played at the celebration of the opening of the Ohio and Erie Canal. They made an excursion to Massillon, where they gave a concert to the edification of that infant town, besides participating in other patriotic and festive scenes. The members were E. N. Sill, C. W. Wetmore, T. R. Butler, C. Bronson, C. Wilcox, L. Wilcox, J. H. Brainard, Mr. Sperry, R. Upson, H. Y. Beebe, C. Thornburgh, Israel James.

In 1837, a description of Cuyahoga Falls was published as follows:

Cuyahoga Falls is situated in the geographical and business center of an interesting section of country. It has an unrivaled water-power. This water-power is all available. The descent of about two hundred and forty feet in the Cuyahoga River is by a long slope, the commencement and termination of which is but about two miles apart, and which admits of the easy use of the whole fall, and in such portions as may be desirable. The sides and bottom of the river are rock, and the banks furnish an abundance of the finest stone for all constructions which may be desired.

Coal is found in the hill forming the slope on the eastern bank of the river and is supposed to be within a short distance of the (Ohio & Pennsylvania) canal; but no mines have yet been opened less than about a mile from the village. Its quality is not surpassed by that of any in the State, and the quantity is inexhaustible.

Within the village three dams are now erected, giving a fall at each of fifteen, ten and twenty feet, and another of twenty feet is about to be erected. One is above Portage street; one below Broad street; and one at the foot of Reed street. One of twenty feet fall has been commenced near the foot of Taylor street, and one of the same fall is about to be erected at the foot of Prospect street.

The population of the village is now (1837) about 1,250. Three and a half years since, it was but 375. The whole number of deaths within its bounds during the last six years has been as follows: Adults—scarlet fever, one; chronic inflammation, two; old age, one; epilepsy, one; consumption, one; drowned, one; total, seven. Children over two years—fever, one; killed by a fall, one; drowned, one; measles one; total, four. Under two years of all diseases, eight. Making a grand total of only nineteen deaths in six years!

In each of the last two years (1836 and 1837), there have been erected about one hundred houses. The last season there would have been nearly double that number built, had it not been for the derangement in the currency of the country. The gross receipts of the post office will probably exceed \$1,000 for the year (1837). This will indicate in some measure the amount of business done here.

The town (of Cuyahoga Falls) is built on both sides of the (Cuyahoga) river. The land ascends gradually from each bank about a half a mile, affording fine situations for residences, combined with facility of access to the water-power and canal, around which the business, of course, centers. Water of the purest quality is easily found anywhere in the sandstone rock which underlies the town at various depths. The soil is well adapted for building upon, for roads and for gardens. There are no stagnant waters in the vicinity, the rapid descent of the river causing a gentle draught of air from the high grounds during the stillest nights, which prevents the accumulation of those damp exhalations which are usually found in the vicinity of streams; and the inhabitants enjoy a degree of health rarely to be found in any country. The character of the inhabitants may be in some measure estimated by the fact that it is not known that

ardent spirits are sold at any place in the village (that is, in 1837, not 1881).

There is, in the village, a handsome Episcopal church building; a Congregational meeting house; and preparations are made for a Methodist meeting house. There are common schools, a lyceum (endowed with at least \$3,000), a female seminary, and preparations are making for a high school. The scenery in and around the village is uncommonly fine; as you approach it, you acknowledge the justness of the designation which has been given it as the "Village of White Houses." The view of the falls is said hardly to be surpassed in beauty by any in the country.

The amount of manufactures and sales of goods within the last year (1836), have been carefully estimated, and amount to \$407,000; and the sales of real estate have been to the amount of probably \$200,000. The machinery propelled by water-power is as follows: Two large paper-mills, one flouring-mill, two saw-mills, one oil-mill, one pump-making establishment, one tilt-hammer, ax and scythe factory, one woolen-mill, one stone saw-mill, one chair factory, one planing-mill, one furnace and foundry, one engine and machine shop, and other smaller works. There are two drug and medicine shops, one printing office, one book-bindery, one book store, three shoe-shops, four blacksmith-shops, one milliner's-shop, two groceries, one hat and fur store, one pump-shop, one clothing store, eight dry goods, etc., stores, four tailor-shops, two tin factories, one plow factory, two cabinet-shops.

After the revulsion in money matters in 1837, there was great embarrassment for want of a currency, which led to the adoption of a plan for issuing notes in the similitude of bank notes, upon the basis of real estate for security. But it was soon abandoned as a failure, causing loss to some, but without very serious injury to many persons. Some of these notes are preserved by a few persons as curiosities and mementoes of the past. They are signed by Moses Thompson, President; Ogden Wetmore, Cashier. Upon their face are printed these words: "Real estate pledged by deed of trust to double the excess of issue beyond the capital paid in and stockholders liable." The "institution" was known as the Cuyahoga Falls Association. The nearest banks at this time to Cuyahoga Falls, were at Cleveland, Painesville, Warren, Canton, Massillon and Wooster.

The Summit County Branch of the State Bank of Ohio, was organized at Cuyahoga Falls in 1845, by Joseph Hale, Horace H. Miller, William Rattle, H. B. Tuttle, and others, with a capital of \$100,000, and Joseph Hale, as President, and H. B. Tuttle, Cashier.

In January, 1851, its stock was transferred to E. N. Sill, S. W. McClure, E. S. Comstock,

Charles Cantess and others—with E. N. Sill, President, and E. S. Comstock, Cashier—with which organization, with an occasional partial change in the Board of Directors, it operated till January, 1862, when J. H. Stanley was appointed Cashier, and without other change till the expiration of its charter in 1866, at which time the First National Bank of Cuyahoga Falls was organized with a capital of \$50,000, by E. N. Sill, T. W. Connell, Henry Newberry, C. S. Sill and others, with E. N. Sill, President, and J. N. Stanley, Cashier. The First National continued business till April, 1869, when it sold its franchises to the First National Bank of Akron. Its stockholders then formed a banking partnership, under the firm name of the International Bank of Cuyahoga Falls, with the same officers—which last organization is still continued. These three banks had no legal connection, but were practically successors, their business never having been publicly interrupted during the thirty-six years now past.

After the completion of the Ohio & Erie Canal, it was thought indispensable to the prosperity of this section of country that there should be a water communication between Cleveland and Pittsburgh, through the Western Reserve and Pennsylvania. After much exertion the Pennsylvania & Ohio Canal, extending from Akron, Ohio, to Beaver, Penn., was completed. It passed through Cuyahoga Falls and entered the Cuyahoga River at Franklin Mills. A writer in 1837, says: "The Pennsylvania & Ohio Canal, now in the course of rapid completion, forms a junction with the western section of the Pennsylvania Canal at New Castle, and unites with the Ohio Canal at Akron. It strikes the bank of the Cuyahoga River just below the village of Cuyahoga Falls, and passing through that village on the bank of the river adjoining, a water-power of about 150 feet fall in that stream, it passes through the villages of Monroe Falls and Franklin, affording to this part of the State a ready communication with the Ohio, with the interior of the State, Lake Erie, the Atlantic seaports, and furnishing the means of a ready exchange of the manufactures, the coal, and the various other productions of the one; for the iron, the wool, the merchandise, and the agricultural productions of the other." But necessity for the canal had been greatly over-estimated, and

its tolls were never sufficient to pay expenses and keep it in repair. It was found, also, that as the country was already up, the volume of water in the Cuyahoga River was greatly reduced, so that in the summer it was necessary to suspend some of the works at Cuyahoga Falls for want of power, on account of its being diverted from the river by the canal at Franklin. At a later period, the railroads laid through this region being more direct and expeditious, rendered the canal unnecessary, and measures were taken to return the stream to its ancient bed. After much contention with the mill-owners at Akron, who alone were interested in keeping it open, the canal was finally vacated, and the water allowed to resume its old channel.

The growth and prosperity of Cuyahoga Falls have suffered for many years from a plan which was undertaken in early times to divert the water-power and use it elsewhere. Persons came to the village and bought separate portions of it, under profession of desiring to utilize it on the spot, but when they had possessed themselves of the whole in the lower part of the town, they organized a company called the Portage Canal and Manufacturing Company, popularly known as the "Chuckery Company." In 1843, they built a dam at the upper end of their purchase with a race beginning opposite what is now Hinde's Mill; this race they carried at great expense to what is known as "Chuckery Plains," where they planned for a city of magnificent proportions, which they called "Summit City." They succeeded in getting this through, but they got into quarrels among themselves and the work was stopped. Law-suits followed, and after years of litigation the company broke up and the scheme was abandoned. Their dam and race went to decay, and the ruins of the latter and the gloomy remembrances of surviving members of the "Chuckery Company," are all that remain of the magnificent scheme. "Summit City," which was to have been one of the largest manufacturing places in the United States, has dissolved "into thin air."

In 1852, the Cleveland & Pittsburgh Railroad was completed, thereupon steps were taken to build a railroad which should leave the first-mentioned road at Hudson and go south through Cuyahoga Falls. It resulted in what is now the Cleveland, Mount Vernon &

Columbus Railroad. It was opened to Akron before the close of the year, and, in two years, was completed as far as Millersburg. This gave to Cuyahoga Falls a new means of transit, and has done much to increase the prosperity and comfort of the people. The track runs near the bank of the river through the entire village, from north to south; and, from its conspicuous position, gives passengers an excellent view of the scenery, and of the natural advantages of the place as a business center. The road is convenient to all the shops, giving them access to its cars without expense for side tracks, and offers superior inducements to manufacturers to invest their money where they have so many advantages at so little expense for cartage or individual outlay, to accommodate their business.

In 1853, the school district library was commenced, and for several years was kept in the school building. In 1873, the library, containing 800 volumes, was removed to the business street, and, by the efforts of the G. A. R., was added to a free reading-room under the charge of J. H. Brainard, Librarian. In 1878, by the efforts of the Temperance Union, a building was constructed for the library and reading-room free to all. Under Mr. Brainard's charge, the reading-room has been supplied with the Cleveland and Akron papers, and with scientific, agricultural and literary periodicals, and the library has been increased by the addition of scientific statistical works.

JOSHUA L'HOMMEDIEU, *Plaintiff,*
 against
 GEORGE A. WAIT and
 ELIZABETH W. WAIT, *Defendants.* } *In damages.*

Plaintiff complains of the said defendants for that the said plaintiff was on the 6th day of March, A. D. 1858, the owner and then in possession of a certain barrel or cask of brandy, then being and situate in the Township of Cuyahoga Falls, County of Summit and State of Ohio.

Plaintiff further complains of the defendants for that on said 6th day of March, A. D. 1858, the said defendants did with force and arms, at the said township of Cuyahoga Falls, break open said barrel of brandy, whereby the contents of said barrel, to wit: twenty-five gallons of brandy, were wholly lost and destroyed, to the damage of the plaintiff, in the sum of \$100. Whereupon the said plaintiff asks judgment against the said defendants for the sum of \$100.

Such was the commencement of a suit for damages brought May 9, 1859, by Joshua L'Hommedieu against the defendants above-

named, before C. W. Wetmore, a Justice of the Peace, in Cuyahoga Falls. The result of the suit was a judgment for \$60. One of the defendants, Mrs. E. W. Wait, was said to have been one of the company of ladies engaged in what is known as the "Whisky Riots," on March 6, 1858, when divers barrels of whisky, brandy, beer and other "beverages" were taken *vic et armis* and emptied into the gutters of the village; hence, the bringing of the above-mentioned suit.

Cuyahoga Falls, during the war of the rebellion, was not behind her sister towns in her readiness to assist the country in her sorest need. A large number of men were enlisted in several regiments and batteries. Of these, the following fill soldiers' graves: Capt. D. N. Lowry, Thomas Evans, J. D. Cooke, J. I. Patterson, William Lyons, George L. Holden, David McArthur, First Lieut. John Eadie, Jr., Second Lieut. J. C. Ely, J. W. Eddy, Robert Gaylord, I. J. Wood, C. Neeley, A. K. Goodrich, F. B. Purine, Robert Green, Edward Green, John Patterson, J. B. Lyon, Seneca Blood, John Congden, John Shellhorn, Charles E. Moon, G. G. Crane, J. Murphy, John C. Schneible, H. F. Eddy, H. J. Ingalls, J. Hogle. These names should be cherished as a precious treasure, to be handed down to posterity, that they may give them the honor they so justly deserve. To them and their many associates is due the preservation of the country in its integrity.

The people of Cuyahoga Falls were long noted for their social qualities. They came to the town from different places, having been reared under different influences. In the early settlement of the place, they were all, of course, brought into contact, and there was, of necessity, a toning down of many of the asperities peculiar to New England manners and habits. The consequence was, that there was a friendship which continues, though in a modified form, to the present day. Later years and the coming in of new residents have changed the aspect of affairs somewhat; not, however, to the gain of happiness or the pleasures of social life. The recollections of the older inhabitants are always pleasant, as they go back over those early days, and the regret which they often express because of the change shows how superior was the enjoyment then to what is now the rule. This, however, is not wholly the fault of the present. In those days, the inhabitants

were largely dependent on each other; their cares were confined to narrow bounds, and they were driven to find amusement in each other's company for the want of other resources. It was before the days of railroads or daily papers, concerts or lyceum lectures.

The first resident preacher in Cuyahoga Falls was J. T. Holloway, recently deceased. He was a licensed local Methodist preacher. The first store opened was by Stow & Wetmore in 1825; another was brought in by Mr. Stanley in 1829, and opened on the corner of Water and Broad streets, north of the present covered bridge. The first birth in the village was Edward, son of William Wetmore, Jr. This was in 1827. The first death was a son in the same family in 1826. The first adult who died in the place, was the first wife of E. N. Sill, a daughter of Henry Newberry. The first marriage is believed to have been the daughter of Deacon Hamlin to Washington Butler. The first Postmaster was Henry Newberry, who held the office till he was led to resign it because of the pressure of his other business. The first bank in the county was the Summit County Bank, organized under the State banking law in Cuyahoga Falls.

Cuyahoga Falls has been visited by several destructive fires. In 1833, a warehouse belonging to Stow & Wetmore, filled with paper stock was burned. In 1851, a flouring-mill, the property of these gentlemen, was likewise destroyed by fire. In 1866, a stone building, known at the time as the bank building, which stood upon the site of James' Block, and occupied by H. C. Lockwood, with several adjoining structures, were consumed. At this fire, John Marsh Hinde lost his life. The woolen-mill on the west side of the river, as previously mentioned, was burned; also the paper-mill on the same side, twice. Messrs. Bill's machine shop and foundry, and the Empire Paper Mill, belonging to Hanford Brothers were burned in 1872. Several residences have gone down in devouring flames, but, generally, they were not of great value. From the earliest times, the village has been exceedingly fortunate as to its dwellings, in regard to fires. Since the foregoing was written, the works of the Falls Wire Manufacturing Company were largely burned. This occurred on the evening of March 31, 1881. They will be immediately rebuilt.

Cuyahoga Falls has become noted as a sum-

mer resort. High Bridge, Glens and Caves, Big Falls, Silver Lake and tiny steamboats upon the river, are the chief attractions. The Lake and Big Falls are outside of, but near to, the corporate limits. The High Bridge is elsewhere described. At this structure, the entrance to the Glens and Caves, a rude stairway has been constructed, which leads down to a plateau, where has been erected a building with spacious dining-room and kitchen attached, where dinner and other parties are served refreshments, and under the same roof is a restaurant, where everything in the line of refreshments can be had. On this level is also a fine croquet ground and numerous rustic seats, shadowed by overhanging, high perpendicular rocks.

A few feet below is Lovers' Retreat, a broad ledge of rocks, shadowed by large forest trees, and down still another flight of stairs, close by the river-side, hedged in by rustic work, is a broad, level surface, which forms the entrance to Fern Cave, a subterranean cavity in the solid rock, 35x54 feet in dimensions. This retreat is supplied with numerous rude seats of iron and wood, where those weary from climbing can rest. Leaving the Cave, we pass down the strongly-braced stairway, running diagonally with the face of the wall, and reach Observation Rock, a huge stone of over one hundred tons' weight. From this point, a magnificent view is presented to the eye. Looking back and up the stream, one gets a fine view of the waterfalls above, of from fifteen to twenty feet in height; also High Bridge, some eighty feet above. Still farther below, and immediately under Fern Cave, is Doves' Retreat, a huge cavern, with an overhanging roof of rock twenty-five feet above. To the right and down the stream is Suspension Bridge, which crosses the stream above high-water mark. It is made of strong rods of iron, crossing the chasm, securely fastened to huge boulders upon either side, with strong hand-rails, and affords a secure passage over the foaming, surging waters

below. Crossing the bridge, we are upon the east side of the river, near Cascade Point, which is a lovely retreat, reached by a path made of rocks and boulders, under Weeping Cliffs, a solid wall of overhanging rock, one hundred feet in height, and fringed at the top with hemlock and birch trees. Here a beautiful spring of cold mineral water gushes forth from the face of the rock, climbing over and under a high point. A broad avenue is presented, which borders the rugged bed of the stream for a mile. This is called the Grand Promenade, and is hedged in on one side by lofty, overhanging rocks, and on the other by innumerable shade trees and the winding river. Here sunlight has to struggle for an entrance, and it is always a cool and romantic retreat. Swings and croquet here abound. Ferns and mosses literally cover the grounds and rocks upon every side.

Boys & Clarkson had a steamer built in Akron by William Paine, in 1878, and has run on the river two seasons. It is called the Silver Wave. It cost \$1,200. The boat is now owned by J. N. Clarkson. This was the first one on this stream. Another boat was built in Cuyahoga Falls in 1880. She ran one season only. She was built by Dailey & Barker. The boating distances on the river run by these boats is from the upper dam to Snakes' Den and Goose Egg Island. The round trip is three miles; fare 10 cents, during the boating season.

There is but one public hall in Cuyahoga Falls. It is now called Apollo Hall, formerly James' Hall. It is located in the third story of James' Block, and was completed in 1869. It was opened April 12 of that year, with a concert given by Miss Fannie A. Sill and her pupils. The seating capacity of the hall is 500, with standing room for 200. It was refitted and newly decorated in 1879, having new and elaborate scenery. The proprietors are George Sackett, O. B. Beebe and W. O. Beebe.

CHAPTER XVII.*

CUYAHOGA FALLS—EDUCATIONAL—CUYAHOGA FALLS INSTITUTE—CHURCHES—SKETCHES OF THE DIFFERENT ORGANIZATIONS—BENEVOLENT SOCIETIES—THE MANUFACTURING INTERESTS—GENERAL BUSINESS.

THE subject of education has always held a high place in the estimation of the people of Cuyahoga Falls, as evinced by the interest manifested by them in their common schools. Previous to the erection of a new township out of the corners of Stow, Tallmadge, Northampton and Portage, the village schools were those belonging to these several townships. However, soon after the organization of the township of Cuyahoga Falls and the creation of a Township Board of Education, the whole territory was erected into one school district, as will hereafter be shown. Previous to this time, the history of the schools is that only of ordinary district schools of the country; but with the new order of things began an increased interest in these "nation's colleges."

The school building located north of St. John's Church edifice was built by the Wesleyans for church purposes. The structure was afterward sold to the School Directors for a high school. In 1872, the new high school building was ready for use and that school was transferred to it, since which time the other house has been used for schools of a lower grade. The two accommodate all the schools of the village. The smaller structures—the district schoolhouses—have all been sold.

In pursuance of an act passed by the Legislature of Ohio, entitled "An act to provide for the re-organization, supervision and maintenance of common schools," the following-named persons—L. L. Holden, Clerk of the Directors of Cuyahoga Falls School District No. 1; P. J. Lee, Clerk of Union District No. 8; and Charles Clark, Township Clerk—met at the office of McClure & McKinney and organized a Board of Education for Cuyahoga Falls, by appointing L. L. Holden Chairman, the Township Clerk being by law the Clerk of the Board of Education. This was on the 18th of April, 1853. That portion of School District No. 8

*Contributed by C. W. Butterfield.

lying in the township of Cuyahoga Falls, and the Cuyahoga Falls School District No 1, were united and formed into one district on the 24th of April, 1854, to be known as the "Cuyahoga Falls School District." On the 26th of June, L. L. Holden was appointed Acting Manager of Schools for the township. On the 15th day of May, 1855, "Mr. Taylor" was "appointed Principal of the Central School," and "Mrs. Taylor" his assistant. Together they were to be paid the sum of \$700 "for the year of forty weeks." On that day the Board "*Resolved*, That we attach great importance to the good government of a school and the moral instructions which the children receive, and the thoroughness with which they are drilled in the primary branches and first principles of education."

On the 25th day of May, 1855, the record of the board says: "This day sold to John Love the schoolhouse near the Widow Gaylord's for the sum of \$100." For the school year ending August 31, 1857, the whole number of pupils enrolled was 482; number of teachers employed, 7—one male and six females. Union District No. 10 in Tallmadge and Cuyahoga Falls Townships was discontinued June 18, 1858. H. K. Taylor, Principal, on the 1st day of July, 1861, "made a summary report from the high school, showing general improvement in scholarship and deportment for the last month." Seventeen days thereafter, Mr. L. H. Delano was "employed to teach the Central school; whereupon, on the 1st day of August following, "a petition numerously signed by citizens of Cuyahoga Falls was presented" to the board, asking them "to reconsider their action changing the Principal of the high school or resign;" but they did neither.

The Board of Education resolved July 2, 1863, "that William I. Chamberlain, of Hudson, be employed to teach as Principal in the high school at a salary of \$600 per annum."

The total number of youth enrolled in the schools at this date was 452. The number of schoolhouses was five; the number of schools, five—four common schools and one high school. The school library was valued at \$300, having on its shelves 755 volumes. June 24, 1864, Mr. Chamberlain's salary was raised to \$75 a month.

On the 26th of June, 1865, George McLaughlin was employed to teach the Central school as Principal at a salary of \$650 per annum. At this time, besides the central school, there were the southwest primary, southeast primary, northeast primary and northwest primary. The next year, the salary of the Principal was raised to \$750. July 18, 1866, W. C. Rogers was employed as Principal of the central or high school at a salary of \$75 per month. The successor of Mr. Rogers as Principal was B. B. Tremlin, who was employed in December, 1866.

On the 16th of January, 1867, at a meeting of the electors of the township, it was resolved to move all the schools into one building. On the 16th of February, 1867, at a meeting of the qualified voters of Cuyahoga Falls School District, it was moved and carried that a tax not exceeding three-fourths of one per cent be levied annually for a period not exceeding five years, for the purpose of building a central or union schoolhouse in the village. On the 17th of May, 1867, the qualified electors voted "that the School Directors be authorized to purchase of H. A. Miller for a schoolhouse site, the nine lots north of the hotel lots, between Front and Second streets, and south of Stow street.

Virgil P. Kline was, on July 1, 1867, employed as Principal. At this time, there were five common schools in the district and the high school. The number of pupils enrolled was 456. The total value of schoolhouses and grounds was \$2,400. It was voted by the board, on the 5th of November of that year, that, "Whereas, it is ascertained that at the last school exhibition a young lady's dress was accidentally damaged seriously, and that there remains unexpended some of the avails of said exhibition, the sum of \$3 be paid out of said avails to the owner of said dress." At a meeting of the qualified voters of the district, held January 3, 1868, it was voted that the site of the new central schoolhouse should be

the "Cooke Lot." This lot was deeded by James H. Cooke to the district in consideration of \$1. The deed conveyed two acres of land on the south side of the old township line road and forty-eight rods east of Newberry street, conditioned that the building should be commenced within five years. On the 8th of May, 1868, the salary of Mr. Kline was raised to \$1,000.

On the 12th of May, 1869, the board determined that the school building to be erected should be three stories high. At the same time A. Koehler, architect, of Cleveland, was employed to prepare necessary plans and specifications for the house. In July, 1869, Miss Booth "agreed to remain in the high school as teacher another year, upon a salary of \$1,000," Mr. Kline having declined to labor any longer as Principal. The pupils of the intermediate school were taken into the high school.

On the 4th day of August, 1869, the board contracted with George Allison, of Tallmadge, for the erection of the basement story of the new Union Schoolhouse, for the sum of \$5,200. On the 7th of September following, Edward Sill was engaged as Principal of the high school at a salary of \$900. The number of schoolhouses was four frame and one brick; total, five. On the 29th of November an additional tax was voted by the qualified voters of the district to erect the school building, of three-fourths of one per cent. An agreement was entered into by the board with George Allison, on the 1st day of March, 1870, to do the mason work for the school building, except the plastering, for \$11,701.51. They agreed with Dunn & Witt, of Cincinnati, for \$2,630, to have the roofing and galvanized iron work done. The Board engaged George Thomas & Son, of Akron, for the residue of the work, including joiner work, painting, plastering, etc., for the sum of \$12,400. The original contract price, therefore, for the building amounted to \$31,931.51. This, of course, was exclusive of heating the building. This cost an additional \$3,000. There was also paid Mr. Allison for extra work \$617.37. The contract for seating the building was made on the 21st of June, 1871. There was allowed Thomas & Son \$1,698 for extra work.

Miss A. A. Booth was engaged as Superintendent of the public schools at a salary of

\$1,200, on the 12th of July, 1871. It was voted at an election held April 8, 1872, by the qualified voters of the district, to sell the Central schoolhouse and the four primary schoolhouses and their lots. The northwest primary school building was sold for \$800. The expense of seating the new high school building was \$1,773.50. The northeast primary schoolhouse and lot was sold for \$400.

The Board of Education was re-organized under the school law of 1873, on the 20th of April, 1874, by the election of L. J. Germain, President; G. W. Rice, Clerk, and W. M. Griswold, Treasurer. The supervision of the schools was assigned to Mr. Germain. On the 1st of August of that year the board passed a resolution to "advertise for a competent and experienced teacher as Principal of our Union Schools." George L. McMillan was the successful applicant, at a salary of \$1,000. The number of schoolhouses in the district at this time was one union and one not used; the number of rooms, exclusive of rooms used only for recitation, high school, one; primary, three; total, four. The value of school property was \$36,000. The number of teachers employed, six. On the 4th of November, the clergymen of the village were requested to act as a visiting board of the schools. On the 26th of April, 1875, the President of the Board was "authorized to employ Mr. A. N. Bernard as Superintendent and Master of the Union School for the balance of the present school term," at a salary not exceeding \$1,200 per annum. His services were continued at the rate of \$120 a month salary. There were this year enrolled in the school 401 pupils.

On the 17th of February, 1876, the board ordered that "any scholars who have been suspended from the public school of this district on account of exposure to the small-pox, shall furnish the Superintendent, before they shall be re-instated, with proof that they have been vaccinated." Four days after this, an order passed that "hereafter no pupil shall be admitted to the schools of this village until they have furnished the Superintendent with proofs of vaccination." Besides this, the schools were "suspended until further notice." They were not opened until the second Monday of April following. Previous to this, at an election of the qualified voters of the district, it was determined to increase the board from three to six

members. The following resolution was passed unanimously April 24, 1876: "*Resolved*, That Dr. Heath be requested to furnish Mr. Bernard, School Superintendent, with a list of such families as should, for the present, be held back from sending their children to school; that at least thirty days should elapse after any case shall have terminated before any family shall be allowed to send their children to school, and that all school books be destroyed that may have been exposed in families who have had the small-pox."

On the 6th of May, 1878, it was stated at a meeting of the board that "it was the opinion of many that the population of our village was more than 2,500; if so, then by law it is our privilege to have our own Board of Examiners of Teachers." And they had them! On the 28th of June, 1878, Mr. Bernard was continued Superintendent, at a salary of \$1,100. The number of pupils enrolled during this year was 502. The Union School building was fitted up with a steam-heating apparatus during the year 1879, at a cost of about \$1,500. On the 21st of June, 1880, the board passed a resolution "that Joanna Cutler, Lizzie M. Richardson, Mary A. Clark, Jessie Knox, Grace E. Sykes, Rial Smith, Otto C. Richardson and Albert Kingsbury, the members of the class of the high school of 1880, be graduated on Friday evening, June 25."

The branches now taught in the Union School in Cuyahoga Falls are reading, spelling, writing, arithmetic, geography, English grammar, oral lessons, composition, drawing, vocal music, United States history, physical geography, natural philosophy, German, algebra and Latin. The schools are in a high state of efficiency, owing to the interest taken by the parents of the district; to the intelligent labors of the Board of Education, and the wisdom and zeal of the Superintendent and teachers.

One of the first efforts in the promotion of education, outside the common school, was the organization and charter of the Cuyahoga Falls Institute, under the management of the Rev. Mr. Brooks and Charles Clark. The school was started and kept in operation some time, but the hard times which came in 1837 made it necessary to abandon the project. After the building of St. John's Church, a seminary for girls was kept in the schoolroom adjoining, by Miss Sarah Carpenter. She was succeeded by

Miss Frances C. Barron, the last named by Miss Eliza Deaver.

Churches were early established in the village of Cuyahoga Falls; but, instead of comfortable church buildings, those who came first were obliged to meet in schoolhouses and other inconvenient places. As a consequence, church services were irregular and infrequent.

In giving the history of St. John's Church, in Cuyahoga Falls, it is necessary to go back to the time when stately forests covered the landscape, and over the fertile fields where now the eye rests with delight upon the evidences of civilization, but few marks of improvement were anywhere to be seen. Log cabins dotted it here and there, and some clearings were begun, but the roads went winding through the forest, and communication between points was slow and tedious. The Cuyahoga River sang its merry song in freedom, fettered only by the rocks which gave it voice. Its waters had not been forced to turn the busy wheels, and few sounds had been heard upon its banks, except the song of the birds, the howl of the wild beasts, or the more savage yell of the wild Indian. Akron had not been thought of, and Cleveland was known as a little village six miles from Newburg. Here and there a farm was opened, and the busy settlers were making the wide forests ring with the sound of their axes, which were letting in the light where long had brooded only the somber shade of its matted woods. The first settlement at Stow Corners was made by a few families from the same Eastern home, most of them relatives. Just south of Gross' Tavern, it will be remembered, there is an orchard, but, in 1818, there was a log cabin standing in that lot, which disappeared many years ago, and in it lived Josiah Wetmore, with his wife and children. No sooner were they settled than Mrs. Wetmore, who was a devout member of the Protestant Episcopal Church, gathered in her neighbors for worship, which she continued to do for three years. There was no other service held in the settlement, and they came with ox teams and on horseback from all the region around. After they had met in that way for about a year, Mrs. Wetmore reading the service and her husband the sermon, the Rev. Roger Searle, who lived at Medina, and officiated in many places on the Western Reserve, paid a visit to the place, and preached in Mrs. Wet-

more's house. This was in 1819, and was the first sermon preached and the first service held by an Episcopal clergyman in all the region.

The people who came to these services in Mrs. Wetmore's house increased in numbers, and soon filled her house, and in warm weather the yard about it. They had no boards of which to make seats, but split logs, and hewed them into what was called puncheons, and putting them upon legs, raised them high enough to be used for seats for the assembled worshippers. They had no carriages to convey them to the place of worship, but came upon sleds drawn by oxen, and on horseback, and many on foot. Thus they gathered, and there can be no doubt that as acceptable worship was offered in that humble cabin as ever went up among the fretted arches of a cathedral; and there in that humble cabin was the first step taken, which twelve years afterward culminated in the organization of St. John's Church.

After three years' residence there, Mr. Wetmore went back to New England with his family to give them such advantages of education as they could not get in this new state of society. After they left, the services were held in different places, centering, however, about the Corners. After some years they came back to Cuyahoga Falls, where Mrs. Wetmore lived until 1865, esteemed by all who knew her for her virtues, when she fell asleep in Jesus, and was buried in the cemetery, where she awaits a glorious resurrection. Mr. Wetmore lived until 1867, when he was laid beside his wife, at the age of eighty-four years.

Along the center line of Stow there were many families settled by this time who had been reared in the Episcopal Church. On the western end of that line lived Orin Gilbert, and a little way north of him was Arthur Sadler and Henry O'Brien. East of Mr. Gilbert was Frederick Sanford, and striking southeast were the Wetmores and Frederick Wolcott (who had become attached to the service since its establishment), Roland Clapp, and some families of Gaylords. In Tallmadge there were also several families; and up the river, in the western part of Franklin, were Col. Stanley, Mr. Furber, the Furgesons and some others. Some of these were young men, who with their wives had come to make their homes in the then far West, and some of them were in middle age, with half-grown children, who had reached this

distant point after long and painful journeys; but all were of slender means, and depended upon the blessings of a kind Providence on their labor, and the returns of strenuous effort from a generous soil.

These scattered families, spreading over not less than ten miles square, and others about them, as we have seen, had been accustomed to meet on Sundays for divine service in the use of the Book of Common Prayer, and hearing a sermon read from such collections as they had brought from their Eastern homes. These services, after the first three years, were held in different places, and were participated in by persons coming from parts of Stow, Hudson Tallmadge, Franklin, and parts adjacent, with great labor and inconvenience, to worship God as they had been taught in the homes from which they came.

Like most of the emigrants from New England, they were of decided opinions and firm convictions, and the principles they had imbibed in early life were clung to with a tenacity which showed their fitness to be founders of new societies, and to transmit to their successors the institutions under which they were reared, in their integrity. Those who had been reared in the Episcopal Church could not be satisfied to give up the church of their fathers, and showed how deeply they were attached to its ordinances by the pains they took to enjoy those ordinances, with no other than lay services.

The first step toward organization was to obtain, from Bishop Chase, licenses for Roland Clapp, a young man from Vermont, and Col. Stanley, of Franklin, as lay readers, who were authorized to gather the people together and hold regular service, with the reading of such sermons as were specified by the Bishop. Thus their love for the church was fostered, and some were led to unite with them who were reared under other influences. But ministers were very scarce in those days, and those who loved the church were obliged to content themselves with lay services for a long time after they were accustomed to meet for social worship.

The next minister of the church who officiated for them was Rev. William N. Lyster, who was acting as a missionary in Trinity Church, Cleveland, then a small village upon the lake shore. He came on foot, and preached in Hudson and Stow on the first Sunday in February,

1830. He came again on the first Sunday of the following month, and preached in Franklin (now Kent) in the morning, and in Stow in the afternoon. Two months after this, he preached in the morning in Hudson, and at Stow, in the tavern, in the afternoon. During that visit, the first steps were taken toward the organization of a parish. Their lay service was continued by uniting from all parts within reach, till the following winter, when Rev. James McElroy, who had succeeded Mr. Lyster in his missionary work at Cleveland, paid them a visit. He preached in Hudson in the morning, and in Stow in the evening, and, before they separated, they organized the parish of "St. John's Church, Stow." This was in 1830. The organization of the parish of Christ Church, Franklin, was effected some time afterward, but the prospect of establishing the church in Hudson was not thought encouraging enough to warrant any further effort there, and all the members in Hudson Township were enrolled in St. John's Church.

After the organization of the parish, lay services were held regularly until 1834. A dam had been built near the present railroad bridge, and a mill had been erected upon it, and several houses were built in the neighborhood; and, among others, a log schoolhouse. The services were held in this house, which stood in the south part of what was long known as the "old village." It was supposed that the town would be built at this point. After a time, a building was erected for a store further north; it stood on the west side of the present railroad, between the two crossings. The services were then removed to that building, but Stow Corners was most convenient for the worshippers, and larger numbers could be gathered there, and, as the services were first begun there, they were taken back, and continued to be held there until the present edifice was ready for use.

But the water-power at this point had been brought into use, and the town had been rapidly filling up with a busy population, and it was manifest that there was to be an important village lower down the stream than they first began to build; and when the society was ready to build, they resolved, after long debate, to have the church at Cuyahoga Falls. In 1834, Rev. C. V. Kelley was appointed a missionary at Ohio City, with instructions to give every

alternate Sunday to the parish at Stow. He had not been officiating long under this arrangement, before it was thought best that he should go to New York to solicit aid for these feeble churchmen in building their church; and after a protracted absence he returned, and paid over for this purpose \$700, which was used in the erection of this church. He then returned to New York and took charge of St. Bartholomew's Church, and St. John's was without a minister.

In the spring of 1835 they chose this site, and began the work of building. The town had grown very much, and manufactures of many kinds were introduced, and it was thought that a very large population would soon be gathered; and it was seen that here was the place for the church. But the services were still held at the Corners. While they were building it was thought best also to secure the services of the minister, and they proceeded to secure the services of a minister, and they proceeded to call Rev. William H. Newman, of Bristol, R. I., who accepted the rectorship on the 10th of November, and continued in charge of the parish till June 18, 1837, when he resigned and removed to Newark, Licking Co., Ohio.

The church edifice was completed in 1836 and consecrated to the worship of Almighty God by Bishop Melvaine on the 10th of July of that year. It is the oldest church within a very large area, unless it be the Congregational Church at Tallmadge, which stands to-day as it was originally built. The plan adopted was the same essentially as that of old Trinity Church, Cleveland, except that the front of the building was more showy, and the chancel more elaborate and expensive. But such as it was at first it remains to this day, except the change in the chancel made last year. There were present at the consecration, Rev. Abraham Bronson, of Peninsula, and Rev. Thomas Barrow, missionary at Akron, and the Rector.

The first Sunday school was organized the same month, and has continued till the present day without intermission. After the removal of Mr. Newman, the Rev. Zachariah Mead, of Virginia, was called to the rectorship, but he was not pleased with the people of the North, and after spending three or four weeks in the parish, he returned to Virginia.

After him the Rev. Mr. Cushman was called,

but he remained only a short time, and nothing is found upon the records as done by him.

In 1837, Rev. Albert T. Bledsoe, who was one of the converts at West Point, under Bishop Melvaine's chaplaincy, and was ordained by him, was called; but, after about four months, he became dissatisfied with his profession, and resigned both the rectorship and the ministry, and went to Virginia, where he has long held a professorship in the University of Virginia.

After his removal, the parish was vacant until the 10th of April, 1839, when a call was given to Rev. James Bonnar, Deacon, of Utica, Licking Co., Ohio. He accepted the call, and was ordained Presbyter, together with Rev. Charles C. Townsend, in this church. He remained less than a year, and, resigning, went to Marietta, Muskingum County.

In February, 1840, Rev. Thomas B. Fairchild, of Grafton, was called to the vacant rectorship, and entered upon his duties immediately. In the meantime, a parish had been organized in Franklin, called Christ Church, which took several members who had been enrolled in St. John's Church; but he found upon the list the names of forty persons. In 1842, he organized the parish of Christ Church, Hudson, which took several prominent members. He remained until 1844, when he resigned, and went to Wooster, Wayne County, leaving upon the record sixty-four resident members.

He was succeeded by Rev. Alvah Guion, who stayed not over a year. Rev. David J. Burger was called to fill his place in the summer; but died suddenly, after a few months in charge here, while on a visit to Toledo, where he had previously lived.

Upon his death, a call was given to Rev. Levi L. Holden, of Grafton, who removed to the parish in July, 1847. He held the rectorship till 1867, twenty years, when he resigned, and went to Wooster, leaving a large circle of friends, both out of the church and in it, who remember and speak of him with esteem and affection.

Services were held at irregular intervals, by Rev. Mr. Fairchild, then at Hudson, and Rev. E. B. Kellogg, of Gambier, until the next summer, when Rev. George Bosley, Deacon, was sent by the Bishop to fill the parish. The next year, he was advanced to the Priesthood, and continued in charge till 1871, when he resigned, and went to Marion, Ohio.

In March, 1871, Rev. T. B. Fairchild, Rector, in charge of St. John's Church, Kewanee, Ill., was called back to his old charge, and, on the first Sunday of April, began his labors. He continued in charge until March 8, 1879, when he died. His successor was Rev. George W. Williams, the present Rector.

When Mr. Newman left the parish, there were forty-nine members upon the record. Of these, only two remain—Roland Clapp, Mrs. Lucy Rice. The rest have died or removed; probably most of them have passed away from earth. "There were no entries made in the church record from his removal," writes Mr. Fairchild in 1875, "until my residence, but there were forty communicants when I came. During my first rectorship, fifty-three were added to the number. The organization of the parish in Hudson took several valuable members; but, of those added during the four years and three months, there are now twenty members upon the list. After my removal, I was present at the visitation of the Bishop, and presented ten persons for confirmation, who had been prepared for it before I left. Of those ten, not one is left. Nine were added by Mr. Burger, but they are all gone. During Mr. Holden's rectorship, I find 72 names entered in his hand-writing, but of these only 20 are members to-day. After his removal, your present Rector held services for a while in the afternoon, and, as the fruit of that labor, 14 were confirmed, and 10 of those are members still. During Mr. Bosley's residence, 50 names were added, but only 23 of these are members now. Since my return, 24 have been added, and 6 of these have died or removed, leaving 87 resident members. The whole number, from the beginning, being 305 members.

"Upon the record of baptisms, I find recorded by Mr. Newman 22, Mr. Bonnar 8, Mr. Guion 4, Mr. Holden 94, Mr. Bosley 50, and by myself 90, making 279 persons since the organization of the parish. But I am persuaded that there were many baptisms in its earlier days which have not been recorded, as there were no entries made until Mr. Newman's time.

"The first confirmation recorded was held by Bishop Melvaine, but there are several persons whom I know to have been confirmed before this, whose names are not recorded. There are, however, 154 names upon the record, and may safely be reckoned at nearly two hundred,

showing that at least two-thirds of all the members who have lived here, first made their profession in this church.

"Of marriages, Mr. Newman solemnized 2, Mr. Guion 4, Mr. Holden 75, Mr. Bosley 15, and myself 23, making 119 couples in all.

"Upon the record of burials I find eleven by Mr. Newman. On the 21st of October, 1837, when the parish was vacant, that terrible tornado passed over Stow, and Rev. Ebenezer Boyden, of Cleveland, was called to lay its four victims in one grave. Mr. Guion buried 4, Mr. Holden 112, Mr. Bosley 26, buried by myself 72, by other persons 22, making in all 242 persons, of whom 136 were adults and the rest children and youths. Of those committed to the ground, I think hardly a family connected with the parish has failed to furnish a part, while in some cases, whole families have joined the great congregation. The consolation of its funeral rites has been given freely to all, and few in this region have not shared them. I have myself in all these years, preached 5,579 times; baptized 296; married 149 couples, and buried 302 persons."

As will be seen by these statements, the hindrance to the growth of St. John's Church has been its continual losses by removals, which have been very heavy from the first. The additions by removal from other parishes have been comparatively small; and the great proportion of the members we have lost from this cause, has been of those who first became communicants here, and then removed to other parishes.

The history of the Methodist Episcopal church is this: The "Twinsburg Circuit" was organized November 1, 1832. The society in Stow Township, now Cuyahoga Falls, was one of the appointments. The members met in a storehouse at the "old village," as it is now known. The first Presiding Elder was W. B. Mack. The circuit preachers were Thomas Carr and John E. Akin. They preached once in two weeks alternately. Carr was re-appointed for 1833, and L. D. Prosser as his colleague. The preachers for the next year (1834) were Ira Eddy and A. Reaves. At this date, William Stevens was Presiding Elder. In 1835, E. H. Taylor and J. L. Holmes were sent to the circuit. The meetings were then held in the basement of the church building, at the Falls. The circuit preachers, in 1836, were E.

H. Taylor and Horatio N. Stearns. In 1837 and 1838, Rev. E. T. Kinney was in charge. Arthur M. Brown was preacher in 1839, and Wesley Maltby was his assistant. The Falls then became a station. Rev. Timothy Goodwin was station preacher for the next two years—1840 and 1841. He was succeeded, for 1842, by Rev. W. French, and the latter, in 1843, by A. Calendar. The successor to Mr. Calendar was Rev. D. Prosser. This was for the year 1844. The latter was re-appointed for the next year, 1845. B. W. Hager was the preacher for 1846. For the next two years (1847 and 1848), Rev. A. M. Brown. The following Pastors have since had charge; 1849, A. Hall; 1850, A. Hall; 1851, A. Rogers; 1852, A. Rogers; 1853, Thomas Stubbs; 1854, John Tribby; 1855, John Tribby; 1856, D. C. Wright; 1857, D. C. Wright; 1858, E. J. L. Baker; 1859, G. W. Chesbrough; 1860, G. W. Chesbrough; 1861, E. S. Gillet; 1862, E. S. Gillet; 1863, J. E. Chapin; 1864, J. E. Chapin; 1865, C. T. Kingsbury; 1866, C. T. Kingsbury; 1867, J. R. Lyon; 1868, J. R. Lyon; 1869, R. M. Bear; 1870, R. M. Bear; 1871, E. A. Squire; 1872, E. A. Squire; 1873, E. A. Squire; 1874, 1875 and 1876, G. W. Gray; 1877, 1878 and 1879, Dr. S. M. Hickman; 1880, Dr. W. A. Davidson.

The church edifice was commenced on the lot deeded to the society, on the public square, about 1834; meetings were held in the basement until the structure was completed. This was in 1840, the dedication of the building being on the last day of that year. The house was enlarged in 1864, and the inside materially changed. The edifice will seat comfortably 500 persons. The organization has been from the beginning very prosperous. The members number at present 200. The only town clock in the village is in the steeple of this church. The organ cost \$1,600.

The following are the officers of the church: Trustees, Israel James, Jacob Weidner, Hiram Gaylord, Alexander J. Billman, Orin James, Mathew Crawford, Hiram W. Carter, Arthur Lewis and Isaac Reid; Stewards, Israel James, Edgar Inskeep, Henry Plum, William Hill, Isaac Reid, Richard Blood, Jacob Weidner and Simeon Dickerman; Class-leaders, Richard Blood, A. R. Knox, L. D. Williams and H. W. Carter.

There is one supernumerary preacher, J. C. Castle; and one local preacher, Richard Blood.

In connection with the church there is a well-organized and efficient Sunday school, having an average attendance of 150. Officers—Superintendent, Dr. H. W. Carter; First Assistant, Arthur Lewis; Second Assistant, Mrs. Mathew Crawford; Secretary, Mrs. David Brown; Treasurer, Mathew Crawford; Librarians, Isaac Reid and Mary C. Weidner.

“The Congregational Church of Cuyahoga Falls,” wrote Birdsey Booth in 1861, “was organized February 14, 1834, by Rev. B. C. Baldwin (then residing at Middlebury), and Rev. J. C. Parmelee, of Tallmadge. Ten persons, five male and five female (five by letter, and five by profession), united in the organization. Of the ten thus uniting, one removed his connection; six are no more, for God has taken them, they having died in the faith; and three remain to this day. The whole number which have been received into connection with the church, is 287, of whom 188 were received on certificate, and 99 on profession (about one-third by profession).

“Of the 287 which are, or have been, members, 41 have died; 123 have removed their connection; 23 dismissed for prolonged absence; 14 have been excommunicated; leaving present number 86, of whom some 14 are probably permanently absent.

“Twenty-four adults and twenty infants have been baptized since April, 1841, previous to which there is no record of any.

“From the organization to January 1, 1835, the pulpit was supplied by Rev. B. C. Baldwin, preaching every alternate Sabbath. From January 1, 1835, to October of the same year, by Prof. Long, of Western Reserve College; from October, 1835, to May, 1836, by Prof. Gregg, of Western Reserve College; from May, 1836, to November 23, same year, by various individuals; from November 23, 1836, to May, 1838, by Rev. Joel Byington; from May, 1838, to October, same year, by various individuals. October 24, 1838, Rev. William C. Clark was ordained and installed Pastor of the church. Mr. Clark continued his services with the church down to April 5, 1847, about eight and a half years, when, on account of ill health, he requested to be released from his pastoral labors, which, the church acceding to, was dissolved by action of Portage Presbytery called for that purpose. (It should be remarked here, that the church was organized in connection with Port-

age Presbytery, and until the meeting above referred to, had been regularly represented in that body. On this occasion, the church presented to Presbytery a resolution previously adopted, requesting a dissolution of its connection with that body, which was granted at the meeting aforesaid. Since then, the church has been an independent Congregational body, except as it has entered into mutual relations with other Congregational Churches.)

"From April 5, 1847, to October 12 of the same year, the pulpit was supplied by various individuals, but chiefly by Rev. William C. Foster, whom the church and society invited to become their pastor, and was ordained and installed by Council, October 12, 1847. The relation thus entered into continued until May 28, 1849 (a little more than a year and seven months), when the relation terminated by his request, acquiesced in by the church and action of Council, called for the purpose. A few Sabbaths after, the pulpit was supplied by Rev. S. P. Leeds, who, having supplied the pulpit for two years, accepted the call of the church and society, and was ordained by Council June 18, 1851. Mr. Leeds continued the relation thus entered into, until June 23, 1855 (four years), when it was terminated by his request, reluctantly acquiesced in by the church and Council. From the termination of Mr. Leeds' labors, June 23, 1855, down to May 2, 1858, the pulpit was supplied by many different ministers—for several months by Prof. H. B. Hosford, of Western Reserve College, and for one year by Rev. J. L. Tomlinson; subsequently, by Prof. H. N. Day, of Western Reserve College, for several months to May 2, 1858, when Rev. Dr. T. S. Clark, who is still with us, commenced his labors.

"January 1, 1838, Jabez Hamlin and Ogden Wetmore were chosen Deacons of the church. On the 8th day of June, 1841, Deacon Wetmore died, and, on the 24th of November following, B. Booth was chosen his successor. January 7, 1858, Deacon Hamlin, by reason of the infirmities of age, requested a discharge from further duties of the office and a successor chosen. Whereupon Mr. Charles Clark was chosen his successor.

"Mr. E. N. Sill was the first Clerk of the church, and held the office to May 24, 1841, when Mr. Charles Clark was chosen Clerk. Mr. Clark held the office to October 5, 1842, when B. Booth was chosen.

"The church was organized in a schoolhouse standing on the same lot or near where the present church edifice stands. The next year a building was erected on an adjoining lot by the citizens of the village, for public assemblies, called the Lyceum, which was, however, under the control of our church for religious purposes. In this house the church worshiped until the spring of 1847, when the present church edifice was dedicated.

"There was a revival in the spring of 1840, while Rev. W. C. Clark was Pastor, the fruits of which were added to the church by profession, at the communions in April and July, twenty-five persons. One in the spring of 1848, under Rev. W. C. Foster's pastoral labors, whereby there were added to the church in April and July, thirteen by profession. One under the pastoral labor of Rev. S. P. Leeds, in 1854, when in July seventeen were added to the church by profession."

Since that time, 215 have been added to the church, 137 by profession. The present number of members is 165—male, 50; female, 115. Hon. E. N. Sill is the only remaining one of the original ten members.

Dr. Clarke's labors terminated June 8, 1862. During the two years following, the pulpit was supplied by various individuals—from June 19, 1864, to April 1, 1866, by Rev. D. M. Rankin. October 28, 1866, Rev. E. V. H. Danner commenced his labors; was ordained and installed January 3, 1867, and is still the Pastor. In 1870, the church edifice was enlarged and improved, at an expense of \$6,121.56. The Sunday school was organized in 1838, and has been held uninterruptedly since then. Organizations under the management of the ladies of the church, sewing societies, or dime societies, have existed almost from the organization of the church, and have proved very efficient aids in raising funds for the church. In March, 1875, two ladies' missionary societies (one for young people) were organized, and are still active. Annual contributions are made by the church to the American Bible Society, the American Board of Commissioners of Foreign Missions, the American Home Missionary Society, the American Missionary Association, the Education Society, and the Congregational Union. During the pastorate of Rev. S. P. Leeds, this church and Pastor were active in the formation of the Puritan Conference.

The Church of Christ is the youngest of the church organizations at Cuyahoga Falls, Ohio, its existence as an independent church body dating from the 27th day of March, A. D. 1881. The history of the efforts made by the disciple that led to the organization of the church, covers a period of about two years.

In the month of January, 1879, upon the invitation of the Ohio Christian Missionary Society, District No. 15, and the church at Stow, Elder T. D. Garvin, of Columbus, Ohio, visited Cuyahoga Falls to hold a series of meetings. James' Hall (now called Apollo Hall), was obtained for this purpose. The weather during these meetings—which continued nearly four weeks—was excellent, and the members of the church at Stow attended nearly all the meetings. James' Hall was filled night after night to the close. Rev. T. D. Garvin's labors on this occasion were rewarded by quite a number of additions to the church. The expenses of the meeting were borne jointly by the missionary society and the Stow church.

In the spring of 1879, the members of the Stow church, who were living at the Falls, organized a mission, rented the hall over J. L'Hommedieu's store, and held regular meetings, for social worship, preaching and communion.

These meetings were continued during the year with rather indifferent success. A. S. Wheeler, Elder of the Stow church, had charge of the mission, and the money necessary to sustain it was contributed by the missionary society and the members of the church resident at the Falls.

In December, 1879, Elder T. D. Garvin held a second series of meetings in Apollo Hall, which continued till January 12, 1880. Like the meetings of the previous winter, these were largely attended, and resulted in some thirty additions to the church at Stow. The expense of the meetings, which was about \$8 per day, was paid in equal parts by the missionary society and by the brethren and friends of the mission.

In February, perhaps, of 1880, the mission rented the hall over Giles L'Hommedieu's store, where it has since held its meetings. In April of the same year, William Southmayd, an Elder of the Stow church, moved to the Falls and took an active part in the work of the mission. A Sunday school was organized in connection

with the mission on May 1, 1880, and William Southmayd was chosen Superintendent. A good corps of teachers was secured, and with an enrollment of about twenty-five (which at this writing, May 28, 1880, has grown to nearly fifty), the Sunday-school work of the mission was begun.

About April 15, of the same year, Leonard Southmayd was employed to preach regularly for the mission. He preached regularly from the time of his employment up to the date of the organization of the church, every Lord's Day morning, with one exception. The expense incident to this period of the mission's life was borne by the members of the mission, the missionary society and the church at Stow.

In December, 1880, Elder C. C. Smith, of Akron, held a protracted meeting in G. L'Hommedieu's hall, which resulted in a few accessions to the church. The church at Akron gave Elder Smith's time, Elder Southmayd supplying the Akron pulpit during Elder Smith's labors here. A pleasant feature of the close of this meeting was the presentation to the Mission Sunday School by Elder Smith, in behalf of the Akron Sunday School, of the beautifully-framed mottoes which now adorn the walls of the Sunday-school room.

On February 7, 1881, at the request of members of the mission, the State Evangelist, Elder R. Moffat, called a conference to take into consideration the propriety and practicability of organizing a church. At this conference which met at William Southmayd's, there were present from Stow, Ulysses Marvin, Eli Gaylord, L. Hartle, C. B. Wetmore, Josiah Wetmore, J. O. Williamson, Joseph Whittlesey, L. Southmayd and A. B. Griffith; from the Falls, A. S. Wheeler, William Southmayd, John Jones, O. M. Hart, Zeno Culver, J. T. Ream. In addition to these there were present R. Moffat, State Evangelist of the Ohio Christian Missionary Society, Linus Rogers, C. C. Smith and A. E. Myers, State Evangelist of West Virginia.

The unanimous conclusion of the conference was that a church be organized at the Falls, provided such act met the approval of the brethren of the mission.

The Elders of the Stow Church gave their consent to the transfer of some fifty-seven names from their church record to the record of the church at the Falls whenever organized.

Subsequently the members of the mission concluded to effect an organization. With that end in view, the State Evangelist, Elder R. Moffatt was invited to hold a series of meetings at the hall of the mission, which he did beginning on Saturday evening, March 18, 1881, and closing on Sunday evening, March 27, 1881. On March 27, 1881, by appropriate exercises, the church was formally organized, though not legally incorporated as the Church of Christ, of Cuyahoga Falls, Ohio, and the following officers were chosen: A. S. Wheeler and William Southmayd, Elders; O. M. Hart, John Jones and T. J. Ream, Deacons; W. M. Griswold, Treasurer, and Charles Fillius, Clerk.

There are in Cuyahoga Falls but few secret societies. Howard Lodge, No. 62, I. O. O. F., was instituted March 12, 1846, by O. P. Stidger, D. D. G. M., of Canton, Ohio. The charter members were Philemon Bliss, Richard Creighton, George Rouse, Augustus Einger and Daniel M. Curtiss. Their charter was surrendered August 27, 1862. The lodge, however, was re-instituted August 1, 1872, by H. Y. Beebe, P. G. M., of Ravenna, Ohio. The new charter members were John Grimm, D. H. Jones, William Daugherty, Andrew Schmidt, W. H. Dailey, A. M. Musson, John Little, E. L. Babcock and C. Kittleberger. The present officers of the lodge are: I. N. Reid, N. G.; George Williams, V. G.; George W. Rice, Secretary; W. H. Dailey, Recording Secretary; W. M. Griswold, Treasurer. The Trustees are George J. Parks, George W. Rice, A. C. Goble, Humphrey Parkin, W. I. Clarkson. The names of the Past Grands now connected with the lodge are D. H. Jones, John Grimm, William Daugherty, Andrew Schmidt, E. L. Babcock, W. H. Dailey, George W. Rice, Nelson Holcomb, E. A. Inskeep, A. C. Goble, Thomas Garrety, C. Kittleberger, George J. Parks, W. S. Hough, George F. Patterson, W. I. Clarkson, John D. Thomas, David Forbes and Joseph Jones. The present number of members is seventy-three. Their night of meeting is Tuesday; their place, Loomis Block, northeast corner of Front and Portage streets.

Letters of dispensation were granted to Star Lodge, F. & A. M., by the Grand Lodge of the State of Ohio January 9, 1850. The first officers of the lodge were: Richard Creighton, W. M.; H. N. Gillett, S. W.; H. Dowd, J. W.; G. L'Hommedieu, Treasurer; John Davis,

Secretary; A. M. Manchester, S. D.; I. Lewis, J. D.; William Wright, Tiler. The lodge received their charter from the Grand Lodge of the State of Ohio the 17th day of October, 1850.

The following were charter members of the Lodge: Richard Creighton, Harrison M. Gillett, Henry Dowd, Charles W. Whetmore, Giles L'Hommedieu, John Davis, Alonzo N. Manchester, Isaac Lewis, William Wright, Timothy Brainard, George Allen and Robert Peebles.

The following members were Past Masters of the lodge: R. Creighton, J. Chamberlain, A. M. Manchester, C. W. Whetmore, P. V. Curch, S. Comstock, John Hinde, R. Peebles, I. James, M. Crawford and E. L. Babcock.

The lodge holds two regular communications a month in the Buck Block, on the corner of Front and Portage streets.

The present officers of the lodge are: William Sidwell, W. M.; William Blong, S. W.; J. M. Crafts, J. W.; C. Kittleberger, Treasurer; C. A. Hall, Secretary; D. Forbes, S. D.; C. Clarke, J. D.; H. M. Stanley, Tiler; J. H. Insande and J. I. Reid, Stewards.

Royal Arcanum, Enterprise Council, No. 234, was organized January 3, 1879. The charter members were E. L. Babcock, W. S. Hough, John I. Jones, P. H. Standish, T. F. Heath, J. J. Moore, George Paul, Thomas Garrety, George F. Patterson, E. A. Inskeep, W. A. Taylor, W. A. Harrington, A. J. Vaughn, T. J. Francisco, E. A. Chamberlin, W. O. Beebe, W. M. Griswold, J. C. Reid, H. E. Howard, George J. Parks. The first officers were E. L. Babcock, Past Regent; T. F. Heath, Regent; A. J. Vaughn, Vice Regent; W. O. Beebe, Collector; W. M. Griswold, Secretary; John I. Jones, Treasurer. The Lodge meets twice a month in G. A. R. Hall, in the James Block. The present officers are: W. S. Hough, Past Regent; Thomas Garrety, Regent; W. S. Hough, Collector; W. M. Griswold, Secretary; E. A. Chamberlin, Treasurer.

The Council is one of many similar councils of secret organization, extending nearly all over the United States, organized for the purpose of mutual insurance on the assessment plan, each member paying, according to age. Upon the death of a member in good standing, the heirs are paid from the fund raised by the assessment the sum of \$3,000.

It also has a social interest for which pro-

Charles W. Brown

motion its stated council meetings are held. Besides its assessments, each council collects its quarterly dues for defraying its running expenses and creating a fund from which each member is entitled to not less than \$1 per week in case of sickness.

On the 8th day of June, 1867, the following citizens of Cuyahoga Falls—L. W. Loomis, I. N. Reid, G. M. Patterson, Amos Wills, W. H. Shaffer, D. Shumway, M. V. Burt, R. M. Hinman, W. H. Carlross and B. B. Tremblin—former soldiers of the late war, met for the purpose of organizing a Post of the Grand Army, and signed an application for a charter which was forwarded to the headquarters of the then Eighteenth District, at Cleveland. On the evening of July 5, 1867, they met and were regularly mustered in by Col. George L. Childs, District Commander. The names of Josiah Brown, A. S. Emerson, J. H. Shewey were added to the charter list.

The officers elected at this meeting for one year were A. S. Emerson, Post Commander; R. H. Hinman, Senior Vice Commander; D. Shumway, Junior Vice Commander; B. B. Tremblin, Post Adjt.; L. W. Loomis, Post Quartermaster; W. H. Shaffer, Surgeon; G. M. Patterson, Chaplain.

The name chosen for the Post was Eadie (Post No. 232), in honor of the Eadie boys—John, James and Henry—who lost their lives as soldiers during the rebellion. The number was afterward changed to No. 37.

The first meetings were held in the old Temperance Hall, but in a few weeks the Post made arrangements to occupy the hall in the Loomis Block with the I. O. G. T.

The organization grew rapidly during the years up to 1870. In that year the Post had increased from fourteen members to over one hundred and twenty-five. But in the year 1869, it pleased the National Headquarters to introduce a new system known as the "Three Grades"—(1st) recruit; (2d) soldier; (3d) veteran. For soldiers, this system did not work well. In consequence, recruiting about stopped, members became delinquent, and, finally, in December, 1873, the old Post ceased to exist. While it flourished, no member that belonged to it need be ashamed of its work. They collected, outside of the regular fees and dues, from the years 1867 to 1873, about \$1,200, and used the same for charitable purposes. They took

care of their own sick and poor; they buried their own dead, and helped to establish the Soldiers' Orphan Home. Many a strange soldier was sent on his way rejoicing through the kindness of the comrades of Eadie Post. The last work they did was one of practical benefit to Cuyahoga Falls, the donating of the last \$100 in the treasury to establish the free reading room, which is an honor to Cuyahoga Falls.

In March, 1880, there met in the office of George Paul, a number of the old members of the G. A. R. and old soldiers, and signed an application for a new charter. The meeting for organization was held March 17, 1880, in the old Temperance Hall, and the Post was duly organized by Judge L. C. Williamson and comrades from Buckley, of Akron. Twenty-six members were regularly mustered in.

The officers elected from the charter list for the first year ending January 1, 1881, were W. O. Beebe, P. C.; J. A. Ramp, Sr. V. C.; H. Ingals, Jr. V. C.; C. T. Parks, Adjt.; J. C. Reid, Q. M.; G. M. Patterson, O. D.; M. H. Diffendorf, O. G.; W. S. Hough, Surg.; J. A. Crafts, Chaplain; H. Steele, Sgt. M.; M. C. Tift, Q. M. Sgt.; George Paul, Dept. Aid de Camp.

The old name and old number was adopted, "Eadie Post, No. 37, Department of Ohio."

Since April 1, 1880, the Post has occupied a lodge-room in Apollo Hall block. The Post has steadily increased in the last year, having now about fifty members, good and efficient officers, and well-attended meetings. In fact its future never was brighter than at present. There is but one grade; the object is fraternity, charity and loyalty. Since the re-organization, the Post has lost by death one of our most valued members, Adjt. W. J. Patterson, a brave soldier, and the most efficient Adjutant that has occupied that office since the Post was established in Cuyahoga Falls. The death roll as near as is known since 1877, of the Post is John Williams, Christopher Post, Frederick Bethel, Frank Brainard, William Cooper, A. H. Goble and William J. Patterson.

In 1812, Kelsey & Wilcox built a dam across the Cuyahoga River at the place in Cuyahoga Falls where the railroad bridge crosses it. At this point they erected a grist-mill and a saw-mill. These were the first in the village. After the war with Great Britain of 1812-15, the property was purchased by Stow & Wetmore, and an oil-mill built.

It is well known that, at an early day, there was a portage or carrying-place between the waters of the Cuyahoga and those of the Tuscarawas used by the Indians and traders to transport their canoes and peltries within the present Summit County. This portage was an important path, even after the country was occupied by the whites. At a point on this carrying-place was erected by the United States Government a military post, and what was called a "navy yard," and supplies were gathered here for their maintenance. These were drawn from as far south as Chillicothe, being brought up to the head-waters of the Muskingum and conveyed overland to the Cuyahoga. William Wetmore was appointed Commissary of this post, and all the lumber necessary to supply the wants of the Government at the station was supplied by the saw-mill at the "old village," near, as we have seen, where the railroad bridge crosses the river.

In the course of time it was discovered that a "power" existed farther down the river much to be preferred to the one which had thus been improved; so the last named gentlemen commenced in April, 1825, to make improvements at the latter place. William Wetmore, Jr., acting for Stow & Wetmore, gathered thirty men from the surrounding country, who were set to work to construct a dam where the upper one now stands. This was finished in June following. Here was erected a grist-mill, also a saw-mill and an oil-mill. As the erection of this dam flooded the one above, the mills first built were taken down.

In 1830, Stow & Wetmores (the father of the latter was then dead) built a paper-mill upon the east side of the river. The first sheet of paper was run off on the 8th of December of that year. Previous to this, the tannery, now occupied by C. Kittleberger, was erected.

"On the 1st day of April, 1825," writes Henry Wetmore, "Brother William and I came to what is now the village of Cuyahoga Falls from the banks of Silver Lake, in the township of Stow. We cut away the alders on the bank of the river, where Israel James' flouring-mill was afterward erected, to take a look at the river, and the wild scenery on each side. The next day Father came to line out the 210 acres which were subsequently the Stow Township part of the village, and to take a level of the fall of the river, to ascertain the height of the

dam he was to build. All around was an unbroken forest. On the 30th of April we had a house up, and a goodly number of men employed in cutting and hewing timber for our dam and saw-mill, flour and linseed oil mill, all of which were built in the year 1825-26.

"In December we completed our paper-mill, it being the first mill in the State to make paper by the method of gathering the pulp on a cylinder. There were three or four small hand mills in Ohio which made paper with sieves by dipping up the pulp and shaking it. Joshua Stow, of Middletown, Conn., was our partner, under the firm name of Stow & Wetmores. In March, 1837, I sold out my interest in the firm to Mr. Stow. Since then the destroying hand of time and decay wore out the paper-mill frame and timbers, and it was pulled down. Some fiend burned the flouring-mill, and the oil-mill was discontinued for want of seed to stock it.

"In 1836, a gentleman came to Cuyahoga Falls to locate in business. He liked the place much, but he had heard of a place called Chicago, and he would go and see it before locating. On his return, he said Cuyahoga Falls was doing the most business, and would always continue to do so; so he located here!"

While Stow & Wetmores, in 1825, were constructing their dam and building their mills as before mentioned, Henry Newberry was engaged in making improvements in the lower part of the present village. What is now Turner, Parks & Co.'s dam was built by him during that year. The next year he erected on the west side of the river a saw-mill, and on the east side an oil-mill. The latter was carried away by a flood in 1832, but a new mill was immediately put up, and was used by E. N. Sill and Ogden Wetmore. It was afterward sold to John Rumrill, who disposed of it to Prentiss Dow, the latter converting it into a paper-mill. Dow ran it in company with Rumrill, under the firm name of Dow, Rumrill & Co. This partnership was closed after a time, and then run by P. & G. Dow. The building was finally removed.

The first woolen factory in Cuyahoga Falls was erected near where are now the shops of Turner, Vaughn & Taylor. This factory was burned—the *incendiary* was spontaneous combustion. There was an oil-mill which was run by Penfield & Starr, adjoining the woolen fac-

tory at the time of its destruction, which was saved ; but this has "gone where the woodbine twineth." In 1834, a foundry and trip-hammer shop was built by Mr. Vaughn, on the south side of what is now the stone bridge, where the saw-mill stands ; but this was burned and never rebuilt. Just south of this was a carriage-shop carried on by Isaac Lewis. The building was afterward changed to a paper-mill, and run by George E. Clarke in company with his nephew, Seymour ; but like others of its class, it, too, has passed away. In 1834, Ogden Wetmore and B. R. Manchester built a foundry and machine-shop near where the brick paper-mill now stands. They ran the foundry for about two years, when Manchester's place was taken by L. W. Butler. In 1835, the machine-shop was leased by the Messrs. Bill, who afterward purchased the property and used it until 1843, when it was destroyed by fire.

In 1845, the Messrs. Bill put up a brick building for a foundry and machine-shop, but, for the purpose of renting it to J. M. Smith & Co. for a paper-mill, they erected a small shop on the other side of the street for their own use. The lease of this company was for ten years, but, before its expiration, they were succeeded by Harrison & Hanford, who purchased the property and added to it till it became what was known as the Empire Mill. This came into the hands of Hanford Brothers, who ran it until 1872, when it burned down. The Messrs. Bill took into copartnership James Chamberlain, and their shops were run for several years under the firm name of Bill & Chamberlain. To accommodate their increasing business they removed the shops first built, and put up large buildings opposite the Empire Mill. There were some changes in the proprietorship from time to time, but the shops were kept running until the fire of 1872, when they disappeared with all their contents. A paper-mill, built by T. L. Miller, once stood on the east side of the canal. This was run by steam. It was subsequently occupied by Caleb Howard, but fell into decay and was taken down. Among the "ancient institutions" of Cuyahoga Falls was a distillery. A portion of the buildings connected with it afterward were appropriated by the Taylor Wire Cloth Company. The "deadly worm" has long since disappeared.

A lard oil and candle factory was started in

Cuyahoga Falls in 1842, by George A. Stanley and Henry Holbrook, in the first building north of what is now the covered bridge on the west side ; but the enterprise was soon abandoned. Among other early industries undertaken, but which was of short continuance, was a starch factory, by Birdsey Booth, at the spring on the bank of the river, near the present mill of Mr. Hinde. Another one was by G. & I. L'Hommedieu, near the depot, a sandpaper and glue factory, under the management of Mr. Smith. Still another was a pump factory, on the east side, carried on by R. S. Williams. In 1852, there were in the village three paper-mills, two oil-mills, two forges, one webbing factory, one fork, hoe and tool factory, three machine-shops one saw-mill, one fork and hoe factory, two grist-mills, one flax factory and one shovel factory.

In 1854, Cuyahoga Falls had three paper-mills in operation, and another in process of erection. They consumed 675 tons of the raw material, making 525 tons of paper annually. In them were employed eighty persons. They consumed \$9,000 worth of chemicals and colors annually. There were two oil-mills, consuming 16,000 bushels of seed annually, making 30,000 gallons of oil. There was one forge for manufacturing car-axles, consuming from six to seven hundred tons of pig-metal, and making about five hundred and fifty tons of axles annually. The establishment employed from twenty to twenty-five men. There were three foundries and machine-shops. One of them consumed from 300 to 400 tons of stock, manufacturing about \$75,000 worth of machinery annually, and affording constant employment to about thirty men. There was also a steel-fork manufactory, which turned out, on an average, 100,000 forks annually, consuming twenty tons of cast-steel, and employing from fifteen to twenty hands ; one shovel-factory, which made six dozen shovels daily ; one grist-mill, one tool-factory, two tanneries, one ashery, two flax-mills, and one distillery, as previously mentioned. This last-mentioned "institution" consumed 75,000 bushels of grain annually, making 30,000 gallons of high-wines. It furnished food for 3,000 hogs, "and *drink* for ten times that number."

In 1876, there were in operation within the corporation one foundry, one rolling-mill, two grist-mills, two saw-mills, a rivet-factory and

clay-mill, a wire-factory, wire-weaving works, a large foundry and machine-shop, a small machine-shop and town-clock factory, two paper-mills, another partly erected, an extensive sewer-pipe factory, two potteries, a planing-mill, a tannery, a tow-bagging mill and a tile-factory.

Having thus briefly outlined the rise and progress of the manufacturing industries of Cuyahoga Falls, many of which "were, but are not," the attention of the reader is asked while we recount the story of such as are now in existence.

The buildings of the Variety Iron Works of Turner, Vaughn & Taylor consist of the main building, 36x74 feet; an L-shaped attachment, 32x76 feet; and a wing, 36x72 feet—each containing two stories and a basement. The first shop upon the place where these buildings stand was used by a man by the name of Kelley as a chair-factory. Mr. Lawson used it for the same purpose for some time afterward. This was replaced by one built by Vaughn, Hunt & Co., which was removed to give place to the Variety Iron Works, founded in 1856, by the firm of Turner, Parks & Co. Mr. Parks and Mr. Wetmore afterward retired. The remaining members were succeeded by Turner, Parks & Taylor, and the latter, in 1879, by Turner, Vaughn & Taylor, the present proprietors. The buildings of this firm are equipped with the most perfect machinery known in all the departments of iron and wood working, operated by water, aggregating seventy-five-horse power. The specialties of this house are improved steam engines, grain-cleaning machinery, mill-gearing, wire-working machinery and clay-grinding machines, which latter article is patented by this firm. They constructed all the wire-drawing machinery of the extensive Cleveland Rolling-Mills, and have made machinery for every wire-mill in the United States, with but a single exception, and are now superintending the erection of similar machinery in England. In addition to the leading products enumerated above, they also manufacture steam, hydraulic and screw presses for sewer-pipe, paper-mill, flour-mill and clay-mill machinery, iron and brass castings in great variety to order; Russia, sheet and galvanized iron and zinc screens, light cast-iron pipe for heating by steam, flange-pipe, etc. They have also facilities for sawing every description of lumber to

order, and for grinding flour, feed, etc., for customers as required.

The Falls Wire Manufacturing Company are located in Cuyahoga Falls, on the bank of the Cuyahoga River. The main building is of brick, 40x85 feet, three stories and a basement, with a wing 30x55 feet, well supplied with improved modern machinery and appurtenances for the production of every grade of iron and steel wire. The production of this article, in all its forms and sizes, furnishes an interesting sight to the curiosity-seeker. Regarded as a prominent article of commerce, entering largely as it does into a variety of industrial pursuits, its manufacture forms no insignificant item in the manufactures of the village. The works were first known as the Falls Wire Mill, operated by the Falls Wire Company, a stock company organized in 1873, for the manufacture of iron wire. This company was succeeded by the Falls Wire Manufacturing Company, organized in 1879, with an authorized capital stock of \$100,000. The waters of the Cuyahoga River furnish the power (65-horse-power), to turn the machinery. There is here produced annually over one thousand tons of the various sizes of finished wire. The trade of this company is principally in the West. They make a specialty of wire for fine purposes, such as spring-wire for woven-wire mattresses, the extra grades of tinned wire, and broom and binder wire. On the evening of March 31, 1881, since the foregoing was written, these works were largely destroyed by fire. They will, however, be immediately rebuilt, with but a few weeks' interruption of the business of the company.

The peculiar adaptability of the clay deposits of Summit County for the manufacture of pottery has been spoken of in another chapter. Ohio stoneware has acquired an extensive reputation. The Cuyahoga Falls Stoneware Factory was founded about eighteen years ago by the firm of Thomas & Harris. Thomas Brothers are the present proprietors. The building occupied by this company is a two-story structure, 36x120 feet in size, and is furnished with a complete and thorough outfit of machinery especially adapted to the manufacture of the line of articles turned out, consisting of churns, butters, pans, Dutch pots, jugs, preserve jars, fruit jars with label tops, covers, stove tubes, etc. The capacity of the factory is upward of 300,000 gallons per annum, valued at not less

than \$15,000, the demand for which is principally in the States of Michigan, Illinois and Indiana. Their manufactory is on the corner of Main and Broad streets.

At the corner of Front and Portage streets is the business house of L. W. Loomis. It was founded in 1864, under the firm name of Loomis & Co., with L. W. Loomis, H. E. Loomis, and Smith & Harington, of New York, as partners. Since 1868, it has been under the sole control and management of L. W. Loomis. A specialty of this house is the manufacture of tinware, for which purpose a large force is employed. A number of wagons are kept on the road disposing of the manufactured stock.

The clay banks of Summit County are universally acknowledged to be superior to any in the United States for the manufacture of sewer pipe and similar articles, and the class of goods manufactured here have a national reputation. The value of these immense deposits of clay is estimated at nearly \$2,000,000 a year, and, as the variety and extent of these important articles of commerce is continually on the increase, without any perceptible diminution of the raw material, there can scarcely be a limit to this great and important source of wealth and prosperity. At Cuyahoga Falls, the manufacture of sewer pipe is extensively carried on by George C. Germain. The works now conducted by him were founded in 1865, by Lewis, Fosdick & Camp, and, after passing through a number of changes in proprietorship, came into the possession of James H. Cooke in 1877. Mr. Cooke has since died. The trade has considerably increased, and now extends all over the United States from Maine to Minnesota. Mr. Germain occupies a spacious and commodious building four stories in height, covering an area of 40x180 feet, with convenient yards adjacent. The works are located on the banks of the Cuyahoga River, where they have water-power equivalent to eighty horses, using one sixty horse-power and one twenty horse-power wheel. The works are supplied with the most approved and latest styles of machinery, and appliances especially adapted to this branch of industry, and for capacity, extent and general excellence of appointments, as well as for superiority of productions, will compare favorably with any similar establishment in the State. He turns out every variety of straight, bent, elbow, slant and branch pipe, with elbows,

angles, ring joints and sockets of a superior quality. The pipe is vitrified by the chemical action of salt while in the process of burning, which renders it impervious to the action of steam, gas and acids, and is particularly noticeable for fine finish, durability and uniformity. On the site of these works there once stood an oil-mill, built by Cyrus Prentiss. It was afterward used by Henry Wetmore to make linseed oil, till 1863, when it gave place to the works before mentioned.

The Cuyahoga Paper Company was organized in 1875. Their first building occupied was the one built for a grist-mill by Yockey, Vantine & Co. This mill was run for the manufacture of flour for some years; but was finally purchased by J. M. Smith & Co., and changed to a paper mill. Soon after, it was burned down. Another mill was immediately erected in its place, which was run by Harrison & Hanford, until that one was also burned to the ground. Again it was built, and used by the gentlemen last mentioned, until bought by the Cuyahoga Paper Company. This company went into possession in 1875. The last-named firm was organized by Robert R. Peebles, George Dow and George Sacket, for the purpose of manufacturing wrapping and colored papers, the latter article being used for posters, handbills and tobacco labels principally. In 1879, Mr. Dow and Mr. Sacket retired, and J. M. Loeser, A. S. Deutsch and S. Levi entered the firm. They occupy a number of buildings on the banks of the river, which are supplied with improved machinery, especially adapted to this branch of business. The capacity of the mills are 8,000 pounds a day. The motive power of the works is supplied by steam, and the water of the river.

One of the largest and most complete manufacturing establishments of its kind in the United States, is that of P. H. Standish, devoted to the production of chains and chain machinery, and wrought saddlery hardware of every description. These works were established at this place in 1878, and comprise at the lower works one main building 30x50 feet, three stories in height; one blacksmith-shop 30x75 feet, and one 20x100 feet; a building 16x35 feet, used as a japanning and trimming department, and a coke shed 28x30 feet. The upper works consist of one main building 50x200 feet, with two additions, one 50x30 feet, the other 20x50 feet. All of the buildings are thoroughly

equipped with most perfect and complete machinery, much of which is of Mr. Standish's own invention, and protected by letters patent from the United States Government. Water-power, equivalent to 100 horses, supplies the motive power required. The leading productions of these works are every description of harness coil, agricultural and wagon chains and chain machinery, patent wrought swivels, rings, hooks, lap rings, lap links, S-hooks, dees, tees, staples, snaps, clips, finch buckles, japanned harness rings, buckles, etc. The demand for these articles is principally in New York, Philadelphia, Pittsburgh, Cleveland, Chicago, St. Louis, Baltimore, Fort Wayne, Evansville, and in fact all over the United States. Mr. Standish came to Cuyahoga Falls from St. Louis.

The attention of farmers throughout the country has of late years been called to the importance and the advantages of a thorough system of underdrainage by means of drain tile, and it has been demonstrated that for sloughs and swampy places this system is no longer an experiment, but an absolute necessity for profitable and practical agricultural and horticultural purposes. Underdrainage, when good tile are used, is a *permanent* and valuable implement, and the old adage that "Whatever is worth doing at all is worth doing well," is as applicable to this case as to any other. The Cuyahoga Falls Drain Tile are made from a very superior quality of potters' clay, the same which has obtained a national reputation in the manufacture of the celebrated Akron Sewer Pipe, and it is admitted to be the best clay in the United States for this and similar purposes. The tile are smooth, strong, well made and well burned. The firm of Camp & Babb first engaged in the manufacture of these tile, but the works are now owned by H. B. Camp. They occupy two spacious buildings, one 42x70, and one 24x60, supplied with all the requisite machinery, operated by a 120-horse-power engine. They manufacture, in addition to a superior quality of drain tile, roofing tile, building blocks and a variety of other products of a similar description. The building blocks are a recent innovation and invention, and a specialty manufactured by no other house. They are square blocks made hollow, and possess many advantages for building purposes over the ordinary brick. They are made from the same material as the drain tile. The demand for

roofing tile is principally in the East, and for drain tile at the present time principally in Northern Ohio, although as its merits and advantages become known, the demand is extending through other States. The yearly products of these works are about \$10,000 in value.

The planing-mill and factory of Snyder & Blood occupies two spacious and conveniently-arranged buildings—one 36x70, and one 80x36, furnished with planing machines, door, sash and blind machinery of the most approved styles and designs, and all the tools, appliances and machinery pertaining to this branch of industry. The power used at their factories is one thirty-five-horse-power engine and boiler; and their yearly business, which amounts to not less than \$30,000, is principally derived from Summit and adjoining counties. The house was founded in 1876, by the present proprietors.

The manufacture of rivets is becoming quite an important industry in this country, and has grown very rapidly within the last few years, especially in the West, where manufacturing of every description is constantly assuming greater proportions, thus bringing into active and augmenting demand the thousand and one items in the shape of material entering into the construction of mechanical appliances and apparatus. One of these items of importance—as necessary to manufacturers generally as nails to the house-builder—is the article of rivets. There are in the United States several large establishments engaged in this branch of industry, but in no one of them are goods turned out superior to those produced by the Falls Rivet Company.

This concern went into operation in the year 1873. The works, first used as a flouring-mill and sash, door and blind factory, are fully provided with ingeniously devised labor-saving machinery of the most approved mechanism, and thus they are enabled to produce first-class goods with the utmost economy practicable. They use the best Norway iron exclusively in their manufactures, and employ thoroughly experienced workmen. Their marked success in this enterprise is measurably attributable to the high standard of excellence attained by their product, and they are determined to allow none to surpass them in the style, finish and quality of their work. Among their manifest advantages is that of favorable location, as regards

supplying the Western trade, inasmuch as they can reach the Western markets six days in advance of Boston. Their rivets are regarded as "standard" throughout the West, and are shipped as far East as Syracuse, N. Y. There are several large users of these goods in Akron, such as the Whitman & Barnes Manufacturing Company, and Aultman, Miller & Company.

The Falls Rivet Company was recently incorporated under the State law, with a capital of \$100,000. They are working a full force of men, in the manufacture of all kinds and styles of iron rivets, both block and tinned, including carriage, block, machine, tire, hame, belt, coopers' and wagon box, riveting burrs, wagon and hinge nails. They guarantee every pound of their goods to be of the best quality. Special-sized or shaped goods in their line of manufacture are made to order on short notice, and at the lowest prices.

The factory of this company is a commodious two-story building, situated on the east side of the river, and is supplied with abundant water and steam power, together with every requisite convenience and appliance for the rapid production of the goods made here.

C. Kittleberger's tannery was established a number of years ago by the present proprietor, whose business since that time has steadily increased. The tannery building proper, is 60x50 feet in size, containing two floors; and the currying building, which is also two stories, covers an area of 24x48. Both buildings are thoroughly equipped with all the necessary machinery and appliances, and one sixteen-horse-power engine supplies the motive power required. Mr. Kittleberger manufactures and carries in stock every variety of calf, kip, upper and harness leather, making a specialty of the latter article, in which line he has established a wide-spread reputation. He is at all times prepared to pay cash for hides and pelts at the very highest market rates. His trade, which amounts to nearly \$20,000 per annum, extends both East and West, and the products of this tannery meet with a ready sale in all parts of the United States.

The flouring-mill of Turner, Vaughn & Taylor, was first built for a planing-mill by Henry Newberry, and was run by him in company with Henry A. Sill. It was soon after leased by Penfield & Starr, who changed it into a paper-mill. It afterward passed into the hands

of Henry Wetmore, who, in company with a man named Wright, ran it for a time. But it passed again into Mr. Newberry's hands, who removed the paper machinery and changed it to a grist-mill, for which purpose it is still occupied. It does custom work.

Buildings were first erected upon the dam of what is known as the Chuckery Company, in the south part of the village, for making shovels, forks, etc. These buildings were slight and soon went to decay. They came, finally, into the hands of John Hinde, who rebuilt them and employed them in making rope and twine. He afterward changed them into a mill for making coarse bagging. The manufactory is now closed.

The Improved Barber and Dental Chair Company, of Cuyahoga Falls, manufactures L. W. Boys' improved quadruple motion revolving barber and dental chairs. The President of the company is H. M. Stanley; the Secretary and Treasurer, C. H. Reeve; the Superintendent, L. W. Boys. The last named, after several years of close application to the matter of inventing a barber and dental chair, at length produced the one now being manufactured by this company.

The Blakeslee Manufacturing Company has works on the west side of the river. The company manufactures machine-forged nuts, bridge and tank rivets, forged nut machines, heading machines for heading rivets, track bolts, plow bolts and square or hexagon head bolts.

The grist-mill known as James' Mill, was built for and run as an oil-mill. It is now owned by B. F. Thompson, and stands on the west side of the river. Mr. James, many years ago, purchased the mill and repaired it. He ran it until July, 1880, when it passed into the hands of the present proprietor. The mill does custom work and has two run of stone.

The rolling-mill and forge near by were long the property of Israel James. They are now run by Robert Turner.

The Taylor Wire Cloth Company which manufactured, for several years, all kinds of wire cloth, riddles, sieves and wire goods generally, was incorporated under the Ohio laws, in February, 1874. It is not now operating as a manufacturing company. The pottery of Holloway & Hoots, formerly a glue factory, is no longer engaged in the manufacture of stoneware.

In concluding this sketch of the manufactures of Cuyahoga Falls, it may be said that although its romantic and beautiful surroundings have given to this locality a wide-spread reputation as a pleasure resort, its various industrial and manufacturing establishments, have contributed in a more practical manner to its fame.

There are many industries in the village besides its manufactories, deserving mention, at least, in a sketch of the "Cuyahoga Falls of to-day." The following may be noted:

Agricultural Implements—Jones & Howe.
 Attorneys at Law—J. C. Castle, Charles Fillius, E. C. Ruggles.
 Bakers—F. Link, Fred Ikins.
 Bank—International Bank.
 Billiards—Hoyt & James, M. Deafendorf.
 Book Binders—A. R. Knox, John H. Brainerd.
 Books and Stationery—F. S. Heath & Co., H. F. Bannard.
 Boots and Shoes—John Cook, George Hanson, Henry Plum.
 Builders—Harvey Snyder.
 Carriage Makers—W. A. Allen & Co., Clayton & Reid.
 Cigar Manufacturers—T. J. Francisco.
 Clothing—H. E. Howard.
 Coal and Wood—W. M. Griswold, Phillip Thomas, Thomas Brothers.
 Dentist—A. B. Curtiss.
 Dress Making—Mrs. Charles Dow, Mrs. Alice Dow, Miss Hurley.
 Druggists—F. S. Heath & Co., H. F. Bannard.
 Dry Goods—I. A. Mather, O. B. Beebe & Co., Groves, Quilty & Co.
 Furniture—S. Brown.
 Grocers—A. Patterson, J. H. Byrne, P. L. Norton, Isaac Lewis & Son, L. D. Williams,

Jones Brothers, G. L'Hommedieu, J. L'Hommedieu.

Harness and Saddles—Ezra Saxe, H. Avery.
 Job Printing—E. O. Knox, F. H. Duffy.
 Livery Stables—C. H. & W. Moon, A. L. Gilbert, Jr., W. M. Post.
 Lumber—Harvey Snyder.
 Marble Works—Wiemer Brothers.
 Meat Markets—S. D. Tiff, Andrew Porter, Briese & Martin.
 Restaurant—G. Bitterman.
 Merchant Tailor—Augustus Seidshlag.
 Millinery—George A. Brock, Annie Donnelly.
 Photographer—Henry L. Shumway.
 Physicians—T. F. Heath, G. C. Upson, W. S. Hough, A. H. Bill, H. W. Carter.
 Undertaker—S. Brown.
 Wagon Makers—Clayton & Reid, Allen & Co.
 Watches, Clocks and Jewelry—O. B. Carr, C. M. Hibbard.
 House and Sign Painters—Alfred Letts, Sames Hogarth.
 Insurance Agents—William Southmayd, W. A. Hanford, Dr. T. F. Heath, A. H. Bill.
 Village Express—W. M. Griswold.
 Barbers—David Berkhimer, L. W. Boys, H. W. Johns, F. Ransom.
 Blacksmiths—Joseph Jones, S. Loveland, H. McKay.
 Crockery and Glass Ware—L. W. Loomis.
 Stoves and Tinware—G. J. Parks, L. W. Loomis.
 Coopers—Jacob Weidner, Andrew Schmidt, David Hawn.
 Hardware—G. J. Parks.
 Hotels—Perry House, Bouys House, Glen House.

CHAPTER XVIII.*

NORTHAMPTON TOWNSHIP—ITS EARLY HISTORY—PHYSICAL FEATURES—COMING OF THE WHITES—INCIDENTS—PIONEER INDUSTRIES—RELIGIOUS—EDUCATIONAL—STATISTICS, ETC.

NORTHAMPTON TOWNSHIP comprises twenty-five square miles of territory, and was included in an immense grant by King Charles II of England, in A. D. 1665, to the State of Connecticut, of which a large portion now comprises the State of Ohio. All that portion of the grant not included in the State of Connecticut was, in 1786, released to the United States, except that included in the following boundary: North by the parallel of $42^{\circ} 2'$, east by the western line of Pennsylvania, south by forty-first degree of north latitude, and west by a line $82^{\circ} 55'$, west longitude. This tract, the "Connecticut Western Reserve," was laid off into townships five miles square, and numbered from south to north, beginning on the forty-first degree north as a base, and the ranges to succeed each other by increasing numbers westward, the Pennsylvania line being taken as a starting point. Northampton, being fifty miles west from Pennsylvania and ten miles north from the forty-first parallel, took its place as Range 11 and Town 3. That portion of Northampton lying east of the Cuyahoga River was held and occupied by the Indian tribes till the treaty of Fort McIntosh, in 1785, when it was ceded by them to the United States, and in May, 1801, the State of Connecticut also ceded to the United States its jurisdiction over this territory, and the President, John Adams, by patent, conveyed it back to the Governor for the use of the grantees of that State. Thus the title was passed from the Indians and through the several Governments, to secure its validity, and was then sold by the State of Connecticut to what was known as the Connecticut Land Company, which secured to them about four million acres, at a cost of \$1,200,000, averaging 30 cents per acre. This company then conveyed its title to the lands to John Morgan, Jonathan Brace and John Caldwell, to hold in trust for the proprietors, and they lived to sell or dispose of all the land, and thus closed their

trust. Those wishing to purchase would pay over their money and take certificates, which were numbered and drawn by lottery, but the book of drafts, in which the account of these drawings was kept, is not received as legal evidence, yet it is upon this that all the titles to lands are based, as shown by the records of our Trumbull County. In this Book of Drafts is found Town 3, Range 11 (Northampton), as the seventeenth draft, and thus passed to the ownership of W. Billings, Oliver P. Holden, Solomon Stodard, Jr., John Stodard, Daniel Wright, Joseph Pratt, Luther Loomis, David King, John Levitt, Jr., Ebenezer King, Jr., Timothy Phelps and Fidelio King.

This township was first included within the limits of Washington County, with its seat of justice at Marietta. It afterward belonged to Jefferson County, with its county seat at Steubenville, next to Trumbull County, erected in the year 1800, with its Court of Quarter Sessions (similar to our Common Pleas), under the Territorial Governor, St. Clair, located in Warren. It next passed, in 1808, under the jurisdiction of Portage County, with county-seat at Ravenna, and finally became one of the sixteen townships of Summit County, in 1840, with its seat of justice at Akron.

The outline boundary of Northampton as other townships along the Cuyahoga River, was completed by a surveying party of thirteen men sent out from Connecticut in 1797, but its resurvey into quarter-section lots was made by a party under John Stodard some time after, and it is said that, in their journey to this place, they bought at Buffalo a 15-gallon keg of French brandy to be used in the work, which may account for the irregular lines and erroneous metes and bounds in the survey. As the brandy became exhausted before the township was completed, part of the men were sent back for a fresh supply, and while they were absent, those remaining put in their time laying out a village plat in the northeast corner of Lot 26, now

* Contributed by William Prior.

owned by James Harrington and Amos L. Rice. This was a "village on paper," nothing more. The lots of this township were numbered from north to south, commencing on the east side, and were intended to contain 160 acres each, but owing to causes before referred to, and perhaps some others, they frequently overrun from 5 to 40 acres, while others fell short. The south tier of lots were of full length, but only a few rods in width, and were called a "gore."

Of the aboriginal six nations occupying territory east of the Cuyahoga River, the fierce and warlike tribe of Tawas controlled Northampton, except that part west of the river, which was occupied by the remnant of Mingoes, of whom the celebrated Logan had been chief, with their town near the west line of the township, and a fort and earthwork for defense just over in Bath. Within a radius of half a mile are numerous mounds as large as fifty or sixty feet in circumference, and from five to ten feet high, which are overgrown with large trees. Another fortification opposite this, and on the east side of the river containing one-half an acre, is in the center of a cultivated field, and now nearly obliterated by the frequent turnings of the plowshare. Another is at a place where Hales and Furnace run from the west, with banks nearly a hundred feet high, approach so closely as to form a sliding ridge, so that but one person can be admitted at a time, thence diverging to several rods in width, terminating in banks too high for ascent. In this plat are holes arranged in a square, and about ten feet from each other, which seem to have been used for cisterns or store-rooms, and are nearly filled with dirt. To the south of this and near its narrowest point are the remains of a breastwork over eighty feet in length, with an inside moat. The engineering skill displayed in the location and construction of these fortifications for defense, is unquestionably of a high order for savages. In the forest near where Yellow Creek crosses under the canal, is an extensive Indian or pre-historic burying-ground, covered with full-grown trees, and from its numerous graves must have been the final resting-place of an immense population. Specimens of earthen dishes have been taken from their graves, but the early date of the ancient race that peopled these regions is lost and forgotten. We have evidences of existence, which proves they were numerous and the fortifications show their

warlike character. Their burial mounds hand down to coming generations an evidence that they wished to perpetuate a memory of names and deeds. But of that nothing now remains. "Their history is unwritten and they themselves forgotten and unknown."

It was to these fortifications in Northampton that, in the summer of 1780, Capt. Samuel Brady, commander of a company of rangers from Chartier Creek, Penn., pursued a band of warriors who had crossed over into that State, committing depredations, murder and plunder. Retreating back to their defenses, they here received the attack, when a fierce and bloody battle ensued. With forces largely outnumbering his own, they defeated him and put his men to flight. Singling out Brady and leaving all the rest, he was hotly pursued till he arrived at the Cuyahoga River in Franklin, just north of where the bridge now stands, on the Ravenna road. Here, to hem him in, they closed round, and with loud shouts of triumph they thought their prisoner safe. Perpendicular rocks here form both banks of the river, with a chasm twenty-two feet across. With a bound impelled by the energy of despair and the certainty of death for failure, he cleared the abyss and gained the opposite bank, and, while his pursuers were hunting a place to cross, he ran to a little lake, called "Brady's Lake" to this day, and sunk his body under the surface of the water, where he remained, breathing through a hollow weed, until his enemies abandoned the search, when he made his escape.

A celebrated Tawa chieftain lived here, called by the Indians Stig-wan-ish, and, by the whites, Seneca. He was a fine athletic specimen, tall, dignified, and of pleasing address; could swing a robe over his shoulders as gracefully as an oriental prince. In youth, he had been addicted to habits of intemperance, and, in a drunken tantrum, had attempted to kill his squaw, but, missing her, sunk his tomahawk into the head of his favorite papoose, which was lashed to her back. This sobered him, and he afterward drank only cider and wine very sparingly. Stigwanish was civil and friendly, had two beautiful squaws for wives, and lived in his wigwam until the whites built him a block-house on the river to protect him from his enemies. Indians remained here on friendly terms with the whites, except when

crazed with "fire-water," until 1812, when on the breaking-out of war, they joined the British. Only five of them ever after returned, and those formed a camp in the great bend of the river, where Capt. Mills, of Portage County, with his Indian haters and hunters, attacked and fired upon them in the night, killing four of the five. The other one escaped, and was the "last of the Tawas" in Northampton.

Indian Wilson was notorious for drunkenness, and when in that condition was ugly. Returning one day from Hudson, where he got "cockazy," as the Indians called it, he stopped in a house where he found a woman and two little children alone. Seizing them by the hair, he flourished his scalping-knife as if intending to take their scalps, and, after frightening them to his heart's content, left. Soon after, came in Williams, who was brought up at Indian Wheeling. He was without education, and the only things he had ever learned thoroughly were to love his gun and hate the Indian. This Williams called at that house soon after the Indian left, and, hearing the woman's story, he went out with his gun, and the Indian was not heard from for years, when Williams owned to having shot him as he was crossing the marsh stream on a log, from which he fell, and Williams then pushed him down into the soft muck far as he could reach with his gun. Another one of a similar ugly disposition lived in this township, who frequently boasted of his success in killing pale-faces. The ninety-nine notches cut in the handle of his tomahawk represented, he said, the number he had scalped and killed, but he would not feel satisfied till one more was added. He, too, "came up missing," and Williams used to say significantly that some one else would have to cut the hundredth notch for the Indian himself.

The eastern part of this township is gently rolling or level, while the western is very broken and hilly with deep ravines coursing their way down to the Cuyahoga River, which flows across the whole breadth of the township from south to north in a line nearly parallel with its western boundary. Intersected by the eastern line is Mud Brook Pond from which a stream, by the same name flows south, then southwest, across that corner of the township, and becomes a tributary to the river at Old Portage. The soil along the river valley is exceeding rich and

fertile, producing crops of corn equal to any other lands of Ohio, but some portions of the uplands are sterile. The most valuable timber is oak, of which the forests produced the greatest abundance and of excellent quality. The other varieties were beech, maple, hickory, ash and elm, with more limited quantities of black-walnut, butternut and whitewood.

Northampton at its settlement was a dense wilderness peopled only by Indians, and infested with wild animals. The first white man who settled here was Simeon Prior, with his wife and ten children. They were from Westfield River, near Northampton, Mass., and landed at Cleveland, from an open boat, in July, 1802, the year Ohio was admitted as a State into the Union. Cleveland was then but a hamlet of log cabins. Mr. Prior then came to Hudson which had been settled two years earlier. He left the family here until the new home was hunted up in the woods. A log cabin was built on east part of Lot 25, in Northampton, and in August the family moved in. Simeon Prior purchased 400 acres, of which one lot—No. 19—is still owned by his descendants and heirs. Lot 33, now owned by D. G. Myers, was also a part of this original purchase. Their nearest neighbors were at Hudson, six miles distant, with no roads, no conveniences, no comforts; they were compelled to be self-reliant and dependent on their own resources. Meal made from corn pounded fine on a stump, was the material from which bread was made mixed with water, salted and baked on a split shingle before the open fire. Their meat was the flesh of deer, bears and turkeys killed in the woods; their clothing from flax, grown upon the farm, worked up into cloth, and all of which was done by different members of the family. Linen and tow-cloth were the domestic staple products, but for winter wear buckskin moccasins, pants and jackets were used until in after years when sheep could be protected from the wolves, and woolen cloth was manufactured by the family. After settlement had become more general, a large, two-story hewed-log house was built, which was used for a hotel for the accommodation of travelers. A blacksmith-shop was also built and furnished with tools and stock brought here with their household goods.

On this farm Simeon Prior lived till his decease, in 1837, at the age of eighty-two. The

family becoming of age, dispersed and settled in different places. The oldest daughter, Sarah, married Joseph Darrow, of Darrow street, a prominent surveyor at that time. William, the oldest son, went south to Chillicothe, the first State capital, where he purchased a farm, but soon sold it and returned to Northampton. He married Sarah Wharton, of Indian Wheeling, in Virginia, and lived in Northampton till his death in 1872, at the age of ninety. David bought a farm in Stow Township, where he lived for many years, but sold out and went to Missouri where he died. Gurden, the last surviving member of the family, sold his farm here, a part of the old original homestead, and moved to Iowa, where he now lives in comfort on the divide between the two great waters, the Missouri and Mississippi. The first marriage license issued in Portage County, was for one of the daughters, Polly, who married Eben Kennedy. Erastus and Pinkney also moved West and died in Iowa. Jerusha, Eliza, Judith and Elisha remained, lived and died in Summit County.

The next family moving into this township was that of David Parker, from Hartford, Conn. His residence was at the foot of the hill where the Smith road now comes down into the valley. He built the first saw-mill on the Yellow Creek, in Northampton, and, soon after its completion, took malarial fever and died. His son, Richard E. Parker, now of Akron, was the first white male child born in Northampton, at the date of March 9, 1811.

In 1809, Samuel King moved in with his family, settling at Old Portage, where he purchased a farm and built a tavern and store, and embarked in many useful enterprises. He reared a family of eight children, some of whom filled places of honor, trust and responsibility. While the canal was building, Ambrose King, a son, held the office of Constable, and, with a warrant, went to arrest an Irish laborer for some offense, and found him in an unfinished lock-pit above Old Portage, in company with a gang of other workmen, who, when ascertaining King's business, refused to permit the arrest, surrounded him, threatening to take his life. Armed with picks, spades and cudgels, they cornered him in the lock. With only a horse-pistol for defense, he warned them to desist; but, instead, they made a charge when he fired, the ball striking one of them on his rib, glanc-

ing off without inflicting a serious wound. Being very active, he sprang up the steep bank and ran for his life; was followed, overtaken, knocked down and beaten with clubs until supposed to be dead. His friends hearing of the affray sent a wagon for him, put him in it, and started for Akron, followed by the workmen, with threats and imprecations. Meeting a physician, they halted, while an examination was made, and King was pronounced yet alive. "Then," shouted an excited Irishman standing by, "we will kill him yet," striking a blow at his head with a long club, but the horses were frightened and started off, and the blow missed its mark. Then the furious laborer turned upon a German standing by, and, with a sweeping blow of his club, struck him on the head, from which he fell as though shot. He was left with the Irish and never seen again. It was supposed they buried him secretly at night in the canal bed, where he could not be found. This aroused indignation and vengeance to its highest pitch. Next day the military company was called out, armed with rifles and ammunition; a bottle of whisky was passed round, and a battle and bloodshed were imminent. Just then a rider came dashing up, his horse covered with dust and foam. He was a contractor, and had just heard of the difficulty, and asked for time to hold a consultation with his employes, hoping to induce a surrender without resistance. He rode down, found them intrenched for defense, and explained what folly it would be to resist; that every man would be shot down, if necessary, to make the arrest. They laid down their weapons, surrendered and were marched to Middlebury for safe keeping, where the military stood guard till the trial and conviction of their leader. As King recovered, the penalty was not very severe, and peace was again restored.

The first hamlet in Northampton Township was old Portage, on the Cuyahoga River, near the southern boundary. This was the head of navigation on this stream, and the northern terminus of the "carry" between the Cuyahoga and Tuscarawas Rivers. It was a recognized landmark in the western boundary line of the United States in the treaty of Ft. McIntosh in 1798. This place became famous as a trading-post for both whites and Indians before and after the building of the Ohio and Erie Canal. Some time before the war of 1812, a

Frenchman moved in these to carry on a traffic with the Indians. He used to sell them "fire-water" till they got drunk, then reduce with river water till they would drink themselves sober. Then they would say, "Indian get too much Cuyahog-guh," and he would have to make it strong again. In weighing out powder and lead to them he used to put his hand on the scales, saying it weighed just a pound. This Frenchman used to indulge in some ugly traits by beating and flogging his wife, who was a half-breed Indian. The other squaws would interfere to save her from such punishment, but she would beg of them to let her alone, "for," she said, "it was so good making up again she really enjoyed the quarrel."

After the canal was built, it was for a time called Booth's Port, after Birdsey Booth, a surveyor, and some goods shipped here were so directed, but the old name has been retained. It was said to be not an unusual occurrence for a hundred or so of teams to be seen there at one time engaged in receiving and transporting overland the goods and merchandise shipped by canal for places as far east as Canfield and Warren, south for Canton and Massillon, and west as far as Medina.

Robert Thompson, in 1813, purchased Lot No. 24, now owned by William Viall, Esq. He raised a large family and after partly clearing up the farm, sold and moved on to the west half of Lot No. 23, where he lived till his death. Part of this place is yet owned and occupied by his son, Amos Thompson. Robert Thompson was a shoemaker by trade, and, in the early times, it was customary for the tailor, harness-maker and shoemaker to go round from house to house, boarding with the families, while making up a supply of such goods as needed. Mr. Thompson used to make himself, while on his mission, interesting to his customers by the odd and funny stories he knew so well how to relate, emphasizing the jokes by a sharp bat of his hammer on the sole of some unfinished shoe. Barclay Hogue was a harness-maker who used to go round in the same way, carrying his awls and clamps with him, and many a broad "back-band" hung in the stables for years as relics of that old and easy style. Jesse Ellis was another early settler, and, besides hunting and fishing, his chief occupation was burning lime. His wife was the daughter of a wealthy, proud

and aristocratic family in Canada, and their engagement being opposed by her parents, she eloped with Jesse, and married at the age of fourteen. They reared a family of twenty children, the first being born when the mother was fifteen and the last at sixty-five. She is still living, at the age of eighty-one, in Kent County, Mich., where her husband died in March, 1879, aged one hundred. Abel Vallen was one of the first to settle on the uplands west of the river, where he purchased a large tract in Lots 4, 5 and 6. John George Botzum located on the north half of Lot 76. He was a Prussian, from Luxembourg, and recollected distinctly hearing the cannonading at the battle of Waterloo.

Walter Waite purchased a large tract in Lot 71, where he built a house and set an orchard, the trees of which are standing yet, and the fruit is enjoyed by his children's children. The settlers in the northern and eastern parts of the township were the families of Burrill Viall, William Hill, Benjamin Templeton (a singing-master), William McLoney, John Cowick, David Billman, H. Chase, the two Dickerson families, Jacob Bonesteel, John Everett, George Richardson, Eli Benedict and John Sapp. Nearer the center were Thomas Owens, Adam Galloway, John Best, Samuel Hart, Reese Jones, Franklin Carr, C. Davidson, Dr. Rogers, the Coulters, Tibbets, Porters, Lehman Bear, Sweitzer Fike, Frank Penfield and Dean. The Job Harrington farm, Lot 26, was first settled on by Thomas Vanhyning, who built his house on the east side of State road, where it is crossed by the center road going east. The spring of water used was the one near where Alvin Kelso now lives. Lot 14 was settled by Thomas M. Turner, of New York, who left that city the day after the landing and reception of La Fayette, on his last visit to America. The impressions made by that grand pageant were not forgotten by Mr. Turner while he lived. The old home farm is now owned by his son, Thomas M. Turner. Daniel Turner settled on Lot 29, and built his house on the low ground between the hills, and planted an apple orchard around it, of which many trees yet remain. William Carter, a brick-mason, settled on a farm adjoining. He built the brick block in Franklin, now known as the Kent Alpaca Mills. Henry Billman and George T. Ulmer took farms along the road farther west, toward

Portage. Nathaniel Hardy purchased a large farm on the Cuyahoga River, which is yet owned by his sons. Austin Black, who was the last of the early pioneers in Northampton, bought Lot 37, the east half of which he spent a life of toil in clearing up, and in the full possession of which he died in 1880. Many others, who came at a later date are not mentioned here.

In the fall of 1812, an army for the protection of these frontier settlements was stationed at Old Portage, under the command of Gen. Wadsworth, and after the surrender of Gen. Hull, this post was re-enforced with a battalion under Maj. George Darrow, of Hudson, and Rial McArthur was Captain of one of the companies. Two of the boats composing the fleet on Lake Erie, under Commodore Perry, were built at Old Portage. They were launched and floated down the river to the pineries, and there detained for masts, and while the builders were preparing them, a wild porcupine was killed, and from this one of the boats was named the "Porcupine" and the other "Portage," both of which took part in Perry's battle, on the 10th of September, 1812.

In 1805, one Aaron Norton, afterward Judge Norton, of Portage County, bought of Solomon Stodard ten acres of land in the southeast corner, Lot 27, now comprising the waterfalls and iron bridge, where he erected the first grist-mill in the township. This was duly appreciated as a great convenience by the inhabitants of this and adjoining townships. Previous to this, the method of grinding meal was to cut a tree so as to leave a concave surface in the solid stump, shaped like a wash basin, then bend over a small tree or sapling for a spring-pole, bringing its tip over the stump. To this tie a bark or wythe and suspend an iron wedge, ax or other weight, for a pestle. The corn was then shelled and poured in the stump, and the weight taken in hand when the pounding process was commenced, and was continued till a tolerable good quality of meal was made. The next great public necessity seemed to be a distillery, and one was built on the present site of the cheese factory, and the dammed waters (this is not intended for profanity) of the little brook from the opposite side were piped across to be used in the distillery. Gains in the rock on the south side yet show the location of that ancient dam. This building was destroyed

by fire, and another distillery was erected by Wyley Hamilton and Aaron Norton just below the rock, at the south end of the present iron bridge. It was so situated that the little brook trickling over the rock was taken into the building high enough to run of its own accord into the vats or still-tubs. The mill property was afterward bought by Col. Rial McArthur, and run by him for years. When the distillery was abandoned as a manufactory of whisky, it was used as a dwelling, where lived Abraham Osborn and his two sons, Elias and Arad, who were millers. Afterward it was used as a meeting-house, then for a schoolhouse, and, finally, went to ruins. In the erection of the mill, Mr. Norton employed one Seth Webster, a skilled workman from Blanford, Mass., as millwright. Having become such an immoderate drinker, he was hired, with the promise of three gallons of whisky, extra, to abstain from drinking the day the mill was raised, as it stood in a precipitous, rocky, and dangerous place. This promise he kept, and, on the completion of the work, took his extra allowance, and in company with a colored man, started on foot to Canton, and stopping for the night at a camp in the woods, Webster had become crazed with whisky and called for some water. While his traveling companion had gone after it, Webster, in a fit of delirium, ran out into the woods, got lost and died. He was found the next morning. It was rumored that he had been murdered, but he undoubtedly died of *delirium tremens*, and his body was covered by brush to protect it from the wolves, till he was taken back to Northampton for burial. He was the first white man buried in the township. Another man by the name of Burge, from Pennsylvania, was employed as a workman on this mill, who acquired an unenviable reputation on account of the marvelous and incredible stories he was in the habit of telling. One of these was as follows: That once upon a time, he was engaged in shingling a mill on the bank of a stream. When near the ridge his foot slipped and he fell, sliding head foremost down the roof. At the eaves he caught the cornice with his hands, and turned a complete somersault through the air, and fell into the water without being harmed. Immediately after telling this, he was sent on to the rock shelf to fix a prop to the timbers of the dam, which had nearly filled with water, and while doing this, he, by some

unlucky mishap, knocked loose the fastening, when the dam gave way, and he was swept over the rocky precipice by the resistless floods, falling twenty feet into the chasm below. Those who saw him swept over supposed he would be either crushed by the timbers, killed in the fall, or drowned in the seething waters. They rushed down below to hunt for his mangled remains, and were surprised to see him crawl out with tangled, matted hair, eyes and mouth filled with mud and sand and water dripping from his person, yet unharmed. As this seemed more strange and incredible than anything he had told, it reversed the opinion of those who thought him unreliable, and thereafter, his reputation for truthfulness improved, while he became quite a hero.

Rial McArthur sold this mill to Capt. Lawler, an educated Irishman, who had been a teacher. After getting possession, he claimed the building had not been properly constructed, and needing repairs, he took out the machinery and pulled down the structure, by which time his money had become exhausted, and he, drunken and dissipated, took to staying in a cavern some twenty rods below the mill. There he had placed a board upon the rocks, near a trickling spring, from the rocky ceiling overhead. So, while lying upon his board, he could reach his cup for a drink of pure, cool water on one side, or his jug for a drink of whisky on the other—making himself happy as Diogenes in his tub, until, one day, Arad Osborn and a young friend, walking along the bank overhead, heard him singing below. Seeing a boulder lying handy, and the size of a salt-barrel, they rolled it over the bank, and it went crashing among the rocks below, as if loosened by an earthquake. Excited and frightened, Lawler ran out, calling upon the Holy Saints to protect him from destruction. Not daring to go back there again, he hired a boy to bring out his jug. Provoked at the destruction of the mill and the loss of payment for it, McArthur ordered him to leave the country, which he promptly did, and, not long after, was drowned in the Upper Cuyahoga. His summer resort has since been known as "Lawler's Cave."

Mr. Burnham and wife, accompanied by a neighbor, were one day going to see a wild precipice, half a mile below Lawler's Cave. Twin children, Almira and Alvira, were with them. Mrs. Burnham was carrying one of

them, and her husband the other, when, just at the crest of a short, steep hill, down which they were to go, Burnham's foot was tripped by a root, and he, unable to resist, was sent rapidly down to the very verge of the precipice, over which he seemed to be impelled by the momentum he had acquired, when, with a desperate effort, he threw back the child, and it caught by the limbs of an evergreen shrub, growing from the crevices of the rocks, and was thus saved. That place is known as "Burnham's Jump Off," to this day. Just above this place was, in early days, built by Moses and Oliver Dewey, a saw-mill, perhaps the first one in the township; but, as it was off the line of the main road, and of difficult access, went, after a time, into disuse, and, as another one had been built up at the grist-mill, this was allowed to go to ruins. In 1824, two brothers-in-law, Elisha Prior and Elisha Perkins, erected a saw-mill about two miles further up this stream, which, with the mill erected by F. J. French and Jesse Hays, manufactured most of the lumber used in the buildings of this township, besides large quantities for Cuyahoga Falls and Akron. At the place where the State road crosses this stream, the cascade is formed by a broad, shelving rock, projecting far out over the retreating cavern below. Over this the water pours in a veil of glistening lace-work, behind which the pedestrian could pass *under* the unbridged stream dry-footed, and was used as a sort of dry-ford by the Indians. From the gorge below, where William Prior and sons built their grist-mill, a most picturesque and beautiful view is obtained. Looking up stream, the old mill on the right, the shining cascade and precipitous rocks and cavern, while, higher up, the masonry and airy structure of the iron bridge, gracefully arching the stream with a single span, the tapering evergreen trees overhanging their banks and casting shadows in the water, with cheese-factory and gently sloping hills in the distance, presents a picture of rare beauty and loveliness. The Prior & Perkins saw-mill was purchased by Harry Pardee, who, in 1842, erected in connection an extensive woolen factory, which was continued in successful operation for many years. Besides this, a chair-factory, wood-turning and other industries, were carried on, but being remote from the public road, it was allowed to go into disuse.

A distillery was built by Abel Vallen in about 1814, near the junction of Mud Brook with the Cuyahoga River, for the manufacture of potato whisky. The secret of this process was known only by old Mr. Hovey, who imparted his skill to Samuel Sage. A sufficient quantity was made up to supply the home demand, which was quite extensive, besides freighting an open barge, which was sent to Mackinaw, and disposed of with satisfactory results. Potato whisky was fiery and "devilish" till it got old and smooth, when it became more palatable, and was considered a good article. This distillery was afterward converted into a castor-oil factory, and the people cultivated *Ricinus communis*, but not in sufficient quantities to keep up the manufacture. In later years the dairying business was supposed to pay better than *Palma Christi*, and on the site of the old distillery, a joint-stock company cheese factory was erected, but for some cause the manufacture of cheese has been also discontinued, showing this to be a fated locality for enterprise. On the river bank in Lot 72, Stephen Ayres erected grindstone works, and supplied a necessity to the local trade, besides shipping largely to Cleveland. In the same building he used as a factory he bored for salt, and at a depth of 125 feet entered a vein of salt water and gas. He intended to establish salt works, but was taken off by the yellow or gold fever of California, in 1850, and the property went into the hands of L. J. Mix, who utilized the gas for light and fuel for his residence, and the saline waters for salting his stock and curing meat. This well would have been a great boon in early times when salt had to be brought from Cleveland on pack-horses, and cost from \$25 to \$35 per barrel. Prospecting was afterward made in this locality for petroleum oil, but as no great depth was ever reached, the search was a failure. A pioneer hunter living two miles above here was visited one winter's day by Julius Sumner, then of Middlebury, who delighted in a ramble through the forest in pursuit of game. With a gun on his shoulder he started down the Cuyahoga, arriving at the cabin of his friend at sunset, tired and hungry enough. Being invited in at the door through which he was hauling great logs of wood for a fire, he made known his wants and was told that there was not a mouthful of food in the house, but that a deer, killed in the

morning, hung to a tree just over the river, which, after kindling the fire, was brought over, sliced, stuck on sticks, and held over the fire to broil. In the absence of salt, a puncheon floor plank was pulled up, which covered an empty pork barrel, in which was some brine; in this they saturated the cooking venison, and ate a hearty supper seasoned with a good appetite. Next day a boy was sent to mill with a bag of corn for meal, and a jug for whisky, when feasting and revelry ensued.

All the records of Northampton Township showing its organization, naming, first election and officers up to the year 1820, were destroyed by fire at the burning out of Capt. Aaron French. The only original document now known to be left is in the possession of J. M. Hale, of Akron. It is part of a poll-book tally-sheet, from which the date has been torn, of an election held when Northampton and Bath must have constituted one election precinct. There were eighteen votes cast, of which six were by electors living in Bath. The following named persons were chosen officers: Samuel King, Town Clerk; John Hale, Simeon Prior and David Norton, Trustees; Wiley Hamilton, Overseer of the Poor; Elisha Perkins, Constable; William Prior, Israel Parker and Jason Hammond, Supervisors; Luman Bishop, Fence Viewer; and Simeon Prior, Treasurer. The first Justice of the Peace in this township was Samuel King. The principal township officers elected April 3, 1820, were Aaron French, Township Clerk; William Prior, Abel Woodward and James French, Trustees; and Daniel Turner, Treasurer. The clerks elected for the ten succeeding years were as follows: 1821, Moses Dewey; 1822, James French; 1823, William Prior; 1824, ———; 1825, Rees Jones, who refused to serve; 1826, William Prior; 1827, Gurden Prior; 1828, William Prior; 1829, Oliver Dewey; and April 5, 1830, William Prior, and the persons filling that place for the next ten years to 1840 were Gurden Prior, Oliver Dewey, George W. Hogue, Anson Greenman, J. C. Alvord, Henry W. Prior, Peter Voris, Jr., and Daniel Penfield. Those serving as Township Clerk after that to present date were Arad Osborn, four terms; Gurden Prior, seven terms; Seth W. Harrington, six successive terms; J. C. Johnston, seven terms; William Prior, Jr., seven successive terms; C. L. Norton, one, and A. B. Galloway, two. Daniel

Alexander Brewster

Turner, Hezekiah King, Elisha Prior, John Smith, Rees Jones, Nathaniel Hardy, Job Harrington, Adam Galloway, Joseph Wallace and F. L. Harrington have filled the offices of Treasurer, and Simeon Prior, Abel Woodward, James French, Aaron French, Hezekiah King, William Prior, Gibson Gates, Silas Greenman, Job Harrington, Rial McArthur, Alvin Wright, Rees Jones, Joseph Sanford, William Norton, Nathaniel Hardy, Anson Greenman, Benjamin Templeton, Cyrus Parker, W. H. Boyce, Franklin Carr, Walter Waite, John Harrington, George S. Richardson, O. F. Rice, H. W. Prior, William Hardy, William McLoney, P. D. Hardy, George Botzum, Adam Botzum, Edwin Folk, Abner Hitchcock. James Harrington, S. S. Prior and Henry Lowrey have at some time since its organization officiated as Township Trustees.

The Ohio and Erie Canal was laid through this township along the Cuyahoga River in 1825, was built in two years, and, on July 4, 1827, Job Harrington took his team to Akron, and towed the first boat to Cleveland. On board was the Governor of the State, and other important officers, with many eminent citizens, and a band of music. The pomp and circumstance of this trip, with banners fluttering in the breeze, and inspiring strains of music echoing among the hills, was such a pageant as never before witnessed. Jonathan Williams, the old Indian hunter, was present, as the boat moved slowly into the lock at Old Portage, and stood gazing in wonder and astonishment when a friend ventured to ask his opinion. He said it "looked almost exactly as he expected it would, except the boat was about three-eighths of an inch too long."

Northampton had for many years, and has not yet entirely outgrown its reputation, of having a grade of morals scarcely up to that of the more fortunate surrounding townships. This was due principally to the influence of its distilleries, and the fact that, at and after the building of the canal, the river region was frequented by rough characters, among whom was a river bully by the name of Isaac Wells, who would drink whisky, quarrel and fight at every opportunity. Besides this, it was infested with a notorious gang of counterfeiters and horse-thieves. The Mallett brothers, from an adjoining township, erected a "mint" on a lonely isolated point of land, densely covered with timber,

and ever since known as the "money shop." Here a foundry for melting mixed metals with molds, dies, plates, engraver's tools, etc., were kept secreted. When the annoyance to the citizens of this locality, from the presence of strange and suspicious visitors, became no longer endurable, a public meeting was called, and, by mutual agreement, the mint was destroyed. This disconcerted the manufacturers; but the business was not suspended. Other and better secured localities were provided, where bogus coin was minted, and counterfeit bills manufactured extensively for the trade outside. One of the leaders of this gang, a man of portly, dignified mien, prepossessing in his personal appearance, generous to his friends, kind and benevolent to the poor, always ready to relieve the wants and sufferings of the sick or distressed, had so won the affections of his fellow-townsmen, that he was elected a Justice of the Peace, which office he was filling satisfactorily, till arrested, and himself taken before a higher court, tried, convicted and sent to punishment. Even there, his self-sacrificing generosity won him hosts of friends, and made him conspicuous among all the others, securing for him, finally, his restoration to freedom and citizenship. The invasion by Asiatic cholera, so fatal in many localities, entered the precincts of his prison walls, claiming more than its share of victims from among these unfortunate people. Here, standing by the bedside of the sick and dying, which appalled the bravest hearts, he did not shrink from duty, and, for this devotion, he was pardoned, and retired to quiet, private life. Notwithstanding the questionable character of some of its earlier inhabitants, Northampton has not yet been destitute of citizens possessing as high a grade of moral principles, honest integrity and respectability as any in the land.

Joseph Ritter and Jacob Morton came on from the East and built a house on the west side of the river, where they moved in and made themselves obnoxious to the citizens by living with women to whom they were not married. Neighbors objected to the scandal, from this pernicious cause, but to no purpose; quiet remonstrance was in vain. They were notified to leave, but refused to go, and then William Hardy, Morris Mills and Ira Hovey went there in the daytime and commenced tearing down the house. Ritter came out with his gun to shoot the assailants, but was seen by a neighbor, Mrs.

Eddins, who screamed with fright. Her husband started after Ritter, who ran, but was caught, the gun taken from him, discharged and thrown away. The house was demolished and the parties dispersed. Next day a warrant was issued by Squire Osborn for their arrest, and Loveland, the Constable, went first to Hovey's. The young man, seeing him, ran up stairs on the ladder, and attempted to pull it up after him, but the lower end was seized by the Constable when the tug commenced, Mrs. Hovey, in the meantime, plying the broomstick and hot words. Loveland secured the ladder, and when part way up his cornered prisoner kicked a hole through the clapboard-roof and went out, jumping to the ground fastened the door outside, got on the Constable's horse and rode off. Hardy was next found on a load of hay, but refused to get off to be arrested, so the warrant was returned without producing the prisoners in court, and costs were afterward paid by friends.

The first frame house built here was a store for Col. Rial McArthur, and was framed by scribe rule, fitting each tenon to its mortise, then numbered and taken apart till all was finished. This store was said to have been stocked by goods brought in a single box, and distributed about the different shelves. They would go a good way in supplying finery for the sparse population at that date. The first building framed by square rule was the school-house built at Steel's Corner, in 1832, of which Edward Prior was architect and boss carpenter. The timbers were hewn and framed in different localities, and not brought together till ready for raising when the spectators were disappointed at seeing it go together without a mistake.

The early settlers were employed in clearing off the forest which cumbered the ground. Large fields of fine forest trees were cut down and felled into great timber windrows, or heaps, and after becoming dried and seasoned were set on fire and burnt. Timber was a drug in the market; lumber sawed and delivered in market was only worth from \$4 to \$6 per thousand. Good barrel staves and heading, at \$1, and "pit coal," burnt and delivered in Akron only brought \$3.50 per hundred bushels. Agriculture, stock-raising and dairying has since become the prevailing occupation. Before dairying became general, choice sheep, imported

from Canada, were brought here till the flocks were greatly improved. The increased value of dairy products induced the citizens here to form a joint-stock company, in the winter of 1870-71, which chose Henry W. Prior as its President and Fred S. Prior as its Secretary. The factory was erected on the French farm, on the north bank of Mud Brook, just above the State road crossing, and is known as the Iron Bridge Factory, costing about \$2,000, and was opened for business in the spring of 1871. The average price paid for milk the first few seasons, was about 10 cents per gallon. This factory business has developed a better grade of dairy cows, and put more ready money in circulation among its patrons than they had before. It was leased to S. Straight & Son, of Hudson, and soon after bought by them, at a loss to the stockholders of one-half its cost price. In the season of 1880, it manufactured from the milk of about 500 cows, 20,000 pounds of butter, and 168,000 pounds of cheese, and the average price paid for milk was 9½ cents per gallon of ten pounds. In 1839, William Prior & Sons, Edward and Henry, bought of Jesse and Eliza Hays the water-power and site in the gorge below the waterfalls, where they erected and put in operation a grist and flouring mill. Two run of French bulr stones and bolters were put in, and power supplied by a nineteen-foot breast wheel. The senior member owned his interest in this property till his death in 1872, but the other shares changed owners frequently until the whole property was bought by John Hart and Adam G. Steel.

Trumbull County records show a road to have been laid from the salt springs in that county to Old Portage, crossing diagonally through the southeast corner of Northampton, a portion of which, between McArthur's corners and the Elisha Prior residence, was vacated to accommodate the mills. In 1807, a public highway was laid out from Canton, via Middlebury, to Cleveland, and known in Northampton as the "old State road," from which the trees were cut and cleared by William Prior, under a contract, and the proceeds of this job averaged him 25 cents per day for himself, team of oxen and an extra hand, they sleeping in blankets on the ground, and working industriously from daylight till dark. The road from McArthur's kept on directly east to Stow Village, at the big spring, instead of

turning to the right for Cuyahoga Falls, as now located.

In 1836, Peter Voris, a surveyor, who then lived in Northampton with one Snodgrass and Judge Henry, laid out a hundred acres at the mouth of Yellow Creek, west side of river, into a village plat, and called it Niles. But few lots were ever sold. The property was afterward bought by J. and J. Vallen, and reduced back to common lands, on account of high taxes. A warehouse and store was built here at the opening of the canal, and Nathaniel Hardy also erected a tavern, which received extensive patronage for many years. Nicholas Botzum and Thomas Owen ran rival mercantile establishments here at the same time, each occupying opposite sides of the canal, but the decease of Thomas Owen and sale of his goods by administrators, broke up competition, and, at the building of the Valley Railroad through Northampton, a station was located here, called "Botzum," in honor of John A. Botzum, a most thorough and energetic business man, who took an active part in the railroad enterprise. He has been a merchant here for years, and is now the station-agent and Postmaster. Below here, on waste waters of the canal, have been two saw-mills built to manufacture lumber for the Cleveland trade. The Browns have also kept up a steam saw-mill on their farm for years, which has contributed largely to the convenience of lumber business. A railroad known as Clinton Air Line was laid in a diagonal line across this township, from northeast to southwest, crossing the Cuyahoga between the Hovey and Brown farms. The grading of some portions of this road was commenced and stone hauled on for culverts, but, for some reason, the enterprise was abandoned. A rude and primitive establishment was built down the Mud Brook by William Rose, in which he turned a considerable quantity of wooden bowls for the local trade. It was near this that Mr. Filley built a saw-mill, and the property was afterward bought by L. D. Clements, who erected another and larger, known as the Clements Saw-mill.

The first school was taught in this township by Justus Remington in 1809, and the school-house was built on the north side of a road, from McArthur's Corners to Elisha Prior's, and run diagonally across Lots 17 and 18. The house stood on the lot line between lands now

owned by H. P. Smith and Martin Shellhorn. Since that time, and within the radius of a half mile, there have been erected six different buildings in which schools were taught. But, owing to geographical diversities and configuration of land, schools for the whole youth of the township have been maintained at great inconvenience. The river divides the township into two sections, almost inaccessible to each other, and the deep gullies running down into the river valley form almost impassable barriers, making opportunities for schooling a portion of the children exceedingly difficult. Under the general school laws of Ohio, seven subdistricts and three union school districts were formed where most thorough and efficient schools have been maintained, and the pupils are in no way inferior to those of surrounding townships. Many of the youth have been educated abroad. Emory A. Prior entered Buchtel College at Akron in 1871, and graduated with the degree of B. S. in 1873. Thence he entered the Law Department of Harvard University at Cambridge, Mass., from which he graduated in 1877, and was the same year admitted to the bar before the District Court of Cleveland. Miss Viola Smith also commenced a course of study at Buchtel College in 1872, which she pursued for two years, then changed to Western Reserve College, from which she (the first of her sex) graduated in 1876. She has since then pursued certain courses of study in Cornell University, New York, and at Harvard, in Cambridge. John A. Johnston, Rial Smith, S. Hart, J. Botzum, George and Frank Billman, T. W. Motz and several others are now, or have been, students in either Western Reserve or Buchtel College.

Methodism was the pioneer religious denomination of Northampton. Most of the early families were members of this church. Before the organization of a society, the believers of both sexes would walk or ride on horseback to Darrow Street, or Hudson, on a Thursday evening, to attend prayer-meeting, which could not be doubted as a sufficient test of their sincerity and devotion. Protracted and quarterly meetings were held in the private residences, barns or groves, and were attended by those from miles around. Among the early preachers were Revs. Crawford, Jones, McLean, Ford, Stearns, Holloway and one Gavit, a "four foot" dwarf, and notoriously smart. Compared with the

larger ministers, he was said to be as a silver sixpence among the coarser copper coins—smaller but worth them all. He could interest and hold spellbound by his eloquence, and practical hits, the large audiences he addressed. A missionary purse was raised, and he was thought to be a suitable person to send West to convert the heathen. The last heard of him he was said to be comfortably located, and in possession of a fine farm in Michigan, bought with church missionary funds. No early record of this denomination can now be found, but among the papers of the late Job Harrington, who was an active member, there are found evidences of a most prosperous Sabbath school as far back as 1831.

The Methodists in 1855, by the help of other denominations and contributions from the citizens generally, without regard to theological opinions, erected a large and commodious church edifice at the center of the township. The prime movers in this undertaking were O. F. Rice, Isaac Scott, S. W. Harrington, S. R. Perkins, Elisha Prior, Samuel McLoney and others. The building when completed cost about \$2,000, and reflected much credit on the building committee, the citizens generally, and specially to the architect and builder, J. C. Johnston.

The Baptists for many years kept up a flourishing organization, and numbered among its members some of the best citizens of the township.

The Congregationalists were also, at one time, quite numerous, and they also built a church edifice at Steel's Corners, and occupied it for years, but by reason of removal, loss by death and other causes, the members became reduced, and the building was taken down and removed to the sewer pipe and tile works of H. B. Camp & Company, Cuyahoga Falls. Under the ministrations of Rev. T. B. Tait, this Congregational society fused with the Methodists, when they became one organization at the building of the center church edifice.

One John Smith and family of this place became early converts to the Mormon faith. They were frequently visited by Prophet Joseph Smith and his associate Rigdon, while the Mormons were at Kirtland, and upon their removal to Nauvoo, Smith with his family, which had been baptized in Northampton, went with them, and thence to Salt Lake City. In the early

days, a few of the citizens of this township joined the Masonic Order, but the opposition and prejudice caused by the supposed Morgan murder, prevented its being very generally endorsed, and those who became members joined lodges in other localities. Since that time, some have associated themselves with Odd Fellows, Sons of Temperance, etc. In March of the centennial year, there was a Grange organized or Order of Patrons of Husbandry, which is an unobjectionable association of farmers, with their wives and families, united for social and educational purposes. This society numbers among its members some of the most progressive and intelligent farmers in the community. Since its organization, George W. Bailey has been its presiding officer. It was in an exceedingly prosperous condition, numbering over one hundred members, until driven into litigation to defend itself against the collection of an illegal claim, in a suit brought up against it by the officers and Executive Committee of Ohio State Grange. This suit, after creating considerable disturbance and ill-feeling, was finally decided in favor of Northampton Union Grange. Although this township was early the location of distilleries, they were soon discontinued and the inhabitants have usually been sober and temperate. Whenever necessary temperance societies have been organized and sustained with good effect. The "Murphy's Society," of 1879, with Mrs. Lodica Jones as President, and Miss Hattie Harrington as Secretary, has proved a most efficient power in the work of reformation. The Literary and Dramatic Club, of 1881, has developed sufficient talent so gain some notoriety.

In the war of the Revolution, Northampton, being peopled only by savage Indians, furnished no troops, but its first settler, Simeon Prior, was a Revolutionary soldier. In the war of 1812, the able-bodied men belonging to an independent rifle company, under the command of Capt. McArthur, went into service, first at Old Portage, then at Sandusky, protecting the frontier settlements from invasion and Indian hostilities. In the Mexican war no troops from this place were called for, and none furnished. But in the war of the great rebellion, Northampton was not found wanting. Sixty-three recruits were sent into the field, all of whom proved brave and heroic soldiers in that bloody struggle, many of them giving their

lives for their country's cause. We would gladly inscribe the name of each individual soldier with his brave deeds, but space will not permit. In another chapter of this work will be found a complete sketch of the late war, and the part taken in it by the county at large. A list of the dead heroes of this township only will be attempted in this chapter :

Lewis Clements, son of L. D. Clements, enlisted at sixteen. But a mere lad of slender build and constitution, he could shoot as far and straight as those of greater strength and endurance. He was fearless of danger, and went undaunted where duty called. At the battle of Rich Mountain, mistaking the bugle-call for retreat, he charged through the rebel ranks, where, failing to find his comrades, he turned and charged back again, rejoining his company unharmed. Newton Harrington, after nearly three years of active service at the front, sickened from the exposure and hardships of camp life, and died at Cumberland Gap. His remains were brought home and interred in the cemetery on his father's farm. George W. Prior, Orderly Sergeant Company D, Sixth Regiment, Ohio Volunteer Cavalry, after nearly serving out his term of enlistment, and taking part in many fiercely contested fields, was killed in the battle of the Wilderness May 9, 1864. His remains by enemies were buried in an unknown grave. The soil of Virginia will be to us forever sacred, for it holds the last remains of our dearest friends. George Bonesteel was captured by the rebels and starved to death in the prison pen of Andersonville. David Bonesteel was also taken prisoner, and so reduced by starvation that he died en route for exchange. Robert Hogue sickened and lived to reach home, where he died a short time after his arrival. John Shellhorn and Phillip Smathers sleep the sleep of death in unknown graves. Riley Dickinson, Charles Stout, William Waterman, William and Charles Stephens, the two Chase brothers and George Payne were drowned at the wreck of the Sultana.

Owing to absence of manufactures, farming implements were mostly of home construction, and very rude. The "bull plow" had a point made of wrought iron or steel, with a landside and mold-board of wood. Common blacksmiths of that day could make the share, and an ingenious farmer, with an ax and an auger,

could make all the rest, requiring about a day's time. Mowing was done by hand with a scythe, and harvesting by a sickle, cutting and laying the grain by handfuls. This method was superseded by a grain-cradle, and finally the scythe and cradle gave way to the mowing machine. The first one in the township was purchased by Job Hayte, and operated by his son, Seth S. Grain was either tramped out by horses on a floor, or thrashed by hand with a flail (which consisted of a short club tied to the light end of a handle with buckskin thongs) and winnowed from a broad, flat basket. In about 1834, the first horse-power cylinder machine was introduced, which only thrashed the grain, without separating it from the chaff. Charles Kellogg and John Harrington were the first to bring in and operate a power-machine that thrashed and cleaned the grain ready for market. The Prior brothers—Styles A., Benjamin H. and Fred S.—introduced steam-engine power and improved machinery, by which from 1,000 to 1,500 bushels of oats could be thrashed per day, and 1,000 bushels of wheat. They also brought in and operated portable steam saw-mills, going where wanted on to a man's farm and sawing a job of lumber for building or fencing, without the inconvenience of hauling logs away to streams for saw-mills.

In 1851, Lots 8, 9 and the "gore," 10, comprising about 335 acres, were taken from Northampton and set to the newly-erected township of Cuyahoga Falls, forming, thereafter, part of its territory. In the year 1873, a new and commodious town hall was built to better accommodate elections and other public business of the township, and the old hall basement at the center schoolhouse was abandoned.

Many traces of oxydized or dead iron ore are found upon the surface in the southern part of this township, and, from a bed in Lot 27, a good quality of ore was taken to the Middlebury furnace while it was in blast. A bed of lime rock underlies the surface of some portions of the D. G. Myers farm, Lot 33, and plenty of this stone used to be found upon the surface east of the center, and burned into a splendid quality of white lime. A quarry of first-class building sandstone was, in 1874, purchased by L. H. Cox near the iron bridge on the north bank of the creek, from which he has built so many substantial stone culverts in the

roads of this and adjoining townships. E. C. Hovey also has, near the old Ayers Grindstone Works, a quarry of very fine building stone.

The following statistics pertaining to this township may be of some interest to our readers: Number of horses 348; value, \$184.15. Cattle, 1,344; value, \$21,876. Sheep, 983; value, \$2,665. Hogs, 454; value, \$1,370. Total value of personal property, \$86,264; estimated full value, \$107,835. Total value of real property, \$333,711; estimate full value, \$416,166. Aggregate value of real and personal property assessed, \$419,971; aggregate value of real and personal property, estimated full value, \$524,001. Total receipts from taxation, \$5,709.84.

Expenditures—Expended for schools, \$2,015.86; paid for roads and bridges, \$1,007.83; for poor, \$167.99; all other purposes, \$2,518.16. Total expenditures, \$5,709.84.

The first place set apart for the burial of the dead was on the Vanhyning farm, and now known as the Harrington burying-ground, and is opposite the Grange Hall. The next regularly laid out cemetery was one-half mile west of the Center, on the hills above Bell Hollow. But, in early days, several private burial-places were made for separate families. Just on the west line of Lot 29, where crossed by the Portage road at the hilltop, are buried old Mr. Daniel Turner and wife. On the east side of the State road and nearly opposite the residence of Mrs. Candace Thorndyke, there have been several buried. On the north bank of Woodward Run, near the river road crossing on the William Hardy farm, was started a private burial-place. In the center of Lot 19, on the William Prior farm, was also a private family cemetery, where eight or nine were buried, some of them long years ago. But a portion of them have been taken up and removed to public cemeteries.

John Smith, who settled on and cleared up what is now known as the Keck Farm, Lot 34, and, who afterward went to Nauvoo, was a man of some inventive genius. To supply the demand for chairs, spinning-wheels, etc., he constructed a turning-lathe, which consisted of a mandrel attached to a table, and was made to revolve by a string, one end of which was fastened to a spring-pole over head, then down, and took a few turns round the mandrel, and then to a treadle plied by the foot. This ma-

chine, revolving both ways, allowed the turning to be done only half the time, or when the motion was direct. A rocking-chair, now owned by Thomas Turner, and another by John Hovey, made in 1831, are specimens of J. Smith's handiwork. A Mr. Collar, who was partially blind, moved into the northeast part of the town, and, being also very ingenious, built a model propeller screw, and, for trial, attached it to a canal boat, where it worked to satisfaction. This was claimed to be an original invention of the propeller screw. Simeon Prior also contrived a device for making wire by hand, and he probably made the first wire west of the Alleghanies. Richard Tew, a blacksmith, was skilled in the art of forging wrought iron, or steel points and shares used on the wooden or bull plows of that day. His house and shop stood east side the road, on the north bank of Mud Brook, where the lane now turns in to the cheese factory. After he died, his family moved away, and the residence was used for a school-house.

The fourth balloon ascension ever made in Summit County was by John C. Johnston, of Northampton. He procured an aerostat, and, on the 28th September, 1875, made his first ascent from the fair grounds at Akron, in the presence of a vast concourse of anxious spectators. The balloon arose majestically, drifting in a northeasterly direction, and, when nearly over the village of Cuyahoga Falls, and at the height of over 7,000 feet, it exploded, and the perilous fall of about one mile took place. The fabric of this airship, being confined by the cordage, formed a parachute, while the aeronaut, suspended in his basket below, vibrated like a pendulum, by the swaying motion of the balloon in its fearfully rapid descent, after the gas had escaped. Almost miraculously, he landed on terra firma without bodily harm. Not satisfied with this exciting adventure, he constructed a new balloon, with 25,000 cubic feet capacity, and the next year, after its inflation at the gas works, it was taken to Fountain Park Fair Grounds, where, in starting, some of the ropes were held too long by the attendants, and this balloon was thrown against the top limbs of a tree, and so torn that he did not deem it safe to proceed, and only reached the altitude of 1,000 feet, when the gas was let out, and he landed safely within one-half mile of starting place. His third attempt was made a few days

later; but, as it was boisterous and stormy, the balloon was torn to pieces in conveying it from the gas works to Fountain Park, since which time, he has made no further public attempts at ascension. He is still sanguine of final success, and continues to give the subject such

attention as his time will permit, believing that hydrogen in such vast quantities, being one-eighth part of all the water, is ultimately connected with the solution of the great problem of aerial navigation.

CHAPTER XIX.*

STOW TOWNSHIP—EARLY PHYSICAL CONDITION—FIRST SETTLEMENT AND SUBSEQUENT GROWTH—PROGRESS OF INDUSTRIES AND IMPROVEMENTS—VILLAGES, CHURCHES AND SCHOOLS.

STOW, in many respects, is superior to any other township in the county. Its fertile soil, valuable timber, winding streams and beautiful lakes, surround it with attractions which coming generations will not fail to appreciate and enjoy. There is found throughout the township that diversity of natural features—that fine blending of the beautiful and picturesque, which delights the eye of the landscape gardener. The Cuyahoga River, which winds across the southern part, that fine body of water—Silver Lake—and the various gorges or chasms which are cut deeply into the soil, disclosing perpendicular embankments of fine stone, furnish abundant material upon which the hand of art, in future years, may labor. When we look back through the years to that bright page in the history of mankind—Grecian glory—when we see how the developing mind of man caught the beautiful of that sunny clime, and grouping together the various charms, gave to each some name which lingers with it like the sweet memory of joys that are past, we are led to believe that our own beautiful land, adorned as it is with Nature's lavish gifts, will share a similar happy lot. Each lake, each stream, each hill and vale will be associated with some event, around which the fairy fingers of hallowed recollection will entwine the sweet flowers of other years. Even at this early day, local names spring up from surrounding events—names that will live, when those persons associated with them have long since passed into oblivion. Other names will come as time sweeps onward; and for the pleasure of those who live in the future, these and the circumstances which gave them birth, must be carefully recorded.

The greater part of Stow is rolling, though quite a large tract near the center is comparatively level. The soil, though largely clay, contains sufficient alluvium to insure abundant crops of all kinds. In the vicinity of the lakes and the depressed portions, of which there are several, the earth is thoroughly mingled with decaying vegetable material, a large portion of which has been washed in by past inundations. Large quantities of sandstone can be had for the trouble of quarrying in exposed places. The streams give ample drainage, even in the region of the lakes, though some portions are so low and flat that they were, in former years, very wet, and even yet are not suitable for cultivation. In the course of time these will be ditched, thoroughly drained, and finally cultivated. Cuyahoga River enters the township on Lot 10, thence flowing across Lots 9, 8, 7, 6, 5, 15, 14, 4, 3, and leaving from 13. This well-known stream has considerable fall, and excellent water-power can be secured through the medium of dams. Kelsey Creek enters the river from the south, and Fish Creek from the north, in the extreme southeastern part. Silver Lake is located almost wholly on Lots 24, 23 and 33, and its outlet is a small branch of the Cuyahoga. A small stream which should be named Wetmore Creek, rises a short distance northeast of Stow Corners, and flows southwestwardly into the river. It has cut by erosion a deep gorge in the sandstone rocks, which is known as the "Gulf." Coehran Pond is located a few rods northwest of Silver Lake, but has no connection with the latter, its outlet being a small irregular stream, which flows north and then west into Mud Brook. Powers' Brook and Mud Brook, from their tortuous course, flow half around the township. Powers'

*Contributed by W. A. Goodspeed.

Brook first flows across the northeast corner, thence into Hudson, thence into the northern part of Stow, thence again into Hudson, where it unites with Mud Brook. The latter stream flows across the northwest corner of Stow, entering Turtle Lake on the northeast side. It flows from this lake first into Northampton, thence takes a turn in the western side of Stow, and finally leaves the latter a short distance north of Cuyahoga Falls. Turtle Lake, the largest body of water in the northern part of the county, is intersected by the boundary line, dividing Stow from Northampton. On several sides the land is so low and marshy that artificial approaches to the lake are necessary, if mud and stagnant water are to be avoided. In short, the lake has but two or three really good beaches. Cochran Pond, named for the first settler on its banks, comprises some four or five acres, and has a low and muddy beach, except, perhaps, on the eastern side. It is too small and shallow to be of any great economic value. Silver Lake is, in many respects, a fine sheet of water. Its length is nearly a mile, and its width nearly half that distance, while its greatest depth approximates twelve fathoms. Some of its approaches are fine, consisting of coarse sand or gravel. Many portions of the bottom are of the same nature, rendering the lake very attractive to bathers, a very essential feature among a people who teach, and evidently practice to a reasonable degree, that "cleanliness is next to godliness." Many years ago, when the question of supplying the city of Akron with water was on the tapis, Silver Lake was carefully examined; but its water was found to contain impurities, which rendered it unsuitable for that purpose. The lake was once the property of Joshua Stow, who purchased the township of the State of Connecticut. The township was named in his honor, and remained in his possession until his death, when it fell into the hands of his son-in-law, Horace Miller, who sold it to its present owner, Ralph Lodge. Purchasers of land in its vicinity did not want the lake, so that the shore is owned by others. In about the year 1850, Zina Buel constructed a small steamboat, and launched it upon the lake. A wharf was built out from the shore, and buildings were erected for excursionists. A small fare was charged for a ride around the lake; but there was not realized a sufficient

revenue to pay for the investment, and the boat was removed. Several persons at different times have been drowned. There are at present several bathing-houses for the benefit of the uncleanly and others.

Joshua Stow, the proprietor of the township, was one of the first exploring party sent out to the Western Reserve in 1796. He officiated in the important capacity of Commissary, and the first storehouse built at Conneaut was named "Stow Castle," in his honor. The first cabin in the township was built by a Virginian named William Walker, who had come to Hudson the year before. He was a squatter and built his small, round-log cabin in the northeast corner, on Lot 89.* Here he remained alone until 1804, when Joshua Stow arrived at Hudson to make arrangements for the survey of his township. He employed Joseph Darrow, a resident of Hudson, who began and completed the survey in 1804, and immediately thereafter there came in William Wetmore, Gregory Powers, Josiah Starr, John Campbell, Thomas Rice and Titus Wetmore. The most of these men built further south in the neighborhood of what is now called Stow Corners. Prior to the war of 1812, there also came in John Gaylord, John Arbuckle, George Darrow, Adam Steele, John Saddler, Joseph Harman, William Lappin, William Leach, Samuel Burnett, Samuel Baker, Jacob Cochran, Caleb Wetmore, Isaac Wilcox, Frederick Victor, Francis Kelsey, Mr. Kelso, Samuel Cheney, Constance Rogers, Jonathan Gaylord, Stephen Butler, Erastus Southmayd, David Ruggles, William McClellan, Bemus Hamilton, Mr. Dailey, Isaac and Thomas Steele and very likely several of the following, who, at least, came in prior to 1825: Joshua Pendleton, Timothy Brainard, David Strong, Ira Barnes, Ethe Wetmore, James Smith, George Hartle, John Kemp, Jesse Pratt, David Sanger, Mr. McAvoy, Chancey Lowery, Mr. Beckley, Martin and Arthur Saddler, William Hibbard, William Galloway, V. M. Thompson, John Graham, Ezra Wyatt, Jacob Richmond, Andrew Rich, Dr. Spaulding, Henry Kenyon, John Blackman, John Sawyer, Thomas Gaylord and many others. This is not intended as a perfect list, and neither are the dates free from error; yet it is thought that there are but few mistakes. By 1810, there were fifteen or twenty

*Elizabeth (Walker) Lappin, of Boston Township, aged ninety-three years.

ty families living in Stow, in rude log cabins scattered at intervals throughout the township. The forests began to go down rapidly, and improvements multiplied. Land steadily increased in value, and settlers poured in to purchase before it over-reached their means.

It was not until 1808 that Stow was organized and its first officers elected. At the time Hudson was organized, in 1802, Stow was included in that township, and remained thus until 1808. William Wetmore was the first Justice of the Peace; but, during the month of August, 1804, the county of Portage, of which Stow was a part, having been created, Wetmore was appointed Clerk of the Court, and removed to Ravenna; but, not being satisfied with the empty honor of his official position, he soon resigned, moving back to Stow, and locating just east of Silver Lake. The early records of Stow were not preserved, and the names of the other first officers cannot be given. The first election was held at the residence of Mr. Wetmore. Capt. Gregory Powers built on Lot 85. He was a genius in his way, and had had a great deal of experience with the world. He was an Italian, and, for many years, had followed the wild and extremely dangerous profession of privateering on the ocean. His daughter Harriet was united in marriage with John C. Singletary in 1806, the wedding being the first in the township. A few months later, on the 29th of January, 1807, William Lappin and Elizabeth Walker were married at Stow Corners by Squire Wetmore. In 1806, George Darrow built a frame barn, the first frame structure in Stow. In the fall of 1803, "Betsey" Walker was born, her birth being the first in the township. Samuel Walker was born in 1805. Mary Campbell was born in 1804, and Clarissa (Rice) Southmayd February 6, 1805. In February, 1807, Mrs. Powers died, her death being the first. Elizabeth Gaylord died in 1809.

As early as 1805, the township had put on many of the characteristics of civilization. The ring and report of ax and rifle awoke the echoes of the forests. Numerous small, unpretentious cabins rested in the center of insignificant clearings, upon which could be seen the green plumage of growing grain. Wild animals roamed through the forests. Deer could be seen at almost any hour of the day. Many of the settlers had, for several years, no

meat except venison and smaller game. Wolves were troublesome, especially in the night, when they seemed to enjoy surrounding some log cabin when the inmates were lost in slumber and making the night hideous with their howls. Bears were frequently seen, and there was scarcely an early settler who was not accustomed to roam the woods on hunting excursions that did not encounter them, often under thrilling and extremely dangerous circumstances. The Indians, whose headquarters were at Boston and Northampton Townships, were accustomed to spend the summers in the neighborhood of Silver and Turtle Lakes. In 1810, the carriage road at Silver Lake was a continuous line of Indian huts. These were made of round poles about six inches in diameter, the chinks being filled with moss and sod. About one hundred rods from the huts, on the lake shore, on a neighboring hill, were a great many more. About five hundred Indians—men, women and children—established themselves here for several summers prior to the war of 1812. They were in constant intercourse with the white settlers, and usually all dealings were of a friendly nature. It was well known to the settlers, however, that the Indians might "dig up the hatchet" at any moment, and begin the dreadful work of slaughter. These thoughts filled the mind, more especially when it first became known that war with England had commenced. When news of the battle of Tippecanoe reached the Indians, they all withdrew and went toward the western part of the State, much to the relief of the apprehensive settlers.

It seems proper in this connection to notice a few of the many interesting anecdotes that are told concerning adventures had with wild animals or with the Indians. One day, when John Campbell was away from home, his wife placed her little child on the floor, with a cup of milk and a spoon, and closing the door, went a short distance to one of the neighbor's, on an errand. She soon returned, and, stepping up to the little window, looked in to see what her baby was doing. There sat the child upon the floor, while close at its side was coiled up a large, yellow, repulsive rattlesnake. It had crawled up through the cracks of the floor, and, when first seen by Mrs. Campbell, was lapping or drinking the milk, which had been spilled by the child. Just as the mother was taking her

first lightning survey of the fearful sight, the child reached out its spoon, either to give the reptile some milk or to touch its shining body with the spoon. The mother gave a piercing scream, and the snake slid down a crack and disappeared. Mr. Campbell came in soon afterward, and, raising a plank of the floor, killed the snake. The "gulf" at Stow Corners was filled with these reptiles, and it was many years before they were killed off. So numerous were they, and so dangerous, that the settlers took turns in watching the rocks, to kill all that came forth. This was done on sunny days in early spring, when the snakes first came from their holes to bask in the sun. It fell upon Mr. Baker to watch the gulf one Sunday, when Deacon Butler was holding a class-meeting in a log cabin close by. While looking down into the gulf, Mr. Baker saw a large number of rattlesnakes crawl from a crevice in the rocks and coil themselves in the sun. When it seemed that all had come forth, Mr. Baker dropped his coat near the crevice, and, with a long pole prepared for the purpose, pushed the garment into the opening. He then descended to the rock, and killed *sixty-five* of the venomous reptiles. The first intimation that the worshipers had of what had taken place, was made known by a son of Mr. Baker, who ran to the log meeting house at the top of his speed, crying out with a loud voice, "Oh, dad's killed a pile of snakes! dad's killed a pile of snakes!" This adjourned the meeting, and the members repaired to the gulf, to continue their thanks for the victory over the ancient enemy of man. The rock whence the snakes had crawled was blasted open the next day, though but one was found—a large female, that was thought to be the mother of the numerous progeny that had been killed. Several persons were bitten, and many had narrow escapes from death. A young man—a relative of William Walker—was struck twice on the heel by a large rattlesnake, and did not recover. The Indians had a peculiar plant, which was used as a remedy in case of snake-bite. It is said that when the Indians left the plant also disappeared, and could not be found growing in the woods as usual. This seems somewhat improbable, though the statement comes from some of the oldest and most respected citizens. One day, as Henry Wetmore was gathering nuts near his father's cabin, he heard a sudden com-

motion in the bushes near him, and immediately saw a drove of hogs break cover and run across the clearing to his father's stable. Following close at their heels was an enormous black bear, that halted barely long enough to see the boy and continued the pursuit to the pen where the swine took refuge. Mrs. Wetmore, hearing the confusion outside, came to the door, and, seeing the bear and at the same time her boy, motioned for the latter to take a circuit so as to avoid the animal, that seemed in doubt whether it was best to attack the swine in their pen or not. When the boy was safe in the cabin, Mrs. Wetmore went out, and, by shouting, frightened the bear into the woods. On another occasion Jacob Cochran, while in his cabin, heard one of his hogs squealing terribly, and, surmising the cause, he seized his rifle and ran out, in time to see a large bear disappearing in the bushes, in whose company was an unwilling, remonstrating hog. The bear finally dropped the hog, which fell in between two saplings so that it could not be extricated. The detention enabled Mr. Cochran to overtake the bear, which was immediately shot. It was necessary to kill the hog also, as it was terribly torn and mangled. It is probable that William Walker was the most successful and intrepid bear hunter ever a resident of the township. He killed sixteen bears, sometimes under circumstances which would appall the stoutest heart. More is said of him in the Twinsburg history.

In 1803, Mr. Walker's dogs treed a large bear in a chestnut tree a few rods from the cabin. It was shot, and was found to weigh 400 pounds, and was so extremely fat that oil accumulated within the cavity of the body within a few minutes after the animal had been killed. Mr. Walker was a chair-maker, and had a small log shop near his cabin. One day George Wilson, an Indian, came to the cabin and asked for whisky, which was given to him. He drank the liquor and sat down, and a few minutes later was asked to take a seat at the table and eat with the family. He accepted the invitation with due dignity, seated himself, and was handed a plate well loaded with meat and vegetables. But by this time the liquor had worked into his blood and brain, and, actuated by a devilish spirit, he suddenly, without any provocation, dashed the plate and its steaming contents in Mr. Walker's face. The latter leaped

to his feet in a passion at the inhospitable act, and started for his rifle to make short work of the savage. But the latter, perceiving the danger he was in, ran into a small bedroom and under the bed. Mr. Walker, rifle in hand, endeavored to follow him, but was hindered by his wife and daughter, who had no desire to see the Indian shot. The latter noticed the delay and made his escape through the bedroom window, taking refuge in the chair-shop already mentioned. By this time the other members of the family had succeeded in pacifying Mr. Walker, and the refractory redskin was permitted to depart—without his dinner. One day William Lappin and William Leach were at the cabin of John Arbuckle, when six or seven Indians, among whom were John High, a tall, ugly-looking savage, six feet three or four inches in height, and Wabmung, an under-chief of the Ottawas, passing along, stopped to talk with the settlers and get some tobacco. Mr. Leach traded his hat with one of the Indians for some article belonging to the latter; but, immediately perceiving that he had been cheated, he snatched the hat from the head of the redskin and placed it on his own. This was an insult which the savage would not brook, so, raising his fist, he knocked Leach flat on the ground. The act was no sooner done than Lappin sprang forward and with one blow sent the Indian sprawling by the side of Leach. Lappin was immediately assailed by John High and several others, though he succeeded in keeping them at bay, and the fight became general. Blood began to flow from sundry noses, and knives gleamed in the air. One of the Savages snatched up a rifle, and pointed it at Lappin, intending to shoot him; but the Chief Wabmung, who had remained an impassive spectator of the fight thus far, sprang forward and struck the muzzle up just as the gun was discharged. No harm was done, and the Indian, thinking, doubtless, he might get into trouble, took to his heels and was soon out of sight. The fight was over and the Indians took their departure. Jonathan Williams, the Indian-hunter, lived for a number of years in a little log cabin, in the northwest part of the township, on Mud Brook. He gained great notoriety for his antipathy for the Indians, many of whom he shot on the slightest provocation. He had been one of those professional Indian slayers who, during the latter

part of the last century, were in the habit of invading the Indian country to carry on their work of extermination. Williams was a dead shot, and was feared by the Indians. One day a member of the tribe came to his cabin and told him that a snake was on his track and would bite him. Without any further explanation the Indian went away. Mr. Williams construed this statement to mean that one of the tribe was lurking around to get a favorable opportunity to shoot him. He, therefore, began to watch closely for his foe. The following morning, before leaving the cabin, he took a careful look from the little window, and, while scrutinizing the woods on the border of the clearing, saw an Indian suddenly peer from behind a tree about twenty rods distant, and then as suddenly conceal himself. Williams told his wife what he had seen, and, taking his rifle down, looked carefully to the flint and priming. He said to his wife, "It's now death for one of us; I'll trick him. Tie up the dog, and don't be scared." So saying, he suddenly opened the door, and before the Indian had time for a hostile movement, the former took refuge behind a bank of earth near the house. He hurried a short distance and got behind a large tree, and, with his rifle ready, began to watch cautiously for the approach of his foe. He saw the Indian's dog coming toward him, and thought it must soon discover his hiding-place. Suddenly, the Savage glided through a small glade in the edge of the woods. This was sufficient, and, like a flash, Williams raised his rifle and fired, just as his enemy was disappearing behind the bank already alluded to. The bullet went straight to its mark, and the Savage fell upon the earth and expired. Williams hurried forward, and, securing the gun, shot the dog that had come so near revealing his hiding-place. He was at a loss at first what to do with the body. The death of the Indian would be avenged, if known to his friends. Finally, it was taken and sunk in Mud Brook. Williams went back to the cabin, and his wife, who had heard the report of both rifles, and was greatly distressed, not knowing what shape affairs had taken, was overjoyed to know that he was safe. The death of this savage, George Wilson, was not discovered until after the Indians had left the county, so that all danger from them was averted.

The Indians seemed to take especial pleas-

ure in frightening the wives of the settlers when the latter were absent. They would enter the cabins and flourish their weapons in an ominous manner, and a plentiful supply of whisky and victuals would be their reward. They would often brandish their scalping knives over the heads of children until the mother was half-distracted, when they would get almost anything they demanded, and go off grunting with satisfaction at the success of their artifice. It may be said, however, that generally the Indians were orderly, unless they had been abused or were under the influence of whisky.

Mud Brook Swamp in the northwest corner, was the resort during the spring of the year of countless thousands of pigeons. They would come to this place to roost after having feasted all day on beech and other nuts growing on the higher grounds. When they all took wing, the noise was like the rushing of a mighty wind. They often filled the air so that the sun could not be seen; and when they settled in the forest, large trees were broken down by them. It was dangerous to go into the swamps that were filled with pigeons, and the voice had to be elevated to be heard.

The early settlers in Stow suffered the usual hardships incident to pioneer life. They were obliged often to live as best they could. Flour and meal were difficult to get, and when procured were judiciously used and made to go as far as possible. It was a universal rule in pioneer mathematics, that the means of supply were inversely as the appetite to be gratified. The taste could not be petted with a variety of articles, but the meal very often consisted of but one, and that in such limited quantities that the cravings were unsatisfied. Roads were bad, conveyances were bad, supplies of all kinds were exorbitant, labor of the hardest kind received scarcely any reward, and all efforts were exhausted in the one object—to live. It is singular how the plastic nature of mankind can be molded for almost any condition of circumstances. Actual enjoyment can be had in the midst of imminent peril or distressing surroundings. The settlers saw the bright side of their situation, and made the most of it. They were contented, because their customs were homogeneous, and their trials identical. If some settler had come in very wealthy and aristocratic; if he had dressed his family in silks, satins and broadcloths cut according to

the latest and prevailing fashion; if he had scorned to associate with his neighbors, himself and family would have been practically ostracised—they would have been shunned like the plagues of Egypt. It was a fortunate thing that they remained in the East with their money bags—fortunate for them and for the rapid settlement and improvement of the West. But, after all, hard times were experienced—times when it seemed as if the utmost effort could scarcely keep body and soul together. A large family of small children to feed and clothe, and nothing but strong hands and honest hearts to meet the demand! This was the problem that many solved, and upon which many others failed.

It was not long after the settlers had become quite numerous, before industries began to spring up in various parts of the township, to furnish for the steady demand supplies nearer home. While some settlers erected frame houses, the majority did not for many years, but lived contented in their rude, though comfortable log cabins. It thus occurred that there was not as strong a demand for sawed lumber as might have been expected. So far as can be learned, the first saw-mill in the township was built on the river at Monroe Falls, in about the year 1817, by Griswell & Wolcott. At the same time, a man named Francis Kelsey erected a grist-mill at the same place. These three men united means and built a log-dam where the present one is located. The grist-mill was located on the north side of the river, and the saw-mill on the south. The land on the north side was owned by John Graham, but he entered into an agreement with Kelsey, to deed the latter two acres for a mill site, provided a grist-mill was erected and operated. Both mills were supplied with water by means of short flumes or races, and a sufficient mill-head was obtained to operate both mills at a rapid rate. It was not long before both were on a firm financial basis, and a fair profit was realized by the investment. They were conducted by these men (or perhaps they had a change of owners) until 1836, with a few insignificant interruptions, at which time they were purchased by the Monroe brothers, of Boston Township. For a number of years prior to this change in owners, the mills had been neglected, especially the saw-mill, which had become somewhat rickety, and sadly in need of repairs. The Monroes, at

the time they purchased the mills, also secured about two hundred and fifty acres of land, all, or at least a portion, upon which the village of Monroe Falls is situated. They had a grand project in view, which was to found a village that should become the public mart of all the surrounding country, and a metropolis of opulence and importance. At this period there were some eight or ten residences in the village; but, so far as can be learned, no lots had been regularly surveyed and platted. It is thought that William Stow built the first dwelling in the village; at least, he built there at a very early day. His father had been the proprietor of the township, but had sold a large portion of it to settlers and speculators. His residence was located on the south side of the river, and is yet standing. John Graham lived on the north side, but had sold out and left a few years before, or, perhaps, sold to the Monroes. There also lived at the village, in 1836, Samuel Cheney, Zebulon Stow, Mr. Griffiths and several others. The Monroes evidently expected to make their fortunes. They were quite wealthy when they purchased the village and mill-sites, and they ventured all they had in the enterprise, confidently anticipating, as many did in early years, that a city would spring up around them, like mushrooms from a hot-bed. They immediately laid out about a hundred lots, and in a few years succeeded in securing the incorporation* of the village, which, in their honor, had been named Monroe Falls. At the time they purchased all the land for sale in the village or surrounding it, they built a small storeroom, and placed therein about \$1,200 worth of goods. A number of years before, perhaps as early as 1830, John S. Harvey had come to the Falls, had built a residence and a small store, and had placed in the latter \$600 worth of a general assortment of goods, consisting mostly of groceries and notions. He had obtained a fair country trade, and, according to the reports, had refused to sell to the Monroes, who desired to purchase his property. The Monroes wished no competition in the early history of their village, and had tried to purchase all property or enterprises that would in any way interfere with their intentions or obstruct their rapid march to opulence and fame. Several lots were sold, and tradesmen and mechanics

* Gen. Bierce.

appeared, and it seemed at first as though the bright expectations of the Monroes were to be realized. They founded a "bank," and began issuing "wild-cat," "red-dog" bills of credit in limited quantities.* Harvey soon found that the Monroe store was materially injuring his trade, so, about two years after the appearance of the brothers, he either sold out or closed out, and went to Akron, according to the reports. The Monroes purchased his storeroom and filled it with goods, and thus monopolized the trade in the village. Their stock was increased until they probably owned about \$5,000 worth of goods. About the year 1828, or perhaps earlier, James Griffiths erected a wooden factory a few rods below the saw-mill, on the same (south) side of the river. He secured a paying custom trade. Wool-growers in the vicinity brought their wool to him to be carded, after which it was taken by them and spun, and then returned to the factory to be manufactured into flannel and various other varieties of cloth. It must be remembered that there were no ready-made clothing stores in those days. Suits for men and women were cut and made in the houses by the wives of the settlers, many of whom became expert tailors, especially if they had large families and large quantities of cloth to be disposed of. At certain seasons of the year, the entire family would be provided with new suits. Journey-men tailors traveled from house to house, and took contracts at reduced rates to make suits for the whole family, often furnishing the cloth. Griffiths conducted his factory until 1836, when the entire property was bought by the Monroes. Converse & Barnes began manufacturing chairs in about 1833, and soon had quite a brisk trade. They peddled their wares in a wagon, which traversed the country for a circuit of many miles. Converse was a local preacher, and conducted many of the early meetings at the village. Some three or four men were employed to assist in the manufacture of the chairs. The owners continued the business until 1836, when the property, like almost all the balance, fell into the hands of the Monroe Brothers. Many years before this, Mr. Graham, who had lived on the north side of the river, built a small distillery, and began manufacturing a limited quantity of whisky. Considerable liquor was made, which found a

* Gen. Bierce.

ready sale in the neighborhood. Mr. Wetmore, also, at an early day, erected a distillery on what was then called Stow Pond. He also made quite a quantity of the drink which inebriates. These enterprises (which, by the way, brought to the owners a profitable revenue), were quite popular in early years, and continued so throughout what is now Summit County, until about the year 1830, when a large number of temperance societies was organized, whose objects were to depict the enormity of the evil tendency of the liquor traffic, and to suppress the supply and demand among the settlers. The two distilleries above mentioned were closed, however, before this crusade. The temperance movement became so strong and universal, that William Stow was induced to offer 160 acres of land just north of Silver Lake (this land is yet known as "temperance lot"), to be divided equally among those who would take the pledge and become abstainers. Many were thus induced to renounce their intemperate habits; but a deed to the land was not made out, was neglected, and, at Mr. Stow's death, his heirs refused to comply with his promises, and retained the ownership of the "temperance lot."

It will be seen that the Monroes became the owners of about all the business enterprises in the village in 1836. These men threw a vast deal of energy and capital into their gigantic undertaking, and deserved a better financial fate than they were compelled to suffer. They soon found that they had miscalculated. But few artisans and no capitalists came to their relief. Instead of rising in value, the property depreciated from the price fixed by the Monroe purchase. The proprietors had encountered large expense. They tore down the grist-mill and the saw-mill, and erected larger and better ones. The saw-mill was located on the north side of the river, and the grist-mill on the south side, the reverse of what had formerly been. The latter mill was established further down the river, and a long race, coming from the dam, supplied it with water-power. After struggling some ten years with their undertaking, the Monroe Brothers, seeing that they had failed and had lost large sums of money, gradually went out of business. Their "promises to pay" were not fulfilled, and many others besides themselves lost quite heavily. The property, or the most of it, fell

into the hands of Oliver Brown, or, as some say, into the hands of William Cartright. At least, both men at different times owned the mills, and it may be that others also, at times, owned an interest in them previous to their being purchased by the Cleveland Paper Company. The saw-mill was owned by various parties, as was also the grist-mill. E. P. Willis sold goods in the village about the time of the Monroe purchase. Others have followed the mercantile pursuit at different times. A small hotel was built on the canal in early years. Phillip North, in about the year 1842, was engaged in manufacturing hoes—cutting the metallic portions from plates of iron or steel, and furnishing them with handles. Luther Loomis conducted an excellent store for many years. Charles Reed has a small store at present. In 1866, the grist-mill was purchased by the Cleveland Paper Company. It was fitted up with the apparatus necessary for the manufacture of paper; but after a year or two was burned to the ground, whereupon the present commodious building was erected on the same site. Under the superintendency of Mr. Hall, there has been manufactured an average of three tons of paper each day. About thirty employes are kept constantly at work, and the village, at present, is populated almost wholly by the families of these workmen. All the coarser varieties of paper are manufactured. Many other things might be said about Monroe Falls, but enough has been given to exhibit its general growth and decay.

It must be noted that other industries arose than those in the two villages in the township. Henry Wilcox owned and operated a saw-mill on Mud Brook as early as 1820. Josiah Starr having built it a year or two before. The "Bryan Mill" was started quite early, and continued many years. There was also an excellent saw-mill on Fish Creek at an early day. Many others have been conducted at different times. In about the year 1819, Mr. Thorndyke, son of a wealthy merchant of Boston, Mass., opened a general store on Lot 14. After a short time, the store was moved to Lot 12; but, at the expiration of two or three years, the enterprise was abandoned, and the building was used by the Methodists as a house of worship. After the first settlers had opened up the township, and greatly modified the hardships to be undergone, improvements went on rapidly. Capital

sought investment, and, ere long, Stow could boast of a population as large and as enlightened in general knowledge as it can at present. A much larger portion of the land was covered with forest than now, and the roads and streams were in a very unsatisfactory condition. In the year 1837, there occurred one of those circling tornadoes, which occasionally strike the earth, spreading death and destruction in their course. It visited the township on the 20th of October, about 3 o'clock in the morning, striking the earth first, in the western part, near the center road, and thence passing a trifle north of east, until it reached about the center of the township, when it either spent itself, or arose above the tops of the trees. The force of the wind must have been terrific, as large trees were snapped off like pipe-stems, and carried bodily several yards from the stump. Those who heard its approach, knew from the awful roar that was mingled with the crash of falling trees, that something unusual and dreadful was in the air. Its pathway had an average width of about forty rods, and, though its course lay through the heaviest timber, not a tree was left standing; but all were heaped in tangled and promiscuous confusion. It was accompanied with almost incessant flashes of vivid lightning and volleys of the deepest thunder, and the rain came down in angry torrents. It struck Cochran Pond, and very likely carried up large quantities of water. The residence of Frederick Sandford was torn into a thousand fragments, and the frightened inmates carried aloft in the air. The two sons, Charles and Norman, aged respectively twenty-five and eighteen years, were both killed and terribly bruised. Mr. Sandford's jaw was broken, as was also his thigh, in two places. He was alive when found, but died in a few hours, without recovering the use of his mind. Mrs. Collins, the mother of Mrs. Sandford, was also killed, while the latter, with the exception of a few bruises, was uninjured. Mary, the daughter, aged about sixteen, was found lying insensible on a gate that had been wrenched from its hinges, and carried ten or twelve rods from the house. When found, she held in her hand a dress, which she was probably endeavoring to put on in the few terrible moments before the cloud struck the house. She was comparatively uninjured, and, after a spell of sickness, caused by the drenching rain, and the nervous shock accompanying so dire a

calamity, she fully recovered, and is yet living within a few rods of where the old house stood. The cloud passed on; wrenched asunder Mr. Graham's new house; carried off the roof of the one occupied by Dr. Wells; crushed in the gable of the Barnes residence, pinning several members of the family fast until they were released, and finally ended its mad freaks by unroofing the Butler residence. The east and west road was filled with fallen timber. It must be understood that the last-mentioned houses were only on the edge of the course taken by the gyrating cloud. Had it been otherwise, the historian would have more deaths to record. A plow, that had been left in a field in an upright position, though not in the ground, was plunged in to the depth of eighteen inches, and a furrow in the form of a semi-circle, whose diameter was about six feet, was thrown up, and the earth scattered six or eight feet around, after which the plow was thrown out of the ground with landside, mold-board, share and other portions of the plow twisted and broken. Fowls and birds were plucked entirely destitute of feathers, and killed. The bed upon which Mary Sandford had been sleeping, was found lodged in the top of a tree, thirty feet from the ground. An ox-cart was blown thirty rods. Articles belonging to the house were picked up several miles away; among these was a small purse of money. Quite a number of domestic animals were killed or mangled.

The first house in Stow Corners was built as early as 1806, by Ezra Wyatt, and was a small log building, located on the southwest corner of Lot 36. Within the next two years, three or four others were erected. Stephen Perkins built on the northwest corner of Lot 26, on a small tract of five acres which he owned there. Caleb Wetmore built soon afterward, as did also Titus Wetmore a few months later. The last named built a double log house for the purpose (as stated by one of his descendants) of furnishing a dancing-hall for the neighborhood. Samuel Baker lived near by, and was a blacksmith by trade, the first in the township. Several other residences were erected in the village, but no store was opened until about the year 1820, when a man named Johnson placed a small stock of goods in the Wyatt log house, which, a number of years before, had been fitted up by Erastus Southmayd for a tavern. Lyman Beckley soon got possession

of the building, using it for a tavern. He was succeeded by Allen Nickerson, who, in about 1843, transferred the property to Gen. Gross. The latter kept the most disreputable place ever in the township. It was a resort for the lewd and vicious, and was a disgrace to the neighborhood. The old building was discarded many years ago, and a new one erected. Dr. Sweeney owned and conducted the tavern for a number of years. It has since changed hands several times, and is at present owned by C. E. Kidney, who has a small stock of liquors, which he vends to convivial spirits. It is styled the Cliff House. Mr. Gross kept a few goods for sale, as did also a man named Edmunds. Enoch Brainard conducted a tannery for some four years, beginning in 1842. A few other industries have arisen in the village at different times.

Knowledge obtained of the early schools is exceedingly limited. Recollection, upon which the historian largely depends, is erratic and treacherous. Traditions are vague, improbable and unsatisfactory. No one in the past has taken the trouble to gather crumbs of information for the intellectual appetite of coming generations. It has been a matter of no pecuniary interest or advantage, and has been studiously omitted from the curriculum of pursuits. The plodding details of agriculture have been far more attractive, for therein was seen the glitter of gold. The historian casts his hook in the Stream of Time; it is swept backward; a strange sensation is felt along the line; a sudden effort is made, and a few quivering minnows of information are thrown upon the shores of the Present. Mrs. (Walker) Lappin, of Boston, says that the first school in Stow was taught in the northeast corner, in the cabin of William Walker, as early as the winter of 1806-07. A young Virginian, named Dennis Ryan, who had just come into the township, and who was decidedly averse to chopping all day in the woods for a pittance, made the effort, and succeeded in getting a sufficient number of scholars subscribed to insure him something more than a living. The term was three months in length, and the subscription per scholar was \$1.50. The teacher boarded around, and probably cleared the greater share of his wages. About fifteen scholars were enrolled, quite a number of whom came from the southern part of Hudson

Township. Samuel Burnett had built a log cabin in the northern part in about the year 1805, but had vacated it some two years later, going no one knew whither. This building was appropriated for school purposes, and terms were taught there for several years, beginning in 1808. A man named Lowell taught here quite early. As near as can be learned, a schoolhouse was built in the vicinity of Stow Corners in about the year 1810, at which time the Burnett house mentioned above was abandoned, and the children in the northern part sent to the former. It is possible that this building—the Wetmore Schoolhouse—was erected two or three years before 1810. It was located a short distance west of the present village site, and used until about 1816, when a frame building was erected, and located nearly south of where Josiah Wetmore's residence now stands. This house was used some twenty or twenty-five years, when the present one was constructed. The latter has been enlarged and remodeled until it resembles a newly-built schoolhouse. The first school building was erected at Monroe Falls in about the year 1816. Two other houses have succeeded it, each an improvement on its predecessor. School was taught in the cabin of Mr. Rice, near the Center, by Emma Cannon, as early as 1810. In 1825, there were more schoolhouses in the township than the present number—eight. There were then at least nine, and very probably ten or eleven. The greater number were built of logs, and were rude, inconvenient, unattractive, cheerless affairs. Notwithstanding their gloomy, dismal surroundings, they were well attended, and were the basis of the splendid public school system of to-day. One important feature of the early schools should be noticed. Knowledge was not turned into scholars by a sort of pouring process. The teacher refused to afford any assistance save where the scholar, after patient and protracted study, could not succeed. The schoolhouse was not a playhouse; it was a workhouse—a place where many a self-made man received his first insight of the hard labor that was before him. Erastus Southmayd was one of the early teachers at the Center. He taught many terms, and his reputation as a competent instructor became widespread.

It is universally the case in the earlier history of a township, that different religious de-

A. S. Cotton

nominations arose and prospered—some of them for short periods, and others until the present time. Owing to the fact that fine churches have been erected in Cuyahoga Falls and Hudson, and are within a few miles of all parts (the farthest) of the township, a large portion of the citizens of Stow attend these, thus affording but little material upon which the historian of that township may work. For the first few years, the settlers went to Hudson to attend religious service. When Deacon Butler came to the township in about the year 1806, he began forming a small class, which met regularly at his cabin. The meetings were conducted in pioneer fashion, and were full of enthusiasm. Local preachers from Hudson addressed the congregation occasionally, as did also itinerant preachers. Butler was a Presbyterian, and an entertaining speaker. The society used the schoolhouse. Among the early members were Stephen Butler, William Stow, John

Gaylord, Thomas Gaylord and their families, and others. They built a small frame church in about 1833, in which they continued to worship with increasing numbers, until near 1843, when the Disciples got possession of the church, and the Presbyterians went to Cuyahoga Falls. This building was used until a few years ago, when the present structure was erected. The above is given on the authority of Josiah Wetmore. It is stated that a St. John's Church society was organized at Stow Corners in about the year 1818; that it grew and flourished, and was finally removed to Cuyahoga Falls, where it yet lives, well advanced in years, but with the vigor of youth in its limbs, if the figure may be indulged in. The church at the Corners is the only one in the township; but from this it should not be inferred that the citizens lack religious interest and zeal. They belong to churches in other townships.

CHAPTER XX.*

COVENTRY TOWNSHIP—DESCRIPTION AND PHYSICAL FEATURES—WHITE SETTLEMENT—GROWTH AND IMPROVEMENT—PIONEER REMINISCENCES—CHURCHES AND CHURCH BUILDINGS—EDUCATIONAL, ETC.

"The ax rang sharply 'mid those forest shades
Which, from creation toward the sky
Had tower'd in unshorn beauty."

—*Mrs. Sigourney.*

IT is difficult to realize, as we walk the streets of our beautiful towns and cities, and note the squares of solid blocks, the immense warehouses, the busy mills, the ceaseless hum of a hundred factories, where the bulk of a busy population "gains its bread by the sweat of its brow," that scarcely a century ago these beautiful hills and valleys were peopled by wandering savages, and formed a part of one vast wilderness, which gave no sign or promise of the multitudes of a strange race by which it is now peopled, or of the mighty developments in science and art which should make their lives so different from that of their rude predecessors.

Here the bold immigrant pitched his lonely tent and staked all beside some stream or near some spring of pure and sparkling water, and beneath those "forest shades" where erst the un-

tamed children of Nature had so long roamed unmolested, at one time in search of food, and again engaged in the wild pleasures which seemed the only occupation of their simple lives, and the only end of their existence. The sound of the woodman's ax rang out amid this mighty solitude, frightening the denizens of the forest from their peaceful slumbers, and starting reverberations whose last re-echo has changed into the screech of the iron horse, and into the varied hum of a thousand industries, which now occupy the millions of busy men and women, who have been born and reared under a civilization which had its first beginnings in the rude log-cabins of those sturdy pioneers.

A pleasanter task could scarcely be given than that which devolves upon the chronicler of our early history. Could he but reproduce the scenes of three-quarters of a century ago, with all their natural surroundings, that the reader in imagination might see the unhewn log hut with its crevices filled with clay; the adobe chimney; the broad fire-place, and the rough, unseemly

* Contributed by George I. Wright.

furniture ; that he might see the small clearing, so covered with stumps that one could easily have leaped from one to another, and in that way have passed across the entire breadth of the farm. Could he picture the rude shed, made of poles and covered with branches, which was the forerunner of the fine bank barn, in which our modern owner of the same farm stores the wealth of grain and produce gathered from the fields his forefathers conquered, or the winding path to the edge of the woods, where, beneath some spreading beech or maple, the spring bubbled forth and cut for itself a tiny path toward some larger stream, where, after their slaking thirst, in the hot midday, the settler and his boys would rest for a time from their toil, and talk of the trip to the mill or post office ten or fifteen miles away. Could he show the reader "the slashing," where the men, the boys and the girls were busy, making and burning log-heaps and brush-piles getting another piece ready for wheat or corn, the paths that indicate the direction of their near neighbors, perhaps miles away. Could the historian, we repeat, picture all these scenes in their wild but natural beauty, he would bring before many a reader similar scenes, whose impress have been left in the mind by the oft-repeated stories of the gray-haired grandsire, recounted with many an animated gesture, as he "lived o'er again those olden times."

But we must reluctantly recall the reader from these general recollections to the more prosy subject of our work. Coventry Township is bounded on the north by Portage Township and Akron City ; on the east by Springfield Township ; on the south by Green and Franklin Township ; and on the west by the Tuscarawas River and Norton Township. A small portion of its territory projects from the northern center into Portage, on the western margin of the corporation line of Akron City. Its southern boundary is the famous south line of the Western Reserve, or forty-first parallel of north latitude. This line was run during the spring and summer of 1797, by one Seth Pease and an assistant, one of an expedition sent out by the Connecticut Land Company, to survey the land which they had purchased of the State of Connecticut. This company paid \$1,200,000 for the tract included between latitude 41° and 42° 2' north, and extending west 120 miles from the Pennsylvania line. This

was surveyed into townships five miles square, as far as the Tuscarawas and Cuyahoga in 1797. In 1806 and 1807, the balance was surveyed, until which time the Indians owned all territory west of these rivers. This land was divided among the stock-holders in this way. The numbers of the townships were placed on slips of paper, and all but a few were put into a box from which each one drew. Those that were not drawn were called "equalizing townships," among which was Coventry. The object of thus reserving some was to give strips of this "equalizing land" to those who had drawn poor townships, and in that way make them equal to an average township.

The book in which these assignments of territory was kept, was called the "Book of Drafts," and was the foundation of all titles to land on the Reserve. Coventry was the first township in Range 11, and was parceled out to several parties. Samuel Hinckley, who was proprietor of Hinckley Township, in Medina County, got the southeast quarter of Coventry. Gen. Wadsworth and others got strips of this township as equalizing land. The survey, before noticed, closed on the bank of the Tuscarawas, fifty-six miles west of the Pennsylvania line, this being the western boundary of the United States at that time, and on a tree, possibly still standing, on the bank of the river, the surveyor, Pease, marked the result of his measurement—"56 M." This base line was re-run, in 1806, by Abram Tappan, who differed somewhat from the original survey, but not much considering the distance and surroundings. South of this line, the land belonged to "Uncle Sam," and was surveyed by order of Congress, townships made six miles square, and was called "Congress Land" to distinguish it from the "Reserve." At the time of this survey, that part of Coventry which lies west of the Tuscarawas and the "Indian trail," belonged to the Indians, and hence the township was fractional. This additional territory, however, was added to it, when the survey was completed in 1806, just after it was ceded to the Government by the Indians in 1805. The Tuscarawas encroaches upon the territory of Norton, in the southwest corner of Coventry. But the river was retained here as the boundary, thus giving to Coventry more than the twenty-five square miles, and leaving Norton a fractional township.

The general surface outline is quite diversified, and, when we consider the whole area we find as great a variety as could well be shown on as limited an area. The Tuscarawas enters near the middle of the southern half of the eastern boundary, passing in its beautifully winding course through the central part to the center of the western boundary, thence continuing in a southwesterly direction until it leaves the confines of Coventry, entering Franklin and continuing onward toward "The Father of Waters," to be lost in its bosom or carried onward to mingle with the waters of the great ocean. The Tuscarawas has many small tributaries, perhaps the most important of which is Brewster's Run, which enters from Springfield and traverses the eastern half of the township, entering the river above the outlet of "Long Lake." This lake is a natural basin of pure water containing excellent fish, which formed a source of provision for the early settlers, as well as the savage red men who ranged the forest and fished in these beautiful lakes with his crude tackle, and perhaps had as good luck as some modern experts who frequent the place. Another lake of considerable note, not only on account of its situation but for the uses to which it has been put by the enterprising advocates of "rapid transit," is Summit Lake, situated in the extreme northern center and occupying a position on the "divide" which separates the lake system of drainage from that of the Mississippi Valley. Originally it was surrounded by an impenetrable tamarack swamp, without any outlet worthy the name, and its source of supply springs at the sides and bottom, with the waters from the surrounding hills. It was, in 1825 or thereabouts, used as the source of supply for the upper level of the Ohio Canal, which passes through it. There is a number of smaller lakes, among which is Manning's Pond, on the northern margin of Summit Lake, connected therewith by a stagnant stream through which the water flows either way according to the varying supply in the larger body. Another is Nesmith Lake situated about a fourth of a mile west of the geographical center of the township. The Indian trail, or portage path, touched at the eastern side, and the dusky warriors perchance were wont to rest and slake their thirst at this point on their expeditions to and from the North. A small body of water east of Long Lake and connected with it in

high water, is called "Mud Lake," perhaps, on account of the swampy and uncertain character of the shores. Its dark waters are said never to have been fathomed, and the stories of the bed-cords and clothes-lines that have been used in the fruitless search for the remote foundations thereof, are, at least, interesting to one who has oftentimes paddled the frail canoe over its placid surface while trying to catch the "speckled bass" or the "blue sunfish."

Perhaps, the most interesting body of water in the township is the reservoir, a series of connected lakes and ponds, partly natural and partly artificial. It is situated in the extreme southern part, extending into Green and Franklin Townships and covers considerable territory. It was built in 1840 or thereabouts, and was designed to secure a sufficient quantity of water for the use of the canal, which was at this time the principal outlet for the trade of Central Ohio. The great number of boats passing through threatened to exhaust the supposed abundant supply in Summit Lake.

A few items of the secret history of the Pennsylvania & Ohio Canal, and "the bearings of which (as 'Bunsby' would say), are in the application thereof." At the time when the Pennsylvania & Ohio Canal was projected, the route was located through Middlebury into Coventry, and following the Wolf Ledge Run was to have emptied into the Ohio Canal above the guard lock, by means of a lock, which would have helped to supply the deficiency on the summit level, for which the reservoir was constructed at a cost of over \$150,000 to the taxpayers of the State. But the Akron mill-owners perceived that if this canal could be brought into Akron on the line of the Crosby race (by which they were supplied with water-power) by enlarging it and running up to the Summit basin by means of a lock located *above* their supply race, they would get the benefit of both the enlargement and of each lockful of water let down, eventually, from the summit level: hence pressure was brought to bear and the route was changed. But the supply of water on the summit level was not sufficient for both canals, and the reservoir was built. It is supplied by means of a race which starts from the Tuscarawas about a mile from the eastern boundary line, near the Steese coal bank, runs west along the hillsides which skirt the valley, to within half a mile of Long Lake where it turns south, still

skirting the hills, and enters the reservoir near the 'Squire Freese farm. A huge embankment was built from this point across the lowland to the hills southward, and an extensive lake was thus formed. This discharges through an immense iron pipe (and runs into Long Lake whenever there is need of water from this source), by means of gates which are raised to let the water into the sluice. Long Lake is likewise connected with Turkey Foot Lake, making it also a part of the great supply reservoir. These discharge through Long Lake into the Tuscarawas, a little south of the center of the township. This point was also made the terminus of the Portage path by the Indians, because the accession of waters from these lakes made the river navigable at all seasons to this point for their birch canoes. Being nearly on a level with the canal, a dam and a supply race or feeder were built, by means of which a never-failing supply was delivered into the canal.

These lakes, creeks, and the Tuscarawas, form a most complete system of drainage. Aside from some low lands along the natural depression in which the township was located, the township is quite free from waste lands. The soil is generally fertile, and especially in the southern part, where it is considered the best wheat land in the Reserve. Along the valley of the Tuscarawas are beautiful meadows, and, in the spring and summer seasons, the rich verdure relieved by occasional patches of timber left to remind one of what it was fifty years ago, forms as pleasant a sight as often meets the eye of the lover of the beautiful in natural scenery. In the northern part the soil is more inclined to clay, and is better adapted to general husbandry and stock-raising.

The geological structure presents many interesting features. The ridge or divide which crosses the township, anciently formed part of the beach of a great inland sea which extended over the entire basin now occupied by our chain of great lakes. One of several outlets to this sea, in all probability, cut through this divide and followed the lowlands to the Tuscarawas, which at that remote time conducted the overflow from the sea toward the gulf. At a more recent time, after this sea had receded toward its present limits, the Cuyahoga passed through this water gap into the valley of the Tuscarawas, until, becoming dammed up, it cut for itself a new channel toward the lake, making

the sharp curve in the river at this point. These facts are shown by an examination of the character of the deposits along this old channel. The surface is of drift origin, while underlying it we find the carboniferous formation in full. The coal measures are overlaid with shale, while above this is sand rock. Immense quantities of coal are being mined in this township, and of an excellent quality. The vein averages in thickness about four and a half feet. There is some irregularity, however, due, no doubt, to the uneven bottom of the old coal marsh, in which the vegetation it is formed of, was deposited, and when the overlying clays were deposited, the coal material lay between these ridges and irregularities which are now found to obstruct the progress of the miners, and are called "horse-backs," or "hogs-backs." A bed of hard iron ore is found over nearly all the measures opened, varying from a few inches to a foot in thickness. Peat bogs are also found, some of which are said to be from thirty to forty feet in depth. This, by a process of drying, is made into an article of fuel, which may develop into a possible future supply, in case the coal measures are exhausted. Mr. J. F. Brunot prepared some for market, but it has no more than one-half the heating power of coal, and cannot compete with it at paying prices. It is an excellent fertilizer, and is of great value to the intelligent agriculturist. Shell marl is sometimes found, which is one of the most valuable fertilizers in the market. Any one finding this should test it, and ascertain its value and reap a harvest from the cat-swamp or marsh, that will make a garden of the whole farm. These peat and marl beds are the filled-up lakelets that ages ago occupied their sites, and which became overgrown with weeds and grasses, until they finally disappeared. Some of them are even good meadows, over which cattle have roamed for years. One of these dead lakes was discovered recently near Mogadore, on the route of the Connotton Railroad. All lakes with boggy or swampy shores, where one can shake the ground for rods, are in the first stages of progress toward the formation of peat bogs. Many granite bowlders are found, and the curious may wonder whence they came. These rocks are evidences of the powerful iceberg and glacial agency in the distribution of the surface rocks, and in the formation of surface features. They

are strangers here, from the Laurentian hills of Canada, and tell the tale to the people of today of the wondrous changes and mighty forces that had played their parts in the construction of this continent.

Before the first waves of immigration, precursors of an overwhelming tide that was soon to sweep away the last vestige of a crude and imperfect civilization began to throw upon these shores the scattered settlers who were to form the picket line for the conquering race, there lived besides these lakes and streams bands of Indians belonging to the Delaware tribe. The territory over which these Indians roamed extended from the bend of the Cuyahoga southward to the Ohio River. On the east was the country of the Iroquois family, or "Six Nations," while to the north and west lay the hunting-grounds of the Ottawas and Wyandots. Thus we find ourselves on the borders of disputed grounds. The Delawares had been driven from the homes of their forefathers on the fertile banks of the Susquehanna and Delaware, by the powerful Iroquois confederation, which extended from the Hudson to the valley of the Cuyahoga, some time in the middle of the preceding century. After wandering through Pennsylvania and into Ohio, they finally settled down in the beautiful valley of the Tuscarawas and Muskingum. They belonged to the great Algonquin family, which included all the tribes east of the Mississippi and north of the Tennessee, except the isolated Iroquois before mentioned. They all spoke dialects of the same language, while the Iroquois had a different language. The Wyandots and Ottawas were Iroquois, but spoke a different dialect from the Six Nations, and were at bitter enmity with them, and frequently combined with the Delawares against their kinsmen. When incursions were made to the northward, their route was from New Portage (their principal village in the north) to the southern terminus of the Indian trail, by canoe, thence overland (often carrying their canoes with them) along this portage path, past the western border of Summit Lake, and over the hill past the present site of the house of Col. Simon Perkins, northward to the Cuyahoga at Old Portage, where they again embarked. These Delawares, or Lenni Lenapes, as they called themselves, were a brave and intelligent people. It is true they were at times cruel, and not very discrim-

inating in their judgments. Many of those venturesome persons who preceded the actual settler, styled Indian hunters, met with tragic deaths at their hands.

Hopocan, or Capt. Pipe, as sometimes called, a Delaware chief, had his village near New Portage, in Coventry Township, which was considered of much importance on account of its being at the head of navigation. The whites looked upon it in a somewhat similar manner, for we find that, in 1787, an ordinance was passed declaring the Tuscarawas navigable to this point, and "forever to be kept open for the use of the United States." By the treaty of Fort McIntosh, in 1785, Coventry, with all the land east of this stream, and the Cuyahoga, was ceded to the United States by the Indians. The history of the "State of Coventry" begins with the downfall at this date of the "Kingdom of New Portage," King Hopocan soon being obliged to move his headquarters west of the river, under the above-named treaty, which he signed with all the dignity of a born monarch, as "Hopocan, King of New Portage." This treaty remained in force, with only occasional infringements, until 1805, when the treaty of Fort Industry was signed, by which the western boundary was moved further west, and the Indians, who remained in this territory for some years longer, remained by sufferance of the Government.

The Delawares were generally friendly to the settlers, except when on the war-path. Hopocan led them in the battle in which St. Clair was defeated, and he afterward declared that he had that day "tomahawked whites until his arm ached." He was at Maumee Rapids when "Mad Anthony" broke the spirit of the Indians of the northwest, who had combined to drive the invaders from their chosen hunting-ground. In 1812, Hopocan and his tribe took sides with the British, and when the fate of war was decided against them, he signed the treaty of Greenville. After lingering for a time in the lands which they had chosen, but which was now rapidly filling up with whites, these Delawares bade farewell to the homes they had hoped would be permanent, but which, alas, had proved to them but a transient resting-place in the inevitable pilgrimage which fate had marked out for them, toward the setting-sun! Successive removals followed, before the steady and relentless march of a higher civilization, which

sweeps everything before it. The weak and broken remnant of a once proud and powerful nation was finally settled upon a small reservation in the Indian Territory.

In 1806, Daniel Haines came into the unsettled wilderness of Coventry. He was from Pennsylvania, and settled on a piece of land near the northeast corner of the township, on what is now known as the Sumner farm. His log cabin was built in the midst of the forest, a little south of the site of the large stone house, which now occupies the slightly position on the hill back from the road. A small red house now occupies almost the exact spot, and thus keeps in remembrance the location of the first house built by the hands of the paleface in Coventry. "Uncle Dan," as the younger people of that day called him, built his cabin and cleared a small place, where he lived happily in his forest home for a number of years. Ariel Bradley, at Mogadore, Joseph Darrow, at Darrow Street, and old Deacon Hudson, at Hudson, were his nearest and only neighbors for a year or two. When the Harts and some others came to Middlebury, in 1811, the neighborhood began to get too crowded for "Uncle Dan," and he sold out and went into the woods again. This time he settled in the central part of the township, in a small ravine by the side of a spring, about a mile and a half from the north line, and about the same distance from the east line of the township, on or near what is now the Elias Hartong place. There he built another cabin and lived in peace, and raised a goodly family of children, who figure largely in the history of the early settlement of this section. The next settler of whom we have definite record was Capt. Amos Spicer, who located just north of the Haines place, in the northeast corner of the township. He was a cousin of Maj. Minor Spicer, and came at the same time, in 1810 or 1811. They were near neighbors, and were wont to go back and forth almost daily to see that all was well with the respective families. At this time there were a number of settlers in the vicinity, some at Middlebury, and a few in Portage Township, in the neighborhood in which Akron is now located, so that they were not so much alone in the world as "Uncle Dan" had been for some years before. Still they felt isolated from the world outside of their little settlement, and cut off from friends and acquaintances, and why

should they not feel so, for were they not embarked in an uncertain venture, in a wild and untrained country? Many anecdotes are related of the skill with which the old Captain could avoid the difficulties of living in a region where men were obliged to depend upon their own resources and ingenuity in the emergencies that daily arose. One incident in which he figured as an actor was related to us by an old settler. It seems that an old bear made a raid on the pig-pen of Maj. Spicer, and carried off the squealing porker to the ravine in the edge of the cemetery, where he proceeded to make a meal. After satisfying himself, he left the remains for the morrow, and betook himself to his ramblings. But Avery Spicer, a boy of twelve, caught bruin in the act, and straightway ran to get Capt. Spicer to help to capture him. They soon matured a plan, which was to set a gun-trap, so that when he returned to get the rest of his pork (as they had no doubt he would), he would shoot himself. They loaded their muskets with big loads, putting in several balls, and placed them on forks driven in the ground, just high enough to be in range with the bear, should he get upon their strings at any point. Three of these guns were set with strings from the triggers, running over little forks to the dead hog. After having everything arranged, they retired to the house to await developments. In the night, they were startled by the report of one of the old muskets, and, on going out, they found the bloody trail of bruin leading down the ravine. They followed cautiously for some rods, when they came upon the dying thief. The old musket had sent its load clear through him. Such adventures formed the spice and variety of life to these old pioneers, and they enjoyed an occasional diversion from the routine of wood-chopping and clearing.

About this time, Jesse Allen bought out old Daniel Haines, and settled by the side of Capt. Spicer. This was also in 1811, and shortly after, Nathaniel Allen, his half-brother, came in south of them, and bought the farm that is now the Philemon Allen farm. Jesse Allen was the first Justice of the Peace in the township, in which capacity he served for many years. In 1815, Israel Allen also came into the same neighborhood, and was also a Justice of the Peace for many years. Nathaniel and his good wife, "Aunt Massey," as the boys called her, planted the first orchard in the

township, and some of the trees or stumps are still standing. They were not such finegrafted fruit as we have at the present time, but they were the best they could get, simply "seedlings," raised in the garden from seeds gathered wherever they could get the fruit. Here, in after years, they had a cider-mill, the first one in the Section, where, whoever had apples, came to get cider made, and those who had none came and bought of the Allens, who had a large orchard. People came here from ten or twelve miles in all directions to get cider. Here, surrounded by their children, their brothers and families, they lived and died, after witnessing many wonderful changes that the next half a century produced on all sides of them. Their sons and daughters grew up, married, and their children are among the people who to-day are performing the work allotted to this generation. Another settler in this part of the township was Maj. Hart, who bought what is at present known as the Stillwell place. Stephen Brewster settled just south of the Nathaniel Allen place, at an early day, on what is now the land of the Brewster brothers. The old coal-bank of Alexander Brewster was one of the first in the township, and has been in operation for many years. It was originally opened by a Mr. Whittlesey, who leased the place, but afterward the lease was bought off, and since that time it has been operated by Alexander Brewster or his sons. Stephen Brewster's sister married old John Bellows, and they settled near there at about the same time, and the two families raised their children here, where they lived for many years and died, to be succeeded by their descendants, who still own the most of the lands their fathers or grandfathers cleared. Ithamore Bellows, who is looked upon as an old settler, though a son of the John Bellows before mentioned, when he reached manhood took up land in the woods, back to the westward of the Allen neighborhood. He married a daughter of Daniel Haines, and a story is told of him that illustrates the methods of pioneer courtship. During the winter of 1815, two young fellows came over from Green Township to split rails for some settlers in the neighborhood. One evening they followed young Ithamore through the woods to the log cabin of "Uncle Dan," where, unconscious of pursuit, he entered the house, and the spies secreted themselves so

that they could see the proceedings on the inside as they transpired. Late in the evening, "Cupid" was making rapid strides toward match-making, and the curtain ought to have been down, when a laugh from the outside interrupted proceedings. Young Bellows seized his hat and gave chase. We are led to suspect that one or both of these fellows engaged in this shabby trick was smitten by the same fair face. But Ithamore came out winner. William Triplet lived west of the Brewster place, and opened probably the first coal-bank in the township. It was a thin vein, however, and was abandoned after the Brewster bank was opened. His father settled in Green Township, and William came over into Coventry and settled, where he lived and died. Another of the boys lived farther south, but we could not learn the name; but, after his father died, the mother came up and lived on this son's farm. She had a little house where she lived alone, not far from the log schoolhouse that used to stand near the Gregg farm. Here the school children went for water, but they were always quiet and orderly, for they were afraid of "Old Granny Triplet."

Basil Viers, the ancestor of the numerous families of that name who still live in various parts of the township, located near William Triplet's place, west of Stephen Brewster. He was among the very first settlers, and is remembered only by the old, gray-haired patriarchs of to-day. Just this side of the little log cabin in which Dan Haines lived, Wheeler Heniman located, on the place now known as the "Beck Farm," on what might be called South Main Street Extension. Little is known definitely about him as to where he came from, but he is spoken of as a good neighbor, and was well thought of. Adam Falor settled in the northern center, just east of South Main street, in the hollow not far from the rolling-mill. He built and run a distillery, the first and, as far as we are able to find, only one in the township. It was located where the old stone house stood, through which the Brewster Coal Railroad cut its way just after passing under the track of the N. Y., P. & O. R. R. Here the sturdy old settlers came from all the country around to get the necessary material for raising barns and houses, as well as for running the husking bee, and other social gatherings. Here Adam and his wife Eve lived in peace, never dreaming of

“temperance societies,” “crusaders,” or Murphy pledges. They raised a family, many representatives of whom are still living in that neighborhood. Abram Falor, a son of Adam and Eve above-mentioned, built a saw-mill on what is now known as Falor’s Run, where he did a good business for many years. Chester Judd was another early settler who came into this same section some time before the year 1820, though that is the time at which we find him located just beyond the Adam Falor place. Peter and Moses Osburn, brothers, also lived adjoining, and near neighbors to Judd. Little could be learned in regard to them, as we find none of their descendants in the township. Thomas Granger, an old Revolutionary pensioner who lived like a king on the credit he got on account of his \$8 per month from the Government, built his log cabin just beyond the railroad, on the present Moses Falor farm. Granger, with some half dozen other pensioners from neighboring townships, often congregated at the little store at Middlebury, where they traded out their pension money, and had a gay time recounting the wonderful adventures in which they had participated to the gaping crowd of younger people, who are always eager to listen to anything that sounds of war. It is said that their stories rivaled those of Baron Munchausen in the marvelous, and they themselves, like the old Baron, even came to believe in the truth of their wonderful yarns. In the northwestern part of the township several families had located at an early day, before 1820 at least, though the exact date could not be ascertained. Among them was Old Basil Cahow, a family of Roots, a large family of Hethmans, Seibert Dodge and Samuel Nash. One of the sons of old man Hethman was for a good many years Justice of the Peace. He was an old bachelor, and is remembered by many as an eccentric but intelligent and well-read man. Samuel Nash kept a kind of tavern just beyond the Dodge farm. This was the first tavern in the township, and it consisted of nothing more than the log cabin of the settler and a stable for the horses, but they made the tired traveler welcome, and fed man and beast with the best the land afforded. In 1819, William W. Laird built himself a cabin on the banks of the Tuscarawas at New Portage, and began the construction of flat-boats to run on the river. Henry Chittenden,

of Springfield, Abram Norton, of Middlebury, and Philander Adams, of Tallmadge, at the same time became contractors and speculators in the produce of the country, which they bought up of the farmers all over the country and hauled to New Portage, and shipped on Laird’s boats to New Orleans. This seems almost incredible to those who know the present insignificant size of the river at this point. But such was the case, as we learn from the old people, who still remember this river as a turbulent stream, which, at certain seasons, it was impossible to ford, and which at all times was a goodly stream. Now, however, it has sadly fallen, and the little school-boys wade across its pebbly bed or catch the minnows which sport in its shallow waters. Shortly after the starting of this new industry and the opening of New Portage as a port, one Ambrose Palmer and a Dr. Clark settled in what they considered the future metropolis, and started a glass factory, the site of which is in that part of New Portage located in Norton Township. It was in operation for several years, and turned out considerable quantities of glassware. Its history, however, is more particularly given in the chapter on Norton Township. They finally abandoned the glass business, and Palmer left for the West, where he died, in the Mormon settlement in Utah. Talmon Beardsley, who was for a good many years a resident of the township, and some twelve years its Clerk, and about the same period Justice of the Peace, has in his possession a quart bottle which was turned out from this establishment in 1822. It is large at the base, and has a long, tapering neck, with a peculiar flare at the top. The glass is a good article, but has a yellowish green cast.

In 1821, Van R. Humphreys, a young attorney, located in New Portage, thinking, with many others, that it was destined to be the principal city in Northern Ohio. But he soon became satisfied of his mistake and abandoned the new city, finally settling in Hudson. He was at one time Judge of the Court of Common Pleas for this county. One of the first settlers at New Portage was Michael Dixon, who came there in 1814 or 1815. He lived there during the rise and fall of the varying waves of prosperity that came upon this, the only town and capital of the “State of Coventry,” as this was wont to be called. He

shared not only its prosperity but also its adversity, for he remained long after its star had set and its prospects sunk into insignificance. At a later period, Mr. Viers sought to revive its waning prospects by laying out an addition, which was to grow and swallow up the old town and retrieve its sinking fortunes. One lot was sold to Jacob Brown, after whom it was proposed to name the place Brownville. But Fate did not smile upon the project, for but one house was built in the place, which was afterward for many years used as a match factory. Such is the hard fate of many a beautiful prospective city. One other character must be mentioned before we leave the town. Joe Keeler was not only a celebrated Mormon preacher, but also a notorious passer of counterfeit money. He built a brick house near the canal bridge, where he lived in the purity of his faith for years, or until "religious persecution" threatened to send him to Columbus. Jacob Kepler was one of Coventry's pioneers; he settled early in the century in the southwestern part of the township, and is still living, surrounded by the numerous family of children and grandchildren, who own some of the finest and most profitable farms in the entire township. Many are the stories that this old settler can tell of the hardships and adventures of those early days. Here also came the Harters, another family of pioneers, and the Wagoner family settled in the same corner, west of the Long Lake. In the southeast corner, the earlier settlers were David Lee, Fred Hevener, Henry Billman, John Buchtel, Daniel Pontius, Dan Rex, and possibly a few others.

One of the events of the season in those days was the periodical coming of the itinerant shoemaker, one of whom—Dan Burns—frequented this corner of the township. He carried his tools and stock from place to place, and while there he generally shod the entire family, living as one of the family meanwhile; then he would take the next on the list, and serve them, and so on, until he had finished his list. Those coming late to engage him were often obliged to go barefoot until after mid-winter on account of their negligence.

John Haines, a son of old Daniel Haines, was the first or pioneer preacher in the township. He was of the Baptist faith, though holding the "fore-ordination doctrine" of the Presbyterians. This, however, he afterward renounced,

saying that he had a revelation while hoeing corn, in which he was convinced of the error of that doctrine, and the old man is said to have cried when he thought of the many people to whom he had preached it, and to whom he could not preach the new revelation. He often went off to the neighboring townships to proclaim the "glad tidings" to the backwoodsmen and their families. On Sunday mornings he could be seen making his way to some log cabin or schoolhouse near home, where he would preach to his friends and acquaintances. Then he would start through the woods, following some path, crossing streams on fallen logs, until he reached a place where some old settler had promised to meet him with a horse or wagon, when they would journey on together. The waters of Summit Lake seemed to suit his idea of a baptising medium, and many was the young convert to the doctrines which he taught, who came from far and near to go through the ceremony of baptism. Here Catharine Buchtel and Nancy Richards came from Green Township in 1824, and were led into the lake and immersed, both of whom are still living "to testify to the faith that was in them." Another pioneer preacher of the same faith was Elder Derthick, or, as the impious and irreverent young sinners of those days used to call him, "Old Deathhook." He settled on the Abel Allen place, where he lived and expounded the truth to the residents of the northeast. Many of the old residents remember to have gone to the schoolhouses often to hear him preach. One of his favorite places was the Falor Schoolhouse. Here one of the oldest cemeteries is located, and all the old settlers of the neighborhood were laid here, "to sleep the sleep that knows no waking," until Gabriel shall blow the trump that is to quicken these old bodies with the "life immortal." To these two men the earlier settlers owed a debt of gratitude, at least, for their unselfish devotion to the cause of religion during all these years of trials and hardships. In after years, when the soil had been broken, others came in and carried the banners.

Several churches have been built in different parts of the township. Perhaps the oldest is Wesley Chapel, on the banks of the Tuscarawas at Pleasant Valley, a place which at one time bore the fateful name of "Sodom." Another at Thomastown belongs to the Welsh, who pre-

dominated in that place. There is also a church and cemetery just west of the Center, toward New Portage, and also one west of the reservoir, on the place owned by Benjamin Bowers. In the cemetery back of each one may read much of the history of the early settlers. The moss-covered slab tells the tale of the sweep of old Time's scythe more truly than could be written by our feeble pen, and the little mounds, with the short records and dates, tell to the wanderer through these silent resting-places of the recklessness with which Death marked as his own the old and the young indiscriminately.

Another character who played a conspicuous part in the very early settlement was Libertine Dixon, the Indian hunter and fighter. Between this man and the red men, a deadly hatred existed, which often led to the shedding of blood. Dixon lived for many years in Middlebury or near there, but his time was spent largely in the woods with his invariable companion, a long, ungainly looking rifle, which he always spoke of with respect, calling it by the peculiar name of "Starling." Many are the stories of wild, reckless disregard of human life, which are told of Libertine Dixon, or rather of his gun "Starling." He seemed to feel as though any Indian who had an opportunity would shoot him as quick as he would a wolf, and acting upon that supposition, he always tried to get the first chance. One incident illustrating both this feeling, and his regard for his gun, was told by an old gray-haired man who knew him well and knew of the particular time mentioned. One day in 1815, the narrator of this story was in Middlebury Mills, to see after some sawing, grinding or something, at any rate, which called him to the mill, when some Indians were seen to come into the town and stop at the grocery, where Dixon was. As they entered at the front door, he came out the back way and hastily went to his cabin, saying that the Indians were after him, and if they wanted to see him they should come for him in the woods. He took his gun, ammunition and some dried beef and was gone, and did not return for some time; when he did, he told this story to our informant: "I went into the woods and kept low until they left, when I followed them, but kept myself so concealed that they did not suspect me. They were, however, on the lookout for *some one*, and scoured the woods, until finally they seemed to

give it up, and started toward Old Portage. One, however, watched the ravine closely where the Big Cuyahoga flows through the chasm near the Big Falls, and once, as he was hanging by one arm over the precipice holding to a hemlock tree on the edge of the rock, and looking closely up and down the valley, I stepped out from behind a big chestnut and 'Starling' spoke to him. But 'Old Starling' spoke so suddenly that it scared the fellow, and he jumped off the bank on to the rocks below some forty feet and killed himself. After awhile, I went up to him and as he didn't seem to want his gun and other things any longer, I took them." At another time, when he was hunting down by Long Lake in Coventry, he stepped to the edge of the lake, when he discovered an Indian fishing from a birch canoe. He jumped behind a tree and Old Starling thought he would speak to the fellow. The Indian was so frightened that he uttered a terrific yell and jumped into the lake. The smoke had hardly cleared away when another Indian, a companion probably, who was making a fire on the bank above, came rushing down to see what his companion had shot. While he was looking after his friend, Dixon slipped away and disappeared. He also shot one on a little lake west of East Liberty, whose yell can be heard frequently on moonlight nights even to this day, and many times would the young people of that neighborhood go miles around rather than pass that little lake, from fear of hearing the unearthly yell of the murdered Indian or seeing his shadowy form gliding over the smooth surface of the lake in his birchen canoe, that made "not a ripple as he passed." So goes the story, at least, and no believer in ghosts and hobgoblins has any reason to cast discredit on so well authenticated a story as the above. Many of the Dixons who live in Coventry are descended from this old Indian hunter.

Between 1815 and 1820, Ben Haines, a son of Dan Haines and a brother of the pioneer preacher, built a rude grist-mill on the Tuscarawas, near the place where the Steese Coal Railroad crosses the river, and on the David Jones farm. The dam crossed the valley where the road now runs. The old race can still be seen on the west side of the road just south of the bridge, and some of the old timbers still remain to mark the place where the first mill of the township was built. Possibly Ben

Haines might have built up a good business had he attended strictly to it, but it soon ran down, and at last, for a number of years, he occupied himself in studying on "perpetual motion," that bane of many inventive geniuses. A story is told of Ben's "machine" which we do not vouch for, but give as we heard it: At one time the builder thought he had succeeded (and perhaps he had, who knows?) at any rate he agreed to let some parties see it, if they would swear eternal secrecy, which they agreed to do when he conducted them into the old tumble-down mill and started his machine. It was constructed in some odd way by an arrangement of iron balls, chains, wheels, etc. It started off in good style, but began soon to go with accelerated speed, until the men who had been called in ran out as if to save their lives, for the "machine" became wild, and made a terrible din. Old Ben himself became frightened, and in order to stop it he threw a green handspike into the midst of the flying wheels, which broke it in such a way as to render it harmless at least, and it is said that old Ben never tried it again.

The mill now known as the Steese or Brews-mill, situated on the Tuscarawas River, on the Springfield line, was not built until 1834-35, by John Wyley. Before its construction, the people in this part of Coventry and neighboring townships were obliged to go to Middlebury mills, or to the Emerley mill in Franklin Township, at the foot of Turkey Foot Lake. This latter mill site was destroyed when the reservoir was constructed, but in 1842, or thereabout, the State mill was built, utilizing the overflow from the reservoir and furnishing better accommodations to the farmers of this section. The first saw-mill was the one built by Abram Falor, on "Falor Run," mentioned before. Another early mill was one built by Daniel Rex, a little west of the feeder dam, which supplies the reservoir on the Tuscarawas River, near Steese's coal bank. Another was in process of construction at quite an early day a little above this, the old race of which can still be seen near the road that runs east and west past "Wesley Chapel." This was built by John Buchtel, Sr., taking the water from the river just back of "Wesley Chapel" Cemetery. It ran west some half a mile, and discharged again into the river near the place where the railroad of Stambaugh, Tod & Co. crosses the river. But this

was never finished, owing to delays that held it in an unfinished condition until the feeder came in there and their dam was built just below, which backed the water on them and spoiled the site.

The first frame house is said to have been built by one of the Allens, on the road to Middlebury, and it was the wonder and admiration of the young people of several townships; some of whom made trips of a dozen miles to see it.

Of the early schools very little can be said, except that the houses were rude log structures, with a great fire-place in one end built on the outside, after the fashion of the day. The benches were made of logs split in halves and legs put in on the round side, while the split side was smoothed up with an ax. Not a plane ever touched them, and they were not the most comfortable seats in the world. It was not necessary to resort to bent pins, the school-boy's device, in order to produce a sensation, for all that was required was to pinch some one and get him to slide along the bench. Some of the bad boys are said to have lined the seats of their pantaloons with large pieces of leather for their protection, both from the roughness of the benches and the roughness of the teacher's ferule. There were no fine desks with all the furniture of a modern schoolhouse, but simply these benches, along which the children ranged themselves, and which had to serve the double purpose of seat and desk, each pupil piling his books and slate on the seat beside him. These seats of learning were in the midst of the forest, near some road (or path, along which the settlers expected to make a road some time). The pupils gathered from all directions, coming through the woods by paths known only to themselves, crossing the streams on logs or fallen trees. On one occasion, in time of high water, a family of some half a dozen children, were crossing on a fallen tree when the youngest, a little girl, becoming dizzy, fell into the rushing water and was being whirled rapidly down stream, when in plunged her older brother, who swam lustily after her, finally capturing her some rods below, bringing her safely to shore; after which they hastened on to school, instead of going home again, and dried their clothes by the fire in the schoolhouse. This shows that even the children thought little of such hardships and paid little heed to mishaps that would produce

consternation in a whole neighborhood to-day. One of these pioneer schoolhouses was situated not far from the center of the township, and was known as the "Tamarack Schoolhouse." In this old log building the town meetings and elections were frequently held. During those early times, they were not so precise as they are now, as to the exact place of holding elections, which were held here and there to suit the convenience of the people. There was an early schoolhouse in the woods on what is now the Sol. Renninger place, on the road just west of the Gregg place. These were built, probably, between 1820 and 1825. Then the Falor and the Allen Schoolhouses were also quite early, the dates of which I am unable to learn.

This township was first organized in 1808, as a part of Springfield, which was then a part of Trumbull County. This county was afterward divided and Portage County formed, of which our township continued to form a part until 1840, when Summit County was erected, and Coventry, with nine other townships, was taken from Portage County. Two of the early officers of this township are still living, viz., Avery Spicer and Talmon Beardsley; possibly many others, whose modesty forbade them to mention it, but who will be remembered by many

who read this sketch, as having rendered gratuitous service to their fellows in some of the various capacities. Some years ago, a fine town hall was built near the center, on the hill above the canal, at the famous "Waterloo Grocery." Here now the town meetings and elections are held.

When we seek to understand the whole significance of a recital of the facts and incidents relating to these previous generations, we must bear in mind that we owe to these same people the many advantages we enjoy. They came and conquered the wilderness, and made it to blossom as the rose. It is true that ignorance and superstition prevailed, and a crude, imperfect civilization took the place of the savage state; but they were in unison with their surroundings, and consistent in all respects. They were neither ahead of, nor yet behind the age in which they lived. It would not become us to belittle their labors; but rather should we extol them, for they underwent the hardships, while we reap the harvest and enjoy the benefits; they strove to make tolerable the path in life along which they were to travel, while we strive to enjoy the many advantages which are ours, not as the result of our own exertions, but because our lot was cast in the middle of the nineteenth century instead of a century before.

CHAPTER XXI.*

BOSTON TOWNSHIP—ORIGINAL PROPRIETORS—TOPOGRAPHY AND GEOLOGY—ORGANIZATION AND FIRST SETTLEMENT—COUNTERFEITING AND UNDERGROUND RAILROAD—GROWTH OF INDUSTRIES—VILLAGES—SCHOOLS AND CHURCHES.

IT is not generally known, even by those living in the northeast corner of the State, how the land of the Western Reserve became parceled out among its various owners, or how it came to pass that citizens in Connecticut sometimes found themselves in possession of tracts separated the entire length of the Reserve. Accompanying this volume will be found a detailed description of the manner in which this was accomplished. It may be properly stated here that the lands of the Reserve were divided into 400 shares, valued at \$3,000 each, and that residents of Connecticut could purchase, if their means were limited, a frac-

tion of a share, or, on the other hand, could purchase as many shares as they desired and could buy. It was often the case that several citizens formed themselves into a company, each contributing as much as he could, or as much as he desired, and all together sufficient to purchase one township, or perhaps one share. The members of the company would decide among themselves as to their order of choice out of the tract purchased. Some townships were "equalizing townships." That is, inasmuch as they were inferior to the average township, they were either divided into tracts which were distributed to other inferior townships to make the latter equal to the aver-

*Contributed by W. A. Goodspeed.

age, or portions in other parts of the Reserve were attached to them to make them equal in value to the average.

Boston was an "equalizing township." It was divided into three tracts (and perhaps others) which were attached to other townships. It was decided by a committee appointed for the purpose, that, from the fact that Boston was crossed by the Cuyahoga River, and by ranges of steep bluffs which could never be cultivated, it was unequal to the average, and it was accordingly distributed to others. Tract 1, lying in the northwest corner, was attached to Eaton Township, Lorain County, and was owned by Judge Jared Kirtland, Mr. Blinn and others. Tract 2, in the southwest corner, was attached to Columbia Township, Lorain County, and was owned by a company of five men, as follows: Harmon, Levi and Azor Bronson, Calvin Hoadley and Jared Pritchard. It is not remembered how the land east of the river was divided and owned, except that Herman Ely possessed the greater portion. When Tract 1 was surveyed by its owner, Judge Kirtland, it was found to have a surplus of 200 acres; whereupon he instructed his surveyor, Alfred Wolcott, to survey Tract 2, and this was found to have an excess of 400 acres. The Judge immediately shouldered the responsibility of equalizing the two tracts, by severing 129 acres from Tract 2 and attaching them to Tract 1. This equalizing tract was soon afterward sold to Robert and Thomas Brannan, a barrel of whisky being given in part payment. But, when Harmon Bronson came to the township and found a portion of his land occupied and claimed by the Brammans, he commenced an action of ejectment, and, after considerable annoyance, succeeded in having Kirtland's equalizing act set aside and the Brammans ousted. The Kirtland tract was surveyed into nine lots; the Bronson tract into ten; and all that portion of the township east of the river into forty-five.

When the first settlers came to the township, the prospect was anything but encouraging. The Cuyahoga River, then a marshy stream that overflowed its banks altogether too often for the happiness or prosperity of the settler, passed northward across the township a short distance west of the center. Along the adjacent valley were frequent bogs and marshes of decaying vegetable matter, that, under the heat

of the summer sun, threw off noxious vapors to poison and contaminate the air. A large portion of the township was cut by narrow, deep gorges and ravines, that were overhung by precipitous ridges and hills, covered with a heavy forest, and having a heavy, sterile soil that gave no word of encouragement or promise to the backwoodsman. The woods were filled with wild animals, and, what was equally a cause for apprehension of danger, bands of Indians were near that might begin the work of slaughter at any moment. Markets and mills were miles distant, and the journey by team through the woods was rendered so slow and harassing by reason of mud and fallen timber, that the distance was practically doubled. It became evident—painfully so—that the settler must rely largely upon his rifle to supply his family with, very often, only the bare necessities of life. Thus was the settler surrounded with discouragements, disappointments, and apparently unending future privations. But he fortunately possessed unbending resolution, dauntless courage, and incredible hardihood, and the pleasant homes we have to-day were founded by him.

It is well to notice the topographical and physical features of Boston before proceeding further with its settlement and improvement. It is five miles square, with the exception of about three hundred acres, which a number of years ago, were taken from the center of the northern side and attached to Northfield for school purposes. The Cuyahoga enters the township from the south, about a mile east of the southwest corner, passing in a zigzag course to within about half a mile of the center, thence flowing west of north and leaving the township one mile and a quarter east of the northwest corner. The river valley varies in width from a few rods to a mile, and though now almost wholly cleared and under cultivation, was once heavily timbered and extremely wet. The valley is skirted with precipitous bluffs, which can never be used except as grazing land, and which extend back from the valley more than half a mile. The Waverly group of rocks is exposed throughout the township, more especially along the river, where inexhaustible beds of splendid stone abound. Along the river in the northern part the Erie shale is exposed, while in the eastern part where the Waverly group first comes to the surface, ledges of sandstone con-

glomerate rise perpendicularly above the surrounding country, in some cases sixty or seventy feet. These ledges stand isolated and alone, far separated from their kindred strata, monuments to the eroding effects of time. Numerous small streams enter the river from the east, among which are Salt Creek, Richey's Run, Haskell's Run, Peninsula Run and Stanford's Run. The principal ones from the west are Oil Run, Slippery Run and Furnace Run. A few small tamarack swamps were to be seen in early days in different parts of the township, but these have been drained, and a few of them are now under cultivation. When the settlers first came to the county, a tract of land comprising thirty or forty acres, lying in the valley on the east side of the river a short distance below the center, was cleared of trees, and was under cultivation. It was an Indian corn-field, and it is stated that in about 1804, settlers living in Hudson went to this field and purchased corn of the natives. How long the field had been under cultivation is not known. A few stone implements, evidently used in tilling the field, are occasionally turned up by the plow. Long before the whites came into the Northwest Territory, Boston was the site of large Indian villages, the evidences still remaining of their humble habitations. Going back still farther—back to an unknown age of the world—that peculiar, mysterious people known as Mound-Builders, whose gigantic earth and stone works excite so much curiosity and speculation, dwelt in the valley of the Cuyahoga, as is shown by the mounds, sacred, military and festival, which are scattered along the bluffs on either side of the river. What these two races had to do with Boston will be found, so far as known, in a separate chapter of this work. One thing is certain, when the whites first came to the county, the Indians under Ponta were stilled encamped about half a mile north of the village of Boston, on the west side of the river. Half a mile south of this camp, on the same side of the river, the chief of the Ottawas—Stigwanish—was also encamped with a few of his followers. A detailed description of these camps, and many interesting incidents connected therewith, will be found in the chapter above referred to. We now come to the first settlement made by whites in Boston Township.

On or about the 1st of March, 1806, Alfred

Wolcott, John Teale and Samuel Ewart appeared in Boston, and immediately erected a rudely constructed log shanty, about eight feet square, and of barely sufficient height on the interior to insure safety to the heads of the inmates. This building was erected on the present site of the Boston Village cemetery, and was intended to be occupied only until the men had time to build better dwellings on the farms. Teale was a single man, but the other two had wives, and, perhaps, children, who were left at Hudson until suitable cabins for their occupancy had been erected by the husbands. These three men "bached" and did their own cooking, except bread, which was brought by one of their number about once a week from Hudson, the nearest settlement. No difficulty was experienced in procuring venison, wild turkey, squirrel, and occasionally a delicious piece of bear steak. Within about two months, Wolcott, with the assistance of Ewart, who was in some way connected with him in business, had built a large round-log cabin, about one one hundred rods northeast of Boston Village. It seems that Wolcott had purchased the farm soon afterward settled on by Stanford, but his wife, whom he had just married, objected to locating on the farm, stating that she was apprehensive of sickness from the proximity of a disagreeable swamp lying just south of where the cabin must be built. This objection induced the fond husband to reverse the injunction of the bridal vows, and to exchange his farm for one owned by James Stanford, the latter being willing, as, notwithstanding the presence of the swamp, a fine spring of pure water was discovered on the premises. Wolcott immediately erected a cabin on his new farm, and was soon as comfortably situated as could be expected. On the 23d of March, 1806, James Stanford, William and Adam Vance, and Abner Robinson, a nephew of the Vances, came to the township. The Vances were Irishmen and old bachelors, and brought with them their niece, a young lady named Eleanor Ashcroft, who came out to keep house for them. One cabin was erected, in which all these relatives resided. James Stanford owned land on Lot 41. This was sold to a man named David Cohoon, who, so far as can be learned, did not reside in Boston, although he owned land there. These were the first settlers in the township. After this they con-

tinued to come in about as follows, although the dates are not absolutely correct: Henry Post, Isaac and Jacob Ozmun, Moses Cunningham, William Beer, Aaron Miller, Andrew Johnson, Robert Guy, Timothy Bishop, Jonathan Iddings, Lancelet Mays, James Jordan, John Cunningham, Andrew and Robert Donaldson, John Duncan, Capt. Abraham Miller, Joseph Breen, John Galloway, Moses Decker, Jacob Morter, Samuel and Abraham Miller and John G. Mallet came prior to 1810; Samuel Brown, William Brown, Jonathan Williams, Erastus West, William Craney and others by 1812; Elizur Loveland, John Britt, William Brannan, Robert Wallace, John Robinson, James Dean, John Menough, Abial Hovey, Watrous Mather, Ephraim Moody, Nathan Drake, Alexander Metlin, James Fitch, Uriah Singletary, came prior to 1820, and the most of them about 1814. There also came in previous to 1830 the following: Jesse Thompson, William Collier, Daniel Collier, Joseph Lamb, Ichabod Lindley, Thomas Carter, Edward Coyn, John L. Butler, Samuel Coffin, W. L. Richards, John A. Ackley, William Downs, Elisha Mather, William McCreary, Henry Burnam, H. T. Avery, Thomas Whelen, Nathaniel Parsons, William McBride, James Brown, J. A. Clapp, Benjamin Wait, Elisha Burnett, Stephen N. Sargent, Henry Wetmore, Talmon Bronson, Don C. Mathes, William Brannan, Herman Bronson, Alonzo Dee, Benjamin Randall, Martin Morton, James Rumage, Billings Robinson, Amos Fletcher, Caleb Carpenter, Joshua Lillibridge, Samuel Hogue, Thomas Owens, Philander Carpenter, George Levery and others.

The township was first organized in 1811. Upon the solicitation of the citizens, the Commissioners of Portage County, of which Boston was then a part, ordered an election of township officers to be held at the residence of Timothy Bishop, on the 15th of January, 1811. The following action taken on that occasion is found the township records: "The inhabitants of the township of Boston, having met at the dwelling of Timothy Bishop in said township, by order of the Commissioners of Portage County, for the purpose of electing two Justices of the Peace and other officers, and having chosen Capt. Abraham Miller, Chairman, and Timothy Bishop, Lancelet Mays and Jonathan Iddings, Judges, and Alfred Wolcott and William Beer, Clerks for the Justices' election, and

Andrew Johnson and Isaac Bacon, Judges of the township election, and after being sworn as the law directs, the following gentlemen were elected: Alfred Wolcott and Moses Cunningham, Justices; William Beer, Clerk; Aaron Miller, Andrew Johnson and Timothy Bishop, Trustees; Jonathan Iddings and Isaac Bacon, Overseers of the Poor; Lancelet Mays, Treasurer; and James Jordan, Constable. Although this election was held in accordance with the order of the Commissioners, yet the term of office could run only until the following April, at which date the following additional officers were elected: Alfred Wolcott and James Stanford, Fence Viewers; Moses Cunningham and William Beer, Listers; Aaron Miller, John Cunningham, James Stanford and Isaac Bacon, Supervisors; Robert Donaldson, Constable, and John Duncan, Treasurer. When Boston was first created, and its earliest officers duly elected, Northfield and Richfield were attached to it for election purposes. This will explain why some of Boston's first officers really resided in those townships. The propriety of creating Boston into a separate township began to be discussed as early as 1807. It was about this time that James Stanford, Alfred Wolcott, Samuel Ewart, John Teale, William and Adam Vance, and a few others, when together one day, began casting about them for a suitable name for the township, which they anticipated would soon be created. Mr. Ewart modestly suggested Ewartsville; Mr. Wolcott thought Wolcottsburg a much more euphonious cognomen; the Vances, Stanford, and the others were silent, though it was clearly perceptible that no name yet proposed was satisfactory. Finally Mr. Stanford said: "Suppose we name it Boston, after old Boston in Massachusetts." This proposition seemed to please all present, and the name was adopted. Thus the township had its creation and first settlement, and now its growth and improvement remain to be noticed.

It may here be stated that Boston, in common with almost every portion of Ohio, was first inhabited by wandering hunters, who loved no society except that afforded by the forest, and who thought the country was becoming too thickly settled when a dozen families lived within as many miles. The result was that the settlers above referred to caught but a momentary glimpse, as it were, of these roving hunters, as they shouldered their rifles and moved

farther out into the depths of the forest. Probably the most noted hunter ever in Boston, or perhaps in Summit County, was Jonathan Williams, who lived for short periods in several of the townships. He was remarkably skillful and successful in his hunts, but perhaps the most distinguishing element of his character was the intolerable, murderous hate he bore the Indians. He lost no favorable opportunity to shoot them down without a moment's hesitation, and, in consequence, was feared and shunned by them. His constant companions were his two dogs and a long-barreled rifle that carried a ball weighing nearly an ounce. His dogs were so thoroughly trained that they obeyed the slightest sign from their master, and were of great assistance to Williams in bloody conflicts with bears and other dangerous animals. Physically, Williams was a remarkable man. He was six feet in height, and his movements were as noiseless and graceful as those of a panther. It was a sight to see him in the forest in pursuit of game of more than usual size or ferocity. He knew no fear, and would penetrate the deepest swamps, no matter what they contained. He went dressed like an Indian, with leggings and moccasins, and always took pains to have his clothing so harmonize with the color of the forest that the Indians or game could not easily see him. He wore a buckskin blouse, serrated in front and bordered with a fringe of otter skin. He was swarthy-complexioned, and it is reported that Indian blood ran in his veins, and this was generally believed by those who knew him, though undoubtedly incorrectly. He had a wife and family, who were supported by his rifle. To account for his hate for the Indians, the tradition is that all his relatives were murdered by the Indians before he came to Ohio, in consequence of which he is said to have sworn "to kill them just as long as he lived." These reports are all incorrect. On one occasion some trouble arose between the Indians and whites at Deerfield, Portage County, regarding a horse trade that had been made. An Indian, to retaliate for some real or supposed injury, shot Daniel Diver in such a manner as to put out both his eyes without otherwise injuring him. The Indians fled to their camp in Boston, but were pursued by the infuriated friends of the injured man. The latter were joined by Jonathan Williams when they reached Boston. The Indian culprits discov-

ered their pursuers and continued their flight westward, but were overtaken in Bath and one of them named Nicksaw, a harmless and innocent old Indian, was instantly shot by Jonathan Williams.

Other incidents will be found in this work of his hostility toward the Indians. One night, Williams, with his two dogs, went to watch a deer lick in southern Boston. He remained there all night without meeting with the desired success. Just as the gray light of coming day began to steal through the forest, his dogs became uneasy and restless, and eyed a small thicket near by, in such a manner that Williams knew that something more than usual was concealed there. He peered cautiously through the leaves, and, indistinctly, saw the shadowy form of some large animal crouching behind a small bush. His dogs remained obediently at his side, and raising his rifle he fired at the animal. A thrilling scream rang out on the morning air, and the animal bounded off through the woods, swiftly followed by the dogs, which had been told to "go." The animal ran up a tree, and Williams, hurrying forward, discovered a large panther crouched on a limb about thirty feet above his head. He had lost all his rifle balls except one. This was discharged at the panther, but only a slight wound was made, as it was yet quite dark, and the animal was partly concealed by the limb. The hunter, at first, was at a loss what to do; but, finally, he cut a branch that would about fit his gun barrel. The limb was cut up into plugs about an inch long, and with these hastily-improvised bullets, Williams continued firing at the panther. A settler, named Carter, living near by and hearing the reports, started out to ascertain the cause. He came to the spot, and, handing his rifle to Williams, who was standing in a favorable position, he told the latter to "bring it down." One shot was sufficient, and the panther fell dead to the ground. It proved to be one of the largest of its species, and is said to have measured eleven feet "from tip to tip." Its hide was cut in numerous places by the wooden bullets fired at it by Williams. Thomas Owens was another noted hunter, and often joined Williams in his hunts. When these two hunters "put their heads together," they rarely failed in killing whatever game they desired. Owens had no particular antipathy for the Indians, and the Indian hunting branch

Lewis Miller

of their sport was turned, without question, over to Williams. These two hunters often went on long expeditions to sections of the country that were wholly unsettled, and, when they returned, they were loaded with valuable hides and furs. Their families were the sufferers on these occasions.

It was in this township that the Indian chief, Seneca, erected a wooden god, which was worshiped by his followers for many years prior to the advent of the settlers. When the Indians removed farther West in about 1812, this god was taken with them. It was probably their god of war, as they held feasts and war-dances to propitiate his favor, just before starting on their marauding expeditions. On these occasions, an offering of tobacco was hung around the neck of the god, and as soon as the Indians were gone, some of the settlers whose taste for tobacco was stronger than their respect for the Indian deity, would steal forward and appropriate the dried leaves of *nicotiana tobacum*. It is said to have been excellent tobacco.

In 1814, the township was quite well settled. Cabins arose along the valley of the river and on the neighboring highlands, and the forest was disturbed by the busy hum of human life. Forests went down with a rapidity, which, if continued a few years, would entirely disrobe the land of its primeval covering. Wild animals became fewer and fewer, and soon none but stragglers remained. Those who were dependent on the products of the chase for subsistence were compelled to abandon the township, and depart for homes farther westward. Roads were laid out and cleared, that, in after years, were to be pressed by the feet of distant descendants of those who first worked them. The years rolled slowly by, fraught with mingled pleasures and privations.

Malinda Wolcott, daughter of Alfred Wolcott, is said to have been the first white female child born in the township. Her birth occurred April 14, 1807; she married Sherman Oviatt, and lived for many years in Hudson. The first male child born was Andrew J., son of James Stanford, his birth occurring March 27, 1806; and Alexander I., his brother, was born May 21, 1807. It had been generally thought that Henry Post, Jr., whose birth occurred April 8, 1809, was the first white male child born in Boston, but this is a mistake, as shown by the dates. Mary Ann Post was the first

one to die in the township; her death occurring June 9, 1808. Henry Post raised the first crop of wheat in the township; this was in 1807. On July 29, 1812, William Carter and Elizabeth Mays were united in marriage, it being the first. Soon afterward, during the same year, Israel Ozmun, of Boston, was married to Susan Mallet, daughter of John Mallet, of Richfield. Abner Robinson was what was known in early years as "a poet." He could compose "poetry" on all occasions and subjects, and took special delight in immortalizing any wrong doing, in verse. Two of his neighbors were guilty of stealing hogs; and this fact, coming to the public ear, induced some young men to hang a hog's skin at the door of one of the men, and a hog's head, with eyes protruding, at that of the other; whereupon Robinson evolved the following:

"There is a man on Furnace Run,
Who keeps a dog, but not a gun.
In hunting hogs he takes great pride,
He lives by the sign of 'the hog's hide.'

"Another neighbor lives close by,
And has the sign of 'the pig's eye.'
'Hog's hide' to 'pig's eye' thus did say;
'We will steal hogs while others pray.'

On another occasion, in a trial before Justice Chaffee, when Judge Bliss was opposing counsel to Abner, the latter gave the following impromptu adverse decision:

"My name is Billings Chaffee,
In Boston I do dwell—
There's not a neighbor in the town,
But wishes me in hell.

"They say that I am partial,
And all such stuff as this,
That I've no judgment of my own,
But follow that of Bliss."

On yet another occasion, when Jacob Morter, whose reputation for honesty was on the wane, asked Abner Robinson and Robert Mays, the "poet," of Richfield, to compose some verses on the occasion of his presentation to them of a gallon of metheglin, they responded as follows:

"Abner Robinson and Rob Mays
Are truly worthy of great praise:
For what a neighbor does that's wrong,
Like two d—d fools, they'll tell in song.

"Thus, Jacob Morter, it is said,
Steals all the corn that makes his bread:
And while his neighbors are asleep,
He prowls about and steals their sheep."

Morter paid the gallon of metheglin, which was relished by "the poets" far better than the former relished the "poetry."*

Boston was for many years notorious on account of a band of counterfeiters who made the deep, inaccessible gullies and ravines of the township their headquarters. Not only was silver coin counterfeited, but State bank notes, especially those of Indiana, were turned out by the bushel. Some of the most influential citizens of the township were induced to engage in the unlawful business, and it is even stated that a certain aspect of respectability was conceded to this occupation. In 1832, the counterfeiting reached the zenith of its power and circulation, and at that period is said to have been "the most extensive banking establishment in Ohio, if not in the Union." There were branch offices or "banks," in Cleveland, in Rising Sun, Ind., in Vermont and in other sections of country. Coins of some heavy material were first manufactured and then covered with a thin film of silver; or the coin was first prepared in plates and then stamped with a die of the denomination of money desired. Some of the dies used are now at the county seat. So successful were the counterfeiters in manufacturing and passing their money, that they contemplated visiting the Old World and even China, where they expected to exchange their money for the products of those countries. These products they expected to ship to distant points to be sold. Their anticipations, however, were doomed to encounter reverses and rebuffs. They proceeded as far as New Orleans, where they were detected and arrested. One of the men died in prison in the latter city; another escaped, and, like the Wandering Jew, began an unending pilgrimage on the earth; another was tried by the United States Court and sent to the penitentiary for ten years, but was pardoned by President Taylor. The last-mentioned offender was a resident of Boston and was one of its most intelligent and influential citizens. Several of his descendants are yet living in the county, and are highly moral and upright people. Another one of the offenders died in the Ohio Penitentiary in 1838. Still another was sent to the same place from Liverpool Township, Medina County. He also died there. Others were prosecuted in differ-

ent parts of the State, many of whom suffered the extreme penalty of the law. The gang was at last broken up and its members scattered over the country to repent at leisure for their misdeeds. It is stated that some of the most honored men in the county and in Cleveland were so connected with the unlawful business as to share its profits without incurring any of its liabilities. For many years after the gang was broken up, dies, counterfeit money, and various implements used in the manufacture were found in the ravines, and even in the houses of some of the citizens. There was scarcely a resident of the township who was not tempted to pass the coin and bills. On one occasion, a man with a valise came to Mr. Wait, now living in the northern part of Northampton, and asked him if he would purchase counterfeit bills on the State Bank of Indiana, at the same time opening his valise and showing it packed full of those bills. He offered them for sale at 25 cents on the dollar; but Mr. Wait informed him that he had come to the wrong man, and the fellow departed to try his scheme on some other person. About twenty-five years ago, when a house belonging to one of the most respected citizens was torn down, a small leather bag filled with counterfeit coin in dollars and half-dollar pieces, amounting to more than a hundred dollars, was found concealed under the edge of the roof. In the eastern part of the township are numerous sandstone ledges, which arise from the surrounding level in various forms and positions. Several deep, dark clefts or caverns are thus formed, and it is said that in these caves the counterfeiters were wont to ply their violations of the law. Evidences of their fires there are yet to be seen, and a few iron implements, evidently used in counterfeiting, were found a number of years ago. A great many other interesting incidents might be narrated, if lack of space did not prevent.

It is said that, as late as 1860, an old orchard which had been planted by the French or Indians was yet standing near Boston village. The trees were quite large, and were bearing when the white settlers first came to the township. How long they had been planted is not known. Of course, the fruit was none of our grafted and improved varieties, but was no doubt produced from seed obtained at some of the frontier settlements. This was the oldest orchard in the county.

*From Historical Reminiscences of Summit County by Gen. L. V. Bierce.

The settlers, when they first came in, usually drove a few head of cattle, hogs, and, perhaps, sheep; but the latter were found too tender to withstand the trials brought upon them by a home in the wilderness, and usually died—those that did not furnish a repast for the wolves and bears. A team of horses was usually brought, although many a settler came to the forests of Ohio with nothing save his rifle and his ax. When Abial Hovey appeared in the township he had no horse, and was told that he could have one by purchase from William Beers. But Mr. Hovey told Mr. Beers that buying the horse was impossible without money. "You may clear land for me and thus pay for the horse," replied Beers. "But I have no time," responded Hovey. "Make a 'bee,' and get your neighbors to help you," suggested Beers. This seemed feasible and to the point, and Hovey at last consented. The day appointed for the "bee" came and went, and the land was cleared, and the horse paid for. Some time afterward, when Messrs. Beers and Hovey, whose land adjoined, were fixing the line between their farms, the land as above cleared was found to *belong to Hovey*. The two men stood looking blankly at one another for about a minute. The silence was at last broken by Beers, who quietly remarked to Hovey, "Let's take a drink." All controversy or dispute was prevented by the "devil-may-care" influences of King Alcohol. How different would be the course pursued to-day! A knock-down would be very likely to occur, followed by law-suits which would swamp horse and land, and create everlasting enmity. In after years, William Beers was a great friend of the escaping slave, and assisted many of them in reaching Canada. One named Lewis Boler came from Kentucky, and not fearing pursuit hired out to Beers, with whom he remained a year or more. Finally, his master appeared, but meeting with decided rebuffs from Beers, he resorted to the plan of coaxing his slave to return with him to Kentucky. But the wily slave could not be deceived by promises, and was, in consequence, a few nights afterward, forcibly and secretly taken and hurried toward his former home in the "Sunny South." Mr. Beers, upon learning of the act, summoned a few neighbors, and together they pursued the master, and despite his protests returned to Boston with Boler. The latter was told to

push for Canada, which he accordingly did, arriving there in safety. Another escaping slave named Sandy came to Beers and obtained employment. His master came on and made all sorts of promises to induce him to return to the South, offering to make a "boss" or overseer of him, and to make him a present of a dog and a beautiful white pony. Sandy could not resist all these offerings, and returned with his master.

In 1824, a dreadful fever (probably typhoid) visited the country along the Cuyahoga River, and swept off about a score of old settlers—those who had reached advanced ages and whose physical vitality was on the wane. With the exception of a few cases of this kind, the township has ever enjoyed good health. In the year 1830, there were living in Boston five persons of about one hundred years of age. These were Henry Brown, Andrew Johnson, Thomas Brannan, Eleazer Gillson and Eleazer Mather, the first three being Irishmen. Brown died at the age of one hundred and three years. In early years, there was raised an occasional crop of what was known as "sick wheat." Animals that ate the grain in quantity died, and persons, upon eating a small quantity, were taken with violent vomiting and made deathly sick. No one is remembered to have died from this cause.

Four or five cheese-factories have been in operation since comparatively early times. One is now owned by Mr. Straight, of Hudson, and, during the summer season, twenty-five or thirty cheeses, of about twenty pounds' weight each, are manufactured daily and shipped to Cleveland and other points.

The building now occupied by Alanson Swan at "Johnnycake," or Everett, was built by Henry Iddings before 1820, and was the first in the village. Mr. Swan bought the Iddings property soon after the opening of the Ohio Canal. Mr. Swan's farm was increased until he owned 500 acres, including the land upon which the village now stands. The second building in the village was a store, erected by Swan & Smith in about 1835, into which about \$500 worth of groceries, dry goods and notions were placed. The stock was selected with a view to the demand on the canal at that point. Smith sold out to Swan in about a year later, and the latter conducted the business alone for a few years, and then sold to other parties.

David Baxter & Son owned this store for a number of years, as did also Ansel Hardy, L. J. Mix, Mr. Richardson, Henry Monroe and others. Swan also repurchased the property and sold it again two or three times. The stock was increased until it was worth probably \$2,000. Elihu Chilson opened a small store on land belonging to the State, near the canal lock, as early as 1838, but this never amounted to much. In 1842, Mr. Swan erected a warehouse on the canal in the village, and began buying corn, oats, hay, etc., to be fed to the horses and mules used in drawing the canal-boats and packets. A large stable, or barn, was erected, where the canal horses were fed and groomed. The packet company failed, and, in consequence, Mr. Swan lost several hundred dollars. The creditors of the company at the village attached the packet horses, but Mr. Swan refused to do this, and, in consequence, lost what was due him. When it is remembered that nearly three hundred horses were fed by Mr. Swan, it will be seen that the business undertaken was on an extensive plan. Alexander Stewart bought the greater share of the Swan property about ten years ago, though the latter yet retains the old homestead, and lives there at an advanced age. Before coming to the State, Mr. Swan was licensed to preach by the Methodist Episcopal Church, and, ever since living in the township, he has been identified with religious and moral improvement and growth. He deeded all his property except the homestead to his children, and can now sorrowfully say with King Lear :

"You heavens, give me that patience I need !
 You see me here, you gods, a poor old man,
 As full of grief as age ; wretched in both !
 If it be you that stir these children's hearts
 Against their father, fool me not so much
 To bear it tamely ; touch me with noble anger !
 * * * * * You think I'll weep ;
 No, I'll not weep ;—
 I have full cause of weeping ; but this heart
 Shall break into a hundred thousand flaws,
 Or ere I'll weep.—O fool, I shall go mad,
 * * * * *
 How sharper than a serpent's tooth it is
 To have a thankless child—away, away !"

The village has been called "Johnnyeake" since 1828. In the spring of that year, a flood in Furnace Run swept into the canal and stopped navigation, and the crews and passengers were compelled to live, water-bound, as

best they could. They were at last reduced to johnnyeake, which constituted their diet for a number of days. It has even been asserted that one baking of johnnyeake early in the morning furnished the ravenous passengers with their only warm daily meal. The cake was warmed up for dinner and served cold for supper. However, there are probably some mistakes in these early traditions.

Since the advent of the railroad, the village has somewhat revived. Its present name was bestowed upon it in honor of an officer of the road. It was also at one time called Unionville. Evidences of oil appearing near the village in 1865, several members of Cleveland and New York oil companies appeared, leased the land where the oil was discovered, and began boring for oil. The land was leased upon the conditions that the owner was to have from one-fourth to three-fourths of the oil produced. The terms of the contract were much more satisfactory and promising than the quantity of oil obtained. Oil was found in very small quantities. On a small creek near the sandstone ledges, Norton & Taylor began manufacturing salt at an early day. The brine was taken and evaporated in several large kettles, and the salt found a ready sale at an advanced price. On one occasion, a barrel of salt was exchanged for a good cow. Abial Hovey was also connected with the salt works, as were several others ; but the quantity of salt capable of being produced was limited, and, as the works proved unprofitable, the manufacture was discontinued.

Probably the first building in Peninsula village was a log structure built on the east side of the river, near where Abel Thompson resides, by Alonzo Dee, in about 1818. Not far from the same time, John Robinson, James Brannan and one or two others built at or near Peninsula. Brannan was located a half-mile west of the village proper ; though, owing to the fact that the corporation includes some 2,000 acres, the building was really within its limits. Other houses were added ; and very likely during the building of the Ohio Canal, a tavern and one or more stores were located, at least temporarily, in the village. However, Peninsula had its real beginning when Hermon Bronson came to the township in 1824. In about the year 1833, J. M. Adams was conducting a general store, on the west

side of the river. James Fielding was also there about the same time, with \$1,000 worth of goods. Charles Curtis began about 1838 or 1840. He owned a good store, and made money. It was discovered that the way he got rich was by selling "O-P" goods (those costing 45 cents) for \$1. He evidently was not residing in the village merely for his health. He began with some \$2,000 worth of goods, and very soon succeeded in doubling his capital. William Haskell opened a store with a stock valued at \$2,000, not far from 1843. Fielding sold out and left in 1836. Curtis continued until 1849, when he sold to Wood, Cole & Co. These men are yet in business in the village, though the partnership was dissolved many years since. Mr. Cole died, but his sons succeeded him in the business. In 1838 or 1840, Adams died, and his goods were closed out. Merrill Boody began with a general store in about 1858, and continued until about three or four years ago. Others have sold goods in Peninsula at different times, though those mentioned are the principal ones. There are at present three groceries, two hardware stores, two dry goods stores, two tin-shops, a barber-shop, a meat market, a harness-shop, and several shops the nature of which is difficult to ascertain. Hermon Bronson, two years after reaching Peninsula, built a warehouse about thirty-five feet square and two stories in height, and began buying pork, cheese, lard, butter and grain, which were shipped by boat to Cleveland. This was continued until 1835, when Mr. Bronson sold out to Janes & Thompson, who, at the expiration of five years, retired, leaving the warehouse business in the hands of Charles Curtis and Wood, Cole & Co. The village has had for many years a brisk traffic in coal, timber, stone, etc. In the year 1826, Herman Bronson built a saw-mill on Slippery Rock Run, a small stream which empties into the river at the village. The mill was a rough frame structure, located on a short race fed by water from a dam a few rods above the mill. The capacity of the mill was about two thousand feet per day. It was operated some four years, and then the machinery was removed to a building erected on the river in the village. At this point Bronson and Dee built a log dam across the river, which is yet standing, though it has been rebuilt and re-adjusted several times since. The mill was built over the edge of the

dam. It was operated by Mr. Bronson until 1835, when it was purchased by Janes & Thompson, who, in 1843, sold to Mr. Holcomb, and he, a few years later, to William Wetmore. This mill was located on the west side of the river. But at the time of its erection Alonzo Dee, who had an interest in the dam, also built a saw-mill on the east side, and continued operating it some four years, when it was claimed by Mr. Haskell, who had purchased the land upon which the mill stood. Dee had built his mill on land owned by Mr. Ely, one of the original proprietors of that portion of the township east of the river, and when the land was purchased by Haskell, all the fixtures and appurtenances thereof came into the ownership of the latter. Dee, however, received his pay for the mill, which remained in the possession of the Haskell family until about ten years ago. It is now owned by Otis Fitts. The river makes a wide detour at the village, and comes back to within fifty feet from where it started. A fall of about eight feet is thus created at the neck of the peninsula, which was taken advantage of by Mr. Bronson, who, in 1832, tunneled through about fifty-two feet, and built a grist-mill which is yet in operation. A first class natural water-power is thus secured, which is very valuable, in view of the fact that the dams along the river require constant watching and a vast amount of labor to prevent being washed away. In 1849, the mill came into the ownership of H. V. Bronson, a son of the Bronson already mentioned, who operated it until 1863, when the mill and dam site were sold to Pomeroy & Fisher. This firm sold out at the expiration of three years, and the property has been owned by several parties since. The mill saw its best days under the control and ownership of Herman Bronson. Not only was a large custom work done, but considerable flour was shipped by canal to Cleveland. The merchant work was most extensive about 1840. In 1837, Herman Bronson secured the services of a surveyor, and laid off seventy-one lots on the west side of the river, and named the village thus started "Peninsula," after the natural bend in the river already referred to. A plat of the village was recorded at the county seat. In 1866, Mr. Bronson made an addition of many lots, which was also recorded. Mr. Haskell also laid off a number of lots on the east side,

but this addition was not properly recorded. No other man has done so much to build up Peninsula, and people it with intelligent, moral and enterprising citizens, as Herman Bronson. He was its founder, and was the first to introduce moral and religious tactics among the vicious and unlawful practices of the canal-boat men. He gave freely of his land and means to religious and educational purposes. More will be said of him in the proper connection.

Alonzo Dee built a small distillery at Peninsula in about 1833, in which was placed a small still, where a limited quantity of whisky was manufactured. The liquor was consumed about as fast as it was made. This would imply that it was a superior article. The still was removed at the end of some two years. The village was incorporated some twenty years ago for school purposes, and now has an area of about 2,000 acres, with a population of some 600. Peninsula is the most important village on the Valley Railroad, in Summit County, north of Akron. It has been the leading place for canal-boat building, there having been from one to thirty boats built per annum, since the canal was first navigated. James A. Garfield, the President-elect, often stopped at Peninsula while working on the canal. It is said that he was so apt and bright, that the Captain of the boat upon which the boy worked remarked that he was too smart to be working upon the canal, and should seek some other employment. Within the limits of Peninsula are inexhaustible beds of the finest sandstone. The stone belongs to the same stratum as the Berea grit, and is superior to the latter in point of durability. Stone, at the rate of about a canal-boat load per day, is being taken out of these quarries, which are situated on the summit of steep bluffs, which border the river and canal. A large amount of labor is thus avoided in loading the stone on the boats. Another valuable property of the stone is, its capability of being divided into slabs, varying in thickness from a few inches to many feet.

The first building in the village of Boston was erected in 1820, and was a frame dwelling house. The following year, a saw-mill and grist-mill were erected on a dam that was built across the river, on the site of the village. Watrous Mather built the dwelling and the saw-mill, while Talmon Bronson built the grist-

mill. Mather put up a two-story frame dwelling in 1824, and, two years later, Mr. Bronson also built one. Abram Holmes came to the village in 1826. Mather built a large warehouse in 1828, as did also Mr. Holmes two or three years later. In 1826, Brown & Taylor built a storeroom, and placed therein about \$1,500 worth of goods, which were sold to Mather in 1828. Brown then moved the store across both the river and the canal to the east side, where it was fitted up for a tavern, of which he was landlord for many years. While standing in the door of his tavern one day, he was struck by lightning and knocked about a rod into the yard. His clothing was torn into shreds; his boots were literally torn into a hundred pieces and carried several rods away, and the man was rendered insensible by the shock. He had a remarkable physical development, and was a noted wrestler for miles around. Few men could throw him down. He is said to have irreverently remarked, after he recovered from the lightning stroke, "No man ever threw me so quick as God Almighty did." William T. Mather sold goods from a stock valued at \$1,000, beginning in 1830. In 1835, he sold out to the Boston Land & Manufacturing Company. This company purchased the mills and warehouse, but, failing in 1838, the property fell into other hands—that which was not closed permanently. Benjamin Morse brought in a few goods at an early day. Watrous Mather, after operating his saw-mill a number of years, tore it down and built a better one across the river, on the east side. It fell into the hands of the company, in 1836. When the company failed, William Smith became owner of the grist-mill. J. D. Edson bought it in 1848. It was considered a good mill. The village of Boston, in early years, gave great promise, but its subsequent history is unattractive. William McBride operated a saw-mill for three years, beginning in 1834, about a mile down the river from Boston Village. The canal destroyed his water privilege, and he was obliged to stop. Dr. Eleazer Mather was the first physician in the village, coming as early as 1822. A Mr. Fursons built a distillery at Boston at an early day. It was furnished with one large still, and during its most rapid workings could turn out about three barrels of whisky per day. It was conducted some twelve or fifteen years. Alonzo Dee,

also, was connected in early years with the manufacture of liquor at Boston Village.

So far as can be learned, the first school in the township was taught during the summer of 1811, by Miss Lois Ann Gear, a young lady whose parents, a number of years before, had been murdered by the Indians at Upper Sandusky. She was alone in the world and almost friendless, and her proposition to teach a term of school in an old log building, erected by James Stanford within five rods of the present residence of his son George, was accepted, and the house rudely fitted up for the accommodation of teacher and pupils. She received as compensation for her labors *seventy-five cents per week*, and "boarded 'round." Where is the teacher who would teach at the present day for less than seventy-five cents *per day*? And yet, it is highly probable, that Miss Gear saved almost, or quite, all she earned. Her board was evidently the principal consideration; and what a feast of it she must have had! Was she to be envied even in this respect? She taught six months during the warm months, and after that no term is remembered to have been taught again until 1816, when a log schoolhouse was erected by the neighborhood about thirty rods north of the residence of Mr. Stanford, and a term of three months was taught therein by Alfred Wolcott, the first settler in Boston. Wolcott, the surveyor of the township, was well educated, and no doubt taught an interesting and instructive term of school. This was the first genuine schoolhouse in the township, and was used every winter until about 1820, when a schoolhouse was built at Boston village, and the old house was deserted. In 1826, the house at Boston was too much to one side of the settlement to afford satisfaction, and the greater number of the children were sent to Brandywine, which left the old house at the village so nearly deserted that no teacher was employed there for a number of years, and the building was left vacant. In about the year 1836, a frame schoolhouse was built at Boston Village, which was used continuously until the erection of the present brick building, a short time before the late war. In the northeastern part of Boston, in the Wolcott neighborhood, a school was taught as early as 1813, and perhaps 1812. Mr. Wolcott is said to have been the teacher, and in the absence of any data to the contrary, he will be accorded the

honor. The school was taught in a building that had been used a few years as a dwelling; but which, becoming no longer comfortable or attractive, was thought ample and suitably adapted for school purposes, and was accordingly devoted to that use. A few years later, a log schoolhouse was built, and this has been succeeded by two or three other school buildings, each of which has been a better building than the one before it. School was first taught in the southeast part in about 1820, but nothing of importance can be learned regarding this school. It is probable that school was taught at Everett as early as 1825. No facts to support this, however, can be given. School was taught in about 1830, in a small log building near the residence of Mr. Swan. The first teacher is unknown, but among the first were Miss Gillett and Hector Osborn. A few years later, an acre of land was deeded by Mr. Swan to the school district for school purposes, and upon this a small frame school-building was erected in about the year 1838. The building was replaced by the present one a few years ago. A schoolhouse, located across the river from Everett and about half a mile further down the stream, was built in 1818. Squire Greenman was the first teacher, who received his pay by subscription. The house was built of logs by the neighborhood, and was used about seven years, when the children were either sent to Everett or to the "Holecomb School," in northwest Northampton, probably the latter. In 1829, school was held at Peninsula, in a log house that had been used for a dwelling. Probably this was not the first. The teacher, in 1829, was Miss Rhoda Payne, who was paid by private subscription, and whose weekly (or perhaps weakly) recompense was \$1. Her school comprised some dozen backwoods children. For a number of years, the east and the west sides had a common school, but after many years it was found best to divide the district, the river being the line, and since that period the village has had two schools, both of which are well attended and prosperous. A young man named Homer Warner was the first teacher on the west side. He received \$13 per month and boarded round. The east side schoolhouse, which is built of stone, was erected in about 1857. It is a two-storied building, the upper story being used as a town hall. The west side house is a frame building. A few

years before the last war, the citizens of Peninsula became dissatisfied with the character of their village school, as compared with the amount of school tax they were called upon to pay. There were six or seven school districts in the township, and the one at the village was called upon to pay from a fourth to a half of the school fund raised per annum. Other considerations growing out of this state of things vexed the citizens for a number of years, until at last they concluded to incorporate the entire school district in the village of Peninsula, which was accordingly done. This altered state of affairs gave greater satisfaction, as the surplus of school tax raised could be applied to the village schools, and not to those in distant parts of the township. Since the village has been called upon, however, to support two schools, it is difficult to see what has been gained by the incorporation of the whole school district. The township was divided into six school districts in 1826, and three years later these were materially altered. Numerous alterations have been made since.

It is extremely difficult to tell with accuracy where the different church societies of Boston were first organized, or under what condition of circumstances. Many of the settlers were religious, having belonged to some church in the East, and did not abandon Christian worship, at least in their families, after their arrival in the township. It is also quite probable that in the earliest days of the settlement, various Christian families assembled at some selected cabin, and even went so far as to semi-organize a religious society, perhaps in different parts of the township. These conjectures are rendered plausible by the fact that sincere Christian people are disposed to worship God, not only within the pale of civilization, but in the uninhabited and deserted depths of the forest. Religious services were held in the vicinity of Everett soon after the erection of the old log schoolhouse, on the Butler farm, in 1818. But little is known except that occasional services were held here, very likely, by traveling preachers. When Alanson Swan, who had been licensed to preach by a Methodist Episcopal society, in Connecticut, came to the township in 1834, he immediately united with others in his neighborhood, including portions of Bath and Northampton, and organized a religious society, which continued to

meet quite regularly in dwellings and school-houses, until it was at length divided by an alteration in the views of a portion of the members. Perhaps a majority of the members of this society lived in the two townships already mentioned. After flourishing for a number of years, and attaining a membership of about fifty, a detachment of about half, headed by Mr. Swan, separated from the remainder and re-organized at Everett under the name Protestant Methodists. No church was built by this society. Some ten years ago, it was so broken up by various causes, that the United Brethren came in and organized a society out of the fragments and out of new material. This is the ruling society at present. As early as 1824, Herman Bronson, who was an Episcopalian, began holding religious services at his cabin in Peninsula. His few neighbors were invited to lend their encouragement and support in assisting to build up a strong, permanent religious society in the neighborhood. It is probable, however, that no society of this denomination was organized until about 1837. Some four years later, a small church was built, almost wholly at the cost of Mr. Bronson. This church is yet used. Mr. Bronson was clearly its founder and patron, and did more to sustain it than any other man. He deeded the lot upon which it stands to the society, and also gave a fine lot for a cemetery and one for a public school-house. The church cost something like \$1,000. At the death of Mr. Bronson, he willed to the church he had founded a sufficient fund to afford about \$325 per annum, to be used in defraying the expense of employing a minister. This permanent fund has undoubtedly sustained the society from falling into decay at numerous periods of its existence. Some of the members of this church have been Herman Bronson, Daniel F. Bachelor, Hezekiah Bell, James Morrell John Fairweather, Thomas McCarday, Jacob Barnhart, Nisbett Wood, W. H. Payne, Asa Kimball, Harry Janes, and most of their families. Abraham Bronson was the first minister in charge of the society; and was paid a few hundred dollars for his services. A Congregational Society was organized at the village about the same time that the Episcopalians began. Their meetings were held in school-houses and dwellings at first; and sometimes the use of the Episcopal Church was tendered

William Emmett

them ; but their services were mostly held in the upper story of Mr. Haskell's store building, on the east side. After continuing a number of years, the society was so reduced by death and removals that it was disbanded. Among its members were Roger and George Haskell, L. M. Janes, Charles Curtis, Mrs. Thompson and children, Mrs. McGrouty and others. A Methodist society was organized in the village as early as 1834, or perhaps as early as 1830. It is thought that a circuit preacher Rev. Mr. Conant, organized it ; though others think that Rev. Thomas W. Pope deserves the honor. The society grew slowly in membership and wealth until some twelve years ago, when a frame church, costing about \$2,000, was built on the east side. A portion of the members have been Rev. Thomas W. Pope, a local preacher ; Billings Chaffee and wife ; John H. Curtis and wife, the husband also being a local preacher ; Mr. Ford and wife, Mr. Davis and wife, Dr. Lunt and others. This society has passed through periods when it was extremely difficult to tell whether it lived or

not. If not, like a cat, it possessed nine lives ; for it is now as strong and full of life as could be expected. A Methodist society was organized on the State road as early, perhaps, as 1825. This, however is not known with certainty. In after years it became well known, and was well attended. But little could be ascertained concerning this church. Religious services have been held from time to time in the schoolhouses in and near Boston Village, but no church has been erected and no permanent society organized in that portion of the township.

In March, 1837, a post office was first located at Peninsula. It was secured largely through the influence of H. V. Bronson, one of the most prominent and respected citizens of the place, who was commissioned first Postmaster, an office he retained until 1845, when Billings Chaffee succeeded him. The post office at Boston Village was secured as early as 1830, mainly through the instrumentality of William Mather. One was secured at "Johnnycake" a few years later.

CHAPTER XXII.*

SPRINGFIELD TOWNSHIP—ITS PHYSICAL FEATURES—EARLY SETTLEMENT—MINERAL WEALTH—
POTTER'S CLAY—VILLAGES—CHURCHES AND SCHOOLS—INCIDENTS.

THREE-QUARTERS of a century ago, this division of Summit County was a wilderness, undisturbed by the enterprise of the Anglo-Saxon race. But with the year 1807 the history of Springfield actually begins. The influx of population that commenced with the dawn of that year, ceased not until all the vacant land was occupied. The early settlers of Springfield Township, forgetful of their own ease, at a time when years of toil could reasonably have demanded repose for their declining days, they braved the difficulties of the unknown wilderness, that their children might achieve that wealth and greatness their faith pictured in the future. The broad lands, rich and fertile, the thousand homes, adorned with the comforts and luxuries of an advanced civilization, the vast resources of mineral wealth that abound, not only in this township

but throughout this section of country, are among the memorials that attest the wisdom of their choice. The inducements which invited the immigration of the pioneers of Springfield was all that the most exacting could demand, or that Nature in her pleasantest mood could offer. Fine forests, streams of flowing water, productive lands, and, as afterward discovered, vast stores of mineral wealth. Such advantages as these were not to be overlooked in the selection of homes.

Springfield is situated in the east tier of townships, and but one from the southeast corner of the county. It intrudes its northwest corner into the city of Akron, and is bounded on the north by Tallmadge Township ; on the east by Suffield Township, in Portage County ; on the south by Green Township ; on the west by Coventry Township, and is designated as Township 1, Range 10. The south line of Spring-

* Contributed by W. H. Perrin.

field is on the southern boundary of the Western Reserve—the forty-first parallel of latitude. This causes a slight jog in the east line of the county, as the townships south of the Reserve are of a different survey. The surface of the township is rolling; but not sufficiently so to be termed broken, with one or two small exceptions. It is drained mainly through the little Cuyahoga River, in the north part, and the Tuscarawas in the south part and their tributaries, together with a number of little lakelets in different parts of the township. The largest of the latter is Springfield Lake, in the geographical center of the township, and is about a mile in length and half a mile in width. Of this little lake, Gen. Bierce says: "A company at Middlebury, a few years ago (1854), got a special act of the Legislature authorizing them to raise Springfield Lake six feet, and lower it four, from its natural level. This rise and fall affords a sufficient supply, on which to draw when other sources fail. The right is now owned by the mill-owners of Akron." The soil of Springfield is a rich, sandy loam, and well adapted to wheat growing, although other small grain, as well as corn, are produced in more or less abundance. Stock-raising also receives some attention, but is not made a specialty by the farming community. The timber consists of the kinds common in this section viz., beech, maple, ash, elm, poplar, hickory, white oak, walnut, etc. Coal-mining was rather extensive at one time. This, however, with the potter's clay industries, will again be referred to in this chapter. An extensive cranberry marsh was in Springfield in early times, near Springfield Lake, and embraced some 200 acres; but this has been cleared up, thoroughly drained, and is now as productive corn land as there is in the township. "Springfield was an equalizing township, and was surveyed by Simon Perkins in the summer of 1806. He first ran a north-and-south line through the center, the east half of which was set to Town 4, Range 8, to make that equal with the average. A strip off the west side was attached to Shalersville. It was drawn and belonged to Mr. Shaler, of Middletown, Conn., father of Judge Shaler, of Pittsburgh."* Shaler sold the east half to Messrs. Olds, Collar and More, of what is now Mahoning County, and the strip off the west side to Henry and Charles Chittenden.

* Gen. Bierce.

The first permanent settlement in Springfield Township was made by one Ariel Bradley, in 1807, on Lot 12, of the "Shaler Tract," where he died years ago. His family are all gone from the neighborhood, though, we believe, his youngest son is yet living in Lucas County, Ohio. Gen. Bierce gives the following interesting sketch of Mr. Bradley: "He was born in Salisbury, Conn., in 1767. Naturally of a strong, discriminating mind, he was employed, with success, when a boy, in scenes and business which would have appalled older and more experienced heads. Just before the battle of White Plains, in 1776, young Bradley, being then only nine years old, was employed by Gen. Washington to enter the British camp as a spy. He took an old horse, and, putting a load of grain on his back, got astride of it himself, and boldly passed within the British lines under pretense of going to mill. He was arrested, as he expected to be, and taken to the British camp for examination. Here, without exhibiting any unusual curiosity, he observed all that was going on. A long consultation was held by the officers, as to what should be done with him; but young Bradley acted the '*Johnny Raw*' so completely that they finally dismissed him, thinking him more fool than spy. As he was leaving, one of the officers remarked, 'I believe the little devil will betray us.' The mill-boy made his way back to the American camp, with the desired information. In 1801, in company with Belden and Simeon Crane, he removed to Canfield, Mahoning County. They left Salisbury on the 14th of June, 1801, and arrived in Canfield in August following. He remained in Canfield until 1805, when he removed to Suffield Township, in Portage County, and settled on what is known as the old Kent farm; and, in 1807, settled in Springfield, in what is now Mogadore. When he first came to Canfield, but little could be obtained, north-west of the Ohio River, to alleviate hunger, except by the chase. Wheat and flour were brought on pack-horses from Georgetown, on the Ohio; and salt was an unknown article. In 1802, Bradley went to Georgetown for bread-stuff; but was unable to get a pound of flour or meal. A man there had raised a little wheat, and Bradley got the privilege of pounding out some, with which he started home through the woods. On his way back, and, when about thirteen miles south of Canfield, his horse was

taken sick, and he was compelled to camp out in the woods. He hitched his horse, and, for his own security, climbed a tree. Soon after dark, the wolves surrounded him, determined to have him or his horse; but Bradley was not disposed to surrender either, and, descending from the tree, he procured a good club, with which he stood sentry over his horse and cargo of wheat. As the wolves would come near him, he would strike at them, and they would retreat. Near morning, one more brave than the rest, came so near that he hit him over the head. The fellow sounded a retreat, and the rest followed with tremendous yells.

The same year that saw Bradley settle in Springfield witnessed the coming of Benjamin Baldwin, Nathan More and Reuben Tupper, all of whom were originally from Salisbury, Conn., the native place of Bradley. Baldwin settled just across the town line, west from the Kent farm, where he died in 1847. More and Tupper also died in the township. John and James Hall, brothers, came from Pennsylvania in 1807, and were the next settlers in Springfield; John was about eighteen years old and his brother was still younger, and they remained alone in the wilderness the first year. Their cabin was built near a spring half a mile east of the Presbyterian Church of North Springfield, and, at the time, there was not a road to or from it in any direction. As Indians were plenty, they dare not sleep in the house, but, at night, would make up a fire in the house and then take their guns and go into a corn-field to sleep, stationing themselves so that they could see any one entering the door. In this manner they passed the first summer and fall. John, the elder of these two brothers, died in Marion County, and James went to Huron County. John Hall, a lawyer in Akron, is a son of John Hall referred to above. Robert Hall, also from Pennsylvania, came next and settled on the place now owned by Peter Lepper. He died in the summer of 1808, from the bursting of a blood-vessel, and was the first death in the township. He was buried in the cemetery northeast of Middlebury.

The old Keystone State contributed the following Pennsylvania Dutchmen to the settlement of Springfield Township: Rev. Thomas Beer, Thomas Metlin, John Vallandigham, James McKnight, Samuel Wood, Capt. William Foster, Abraham DeHaven, Francis Irvin, Dea-

con Ewert, Joseph Scott, Jacob Winters, Samuel Hinson, James Wertz, the Bairds, Judge Robert Clark, George McGrew, Patrick and Archie Christy, the Smiths, Deacon McWright, the Ellets, Robert Smith, — Henderson, James McCormic, and perhaps others. Mr. Beer was a Presbyterian preacher of the strictest old-school principles; he moved away and is dead. Metlin settled in 1814, and moved into Norton Township, where he died. Vallandigham settled in 1811-12, and moved to Holmes County and died there. He was an uncle to Hon. Clement L. Vallandigham, who, when a boy, used to visit his uncle in Springfield, and is well remembered by many of the older residents of the neighborhood. McKnight was a brother-in-law of John Vallandigham, and came in 1814, moved to Stark County and died. Wood was the father of John B. Wood, of Akron; came in early, and died many years ago. Capt. Foster was a brother-in-law of Wood, and died in the township at the age of eighty-seven years. DeHaven came in 1809, and died many years ago. Mrs. Clark, of Akron, is a daughter of his. Irvin and DeHaven were brothers-in-law. Deacon Ewert came about 1809-10, and died on the place of his original settlement, at an advanced age. Joseph Scott settled in 1811; died about 1830, while making a visit to Pennsylvania; he was brought home and buried by the side of his wife in the Kent burying-ground. David Scott, of Akron, is his son. Winters came with Wood and Metlin, and was from the same place; he died in Richland County. Hinson came in early; he met with a melancholy accident which resulted in his death; returning from Middlebury one evening, his horse ran away with him and threw him with such violence that he died in a few hours from the effects of the fall. Wertz died on the place of his settlement many years ago. The Bairds were a large family, of whom Joseph, James George and Robert were brothers, and came in about 1809 or thereabouts. Judge Clark also came in 1809, and was one of the first Justices of the Peace in the township, and one of the first Surveyors in Portage County; he was also Associate Judge of Portage County. McGrew came in 1809-10, and died in the neighborhood as did also his wife. The Christys were early settlers; Patrick died in Akron and Archie moved back to Pennsylvania. The Smiths, as they are everywhere, were a large family, and

came in about 1811 ; there were Thomas, Jacob, George, James and Caleb, who were all brothers. Thomas fitted out a flat-boat at Massillon, loaded it, and started for the Crescent City via the Tuscarawas and Muskingum Rivers, to the Ohio. He arrived safely at Natchez, Miss., with his boat, but was there taken sick and died. Dr. Smith, of Akron, is his son. Jacob Smith was a hatter, and used to follow his trade in Springfield.

Deacon McWright came in about 1809-10, and was one of the original members of the Presbyterian Church. The Ellets were early settlers, and comprise quite a large family. The old gentleman of all was a Revolutionary soldier. A Mr. Henderson was an early settler in the extreme south part of the township. Robert Smith, another family of those mentioned above, came in shortly after Bradley and cleared up the first farm in Springfield. McCormic also came the same year, and settled in the corner of the township. It will thus be seen that Springfield was settled originally mostly from Pennsylvania.

Peter Norton, who came in quite early, was from Connecticut, and came to Trumbull County, Ohio, at an early day. In 1809, he moved over into Tallmadge, and, four years later, came to Springfield and settled in the woods. He died there in 1822. Two sons are still living—Lester, now eighty-three years of age, and "Tommy," as everybody calls him, who is seventy-five years of age. George Carroll settled near Springfield Lake. It is not known where he came from, but it is supposed he was from Germany, as he could speak very little English when he first moved in. He lived and died upon the place of his settlement. John Weston ranks among the early settlers of Springfield. He was considered well off at that early period, because when he came he had a wagon and two yoke of oxen. He stopped with Norton until he got a cabin put up to go in. A son, Francis Weston, is still living on the old homestead, an old man now himself, and nearly ninety years old. The old gentleman was a Revolutionary soldier, and died at the age of eighty-three. Henry and Charles Chittenden, mentioned as having bought the west side of the township, came from the East (probably from Connecticut) and were early settlers. Peter Rodenbaugh came in about 1815, and Capt. Fulkerson in 1820. Many others settled with-

in the next few years, and soon there was no vacant land left in the township.

At the time of the organization of Springfield as a township, it was a part of Trumbull County, as the first records are headed, "At a meeting held in the township of Springfield, county of Trumbull and State of Ohio." It then embraced, besides its present territory, Randolph and Sutfield, in Portage County, and Tallmadge, Portage and Coventry, in Summit. At the election held on the day of organization, Josiah Ward, of Randolph, was one of the Judges ; John Foster, of Mantua, Clerk ; John Goss (of Randolph), Benjamin Baldwin (of Springfield) and Stephen Upton (of Tallmadge), Trustees. The following is a transcript of the township records, and shows their mode of doing business : "At a meeting of the Trustees, on the first Monday in March, in the year of our Lord 1810, they settled with all and balanced accounts ; Supervisor James McCormic, excepted. Found due from him, \$2.40, for which said James gave his note, payable in labor on some county road in Springfield, on or before the 1st day of April next, at the rate of 62½ cents per day." On the 13th day of March, Benjamin Baldwin was sworn in as a Justice of the Peace, being the first Justice elected in the township. Robert Baird was probably the next Justice of the Peace in Springfield ; Austin Weston was an early Justice of the Peace, also, in this township.

Springfield Township affords some fine mill sites along the Little Cuyahoga and Tuscarawas Rivers, which run through the township, and upon the outlet of Springfield Lake. One branch of the Little Cuyahoga has its source in this lake, and the other in Sutfield Lake which makes the flood of water very uniform. As an example of the fine water-power, the water in the race opposite the Empire House in Akron, is 172 feet below the level of Springfield Lake, and the latter is nearly 700 feet above the level of Lake Erie. The following incident is related of this beautiful little sheet of water : "In the spring of the year, just before the breaking up of the ice on Springfield Lake, there is often heard a curious, moaning sound that is audible, at times, for miles. The first time it was noticed was in 1813, by James McKnight, while out hunting. He supposed it to be some huge animal, and started with his gun and little boy in pursuit. The sound ap-

peared to be near the outlet, at the northeast part of the lake. In crossing the lake on the ice, when near the deepest part, it being very dark, he stepped into an 'air-hole' and went entirely under; but holding on to his rifle, which reached across the hole, he drew himself out by it and thus saved himself. The longest cords that have been tried, or that can be procured, cannot sound the lake in its deepest parts." But to return to the water-power. One of the first mills in Springfield was built by James Brewster, the father of Alexander Brewster, in the extreme south part of the town, and is now known as the Fritts Mill. The next one, perhaps, was McCormie's, at Mogadore. Clinton also built a mill very early, but it has long since passed away, and another, known as "Gilechrist's Mill," has been built in its place. DeHaven built a mill in 1830, on the Massillon road not far from the "White Grocery," on the outlet of Springfield Lake. Another of the early mills was built on the Tusecarawas in the south part of the township. There were mills built in Middlebury very early which were well patronized by the people of Springfield.

Springfield Township is intersected by the Valley Railroad, which enters at the northwest corner and passes out near the center of the south line. While there is no station in the township, it is of great benefit to the people, as Middlebury is within easy reach and has good roads leading to it from all parts of Springfield.

There are several hamlets laid down on the map of Springfield, but none of them amount to much in the way of towns. Indeed, they have not even arrived at the dignity of villages. This, perhaps, arises from the fact that other villages and trade-centers sprang up, leaving but little or no necessity for villages in the township. Middlebury, a portion of which is in Springfield, was, at one time, the most important place in Summit County. It commanded the entire trade on this side of the county, far beyond the present county limits. The nearest approach to a village in Springfield, outside of Middlebury, is Mogadore, on the east line of the township, and about as much in Portage County as in Summit. It consists of a few dozen or so of houses, a store or two, shops, several potteries and a couple of churches, and, as we said, is on both sides of

the county line. The Disciples and Methodists have churches in the village, though we believe the Methodist Church is over in Portage County. The Disciples' Church has been there for a number of years. Alexander Campbell, himself, was the first to preach that particular doctrine at Mogadore, and established the church, which has ever since continued. One of the first merchants was Henry Sawyer, who had a small store there many years ago. Several others have had stores since, and Robert Atchison has one there at the present time. Thomaston is a coal mining place, and consists of a few straggling houses and a post office. It is on the line and mostly in Coventry Township, and is too near the city of Akron to ever amount to anything of a town. North Springfield, or North Center, is another small collection of houses, sometimes honored by the name of village. It is situated just north of Springfield Lake, and is known as the township center, because Springfield Lake occupies the geographical center, and the only means by which the official center of the township could have been placed in the geographical center, would have been to have it like the city of Mexico, in the midst of a lake. And, in this case, the danger would be that, as the lake is said to be bottomless, the town house might have gone down to China, sometime in the midst of an important township meeting. There is no store at North Center or Springfield, but the place consists of a few houses only, the town house, a pottery and the Presbyterian Church. Milheim is a hamlet in the south part of the town, and as regards population and importance, is on a par with North Center and Thomaston.

One of the first coal mines opened in Summit County was opened in Springfield Township, by Abram DeHaven, in 1808. It cropped out on his land, and was accidentally discovered by him. He mined it there for years, and the coal was hauled away in wagons. About 1842, Philpot leased the mines and built a horse railroad to them, and thus facilitated the work. These are the only mines that have ever been worked to any extent in the township. A small one is owned by L. Sumner, but has not been worked very extensively.

The clay used in the various potteries is of far more importance in Springfield Township than coal mining. There is an almost endless number of potteries in the township, turning

out annually, it is estimated, not far short of 1,000,000 gallons of manufactured stoneware. As the clay is inexhaustible, this is an industry destined to cut a large figure in the history of Springfield. Says Gen. Bierce: "Immense amounts of the clay are carried to other States, and even to Canada. In fixing a tariff of duties for Canada, John Bull laid a heavy duty on stoneware manufactured in the States, but not on clay. The enterprising Yankees came it over him by carrying the clay to Canada and manufacturing it there." The first of this clay discovered in Springfield was by Fisk, about 1828, who manufactured the first stoneware in Springfield, under the firm of Fisk & Smith. Mr. Fisk discovered the clay on a four-acre lot, owned by a man named Cutchel. Fisk & Smith bought it of him and started a pottery. Since then, almost hundreds of potteries have been established, and the amount of stoneware, sewer-pipe, drain-tile, etc., etc., made each year, is simply immense, and must be passed with this brief notice.

The Presbyterians organized the first church in Springfield as early almost as any settlements were made. Rev. Thomas Beer was the first preacher, and was of the most unadulterated old school, believing in all the strict tenets of that strict sect. As an old gentleman informed us, he "believed in fore-ordination, predestination and infant damnation." A church was built by them at North Center about the year 1812. This building was burned and another erected, which lasted some time, when the present one was erected. The last one is said to have been built in 1828, and hence is a rather old church building. Rev. Beer was the first Pastor, and was followed some years later by Rev. Benjamin Penn. Other early ministers, who preached in this old church, were Revs. Lathrop, Merriman, Hanford, Sheldon, etc. The membership has decreased within the last decade by death and removals, but the church is still prosperous. A Methodist Church was built at North Center about the year 1831, but it did not last long, and was finally torn down and moved away.

A post office was established in the southeast corner of the township about the year 1818, with Benjamin Baldwin as Postmaster. He was a Whig in politics, but kept the office for many years through Democratic administrations as well as Whig. Samuel Ellet was

the next Postmaster in Springfield, and kept the office at his residence on the Canton road, about ten miles from Middlebury. It was established in 1835. The first white child born in Springfield Township was Jane Hall, a daughter of Robert Hall, born in 1809, who, when grown, was married, and removed to Indiana. The first marriage was John Hall, a son of Robert Hall, to Margaret Blair. The marriage took place in 1810, and afterward they removed to Huron County, where they both died. The first death recorded in the township was Robert Hall, in 1808, who died from the effects of bursting of a blood-vessel, and was buried in the cemetery northeast of Middlebury. Samuel Hinson was another of the early deaths, and died from the effects of a fall from his horse, which ran away with him.

The first school taught in Springfield was in a little log cabin, which stood near Cass' camping ground. It was taught in the winter of 1812, by Reuben Upson, and was on the subscription and "board-around" plan. Here, in this little log structure,

"skilled to rule,
Master Upson taught his little school:
A man severe he was, and stern to view,"

as every truant and culprit soon learned to know to their sorrow. The next school was taught by a Mr. Briggs, in the Vallandigham Schoolhouse. This was followed by one taught by Jesse Hall, which was in what was known as the Virginia Schoolhouse. Austin Weston was the next teacher, and wielded the ferule in the Sheep Schoolhouse. This schoolhouse was called after a family who settled in the neighborhood very early, named Sheep. They finally grew tired of being considered *sheepish*, and had their names changed by legislative act to Morton, a cognomen that their neighbors soon perverted into *Mutton*. Benjamin Meachem followed Weston as the next teacher, and taught in the McGrew Schoolhouse; next came William L. Clark, whose widow has died in Akron since this work (1881) has been in the course of preparation. He was followed by Robert Baird, who taught in the Metlin Schoolhouse; and Baird was followed by Henry Westfall, who taught in the Dunbar Schoolhouse. Samuel Ellet next taught in the Ellet Schoolhouse, and after him P. C. McDonald, in the Roden-

baugh Schoolhouse. This comprises the early schools of Springfield, and brings the educational history of the township down within the period of the free school system. Springfield now has some six schoolhouses, all of which are good, comfortable brick buildings, well furnished and appointed, in which schools are taught by competent teachers during the requisite terms each year.

For years after the first white people settled in Springfield, their highways of travel were blazed paths through the forest. The first road laid out was that leading from Canton to Middlebury, known as the "Canton and Middlebury road." The next, perhaps, was the Middlebury and Kendall road. These were followed by others, mostly centering in Middlebury, then a place of much importance. The first mails were brought to the post office at Baldwin's, on horseback, along a blazed path through the woods, from Canton to Middlebury and back again. This road afterward became a somewhat noted thoroughfare, and was a stage route between Cleveland and Canton. John C. Hart, of Middlebury, ran a line of stages over this route for a number of years.

Originally, as we have stated, Randolph, Suffolk, Springfield and Tallmadge comprised a single township. This was the case in 1812, and, under the old militia law of that period, all able-bodied men between eighteen and forty-five years of age, were compelled to drill on certain days of each year. The township above-mentioned was a military district, and formed a militia company, of which Bailey Hubbard was Captain; Ariel Bradley Lieutenant, and Aaron Weston, Ensign. Weston was also Ensign of the company of volunteers from this section, under Capt. John Campbell, who were surrendered by Gen. Hull at Detroit, in the opening period of the war of 1812.

When John Bull, in 1812, unchained his hungry lion upon the United States, there was considerable population in this section of Ohio. In Springfield Township there had settled quite a number of families. Gen. Bierce thus tells the war news of that period: "After Hull's surrender, a draft was made, and eight were taken from Springfield—Joseph D. Baird, John Hall, Timothy Holcomb, Alexander Hall, James Baird, Lee Moore, Nathaniel DeHaven, and Martin Willis, who went as a substitute. They belonged to the company commanded by Capt.

Lusk, of Hudson; Lieut. Holcomb, of Hudson, resigned to John Caris, of Rootstown, who was Second Lieutenant; Hiram King, formerly of Middlebury, was Ensign. They belonged to the regiment commanded by Col. Rayen, of Youngstown, in the brigade of Gen. Simon Perkins. Joseph D. Baird, Timothy Holcomb, Nathaniel DeHaven and Lee Moore are yet living.* John Hall died in Huron County, and Alexander Hall died at Camp Huron; James Baird died at La Grange, Ind.; and Martin Willis died on his way home at Tinker's Creek. On the return of the wreck of Hull's army, after his surrender at Detroit, the 'Ohio volunteers,' under Cols. Cass and McArthur, passed through Springfield, and encamped on the banks of the river near the south end of the bridge, at 'Clinton's Mill.' Samuel Ellet, the father of John and Jehu Ellet, who then lived where Jehu Ellet now does, measured off half an acre of green corn and turned it out to the soldiers, who picked and roasted it for their suppers. The following year, Maj. Croghan, when going to the lines with his command, encamped on the same ground. At that time, Dr. Joseph DeWolf, of Ravenna, was the only practicing physician, except Dr. Ashmun, of Hudson, between Cleveland and Canfield. DeWolf being a Democrat and a strong supporter of the war, could do no less than attend on the the sick and wounded soldiers as they were returning from what was worse than sickness, Hull's disgraceful surrender. He rode night and day, performing that unpaid office of humanity. The poor soldiers owe him a debt of gratitude, and his country ought to compensate him. Many a political brawler has received thousands of dollars for far less meritorious service than that performed by Dr. DeWolf in receiving the sick of the 'Ohio volunteers.' Whatever may become of the pecuniary obligation of this Government to him, let not the gratitude be canceled by the statute of limitation.

"After the surrender of Hull, a *press* was made for horses for the use of the Government. David Preston, of Tallmadge, and others, were in the employ of the United States collecting horses in Springfield. The Rev. Mr. Beers, of Springfield, had five horses when the

* The above extract from Gen. Bierce was written in 1854; all of the squad there mentioned have fought their last battle, and are now at rest.—Ed.

kins, of Warren, being at the time agent for the proprietors, had a survey made of Town 2, Range 10, into lots a mile square, making a total of twenty-five lots, No. 1 being at northwest corner of the township. Caleb Palmer made this survey in 1803, and it was on this survey that the Brace Company, Starr and Tallmadge, made the partition of their land in May of the same year. The Brace Company were Jonathan Brace, Roger Newberry, Justin Ely, Elijah White and Enoch Perkins. In this partition the Brace Company received $6,105\frac{6}{100}$ acres lying on the west side of the township. Ephraim Starr received $3,493\frac{71}{100}$ acres, being a strip one mile wide through the center of the township, from the north to the south line, and Lot 24, east of Lot 23, on the south line. Col. Tallmadge received about 5,611 acres, lying on the east side of the township. The first sale of land to individuals was to John and Selah Payne, and Jotham Blakslee, of Kent, Conn., by Ephraim Starr and Hannah, his wife; the deeds were dated June 28, 1805. John Payne and Elizabeth Payne, his wife, conveyed to Col. Benj. Tallmadge 884 acres of land for \$1,026, the deed to which was dated August 19, 1806. These deeds may be found among the land records of Trumbull County.

Rev. David Bacon made a contract July 12, 1806, with Ephraim Starr, and soon after with Col. Tallmadge, also with the Brace Company (for part of their lands), to become their agent for the sale of their lands in Town 2, Range 10. Mr. Bacon established himself with his family in Hudson until ready to commence operations. His first step was a re-survey of the township. Seth I. Ensign was employed to make the survey on a plan devised by Mr. Bacon, which was to survey into great lots or tracts one and a fourth miles square, and the lines running to the four cardinal points of the compass to be roads, and then diagonal roads crossing at the center and terminating at or near the corner of the township. The public square or green of seven and one-half acres as a parade ground for the militia on training days, and on which the meeting house and the academy were to stand, occupied the center of the town. This square was surrounded by the store, the tavern, the mechanics' shops, dwelling houses, etc., and from it eight roads diverged, so that all residents of the townships had a road to come to meeting on the Sabbath Day. This showed

Mr. Bacon's foresight, thus placing every lot or subdivision on a road, which has had a tendency to prevent much contention about roads, that some of the neighboring townships have been subjected to. Mr. Ensign made this survey in November, 1806. His assistants as far as known were Justus Sackett and Salmon Weston, of Warren, Conn., and a man named Singletary. William Prior says: "I carried their provisions to them on a mule from Northampton Mills to their camp. They found the northwest corner of the township, then run east two and a half miles, then south two and a half miles, where they set the center stake, and turned their attention to a camping-place. They chose a spot about a fourth of a mile southwest from the center stake on the bank of the brook." Mr. Weston informed the writer that the camp was between the brook and a bank several feet high. They felled a large basswood tree which stood on the bank, and from it split puncheons with which the sides and top of their 'camp' were formed. This circumstance it was that gave to the little stream the name of Camp Brook. When their camp was finished, they again went to the northwest corner and commenced work. They run a line south one and a fourth miles, then east to town line, then south one and a fourth miles to the center line, then west again. The northwest corner tract was No. 1; the northeast corner tract was No. 4; and the southeast corner tract No. 16. The tracts were subdivided into six lots generally, which was done by Ensign, except Tracts 1 and 4—the latter was surveyed by Elizur Wright in 1817, for Col. Tallmadge.

The land of Tallmadge Township is rolling and somewhat elevated; several points rising to a height of 540 feet above the level of Lake Erie. The summit of Coal Hill (near Daniel Hines'), is 636 feet, and is the highest point of land in the county, with one exception. The highest point is in Richfield Township. The soil is a light loam, and in places, somewhat sandy, but upon the whole, well adapted to grain, and also to grass. The prevailing timber is oak and chestnut, intermixed with which is hickory, elm, ash, white and black walnut, bass, cucumber, with beech and maple on the streams. On many tracts, quite a collection of sugar maples were found, from which quantities of sugar and molasses were manufactured. The drainage of Tallmadge is all into

the Cuyahoga River on the north, and the Little Cuyahoga on the south; the east and west center road being about the divide. The streams are all small. The Little Cuyahoga runs through Springfield near the line, and the Cuyahoga runs near the north line in Stow, making a sharp bend into Tallmadge on the Speng farm. The streams are fed by numerous springs, furnishing water on almost every farm in abundance. The swamps have been mostly reclaimed, so that at the present day, there is in the township but very little land unsuitable for cultivation.

Tallmadge Township was originally bounded on the north by Stow Township, on the east by Brimfield Township (in Portage County), on the south by Springfield Township, and on the west by Portage Township. In 1851, Cuyahoga Falls was set off as a township, and takes from Tallmadge the whole of Tract No. 1, containing 899 acres, and about 100 acres off the north side of Lots 1, 2 and 3, in Tract 5. Then in 1857, Middlebury was set off as an independent township, taking from Tallmadge Lots 3 and 5, containing by Ensign's survey, 299 acres. The productions of the township are the various kinds of grain, grass and fruit. The pursuit of a large majority of the inhabitants has been that of farming in its different branches, no one branch being made a specialty.

The first permanent settlement in Tallmadge Township, from the most reliable testimony, seems to have been made by George Boosinger. He was born in 1777, and, in 1801, his father emigrated to Ohio with his family, and located in Ravenna, in Portage County. George lived there until grown to manhood, when he married Miss Nancy Simcox. He then bought seventy-five acres of land in this township, in Lot 6, Tract 14, of Jotham Blakslee, of Ravenna, and off the west side of the lot. This farm is now (1881) owned by Sherman Pettibone. Boosinger came over and selected a spot on which to build, which was at a fine spring of water, near the south line of the township, and then returned to Ravenna. In March, 1807, he again came over, and brought help with him preparatory to building a house on his new purchase. Those who came over with him were Henry Sapp, Jotham Blakslee, Jr., John McManus, Moses Bradford, Philip Ward, William Price, David Jennings, William Chared, Robert Campbell, Abel Forshey and

Henry Bozor. They assembled on the ground in the morning, cut the logs and raised the house, which was about 16x20 feet in dimensions, made the long shingles, or "shakes" (as they were called), put on the roof, cut out a door and laid down a floor of puncheons. These puncheons were split out of a straight-grained tree, and hewed smooth on one side and laid down upon the sleepers. As they seasoned, they were driven up close together, and made a good substitute for board or plank floors. The doors were also made of puncheons, pinned on to wooden battens or hinges, and often not a nail was used in making them. The windows of the pioneer cabins were quite as primitive as the doors. A place was cut out, across which sticks were put at right angles, and covered with greased paper as a substitute for glass.

His cabin being ready for occupancy, Boosinger left Ravenna the last of March or the first of April, and with his family moved into his new home, thus becoming the original settler of Tallmadge Township. At the semi-centennial of the settlement of the township, Hon. E. N. Sill, in his address on that day, gave to Rev. David Bacon the honor of making the first settlement. This was disputed at the time by several pioneers who were present, and who were familiar with all the circumstances. They were well satisfied of the fact that Boosinger settled in the township in March or April, 1807. These pioneers are now dead, but, in years that are past, the writer has interviewed some of them, and has given that attention to the subject which has confirmed him in the opinion that Boosinger was the first settler. There was no intention on the part of any one to deprive Mr. Boosinger of all the honor that belonged to him, but there was evidently a hasty conclusion of some to give the honor of priority in settlement to Mr. Bacon. Soon after Boosinger's settlement, his wife went back to Ravenna, and, while there, gave birth to twins—a boy and girl. As soon as prudent, she returned to her home in Tallmadge. In a few weeks afterward, the boy sickened and died, and was buried on his father's farm. This was the first death in the township. Mr. Boosinger and his wife were honest, upright and industrious people, and just in their dealings with their fellow-men. He was not in sympathy with Bacon

and his grand scheme for supporting the church by direct taxation, and united with the Presbyterian Church in Springfield, where he and his family attended meeting. Mrs. Boosinger died in Tallmadge, and he married a second time, to a Miss Wolfert. He sold his farm to Pettibone in 1836, and removed to Macoupin County, Ill., where he died in 1862.

To the Rev. David Bacon this township is greatly indebted for its religious and moral standing in the community. His influence induced many others to settle here from towns on the Western Reserve, and to co-operate with him in his plans for building up a state of society of Puritan tendencies. Mr. Bacon was born in Woodstock, Windham Co., Conn., in 1771. In early life he had a strong desire for a college education, but this he was unable to obtain. It did not lessen his desire, however, to preach the Gospel, and to this end he commenced the study of theology with Rev. Levi Hart, D. D., of Preston, New London Co., Conn. He was ordained a minister of the Gospel December 31, 1799, and was married to Miss Alice Parks about the same time, at Lebanon, Conn. He left Hartford on the 8th of August, 1800, under the patronage of the Connecticut Missionary Society, with a view of visiting the Indian tribes bordering on Lake Erie. He sailed from Buffalo September 8, arriving at Detroit on the 11th, and about the middle of December he returned to Connecticut with much valuable information. The next year he came back to Ohio, bringing his wife with him, arriving in safety at Detroit. This place was then but little else than a trading-post of the Indians, and a military point, garrisoned by United States troops. Here Mr. Bacon labored as a missionary among the Indians for some time, and here his eldest child (Rev. Leonard Bacon, D. D., of New Haven, Conn.) was born February 14, 1802. He went from Detroit to Mackinaw, where he labored until the latter part of the summer of 1804, when he left the place, and after a long and dangerous voyage, part of the time in a canoe, he arrived with his family on the soil of the Western Reserve. About the 1st of October, he found a home temporarily at Hudson. He labored on the Reserve as a missionary, but soon became convinced that more good could be accomplished for the Reserve by a township with all the appliances and the accomplishments of

New England civilization as an example. Dr. L. Bacon, in an address delivered June 24, 1857, speaking of his father, says: "Being on the western limits of civilization, he looked about for a vacant township, in which such an experiment might be tried. His prophetic mind saw the capabilities of Township 2, Range 10; its fertile soil, its salubrious air, its beautifully undulating surface, its pure and abundant water, its streams singing in the grand old woods and rich with power for the service of man. He saw the proprietorship of it was in the hands of men who, as his trusting and hopeful nature led him to believe, would enter into his views, and would even be willing to sacrifice something of their possible gains (if need should be) for so great a scheme of public usefulness as that with which his mind was laboring." He went to Connecticut with his family near the close of the year 1804, and, as already stated, secured the agency of the proprietors of most of the land in Tallmadge Township. Being a descendant of the Puritans, and deeply imbued with New England Puritanism, he was thought by many to be visionary. His ideas were of the true Puritan stamp—the church first, and next the school-house. The church was to be Congregational, and no inhabitants were to be admitted into the settlement but those of that denomination, or who were in sympathy with the strictest Puritan principles. As a people and a township we are greatly indebted to Mr. Bacon for laying, as he did, foundations so broad and deep, and embellished with moral, religious and educational principles. Some of the land he was unable to control, and a few persons settled on it that did not agree with Mr. Bacon in all his grand views. The majority of the settlers, however, for the first twenty-five years, were his adherents, and were firm supporters of the Gospel, and of elevating the standard of morality.

In the spring of 1807, Mr. Bacon began to make preparations for moving into Tallmadge. He hired a man named Justin E. Frink, who had just arrived at Hudson from Vermont, to clear a piece of ground for a garden, and on which to build a house. He and Bacon came over and selected a place which was near Starr's west line, and the south line of the township, at a spring of good water, and about a mile west of Boosinger's cabin. Frink cleared off

the ground and cut logs for a house. The house was built, and was of pioneer pattern, with its puncheon floor and door, stick chimney, etc., and when completed the family moved into it. Says Dr. Bacon in the address already quoted from: "I well remember among the dim and scattered reminiscences of early childhood, the pleasant day in the month of July, if I mistake not, when the family made its removal from the center of Hudson, to the new log house that had been prepared for it, in the township which had no other designation than 'No. 2, Range 10.' The father and mother, poor in this world's goods, but rich in faith and in the treasure of God's promises rich in their well-tryed mutual affection, rich in their hopes of usefulness, and of the comfort and competence to be ultimately achieved by their enterprise, rich in the parental joy with which they looked upon the three little ones that were carried in their arms or nestled among their scanty household goods in the slow-moving wagon, were familiar with whatever there is in hardship and peril, and in baffling disappointment, to try the courage of the noblest manhood or the immortal of a true woman's love. The little ones were natives of the wilderness, the youngest a delicate nursling of six months. This child's name was Juliana; was born in Hudson February 25, 1807. The others were born in a far remoter and wilder West than this was even then. These five were the family who, on that day, removed to their new home. I remember the setting out; the halt before the door of good old Deacon Thompson to say farewell; the fording of the Cuyahoga, at Monroe Falls; the slow day's journey of somewhat less than thirteen miles, along a road that had been merely cut, not made, through the unbroken forest; the little clearing where the journey ended; the new log house so long our home, with what seemed to me a stately hill behind it, and with a limpid rivulet winding near the door. And when at night, the first family worship was offered in that lonely cabin, when the father and mother, having read from this Bible (Dr. Bacon holding up to the audience the identical Bible his parents used on that occasion), then commended to their Covenant God, themselves, and their children, and the work which they had that day begun; the prayer that went up from those two saintly souls, breathed the same spirit with the prayer that went of old from the

deck of the Mayflower, or from beneath the wintry sky Plymouth. In the ear of God, it was as, 'The voice of one crying in the wilderness, prepare ye the way of the Lord, make His paths straight.'"

From April, 1807, up to February, 1808, the only persons in Tallmadge were George Boosinger and wife and child; Rev. David Bacon, his wife and three children, and J. E. Frink, a hired man in Mr. Bacon's family, making in all five adults and four children. In 1808, Ephraim Clark, Jr., came in, being the third regular settler in the township. He was a native of Southington, Conn., and, when he was sixteen years of age, his parents removed to Russell, Mass., where he lived until his maturity. He caught the Western fever, and, in 1799, left his home in Massachusetts, his destination being "New Connecticut," his objective point, Town No. 7, Range 7, of the Western Reserve, now known as Burton Township, in Geauga County. Alone and on foot, he traveled the distance, often camping out at night without fire or blanket, but, finally, arrived in safety. He liked the country and settled in Burton Township. Like many others of the pioneers of the times, he was fond of hunting. He once found the carcass of a deer that had been killed by a wolf. Around the carcass he built a pen with an opening and a door, which was set with what trappers and hunters called a figure 4, and thus caught the wolf. He peeled elm bark, made a rope, formed a noose at one end, which he succeeded in putting over the wolf's head, and by this means led it, as one might lead a dog, to Burton Square, where he tied the rope to the sign post of the tavern. Judge Calvin Pease, with an Eastern friend, were present, and the "Eastern friend" proposed to give a gallon of whisky for the privilege of shooting the beast, that he might tell it at home that he had killed a wolf. Clark agreed, and when the whisky was given him, he handed his gun to the man, who performed the great feat of shooting a wild wolf—tied to a tree. Mr. Clark killed many deer, wolves and bears. In 1805, he left Burton and settled in Mesopotamia, where, in 1807, he married a Miss Sperry, and, in 1808, removed to this township. His wife died in 1833, and he, in 1858, at the age of eighty years, having lived on the Reserve fifty-nine years. The next settler in Tallmadge was, probably, Jonathan Sprague,

who came from Connecticut. In 1801, he emigrated to the territory northwest of the Ohio River, crossing over the mountains with his team. He stopped in Canfield where he remained until his removal to this township. He came here to co-operate with Mr. Bacon in his broad and liberal plans, and in him Mr. Bacon found an able and zealous coadjutor. He bought Lot No. 5, in Tract 14, of the Brace Company upon which he lived until his death. He was spoken of as a Puritan of the most approved Puritan style.

Next in the catalogue of early settlers, we may mention Deacon Nathaniel Chapman, Charles Chittenden, William Neal and George Kilbourn, all of whom were from Connecticut originally. Deacon Chapman, with his brother William, made a trip to the Western Reserve in 1800, on a tour of inspection. They stopped at Canfield, and, being pleased with the country, he selected land and made what preparations he could for settling on it, and then leaving his brother he returned to Connecticut. The next year, with an ox team, he started with his family, taking the "south road," as it was called, through Pennsylvania, and over the mountains to Pittsburgh. When within ten miles of Canfield, his wagon sunk into the mud and his team was unable to move it. He was in a rather helpless and forlorn condition; no help near, nor any means visible, by which he might extricate himself from his difficulties. In his trouble, he sat down on a log, the better to contemplate the situation, and while thus engaged, his brother William's dog came to him. He used often to say, that he never, in all his life, met so welcome a friend, for he knew that help was near. His brother soon appeared with a yoke of oxen and assisted him to Canfield with his family, which then consisted of his wife and five children, and his father, Titus Chapman. Mr. Bacon, when he heard of his arrival, visited Canfield, and unfolded to him his plans in Tallmadge. Mr. Chapman at once fell in with the views of Bacon, by whom he was induced to sell out at Canfield and remove to this township. He came here with his family in April, 1808, and settled upon Lot 3 in Tract 14. Being of the strictest Puritan principles, he heartily coincided with Mr. Bacon in the great work he had inaugurated. His daughter Sally was the first bride in Tallmadge; she was married to John Collins on the 7th of

January, 1809, and the ceremony was performed by Joseph Harris, of Randolph, a Justice of the Peace. His father, Titus Chapman, died November 8, 1808, and was the first death of an adult person in the township, the first death being, as already noted, Boosinger's child. Mr. Chapman, Sr., was the first buried in the old Middlebury graveyard. Deacon Chapman was the first Justice of the Peace in the township after its organization. He was an exemplary man, and died November 12, 1834, at the age of sixty-six years. Charles Chittenden removed to Canfield with his family in 1801, where his wife and child died. He afterward married Elma Steele, and, in the early part of 1808, removed into this township. He settled on Lot No. 6, Tract No. 13, which he bought of the Brace Company, and built his cabin at a spring, on the place now owned by the Buckle family. Here the first white child in Tallmadge Township was born in June, 1808, to Mr. and Mrs. Chittenden. She afterward married Isaac Newton, and removed to the far West. Mr. Chittenden was a strong Episcopalian, and not in accord with the Baconian ideas of Puritanism. He sold to Deacon Gillett about the year 1811, and moved over into Springfield Township, where he died in 1833. William Neal came to Ohio in the winter of 1806-07, and it is believed that he settled in this township in the spring of 1808. He bought land of the Brace Company, the north half of Lot No. 4, Tract 13, and lived the remainder of his life in Tallmadge and Coventry. He was a soldier in the Revolutionary war, and died in December, 1842, aged seventy-eight years. George Kilbourn left Connecticut on the 1st day of September, 1801, with ox team, and crossed the mountains to Pittsburgh, and thence to Hudson Township in this county, where he arrived on the sixtieth day of his journey. He was a tanner and shoemaker by trade, and had been in business in Farmington, where he had been quite successful before coming West. In 1805, he removed to Newburg, where he worked at tanning and shoemaking. In the spring of 1808, he came to this township and settled on Lots 8 and 9, in Tract 10, and also bought at same time Lots 1 and 6 in Tract 11. He and his sons carried on the farm and tanning business on Camp Brook. This was the first tannery in the township. He built a frame barn in 1811, and a frame dwell-

ing in 1815. In 1817, he sold to Aaron Hine, and bought the farm of Capt. Heman Oviatt, in Hudson Township, where he died March 15, 1866, aged ninety-six years. His wife had died in 1859, aged eighty-seven years. They had traveled together over life's rugged road for sixty-eight years.

To this period in the history of Tallmadge it had been known and designated as Town 2, Range 10, and as yet had no other name. There is, however, some traditions, borne out by more or less evidence, that the settlers met at the house of Mr. Bacon in June, 1808, for the special purpose of selecting a name. Mr. Bacon expressed a desire to have it called for Col. Tallmadge, one of the original proprietors of the land, a proposition that was agreed to. It is not known whether all the settlers were present at this christening of the township; the following, however, were holders of land at that time: Rev. David Bacon, Ephraim Clark, Jr., George Boosinger, Jonathan Sprague, Nathaniel Chapman, George Kilbourn, Charles Chittenden, William Neal and Capt. Joseph Hart. The latter was the first settler in Middlebury, now the Sixth Ward of Akron. Justin E. Friuk, a single man, and another single man named Bradley, were in the town at the time. At the close of the year 1808, in addition to those named above, the following had moved in, viz.: Aaron Norton, Dr. Amos C. Wright, Moses Bradford from Ravenna, Thomas Dunlap, from Pennsylvania, and Eli Hill, from Virginia. These were all men of families, except Hill. The following births had occurred in the township since the first settlement: Cornelia, daughter of Charles Chittenden; Eliza, daughter of Capt. Hart, and who was the first born in Middlebury; Eliza, daughter of George Kilbourn; Amos, son of Dr. Wright, and the first male child born, not only in Tallmadge, but in the county; and Alice, daughter of Mr. Bacon, making a total, perhaps, of seventy souls in the township.

Dr. Amos C. Wright was from Connecticut, and settled in Tallmadge in the latter part of the year 1808. He settled originally in Smithfield, now Vernon, in 1802, but the influence of Mr. Bacon brought him to this township, where he became an active participant in everything calculated to promote the interests of the community. He died May 19, 1845, at the age of sixty-five years. In February, 1809, the first

additions for the year was made to the settlement, in the persons of Edmond Strong and John Wright, Jr., natives of Connecticut. They left Morgan, where they had previously located, in sleds drawn by oxen, and by this mode of travel brought their families to this township. They came by way of Cleveland, and were three days in coming from Gleason's Mills, in Bedford, in Cuyahoga County, to Tallmadge. Strong settled on Lot No. 3, Tract No. 6, and was the first settler north of the east and west center road. Wright settled on the south half of Lot No. 10, Tract 10, where he lived until his death, in 1845. Capt. John Wright, the father of the one just mentioned, emigrated to Ohio with his family in 1802, and came to Tallmadge in the spring of 1809. He was a Revolutionary soldier, and lived here until his death, which took place July 29, 1825, aged eighty-two years. This branch of the Wright family were famous singers and music teachers, and it may be very truthfully said that, from 1808 to the present time, the choir of the Congregational Church of Tallmadge has not been without some representative of the Wright family. Alpha, another son of Capt. Wright, and who was but fourteen years of age when his father came to Ohio in 1802, settled with his father, in 1809, on Lot No. 8, in Tract 11, and continued a resident of the township until his death, in 1856. Jotham Blakslee settled on Lot 4, in Tract 15, in the early part of 1809. His nephew, also named Jotham Blakslee, and who married his daughter, came to the settlement with him. They had originally settled in Portage County, near Ravenna, in 1805, and the marriage of Jotham Blakslee, Jr., to his cousin, was the second marriage ceremony performed in Portage County. During the summer of 1809, he, in company with Gen. Elijah Wadsworth, of Canfield, Selah Payne and a Mr. Stewart, explored Tallmadge Township, and at night struck up camp on Coal Hill. The next morning, they followed the lot lines to the center. Here Gen. Wadsworth said to young Blakslee, "Boy, let us cut a brush-heap here at the center; I shall not live long to tell of it, but you may." Three years later, Blakslee became a resident of the township, and so remained until his death, sixty-one years afterward. He it was that helped Boosinger build his log cabin, the first in the township. He was a blacksmith, and made wrought nails, when

nails were a scarce article, not only in Tallmadge, but on the Reserve. He made the nails used in Dr. A. C. Wright's barn, the first framed barn in the township, and which was built in 1810. He was of strong anti-slavery principles and a devoted Christian. He died in 1870, at the age of eighty years. Conrad Boosinger, father to him who is recorded as the first settler in Tallmadge, settled near his son, in the spring of 1809. He was also a Revolutionary soldier. Both he and his wife died on the place of their settlement, which was on Lot 6, in Tract 14.

Elizur Wright, a wealthy farmer of Connecticut, exchanged his improved farm there for 3,000 acres of land in Tallmadge Township, and, in 1809, came out to see his new possessions. Of Puritan descent, and strong in that faith, he easily became a disciple of Bacon, and adopted his views for the building-up of a church and religious society. He made arrangements to have some land cleared and a house built, and then returned to Connecticut to prepare for removing his family to Ohio. On the 22d of May, 1810, he left his old home in the Nutmeg State for his new one in Tallmadge. His goods were brought in two large wagons, each drawn by two yoke of oxen; the family came in a carriage drawn by two horses, and their route was over the mountains by way of Pittsburgh, arriving at their destination on the 30th of June. A man of wealth, he was a valuable acquisition to the little community; liberal in his support of the church, and all worthy, benevolent objects. Through his immediate influence, David Preston was induced to sell out in Connecticut, and move to Tallmadge. Mr. Preston came in the summer of 1810, and brought with him his wife; Drake Fellows and wife and two children; John S. Preston and wife and two children. Mr. Preston settled on Lot 2, Tract 13. He was a soldier of the Revolution, and died July 11, 1827. Fellows bought the south half of Lot No. 1, in Tract No. 14. William Neal, with that true hospitality characteristic of pioneer life, opened his cabin to Fellows until the latter could build. For the benefit of some of our modern people, we will give the following true description of Mr. Neal's cabin at the time he took in Mr. Fellows and his family: "It was about 18x24 feet; a bed in one corner; a loom in another corner, in the others a table, some chairs, pots,

frying-pan, etc., while Mr. and Mrs. Fellows made their bed on the floor under the loom. This was the way the pioneers roughed it." It is believed that Elizur Wright built the second frame barn in Tallmadge in 1811. It stood west of the residence of Daniel A. Upson, a grandson of Mr. Wright, and was taken down (the barn) a few years ago. This barn was used as a place of worship before there were any churches or schoolhouses built in the township, and, within its walls, the pioneers were assembled together for divine worship, when the news came of Hull's surrender at Detroit. The little band instantly dispersed, and, before nightfall, all the able-bodied men in the settlement were ready to march to the defense of Cleveland. A second dispatch, however, assured them that Cleveland was in no immediate danger. It was also in this barn that Rev. Simeon Woodruff preached his first sermon in Tallmadge, July 25, 1813. Mr. Wright was the senior deacon of the church for thirty years; he died in December, 1845, aged eighty-three years. Samuel McCoy, a native of Ireland, came to the township in 1810, and bought Lot No. 4, in Tract 14; and, the same year, Deacon Salmon Sackett came to Tallmadge to look at the land, with a view of exchanging for some of it his farm in Connecticut. He was well pleased with the country, and, returning home, made a trade with Col. Tallmadge for 648 acres of land, which he took in part payment for his farm. He moved on it in 1811, and arrived on the first Monday in July. In speaking of his first visit to Tallmadge, in after years, Deacon Sackett said: "On my arrival in Tallmadge, I was cordially received by the people after the good old New England fashion. They met for Sabbath worship in Capt. Wright's log house; the inhabitants of the township were mostly there, men, women and children, and we had a good meeting. I found that a majority of the people were from my native county of Litchfield, and among them was Deacon Elizur Wright. It was so much like New England that I felt at home." Of his sons, and sons-in-law, with their families, the party that Deacon Sackett brought to the town numbered seventeen persons, quite a valuable addition to the settlement. He settled on Lot 9, in Tract 11, and died in November, 1846, at the age of eighty-four years. In April, 1811, John Caruthers moved in from Pennsylvania. His

family consisted of his wife and four children, and they settled on 100 acres, which he purchased on the east side of Lot No. 1, in Tract 16. When he arrived, he stopped at the cabin of Thomas Dunlap, who received him in true pioneer style, for both were Pennsylvanians. Mr. Carruthers was of Scotch descent, and Presbyterian to the core. The lives of Mr. and Mrs. Carruthers were spent in Tallmadge, where they were useful members of society. He died in 1853; she in 1836. Luther Chamberlain settled in Tallmadge in June, 1811, and lived to an advanced age. In 1811, Deacon Nathan Gillett and his son Ara, bought out Charles Chittenden, and settled on his place. Mr. Gillett was also a Revolutionary soldier. Hosea Wilcox came from Morgan, and bought out Peter Norton; and, in 1812, Reuben Upson and family came in; also, Jesse Neal, from New York, settled in the township the same year. The following incident is illustrative of the times of which we write: Hosea Wilcox, Edmond Strong and Adam Cowles, early in the spring of 1802, left Connecticut on foot for the Western Reserve. At Genesee River, they overtook Rev. Joseph Badger with a four-horse team, moving with his family and goods. As both parties were bound to the same place, Mr. Badger proposed to them to put their knapsacks in his wagon and travel with him, which they did. Wilcox drove Mr. Badger's team, which is said to have been the first wagon that came through from Buffalo to the Western Reserve. Cowles and Strong went ahead with axes to remove any obstructions that might be in the way. The road had been cut through the year before by Gen. Payne, but had not been used. Strong and Wilcox were both pioneers of Tallmadge.

The time of the pioneer was taken up with his farming operations, or in performing a piece of work for a neighbor to obtain some needed article for the benefit of his family. In early days all able-bodied men, between eighteen and forty-five years of age, were subject to military duty. This was all the holiday the people could afford to enjoy, the 4th of July, perhaps, excepted. The laws of Ohio set apart the first Friday in September for "company training," and "regimental training" the last of the same month. Everybody attended these meetings, even those who had passed beyond the military age of forty-five, and all seemed to enjoy

them. A great source of enjoyment, especially to the young people, was the pioneer "quilting party." A lady would invite her friends to assist her in getting out a quilt. It must be done before night, as parlor, dining-room and kitchen were invariably comprised in one room. In the evening the quilt and its frame gave place to the tea-table, which in turn gave way to social enjoyment, as darkness usually brought in the young men of the neighborhood, when plays, forfeits, etc., were introduced for the entertainment of the young people. Sometimes, and in some particular places, a man would enter the room with a mysterious package under his arm in a green baize bag. The entrance of this important personage was the signal to "clean the deck for action," or in other words, to clear the room of chairs and tables for a dance, as the opening of the green baize bag always produced the fiddle, and to its enlivening music the youngsters would "trip the light fantastic toe," regardless of the rough puncheon floor. A puncheon floor in a log cabin of one room was no obstacle to those who liked to dance a jig or reel to the stirring tune of "Money in Both Pockets," or, "Polly Put the Kettle on," or, "Durang's Hornpipe," or, "The Girl I Left behind Me," or, "The White Cockade," etc. The pleasure and enjoyments of those days, if not so refined as now, were of quite as much interest to the young people. Ye aged pioneers, how was it in the years long ago, when, on horseback, you rode to the log cabin home of her, with whom, perhaps, you have since walked life's rugged journey, and found her dressed in a flannel, linsey-woolsey, or calico dress; and when from the corner of the rail fence, or from a convenient stump, she sprang on the horse behind you and put her arms around you to keep her seat—well! no bad feeling existed then. People, perhaps, were more honest than they are in this fast age. The family supplies of the pioneers were mostly produced by themselves. Meat, bread and a few vegetables were the main staples in the way of provisions. Whisky was very common after 1818, and in a few families previous to that date. The surplus grain was made into whisky and thus it was put into better and more convenient shape to handle. Whisky was almost a legal tender. Previous to the opening of the Erie Canal, goods were hauled from Albany and Buffalo in Conestoga wagons, and from

Philadelphia and Baltimore across the mountains. Of course, this put upon the goods so high a tariff that home manufactures were the main dependence for clothing. But little attention was then devoted to stock-raising, or to the improvement of stock. Horses and cattle were of inferior breed, and hogs even worse if possible. Long and gaunt, with snouts of sufficient length to root a foot deep without getting dirt in their eyes; regular racers and chuck full of fight. Sheep were native breeds, and course of wool, very unlike those we have now. The pioneer farmer worked to a great disadvantage; his teams were oxen, and his plow was what was called the "bull plow," and was made principally of wood, by some farmer, more handy with tools than his neighbors. Crops were not raised and harvested without the severest manual labor.

Coal-mining in Tallmadge has been carried to some extent, but as this branch of industry has been more particularly mentioned in another chapter, we shall say but little on the subject. Coal was discovered at an early day, at or near the southeast corner of the township. There is a tradition that it also was discovered one mile west of the center, by means of a woodchuck, which, in digging its burrow, threw out pieces of coal. Col. Charles Whittlesey says: "Coal was first found at Coal Hill, in 1810. There was an entry made in a ravine north of the east-and-west road, which was owned by Asaph Whittlesey and Samuel Newton. The demand for coal in 1824 was considerable, and no other mine was opened then. About this time, Henry Newberry, of Cuyahoga Falls, discovered coal at the northwest six corners." In later years, coal has been extensively mined in the township, and the deposits by some are supposed to be nearly exhausted. The first attempt at manufacturing in Tallmadge was in 1817. Asaph Whittlesey, in connection with Lair & Norton, built a forge and manufactured bar-iron. The location is still known as the "Old Forge." In 1827, Amos Avery opened a shop for the manufacture of wagons. William C. Oviatt had opened a blacksmith-shop the year before, and in 1836, he and Avery entered into partnership for the manufacture of carriages. This business, under various firms, has been continued to the present time. The manufacture of stoneware is carried on extensively, and sewer-pipe was made by Sperry & Richie

until they were burned out. John A. Carruthers at one time did a large business in the manufacture of sorghum sirup. After carrying on the business for some time, he turned his attention to the making of apple-butter. Barnes Brothers also do a large business in this line. The first tannery was opened on Camp Brook, south of the center, by George Kilbourn, in 1809. He was followed by Anson Ashley, who for several years carried on the business. John Carruthers also did some tanning in the southeast part of the town. The streams of water in Tallmadge were small, and of little force as a water-power, but were utilized to some extent. A saw-mill was built on the Sperry Farm in 1828, but finally failed for lack of water. Another, built in the southeast corner of the township, on the farm of Seth Meacham, failed from the same cause. Two steam saw-mills have for years supplied lumber to the people; one of them is still in operation. A tavern was opened by Aaron Hine in 1819, and was the first public-house in the township. This tavern was south of the center. He was followed in the business by William S. Granger, who kept a tavern on the south side of the public square. He was succeeded by William Kingsbury, Ephraim Shaler and others. A large house was built on the east side of the public square, and has since been opened as a public-house. There has nearly always been a tavern in operation at the center since 1819, the date of the first one opened in the township.

When Tallmadge first became known to the whites, there was a well-defined Indian trail passing through the township in a southeasterly course from Cuyahoga Portage, and crossed the town line a short distance west of the center road. Another trail passed up the south side of the river, through the township, and half a mile from the northeast corner passed into Stow Township, crossed the corner into Franklin, thence near the river to the "Standing Stone," where was the Indian fording-place. One of the first roads in Tallmadge was the north-and-south center road. The petition for it was granted by the County Commissioners of Portage County, soon after its organization as a county in 1808. The signers to the petition for this road were Charles Clinttenden, Ephraim Clark, Jr., Jonathan Sprague, Nathaniel Chapman, Joseph Towsley, Theodore Bradley, William Neal, Justin E. Frink and Joel Gaylord. Upon granting

the petition, George Kilbourn, Nathaniel Chapman and David Bacon were appointed a committee, and Joseph Darrow, Surveyer. About 1824, a State road was laid out from Canton to Cleveland through Tallmadge, on the north-and-south center road. Another State road from Wooster to Mantua, in Portage County, passed through Tallmadge on the northeast and southwest diagonal road, and was laid out about 1827. A second petition for a road, dated February 20, 1809, was for what is now the southeast diagonal road to the center, thence to the east line of Great Lot No. 1, and thence to the most convenient place to build a bridge over the Cuyahoga River, near the north line of the town. Another road was laid out from Hart & Norton's Mill, called the "mill road." It was laid out in 1809-10, and another from Middlebury to Cuyahoga Falls, passing the old Forge and Bettes' Corners. The first mail route was established in 1814, over the road from Cleveland to Canton, the mail passing twice a week. For some years it was carried on horseback; then a hack or stage was put on, and passengers as well as the mail were carried between those points. Some years later, another route was established from Akron to Kent and Ravenna, and returning via Brimfield. Still later a mail route was established from Cuyahoga Falls to Tallmadge, the mail being carried on horseback. The mail for Tallmadge is now received daily by the Pennsylvania, New York & Ohio Railroad. The Atlantic & Great Western—now the New York, Pennsylvania & Ohio Railway—was surveyed through the township and in order to have it pass the center, the people of the township subscribed \$43,000. This road has been of inestimable value to us. The Valley Railroad touches a very small corner of Tallmadge. The railroad history, however, is more fully given in another chapter. The first store was opened in a building which stood in front of the residence of I. P. Sperry, and it is supposed that the firm was Fenn & Howard. They continued in business some time, and were followed by Christopher C. Sturdevant. He erected the building now used as a store. Wiswell & Groff opened a store in this building, but did not remain long, and Eleazer C. Sackett was the next merchant. William A. Hanford clerked for Sackett, and eventually bought half of his interest; then Homer S. Carter bought out Sack-

ett. This firm carried on business until E. V. Carter bought out Hanford, when the firm became H. S. & E. V. Carter. E. V. sold to his partner, who carried on the store until Clement Wright took an interest, and the firm became Carter & Wright. Carter finally withdrew, and Wright still continues the business. A man named Clark opened a store about the year 1835, in the house now the residence of Benjamin D. Wright, which was continued for some two years or more. A post office was established in Tallmadge April 9, 1814, with Asaph Whittlesey as Postmaster, a position he held until his death in 1842. His son, S. H., succeeded him as Postmaster, and he was succeeded by H. S. Carter. During Buchanan's administration, Heman K. Parsons was appointed, who resigned at the beginning of Mr. Lincoln's administration, and H. S. Carter was again appointed, who retained the office until the appointment of Clement Wright, the present Postmaster.

The first church society organized in the township is known as the "First Congregational Church of Tallmadge," and has borne that title for sixty years. Rev. David Bacon preached the first sermon, not only in Tallmadge but in Springfield and Sufield, for the few scattered inhabitants of the three townships would gather on the Sabbath Day, at the cabin of some settler, and Mr. Bacon would officiate as a volunteer missionary to the little congregation. The first meetings were held in his cabin, and afterward barns were used as temples of worship. It is supposed that Rev. Jonathan Leslie was the next preacher to Mr. Bacon. He was a missionary, and sent out in the interest of the missionary society of Connecticut. Rev. Simeon Woodruff was another of the early ministers who proclaimed the word to the pioneers of Tallmadge, and the first regular Pastor of the church. Rev. Jonathan Leslie preached his first sermon on the 20th of January, 1809, and, on the next day, which was Saturday, a number of persons met together for the purpose of forming a "Church of Christ," Mr. Leslie acting as Moderator. The following is the record of the Sabbath meeting, January 22, 1809: "Met according to adjournment. Present, George Kilbourn, Almira his wife; Ephraim Clark, Jr., Amelia his wife; Alice Bacon; Amos C. Wright, Lydia his wife; Hepsibah Chapman and Justin E. Frink. The persons above

named presented themselves to be constituted a Church of Christ. A system of faith was then read, to which they gave their consent. They were then led to the solemn adoption of a covenant, in which they engaged to keep and walk in the ordinances of the Gospel of Christ. They were then declared a Church of Christ, commended to His blessing, and charged solemnly to keep covenant and walk worthy the followers of the Lord Jesus, the head of the church. (Signed) Jonathan Leslie, Moderator." This organization took place in Mr. Bacon's cabin, and, at the same time, the Sacrament of the Lord's Supper was administered for the first time the township. The ordinance of baptism was also administered on four children, viz., Juliana and Alice, daughters of Mr. Bacon; Amos, son of Dr. Amos C. Wright, and Eliza, daughter of George Kilbourn. The last one of the original nine members died in Hudson. This was the venerable George Kilbourn, who died there March 14, 1866, at the age of ninety-six years. The spot whereon Mr. Bacon's house stood and in which this church was organized has been marked, and is looked on as almost sacred. Here it was that the Scriptures were first read in the township, here the first sermon was preached, and here the first church society was organized—almost equal to the spot on which King Solomon's temple stood, which had been "thrice dedicated to the one true and living God." The Congregational Church of Tallmadge is claimed to be the eleventh church organization on the Western Reserve, a fact that is probably beyond dispute. The first is the First Presbyterian, of Youngstown, which was organized in 1800—this following in 1809.

There were some of Mr. Bacon's ideas that were not by any means popular with the mass of the people, and eventually proved impracticable. He found theory was one thing and practice another. One of his cherished ideas was that none should receive land but those who were either members of the Congregational Church or in sympathy with its principles, and \$2 were to be paid on each one hundred acres of land, the sum to go toward the support of the Gospel. This provision was inserted in some of the early contracts and deeds, but never went into general use. The clause was as follows: "Reserving an annuity of \$2 on each and every 100 acres of land sold, to be paid on the 1st day of January of each year

forever, to the committee of the Society of Tallmadge for the support of the Gospel Ministry of the Calvinistic faith, and of the Congregational order of said society forever, with a right and power to distrain for the same in case the same be in arrear. Which annuity we, for divers good considerations, especially for the sum of \$1, received of the society in Tallmadge, in the county of Portage, do for ourselves and our heirs hereby give, grant, sell, assign and transfer the aforesaid annuity of \$2 on each and every 100 acres of land in the said society of Tallmadge, and to their successors forever; to hold and receive the same in trust, for the use and purpose of supporting the ministry aforesaid in said society forever. (Signed) David Bacon." As we have said, this provision did not go into general use. Edmond Strong refused to pay the sum thus levied on his land, and Mr. Bacon commenced a suit against him as a test of the legality of such contracts. Peter Hitchcock, of Burton, since a Member of Congress and Judge of the Supreme Court of Ohio, was Mr. Strong's attorney. Mr. Bacon lost the case, and thus ended the perpetual land tax to support the church in Tallmadge. This suit took place about the year 1811. But, notwithstanding these little difficulties, a majority of the people were Bacon's warm, true friends, and he was held in high estimation in the community. Early in 1812, he made his arrangements to return to Connecticut with his family. The people assembled in the schoolhouse at the four corners on top of the hill, near Jesse Sprague's, to hear his farewell sermon. He chose for his text 2 Tim., iii, 9: "But they shall proceed no further: for their folly shall be manifest unto all men, as theirs also was." From the account given of this sermon by Mr. Blakslee, who was present, Mr. Bacon did not spare the little flock, and was very pointed and emphatic in his remarks to Ephraim Clark, Jr., and Mr. Sprague for the course they had pursued in opposition to his cherished plans. Mr. Bacon died in Hartford, Conn., August 27, 1817, at the early age of forty-six years.

The first regular Pastor of the Congregational Church of Tallmadge was Rev. Simon Woodruff, already alluded to incidentally. He was a native of Litchfield, Conn., and a graduate of Yale College. He studied theology at Andover, and was licensed to preach in 1812. In 1813, he was sent to the Western

Reserve as a missionary, and on the 18th of May of that year he was installed Pastor of the church in Ephraim Clark's barn, a building that is still standing. His pastorate closed September 19, 1823, and he died in Bainbridge, Mich., in August, 1839. The second Pastor was Rev. John Keys, a native of New Hampshire, and a graduate of Dartmouth College. He was installed Pastor of the Tallmadge Church by the Presbytery of Portage September 9, 1824, and continued until April 16, 1832, when his connection ceased. He died in Cuyahoga County in January, 1867. Rev. Jedediah E. Parmelee succeeded Mr. Keys, and began his duties as acting Pastor of the church January 18, 1833. Owing to failing health, he resigned his charge April 14, 1840, and died in New York in June, 1841. Rev. William Magill commenced his duties as Pastor of Tallmadge Church in 1840, and was regularly installed as Pastor August 16, 1841. He remained until 1843, when his connection ceased; he is yet living. Rev. Carlos Smith was the next Pastor, and commenced his ministrations July 25, 1847. By vote of the church he was called to the pastorate, but was never installed as such. He labored as Pastor elect until January 14, 1862, when he received and accepted a call from the Second Congregational Church of Akron. He died in Akron April 22, 1877, at the age of seventy-six years. Rev. Seth W. Segur succeeded Mr. Smith as Pastor of the Tallmadge Church, and commenced his labors on the 8th of June, 1862. He continued until April, 1871, when he tendered his resignation, which was accepted, and, on the 30th of the month (Sabbath), he preached his farewell sermon. He was invited to attend the semi-centennial of the church held September 8, 1875. He came and participated, but was very unwell, and after the services went with Mr. Daniel Hine to his home, where he died on the 24th. He was the first of the Pastors of our church buried in Tallmadge. At this time (1881) there are sleeping in the little graveyard at Tallmadge Center nine ministers of the Gospel, viz.: Rev. Aaron Kinne, Rev. Aaron Kinne Wright, Rev. Fayette D. Matthews, Rev. William Hanford, Rev. Elisha S. Scott, Rev. William Monk, Rev. Benjamin Fenn, Rev. John Seward and Rev. S. W. Segur. The next Pastor of the Tallmadge Church was Rev. Charles

Cutter, who commenced his pastoral duties September 1, 1871, and closed his work with the church May 30, 1875. The present acting Pastor is Rev. William Blackmore Marsh.

The Congregational Church of Tallmadge erected a temple of worship in 1822. It is 56 x 44 feet in dimensions, surmounted by a steeple 100 feet high. The building was raised and inclosed in 1822, but not finished until 1825. On the 8th of September of that year, it was dedicated to divine worship. The exact cost of it is not known, but will probably approximate \$8,000. It was remodeled in 1849, and re-dedicated in 1850. At the time of its first dedication, it was considered the best house of worship on the Western Reserve, and upon research was proven to be the fifth built with a steeple, after the New England fashion. The first of these five was built at Austinburg (now in Ashtabula County) in 1816; the second in Euclid, now known as Collamer, about the year 1817; also in the same year, the old brick meeting-house at Aurora was begun, but was not finished until 1825; the fourth was built in Hudson in 1819. All of these ancient temples have passed away before the march of improvement, but those of Tallmadge and Collamer. The number of communicants of the Tallmadge Church at the present time are 105 males and 169 females. The Sunday school was organized probably about the spring of 1822, although classes had been taught after the manner of Sunday schools previous to that time by Deacon Elizur Wright and others. Previous to 1835, the school would disband at the beginning of winter, and resume work in the spring, but since that time (1835) has continued in active operation throughout the entire year.

The Methodist Episcopal Church is the only religious denomination, aside from the Congregational Church, that has ever been represented in Tallmadge by an organized society. The first introduction of Methodism into the township occurred somewhat as follows: Milo Stone and Jotham Blakslee, not fully agreeing with the Congregational doctrine in every particular, went over to Middlebury to listen to the words of wisdom falling from the lips of Rev. Billings O. Plimpton, at that time preaching on the Canton Circuit of the M. E. Church. Being well pleased with the liberal doctrine promulgated by Rev. Mr. Plimpton, they invited him

to Tallmadge Center to expound the truth in that locality. He accepted the invitation, and preached his first sermon in the schoolhouse, which then stood west of the Center road, nearly in front of the town hall. He continued his labors at intervals, and near the close of the year formed a class at the Center consisting of Jotham Blakslee (class leader), Milo Stone, Sarah B. Stone, his wife, S. H. Lowrey, Anna P. Lowrey, his wife, and Mrs. Martha Stephens. Mr. Plimpton was returned to the Canton Circuit the next year (1826), and Tallmadge Center became one of his regular appointments. At this time it was in the jurisdiction of the Pittsburgh Conference, and so remained until 1837, when it became a part of the Akron Circuit, Ravenna District, and Erie Conference. The first meeting-house was a plain structure, about forty feet square perhaps, costing some \$1,500, and stood about two hundred rods northeast of the public square; built in 1832, and completed and dedicated the next year. The dedicatory services were performed by Presiding Elder Rev. W. B. Mack. It was occupied by the church until 1874, when a lot was purchased on the south side of the square, and the present elegant edifice erected at a cost of \$8,000, and dedicated on the 4th day of April, 1875, by Rev. J. H. Vincent, D. D. The present Pastor is Rev. E. A. Simmons, with a large and flourishing membership. A Sunday school was organized in 1830, which has been continued to the present time. It is a noteworthy fact that these two denominations have always worked together in harmony and love, holding Thanksgiving services alternately at each church, and the ministers frequently exchanging pulpits. The cause of temperance has always had many warm friends and supporters in Tallmadge, though sixty years ago it was not considered derogatory to the character and standing of a family to use spirituous liquors as a beverage. Very many farmers would exchange their grain for whisky, and often would have a barrel of it in their houses. But about 1828-30, many began to abandon the use of it altogether as a beverage, and this feeling has continued to the present day. It is highly creditable to the people of Tallmadge that there has never been but one distillery within the town limits, and this existed but about two years, and was near the northwest six corners.

The church and the schoolhouse were always leading points in the minds of the Puritans of New England, and wherever they went they always carried these principles with them; first, to organize a church, erect a building suitable for holding meetings, and, next, to erect a schoolhouse. Mr. Bacon, in his plan of settlement of the town, was, as we have seen, to provide for the preaching of the Gospel and its support, and also was to provide for common schools and academic instruction. In the survey made by Ensign there was to be at the Center and at each six corners erected district schoolhouses, while at the Center was to be located the academy. On the hill now occupied as a cemetery, where sleep so many of the pioneers of Tallmadge, Mr. Bacon located in his mind the Western Reserve College, the Yale of New Connecticut. The first attempt at a school of which we have any account was in the spring of 1810. A small log building was erected for school purposes at the south four corners. A meeting was called at this place, as the writer was informed by Jotham Blakslee, but two men got into an altercation, and it was broken up without accomplishing anything. But so deeply interested was Mrs. Blakslee in having a school, that she undertook the duty of visiting the settlers upon the subject. She also went to Martin Kent's, in Suffield, and hired a Miss Lucy Foster as a teacher. She came and taught school during the spring and summer of 1810, which was doubtless the first school in Tallmadge. She afterward married Alpha Wright, and spent the remainder of her long and useful life in Tallmadge, and died September 30, 1875, at the ripe age of eighty-five years. It is thought that a schoolhouse was built in the fall of 1810, on the hill at the southwest four corners, and a school kept in it during the winter of 1810-11. A similar house was built at the south four corners, and another in the east part of the township, soon after those already mentioned. The first frame schoolhouse was built on the public square, on the spot now occupied by the Congregational Church. It was commenced in 1814, but not finished until the next year; was 26x36 feet, two stories high, the lower story being occupied by the district school, and the upper story by the academy, and also for religious worship. The academy was opened with Rev. Simeon Woodruff as teacher or Principal, and was suc-

ceeded by Elizur Wright and others. An act incorporating the Tallmadge Academy was passed February 27, 1816. The academy building was burned on the night of January 12, 1820, and a new building erected the same year, especially for the purpose. A separate building was erected for the district school, southeast of the town hall, and it was in this building that the Methodist Episcopal Church was organized. As the population and wealth of the township increased, frame school buildings were erected in other districts, and some have been replaced with handsome and commodious bricks. When the new town hall was built, the people, by subscription, raised a sufficient amount to build the second story for the academy, and for several years competent teachers were employed in this department. But the system of graded schools finally superseded the academy. A special district was formed at the Center June 11, 1870, and a lot was purchased and a building was erected, which was used until it was burned. It was speedily rebuilt, at a cost (building and furniture) of \$4,500. There are four departments, occupying four rooms, with competent teachers.

The Deaf and Dumb School of Tallmadge was an institution that should have a place in the township's history. This project was inaugurated in consequence of there being a family in the neighborhood in which there were three children who were deaf mutes. A meeting was held March 19, 1827, to look into the matter, and a committee, consisting of Rev. John Keys, Deacon Elizur Wright, Dr. Philo Wright, Garney Treat and Alfred Fenn, with power to act and devise means for a

school. They finally adopted a measure for organizing a deaf and dumb school, secured rooms and employed Col. Smith, who had taken a thorough course in the Deaf and Dumb Asylum at Hartford, Conn. The school was opened May 1, 1827, in a room of Alpha Wright's house, one mile south of the Center. Tuition was \$6 per quarter, and the session was for six months. In 1829, the Deaf and Dumb Asylum was established at Columbus, and the school was transferred to it. But Tallmadge claims the honor of establishing the first institution of the kind in the State.

A library was organized in Tallmadge in 1813, and continued in existence for over fifty years. The idea of a public library was brought from New England. It was supported by shares of stock, or memberships, fines, bids, donations, etc., etc., and it continued to increase until it contained over three hundred volumes of standard works. Plays and novels were excluded, and the best of works only allowed. The good accomplished through this means cannot very well be measured.

Perhaps we should not close the history of Tallmadge Township without a brief notice of anti-slavery, a question in which Tallmadge felt the most lively interest. A large number of the people were in sympathy with the anti-slavery movement, and a man who would inform upon or arrest a colored individual under the Fugitive Slave Law would have found Tallmadge a rather warm climate to live in. The cause gained strength gradually, and, when Fort Sumter was fired on, in 1861, Tallmadge was ready for her part in the great battle for humanity and the Union.

CHAPTER XXIV.*

NORTHFIELD TOWNSHIP—OUTLINE OF PHYSICAL FEATURES—RISE, PROGRESS AND DECAY OF INDUSTRIES—IMPORTANT STATISTICS FROM OLD RECORDS—INSTITUTIONS FOR MORAL AND INTELLECTUAL IMPROVEMENT—VILLAGES.

NORTHFIELD was one of the equalizing townships. It was originally called Town 5, Range 11; and the reason of its being classed as one of the equalizing townships will be found elsewhere in this volume. It was included among the few townships which were superior to the average, and each proprietor was anxious to have a portion of it; consequently, it was divided into shares of 160 acres each, and parceled out among the New England proprietors, who, not having seen the land, and believing that, from its stated superiority, it should be retained until time had assured the settlers of its value, refused to sell for a number of years, thus accounting for the tardy appearance of this portion of the county in market. It may also be stated that some of the original proprietors died, leaving their possessions in this township to minor children, thus preventing the disposal of the land until after these children had arrived at their majority. The fact of its being one of the best townships in the Reserve served to prevent its early appearance in market. It will be noted in this connection that, while average townships were not altered or cut up into segments and distributed to others, on the other hand, townships both poorer and better than the average were parceled out as has been described. Northfield was accounted one of the best sections of country in the Reserve, and the various reasons for this view will now be carefully noticed.

Its location was thought at that time to be excellent. Along its entire western border was a river that could be navigated by boats of the largest size, thus favoring the township with easy and constant communication with Lake Erie and all the towns upon its shore. At that time, twice the present volume of water swept down the river, and it was not dreamed in the philosophy of the early settlers, that the quan-

tity would ever be materially decreased, at least to such an extent as to prevent extensive navigation. The valley of the river on the Northfield side was sloping and well drained, giving abundant promise that future years would disclose a soil of unusual fertility and strength. The bluffs bordering the valley, though too abrupt and precipitous to be turned up by the plow in the future, were sufficiently sloping to afford fine pasture land. Back of the hills was as fine a land for the agriculturist as lay beneath the sun. Though sufficiently flat to be too damp for the farmer in early years, it was also sufficiently rolling to promise that, when the heavy woods were removed, and the cheerful light and heat of the sun were permitted to drink up the superficial waters, a soil would be found of excellent adaptability to agricultural purposes. The soil is largely alluvial, and contains an unusual percentage of partially decayed vegetable material, though years have elapsed since it was first brought under cultivation. It contains less clay and more organic remains than almost any other portion of the county; and for this reason, as well as for the fact that there is but little waste land, the township was classed by the examining committee as one of the finest in the entire Reserve.

The river on the west affords the principal source of drainage. It has various small branches, which traverse the township with sufficient fall, in many places, to furnish fine water-power. Of these branches, Brandywine Creek is the main one. This stream flows from near the southeast corner toward the northwest, until the village of Little York is reached, when it is joined by Indian Run, and takes a course toward the southwest, dipping across what was once the township line into Boston, but returning toward the northwest, and finally uniting with the river on Lot 70. Indian Run rises near the northeast corner, and flowing a

*Contributed by W. A. Goodspeed.

trifle west of south, unites with Brandywine Creek at Little York. Much of the northern part is drained by Sangamore Creek, while the western part sends its waters to the river by means of numerous small unnamed streams. There are several valuable stone quarries in Northfield, though from their remoteness from the river, they will not prove as profitable as those from which the stone can be loaded without much expense on the canal boats. A few, however, are found bordering the river; these in time will secure merchant work, though at present, the stone is mostly used at home.

The first settler was Isaac Bacon, a native of Boston, Mass., who, in 1806, purchased 160 acres (Lot 63) in Northfield, and the following year, in April, came with his family to their forest home. No settler lived within six or eight miles; and, as Mr. Bacon was a total stranger, and was uncertain where to go to secure help in rearing his log cabin, he at last concluded to undertake it alone. This was no light undertaking, as the logs were much too heavy to be raised by one man to their elevated positions on the wall. Mr. Bacon was therefore compelled to resort to some skillful process, whereby the needed assistance might be avoided. Large skids were braced against the wall, and then, by means of a long rope, which passed over the half-finished building, a yoke of oxen pulled the heavy logs to the required position. At the end of five days the cabin was raised, and covered with a roof made of bark; the family living, in the meantime, in the wagon, which stood near. With no neighbor nearer than Tinker's Creek for three years, with the privilege of seeing white faces only by traveling many miles, the family of Mr. Bacon lived here isolated and alone. Mrs. Bacon was afterward often heard to remark, that for six months after their arrival she saw the face of no white woman, save the one reflected to her eye when she looked in some clear pool of water. Many incidents of the dangers and privations endured by this family ere the township received other settlers have been gathered; and a few of these, which illustrate the lonely, deserted and dangerous surroundings of the forest will be narrated. At this period, almost every stream of any note which flowed into Cuyahoga River was the site of numerous Indian encampments, which varied in size from one wigwam, which sheltered one

family, to encampments containing several hundreds of the semi-civilized race. A small camp of three wigwams was on Mr. Bacon's farm, and these families continued to camp there at stated seasons for many years, or until they took their final departure for the West. One day when Mrs. Bacon was alone in the cabin, a party of six or seven Indians went to the house, and, after entering without ceremony or invitation, called for whisky. Mrs. Bacon, knowing her helpless condition, and foreseeing difficulty and very likely extreme danger should her visitors become intoxicated, informed them that she had none, and that they had better be going on, as her husband would soon appear. After talking among themselves a few minutes, and carefully and suspiciously eying Mrs. Bacon and the various articles in the room, the Indians finally insisted that she did have whisky, and immediately proceeded to search for it, notwithstanding the energetic and earnest protests of the defenseless woman. A large bottle containing about a gallon of the liquor was soon found, and was quickly passed from hand to hand until all was gone, when the Indians, with many grimaces and threatening looks and gestures, quitted the premises, to the great relief of the apprehensive woman. She had attempted to interfere when the bottle was first discovered, but several of the Indians drew their knives, and circling them in the air as if in the act of scalping, sternly motioned her back. They departed and were seen no more. The Indians were not the only human beings to be feared. Many desperate men, numbers of whom were undoubtedly outlaws, passed through the frontier settlements on the look-out for any game, no matter how dark, that would meet their desires of avarice or selfishness. One day, about noon, a dark-visaged man made his appearance at the cabin when Mr. Bacon was away, and, after learning of the absence of the husband, and asking all sorts of impudent questions, sat down with his fierce eyes fixed on the woman, and on a large dog that lay near the hearth watching, with suspicious glances, every motion of the strange visitor. That the stranger did not relish the presence of the dog was soon evident from his uneasiness. That Mrs. Bacon did not relish the presence of the strange man was also clearly evident. As night approached, the man was informed that he could not be accommodated until morning, and, as several

William S. Crozier

miles intervened until the nearest house was reached, that he would better be going on. He did not seem inclined to go, and to add to the alarm of Mrs. Bacon he asked one of the little boys to turn the grindstone, while he sharpened his knife. He took his place in the cabin, and the woman, with the dog before her, sat down to watch and wait. As midnight approached, the stranger asked why she did not turn out the dog and go to bed. She replied, that the dog was allowed to sleep in the house. He then opened the door and told the animal to go; but the faithful creature, with a fierce growl, refused to move. The man seemed disappointed and sat down, and thus matters stood until morning, when the unwelcome guest departed and was seen no more. The family have ever since thought, that the presence of the dog alone saved Mrs. Bacon from insult or death, or perhaps both.

Wild animals, both fierce and dangerous, were often seen in the vicinity of the cabin. Wolves would approach in the night, attracted by the scent of meat, and howl dismally until the break of dawn. Deer were seen by the hundreds, and often came quite close to the cabin. On one occasion, in broad daylight, a bear came quickly from the woods near the cabin, and, seizing a half-grown hog, carried it bodily off into the woods, where it was partly devoured and left. Mr. Bacon obtained a few sheep at quite an early day, but they were found to be more bother than they were worth. One day a pack of wolves got after them, when they ran into the cabin, and were saved for that time. Mr. Bacon was the only inhabitant until June, 1810, when Jeremiah Cranmer, Mr. Bacon's brother-in-law, arrived, and built a cabin on Lot 72, within half a mile of the cabin of the former. During the excitement occasioned by the war of 1812, Bacon and Cranmer made preparations to take their families and seek the protection of the more populous settlement at Hudson. While the preparations were in progress, an Indian was seen skulking in the woods near, and was told that if he valued his scalp he had better depart without delay. He departed. After they had started, a report reached them that there was no danger, whereupon they returned, though they kept up an anxious watch for several weeks afterward. Mr. Bacon was drafted and ordered to Cleveland, but was soon afterward

discharged and sent home. Here, in November, 1812, he was taken sick and died, and was buried on Tinker's Creek. Prior to this sad event, the Bacon family had, in 1808, lost an infant daughter, her death being the first in the township.

In 1813, Abraham Cranmer appeared and bought the north half of Lot 72. His cabin was built with the assistance of Bacon and Jeremiah Cranmer, and his family made as comfortable as possible. In June of the same year, a young man named Henry Wood, one who was destined to play an important part in the affairs of Northfield, came to the township. While here, he won the affections of Esther, daughter of Jeremiah Cranmer, who accepted his proposal, and they were married September 22, 1813, at the residence of the bride's father. This was the first wedding in Northfield. Henry Wood was in the war of 1812, and in his company were Henry Post, who acted as Orderly Sergeant; Abner Robinson, the poet of Boston, and Jonathan Williams, the latter serving in the capacity of scout. The company went west as far as Sandusky, but did not see any active service. It was Henry Wood who, in passing a small creek in the township, and seeing several small parties of Indians encamped thereon, called it Indian Creek, a name it yet retains in honor of this man, who is yet living at the unusual age of ninety-one years. Mr. Wood often had hogs killed by the bears. It is related by him that on one occasion, he owned one shoat in a lot of sixteen, which ran wild in the forest. Hearing loud squealing one night, he took his rifle and hurried out to ascertain the cause, whereupon he found that his pig had been selected out of the herd, and carried off by a large bear. The squealings at a distance in the dark forest disclosed its fate.

In 1814, George Wallace came to Brandywine, and built a saw-mill. A relative of his named John Menough took charge of the mill, and Mr. Wallace returned to Cleveland, and did not bring his family out until 1818. In 1815, Robert Wallace came on with his family, and built a small log cabin at Brandywine. It is said that this village and the creek of the same name were named by John Menough, after the historical stream in the East, where Gen. Washington fought a severe battle during the Revolution. In March, 1817, Henry Wood,

John Duncan, Maurice Cranmer and a few other families moved into the township. There also came in, prior to 1819, William Cranney, William Mather, Abel Havens, Abner Hunt, Daniel Robertson, Edward Coyne, John Britt and Shubael Austin. The following is taken from the township records :

"At a meeting of the qualified electors of the township of Northfield on the 24th of May, 1819, the following officers were elected for the occasion: John Britt, Moderator; Jeremiah Cranmer and John Duncan, Judges; Orrin Wilcox, Clerk. After the officers had been duly sworn, the following township elections were made: Henry Wood, Clerk; George Wallace, Jeremiah Cranmer and John Duncan, Trustees; William Cranney and William Mather, Overseers of the Poor; Robert Wallace and Maurice Cranmer, Fence Viewers; Watrous Mather, Treasurer; John Duncan, Abel Havens, Daniel Robertson and Abner Hunt, Supervisors of Highways; Edward Coyne and Abraham Cranmer, Constables." Mr. Wood, who is yet living, says that this first election was held at the cabin of William Cranney. He also says that just before the township received its name, the settlers, who had assembled to erect a log house near the cemetery, began to suggest names. Mr. Wood wanted it called "York." Other names were suggested by several parties, among which was "Northfield," by Jeremiah Cranmer. A vote was taken on the various names suggested, and "Northfield" was selected. The following is quoted from the records: "*Poll Book of Northfield, Portage County, Ohio, October 12, 1819*—Jeremiah Cranmer, George Wallace and John Duncan, Judges of Election, and Henry Wood and John Britt, Clerks. Number and names of electors on this day: Abraham Cranmer, Abel Havens, Jeremiah Cranmer, John Duncan, Shubael Austin, George Wallace, John Britt, Henry Wood, Robert Wallace and Edward Coyne—in all ten. Names of persons voted for and for what offices, containing the number of votes cast for each candidate: For Convention, 1; against Convention, 8. For Senator, Almon Ruggles, 7; William Whitmore, 1. For Representative, Samuel King, 10. For County Commissioner, Stephen Woodward, 8; Rial McArthur, 2." The ten electors just mentioned were not all there were in the township, and yet there were but few others. The following officers were

elected April 3, 1820, as shown by the records: Henry Wood, Clerk; John Duncan, Maurice Cranmer and A. Cranmer, Trustees; Amos Richardson and Nathaniel Parsons, Overseers of the Poor; Edward Coyne and Abner Hunt, Fence Viewers; Dorsey Viers, Isaac Lake, A. S. Honey and Robert Richardson, Supervisors of Highways; William Cranney and Robert Mendal, Constables; William Mather, Treasurer. Three weeks later, another election was held for the purpose of electing two Justices of the Peace, resulting as follows: George Wallace and Wm. D. Mather. At this election, there were twenty-six votes polled. The following items, which are deemed worthy of preservation, are taken from the records, which are fast falling into pieces: "State of Ohio, Portage County, Northfield Township: To the Constable of said Township, Greeting: Abraham Cranmer, Constable: You are commanded to warn Huldah Seeley out of said township forthwith, by the order of the Trustees and of the Poor Masters for said township, and to carry her to the Constable of Independence Township, or Newburg, Cuyahoga County, Ohio. Of this writ make legal service and due return. Given under our hands and seals, this 2d day of June, 1819. George Wallace and J. Cranmer, Trustees; W. D. Mather and William Cranney, Jr., Poor Masters. Personally served by me, Abraham Cranmer, Constable." It is told by way of joke in Northfield, that Mr. Cranmer, the Constable, not knowing how to dispose of his charge, Huldah Seeley, finally took her on horseback to Newburg, where he left her, his idea being that the law would be best subserved by removing her as far as possible from the township.

In 1826, there were thirty-nine householders in Northfield, and the following year there were forty-seven, as follows: George Phipps, Abner Hunt, Electa Dewey, Casper Noel, David Bowersmith, William Barkhamer, Widow Lesley, Daniel Croninger, Paul H. Beard, George Hills, Jonathan Pike, Jeremiah Cranmer, William Clifford, A. B. Cranmer, Levi Leach, D. C. Bacon, Henry Hopkins, William Cranney, H. Bump, Dorsey W. Viers, Sally Pritchard, Henry Croninger, Thomas Hills, Shubael Austin, John Wilson, Daniel Stanley, Thomas Appleton, Elizabeth Richardson, John Jones, Maurice Cranmer, A. D. Havens, Abraham Cranmer, Chester Northrup, John Duncan, Thomas McKee, Robert Guy, William Guy, Allen Burroughs, George

McClelland, Erastus Burdick, Robert Wallace, George Wallace, David Dilley, Joshua Post, Nathaniel Holmes, Mr. Townsend and Mary Post.

By this time, the township was almost as well settled and improved as it is at present. But we must go back and trace the growth of industries, etc. As was before stated, George Wallace erected a saw-mill on Brandywine Creek; and this mill, until Lots 19 and 40, of Boston, were attached to Northfield, was in the former township. It was a frame mill, and was located on the creek where an abrupt fall of about ten feet gave an excellent and enduring water-power. It was built in 1814, and, in the following year, a grist-mill was built on the opposite side of the fall. This mill was a three-storied, frame structure, and is yet standing, being in a fair state of preservation. About the same time that the grist-mill was erected, a distillery was built back some distance on the farm, and given in charge of Allen Burris, a practical distiller. It disposed of some twelve bushels of grain daily, and turned out in the same time between thirty and forty gallons of excellent whisky. The old account-books of Mr. Wallace are yet in existence, and reveal that, not only was whisky used by every one, including ministers (and perhaps abstainers), but was used extensively as an article of exchange, serving the purpose almost as well as bank notes. Almost every entry involves the word "whisky." John Menough, who owned a third or a half interest in the grist-mill, was the miller, and operated it for many years. Robert Wallace owned an interest in the saw-mill, and was the sawyer until the mills were given into other hands. The distillery was conducted until about 1830, when it was abandoned. The saw-mill was operated, with several change of owners, until about the year 1851. The grist-mill is yet running. Mr. Wallace built a woolen-factory near the mills in 1821. During the first year of its operation, nothing was attempted, except wool-carding and cloth-dressing; but the following year, and for many years thereafter, the whole process of carding and spinning and weaving and dressing was conducted on an extensive scale, and a fine income realized. This was, perhaps, the most important industry ever in Northampton. At one time, the factory, the grist-mill, the store, the saw-mill and the distillery were all in operation, and, as

these various industries required the assistance of from twelve to twenty employes, the extent and importance of these efforts in the backwoods can be plainly seen. It is stated that, in about 1816, the village of Brandywine rivaled the village of Cleveland. But all has not yet been told. In 1816, Mr. Wallace sent some \$1,600 worth of goods to the village, and placed them in an apartment that had been set off for that purpose in the second story of the grist-mill. James, the son of George Wallace, was placed in the store to dispose of the goods. He had come from Cleveland with the teamster who brought the goods. The wagon moved very slowly through the muddy roads, and, as night was fast coming on when they reached the northern part of the township, the boy James concluded he would hurry ahead, and reach home before the teamster. He was walking on quite rapidly, guided by the obscure markings of the winding road, when suddenly he was startled by a large deer which bounded across the path but a few yards in front of him. Almost at the same instant, he heard a loud crashing in the bushes close by, and a moment later a large, dark animal came swiftly into the path before him. The terrified boy saw that the animal was a large bear, and, though his blood froze in his veins, he determined not to run. But the bear, with scarcely a moment's hesitation, and without paying the slightest attention to the cowering boy, continued its headlong pursuit after the deer. The boy was so terrified that he ran on for several miles, when, reaching the cabin of a settler near Brandywine, he prevailed upon some of the boys to accompany him until he reached the village. It is scarcely necessary to add that the various pursuits thus begun at Brandywine were the means of bringing to the neighborhood numerous families of settlers, and soon the place had all the appearance of a thriving village. In 1825, all that portion of the property owned by George Wallace fell to the ownership of James Wallace, his son, who is yet living, at a hale old age, near Macedonia. A year later, Robert Wallace also secured an interest in the various pursuits, and then the business firm was Wallace Brothers. In 1843, a remarkable flood occurred, which swept the factory away, scattering the debris for miles along the banks, and badly injuring the grist-mill. This, however, was immediately repaired,

but the factory was not rebuilt. After this, the property gradually fell into other hands, and its former usefulness was greatly impaired. The firm of Wallace & Wallace opened a store at the village in about 1844, and carried a stock of some \$2,000 worth of goods for ten or twelve years. This storehouse is now used as a dwelling. In about 1822, George Wallace succeeded in getting a post office established at Brandywine. Mr. Wallace was appointed Postmaster. The village at its best contained some ten or twelve families.

The village of Little York has had a less eventful history. In about 1825, Henry Post built a saw-mill on the site of the village. He did not own the land, but "squatted" there for the purpose of sawing lumber. His mill was operated by water-power, partly by natural facilities and partly by artificial. There was at that point a heavy forest of whitewood, which at that time was greatly in demand for boats on the canal, and for vessels on Lake Erie. The mill was enabled to run some eight months of the year, and, for six years, Mr. Post did an extensive and profitable business. George Leach then got possession of the mill, and, as the dam was a cheap affair and liable to be washed away by the first freshet, a larger and stronger one was built in the same place. This man continued many years, and, at times, did an enormous amount of work, operating two saws, and shipping by canal large quantities of oak, maple and whitewood lumber to Cleveland. In the early history of the village, a blacksmith, a shoemaker, a tanner and a few other tradesmen and mechanics located there. This has been about the extent of the rise and fall of Little York.

The first building at the Center was very likely a schoolhouse, built as early as 1825.* Hezekiah H. Palmer erected the first dwelling. This was a round-log cabin, about thirty feet square, built in 1832, and divided by partitions into bedrooms and sitting-rooms. A year later, George Lillie built the second dwelling, and, soon afterward, Lucien Bliss, the third. All these were rough log cabins, hastily constructed, and, from their external appearance, it was evident that the architect was inferior in point of genius to Michael Angelo, or, perhaps, he thought that the more beautiful products of his skill could and would not be appreciated in the forest. At all

* Narrated to the writer by Ambrose Bliss.

events, the buildings were neither models of architectural beauty and precision, nor equal in point of sumptuousness to Aladdin's palace. However, the families seemed to enjoy life just as well as they whose habitations were superior and more elegant. During the same year, 1833, or perhaps the following spring, Col. Milton Arthur built a storeroom which is now a part of an outhouse belonging to Mr. McConnell. Arthur placed in this storeroom some \$500 worth of goods, consisting of a general assortment that had been purchased at Cleveland. The store did not amount to much, but was an accommodation to those living in the vicinity and was well patronized. A few years later, B. F. Cannon placed a small stock of goods in another building, but, after a short time, sold out to Hosea and Lucien Bliss, who increased the stock somewhat. Soon after the Bliss brothers opened their store, Frank Allen built another building near by, and placed therein a small general assortment. After this, frequent changes were made in the merchants, none of whom remained any great length of time. The village was not a very lively trading-point. Many country stores were located in adjoining townships, and even in Northfield, and storekeepers, with a few fortunate exceptions, were compelled to continue, if at all, upon meager remuneration. However, there have been some good stores in the village. After Frank Allen and the Bliss Brothers, the following merchants have held forth at various times in about the order given: Warner Wallace, Mr. Putnam, Woodman & Howe, James McElroy, Nelson Decker, M. O'Neil, S. K. Alexander, Lyon & Logue and J. G. Alexander, the present merchant. The most of these men kept ordinary country stores, including limited dealings in all the various kinds of country produce. It was usual to accumulate a considerable quantity of the latter, which was then conveyed to some shipping-point and sent off for foreign consumption. Other industries have existed for short periods in the village. Bliss & Taubman (the latter being an experienced tailor), opened a clothing store soon after. Ready-made clothing was kept, and suits of every description were made to order on short notice.

In 1841, O. A. Bishop built a tavern which was thrown open for the entertainment of the public the same year. The building is now used as a combined grocery and post office.

The tavern, which was located on the State road, did a good business until the Cleveland & Pittsburgh Railroad was projected through the township, when it was closed for lack of custom. The first blacksmith in the village was a man named Phillips. Ambrose Bliss was the first carpenter. Dr. Hosea Bliss was the first resident physician. He became well known, and continued to practice his profession until five or six years ago. Dr. Hazleton appeared a number of years later, and soon secured a lucrative practice. George Lillie was the first Postmaster, receiving his commission in about 1836, the office having been removed from Brandywine to the Center. In about the year 1840, George Lillie, Hezekiah Palmer, Lucien Bliss and Col. Arthur, each of whom owned a corner at the cross-roads, threw out half an acre of land each for a public square. This square is yet sacred to the use of the public, and is likely to remain so. The village has not been regularly surveyed and platted, the lots being laid off and sold as calls are made for them. Perhaps the greatest population the village has had at any one time has been about seventy-five.

It is proper at this point to narrate an occurrence which took place in the township at an early day, and which, from its peculiarity, deserves preservation. We quote as follows from Gen. L. V. Bierce: "An Englishman named Rupert Charlesworth, who was boarding with Dorsey Viers in 1826, suddenly and mysteriously disappeared. He was traced to the cabin of Viers on the night of the 23d of July, but on the following morning when a Constable went there to arrest him, he was gone, and no trace of him could be found. On the arrival of the Constable Mrs. Viers was found mopping up the floor. Questions were asked, but Mr. Viers told contradictory stories as to the disappearance of the man, alleging in one instance that he jumped out of the window and ran off and could not be caught, and in another, that he left when Viers was asleep, and the latter knew nothing of his whereabouts. A few days later, some one announced having heard the report of a rifle at Viers' cabin the night of the man's disappearance, and of having seen blood on a pair of bars which led from the cabin to the woods. Years rolled on, and the excitement grew stronger with age, until, on the 8th of January, 1831,

complaint was entered before George Y. Wallace, Justice of the Peace, that Viers had murdered Charlesworth. Viers was arrested, and a trial of eight days followed. Not only were the circumstances above narrated proved, but a hired girl who was working for Viers at the time of the man's disappearance swore that a bed blanket used by Charlesworth was missing from the cabin on the day of his departure, and that it was afterward found concealed under a haystack, with large black spots on it, resembling dried and clotted blood. It was also proved that Charlesworth had a large amount of money, and that Viers was, previous to the disappearance of the man, comparatively poor, but immediately afterward was flush of money. To complete the chain of circumstantial evidence, a human skeleton had been found concealed under a log in the woods, beyond the bars already mentioned. Matters were in this shape when two men from Sandusky unexpectedly appeared and swore that they had seen Charlesworth alive and well after the time of the supposed murder, though when seen he was passing under an assumed name. On this testimony Viers was acquitted, but his acquittal did not change public sentiment as to his guilt. It was generally believed that the witnesses had been induced to perjure themselves. Viers, however, did not let the matter rest at this stage. He began a vigorous and protracted search for the missing man, and continued it with unwavering perseverance. He visited all parts of the Union, and, after a search of years, he one day went into a tavern at Detroit, and in the presence of a large assemblage of men, inquired if any one knew of a man named Charlesworth. All replied no. Just as he was about to leave, a man stepped up to him, and, taking him to one side, inquired if his name was Viers, from Northfield. Viers replied that it was. The stranger then said, 'I am Rupert Charlesworth, but I pass here under an assumed name.' Charlesworth was informed of all that had taken place, and he immediately volunteered to go to Northfield and have the matter cleared up. On their arrival, a meeting of the township was called, and after a thorough investigation it was the unanimous vote, with one exception, that the man alleged to have been murdered now stood alive before them. It appears that he had passed a counterfeit \$10 bill on Deacon Hud-

son, and fearing an arrest he left the cabin of Viers suddenly, and soon afterward went to England, where he remained two years, at the end of which time he returned to the United States under an assumed name, and went into the backwoods of Michigan, where his real name, former residence and history were unknown. The name of the family was thus, almost by accident, cleared of infamy and shame. This remarkable case is rivalled only by the celebrated case of the Bourmes in Vermont."

The following is also quoted from Bierce's history :

"A more tragic affair occurred in Northfield, on the 24th of July, 1837. On the night of that date, some person or persons entered the house of Robert McKisson, a respected citizen of the township, and with an ax struck Mrs. McKisson as she lay on the bed, splitting, or rather hewing, the right side of her head nearly away, and leaving the brain exposed or scattered upon the bedding. Lucinda Croninger, Mrs. McKisson's daughter by a former husband, lying on an adjoining bed, hearing the confusion, raised up and screamed, but was instantly knocked down, senseless, with the ax. An alarm was given by some other member of the family, and the murderer made off. The neighbors collected and obtained from Mrs. McKisson, who, a few hours later, died, the statement that the murder had been committed by her father-in-law, Samuel McKisson. This was the dying declaration of the murdered woman, and the testimony of the daughter at the trial. Samuel McKisson was arrested that night at his own house. Suspicion immediately attached to David McKisson, a brother-in-law of the murdered woman, who had been paying his addresses to the daughter, but who had been refused admission to the house by the mother. He had been lurking around for several days, during which time he had obtained several interviews with Miss Croninger, in one of which they exchanged rings. A few minutes after the murder, a person was heard running past a house toward the canal from the direction of the McKisson cabin. The next morning, at daylight, he was seen on the canal, about three miles from the place, getting a passage to Cleveland. A few days later, he was arrested on the Government works at the mouth of Maumee Bay, with the blood still on his shirt-sleeves. The father and son were in-

dicted for murder by the grand jury in September, 1837, and soon afterward tried. The father was acquitted, but the son was convicted of murder in the first degree, and, on the 9th of February, 1838, was executed at Ravenna."

Abraham Crammer, in 1824, built the first house in Macedonia. It was a hewed-log building, with the usual inconveniences and lack of attractions, and was located in the northeastern part of the village. This house stood until 1854, when it was taken down. Edwin Hutchinson built the second, just above the church, in about 1831. About this time, or soon afterward, George Shattuck and Erastus Beldin also built dwellings at the village. All these buildings were of logs, and some persons have insisted that the three buildings last referred to were probably erected some four years sooner than as stated above. The above, however, is given on the authority of Mrs. (Crammer) Munn, who was living in the village with her father, Abraham Crammer, at the time, and who is probably not mistaken. Several other dwellings were erected soon afterward, and the citizens then began to suspect that a village was springing up around them. A few mechanics and tradesmen appeared, but no stock of goods was brought to the village until 1852, when Odell, Price & Co. placed about \$4,000 worth in a storeroom that had been built by John Odell the year before. This partnership began a brisk business, selling or exchanging their goods to the surrounding country, and shipping farm produce, including eggs, butter and cheese, to Cleveland. The quantity of cheese handled by this firm was remarkable. They began slowly, like cautious and experienced merchants, feeling their way, until at last all hesitancy was thrown aside, and enormous quantities of cheese were purchased and shipped to Cincinnati and other points. The cheese and butter products of sixty dairies were handled by the partnership. Each dairy averaged one cheese of twenty pounds' weight daily, making, in all, 1,200 pounds that were shipped away each day, from the 1st of May until the middle of September. When the number of days are considered, it will be seen that about 175,000 pounds of cheese were shipped from Macedonia each season. During the same period, fifty pounds of butter were received daily from these dairies, and shipped off

with the cheese, making a total of about 7,000 pounds handled per annum. In 1854, this firm was succeeded by Odell & Co., who conducted the same business even more extensively than the former firm. Either goods or money were given for butter and cheese. Two years later, Odell & O'Neil took charge of the business, but, at the end of about eight months, the senior partner bought the junior's interest, and conducted the business alone until July, 1857, when he failed and closed out his stock. Archibald Nesbitt took up the broken threads of this trade in 1858, and conducted a fair business until about the time the last war commenced. After this, for a few years, the store-room was vacant. Michael O'Neil was in for a few months, during the latter part of the war. In 1866, Sage & Hine opened with a small stock, and, a year later, Hine sold his interest to Chamberlain, and, in 1869, Sage also sold to Chamberlain; but, soon afterward, Darling & Drennan took charge of the store, increasing the stock until it was valued at \$5,200, and handling, at the same time, the cheese of two factories. Lewis Lemoin became owner in the spring of 1875, but sold out at the end of a year to J. C. Johnson, who continued until the spring of 1879, when S. M. Ranney & Co. took possession and have continued since. It would seem by the constant change of owners, that the merchants were either novices at their calling, or that the mercantile pursuit in the village was as uncertain as it was unprofitable and unsatisfactory. Probably both of these reasons have contributed to the failures. O'Neil & Wilcox opened a store, with \$800 worth of goods, in 1854, but, soon afterward, O'Neil sold his interest to his partner, who, a year or two later, failed with maledictions on his lips. Marvin Ford sold groceries for a short time about 1865. Lewis Lemoin bought him out, and after continuing eight months, with Palmer as his partner part of the time, sold his share to Mr. Stone, the latter selling to Alton Griswold a year later. In 1870, Palmer sold to Griswold, and, four years later, the latter sold an interest to L. L. Palmer, who, at the end of a year, bought his partner's share, and continued alone until 1878, when the present firm of Munn Brothers assumed ownership. Merchants of Macedonia have surely experienced a checkered career. They spring up from all quarters, like mushrooms from a hot-bed.

L. G. Odell was the first Postmaster, receiving his commission in 1852. Zedick Everest built an ashery in 1844, and continued the manufacture of potash until 1858, turning out a ton a week the year round, the most of the time he conducted the business. When the woolen factory at Brandywine was swept away in 1843, David Armstead and Carl Storrs bought a portion of the machinery, and immediately thereafter erected a fine saw-mill at Macedonia. They owned and operated the mill until 1852, when Alexander Nesbitt bought them out, and four years later a man named Griffith became owner. Stone & Buswell owned and operated it during the war, and did an enormous business. They saved vast quantities of car and wagon lumber from oak, ash, maple and black walnut, which was shipped by rail to Cleveland. They made their fortunes and sold out when the war ended. Since then Woodbury, Lemoin, Barnum and others have owned the mill. Shields & Chapin have owned it since 1872, and are at present doing a large business for the car manufacture at Cleveland. David Armstead built a hotel in 1840. The "Riley House" was built seven years ago.*

It is probable, though not certain, that the first term of school was taught at Brandywine. A log schoolhouse was built there as early as 1817, and a Mr. Stiles was employed to teach the few children then in the village. He kept irregular hours and was paid at the rate of about \$1 per scholar for the term. He taught several terms, prior to 1820, in the same house, which was occupied until about 1830, when a frame schoolhouse was built across the road opposite the old one. This building was used many years, and, though silent and deserted at present, is yet standing, a relic of pioneer times. The old log schoolhouse at Brandywine was well attended from 1820 to 1830. The children within a radius of several miles were sent to it without regard to township lines; for it made little difference whence they came, provided they paid promptly their allotted subscription. Children from up nearly to the center were given their first schooling in this house, while, also, many of those who had attended the Stanford School while the old log schoolhouse was standing there, were sent to Brandywine when it was taken down. Everybody at that time looked upon Brandywine as an unusually prom-

*Given on the authority of Mr. Odell, of Macedonia.

ising village, and for many years it was the center of education, religion and industry. The place was deemed so important, that its being situated partly in Boston and partly in Northfield was regarded as a drawback to its improvement and growth, and the result was that through the influence of the Wallaces and others, two lots were severed from Boston and attached to Northfield. The following action was also taken by the Trustees of the two townships at a joint meeting: "The second school district in the Township of Northfield is this day annexed to the second fractional school district in the Township of Boston, by the Trustees of the said townships, December 1, 1827."

It is thought by several, that the first school in the township was taught in the Bacon neighborhood. It will be remembered that, in 1815, there were several families living there, each of which comprised several children. Henry Wood, whose memory is now slowly failing him on account of age, but who is probably correct, says that school was taught prior to 1817 in a vacated log dwelling known as the Rowley house. If this be true, it was the first in Northfield. A man named King was the first, or one of the first three or four who taught there. In about 1818 or 1819, a log schoolhouse was built within a quarter of a mile of the cemetery which lies half a mile north of the Center. Henry Wood was one of the first teachers in this house. This was used until not far from 1825, when a schoolhouse was built at the Center, and another about two miles northwest of the Center. The following action taken from the records was probably the first relating to the division of the township into school districts: "At a meeting of the Trustees of Northfield on April 12, 1826, for the purpose of dividing the township into school districts, the following division was made: Commencing at the northwest corner of said township, thence south to the center line of said township, thence east along said center line to the road running north and south through the center of said township, thence south along said road to the south line of Lot 7, thence east along said line to the east line of said township, thence north to the northeast corner of said township, thence west to the place of beginning—said district containing twenty-four householders, and to be known as

No. 1. Also, commencing on the east line of said township and running east along the center line to the center road running north and south through said township, thence south along said road to the south line of Lot 47, thence east along said line to the east line of said township, thence south along said line to the north line of Boston, thence west along said line to the Cuyahoga River, thence north to the place of beginning—said district containing fifteen householders, and to be known as No. 2." The following is also quoted from the records: "We, the Directors, Maurice Cranmer and Levi Leach, do agree to have two schools in District No. 1, to the best advantage of the inhabitants, and the public money to be divided to the number of scholars each school affords as one school, April 5, 1828." This division was formally made on the 3d of the following May, the two districts thus formed being designated 1 and 3. Prior to the division of 1826, the township schools had been supported wholly by subscription. The houses had been built by everybody without regard to public or individual expense. The one built at the Center, as previously stated, was used until 1835, when a frame structure was erected to take its place, and was used until two years ago. Robert Smith, afterward School Examiner, taught a select school in the Putnam storeroom after the latter sold out. He taught several terms of excellent school. He also taught in the town hall, which was built in 1848. Rev. Andrews also taught a select school in the Presbyterian Church. Esther Cranmer taught the first school in Macedonia. She went to Hudson for her certificate, and was examined in geography, reading writing, spelling and arithmetic by Lawyers Humphrey and Kirkham. She taught a summer school of four months, and received ten shillings per week, and boarded around. This school was taught in about the year 1833. The old house was soon disused and a new one built, and another has taken the place of the last. There are now seven school districts in Northfield.

There are four churches in the township. For many years prior to 1831, Methodists, Presbyterians, Baptists and Sceders held meetings in dwellings and schoolhouses, yet, so far as known, no society was regularly organized until the year mentioned. From Mrs. Bacon

we learn that the Methodists organized a society on the 21st of July, 1831, with the following members: Abner Hurt, Charles Leader, Caleb Brown (the first minister), Betsey Hurt, Jeremiah Cranmer and wife, David C. Bacon and wife, Daniel S. Stanley and wife, Abram Cranmer and daughter Esther, William Guy and his mother, Mrs. Duncan, Morris Cranmer and wife, Lyman Richardson, and one other whose name is forgotten, making eighteen members. The minister, Rev. Mr. Brown, preached his first sermon from the text, "Why halt ye between two opinions?" etc. The society worshipped in a log schoolhouse at Northfield Center for some time, and in Mr. Stanley's house also. Mr. Brown, after organizing the church, preached but twice before going to Conference. He was succeeded by Revs. Alfred Bronson and John J. Steedman. The circuit at that time included Cuyahoga Falls, Ravenna, etc. The surviving members of the first organization are Mrs. Jane C. Bacon and Esther Cranmer, now Mrs. Munn. Mrs. Bacon remembers a camp-meeting held in August, 1832, the next year after the formation of the church in Northfield, over in Hudson Township, at which Mr. Steedman preached one night from the text, "And at midnight there was a cry made, Behold, the bridegroom cometh; go ye out to meet him." During the sermon a most terrific thunder-storm came up, and as the people sought shelter in their tents, the minister took the opportunity to make the storm an application of his argument—that if they did not have refuge in Christ, etc., etc., and following the application, he commenced singing in a tremendous voice the hymn beginning—

"He comes, He comes, the Judge severe,

The seventh trumpet speaks him near,

The lightnings flash, the thunders roll," etc.

The whole scene made a lasting impression upon the congregation, and was the means of starting a great revival, which continued throughout the meeting.

About the year 1836, the society built a church edifice. There were several members who lived at Macedonia, which led to the organization of a separate society there, and the use of the church at that place, or perhaps its undivided ownership was thus secured. This church was built in about 1835 by people who held a variety of religious opinions, among whom perhaps the Free-Will Baptists predomi-

nated. One of the greatest revivals ever in Northfield was conducted at Macedonia, in the old log schoolhouse, by Rev. Mr. Worrellow. It lasted five weeks, and sixty-five were converted, a portion of whom joined the Free-Will Baptists, others the Methodists, and still others the Presbyterians. The first services held by the Presbyterians in Northfield were by Rev. Mr. Hanford, who came over from Hudson and preached occasionally. A church was built by this denomination in 1834, which was used until about thirty years ago, when the present one was built. Among the early members of this church were A. Chapin, John and Matthew Wilson, Levi Taylor, Mrs. Ozmun, Mr. Hall and others. A Congregational society was early organized, mainly through the influence of the Taylors. A small church was built by them about the year 1844. Most of this society, however, eventually united with the Presbyterians, and their church, which was thus left vacant, was used a few times in which to hold select schools, and was then fitted up for a dwelling, and is still used as such. The following has been handed us by Rev. J. W. Logue, of Northfield: "The earliest members of the First United Presbyterian Church of this township came from Ligonier Valley, Penn., in 1831. These and a few others that came in a short time afterward, numbering in all fourteen souls, formed themselves into a church society in 1833 by the election of William Lemmon, Ruling Elder. A short time afterward John Nesbitt, Jacob Leslie and John Phillips were elected to serve in the same capacity. Their first communion was held in a schoolhouse in the vicinity, the above number of communicants uniting with them. Their first settled minister was Rev. Joseph Banks, who commenced his ministry among them in 1834, remaining some five years. Their first church building was a comfortable frame house, about 35x45 feet, and was erected in 1837 at a cost of about \$1,000, and located near the center of Northfield. Their second settled minister was Rev. James W. Logue, who began his labors among them in 1843, and has continued until the present time. Their second church is a commodious frame building, about 40x60 feet, tastefully constructed and furnished at a cost of some \$8,000. It was erected in 1871 on the site of the former one. This church, the strongest in the township, is strongly Calvinistic

in its principles. It took an early and leading part in the anti-slavery reformation in this community, and has always been active in all moral reforms."

In 1864, a cornet band was organized in the township, composed of the following members: Thomas W. Richey, William F. Drennen, Milton A. Van Horn, Joseph Wilson, L. Bliss, J. G. Alexander, George Richey and Charles Peck. These members, with their own means, purchased a set of second-hand brass instruments, and their subsequent efforts were crowned with moderate success. The band continued thus, with some changes, until 1872, when, through the efforts of A. W. Bliss and the liberality of many citizens of the township, a set of fine new silver instruments was purchased at a cost of \$341. This was sufficient to arouse the members of the band to their greatest efforts, and the surrounding hills and dales echoed with music as sweet as that of Orpheus. Perhaps, also, the birds of the air, the fish in the streams, the wild beasts of the forest, and even the trees, rocks and hills, gathered around to hear the divine strains. The members of the band shared a fate almost as sorrowful as that of Orpheus. Three years after their new instruments were purchased, they disbanded, and their delicious music died out in plaintive echoes. In 1877, a new band was organized, composed in part of members of the former band. This is yet in existence. The members have furnished them-

selves with new brass instruments, and have recently made their appearance in a bright new uniform. The present members are George Bliss, Isaac Baskirk, Charles Peck, Frank Brower, John N. McConnell, Cass Proctor, J. L. Ranney, Henry Nesbitt, L. E. Stanley, W. L. Palmer, Frank Ruggles and Will Howe. The band is a credit to the township, and should be encouraged in a hearty and substantial manner.

A Lecture Association was organized in Northfield in the winter of 1878, of which the following were the six original members: M. A. Van Horn, Dr. R. S. Hubbard, Lorin Bliss, G. M. Seidell, J. G. Alexander, Jo Harter, and afterward B. A. Bobinette was added. The first officers were M. A. Van Horn, President; J. G. Alexander, Secretary; Dr. R. S. Hubbard, Corresponding Secretary, and G. M. Seidell, Treasurer. It began as a matter of experiment, and they hired their own lecturers, for which they paid out of their individual pockets. It proved a success. Lectures were held on Thursday evenings of each week, alternating in the different churches. The association has become self-sustaining by the sale of family tickets, memberships, etc., and is apparently on a firm basis. The present officers are Jo Harter, President; B. A. Bobinette, Vice President; Dr. R. S. Hubbard, Corresponding Secretary; Lorin Bliss, Assistant Corresponding Secretary; J. G. Alexander, Secretary and Treasurer.

CHAPTER XXV.*

NORTON TOWNSHIP—ITS PHYSICAL FEATURES—COMING OF THE WHITES—PIONEER INDUSTRIES—GROWTH AND DEVELOPMENT—VILLAGES—CHURCHES AND SCHOOLS.

NORTON TOWNSHIP was originally known as Town 1, Range 12, and was a part of Wolf Creek Township, which comprised all that territory now known as Norton and Copley, in Summit County, and Wadsworth, Sharon, Guilford and Montville, in Medina County. Wolf Creek Township was organized in 1816, and, at an election held in April of that year, at the house of Philemon Kirkham, which stood on Lot 11, in Norton, Henry Van Hyning, Sr., and Salmon Warner

were chosen the first Justices of the Peace. Van Hyning lived on Lot 19, and Warner, just across the line in what is now Wadsworth Township. Philemon Kirkham was elected Town Clerk; Nathan Bates, Jacob Miller and Abraham Van Hyning were elected Trustees. Twenty-two votes were polled at this first election in a precinct whose boundaries inclosed 150 square miles. In 1818, Norton Township was organized, with its boundaries the same as at present. It had been surveyed eight or nine years previous to this by Joseph Darrow and

* Contributed by M. L. Shook.

others, and platted into lots half a mile square, numbering from one to one hundred, and beginning in the northwest corner of the township, numbering from the west to east, thus: the west lots were 1, 11, 21, 31, 41, 51, 61, 71, 81, 91, to the southwest corner. It is bounded on the north by Copley; on the east by Coventry, part of which boundary is marked by the Tuscarawas River; on the south by Franklin and Chippewa, and on the west by Wadsworth. Norton is not exactly five miles square, as are most of the townships on the Western Reserve, the reason for which we will endeavor to show. That part of the Reserve lying east of the Cuyahoga River, Portage Path and Tuscarawas Branch of the Muskingum was acquired of the Indians by the treaty of Fort McIntosh in 1785. It was surveyed in the years 1796 and 1797, by running the base line of forty-one degrees north latitude through from the Pennsylvania line to the Tuscarawas, where a mark was made on a tree, "56m," meaning fifty-six miles from the Pennsylvania line. This made eleven ranges and one mile over on the base line. The territory west of Cuyahoga River, Portage Path and Tuscarawas River was not ceded by the Indians until the treaty of Fort Industry, in 1805, after which the balance of the Reserve was surveyed, and that part of Range 12, Town 1, or Norton, lying east of the Tuscarawas, having been annexed to Range 11, Town 1, years before, was never transferred. An incident which occurred at the time the survey was made will not be out of place. Squire David Hudson, of the town of Hudson, being one of the original owners of Norton Township, concluded to go down and see how the land which he owned lay; and also to ascertain how the survey was moving along. Arriving in Norton, he accompanied the surveying party several days, and, one day while looking around through the forest, he became detached from the rest of the party and partially lost, or at least did not know which direction to take to find his companions. The surveyors did not miss him until they heard some one making a terrible noise a little distance off, and at once made their way to the spot from which the sounds came. Here they found Hudson, with his arms closely clinging to a tree, which he was vainly trying to climb, and calling lustily for some one to "Shoot the bear!" It seems he had happened to surprise an

old she bear and two cubs, which took to their heels as soon as they saw him, being as much frightened as the Squire himself was. It is reported that he kept close to the surveying party after this.

This township is drained by the Wolf Creek and its tributaries. Wolf Creek enters the township from the north, in Lot 7, takes a southerly course in general, and empties into the Tuscarawas River from Lot 88. Its chief tributaries are (beginning at the north) Pigeon Creek, which enters the township from Copley in Lot 10, flows south and a little west of south through or across the corner of Lots 10 and 20, and empties into Wolf Creek in Lot 19. Van Hyning Run, which rises in a marsh near the north line of the township in Lots 3 and 4, takes a southeasterly course through Lots 14, 15, 16, 26, 27, 37, 38, and empties into Wolf Creek on Lot 48. Hudson Run rises partly in Wadsworth Township, Medina County, and partly in Norton Township, flows southeasterly through Lots 21, 31, 32, 42, 43, 53, 54, 64, 65, 75, 76, 77, and empties into Wolf Creek on Lot 78, near Wolf Creek Lock. Silver Creek, a branch of the Chippewa River, drains a small portion of the southwest corner of the township. Hubbard Run rises near Western Star, in Wadsworth Township, enters Norton in Lot 41, takes an easterly course through Lots 51, 52, 62, 63, 53, and empties into Hudson Run on Lot 54. A small lake, called Davis Lake, in Lot 68, is the only lake in the township. It has no visible outlet, and is fed by springs, it is supposed, from the bottom. It is about a mile in circumference, and a pleasant spot. The bottom is sandy, and it is consequently a favorite resort during the summer months for bathing.

The soil in Norton Township is somewhat diversified. The extreme eastern portion, north and east of Wolf Creek, is inclined toward a sandy loam, in some parts more sandy than in others. This land is very easy to till, and with care brings abundant crops. The land lying adjacent to the Wolf Creek is of a loamy, mucky nature, and, when first turned up by the plow, resembles decayed vegetable matter, of which, indeed, it is largely composed. West and southwest of Wolf Creek, we find the soil contains more clay, but in places so mingled with gravel and loam as to make the best of soil for agricultural purposes.

Drainage is sufficient in all parts of Norton with the exception of the south half of the Wolf Creek bottoms and a portion of swamp lying partly in this township and partly in Copley. At the building of the Ohio Canal, the waters of Wolf Creek were taken to feed the canal below Wolf Creek Lock. This caused a stagnation in the last few miles of its flow, which is the source of a great deal of waste wet land, and that the very richest soil in the township. The eastern part of the township is somewhat broken and hilly, although very little of it is so rough as not to be utilized. A ledge of sandstone just strikes the township on the northeast corner. Another ledge forms the Western boundary of the Wolf Creek bottoms, this last passing entirely through the township from north to south, and from one to two miles from the east line. This sandstone is quarried at several places, and makes the best of building stone. Among the quarries now open may be mentioned those of Shaw's, near Wolf Creek Lock ; Irish's, on Lot 47, and Miller's, on Lot 37. The principal productions of Norton Township are wheat, oats, corn and live stock and coal. This shows agriculture to be the chief occupation of the citizens. Considerable attention has been paid the past few years to the raising of stock. Some fine thoroughbred cattle are owned in the township. Among cattle-raisers, the name of A. D. Betz takes first rank, although others have made considerable advance toward fine stock. Norton has long been noted for its draft horses, and, at the fairs of the county, the farmers of Norton very rarely take the second place in the matter of horses. Norton is well supplied with villages, no less than seven being wholly or in part included in its territory. New Portage is situated near the east line of the township, and midway between the north and south lines, on Lots 50 and 60. Loyal Oak, in the north part of the township, about one and three-fourths miles from the center ; Western Star, partly in this and partly in Wadsworth Township, on the county line between Summit and Medina Counties, two and one-half miles west of Norton Center ; Dennison Station, one and one-half miles west and one mile south of Norton Center ; Johnson's Corners, one and one-half miles south of Norton Center ; Hametown, one and three-fourths miles southwest of Johnson's Corners, on the

Wooster road ; and, last and least, Norton Center, situated in the geographical center of the township.

Norton Township, as we have said, was Town 1, Range 12, in the Western Reserve, and at its formation was named after Birdsey Norton, one of the original owners of the township. It was formed into an independent township in the spring of 1818 ; and at an election held on the first Monday of April, Joseph D. Humphrey was elected Town Clerk ; Abraham Van Hyning, Ezra Way, and Charles Lyon, Trustees. Among the Supervisors of Highways for that year, of whom there were five, we find the names of Joseph Holmes, Elisha Hinsdale and John Cahow. Henry Van Hyning, Sr., was Justice of the Peace. Probably the first purchase of land was made by James Robinson, he having purchased Lot 19, as early as 1810, and built a hut on it. It seems, however, that he did not make this his permanent residence. He was originally from Otsego County, N. Y. In 1815, he sold his lot to Mr. Henry Van Hyning, Sr. About the same time that Robinson came to Norton, John Cahow settled on Lot 20, about a half-mile east of Robinson's place, and erected a log cabin. It is a matter of some dispute, whether Robinson's or Cahow's house was the first one built in the township. Some authorities claim the former and others the latter. Cahow came from Maryland and had raised some crops before the war of 1812, and kept a hotel or tavern as it was then called, during that war ; his place being on the great trail from old Portage, on the Cuyahoga, to the Scioto. No progress was made toward settling up the township until after the war of 1812, when a general rush of settlers found their way through the trackless forest. Among them we notice Philemon Kirkham, who settled on Lot 11 ; Seth Lucas, on Lot 12 ; the Bates brothers, who settled south of what is now Johnson's Corners at first, and soon after two of them removed to where Loyal Oak now is. Their names were Nathan and Lyman Bates. They each erected a cabin, one on the southwest and one on the northeast corner. The place took its name from them. Abraham Van Hyning came in 1814 and settled on Lot 75, now Johnson's Corners. His house stood on a spot about twenty rods nearly due west of the present storehouse, on the bank. John Bryan, or O'Brien, perhaps more properly, set-

bled a little southwest of Van Hyning's place, near the present Wooster road, on Lot 85. About the same time, a family by the name of Clark settled at New Portage, and built a log cabin, partly in this and partly in Coventry Township. A son of this family, named Miles, afterward became the first physician of the township. In 1815, quite a number of families settled in the township, among them Henry Van Hyning, who, with his sons, played a most important part in the early history of Norton. Having purchased Lot 19, of James Robinson, he removed his family from Northampton, where he had settled ten years before, to Norton, where he had intended to pass the remainder of his days. Van Hyning came originally from Saratoga, N. Y., and was of Dutch origin, his forefathers having emigrated from Holland to New York, when that was called New Amsterdam. His second wife was a direct descendant of the great Bogardus mentioned in history. Van Hyning, with his family, left Saratoga for the West in 1805, with two yoke of oxen attached to wagons, and his wife riding horseback through the forest, driving three cows which followed the wagons and requiring little effort on her part. Their course lay through Buffalo, N. Y., to Erie, Penn., near which place Mr. Van Hyning built canoes, lashed them together and launched them on French Creek. He passed down this creek to the Allegheny, and thence to Pittsburgh, whither his teams were coming as fast as they could travel. From Pittsburgh they went across the country to what is now Canfield, Mahoning County, Ohio, where they stopped about two months. The family was here increased by one who was named Sylvester, and who is now living on the old homestead. During the stop at Canfield, Mr. Van Hyning went on to Northampton to locate his home, whither he removed as soon as circumstances would permit. From Canfield they went to Ravenna, thence back to Warren where they laid in a stock of provisions, consisting of a barrel of pork, a barrel of flour and a barrel of whisky, with numerous other articles of necessity to a backwoodsman. From Warren they made their way to westward to the Cuyahoga River, which they crossed at a point called "Brady's Leap." The bridge across the stream at this place, consisted of two "stringers," or logs, placed across the stream (which was about twenty feet wide) and a split

puncheon floor. Over this they crossed and to Northampton they were obliged to cut a road most of their way. The journey, including the stop at Canfield, occupied about four months. These early settlers were subjected to many privations; their provisions did not hold out until more could be produced and after a crop was raised they had no mill within a distance of thirty miles. When they went to mill they had to take a big load or the teams would eat it all up before they got back home. A few years, however, removed the difficulty. The mill and other comforts were added from time to time. This is a sample of the journey across the unbroken wilderness by the early settlers, and one will suffice as all were much alike.

About the same time that Van Hyning came to Norton, Benjamin Hoadley moved in and settled in Lot 15, near Loyal Oak. He was from Connecticut and had bought eighty acres of land, which he afterward cleared and where his widow still lives to tell of the hardships of their early life. In 1816, Joseph Holmes settled on Lot 67, having bought 197 acres in Lots 67 and 68. Holmes came from Massachusetts originally, but like a great many more had stopped several years in New York State, and from there moved to Ohio. Previous to this, the settlers had erected a log house near the line between Norton and Coventry for school and church purposes. Here Holmes landed and stayed a few days. He moved on to his land on a Wednesday, and camped beside a big tree which had blown over on a spot near where William George now lives. Next day, Thursday, he cut the logs for a cabin, on Friday the neighbors helped him "log it up," and on Saturday his family moved into it. This shows how expeditious these old pioneers were. Of course the house was not "chinked up," or plastered with clay, yet it was a dwelling, and sheltered the inmates from the chilling April storms. Our informant was one of the party who camped beside that big log. He says the wolves howled around them all night long, but they knew no fear, and suffered no harm from them. The same day that Holmes raised his house, Charles Miller, father of Cyrus Miller, now living near Norton Center, landed in the township. He settled a little west of Johnson's Corners on the south side of the Wooster road. Numerous other settlers came this same year, and small clearings began to spring up all over

the township. The years 1817-18 brought still more emigrants, and the foundation for some of the numerous villages were laid. Nearly or quite all of those mentioned heretofore were either from New York State or from the New England States, and they early showed their special traits of character in regard to social customs and domestic life. Much of their time was spent in cutting roads, clearing up the land and helping each other build their houses. When a road was to be opened, all turned out and helped to cut the trees and get them out of the way. If a man had a lot cleared, that is, *cut*, he invited his neighbors to help him roll the logs together and burn them. None were selfish in those days, for each one knew that he was dependent on the others to some extent for his own and his family's safety and comfort. Tallmadge, or as it is now called Middlebury, was the nearest trading-post, and goods were shipped there in boats up the Cuyahoga to that spot, or up the Muskingum to Upper Portage on the Tuscarawas, and thence to Middlebury by teams. These boats were long, narrow vessels, frequently "dug outs" as they were called, from twenty to forty feet long and from three to five feet wide, and propelled by means of poles. Their capacity was ten to twelve barrels of pork, salt, flour or whisky. This last being a very important article of consumption in those early days. Stock of all kinds was scarce. Sheep could not be kept on account of the wolves, and many a family's supply of pork was prematurely exhausted by the hungry bears which prowled around the cabins of the settlers. For the benefit of butter-makers, we will relate the following of Van Hyning's trip to this township. As already mentioned, Mrs. Van Hyning rode on horseback and drove three cows. Their milk which remained unused on breaking camp in the morning was placed in a large jug and deposited in one of the wagons. By night a nice chunk of butter would have been formed in the jug churned by the jolting of the wagon over the beech roots. Farming was poor business in those days. Corn was the main staple, as this could be fed to the cattle and pigs as well as the human beings; wheat was raised only for bread and seed, as prior to the opening of the Ohio Canal it cost more to get the wheat to market than it was worth after it was there. Beans were also a very important article

of production, since they could be used without being ground. Indeed many would cook shelled corn with the beans to make them hold out longer. But this was only the case prior to the building of mills within reach of the settlement.

The first birth within the present boundaries of Norton was a child of Lyman Bates, which, however, did not live long. Bates then lived south of Johnson's Corners. A few years later another was born, who lived. Soon after this, Bates house was burned and he removed to what is now Loyal Oak. The first death of a white person was Patty O'Brien, daughter of John O'Brien, aged about two years. James Robinson and Lois Bates were the first couple married in the township. They were married at the residence of the bride's parents south of Johnson's Corners, by William Prior, a Justice of the Peace, of Northampton. This was in the fall of 1814. Probably the second wedding was that of James Cahow and Miranda Holmes, daughter of Joseph Holmes, which took place at her father's residence about a mile east of Norton Center, April 9, 1818, by Henry Van Hyning, Sr.

No Indians remained in the township after 1812, consequently the settlers were at peace, with the exception of a personal squabble once in awhile. A few incidents and personal adventures will illustrate the times of which we write: Soon after Benjamin Hoadley settled in Norton, he and Henry Van Hyning, Jr., went into the woods on a hunting excursion, as was customary when provisions ran low. In the course of their hunt they found a bee-tree, and, as it was in the fall of the year, concluded to leave it until the weather was colder, and then cut it down and convey the hidden sweets to their homes. Some time during the winter following they went forth to cut the tree. But lo! the tree had fallen down, and the bears, who like honey as well as the human family, had got away with the whole of it. A few years after, the same parties again found a bee-tree over in the southeast part of what is now Sharon Township. This time they thought they would make sure of their prize, and accordingly the next day, armed with axes and a pail apiece, they made for the spot. The tree was soon felled, and the honey literally flowed. The pails were soon filled with fine white comb. There being so much left and the

distance so great, they began to contrive means to take more of it, and not be at the necessity of making another trip, nor at the risk of losing the honey by the cunning bears, who would no doubt find it before they could make another trip for it. Van Hyning wore a long, loose sort of a blouse, and of this they contrived to make a sack, which they thought would hold comb honey. So they tied the blouse together at one end, filled it with the choicest honey, and secured the other end in a like manner. Slingsing this with their pails on a pole which they had cut, and Van Hyning taking the lead, off they trudged toward home. But they had "reckoned without their host;" the blouse was not very closely woven, and the jar caused by walking through the woods, over logs, and up hill and down, caused the honey to run out of the comb and drip out through the blouse. Hoadley was soon almost covered with honey, and never forgot this, the sweetest adventure he ever experienced.

Henry Van Hyning, Sr., had two noted dogs, Bose and Gunner by name—very large and powerful, and very skillful in hunting bear. One time soon after Nathan Bates had erected the first cabin on the site where now stands Bates' Corners, Henry Van Hyning, Jr., went to see how he was getting along. When he got to Bates' place, Bates told him that there had been a bear seen in the woods not far away the evening before, and suggested that they go and find him. Two of Bates' brothers were also with him at the same time. Van Hyning, although acknowledged a skillful hunter, had left his rifle at home that morning, and had only brought one dog with him. They therefore concluded to send one of the brothers down to Van Hyning's place for the rifle, and for "Bose," with instructions to meet them on what was called the "Hog Back," a hill on the farm now owned by Jacob Wertman. Van Hyning and the two Bates went to this spot with "Gunner" and two rifles. Near the "Hog Back" was a spring, and just below the spring was a bed of sweet sicily. This was a favorite resort for bear, and for this reason, the men went to this place, when Gunner began to show signs of "bar." His bristles stood erect. He sniffed the air and whined as though impatient for the fray. "Well," said his master, "go for them, Gunner," and Gunner went. He had no sooner entered the marsh than he raised the roar, which told

the men that he had found a bear, and the sound told them which direction the bear and dog was taking. Snatching a rifle from Bates, Van Hyning started across the ravine to head off the bear. In this he succeeded by taking a route diagonal to that taken by the bear. As soon as the latter saw him he started toward him for a fight. Van Hyning reserved his fire until he could be sure of his aim. He was quite a distance from the rest of the party and had a rifle to which he was unused, which placed him in a serious position. The bear, when about ten or twelve feet from the hunter, threw his head down for a moment, and this moment was sufficient for Van Hyning, who fired. The bear turned a complete somersault and landed in a little hollow, but was not dead, although his neck had been broken by the ball. The Bates brothers now came up, and one of them placed the other rifle to the bear's ear with the intention of blowing his brains out, but the rifle missed fire. "Open the pan," said Van Hyning, and, priming the empty gun in his hand, he held the two pans together, and flashed the one, which ignited the other. This finished the bear. On dressing him and weighing his quarters, it was found that they weighed 500 pounds. It was the largest bear killed in all the country around, if not the largest in the State. Van Hyning, who still lives to tell the story, says he would not run the same risk again, and take the chances, for the whole of Summit County.

As we have stated, money was scarce and hard to get in those early days. Prior to the opening of the Ohio Canal, wheat was of no value except for food, and many had wheat stored up, some to the amount of several hundred bushels. But when tax-paying time came, some would take their rifles and shoot deer, take the hides on their backs to Cleveland, and thus get money to pay their taxes. The canal, however, worked a great change in all this. Wheat went up first to 50 cents, then on to \$1 per bushel. Some settlers had scoffed at their neighbors "who were spending their time sowing and harvesting more wheat than they needed for family use," and storing it up in their garrets. In at least one instance, the joist had to be propped up to keep them from breaking down. When wheat went up, however, to \$1 per bushel, Joseph D. Humphrey, one of the scoffers, said to one of his provident neighbors: "Squire, I am just \$1,000 out of pocket."

"Why so?" said the "Squire." "Why," said Humphrey, "because I have not got 1,000 bushels of wheat to sell. I might as well have raised that much and stored it up as not."

New Portage was the scene of an epidemic from the years 1825 to 1828, which was called typhus or malarial fever. This nearly wiped the town out of existence. It seemed fatal, and those who had clung to it as the El Dorado of their hopes, were loath to leave, but were forced to do so, or die in their tracks, as scarcely any escaped the deadly disease.

During the early history of this township, a great deal of counterfeit money was in circulation, and a great deal of suspicion was attached to persons then living in Johnson's Corners. One De Coursey was generally considered the ringleader of the whole crookedness. He was a sharp, shrewd man—one who seemed to know all that was going on in the whole neighborhood—for no sooner did the Justice issue a warrant for his arrest than he took to the woods, where he would remain until the storm had blown over, when he would again make his appearance. At one time, when the Constable came with a posse to arrest him, De Coursey spied them coming, and quick as thought he pulled off his coat, tossed it to George Beach, who was with him at the time, saying, "Be quick, George. Put on that coat and streak for the woods." Beach did not wait to be told a second time, but "streaked." The Constable and posse took after him full speed. Beach ran until he thought he had carried the joke far enough, when he turned around and faced the music with the remark: "What in hell do you want? what's the matter?" "Sucked, by G—!" said the Constable. De Coursey in the meanwhile had time to escape. About 1825, a young man named Henry Flickinger came to Johnson's Corners with about \$300 in money, which was good, but not the kind that would pass at the land office where he wished to use it for the purpose of buying land. De Coursey then had a man with him named Downs, who, they said, could exchange money with Flickinger. This Flickinger was glad to do, but alas! when Flickinger came to the land office with his money, it was found to be spurious Virginia money. He swore out a warrant for the arrest of Downs, before Esquire Van Hyning. It was served by Henry Sparhawk, Constable, who found his man at Yellow Creek Basin, then a favorite resort for

counterfeiters and horse-thieves. Downs had a fine horse which he rode. They proceeded on their way to Norton, but had not gone far when Downs took to the woods, leaving the horse in possession of the Constable, who brought it to Norton, gave it up to the Squire, who in turn delivered it to Mr. Flickinger, who thus had a horse in exchange for his \$300. Suspicion also pointed to one James Hendershott, who once lived in a house on the high knoll just south of where Jacob Wertman now lives. When the house was torn down, soon after he left it, some counterfeit half-dollars were found in the cellar, supposed to have been left there by him, as he was the last and the only suspicious character who ever lived there.

At the organization of the township, only three Democratic voters were present. They were Abel Irish, Joseph D. Humphrey and Levi Way, who lived in the southeast part of the town. Now, the Democrats have a majority of about sixty in the township.

Norton Township is abundantly supplied with coal of a good quality, no less than four coal mines being in operation within the limits of the township at the present time. The first coal was found cropping out of the bank of a creek, near where the Bartges or Williams Brothers bank now is, as early perhaps as 1825. This coal was sold for \$1 per load, and each one dug his own coal at first. About 1830-31, the bank on the northeast side of this creek was opened by Jason Jones and a man named Funk. About ten years afterward, Joseph Burgess opened the bank on the other side of the creek, and, years after, the one now in operation on his farm, south of Johnson's Corners. In 1876, a coal mine was opened on the farm of Charles Staver. In 1863, the Atlantic & Great Western Railway, now known as the New York, Pennsylvania & Ohio Railroad, was opened through the township from east to west, and while grading this, coal was found in a cut at Dennison, which led to the opening of a coal mine at that place. Hundreds of thousands of tons of coal have been taken from this mine, and within the last three years two new openings have been made, and the old bank abandoned and allowed to fill up with water. This mine supplies the railroad with coal for their engines, at the chutes, near the mine, thus saving transportation on a great amount of coal.

John Hill

Probably the first tavern or public house kept in the township was situated on Lot 20, a little east of the Wolf Creek. It was kept by John Cahow, who settled here as early as 1810, and kept travelers at his cabin during the war of 1812, and after, Joseph Holmes who has already been mentioned as settling on Lot 57, also kept a hotel for the accommodation of travelers after 1820. Thomas Van Hyning, who settled on the farm now occupied by Mervin Shaw, was also an early tavern-keeper. Others will be mentioned in the history of the villages of the township. The first saw-mill in the township was built by Thomas Johnson, near Johnson's Corners, several rods south of the present grist-mill. It was built about the year 1823. Thomas Van Hyning built one a little farther up the creek. Hezekiah Ward built a saw-mill on Hudson Run, up near the Wadsworth line, about 1825. These were what was called sash-frame saws and worked very slow. About 1837, Nathan Seiberling, who had settled on his present farm in 1831, built a saw-mill introducing what was called a geared muley saw, which cut much faster than the old style. Some years after, another mill was built still farther down the creek than Seiberlings, and which is still in use, although steam has been substituted for water-power. The five saw-mills just mentioned were all on Hudson Run; one was built on Van Hyning Creek, at an early date, by Henry Van Hyning, Jr. The first grist-mill built in Norton was at Johnson's Corners, and is still in operation. It was built by Thomas Johnson about 1830; he soon after built another farther down the creek, which, however, did not long continue. At the raising of this mill, Dennis Bates fell from it and was killed, having struck his head on a rock and crushed in his skull. Clark's Mill was built by Carlos Clark about 1836-37. A great deal of litigation has been had about this mill and its water-power. The mill was finally burned to the ground in 1879; how the fire originated was never ascertained. The mill had been repaired but a short time before, and was just getting under way and doing good work. There has been but one distillery in the township, and it was a short-lived affair. It was at New Portage, and was carried on by Uriah M. Chapel, probably as early as 1825. The proprietor was a powerful man, noted for his strength and agility as a wrestler, but he

eventually found his match in the person of Henry Van Hyning, Jr., who threw him twice in succession, at one of the numerous "bees" so common in those early days. The first tannery in the township was at Western Star. It was built prior to 1830, and was at that date operated by Lebbens Hoskinson, late of Johnson's Corners. In 1835, another was started at Bates' Corners, but by whom we are not able to say; both of these are still in operation. A third was started at Johnson's Corners, considerably later, but has long since ceased to exist. Samuel Baker was the first blacksmith in the township, and, prior to his moving to Norton, he plied his trade in Stow, where some Norton people went to get their blacksmithing done. Baker's brother-in-law, Abe Van Hyning, of Johnson's Corners, was in need of some blacksmithing, and concluded to go to Stow to get his friend Sam to do his work. He had a natural dislike for bear's meat, which formed a very important part of Baker's provisions, and, indeed, was the only kind of meat they had at the time. Baker's wife knew of this aversion, but thought she would fix him up a steak that he would relish. Accordingly, as Van Hyning had to stay all night, she brought him a piece of meat nicely served, calling it beef for his supper, saying that she knew he did not like bear meat, so she had cooked him some beef they had got of a neighbor. Van Hyning ate heartily of the *beef*, and at last said, "Just cut me a small slice of the bear meat to taste." He was helped to a small piece from the other dish, but pronounced it "strong, couldn't eat it no how." The Bakers managed to keep from smiling until the meal was over, but after this, whenever Van Hyning said he didn't like bear meat, some one was ready to remind him of the time he ate it and liked it, but supposed it to be beef. When Baker came to Norton, he put up his shop at Clark's Mills, near where George Turner now lives.

The great Scioto Trail, from the Cuyahoga Portage to the Scioto River, lay through this township. This trail struck the township near the northeast corner of Lot 20, crossed Wolf Creek where Van Hyning's Bridge now is, passed down the west side of Wolf Creek Bottoms, where Stauffer and Irish now live, taking nearly the same course of the present road, till near where A. D. Betz lives. It then made a straight cut to Johnson's Corners. From there

it took a southwesterly course nearly identical with the Wooster road. This was the only important Indian trail in the township, and was the course the first settlers traveled to find their homes. It was marked by a well-beaten path, in some places almost a foot deep, but was only passable for foot passengers. Trees had to be cut and underbrush cleared away, before a team could get through. The first road was cut out upon this trail prior to 1816 as far as Johnson's Corners. Philemon Kirkham had settled on Lot 11, and Seth Lucas on Lot 12. They petitioned for a road from Bigelow Chapel to Wolf Creek. This was called the Black Snake Road, on account of its crookedness. Next a road was cut through from the east line of Lots 57 and 67, and passed through the center of the township, and on through to Harrisville, Medina County, where a settlement had been formed by Judge Harris, some time between 1818 and 1822. Peter Waltz, having bought Lot 81, came in to clear up his place. He got as far as Johnson's Corners without anything more serious happening than getting stuck in the mud at Hudson Run; but west from Johnson's Corners, however, the fun came in. The neighbors turned in and out, a day's time, cut a road through the woods to his place, which enabled him to proceed. Soon after this, a road was cut through from New Portage to Johnson's Corners; next from New Portage to the east end of the center road, on Lot 67. In the meantime, the settlers had cut cross roads, to facilitate travel in all directions, so that, in the course of twelve or fifteen years, the township was pretty well supplied with roads, such as they were. The one across Wolf Creek Bottom, east of the center, was a corduroy road, that is, made of logs thrown in crosswise, and notches cut in for the wheels to run in, causing a great deal of jolting to those who were obliged to use it. A stage route, from Cleveland to Massillon, passed through Norton. This was the only public conveyance known before the canal was opened. A mail route was established from Johnson's Corners to Cleveland. The first post office of the township was probably at New Portage, but whether it was in Norton Township or Coventry, is a matter of some dispute. The Ohio Canal was opened for traffic in 1827, and caused quite a revolution in the business of the township. Farm productions advanced in price, and pros-

perity began to smile on the inhabitants. But the unstable quality of the money of this early day was a matter of great annoyance, as a man might go to bed at night with a snug little fortune under his pillow, and wake up the next morning and find himself a beggar by the breaking up of a "wild-cat" bank. Henry Van Hyning, Jr., who was Justice of the Peace in those early days, and who did a great deal of collecting for other parties, would notify the parties in this manner: "Your money is collected, and is all good to-day, but I will not warrant it to-morrow." In 1856, the Cleveland, Mount Vernon & Dayton Railroad was built along the canal, through Norton Township. The first train passed over the track late in the fall, and, as a free ride had been advertised, crowds gathered along the track, thinking the train would stop at any place where there were people to be seen. Hundreds were left standing and gaping at the iron horse on this, his first trip through this section. Some tried to catch the train, but it outran them. In 1863, the Atlantic & Great Western Railway was built. Considerable money was raised by subscription on this road, and but little was ever realized from the investment. Many citizens worked on the grading with teams and by hand, and, as wages were high at that time, money was plenty all over the township.

The first bridge built in Norton was the one across Wolf Creek, near Sylvester Van Hyning's place. The abutments of this bridge were made of logs laid up "cob-house" style, and four logs flattened on their upper sides were laid across for "stringers." These were covered with split puncheons laid as tight as possible. The approaches were filled up with logs and dirt until they were passable. More of the same sort were built at other points as they were needed. Stone was, however, soon put in instead of logs for abutments, and plank were substituted for split puncheons. Now we have several substantial iron structures; one across Wolf Creek, near Wolf Creek Lock, and two more on the road leading from Johnson's Corners to New Portage. An immense wooden viaduct was built over Hudson Run by the railroad company, about one-half a mile west of the north-and-south center road. This was probably seventy feet high at its highest point, and at least four hundred feet long. A splendid

arched culvert was afterward thrown over the run and the gully filled up with earth, leaving the timbers in their places. Just west of this fill the railroad enters a rock cut about three hundred feet long and from ten to twenty-five feet deep. Between this cut and the fill a new branch was built in 1880, running south about two miles to Williams Bros' coal mine. New Portage was probably the first village laid out either wholly or in part in the township. It was laid out in 1818 by Ambrose Palmer, or at least the part was which belonged to Norton. Buildings both log and frame sprang up, and soon a thriving town stood where, a few years before, there were nothing but woods to be seen. A glass factory was started by Palmer, soon after, in a large barn-like structure, with the stack or furnace in the center. His pots and molds were brought from Zanesville, Ohio. Sand was procured by pounding sandstone in a huge trough, the pounding or crushing being done by means of a spring pole and pestle. Black salt was used as a flux. This was abundant, as black salt was made at many places through this new country where ashes were plenty from the log heaps that were burned by thousands in all directions. Wood was used for fuel for smelting the sand, and the consequence was that much of the glass was smoky and could not be used for window glass, when it was made into hollow ware, such as tumblers, goblets, drinking glasses, bottles, and many other articles useful and ornamental. At first six blowers were employed, but, afterward, the shop was enlarged and eight blowers were employed. Sand of good quality was found in the marshes of Coventry about the time of the enlargement, and it was used from this time on. But the business proved a failure, and Palmer joined the Mormons and "went West." The glass factory was situated on the hill north of where the church and burying-ground are at present located. The glass business failed in 1823, and soon after New Portage fell a prey to typhus fever, as already noted, which nearly annihilated the settlement. Thomas Johnson kept a tavern at New Portage in 1817 for some time, when he moved on to a farm just across the south line of Norton Township. A family named Nesmith came in 1821. One of the descendants of this family, Thomas Nesmith, is still living in Norton. A great part of the business of New Portage, for the period of per-

haps twenty-five years, was carried on in Coventry Township. About 1850, however, the Norton part of the town again began to revive, but this time farther down the canal, as at present. During the decade following 1850, a pottery was built by Jacob Welsh just west of the present store. This was operated for about twelve years, at first with one kiln, afterward with two. This pottery was twice burned to the ground—rebuilt the first time and enlarged. Welsh also had a store and did a large business. Thirteen wheels were in use in the pottery. One kiln of ware was burned each week, turning out six to eight thousand gallons of ware per week, which at first was shipped by canal, but soon after the railroad was finished it was shipped by rail. Welsh had the post office in his store during the time that he was in business, and the mail, it was thought, was robbed several times while he kept the office. He, it seems, suspected that some one was in the habit of breaking open the store during the night, robbing the mail of valuable letters. Upon a certain occasion in November, 1869, his son Corwin and himself concluded to watch the office awhile to see if any one should make an attempt upon it. The first night they watched, both Corwin and his father stayed in the store until midnight, when Corwin went home, leaving the father alone on watch. Soon after the son left, Welsh heard a noise at the basement window, next to the canal; the window shutter was pried open, the window raised, and some one was heard coming up the steps from the basement, who entered the storeroom just before the west end of the counter. Welsh was standing back of this counter with a loaded shot-gun in his hand, and as the burglar arrived at the head of the stairs and stooped to strike a match on the floor, Welsh fired. The man was not over six feet from the muzzle of the gun. As the man fell he exclaimed, "My God, Welsh, you've killed me," and expired. The neighbors were aroused by the noise of the gun, and soon came to see what was the matter. The supposed burglar was found to be a citizen of the place. These are the facts as nearly as can be obtained from those present at the inquest. A chip was found broken out of the wall outside of the window where the bar had been rested while prying open the window. Welsh was acquitted from all blame by the inquest held over the body.

L. B. Schneider, now of Akron, had a store at New Portage in 1863, and was in business several years. After him came first Weary & Bro., then Weary & Witner, and still later Weary & Downer, each continuing about a year. Next, Joe Ellis & Co., then Corwin Welsh, during whose stay the shooting above related took place. Next, Harry Diesern took the store, and, last, Mr. John McNamara, who is still doing business in the old original room. His stock in trade is probably worth \$1,200. New Portage is a station on the Cleveland, Mount Vernon & Columbus Railroad, and New York, Pennsylvania & Ohio Railroad. The former road does a cash business of about \$100 per month at this office in freight and passenger traffic—the latter about \$75 or \$80. Mr. David L. Cartmill has had charge of the office of the New York, Pennsylvania & Ohio Railroad for fifteen years or more. The coal shipped from Norton Township over this road is all billed from New Portage. This road has a frame depot building, pumping-house of brick and a water tank, and a side track for trains to pass, of nearly a mile in length.

New Portage has one of the finest springs of fresh water that can be found in the county. It runs a stream just so strong, and is never more or less so, whether in wet or dry weather. The post office at this place was established at an early day, but the exact date is not known, but is probably the earliest in the township. At present, Mr. W. C. Jaquith is the Postmaster. The office pays a salary of about \$140 per year. Two canal boats are owned at this place—"Lily," Wellman Witner, Captain, owned by Witner Brothers, and "Wheeling," Willson Witner, Captain and owner.

Next in the order of villages, we find Bates' Corners (Loyal Oak P. O.) This place was settled by and named after two brothers—Nathan and Lyman Bates—who settled here about 1817 or 1818, one building on the northeast corner, the other on the southwest corner, as it now stands. The first tavern was kept by James Moore, but it could hardly be called a public house. Moore was also the first blacksmith in the place. Thomas Brown was the first merchant of the place, and had a small store on the southeast corner, as it now stands, but did not remain long, others taking his place in the same business. Bates' Corners has seen so many changes in its early days, that the half

of them cannot be noticed here. A tannery was started in 1835, and is still in operation, although it has been rebuilt since that time. Mr. John J. Bauer is the present owner, having bought it in 1864, remodeled it, and introduced steam power. His son, Byron B. Bauer, is at present connected with him in the business. Bates' Corners owes a great deal of its prosperity to Mr. Peter Lerch, who alone has had nearly as many buildings erected as all the rest of its inhabitants together. He at present occupies the new hotel at that place. Mr. Edward Laubach built a steam saw-mill in 1867, at a cost of \$3,200. Business was good, and he introduced a pair of chopping buhrs for grinding feed, with which he did a large amount of work. In 1874, the mill burned to the ground, but he immediately rebuilt it, at a cost of about \$1,000. It is at present owned by J. J. Knecht & Brother, who are doing considerable work. Mr. Jacob Flickinger is the blacksmith at present. He builds some wagons, and occupies a substantial frame building just east of the Loyal Oaks House. Bates' Corners has one church edifice. It is built of stone, as a union church, by the Lutheran and German Reformed societies, in 1851. Mr. A. Schneider is the present merchant and Postmaster. The post office at this place was not established until recently. Western Star, or, as it was originally called, Griswold's Corners, was first settled by a family named Richards, consisting of the father and five or more sons, of whom the father and three sons, named Mills, Cullen and Ezekiel, lived in Norton, the others in Wadsworth. They came here as early as 1819, perhaps earlier; the father lived where the old Himmelwright homestead now is. Nathan Starr, of Connecticut, was the original owner of a large tract of land lying adjacent to and east of Western Star. About 1825, Hezekiah Ward built a saw-mill about a mile north of this place, and, four years later, in 1829, the Griswold brothers came and settled here. Prior to this, however, several other families had settled in and around the place, so that quite a settlement was formed. Dr. Austin, the first physician of the place, lived in a house on what is now known as the Reimer lot. The place was named Griswold's Corners from the brothers of that name, just mentioned, who came here in 1829. William Henstis came the same year, and worked for the Griswolds, who had a store

and two asheries, or black salt factories, in operation soon after their advent in the town—one at this place and one near where Dennison now is, on the farm lately owned by Alpheus Myers. The second year the Griswolds were here, they cleared up 300 acres of land and sowed it in wheat. A post office was established about this time, but who the first Postmaster was we were unable to ascertain. The Sutton House is the first tavern of which we have any trace, although there probably was one earlier. Julius Richards had a wagon-shop in operation at a very early day. In 1831, Nathan Seiberling bought out one of the Richards brothers and settled where he still lives. The first store building was erected on the northeast corner. The first schoolhouse was a little farther north, opposite Shaffer's harness-shop. The first church was organized about 1835-36. The present school building was erected as a seminary in 1844. The site, containing one acre of land, was deeded by Nathan and Grace T. Starr, of Middletown, Conn., to certain persons named therein as trustees, with the proviso that "they shall erect a suitable building for a seminary building, and shall keep in good repair at all times, otherwise the land to revert to the original owners." This deed is dated November 7, 1844. The seminary was started the following spring, with Revs. Lorenzo D. Williams and Merritt Matteson as teachers. At present, Western Star contains two school buildings, one church (United Brethren), two stores (Dague Brothers & Co. and Levi Shaffer), a carriage shop, by Warren Hanshue, who is at present refitting an old building as a repository and varnish room, one tannery, and, on the Wadsworth side, a hotel, by William Stevens, shoe-shop and harness-shop. It was incorporated in 1842, with Mayor, Marshal and Council. Has a graded school, and is generally prosperous. G. C. Dague is present Postmaster, Aaron Eicheberger Mayor, and Warren Hanshue, Marshal.

Dennison (Sherman Post Office), on the New York, Pennsylvania & Ohio Railroad, has sprung into existence since the railroad was built. At one time, it contained a store, kept by the Koplín Brothers; but at present is without a merchant. The post office was established about 1864, with Joel C. Koplín as Postmaster, who has held the office ever since, with the exception of a few months. The principal busi-

ness of the place is that caused by the Norton Coal Company's mines, which are located here, with coal chutes and a telegraph office. Hometown, one and a half miles south of Dennison, has also been brought into existence by the coal business. It contains a store, kept by J. W. James, and two saloons and a shoemaker's shop—F. Schneider, proprietor.

Johnson's Corners was the second settlement in the township. The first person to settle here was Abraham Van Hyning, in 1814. John O'Brien came soon after, Jacob Miller and others followed soon. Charles Miller came in 1816, with others; but all settled around where Johnson's Corners now stands. About 1822-23, Thomas Johnson moved from his place just across the line, south of Norton, to this place, and began to build up the town. His saw-mill was built soon after he came, and, about 1826-27, he erected the hotel which is still occupied as such. This was, however, not finished for several years. In 1830, Johnson commenced the first grist-mill ever erected in Norton Township, which is still in use for the same purpose. The saw-mill that he had built stood a few rods farther south. Two or three years after, Johnson erected another mill, nearly a mile farther down the stream, and nearly opposite where Jacob Hoch now lives. At the raising of this mill, Dennis Bates, who had volunteered to help to put on the rafters, fell from the plate, struck on a rock, and shattered his skull, causing almost instant death. Johnson had, in the meantime, started a store, and held the office of Postmaster. He was probably the first Postmaster in the place. In the year 1835-36, a Methodist Church society was organized, with Johnson as the first class leader. Rev. Mr. Bigelow was probably the first minister. He was soon afterward ordained as Presiding Elder, and Rev. Messrs. Jaynes and Hazzard took the circuit. A church building was erected about 1841, which served as a place of worship thirty years, when a new and imposing building was erected by the Methodist society. It is one of the best church buildings in the county, outside of the incorporated towns, surmounted by a tower and belfry, and is lighted by elegant stained glass windows. The walls and ceiling are frescoed in fine style.

The first school taught in the township was kept at Johnson's Corners, in a log schoolhouse, about 1818-19. It was taught by Sarah Wyatt.

This village has been blessed with perhaps more different schoolhouses than any other in the township. At present, it has a commodious school building, well filled with scholars when school is in session. One or more stores have been in existence ever since Johnson's time, Mr. Amos Miller being present merchant and Postmaster. Besides this, the village contains a hotel, by John T. Price; two blacksmiths, one wheelwright, one harness-shop, two shoe-shops and a steam saw-mill, built in 1867, by Peter Hunsicker, at a cost of \$3,600. It was burned to the ground in 1875; but was again rebuilt, and is doing considerable business. The cost of rebuilding was about \$800.

Wolf Creek Lock, a small hamlet on the Ohio Canal, near the mouth of Wolf Creek, contains a small grocery, kept many years ago by William Pierce, and, in later times, by James Owry, who has lately sold to William Hublinger; one boat is owned at this place, the "Fisher;" John Reichard, Captain. Norton claims another boat, the "Crawford;" Henry Manderbach, Captain and owner.

The first settlement made at Norton Center was by Joseph D. Humphrey. He was a graduate of Yale College, and had studied law. He settled at Norton Center about 1816-17, and began clearing up Lot 66. He was afterward elected as first Township Clerk of Norton Township, in the spring of 1818. In 1823-24, Mr. Thomas Brown came from Bates' Corners and built, or started to build, the house still standing on the southwest corner of the public square. It was intended for a store and dwelling. Brown, however, died before it was completed, when Henry Van Hyning, Jr., bought it and finished it up. Soon afterward, he rented it to a man named Gillet, who occupied it as a store and dwelling-house for many years. A log-house was built soon after the above on the northwest corner, and, after a number of years, one on the northeast corner. Three acres of land were decided to the township by Birdsey Norton's heirs and Deacon David Hudson for a public square, as early as 1818. A schoolhouse was also an early acquisition. The first was a log structure, which was superseded by a frame building, this again by brick, and last a substantial frame schoolhouse, the largest and best in the township, with a belfry and spire. During the last twenty years of its history, Norton Center has

been a dull place. In 1869, Mr. Lewis Seigfried built a hotel on the northeast corner of the square, into which he moved on the last day of March, 1870. For years previous to this, he had kept a hotel about a mile east of the Center. In 1871, Mr. Aaron Hartzell and M. M. Dickson opened a store in partnership. A storehouse was built, a stock of goods bought and placed in it, and on May 1, 1871, the store was opened to the public for business. In the fall of 1872, the stock was moved to Johnson's Corners, as the room had grown too small for the business carried on. In the spring of 1877, Mr. A. G. Seas moved his stock of goods from Johnson's Corners to Norton Center, into this same building. M. L. Shook was taken in as a partner, and together they did a small business until the spring of 1879, when the stock was closed out and the partnership dissolved. The post office was established at a very early day, but the date and the first Postmaster's name have not been ascertained. Thomas Young was Postmaster for many years, until the year 1872—probably the winter of 1872-73—when it was transferred to George Lahr, who had it until the fall of 1873, when J. J. Stauffer was appointed Postmaster. He moved away from the Center the following spring, and the post office was discontinued. During the fall of 1877, an effort was made by the citizens of the Center and vicinity to have the office again established, which was finally successful, and, in the spring of 1878, Mr. A. G. Seas received his appointment as Postmaster. He retained the office until the 1st day of October, 1880, when M. L. Shook was appointed in his place, who still retains the office.

During the spring of 1876, an effort was made by several prominent farmers of Norton Township to organize a grange. Their efforts were finally successful, and, on the 1st of June, 1876, a grange was organized at Norton Center, with E. H. Viers, Master; A. D. Betz, Overseer, and Reuben Stauffer, Secretary. It was called Summit Grange, P. of H., and numbered 1,283. Meetings were first held in the store building owned by A. Hartzell. The organization, strong in numbers from the start, slowly increased, and, the following year, a large hall was built on the southeast corner of the square. The hall is 28x50 feet, and two stories high, with a cellar under the south half

of the building. The lower story is finished for a kitchen and dining-room. The upper floor has two comfortable ante-rooms and lodge-room proper, with arched ceiling and rostrum. The acoustic qualities are exceptionally fine, and, all in all, it is one of the best halls for the purpose outside of the cities. The grange is still in a flourishing condition, with about sixty members square on the books. Present Master, Henry Tippery; Overseer, A. D. Betz; Secretary, Wellington Miller; Treasurer, Joseph Burgess.

Prior to the year 1830, the population of Norton Township consisted principally of New England people or their descendants, with a few Irish and a few English interspersed. But about that time a thrifty, industrious class of Pennsylvania farmers began to show themselves, and, attracted by the fertility of the soil, soon we find them buying out the Yankees and superseding them in all manner of business. Among the first Pennsylvania Dutch families we find Nathan Seiberling, 1831; Abraham Koplín, 1831; Lautzenhisér, 1831; the next year brought still others, until among the farming community we find at present more than 75 per cent of Pennsylvania people and their descendants. According to the census of 1880, the population of Norton is 2,067. Among them we find 81 persons over sixty-five years of age; 54 over seventy years of age, and 9 over eighty years of age. Twelve pairs of twins were enumerated, of whom two pairs were both females, seven pairs both males and three pairs of one male and one female. Two hundred and eight farms were enumerated, averaging seventy-two acres per farm, and in the crop report for 1880, we find seventy-two farmers reporting 57,276 bushels of corn in the ear, averaging ninety bushels per acre. Seventy farmers reported 23,126 bushels of oats, or thirty-eight bushels per acre. Seventy-eight farmers report 28,551 bushels of wheat on 1,035 acres, or 27.5 bushels per acre. Sixty-nine farmers reported 18,285 bushels of apples (estimated).

The first organized church in Norton was a Methodist society formed as early as 1816, in the northeast part of the township. The earlier Class-leaders were natives of Coventry Township. They held their meetings in private houses for a number of years. James McMahan and John P. Kent were the circuit

preachers at that time. John C. Brooks came on in 1817, and was instrumental in bringing about a great revival of religion in that year. We next find Dennis Goddard and a Mr. Booth on the circuit, with James B. Findlay as Presiding Elder. About this time the log-church building in the woods north of New Portage was erected, where powerful work was done for the cause of religion. Under the direction of Brooks, a Methodist society was formed at Bates' Corners, soon after the great revival of 1817. This was at one time a very strong society. A church was built and the society was prosperous for a considerable number of years. Next after the Methodists, the Baptists got a footing at Bates' Corners, and organized a society, but by whom is not known. They, in their turn, were succeeded by the Disciples and Congregationalists, and in 1847 a Union, or more strictly speaking, a Lutheran society was formed with about forty members. Daniel Bauer and David Moser were the first Elders, with Charles Miller and William Sweitzer, Deacons. John Ruhl, a Reformed minister, was the first one employed regularly. Meetings were held in the Disciples' Church until 1851, when the Evangelical Lutheran and German Reformed united and together erected the church building now in use. The corner-stone was laid about the 10th day of May, by Revs. D. Rothacker and J. W. Hamm; the latter had been serving the society some time before. The church is built of stone and finished with a gallery on three sides, at an expense of about \$2,300; was dedicated in November, some time toward the close of the month. Rev. Rothacker was employed by the Evangelical Lutheran society at that time, and continued to serve them until October 1, 1875, when the Rev. J. H. Smith was called to the pulpit, and has served them since. Father Hamm served the German Reformed society from 1849 till 1862. Rev. C. H. Reiter, 1862 till 1868, since which Rev. S. C. Leiter has had charge of the flock. Present number of communicants: Lutheran, 190; Reformed, 140.

At Western Star, a Methodist Church was organized about 1835, or perhaps later. Among the early circuit preachers were Rev. Lorenzo Bevin, in charge of the society at this place. No regular church building was erected, although a lot was deeded to a religious association by Nathan Starr and wife, of Middletown,

Conn. which was to revert back to the grantors if not used for the purposes and in the manner specified. In 1878, the United Brethren formed a society at this place, with a membership of fifty-two, and, the following year, a church building was erected, at a cost of \$2,200. It was dedicated by Bishop Weaver. Revs. Sprang and Whitney served the congregation the first year, and at present Revs. Sprang and Moody have the charge. Present membership, about fifty. In 1838, a union society of German Reformed and Evangelical Lutheran communicants was formed in the southwest part of Norton Township, with some members in Chippewa Township. A site was secured, and a building erected by Peter Burkert (now living in Akron). The building was quite large, with gallery on three sides. It was used as a church for thirty-five years, and originally cost about \$1,700. In 1873, a new church was built on the opposite side of the road in Wayne County, at a cost of \$3,200. Father J. W. Hamm served this charge for thirty-three years in succession, having been the first Reformed minister installed as Pastor of this church. The present Pastors are Rev. S. C. Leiter and Rev. Mr. Sponseller. At Johnson's Corners a Methodist society was organized, as already mentioned, in 1835-36. A church building was erected in or about 1841, and used as such until 1871, when a new church was built for the same society at a cost of \$5,000. It was dedicated by Rev. Mr. Osborn, of Akron. Present Pastor, William S. Fitch; number of communicants, forty. The old church was at first seated with rough boards laid across poles, with legs put in by boring holes in the poles and inserting a short stick. These served as seats for some time, when Thomas Reese finally put in better seats.

The Reformed Church at Johnson's Corners was organized in 1852 by Rev. P. J. Spangler, with David Waltz and Henry Yaukey, Elders, and John Hoffman and Michael Wise, Esq., as Deacons, and about twenty-five lay members. Their meetings were held in the old Methodist Church until 1868. Prior to the organization of this society, Rev. George Schlosser, a German Reformed minister, had preached at and around this place in schoolhouses. He was a powerful speaker, talented and able in debate. Spangler was also a good speaker and served the

society seven or eight years; he was followed by Rev. Jesse Schlosser, who remained about two years; next came Rev. David H. Reiter, who also served the charge about two years, then Rev. Jesse Hines about four years, Rev. J. J. Excell not quite two years, when S. C. Goss took the charge, and has retained it ever since. He was educated at Heidelberg College, Tiffin, Ohio. In 1868, the society erected a house of worship of their own, which was dedicated about the 1st of November. The church cost about \$2,200, is a medium-sized, comfortable building; present membership about seventy-five. In 1868, a church was built at New Portage for the Methodist society of that place, which cost \$2,500. It is well finished throughout, and stands on a hill overlooking the surrounding country. The present number of members is about seventy-five, under the charge of William S. Fitch. The history of the churches of Norton would be incomplete without the mention of the great Mormon excitement between 1832 and 1838, and even considerably later than that. When Joseph Smith settled at Kirtland, Ohio, to establish his earthly Zion, one of his followers (who afterward became an Elder), Sidney Rigdon, began to work as a missionary. Around New Portage meetings were held, frequently at private houses, and people joined the Mormons by the score. A great *love feast* was held by them at one time, at which Joseph Smith himself was present. Rigdon suffered considerable persecution for his faith, having at one time been treated to a coat of tar and feathers at Kirtland, along with Smith. Rigdon was the originator of the "spiritual wife" theory, which afterward led to polygamy. Upward of twenty-five souls left Norton and followed the Mormons on their Westward journey in search of Zion, and many more remained behind whose faith in Mormonism remained apparently unshaken.

Norton Township supports eleven schools, most of which are in session nine months in the year. During the year 1880, \$2,707.60 was expended as tuition for an average daily attendance of 400 scholars. Average price per month paid to teachers was to males, \$28; females, \$20. Total enumeration between the ages of six and twenty-one, 664; total value of schoolhouses and grounds, \$8,350.

CHAPTER XXVI.*

GREEN TOWNSHIP—PHYSICAL FEATURES—SQUATTER-HUNTERS—AN INCIDENT—SETTLEMENT—
PIONEER HARDSHIPS—MILLS AND OTHER INDUSTRIES—SCHOOLS—
CHURCHES—GRAVEYARDS—VILLAGES, ETC.

GREEN TOWNSHIP is situated in the southern part of Summit County, below the forty-first parallel of latitude, which is the southern limit of the Western Reserve. This township is bounded on the north by Coventry and Springfield; on the east by Lake Township, of Stark County; on the south by Jackson Township, of Stark County, and on the west by Franklin Township. Green is Township 12 of Range 9, in what is known as "Congress land." It is six miles in extent from east to west, and about five and one-half miles from north to south, containing nearly if not quite thirty-three square miles of land. The general character of the land might be considered rolling, but toward the southwestern portion the undulations are much higher and these elevations are called "hills" by the inhabitants. The township is naturally well drained by several small streams and creeks, which wind around the hills and through the vales, but this natural drainage has been improved by numerous ditches. The water-shed between the Mississippi Valley and the St. Lawrence basin extends into this township and divides the waters which descend from the heavens. This can plainly be seen on several different farms. A short distance west of the Gongwer Schoolhouse, near the center of the township, are two small swamps; the overflow from one finds its way to the Gulf of Mexico, while the waters of the other reach Lake Eric, on their route to the sea. The soil of the township is very fertile and well adapted to farming, and Green ranks with Springfield and Franklin Townships among the richest agricultural townships in Ohio. Several of the farms are underlaid with beds of rich coal, and the owners of other tracts suspect that the vein is also hidden beneath their land, but their fears of disappointment prevent them from prospecting for the desired treasure. A mine has been worked on Wise's

farm, in Section 24, for some twelve years, and another on Whitacre's land, about one half-mile south of Greentown Station, for nearly, if not quite, three decades. Some thirty rods east of the township line they discovered a vein of iron ore, many years ago, which they mined for a short time, but failed to find a sufficient amount to make the mine a profitable investment. Several veins of coal have been struck while miners were prospecting on various farms in Green Township, but the results obtained did not please the operators, and the mining was discontinued. Among these abandoned shafts is one on John Kepler's farm, southeast of the village of East Liberty.

On Sections 7 and 18 of this township, is a portion of Turkey Foot Lake, the greater part being situated in Franklin Township, on Sections 12 and 13. This body of water is about one mile in length from east to west, and varying in its width. At the narrowest point, directly on the township line, it is but little over a quarter of a mile in width, but, at both ends, it is from one-half to three-quarters of a mile in width. It is called Turkey Foot Lake because the shape of the sheet of water resembles the foot of a turkey. Just north of this lake is the "Reservoir," a portion of which extends into Green Township, on Section 6. Another small lake or pond is situated in this township, upon Section 33. This sheet of water, which would possibly be more correctly termed a marsh, lies between the hills, and is about one mile in extent from north to south and very irregular in width. The southern portion seems to terminate in a sink-hole, which is said by some to be bottomless, but, by more reliable authority, from sixty to eighty feet in depth; the sink-hole covers an area of about three acres. There are also three very deep little lakes or sink-holes on and near the southwest corner of Section 20, which have destroyed many head of cattle in times past that approached too near them and

*Contributed by Thomas P. Hopley.

were swallowed in the miry muck which surrounds the ponds. Tritt's pond, on Section 31, and Heckman's mill-race on Section 13, are artificial reservoirs, which serve as water-power for mills. Gen. Bierce says: "One of the greatest curiosities of the township in the early settlement was 'Rattlesnake' Spring, on Section 25, first owned by John Yarrick. It is on the road from Greentown to Greensburg. When Yarrick first purchased this land, the spring was a great resort for rattlesnakes. The water issues from a crevice in a limestone rock, overlaid with a bold bank of about twenty feet high. In the fall of the year, the snakes would resort to this spring and enter the crevice of the rock, where they remained through the winter. When the warmth of spring revived them from their torpor, they would emerge from their winter quarters to bask in the sun. At this season they fell an easy prey to the destroyer. Yarrick and his family would kill hundreds of them, then pile the snakes on a log-heap and burn them. By this wholesale butchery the spring was soon rid of rattlesnakes, but it ever afterward bore the name of its first venomous inhabitants."

For many years previous to the settlement of Ohio by the whites, Green Township must have been a favorite resort of the aboriginal race which then inhabited the State, for in the early day, many remains of their handiwork were found. Gen. Bierce says: "The northwest quarter of Section 25, on land purchased by Cornelius Johnston of the United States in 1813, appears to have been a favorite hunting-ground of the Indians, as arrow-heads, hatchets, skinning knives and other implements have been found there in great abundance. From the numerous flint chips found on that quarter of the section, it would seem to have been a place for manufacturing their stone hatchets and arrow-heads. Where they found the stone is unknown. This spot seems to have been selected on account of its being light-timbered, clear from underbrush, and elevated a little above the surrounding lands. Scattered over this elevated plateau were found piles of stones, varying in size from a man's fist to his head, and arranged in heaps of from four to six feet to a little larger or smaller. Tradition assigns to them the honor of holding the ashes of some warrior or chief, but as no bones or human remains have ever been found in them, I am inclined to think them altars, on which they sac-

rificed to their gods, and the spirits of their departed braves. Among all the tribes sacrifices were common. Tradition says that one of the early settlers in Green attempted to desecrate one of the altars, but after throwing down three or four feet of it, and when he was, as he supposed, about to accomplish his object, he was seized with a supernatural fear, and abandoned the enterprise." Previous to the war of 1812, Indians were quite plenty in the township, but as they sided with the British they were compelled by the white settlers to leave, and since then an Indian has rarely been seen within the limits of Green. Many families who located after the war declare the red men had all left when they came from Pennsylvania. The remains of their old forts and wigwams were seen as late as 1855, according to Gen. Bierce, at the head-waters of the Nimishilla, on Sections 36 and 25. They also occupied several camps near Turkey Foot Lake, and what is now the reservoir, in 1809, when the Kepler family first located in the township. "Among the celebrated Indians who used this township for a hunting-ground was a chief called by the whites 'Beaver Hat.' He had a settlement at what is now the south part of the village of Wooster, where the Baptist burying-ground now is. His Indian name was Paupellnan, and his settlement he called 'Apple Chanqueecake,' or apple orchard. He was a bitter enemy of the whites, and, when drunk, he would take out a string with thirteen white men's tongues on it, dried, and exhibit them with much pride. One day he got out his string of tongues, and began to shake them, when George Harter took his rifle and started after him, saying he would go and kill a buck. The report of a rifle was soon after heard, but he brought back no game, nor was Beaver Hat ever heard of more."—*Bierce*. Harter lived immediately south of Section 16 land for a few years at an early day. Most of the original permanent white settlers of Green Township were Pennsylvania Dutch and their descendants, and the cast and tone of morals and society still retain a decidedly German character. The citizens are honest, frugal, industrious and wealthy. Although the dialect of the Pennsylvania Dutch is to a great extent the medium of communication between the residents of the township, it is seldom an inhabitant is found who cannot understand when asked a question in English, and these excep-

tional cases are generally the aged and infirm. Many of the early settlers and their children refused to adopt the advanced ideas and new improvements advocated by the genius of the most progressive nation known to history, and many of these old fellows died still clinging to their old notions of the past, but occasionally one still living and blessed with wealth will declare how little he cares for those glories of the nation as shown by mighty works of architectural grandeur; and this poor mortal will expect you to accord to him a meed of praise and make a virtue of his ignorance. But the descendants of these men have, by mingling with a different race, caught the spirit of progress which will in future years bring forth a rich harvest, for by uniting to the bone and muscle the industry and frugality of the German, the refinement and progressive spirit of the Yankee, a generation will be born in Green that will rank with the best bone, muscle and mind of the country.

Green Township was for many years the hunting ground of several families, mere "squatters" on the land, who were as nomadic in habit as they were transient in location. They lived chiefly by hunting and fishing, and many of them paid very little attention to farming. Among these were Johnny Holmes, an old fellow who was raised with the Indians and was possibly a half-breed. He married an Indian squaw, and they lived with Williams, an Indian, who camped on Williams Run. When the war of 1812 broke out, Williams was anxious to leave for Upper Sandusky, but Holmes did not wish to go, and this created bad feeling between the two. Williams left with his wife and after two days sent back for Holmes, reporting that he had reached a place where much game abounded; this had the desired effect upon Holmes, and he left with his wife for the favored locality, but upon reaching the place found that Williams was still feeling savage toward him, for at supper time he refused to let Holmes have anything to eat, but supplied Mrs. Holmes and his own wife. This to Holmes was a very bad sign, and he left that night for his old home by a different route from the one he had previously traveled. By special agreement his wife returned another way; they met at a secret place in the vast wilderness which was known to both; they were then tired and hungry, so famished that they were willing to

feast on a hedge-hog which Holmes shot. This old fellow afterward settled near New Portage, and after living there some years moved away.

There is considerable ignorance among many old pioneers of Green in regard to the first family that settled in the township. Gen. Bierce in his history stated that "it was John Kepler, who came in the fall of 1809." This is a slight error; Kepler was the first person to purchase Government land and make a permanent settlement, but when he arrived in 1809, there were several families temporarily located on Section 16 land. These were John Cruzen, David Hartman, Basil Viers, the Dixons, the Triplets, and their families. This statement is made on the authority of Jacob Kepler, son of John, Mrs. Mary Paulner and Mrs. Sarah Warner, daughters of Andrew Kepler, and John Buchtel. The former three are over seventy-five years of age, and came with their parents in 1809 and 1810. Mr. Buchtel was twelve years old when he settled in Green, shortly after the Keplers did. Both John and Andrew, sons of Andrew, deny this statement and declare that no other families were living in Green Township when the Keplers came, but Andrew was not born till 1815, and consequently obtains his knowledge through other parties, and John says he was only three years old when his father moved to Ohio. Very little is known of some who located temporarily on these school lands at an early day. They were generally very poor, and the Trustees of the township permitted them to live on Section 16 lands if they would each year put a certain amount of improvements upon the farms they occupied. There is some doubt in regard to which family first located on these lands. Mrs. John Hunsberger, of Greensburg, a daughter of William Triplet, relates that her father always claimed that either he or John Cruzen was the first settler of the township. The wives of these two men were cousins. Cruzen had a large family of children. He once killed an elk near a small stream which was afterward named Elk Run. This spot was one mile and a half southwest of Greensburg Village on the farm now owned by Widow Beltz. It is claimed that this was the only elk ever killed in this section of the State, but a pair of elk-horns were afterward found on old Philip Hartong's farm. Cruzen remained in Green Township

but a few years, and then removed to near Sandusky City.

William Triplet, who was the second settler of the township if Cruzen was the first, appeared about 1807. By the statements of John Buchtel and Mrs. Sarah Warner, he came several years previous to 1809 (the year John Kepler located in the township). William was the son of Joseph Triplet, who also settled in Green with his family a short time after his son did. Joseph was born in England, and for many years followed the sea as a captain's cook. By his first wife he had three children—Hetty, John and Charles; they did not remove to Green with the father. The two sons left for the West before their father did, and were never heard of afterward. Joseph's second wife was a Miss Drake, of Maryland. He followed butchering in Baltimore, then moved to South Branch, Va., where his daughter Hetty married a man named Wolf. Joseph removed to Pennsylvania, then located for a short time in Ohio, near Steabenville, and afterward in Green Township. This old gentleman must have spent much of his time moving; he finally died about the year 1825, aged seventy-one, at the residence of his son William, in Coventry Township. He dressed in buckskin, with coat, pantaloons and vest of that material; wore moccasins on his feet and a fur cap, made from wild-cat, otter or raccoon skin, on his head. By his second wife, Joseph had eight children, all of these were early settlers of Green Township. They were William, the first or second settler of Green; James died in Coventry; Polly, married Simeon Payne and removed to Licking County; Abraham, settled in De Kalb County, Ind.; Betsy, married Jonathan Potts, and they moved West; Sallie, married Samuel Hanes, they settled in Brimfield Township; Solomon, who traveled with a circus at an early day, and afterward located in Licking County; Jacob moved to Indiana. These eight children of Joseph Triplet are all dead. Many incidents are related in regard to this family. When they first located in Green Township, they had to secure all supplies at Steubenville, and secured their grist at a mill on the Sandy River, until the old "tub-mill" was built at Middlebury. It is said that William Triplet would plow all day with his horse, and turn it out to pasture at night, but the wolves being very troublesome, it was necessary to guard the animal, and Triplet would

lay down near the animal with his rifle, remaining all night near the faithful beast, in order to protect it. One day the Triplets heard their pigs squealing, and when William visited the pen to investigate matters, he discovered a bear walking off with a fine article of bacon; Bruin always relished pork meat, and never failed to make the settlers uneasy in regard to the safety of their winter supply. An Indian squaw paid a visit to the Triplet family on one occasion, and greatly admired the dress worn by little John Triplet; the effect of her covetousness was that she stripped the white child, and adorned her own papoose with the stolen clothing. William once shot at a deer and missed it; he followed the animal for a short distance, and was suddenly confronted by an Indian, who exclaimed, "Whoa! see me buck?" This unexpected appearance of the native who desired information in regard to "his buck" cooled the ardor of the white deer-hunter, and he relinquished all claim to the animal he desired to capture. The Indians claimed all the game in the forests, and when the whites commenced to settle the county, the red men appeared more frequently on this portion of their hunting-ground, in order to secure as much of their "own property" as they could. William Triplet was drafted during the war of 1812; that is, every able-bodied man was expected to turn out and protect the settlement from the British and Indians. Triplet visited Canton, but was so sick that the doctor exclaimed, "We don't want any such looking men as you are!" and William was sent home. The Triplets lived on Section 16 land for six or seven years, then moved to Coventry Township, where Joseph and his son William died. The latter married Mary Dixon, daughter of Thomas Dixon, an early settler of Green Township. William Triplet was the father of nine children—John, Hetty, Cynthia, Joshua, Eliza, William, Amanda, Marian and Sophia. The eldest, John, is now a resident of Coventry Township; Cynthia is now living in Greensburg, the wife of John Hunsberger. These are the only two of Triplet's children now living in Summit County.

Another early settler on Section 16 land was Thomas Dixon. John Buchtel thinks that the Dixons were the first settlers of Green Township. They appeared about the same time the Triplets did, and the two families were connected by marriage. Thomas was a weaver by

trade, and his daughter Ann assisted him at this occupation. The Dixons had previously lived near Steubenville, Ohio. Thomas had five daughters and four sons—Mary Dixon married William Triplet; Ann married Bazil Viers; Betsy married Jacob Smith; Margaret married David Hartman; the fifth daughter, Jane, died, being unmarried. Triplet, Viers, Hartman and Smith were early settlers in Green; the first three lived on Section 16 land, near their father-in-law. Very little is known in regard to Hartman and Viers, but it is related of old "Granny" Viers, possibly the mother of Bazil, that she was a good hand to call on in case of sickness, and once, when a cow in the neighborhood was bitten by a snake, old granny collected some herbs and cured the valuable beast. It is to be hoped that many other good deeds were recorded for this old lady in the "good book above," for she passed over the river fifty years ago. Thomas Dixon afterward removed to Coventry Township, with his two sons-in-law, Triplet and Viers, and died about the year 1822. Dixon's four sons were Liberton, Michael, James and John; the latter died at New Portage; James and Michael removed to Richland County.

About the name of Liberton Dixon is clustered much that is romantic, for he of all the early settlers of Green Township has been handed down to posterity as the daring adventurer of the early day. There is considerable added to the credit of this mighty hunter of the past which would not bear the closest scrutiny of an unbiased historian; but, if we should fail to give Green Township due credit for being the home of this illustrious Nimrod, and record on these pages some of the stories told about him, then every true son of Green would brand the Summit County history as a "fraud." It is said that Liberton lived with the Indians for seven years, until one evening an old Indian got mad at Liberton while they were around the camp-fire, and took after him with a huge knife. The famous hunter being convinced that "discretion is the better part of valor," fled from the camp and was followed by the warrior. Liberton accidentally tumbled over a brush heap, and the brave shared the same misfortune. It was a lucky accident for Liberton, but an unlucky one for the Indian, who dropped the knife when he fell; Liberton seized the weapon, killed the savage, and

decided to return again unto the haunts of civilization. When on the way to the white settlements he was chased by the Indians who had discovered the body of their comrade. Liberton sought shelter from their bullets behind a tree, but the trunk was so small that it did not satisfactorily answer the desired purpose, and some seven shots were put through his clothing, but nevertheless, he escaped, and afterward settled in Green Township; but, in his after years, he became a bitter enemy of the red man in consequence of their treachery toward him. According to his own accounts many Indians suffered death by his hands. It is said that, in relating his exploits, he would always leave his hearers to infer that the savage antagonists with whom he had frequent encounters had all been sent to the "happy hunting grounds" in consequence of his skill as an "Indian hunter." But the event of his life, which relates more particularly to Green Township, was the tragic death of Wam-pe-tek. This savage was the chief of a band containing about forty, and they had their headquarters near Turkey Foot Lake. These inoffensive red men never harmed the whites, but spent most of their time hunting, fishing and *resting*, at which latter occupation they were very successful. But one day Liberton and the chief quarreled about a beech tree which both claimed. The result was, shortly afterward, the Indian was missing. Some one hearing the report of a rifle, asked Liberton what he had shot. "I shot at a deer," was the reply. "Where is your prize?" was the next question, and his answer was, "I missed the animal." Dixon was a crack shot with the rifle, and never missed the object he fired at; consequently, his statements on this occasion were not believed, and it has always been said that Wam-pe-tek, and not the deer, was his mark; the chief never appeared to clear the mystery, and the supposition is that, while the savage was standing on a log near Indian Pond the fatal bullet struck him. Dixon then threw the body in the pond, which is situated about one mile west of East Liberty, and just northwest of the schoolhouse at that point. Other persons add other statements in regard to the matter. It is stated that a few days after the chief disappeared the ashes of a fire were discovered in the woods, and in them only half consumed were several articles formerly owned by the savage. Also that the band of

Indians suspected Liberton, and would have killed him, but Dixon's brother John interfered. This brother John was also a hunter of some note; but, fortunately, did not consider it was necessary to slaughter every inoffensive Indian who crossed his path. It is related of John that he killed a very large wild-cat at the swamp which is just west of Greensburg, and this locality was afterward called "Wild-Cat Swamp." He also shot a large bear which was on a chestnut tree, standing upon land now owned by Widow Spittler, of Greensburg. Liberton married Mrs. Hannah Culver, formerly Miss Pelton, and removed to Coventry Township, where he died about 1830. There are some old settlers who declare that toward the end of his life he was afraid to go out after night through fear that the spirits of some of the savages he had killed would capture him. Liberton was the father of four children; they all moved West. It is related of Liberton and his brothers that they were brought up in the backwoods and were inured to all kinds of hardships; they could sleep on the ground, and were not particular about a shelter to protect them from snow and rain if they desired repose; they could eat anything and live, march, and work without eating for a much longer time than the men who were the permanent settlers of the township. The Dixons were not afraid of danger, and, therefore, more valuable in turbulent times during the war of 1812 than a score of the farmers who inhabited the town at that time.

John Kepler, who made the first permanent settlement in Green Township, came out to the new country with his family in the fall of 1809. He was a blacksmith by trade, and worked at this occupation some in his new home. His brother Andrew brought him out to Ohio with his four-horse team; he then returned to Pennsylvania for his own family, and they reached Green Township in the spring of 1810. The Keplers were born in Bucks County, Penn., and married twin sisters. John's wife was Magdalena Cramer, and Andrew married Mary. The Keplers purchased from the Government 320 acres, comprising the east half of Section 17. John occupied the western part of this tract and Andrew the eastern half. In after years they purchased other extensive tracts, which are now the property of their descendants. When John first arrived with his family, they

lived for some time in a hut built beside a log; then erected a more permanent residence on the land afterward occupied by his brother Andrew, which they owned during the first winter, and for a short time after Andrew's family came, in 1810; for a brief period both families occupied the same cabin. John Kepler was not able to go to the war of 1812, and so he assisted in sending young John Dixon as his substitute, furnishing him with blankets and other articles of clothing. John was a resident of Green Township for about twenty-five years and was then killed while working a cider-press. His wife survived him many years. John was buried in the graveyard on his brother Andrew's farm. He was the father of nine children, as follows: Catharine, married Henry Warner, of Coventry; John, formerly of Green; Jacob, now a resident of Coventry; Andrew, shot on August 16, 1871, by his son-in-law; Daniel, moved to De Kalb County, Ind.; George, formerly of Coventry, now deceased; Henry, died at eighteen; Samuel, died in Illinois, and Lena, died after marrying Henry Cook. Daniel was the youngest child when the family removed to Ohio. After Andrew Kepler moved his family to Ohio, he sold two of his horses to his brother John, and, shortly afterward, the other two animals died. He then purchased oxen to aid in farming. The family suffered many hardships for several years. The Indians would frequently appear with their ponies, dogs and papooses; they brought baskets which they desired to trade for flour, meal, potatoes and other articles. When Andrew was with the American army, during the war of 1812, the Indians kept his wife supplied with venison, which they exchanged for meal and potatoes. Mrs. Kepler never feared the savages, for they were always friendly and kept their promises. It was only necessary to supply one with a loaf of bread and tell him that venison was desired at a certain time, and he never failed to respond. But the wolves were very troublesome, and would occasionally approach within five or six rods of the fire where Mrs. Kepler was cooking the meals. Mrs. Rebecca Herring, formerly Miss Kepler, says: "We children did not hate the Indians so much as we did the wolves; these animals howled around the house at night until we thought the clap-boards on the roof were shaking." Finally, the State offered a bounty for each

wolf scalp, and the howling tribe of the forests commenced to decrease in numbers, and in a score of years farmers were able to raise sheep with profit. At one time, during the absence of her husband, Mrs. Andrew Kepler caught a wild turkey with her hands; she made a feast, to which she invited her relatives and friends. About the same time, old Joseph Triplet's wife having obtained a rumor, from some source, that the British and Indians were coming, alarmed the neighborhood. The two Kepler families, the Smiths and the Buchtels hastily prepared to leave, and got half-way to Canton before they found the alarm was false. (This was possibly at the time Capt. Drake, in order to try his men, gave a false alarm, and his men became panic-stricken.) Andrew Kepler, after living in the township nearly fifty years, died January 16, 1855, at the advanced age of seventy-eight years and eleven months. He was buried in the graveyard at East Liberty. He was the father of eleven children. Nine grew to maturity, were married and raised large families, and the Kepler descendants are very numerous in Green Township and elsewhere. These nine children are located as follows: Elizabeth married Samuel Stover and removed to Illinois; Mary married three times, and is now the widow of Jacob Paulner, at Greensburg; Catharine married Peter Wilhelm, of Green, and died; Sarah, now Mrs. David Warner, of Green; John, of Green; Rebecca, now the widow of Lewis Herring, of Green; Jacob A. died in Green; Andrew, of East Liberty, and Samuel, struck by lightning on August 10, 1854.

Gen. Bierce says in 1854: "Jacob Smith, Jacob Coleman and Col. Dillman next came into the township. They were all from Center County, Penn. Coleman and Smith died about fifteen years ago (1839) and Dillman twenty (1834)." Of these three men, Coleman settled on land now owned by Alex Stine, and was buried at Uniontown; Jacob Smith was the son of Conrad Smith, who entered the northwest quarter of Section 17 in the spring, and died six months after settling upon it; previous to his death, he endeavored to make a bedstead to sleep upon but failed. His son Jacob put a large boulder upon his grave, and in rough letters carved the name of his father on the stone. It is reported that, after the farm was sold to the Baughmans, this rude monument was taken

for the corner-stone of a new barn. "Col. Dillman," it should be Conrad Dillman, settled upon 160 acres now owned by John Gougler; he was a very moral and religious man, and would go from house to house with his Bible teaching the people. He was a prominent member of the Methodist Church at an early day, and afterward united with the Evangelical Association. His youngest daughter married Rev. Adam Klinefelter, for many years a prominent citizen of Green Township. Dillman was buried on the southwest corner of his farm. The Buchtel family also settled in Green Township at an early day. Peter Buchtel came in May, 1811, with a large family of children, and entered at the Government office at Steubenville the land now owned by John Kepler. Peter was in the American army during the war of 1812, and died of disease at Sandusky City. John, his oldest son, who resides north of Akron, is the father of Hon. J. R. Buchtel, of that city. John relates the following: "The first house we lived in was built of stakes taken from a large chestnut tree which we cut down, and formed a rude hut by leaning the stakes against the log; there were eleven children in our family, but we never had a doctor in our house. We lived mostly on deer's meat and wild honey; father killed twenty-five deer one fall, and found one bee-tree which contained eighteen gallons of honey; after father died, I had to assist in supporting the family; I had to work four days for a bushel of wheat, and two days for a bushel of rye." Peter Buchtel's wife was Margaret Cramer; she was a sister of Mrs. Mary and Magdalena Kepler; their brother Daniel, Jacob and Abraham Cramer were also early settlers of Green Township, locating upon Government land about 1812. Among those who settled in the township previous to 1820, were John Yarrick, who entered the east side of Section 25 about 1809; his daughter was the mother of Lewis Miller, Esq., of Akron; William Ball, southwest quarter of 25, about 1809; Thomas Macbee, northwest of 36, about 1809; Abraham DeHaven, southwest of 24, about 1810; Ludwig Spotts, southeast of 34, in 1812; Daniel Raber, southeast of 24, about 1813; William Beltz, southwest of 26, about 1813; Henry Everhart, northeast of 36, about 1813; Jacob Sichey, northeast of 26, in 1813 (this gentleman always claimed he heard

the roar of the cannon during Perry's victory on Lake Erie, from his farm in Green Township); — Swales, southeast of 26, about 1813; Cornelius Johnston, northwest of 25, in May, 1814; Simon Yarrick, father of Adam, in 1814; Daniel Wise, about 1813; John Kreighbaum, in 1814; Michael Myers and sons with their families, in 1814; Philip Hartong, about 1813; Henry Raber, Sr., about 1814; Adam Working, about 1815; Robert Hall, in 1817; Jost Snyder, in 1819; John Hunsberger came with his family in 1822, and purchased 400 acres on Sections 15 and 22; he brought \$800 with him from Pennsylvania, and the money was hid in the churn while traveling to Ohio; Hunsberger built upon his land the finest house and barn which, up to that time, had been erected in the township; the children of the family received in Pennsylvania a good common-school education, and have always taken a prominent position in Green Township. Abram, the eldest son, taught school for twenty-one successive winter terms; served as Justice of the Peace for twenty-four years, and was also Township Clerk twenty-one years. Among the prominent families who have settled in the township since 1820, are the following: John Foust, in 1822; Henry Warner, 1823; Jacob Hartong, 1824; Jacob Dickertoff, 1826; Henry Beard, 1827; Michael Heckman, 1828; Peter Thornton, 1829; George Chisnell, previous to 1830; Jacob Vandersoll, John Mottinger and George Bidleman, in 1830; David Grotz, 1832; Jacob Humbert and Michael Schreiner, about 1833; Joseph Grable and Charles Stroman, Sr., 1834; Peter Wise, 1835; David Smith, 1836; John Gougler, about 1837; Jacob Grable, 1838; Joseph Stauffer, 1840; Isacc Franks, about 1841; George Foster and George Kline, in 1842.

Most of the early settlers of Green Township suffered many hardships. At first, there were no mills nearer than Steubenville, Ohio, and other supplies had to be obtained about the same distance from their new homes; frequently, some families would run entirely out of provisions, or, by living on short rations for weeks, secured an appetite which would devour anything that could be "chawed." Alex Johnston relates an incident in regard to one family in their neighborhood, who, for a time, had only "parsley for breakfast, parsley for dinner and parsley for supper." Fortunately,

after several days, they secured other diet. Another household demolished the last food in the larder. After planting their early potatoes and growing hungry, they dug up the "seedlings," devoured the outside, and then planted the eyes. But the soil was very fertile, and, in a few years, all had an abundance. Then each man desired to sell his surplus grain; but, for years, there was no market for anything raised on the farm. Consequently, money was very scarce. When a new settler arrived from Pennsylvania, he generally had a small balance in cash, but desired something to eat. The result was, that there was a strife among those having produce to see these new settlers before their neighbors did, and secure a portion of this money to pay necessary bills, such as taxes. John Spotts relates that when his father settled in the township in 1812, wheat was so scarce that Ludwig had to pay \$3 for a bushel. In a few years, the old gentleman had wheat to sell, and then he could not get 25 cents for the same amount of grain. In those days, farmers received so little for their produce that frequently men hauled a load of wheat to Cleveland, and exchanged it for a barrel of salt. Money being scarce, people considered themselves poor, although they had plenty to eat and clothes to wear. Their apparel, however, was generally home-made. Before the canal was completed, all store goods were high, and, consequently, settlers without funds could not always secure these high-priced luxuries; but they clothed themselves, for there were many spinning-wheels brought from Pennsylvania, and the women knew how to use them. The men frequently wore buckskin, and garments made from this material were not an uncommon sight many years after 1820. The forests, for a few years, were full of game; but the white population of the township increased so rapidly that by 1825 scarcely any wolves or deer could be found. The last deer shot in the township was possibly killed by Simon Yarrick, about the year 1830. Bears and panthers were hunted down and exterminated many years previous. Gen. Bierce says: "Superstitious notions about 'spooks' were formerly somewhat common among many of the early Dutch settlers, who dreaded the spirit of a dead Indian far more than they did the living spirit encased in flesh and bones, however well armed. In the early settlement of the township, the low grounds were noted

Samuel Hume

for the appearance of the *ignis fatuus*, or 'Will-o-the-wisp.' By the superstitious pioneers, these dancing and deceiving lights were supposed to be the spirits of the Indians or 'spooks,' who had come back to visit their hunting-grounds, and upbraid the pale faces for their fraud and double tongues. These harmless lights caused many a strong man to tremble, as he paced his solitary way through the dense and dark forest.

But the early settlers of Green Township were not all farmers, and this was fortunate, considering the large amount of produce raised each year, which could not be sold, for want of a market. When these tillers of the soil exchanged, at Canton, forty-four bushels of rye for a barrel of salt, they could not so readily complain because some men thought it was not expedient for all mankind to be farmers, and so followed other occupations. Some of the early settlers who purchased farms, occasionally worked at trades they had learned in Pennsylvania. John Kepler and Michael Myers were blacksmiths as early as 1814, and erected forges near their dwellings. Myers transferred his forge to his son Henry, and he to his son Michael, who to-day uses the vise brought from Pennsylvania by his grandfather. Ludwig Spotts, who came in 1812, also followed blacksmithing. A man named Kauffman started a rude tan-yard at an early day, on the farm now occupied by C. Long, west of Greensburg. In those days, tanners were "lucky" men, for their goods were in greater demand than the fruit of the soil. Nearly everybody had wheat, but few had leather, which they all needed; consequently, leather was valuable, and it was the article with which everything else could be obtained. Tanners would not exchange their work for wheat at all times, for in those days leather was as good as cash, and it was frequently the medium of exchange between the settlers, notwithstanding it did not have the stamp of the Government upon it. Kauffman's tannery was afterward removed to Greensburg. There was also a tan-yard near East Liberty at an early day. The first shoemaker that started a regular shop was old Adam Musser's son John, who manufactured and repaired, about one mile east of what is now Greensburg. Previous to this, Adam Working followed this trade some at his farm, which he entered about 1815. John Foust, who came in 1822, was a

shoemaker, and worked at this occupation during the winter, when his services were more in demand. In those early days, the Knights of St. Crispin would wander through the country, and deliver the settlers from the evils of going barefooted. These cobblers would remain with a family until all the members were "shod" to order, and then seek employment elsewhere. The first weaver who appeared was Thomas Dixon, and he was assisted by his daughter Ann. George Dull, who came in 1814, was a weaver for two years, then returned to Pennsylvania. Jost Snyder appeared in 1819, bringing his loom from Pennsylvania, and followed weaving for many years. In 1824, Jacob Hartong, father of Cyrus, settled on land now owned by the Widow Thursby, and, while his sons farmed, Jacob provided the clothing for his own families and many other settlers of the neighborhood. Philip Hartong, brother of Jacob, came in 1813. For several years, he kept an inn on the old Portage road, near where Jacob King's brick residence is at the present time. The hotel business being unprofitable, he built a saw-mill on land now owned by Henry Krumroy. This mill was erected about 1819, and reported to be the first in the township, but this is very doubtful, as there were many families by that time, and, in all new settlements, a saw-mill is generally provided by some enterprising man at a much earlier period in the history of the community. However, mills of this description were soon numerous. The Hartong Mill was run by Philip and his son Samuel for some twenty-five years. About the same time Hartong erected his saw-mill, John Richards built one on the site now occupied by the Peter Heckman mill. Richards ran this about five years, until he died, in October, 1823. Another was also erected previous to 1827, in the extreme southeastern part of Green Township, on land now owned by Simon Young. Henry Beard started another mill by 1828, and he thinks there was also one on Turkey Foot Lake, in Green, run by a Mr. Rex. Beard continued the business nearly forty years. He also had a fulling-mill and carding machine in connection with his saw-mill, which establishments were conducted for some fifteen years. David Eby also ran a carding and fulling-mill for several years. There were also one or two flouring-mills operated at an early day. Gen. Bierce says: "George A.

Rex erected the first mill in the township (1816-17), at the outlet of Turkey Foot Lake (this was possibly in Franklin Township), but when the State took possession of the water for their reservoir, and raised the level, the mill-site was ruined." However, the State paid damages. Christian Swartz milled at what is now the Stauffer flouring-mill, for three years after he came, in 1835, and, in 1827, Tritt operated a mill, which stood near the present site of the Tritt Mill. When Peter Wilhelm settled in Green Township, May, 1814, he put up a distillery, at which was manufactured much that did not improve the citizens. The establishment was located just south of the present site of Greensburg. John Yarrick also started a still-house about 1820, just southwest of what is now Greentown Station. After some twelve years, this "gin-mill" was discontinued, as was also Wilhelm's.

The early settlers of Green Township found it a very difficult task to travel from one section to another for the lack of roads. The first thoroughfare laid out through what is now Summit County, was the old Portage "Path," which extended from Canton to Cleveland, by the way of Portage. This was in the early days a route extensively traveled by many desiring to journey from Stark County and that section of Ohio, to the lake. The road was located at a very early period, but not completed as a highway for several years. This Portage road entered the township at the southeast corner of Section 35, and crossed it in a northwesterly direction, passing nearly one mile west of what is now Greensburg. A considerable portion of this old "Portage Path" is still used as a highway, but in some places has been vacated. Many years since, Rev. E. Staver had the section across his farm, in Green Township, abandoned and a new road opened. When the early settlers wished to go any place with their wagons, it was necessary to go out with an ax and cut the underbrush away. The second road through the township was laid out by John Richards, from his farm, on the northwest quarter of Section 13, to Canton. It is doubtful if Richards ever had the route of his highway recorded, but deemed that by general consent the settlers would always permit the road to remain, and so they did, for the "Richards" road remains to this day, cutting across Sections 24, 25 and 36 of

Green Township in a southerly direction, and bearing to the east. Other roads were planned and finished to suit various neighborhoods, but for years some of these were very unsatisfactory highways, at first only paths cut out through the trackless forests, but they were improved year after year, until at the present time the roads of Green Township will compare favorably with the highways of any other farming township in the State not traversed by stone pikes.

Until 1840, Green Township formed a portion of Stark County, which was organized in 1809. In 1811, what is now four townships in the northern part of the county, was organized, with one set of officers. Gen. Bierce says in regard to this: "The township then embraced Green, Lake, all of Franklin lying east of the Tuscarawas, and Jackson. The first election was held at the house of Nathan DeHaven, one and a half miles northwest of Greentown, on the 6th of July, 1811. Abraham DeHaven, Jacob Harsh and Joseph Triplet were Judges of the election; Jonathan Potts and William Triplet were Clerks. Peter Dickerhoff, of what is now Lake Township; Christian Bolmer, of what is now Jackson; and John Yarrick, of what is now Green, were elected first Trustees. Samuel Spitler, a resident of what is now Lake, was elected Clerk; George Knodde, Treasurer; William Ball, Assessor; Simeon Harsh and John Kepler, Constables. At the fall election, October 3, 1811, there were only sixteen votes polled in the territory comprised by these townships, and, at the Presidential election, October 20, 1812, during the war, only nine votes. Peter Dickerhoff was the first Justice of the Peace; his commission bore date August 21, 1811. The commission of John Wise, who was the next Justice, bore date June 16, 1814. He resided in what is now Lake Township, and died in Greentown, in January, 1853." Green Township as it now is was organized April 7, 1815, and the following officers were chosen: Trustees, George McCormic, William Ball and Joshua Richards; Clerk, Robert Lawson; Treasurer, Daniel Wise; Constables, David Hartman and Thomas Parker. At the election held only seventeen votes were polled. Green Township continued a portion of Stark County until 1840, when Summit was formed from fourteen townships of the Western Reserve, and Franklin and Green,

from Stark County. Bierce says in regard to this: "That it was the first instance in which the southern line of the Reserve had been broken in the erection of a county, and when the bill was being considered in the Legislature, Senator Hostetter, of Stark, declared: 'You might as well attempt to make a Dutch horse and a Yankee broad-horn work together, as the inhabitants on the opposite sides of that line to amalgamate.' Experience, however, has shown that such fears were groundless, and such divisions wholly imaginary." However, the citizens of Green Township were not generally satisfied with the new arrangement, and, consequently, when the question of a county seat was submitted to the voters, certain men from Cuyahoga Falls appeared among them and promised to use their influence and have Green re-attached to Stark if the dissatisfied citizens of Green would cast their votes in favor of Cuyahoga Falls as the county seat in preference to Akron. If any votes were secured by these fickle promises, they failed to change the result of the election, for it was decided in favor of Akron.

Most of the early settlers of Green Township were Pennsylvania Dutch, and many of these were very ignorant and superstitious, consequently at an early day the cause of education did not flourish. Possibly the first school held in the township was taught by William Triplet, who endeavored to instill into a few youthful minds the first rudiments of knowledge. The children assembled at an old shanty on Section 16 land, and Triplet undoubtedly did his duty, but was not appreciated by the parents of his pupils. John Buchtel, who resides north of Akron, states: "I never learned to write, as there were no schools in Green Township at an early day." Mrs. Herring, of East Liberty, says: "In those days, they had to pay 50 cents a month for each scholar, and if a teacher failed to secure enough scholars, no school could be held for two or three years." Mrs. Herring was the daughter of Andrew Kepler; her sister, Mrs. Paulner, declares: "I had to plow many a day for my father, and had no time to go to school." This was the secret of the absence of educational facilities; it cost something, and they wanted the children to work, and the ignorant minds possessed by some of Green Township's early inhabitants failed to comprehend the benefits of a culti-

vated intellect; consequently they refused to permit their offspring to have advantages which were possessed by themselves in Pennsylvania, and a race was multiplied, a generation raised in ignorance the effect of which will be felt to the third and fourth generation. Several years after Triplet attempted to establish a school in that neighborhood, Nicholas Sichley, who married Andrew Kepler's sister, Susan, made a second trial in a log building on Section 16 land; this building had possibly been occupied as a residence by some of the early settlers on the school lands. Sichley's support was not extensive, and he was followed months afterward by William Early in the same building. This gentleman also taught in other districts of Green Township. About 1820, he was employed in a building on the southeast corner of the land belonging to the Foust heirs; William Sweeney also taught at the same place. A schoolhouse was put up at an early day in what is now the King District, which was also used as a church. Alex Johnston says: "The first school I attended was at what is now Greensburg about 1816. It was taught by an Irishman named Robert Lawson, in a building which had been erected by George Dull for a weaver's shop." The first schoolhouse in District 6 was built about one mile west of my residence after 1820, but at that time, there were special buildings for school purposes in other districts. Simon Yarrick relates: "We didn't go to school much in those days, in good weather had to stay at home and tramp our wheat; boys attended school longer than they do now, sometimes until twenty-four and twenty-five years of age." In about 1823, a German school was taught by a Mr. Crum in the district east of East Liberty; it was held in a log building put up for school purposes some two years previous. Henry Beard taught a few scholars at his home about the year 1827, and thinks this was the first attempt made in southwestern Green, but the lands in that section were not settled until after many inhabitants were in other portions of Green. It is a satisfaction to learn of one Dutch mother who appreciated education, as Adam Yarrick relates: "My mother used to spin on the spinning wheel in order to secure money to pay the tuition of her children. She got a dollar for spinning six dozen cuts and could finish eighteen each day, netting her twenty-five cents. Con-

sequently we got a better education than most children of the township." Among those who taught in the township at an early day, not previously mentioned, were Henry Gates, John Betz, Electa Tupper, — McCauley, Jacob Everhart, George Tousley, — Showalter. McCauley went to sleep one day in his chair, and was tipped over by the large boys of the school. Alex Johnston also taught many terms, and Abram Hunsberger was employed for twenty-one successive winters at teaching in various districts. Simon Yarrick relates of him: "Once we barred old Abram Hunsberger out, and kept him out for three days because he would not treat us to apples on Christmas." Apples were very scarce in those days and prized more by the children than at the present time, when every farm contains a fine orchard of the choicest varieties.

The first ministers to preach the Gospel in Green Township were pioneer missionaries of the Methodist Church; among these were Revs. Holloway and Green. Several families, formerly members of the Evangelical Association in Pennsylvania, united with the Methodist Episcopal congregation, continuing their support to this denomination until some time after Evangelical ministers appeared in the township; one of these early members was Conrad Dillman, who would go from cabin to cabin with his Bible teaching the settlers. The public services were held at private cabins and log schoolhouses for over two decades; in later years, the congregation used the First Evangelical Church until some time after 1840, when a brick meeting-house was erected in Greensburg on land donated by a Mr. Switzer; William McBride built this church, which was finally torn down in the spring of 1881. At one time, the Methodist Episcopal congregation was a strong and influential church, containing about seventy members, but many died or moved West; other troubles weakened the church, and services were held very irregularly; at the present time, the few members left are without a church or regular preaching. Closely following the Methodist ministers in the pioneer days, were missionaries of the Reformed and Lutheran Churches, holding services in the German language. At that time, the differences between these two denominations were so slight that many families encouraged and supported ministers of both sects. It is said that Rev. John

Hamm, a Reformed or German Presbyterian, first conducted services in a round log-house which stood on Phillip Hartong's farm, now owned by Jacob King. This building had formerly been used by Hartong as a residence, but when he built another cabin, his first rude home was donated for school and church purposes. Rev. Hamm lived at Manchester for many years, until he died some five years since. In the early days it was his custom to walk over from Manchester to this log building, accompanied by his wife; he organized the Reformed Congregations in Green Township, both at Greensburg and East Liberty, and it is said those at Uniontown and Mud Brook. It is possible, however, that Rev. Wier, of the Lutheran, and Rev. Faust, of the Reformed Church, conducted services in Green Township, at private houses, before Rev. Hamm did, as they preached at Manchester before he appeared in this section of the State. Among the early ministers of these sects were Revs. Wyant, Haprock, Hartbrook and others. The Reformed Congregation erected the church at Greensburg, now used by the Church of God, or Winebrennarians, and another building was erected at East Liberty and used by both the Lutherans and Reformed congregations. The principal religious sect in the township at the present time is the Evangelical Association, which has two flourishing and influential congregations, one at Greensburg and the other at East Liberty. It is not certain who the minister of this denomination was that first held services in Green, but among those who preached at the cabins of early settlers and log schoolhouses were Revs. Hosler, Samuel Van Gundy, — Fry, Abraham or Henry Neeble, George Mottinger, Joseph Long, Aaron Yombert, Adam Klinefelter, Elias Staver, John Kopf, Abraham Ream, Adam Hennich, John Triesbach and others. Each one of the last four has been claimed by different persons to have been the first minister who conducted services in the township in the interest of the Evangelical Association, but it is conceded by most authorities that the first regular circuit was organized in 1829, that Revs. Adam Klinefelter and Elias Staver were the ministers in charge; they organized the association at Greensburg, which was the first congregation of this sect established permanently in Summit County. These men rode a circuit of about four hundred miles; it was

said of Rev. Klinefelter at his death: "His travels were extensive, as he frequently had to make long and tedious journeys back and forth from Pennsylvania to Ohio in the saddle; the circuits then embraced as much territory as the entire conference district does at the present time. He preached almost every day; was exposed to all kinds of weather; lodged in poor huts and rude log cabins, with a great change of diet; almost impassable roads. The greatest hardships he endured were in Ohio, when the country was yet a wilderness, thinly inhabited and the people mostly poor." Services were conducted at the cabins of various pioneer settlers; among these were Jacob Kauffman's, Conrad Dillman's, Elias Benner's, Fanny's, John Mottinger's, John Buechtel's, Peter Thornton's and others. Schoolhouses were also occupied for many years; finally, about the year 1838, the congregation erected a house of worship about three-fourths of a mile west of Greensburg, at the present site of the graveyard. This church was dedicated by Bishop Long and the General Conference of the Evangelical Association held in it from October 23 to November 2, 1843. Some years afterward, another edifice was erected in Greensburg, which building is now occupied by the congregation. The church at East Liberty was erected in 1869, at a cost of \$3,200; the congregation was organized many years previous, and a Sunday school started since 1869. The first camp-meeting held in Green Township was conducted about the year 1828 on land belonging, at that time, to Phillip Dundore, now to John Leonard; it was continued about one week under the direction of Revs. Joseph Long, Aaron Yombert, George Mottinger and others. Several camp-meetings were afterward held at the same place in after years. Disciple ministers appeared occasionally after 1840 and held meetings; among these were Elders Row, Green and his son, Lockhart and others. Services were conducted in the schoolhouse at Greensburg, and afterward in the Winebrennarian Church. About four years since the Disciple congregation built their present meeting-house, which is one of the neatest chapels in the county. The Church of God or "Winebrennarians" organized their congregation after the year 1850, and about twenty years since purchased their present house of worship from the Reformed Church for \$400. Rev. Cassell is

Pastor at the present time. This sect has another congregation in the southwestern part of the township, who occupied "Tritt's Bethel." This building was erected about the year 1871, while Rev. Lily was Pastor; Samuel Thursby, Joseph Tritt and Emanuel Working were the first Trustees of the association. A Total Abstinence Society was started by Abram Hunsberger and Jacob Dillman previous to 1830, which, for a short time, exerted quite an influence on some of the young men.

"All that tread the earth are but a handful to the tribes that slumber in its bosom." This can be appreciated by one who endeavors to write a record of all the burying-grounds of Green Township. It is not known who was the first white person laid beneath the sod by those early pioneer settlers. Andrew Kepler's little son, Andrew, died about 1812, and was buried on his father's farm, and possibly the first regular graveyard of the township was then established. The exact spot is near the center of the east eighty acres of the southeast quarter of Section 17. When others died in this neighborhood, they were laid beside young Kepler. About fifty interments were made, but scarcely a dozen stones were erected to the memory of these departed ones, and most of the graves have been desecrated. Possibly, old Conrad Smith died before young Kepler. He was buried on his own land, and a huge stone placed over the grave by his son, who carved upon it his father's name. In after years, the boulder was used for the corner stone of a barn. When John Rhodes died, about the year 1825, he was buried on the southwest corner of Conrad Dillman's land. Other settlers were buried here, and the spot of ground became consecrated earth, and sared to the memory of these dead, was fenced in, and Mr. Dillman deeded the ground for cemetery purposes. Years afterward, he was interred upon this land, as was also his wife, Rev. Adam Klinefelter, his son-in-law, Mrs. Klinefelter and many of their children. When a man named Herring committed suicide, about 1828, he was buried just southwest of this ground. John Richards died October 26, 1823, and his wife Katharine, two days later. They were buried on their own land. Their graves were inclosed by a neat fence, and plain stones put up to mark the spot. Some of Mr. Palmer's children, who lived where Levi J. Hartong does now, were interred on that farm

as early as 1830. Old Jonathan Grable was also buried here, and about one dozen others. When Henry Beard's infant daughter Christina died, May 4, 1832, she was laid beneath the sod on Beard's farm. Others of that neighborhood were placed beside her. The ground was fenced in, but no stones ever erected. The Evangelical Church graveyard, about one half mile west of Greensburg, was started about the year 1836. Peter Thornton states he donated the first piece of this land to the church for cemetery purposes, and that his son, George Thornton, aged about twelve, was the first person buried there. In 1875, an additional acre of land was purchased from George Gougler, and added to this cemetery. Rev. Elias Stoeber was possibly the first person buried in the new addition. The cemetery at East Liberty was started about 1845, and is already well filled with those who formerly lived in that neighborhood. But those who died in Green Township were not all laid within these cemeteries; for in those early days, many mothers oft wept beside little graves placed in leafy dell, or near the babbling brook. These little mounds, unmarked by marble slab, were only consecrated by their tears. Many of these lonely burial-places have been desecrated, and the ground plowed over by those who were either ignorant or careless in regard to the sacredness of that soil.

There is considerable speculation in regard to the first marriage ceremony performed in Green Township. Gen. Bierce says in regard to this: "The first *recorded* marriage in the township was Abraham Bair to Elizabeth Harter, who were married by Abraham DeHaven on March 31, 1812, though tradition shows that previous to that time Jacob Smith, Jr., was married to Miss Betsy Dixon, but of which no record was ever made. Tradition says the marriage ceremony of this first couple was 'You bromis to take te voman you holt by te hant to pe your wife, and tat you will shtick to her through hell-fire and dunder? Den I bronounce you man and voman, by cot!' Blair died soon after the marriage, and his widow subsequently married Jehu Grubb, and now resides in Plain Township, Stark County." (This was written in 1855; it is said that she is still living there, although it is now nearly seventy years since her first marriage). The general opinion of many old settlers is that the quaint ceremony above mentioned was actually performed, and

that the man who married the couple was old Andrew Kepler. Several of his children admit that he performed the ceremony, but his oldest living daughter, Mrs. Mary Paulner, says the story is not true. John Buchtel states that Kepler performed this marriage before he received his commission of Justice of the Peace, and that afterward he refused to serve in this capacity. Others state that the last words uttered by Kepler to the bride and bridegroom were "Now, vers mine tollar?" These additional words furnish more convincing proof to the truth of this incident than the second-hand statements of several men. It is doubtful who the first child born in Green Township was. The earliest of which we can obtain any knowledge is John Triplet, son of William, who is now a resident of Coventry. He was born March 4, 1809, and must have been among the first two or three white natives of the township. However, there were several other families at that time living near Triplet's, and the first birth might have occurred among one of these.

Since the settlement of Green Township, three villages have been laid out within its borders; these are Greensburg, East Liberty and Myersville. Greensburg, the oldest of these, was surveyed August 27, 1828, by David Baer, on land belonging to Abraham Wilhelm. This village is located on the southwest part of the northeast quarter of Section 27; it lies considerably south and a little east of the township's center. A short time after the village plat was first made and recorded, Wilhelm decided not to establish a town on his land, but, after several years, the village was permanently located. The place contained only six or eight houses for many years. The tax duplicate of 1846 shows that it then had only ten frame houses, although the plat contained at that time fifty-three lots. When Greensburg Seminary was established, it received a "boom," and a movement was made to have the place incorporated, but it is said objection was raised to this by some who were afraid their cows would not then be permitted to graze on the streets, and the movement was squelched. Among the early business of the burg and vicinity were the following establishments: Wilhelm kept an inn a short distance south previous to 1820; he also had a stopping-place for the old stage line which ran from Massillon to Middlebury, but

this four-horse stage was only run a short time over this route and then changed to a road running through Manchester and Canal Fulton. One of the Wilhelms had a distillery just south of the village, previous to 1820, and, after it was discontinued, a Mr. Moulton ran a chair-factory in the same building. John Shick started the first store, about 1836, and also kept the first hotel; he ran this latter establishment five or six years, and it was finally destroyed by fire; another was built on the same site, which was run by Benjamin Seiss for about ten years; it passed through several hands and is now owned by Peter Thornton and run by Jerry Garmon. The present landlord enlisted in 1861 in the Union army, and served faithfully during the war; he then joined the regular army for several years. Jacob Garmon, his father, put up a hotel on the northwest corner, previous to 1840, and this building was also destroyed by fire. John Hunsberger started his mercantile establishment in the village about 1838; he was appointed first Postmaster of the place under Van Buren's administration; when he settled in the village, there were only six houses; these were two hotels, one pump-factory, Hunsberger's residence, and a wagon-shop, which was run by George E. Smith for many years. The pump-maker, Peter Weidman, remained about ten years. About 1840, the first schoolhouse was built in the village; previous to this the scholars went to school about one mile south. Harry Raefsnider started a tanyard south of the village previous to 1838, but quit after a few years; then another was established nearer Greensburg by Jacob Kauffman; this was afterward sold to John Hunsberger, who transferred it to I. W. France. The first blacksmith-shop was owned by Lewis Denious, and John Wetzel built the first saw-mill. Some thirty years since, a brickyard was established by Adam Leopard. Daniel Bender commenced manufacturing and repairing harness as early as 1843.

Many other industries have been carried on for a time in the village and then discontinued. The first physician to locate there was Dr. John Thomas, who remained about two years. Among those who practiced there in later years were A. H. Mann, H. Peters, Jacob Musser, Wesley Boden, — Garber, C. A. Perdue, David Joseph, B. F. Sampsell, Levi Markam, A. M. Weidler, O. E. Brownell, — Parmlee,

— Howland, — Reynolds and others. An addition was added to the village by Elias Hering, which was surveyed by Henry Beard; John Switzer afterward added another.

The most important enterprise ever established at Greensburg was the seminary. This educational institution was for a few years in a very flourishing condition. It was, to a great extent, under the control of the Evangelical Association, and, at one time, two conferences of this sect desired to control the seminary, and much bad feeling was occasioned. It was finally re-organized with twenty-six stockholders, at \$50 per share, and at another period of its history was conducted in the interest of the Disciples' Church. It was originally started in 1855, with Prof. J. W. Raubalt as Principal, and Miss Jennie Wells as Assistant. The directors at that time were Revs. Abraham Leonard, P. W. Hahn and E. Staver, Alex Johnston and D. Cramer. Prof. Raubalt remained two years, and was succeeded for three years by Prof. Barnes, who had assisted Raubalt one year; then Prof. Idgins was Principal for one year, and he followed by Profs. A. A. Smith and J. W. Hahn. Under the Disciples' Church management, Prof. Williams had charge and G. F. Burgetts was assistant. Prof. Davis ran the institute for a short time in his own interest. During the time the seminary was conducted, many of the young folks of Green Township attended; these acquired a higher and more complete education than the children of those settlers who did not appreciate the value of the institution. During the Know-Nothing movement, quite an influential order of this political secret society was established at Greensburg, and for a time flourished like a "green bay tree," and then gave way before the "irrepressible conflict" which resulted in the rebellion of 1861. The farmer opposed the "middlemen" for a short time by organizing a grange which continued for several years, but the only secret society of Green Township at the present time is Hadassah Lodge, No. 450, of the I. O. O. F.; this was instituted July 9, 1870, by Horace Y. Beebe, with seven charter members, as follows: D. F. Hunsberger, O. E. Brownell, J. P. Snyder, W. P. Hoffert, J. H. Anderson, Stephen Zembrot and C. Intermela. The lodge met for some eight years in a small room back of Hunsberger's store. At the present time they have one

of the finest lodge-rooms in Ohio for a village the size of Greensburg.

East Liberty was laid out on land belonging to John Castetter February 15, 1839. It was surveyed by Henry Beard, and Adam Yerrick assisted in carrying the chain. George Andrews put up the second house immediately south of Castetter's, who then occupied the southeast corner of the town; Castetter kept a cabinet-shop there for about fifteen years. George Andrews opened the first shoe-shop. Daniel Lutz started a tannery at an early day, which he sold to Henry Raefsnider and David Thornton; the latter sold out to the former, and after ten years the business was continued. About 1841, Andrew Kepler built the tavern now owned by Kroft. Several stores have been established in the village during the past forty years; prominently among these is the establishment conducted by Charles Stroman for some fifteen years. This gentleman taught school for twenty-one terms, was Clerk and Treasurer of the township for many years, took the census for one decade, and was Postmaster ten or twelve years; he died May 8, 1879. The first physician who settled in the village was Dr. L. S. Witwer, who remained about six years, and was succeeded for about five years by Jonathan Buehtel. There is some jealousy and strife between the two villages of East Liberty and Greensburg, which is manifested mostly at spring elections. By

general consent, the polls are held at Greensburg in the fall and at East Liberty in the spring. The result of this is that the township officers are generally "East Libertyites," and this occasionally causes some of those aspiring to these same positions who reside at and near Greensburg to feel dissatisfied with the successful political spring campaigns waged by the sons of Liberty, but in the fall the Greensburgites generally do the "smiling."

Myersville, which is destined in the near future to be the most important village of Green Township, was surveyed by Jacob Mishler on the land of J. B. Myers. The plat has not yet been recorded by Mr. Myers. The first house was built by Moses Kroft in the summer of 1876. The next year William Miller erected one, and Curt. Brause and James Riley started the saw-mill. A storeroom was built and Edward Steese opened out a stock of goods, and afterward sold out to William Sweeten, who continued the business from April, 1880, to February, 1881, when he removed to East Liberty. The warehouse was erected by Edward Steese in the summer and fall of 1879; it is now leased by Hunsberger & Shick; the first grain was purchased March 17, 1880. The construction train of the Valley road first passed over the Uniontown public Road at Myersville Station August 4, 1879, at 10:15 A. M.

CHAPTER XXVII.*

RICHFIELD TOWNSHIP—DESCRIPTION AND TOPOGRAPHY—EARLY SETTLEMENT—DEVELOPMENT OF INDUSTRIES—VILLAGES—CHURCHES AND SCHOOLS—INCIDENTS
—THE GREAT SLEIGH-RIDE, ETC., ETC.

IN writing the history of even so small a part of the earth's surface as is contained in one of the Western Reserve townships, it becomes evident that nothing like absolute justice and impartiality can be attained in any history whatever. The truth is, no history absolutely correct in every particular was ever written. To give just the right amount of importance and space to each individual and interest would manifestly be impossible. It might be a curiosity to see a book wherein each

individual was allowed to dictate or write up his own consequence and that of his family; but such a production would give a very incorrect idea of individuals and their affairs. Some would be swelled out of all proportion to their real importance in the community, while others, through innate modesty, would only occupy a few lines, if they allowed themselves to appear at all.

Gen. Bierce, of Akron, published in 1854 a small volume of "reminiscences." His labor must have been great, and his reward small.

* Contributed by Dr. A. E. Ewing and S. R. Oviatt.

From his book many items in this sketch are taken and duly acknowledged. Where his words have been copied, quotation marks are used; but, in some cases, his facts are given without such credit. Of Indian history, treaties, etc., Gen. Bierce says: "By the treaty of Fort McIntosh in 1785, the Cuyahoga River, Portage Path and Tuscarawas River were the western boundary of the United States. This was confirmed by what was called 'Wayne's Treaty,' made at Greenville, August 3, 1795; the chiefs of twelve tribes were present and ratified it. The land on the west side of the Cuyahoga was not purchased until 1805, when the United States acquired it by the treaty of Fort Industry, on the Maumee. This fort was on the land of a Wyandot chief by the name of Ogonst, who, with his tribe, hunted on the grounds between the Maumee and Cuyahoga, in connection with the Miamis, Pottawatomies, Delawares, Shawanese, Ottawas and Senecas. There was also a small band of Mingos on the west bank of the Cuyahoga, being a part of the Cayugas, but formed a distinct band." Here follows in Gen. Bierce's book some further particulars, which will be found in fewer words, and with a trifling error or two corrected further along in this chapter.

The township of Richfield is known as Town 4, in Range 12, and may well be considered one of the choice townships in the Connecticut Western Reserve. Its estimated value in an early day as a township was adjudged above the average. A strip of land, designated as "Tract 7," about seventy-two rods in width east and west, and extending the whole length of the township from north to south, containing about seven hundred acres, was cut off the east side of the township and annexed to the township of Boston, thereby placing the geographical center about thirty-six rods west of the centers of other townships in the same range.

The surface of the land in Richfield, from a point about a mile northeast of the center, in what is called "Furnace Run Valley," to the southeast corner of the township, is very broken and hilly, but the township generally exhibits a rolling and undulating surface, possessing a rich and fertile soil, and consisting of a gravelly loam, with a clay subsoil, producing good crops of both grain and grass, and distinguished likewise for its fine fruits. The extreme altitude of the township is about eight hundred

feet above Lake Erie, and 1,365 feet above tide water at New York, giving to it a circulation of pure air, free from miasma or any malarial influence. One of the old pioneer physicians, Dr. Rawson, after forty years' practice, said that he never knew a case of fever and ague that originated in this township. Richfield is bounded on the north by Brecksville Township, in Cuyahoga County; on the east by Boston Township; on the south by Bath Township, and on the west by Hinckley Township, in Medina County. It abounds in springs of pure water well distributed, and two considerable creeks, viz.: a branch of Rocky River, which flows for a mile or two through the west part of the township in a southerly direction, then enters Medina County and Furnace Run, which rises in the northwest part of Richfield, flows southeast and empties into the Cuyahoga River at Everett, in the southwest part of Boston Township. The name of Furnace Run was obtained through the discovery of iron ore in the valley bordering it, and the probability of the erection of a furnace in the immediate neighborhood. When first seen by white men there were in the west and south parts of the township a heavy growth of beech, maple, hickory, ash, black and white walnut, interspersed with large oaks of the different varieties, while nearly all the eastern part was covered almost exclusively with white oak.

When the Western Reserve was conveyed to the State of Connecticut, and, in turn, by the State to the "Connecticut Land Company," Richfield, in "the draft," became the property of five or six proprietors or land speculators. Col. Benjamin Tallmadge owned the northwest quarter, which was designated as "tract one;" Capt. John Smith, tract two, and a fraction north, in southwest quarter; Edwards & Green, tract three, in south and southeast part of the township; Uriel Holmes, a tract in the northeast quarter, and J. Wilcox tract six, in the east part. The northwest quarter, or tract one, containing 4,000 acres, was sold in 1811, by Col. Tallmadge to Capt. Heman Oviatt, for the sum of \$5,000, who, soon after, had it re-surveyed into quarter-sections by Alfred Wolcott, the father of Hon. A. Wolcott, of Boston Township. For this service he received fifty acres of land, and was allowed to take his choice of any fifty acres in tract one. He chose a lot near where John Comstock now

lives. The name Richfield seems to have originated from a weed which grew here in great abundance, in an early day, and which was very nutritious and greatly relished by stock. It was called by some "ox-balm," but more generally known as "rich-feed," and, by a very slight corruption, it became "Richfield." This name was given to the township at the time of its organization in 1816, by the Commissioners of Portage County. For two years after the organization of Richland, it included what is now the township of Bath. The first officers elected for Richfield, in April, 1816, were as follows: Daniel Keys, Nathaniel Oviatt and William Jourdan, Trustees; John Bigelow, Clerk; Isaac Welton, Treasurer; Jared Barnes and John Farnam, Overseers of the Poor; John Bigelow and Isaac Hopkins, Constables; John Farnam, Jason Philips, Isaac Welton, Elijah Hale and John Holmes, Supervisors. In the year 1818, the township of Bath was set off from Richfield, leaving the boundaries of the latter as they are at the present day.

The first white man to settle in what is now Richfield Township was Launcelot Mays, who came here in 1809, and was followed, in 1810, by Jared Barnes, Daniel and John Mallet (father and son), with their families. During the same year, a daughter was born to Mr. and Mrs. John Mallet, which was the first white child born in the township. In 1811, Nathaniel Oviatt, of Goshen, Conn., came to this town with his family, performing the journey with oxen and cart the whole distance. The same year, also, Enoch D. Buck, Mr. Nelson, Jason Philips and Ben Payne arrived, with their families. In 1812, the first death of a white person occurred, that of Polly Payne, who died at the age of eighteen years and three months. She was a sister of the venerable John Payne, who, at the age of eighty-four years, is still living in the town. The first couple married was William Carter and Miss Betsey Mays. They were married by Alfred Wolcott, a Justice of the Peace, in 1812. Alfred Wolcott and Lernal Farnam were the two Justices of the Peace for the territory now comprising the townships of Richfield, Bath, Boston and Northampton from 1812 to 1816, when, upon the organization of the township of Richfield, Isaac Welton was elected Justice of the Peace, his commission (now in the hands of I. T. Welton) bearing date July, 1816.

In 1812, Amos and Johnsey Barnes also settled in the township. Judge Isaac Welton came in 1812, cleared off the ground and sowed six acres of wheat. He then returned to Connecticut on foot, and moved back here with his family in 1813. John Farnam and family came also in 1812, and located north of the center, on what, with its numerous additions, is called the "Farnam Domain," and is owned by Everett Farnam, who is still living, at the age of fourscore years. At about this time, and for two or three years following, we find Amos and Jonathan Searles, Timothy Hurlburt, Moses Worden, Jacob Spafford, John Bigelow, Stephen Welton, Elijah Welton, Bildad and Israel Hubbard, Stephen Pixley, John Wilcox, Nathan Carpenter, Daniel Moulton (father of Col. Moulton, now of the Treasury Department), Earl Moulton, William West, Reuben Cooley, Alvin Cooley, Newcomb Carter, Bradford Sturtevant, Salmon Oviatt, Elijah Ellsworth, Augustus Adams, Birdsey H. Oviatt, Samuel Robinson and John Newton, as settlers in Richfield Township, nearly all of whom came from Connecticut and Massachusetts. Vigorous in mind and body, and with willing hands, they came prepared to battle with the wild beasts of the forest, and have succeeded in leaving to their descendants the beautiful homes they to-day enjoy.

[The following narrative, which scarcely belongs in the history of Richfield Township, is given herewith, as illustrative of pioneer life, and, at the request of the writers of the chapter on Richfield, many of whose citizens are descendants of the "captives" mentioned. The narrative was originally published in the *Litchfield (Conn.) Enquirer* in 1833, and in the *Ohio Observer* in 1846.—Historian.]

Soon after the "French and Indian war," Mr. Nathaniel Carter removed from Killingworth to Cornwall (Conn.), where he purchased a farm and resided for some years. But, as the tide of emigration was at that time setting from New England toward the pleasant and fertile valleys of the Delaware and Susquehanna in Pennsylvania, early in 1763, Mr. Carter, with some of his hardy neighbors, began to make preparations for removing thither. The accounts which they had received of that country had filled them with glowing anticipations, though they were by no means unmindful of the fact that the life of a pioneer was one of hardship and peril. Mr. Carter's family at this time consisted of a wife and six children—Jemima, the eldest daughter, having a short time before been married to Mr. John Bates, of Warren. The other

children were Nathan, Sarah aged eleven years, Elizabeth eight, Nathaniel six, and an infant.

On a beautiful morning in the spring of the year above mentioned, this family (except the married daughter), together with two other families from the same neighborhood, took up the line of their journey to the "land of promise." After a tedious tour, marked with the usual vicissitudes and adventures of such a journey, they arrived in safety at the forks of the Delaware, where they remained a short time, and ultimately settled on the Lackawaxen Creek, in Wayne County, about twelve miles below the site of the present town of Bethany. They advanced about fifteen miles beyond any other white settlement, cleared a small spot near the bank of the stream and erected a building of logs, in which the three families resided. Here they passed a few months in apparent security, engaged in various employments to improve the safety and comfort of their new residence. The tall trees immediately before their dwelling they had in part cleared away, some grain and garden vegetables were growing near by, while around the doorway a few flowers, transplanted from their dear native New England, were budding and blossoming—adding variety and beauty to the scenes of their wilderness home. While some were laboring, others carried the muskets and ammunition, acting as sentinels, that they might seasonably be apprised of approaching danger. Every day seemed more promising of future happiness and security, and added something to their little stock of comforts. The wild scenery had become familiar to their view, and an agreeable interest had associated itself with most of the objects which were embraced by the little horizon, formed by the tall and unbroken forests which stretched away to an almost interminable breadth around them.

One day in the latter part of September, when the inmates of this little settlement were occupied in their usual pursuits, Mr. Carter, with his eldest son and one or two others, being engaged in building a house a short distance in the woods, and the man whose business it was to act as sentinel having gone a few rods out of sight of the house to examine some traps, the Indians, who had been secretly watching for their prey, uttered their savage war-whoop, and rushed upon these defenseless women and children. At this moment, Mrs. Carter and her daughter Elizabeth were a few yards from the door engaged in picking corn for dinner, Elizabeth, seeing them before the war-whoop was given, and knowing from their peculiar appearance that they were banded for war, turned to her mother and gave the alarm, but her words were scarcely uttered before she saw that beloved parent turn deadly pale, and the next moment she beheld the tomahawk buried deep in her skull. The Indians, twelve in number, then rushed into the house, where were the elder females, one of whom was confined to the bed by illness, a daughter of the same woman aged sixteen, who was also ill; the infant daughter of Mr. Carter and five other children. One of the Indians seized the infant and dashed its brains out against the logs of the house; and the two sick women were instantly put to death with

tomahawks. The man who had gone to examine the traps, hearing the shrieks of the sufferers, hastened to their defense, but had only time to discharge his gun once, before he received a death-blow from the hands of the assailants.

The Indians, having selected such of their captives as they supposed could best endure the hardships of savage life and taken the scalps from those they had killed, and also having taken the clothing and utensils which they thought would best serve their convenience, they set fire to the house, and then hurried off to their encampment a short distance from thence, on the opposite side of the creek. The captives were three children of Mr. Carter (Elizabeth, Sarah and Nathaniel), Mrs. Duncan, and three children belonging to the other family. At the encampment they found about 200 Indians, principally warriors. Several large fires were burning, around which the Indians began to regale themselves with roasted corn and other refreshments, which they had brought from the white settlement. After having freely indulged themselves in exultations at their recent success, and night approaching, they secured their captives with cords and stretched themselves on the ground around the fires. Sarah, the eldest of the three children of Mr. Carter, appeared perfectly distracted by the circumstances of her situation. She continued crying and calling for her father to come and rescue her. The Indians several times appeared determined to silence her screams with the tomahawk. At length, when they had become buried in sleep, Sarah obtained a small brand from the fire, with which she barely succeeded in burning the cord which bound her to the savages, but leaving her hands still tied together. In this situation, and surrounded by the midnight darkness, she succeeded in finding a canoe, and losing it from its fastenings, in which she reached the opposite bank, and, finally, found her way back to the smoking ruins of her recent home, where she gave way to the most violent lamentations. Though her cries were distinctly heard at the encampment, she was not pursued until morning, when she was re-taken.

The Indians then commenced their journey through the woods, carrying their captives on horseback. After pursuing their route three days in a westerly direction, they halted and sent back a war party of about one hundred. After five or six days, the party returned with several scalps, and the horror of the unfortunate captives can scarcely be imagined, when they discovered among the number, those of Mr. Carter and Mr. Duncan. These men on returning from their labors and seeing the desolation wrought by the Indians, repaired to the nearest white settlement, and procured the aid of forty men, with whom they returned for the cattle, and with the faint hope of recovering the captives. Just as they gained the vicinity of their recent home, they were suddenly surprised by the yell of these savages and by the flight of their arrows. About half of Carter's men instantly deserted, and left their companions to fight the battle as best they could. Yet, though struggling against such fearful odds, these brave men stood their ground, till Carter found himself alone—all besides having been

either killed or disabled. He had stationed himself behind a rock, and still kept up the fire until struck down by the tomahawks of the enemy. Some four or five of those wounded in the early part of the engagement, succeeded in crawling so far into the forest as to elude the subsequent search of their wily foes, and at length reached their homes.

On the return of the Indian warriors to the encampment, there was great lamentation and mourning among the savages, over those of their number who had fallen in the battle, more than half of the 100 being among the slain. The Indians then recommenced their march through the woods to the residence of their nation. As nearly as the captives could recollect, they traveled several days diligently in a northwesterly direction, and at length arrived at their place of destination. Here in dark filthy huts, ornamented with the scalps of their parents and friends, separated from each other, did these lonely captives spend the long and tedious winter, in a state of almost perfect starvation. The Indians would never go abroad to obtain new supplies of food so long as one morsel remained, and then sometimes returned with little success.

Nathaniel, the youngest of the captives, having from the first been a general favorite with the Indians, was treated by them with great comparative kindness and attention, and with so much success, that the little white stranger soon ceased to mourn his bereavements, and join heartily in the amusements and pastimes which they devised for the purpose of diverting him, and making sport for themselves. Early in the spring they deserted their winter quarters and journeyed toward the lakes. After a tour of several weeks they arrived in the vicinity of Fort Niagara, where Elizabeth and Sarah were ransomed through the negotiations of Sir William Johnson. But all efforts to obtain Nathaniel were unavailing. No consideration would tempt the Indians to part with him, and, strange as it may appear, he had become so much attached to them that he would not consent to leave them. His sisters, after bidding him an affectionate and final farewell, were conveyed to Albany, where their Connecticut friends, being apprised of their ransom, met them, and they soon had the unspeakable gratification of once more visiting the home of their nativity, and of finding themselves surrounded by sympathizing friends and relatives. Yet it was long, very long, before they ceased to mourn over the dreadful scenes through which they had passed, and their sad bereavements.

The reader who has followed thus far our narrative, may feel an interest to know something of the subsequent history of the captives. Sarah Carter, from her ill treatment and mental sufferings never fully recovered. Though she lived to old age, her intellect was permanently impaired; she died in Goshen, Conn. Elizabeth was married to Mr. Benjamin Oviatt, of Goshen, and died in that town in 1835. Among her children were Mr. Luman Oviatt, of Goshen; Heman Oviatt, Esq., an enterprising citizen of Hudson, and a liberal patron of the college at that place, more recently a resident of Richfield; Mr. Nathaniel Oviatt and Mr. Salmon Oviatt, of Richfield.

Nathaniel grew up among the Indians, imbibed their habits, and married one of their daughters. It is a remarkable circumstance that among the articles which the Indians carried away with their captives was a Bible, which they afterward gave to their young favorite. He had previously learned to read, and by means of this book, which he kept till manhood, he ever retained that knowledge. He died in the Cherokee nation, at the age of about seventy.

Some years later, while the foreign mission school was in operation at Cornwall, Conn., Mr. Isaac Bates, a warm friend of the school, received a letter from a missionary among the Indians, stating that he had sent on to be educated a young half-breed Indian, of fine talents and exemplary piety, named Carter, expressing a wish that he would become acquainted with him. An early acquaintance with the young man was sought by Mr. Bates, and greatly to his surprise he discovered in him a son of the long lost captive. The youth remained at the school some time, frequently visiting his relatives in that vicinity. After completing his studies, he returned to his native country with a view of there preaching the Gospel.

The first saw-mill was built in 1818 by John Farnam, about one and one-fourth miles north of the Center, on Furnace Run, near what is now called "Lake John." A few years later, it was moved lower down the creek. In subsequent years, there were no less than seven saw-mills on Furnace Run at different times, and two saw-mills and one grist-mill in the west part of the township. But the first and most primitive grist-mill was built by Enoch D. Buck. It was made by hollowing out the top of a white-oak stump, and using a pestle worked by a spring-pole to crack or grind the grain.

There are two villages in the township, one at the Center and one (now the largest and most flourishing) about three-fourths of a mile west of the Center, and is called West Richfield. Between the two villages, and near West Richfield, is a steam grist and saw mill, that has been in successful operation for twenty-three years, owned by A. C. Shepard. The oldest frame building now standing is at the center of Richfield (occupied by S. R. Oviatt), and was built by Gen. O. M. Oviatt in 1820. He also built the store at the center of Richfield in the same year. Two of the old pioneers who assisted in building the store are still living, viz., John Payne and Lester Hall. The following year, the frame houses of John Farnam, John Newton, Salmon Oviatt and Nathaniel Oviatt were erected. The two latter

were built by two young men who were carpenters, and who came on foot from Guilford, Conn., in 1820, with their knapsacks, and settled for a short time in Brecksville; their names were Martin Chittenden and James W. Weld. A few years later, they settled in Richfield, and, together with Deacon T. E. Ellsworth, were for some years the building mechanics of Richfield, and were among our most worthy citizens. Deacon T. E. Ellsworth still is living in West Richfield. Mr. Chittenden served a few years as Justice of the Peace, and died in 1841. James W. Weld, about 1830, built and occupied the first frame hotel (now called the Ellas House) at the center of Richfield. It was the stopping-place for the four-horse stage-coach on its route through from Cleveland to Massillon. He was Justice of the Peace for a number of years, and a well-read lawyer, although he never practiced at the bar. He was Treasurer of Medina County two years, from 1840 to 1842. He returned to Richfield, and was an active leader in every moral and religious enterprise. He died in March, 1863.

Among those who devoted considerable attention to fine fruit, for which Richfield was distinguished in an early day, may be mentioned the Weltons, Leman Farnam, J. Humphrey and Wadhams; and, at a more recent date, J. W. Weld.

William Wheatly and Robert Garget have paid special attention to Durham cattle, and are among the largest owners in the township. In an early day, I. T. Welton did much to improve the stock of this section. Richfield, although a grazing and farming township, is not without its mechanical industries. Three or four blacksmith-shops, two harness-shops, two carriage and wagon shops, two furniture-shops, two drug stores, two dry goods stores, two hotels, one grocery and meat-market, and one barber-shop are among its business industries.

Richfield contains four churches, viz., Congregational, Methodist Episcopal, Baptist and United Brethren. The first church organization was effected May 15, 1818, under the name of the "Church of Christ," and is now known as the "First Congregational Church of Richfield." It was organized by two missionaries, viz., Rev. William Hanford and Rev. John Seward, from Portage County, with the

following members: Elijah Welton and Hannah, his wife; Isaac Welton and Anna, his wife; Stephen Pixley, Newcomb Carter, Birdsey N. Oviatt, Augustus Adams (now living), Mary Oviatt, wife of Salmon Oviatt, Sarah Sturtevant, wife of Bradford Sturtevant, and Lydia Carter. Newcomb Carter was the first Clerk, and he and Isaac Welton the first Church Committee. Meetings were occasionally held under the auspices of Missionaries Seward and Hanford until November 2, 1820, when Revs. J. Treat and Israel Shaler, as missionaries, officiated. Rev. Israel Shaler was duly installed the first Pastor of the "Church of Christ" April 24, 1821, and Stephen Pixley elected the first Deacon August 30, 1822. The church formerly united with the Grand River and Portage Presbytery February 18, 1824. In April, 1837, it united with the Western Reserve Congregational Association at Oberlin. April 1, 1833, the First Congregational society, of which this church formed a part, was "incorporated" and organized. It hired the Rev. Horace Smith as its Pastor until 1849, and again from April, 1854, to April, 1860. Rev. S. C. Leonard occupied the pulpit from 1849 to April, 1854, and Rev. Reuben Hatch from 1860 to 1863. From August, 1864, to the present time, Rev. J. A. McKinstry has supplied the pulpit. The church building was erected in 1832, and is still in good condition.

The first Methodist church building erected was raised and inclosed in 1822, but not finished for many years, and was burned in 1852. It was succeeded by the present beautiful building, nearly west of Richfield, with a flourishing society worshipping therein. The Baptist Church, built at West Richfield in 1838, is still in good condition, and has sustained religious services most of the time since its erection. The Church of the United Brethren, in southeast Richfield, is a large and flourishing church, with a new building, recently erected, called the "Centennial Church."

The old Richfield Academy is worthy of mention. It was built in 1836, and was in successful operation for about thirty-five years; then, yielding to the modern free-school system, it passed away with other relics of the pioneer days. Under the administration of Rev. Harvey Lyon, who was its Principal for many years, it stood in the foremost rank of the academical institutions of the West. From

its spacious halls, where "studious lore was coned," went forth many of our practical business men. Teachers in vast numbers, students for college, merchants, mechanics, surveyors, etc., etc., here received their education and the foundation for their higher honors.

Richfield was one of the foremost townships in Summit County in establishing a township library. Such an organization was made in 1825, under the supervision of Dr. Rawson. It contained at one time several hundred volumes of the best standard works to be obtained, and was well sustained and patronized until recently, when our common and high school libraries have superseded it.

Among the historical incidents of Summit County, and one which attaches to Richfield Township, possessing more than a passing interest to its citizens, is the great sleigh-ride of 1856. The following is the substance of this memorable event, as taken from a recent newspaper article: The winter, like the one just past (1880-81), was one of unusual severity, with much snow, which lay on the ground until far into the spring. Upon a certain occasion during the winter, a border township turned out quite a number of four-horse sleighs, while one of the number bore a rude banner made of cotton, a yard square, upon which was painted a negro boy with his thumb upon the end of his nose, his hand spread out, and a scroll from his mouth bearing the legendary words, "You can't come it." This friendly challenge brought other townships into competition, and the rude banner passed as a prize, from one to another, as it was captured by a larger number of four or six-horse (none other counted) sleighs than had been turned out by the predecessor, until it finally became the prize of Richfield Township. To such an extent had the affair gone that it now became a county matter, and Cuyahoga and Medina Counties entered the contest. A day was set—March 14, 1856—when they (one or the other) would wrest the prize from Summit. The day came, and with it a large concourse of people to witness the friendly battle. As Richfield held the prize, it was decreed that the meeting should take place in this township, and the particular township turning out the largest number of sleighs on the great trial day should receive the flag, and in turn present it to its respective county. When all had as-

sembled, the marshals proceeded to count the sleighs from each county, when they were found to be as follows: Medina County, 140; Cuyahoga County, 151; and Summit County, 171—a total number of 462 four and six-horse sleighs in one grand and friendly rivalry for a rude banner that cost originally just—six cents. The procession was formed, and passed on to Akron with the most perfect order and decorum. Upon arrival, the flag was presented to Hudson Township, as having the largest number of teams, by James W. Weld, of Richfield, and received on behalf of Hudson by Dr. C. R. Pierce, who presented it, in accordance with a pre-arrangement, to the County of Summit. It was variously estimated by eye-witnesses that not less than five or ten thousand persons witnessed this grand sleigh-ride. Many of the sleighs were handsomely decorated with evergreens and profusely ornamented with flags. All passed off in the utmost harmony, and not an accident of any kind occurred during the day. Akron received the banner with great dignity, which was to be preserved among the valuable relics of the county until some rival should come with a larger number of teams than she had turned out on this occasion. The glory of being the possessor of the prize was short-lived. On the following Tuesday, Medina County came over with 185 four and six-horse sleighs, being fourteen more than Summit County had turned out. The banner was turned over to her and carried to Medina, where it was deposited among the archives of the county, to be kept until captured by some other rival. It still remains the prize of Medina County. And thus ended the most remarkable sleigh-ride on record.

For a period of nearly twenty years, Richfield was the central point for the union fair of this and adjoining townships. The institution is now abandoned, and the agricultural, horticultural and mechanical interests of the township are more or less represented in the county fair at Akron.

A lodge of Free and Accepted Masons was instituted in Richfield September 5, A. L. 5823, known as Meridian Sun Lodge, No. 69. The charter members were Isaac Welton, Isaac M. Morgan, Abraham Freese, John Smith, Adoniram Swift, Jonathan Sheldon, Salmon Oviatt, David Green, David Jones and others. The first Master of the lodge was Isaac Welton, who

held the office until November, 1826, when Solomon Curtis was elected Master, and served as such until 1828. The lodge held its meetings at the house of Orson M. Oviatt from 1823 to the close of the year 1828, when they removed to the house of Ebenezer Palmer. Willis Welton was elected Master in 1828, and served as such until 1832, at which time the lodge disbanded. In October, 1855, it was re-organized as Meridian Sun Lodge, No. 266, in Richfield, with the following charter members: Hiram Bronson, L. F. Ward, James W. Ward, Elihu Parmelee, Joshua Finch, Ebenezer Palmer, John Churchill, Sr., Thomas E. Ellsworth and Oliver Hart. The first Master was Hiram Bronson. The lodge room is located over the furniture store of Thomas E. Ellsworth, in West Richfield.

The township of Richfield early took an active and prominent part in the war of the rebellion. When the news came that the rebels had fired on Fort Sumter, the excitement was intense, and in a few days the men, old and young, were drilling. The first company that grew out of the excitement was composed of all classes of citizens, and was commanded by Norris Humphrey as Captain, and Martin Bigelow, First Lieutenant. The company were usually known as the "String Beans." We met every Saturday afternoon for drill, and, though no one knew very well what was required in the way of military tactics, we made up for all deficiencies by the ardor with which we went to work. This organization finally died a natural death, and from its remains were formed the Richfield Grays, A. N. Goldwood, Captain; R. C. Ellsworth, First Lieutenant; C. W. Wood, Second Lieutenant. The members of this company were of the very best material (all young men), and was one of the most thoroughly drilled and efficient volunteer military companies ever in Summit County, nearly all of the members of which sooner or later drifted into the army. Our township furnished 137 soldiers for the Union army in the great war of the rebellion. There are at the present forty soldiers living in Richfield. Of this number, twenty-five are of the original 137; the balance are those that have come into the township since the war.

About the 1st of October, 1862, the first and only draft of men occurred. Of Richfield men, thirty were taken, none of whom went into the

army at that time, but all furnished substitutes. We lost in the war twenty-seven soldiers. Of this number five were killed; the rest died of disease contracted while in the South. Six of our soldier friends carry honorable scars, received from our misguided brethren in the late unpleasantness. Thirteen remember the genial hospitalities extended to them by the Southern Brigadiers in the pleasant picnic grounds of Libby, Andersonville, Salisbury and other pleasant resorts of comfort, happiness and plenty, which were so freely extended to them by their rebel friends. The larger part of our old comrades have emigrated to the Western States, where they are now engaged in the different pursuits of life.

Another of Richfield's claims to notoriety is contained in the fact that the now famous "Old John Brown" was once a resident within its borders. If he was not an "Ohio man" originally, he was certainly a citizen of Ohio for a time. For a few years—how many is not remembered now—between 1840 and 1850, he lived in Richfield Township. Says a correspondent writing from Richfield: "A man though somewhat visionary and unfortunate in business affairs, yet honest, firm and unyielding in his convictions of right, he challenged the admiration of the world in his devotion to human liberty and freedom."

To Dr. T. E. Ellsworth are we indebted for a record of mortality for a portion of the time in our past history. From 1839 to 1880, a period of 41 years, there were 860 deaths: the greatest number in one year was 31, the least being in 1838, which was 4. In 1822, 17 children died who were under seven years of age. The population of our town the last 50 years has been from 1,000 to 1,300, being in 1870, 1,019, and in 1880, 1,253; it is thought that in 1840 it was about 1,300. There have been 9 residents of our town who were pensioned for services rendered in the war of 1812, of whom Stephen Welton is the only survivor.

Many of our Western Reserve townships have been, in the way of holding re-unions from from year to year, for the purpose of getting together present and past residents, renewing old memories, etc., but Richfield was behind in this respect till August 11, 1880. On that day, such a gathering was witnessed in a grove owned by Mr. John Kirby, as was never held here before. It is safe to say that at some time

during the day, every man, woman and child in town, able to be around, visited the grounds. The neighboring towns all sent huge delegations, and many old residents were here from hundreds of miles away. Gov. Axtell, President of the Re-union Association delivered a fine address of welcome, after which he read the following "greeting," written by Dr. A. E. Ewing, who was not able to be present, and was therefore compelled to perform his part by proxy. The greeting is as follows :

"Back to the mother that bore you ; back to the
land of your birth ;
From field, from workshop and office, back from the
ends of the earth ;
Back to the haunts of your childhood we welcome
you every one ;
Yet not as the patriarch hoary welcomed his prod-
igal son.

"We hail you with unalloyed pleasure, untinged by
sorrow and tears ;
But the patriarch's joys were darkened at thought
of the wasted years ;
At thought of the wasted treasure the profligate
youth had thrown
Among the wanton and vicious, while traveling
that Broadway down.

"We greet you with song and with laughter, from
hearts all aglow with delight ;
But sigh as we must for the missing, who've per-
ished and gone from our sight ;
May we meet them again in the future, when life
and its turmoils are o'er ;
Or is their abode so distant that their presence will
glad us no more ?

"Let us trust that they still are near us and join in
our joys to-day ;
That none of us here are more blissful than those
who have fallen by the way ;
And hope, when our time comes to travel the shad-
ow road they have trod,
We may meet in a grander re-union by the bright-
shining rivers of God."

After this, speeches were called for and re-
sponses came from S. R. Oviatt, Sheriff Lane,
of Akron, Andrew Hale, of Bath, the first white
child born west of the Cuyahoga River ; George
Howlet, of Cleveland, and F. Wilcox—sons of

Richfield. Then followed Gen. Voris, of Akron,
Rev. M. McKinstry and the Hon. M. C. Hills, of
Medina, Dr. Pixley, of Peninsula, and possibly
others not now remembered. The music, both
vocal and instrumental, was highly appreciated,
and the dinner, which was abundant in quantity
and superb in quality, was enjoyed by the many
thousands in attendance. Toward the close
of the afternoon, a vote was taken, and with-
out a dissenting voice, all agreed to meet on
the same grounds one year from date.

The second man who settled in the township,
as already stated, was Henry Mallet. He
located in the southeast part, on land owned
afterward by Richard Sweet. Mallet had two
brothers, John and Daniel, who, as well as him-
self, were in favor of hard currency. They
accordingly erected a mint on a point of land
ever since known as "the money shop," just
over the line in Northampton, where they manu-
factured "*the hard*" currency to order. This
drew to the settlement a set of individuals that
did not add to its respectability, and the inhab-
itants, therefore, destroyed the shop with fire.
Notwithstanding the destruction of his mint,
Mallet continued to tinker with the currency
until he was finally "taken into the employ of
the State," and died in Columbus.

In 1820, the people, being without a stated
preacher, met in town council to elect a person
"to lead in meeting" (presumably a sermon
reader). The candidates were Bradford Stur-
tevant and Elijah Ellsworth. On a full can-
vass, Ellsworth was declared duly elected "to
hold his office during good behavior." As he
was somewhat addicted to swearing, he agreed
to abandon the practice so long as he held the
office. He fulfilled his engagement, and more
than answered the expectations of his friends.
In fact, he did his work so well that he was
afterward elected the first "train-band captain"
in town, and finally rose to the post of Colonel.
He lived in town till quite an old man, and
then moved to the south part of Bath, where
he died about twenty years ago.

Delos Bosworth

CHAPTER XXVIII.*

BATH TOWNSHIP—DESCRIPTIVE—THE PINERY—SQUATTERS AND EARLY SETTLERS—PIONEER
HARDSHIPS—ERECTION OF MILLS—AGRICULTURAL IMPROVEMENTS
—VILLAGES—SCHOOLS—CHURCHES.

THE greater share of Bath Township is extremely rough and precipitous. Its central and northern portions, though far from being level, are not as rough and irregular as the balance of the township. The eastern third, and all the land along the valley of Yellow Creek are cut, divided and subdivided into innumerable bluffs and hills of all shapes, sizes and altitudes. Deep gorges wind around the bases of the bluffs, and in some cases are fully 300 feet below the summits of the conical knobs, which appear almost mountainous, when viewed from below. On account of the extreme roughness of Bath, the land was not considered desirable; so that, in early years, settlers passed on, and it was only after the lapse of time, that large additions were made to the original pioneers. The principal and only stream of note is Yellow Creek. In many respects, it probably has no equal in the county. It is reported that, either from actual measurement or careful estimation, this stream, in flowing across the township (five miles), has a fall of 400 feet. While the stream does not afford any noticeable natural falls, almost its entire course is characterized by a succession of rapids, rendering the creation of first-class water-power an undertaking at once easy and permanent. Since the earliest settlement, these facts have been well known, and this will account for the large number of saw and grist mills that have been located along the stream. During the warmer months of dry seasons, the water becomes almost or quite insufficient for milling purposes; but, in ordinary years, and especially during the rainy months, the creek is a rushing torrent, which sweeps noisily down the valley over its bed of rocks. One of the finest natural views in the county is in this valley, in the eastern part of the township. At a place where the creek takes a sudden turn toward the north, a basin of two or three acres is formed on the western side of the

creek bottom. Looking southward from the northern part of this basin, the beholder sees an attractive picture. The bluffs, which extend upward at an angle of forty-five degrees, form a graceful curve, and are covered with a fine forest of pine trees. These trees are found nowhere else along the creek, and form a beautiful contrast with the neighboring oaks and maples, which greets the eye of the spectator with pleasure. They are the white pine (*Pinus strobus*), and extend along the creek, mostly on the south side, for a distance of about eighty rods. The larger ones have been cut down and sawed into lumber, several of which measured almost four feet in diameter, though at present they are largely of a smaller growth. Numerous springs of pure water are found in various parts of the township. A small stream, in the northeast part, drains that portion of the township, and flows directly into the Cuyahoga. Another interesting creek rises near the northwest corner, and takes a southeasterly course, flowing into Yellow Creek at Ghent. On the northwest corner of Lot 37 is quite a large pond, drained by the last-named creek, which, so far as the writer knows, is nameless.

Yellow Creek flows across Lots 80, 79, 78, 83, 77, 64, 65, 66, 67, 68, 69 and 70. Its bed is stony, and the stream, through an unknown period of years, has cut its way deeply into the soil. This is rendered apparent by the steep, high bluffs, bordering the creek and the rapid flow of the water. The surface soil is largely clay, mingled in many places with pebbles, rendering tillage unpleasant and difficult. In basin-like portions of the township, the soil contains considerable decaying vegetation, and these portions are valued highly by the agriculturist. An abundance of excellent sandstone is easily obtained. The eastern half of the township is rich in mineral and fossiliferous remains. There is, unquestionably, a large percentage of iron oxides, or perhaps bog iron ore,

* Contributed by W. A. Goodspeed.

in the soil, as is proved by the character of the water and the peculiar coloring of earth when newly turned up. The most of the water is strongly ferriferous, and even the streams deposit along the banks a reddish precipitate, or, perhaps, this peculiar coloring is produced by the action of the iron held in solution in the water, upon the clay along the banks. At any rate, the soil along the banks is discolored, and iron is the agent. Col. Riall McArthur, who originally surveyed the township, made the following entry in his note-book: "The attraction of the needle on these lines (in the eastern part of Bath), is on account of the vast quantity of iron ore that lies in the earth, under where the lines pass or near them. There is all the appearance of ore in the rivulets. Small pieces lifted and held toward the needle had particular influence on it, and by passing through the deep hollows has had particular influence on the lines." Upon examination the stones, even on the surface, are found to contain a large percentage of iron, and the swampy portions of the township are usually underlain with a thick bed of bog-iron ore. Swampy tracts of land that have been drained are found to contain this ore. It is utterly improbable, however, that smelting works and iron manufactories will ever be erected in Bath. The iron ore is much too scanty and impure to ever be profitably mined, although it is possible that future years may reach some vein of the requisite richness. In portions of the eastern part, there are also found large quantities of fossiliferous limestone. So far as the writer knows, this has not been classed, by those who have examined it, with any known group of rocks. On the contrary, the formation seems to have been placed there by local causes, the nature of which is difficult to determine. The rock seems to be made up almost wholly of the casts of animals that must have existed under the surface of water. A more detailed description of this rock will be found in the chapter on geology. The rock is covered with many feet of earth. It has been used for making lime, and is excellent for that purpose. It would pay the owners of the land where it is found to burn it and ship the lime by rail to distant points. Large quantities of coral of the honeycomb and sponge varieties are also found, not only on the surface but far under the soil.

Bath Township was not owned by the Government until after the treaty of Fort Industry in 1805. If any persons other than the Indians, and, perhaps, French, lived upon the soil, they were squatters, and only held a "squatter sovereignty" in the land. The township is No. 3 in Range 12, and was originally called Wheatfield, and is so named in the field-book of Rial McArthur and R. Warden, who surveyed the township into lots in 1808. The name is said to have been given by these men from the fact that the soil looked as though it would raise excellent wheat. How long the name was used is not definitely known, but it went out of use in two or three years, and then the township became popularly known as Hammondsburg, named thus for one of the earliest and most prominent settlers. Letters from Connecticut with this address were received. They also came directed to Township 3, Range 12, Western Reserve, Ohio. In fact, this was the ordinary way of addressing letters that were sent to this section of country.

Bath was not settled as early as some of the neighboring townships, at least by those who owned the soil. When the squatters first entered cannot be known with any degree of certainty. It may be that wandering hunters built their rude cabins immediately after the treaty at Fort Industry. At least, it is well known that when the first permanent settlers, who were owners of the land, appeared in 1810, there were then living in the township some six or eight squatters, several of whom had made no little improvement. It was not customary, however, for squatters to bother themselves much about the clearing of the land or other improvements. All they wanted was a small garden, wherein their half-clothed, half-starved wives and children could raise a few potatoes and other vegetables. Many of these squatters lived in the rudest and most primitive fashion. They apparently copied the customs of the Indians, and many of them existed in about the same miserable plight. The Indians got so they built small bark shanties, but little better than deer-skin wigwams, and many of the squatters erected and inhabited the same kind of dwellings. The meat was largely venison, but this was extremely dry, so that the earliest settlers, when they could procure a piece of fat pork, thought they

had secured a luxury indeed. Wild turkeys were abundant, and were so fat, it is said, that sometimes when they fell to the earth after being shot from the top of high trees, the skin upon their backs burst open like a ripe pod. Wolves were very troublesome, and gave the settlers any amount of annoyance if sheep and other domestic animals were to be protected. Sheep brought into the backwoods had a sorry time of it, and usually died either under the sharp fangs of wolves or bears, or on account of the peculiarities of the food upon which they were necessarily compelled to subsist. Even cattle and horses suffered greatly on the latter account. The poor oxen were annoyed by swarms of flies and gnats that thirsted for their blood. It is even asserted that oxen were killed by these flies, so great was the annoyance. Bears seemed to relish pork better than any other kind of meat, and woe unto the porker that fell into their hands (or rather claws). A bear would attack a hog in the woods, would mount upon its back, burying the sharp teeth in the neck, and tearing the sides of the fated swine with its powerful claws. Piercing squeals would re-echo through the forest, sometimes reaching the ears of the owner, who would seize his rifle and rush to the rescue, and then it often fared hard with Mr. Bruin. Sometimes the owner would be glad to give up the swine and call the account square; but, in a case of this kind, they always changed their minds soon afterward, and vowed future vengeance upon all members of the genus *Ursus*. The bears were usually so well satisfied with the terms of settlement that they afterward undertook to obtain a renewal of the account, that a similar settlement might be enjoyed. Sometimes they succeeded; sometimes they died.

Prior to 1810, there lived in the township the following squatters: Aaron Miller, Gibson Gates, Hezekiah Burdit, Aaron and Moses Decker and Moses Latta. When these men first entered the township has not been ascertained, and probably never will be. Two or more of them, at least, came in during the spring of 1810, but the date of the arrival of the others is missing. These men had erected rude shanties in different parts of the township, and were busily engaged in hunting and, possibly, trapping, and some of them had begun to make improvements. The township was owned

by several proprietors in Connecticut, among whom were Ezekiel Williams and Thomas Bull, of Hartford. In the Bull tract, Jason Hammond had first choice, and Jonathan Hale second. Moses Latta had squatted near Ellis' Corners, and Aaron Miller had performed the same act on Lot 11. Mr. Hammond's lots were 26, 27, 28, 29 and 30. Jonathan Hale's were 11, 12, 13 and part of 14. The other squatters named above located mostly in the southeastern part. Abel Vallen also located in that portion, though whether as a squatter or an owner is not stated. A few years later, this man was living on the Cuyahoga, in Northampton, where he opened a distillery. These and a few others were the first settlers, and for a number of years they were alone in the township. West of them was an unsettled wilderness of indefinite extent, while east of them various settlements had been made, some of them ten years previous. William Cogswell, one of the most expert hunters ever in this part of the county, lived in the township for a number of years, and there is scarcely a hill or vale that has not echoed with the sharp report of his rifle. He became celebrated as a bear hunter, and subsequent generations have listened with interest to his recital of daring acts, that, beyond doubt, actually transpired. On one occasion, he started, late in the evening, from Granger to go to the cabin of Aaron Miller, in northeastern Bath. Night came on, and Cogswell, not wishing to proceed any farther at that time, prepared a couch of branches, and, stripping the bark from a large tree, covered himself with it and lay down to sleep. At daylight he awoke, and, throwing off his coverlet, arose to his feet, when he found that, during the night, about three inches of snow had fallen, covering him completely, and rendering his situation warm and comfortable. He started on toward the cabin of Miller, where he soon arrived with an excellent appetite for breakfast. Mrs. Miller furnished him with a quantity of cold boiled hominy, which he devoured with relish and satisfaction, apparently thinking his breakfast fit for a king. Indeed, it was no uncommon occurrence for settlers to live for weeks upon a single article of food. Sometimes venison was all the cabin could furnish; at other times, especially in the dwellings of those settlers who were inferior hunters, meat would be lacking for many days. Hunters fared better as re-

gards meat, while those who devoted more attention to gardening enjoyed eating the greater number of vegetables.

The settlement and improvement of Bath were at first slow. The war of 1812 no doubt had something to do with this state of things. A few came in during the war, but no extensive improvements were made until a short time prior to 1820. As near as can be remembered, the following arrivals, at about the dates mentioned, took place: Old man Jourdan and his sons James, Moses, Joseph and John, 1813; old man Dunbar and his sons Lewis, Thomas and two or three others, 1814; Isaac Hopkins, 1813; Salmon Skinner and Eleazer Rice, 1816; Hopkin Nash, 1817; Theodore and Calvin Hammond, 1814; Phineas Nash, 1819; and besides these, there came in during the same years, or perhaps later, the following well-known men: George W. Story, the first blacksmith in the township, William Jones, Junius Darrow, Lemuel Hoadley, James Root, Nathan Green, David Willey, Elijah Jacox, Joseph and Samuel Hawkins, Benjamin Bishop, James P. Baldwin, Mr. Heater, Mr. Boughton, Mr. Bradford, Mr. Seakons, Mr. Frost, John McFarland, William Williamson, Orville and William McFarland, Deacon Crosby, Simeon Crosby, John Kent, Manville Thorp, E. W. Simmons, Noble Simmons, Asa Jackson, Mr. Collins, Mr. Hatch, George Phillips, a large family of Shaws, the father's name being Constant, and some of his sons, Sylvester, Samuel and Phillip, Mr. Doolittle, Levi Bissell, Asa Hurd, Adam Vance, Seymour Ganyard, Benjamin Damon, Dr. Henry Hutson, two or three Whiterrafts, some of whom became prominent in the township, Henry Vansickle, Mr. Fowler, Lyman Nash, John Duryea, William Davis; after 1830, Deacon Smith, Abin Sage, Mr. Lloyd, and many others whose names have passed out of recollection. It may be said that the greater number of these men were Connecticut Yankees, and almost all came directly from that State to the Western Reserve. Several came from the settlements a few miles east, and undoubtedly a great many came in who afterward became dissatisfied and removed farther west, or went back to the East. The settlers were usually industrious, and it was not long before cabins could be seen in great numbers over the township, and the busy hum of human life took the place of the wolf's dismal howl and the Indian's wild whoop. In

every direction forests could be seen going down, that were afterward burned in great conflagrations, that rivaled the sweeping prairie fires of the West. Small fields of corn and wheat waved their green plumage in the summer air; deer bounded past within easy rifle shot; the peculiar howl of wolves could be heard; the ring and echo of ax and rifle awoke the sleeping voices of the hills; snakes, innumerable and venomous, wound their slow length along, and a multitude of circumstances, unknown to the present generation, presented themselves. And yet the early settlers were happy, or thought themselves so, which is much the same. They made enjoyment from their surroundings. But the cultivation of the higher qualities of mind and heart were omitted from the forest curriculum, and it may be wisely doubted whether the early settlers enjoyed themselves so well after all.

The township was organized in 1818, and, when that is said, about all the tale is unfolded. Where the first election was held, who were the first officers, what action was taken on that interesting occasion, and many other important things, have been locked forever in the jeweled casket of the Muse of history. Some other historian will be allowed the privilege of prowling through the township to quicken into life the dying embers of the fires of recollection. Until then, many events will remain in the gloom of forgetfulness. Success to the patient worker! As was before remarked, the township was first called Wheatfield, and then Hammondsburg. At the time of the organization of the township, the settlers were called upon to select a name by which said township should be known in the future. Various names were suggested, but none seemed to give satisfaction. A few insisted on its being called Hammondsburg, whereupon Jonathan Hall called out, "Oh, call it Jerusalem, or Jericho, or Bath—anything but Hammondsburg." Bath was immediately selected and bestowed upon the township. Dr. Henry Hutson (or Hudson) was the first Justice of the Peace, if the writer is correctly informed, while Eleazer Rice was the first Constable. Rice was a small man, and was not very well liked. One Sunday, Lewis Hammond and Isaiah Fowler, in sport, tipped over Rice's sled, and lo! it was broken. Rice entered complaint before Squire Hutson, for a violation of the Sabbath, and as he was the

only Constable, the warrant was placed in his hands for service. The two men went willingly before the Squire to answer to the charge; but, just as they got there, instigated by a little of the spirit that Jesus once cast out of a Syro-Phenician woman's daughter, they both started and ran in opposite directions. The Constable was in a dilemma. He finally started in pursuit, unfortunately, of the larger man. How the "trial" terminated, the writer has not been informed. This was the first "case" in the township. Abner Robinson, the poet, mentioned elsewhere in this work, lived in Bath for a time. He had a peculiar manner of speaking, which Gen. Bierce characterizes as "crawfish." Robinson one day said of Jacob Morter: "Jake says, 'Abner, come and look at my pigs.' I went, and they were fine ones. Jake says, 'The youngest is the oldest—no—I mean the biggest is the littlest—no-o—I talk like a d—d fool! Any how, they, look so much apart you can't tell 'em alike.'" A petition for a road leading from Boston to Old Portage, was presented in 1811, to the Commissioners at Ravenna. This was the first authorized road that touched Bath. Perhaps the next was the one on the southern line of the township, called the Smith road. This was well traveled in early years, and numerous taverns for the accommodation of travelers were erected, one or two of them in Bath. Moses Latta opened his house for a public tavern as early as 1818. He took in a great many shillings from travelers, and made considerable money.

By 1820, the township was quite well populated. Improvements were pushed rapidly, and industries began to arise as the demand for various articles nearer home was created. In 1818, Maj. Hoadley built a saw-mill at Ghent. Excellent water-power was obtained, and the enterprise promised success. The following year the mill was purchased by James Root, but was sold again in two or three years to James Myers. The mill was located so far from the dam, that, on account of the great fall of the stream, the lower part of the race was a wooden trough, resting on posts. The wheel was overshot. A few years later, Mr. Root built a new saw-mill about a quarter of a mile west of Ghent. This, in after years, proved a valuable mill. David Parker built one about the same time, locating it down Yellow Creek, not far from the eastern boundary

of the township. An enormous dam, built on the "beaver principle," was constructed; but some time afterward this was washed away by a sudden freshet. James Root built a distillery at an early day. It was at the height of its prosperity when the great temperance revival swept over the county. Some of the citizens asked him to stop his distillery, whereupon he turned suddenly upon them with the pointed question, "Stop! what am I to live on? cow-slips? I can't stop the distillery." And he did not stop, but whisky flowed from it at the rate of about two barrels per day. Much of this was shipped off, and sold at the rate of from 12 to 18 cents per gallon. James P. Baldwin did more in early years to improve the township than any other man. He built many mills, both for sawing lumber and grinding grain, and filled every enterprise that he touched with life. James Root built several mills, and was quite a wealthy man, but he did not put the energy into his undertakings that was necessary to make them highly successful and useful. He is said to have remarked in later years, "I have ruined the township;" meaning thereby that most of his enterprises had been of no use to the township. Yet this is not doing Mr. Root credit. It is certain that his improvements drew intelligent and enterprising citizens to the township. Many mills were built in early years, and very likely errors will occur in attempting their description. In about 1826, J. P. Baldwin built the Miller grist-mill. It was a frame building, three stories in height, about thirty-five by seventy feet, and in it were placed four sets of stone. It was one of the best mills ever in the township. In addition to custom grinding, it did a large amount of merchant work, sending, during its best years, about three hundred and fifty barrels of flour each day to Cleveland, by canal. After a number of years, the mill was purchased by Henry Harris; but a few years later it was destroyed by fire. The present one was built on the same site in about 1846. It is a large frame building, and has done good work. It is at present owned by W. C. R. Miller. Baldwin also built a saw-mill the same time his grist-mill was built. It was connected by shafting, or otherwise, with the machinery of the grist-mill. This was also destroyed by fire. In 1859, Henry Harris, Jr., built a saw-mill on the same site. This is yet in operation. Baldwin built

another saw-mill a short distance down the creek from this mill. It did good work for a few years. Jason Hammond and his sons built a saw-mill, as early as 1820, on a branch of Yellow Creek, west of the center. The dam was so situated that thirty or forty acres of woodland was flooded with water. The trees many of them, fell down and began to decay, and soon this dam was regarded as a breeder of malaria and pestilence. At last proceedings were begun in law to abate the whole thing as a nuisance. The proceedings were successful, and the water was let off, much to the relief of families living in the neighborhood. A Mr. Beach built a saw-mill near where William Barker lives, in about the year 1838. It was operated some eight or ten years, and then was abandoned. William Barker built one near the same place, in 1859. This mill has furnished considerable material, which has been shipped away, among which are railroad ties, three-inch plank and fitch. A year or two ago, the dam was washed away, and the mill is not running at present. Just after the last war, Hemmingway, Hopkins & Burris and William Barker erected a hub, spoke and felloe factory within a few rods of Mr. Barker's dwelling. The company and Mr. Barker each owned a half interest in the business. A planing-mill was connected with the factory, and for a number of years a good business was done, but the destruction of the dam caused it to stop. William Jones conducted a distillery for a number of years. It was located back on his farm some distance from the road. It is said that the bears, on several successive nights, had carried off his hogs, and he determined to watch. He summoned a few convivial spirits, and with those already at the distillery, had a loud time of it during the night. No bears were seen. The Ghent Champion Mill was built by James Root at an early day. It was operated by him until 1853, when Alanson Barker assumed control, but a year later William Barker became owner, and remained so until 1871, when the mill went to Edward Heller, who now owns it. The mill has done a great deal of good work; not only custom, but merchant. Mr. Root also built and operated a saw-mill, near the grist-mill, at an early day. Peter and John Marshall erected a woolen factory about a quarter of a mile east of the Harris grist-mill. It was probably built in

about 1840. A limited quantity of light cloth was manufactured, but in about ten or twelve years the Marshalls retired from the pursuit, and the building was transformed into a lath factory. The grist-mill west of Ghent was erected early, and has been one of the best in the township. It has changed owners various times, and has done considerable merchant work. Several other mills have been built and operated along Yellow Creek and its branches; and it may be said that on no other stream in the county, of the same size, has there been so many mills and so good ones. Dams are easily built from the stone and timber along the creek, and owing to the narrow bed of the stream and the narrow valley, short dams, strongly built, furnish splendid water-power. We will now leave the imperfectly treated subject of mills and notice the growth of villages.

Unlike other townships, Bath's Center never grew to the dignity of a village. A small shoe-shop, opened there at quite an early day, was about the only attempt toward village-making. Shoes were taken to this shop for repairs, but probably before this was opened, the following circumstance occurred: One day, Alonzo Coffin, his little sister and another girl of about her age, none of whom were older than ten years, were sent to Brandywine to have their shoes mended. The families lived near there at that time. The shoes were mended, but by this time darkness had thrown her sable curtain over the earth. Just as the children were about to start for home, the wolves were heard howling dismally in the woods, through which they must pass, and Mr. McClellan, the cobbler, declared he would not go through the woods at that time for anything, and told the children they had better stay all night. But Alonzo said he was not afraid, and told Mr. McClellan to "get me a torch, and I'll go." A large torch of hickory bark was procured and lighted, and the three little children started out through the darkness for home. They had no sooner reached the woods than the wolves surrounded them with angry howls, but kept at a respectful distance on account of the fire. The children hurried on, keeping close together, and the wolves continued to follow them until they were within a few rods of home, when the savage animals, disappointed at not getting the expected feast, ran off through the dark forest. It was custo-

mary, in early years, for cobblers to travel around from house to house to ply their craft, often furnishing everything and making shoes for the whole family. Three villages proper have arisen in Bath—Hammond's Corners, Ghent and Ellis' Corners. The Hammonds were probably the first residents at the former. It is thought that Royal and Horatio Hammond brought the first stock of goods to the village, but the date is indefinite. If there at all, they probably opened up before 1830. John Rhodes was there with a small stock soon after 1833. Reison Randolph sold goods there for many years. Joseph Whitercraft is there at present, and has been doing a good country store trade for quite a number of years. Himself and store are highly spoken of. A few others have sold goods in the village. Among other industries may be mentioned the wagon-works of Clem Jagger. This man has followed the occupation for many years. A post office was secured at the Corners in about 1838. Prior to that date, the office had been at the Center, where Phineas Nash, Theodore King, and probably Lewis F. Lane and others, had served as Postmaster. Various parties have held the office at the Corners, the present one being Mr. Whitercraft. Dr. Hutson, who came to the township in about 1819, was the first practicing physician in the township. His residence and office were a short distance north of the Center. He was a kind old man, and would preach to the settlers in their dwellings, or in the schoolhouses. Some time after 1833, Dr. H. A. Robinson came to the township, and for many years he prescribed for the temporal disorders of the citizens. He was quite skillful with ague and the typhus fevers, and secured a lucrative practice. Ghent has had a different experience and a different growth. In 1818, there were three or four families living at what is now Ghent. Mr. Boughton opened a small store about the same time, placing his goods in a small, rough, frame building that is yet standing, though altered and remodeled, on the east side of the Center road, near the bridge. This man had considerable money, which was invested in young cattle. The animals were herded in the woods and along the open spaces near the streams. The forests furnished abundant food for the cattle. The rich browse was abundant, and was eaten in large quantities with excellent results, as the ani-

mals gained rapidly in weight, until at last they were driven to the Eastern markets. Others engaged successfully in the same pursuit, Mr. Boughton did not continue his store but for about four years. As near as can be ascertained, the village, after he left, was without a store for a number of years. Moses McFarland was in with a stock of goods in 1844, and had probably begun as early as 1840. Mr. Leggitt was connected with him in business, and, in about 1848, bought McFarland's interest in the stock and store. A few years later, he sold to Francis Husong, who probably had about \$1,500 worth of goods. Finney & Fairchild succeeded Husong, but closed their store after a few years. Thomas Pierson sold groceries about thirty-five years ago. Henry Pardee opened a store during the last war. This he conducted until 1881, when he sold out to James Greenleese, the present storekeeper. Mr. Pardee kept a good store, and has been an energetic and respected citizen. The oldest woolen factory in the State is located in the village. It was first started in 1832, by Allen & Bloom, but, three years later, was sold to Alpheus Babcock, and soon after this to Spafford Brothers. These men failed in business, and the property fell into the ownership of Johnson & Fuller. In 1861, the factory was purchased by its present owner, Alonzo Coffin, who has conducted it, with the exception of five years, ever since. As high as 10,000 pounds of wool have been bought in one year. Yarns, flannels, satinets, fulled-cloth, cassimeres and other kinds of cloth, have been manufactured. Five or six years ago, Mr. Coffin removed to Akron, and the factory was idle. It is now in operation again. Soon after 1850, Thomas Pierson began making barrels, buckets, kegs, etc., and doing a general cooper-wook, which he continued some twelve or fifteen years. James Myers conducted a small grist-mill (or "pepper-mill," as it was significantly called) in the village, in about 1828. Whether he built the mill is not stated. It was finally destroyed by fire. McFarland & Leggitt were conducting an ashery at Ghent in 1858. Archibald Hubbard owned and conducted it before them. How early he began is not remembered. James Root is said to have built the first house in Ghent. This was the Boughton store-building. In 1846, there were about twelve families living in the village. It may be stated that Mr. Pardee was

connected with the woolen factory for a few years, perhaps about 1858. He is now engaged in manufacturing water-proof goods, according to some new and valuable recipe. Thomas Pierson was very likely the first Postmaster at this point. Mr. Pardee assumed control of the office about the time Mr. Lincoln went into the White House. The mantle of Government position looked well on Mr. Pardee. However, he did not become afflicted with aristocracy on that account, nor did he believe himself a prospective candidate for said White House, because he had been honored(?) with an humble position under Uncle Sam. James Root is thought to have laid out the original survey of lots at Ghent. The date is indefinite. Some say that James Myers named the village, but why the particular name Ghent was selected is not known. Dr. Cooley lived and practiced in the township before 1820. Dr. Darling and Dr. Chaffee were in the township at an early day.

Mr. Latta's tavern was the center around which the citizens of Latta's Corners congregated in early years. This man probably erected the first building in the village. Other tavern-keepers were Mr. Ellis, Parvin Delong, Milo Fuller, Moses McFarland, James Moore, Carter Smith, and others. Orrin Walker was selling goods in about 1835. After him were Frank Smith, Mr. Doolittle, Archibald Hubbard, Fred Nash, N. D. Hanson, A. R. Damon and Albert Beach. All these, except Walker, were east of the hotel, and some of them kept excellent stores. Morris Lyon is the present merchant. The village was at first Latta's Corners, but when Mr. Ellis became the central figure it gradually assumed the name, Ellis' Corners. Dr. Humphrey Robinson located at the village not far from 1830. He continued to practice until his death, about thirty years ago. He was succeeded by Dr. Robert McNeil, who also died a short time before the last war. Dr. Sales was the resident physician just before the war, as was also Dr. Merriman. Dr. E. King Nash located permanently in the village, and began to practice his profession in 1865. He served the country during the war in the capacity of Assistant Surgeon of the One Hundred and Fortieth Regiment, but at the close of the war came out as Surgeon. Dr. Merriman practiced in the village after the war, and until four years ago. Among the indus-

tries that have been conducted was an ashery at an early day by Mr. Ellis. Also a wagon-shop by Burris & Son. This, in outline, has been the growth and decay of business industries. A post office was secured at an early day, and letters came directed to Montrose.

Schools are the offspring of civilization. They are unknown among barbarous people, and are found numerous and perfect in the degree of the removal from the savage state. The ignorant, those who willfully and persistently remain unlettered, triumphantly quote, or rather misquote, "Ignorance is bliss; 'tis folly to be wise." They assert that extended education only opens the eyes and heart to disappointments and defeats, and that nothing but absolute ignorance of the great majority of surrounding circumstances can give satisfaction and the resulting happiness. That mode of conduct, carried into effect by actual experiment, would reduce man to the savage state, and lead to the utter extinction of the race. Knowledge does not end with a revelation of cares and defeats. It reveals countless paths of happiness to be traversed, and points to the cultured a ready means to avoid those spots on the journey of life, over which the dark clouds of sorrow and sin pass. Knowledge is the shield that wards off the strokes of unpropitious surroundings. At the same time it protects the shrinking form of humanity from the bitter blasts of adversity. It amplifies the vision of the intellect, widens the moral and social capabilities, and elevates the enchanted observer to mountainous heights, from which countless glittering domes of beauty and excellence are seen. It multiplies the sources of enjoyment, divides those of sorrow, and adds to the happiness of human life. It is highly necessary for the preservation of the American Government that the people should foster and protect schools as they would their jewels. The nature of the government and the peculiarities of its institutions should be taught in every school. Too many young men, and even those in maturer years, know comparatively nothing of the aim of the government as outlined in the constitution. There is seen the strange paradox of citizens voting for officials to administer laws, the nature of which, though vitally important to them, is almost wholly unknown. The wonderfully rapid growth of educational advantages insures to the masses

of the people a speedy and practically perfect knowledge of the fundamental principles of the government. Millions in money are annually expended in rearing that unpretending temple of learning—the schoolhouse. The standard of scholarship is steadily rising in the United States among the great body of the people. This is the only salvation for our government, but the people must learn to control their excesses, or the nation we all love so well will go down in darkness like Rome. The morals must be educated, the appetites must be controlled, the passions must be checked, the desires must be directed to proper objects, pursuits and practices must be elevating in their tendencies, and together with all these people must acquire wisdom.

The first school in Bath was taught in the northeastern corner, in a log house that had been built in 1810, by Aaron Miller, one of the few first settlers in the township. The building was about sixteen feet square, and the first teacher's name was Maria Lusk. The first term was in 1811, and after that date schools were held quite regularly in the neighborhood, sometimes in one house and sometimes in another, depending for location on their proximity to the homes of the greater number of children. In truth, the schools for many years continued to follow the scholars, going as near as possible to where the greater number lived. Alfred Wolcott was one of the early teachers. It is related that on one occasion, that genius of mischief, the school-boy, in the absence of the teacher at intermission, fortified the chair of the latter with pins bent in a fiendish manner. The result was a sudden bound, and the following reverent exclamation: "Who, in heaven's name, has been meddling with this chair?" Such questions were often asked in early years, but seldom answered. So far as known, Mr. Wolcott shared the same fate as other early teachers. There were several years when no school was taught in northeastern Bath, but the scholars were sent to a well-attended school in northwestern Northampton. A very early school was taught in Mr. Hammond's house. Mr. Lucas was one of the first teachers in that neighborhood. Schools were usually taught by subscription, and at stated times teachers were accustomed to send in their bills for collection or settlement. Although it seems unaccountable, yet it is asserted that

the first schoolhouse in the northeastern part was not erected until after 1830, but that schools continued to be held in dwellings and abandoned houses. This house was a frame, about 16x16 feet, and the first teacher, as near as can be ascertained, was Edward Brown, a nephew of John Brown, whose soul is yet supposed to be marching on. This house was used for some twenty-five years, when the present one was built. A school was taught very early at Mr. Vallen's residence in the southeastern part, but unfortunately nothing definite could be learned of it. It may be said, in general, that all schools, prior to 1820, were held in buildings that were temporarily devoted to that use. It is probable that the first building erected for a schoolhouse was either near Hammond's Corners or at Ghent, although both the dates and the facts are uncertain. School was taught as early as 1816, at Latta's Corners, and at Ghent a few years later. In 1820, the citizens living at Ghent sent their children to school in a log house that had been built about thirty rods from the present residence of Mr. Spitzer, by William Wood. Mr. Wood had abandoned the house, which was then devoted to educational purposes. Henry Root was one of the first teachers in this house, and the following circumstance is related of him by Benjamin Bishop: The teacher started one cold morning for his schoolhouse, and while on his way through the woods was confronted by a large, gaunt, hungry-looking wolf. The animal, evidently rendered desperate by hunger, advanced with open mouth and glaring eyes upon the apprehensive teacher, who, having no weapons save a jack-knife, caught up a heavy club, and backed against a rail fence as the wolf continued to approach. When the animal was within reach, Mr. Root struck at its head, but only succeeded in giving it a partial stroke. The wolf caught the end of the club in its teeth, and for some moments Mr. Root was unable to withdraw it for the purpose of delivering another blow. Several blows were struck, all of which the wolf avoided, but finally a fortunate stroke disabled the animal, which was then quickly dispatched by repeated blows on the head. How many teachers would now enjoy such an encounter? Do not all speak at once. Mr. Root then dragged the dead wolf to the schoolhouse, where it remained during the day. The historian is also compelled to record that the

teacher complained of the confusion and whispering in the schoolroom, and of the almost universally imperfect lessons on that day. A young lady named Eveline Hall taught in this same building as early as 1818. School was early taught in Mr. Rice's house. There have been three different schoolhouses at Ghent, the last one being built a few years ago. In the Hurd neighborhood, in a building that had been vacated by Mr. Banks, school was taught as early as 1828. The next year a schoolhouse was erected near by, and one of the first teachers was Robert McNeil. The building was used as a meeting-house, but after a number of years it took fire and burned to the ground. Two other houses in the neighborhood have succeeded it. The township was first divided off into two school districts, and some alterations were made in these annually, until, at last, another one or two were added. Many disputes arose in consequence of the shifting of the districts. All desired schools within a few rods of their own dwellings, and when this was found to be impossible, the vials of their wrath were freely poured upon the naked heads of all opposers. The districts continued to be divided and subdivided, until they at present number ten.

Religious societies took root in the township in early days. It is always the case in a newly settled country, that the citizens, many of them, are members of churches in the land whence they came, and having experienced the blessings and reality of religion, are desirous of renewing their devotions. This state of affairs would result in numerous meetings at the settlers' homes, where either a local preacher or an itinerant one would be called upon to preside. The Presbyterians and Congregationalists built a log meeting-house on the "accommodation plan," at the Center, in about the year 1818. This building afterward became famous for its revivals. It saw continual use until about 1834, when a frame building was erected in its stead. The frame was used until 1870, and was then remodeled and converted into a town hall. The following is quoted from the church records: "At a meeting previously appointed to be held at Bath, November 24, 1823, present Caleb Pitkin, John Seward and Israel Shaler, missionaries, the meeting was opened with prayer by Brother Seward, after which Robert Bell and Mary, his wife, from the

church in Stow; William Jones, from the church in Randolph; William and Hannah Smith, from the church in Sandsfield, Mass.; Mrs. Mary Heater, from the church in Canfield; Mrs. Mercy Hall, from the church in Glastonbury, Conn.; Laura, wife of William Jones, and Samuel Peters and Esther, his wife, from the world, presented themselves with the request to be organized into a Church of Christ. As a preparatory step, the council proceeded to an examination of these persons respecting their doctrinal and experimental knowledge of the Christian religion, and their views of the duties and privileges of a Christian Church. Being satisfied on these subjects, the council proceeded to organize the church. Brother Pitken preached from the text, "Jesus answered, 'My kingdom is not of this world,'" etc., after which Brother Seward read the confession of faith and covenant to the persons above named, and proceeded to constitute them a church, regularly organized and entitled to all the privileges and ordinances of the Gospel, and solemnly charged them in the name of the Lord Jesus Christ to work worthy of the high calling. Being thus organized, the church was put under the care of the Presbytery of Huron, as the First Congregational Church of Bath. Their confession of faith, covenant and articles of practice are the same that have been prepared and presented by the Presbytery in this section of the county (signed) Caleb Pitkin, Clerk of Organizing Committee." Although not so stated in the report of the meeting, the session was held in the old log house at the center of the township. The following persons joined the church June 30, 1832: Ward K. Hammond and wife, Royal Hammond, Robert McNeil, Nancy Smith, Aurora Piper, Elisha and Ann McNeil, Mary and Jane Fulton, Sarah Nash, wife of Phineas Nash, and Lavina Banks. Phineas Nash joined in December, 1823. It is stated that James Root gave nearly \$3,000 as a permanent fund for the use of this church. The truth of this is left to the reader. The church since its organization has not always been in good working order. Although there is no church building at Ellis' Corners at present, the United Brethren have a society there. Among the members are William Reed, Abraham Spitzer, Lot Watson, Morris Lyon, Samuel Briggs and N. D. Hauser. This society purchased a Methodist Church,

located at Stony Hill, and moved it to the Corners a short time after the last war. This was used by the society for a number of years; but the building was subsequently sold for \$50, and is now devoted to other uses, and the members assemble in the schoolhouse. Rev. William Whitney is prominent among the membership. A Methodist society was instituted at Ghent as early as 1818, some of the members being Messrs. Hoadley, Bradford, Seakins, Rice and Frost. They assembled in dwellings for a few years, and finally the organization was dissolved, or, perhaps, as some say, it finally started up again, and became the foundation of the present Methodist Church in the northern part. Their building was erected many years ago, and is known as "Moore's Chapel." It cost some \$3,000, and is the best building of the kind in the township. This church is well attended and prosperous. There are many Germans living in the eastern part, and this section of the township is familiarly known as "Germany." Many years ago, an Evangelical society was organized, and soon afterward a small church was built in "Germany." Here

this industrious class of citizens meet to conduct their religious ceremonies in their characteristic way. The United Brethren started up at an early day, and first began holding meetings in the schoolhouse near Hurd's Corners. Here they assembled for some time, shifting their location, finally, to neighboring schoolhouses, to be as near as possible to the greater number of members. After a few years, this state of things became somewhat obnoxious, and the propriety of erecting a small comfortable church was discussed. Several objected, saying that the tax was greater than they desired to sustain. At last the voice of majority was in favor of building such a church, which was accordingly done, at what is known as Hurd's Corners. Although there are but four churches in the township, the religious element is not confined to these alone; for at Ellis' Corners is a society, and a large portion of the citizens in the western part belong to a Disciples' Church, which is located in Granger Township, Medina County. The churches and schools throughout Bath are up to the standard of those in the country townships in the county.

CHAPTER XXIX.*

FRANKLIN TOWNSHIP—PHYSICAL FEATURES—COAL AND OTHER MINERALS—SETTLEMENTS OF THE WHITES—CRANBERRY GATHERING—INDUSTRIAL GROWTH—VILLAGES
—EDUCATIONAL AND RELIGIOUS INSTITUTIONS.

THE charms that cluster like gems around the mysteries of the silent past do not end with the beginning of authentic history, but linger with multiplied beauty around the strange myths and fairy tales that come to us through the lapse of unknown centuries. Through the medium of ethnology, archaeology and philology, a wonderful vision of past years is revealed to the present age—one that haunts the inquiring mind of the historical investigator like the face of an angel, instead of like the dismal shadow that shook its gory locks at Macbeth. The vision reveals that, thousands of years before the Christian era—unknown centuries before a means of recording human events had been invented—the human race lived a quiet pastoral life in Central Asia.

Seen through the mists of years, their homes and haunts became the source of many a legend or poetic tale, that had its creation on the bold summits of the Scythian hills, or in the fertile valley of the Oxus or the Jaxartes. Every known field has been carefully searched to clear up the darkness that antedates recorded history; but the sacrifice of time and labor by the assiduous inquirer has been almost wholly fruitless, and has met with continued disappointment and rebuff, and the early mythical traditions are believed to be an imperfect account of what actually transpired in pre-historic times. Since the origin of writing, the most valuable invention ever given to the human race, remarkable strides have been made in intellectual and moral advancement, and in all that makes a people great. During the

*Contributed by W. A. Goodspeed.

passage of time, though unnumbered events of vital importance to the human race have been left unrecorded; yet "line upon line and precept upon precept" of measureless value to man have been written for his perusal and improvement. History is but an imperfect record of human experience, though, notwithstanding its defects, it is of almost infinite importance to the race, for the probable events of the future can be foreknown only by a knowledge of the past. Men and nations are wise only as they can look into the future and anticipate coming events which cast their shadows before, and this can be done only from analogy with what has taken place in the past. "The proper study of mankind is man," and history in its widest and grandest sense is such a study. This places the historian in the light of a public benefactor to succeeding generations; but a prophet—one that can anticipate the future—labors on without the respect or honor of his own country and age. His name will become embalmed in song as the cycles of time sweeps by, will become colossal in the hearts of generations yet unborn, a sublime monument to the departed genius of past ages.

It is not expected that the simple narrative of these pages will be prophecy, for the art of divination is yet in its swaddling clothes. It is difficult enough for ordinary capabilities to acquire a correct and comprehensive knowledge of what has taken place in past years, without borrowing trouble by attempting to peer with curiosity into some Pandora's box of the future. Fictions and hopes and idealisms are thrown down, and facts of all hues are taken up to be woven into the gaudy fabric of local history. The historian, like the insurance agent or the undertaker, has a thankless task, but he takes comfort in knowing that coming generations will fully appreciate the result of his labors. It may appear to some that the historian has an easy time in rummaging through dusty memorials, or following some Jack-with-the-lantern tradition that constantly eludes him, but knowing as he does that the weight of the responsibility of recording the truth, giving to each item of history its appropriate and comparative degree of importance, leaving no path partially neglected or wholly unsearched, resisting the demands of the bigots who insist in having their names enrolled high on the page of honor, rests upon

his shoulder like the sphere of Atlas, he puts forth his greatest powers to encompass the situation and to hand to posterity an accurate and comprehensive record. Nothing but patient, protracted labor brings the desired information. It thus occurs that, in looking over Franklin Township, much difficulty is experienced in accumulating its past history. Traditions are vague and unsatisfactory, and an accurate knowledge of all the facts is out of the question. It often occurs that no two men who are questioned give a similar account of the same event, thus adding much to the perplexity of the historian, or placing the subject beyond the possibility of a correct solution. A cheerful readiness to tell everything known, and to volunteer much information of events of doubtful occurrence, is met with everywhere. Men yet living, who were in the township at the time of its creation, cannot recall any of the incidents connected therewith. The names of many of the earliest settlers have passed beyond the powers of recollection, and the gloom surrounding many important circumstances refuses to yield to the historian's repeated and emphatic injunction, "Let there be light!" It is again necessary to call the attention of the reader to the fact that history at best is but a partial narration of events.

In 1854, Lucius V. Bierce wrote: "The portion of Franklin Township lying east of the Tuscarawas was surveyed in February, 1800, by Ebenezer Buckingham. The Tuscarawas was then the boundary between the United States and the Indians, which was the reason why the balance of the township was not surveyed at the same time. It will be recollected that the Indian title east of the Cuyahoga, the Tuscarawas and the portage path was extinguished by the treaty of Fort McIntosh (Beaver) in 1785. Their title to the territory west of those rivers was not extinguished until the treaty of Fort Industry, in 1805. It is a singular feature of these treaties that the Indians, in the first treaty, ceded the territory east of those rivers, and, in the last treaty, all west of those rivers, but have never ceded the rivers, the fee of which is still in the Indians. This township is No. 2 of Range 10 of the Ohio Land Company's purchase. In forming ranges, the United States began at the east line of the State, on the base of the Western Reserve, and every six miles west was a range,

numbering from the east toward the west. The townships on the east side counted from the Ohio River north to the base line of the Reserve. Thus the north township in the first range in Stark County on the base line of the Reserve is No. 19, Range 16, lying nineteen townships, or 114 miles north of the Ohio River, and 6 townships or 36 miles west of the east line of the State. The townships continued to be thus numbered until they reached the Ohio Land Company's purchase, when they count from the north line of that purchase. This regularity continues until Range 10 is reached, when the north township (Franklin) is numbered 2 from the following circumstances: In 1800, when the survey was made and the township and ranges numbered, there was but a fraction of Franklin lying east of the Tuscarawas and within the Government limits—all west of the river belonging to the Indians. In running the west line of Range 10, the surveyors struck the Tuscarawas in Lawrence Township, next south of Franklin, and, as they could not cross the river to complete the required six miles east and west of those two townships, they named them Fractions 1 and 2 in Range 10. In 1807, two years after the land west of the Tuscarawas became the property of the Government, it was surveyed by Joseph H. Harwell, and enough was added to the fractional townships on the east to make two full townships each six miles square, but the numbers have never been changed; so that what originally stood for the *numbers of fractions* now stands for the numbers of the townships." Franklin is thus No. 2 instead of No. 1, as it should be to conform with adjoining townships.

In early years the situation of the township was looked upon with favor by the settlers. An abundance of excellent water-power could easily be obtained on almost every stream, especially at places where the smaller ones entered the Tuscarawas. The river, then a much larger stream than it is at present, afforded fine communication with the southern portion of the State. Several lakes were in the township, in which an abundance of excellent, though small, fish abounded. The soil, though lying flat and very wet, was rich with decaying vegetable remains, and gave promise of boundless fertility, when the stagnant water could be turned into some of the neighboring streams,

and the action of the sun could be unchecked by the removal of the forests. The township is a fraction over five miles north and south, and exceeds that distance by a little east and west, although not quite six miles. The surface like the greater portion of Ohio is irregular, though in some portions is comparatively level. There are thirty-six sections, No. 1 being in the northeast corner, and No. 36 in the southeast. The northern and western tiers of sections are fractional. The Tuscarawas River enters the township on Section 4, thence crossing Sections 9, 16, 20, 29, 32, and leaving from 31. Chippewa River joins the Tuscarawas on Section 31. Nimisilla Creek drains the greater portion of the southern part, and finally unites with the Tuscarawas in Stark County. The southeastern part is drained by several small streams which flow into the Tuscarawas. Polecat Run rises in the northwestern part, and flowing southward joins the river about a mile north of Clinton. Mud Lake, a small body of water of about fifty acres, lies in the eastern part of Section 32. Turkey Foot Lake, probably the largest body of water in the county, lies near the northeastern corner of the township. It is said to have been named for a noted Indian chief. Its outline is very irregular, the lake consisting of several distinct bodies of water, joined by straits of different width. It probably covers about a section of land, and its extreme length is about two miles, while the greatest width will not exceed half a mile. An enlargement of the outlet of this lake, in the extreme northeast corner, is used as a reservoir, where large quantities of water are stored up during the rainy months, to be gradually used for milling and other purposes in dry portions of the year. The lake is quite deep, though the water is inclined to be "drumlie," as Robert Burns says of the streams about the Castle of Montgomery. However it is a fine lake, and its value will be slowly developed as time passes. There are several small lakes, or rather ponds, scattered over the township, though the number has greatly decreased since the township was first settled. Several have been drained, others have dried up, and a few yet remain to be subjected to the same fate. In traveling over the township, the chief characteristic which meets the eye is the prevalence of depressed tracts of land, or more properly basins, that at an indefinite period in the past were undoubtedly small

lakes. Some of these contain peat, and not a few of them contain a considerable quantity of bog iron ore. The township is rich in that valuable mineral deposit, coal. In 1838, there were three coal mines worked, but at that date a Prussian miner, named Michael Becker, came to the township and opened up several others, giving such impetus to coal mining that about fifteen years later the exports of coal exceeded 60,000 tons annually. There are now twelve or fifteen mines, and the exports are not far from 100,000 tons per annum. Side tracks are laid by the railroad companies to many of the mines, thus favoring extensive and rapid work. The coal deposits are enormous and are practically inexhaustible.

In early years thousands of bushels of cranberries grew annually in the numerous Franklin swamps. These cranberry fields were called marshes, and the berries were gathered by the Indians before the first settlers arrived, and taken to Pittsburgh and other towns in Pennsylvania and Virginia, where they were exchanged for ammunition, clothing, ornaments, etc. The berry is a member of the heath family, and is known to botanists as *Oxycoccus macrocarpus*. The plant is a creeper, or trailer, with slender, hardy, woody stems and small evergreen leaves, more or less white underneath, with single flowers, borne on slender, erect pedicles, and having a pale, rose corolla. The stems are from one to three feet long, and the flowers are lateral, rendering easy the gathering of the berries. The plants require very wet ground, and are often found growing where the soil is covered with several inches of water. The conditions for the possible life of the plant have been removed almost wholly, and cranberries no longer grow in paying quantities in the township or county. The berries, which get ripe in autumn, are red, with some yellow, and are very acid. The harvest begins in October, and is only closed by cold weather, or perhaps the quantity of berries fails. They are gathered during the spring months also, having remained out all winter. They are less acid when gathered in the spring, as the freezing converts portions of the starchy substance of the berries into sugar compounds, and in this condition the berries are valued more highly, as less sugar is required to fit them for the table. When the township was first settled the berries were almost worthless, as there was no

market for them in the west, and the lack of sugar required to sweeten them prevented their general use in the cabins of the settlers. The settlers were compelled to forego the use of such luxuries, being satisfied often with the bare necessities of life. However, after a few years they were worth 25 cents per bushel, and, in about 1830, had arisen to from 50 cents to \$1 per bushel. The cranberry business then became very extensive. Thousands of bushels were purchased annually by the merchants at Clinton, Manchester, and other neighboring villages, and taken by wagon to Pittsburgh, Philadelphia and New York, the teamsters bringing back loads of dry goods, groceries, salt, notions, etc. Water-tight barrels were filled with the berries, after which the remaining space was filled with water, and the barrel closed. In this condition the berries kept fresh and bright for many months. So great became the quantity purchased at one time by Mr. Patterson, an early merchant at Clinton, that he either could not find market for them, or could not procure wagons in which to ship them East, and 300 bushels spoiled on his hands, and were thrown away. Very likely the same thing happened to others. When cranberry picking was at the height of its prosperity many of the settlers were thus engaged, several of whom made no little money. Those gathering the berries—men and women—wore long-legged boots to keep out the water, and as a precaution against snake bites. The berries grew on their short stems, on the under side of long, wiry vines that crept over the mosses and sedges, growing in profusion in the marshes. A section of plank from a foot and a half to two feet long and about a foot wide was taken, and around one end was bound a tough band of hickory bark, forming a sort of box. The other end of the plank was serrated, the teeth being about eight inches long. Two handles were attached, and the rude implement thus completed was used in gathering cranberries. The teeth were placed over one of the long, slender vines, and the implement was held so that when it was pushed along the berries were scooped into the box at the other end. Fifteen or twenty bushels were often gathered in one day with this implement. Whole families turned out during the cranberry season, and the marshes swarmed with settlers, some of whom came many miles and remained several days, camp-

ing in their wagons. When a sufficient quantity of berries was gathered to fill the wagon-bed, it was taken to some of the villages and sold. The berries when first gathered were full of leaves, moss and grass, and had to be cleaned before they were taken to market. A sort of ladder was made, having the cross pieces about an inch apart. When emptied upon this rude sieve, the berries fell through the slits, and the grass, etc., was collected on the slats. Large quantities of berries were cleaned in a few hours by means of this rude screen.

Immediately after the Indian title to the soil west of the river was extinguished, a wealthy Quaker, named Richard Carter, living in Wheeling, purchased the land, and employed John Harris, Esq., and David L. McClure to lay out a town at the junction of the rivers, Tuscarawas and Chippewa, the latter at that time being known as Indian Creek. This was accomplished in September, 1806, and the village in honor of its founder was named Cartersville. It was located on the low land at the junction of the rivers, and at every freshet its uninhabited lots and unworn streets were overflowed by the murky waters. If any building was erected in this village, or if any improvement was made other than laying out the streets and lots and platting the same on paper, such improvements are unknown. Very likely the village existed only in name, but the inference is that as soon as it had its origin on paper, its ambitious founder made efforts to have settlers locate there. Like many another man in early years, his hopes were destined to be blasted. His village died out with the platting and christening, and nothing remains to mark the spot where it once was located. It surpasses in loneliness the "deserted village" of Goldsmith:

"Sweet smiling village, loveliest of the lawn,
Thy sports are fled and all thy charms withdrawn.
Amidst thy bowers the Tyrants hand is seen,
And desolation saddens all thy green."

After this event, no permanent improvement or settlement was made until the spring of 1814. Prior to that time, the township was the home of those wandering hunters, who kept moving westward as the tide of settlement advanced, and whose practical training in woodcraft and in the arts of the chase could furnish pleasure only in the depths of the uninhabited

wilderness. The forest was filled with wild game, and the swamps, rivers and lakes were the resort of many valuable fur-bearing animals, that afforded the trappers almost his only means of support. Small cabins were erected in which were domiciled their wives, who, to all appearances, were capable of living without any visible means of support, and who were frequently left alone in the cabins for weeks at a time, while the husband and father was off on a long hunting excursion. The whole family were inured to privation, and if the cabin did not contain the needful supply of food, it was no unusual occurrence for the mother to go out into the surrounding woods and bring down a deer or a squirrel or some other animal that would afford food for the hungry children. This was true, not only of the families of the professional hunters who came to the most remote frontier; but also of families living in localities where considerable advancement had been made in settlement and civilization. A skillful hunter often made by the sale of flesh and furs, upward of a \$1,000 during the hunting and trapping season, a large share of which, instead of being used in purchasing land, or in providing much needed comforts for the family, was squandered at neighboring grog-shops and distilleries. Traditions are in existence, that several of these hunters lived for short periods in rough shanties or wigwams in the vicinity of Turkey Foot Lake and on the Tuscarawas.

In the spring of 1814, Christopher Johnson, or "Yankee Johnson," as he was called by the Dutch, came to the township and settled on the southwest corner of Section 24. He built a log cabin and made some improvements in the way of clearing and cultivation, but after a few years he became tired of his home, and, disposing of his land, he removed his family to Steubenville. What finally became of him is not known. On the 20th of April, 1814, two men—Thomas Johnson, from the Keystone State, and William Hallowell, from Eastern Ohio—arrived in the township, built their rude dwellings, and began making improvements. Thomas Johnson located on Section 27, where he resided with his family several years, after which he moved to Norton Township, settling at what, in his honor, was afterward known as "Johnson's Corners." William Hallowell located on Section 28, about a mile northeast of Clinton. Here he lived and labored until

1833, when he sold out and moved to Richfield. After this, the settlers came in quite rapidly. Among the settlers who came in at this time, or soon after, were Jacob Sour, Joseph Mishler, John Hick, Mr. Harter, Jacob Balmer, George Rex, Jacob Hollinger, Michael Bradenburg, David Harvey, Mahlon Stewart, John Snider and others. By 1820, there were as many as thirty families living in the township. Other early settlers were the following, who obtained patents of their land from the Government: Samuel Burgner, Mr. Vanderhof, Mr. Smith, Mr. Himelright, Matthias Davis, John Swaisgood, Adam Marsh, and a little later, Mr. Ludwick, Christian Clay, John Spidel, Mr. Waltenberger, George Righley, Mr. Wolf, Mr. McMurray, William Harvey, John Scott, Ephraim Brown, Mr. Wise, Mr. Greenhoe, Jacob Hook, Gorham Chapin, Mr. Rosseter, Jacob Grove, John Stump, John A. Stump, Charles Herring, John Teeple, Mr. Bliler, George Wirt, Mr. Wagner, John Hoy, J. W. Hamm, Dr. Levi Brooks, Dr. Troup, Henry Troup, Mr. Dailey, Mr. Wiltrout, Benjamin Bear, Jacob and John Row, John and Adam Sorrick, and many others. The names of some of the most prominent of the early citizens have been unfortunately forgotten. From 1815 to 1820, the rush into the township was very great, the settlers being largely Dutch from Pennsylvania, with a sprinkling of Yankees from the Reserve and from the East. Improvements were begun in all directions, and waving seas of wheat and corn could be seen where once the monarch of the forest reared his majestic head. Villages sprang up as if by magic; the forests echoed with the hum of industries; schools and churches began their mission of intellectual and moral improvement, and the aspect of the township became materially altered.

Early in 1817, the Commissioners of Stark County, having been properly petitioned by the citizens then residing in Franklin, ordered the organization of the township by the election of the necessary number of officers. The election was held in April, 1817, but only part of the officers elected on this important occasion are remembered. Jacob Balmer and David Harvey were elected Justices of the Peace, and Jacob Hollinger, Michael Bradenburg and Mahlon Stewart, Trustees. From this time onward, the growth of the township was rapid. The settlers belonged mostly to that industrious and

sober class of people of whom William Penn was a representative man. Instead of endeavoring to make a living by their wits, or by hunting and trapping, they went resolutely to work, and their comfortable homes soon proved the wisdom of their course. In 1814, John Johnson, a son of Thomas Johnson, was born, being the first birth in the township. The parties to the first marriage, which occurred in 1815, were John Hick and Catharine Flickinger. The second was in 1816, between Jacob Sour and Mary Hartner. During the summer of 1815, the wife of Jacob Balmer was bitten by a rattlesnake, and before the needed relief could be obtained, she died from the effects, her death being the first.

The rapid settlement of the township between the years above mentioned, led to the immediate erection of mills and other mechanical industries. During the winter of 1816-17, George Rex erected a grist-mill at the outlet of Turkey Foot Lake. The mill was a rude affair, but was the outgrowth of home demand. Notwithstanding the presence of a good mill at Middlebury and at other neighboring villages, the demand for one in the township resulted in its erection. The distance to Middlebury was practically double that at present, owing to the almost impassable condition of pioneer roads (if they deserve such a dignified title). Rex built a dam across the outlet of the lake, locating it at a point where he could obtain the advantage of as much fall as possible. He succeeded in furnishing quite a fair article of flour, and was sufficiently well patronized to warrant continuing the pursuit for many years. Finally, when the lake was converted by the State into a reservoir for feeding the canal, the mill-site was ruined, and Rex was paid for the damage done him. His mill was one of the best in the township in early years. In about the year 1825, or perhaps later, Mr. Caldwell built a saw-mill in the western part, on Polecat Run. He succeeded in obtaining a fair water-power, and continued operating the mill some fifteen or twenty years, when it was abandoned, and a grist-mill built on the same stream a little below it. After a number of years it was sold at Sheriff's sale. Prior to the erection of Mr. Caldwell's saw-mill, another had been built very early above it, on the same stream. It was located on a low piece of ground, and how it was operated is a mystery, as there is no

Joseph Burgess

stream passing the site of the old mill, and apparently never was one. The location seems to have been a swamp, but this does not explain the nature of the motor. Its owner and operator are forgotten. At a point on the river just east of Clinton, Mr. Harvey built a grist-mill in about the year 1820. He did a paying business until the canal was projected through the township. At that time some understanding was entered into between Harvey and the canal authorities as to the surplus water of the canal, in consequence of which Harvey went to work to build a large, strong dam; but the canal, instead of being projected according to agreement, was extended along the opposite side of the river, and his mill-site was ruined. He had conveyed large stones into the river where the dam was to be located, but all this labor was thrown away. Mr. Chapin also built a saw-mill at an early day, on the waste water of the canal. It was located at a point where there was considerable fall, and the result was that the dam was washed away some five times, entailing an additional cost for repairs of nearly \$1,000. He then abandoned the enterprise that had lost him so much money. His mill was a good one, with patented re-action wheels, but was idle a large portion of the time, on account of the frequent breakage of the dam. Mr. Smith also located a saw-mill on the canal, using the waste water. The mill has been operated almost all the time until the present, and has been one of the most valuable in its time ever in the township. Mr. Smith and the members of his family have owned and operated it during the entire period of its continuance. It is impossible to estimate the enormous quantity of native lumber turned out by this mill. John Grill erected a saw-mill on Polceat Run, locating it a short distance above the Caldwell Mill. He drove a thriving business for a number of years. On account of the large number of frame buildings that were going up in early years, the mills, notwithstanding their number, ordinarily did a thriving and paying business. Roughly though strongly built frame buildings soon took the place of the primitive log cabin, though occasionally one of the latter is yet to be seen, standing like a monument over the decaying habitations of early years. The first cabins were usually built of round logs, but a little later nicely constructed hewed-log build-

ings could be seen, and later still, the present frames were erected. As soon as the canal was opened, much native lumber was sent to Cleveland for ship-building on the lakes, and for shipment to other cities. This no doubt contributed to the paying operation of the mills. There were several other mills in the township in early years, both for grinding grain and for sawing lumber. After Mr. Chapin died in 1841, his old mill is said to have been haunted. Strange sounds are said to have been heard there by those who had occasion to pass the old mill during the solemn hours of the night. It was said by the credulous that Mr. Chapin's ghost would wander into the old mill, and a strange noise like the filing of a saw thrilled the hearts of listeners. There was a grist-mill, which did a large amount of grinding, erected at an early day, either at Manchester or near there, but the name of the owner has been forgotten.

Three or more distilleries were erected in the township prior to 1833. A Mr. Wholf built one probably as early as 1820, but this was abandoned about 1830. John Hoy and Mr. Rex each built one as early as 1825, but these were likewise abandoned before 1840. The grain out of which the liquor was manufactured was probably ground at the nearest grist-mills. A certain aspect of respectability was conceded the distiller in early years. Whisky was upon every side-board, and the custom of dram-drinking was universal. It was no uncommon thing for women to indulge in this luxury, and many children may be said to have been raised on the whisky bottle. In view of this fact, and the fact that children largely inherit the appetite for strong drink from their parents, it must not be wondered at that the quantity of liquor consumed is so large. That the quantity consumed, on the average, per capita, is a great deal less at present than it was formerly is evident to those who have made the subject a study. Liquor will always be drunk so long as there is a demand for it, and the demand will only decrease as the appetite is denied or eradicated altogether. People must learn to control their appetites; until then the problem of intemperance will remain unsolved. The distilleries mentioned had a large custom trade, though it is not remembered whether their products were shipped away or not. They started up about the time the canal was being

built, as it was seen that an enormous demand for liquor would be made by the canal laborers. There is no neighborhood through which the canal extended that did not have its drunken brawls and fights, often accompanied with serious injury to one or more participants. The expression, "Can drink as much as a boatman," became familiar to settlers living along the canal. It is likely that the distilleries turned out whisky or brandy at the rate of about a barrel per day each. The old settlers speak in high terms of the quality of this whisky. They say "It was no such stuff as we get now-a-days." They also state that there was not as much drunkenness at the "rollings" and "raisings" in early times as there is at present throughout the township. This is probably a mistake. The fact that liquor-drinking was so common removed all cases of debauchery beyond observance, except the more serious ones. To-day every case is noted and criticised, and the careless comparison magnifies the present number of drunkards. Almost every early settler, soon after he came in, set out a peach orchard, and in a few years enormous quantities of peaches were raised. The prevalence of heavy timber throughout the State modified the climate, rendering this condition of things possible. The distilleries made an excellent quality of peach brandy that was rapidly consumed by the early settlers. In addition to this, large quantities of peaches were dried and shipped East, so long as the demand was lucrative. These distilleries closed as stated, and there has been but one in the township since. This was built in about 1854, and located about half way between Clinton and Manchester. It did not amount to much, and closed at the end of about three years to the joy of all.

Prior to 1860, a well-traveled line of underground railroad crossed the township, being confined to what is known as the Chestnut Ridge, with occasional side tracks. Prominent officials on this road were Alexander Russell, James Hile, Harvey Maranville, Washington Heffleman and George Wirt. These men lost no opportunity of assisting runaway slaves to Canada. On one occasion, Messrs. Russell and Maranville were notified that five slaves—two women and three men—were west of Clinton, in the heavy woods on Chestnut Ridge, waiting for food and clothing. They were accordingly supplied, and directed on their course to the

next station. On another occasion, a settler in the township who had come from Kentucky, seeing a negro traveling northward through the woods with a gun on his shoulder, ran after him and took away the gun, saying as he did so, "It's against the law for nig's to carry a gun." Two or three of the men mentioned above informed this settler to return the gun to the negro immediately, or trouble would ensue, whereupon the fellow reluctantly did so. When questioned as to where the gun was obtained, the negro replied that "Massa Wales," of Massillon, had given it to him to kill partridges and other game, upon which to subsist while traveling North. Wales was probably train-dispatcher on this road. He was a good one, and no collision has since been computed to his fault. John Hall, of Springfield Township, often took negroes who were closely pursued by their masters, and, having concealed them several days at his residence, placed them in his close carriage and conveyed them the entire distance to Cleveland, where he saw them safe on board Canada-bound steamboats before he parted from them. This man was a prominent official on another line. Mr. Hile was a Methodist, and a poor man, as far as this world's goods were concerned, but in many of the cardinal virtues, was a millionaire. It is said that "He would run his legs off any time to assist runaway slaves." The reader is cautioned against construing this statement in a literal sense. It simply means that Mr. Hile would fly around the township when escaping slaves were in trouble. The reader is further cautioned not to render the last sentence in a literal sense, for Mr. Hile would have been a *rara avis* indeed, had such a condition of things transpired.

Franklin has been the site of four or more villages. The first laid out has already been referred to. No house was built there, and consequently the "village" existed only in the "mind's eye" of the projector. In the extreme southwestern part of the township, on the north side of Chippewa River, David Harvey laid out a village as early as March, 1816. It was platted, and properly recorded at Canton, and one or more additions of lots were afterward made. Lots sold quite rapidly, and ere long the village could boast of a population of about sixty. One or more small stores were built and filled with a small stock of

goods each. A blacksmith came in, and the sound of his hammer re-echoed through the muddy streets. A carpenter appeared, and began to ply his craft. A shoemaker built a small shop, where "patching" could be secured on short notice. He probably kept a small stock of shoes for sale. A tailor also located in the village, and passers-by on the streets could see him sitting cross-legged in his little shop, busily engaged on a suit of clothes for some one of the settlers. It is likely that a saw-mill was started on the river in the village, although this is not certain. The village, which had been named Savannah, grew quite rapidly—not so much so, perhaps, as "Jack's bean stalk" or "Jonah's gourd"—yet improvements went on until it was seen that the coming canal would not touch the town, in which case the latter would be supplanted by its more fortunate rivals. The location of the village was not healthful, as some of the citizens were shaking or ailing almost all the time. In addition to these, other circumstances arose, and, finally, in about 1825, a grand rush was made for Clinton and other points on the canal, and Savannah became entirely deserted. The stores and the trades were the first to leave, and soon afterward the villagers, seeing the impending fate of their village, likewise "took up their beds and walked." It is stated that, in 1827, no family resided in the village, although several deserted buildings were yet standing. Many of the buildings were taken apart and removed, after which they were again put together where they had been conveyed. Thus were the hopes of Mr. Harvey blasted. However, he had cause to be grateful, as his son, William Harvey, who had laid out Clinton in February, 1816, owned valuable property at that place, and as the rush from Savannah was mainly to Clinton, the loss to the family was not so serious after all. Clinton, from 1825 to 1840, did more business compared with its population than any other village in Summit County. The village had no sooner been laid out by Mr. Harvey than William Christmas and J. W. Lathrop made additions to it, and industries of various kinds made their appearance immediately. Stores were opened, hotels were erected, mechanics and tradesmen appeared, numerous dwellings were built, and finally the rush from Savannah and the opening of the

canal tripled improvements of all kinds, and lifted Clinton to prominence and wealth. The village immediately entered upon a career of prosperity unknown to it before or at present. Three good storerooms were built, and were constantly occupied by fair stocks of goods, in charge of capable salesmen. Tradesmen and mechanics began their needed labors. Blacksmiths, carpenters, shoemakers, tailors, gunsmiths, wagon-makers, merchants, doctors, lawyers, butchers, tavern-keepers, liquor-dealers, millers, warehousemen, preachers, teachers, and a variety of others, entered upon the prosecution of their individual duties, and the village soon gained wide reputation as a lively trading-point. Three large warehouses were built quite early, and the quantity of grain purchased and shipped north on the canal seems marvelous. All three buildings were 50 feet square; one was three and a half stories in height and the others two and a half. Mr. Maranville, who kept books and purchased grain for the owners, says, that at one time the largest warehouse was filled to the roof with wheat, and contained 100,000 bushels, and the other two were almost as full. He says that he purchased as high as 1,500 bushels of wheat from sun to sun, and that several other buyers at the same time did about the same. Farmers from as far west as Mansfield brought their grain to the village. In fact, a large share of the producers in Richland, Ashland, Wayne and Medina Counties sold their grain at Clinton. The presence of so many farmers in the village afforded the merchants an extensive trade. From 1840 to 1850 more wheat was purchased at Clinton than at Akron. It is said that lines of teams extending into the country a mile waited their turns to unload, and many a man sat in his wagon patiently waiting until after midnight. An average price of about 40 cents per bushel was paid for wheat. Clinton became a point to which merchants living west in the counties above referred to ordered their goods to be shipped. Upon their arrival by boat, an arrangement was made by which they were deposited in the warehouses until the owners could send teams for them. A small commission was charged for the storage. Teams loaded with grain, coming from distant villages, returned loaded with goods for the merchants. Corn, clover-seed and other grains and seeds, were

purchased by parties in the village. The enormous grain trade infused life into every industry in the village. It soon became a great coal center, and large quantities were shipped by boat to Cleveland, to be used on the lake steamers, and to be taken to cities on the lake shore. Large quantities of iron and salt, and leather, and merchandise and other articles, came to the village, to be used throughout the country by the farmers, mechanics and dealers. A large wool business was also done at the village. A carding machine was started, but, for some unknown reason, abandoned the contemplated project. Among the merchants have been Mr. Chapin, Hardy & Moffit, John Patterson, Sorrick and Welhouse, Filson & McConnell, Alexander Russell, M. D. Wellman, Henry Davis, John Price, and many others. Mr. Russell kept store many years. He died a few years ago, and his business was gradually closed by his daughter Maggie. Dr. Alexander Porter located in Savannah when that village was at the zenith of its prosperity. Some of the Clinton followers of Esculapius have been Dr. Chapin, Dr. Richie, Dr. David Chichester (the last two keeping drugs), Dr. Edwards and Dr. Andrew Oberlin. Dr. William Bowen, of Massillon, practiced in the township, as did also Dr. Dolbear, of Fulton, and Dr. Armstrong, of Doylestown. Charles Rinchart, a lawyer, lived at the village a number of years. Several pettifoggers, the most prominent being Jacob Bradenstine, have also practiced law. A post office was secured about the time the canal was opened. Mr. Rosseter, who kept a small tavern on the bank of the canal, in 1833, was one of the first Postmasters. He made out three different reports for the same time, all of which were returned marked "incorrect." He said to Mr. Maranville, "I've made out three reports, and can't make 'em stick." Mr. Maranville assisted him, and the next report "stuck." Some of the merchants employed five or six clerks, although the stock of goods kept on hand was usually not very large. Clinton, like almost every other village, has been in its time a "tough place." Large quantities of liquor were drunk there in early years, and several times the crowds of half-drunken men have taken possession of things. Squads of miners would come to the village, get drunk, and convert themselves into beasts generally. The citizens were imposed upon, until, finally, they

sent to Cleveland and purchased a dozen revolvers, or perhaps pistols, and warned those who were in the habit of creating a disturbance that such conduct must cease. It gradually did. Like all places where miners are in the habit of congregating, fights and drunken brawls have been unpleasantly frequent. The village at its best has had a population upward of five hundred. At present it is about three hundred. Clinton was first laid out on the west bank of the river, but, in 1835, Gorham Chapin, on the opposite side, laid out another village, which he named Orradeen. The lots were so low and wet, however, that but few persons located there, and two years later William and Francis Pumroy laid out the village of Pumroy, on the east side of the river, adjoining Orradeen and a little below it. Here it was that the business centered, and Clinton proper, on the west side, was almost deserted, many of the lots being sold at Sheriff's sale. The post office is Clinton, but, in conveyances of real property, the names Orradeen, Pumroy and Clinton are employed, depending where such property is located.

Manchester has had, in many essential respects, a widely different history. In September, 1815, Mahlon and Aaron Stewart laid out the village, platting the same and properly recording it at the county seat. Lots were immediately sold, and the village began a permanent and rapid growth. The site was much pleasanter than that of Clinton, and in many respects a better class of citizens located at the former place. Mr. Palmer opened the first store, not only in Manchester, but also in the township, and John Snider opened the first tavern. The settlers poured into the neighborhood rapidly, many of whom built dwellings in the village, where they resided. Tradesmen mechanics, teachers, merchants, etc., appeared, and by the time the canal was opened through the township, three or four good stores and other industries to a like extent were in good running order. By this time, Manchester had become quite prominent as a trading-point. Its stores were well-conducted, and were capable of supplying almost anything in the usual line of merchandise. Its citizens were enterprising and industrious, and withal Manchester was a pleasant place for country people to trade. When the proposed canal became a settled reality, Manchester suffered considerably, as

many of its citizens removed to the more favored villages that sprang up on this highway of water. It did not die, far from it. It suffered the drain from its vitals, and when the worst had been done, it slowly regained much of its lost strength. Of course, Manchester was never the grain point that Clinton was. Its removal from the canal rendered that out of the question, besides several industries that were conducted with great vigor at Clinton. On the other hand, Manchester enjoyed the absence of many perplexing problems, proposed for the villagers at Clinton to solve. It was never captured by a brutal and drunken mob of reckless men, nor were its citizens insulted and persecuted. Whisky was sold, and men got beyond their reason, or in other words, drunk, but beyond a few light skirmishes at times, the citizens enjoyed the blessings of peace. Additions have been made to the village, and Manchester at its best has had about as large a population as Clinton. Hon. John Hoy lived at Manchester, and Hon. Hugh R. Caldwell at Clinton, both of whom served as County Judges after Summit was created. When this event occurred, or just before it, great opposition was manifested in the township, when it was proposed that Franklin should be severed from Stark County, and made a portion of the new county of Summit. The citizens opposed it to the bitter end, and employed every means to prevent it, but without avail. They dreaded the idea of becoming a part of "Cheesdom," as they called the Reserve, and clung with filial affection to "Molly Stark," to whom they were deeply attached. They begged to be let alone, and, like Rachael weeping for her children, refused to be comforted because they were not. Notwithstanding their earnest and repeated protests, the dreaded change took place, and went into effect as silently and perfectly as the late financial resumption. Nobody saw any change save in their "mind's eye, Horatio." The Dutch mingled with the Yankees with impunity, and were not harmed. The Yankees visited the Germanic portion of the county, and went back loaded to the muzzle with glowing metaphors in its praise. The change took place without a ripple, and the quiet waters of contentment laughed to scorn the words of prophecy, that had predicted unpleasant and even direful results.

Schools were opened in Franklin at an early

day. The necessity for educating the pioneer children forced itself upon the attention of the early settlers, and, like the ghost of Banquo, would not "down." Some of the adjoining townships had been settled earlier, and had opened school, such as they were, at the time the township was first visited. Large scholars could traverse the long distance through the woods to these distant schools, but the smaller ones were compelled to remain at home until nearer schools were begun, or until they in turn had grown large enough to be trusted on the long journey. It is stated that a small log church had been built at Manchester as early as 1816 or 1817. This building was probably intended both for a church and a schoolhouse. At least, it is remembered that in the year 1817, a young man named Joseph Mishler, of Teutonic descent, taught in this old log building. The room was provided with a goodly number of roughly constructed seats. A large fire-place, capable of taking in a log of almost any dimensions, occupied one end of the room, and a small table was provided at the other, to establish for the teacher a permanent position from which to pronounce decrees, issue commands, and administer condign punishment to offending pupils, or, perhaps, it was intended as an altar, from which some pioneer preacher could thunder the anathemas of heaven upon the hydra-headed forms of infidelity, or pour divine blessings, in golden showers, upon the joyous hearts of the faithful. As was stated, Joseph Mishler was a German, and could handle the glib idioms of his native tongue with fluency and precision. Mr. Mishler had but one personal drawback—he was very homely. It is true he could not help that, although it may be presumed that he ruefully contemplated his ugly features in that blessing of civilization—a looking-glass—and wished with all his heart that he could have the privilege of chiseling his nose to a more respectable shape, of rounding the irregular outlines of his face, or of taking all the features of his face apart and putting them together again after the ideal his aching heart had created. These things are to be presumed. Yet, throughout all his trials, Mr. Mishler remained as homely as ever. One thing is certain, he was a good disciplinarian and a competent instructor, and his school was liked so well that it was continued from that time onward. Mr.

Mishler enjoyed the honor of "boarding around." It is no wonder that he was homely, and that gray hairs soon showed themselves in the auburn locks on his brow. "Boarding around" is a direful enough punishment among refined people; but when that burden is thrust upon the unfortunate shoulders of a pioneer pedagogue by backwoods people, it becomes cruelty unspeakable. This old house was used but a few years, and was then replaced by a larger and better one. One or more other schoolhouses have taken the place of the old one. It is quite certain that school was taught in Savannah, although nothing definite on this point has been learned. Where fifty or sixty people resided for several years, it is not out of place to presume that schools sprang into life. At all events, when Savannah was deserted, a building that had been used there, either for a schoolhouse or a store, was taken apart, conveyed to Clinton, where it was put together again, and used for a schoolhouse. This building was thus used until about 1836, when a "compromise" schoolhouse was erected about half a mile north of the village. This was caused by the fact that, from the shape of the school district, several families, living about two miles north, were unwilling to go so far to school, and insisted on having the new schoolhouse located nearer their residences. It may be said here that, in early years, schools followed the scholars instead of the reverse. Two other schoolhouses have been built in Clinton. About the time the canal was projected through the township, two or three school districts were formed. As time passed on, these were increased, and now Franklin can boast of having many good schools. Mr. Maranville, who located in Franklin in 1833, says, that at that time there were but few competent teachers in the township. Large numbers applied for certificates to the Board of Examiners, and if any were permitted to teach, the grade of the teachers' qualification must be lowered. This was done, and persons not familiar with even the rudiments of the fundamental branches became teachers. Mr. Maranville says that, on one occasion, a "teacher" came to him for assistance, having become "stuck" on a problem in long division. Teachers assembled evenings and assisted each other on the next day's problems. Spelling schools were numerous, and afforded a great deal of amusement. It is

related that one of the country spelling schools was once broken up by a gang of roughs, and the occasion ended in a pitched battle, although it is probable that some of the participants did not afterward designate the occasion as amusive.

The early church history of the township is almost wholly lost in the shadows of the past, and many dates and interesting incidents relating thereto have faded from the memory of the oldest settlers. Many of the early settlers were members of various religious organizations, and these began to meet early at designated dwellings to worship God. It was not long ere the propriety of erecting log churches began to be discussed. Itinerant ministers appeared in the township as early as 1816, and held meetings in the cabins of the settlers. They traveled over large sections of country, and always stopped to preach where a few were ready to listen. At the close of the services, a collection was usually taken for the benefit of the preacher. Some of these collections did not "pan out" as well as the minister desired. Many of the early preachers were eccentric characters, singularly gifted with a rude eloquence that fired the hearts of the pioneers. Many had renounced all social ties, save such as bound them to the house of praise and prayer. With hearts overflowing with love for God and humanity, they had come into the wilderness to preach "peace on earth; good will toward men." They were instrumental in laying the foundation of many of the fine religious organizations that are seen throughout the country to-day. So far as known, the first church was the old log building located at Manchester, as already referred to above, unless

"The groves were God's first temples."

Meetings were conducted in this old house by local preachers, and by some of the more prominent of the early settlers. It is not certain which denomination, if any, predominated at these gatherings. It is likely that all professors of religion, without regard to creeds or sects met here and worshiped in unison and harmony. An early minister in the township was Rev. J. W. Hamm, an Old-School Presbyterian, who was a German, and who could preach either in his native tongue or in broken English. If the German element predominated in his congregation, the word of God was

preached in that language; but if many were present who could understand German imperfectly or not at all, the sermon was preached in English. The Presbyterians built a church at Manchester a few years after the canal was opened, and this society, at times, has been quite strong, and has done much good in the neighborhood. It is impossible to estimate the great good done by a lively religious society. The nobler instincts of life are strengthened, many species of vice are shunned, and the result is an abundant harvest of pure lives and morals. May religious societies continue their noble work until—

“All crimes shall cease, and ancient frauds shall fail,
Returning Justice lift aloft her scale;
Peace, o'er the world, her olive wand extend,
And white-robed Innocence from heav'n descend.”

Some eight or ten years after the Presbyterian Church was built, an Evangelical Church was erected at Manchester. This society is

said to be doing well. About the same time, the Methodists constructed a church at Clinton. At the head of this denomination were Alexander Russell, Washington Hefleman, James Hile and others. The United Brethren also built a church at Clinton, during the late war. About four years ago, the English Lutherans started up, and built a church at Clinton. The most of these churches are doing well. When the Germans make up their minds to join a church, like a flock of sheep they go with a rush, and go to stay. The German Lutherans have a small church in the northern part. The congregation is considerably reduced. Franklin is well supplied with good churches and schools, and no family of children need be raised to their majority without a good common-school education, sufficient for the transactions of life, and the acquirement of that early religious and moral training, which furnishes sober, intelligent and upright citizens.

CHAPTER XXX.*

COPLEY TOWNSHIP—EARLY PHYSICAL CONDITION—NAMES OF EARLY SETTLERS—PIONEER IMPROVEMENTS—RISE AND PROGRESS OF INDUSTRIES—COPLEY CENTER—SCHOOLS AND CHURCHES.

THE generations of to-day can scarcely realize the hardships passed through by their parents and grandparents more than half a century ago. The country was covered with an unbroken forest, through which wild animals and wild men roamed at will, and nothing but continued toil and privation could be expected if pleasant homes were to be created. The roads were mere paths through the woods, and these were in a state bordering on chaotic. Indeed, it is averred by the early settlers that during the spring of the year they could be traveled in but one direction—toward China—and during the remainder caused many a sober and moral man to violate his church vows. What caused the greatest anxiety, however, was the extreme difficulty in getting supplies of every kind. Men who came to the back woods with but little money or property and a large family of almost helpless children, were, indeed, to be pitied, as, in nine cases out of ten, a mis-

erable existence was before them, without any satisfactory promise of improvement for a score or more of years. Store supplies of all kinds were almost fabulous in price; wages were reduced to a starving minimum; crops raised under trying and adverse circumstances brought scarcely any return; schools did not exist, even in name; neighbors were far apart, each struggling to make a living, and the homes were cheerless, uninviting, and too often uncomfortable. This is the darker side of the picture. Some families came to the backwoods with abundant means. These succeeded in rendering their situation comfortable, and very often attractive, and, after a comparatively short period were independent and happy. Many times families were compelled to relinquish their farms and return to their former homes in the East.

The long slopes of land in Copley Township render it one of the most beautiful tracts of land in the county. The vision is not bounded

*Contributed by W. A. Goodspeed.

by short distances, but extends across extensive valleys or basins, through which the principal streams flow. These valleys are not bounded by bluffs, but have a gradual ascent, in some cases, for several miles, and the higher lands, even after that distance, do not reach an altitude but little exceeding eighty feet. However, there is some rough land in the township, perhaps mostly in the eastern and southern portions. Wolf Creek enters from the west, crossing Lots 31, 32, 39, 42, 43, 48 and 47. Pigeon Creek rises in the northwest corner, and flows across Lots 11, 20, 19, 22, 23, 17, 24, 25 and 26. Shocolog Creek (an Indian name, probably) rises in the northern part, and crosses Lots 3, 8, 7, 14, 17, 16 and 25. The land bordering these streams, with some exceptions, is swampy even at the present day, and in early years must have been great bodies of muck and water. Wolf Creek, throughout the most of its course, is not so swampy. Shocolog Pond is an enlargement of the creek of the same name. White Pond is located on Lot 35, and Black Pond on Lot 36. In several places along the swampy valleys of these streams, there are what might be called islands. These are small, irregular-shaped bodies of land, rising in some cases fifteen or twenty feet above the level of the swamp, and presenting the appearance of having been surrounded with water at no very remote period. One of these, called "Fort Island," near the residence of Delos Bosworth, is the site of what is unquestionably the remains of an ancient earth fortification. A description of this interesting "fort" will be found elsewhere in this volume. An island near this is called "Beech Island," and is supposed to have been used in ancient times as a cemetery, and small mounds, resembling graves, are pointed out. Another body of land farther down the same stream (Shocolog Creek) is called "Sugar Island." Pigeon Creek, after leaving the township from Lot 26, takes a circuit in Portage Township, and returns, crossing Lots 36, 45 and 46. These three lots are covered with an extensive swamp, which, in early days, was the resort of countless millions of pigeons that came there to roost. In fact, all along the valleys of these streams, the pigeons were accustomed to assemble in spring and autumn. Large numbers were killed and eaten by our parents. It was dangerous to enter the swamps at night, as very often large limbs

were broken from the trees when the birds settled upon them. An unusual noise would cause millions to rise, and after they had circled around a short time in the darkness, all the time following a leader, they would suddenly descend, and, very likely, all would try to alight on the same tree, which would be broken down. In the northeast part is a small creek, called Sand Run. An abundance of excellent sandstone is to be found in the township. The traveler over Copley notices that the township is crossed by several prominent ridges, which have a general direction east and west. These ridges are a mile or two apart, and seemingly belong to that series of terraces or ridges, which extends across Ohio, south of Lake Erie and north of the water-shed, which geologists maintain was formed during the Glacial period. On the farm of William Wagner is a large mound, supposed by some to have been built by the Mound-Builders, and by others to have been formed by natural means during the Glacial epoch.

The whereabouts of the early records of the township is unknown or forgotten, and thus much interesting material is placed beyond the reach of the historian. "What is everybody's business is nobody's business," is verified in the case of the early records. The proceedings on the occasion of the organization of the township are always interesting, and will continue to become more so as time advances. A few items are recollected and these will be recorded in their proper connection. The first settler in the township is said to have been Jonah Turner, who came from Pennsylvania and located on the Stony Ridge east of Miller's Tavern. He came in 1814, and built a small log cabin. A year or two before, Turner had marched along what is now well known as the Smith road with the battalion under Maj. Crogan, of which he was a member. The army had camped near where Turner afterward selected his farm, and on this occasion (as is related) he concluded that, if his life was spared through the dangers of war, he would locate in that vicinity. He lived here until his death. William Green also came to Copley in 1814. It is not known to the writer whether this man was a relative of Gardner Green, one of the purchasers of the township, from Connecticut, or not. The latter owned perhaps more than any other of the original proprietors, and in his honor the town-

ship had been informally styled "Greenfield;" but afterward, for some reason unknown, the name was changed to Copley in honor of Green's wife, whose maiden name was Copley. These two were probably the only settlers in the township until the fall of 1815, when Samuel Hawkins came from the Green Mountain State, and located in the northwest corner. His son, George Washington, was the first white child born in Copley, his birth occurring December 29, 1815. The following list is only approximately correct: Lawrence Moore, a Scotchman who had come to America in 1797, settled on Lot 1, in 1816. He was a sailor, and soon after coming to this country was impressed on board the British frigate, *Tartar*, where he served for six years, but finally purchased his release by paying \$1,225. Moore built a small log cabin, and lived until a few years ago. In 1817, Allen Bosworth came from Rhode Island, and settled near the center. His son Delos was the second child born in the township, his birth occurring in January of the following year. Delos Bosworth is yet living, and it is due to his unusually retentive memory that many of the events narrated here are rescued from falling into forgetfulness. In 1818, Jacob Spafford, Nathaniel Davis, Jonathan Starr and Gat Yale arrived. In 1819, Chester Orcutt came. In 1820, Parker and Benjamin Taylor, and within the next ten years the first settlers came about as follows: David, Samuel and James Griffin, H. C. Aikens, Nathaniel Norville, Erastus, Flavil and Harvey Beckworth, David Taylor, Chauncey and William Davis, Smith and Austin Hull, Noah, Albert and Thomas Spafford, Rudd Hopkins, Levitt and Peter Wicks, Benjamin Sandford, Noah Robinson and others. There also came in soon afterward Henry Francisco, Jackson Chapman, Ashabel Chapman, H. D. Patch, William and Hiram Randall, James Smith, Frank Wilcox, Darwin and Cullen Clark, Lorenzo Russell, Joseph Younglove, William Hanson, Dr. Hanson Babcock, S. P. Starr, Thomas Cole, Dow Hanson, Lawrence Brewer, Alonzo Coon, George Traver, William, Jacob and Thomas Weager, M. D. Pratt, John Mann and several others. Dr. Elijah Canfield and his brother William came in about 1824. Prior to 1835, there also came in Lyman Green, William Huxley, Chauncey Lease, Robert Stimpson, Henry Begun, Daniel, Joseph and Richard Riley, Dan-

iel Sandford, John Pratt, Salmon Haysington and several others.

In 1825, evidences of civilization were everywhere apparent. Log houses sprang up from all directions, and various industries began to arise. The settlers slowly began to surround themselves with something more than the bare necessities of life. Schools, churches, mills, etc., began to appear, and something like pleasure was felt in living in the fast disappearing forests.

The homely ways and rude garb began to give way before the advance of the autocrat Fashion. Calico could be obtained for less than 75 cents a yard; axes were no longer \$5 or \$6; all supplies steadily decreased in cost, as the roads and means of transportation became better; wages for the poor man were soon higher, and the township, and indeed many other townships in Ohio, entered an era of prosperity unknown to it before. In 1281, a ball was given in the township, at which all attended. The girls came out with their calico dresses with flowing skirts, and the boys appeared in the rustic garb of fashionable pioneers. The entertainment was a financial enterprise, created in the brain of Smith Hull, who agreed to furnish everything necessary except whisky and music, provided each gentleman would chop wood for him two days. Roswell Barnett played the fiddle, for which each couple paid him a bushel of corn (not the juice). All was gayety and enjoyment. Cupid, the little wretch, was abroad, armed with bow and arrows, whose barbed points had been dipped in the green poison of jealousy. His skill at archery was better than usual on that occasion, and even he, hard-hearted though he be, must have enjoyed the music and dance, as during the evening he shot several arrows into warm hearts—arrows that had not been poisoned with jealousy—hearts that were afterward united. The ball was a domestic event, as well as a financial success. "Scheming mammas" were present to select husbands for their daughters—at least they were present. There was snow on the ground, and what a merry time they had going home. How "eyes looked love to eyes," and each throbbing heart beat a responsive echo to the one near it! How short seemed the walk through the woods, and how the parting was protracted, as the first warm kiss of love was given and returned!

There comes to the mind the sweet music of Burns—

“How sweetly bloomed the gay green birk!
How rich the hawthorn's blossom!
As underneath their fragrant shade,
I clasped her to my bosom.
The golden hours on angel wings
Flew o'er me and my dearie;
For dear to me as life and light,
Was my sweet Highland Mary.”

“Wi' mony a vow and locked embrace,
Our parting was fu' tender;
And pledging aft to meet again
We tore oursel's assunder.”

But the walk, so short and enjoyed so much, was ended—the sweet dream, like a vision of heaven passed away, and the sober realities of pioneer life swept over the bright scene with their gloom and shadow. How many hearts that on that happy evening beat with love for the first time, could afterward cry out in sorrow as Burns did—

“O! pale, pale now, those rosy lips.
I aft hae kissed sae fondly;
And clos'd for aye that sparkling glance,
That dwelt on me sae kindly.
And moldering now in silent dust,
The heart that loved me dearly;
Yet still within my bosom's core,
Shall live my Highland Mary.”

Is there anything more precious than the sweet recollection of a sainted face that was once so bright in youth and health, but which now lies pale and cold in the embrace of death? Ah! how many hearts, in the morning of life, with every prospect delightful and every impulse of heart and mind ennobled by the vision of divine ideals, have been stricken down in frenzied sorrow as their earthly idols were laid low in the dust—have gone weeping away, clothed in the mourning raiment of sackcloth and ashes. Then how kind is Solace to enter the sorrowing heart with sweet promises of the renewal of love in the shadowy world revealed to us in dreams.

Copley belonged to Medina County before Summit County was created. It was Township 2, Range 12, of the Western Reserve, and was one of six which composed Wolf Creek Township, the others being Norton, Wadsworth, Sharon, Guilford and Montville. It was organized into a distinct township, with its present boundaries and territory, in July, 1819. The first township election was held in

the barn of Allen Bosworth, as is shown by the following, which is quoted from the records: “On motion, Thomas Beckwith was elected Chairman, and then the meeting was adjourned to the barn of Allen Bosworth for the purpose of doing business.” A year or two before, Lawrence Moore had been commissioned one of the Justices of Wolf Creek Township, of which Copley was a part, and after the creation of the latter he served out his time. At this first election, Joseph Bosworth and Jonathan Starr were rival candidates for the position of Justice of the Peace (not much rivalry, however, as neither was anxious to officiate in that capacity). Thirteen votes were polled, of which Bosworth received seven and Starr six. Owing to some imperfection, either in the election or in the qualification, these proceedings were annulled, and a new election was ordered to be held June 10, 1820, at which time Starr was elected. From the fact that the official duties in early years were light or altogether wanting, it was customary to honor one man with the responsibility and dignity of several offices. It thus occurred that Starr was the first Township Clerk. Thomas Beckwith was elected Supervisor in April, 1820, and Jacob Spafford and Lawrence Moore were elected Overseers of the Poor. The names of the other early officers are forgotten. The first lawsuit begun in Copley was before Justice Lawrence Moore. Suit was instituted at the suggestion of David Point, whose wife had loaned a spinning-wheel to Mrs. William Green, the latter, as was alleged, refusing to return certain portions of the machine. The matter was compromised before trial through the influence of Moore, who advised Mrs. Point in this wise: “You keep the grass too well trod between your houses; let it grow thicker, and you will agree better.” Some years afterward, Gat Yale arose one Sunday morning, and going out, discovered a bear endeavoring to escort a member of the genus *Sus*, against its wishes and vociferous protests, into the forest; whereupon Yale, regardless of the day, pursued the bear and shot it. He was prosecuted before Squire Moore for violating the Sabbath, and, upon conviction, was fined \$1. Whether this had anything to do with Gat's subsequent conduct is not known; but he soon afterward joined the Mormon ranks, and was living, not many years

ago, at Salt Lake City. From the fact that most of the earlier settlers of Copley have passed away like the twilight, and also that the township was settled later than others in its vicinity, it has been impossible to get possession of personal incidents of adventure, without which a township record lacks an attractive feature. That many exciting and interesting hunts took place in early years is well known to the citizens. A circular hunt was instituted in about the year 1823, and a large portion or the whole of the township was inclosed. The center was one of the large swamps. But little could be learned by the writer concerning this hunt, except that quite a large number of deer, bears, wolves, etc., was killed. It is related, that, in the disposal of the game after the hunt had ended, two men, each of whom entertained a bitter grudge against the other, became angry, and a savage and protracted fight occurred, in which both men were badly used up. William Cogswell, who settled in Granger Township, Medina County, was one of the most noted of the early hunters in this section of country. He often penetrated the swamps in Copley, and, if the facts could be known, many an exciting and dangerous hunt, in which he played the role of a star actor, could be told. Almost all of the earliest settlers who had arrived at man's estate when they first came in could boast of having killed bears during the few earliest years. At that time, it was no trouble to kill deer, as even the most inexperienced could fire a rifle (if they had a rest), and often that was the only effort necessary to bring down the quarry.

It was not long ere Copley was well populated, with numerous industries and institutions, which arose to improve the domestic, intellectual and moral status of the citizens. The steady and extensive demand for alcoholic drinks gave rise (as it always will) to numerous distilleries, which began to furnish an abundance of whisky, which numbers its victims by the millions. So prevalent had become the practice of drinking, and so many men had become confirmed drunkards, despite reiterated statements to the contrary, that efforts, made in a few localities to end the manufacture and consumption, attracted general attention, and were imitated throughout not only Copley and vicinity, but over the State and country. These efforts received a splendid impetus in about 1830, at which time almost

every township in what is now Summit County organized well-attended temperance societies, and soon the various organizations could number its members in the aggregate by thousands. In 1828, the church societies throughout the country recommended a day to be observed in humiliation, fasting and prayer, on account of the prevailing sin of intemperance. In accordance with this recommendation, a meeting was announced to be held for the purpose stated at the old log schoolhouse, on the northwest corner of Copley. The house was filled with enthusiastic people, and prayers for the speedy termination of the prevailing evil were freely offered. Remarks were made by several of those present, during which the pointed question was asked, "Is it consistent for Christians to pray for the abrogation of any particular sin, or evil, when their actions and influence favor its continuance?" This question unmasked the whole situation, and led to a spirited discussion as to what should be done in the case by consistent and earnest Christian people. A committee was appointed to draft a constitution, which was to be submitted for adoption or rejection at a subsequent meeting. On the 29th of January, 1829, the committee reported the following preamble and constitution, which is given in full, as it is said, on good authority, to have been the first one drafted and adopted in Ohio :

Viewing, with feelings of deep regret, the fatal consequences resulting from the intemperate use of ardent spirits, and believing that so far from contributing to health, happiness or prosperity, the immoderate use of ardent spirits has a direct tendency to destroy health, debase the understanding and corrupt the morals; and that it introduces vice and misery into families, and has a demoralizing influence on the community at large.

We, therefore, the subscribers, professing to be friends to morality and good order, and desiring to lend our influence to check the progress of an evil so fatal in its consequences, do hereby form ourselves into a Temperance Society, by adopting and adhering to the following constitution :

ARTICLE 1. This society shall be called "The First Temperance Society of Medina County."

ART. 2. The object of the compact shall be the suppression of intemperance, by doing away with the unnecessary use of ardent spirits.

ART. 3. The members of this society pledge themselves not to use ardent spirits, unless necessary for the promotion of health or its restoration, and also to discourage their use by others.

ART. 4. (Refers to the duties and appointment of officers).

ART. 5. The members of the compact shall make use of the means in their power to prevent the in-

temperate use of ardent spirits, and shall use their endeavors to disseminate a knowledge of the direful and fatal effects of intemperance upon individuals and upon society generally.

ART. 6. (Refers to the time of holding meetings).

ART. 7. Each meeting shall be opened and closed by prayer.

ART. 8. Any person may be a member of this society, by signing the foregoing articles and adhering to the same.

ART. 9. This constitution may be altered by a majority vote of the society, notice being given to that effect at a previous meeting.

John Codding, of Coddingville, is believed to have been the writer of this constitution. It was the first declaration of temperate independence in Ohio, and the first four persons who appended their "John Hancock's" to this interesting document are, in order, as follows: Lawrence Moore, John Codding, Burt Codding and Charles Goodwin. This organization did good work, and yet, apparently, it did not decrease, in the least, the use of alcoholic drinks; for, while some few signed and kept the pledge, many—through spite or otherwise—resisted the movement, and encouraged the manufacture and consumption of whisky. The organization of the society was largely brought about by the evil effects of several distilleries which had early been erected in the township, and which were doing a large business. The first one had been erected by Chancey and William Davis, about half a mile north of the Center, in the year 1820. Their grain was ground at neighboring mills, and finally at Akron, and, despite the establishment of temperance societies and the attack made on intemperance, this distillery was conducted for more than thirty years, turning out during its continuance large quantities of whisky, brandy, gin, and wine for sacramental and other purposes. It is said to have averaged as high as fifty gallons a day, and large quantities were shipped to distant points, and a fine revenue was returned to the owners. In about 1826, Allen Bosworth erected a distillery one-half mile west of the Center. He did a large, paying business for a number of years, and then rented the distillery to Alonzo Coon, who also conducted the business almost as extensively. It is said that the distillery averaged about forty-five gallons a day while it was conducted. The building and apparatus were purchased in 1842, by Heman Oviatt, who almost immediately closed out the business. About this time, Alonzo Coon built

another on the opposite side of the road. He also manufactured extensively for some four years, when he severed his connection with the business. Daniel Arnold erected a distillery in about the year 1840, and for some ten or twelve years averaged about twenty-five gallons of liquor a day, at the end of which time he likewise changed his occupation. William Welhouse built an institution of the same kind about the same time, and averaged some forty gallons a day during the greater part of ten years. This sums up the record of these distilleries, and yet it is impossible to write their complete history. Who shall tell of the evil done by them, of the homes and lives made desolate, of the misery created in families that before were bright with the sunshine of happiness. The business was so common, that those engaged in it thought no evil of what they were doing; and, in earlier days, the manufacture was considered respectable and even laudable, as the distilleries furnished a market for grain, and supplied whisky, which, on account of custom, was indispensable to farm management. It thus occurred, that many of the most respected and prominent citizens were engaged in the manufacture and sale of liquor.

It is thought that Chancey and William Davis built the first saw-mill in the township. It was located a short distance north of the village. They put in the same building a turning-lathe and one run of stone for grinding grain. A dam was built across Pigeon Creek, and a fair water-power was obtained by means of a race. After operating the mill about ten years, it was sold to Reuben Lord. It afterward was owned and operated for short periods by Col. John Stearns, Charles Fuller, Henry Clark, George Welhouse, Charles Crum, Henry Stimpson, Ransom Arnold, and several others. It is yet standing, and is owned by Mr. Arnold. While in the possession of Mr. Lord, the turning-lathe and set of stones were removed, and were not afterward replaced. The mill has always been a good one, and, in its time, has furnished large quantities of lumber, much of which may yet be found in dwellings and other buildings over a large tract of country.

Lawrence Moore built a saw-mill in about the year 1830, locating it on Yellow Creek, in the northwest part of the township. It was abandoned at the end of some ten or

twelve years. A saw-mill was built on Wolf Creek, in about the year 1832, by Col. John Stearns, but was sold a year or two later to Benjamin Stimpson, who, after operating it six or eight years, sold out to John Hetrick, upon whose hands it ran down, and was not subsequently rebuilt or re-operated. Parker & Tyler built one on the same stream a year or two after the erection of the last mentioned, and after operating it quite extensively fifteen or twenty years, it was purchased by Allen Pardee, who improved it and built a grist-mill on the same dam. The saw-mill was soon afterward discontinued. Peter and Levitt Wicks also built a saw-mill on Wolf Creek prior to 1835. At the expiration of about five years, the mill was purchased by George Welhouse, under whose management it was conducted successfully for about fifteen years, when it went into the possession of Mr. Austin, who removed the machinery to another locality. Chancey Davis and Col. Stearns built a saw-mill in the swamps in the eastern part, in about the year 1844. It ran for a number of years, and was burned down, but was rebuilt. It was abandoned long ago. Two or three others have been built in the swamps in later years, the most of which have been operated by steam. David Grill built one within the corporate limits of the village some seven years ago. It is operated by steam. A carding-mill was erected at an early day on Wolf Creek, but after two or three years, the enterprise was abandoned.

The grist-mill, conducted by the Davis Brothers north of town, was the first in Copley. Allen Pardee conducted his grist-mill, mentioned above, until some sixteen years ago. Charles Zeigler owns and operates the mill at present. It is said that Allen Pardee was the only one among the early owners of grist-mills who derived a paying income from the business. The mill under his management is said to have been excellent, and a large amount of merchant work was done in addition to the regular custom work. Mr. Welhouse, at the time he got possession of the saw-mill on Wolf Creek, built a grist-mill on the same dam, which was burned down some ten years later. It was a good mill, and did good work. Col. Stearns and Darwin Clark built a grist-mill at the Center in about 1858, in which were placed three run of stone. The mill started finely, but,

two years later, was burned to the ground, and was not afterward rebuilt.

In 1837, a stock company was formed for the purpose of furnishing teams and a stage, to be run from Cleveland to Massillon, by the way of Brecksville, Copley and Clinton. Some \$2,500 worth of stock was subscribed and paid in, and sixteen horses were purchased to be used on the route. The round trip from Cleveland was made in two days by a change of horses at the different stations. The Shepard Brothers, at Brecksville, had been largely instrumental in securing the subscription, and some twenty or twenty-five men along the route had taken stock in the company, several of whom lived in Copley. About a year after the stage began running, for some cause which the writer was unable to learn, all the horses were taken to Cleveland, where they were detained, and the stage ceased its regular trips. The company was not incorporated, the members being simply bound together by a naked contract. The detention of the horses at Cleveland was probably a scheme to defraud the greater number of the members out of their stock. But this was not to be permitted, and several citizens along the route went to Cleveland and got at least a number of the horses, and the matter was finally adjusted.

The first building at the center was a log schoolhouse, located opposite Mr. Cole's Hotel, and was built in the year 1819. In referring to the village, the present corporate limits are not included, but simply the clusters of houses at the geographical center. According to the reports, the next building was the Thomas store, built by Peter and Levitt Wicks in about the year 1826. These men, as stated by several, placed in the building about \$500 worth of goods, which they continued to sell until they were bought out by Oviatt & Baldwin. Other reports are to the effect that the Wicks Brothers did not keep a stock of goods at all, but that the storeroom was unoccupied until it was purchased by Oviatt & Baldwin. At least, it is known that the latter firm placed goods valued at about \$2,000 in the room, in about the year 1832, and continued selling some five years, when the partnership was dissolved, and the junior member entered the Cole Hotel, which had been erected by him two years before, and formally opened the building for the entertainment of the public. After the dissolution of

the partnership, Mr. Oviatt almost immediately retired, and engaged in other pursuits. Patch & Robinson succeeded him, probably buying his stock of goods, which was increased; but these men retired after about one year and a half. They were followed by Robert Codding, who likewise engaged in other pursuits after two or three years. The room remained unoccupied for a short time; but, in 1845, Augustus Warner entered it with a small stock, which was steadily increased, until, at the expiration of six years, it was worth at least \$3,000. He kept a good store, and is said to have made considerable money, which he knew how to save. Nash & Stebbins followed Warner, but two years later they were succeeded by John Starr, who continued until the spring of 1865, making in the meantime no little money. He then sold to Mr. Laney, who, at the end of eighteen months, transferred the stock to William P. Craig, the latter remaining in the business some six years. Nathan Furst was Craig's partner, at least, a portion of the time. He continued the pursuit after the retirement of Craig, but six months later failed, and his goods were sold at auction and otherwise throughout the surrounding country. The building was then vacant a year or so, after which Mr. Gardner placed in it a small stock of goods; but in about 1875, O. T. Lane began with a new stock, and two years later sold to Callow & Leonard. The building is at present occupied by Mr. Thomas.

The town hall building was erected by Joseph and Henry White in about the year 1837. It was designed for a storeroom, but for some reason unexplained was not entered until about 1841, when Wicks & Parmelee placed a stock of goods in the building, and conducted the mercantile pursuit some three years, when Parmelee purchased his partner's share, and soon afterward removed his stock to the Welhouse settlement, at which place he sold goods for a number of years. Two or three other parties were in the White building for a short time. George Babcock was in with a small stock some twelve years before the last war, but withdrew at the expiration of about two years, and the building has not been used since as a storeroom. This has been the extent of the mercantile pursuit in Copley Center, though there have been one or two country stores in the western part of the township. The tavern

building has been used as such the greater portion of the time since it was built and opened by Andrew Baldwin. Since then, the following and others have kept public house in the village: Noah Robinson, Hiram Randall, Mr. Van Evera, Lewis Norton and Daniel Taylor. The building was used a number of years by Oviatt & Stearns as a cheese dry-house. It is now occupied by Dennis Cole, an experienced landlord, whose personal appearance in every way resembles that of his fellow-countryman, the patron saint of boys (not girls), Santa Claus, or *Knecht Clobes*. It is also true that—

“The stump of a pipe he holds tight in his teeth,
And the smoke it encircles his head like a wreath,
He has a broad face and a little round body
That shakes when he laughs like a bowl full of
toddy.”

Various industries have flourished in the village. Isaac Moneysmith, as early as 1833, erected a suitable building, and began doing cabinet work. He employed three or four workmen, and made bedsteads, tables, bureaus, chairs, etc., and continued until about 1837, when Douglass Storr became proprietor. This man continued the business perhaps ten years, or possibly longer, manufacturing coffins and running a hearse a portion of the time. The building was finally burned down. Dow Bennett was engaged in cabinet business for a short time. Soon after the last war, Coon & Son started a cheese factory, one-half mile west of the Center, and have continued doing a good business since. The White Brothers opened a wagon-shop in about the year 1832. They employed some four workmen, and continued the occupation ten years, when they sold to W. P. Craig, who, at the end of three or four years, transferred the property to William Whitehill, in whose ownership it burned down. It was rebuilt by Henry Leiby about eight years ago. Edward Voluntine now owns the shop, and is doing a fair business. The public green or square at the Center was the joint gift of four men, whose land in early years cornered at the cross-roads. These four men were Heman Oviatt, Levitt Wicks, Simon P. Starr and Jonathan Starr, who gave the land in about the year 1832. It is said that Mr. Oviatt, about the same time, laid out a number of lots on the northwest corner, which were platted and properly recorded at the county seat. Additions have since been made to the original lots, and

possibly some of these additions have been recorded. A Grange lodge was organized in the village a few years ago. Dr. Alpheus Babcock, who was among the earliest settlers, began practicing his profession soon after his arrival, and continued some ten years. Dr. Elijah Canfield practiced in the township for thirty years, over a large section of country. Dr. Samuel Austin was in for a few years. Dr. Jackson Chapman began about 1835, and continued twelve or fifteen years. Dr. Byron Chapman was the township physician about thirty-five years ago. The township, since its creation, has had a resident physician the greater portion of the time, several of whom secured a wide practice and the confidence of their fellow-citizens.

Opinion is divided in the township as to where the first school was taught, and where and when the first house was built. The old log schoolhouse at the Center, as before mentioned, was erected in 1819, and the first term therein was taught the following winter by Jonathan Starr. Other reports are to the effect that while Starr might have taught the first school in the township, he was not the first teacher in the old house at the Center, this honor being accorded to John Coddling, Esq. They were both very early teachers, and it may be that the first school was taught in the old log schoolhouse in the northwest corner of the township, instead of in the schoolhouse at the Center, as it is known that the Hawkins Schoolhouse was built very early, some accounts fixing the date before that when the log house was built at the Center. The subsequent township historian will be allowed the honor and pleasure of unraveling the mystery. The old house at the Center was used for school and many other purposes some ten or twelve years, when a frame building was erected on the square to take its place, after which it was abandoned. The frame building was used as a schoolhouse until the erection of the brick building in about 1858, and possibly several terms were taught there after the erection of the brick. It is said that two or three years before the last war was begun, two or three schools were in session in the village at the same time. The frame building is now used as a shop, and the brick was disused in 1872, when the present house was devoted to school purposes. This building is located in the

southern part of the village, and since it has been used the village has had an excellent school. In truth, no other village in the county of the same size, except, perhaps, Peninsula, in Boston Township, has had so much to do with school ventures and enterprises as Copley Center. A short time before the last war, the villagers became dissatisfied with the appliances made of the township school fund. They saw that, while the village had no better schools than those in surrounding districts, the Center District was paying a much greater amount of school tax than any of the others. New schoolhouses in neighboring districts were erected, and the villagers were burdened with a tax which seemed out of proportion, and which they paid only under remonstrance. The subject was freely discussed, and it was at last resolved to secure the incorporation of the Center School District, which was accordingly done. This procedure freed them from any school tax, save that necessary for the maintenance of their own school. The interest in school affairs had arisen to high-water mark, and while at the flood the tide was turned in the proper direction, and it may be said that, since the incorporation of the district for school purposes, the interest in educational progress has been strong and steady. In about 1858, the building now used as a town hall, which had been built at an early day for a storehouse, was purchased for \$1,000, by ten men, each of whom furnished \$100. These men were M. D. Pratt, Cyrus Wicks, J. H. Lyon, John C. Stearns, Peter Wicks, James Hammond, Aaron Oviatt, Lorenzo Chamberlain, Delos Bosworth and Alanson Foster. They fitted up the building for a schoolhouse, and employed Rev. John Ensell, a capable instructor and a scholarly gentleman, to take charge of the school, which was then opened. A goodly number of scholars was enrolled, and a moderate tuition paid, and it seemed as if the school was destined to exert a wide and beneficial influence. But the war came on with its damaging influence, other discouraging events arose, and the school ended some five years after it began. The school in the northwest corner has always been a good one. It is a union district, comprising parts of Copley, Bath, Granger and Sharon. It was an early settled neighborhood, and on account of the interest which centered there, became well known and largely attended. One

or more new houses have taken the place of the old log one. In other neighborhoods than the northwest corner and the Center, schools were not taught until about 1828, and in some districts even later than that. It was about that period, also, that the township was first laid out into school districts.

Two religious societies were organized in the township, but the date when this occurred can not be given, at least with certainty. The Methodists and Congregationalists started up about the same time, and the date is not far from 1830. Among the leading Methodists were Joseph and Henry White, Parker Tyler, Alpheus Northrup and others. In the winter of 1836-37, this society had the greatest revival probably ever in the township. The sweeping statement is made, "Why, everybody joined church." Two ministers of State reputation—Dr. Cone and Elder Poe—had charge of the meetings, and under their experienced and able guidance and management, scores were converted and the churches strengthened by large additions to the membership. Alpheus Northrup was a local minister, about whom a curious incident is related by M. D. Pratt. Pratt was converted—at least, he joined the Methodist Church—and one day Northrup came to him and wanted to borrow one of his horses, of which he owned several, some of them being idle. The request was readily granted, and the local man of God rode the animal away. After two or three weeks had elapsed, several of the neighbors' boys, at different times, spoke to Mr. Pratt, saying that the horse which had been borrowed was getting poor and did not appear to be well taken care of, upon which the owner conferred with the minister about the matter, the latter confessing that the animal was getting thin, and saying that he would get some grain and see that better care was taken in the future. A few weeks later, the minister called on Mr. Pratt, saying that the horse was dead, and expressing his desire to pay for the damage done. He also insisted that, under existing circumstances, the price should be cut down at least half. Mr. Pratt, glad to get anything for the animal from the minister, who was in extremely indigent circumstances, agreed to the proposal, and the

price was fixed at \$25. Northrup gave his note for the amount, and took his departure. A few days later, Pratt was astonished to see the minister riding the animal which was reported to have died, and he perceived that he had been outflanked. He kept still, however, hoping to realize on the note; but time passed away, the day of maturity came around, but nothing was paid, and thus the matter rests to-day. It is said that Mr. Northrup's mind was injured in some way, and that he often did peculiar things—things which otherwise would reflect seriously on his honest intentions. Mr. Pratt tells the tale with some bitterness, which, under the peculiar circumstances of the case, may be permitted. The Congregational society grew in strength and grace, and among its early members were the following: Lawrence Moore, Heman Oviatt, Joseph and Samuel Hawkins and Andrew Baldwin. In the year 1844, the two societies united means and erected the church at the Center. Here they have continued to assemble alternately until the present. Each society has had its years of adversity and prosperity, sometimes rejoicing in the strength of a large membership and an abundance of funds, at other times reduced in numbers, funds depleted, and a noticeable lack of religious zeal. That the societies have done a great deal to improve the morals of the community and control the wayward tendency of youth, is apparent to all who will soberly think of the subject. However skeptical a man may be, though his opinions may be those of *Diabolus* himself, he cannot successfully deny the beneficent effect of good morals on society. He may denounce the church and traduce its servants, yet he cannot truthfully deny that it creates a world-wide benefit to the human race. A Methodist Church was built at quite an early day on the northern line of the township, the members living both in Copley and Bath. The building is now used as a dwelling in the village of Ellis' Corners, if the historian has been correctly informed. Citizens in the western part of Copley attend church in Medina County, while many of those on the opposite side attend the Akron churches when the weather is fair.

Ethan Allen

CHAPTER XXXI.*

TWINSBURG TOWNSHIP—PHYSICAL AND CLIMATIC FEATURES—EARLY SETTLEMENT AND IMPROVEMENT—PROGRESS OF INDUSTRIES—INCIDENTS OF PERSONAL NATURE
—TWINSBURG INSTITUTE—SCHOOLS AND CHURCHES.

LOCAL history possesses a peculiarity which evades a cursory view, remaining concealed until persons of greater penetration peer beneath the covering of average superficial human thought. People must be content with an accurate, though sifted, partial narration of events. Innumerable transactions and events occur in life that should and must forever remain unrecorded, that should die out in memory with the age in which they transpired. History, at best, is but a partial narration of particulars, depending largely upon the mental and moral caliber and culture of the writer. Perhaps no two writers, in describing the same historical event, will present the same features, the same shades of thought or sentiment, the same degree of power and importance which each composing element bears to its fellows or to the whole. Historians cannot, especially if they were absent when the event transpired, which is usually the case, they cannot write all the circumstances, all the motives, all the intricate blendings and relations of which an occurrence is composed. They must give an outline, must give the salient points with their proper degree of importance, must overleap the dark chasms of non-essentials which yawn beneath them, and touch only on the heights where the sunshine of human experience, human nature and human frailties reveals not only the object for which history is written, but the long vistas of prominent events which are to be recorded for future usefulness and improvement.

The peculiarity spoken of, which is connected with the narration of local history, consists in the writer's being required by an inexperienced and short-sighted people to give an account of occurrences which are better unrecorded, which have no special significance nor value in coming years, which are a clog to the mind of the reader while endeavoring to decipher the more important events from the general obscurity,

and which are only required that they may answer individual ends. On the other hand, the historian must be careful, must be broad of heart and mind, that he may grasp the local situation, and paint events in their true colors; must be argus-eyed, that nothing may escape his scrutiny; and must be honest and conscientious, that his discoveries may be truthfully recorded. He should also be a good judge of human nature, that the suggestions of selfish and bigoted people may be impartially scanned, and accepted or rejected. Events are often omitted, which, apparently, should have been given; and again, events are often given which should have been omitted. Human judgment is prone to err "as the sparks to fly upward;" and even historians are not exceptions to this rule. It is the object in these pages to give only that portion of the past that is worthy of preservation. Trifling personal incidents, adventures and ambitions are omitted, except such as show the surroundings under which the settlers labored; and the great mass of historical rubbish, though perhaps of present interest, is thrown aside as useless and burdensome. Only those events which will be valuable twenty generations hence are designed to be given.

Twinsburg is situated in the northeast corner of the county. It was originally attached to Portage County, from which it was severed when Summit County was formed. Lying as it does at the side of Northfield, its soil partakes largely of the valuable character of the latter. There are several valuable stone quarries lying so near the surface that a heavy blast of powder would, apparently, throw out hundreds of perches of the gritty sandstone. As it is, large quantities are taken out, and are used not merely in the county, but in adjacent counties. The township is well watered, and also well drained. In times of drought, the wells are not so liable to fail as those located on the bluffs which bound the Cuyahoga

*Contributed by W. A. Goodspeed.

River. The township is drained almost wholly by Tinker's Creek. This stream enters near the southeast corner and flows northwest, leaving one mile east of the northwest corner. There are several valuable falls, the principal one being at Millville. In early years, in the northern part of the township, the bed of the creek widened out to three or four times its ordinary width, thus creating what might be termed a lake on a small scale. There is considerable quite level land, which, when the country was new, was very wet, affording but little satisfaction to those who were obliged to cross it. Since the opening of the forests has let in the heat of the sun, the soil is found to be in about the proper condition to work. The soil is mainly destitute of clay, consisting mostly of a dark loam, which contains a large proportion of decaying vegetable ingredients. Large quantities of stone are being taken out at the quarry one mile north of the Center.

Much of the early history of this township has already been written by some of its earliest and most reliable citizens. While much of this must be repeated, not only from its value, but from the fact that it is unusually complete, new items of historical importance, which have been carefully gathered and selected, will be added. The writer has taken pains to collect additional information on those subjects which are treated quite fully by Ethan Alling, Luman Lane and Gen. Bierce. In a few instances, those writers have made mistakes, some of which have been discovered and will be avoided. Other subjects have not been treated as thoroughly as their historical value demands, resulting no doubt from the primary nature of these records. Again, other important topics have been altogether overlooked. The writings of the above-named men are valuable, and are mainly followed.

The original proprietors of Twinsburg were Mills & Hoadley, who owned the south and southeasterly parts; Henry Champion, who owned the west and northwesterly parts, and Moses and Aaron Wilcox, who owned the north and northeasterly parts. The principal stream in the township was named by Gen. Moses Cleaveland, in honor of the principal boatman, Joseph Tinker, who accompanied the first exploring expedition sent to the Western Reserve by the Connecticut Land Company. While parties of the surveyors were running the merid-

ians in the eastern part of the Reserve, during the summer of 1796, Gen. Cleaveland, accompanied by Joseph Tinker, went up the lake on an exploring voyage, as far as the mouth of the Cuyahoga, and then up that river until they discovered a large creek, which, in honor of his boatman, Gen. Cleaveland named "Tinker's Creek." Tinker was engaged the following year in the same capacity, in the second exploring expedition to the Reserve. In the fall, when the company was returning down the lake, the boat containing Tinker was capsized, and he was drowned. But the stream still bears his name, and will until the end of time.

In 1816-17, Lewis Alling, of Connecticut, purchased 400 acres of land of Mills & Hoadley, lying in the southeast part of Millsville Township (now Twinsburg). On the 3d of March, 1817, he sent his son Ethan, then a strippling aged sixteen years, to this land in the Reserve to commence an improvement. Three young men—Zeri Alling, Rodolphus Wolcott and Lex Johnson—were hired and sent out at the same time to assist him. After a muddy journey, except one day's travel on the ice from Buffalo to Dunkirk, this little party of four arrived at the cabin of Mr. Post, in Hudson, on the last day of March. The next day the party, accompanied, or rather guided, by Mr. Mills, started north to have a look at the land, upon which they were destined to undergo many hard days' labor. Following a line of marked trees, they at last reached a spot which Mr. Mills informed them was the center of the township. They all sat down and rested under a beech tree which stood just at the southeast corner of the square. The spot was muddy and uninviting, and the party followed up the creek until they came to "the falls," where they found some sticks of hewed timber which had been drawn there by settlers of Hudson who designed building a saw-mill. The project, however, had been abandoned, although a small, partly finished log cabin had been erected, which was yet standing, an emblem of desertion and loneliness. After returning to Hudson and remaining there two weeks, clearing in the meantime a piece of land to be planted in corn, the boys selected a hill known now as the Hawkins farm, the land being a portion that had been purchased by Lewis Alling, and began clearing off the timber. On the 15th of April, they "moved" to the half-finished log cabin already referred to,

taking with them a barrel of stale pork that had been bought of Capt. Oviatt for \$25, a barrel of flour that had cost \$8, ten bushels of potatoes that had cost \$5, and a gallon of whisky that had cost \$1.50. They were supplied with a bake-kettle without a bail, two tin pans, one case knife, one iron spoon, and were compelled to use chips for plates and sharp sticks for forks. Ethan Alling kept house, doing the cooking, etc., not only for his party but for various visitors who were attracted to the spot, in order, perhaps, to get a "square meal." On the 7th of July, Lewis Alling and his family arrived, and moved into a log house that had been erected by the boys about the 1st of June. This building was the home, during the year, of the Alling family, and also of several others, numbering in all fourteen persons. The house was two-storied, having one room above and one below, and, although everything was in the most primitive fashion, yet all seemed to live well and enjoy themselves. Provisions were very costly, though venison could be had without much trouble. Pork sold for about \$8 per hundred, while the same quantity of venison could be bought for \$1. Salt was \$10 per barrel, cotton shirting 50 cents per yard, and calico 75 cents per yard.

Toward the latter part of May, 1817, Maj. Elisha Loomis, E. W. Mather and Lester Davis arrived from Connecticut, and, after stopping a few days with the Allings, built a log cabin at a place since known as Loomis Mills. Mr. Loomis had been a sailor on the ocean for many years, having sailed twice round the world in the ship *Oneida*. Frederick Stanley came in about the same time Loomis did. On the 1st of July, Lewis Alling, Jr., Gideon Thompson and Zenas Alling arrived with a drove of 104 merino sheep, having driven them, in thirty days, 660 miles. It was thought that sheep-rearing could be made profitable, but the owners were doomed to disappointment. The wolves killed many of them, as did also the dogs, while others died of strange diseases which baffled all care. The flock were soon all gone. At the close of 1820, the following settlers had found homes in the township: Lewis Alling, William Allen, Elisha Loomis, Elias Mather, Joel W. Thompson, Josiah Myric, Noah P. Nichols, A. J. Palmer, Henry Bennett, Amos C. Taylor, Lyman Richmond, Reuben Chamberlain, Frederick Stanley, John Bassett,

Samuel Vail, Edwin Vail, Homer Vail, John Dodge, Isaiah Humphrey, Roman Humphrey, Nestor Hurlbut, Ezra Osborn, Preston Pond, Samuel Alger, Cyrus Hodskin, N. S. Barnett, Cotton M. Leech, Levi Leech, Emery Alger, Elijah W. Bronson, Asa Upson, Orrin Tucker, Leonard Kilbourn, Oliver Clark and Messrs. Perkins, Sawyer, Davis and Darling.

The township was organized in 1819. An election was ordered to be held in April of that year, by the Commissioners of Portage County, and on that occasion nineteen voters were present. Frederick Stanley was chosen Clerk, and a few other offices were filled; but it was found necessary during the following autumn to elect the remainder, at which time Lewis Alling and Samuel Vail were chosen Justices of the Peace, receiving their commissions from the county court. Elisha Loomis was the second Clerk, E. W. Bronson third, and Luman Lane fourth, the latter serving in 1822. The township was named in 1819, in honor of, and at the suggestion of, the Wilcox brothers, who were twins. These brothers did not come West until 1823; but owning as they did several thousand acres in the northeastern part, they proposed giving six acres at the center for a public square, and \$20 toward building the first schoolhouse, providing the township was named Twinsburg in their honor. Their proposal was accepted; but prior to that time the township was known either by its range and number, or as Millsville. Elijah W. Bronson was the real estate agent of the Wilcox brothers, being authorized to dispose of their land previous to their coming to the township. Luman Lane was the first, or one of the first, to erect a dwelling on the Wilcox tract. Maria Stanley was the first child born, that event occurring November 23, 1819. The first death was in the spring of 1819, and was that of a child of Reuben Chamberlain. The first marriage occurred March 19, 1821, between Emery W. Alger and Eliza Dodge, Lewis Alling, Esq., performing the ceremony in backwoods fashion.

In 1817, Elisha Loomis erected a saw-mill in the southeastern corner on Tiuker's Creek. A natural fall in the stream, of some ten feet, aided by a strong dam, furnished a fine water-power. Water was supplied by means of a race, and the mill continued to do good work for a number of years. In 1818, E. W. Mather built a frame grist-mill at the same place, on the op-

posite side of the creek. This mill was operated until about 1840, when it ceased from lack of patronage. The presence of these two mills at the falls served to attract settlers to that locality, and several dwellings were soon seen on the adjoining hills. This proceeding met the approval of the proprietors of that tract, who had already placed on paper a plat of the prospective village of "Millsville." They saw a general disposition on the part of the settlers to locate there, and determined to profit by it. They accordingly laid out a number of lots, and offered them for sale at prices ranging from \$50 to \$200; but they had greatly miscalculated, as scarcely a lot was sold. There were but few mechanics in the country then, and they sought larger villages in which to ply their craft. And then the price asked was ten times too much for that early period of the growth of the village. All shunned the village, and at last, when the proprietors awoke to the true state of affairs, they were too late to remedy the evil. There was no demand for the lots then at any price. The tradesmen, mechanics and merchants had gone elsewhere, leaving the proprietors to repent in sackcloth and ashes for their short-sightedness. The mills, at this anticipated village, were not the only ones in Twinsburg in early years. Apollos White built a dam across Tinker's Creek in about 1835, and erected thereon two mills—one for grinding grain and the other for sawing lumber. Both did fair work for a number of years. White finally sold the grist-mill to a man named Gibbs, who, after operating it a few years, sold to other parties. It finally burned down in about 1865, George and Alfred Ledgsham being the owners at the time. These mills did good work, and had an extensive patronage in their day. It was an accommodation to get flour and lumber so near home, for it saved tiresome journeys through roads whose bottom was too far down to be reached with comfort.

Roads were important considerations when the country was first settled. If a path was cleared through the woods for that purpose, it seemed as if all the stagnant water for rods around was sure to settle there. The turnpike was largely graded by the owners of the land across which it ran. Mills and Hoadley worked the turnpike along their land, as did also Henry Champion. These men evidently had an object in view in this proceeding, as they after-

ward charged an additional dollar per acre more for the land adjoining the turnpike than for other portions. The citizens gave from \$10 to \$50 each to assist in defraying the expense of constructing this road, the amount given reaching very nearly \$3,000. In 1821, the citizens living on the road running north from the Center, pledged themselves to labor on that road each alternate Saturday afternoon, or forfeit a half-gallon of whisky. Tradition tells us of a great many forfeits paid; but does not utter a syllable as to what became of the whisky. In spring time, when Tinker's Creek was raging, the settlers living on the opposite side found it extremely difficult to cross over to the Center. This finally led to the erection of a bridge more than forty rods in length, which lasted for a number of years. Brush and stone and logs were placed in muddy spots in the roads; and, some time in the distant future, when these places are invaded, and portions of the wood found in a fair state of preservation, newspaper speculations as to how long they have been there will be in order.

In 1825, Ethan Alling began the dairy business with twenty-two cows, several of which had been bought for \$12 each. The butter made was taken to Akron once each week, and sold at 8 cents per pound for the use of the canal laborers. Considerable cheese was also made, but from a lack of suitable places in which to keep it, a large portion was lost. Six hundred pounds, however, were sold at Aurora for 5 cents a pound. This was the first cheese made in Twinsburg. In 1828, Joseph Chamberlain also began making cheese and butter from the milk of some thirty cows. About the same time, several others began the same occupation, which was conducted so extensively that money began to flow into Twinsburg, instead of out of it as before. About \$1,000 came to the township in 1833 from this source alone. Twinsburg has since been noted for its interest in dairy matters. The sales steadily increased until, in 1860, they amounted to more than \$75,000, and in 1880 to nearly \$100,000. It is difficult to conceive how scarce money was in pioneer times, and how people managed to get along without it. When the settlers first rushed to the township, there was considerable money for a few years; but when a lull in the immigration occurred, the ready money flowed away like water, leaving the set-

tlers to discover some means of getting along without it. At first, when money was abundant, prices were very high; but when the money had served its purpose and gone to distant places, prices gradually went down until they became very low. The settlers, who afterward came drizzling in (if the expression may be allowed) brought ready money, and the settlers already there were anxious to become their bosom friends. This rapid change created two distinct prices—one called the trade price, and the other the cash price. Promissory notes, due at some future day, were made payable in horses, cattle, hogs, wheat, potatoes, etc., etc. Quite a number who came early were induced to promise to pay \$5 or \$6, per acre for their farms. Some succeeded, but most of them failed, and were obliged to leave the farms, several of which, with all their improvements upon them, were afterward sold for \$3 an acre. Early in the spring of 1821, Joel W. Thompson, seeing around him a strong demand for liquor, erected a small distillery at a spring in the southeastern part of the township. Considerable rye whisky was made for a short time, which was carried away in gallon bottles, as fast as it was made. In 1826, a strong impulse was given to the temperance cause in Summit County, or what is now Summit County. Societies for the suppression of liquor-traffic and liquor-drinking were organized in every township, not only in this county, but throughout the eastern part of the Reserve. Great enthusiasm prevailed among the workers, and scores of persons ceased to manufacture and sell ardent spirits. A branch society, with headquarters at Cuyahoga Falls, was organized in Twinsburg in about 1830, and, three years later, the society boasted of 224 members—all living in the township. Those who were selling liquor at the Center were induced to close up their business and join the society, which could soon boast that there was no place in the township where liquor was sold. It was about the time of the organization of this society that the first effort was made to secure the raising of log-buildings without whisky, but the movement was met with violent opposition from those who thought liquor one of the necessities of life. These men refused to appear at such raisings, but, when their temperate neighbors refused to assist them, unless whisky was omitted from the programme, they finally either

dropped the use of liquor on such occasions, or sought associations more congenial with their intemperate habits. A spirit of hostility was thus created between parties, which terminated only when the temperance cause prevailed.

Many interesting incidents are told by old hunters or their descendants concerning adventures had with bears or other wild animals. Ezra Clark was one day chopping on a piece of woodland belonging to Mr. Lane, when suddenly he heard a hog, off some twenty rods distant, begin to squeal as though in the greatest distress. Clark instantly surmised that a bear was endeavoring to carry off the hog, or was killing it on the spot. Though unarmed, he instantly made up his mind to prevent, if possible, the untimely death of the *Sus scrofa*. He hurriedly cut a heavy club, and, seizing it, he ran rapidly forward to a large log, behind which he beheld a scene which was often enacted in the backwoods. A savage-looking bear of average size had thrown a full-grown hog on the ground, and was busily engaged in tearing its flesh with teeth and claws. A large hole, from which the blood freely flowed, had been torn in the hog's shoulder, and, when first seen, the bear had just fastened his long white teeth in the tender flesh, with the design of tearing out another large mouthful. Mr. Clark was at first in a quandary what to do, whether to consult his own safety in flight, or to courageously attack the bear. His ax was still in his hand, and, after hesitating but a moment, he approached with the intention of striking it into the bear. But the moment the bear beheld his approach, it leaped back from the hog, and, rearing up on its hind feet, in the act of defense, faced the woodsman with a savage growl, showing two rows of gleaming teeth discolored with blood. The man stopped short, as he had no desire to encounter the embraces of the animal. He threw his club, however, with all his strength, fairly striking the bear, which dropped on all fours and shambled off a few rods, when it turned, showed its teeth, and, after viewing the intruder a moment, turned and made off as fast as it could through the forest. On another occasion, a bear was seen to pass across the southern part of the township, going north. An alarm was given, and a party of men with dogs and guns started rapidly in pursuit. The bear was overtaken

by the dogs, and treed near the cabin of Aaron Post. The men came up, when one of them fired, bringing the bear to the ground. It was badly wounded, but had plenty of life and flight remaining, and the men, knowing that it could not escape them, determined to have some fun, if it could be called fun. The dogs, five or six in number, were urged on; but whenever they came within reach of the bear, they were knocked about like foot-balls. They soon learned, by sorry experience, to keep at a respectable distance, contenting themselves with sudden approaches and nips, when the bear's back was turned. The animal handled its fore feet with remarkable strength and dexterity, wheeling round and round to escape the sharp teeth of the dogs, and occasionally sending one of them end over end a rod or more away. At last, one of the men, with gun cocked, went close to the bear, and fired directly at its head, expecting to stretch it dead in its tracks; but, just as he fired, the bear made a sudden movement, and thus escaped the shot unhurt. Another tried the same experiment, and succeeded in killing the wounded animal. It is related by Mrs. Elizabeth (Walker) Lappin, of Boston Township, who is the oldest settler living in the county, having been born in October, 1788, and who came to Hudson in 1802, that, on one occasion, a man named Cackler, while hunting in the woods in Twinsburg, as early as 1808, came very nearly being killed by a bear. While following its trail rapidly, with head bent down, he came directly upon it so suddenly that he had no time to raise his gun or retreat. The animal reared up on its hind feet, with a fierce growl, and struck a fearful blow at the hunter with its fore-paw, but, luckily, he leaped back far enough to avoid the stroke. He raised and cocked his rifle, probably in the same movement, and, as the bear was upon him, he thrust out his gun, with the intention of making a quick shot, and, as luck would have it, the muzzle was plunged into the animal's mouth. The trigger was instantly pulled, and a ball went crashing through the brain of the huge animal, which, a moment later, fell upon the ground in the agonies of death. Had it not been for the lucky thrust of the rifle, it would have fared hard with the intrepid hunter. Mrs. Lappin says that her father, John Walker, killed sixteen bears after coming to the county,

and that, on several occasions, he had narrow escapes from death. He had a large butcher-knife, which he invariably carried with him, and, whenever a bear was killed, a notch was cut on the deer-horn handle. This knife is now in possession of Mr. Walker's grandson, who lives in Indiana, and upon the handle are the sixteen notches, cut there more than half a century ago by the fearless old bear hunter. Many other interesting stories of a similar nature might be narrated.

It is probable that Elijah W. Bronson, the land agent of the Wilcox brothers, erected the first house in the village of Twinsburg. The exact date is not remembered, but was prior to 1824. The second house was built by Mr. Myric, and was a frame structure, located on the south side of the public square. The Bronson building was on the east side, and was constructed of logs. In 1824, Leverett Clark bought the Myric property, the latter moving East. A man named Gould lived about ten rods west of the square in 1824. In 1823, Moses and Aaron Wilcox built a small frame house on the north side, and here the brothers "bached" for a short time, selling, in the meantime, portions of their land, and using their best efforts to induce settlers to locate at the village or farther north on their tract. They did not commit the mistake that resulted so disastrously to Mills & Hoadley. They had already given land for the public square, and \$20 toward building the first schoolhouse, and they now not only sold their village lots at a low figure, but gave lots to tradesmen and mechanics who would locate there permanently. The result was that in five or six years, ten or twelve families were living at or near the Center, and various industries had arisen, giving the place a business-like appearance. While "baching," the brothers employed Mrs. Clark to bake their bread; but they otherwise, very probably, did their own cooking. In about 1826, each of the brothers built a small frame house on the north side, and both of these buildings are yet standing in a fair state of preservation, and both are occupied. In the fall of 1825, Ethan Alling, after quitting the dairy business, commenced building a tavern at the Center, and the following year, the structure having been completed, Mr. Alling moved in about the 1st of December. The tavern was formally opened on Christmas with a ball, and music and dancing

ruled the hour. This building is yet standing, and composes a part of the large, low frame structure which stands, dark and deserted, on the southeast corner of the square. In the bar of this tavern, liquor was kept for sale, a universal thing in those days. The Wilcox brothers had succeeded in getting a Post Office at the Center as early as 1825, and Moses Wilcox was commissioned first Postmaster. At his death, which occurred in the autumn of 1827, Mr. Alling applied for the appointment, and was commissioned October, 1827. Mail was then obtained from Hudson once a week. The total amount of postage received in 1828 was \$36.01; in 1839, it was \$256.67, and in 1860, about \$400. Twenty periodicals came to the office in 1828; about seven hundred came in 1860. At that time a well-traveled stage route, running from Hudson to Cleveland, passed through Northfield Township, bringing an enormous custom to hotels there, and filling every industry with life. Mr. Alling and others in Twinsburg saw this, and became envious; or, at least, they resolved to make the effort to have the stage route changed so as to pass through Twinsburg Center. With this object in view, Ethan Alling and Jabez Gilbert, in 1828, bought out the entire stage property. The sequel is easily guessed. The route was immediately changed, and the splendid impetus given to every industry at the village soon produced a marked result. New life was infused into every undertaking; mechanics and teachers appeared, and the outlook for the village seemed highly favorable. It was one of the most important events occurring in the history of the township. A tri-weekly mail was thus secured, and from one to five stages passed over the route daily. The road was extensively traveled by persons going to Cleveland to market, who had previously gone by some other route. It is said that very often as high as fifty horses were kept over night at the tavern barn. But although the stage line was a splendid thing for the village and township, it was a losing investment to the owners. This is difficult to understand in view of the fact that, so far as can be learned, the stage line was well patronized. However, Mr. Alling lost \$600 the first year he was connected with the undertaking, and it is likely that those connected with him also lost heavily. In 1829, Mr. Alling commenced the mercantile pursuit

in his tavern bar, a room six feet by eight, placing therein \$3.50 worth of tobacco and Scotch snuff. A few groceries were added the following year, and as the trade, though exceedingly limited, seemed brisk and promising, Mr. Alling finally concluded to engage in the pursuit more extensively. He accordingly rented his tavern in 1831, to Samuel Ederly, and built a frame house, an apartment in which he fitted up for a storeroom, the remainder being devoted to the use of his family. A few hundred dollars' worth of goods comprised his stock; but this was slowly and steadily increased until, in 1835, the goods were valued at some \$600, when he erected a large storeroom on the northwest corner of the square. Here a good business was done with a stock which, at its best, was worth about \$7,000. All the different varieties of country produce were bought and sold, and the store did much to centralize the efforts of the citizens in the village. The sales of goods, exclusive of flour, salt and produce, amounted in 1847 to \$14,000. In 1848, Mr. Alling's sons, Frank A. and George H., were given charge of the store, and continued until 1851, when George purchased his brother's interest, and conducted the business until 1856, when he died, and the store fell into the hands of Bishop & Chamberlain. The stock at this time was worth about \$10,000, and a brisk and profitable trade was had with the surrounding country. At the expiration of two years, Chamberlain sold his interest to his partner, the latter continuing alone until about the opening of the war, when he likewise sold out. In 1830, the tavern now owned and conducted by Mr. E. W. Clark, was built by Eli and Otis Boise. It was intended for a combined store and dwelling, and, in what is now the office, about \$1,000 worth of goods were placed. The brothers sold or traded out, two years later, to Edward Richardson, who, at the end of some three years, disposed of his goods and converted the building into a tavern, a use to which it has since been devoted. In about the year 1839, Odell & Taylor erected a frame store building on the present site of the stone store, and began the mercantile pursuit with between \$4,000 and \$5,000 worth of a general assortment of goods. They likewise bought produce, and enjoyed a lucrative trade. At the end of about five years, Mr. Odell purchased his partner's interest and continued

until his death, which occurred in about 1851. He was succeeded by his son, Delos Odell, now conducting a harness-shop in Macedonia, and two or three other gentlemen, all under the partnership name of Odell, Price & Co. In 1857 or 1858, A. L. Nelson took possession of this store building, but was soon afterward burned out, whereupon he erected the stone store building he now occupies. This merchant, at times, has done an excellent business. Messrs. Hart, Dodge, Santford and Bishop, in about 1851, built the store building now occupied by the Madden Brothers. These men, who were partners, began selling goods, and continued thus some four or five years, when Mr. Bishop sold to the others and withdrew. Three years later, Mr. Dodge sold to the Stephens boys, and thus the partnership continued until some three years later, when the parties failed and made an assignment of their goods. After that, the building was vacant, or practically so, until 1866, when Madden Brothers took possession and began to manufacture and sell ready-made clothing. They were practical tailors, and did a good business in their line, continuing until the present time. The firm is known as I. & P. Madden. Richardson & Taylor commenced the mercantile pursuit in about 1846, and continued until 1850, when Mr. Richardson sold to Mr. McFarland, and the latter, two years later, to Osman Riley. Soon afterward, the partners failed in business, and the building was finally destroyed by fire, and was not rebuilt. Other merchants have held forth in the village at different times, but these were the principal ones. James Alexander, at an early day, began to manufacture wagons, conducting the work in a small shop, on a small scale. He steadily increased his business until, in 1849, he gave employment to ten or twelve workmen, and turned out large numbers of first-class wagons and carriages. He burned out in 1851, but immediately rebuilt, and has continued the same occupation until the present, although in late years the business has greatly fallen off. It should be mentioned that Mr. Alling, at an early day, bought ashes and manufactured a limited quantity of potash for a number of years, in the village. A few other industries of less consequence have flourished from time to time.

It was customary when the country was first settled that, when a death occurred, the de-

ceased should be buried on their own farms. This was done in Twinsburg. In September, 1823, a cemetery of one acre was purchased northeast of the square, and Lucretia Hull, who died in September of the same year, was the first person buried there. In 1846, a new cemetery was prepared on Lot 10, Tract 3, consisting of an acre and a half. The yard was fitted up, planted with trees, and a stone wall built around it, at an expense of \$1,079.66. Other improvements were made, and, by 1860, the cemetery had cost the citizens about \$1,850. It is known as Locust Grove Cemetery.

It should be noticed that the first principal settlement in the township was made upon the Wilcox tract. This tract, it seems, was incumbered by a mortgage which had been given by the Wilcox Brothers to the State of Connecticut. These men, though undoubtedly upright in their intentions, were unable to pay off the mortgage, thus leaving settlers who had purchased of them in an embarrassing situation. When this condition of things became known, settlement upon this tract largely ceased, which accounts for the slow manner in which it was improved. Finally, the Rev. Mr. Bissell took the matter in hand, and, by his intercession with the proper authorities, succeeded in obtaining prompt and honorable relief. The Wilcox Brothers were remarkable in many respects. As has been said, they were twins, and, upon arriving at man's estate, married sisters, Huldah and Mabel Lord, of Killingsworth, Conn. "In life, they so resembled each other that none but their most intimate friends could distinguish between them. They married sisters, had an equal number of children, held all their property in common, wrote alike, thought alike, looked alike, dressed alike, were taken sick on the same day, with the same disease, died on the same day, and were buried in the same grave-yard."* This remarkable coincidence in similarity probably never before occurred.

In the year 1822, a log schoolhouse was built upon the square at the Center. This was the first public building of any character in the township, and it was used as a schoolhouse, a town hall and a church. The first teacher was Miss Lovina M. Miream, who taught a short term, receiving her pay by subscription. This

*Gen. Bierce.

lady afterward became the wife of Mr. North. Other district schools were not instituted until about 1828, and several were as late as 1833. The houses put up were usually rude log buildings, which were used for a few years, or until there seemed occasion for the erection of better ones. Although these schools have been fair in their way, yet they have been mainly primary in their nature, from the reason that, ordinarily, as soon as the scholars became quite well advanced in their studies, they were sent to the Twinsburg Institute. So that, really, the country schools have been hardly equal to the average throughout the county. The history of the township would be incomplete without a record of the Twinsburg Institute, an institution which, for more than half a century of usefulness, has done more to improve the intellect and morals than perhaps any other organization, not even excluding the churches. It dates its origin as far back as 1828, when yet the township was but a frontier settlement, and almost its entire surface was covered with primitive forests. Its founder and supporter, who is yet living, hale and hearty, at the advanced age of more than fourscore years, was Rev. Samuel Bissell, a native of Connecticut and a graduate of Yale College. Immediately after receiving his diploma, Mr. Bissell began a course of theological studies, designing to enter the ministry upon their completion. These studies were completed under many difficulties; in truth, the life of this man has been one unceasing round of struggles, through which nothing but invincible determination in the path chosen and unflinching patience and self-denial could have proved triumphant. Soon after his ordination, he came to Aurora, Ohio, and, in 1826, began a private school, which was continued until 1828, when he was invited to take charge of the Congregational society at Twinsburg, an invitation he accepted. A block-house had been erected for his accommodation, about a mile west of the Center, into which he moved. On the same lot was a rude log house, twenty by thirty feet, with rough boards on the floor, and loose ones for the ceiling, the building having been originally built for a shoe-shop. Three openings were made in the logs composing the walls, in each of which was placed a sash containing four small panes of glass, while at one end of the dismal room was a broad fire-place, with chimney built of

stones and sticks plastered with clay. In the room were placed a few rudely and hastily constructed seats and desks, and the only cheerful feature of the apartment was the roaring fire which lighted the place with fitful and ruddy glow. Mr. Bissell, upon his arrival, had made known his wish to teach the youth of the neighborhood; and with his first school in the room just described began that unusual system of philanthropy which became a characteristic feature of his institute, and was the means of educating so many indigent youth. This schoolroom was thrown open to any young people who desired to attend, without any charge, except from those disposed to pay, in which case the tuition for the term was to be \$2. About forty students attended the first winter, and so much interest was created that several terms were taught in the old house, but in 1831, a combined church and schoolhouse was erected, in which Mr. Bissell taught and preached until 1835, when he went to Portage County, but returned in 1837, and built a house 20x35 feet, in which he taught for twenty-nine consecutive years. Two years later, this building was enlarged, and other arrangements made to meet the growing demands of the institute, which was fast getting a name. In 1843, a large, two-storied frame building (the Alling Hotel property) was secured and fitted up for the accommodation of students, a large number of whom were from a distance, and were compelled to board in the village. Within the next five years, two other large buildings were secured for a similar purpose. There were now in attendance about three hundred students, at least fifty of whom were boarders. Seven teachers and assistants, at the head of whom was the Principal, Mr. Bissell, were necessary to conduct the numerous classes. A thorough academical course of studies, including the classics, higher mathematics, French and German, vocal and instrumental music and penmanship, was provided, and all necessary opportunities were afforded to prepare students for college. No charter was ever obtained, and no public money ever appropriated to strengthen the institute, which rested upon the shoulders of one man. The tuition charged was usually \$2 for the term, and never more than \$4, even when the classics were taught. Elaborate and systematic arrangements were made for boarding the stu-

dents in the numerous buildings referred to, at a cost to each of from 9 to 12 shillings per week. The great value of the institute to the village and to all the surrounding country need not be detailed. Twinsburg became noted for its thrift, energy and general excellence in education and morals. More than six thousand students have been in attendance at the institute during its continuance, and, out of these, about two hundred have been Indians of the Seneca, Ottawa, Pottawatomic and Ojibway tribes. Ministers, statesmen, generals, lawyers, professors, physicians and artisans, in all portions of the country, trace the beginning of their education to the door of the Twinsburg Institute. A good library was secured, and literary and other societies were instituted. The benevolence of Mr. Bissell was such that he not only greatly lowered the tuition, but even educated hundreds at his own expense, who were unable to pay their own way. He was accustomed to give such students a few light chores to do, and these trifling duties were so divided and subdivided, that the work was more in name than in reality. It is related that on one occasion, after Mr. Bissell had gone to extremes in this respect, some of the students thus detailed grumbled about having more to do than others. Considerable ill-will was thus incited. One morning Mr. Bissell arose at his usual hour, 5 o'clock, and, beginning with these chores, completed the entire round before the time for opening the school. Not a word was said, but the act spoke in volumes to the fault-finding students, who, after that, vexed the ear of the Principal with no more grumblings. Among the Indian youth was George Wilson, a Seneca, about whom a great deal has been said. He became a fine scholar—superior in many important respects to any other ever in the institute. His presence was fine and imposing, and he displayed rare gifts in logical force and fervid eloquence. Mr. Bissell says that the quality of his eloquence, the unusual power of his intellect and the force of his delivery, resembled in a marked manner those of Daniel Webster. He afterward became chief of his tribe, and was sent to represent their interests to the New York Legislature, and to the New York Historical Society, receiving from the latter several thousand dollars for his people, who were in a starving condition in the West. Another one named

Jackson Blackbird, or "Mack-a-de-benessi," was an Ottawa, and a direct descendant of Pontiac. He excelled in composition, and composed a comedy, three hours in length, that was presented by the societies of the institute publicly to large audiences with great success. He afterward did his people good service in Michigan, as is seen by the following in his own language: "I left Traverse Bay the last of February, 1851, and went on snow-shoes to Saginaw Bay, on my way to the capital of Michigan with petitions from my people to become citizens of the State. I appeared before the Governor and officers of the State, and obtained the passage of a joint resolution of both Houses in favor of the petitions." Mr. Bissell became known throughout the Reserve for his philanthropy in the cause of Indian education. Some two hundred were educated at the Institute, from whom no compensation worth mentioning was ever received. All their expenses were paid, including board, tuition, room, fuel, light, washing, books and stationery, and some clothing, at the fair estimate of \$200 each, a year. This expense, borne by no one except the Principal, estimated at these figures, has amounted, during the history of the institute to over \$40,000. Almost as much has been expended on indigent white youth, and when the cost of erecting the various buildings is added to this, the total amount foots up to the enormous sum of over \$80,000, all of which has been borne by Mr. Bissell. To offset this, not more than \$12,000 have been received from all sources. These expenses were too heavy to be borne, and an embarrassing debt was the result. When the last war broke out, the institute was greatly injured. Several of the buildings were sold to pay the debts, which amounted to some \$6,000. A few hundred dollars were left, which purchased a small building that was used for the school. At this time, and without means, the foundation of the present stone building was laid. The manual labor connected with the erection of this house was largely done by Mr. Bissell. He obtained the loan of \$1,500, and with this purchased the necessary tools, a horse and wagon, etc., and without any previous experience, put on the roof, made the doors, window frames, etc. The entire cost was about \$8,000, and when it is known that the age of Mr. Bissell at that time was seventy, not only was the

undertaking gigantic, but its wisdom may be doubted. The institute is likely to fail altogether, when the Principal's hand is removed by death from the helm. Mr. Bissell is now almost penniless, and is compelled to teach for a living at the age of more than eighty years. Considering the invaluable service he has rendered the village and township in the past, how scores of people now living there have been the recipients of his generous bounty, how patient self-denial and faith in God have been the watchwords of this venerable old man, it is unquestionably due from the citizens to provide him with at least the necessaries of life.

Religious meetings were held in the township prior to 1820. They had been held in one or two of the few dwellings and, it is said, in the upper story of the grist-mill, very likely by Revs. John Seward, of Aurora, and William Hanford, of Hudson. After the erection of the schoolhouse, in 1822, at the Center, they were usually held there. Lewis Alling, Sr., usually led the meetings; Asa Upson also did. A circuit minister, whose name is forgotten, organized a class at the house of Asa Upson as early as 1821, and the first members were Asa Upson, Emery Alger and their families. Mr. Seward was preaching for the society at this time about once a month. Mr. Hanford also held regular service there. A Congregational society was organized August 23, 1822, and at that time consisted of the following members: Lewis Alling, Luman Lane, Hanford White, John A. Wells and the following and their wives: Robert Hurd, J. H. Kelsey, Belizer Beech, also Irena Thomas, Comfort Nichols and Julia White. Revs. Seward and

Hanford organized the society. It was greatly strengthened by a revival in 1827. On the 30th of April, 1828, Rev. Bissell was given charge of the society. Rev. Hair was its Pastor in 1835. At this time or soon afterward, a division was made in the society, and Rev. Bissell became the Pastor of one of them. Revs. Treat, Ward and Chapin occasionally preached at the Center. Rev. R. C. Learned was Pastor in 1843; Horace W. Palmer, in 1848; Joseph H. Scott, in 1853; Sidney Bryant, in 1860, and the President and professors of Western Reserve College have also filled the appointment. A proposition to build a combined church and schoolhouse on the square met with opposition. Timbers were prepared, and, finally, under protest, the house was erected. The house was twice moved, and then torn down. Another building was erected in 1831, at a cost of \$700. The present one was built in 1848, at a cost of \$3,000.

The fine marble monument standing in the public park is a credit to the patriotism of the citizens and an emblem of gratitude to the brave boys, living and dead, who fought in the last great war. Their names and the companies and regiments in which they served are chiseled into the white stone. The structure was erected the "semi-centennial year of the settlement of Twinsburg." Its total height is twenty-eight feet, and it rests upon three superimposed bases of sandstone, which form a series of steps to the foot of the marble column. Standing on the summit, with wings outspread, is a life-sized statue of the American eagle.

PART III.

BIOGRAPHICAL SKETCHES.

CITY OF AKRON.

ALLEN FAMILY, Akron. Jesse Allen, Sr., the progenitor of the Allen family, was born in 1770, in Cornwall, Conn. His father Nathaniel Allen was killed in the Revolutionary war, when Jesse was rather young. He (Jesse) lived with a family in Connecticut, until he grew up, and there learned shoemaking. When a young man he went to Tompkins Co., N. Y., where he married a lady of German origin named Catharine Teithrich, in 1796; she was born in Trenton, N. J., in 1776. He abandoned his trade for farming, and bought a farm near Ithaca, N. Y., but lost it by "bailing" a man, and thus his hard earnings were swept away, except a few hundred dollars, with which he determined to remove to Ohio, and, in the summer of 1811, set out with his family of seven children, and brother's family, bound hither; he bought land which adjoins the Sixth Ward, then Middlebury. During the war of 1812, he served under Maj. Spicer, and, while gone an Indian spy came into the house, and the little boys working in the clearing came with their axes to hew him down; it is supposed the same Indian was killed near Summit Lake. Mr. Allen continued to reside in Coventry Township until his death, Sept. 12, 1837. Mr. A. was a member of the Baptist Church, and in the early days, before ministers came to the country, he, being an excellent reader, used to read sermons at the pioneer religious meetings. He was the father of ten children, seven of whom were born near Ithaca, N. Y., as follows: Jonah (see sketches in Coventry Township).

LEVI, the second son, was born Feb. 10, 1799, and was 12 years old when the family came to Ohio; he walked all the way and drove cattle.

The following incident is not inappropriate. When on the beach of Lake Erie, the wagons with the provisions were delayed by accident, and Levi and other boys, with John, a little fellow, were on before with the cattle and were without provisions, except the milk of the cows. At night, he (Levi) covered John with sand to keep him warm, and thus they passed the night alone. Their first work upon arriving, in July, 1811, was reaping in a harvest field for Mr. Norton. He (Levi) grew up a close thinker, and was a man of sound judgment.

DAVID, the third son, was born Dec. 2, 1800; when about 18, he learned the trade of machinist; he and his brother Jesse and McMillin commenced the manufacture of carding machines about 1833. He (David) married, in 1829, Beulah Jones. He died in 1842.

JACOB, the fourth son of Jesse and Catharine Allen, was born in Lansing, Tompkins Co., N. Y., Feb. 11, 1803; he was 8 years old when his family removed to Akron; he learned his trade with Humphrey & Bagley in the woolen mills at Middlebury, Ohio, and, when about 18, he went to New York State and built a woolen factory near Ithaca, where he lived until 1835, when he returned to Akron and built several woolen factories, which he started, and sold while in successful operation. He was in company with Simon Perkins and Jedediah Cummins for several years, and was interested in all the railroads, doing all he could to promote the interests of Akron, widening Howard street and making various improvements. He was interested in the manufacture of flour for several years, and established an office for its sale, which his son, Frank H., is now conducting in

New York City. He was a Democrat; never sought office, but was several times in the Council. He married Miss Catharine Van Sickle Feb. 16, 1830; she bore him five children, three of whom are living—Frank H., Mrs. Rufus Wright, of Brooklyn, Long Island, and Miss Lizzie Allen. He was liberal in the support of all churches, and died Nov. 25, 1879, in his 77th year.

JOHN, the fifth son, was born Dec. 5, 1804; he learned the trade of stone-cutter, and was a contractor on the locks of the Ohio Canal. He died at Picketon, Ohio, Nov. 23, 1829.

JESSE, the sixth son, was born May 1, 1807; he learned the trade of stone-cutter also, and, with his brother David, manufactured carding machines in Akron in early times; he engaged in flouring-mills in 1856, which he continued until his death, Sept. 24, 1863. He was a strong Whig during the last thirty years of his life, and an active business man, and firmly established in uprightness and integrity; of high moral standing, talented; to know him well was to esteem him.

CATHARINE was born Feb. 9, 1809, and died at the age of 32 years. She married Mills Thompson, of Hudson, Ohio; leaves six children.

SARAH was born Jan. 3, 1812, and was the first one of the children born in Ohio. She married James M. Hall, March 22, 1832. She died Jan. 27, 1877.

HIRAM was born Sept. 14, 1814; he came to Akron in 1840, and, with Jacob Allen, his brother, erected in succession a woolen mill on Cherry street, the old portion of City Mills and brick mills, now occupied by Allen & Co., first used as woolen factories; he erected the block north of the Beacon Block, and which burned in 1871, when he immediately put up the present one. He died Sept. 21, 1878, unmarried.

CHRISTIANA (Allen) Caldwell, the youngest of ten children, was born Jan. 30, 1822; she came to Akron in 1840, where she still resides in a pleasant home on Broadway.

ALBERT Allen, the son of Levi Allen and the grandson of Jesse Allen, Jr., was born March 12, 1827, in Coventry Township, where, until he attained his majority, he was employed at farming and clearing, after which he learned millwrighting under John S. Gilerest, of Springfield, and engaged in plying his trade for a period of nine years. In 1856, he built for

J. & J. Allen & Co., the Allen Mill, and was employed as manager of the same for ten years. In 1867, in company with Alexander H. Commins, he purchased the Stone Mills, which then had but four runs of stone; they conducted a successful business under the firm name of Commins & Allen, which continued up to the time of the death of Mr. Commins, in 1880, since which time the firm name has not been altered. The mills do an entirely merchant business, and grind from two hundred and fifty to three hundred barrels of flour per day. In the spring of 1881, the mills were changed to the Hungarian process, which enlarges the capacity of the mills to four hundred and fifty barrels of flour per day.

FRANK ADAMS, President and Superintendent of Akron Sewer Pipe Company, Sixth Ward; was born in Windsor Co., Vt., July 5, 1819, and is the son of Benjamin and Betsey (Crowley) Adams, who were natives of Massachusetts, and were married in Vermont, where they had moved with their parents when young. In 1838, they came to Ohio, the journey being made by a wagon to Troy, N. Y.; thence by canal to Buffalo; thence by lake to Cleveland; and thence to Norton Township, in what is now Summit Co., where they settled on a farm previously purchased; they farmed there about ten years, when they removed to Akron, where they lived a retired life until his death, which occurred Nov. 22, 1849; Mrs. Adams died about twenty years later. They were members of the M. E. Church for more than forty years, and took an active interest in all church affairs. Frank remained at home until within a few months of his majority; his education was confined to a limited attendance at the district schools. Upon leaving home, he went to live with his brother-in-law, Mr. Samuel Manning, who was publishing maps, and with him remained two years, in the printing department. He then engaged as clerk in the post office at Akron, remaining one year, when he left, and, at the expiration of another year, he returned to the post office, remaining this time two years, when he engaged in the map business, forming the partnership of Manning & Co., and remained one year, when the firm became Adams & Egleston, the latter buying out Manning. They continued until the spring of 1848, when their building was destroyed by fire, which necessitated a dissolution of the firm and

the discontinuance of the business in Akron. He then took an active part in the campaign, and was Treasurer of the Whig Club. In March, 1849, he was appointed Postmaster of Akron by President Zachary Taylor, and held the office during his administration and that of his successor, Millard Fillmore. After retiring from the post office, he opened a hat store, which was burned in the spring of 1855. In May following, he purchased an interest in the business of Merrill, Powers & Co., and, in 1859, the firm became Hill & Adams, which continued until 1868, when the business was merged into a stock company, known as the Hill & Adams Sewer Pipe Company, and, in January, 1871, Mr. Hill retired, and the corporate name became, as now, "The Akron Sewer Pipe Company," of which Mr. Adams was made President, also Superintendent, which offices he still retains, having held them from the first formation of the stock company. During the war, Mr. Adams served as a member of the School Board, member of Council, Treasurer of School Board, Corporation Treasurer, and Treasurer of the Soldiers' Relief Fund. He was married Jan. 21, 1846, to Miss Sarah J. Gale, a native of Vermont, who came to Akron when young, with her parents. She died Jan. 11, 1863. They had three children, two living, viz., Julia Latham and May Perkins, both of Akron. He was again married, Sept 2, 1863, to Mrs. Janetta L. Murphy, formerly Miss Hart; they have two children, viz., Frank H. and Belle M. Mr. Adams was a Whig up to the formation of the Republican party, and a Republican since that time. He has been a member of the Episcopal Church for twelve years.

ISAAC C. ALDEN, Treasurer of Whitman & Miles Manufacturing Co., Akron, Ohio; is a son of Henry and Abbie C. (Smith) Alden, and was born Nov. 20, 1851, at Bridgewater, Mass. When very young, the family moved to Abington, Mass., where he went to school until he was 15 years old, and then entered a wholesale dry goods store in Boston, remaining two years. In 1869, he entered the knife manufactory at Fitchburg, which place he held until 1872, when he came to Akron and was made Assistant Treasurer of the Whitman & Miles Manufacturing Co., and, in 1877, he was made Treasurer of the concern. He was married, Dec. 10, 1874, to Miss Emma L. Gifford, of Fitchburg, Mass.

ANGELO ANDREW, of R. L. & A. Andrew, Akron; was born Feb. 1, 1846, in Boston Township, this county; he lived at home until 17 years of age, when he was apprenticed to the printer's trade with the Akron *Bacon*. After serving two years, he went to Cleveland and worked on the *Ohio Farmer* until Aug. 23, 1864, when he enlisted in Co. H, 177th O. V. I., and served until the close of the war, taking part in all the engagements in which his regiment participated. On his return from the army, he followed the business of painting, in Peninsula, for three years; he then engaged as clerk in the same village, in a general merchandise business, for a period of five years. He then came to Akron and worked at his trade with his brother, and, in 1877, formed the partnership indicated above. Their business is confined to wall paper decorations for public buildings and residences, which they handle by the wholesale as well as retail, and all kinds of painting, employing from six to twelve skilled workmen. Their store is 22x66 feet, with two stories and a basement; church and hall decorations are a special feature of their business. Aug. 14, 1873, he married Miss Lizzie Warburton, a native of Northampton Township; they have three children—Maybelle, Frank and Bessie.

R. L. ANDREW, of R. L. & A. Andrew, Akron. R. L. Andrew, senior partner of the firm of R. L. & A. Andrew, is a native of Boston Township, this county; his parents, Robert and Ann A. (Tubbs) Andrew, were natives of England; his father came to America in 1838, and lived with a brother in Boston, Summit Co., Ohio; in the following year, he returned to England and married, returning to Boston with his wife in 1840; here he followed the trade of ornamental painter, remaining in Boston until 1873, when he moved to Akron, where he has since resided. Mrs. Andrew died in Akron Oct. 3, 1879. R. L. Andrew was born May 24, 1841, the eldest of three children; he lived at home, learning the trade of his father, and clerking at Peninsula and Akron for some five years until 1862. In June of this year he enlisted in the 85th O. V. I., Co. B. and served four months, taking part in the meanwhile, in the engagements at Prentiss, Miss., and Vickburg. In August, he enlisted in Co. H, 177th O. V. I., and served to the close of the war with the rank of Sergeant; he was present at the battle of the Cedars, the engagement at Shelbyville Pike. Town Creek,

and was present at Johnston's surrender. Returning home after the war, he engaged as clerk in the store of E. H. Cole, at Peninsula. He subsequently went to Michigan and clerked in a store in Iona, then at Marshall, and finally at Ann Arbor, for E. B. Thompson & Sons, who moved their business about as indicated. Oct. 6, 1869, he came to Akron and took up the business connected with his trade of ornamental painting. In 1873, he built the present store property, 240 East Mill street, where he has since conducted his business. Jan. 1, 1877, he formed the partnership with his brother Angelo. Sept. 6, 1866, he married Miss Emerancy Hall, a native of Northampton; she died April 3, 1879. Two children were born to them, both deceased.

JOHN H. AUBLE, real estate, insurance, railroad, steamship and foreign exchange agent, Akron, Ohio; was born Dec. 2, 1842, and is a son of Daniel and Susanna (Orwig) Auble, natives of Millinburg, Union Co., Penn., where our subject was born. His parents came to Ohio in 1854, and settled near Wadsworth, Medina County. He worked on a farm until 15, when he entered the store of E. G. Loomis, at Wadsworth, as a clerk, until July, 1861, when he was made a partner, under the firm name of Loomis, Auble & Co. He was doing a prosperous business, when he enlisted in Co. I, 103d O. V. I., Aug. 2, 1862. Soon after enlistment he was detached as Clerk A. G. O., under Maj. Gen. A. J. Smith, and served in the army of Mississippi; was in active service first against the rebel Gen. Kirby Smith, in Kentucky; at the siege of Vicksburg, with Gen. Sherman, on the Yazoo, and Grant at its final surrender. He was in the Missouri campaign under Rosecrans, with Thomas at Nashville, and in Gen. Scofield's department during the last months of service. He was mustered out with his regiment at Camp Cleveland, June 24, 1865, and returned home. He was at once employed as salesman by M. W. Henry & Co., of Akron, where he remained five years, and, in 1871, engaged in the real estate, insurance, foreign passage and exchange business. In January, 1875, he took the business management of the Beacon Publishing Co., leaving it in the fall of 1877 with its financial condition greatly improved. He is Secretary of the Akron Coal Co., operating rich mines in Guernsey County. In May, 1880, he was appointed

agent for the New York, Pennsylvania & Ohio Railroad, a position he still holds. He was married in August, 1870, to Miss Harriet E., only daughter of Rev. W. F. Day, D. D., formerly of Akron M. E. Church. They have five children—Anna Helen, Susie Orwig, Hattie Day, Bessie Norris and John Henry, Jr.

J. PARK ALEXANDER. The subject of these lines was born to John and Mary (Scott) Alexander on Aug. 7, 1834, in Bath township, Summit Co., Ohio, where he worked on a farm until the age of 18, attending district school and the academy at Richfield. At the age of 20 he went to the normal school at Marlboro, entering the engineering class under Prof. Holbrook, being a class-mate of Prof. Mendenhall. Having completed an engineering course, he was, in 1856, employed in the public schools of Akron, where he taught two years. In 1865-66, he bought the present site of his fire-brick manufactory, then used as a manufactory of stoneware, being, at that time, a small concern. He enlarged the buildings, and at the same time contracted for such an amount of stoneware as twelve or fifteen manufactories of Summit county could make. The aggregate amount of some years was two million gallons of ware. He established a warehouse at Detroit, maintaining it eight years, and one at Chicago five years. In 1867, he began manufacturing fire-brick, which he has greatly improved in quality. In 1875, he succeeded in obtaining a patent for the manufacture of a nearly pure (98.78) silica brick from white pebble. This was the first business of the kind in Ohio. They make about one and one-half million bricks per year, employing twenty men in the making, and a large number in the handling of them for market. In 1872, he bought two oil refineries in this city and ran them, in connection with the Standard Oil Company, for five years. In 1858, he was elected Secretary of the Summit County Agricultural Society, holding the position for five years, which were followed by seven years in the presidency of the same, during which time (1858 to 1870), great improvements were made in the society. In 1868, he was elected member of the State Board of Agriculture, and, in 1872, Treasurer of the same. He was made member of the City Council in 1865, and, with the exception of two years, has continued such, being for the past eight years President of the same, and witness-

ing during that time all the public improvements, the city having grown from 3,500 to 20,000 inhabitants. Religious and educational institutions have repeatedly been the recipients of his munificent gifts. On Sept. 5, 1860, he was married to Miss Martha D. Wright, of Tallmadge, Ohio, daughter of Francis H. Wright, of which union there were eight children, one of whom, George B., is dead. Those living are Clara W., Helen B., Grace F., Mattie D., Bessie H., J. Park, Jr., and Alice S.

DAVID S. ALEXANDER, agricultural implements, Akron, Ohio; is a son of John and Mary (Scott) Alexander, both of whom were born in Washington Co., Penn., and were married in 1828. In February, 1831, they came to Ohio, and settled in Bath Township, where he had previously bought 175 acres of land, upon which was some improvements. He followed farming there for several years, and, about 1840, began to import fine sheep (Saxon breed) from Washington Co., Penn., of the McKeever stock, driving overland. He was for some years a prominent breeder and wool-grower, and brought into the county the first flock of Spanish merinoes. He died in 1856, aged 58, and his wife in June, 1880, at the age of 80 years. They had four sons, of whom David, the subject, was the oldest, and was born July 7, 1829, in Washington Co., Penn., and was an infant when the family came to this county. He grew up on the farm in Bath Township, receiving his education in the schools of Bath, and attending school in Akron from 1847 to 1849, under Gen. Leggett, now of Cleveland. At 24 years of age, he commenced business for himself, and, in 1851, bought the farm of J. P. Baldwin, and for eleven years followed grain and stock farming successfully. In 1861, he came to Akron, and bought several lots on "Ely Tract," and commenced dealing in sheep, but dogs were very destructive to them, and he quit the business. In 1871, he began to deal in agricultural implements, which he still continues. His establishment was destroyed by fire in 1879, entailing upon him a loss of \$12,000. In rebuilding, he fell from a scaffold and broke his thigh. In June, 1853, he married Miss Sarah C. Hale, a daughter of William Hale, of Bath Township. Five daughters were born to them. Lucy J. was the wife of C. R. Grant, of Akron, and died June 8, 1880. Three brothers of subject died when young; those

living are David S. (subject), Joseph H., J. Park and William G., who is a commission merchant at Toledo, Ohio.

FRANK M. ATTERHOLT, lawyer, Akron, son of John and Emeline (Williams) Atterholt, was born Dec. 19, 1848, near New Lisbon, Ohio, where he lived on a farm until he was 14 years of age, in the meantime attending school, and then entered the New Lisbon High School, which he attended for three years. At the age of 17 he began teaching, and continued some twelve years, spending his summer vacations in the National Normal School of Lebanon. He graduated from Mt. Vernon College in 1870, having entered three years previous. He was for three years Superintendent of the Columbian Public Schools, and for some time editor of the *Independent Register* of that place. In the Medina Normal School of 1872 he taught mathematics, and in 1873 was made Principal of the West Salem Public Schools, which position he retained for five years. In June, 1878, he began the study of law under the direction of Upson, Ford & Baird, and pursued his studies with them two years, being admitted to the bar on Oct. 5, 1880, at the session of the Supreme Court at Columbus, and has since been in practice here, having moved here in 1879. He was married to Miss Mary E. Beard, of Columbiana, Ohio, Dec. 31, 1872; she was a teacher in the public schools of that place. She bore him one child, a son.

O. C. BARBER, Vice President Diamond Match Co., Akron. The subject of this sketch is a native of Middlebury, now Sixth Ward of Akron, Ohio. He was born April 20, 1841, and is the fourth of eight children born to George and Eliza Barber, who were natives of Connecticut and Ohio respectively. George Barber was born in the year 1804. His parents, Ezrial and Ann Barber, moving to Onondaga Co., N. Y., when he was 1 year old, and where he remained until he became of age, his schooling was confined to a few months each year at the district schools of his neighborhood. At the age of 18, he was apprenticed to coopering, and worked for three years. In the year 1826—feeling the same pioneer spirit that had actuated his parents and grandparents before him (he being a descendant of a family that came to this country from England in 1620)—he thought he would take a look at what was then considered the far

West, i. e., Ohio, and, after a few years' travel through the State in the clock business, he finally settled down at Middlebury, where a considerable milling interest was well established, and where and at Akron he followed his trade until the year 1845, when he began the manufacture of matches, being one of the first to take up the business in the West. Meeting with indifferent success at first, owing to the great difficulty of distributing the goods he manufactured. There being no railroads at that time that would transport matches, it was necessary to distribute his product by wagons. In the year 1852, feeling somewhat tired of the struggle, and the necessity of a rest, he concluded to retire from the business, and traded his fixtures and factory for a hotel at Middlebury, and was appointed Postmaster of Middlebury, under Pierce's administration. Of this he tired in about one year, and again engaged in the manufacture of matches and buttons, the latter part of the enterprise proving unprofitable was soon abandoned, and he again gave his entire time and attention to the manufacture of matches, the facilities for which were improved from time to time, to keep pace with the growing demands of the trade; and from making matches by hand in a barn, step by step the business was so increased that in the year 1880, the business was conducted in buildings that, if on one floor twenty-two feet wide, would be over one mile long, and in which are made enough matches every twenty-five days, if placed end to end, to span the earth, and from which the Government received for internal revenue stamps over \$2,000 per day. Our subject, who is the only surviving son of the founder of this immense business, was raised in his native village, and received a course of study in the common schools. The circumstances of the family early ushered him into business affairs, thus at the age of 16, he began selling matches for his father, operating in Ohio, Indiana, Michigan and Pennsylvania, in which States, through his activity and industry, the reputation of the Barber match soon became well-established. In the year 1862, the entire management was left to his dictation, from which time the success of the enterprise became more marked. Very much of this success Mr. Barber attributes to his associate and active business friend, J. K. Robinson, who about this time took charge of introducing the goods into

new markets, as well as the taking charge of the markets where the reputation of the goods were established, and no man in the entire West is better or more favorably known to the jobbing grocer trade of the country than Jack Robinson, as he is familiarly dubbed by his many friends. In 1864, the business was merged into a stock company, known as the Barber Match Co., of which George Barber was the President and O. C. Barber the Secretary and Treasurer, and John K. Robinson was General Agent. In January, 1881, the company had by far the largest and best equipped match works on this continent. The same enterprise that had made it what it was, suggested to Messrs. Barber & Robinson the propriety and economy of consolidating all the match companies of the States into one ownership or one company, and through them and other active manufacturers, a consolidation was made of twenty-eight of the leading manufacturers of the country, under the name of the Diamond Match Co., with a capital of \$2,250,000, of which William H. Swift, of Wilmington, Del., is President; O. C. Barber, Vice President; and William B. Gates, of Frankfort, N. Y., is Treasurer. The business of this company is conducted or managed by these officers, as an Executive Committee, with co-ordinate powers, the subject of this sketch having charge more directly of all the company's factories in the States west and south of Pennsylvania; the sales department in the same territory being in the charge of John K. Robinson. O. C. Barber married Miss Laura L. Brown, of Akron, Oct. 10, 1866. By the marriage there have been two children, one of whom is living, viz., Anna Laura: Charles H. is deceased.

JOHN RICHARD BUCHEL, manufacturer of reapers and mowers, Akron, whose portrait appears in this work, was born Jan. 18, 1822, in Summit Co., Ohio. He was the son of John Buchtel, a farmer, and the grandson of Peter Buchtel, who was a native of Pennsylvania, whence he moved to Ohio in 1809, entering service here as a soldier in the war of 1812, and dying in the army. He engaged in farming when a youth, with no opportunity of obtaining other education than such as he could acquire by himself, so that, when he attained his majority, he could with difficulty write his name. At that age he began to work land on shares, continuing it for several years,

until at length he was able to purchase a small farm of twenty acres. Finally disposing of this, he bought a farm of 160 acres in Coventry Township, Summit Co., Ohio, which he improved and lived upon until 1854, when he sold it, and purchased a farm in La Porte Co., Ind., purposing at the time to remove there, and continue farming. Before doing so, however, he modified his plans and entered into the employ of Ball, Aultman & Co., of Canton, then just beginning to make and introduce very extensively the "Ohio," and afterward the "Buckeye" mower and reaper, continuing as their agent until the spring of 1856. The firm was burnt out soon after, and made an assignment to him for the benefit of its creditors. They obtained an extension, and he gave them such important aid that the firm, C. Aultman & Co., was again on a secure foundation. In 1864, he succeeded in persuading the Canton manufacturers of the "Buckeye" machines, to build a manufactory at Akron also, and he superintended the construction of the necessary buildings, and purchased a one-sixth interest in the new establishment. By the following spring they began manufacturing their machines in the new buildings. The next year the business was organized as a stock company, of which he was elected President. This company has over \$1,000,000 of paid-up capital, and \$500,000 surplus. Its works have capacity for building over ten thousand machines annually. The Akron Iron Company, with its large rolling-mills and fine blast furnaces, and the Akron Knife Works, of the Whitman & Miles Manufacturing Company, for the production of knives and sickles for mowers, grew indirectly out of the establishment of the Buckeye works; and the Akron paper-mill of Thomas Phillips & Co., the rubber works, the chain works, and many other flourishing industries, owed very much to Mr. Buchtel for their location in Akron. He was an officer of the Canton incorporation of C. Aultman & Co., a Director of the Akron Iron Company, of the Bank of Akron, and of the Weary, Snyder & Wilcox Manufacturing Company, besides many smaller business interests. In politics a Republican, and in temperance matters a prohibitionist; he was the candidate of the latter party for Secretary of State of Ohio, in 1874. He was appointed by Gov. Hayes, and confirmed by the Senate, one of the Trustees of

State Agricultural College, and was a member of the executive committee during the erection of its buildings. Throughout the war of Secession, his services to the community were simply invaluable. When others deemed the obstacles to filling up the quota and escaping the draft to be insurmountable, he, by his direct and supervisory efforts obtained the appropriation laid upon his town. In religious belief, he is a staunch Universalist, but nevertheless contributed for the erection of every church built in Akron, after he began to take an active part in affairs. The crowning work of his unstinted liberality was reached in the establishment and endowment of Buchtel College, Akron, an institution under the control and patronage of the Universalist denomination of Ohio. As the outgrowth of three years of earnest thought and persistent effort, the corner-stone of this college was laid July 4, 1871, Horace Greeley delivering the address of the occasion. Besides donating at the outset, his library to the institution, he from time to time contributed toward its completion and permanent endowment, until his gifts, in this direction, amounted to over \$100,000. This college, at first an experiment, steadily made its way forward until it holds a place of acknowledged merit among the most flourishing institutions of the West. His generous contributions to the Akron Library Association, of which he was President, did much to place that organization upon a permanent basis. It may be safely said that he gave away all he earned, and was a great public and private benefactor. In 1844, he married Miss Elizabeth Davidson, and their union is without issue. In 1877, Mr. Buchtel went to Athens Co., Ohio, where he purchased for the Akron Iron Company, on the line of the Hocking Valley Branch Railroad, 1,400 acres, comprising some of the richest deposits of coal and iron in the State. During the same year, the railroad company located a station on these lands, and in honor of his efforts to develop the mines, they named the station Buchtel, and later, the post office there received the same name. As purchaser, projector and general manager of the company during the past four years, he has made five openings and established large furnaces, which combined, require a force of over four hundred men to operate, with a mining capacity of 1,000 tons

of superior furnace coal. The rich veins of iron there are worked with great facility on account of contiguous quarries of limestone which produce lime suitable for fluxing.

CAPT. GEORGE BILLOW, undertaker, Akron, the representative of his line of business, has an eventful history. He was born April 2, 1833, in Hesse-Darmstadt, Germany, and is the son of John and Elizabeth (Milljus) Billow, both natives of Hesse-Darmstadt. His parents, with five sons and two daughters, emigrated to the United States about the year 1844, and settled on a farm near Sandusky, Ohio. George remained with his parents till he was 17 years old, and then went to Fremont, Ohio, to learn the trade of a wagon-maker; he spent three years there at learning his trade, and then he went to Cleveland, where he finished in fine workmanship; he then came to Akron, and for a time was employed by E. A. Collins. About this time he was married to Miss Mary, daughter of Conrad and Charlotte (Graff) Fink; their marriage took place on Sept. 19, 1854. His wife, as well as her father and mother, were natives of Germany. After his marriage he returned to Cleveland for a time, and then again came to Akron, when he engaged in the manufacture of spokes for Mr. Collins, and for Oviatt & Sperry, of Tallmadge. About the time he was engaged in this business, the war of the rebellion had grown to a point when President Lincoln issued a call for 300,000 men. Mr. Billow sold out and closed up his interests as best he could, and then entered the army; he enlisted in Co. I, 107th O. V. I., as a private; this was a German regiment, and was enlisted specially for Sigel's command; he entered the army in July, and in the following November he was promoted to Second Lieutenant; shortly after this he rose to the rank of First Lieutenant, and then was made Captain of his company. Much of his term of enlistment was spent in detail service, though he saw some hard fighting; he was in the Fredericksburg campaign, and was at the battle of Chancellorsville from July 1 to 4; in the first bayonet charge at this battle, the Captain and thirty men of his company were lost. Hagerstown and Boonsboro will also be remembered by him as places of battle in which he participated. From Warrenton Junction they embarked for South Carolina; their command had been so cut up that the 1st Division of the 11th Corps

was united with Gordon's Division, and the command known thereafter as Gordon's Division. They went to Folly Island, under command of Gen. Q. A. Gilmore. Capt. Billow was at the capture of Fort Wagner, and about Christmas, 1863, he was at the battle of James' Island; he was subsequently ordered to the assistance of the troops at Jacksonville, Fla.; there he was stricken with typhoid fever, and, after recovering, he was detailed Brigade Commissary of Subsistence, which position he held for three months, and had the honor of having been complimented by Commissary General Kilbourn on his success. Again he was detailed, and this time on the staff of Gen. Foster, as Post Commissary at Fernandina; he remained there about nine months, and was then sent to Jacksonville as local Provost Marshal, and was there for three months, and then he was returned to Fernandina, where he remained till the close of the war. When he returned from the army he engaged in the grocery business in Akron, with Mr. C. Kolb; they were in business for about two years, when he took charge of the co-operative grocery; he then, for about one and a half years, was traveling and selling stoneware. Having seen much of the South during the war, he removed to Huntsville, Ala., where, for four years, he was on a cotton plantation; finding this speculation unprofitable, he returned to Akron, where he arrived the 1st of April, 1875. He has now been Notary for five years, and is doing an extensive business as agent for different ocean steamship lines and in foreign exchange; this, in connection with his business as undertaker, makes an extensive trade. He is a member of Akron Commandery, No. 25; and while he was in Alabama, he was a member of Huntsville Commandery, No. 7, and held the office of Grand Captain of the Guard of the order in that State. Politically, he is a Republican. His family consists of the following children: Anna, George W., Charles Fernando (named after the Major), Ida, Albert C., Jacob L., Edwin M., and the baby, Claire.

WILLIAM BUCHEL, lumber, etc., Akron; a son of John and Catharine (Richards) Buchtel, was born Dec. 23, 1822, in Green Township of this county. His father had but little means, except his land (106 acres) and his children only went to school when they could be spared from the farm in winter. He (subject) and his brother, John R., cleared a large portion of his

father's farm. At 22, he commenced for himself, and in one year bought the homestead, and engaged largely in wheat-raising. He followed farming until 1856, when he bought an interest (having rented out his farm) in the Chamberlin Mills, which he operated for some time with good success. He served in the 164th O. N. G. during the late war, and was honorably discharged in the fall of 1864. After leaving the army, he removed to Akron, and in the following year he made one of the firm of Jackson, Buchtel & Co., and engaged in the lumber business for five years—subject being most of the time in the pineries near Saginaw, Mich., superintending the manufacture of lumber. He is at present in the lumber business. Since 1865, he has located and handled over 20,000 acres of Government and State lands, in Clare, Isabella and Missaukee Counties, Mich., and still owns some 3,000 acres there. He was married March 7, 1842, to Miss Martha Henderson, of Springfield Township. By this marriage there are four children, viz.: James H., John D., Wm. M. and C. J.

JOHN D. BUCHEL, Akron, second son of Wm. and Martha (Henderson) Buchtel was born May 20, 1849, in Coventry Township, this county. In 1864, when his father went into the army, he came to Akron, and worked in the mill until his return, when he went to school for two years. He then engaged in a flour and feed store; attended commercial school in Poughkeepsie in 1868, and spent two summers at Saginaw, Mich. He was in the employ of Thomas & Son one year (1871), and teller in the Citizens' Savings and Loan Association, from May, 1872, to March, 1877, when his health failed and he lay sick for some time. In 1878, he was a member of Germania Printing Co. for a short time and then went to Chautauqua Lake where he clerked in a hotel for three months. He then came back to Akron, and in November, 1878, opened a feed store on Mill street, which he kept until the spring of 1881, when he became a member of the firm of Wm. Buchtel & Sons, lumber dealers.

CHARLES W. BROWN, barber, Akron, a son of John and Margaret (Groves) Brown, was born in Cleveland, Ohio, May 7, 1843, where he lived until 15 years of age, attending the public schools of that city. At the age of 14 he entered his father's barber shop as an apprentice; he, being a leading barber on Superior street

for some fifty years. Subject worked in the shop until the war broke out. He had drilled with a company of colored men under Capt. Paddock of the "Cleveland Grays." This company, through John Brown (subject's father) tendered their services to Gov. Tod, who telegraphed in response: "When we want niggers we'll let you know." Subject then recruited fifteen men, and upon offering themselves to Rhode Island were accepted. He then returned and raised twenty men more, but Ohio had, in the meantime, discovered that "niggers" would stop bullets as well as whites, and got out an injunction against their leaving the State. Gov. Sprague of Rhode Island was notified, and sent two of his ablest attorneys to manage the case. In the trial of the case, Gov. Tod's telegram was offered in testimony, and after a full discussion of the pros and cons, the "niggers" were allowed to follow their own bent, and at once reported to Rhode Island, where they were mustered into the 14th Rhode Island Heavy Artillery. They entered the service in October, 1862, and were discharged at New Orleans in the spring of 1865. Subject served in the Gulf Department, and was in the battles of Red River, Mobile, Plaquemine, La., and was 1st Sergeant of Co. K. He came to Akron in the fall of 1865, and has done a good business as barber ever since. His shop is located under the Academy of Music, and runs from three to five chairs with competent artists, and has a bath room attached. He has always been a staunch Republican and is the first colored man elected to office in Summit County, by a popular vote, being elected Trustee of Portage Township in 1880, an office he has faithfully filled. He was married, July 29, 1867, to Miss Laura V. Lewis, of Cleveland; they have two daughters and one son. His parents were free-born and came to Cleveland about 1820, where the mother still lives, aged 85; father died in 1868. They had two sons and two daughters. Subject is a fine musician, and was leader of the first colored band ever raised in Akron.

DAVID BUNN, policeman, Akron, Ohio; a son of Jacob and Sarah A. (Whaler) Bunn; was born in Wells Co., Ind., May 23, 1842, his father having moved to that locality in an early day. Subject worked on a farm, and helped to clear 200 acres of woodland. He went to school, two miles distant, and, at 19, came to Ohio, where he worked for David Gailhouse, of

Wayne County, on farm and in coal bank. He enlisted, Aug. 22, 1862, in Co. G, of the 120th O. V. I., and participated in the Trans-Mississippi and Vicksburg campaign, and the Red River expedition. He was captured at Snagg Point, Red River, and imprisoned at Camp Ford for thirteen months; was at one time sentenced to be shot by the rebels, and taken out for that purpose, but was not executed for some cause. After being inhumanly treated, rendering him an invalid for five years, he was, in 1865, paroled at Camp Ford, and returned to Doylestown, Ohio, and clerked for one year for his old employer, on farm and in coal bank. He was married, October 11, 1866, to Miss Almira Springer, of Doylestown, where he lived until 1875. They have three children, two sons and one daughter. Mr. B., in 1866, engaged in the grocery business, and afterward dealt in dry goods. In 1875, he came to Akron, and opened a boot and shoe store on Howard street, for about three years, when he closed out and entered the employ of Teeple & Maxim for about one and one-half years. In 1878, he was appointed, by Mayor Scott, policeman for the Fourth Ward, and has been on the force ever since, a faithful and vigilant officer. He has always been a staunch Republican in politics.

J. MARTIN BECK, Akron Varnish Works, Akron, Ohio, is a son of Adam and Christina (Hoefler) Beck, and was born in the town of Selb, Bavaria, Germany, Oct. 14, 1843. At 14, he entered as an apprentice in a wholesale grocery and drug house, and served four years without compensation, and paid over \$300 to learn the business. He passed a regular examination, and came to the United States in 1862, and to Akron in August of the same year. Here he first entered the employ of M. W. Henry & Co., Mr. Wolf, his half-brother, being a partner. He remained six years, when his health failed, and he changed his location to Cleveland, where he was employed by E. I. Baldwin & Co. as a salesman for one year. In the spring of 1869, he went to Europe and remained till fall, and returned to the United States in improved health. He entered into partnership with John Wolf and H. J. Church, in the dry goods business, until 1878, when he sold out, and shortly after formed a partnership with E. G. Kubler, and established the Akron Varnish Works, the first and only factory of the kind in the county. The business

has largely increased since its establishment. Jan. 12, 1871, he married Miss Kate J. Buchtel, daughter of William Buchtel, Esq. They have two sons and one daughter.

SOL J. BUCHER, Constable, Akron: son of David and Catherine (Baird) Bucher, was born in Franklin Township, this county, April 10, 1846. He lived there until the war broke out. At 16, he entered the army, enlisting August 5, 1862, in Co. H, 104th O. V. I. He served in the Kentucky and East Tennessee invasion, and the Atlanta campaign. At Columbia, Tenn., he was wounded on the 28th of November, 1864, while on skirmish line; he was shot by a sharpshooter, and the ball entered under his left nostril, crashing through the hard palate, grazing the base of the skull, and lodged between his ear and bones of the neck. The wound was probed by surgeons, and they removed a half ounce ball. His hearing and eyesight were affected for some time. He joined his regiment at Greensboro, N. C., in May, 1865, and was mustered out at Cleveland with his regiment. On his return, he engaged in farming in Coventry Township, until 1869, when he removed to Akron, and was there in the employ of Thomas & Sons, in the planing business, for about a year; then, for some time, engaged in the grocery business. Next, he worked in the different departments of the "Excelsior Works," on reapers and mowers, and subsequently in the Akron Rubber Works. In 1875, he was elected Constable for Portage Township, which position he has filled by annual elections ever since. He has been a member of the Republican County Committee for two years. September 28, 1866, he married, at Millersburg, Ohio, Mrs. Harriet L. Bucher, widow of the late David Bucher, Jr., and daughter of David Flickinger, formerly of Summit Co. His father was born in Maryland in 1808, and came to Canton with his parents in 1810, the present city having then but four cabins. He grew up there, and moved near Clinton, this county, in 1838. He married Miss Catharine Baird, of Canton, a lady of Scotch descent, born in 1813. He farmed in Franklin Township until his death, in 1858. He was one of the "Minute Men" during the Mexican war. He was the father of fourteen children, eleven of whom are deceased; but six grew up, viz., David, Jr., John, Joseph, Solomon J., Lavina and Amelia, Henry (deceased).

John was a member of the 1st Battalion of the 18th U. S. A., and died at Park Barrack, Louisville, Ky., Dec. 9, 1862. Mrs. David Bucher, Sr., is still living. Theobald Bucher, grandfather of subject, was a French soldier, and removed from Alsatia, France, to America, just after the American Revolution, settling at Baltimore, Md.; then removed to Bellefonte, Center Co., Penn., and, in 1810, to Canton, Ohio, with his family.

JAMES BUCHANAN, foreman in paper mills, Akron; is a son of James and Elizabeth (Patterson) Buchanan; she a daughter of Frank Patterson. All were natives of County Donnegal, Ireland; but emigrated to America, and settled at Quebec, Canada, in 1853, the same year coming to Cuyahoga Falls. James and Elizabeth Buchanan had four children, two of whom are living—our subject, born in 1846, and Helen, now a Mrs. Fred Langs; he a molder at Webster, Camp & Lanes. The youngest and the oldest children died in infancy. James received a limited education, and, at 9 years of age, began working in the paper mill at Cuyahoga Falls, where he worked a number of years, and learned the different departments of the work. In Aug. 2, 1862, he enlisted in Co. G, 115th O. V. I., and was afterward transferred to the Second U. S. Calvary, in which he served two and a half years. He was mustered out of service in August, 1865; returned home, and learned the harness-maker's trade, at which he worked three years. In 1868, he re-engaged in the paper mill at the falls, working with the engines and machines, until, in the year 1874, from which time until, in 1876, he was employed at the Monroe Falls Paper Mills. In 1876, he came to the Akron Paper Company, and, in 1879, accepted the position of foreman of the works. He was married to Mary Ann Nesbitt, by whom he had four children, three of whom are now living, viz., Ellen, Emma and Frank. He is a member of Summit Lodge, No. 50, I. O. O. F. He is also connected with the Episcopal Church.

FREDERICK BISHOP, Superintendent Akron Iron Company, Akron; son of Thomas and Ann (Warner) Bishop; was born in the county of Warwickshire, England, October 30, 1843. When a child, his parents removed to the iron region of South Staffordshire, England. When 12 years old, he entered a rolling mill at Wednesbury, Eng., in the heart of the iron coun-

try. He worked in almost every department of the business there, and came to the United States in 1868, stopping at Pittsburgh, Penn., from August to November, when he came to Akron, and entered the employ of this company, as puddler's helper for some six months, when he was assigned the management of the finishing mills, a position he held some six years, after which he was employed in the mills of the Mahoning Valley as superintendent of mills (at different points) for four years. He then entered the employ of the Akron Iron Company, in September, 1878, as superintendent, which position he has held ever since. He has been in the iron business for twenty-six years, and is thoroughly acquainted with all the processes known as to its manufacture. May 31, 1869, he married Miss Ann Baldwin, of Wednesbury, England. He has two children living, and three dead. His father was a farmer, and is living with his wife in England. They were once in the United States.

JOHN BROWN, deceased. The champion of universal liberty, the zealous friend of the colored race, and the hero of Harper's Ferry, was born at Torrington, Conn., on the 9th of May, in the year 1800, and was the son of Owen and Ruth (Mills) Brown. His ancestry is traced back in an unbroken line to Peter Brown, one of the fugitive pilgrims, who landed from the Mayflower on Plymouth Rock in December, 1620. Without tracing the family back to this renowned ancestor, suffice it to say that Capt. John Brown (the grandfather of subject), was an officer in the Revolutionary army, and died of disease during his term of service. He was of the fourth generation from Peter Brown in regular descent. Capt. John Brown's youngest son was named Owen, and was the father of our subject. He came to Ohio in 1805, when the latter was but five years old, and settled in Hudson Township (now in Summit County), where he became one of the principal pioneer settlers of that section. He was commonly called Squire Brown, and was one of the Board of Trustees of Oberlin College; was spoken of as being endowed with energy and enterprise, and of going down to his grave honored and respected, about 1852, at the age of 87 years. Subject's mother died when he was but 8 years old, a loss he mourned long and sincerely. When the war broke out with England (1812), his father engaged in fur-

nishing the troops with beef cattle. During this war he had some chance to form his own boyish judgment of men and measures, and to become somewhat familiarly acquainted with many who figured before the country in after years. A circumstance occurred during this war that made him a most determined Abolitionist, and led him to declare eternal war on slavery. He was staying for a short time with a man who owned a slave boy about his own age. This man made a great pet of him (subject), brought him to table with his first company and friends, and called their attention to every little smart thing he said and did, while the negro boy was badly clothed, poorly fed and lodged in cold weather, and beaten before his eyes with anything that came first to hand. At the age of 10 an old friend induced him to read a little history, by which he acquired some taste for reading; formed the principal part of his early education and diverted him, in a great manner, from bad company. By reading the lives of great and good men, and their writings, he grew to dislike vain and frivolous conversation and persons. In early life he became ambitious to excel in anything he undertook to perform, and especially in the full labor of a man in any hard work. At an early age he became, to some extent, a convert to Christianity, and was ever after a firm believer in the divine authenticity of the Bible. With this book he became very familiar, and possessed an unusual memory of its entire contents. He was married June 21, 1820, at Hudson, to Miss Dianthe Lusk, an industrious and economical girl of excellent character, earnest piety, and of good practical common sense. By this marriage he had seven children, viz., John, Jason, Owen, Frederick, Ruth, Frederick (2d), and an infant son, buried with its mother, Aug. 10, 1832, three days after its birth. By his second wife, Mary A. Day, to whom he was married at Meadville, Penn., he had thirteen children, viz., Sarah, Watson, Salmon, Charles, Oliver, Peter, Austin, Anne, Amelia, Sarah (2d), Ellen, infant son, Ellen (2d). From his 21st to his 26th year, he was engaged in the tanning business and as a farmer in Ohio. At 26, he went to Crawford Co., Penn., where he carried on his old business until 1835, characterized as a thoroughly honest man. In 1835, he moved to Franklin Mills, Portage Co., Ohio, where he remained until 1840, when he went to Hudson

and engaged in the wool business with Mr. Oviatt, of Richfield. In 1844, he moved to Akron, and in 1846, to Springfield, Mass., where he lived until 1849, and then removed to Essex Co., N. Y. In 1851, he returned, with his family to Akron, Ohio, where he managed Mr. Perkins' farm and carried on the wool business. It was in 1839 that he first conceived the idea of liberating the Southern slaves. He had seen the blasting and blighting manhood of the nation, and had listened to the "voice of the poor that cried." This sentiment was cherished by him, and his efforts in that direction pushed forward, until he expiated with his life the zeal he felt for the down-trodden African. In 1855, on starting for Kansas, he again moved his household to Essex Co., N. Y., where now his "body lies mouldering in the dust." But from the period of his going to Kansas, until an ignominious death closed his eventful career, his acts and his deeds are a part of the nation's history, and require no repetition in this sketch.

JAMES N. BALDWIN, merchant miller, Akron. Benson C. Baldwin was born in 1797, in Granville, Mass., and his wife, Louisa A. Neal, in Tallmadge, Ohio, in 1812. He was a minister in the Presbyterian Church, and preached up to the time of his death, which occurred at Medina in 1844. He was the father of three sons, and James, the second child, was born Feb. 22, 1839, in Medina, Ohio. He lived in Middlebury from 1844 to 1851, when his mother moved to Hudson. Here he attended school until he was 19, when he came to Akron and clerked for the Hall Bros. until 1862, when he was employed as book-keeper and Secretary of the Chamberlain Company, continuing until 1878, in which year he formed a partnership with George W. McNeil, and leased the Ætna Mills, which they have conducted with fair success since. In March, 1864, he was married to Miss Augusta Eldred, of Akron, who bore him two children; she died in January, 1875. In July, 1879, he married Miss Harriet L. Andrus, of Akron.

DENNISON BABCOCK, butcher, Akron, is a son of George, he of Samuel Babcock, who were natives of Groton, Conn. George, with two brothers and one sister, came to Ohio at an early date, he settling in Middlebury, and engaging in mercantile pursuits, which he afterward pursued in Akron City proper. He

was married, June 14, 1829, to Clarissa Williams as a second marriage, by whom he had five children—Martha Calista, born July 1, 1830; Sarah Susannah, May 18, 1833; Williams Pierpont, Oct. 27, 1835; Clarissa E., July 31, 1840 (now deceased), and the subject of this sketch, born Feb. 12, 1844. Paul Williams, born in 1767, and Sarah Williams, born in 1763, the grandparents of our subject, came to Akron and erected the first log-house in the city proper, the location of which was on Broad street, near the knife works. The family nearly all died during the building of the canal, none being left except the grandmother and the mother of the subject of this sketch, who lived until 1868. The grandmother died in 1832, from the effects of sickness in 1827. Dennison attended school in Akron until 17 years of age, when he learned butchering, and worked for a time at the carpenter's trade. At 18 years of age, he enlisted in Co. H, 104th O. V. I., in which he served until July, 1865, receiving in the meantime a wound at the battle of Knoxville which sent him to the hospital for a considerable time, which he occupied in filling the position of Hospital Steward. In the spring of 1867, he engaged with his brother in the feed-store business, but disposed of the same the following fall. Then engaged in butchering for about two years, after which time he traveled four years for Alfred Pitkin & Co., steam-heating apparatus, subsequently engaging in the business of carpentering and pattern-making for D. W. Thomas, continuing for about three years. In March, 1879, he began the butchering business with a meat market at No. 322 East Mill street, where he is now engaged with E. W. Russell, doing an average business. He was married, Nov. 12, 1873, to Lucy Maria Upson, daughter of Julius Upson, a resident of Cuyahoga Falls. He is prominently identified with the Republican party.

JOHN H. BELLOWS, retired farmer; P. O. Akron; is the eldest son of Ithamar Bellows, who was born Feb. 11, 1794, in Groton, Conn., and died in 1868, he being a son of Ephraim, who came, among the early settlers, to Coventry and Springfield Townships. The wife of Ithamar was Lanah Haynes, born June 28, 1796; died Jan. 17, 1867. Her parents were Daniel and Jane (Haynes) Haynes, who were the first white settlers in Coventry Township. The father

of our subject drove an ox-team from Groton, Conn., to Coventry, in the fall of 1811, for Capt. Amos Spicer, with whom he lived until his marriage to Lanah Haynes, by whom he had seven children—Laura, born March 30, 1816; John H., April 24, 1818; Samantha J., Oct. 20, 1823; Ephraim G., Dec. 15, 1825; Harriet D., March 11, 1830; Henry J., Dec. 18, 1833, and Mary E., Dec. 22, 1837. He was always a very hard-working man, honest and upright in all his dealing, by which he amassed a considerable fortune, although very liberal, and meeting with many reverses. John H., being the oldest son, received a very limited education, he being employed in assisting his father in clearing up the old homestead until about 25 years of age. He was married, Oct. 9, 1857, to Lydia Ann Myers, daughter of Simeon Myers, an old settler in Norton. They have two sons—Francis Leroy, born Dec. 25, 1859, now engaged as Assistant Superintendent at Akron Rubber Works—and Charles Orlando, born Oct. 25, 1861, now engaged in the manufacturing of brooms, with Bechtel & Pontius.

JAMES H. BURT, book-keeper at Brewster Coal Chutes, Akron; was born Aug. 19, 1843; the son of William Burt, whose father was also named William; they were natives of England. Our subject is a native of Glamorganshire, South Wales; and, in the fall of 1853, came from Liverpool to New York with his parents and four sisters. They resided at Wampum, Penn., for one year; then came to the city of Youngstown, Ohio, where the father now lives, and is engaged as an horticulturist. His mother was a sister to John Beese, whose history appears in Coventry Township. James attended school until 13 years of age, when he engaged as a mule driver in the Mahoning Valley until the breaking-out of the war, when he enlisted as drummer in an independent band called "Dixon's Band;" but was subsequently connected with the 155th Pennsylvania Regiment, the band being discharged some time after enlistment, he returned home, and re-enlisted in the 84th O. V. I. three months' men; but were kept several months overtime, when they were discharged. He then, immediately, Jan. 2, 1864, enlisted in the 15th Ohio Battery, in which he served until June, 1865, when he returned home, and worked on a farm and attended school until April, 1866, when he was engaged as book-keeper by the Crawford, Davis & Co. Coal Mining

Company, near Youngstown, until 1874, at which time he accepted the position which he now occupies. He was married, Nov. 28, 1867, to Harriette E. Beatty, daughter of John and Lucretia (Darrow) Beatty, natives, he of Ireland, she of New England. By this marriage, there were five children—Harrison J., Franklin P., Clara May, Alfred and Martha J.

ARTHUR F. BARTGES, Akron; son of Dr. Samuel W. Bartges; was born in North Georgetown, Ohio, April 2, 1838, and came with his parents to Akron in 1842, where he attended the public schools until he was 16, entering Western Reserve College of Hudson in 1856, where he spent two years. In 1857, he entered the law office of Ranney, Backus & Noble, of Cleveland, being admitted to the bar at the session of the Supreme Court at Columbus, April 4, 1859. Returning at once to Akron, he formed a partnership with Gen. A. C. Voris, which lasted until 1864. In 1865, he opened a coal mine in Norton, and engaged in the coal business, going to Cleveland in 1869, where he had his principal office, and did a large business in the sale of coal until 1877, when he again came to Akron, and resumed the practice of law, being in active practice ever since.

CAPT. A. P. BALDWIN, Agent Akron Iron Company, Akron, oldest son of James and Mary (Robertson) Baldwin, was born Jan. 28, 1838, near 110 North Howard street, Akron; at 14, he entered the employ of P. D. Hall & Co., as clerk, where he remained until 1859, when his father opened a hardware store on Howard street, under the firm name of James Baldwin & Son; this they conducted until the war broke out, and, in October, 1861, he enlisted in the 6th Ohio Light Battery, organized at Mansfield, Ohio, by John Sherman, by whom he was commissioned 2d Lieutenant. After the battle of Mission Ridge he was promoted to 1st Lieutenant, and during the Hood campaign he was made Captain of the 6th Battery; he was mustered out at New Orleans September 1, 1865, having served nobly in the Pittsburg, Shiloh, Perryville, Stone River, Chattanooga, Lookout Mountain, Atlanta Campaign, Resaca, Atlanta (Jonesboro), Spring Hill and Nashville battles. For his gallant services at Spring Hill, of Franklin, Tennessee, he was offered a commission in the regular army, by Corps Commander Gen. D. Stanley, but declined it. On his return to Akron he went into

the hardware business with H. W. Wetmore, under the firm name of Wetmore & Baldwin, and in 1867, it became Wetmore, Baldwin & Paige, so continuing until 1869, when he retired, and in March became General Agent for the Akron Iron Company, a position he still retains, representing the company throughout the East, West and South. November 10, 1863, he married Miss Celia F. Ayres, of Akron; he has four children—James A., John Sherman, Susie and Mary E.

JAMES BALDWIN, Akron, was born at Amsterdam, N. Y., in 1805, and came to Akron in 1831, having but little means; he was a carpenter and builder. The firm of Kilbour & Baldwin was presented with lots on corner of Howard & Market streets, for the purpose of erecting a hotel, which they did, and named it the "Pavilion Hotel;" they rented it to Charles B. Cobb, who kept it for several years. Mr. Baldwin put up the present block, comprising Nos. 102, 104 and 108 North Howard st. He went into the hardware business in 1859, continuing until 1864, when he retired, and died Sept. 19, 1865. His wife, Mary (Robertson) was born in Pittsburgh, Penn., in 1805, came to Ohio, with her parents, in 1831, and was married. She died in 1872, leaving a family of six children, viz., Miranda P., resident of Akron; Isabella R., wife of William C. Sullivan, of Oakland, California; Aaron P. (of whom see sketch); James W., died in 1875, near Cincinnati; Mary J., who was the wife of B. D. A. Melvin, of Akron, and died in 1877; and Olive J., wife of C. L. Benjamin, of Dennison, Tex. James Baldwin was a civil engineer on the railroad from Schenectady to Albany, N. Y., in 1830, the first railroad in the United States, with Hon. Horatio Allen and James Mills; he was a man of great industry, and possessed a character without a flaw.

JAMES F. BRUOT, Notary Public, general insurance and real estate agent, Akron; was born Jan. 29, 1827; is the son of John Nicholas Bruot and Catharine Bruot, *nee* Guyot, of Valentigney, near Montbeliard, Department of Doubs, France, and the descendant of an ancient Huguenot family. He was educated in the normal school of his native town, and in 1843 came out best of his class and drew the first prize of honor; in May, 1848, he came to the United States, stopping at Buffalo, N. Y., where he engaged to work for an attorney in

order to learn the English language ; he went back to France in 1851 on a visit, and while there received a power of attorney from Mr. Peter Gressard, of Coventry Township, Summit Co. On his return to the United States, and at the solicitation of Mr. Gressard, he came to this county and visited the latter, when he first became acquainted with his wife ; he did not remain long, however ; he, being an only child was again called to France by his parents for the third time. While there his father died accidentally, and, after arranging matters relating to the estate, he returned to Buffalo, and, Dec. 2, 1854, was married in Akron to Miss Rosalie Gressard. He took his wife to Buffalo, and remained there in the grocery and provision business until November, 1857, when he sold out his house, lot and business, at a good margin, and took his wife and first child on a visit to Europe. In 1860, he returned with his family to Akron, where, a few months later, after the death of his father-in-law, he purchased the latter's farm. In 1864, he erected a large building on South Main street, where he opened a wholesale and retail grocery store, and, a few years later, erected the Harmonie Block, at a cost of \$23,000 ; in November, 1871, he engaged in the general insurance and real estate business, and is at present Notary Public, insurance and real estate agent. He has five children, all of whom are living. Mr. B. has made eight trips to Europe, which, with his original trip to the United States, makes seventeen times crossing of the Atlantic.

G. C. BERRY, merchant, Akron, of the well-known firm of G. C. Berry & Co.—of which so much is said in the sketch of Mr. Henry of this firm—is a native of Medina Co., Ohio, though he became a resident of Summit County when he was 3 years old ; in 1863, he became a partner in the firm of which he now stands at the head, which change was made in 1874. His has been a life without remarkable incident, yet crowned with success. During his early life he had the advantage of the public schools of Akron ; his opportunities were not left unimproved, the result of which was the acquirement by himself of a good education. In social as well as in business affairs, he is not given to ostentation. He was a member of Co. F of the 164th O. V. I., 100 days service during the war of the rebellion ; he has been a member of the Board of Education of Akron, which fact is pretty good

evidence of his ability and the confidence of the people ; he is a member of Summit Lodge, No. 50, I. O. O. F., and a Republican in politics. He has been almost wholly dependent upon his own resources, and, however prominent his position may be in connection with the mercantile industries of Akron, that position has been attained by his own energy, ambition and honesty.

GEORGE BURKHARDT, retired, Akron, who is a representative of the industrious and enterprising German element of Akron population, was born in Baden, Germany. When he was 11 years old, his father died, and, at the age of 13, he was doubly orphaned by the death of his mother. He, however, had the advantage of attending school until he was 14 years of age. When 15 years of age, he was apprenticed for three years to a toolmaker to learn that trade, in addition to serving which time, he paid \$32. At the closing of his term of apprenticeship, he began life among strangers on his own account, by beginning a tour of five years' travel through the States of Germany, and by special pass into France and Switzerland. This period of travel was for the purpose of working in the different States of Germany, and was what was known as his term of journeyman workmanship, at the end of which time he was termed a master workman. In 1848, he emigrated to America and came direct to Akron, where he has since resided. He first began work for a Mr. James Hale, at Lock No. 7, of Akron. His work has been principally in iron and brass. He has received good wages on account of his being a fine workman. By saving his money and investing it in real estate he has become the owner of valuable residence and business property in Akron. To aid him in succeeding better in his business, he for a time, shortly after his arrival in Akron, attended a night school for the special instruction of Germans in the American or English language. Mr. Burkhardt has not been a political office seeker, though he has held the office of Chief Engineer of the Akron Fire Department, and has been a member of the Akron City Council from the Fourth Ward. He is a member of the order of A. F. & A. M., and of a number of secret societies that are strictly German. He is also a member of the Reformed Church. In 1870, he paid his Fatherland a visit, where he remained for about three

months. He is now one of that class of the residents of Akron who are reaping the reward of their early industry and economy in the possession of a comfortable home and a competency for old age.

ALMON BROWN, County Coroner and Justice of the Peace, Middlebury (Sixth Ward, Akron), was born in Tompkins Co., N. Y., Nov. 26, 1801, on his father's farm, and is the third child of a family of eight children, born to Holland and Sarah (Mix) Brown. They were natives of Brimfield, Mass., and Litchfield, Conn., and were married in Tompkins Co., whither they had removed with their parents. In January, 1814, Mr. Brown and family, then consisting of seven children, came to Ohio. His means of transportation was a sled, drawn by two yoke of oxen, the stronger members of the family, of whom was Almon, our subject, walking the entire distance. The trip required twenty-six days. Upon his arrival he bought 160 acres of timber land, and, while building a cabin, lived with a friend. The cabin put up by Mr. Brown was twenty feet square, and of round logs; there was one room, "cut down" inside, oiled paper window, board door, made from the sled box, and a stick chimney. He lived here two years, then sold his improvements and bought 135 acres adjoining, on which he erected another log cabin, and commenced clearing his land. He lived in the vicinity some ten years, making in the meantime several improvements. He then removed to what is now Wadsworth Township, Medina Co., where he bought land, upon which he lived until his death, which occurred in April, 1844. His wife died in Medina in 1861, where she had lived with a daughter most of the time after her husband's death. Almon Brown, our subject, made his home with his parents until he was 21 years of age. He received but a limited education—his schooling amounting to about four months' attendance, one month each at four different terms of district schools. He was married, Jan. 1, 1828, to Miss Rosalind Hinman, a native of Allegany Co., N. Y., who came to this county (Coventry Township) with her parents about the year 1818. She died May 13, 1847, leaving five children. He was a second time married, on Sept. 9, 1847, to Miss Evan Shively, a native of Columbiana Co., Ohio. She died June 17, 1857. Two children were born of this marriage. May 13, 1858, he

was again married, to Mrs. Read, formerly Miss Catharine Paulus, a native of Huntingdon Co., Penn. She was born June 13, 1811, and was the third of five children born to Daniel and Hannah (Miller) Paulus. They were natives of Pennsylvania and Virginia, and were married in Pennsylvania, removing to Ohio in the year 1815. They settled in Jackson Township, Stark County, where Mr. Paulus died the next year after settlement. His widow, two years later, married Mr. Jacob Jubb, and bore him five children. They lived in Stark Co. until his death, when she went to Indiana, and passed the remainder of her life with her children. Catharine, the wife of our subject, lived at home until her first marriage to John Read, a wagon-maker in Middlebury. He died Aug. 18, 1856; they had no children. She has since resided here, with the exception of about eight years passed in the western part of the county. After the first marriage of our subject, he followed carpentering for about twenty years, and then worked at wood-turning in Norton Township, and, in 1866, came to Middlebury, where he has since resided. He has served most of the time as Justice of the Peace; also served as Ward and Township Assessor some eight or nine years. He was mail agent for several years, and is now serving his fifth term as County Coroner. He was Mayor of Middlebury two terms—the last during the vote to annex it to Akron. He has been a member of the Disciples' Church since 1834, and an Elder of the same a number of years. Mrs. Brown was a Methodist about thirty years, but since 1860, has been a member of the Disciples' Church. Mr. Brown's first vote for a Presidential candidate was for John Quincy Adams. He was a Whig until 1840; then anti-slavery until the organization of the Republican party, since which time he has been a zealous member of it.

JUDGE CONSTANT BRYAN, lawyer, Akron. A son of Elijah and Content (Fowler) Bryan; was born Sept. 6, 1809, in Delaware Co., N. Y., where he was brought up on a farm until he was 16 years old. He then commenced teaching, continuing it for three years, when he entered upon the study of the law at Bainbridge, Chenango Co., N. Y., in the office of John C. Clark, remaining with him about two years. In the fall of 1831, he went to Milford, Conn., and afterward to New Haven,

where he continued his studies in the Law Department of Yale College, teaching in the public schools during the summer vacation. In the fall of 1833, he came to Ohio and located in Akron, and, in 1834, was admitted to the bar at Columbus, he walking to Wooster, and going by stage from that place. He opened an office for practice at once; was the partner of George Bliss for two or three years. In 1852, he was elected Probate Judge of Summit Co. Judge Bryan's practice has been chiefly in civil cases and in the chancery courts. He was the first Recorder of the incorporated village of Akron, and long a member of the School Board. He was one of the early Free-Soilers, and was elected Probate Judge by that party and the Democrats. He was married in May, 1839, to Miss Sophia Dennison, a native of Rutland, Vt. Two children were born of this marriage, one of whom is living—Henry E., City Clerk of Columbus, Ohio. His wife died, and in September, 1854, he was again married, to Miss Susan L. Barnum, of Florence, Huron Co., Ohio. Of this marriage, there are two children living—Fred C., in the Cincinnati Law School, and Isaac J., at home. Judge B. is a member of the Congregational Church.

REV. JOHN B. BROUN, Pastor of St. Bernard's (German Catholic) Church, Akron, was born in Rennes, France, March 2, 1834. When he was 13, his family emigrated to the United States and settled in Monroe, Mich., in 1847. He entered Assumption College at Sandwich, Ontario, at the age of 20, remaining there three years, then entered St. Thomas College, near Bardstown, Ky., where he graduated in June, 1859; was in St. Mary's Seminary one year in Cleveland; studied theology three years in Assumption College, and, Aug. 28, 1863, was ordained priest, in the Cathedral St. Mary, by Bishop Baraga. He was located at Eagle Harbor, on Lake Superior, Mich., having a territory of fifty miles in length, containing three churches and sixteen missions, comprising over one thousand families. He visited each mission every month and church every two weeks, for three years, often traveling on foot. In 1866, he came to Cleveland, and was sent to St. Bernard's Church at this place, where he has since remained, with the exception of a short visit to Europe in 1873. The church had but sixty families when he came, and now

it has three hundred with about nine hundred communicants, full particulars of which are given in the history of St. Bernard's Church in another chapter.

J. W. BAKER, of Baker, Merriman & Co., Akron, was born in Auburn, Cayuga Co., N. Y., Jan. 27, 1827, and was the youngest of ten children born to Edward and Mollie (Sherman) Baker, who were natives of Massachusetts. He was an edge-tool maker. In 1843, he came to Ohio and settled in Akron. The subject of these lines lived at home about one year after coming to Akron, and then went to Columbus, Ohio, where he learned the cabinet-maker's trade, serving until he became of age, and then returning to Akron, working at his trade until 1850. In company with others, he then went to California overland, where he remained two years, engaged in mining. He returned via Panama and New York, and engaged in the manufacture of musical instruments, continuing until the spring of 1857. He then became a member of the Akron Melodeon Company, manufacturers of musical instruments, continuing in that business ten years, when he engaged in the manufacture of cigar boxes, and gradually added wood-turning and japanning. In about 1870, he and Mr. J. C. McWilliam established the present business, which they have since continued. In May, 1853, he married Miss Caroline Thayer, a native of New York, who bore him three children, two of whom are living, viz., Frank and Alice. Politically, he is a Democrat.

CHARLES BAIRD, Prosecuting Attorney, Akron. Is a son of Robert and Helen Knox (Moir) Baird; was born in Akron March 25, 1853. His father was the son of William and Susan (Smith) Baird, and was born in Kineff, Kincardineshire, Scotland, March 8, 1818. His father and grandfather were blacksmiths, and while quite a boy he learned the trade, which he has followed all his life. In 1842, he and his brother came to the United States, and he worked at his trade at Buffalo until May, 1843, when he came to Akron, engaging his services at his trade until 1846, when he established a shop of his own on Main street, at which place and in which business he still continues. On Sept. 21, 1846, he married Miss Helen Knox Moir, a native of Buchan, Forfarshire, Scotland. She bore him five children, viz., William (of Akron), Isabel, Charles and Mary (of

Akron), and Helen, who died at the age of 21. Charles, the subject of this sketch, attended the public schools of Akron, from which he graduated in 1872. In August, 1873, he entered the office of Upson & Ford, where he studied law, being admitted to the bar at the session of the Supreme Court at Columbus Nov. 2, 1875, immediately afterward forming a partnership with William H. Upson, under the firm name of Upson & Baird, which continued until the return of Mr. Ford from Mexico Jan. 10, 1877, when the firm became Upson, Ford & Baird. Oct. 20, 1875, he was appointed Clerk of Portage Township, which office he retained until April, 1878, being twice elected. On Feb. 15, 1879, he was appointed Canal Collector for the port of Akron, which he continued to be until, on Jan. 15, 1881, he resigned the office to take charge of the Prosecutor's office, having been elected Prosecuting Attorney of Summit Co. in October, 1880, at which election he ran largely ahead of his ticket. With the exception of one year, he has been a member of the Republican Central Committee since 1875.

ALFRED BALDWIN, undertaker, Akron. William and Lucinda (Ladd) Baldwin were natives of Vermont, and were the parents of three sons and three daughters, their second son Alfred, the subject of these lines, being born to them on March 18, 1823, near Sackett's Harbor, in Northern New York. In 1836, they moved to Ohio, and settled on a farm in Portage County, where they lived until 1870, except a period of seven years. The subject of this sketch lived there on a farm until 1853, when he went to Ravenna, Ohio, there to assume the duties of Deputy Auditor, remaining such until 1856, when he was elected Auditor of Portage County on the Republican ticket, which position he held for two years, at the end of which time he again served as Deputy for two years. (At that time, the County Auditor was given but one term.) In 1863, he became Deputy Clerk in the Probate Judge's office, which he continued two years. During these years, he retained the farm which he owned at Rootstown, on which he lived until 1865, when he came to Akron and purchased the furniture establishment of E. D. Dodge, and, with E. A. Reed, continued the business one year, when Reed retired. In February, 1880, Mr. George W. Weeks became a partner, and the busi-

ness since then has been conducted under the firm name of Baldwin & Weeks. They carry a full line of undertakers' goods, burial robes, caskets, and the elegant appointments of the business. On Sept. 29, 1850, he married Miss Anjanette E. Reed, of Rootstown, Portage Co., daughter of Horace Reed, who was born in 1806, in Rootstown, and who is said to be the first white male child born in Rootstown. One daughter—Lois E., was born of that marriage. Subject is a member of the Congregational Church. His father died in 1870, aged 90 years, and his mother, nine years later, followed him, aged 91. Both were consistent members of the M. E. Church. His brothers and sisters are Wm. L., Methodist minister, now located at Gilmore, Ohio; Rev. Chancey, of Centralia, Ill., and Eucebia, wife of Thomas Kingsbury, of Berwick, Ill. His sister Sarah A., who was the wife of Harvey Laughlin, died at Deerfield, Portage Co., Ohio, in her 25th year. One sister, Armelia, died at 16 years of age.

TALMON BEARDSLEY, retired, Akron. On Dec. 15, 1799, to Daniel and Hannah (Bailey) Beardsley, was born a son, whom they named Talmon, and who, over eighty years later, becomes the subject of our sketch, and we would pen a few incidents in a life well spent. The place of his birth was Delhi Township, Delaware Co., N. Y., where he lived on a farm until 1810, when his parents moved to Licking Co., Ohio, settling on wild land, where Talmon aided at clearing and farming, making out of chaos a clean spot for a home; here also, he went to school about three months per year. The schoolhouse was one of those primitive kind, having slab-seats, paper windows, and a fire-place the full length of the building, with a "cat-and-clay" chimney. In the summer of 1818, he started for Middlebury with only his walking stick as a companion, intent upon finding something to do as a means of earning a livelihood, and further schooling. When he reached this place, he found the old Cuyahoga furnace in operation, and secured work there for a few months, going to school a part of the time. He was employed in 1819 by Henry Chittenden, and for fourteen years, he made his home with him, working by the year at farming and teaming, doing a considerable amount of the latter, as his employer had contracted to furnish 16,000 bushels of lime for the locks

of the Ohio Canal then in progress. In hauling the lime, he drove a six-horse team. On the memorable occasion of the first breaking of the ground on the Licking Summit for the Ohio Canal, he was present, and a witness to the formal and ceremonious reception of De Witt Clinton, two Van Rensselaers and other distinguished personages who, on their arrival, accompanied by their colored waiters, and a fine display of baggage, were met near Newark and greeted with cannonading and martial music. On that day, Mr. Beardsley drove the team which bore the waiters and baggage. Clinton, who threw out the first shovelfuls, did so with great ceremony. Under the contract of Chittenden & Crosby, Mr. Beardsley superintended the construction of the deep cut on the canal of a half-mile between Bolivar and Zoar, having charge of about fifty hands, and he built the locks near Zoar for a man named Rhodes. The first boat was sent on July 4, 1827, to Cleveland. In the years 1824 and 1825, he was employed in a hotel. On Oct. 27, 1831, he married Miss Temperance Spicer, who was the fourth daughter of Maj. Minor Spicer. The five children are, viz., Ann, wife of George Hart, a farmer of Stow Township; Mills H., hotel keeper at Ogden, U. T.; Avery S., farmer in Portage Township; Harriet, wife of A. G. Babcock, of Akron, and Louisa D., wife of George Stover, Canal Fulton, Stark Co. A daughter, Emily, died at the age of 19. After marriage, he settled near Middlebury on a farm of 75 acres, which he purchased for \$6 per acre. This land was where the shaft of Payne & Cross, of Cleveland, mines are now. At that time, the existent coal in that locality was unsuspected by any one, else he would not have sold the land as he did two or three years after for the small sum of \$20 per acre. After selling that, he moved to Coventry Township where he bought 100 acres of land and farmed it. The date of his going to Coventry was 1833; a year previous to this, he was made Captain of the canal boat "Western Reserve," carrying iron ore from Zoar to this place, and provisions to Cleveland, Ohio, from 1832 to 1835, from which date up to 1858 he followed farming in Coventry, when he left that place and moved to Akron, where he has since retired from business, except attending to affairs connected with his estate. He was a Whig, cast his first vote for Henry Clay, and has been a

Republican ever since the organization of the party. He was Justice of the Peace at Coventry, and filled many other township offices. He has been Assessor of the ward in which he lives a number of times. He is a Universalist, and a member of the church.

CHARLES W. BROWN, Akron, whose portrait appears in this work, son of Jonas and Mary (Williams) Brown, was born Oct. 2, 1796, in North Stonington, Conn. His father died when he was 5 years old, at New London, Conn., of yellow fever. After the death of his father, he went to district school until he was 18 years of age, attending about two months per year. When he was 16 years old, he commenced learning the carpenter and joiner trade, serving as an apprentice two years, at the end of which time he commenced working at Lyme, Conn., where he remained a year. On Feb. 3, 1817, with one year's wages as his only capital, he, in company with two other young men, shouldered their knapsacks and started, on foot, for Ohio—for the purpose of making places for themselves in the great, bustling world—reaching Middlebury, on the evening of the 28th of February, after a journey of about 700 miles. On his arrival he found about sixteen buildings, the majority of which were log, there being but a very few frame houses then at this place. (Previous to his coming here, he was married in Connecticut, to Miss Henrietta Halsey, which marriage occurred on June 9, 1816; his wife came here in August, 1817, with Capt. Gear, who drove through with an ox team.) At Middlebury he kept house some fifteen years, engaged at his trade, and putting up many of the first frame houses there, and in that vicinity. In 1825, he purchased 45 acres of woodland, where his present place is situated, moving there in 1832, and adding to it various lots, until he owned 115 acres. Several of the early bridges were built by him, and quite a number of buildings in Akron are of his handiwork, among which is the Baptist Church. He helped to cut the way for Market street, and, in after years, graded the same road for five miles, reaching from Akron to Copley. After 1840, he devoted himself to other pursuits. For five years he held a Lieutenant's commission. He raised five daughters and one son, viz., Mary, wife of Edward F. Pulsifer, of Chicago, and Prudence, wife of

J. W. Sabin, of Akron, both of whom are dead. Antoinette, wife of Benjamin McNaughton, of Akron; Lucy, who died in 1850, and was the wife of Robert Henry; Alice, wife of William H. Mills, of Akron, and Henry H. Brown, of Akron. His wife, Henrietta, died on Sept. 23, 1859. On May 14, 1864, he married Mrs. Lydia Williams, of Connecticut, who died on Sept. 6, 1865. For some years he has enjoyed the rest which his toiling has so richly deserved. At the present time, in the same house, are four generations of the Brown family, each of which is represented by a male member.

PHILO BENNETT, retired, Akron. This gentleman was born in Herkimer Co., N. Y., Feb. 16, 1810, and is the oldest of three children born to Ephraim and Lucinda (Hutchins) Bennett. Shortly after his birth, the family moved to Brownville, where he lived until he was 22 years of age. At the age of 16, he was apprenticed to the harness and saddle trade, and served until he became of age. A year later, he moved to Cleveland, Ohio, and worked at his trade and at carriage trimming until 1837, when he moved to Tallmadge, and worked at his trade. The following year he visited St. Louis, returning in 1839. In 1842, he came to Akron, engaged in the harness business, and was identified with the same until 1862, since which time he has retired. In September, 1852, he married Miss Emma Francis, a native of England, who came to Akron about the year 1843, where she lived with her sister until her marriage. By their marriage there was one child, now deceased.

ANTON BERG, lock and gunsmith, Akron; is a native of Hesse-Darmstadt, Germany. He was born Feb. 14, 1820. His father, Christian, was a farmer, and Anton assisted in work on the farm until he reached his 16th year, when he was apprenticed in the city of Worms, on the Rhine, to the locksmith business. After serving three years, he worked as a journeyman for a year, when he was drafted into the army. He served twenty-one months in active military service, but during the remainder of his six years' term of service, he worked at his trade. A part of the time he was employed at the arsenal, manufacturing friction cannon caps, the inventor of which was his commanding officer, Capt. Hartman. After serving his full term of service, and being discharged, he began preparations for emigrating to America. He manu-

factured the tools he needed for his trade, and on June 9, 1847, he started for the new country, landing in New York in the following August. He left immediately for Buffalo, where he met friends and got work at his trade, being employed by Mr. Ketchum, an inventor of a reaping and mowing machine. Mr. Berg made the first knife bar for machines, a business that has since grown to large proportions. In the spring of 1848, he came to Cleveland, Ohio, where he had relatives, and worked at his trade until 1849. On June 16 of that year, he walked to Akron, and found work on stove mounting, which he followed five years. Sept. 6, 1854, he returned to his old business, manufacturing and repairing guns, etc., which he still continues. Mr. Berg is a Republican in politics, beginning as a strong anti-slavery man. He was a personal friend of John Brown, and when the latter went to Kansas, Mr. Berg repaired his arms free, working nights in order to escape the detection of hostile parties. Dec. 17, 1849, he married Miss Augusta Cappella, a native of Germany, who had that year come from her native land, and came to Akron the same day he did, though not formerly acquainted. Four children have resulted from this marriage, three of whom are living: Sarah, now Mrs. William Durand; Edward, grain dealer in McPherson, Kan.; and Libbie, a teacher in the South School, in Akron, Ohio; Hermann died in infancy.

CAPT. EDWARD BUCKINGHAM, ex-County Auditor, Akron; was born in Watertown, Conn., July 15, 1835, and is the eldest of three children of George and Betsy (Merriman) Buckingham, who were natives of Connecticut. In 1844, they came to Middlebury, Ohio, where he engaged in the manufacture of woolen machinery, and followed the same until his death in 1861. Mrs. Buckingham is still living on the old homestead. At about the age of 18, Edward engaged as clerk in a wholesale house in Cleveland. A few years later, he became a clerk in the post office at Indianapolis, a position he obtained through his acquaintance with Judge Weeks, the Postmaster, and served there some three years. In August, 1862, he enlisted in the 115th O. V. I., and served until the close of the war; he entered the service as First Lieutenant, and in three months was promoted to Captain of his company. During this term, he served as Provost Marshal of Cincinnati for awhile, also of Murfreesboro; of Cincinnati

during the Morgan raid. After the close of the war, he returned to Akron, and became Collector of Internal Revenue, which office he held until 1871, when he entered the office of County Auditor—serving continuously for nine years, being elected to the office on the Republican ticket. He was married March 10, 1863, to Miss Frances Johnston, a daughter of John and Elizabeth (Newton) Johnston, old residents of the county. By this marriage there have been born six children, of whom four are living, viz.: George E., John S., William J. and Hulda; all of them are living at home.

G. S. BEATTY, dentist, Akron; is an old member of the dental profession, though located in Akron but for a few months. He began the study of dentistry in Meadville, Penn., and after finishing his studies, he went to Mercer, Mercer Co., Penn., and practiced there for one and a half years. In 1844, he removed to Canton, Ohio, where he practiced until the fall of 1860, and then he went to Silver Creek, Chautauqua Co., N. Y. From there he removed to the city of Toledo, Ohio, and for thirteen years he was engaged in the practice of his profession in that city. He was married in Silver Creek, and while a resident of Toledo, his wife died. From Toledo he went to Pennsylvania, and in the fall of 1880, he returned to Ohio and located at Akron. During all these travels, he has been an earnest student of the profession, and now, after so many years of practice, he is able to do the very finest of operating; the fitting of celluloid plates, or of the artificial palate, known as the Kingsley patent. In his short term of practice in Akron, he has already become well and favorably known, and bids fair, in a short time, to stand as an equal in reputation to any of the dentists of the city. He is a member of the Order of A., F. & A. M., and has made frequent contributions to scientific journals.

DR. WILLIAM BOWEN (deceased), was born in Genesee Co., N. Y., July 30, 1805; his father was a soldier of the war of 1812, and, having served out his term of enlistment, was returning to his home across Lake Erie on the ice, and, losing his way, perished from cold. His widow was left with six small children, and in very limited circumstances. Our subject was apprenticed to the carpenter's trade when very young, and, completing his term of service, he came West, stopping in Stark Co., Ohio,

where he obtained employment with John Brown, at that time building a grist-mill near Canton, for William Reynolds. The subject was what was termed a "book-worm," and had but little taste for the pleasures and sports in which young men usually indulge, but preferred spending his leisure hours with some favorite book. These facts coming to the knowledge of Mr. Reynolds, who being pleased with the young man, he kindly proffered to lend him assistance. Mr. Reynolds also assisted him to attend the select school of Barak Michener, at that time a popular teacher in the higher branches of education. Upon the completion of a term at school, he commenced teaching in the village of Paris, Stark Co.; while thus engaged, he made the acquaintance of Dr. Robert Estep, then living in Paris, and a warm friendship at once sprang up between them. Through the influence of Dr. Estep, our subject was induced to undertake the study of medicine; but as this part of Dr. Bowen's life is given in the chapter devoted to the medical profession, it will be omitted here. In 1833, he purchased a tract of land near New Portage, in Summit Co., and, without giving up his practice, he devoted considerable attention to farming. He moved to Akron in 1857, where he remained until his death, which took place Jan. 14, 1880, in the 75th year of his age. He married Miss Huldah Chittenden while engaged in the study of his profession; there were born of this marriage nine children, seven girls and two boys, only three of whom, with their mother, still survive him. Dr. Bowen was emphatically a self-made man; his success was the result of his own individual efforts, improving the circumstances and advantages as they presented themselves.

S. M. BURNHAM, Secretary Webster, Camp & Lane Machine Company, Akron; was born in Genesee Co., N. Y., Jan. 23, 1824, and is the second of ten children of Simeon and Anna (St. John) Burnham, natives of Massachusetts and New York. He moved to New York with his parents about the year 1809, and lived at home with them until his marriage, about the year 1821; his wife moved to New York with her parents a few years after he did, and after their marriage, Mr. B. followed farming, and also was in the insurance business as an agent—a business followed during the latter years of his life; he died May 10, 1862; his death resulted from an accident with a run-

away team; she continued on the old homestead, and died a few days later. S. M. (the subject) lived at home until 1844, and received an academic education in a neighboring village, finishing off at the Wyoming Academy. In 1844, he came to Ohio and taught school in Madison, Lake Co., and the following summer he returned to New York and attended school at Wyoming Academy; after this he took a commercial course in Buffalo, where he afterward taught penmanship. In April, 1848, he settled in Akron, and engaged as a clerk in the Rattle & Tappan warehouse on the Ohio Canal; two years after, Mr. Tappan retired and opened an iron store, where Mr. B. went with him as clerk and with his successor until 1855; he then engaged with the Austin Powder Co., and was with them two years, and, after being book-keeper in Franklin Mills for a time, he, in January, 1858, engaged as Deputy Auditor for G. W. Crouse, and also as Deputy for S. S. Wilson, County Treasurer, serving in both nearly four years, and serving as Auditor for an unexpired term by appointment. In March, 1862, he became County Auditor by election, and was re-elected for the three succeeding terms. In the fall of 1872, he was elected to the Legislature from the Summit County District in the Sixtieth Assembly, in which he took an active part. Upon his return in vacation, he was made Secretary and one of the Board of Trustees building Buchtel College. In 1873, he engaged in his present business, and was made Secretary. He was married, Nov. 5, 1848, to Miss Anne M. Row, a native of Connecticut; she came to Medina Co., Ohio, with her parents when quite young; they had six children, three of whom are living, viz., Lillie M., Charles S. and Clifford D.

A. A. BARTLETT, Recorder, Akron; is a native of Chautauqua Co., N. Y., and was born June 22, 1840. Until the age of 17, he lived upon the farm; he then went to work in a saw-mill for a year or two, subsequently conducting the mill on the shares. He was thus engaged at the breaking-out of the war. In July, 1861, he enlisted in Co. A, 49th N. Y. V. I., for three years or during the war. He served with the regiment in the Potomac army, and was in all the engagements of the command up to the battle of Antietam, where he was wounded, which occasioned the loss of his left arm. April 6, 1863, he was discharged, and returned

to his home in New York, and gave his attention to a small place he owned. Some two years later, he went to Corry, Penn., where he engaged in a steam saw-mill as engineer, and, one year later, took charge of the business. In the spring of 1867, he came to Akron, and soon engaged in the planing-mill of George Thomas & Son, and was connected with the business until 1879. During the latter eight years of that time, he served as foreman of the establishment, though conducted under several different firm names. In the fall of 1878, he was elected on the Republican ticket as County Recorder, and entered upon the duties of his office in January following. In 1860, he married Miss Imogene Travers, a native of Chautauqua County, N. Y.; by the marriage, there has been three children, two of whom are living—Mary and Jennie.

ALEXANDER BREWSTER, President Brewster Coal Co., Akron; was born in Augusta Township, Oneida Co., N. Y., Sept. 10, 1808, on his father's farm, and is the youngest of six children, born to Stephen and Lydia (Bellows) Brewster, who were natives of Connecticut. Mr. Brewster traces his ancestors back to Rev. William Brewster, one of the Pilgrims who came over in the Mayflower. Stephen Brewster, the father of our subject, was born May 4, 1770; in 1797 he moved to New York, with his wife and one child, and, in 1811, he came to Ohio. He bought 160 acres of land in what is now Coventry Township, and then returned to New York, and the next year brought out his family. They started in June, and came by ox team, and were thirty-three days on the way, landing in Coventry July 4, 1812. His cabin was the fourth built in the township, and was the proverbial log cabin. They lived here until 1815, when they were enabled to build a better one. He was a carpenter, and worked at his trade, building many of the houses of the early settlers. He died July 4, 1858, at the advanced age of 88 years; his wife died in the fall of 1842, aged 71. Our subject lived at home until of age, receiving a limited education at the district schools. He learned the carpenter's trade with his father. He was married Jan. 9, 1830, to Miss Margaret Ann Kinney, a native of Ontario Co., N. Y., and who came to Springfield, Ohio, about the year 1813. She was the youngest of three children, born to Ephraim and Mary (Danes) Kinney, natives of New

York. They settled in Springfield Township in 1813, where they lived until their death; he died about 1820, and she in 1861. Mr. Brewster now owns the place on which they settled. Mrs. Brewster, the wife of subject, died in November, 1854, leaving five children, four of whom are living, viz., Alfred A., General Agent of the Brewster Coal Co.; Austin K., Secretary and Treasurer of the Brewster Coal Co.; Louisa, now Mrs. J. F. Mecham, of Akron; Mary M., now Mrs. Russell Kent, of Akron. Mr. Brewster married a second time in December, 1857, to Mrs. Brown, formerly Minerva Dyer, a native of Cuyahoga Co., Ohio; she died June 27, 1873. In September, 1877, he married Mrs. Chamberlain, formerly Lucy Jane Gale, a native of Massachusetts, who came to Ohio with her parents in the year 1825. Mr. B., after marriage, followed farming in Coventry until 1848. Coal having, in the meantime, been discovered on his farm, he turned his attention to mining, and, in 1849, shipped over 1,000 tons to Cleveland via canal. In 1850, he left his mines in competent hands, and went to California overland, his object being mining. He remained in the land of gold but a short time, and returned home via Panama and New Orleans, arriving home in 1851. He prosecuted his coal mining, and, about the year 1865, formed a stock company, of which he is the President, the capital being \$100,000. He and his sons subscribed the stock. They built a railroad from the mines to the basin of the Ohio Canal, a distance of five miles, which cost about \$120,000, the rolling stock making it about \$150,000. They mine from 30,000 to 60,000 tons of coal per year, and own docks in Cleveland for the purpose of handling coal, and sell as high as 200,000 tons per annum. In July, 1872, Mr. B. moved to Akron, where he has since resided. In 1871, he visited California, in company with his eldest daughter.

GEORGE G. BAKER, physician, Akron; is a native of Ohio; he was born at Norwalk, Huron Co., Dec. 3, 1849, and is the third of four children born to Daniel A. and Harriet (Vandercook) Baker. They were natives of Connecticut and New York. Daniel A. Baker came to Ohio when about 17 years of age, or about the year 1831, and located in Huron Co., where he began as a clerk in a mercantile business, and, after a number of years, he became a partner, and was identified with the mercantile in-

terests of Norwalk most of the time until the year 1858 or 1859, when he became interested in the banking business of that place, and has continued in the same to the present time. Our subject entered the Western Reserve College at Hudson, Ohio, at the age of 17, and graduated in 1869; he began reading medicine in 1868, with Drs. Read & Ford, of Norwalk, Ohio, and, having in the mean time taken two courses of lectures at Ann Arbor and Brooklyn, N. Y., he began practice in 1872 with Dr. George P. Ashmun, of Akron; in 1875, he graduated at Ann Arbor, Mich. The Doctor is a member of the Summit County Medical Society, and also a member of the Union Medical Association of Northeastern Ohio, of which he has been Recording Secretary a number of years. In June, 1873, he married Miss Celia, a daughter of Dr. George P. Ashmun, of Akron; by this marriage there has been four children, of whom three are living, viz., Fred A., Harry and an infant.

B. F. BATTELS, photographic art gallery, Akron, was born in Wadsworth, Medina Co., Ohio, April 21, 1832, and is the second child in a family of seven children born to Caleb and Juliana (Hard) Battels; they were natives of Massachusetts and Vermont; he came to Middlebury, Ohio, when he was young; arriving before the canal was built, he overseeing the building of locks on same. Mrs. Battels came to Ohio with her parents, who settled in River Styx, Medina Co., Ohio, at an early day, they being pioneers in that locality. After the marriage, Caleb, who is a natural mechanic, worked as a carpenter and builder; about the year 1852, he came to Summit Co., Ohio, and bought and occupied his present place where he now lives. Our subject lived with his parents until he was 20 years of age; he was brought up on the farm, and received a common school course of study; also taught a number of terms during the winters. In 1852, the family moved to Mount Vernon; B. F., tiring of farm life, began looking around for a suitable change, and was favorably impressed with daguerreotyping, then quite a new business; he soon obtained an opportunity, and learned the new business, and such was the ability he displayed that within a few weeks he had a set of tools and was on his way to Wadsworth, where he opened an office; the business those days was of a transient character, and he moved from place to place. In 1852, he located at Bucyrus, Ohio, and in the winter of 1855 he

came to Akron, and opened his present place in the spring following, and has remained in the same location since. In his chosen field he has found ample room for his genius, and his popularity as an artist attests the appreciation of his patrons for his genius. He married Miss Sarah M. Edgerly, a native of Hudson, Ohio.

A. M. BARBER, buyer and shipper of grain and produce, Akron. The subject of this sketch was born in Bath Township, Summit Co., Ohio, Oct. 2, 1830, and is the fourth of five children born to Isaac W. I. and Mary (Brown) Barber; they were natives of Connecticut and New York. Isaac W. I. Barber was raised on a farm; about the year 1820, he left Connecticut for the West, coming with a wagon load of boots, shoes, etc.; arriving in Bath Township he bought 110 acres of wild land, which he cleared and improved. March 1, 1824, he married Miss Mary, a daughter of Samuel and Lucinda (Coy) Brown. Samuel Brown was a Revolutionary soldier and a pensioner during latter years; he was a native of New York, and came to Ohio about the year 1810, settling in Boston Township, and later moving to Springfield Township, where he died in 1845; he was twice married; his first wife died in Boston Township soon after they came there; in 1817, he married Miss Lucinda Bishop. I. W. I. Barber settled on his land in Bath Township after his marriage, and lived there until his death, in 1833; he was a member of the Presbyterian Church, in the affairs of which he took an active interest; foremost in improvements, he was well known, and his death was lamented by a wide circle of friends. Some years after his death, Mrs. Barber married Capt. Fanning, who died in 1845, she continuing on the old homestead until 1856, when she sold her interest to A. M. Barber and moved to Kansas, where she lived with her children until her death, about the year 1874. A. M. Barber was raised on the farm; the country being new, and he losing his father during his infancy, afforded him limited opportunities for obtaining an education. Oct. 6, 1857, he married Miss Sarah, a daughter of Henry and Mary (Emmons) Vansickle; after the marriage, he remained on the farm one year, and in January, 1859, came to Akron and bought the Pearl Mills, which business he was identified with for four years; he then engaged in the grain and produce business, in which he has done an ex-

tensive trade; the volume of his transactions have amounted to \$1,500,000 per annum; he was a director upon the formation of the Bank of Akron, and is also identified with several of the leading manufacturing interests in the city. In 1880, he had finished his elegant and commodious brick block, Nos. 150 and 152 South Howard street, known as Barber's Block, which ranks among the leading business blocks of the city. Though starting out in life in the most adverse circumstances, he has by his energy and perseverance been successful, and, while remembering that he has been the architect of his own fortune, he has also lived so as to not only win, but also to deserve the respect and confidence of all who know him.

JUDGE JAMES S. CARPENTER, attorney, Akron; is the son of William and Lucina (Sumner) Carpenter; he was born at Swanzey, Cheshire Co., N. H., on Aug. 17, 1805, from which place his father moved eighteen months later to the woods of St. Lawrence Co., at Potsdam, N. Y.; here he labored hard on the farm and at clearing. He does not know when or where he first learned the beauties and mysteries of the alphabet, but it was probably at home, for his earliest recollections of school experience was spelling in his a-b, abs, in one of the primitive log cabin schoolhouses, where subscription teachers applied the lubricating oil to the complicated machinery of the human mind; his first lessons in reading he well remembers were at the side of his mother's foot-wheel, which was fast flying, when, after some assistance on her part, and utter unbelief of his ability to read "in readings," he astonished himself by finding that with a little help from her he could and did read "The history of a little boy found under a haycock." He spent the greater part of his youth on the farm, and at the age of 17 attended the St. Lawrence Academy, in Potsdam; he taught in the State of New York a part of each year until he attained his twentieth year, by which time he had acquired a fair knowledge of the English branches. In the winter of 1825-26, he taught in New York, and in the spring of 1826 he went to Lower Canada, where he taught until the fall of 1828, a part of the time in Montreal; from there he went to Amherst, Mass., and became assistant teacher in the Amherst Academy, and later teacher of the Ladies' Seminary at Springfield, Mass., during the summer of 1829; in

the fall of that year he entered the freshman class of Amherst College, where he remained until his health failed from overwork, being engaged simultaneously in the capacity of both pupil and teacher. He then returned to his home in New York, where he resumed teaching, and kept up his studies in the branches of the college course. In June, 1832, he came to Cleveland, Ohio, where he taught languages in the Cleveland Academy, but the school was shortly after broken up by the sudden appearance of cholera, which was brought to Cleveland by the steamboat "Henry Clay." Mr. Carpenter next removed to Ravenna, Ohio, where he organized a class in French, but departed soon after for Massillon, where he taught that winter; in the spring of 1833, he returned to Ravenna, and became Principal of the Ravenna Academy, which position he held for two years. He retired then, being still in a poor state of health, and rented a portion of a farm near there, which he farmed one season. On May 1, 1835, he was married to Miss Frances C. Saltonstall, of Geneva, N. Y. In November of the same year, he went to Medina, Ohio, and there started the Medina *Constitutionalist*, a Whig and anti-slavery paper, of which he was the editor, at the same time studying law under the direction of Camp & Canfield; he continued with the paper until the winter of 1838-39. On May 29, 1838, he was admitted to the bar, at Springfield, Ohio, reaching there on horseback, after a journey of four days. He practiced at Medina, with Judge McClure, from 1840 to 1850. In the fall of 1839, he was elected a member of the Ohio Legislature, and of the Ohio Senate in 1840, serving with distinction in both houses; in the Legislature he was the only avowed Abolitionist. While he was a member of the House, Mr. Fisher, of Shelby, introduced a set of resolutions denouncing the Abolitionists with barbaric vituperation. It was in a speech upon these resolutions that Mr. Carpenter declared that slavery and freedom could not co-exist in this Government, a doctrine which, ten years later, blazed from a higher standard, when Mr. Seward proclaimed the "irrepressible conflict." in the United States Senate. While in the Senate, Mr. Carpenter had frequent occasion to defend his Abolition principles, on bills introduced by him to charter institutions for the education of the colored people; they being then wholly excluded from

the common schools and from the common school fund, and yet taxed to support that fund, and in numerous other ways, when the course of legislation brought before the Senate the injustice and cruelty they were suffering in Ohio, both under and against its laws. About the last of these conflicts was on a bill to repeal the charter of Oberlin College. It was defeated. Our subject never joined the Liberty party; he said he was for the abolition of slavery everywhere. The Liberty party was organized not for the abolition of slavery, but to stop its advance. The abolition movement was by the diffusion of moral truth, while the Liberty party was political. Whatever moral truth it disseminated was outside of its platform, and but auxiliary to its political end. He was Secretary, in 1834, of the first County Anti-Slavery Society, at Ravenna, and has held various prominent positions of trust. He came to Akron in 1846, and has practiced law here ever since. In 1856, he was elected Judge of Court of Common Pleas, and served a term of five years. He is the father of three children, viz., Gilbert S., Captain in regular army at Camp Douglas, near Salt Lake City, Utah; Dr. William T. Carpenter, of Ishpeming, Mich., and Abbie L., still at home. He is a member of the Congregational Church.

N. A. CARTER, contractor and builder, Akron, Ohio; was born in Twinsburg, Summit Co., Ohio, and is the second of nine children born to Thaddeus A. and Esther A. (Marshall) Carter; they were natives of Connecticut; he was brought up on a farm and early went to peddling clocks, operating principally in the Western Reserve; about the year 1826, he settled in Twinsburg Township, Summit Co., Ohio, where he cleared a farm upon which he lived until his death in 1870. He was twice married; his first wife died Sept. 1, 1845. In December of that year, he married Miss Margaret McKisson, a native of Maryland; she died about the year 1846. He was a member of the Methodist Episcopal Church, and took an active interest in its affairs; he was well-known and respected by all. Our subject lived at home seventeen years; he then apprenticed to the carpenter and joiner's trade at Hudson, serving three years, after which he worked as a journeyman in that vicinity until 1871, when he came to Akron, where he has continued in the business as contractor and

builder. In all he has followed the trade for a third of a century, during which time he has built many buildings, principal among which are the Buchtel College, the *Buckeye* office and many other leading structures. He served on the Board of Education of Hudson, and also as a Councilman. In 1879, he was elected a member of the Akron Council for Second Ward and was re-elected in 1881. June 24, 1852, he married Miss Jane R. Herrick, a native of Twinsburg; they had five children, four of whom are living—Ella J., Frank N., Walter T. and Emory J. Mr. Carter is a member of the Methodist Episcopal Church, in which he has held many of the offices usual to that denomination, and has otherwise taken an active interest in its affairs.

DR. MASON CHAPMAN, dentist, Akron; was born on his father's farm in Copley Township, Summit Co., Ohio, June 28, 1838. His parents, Lucius and Sally B. (Mason) Chapman were natives of New York: he was a farmer; was born Nov. 20, 1807, on a farm called Cone Hill, in Onondaga Co.; were married in Sennet, N. Y., June 2, 1829; they came to Ohio in June, 1833, and settled in Copley Township, where they lived until 1857. Mrs. Chapman died in 1852. In 1857, he moved to Wisconsin, and later, to Anamosa, Jones Co., Iowa, where he now resides. His father, Ashbel Chapman, was born in Massachusetts May 20, 1775; he came to Ohio about the year 1836, and settled near Copley Center, where he died Jan. 25, 1865; his wife also died there March 9, 1862; they were married in Massachusetts Aug. 8, 1800. Our subject lived with his father until December, 1864; his early life was spent on the farm. In Wisconsin he clerked in a grocery and boot and shoe store, after which he joined his father in Iowa, and assisted on the farm. The following winter, he attended Cornell College at Mt. Vernon, Iowa, alternating on the farm and at college for two years. He then taught school for two terms, and, in the fall of 1862, he began the study of dentistry with Dr. Matson, of Anamosa, with whom he studied for two years; he then visited in New York State, and, in the spring of 1865, he came to Akron and practiced one year with Dr. Bolles, after which he bought the business, and has continued the practice since. Nov. 3, 1867, he married Miss Alice L. Randall, a native of Copley Township, Summit Co., Ohio.

They have one child—Cloyd M. Chapman. During the term 1878 to 1880, the doctor served the city of Akron as Councilman.

DR. JOSEPH COLE, deceased; was born in Winfield, N. Y., in September, 1795; he was raised on the farm and began reading medicine in 1820, with Dr. Clark, graduating from the Fairfield, N. Y., Medical College. In 1824, he came to Summit County, Ohio, and practiced for three years at Old Portage; he then came to Akron, where he practiced until his death in 1861; he was married in November, 1826, to Miss Charlotte Dewey, a native of Westfield, Hampden Co., Mass.; she came West with her parents in 1822; there were ten in the family; all came in one wagon, the male members often walking; they settled at Old Portage and within three years, father, mother, three brothers and one sister died from the fever then prevalent in that locality. Charlotte lived with her brothers, who were farming in that vicinity, until her marriage; by the marriage were seven children, all of whom have since died. Mrs. Cole is living in the old homestead, where she has lived since 1832, and by her family has three grandchildren—Helen L. Agard, of Saratoga, N. Y., and H. D. and Fannie F. Cole, living with her. Their father, H. D., was the youngest son of Dr. Joseph and Charlotte (Dewey) Cole; he was born in Akron in 1840; he received a high school education, and in his latter years was engaged in the livery and undertaking business; he died in April, 1876. In 1864, he was married to Miss Hattie Farnam, a native of Akron, daughter of Daniel Farnam; they had two children, viz.: H. D. and Fannie F. Mrs. Hattie Cole is also living in the old homestead with her mother-in-law.

CHARLES A. COLLINS, carriage manufacturer, Akron; is a native of Richmond, Berkshire Co., Mass. He was born July 26, 1816, and is the youngest of six children born to Ralph and Hannah (Hickox) Collins; they were natives of Connecticut; he died in Massachusetts Aug. 4, 1817. Our subject lived with his mother until 1827, when they moved to Berkshire, Tioga Co., N. Y., where she lived for three years with her married daughter, Charles A., while in Massachusetts, worked about at farm work, and attended district school. In New York he lived with an uncle, working on the farm in summers, and attending select school winters. In the fall of 1830,

he and mother came to Ohio and settled at Tallmadge, where his brother-in-law, Mr. Amos Avery, was engaged in the manufacture of wagons. Charles A. apprenticed with his uncle, and remained until he became of age. His mother lived there with a daughter until her death in November, 1849. In 1838, the firm of Collins & Hale established a carriage manufactory in Middlebury, now Sixth Ward, Akron. They continued until 1841, though Mr. Collins was identified with the business until it was burned in 1860. During this year, the business was established by Collins & Bell in South Akron, where the business was conducted until 1869. In February, 1870, the present firm of C. A. Collins & Son erected a shop corner of Main and Church streets, Akron, where they have done business since. While residing in the Sixth Ward, Mr. Collins served as a member of the Board of Education for several terms, a member of the Village Council, and Mayor of Akron for the years 1862 and 1863, also member of City Council, 1876 to 1878. Jan. 16, 1839, he married Miss Louisa Hine, a native of Milford, Conn., and youngest child of Abraham and Abigail (Elton) Hine, who came to Summit Co., Ohio, about the year 1820. By the marriage there have been seven children, of whom four are living, viz.: George A., with father; Mrs. Josephine A. Kent, of Kent, Ohio; Charles E., formerly cashier Second National Bank of Akron, now with the Colwell & Collins Manufacturing Co. of Cleveland, and Nettie E., at home.

A. L. COTTER, retired, Akron City; was born in Cornwall, Conn., Dec. 28, 1795, and is the second of five children born to Andrew and Rhoda (Rogers) Cotter, natives of Connecticut, and who died in their native State. Our subject lived at home until he was 22 years of age. He assisted his father at farming, and in his blacksmith-shop. His education was limited, and confined to the district schools. At the age of 22 years, he opened a blacksmith-shop of his own some three miles from his father's, where he continued in business for about two years, when he went to Bristol, and worked there for one year, engaged in ironing wagons. He returned to his native place, where he was identified with the blacksmith business until 1824, when he came to Ohio, with a cousin who lived in Middlebury. Satisfied with the country, he returned home, made himself a wagon,

and removed to Ohio with his family, consisting then of a wife and one child. He located in Middlebury, where he followed blacksmithing until about the year 1868, when he retired to his present place, where he has since resided. His residence was destroyed by fire on Feb. 12, 1875, and the following year he built his present dwelling. He served a number of years as Trustee of Tallmadge Township while a resident of Middlebury. He was married, Nov. 21, 1821, to Miss Mary Ann Pratt, a native of Killingworth, Conn.; she died July 28, 1836. The result of this marriage was seven children, of whom five are living. Samuel A. and James P. live in Connecticut; Charles S. lives in Ravenna, Ohio; Mary E., now Mrs. Myers, lives near the old home; Henry C. lives in Toledo; Edward died in 1831 and Emily in 1868. Mr. Cotter was married on Nov. 1, 1837, to Miss Mary Talcott, a daughter of Alvin and Philomelia (Root) Talcott. Mr. Talcott traces his ancestry back to the family of Warwickshire, England. The original emigrant, the Worshipful John Talcott, came to Boston, Mass., Sept. 16, 1632, in the ship Lyon. He soon after went to Hartford, Conn., where he was married, and afterward lived. Mr. Cotter is a Presbyterian, and has been a member of that church for over fifty years; Mrs. Cotter has been a member for over forty years. Mr. C. has been a Republican in politics ever since the organization of that party.

JAMES H. CASE, druggist, Middlebury (Sixth Ward), Akron; was born Dec. 23, 1844, and is a native of Middlebury, Ohio. He is the eldest of two children, born to S. S. and Jane (McDowell) Case, who were natives of New York. S. S. Case came to Ohio in an early day, and located in the vicinity of Painesville, where he followed harness-making; and, about 1842, came to Middlebury. Here he followed the harness business, and later, became an extensive dealer in stoneware. He also took some contracts on the Mount Vernon Railroad. In 1864, he enlisted in the army, and was transferred to the Government shops at Chattanooga for the manufacturing of harness, etc. He served until the close of the war, and then located in Cincinnati, thence to Xenia, where he died June 9, 1879, at the age of 67 years. James H. (the subject), has always made his home in Middlebury. At the age of 17 years, he apprenticed himself to the carriage-ironing trade, at Greenville, Penn.;

he did not complete his apprenticeship, but retired to Middlebury, and worked one and a half years in the machine shops of Kent & Baldwin. In 1863, he enlisted in the Second Ohio Cavalry, and served until the close of the war. He was in the battles of the Wilderness, Petersburg, Shenandoah, Cedar Creek, Winchester, Five Forks and at the surrender of Lee. He was at the grand review at Washington, and then moved West, remaining at Springfield, Mo., until the September following, when he, with regiment, was mustered out at St. Louis, and returned home. He then completed his trade as a machinist, and followed it some four years. He then worked in the Buckeye Reaper Works until the spring of 1876, when he opened his present business. He was married, Jan. 1, 1872, to Miss Ella S. Farrar, a native of Massachusetts, and a daughter of C. S. Farrar, of Akron, whither they came about the year 1870. By the marriage, there is one child, viz., Charles F. Case.

DR. W. E. CHAMBERLIN, physician, Akron, was born in Allegheny City, Penn., Nov. 29, 1840, and was raised in Maryland and Virginia, where his parents lived during his infancy, moving to Peninsula, Summit Co., Ohio, in 1858. His father, C. W. Chamberlin, was a physician and druggist. Our subject began at the age of 12 years to assist in his father's store and to read medical works, which he continued in connection with his schooling, which consisted of a high-school course and a course by a special instructor, which included French and German. At the age of 18, he began practice under his father, and Sept. 9, 1861, he enlisted in Co. D, 1st Ohio Light Artillery, and was detailed by Gen. Nelson as physician and surgeon, in which position he served until October, 1862, when, owing to ill health, he was discharged and returned home. During the winter, he attended lectures at the University of Michigan at Ann Arbor, resuming his profession in the spring at Brimfield, Portage Co., Ohio. In September, 1865, he removed to Clinton, Summit Co., where he practiced until January, 1875, during which time he became well known as a newspaper correspondent, corresponding for the *Akron Beacon*, *City Times*, *Cleveland Herald*, the *Plaindealer* and numerous others. From Clinton he came to Akron and located at 104 North Howard street, where he has remained since. In 1869, he graduated

at the Charity Hospital Medical College of Cleveland. A member of the Union Medical Society of Northeastern Ohio, he has served the same as delegate to the State and National Medical Conventions. March 31, 1862, he married Miss Mary E. Pritchard, of Medina Co., Ohio. Of their two children, one is living, viz., Myrtle. June 22, 1875, he married Mrs. McCoy, formerly Miss Wilhelmina Kohler. While in Franklin Township, the Doctor served as Justice of the Peace and Notary. He also conducted a drug business, which was destroyed by fire in 1874.

B. S. CHASE, M. D. (deceased), was born Jan. 9, 1834. He was a native of Vermont, and lived on a farm until he came of age, gaining an education in the meanwhile at the public schools and an academic course at the Chester Academy. On reaching his majority, he came West and engaged in the sale of some maps for which he had secured territory in Michigan. After several years spent in this way, he came to Akron and began reading medicine with his uncle, Dr. E. W. Howard, of Akron, and afterward graduating at Ann Arbor, Mich. He began his practice in partnership with his uncle and preceptor, continuing in this way until 1862, when the war opened up a new avenue for his services. He entered the army as Assistant Surgeon of the 16th O. V. I., remaining with the regiment until June, 1863, when he was transferred to the 53d Mississippi (colored) Regiment as Surgeon. He continued with this regiment to the close of the war, acting on the Operating Board at the battle of Chickasaw Bayou and during the siege of Vicksburg. Subsequently he returned to Akron, where he continued his practice until his death Feb. 23, 1878. Jan. 26, 1863, he married Miss Henrietta Sabin, a native of Akron, and a daughter of Joseph W. Sabin, a long-time and prominent merchant of Akron. Mrs. Chase's mother was Prudence, a daughter of C. W. Brown (who is mentioned elsewhere), a native of New York and an early pioneer of the Sixth Ward of Akron. Mr. Sabin died March 5, 1876; his wife died Dec. 27, 1880. Mrs. Chase's family consists of five children—William S., Charles H., Martha, Byron S. and Sabin Ford, the latter a nephew whom she has adopted into her family.

J. G. CASKEY, of Diehl & Caskey, Akron; is a native of Lancaster Co., Penn.; was born

in Strasburg Township, Sept. 3, 1832. His parents, Samuel and Mary (Brown) Caskey, were natives of York and Lancaster Cos., Penn. His father was a miller by trade, and was born July 1, 1798. In 1835, his parents, with four children, came in wagons to Norton Township in this county. Here his father bought wild land, cleared a farm, and, in the meanwhile, worked at milling on shares. The latter business occupied the principal part of his time until 1869, when he gave up a calling in which he had engaged for nearly fifty years. Feb. 1, 1875, his wife died at the age of 75. Both were members of the M. E. Church, in which he still takes an active interest. In politics, he followed the fortunes of the Democratic party until the rise of the Republican party, to which he has since given his suffrage. He still lives at the old homestead in Norton, and lacks but a few days of being the oldest man in the township. J. G. Caskey lived at home until he reached his majority, working on the farm and in the mill, gaining a practical knowledge of both occupations. On becoming of age, he entered the Baldwin University at Berea, where he studied for two years. At the expiration of this term, he returned to the farm, spending his winters in teaching school for some two years. He then turned his attention exclusively to milling, which he followed until 1871, save two years while in the army. Aug. 30, 1862, he enlisted in Co. D, 29th O. V. V. I., and served two years, taking part in the battles of Chancellorsville, Gettysburg, Lookout Mountain and Mission Ridge. Mr. Caskey was subsequently taken ill and confined in the hospital at Murfreesboro, and later received a furlough and discharge. He returned home, and, after regaining his health, he resumed his milling business. In 1871, he moved to Akron and conducted a restaurant for some nine years. In 1880, he became a partner in the present business. Feb. 15, 1860, he married Miss Harriet B. Burget, a native of Wayne Co., Ohio. They have two children, Sybil A. and Charlie E.

JOHN S. CLEMENS, foreman gearing department of Aultman, Miller & Co., Akron; a native of Stark Co., Ohio, was born Aug. 30, 1832, and is the oldest son in a family of three children born to Daniel and Leah (Cameron) Clemens, natives of Stark Co. His (subject's) grandfather, Nicholas Clemens, was a soldier in the war of 1812, and came from Pennsylvania

to Stark Co. previous to that war. At the age of 19, subject was apprenticed to learn blacksmithing at Paris, in Stark Co., where he worked until 1857, when he entered the employ of Aultman, Miller & Co., at Canton, as a blacksmith. He remained here until 1864, when, at the opening of the company's shops at Akron, he came here to take charge of the blacksmithing department, and was foreman of that department until 1869, when he was made foreman of the gearing department, which he has made very efficient. He was married in November, 1854, to Miss Elizabeth Flickmyer, of Paris, Ohio. They have two sons; a daughter died in childhood.

JOEL R. CARTER, of Carter & Steward, millers, Akron, a son of Joel R. and Mary (Dyer) Carter, was born in Devonshire, England, March 13, 1841. His father was a miller, and when but a boy he began to learn the milling business. He worked in the City Mills of London, England, about five years, and in 1865, he came to the United States and to Akron. He entered the present mill, where he worked for Robert Turner one year, and, in 1868, bought a fourth interest in the firm. He became half-owner in 1873, with Mr. Steward, firm Carter & Steward. In February, 1869, he was married to Miss Jane Rhodes, daughter of John Rhodes, of Cuyahoga Falls. There has been born of this marriage one son and one daughter. Mr. C. came here without capital, and by his own exertions has become one of Akron's staunch business men. His parents still reside in England, where his father has followed milling all his life, at Dotten, twelve miles from Exeter.

JOHN COOK, deceased, was born April 18, 1818, in Bavaria, Germany. On leaving school in his native country, he learned the trade of stone-mason, at which he worked until he came with his parents to the United States in 1839. He came at once to Akron, and found employment in the Aetna Mills, where he soon became foreman in the packing department. He went overland to California in 1850, encountering many perils and hardships. He remained there two years in the provision business, and returned home *via* Panama route. In 1855, he started a grocery on Market street, and by close application to business built up a large and lucrative trade—was one of the largest dealers in Akron, and for several years the

business partner of Jacob Dussell. When his sons John J. and William H. Cook grew up, he took them into partnership, which lasted until his death, Dec. 1, 1880. He was raised a Catholic, and at the organization of the German Catholic Church became a member, and was for many years a trustee and liberal supporter of it; later in life was a member of the St. Vincent's Church. He was Councilman two years, and took an active interest in public affairs. He was married October 17, 1843, to Miss Mary Bilz, of Akron. She was born in Germany, Dec. 5, 1821, and came with her parents to the United States in 1836, and were among the early residents of Akron. Subject has two sons living—William H. and John J.; oldest son, Francis, died when he was but two years old.

DR. ISRAEL E. CARTER, retired, Akron, was born in Concord, N. H., April 8, 1810, where he lived in the vicinity until 1836. He began the study of medicine in 1831, and at the same time supported himself by teaching school during the winters. He graduated in June, 1835, from the Vermont Medical College at Woodstock, and came to Ravenna, Ohio, in May, 1836; being in poor health, he found he could not stand regular practice, so took up the study of dentistry with Dr. M. T. Willard, of Concord, N. H., in 1835, and after coming to Ravenna began its practice. He did a successful business then from 1836 to 1843, when he came to Akron and located here permanently. He remained in active practice here until his election as County Treasurer in 1862, holding the office until 1867, being elected each time by the Republican party. He was Mayor of the incorporated village of Akron in 1848 and 1849, and member of the School Board two terms. Owing to failing health, he has retired from active business. He was married July 4, 1840, to Miss Mary L. Williamson, of Ravenna. Three children by this marriage are living—Frances L. (Mrs. T. D. McGillicuddy); William H., book-keeper; and Charles E. His wife died June 19, 1862, in her 43d year. He is a charter member of Summit Lodge, No. 50, I. O. O. F., organized in 1845, and has always been an active and zealous member of it; was Deputy Grand Master one term.

HENRY J. CHURCH, merchant, Akron. Calvin Church was born in East Haddam,

Conn., in 1794, where the Church family settled on their arrival from England, in the latter part of the seventeenth century. The early members of the family were in the war of the Revolution, and he was in the war of 1812, and Adjutant in the Ohio militia. He settled in Rome, Ashtabula Co., Ohio, in about 1804. Miss Susan Crowell, whom he married, was a sister of Judge Crowell, of Cleveland, Ohio. The Crowell family came from Connecticut about the same time that the Church family did, and were among the first pioneers of Rome, Ohio. Both families were strong churchmen of the Episcopal faith, and Bishop Chase preached in his grandfather William Crowell's kitchen, as early as 1819. The descendants have been Episcopalians ever since. To Calvin Church were born seven children, of whom the subject of this sketch is the youngest. His wife died in her 73d year, in 1876, and he in his 63d year, in 1856. Henry J. Church was born at Thompson, Geauga Co., Ohio, on April 16, 1845. In December, 1858, two years after his father's death, he came to Akron, where he entered the employ of Henry & Oberholser, as clerk, attending school during the winters for six years, at the end of which time he became salesman, with Oberholser, Keller & Co., continuing for five years, when he received an interest, which, at the end of one year, he sold out. April 20, 1870, the copartnership of Wolf, Church & Beck was formed, and they did a large wholesale and retail business in dry goods. In 1878, Mr. Beck retired, and the firm dropped his name, being Wolf & Church. Their business rooms are at Nos. 200 and 202 East Market street, being 100x37 feet dimensions, with basement and second story. They employ eleven men and two ladies as clerks, salesmen and book-keepers. On May 6, 1868, he married Miss Mary H. Sanford, daughter of D. G. Sanford, of Akron; she bore him six children, five living. He was confirmed in the Episcopal Church in 1869, as was also his wife. For ten years he has been Superintendent of the Sabbath school. He is a member of Summit Lodge, No. 50, I. O. O. F., and has been its presiding officer, and was one of the charter members of Akron Lodge, No. 547, whose organization he was among the first to suggest.

THOMAS W. CORNELL, Akron; was born in Dutchess Co., N. Y., Jan. 8, 1820, raised on a farm, and, at 22, with but little capital, com-

menced in life for himself. He was for some time in a brewery in Auburn, N. Y. He came to Cuyahoga Falls in December, 1855, where he bought a distillery, which he conducted seven or eight years. In 1863, he came to Akron, Ohio, and became one of the original stockholders of the First National Bank at their first meeting, being elected President, which position he has since retained. The original capital stock was \$100,000, and the deposits have reached to \$250,000. Since 1865, he has been President of the Akron Gas Works.

REV. W. W. CASE, Pastor of First M. E. Church, Akron; is a son of William and Polly (Hempsted) Case, natives of Rensselaer County, N. Y., and was born Dec. 13, 1838. His father was a farmer, and he was brought up on a farm until 17 years of age, when he commenced teaching, and at 19 became Superintendent of Schools of Dunkirk, N. Y. During the year 1858, he was converted, and soon after entered the ministry under the auspices of the M. E. Church, laboring for the first five years in Western New York. In 1864, he was transferred to the Wisconsin Conference, and filled successively the pulpits at Edgerton, Beloit, Milwaukee (latter place three years), and then at Fond du Lac. He was transferred to the Cincinnati Conference in 1875, and stationed at Mt. Auburn Church, Cincinnati, for three years, and was then transferred to First M. E. Church of Akron. He is a member of the Examining Committee of Mt. Union College; has been a member of the Board of Management of Lawrence University, and of Phoenix Literary Society of that institution.

CHARLES CRANZ, Secretary of Wadsworth Coal Co., Akron; is a son of Daniel and Wilhemina (Renz) Cranz, and was born Feb. 13, 1817, in Wiesenbach Village, Wurtemberg, Germany. He was educated in his native country, and spent two years as an apprentice in a drug store. At the age of 17 he came to the United States with his parents, arriving in Baltimore in July, 1834. They journeyed by team to Wheeling, Va., when the river proved too low for navigation, and they continued on their journey by land to Holmes Co., Ohio, where the father, who was a Lutheran minister, had letters of introduction to parties. He resided there until his death in 1876, in his 87th year, having continued preaching until the age of 82. Subject worked on a farm in

Holmes County two years, when he started out for himself, securing a clerkship in Nashville, Holmes Co., for a short time, when he went to Canton and became a clerk in a hardware store for six years. In 1842, he came to Akron, and together with F. A. Schneider (firm of C. Cranz & Co.), opened the first hardware store in the city; while in business, donated arms to "Old John Brown." Continued for about ten years, when Mr. C. bought out his partner, and in 1865, L. B. Schneider became a partner, remaining as such until 1875, when subject sold out to him. Mr. C. was one of the original stockholders and incorporators of J. F. Seiberling & Co., and was consecutively Director, General Agent, Secretary and Treasurer, and upon the failure of the company became one of the assignees by request of the creditors and stockholders. He is at present Secretary of the Wadsworth Coal Co. In September, 1845, he was married to Miss Margaret D. Schneider, daughter of F. A. Schneider, of Akron. They have four sons and one daughter, viz., Charles, Jr., and Frank are in the mines of Arizona; Harry, clerk in a hardware store in Omaha, Neb.; William S., a student in Lehigh University, and Emma R., is the wife of Thomas K. Perkins, of Akron.

FRANK D. CASSIDY, lawyer, Akron; is a son of William P. and Caroline M. (Kohler) Cassidy, and was born Jan. 29, 1849, at Peninsula, Summit Co. His father was a carpenter and joiner, and moved to Akron about the year 1853; was a native of Blair Co., Penn., and was born in October, 1811. He was of Irish descent, his great-grandfather coming to Pennsylvania from Ireland, and the larger portion of the family still living in Blair County, where the elder Cassidy laid out the town of Newry, named for their native town in Ireland. The father of subject was for fifteen years foreman in the factory of W. B. Doyle & Co., of Akron, and died in June, 1878, leaving two sons and one daughter—Frank D. (subject); James H., physician at Sharon Centre, Medina Co., and Mary E., wife of D. G. Steese, of Akron. In 1869, he (subject) became assistant bookkeeper in the Akron Iron Co., remaining one year, and then went to Cleveland and accepted the position of assistant book-keeper in a wholesale coal concern, which he held for three years, when he became a partner in the firm of Steese & Co., coal dealers and shippers, continuing until

1875, when he returned to Akron, and for some time assisted his father in the management of his real estate business. In 1877, he began the study of the law with Edgerton & Kohler, and was admitted to the bar in March, 1879, and has been in practice here ever since. He was married Dec. 30, 1878, to Miss Sarah J. Francis, a daughter of Joseph Francis, Sr. They have one child—Carrie M.

JOHN H. CAMPBELL, lawyer, Akron; is a son of John and Matilda (Ervine) Campbell; was born Nov. 9, 1848, in Wayne Co., and when an infant, the family moved to Hancock Co. He lived there on a farm until 1861, when the family moved back to Wayne Co. He began teaching in 1868, and in 1870 graduated in Mt. Union Commercial School; in the fall of 1871, he entered the Law Department of the Michigan University, from which he graduated March 26, 1873, and was admitted to the bar at Wooster in June, 1872. In April, 1873, he came to Akron, and began practice, and January, 1875, became a member of the firm of Edgerton, Kohler & Campbell, until August, 1876, when the firm was dissolved, and he has been alone since. He is now located in Mathews' block, over No. 127 South Howard street. In October, 1870, he was married to Carrie E. Oswald, of Wayne Co. They have three sons. His father (John Campbell) was born in Greene Co., Penn., Oct. 29, 1810, and came there with his father, George Campbell, in 1822; his father dying three years thereafter, John virtually became the head of the family, and worked on the farm until the youngest child was 21 years old. January 21, 1842, he married Matilda Ervine, of Baughman Township, of that county. John H. is his only son.

NEWTON CHALKER, lawyer, Akron. James Chalker was born in Southington, Ohio, his parents being natives of Connecticut, as were also those of Miss Eliza Hyde, whom he married, and whose birthplace was Farmington, Trumbull Co., Ohio. His ancestors settled in Saybrook, Conn., in about 1640, and his parents moved to Ohio in about the year 1805, as also did hers. To James and Eliza (Hyde) Chalker, at Southington, Ohio, on Sept. 12, 1842, was born the subject of this sketch. Newton Chalker, who spent his early youth at his native home, on a farm, until he was 15 years of age, a year previous to which time he entered the Western Reserve Seminary of Farmington,

continuing with his studies there until he was 20, teaching in the district schools, in the meantime, from the age of 16. In June, 1862, he enlisted in Co. B, 87th O. V. I., his term expiring in October of the same year. In the spring of 1863, his 21st year, he entered Alleghany College, at Meadville, being assigned to the freshman class; taking a classical course, he graduated in June, 1866. In the fall of the same year, he was elected by the Trustees of Dixon Seminary, at Dixon, Ill., Principal, which position he filled for one year, when he was elected Superintendent of the Darlington Union Schools, Wisconsin, filling that position for the same length of time. In August, 1868, he entered the Law Department of the University of Albany, N. Y., graduating there in June, 1869. Shortly after his graduation, he opened an office for the practice of law in Cameron, Mo., where he remained five years. On Aug. 14, 1874, he came to Akron, where he has practiced law ever since.

CHARLES S. COBBS, City Solicitor, Akron, was born near Alliance, Columbiana Co., Ohio, July 7, 1853, and lived on a farm until 18; he entered Mt. Union College in the fall of 1872, and graduated in July, 1877. He then became Superintendent of the Malvern Union Schools, continuing two years, studying law in the meantime. May, 1879, he came to Akron and entered the law office of J. J. Hall, studying until his admission to the bar in May, 1880, at the session of the Supreme Court at Columbus, Ohio, after which he located in Akron, and has been in active practice since. In April, 1881, he was elected City Solicitor, on the Republican ticket.

JAMES CRISTY, tanner, Akron. James, oldest son of Patrick and Eliza (McMoran) Cristy, was born Feb. 4, 1820, in Springfield Township, this county, where he lived on a farm until he attained his majority, attending district school in his earliest school days, and select school at Middlebury from the time he was 16 until he reached his 19th year. At the age of 20, he began teaching, in which he engaged for two terms. Soon after he was 21, he came to Akron, where he soon established a tannery on North Howard street, in company with one James Sawyer, who was his partner, running it under the firm name of Cristy & Sawyer, until 1851, when the partnership dissolved. The year following, he and his brother, John H. Cristy, fitted up a small

tannery on the same street, which they ran until 1856, when they built the present one, continuing as partners until 1879, when the firm dissolved, leaving subject proprietor, who then took in, as partners, his sons James, Jr., and William, under the firm name of James Cristy & Sons. They are doing a good business at the present time, manufacturing leather, buying and selling leather, hides, furs and leather findings, and making a specialty of harness leather. In 1841, he started in business at this place with but \$500, and whatever of success he has attained is the result of his own labor, energy and perseverance. In politics he is a Republican, having been such since the organization of the party. A member of no church, he attends the Congregational, and gives it his support. For several years he has been a member of the City Council. His father, a native of New Jersey, was of Irish descent, and his mother, a Scotch lady, was born in Scotland. In 1812, they came to Stark County from Northumberland Co., Penn., settling in Springfield Township, this county, two years later, purchasing 30 acres of land of Judge Hineckley, for whom the father of our subject was land agent. Our subject was one of nine children, of whom but three are living—himself, a brother and Mrs. Sawyer, widow of his former partner. His father died in 1864, being in his 74th year, and his mother's death occurred in 1872, in her 83d year. Subject was married October, 1849, to Miss Jennie Warner, of Akron, Ohio, and of this union five children were the issue, all of whom are living.

ALEXANDER H. COMMINS (deceased). His father, Jedediah D. Commins, was born in the town of Charlotte, Vt., on the 9th day of July, 1790; in 1814, he was united in marriage with Sophia Field, of Wethersfield, Windsor Co., Vt. They soon after removed to Western New York, where they resided until 1832. At that date he came to Akron; here he found but few improvements, but being a keen lover of nature, he selected for his home the most desirable site adjacent to the village, and erected a residence on Fir street, ever since retained by the family. Mr. Commins opened the first drug store in the village, and for many years was the leading druggist of the town; he was a very careful and precise merchant, sustaining his credit through the panic of 1837, which wrecked all the other merchants of

that period except his friend P. D. Hall. He espoused the principles of Democracy, and at once became a leader of his party in this section. Among the first he saw the advantages which would arise from the organization of a new county with Akron as its center, and, with unceasing efforts, he gave time and influence to that end; he was sent as a lobby member to the Legislature, and to his labors with that body we are indebted largely for the organization of Summit County. But this was not his only measure of beneficence; he originated the idea of a rural cemetery, and secured the passage of a bill authorizing corporations to purchase lands for such purposes, and put his beautiful theory into operation in the purchase of 40 acres for the Akron Rural Cemetery, probably the first of its kind in the State. That he was denied the discipline of school training did not discourage a mind which could draw a lesson from every object of nature. He gathered, studied and classified a fine collection of insects, minerals and flowers. He was an excellent botanist and a thorough student of nature; he was familiar with the best works of French and English literature; he greatly admired Shakspeare, and could repeat many passages from memory, and could read the French language with ease. He was a highly esteemed and influential citizen, who labored earnestly for the public weal as foremost champion of every good work. He died in 1867, respected by all. Alexander H. Commins, oldest son of Jedediah D. Commins, was born at Lima, Livingston Co., N. Y., June 21, 1815; at 17, he came with his father to this locality, and ere long entered the Western Reserve College, at Hudson, where he spent some time in laying the foundation for his future usefulness. On leaving college, Mr. Commins entered the drug store of his father, and for several years devoted his talents to that business. In 1845, with Col. Simon Perkins, he became interested in the woolen mills of Akron; he continued in the manufacture of woolen goods for a period of ten years, and, in 1856, converted it into a flouring-mill; he at this time formed a partnership with Jacob and Jesse Allen, which lasted until 1866. In company with Albert Allen, in 1867, he purchased the old stone mills, which have since been known as the Commins & Allen Mills, on account of the large and important additions made to the original structure by

them. During the period of copartnership of Mr. Commins with Mr. Albert Allen, mutual friendship and confidence became so strong that Mr. Commins so fashioned his will that his esteemed partner was given entire control of his large business and estate until the heirs should reach their majority, and, in case of the death of their mother, he should become the guardian of his children and executor of his will, and all without bonds (*de bonis non*). This partnership continued with the most cordial relations, until his death, Aug. 17, 1880. Mr. Commins was raised in the Presbyterian Church, but later in life gave his support to the Episcopal Church. He inherited many of the admirable traits of his father, having excellent business capacity; an extensive reader, he was well informed on all current topics. He, like his father, was a staunch Democrat, and although he never sought office, had those qualities which stamped him as a leader of his party in this county and district, hence he was nominated for many positions of honor and trust. Oct. 8, 1860, he was united in marriage to Miss Addie H. Starks, of Buffalo, N. Y.; of this marriage nine children were born, seven of whom are yet living. Mr. Commins was a public-spirited citizen, whose loss was deeply felt.

GEORGE W. CROUSE, manufacturer, Akron. George W. Crouse, manufacturer of reapers and mowers, at Akron, Summit Co., Ohio, was born November 23, 1832, at Tallmadge, same county. He is the son of George Crouse, a native of Pennsylvania, and Margaret H. (Robinson) Crouse, of Irish descent. His boyhood was passed on a farm, during which period he acquired such knowledge of the English branches as, at the age of 17, enabled him to teach school in a creditable manner, which occupation he engaged in for a period of five years. Ambition, which country school-teaching and farming could not satisfy, having entered "the chamber of the gifted boy," he commenced looking about him for more congenial employment, and so it happened that, in 1855, he came to Akron with no other capital than energy, integrity, common sense and determination to aid him in securing such a position as he desired. Arriving here, he very soon found employment under the County Auditor and Treasurer, as accountant and penman, in both of which he excelled. He held these positions for three years, during which time he became

so familiar with the work of each, and had also extended his acquaintance so favorably, that, in the fall of 1858, he was elected County Auditor, being only 25 years of age, and, at that time, the youngest officer ever elected in the county. He held this office during the following two years, and was then re-elected, but, before the expiration of his second term, a vacancy occurred in the office of County Treasurer, which the County Commissioners appointed him to fill. This led to the resignation of his office as Auditor. His conduct in these offices had become so favorably known throughout the county that he was solicited to accept a responsible agency for the Atlantic & Great Western Railroad Co., the road having been completed as far as Akron. The agency being local, he accepted, and conducted both the business of his county office and that of his new engagement with great care and efficiency. About the 20th of August, 1863, he connected himself with the firm of C. Aultman & Co., being financial manager of their branch concern at Akron. In co-operation with J. R. Buchtel, he superintended the erection of the new buildings of the same, at the same time attending wholly to the financial management of the branch house. In the summer of 1865, it was re-organized as a stock company, under the firm name of Aultman, Miller & Co., of which, as a stockholder, Mr. Crouse was elected Secretary and Treasurer, his duties being to manage the finances and dispose of the goods. The first year of its existence, the company manufactured 2,900 machines. Under the able management of its executive officers, the business so rapidly increased that, in 1880, the machines manufactured were 12,000, the gross sales amounting to \$1,800,000. The capital invested is \$1,000,000, the business giving employment to over 400 men. Decidedly successful, this company has returned a dividend each year to its stockholders. Mr. Crouse has done his full share in achieving a well-merited success for the "Buckeye Mower and Reaper." His qualities of industry and rare ability have caused him to be much sought by his townsmen for local offices. A member of the City Council, he has served as its President; member and President of the Board of Education, he has been three years a County Commissioner, and Chairman of the County Central Republican Committee. He is a member of the Protestant

Episcopal Church, and, for some years, has been a Vestryman of the same. In addition to the business in which he is principally engaged, he has encouraged and aided other business enterprises in Akron, among which were the Whitman & Barnes Manufacturing Co., the Akron Rubber Works, doing business as B. F. Goodrich & Co., a joint stock company in which he is a Director; the Akron Manilla Paper Co., doing business as Thomas Phillips & Co., a copartnership in which he is a one-third owner. In 1870, he assisted to organize the Bank of Akron, in which he is a stockholder, and of which he is President. In politics, he is a Republican, carrying the same earnestness into the partisanship of his political convictions that characterizes him elsewhere. He married Miss Martha K. Parsons, of Portage County, on Oct. 18, 1859, of which union there are five children, four daughters and one son, viz., Martha P., Julia M., Mary R., Nellie J. and George W., Jr.

ARTHUR L. CONGER, manufacturer, Akron, was born to John and Hannah (Beales) Conger Feb. 19, 1838, in Boston, this county, Ohio. He spent his early days working on his father's farm and in his brick-yard, until he was 20 years old, when he spent two summers boating on the Ohio Canal, attending school in winter, by his own efforts gaining such knowledge of the English branches as enabled him to teach, which vocation he followed from 1860 to July, 1862, when he enlisted in the 115th O. V. I. as a private soldier, having recruited a large number of men before entering the service. Of this company he was successively made 1st Lieutenant and Captain, serving with it nearly three years in the Army of the Cumberland under Gen. Thomas, being mustered out in July, 1864, having been for much of the time on detached duty. Assigned to the staff of Gen. Ammon, as Acting Assistant Adjutant General, at Covington, Ky.; there he acted also as Provost Marshal, and served as a member of the court martial under Judge Advocate R. M. Corwin, serving on this court 100 days, during which time a large number of important cases were disposed of. By Mr. Corwin's special request, he then became a member of a new court martial subsequently organized, but his regiment being ordered to the front, he went with it, and was detailed in the Engineer Corps as an Assistant Inspector of railroad

defenses in the Department of the Cumberland. His experience in this branch becoming known to Gen. Thomas, that officer recommended his appointment as a Captain and Commissary of Subsistence, with the view of having him issue rations by special train to the garrisons of the block-houses and railroad defences throughout the Department of the Cumberland, in addition to his duties as Inspector, but the war came to a close before this appointment could be made, and Mr. Conger returned to Boston, and for a year after worked on a farm, when, in 1866, he was elected Treasurer of his native county, serving one term, when he was re-elected and served the second term, in all four years. His wife, formerly Miss Emily V. Bronson, of Peninsula (second daughter of H. V. Bronson, one of the pioneers of Boston Township, of whom see sketch), whom he married Nov. 1, 1864, proved herself truly worthy by assisting him at that time, doing whatever of writing he could place in her hands, which saved for him no small amount of the salary which otherwise had been placed in the pocketbook of a deputy. It cannot be estimated how much of men's success, financially and otherwise, is due to their wives' helpful, loving hearts and hands. In 1867, Mr. Conger moved to Akron, and, in 1870, he became a stockholder and director in the Whitman & Miles Manufacturing Co., and at the close of his official duties as Treasurer of Summit Co., he became the traveling salesman for this company, and much of its western business was built up by his sagacity and personal efforts. The business of the company was manufacturing mower and reaper knives, sickles, sections, etc. In 1876, he was made Vice President of this company. In 1877, the Whitman & Miles Manufacturing Co. was consolidated with George Barnes & Co., of Syracuse, N. Y., under the name of The Whitman & Barnes Manufacturing Co., with works at Akron, Ohio, and Syracuse, N. Y. Of this new company he was made Vice President, with increased responsibilities. Later the company established works at Canton, Ohio, and St. Catharines, Ontario, and Mr. Conger was given the management of the western business. The new company make a specialty of manufacturing mower and reaper knives, sickles, sections, guard-plates, spring keys and cutlery, and complete cutting apparatus for mowers and reapers. It is the larg-

est establishment of the kind in the United States or in the world, employing in all over five hundred men, and its business aggregating over \$1,000,000. In 1879, Mr. Conger, in company with G. W. Crouse, Col. George T. Perkins and John McGregor re-organized the old Akron Steam Forge Company. Of this new organization, Mr. Conger was elected President. The company has done a prosperous business in the manufacture of car-axles and heavy bridge works, with an annual product of \$150,000. He has been a member of the Board of Education of Akron, and Secretary of the same. Has served several years as Treasurer of Portage Township and the city of Akron. He is a prominent Republican, and an active and sagacious worker in its organization. Has been for many years a member of the Republican County Central and State Committees, and, in 1880, served as Chairman of the Republican State Central Committee. He is a member and vestryman of St. Paul's Episcopal Church, Akron. He has four children, viz.: Kenyon Bronson, Erastus Irving (deceased), Arthur Whitman and Latham Hubbard.

WILSON M. DAY, associate editor of the *Daily Beacon*, Akron, is of New England parentage. His father, Rev. William F. Day, D. D., now of Titusville, Penn., was born in West Springfield, Mass., Nov. 11, 1821, and his mother, whose maiden name was Ann Delia Grover, was born in Tolland, Conn., March 19, 1822. Both came to the West early in life. Mr. Day, their second son, was born in Clarion, Clarion Co., Penn., Nov. 5, 1850. Following the fortunes of a Methodist minister's family, he lived successively in Clarion, Penn., in 1850; Franklin, Penn., in 1851-52; Northeast, Penn., in 1853-54; Akron, Ohio, in 1855-56; Poland, Ohio, in 1857-58; Cleveland, Ohio, in 1859-60; Ravenna, Ohio, in 1861-62; Meadville, Penn., in 1863-65; Jamestown, N. Y., in 1866-67; removing to Akron for the second time in August, 1868. Completing his preparatory studies in the Jamestown, N. Y., Union School and Collegiate Institute, from which he graduated June 17, 1868, he entered the Sophomore Class of Ohio Wesleyan University, Delaware, Ohio, in the fall of 1868, graduating from the classical course June 29, 1871, one of a class of 46 members. In 1874, he received from his Alma Mater the degree of M. A., *in cursu*. He ac-

cepted the position of city editor of the *Akron Daily Beacon*, under Mr. S. A. Lane, in August, 1871, and upon the accession of Mr. T. C. Reynolds to the editorship, in December of that year, became associate editor, which position he has since held, with the exception of an interval of about six months—from November, 1874, to May, 1875—when he served as night editor of the *Cleveland Leader*. In March, 1876, he sailed for Europe, spending six months abroad, and visiting England, Scotland, Ireland, Holland, Belgium, France, Italy, Bavaria, Germany and Switzerland. He was married, May 15, 1878, to Mattie A., eldest daughter of Judge N. D. Tibbals, and has had two children, one of whom died June 7, 1880.

WILLIAM F. DRESSLER, grocer, Akron, eldest son and second child of Reuben and Matilda Dressler, was born in Wayne Co., Ohio, May 4, 1841, and lived on a farm until he was 25, when he came to Akron. His father and mother were of German descent, and natives of Berks Co., Penn.; they both came to Ohio when young and were married in Wayne Co. His father still lives in Wadsworth; he was a plasterer, and our subject learned the trade of him when a boy and engaged at it at Akron until 1877, controlling from fifteen to thirty hands and executing plain and ornamental work on the principal buildings of Akron. October, 1877, he opened a grocery and provision store at 624 East Mill street, which since he has conducted with good success. March 9, 1871, he married Miss Sue F. Zwisler, of Canfield, Mahoning Co., Ohio. They have one child. His sisters and brothers are: Miss Flora, of Akron; Samuel, of Akron; Mary M., wife of J. H. Armstrong, Wayne Co., Ohio; Miss Laura, of Akron, and Miss Adelia, a student at Oberlin.

REV. JACOB DAHLMAN, minister, Akron; was born at Barmen, Rhenish-Prussia, to John Jacob W. and Helena (Hahn) Dahlman, on the 11th day of April, 1831. He was baptized on the 27th, and confirmed at the adjoining town of Elberfeld April 7, 1846, by the Rev. F. W. Krummacher, D. D., afterward court preacher of William IV. After his confirmation he entered as apprentice in a counting-house at Elberfeld, where he remained two years. In the spring of 1848, with the family of his father, he sailed for the United States, and landed at New York City in June. They journeyed westward to Wooster, Ohio, where

our subject, not being able to speak English, found employment in a tannery, and served a thorough apprenticeship at the tanner and currier's trade for three years with one Harvey Robinson. He then worked at his trade as journeyman throughout the cities of Ohio, Pennsylvania, New York and Michigan, and while sojourning at Detroit in 1854, from his convictions of duty for some time impressed upon his mind, he determined to study for the ministry. From this time he so shaped his affairs that in September, 1855, he entered Franklin and Marshall College at Lancaster, Penn., from which he graduated in 1860. He then entered for two years the theological seminary at Mercersburg, Penn., graduating in 1862. He became a member of the Philadelphia Classis of the Reformed Church, and was by it ordained to the work of the ministry June 15, 1862, and simultaneously began his ministerial labors in the organization of a German congregation in West Philadelphia, which was effected in 1862, and was known as the German Evangelical Reformed Emanuel's Church. On Sept. 23, 1862, he married Miss Catherine M. Kopp, of Lancaster, Penn. His first pastorate extended over a period of over eighteen years, during which he built a large church and commodious parsonage, and raised the membership to 245 communicants. But Mr. Dahlman's labors were not confined to simply his own congregation. He was Stated Clerk of the Philadelphia Classis from 1863 to 1873, and while in that body labored, and also in the General Synod of which he was Assistant Clerk, for the interests of the German portion of the church, and to his efforts are largely due the organization of the German Classis, which leaves that element in the Church unfettered to advance the interests of their people without the restraint of geographical limits. He also labored for the organization of the German Synod, of which he is Stated Clerk. Mr. Dahlman received the degree of Doctor of Divinity from Ursinus College, of Collegeville, Penn., in 1880. In November, 1880, Dr. Dahlman received a call to the pastorate of the First German Reformed Church of Akron, and severing the valued and cordial relations with his first charge, he assumed the new duties in 1880.

R. N. DOWNEY, proprietor Cascade House, Akron; was born in Yates County, N. Y., Aug. 1, 1831, where he spent his youth on a farm, re-

ceiving common school advantages. He entered a hotel when 21 at Watkins, N. Y., serving as clerk some four years. In 1858, he removed to Elmira, N. Y., and clerked in a hotel until 1862, when he went to Penn Yan, N. Y., remaining two years in a like position. July 13, 1864, he came to Akron and clerked for Brown & Folger, in the Empire House, until April 1, 1866, when he bought the entire stock and furniture and leased the building, conducting the house with fair success until 1876, a year later leasing the Cascade House, which hotel he still conducts. The house is convenient to the depot, and has thirty-six light, airy, comfortable rooms for guests, and the proprietor furnishes his table with the substantial and luxuries of the season. He was married July 4, 1864, to Julia A. Kitchen, of Wayne County, N. Y. They have one daughter.

WILLIAM A. DURAND, Chief Clerk and Cashier N. Y., P. & O. R. R., Akron Depot, is a native of Pennsylvania. He was born in Providence Township, Luzerne Co., of that State, April 30, 1848, and is the second of five children born to Silas and Phœbe (Drake) Durand, a sketch of whom will be found elsewhere in this work. William lived at home until he was 26 years of age. At the age of 16 he was apprenticed to a brass molder and served about three years; he then came to Akron and took the position of laborer in the freight house of the N. Y., P. & O. R. R., and has been in the employ of the company ever since, save about eighteen months. By strict attention to business, he has been advanced through the different positions up the important one he now holds. During some ten years of his time with this company, he had charge of the ticket department of the road at this station. In November, 1877, he accepted the position of book-keeper for Barber & Grant, grain dealers, but returned to the employ of the railroad in the spring of 1879. He has held his present position upward of eleven years, save the time stated. Feb. 25, 1874, he was married to Miss Sarah Berg, a native of Akron, and daughter of Anton and Augusta (Capella) Berg. By this marriage there are two children—Lottie A. and Edward J.

DIEHL & CASKEY, house furnishing, decoration and floor covering, Akron. This firm was established in 1875 by Diehl & Oviatt. In 1878, the business was moved to Nos. 219 and 221 East

Market street, where the business occupies the entire three floors, 90x40 feet. In 1880, the present partnership succeeded the old firm, Mr. Caskey buying the interest of Mr. Oviatt. This is the only house in the city dealing exclusively in this line of goods. W. H. Diehl of this firm is a native of Summit County, being born in Manchester July 5, 1843. His father, Daniel Diehl, came here from York County, Penn., and settled in Franklin Township, this county, in 1827; he married Miss Hannah Harter. W. H. Diehl was the second of four children born of this marriage. His younger days were spent in Manchester, but at the age of 11 years his parents moved on a farm, where he remained until 1861. In August of this year he enlisted in the 2d O. V. C., and served three years, taking part in the engagements and raids led by Gen. Sanders to Knoxville; at Bull's Gap, Richmond, Ky., where he was slightly wounded, but remained with his company; at Lebanon, Ky., Huff's Ferry, Tenn., Campbell's Station, at the siege of Knoxville, and in the march to Atlanta. In September, 1864, he returned home and attended school at Akron. In the following spring, he entered a dry goods store of Akron as clerk, where he was engaged for eight years. In 1871, he engaged with Oliver Baker as clerk in the carpet business, and some four years later, opened up a business of his own. Mr. Diehl, on Sept. 26, 1867, married Miss Mary A. Sisler, a daughter of Dr. William Sisler, of Akron. This marriage has been blessed with three children—John, Jennie and Fred.

SILAS DURAND, General Station Agent New York, Pennsylvania & Ohio Railroad, Akron; was born in Schoharie Co., N. Y., March 7, 1822, and is the third child of a family of five children born to Samuel and Phœbe (Barner) Durand; his father was a farmer, and Silas assisted on the farm, gaining his rudimentary education at the district schools until the age of 19; at this time, he began attending an academy, and, after studying a year, he began teaching, following this occupation for a number of years in York State and Pennsylvania, in Providence and Scranton. In 1848, he engaged with a mercantile establishment in Dunmore, near Scranton, as book-keeper, where he remained until 1850. Moving then to Monroeville, Ohio, he engaged with the firm of D. Squires & Co., merchants of that place, and

continued with them for about two years, when the business was destroyed by fire, and the firm dissolving by mutual consent, the business was not revived. Mr. Durand then went to Crestline and took charge of the books of a warehouse and lumbering establishment, continuing here some four or five years, during which time he served one term as Mayor of the village. From this point he went to Delaware, and became Auditor and Treasurer of the S., Mt. V. & P. Railway, holding the position until the sale of the road some three years later; he then moved to Galion, Ohio, where he was appointed Ticket Agent of the C., C., C. & I. Railway; subsequently he engaged with the A. & G. W. R. R. Co., and was assigned to the office at Urbana, which he opened; being versed in the business and the first agent here, he instructed the agents along the line toward Galion; November, 1864, he was sent by H. F. Sweetzer, General Superintendent, as agent at Akron, Ohio; in the following spring, he moved his family to Akron, and has since been a resident of the city. While teaching at Providence, Penn., he married Miss Nancy Drake, a native of that city; five children have blessed this union—Mary H., now Mrs. Parrott, of Bryan, Ohio; William A.; Norman N.; Frank S., baggage master and car clerk at Akron; and Eugene, deceased November, 1864, at Galion. Mr. Durand is an old member of the Methodist Church, dating his connection with the church some thirty-eight years back. In politics, he affiliates with the Democratic party, but is more influenced by the fitness of the candidate than by his party connections.

JOHN H. DIX, Superintendent of W. B. Doyle & Co., Akron; was born in Portage Co., Ohio, Oct. 25, 1823, and is the eighth of ten children of John and Polly (Bigelow) Dix, who were natives of Vermont and came to Portage Co. in 1813; he was a stone-cutter by trade, and also followed farming; he cleared up a farm in Portage Co., on which he died July 4, 1839. Mrs. Dix is still living in the vicinity of the old homestead at the advanced age of 91 years. The subject lived at home until 1846; in the fall of that year, he married Miss Rosette Durham, who died in 1857; they had three children, two of whom are living—Ella R. and Edwin H. Mr. Dix came to Akron in 1847, and worked as a carpenter until 1852; in company with Nathaniel Finch the firm of J. H. Dix & Co. was

formed and leased a water-power near the Aetna Mill, and fitted up a planing-mill and flouring-mill—the first in the city—and continued until 1856, when the mill was burned; after burning out, the firm erected the brick mill now occupied by W. B. Doyle & Co.; in 1857, the firm of J. H. Dix & Co. sold out, and Mr. Dix worked as foreman seven years in the same mill with different firms; he in September, 1865, became a partner in W. B. Doyle & Co., which has since continued. April 10, 1863, he was married a second time to Miss Celia Stowell, a native of Connecticut, who came to Summit Co. with her parents about the year 1853; three children are the result of this marriage, viz., Harry N. G., Marian J. B. and Bertie C. W. Mr. D. has affiliated with three political parties—was raised a Democrat, then was a Republican, and of late years has been a Greenbacker.

W. B. DOYLE, of the firm of W. B. Doyle & Co., lumber dealers and manufacturers, Akron, Ohio, was born in Franklin Co., Penn., March 5, 1825, and is the youngest of three children born to Thomas J. S. and Ann (Taylor) Doyle. His mother was a native of Carlisle, Cumberland Co., Penn. His father, Thomas J. S., was a native of Franklin Co., Penn., and was the son of Barnabas, the son of Felix Doyle, who came from Ireland to this country, and, as near as can be learned, first settled in Eastern Pennsylvania, and afterward joined a party of pioneers who attempted to make a settlement at Burnt Cabins, in Southwestern Pennsylvania, which was then Indian territory. These settlers were driven out by the soldiers under orders of the Governor, and their cabins burned. This was before the French and Indian wars. Afterward he purchased 1,000 acres of land in Franklin Co., then a wilderness, and settled there, where four generations have since lived. Thomas J. S. Doyle was raised a farmer; during the latter part of his life he engaged in mercantile business at Concord, in his native county. W. B. Doyle was also raised on the farm, and received a limited common-school education. At the age of 13, he went to Shippensburg, Penn., where he apprenticed to the cabinet trade, and served for three years; he then returned home, and soon after visited his brother, a manufacturer of fanning-mills at Williamsport, Md. While here, he determined to go to Tiffin, Ohio, taking a boat on the canal, which met with an

accident at Johnstown, Penn., and he walked from there to Pittsburgh (ninety miles), where he worked a few months and then resumed his journey, stopping at Akron, where he got a job at his trade, and concluded not to go to Tiffin. He worked at his trade, and in the fall bought the business of his employers. Being short of funds, he fell back with the rent, and in the spring he made a trip to Pennsylvania, where he made some collections, and returned and paid his rent, continuing in the business several years, when he sold out and engaged in the meat business, which he followed for fifteen years. He then occupied a farm near Akron he had previously bought, and lived on same for four years, when he sold the place and stock for \$16,000. Going back to his old home in Pennsylvania, he decided to go to Tennessee, but having some business in Akron, he visited the city, and while there bought the lumber manufacturing business of S. G. Wilson, the consideration being \$35,000, and associated J. H. Dix and Daniel Farnam with himself, styling the firm W. B. Doyle & Co.; they have continued to the present. Mr. Doyle has been four times married; first in 1845 to Miss Phebe Budd, a native of Ithaca, N. Y.; she died about the year 1850. The second wife was Miss Harriet Sage, a native of Monroe Co., N. Y.; she died in 1862; of their two children one is living. The third wife was Miss Mary Ann Lantz, a native of Akron, Ohio; she died in her native city; they had three children, viz.: Willie, Della and Dean, all at home. His present wife was Mrs. Louisa Baird, a native of Springfield Township, Summit Co., Ohio. They have one child, viz., Anna.

WILLIAM EMMITT, retired, Akron, whose portrait appears in this history as a representative pioneer of Springfield Township, was born Sept. 20, 1805. His people are of Scotch origin, though his grandfather was a native of Ireland. He emigrated to the United States in an early day and settled in Lancaster Co., Penn. During the war of 1812, when the Indians were giving the settlers in Montour Co. (whither they had removed) so much trouble, he returned to Lancaster Co. When the Indian troubles had subsided, he removed to what is now Columbia Co., Penn. There John Emmitt, the father of William, was married to Jane Aikman, whose people were formerly of New Jersey. William was the young-

est of eight children, and when he was about 6 months old his father died. His mother, with a large family of small children, was left to manage the farm and bring her family to honorable manhood and womanhood. William attended school until he was 12 years old, and then had no more opportunities for doing so until he was 18, except a few weeks in his 17th year. When 18, he spent three months only in school, but he had a natural aptitude for learning, and with the poor opportunities afforded him he succeeded in getting a good education, and in becoming a good civil engineer, a business that he has spent more or less time at since his becoming a resident of Summit Co. In September, 1829, he married Miss Mary McBride, an old schoolmate, and, in the following April, they began a twelve days' journey westward by team, which brought them to their new home in Springfield Township. Two children were born to them—Franklin and John, both of whom are well-to-do farmers of Tallmadge Township. They were given a liberal start by their father, and have profited by his kindness. Mr. Emmitt first bought 125 acres of land upon his arrival in Springfield, and though he has bought, sold and given away other tracts since that time, he still owns his original purchase. During his residence in the township of Springfield, he held the different offices of Township Trustee, Clerk and Justice, besides, in 1870, he took the census of several townships of Summit Co. The 1st of April, 1875, he bought a neat little home in Akron, whither he and his wife removed. Mrs. Emmitt, however, lived but a short time to enjoy the rest she had so richly earned. On April 27, the same month of their arrival, she died, leaving Mr. Emmitt but little hope of happiness in the new home that had been looked forward to with so much of gladness. Mr. Emmitt is a member of the Disciples' Church, and during his life he has always taken an active interest in the building-up of churches and schools and in the cause of temperance.

G. L. W. EDAM, of Edam & Johnston, manufacturers of white lime, etc., Akron, is a native of Baden, Germany, and was born April 21, 1849, and came to the United States with his parents when but 3 or 4 years old. They settled in Cleveland, where they now live. In 1869, subject went to Marblehead, near San-

duky, where he conducted a limestone quarry for five years; he then engaged in the lime business in partnership with his brother J. A. (firm of Edam Bros.), in Cleveland, and in 1875 he came to Akron and built the present manufactory. They continued business here and in Cleveland until January, 1879, when subject became the sole proprietor, and the following January he took Mr. C. N. Johnston in as a partner, and the firm still continues. At first the business was nothing more than a lime manufactory, and has since added commercial fertilizers, employing in the business ten men. He was married May 5, 1874, to Miss Mary Groh, a native of Cleveland. They had three children, two living—Mary Annie and George Adam; Anna Clara is dead.

TIMOTHY ERASMUS, retired, Akron, is a native of Northampton Co., Penn., where he was born Oct. 6, 1810. His father, John Erasmus, was a tailor by trade, though he taught school a considerable portion of the time, having qualified himself at Bethlehem College. He died in Philadelphia about 1817; he was a native of Lehigh Co., Penn., and was a soldier in the Revolutionary war. At the age of 10 years, Timothy was put to work on a farm in his native county, where he worked until he was 18 years of age, when he was apprenticed to the cabinet trade, serving three years in Bethlehem. He then went to Philadelphia, where he worked several years, participating, while there, in the celebration of Washington's birthday. From here he went to Easton, where he worked two years at the carpenter's trade; thence to New York City, and in 1836, he went to Massillon by wagon with a friend. Here he remained one year, working at the carpenter's trade, when he went to Clay Co., Ind., and entered some land. He made his way west on foot and returned in the same way to Massillon in the following spring. In the summer of 1839, he came to Akron, where he has lived since. He engaged at his trade of carpenter and builder until the past ten years, during which he has lived a retired life. October 19, 1841, he married Miss Clarissa K. Smith, a native of Connecticut; she came West with her parents when young. She died in 1850, leaving three children, all of whom have since died. January 3, 1854, he married Mrs. Anson, formerly Mary J. Barriball, a native of Baltimore, and came west with her people when young.

In 1880, he served as Real Estate Assessor for the First, Second, Third, Fourth and Fifth Wards of Akron City.

JOHN GEORGE EBERHARD, Eberhard Manufacturing Co., Akron, Ohio, was born in Baden, Germany, March 21, 1829, where he went to school until he was 14 years old, and in addition to public schools, he for three years had instruction in mechanical arts. He also worked in his father's shop (his father was a tool-maker), and at 16 could fashion almost any edged tool. At 19, he went to Berne, Switzerland, and worked for a short time in a carriage-shop; also worked a short time in a manufactory of agricultural implements, when he returned home. Soon after, he was drafted into the German army, when he left without pass, and went to France; sailing from Havre, he arrived in New York Aug. 31, 1850. From there he went to Newark, N. J., where he worked for a time in edge tools, carriage-shop, and at ship-building, and afterward in a harness and trimming shop and forging wrought-iron hames. In the fall of 1859, he came to Sharon, Medina Co., Ohio, where he bought a farm, when for six years he engaged in farming and in the manufacture of wooden and wrought-iron hames. In December, 1866, he came to Akron, and built a shop for the manufacture of hames and machinery. Shop was in Akron until November, 1880, when he moved it to Cleveland, where it is now in successful operation under the name of Eberhard Manufacturing Co. He was married May 22, 1852, to Miss Louisa Clauser, of Newark, N. J. She was born in Wurtemberg, Germany, and came to the United States in October, 1850. Three sons and four daughters were born of this marriage—George F., Louisa, John J., Anna C., Frederick, Bertha and Katie. Mr. E., in 1875, invented the "hollow hame," now largely used. He is a member of the German Reformed Church, in which, for fourteen years, he has been an Elder, and long the Superintendent of the Sunday school.

WILLIAM EBERHARD, Akron; son of George F. and Mary Catharine (Miller) Eberhard; was born in Baden, Germany, June 17, 1837. His father was a manufacturer of edged tools, near Millheim, Baden, and with him our subject worked at odd times from his 10th to his 16th year. When 10 years old, he made a pocket knife. When 16, the family came to the

United States, reaching Akron in December, 1852. William worked for Lorenzo Chamberlain, in Copley Township, during the first year, at agricultural implements, and on the farm. Afterward, for two years, he worked with his brother at Sharon in the blacksmith-shop. In 1857, he went to Keokuk Co., Iowa, and worked there a year in his brother's shop; thence to Washington, same State, where he engaged in the forging department of the engine machine-shop, working his way up until he was given a partnership in the business for his services. In the summer of 1861, he enlisted in the 5th Iowa V. I. He passed through the Missouri campaigns with Gens. Fremont and Halleck; was at New Madrid, and Island No. 10, and was in the battle of Iuka, Miss. September, 1862, he was wounded by a musket ball, while his regiment was making a desperate attack on the rebel ranks of Gen. Price. Only twelve men of his company (F) came out of the battle alive. Twenty of these brave men were buried in one grave, and twelve were badly wounded. The shot fractured the bone, one and a half inches below his left shoulder, and fourteen pieces of bone were taken out; the ball split and tore away a large portion of the muscles of the upper arm. He lay twenty-four hours, weak from loss of blood, on the field, and then walked some miles to Iuka. By constant application of water he saved his arm from amputation; but it is still badly disabled. While at Corinth, Miss., in the camp hospital, weak and covered with vermin, from which, in his helplessness, he could not protect himself, the surgeons decided to amputate his arm; but a woman, named Mrs. A. M. Penfield, dressed and bound it, setting the bone, and attended him for a week, thus saving it for him. He was discharged at Keokuk, Iowa, Feb. 27, 1863. He was foreman and partner in the machine-shops at Washington, Iowa, for two years; and, in 1865, he came to Akron, Ohio, where, on July 2, 1867, he married Mrs. Matilda Allgayer, of Sigourney, Iowa. He established a machine-shop here in 1865, and has been engaged in that business ever since. He is now a member of the firm of W. & J. G. Eberhard, and manufactures oat-meal machinery, engines and boilers. He has taken out several patents, the principal ones being for the improvement of oat-meal machinery and steam boilers. He has suffered by fire several times; but is doing a good business, with fair

prospects for future success. He has two children.

HOX. SIDNEY EDGERTON, lawyer, Akron, Ohio, is a son of Amos and Zervia (Graham) Edgerton, and was born Aug. 17, 1819, in Cazenovia, Madison Co., N. Y. His father died when he was but two years old, and, having been blind for some time, left his family in actual poverty. His widow moved with her family to Ontario Co., N. Y., where he (subject) lived until he was 8 years old, when he started in life for himself, and by his own indomitable energy managed to educate himself out of his wages, and at the age of 16 set in to learn the trade of carpenter and joiner with his brother. At 17 he began teaching, and, at 18, entered Wesleyan Seminary at Lima, N. Y.; after remaining two terms, he was employed as teacher. In April, 1844, he came to Akron a stranger, and with but \$3 in money; after being here a few days, he began the study of law with Judge Rufus P. Spaulding, and, in 1846, graduated from the Cincinnati Law School, and was admitted to the bar in that city. He opened an office here in 1846, and was elected Prosecuting Attorney in 1852, serving four years; in 1858, he was elected to Congress, and re-elected in 1860, the second Republican elected from this district; assisted in organizing the Republican party at Pittsburgh, in 1856. His term expired in Congress in 1863, when he was appointed Chief Justice of Idaho by President Lincoln, and took his family from Omaha to Bannock City in wagons; in January, 1864, he came on horseback from there to Salt Lake City, sleeping on the ground during the trip, and via coach to Mississippi River; proceeding to Washington, he succeeded in having Montana organized, the bill for which he prepared himself. After its passage, he set out to return home, and upon his arrival at Salt Lake City, he found that he had been appointed Governor of Montana by President Lincoln; this position he held until Feb. 23, 1865, when he resigned, his resignation being accepted in July, 1865. He returned to Akron in January, 1866, overland, and has been in active practice here since. In April, 1849, he married Miss Mary Wright, of Tallmadge.

NEWTON FORD, City Clerk, Akron, son of Marvin and Lydia (Cornwell) Ford; was born on March 24, 1852, in Northfield Township, this county, where he resided on a farm until

1863; he resided in Hudson from 1863 to 1868, assisting father in post office and store at Macedonia; in the spring of 1870, he entered the Western Reserve College, remaining until 1873, when he began teaching in the public schools of this county. The following year, he began the study of law under H. B. Foster, of Hudson; two years later, he came to Akron to continue his studies with Foster, Marvin & Grant; being admitted to the bar at this place on Aug. 28, 1876, and in April, 1877, located here for the practice of his profession, up to which time he had continued at intervals in the vocation of teaching. In February, 1878, he associated himself with H. C. Sanford, having since continued under the firm name of Sanford & Ford. He was elected Clerk by the City Council in April, 1879, and re-elected in 1880. In November, 1879, he married Miss Rosine McKinley, of Hudson.

GEORGE TOD FORD, lawyer, Akron, son of James R. and Julia A. (Tod) Ford; was born May 21, 1841, in Akron, where he attended the public schools until he was 16 years of age. In 1865, he graduated from Yale College, and, two years later, entered upon the study of law under the direction of W. H. Upson; he was admitted to the bar in 1869, and entered upon the practice of his profession at Akron. In 1873, he formed a partnership with W. H. Upson, which continues.

SAMUEL FINDLEY, Superintendent of Schools, Akron, is a son of Abel Findley, a native of Pennsylvania, of Scotch-Irish descent. Our subject was born in New Concord, Ohio, Dec. 1, 1831, where his grandfather, David Findley, settled in about 1806. His grandfather was Judge of the court in early times, and gave each of his six sons a one-fourth section of land near New Concord. Samuel is the second son living of his father. He lived on the farm, entering the Preparatory Department of the Muskingum College when quite young, and continuing there until about 17 when his father moved to a farm in Greene Co., Ohio, where he assisted in farm labor two years, and then taught country schools in the same county some four years, in the meantime teaching one year in the Xenia Public Schools. In 1855, he went to Cincinnati, and for two years was publisher and manager of the *Presbyterian Witness*, carrying a religious book concern with it. In the spring of 1857, he removed to Mon-

mouth, Ill., where he engaged in the book business for a short time, selling his interest to his partner, and again resuming school-teaching near Monmouth, continuing two years with good success. In the fall and winter of 1859, he was the agent of Monmouth College, working in Ohio. In 1860, he began teaching in Greene Co., and in the fall of 1861, became teacher in the Xenia Union Schools, leaving that position after a few months to accept a call to the principalship of a ward school of Columbus, Ohio. Here he taught two years. In June, 1864, he was called to the principalship of the old Brownell Street School of Cleveland. In 1865, a new building was substituted, and he organized the new school, with eighteen teachers, remaining until the fall of 1868, when he was called to the superintendency of the Akron Schools, which position he accepted and retains. Then the schools had but twenty-three teachers in all, there being but eleven little frame buildings of one room each, in addition to the central building. There are now fifty-seven teachers. Since 1869, he has been County Examiner here; most of that time, Clerk of the Board, and member of the City Board of Examiners since 1870. For twenty years he has been a member of the State Teachers' Association. In 1873, he was President of the Superintendents' Section, and President of the Association in 1877. He received a State certificate; was given the degree of A. M. by Buchtel College in 1876, and, in 1880, that of Ph. D. from Wooster University. In March, 1853, he married Miss Mary A. Hardie, of Xenia, Ohio. She bore him four sons and two daughters; all are living.

PROF. ELIAS FRAUNFELTER, Professor of Mathematics in Buchtel College, Akron; is a son of John and Elizabeth (Reaser) Fraunfelter, natives of Pennsylvania, who came to Ohio in 1846, settling near Ashland, where they resided until their death, she in 1871 and he in 1879, leaving three sons and six daughters. Of this family, the subject is the second son, and was born near Easton, Northampton Co., Penn., April 3, 1840, and came here when but 6 years of age. He lived on a farm until 17, when he began teaching in the public schools of Ashland, and about the same time entered Vermilion Institute, and was made Tutor of Mathematics in 1859, continuing as such until 1862, when he enlisted in the 120th

O. V. I., organized at Mansfield. He entered as a private, and was soon after made Sergeant, then Orderly Sergeant, and after the battle of Chickasaw Bluffs and Arkansas Post was commissioned First Lieutenant. He was detailed as aide-de-camp to Gen. Osterhaus, commanding Ninth Division of Thirteenth Army Corps. In May, 1863, he was commissioned Captain of Co. F in his regiment, and commanded it in all the engagements during the siege of Vicksburg. He was made Adjutant of the 120th O. V. I., and was with Gen. Banks in the invasion of Louisiana after the fall of Vicksburg. His regiment was with Gen. Banks on the Red River Expedition, and on the 4th of May, 1864, he and a large portion of the regiment were captured at Snaggy Point, on Red River, and were taken to different points, until finally landed at rebel prison in Texas called Camp Ford, where they were confined for thirteen months, and were badly treated and ill-fed on chopped corn. He and Capt. Miller were the only ones exchanged at New Orleans in July, 1865, were furloughed home and mustered out at Columbus in August. He then returned to Vermilion Institute as teacher of mathematics, remaining until spring of 1866, when he with Rev. S. T. Boyd organized Savannah Academy, at Savannah, Ohio, a private school, where he continued until 1873, successfully put up large buildings, and in the fourth year (1870) catalogued 385 students. In 1873, he came to Akron, and accepted the Chair of Mathematics in Buchtel College, which he still fills. He was married April 2, 1867, to Miss Laura J. Caldwell, a daughter of Rev. J. P. Caldwell, of Barnesville, Ohio. They have one son and one daughter. Prof. F. received the degree of Master of Arts in Bethany College in 1873, and the degree of Ph. D. in Lombard University at Galesburg, Ill., in July, 1879.

CHARLES WHITTLESEY FOOTE, lawyer, Akron; is a son of Horace and Rosanna (Whittlesey) Foote, a sister of Col. Charles Whittlesey, and was born in Tripoli, Syria, near Beyrout, Jan. 21, 1853; his parents were missionaries. When he was about 2 years old, they returned to America; his mother died Dec. 24, 1854, off Sandy Hook; his father came on with his child to Tallmadge, where he lived with his uncle, Dr. L. C. Walton. In the fall of 1870, the subject entered Western Reserve College, and graduated as valedictorian of class

of 1874. He spent the next three years in Cornell University in post-graduate studies, received the degree of A. M. in 1876, Ph. D. in 1877; the next year was spent in Tallmadge with his father, and during the summer and fall of 1878 was assistant historian on Cuyahoga County History, published by Lippincott & Co. In the fall of 1878, he began reading law with Marvin & Grant, and was admitted to the bar in June, 1879, at Wooster. He at once became a member of the firm, with whom he had studied. He was married July 30, 1879, to Miss Harriet M., daughter of Prof. Hosford, of Hudson.

REV. JOSEPH F. FAHS, minister, Akron; was born at York, Penn., Jan. 18, 1825. At 14 he entered a store as clerk at Litiz, Penn., remaining four years, in the meantime, through his own endeavors, obtaining a fair knowledge of the English branches. At 18, he returned to York, where he again clerked in a store and recited, in his leisure moments, to a Moravian minister. In two years he began teaching in a private school, continuing about two years, at the same time carrying on his studies, when he was appointed a teacher in the York Co. Academy, and there pursued the languages. At the expiration of one year, he taught vocal music, and engaged in the study of theology and languages. At this time, through his own efforts, he was proficient in Latin and Greek. In 1851, he placed himself under the instruction of the Rev. Dr. Seiss, of Cumberland, Md., for about one and one-half years. In 1852, he was licensed to preach by the Maryland Synod of the Lutheran Church, and began his ministerial labors at Hancock, Md., where he remained three years, at the end of which time his health failed. After recovering, he took charge of a Lutheran Church in Newtown, Va., for fourteen months, when his health again failed. His next field of labor was at Williamsport, Penn.; here he continued five years, and was then called to Allentown, Penn., where he labored for about ten years with good success, part of the time teaching in Nuremburg College. In October, 1872, he came to Akron, where he became Pastor of the Evangelical Lutheran Church of the Holy Trinity, which position he still retains, having more than trebled the membership of the church in less than a decade. May, 1854, he married Miss Emma Miller, of Norristown, Penn. There

were four children of this marriage, three of whom are living.

CHARLES S. FARRAR, Akron, oldest son of Sumner and Sophia (Bruce) Farrar; was born in Old Concord, Mass., Feb. 22, 1825. Here he lived until he was 14, when he lived at Millbury, same State, for four years, after which he went to Fitchburg, Mass., where he learned the carpenter's trade, at which he worked until he was 29, when he entered the employ of Page, Whitman & Co., first as wood-worker for a year, and he subsequently worked on the knives, sickles and edged tools, working as journeyman and foreman there until 1869, in April of which year he came to Akron, Ohio, and took charge of the manufacturing department of the Akron Knife Works, having charge, also, of the erection of the buildings, which at that time were not commenced. He has since been Superintendent of the works. Aug. 21, 1847, he married Miss Emma Bruce, of Fitchburg, Mass. She bore him three children, viz., Mary T., Freddie S. and Ella S. They adopted two children, viz., Willie, who died when ten months old, and George Francis, who died at Akron Sept. 18, 1880, in his 30th year. Sumner Farrar died ten years after the birth of our subject, leaving him to battle for himself.

NAHUM FAY, manufacturer, etc., Akron; is a son of Hannaniah and Rebecca (Mansfield) Fay, and was born July 26, 1811, in Reading, Windsor Co., Vt. His youth was spent there on a farm until he was 20 years old. He received a common-school and academic education, and began teaching at the age of 18, continuing for six winters. He then traveled for three years for a map publishing company, during the time learned the art of printing them from copper-plates. In July, 1836, he came to Akron in the interest of his company. Their maps were of the United States, also of Ohio and other States. He worked in the establishment (except winters) for six years. In 1837, he went back to Vermont and was married to Miss Lucia Cummings, of Windsor Co., Vt., and at once returned to Ohio by canal and lake. They have two children—Henry C. M., and Emma V., wife of James W. Chamberlain, of Akron. Mr. F. taught five winters in North Akron, the first two winters in the old post office building. In the fall of 1843, he was elected by the Whig party County Recorder

and re-elected in 1846, serving in all six years; he had also been City Clerk and Marshal and Township Clerk. He was appointed Deputy Treasurer in 1849 under Wm. H. Dewey for two years, and under Frederick Wadsworth two years, and under Dr. Rice two years, afterward bought grain for several years. About the year 1860, he began the manufacture of cordage, which he has continued ever since. His machines are run by hand, and the articles of cordage thus made are of the best quality. Mr. Fay is the third son in a family of three sons and four daughters, two of whom are living.

DR. W. K. FOLTZ, physician, Akron; is a native of Mifflin Co., Penn. He was born Nov. 15, 1829. His father was a carpenter and joiner, and he was raised to the same business. At the age of 18, he began teaching, which he continued till 1850, when he began reading medicine with Dr. C. F. Stauber, of Wooster, Ohio, and read with him for two years. He then attended the Heidelberg College, at Tiffin, Ohio, and alternated teaching for two years. In the summer of 1855, he began practice in La Fayette Center, Medina Co., and, the following year, he moved to Sharon Center, where he remained until 1867. He graduated from the Eclectic Medical College of Cincinnati. In 1867, he engaged in a drug business, and practiced his profession at Ashland, Ohio. April 14, 1877, his business was consumed by fire, and, the following August, he came to Akron, where he has practiced since. He is a member of the American Pharmaceutical Association. He was married, May 12, 1856, to Miss Carrie L. Lehman, a native of Wayne Co., Ohio; they have one child—Kent O.

DR. A. E. FOLTZ, physician, Akron; is a native of Wayne Township, Wayne Co., Ohio, and was born Jan. 29, 1840. His father, Moses Foltz, was a carpenter by trade, and taught school during winters. A. E., the subject, learned his father's trade. At the age of 17, he began teaching, and lived at home until 1862. In July, of that year, he enlisted in the 102d O. V. I., Co. I, in which company and in one tent were his four brothers. He served until the close of the war. The five brothers were in the various engagements of the regiment, among which were the siege of Decatur, and the battle of Athens. They returned home at the close of the war. Our subject began

reading medicine in October, 1865, at Sharon Center, Medina Co., with Dr. W. K. Foltz, and graduated in the spring of 1869 at Charity Hospital Medical College of Cleveland, which is now known as the Medical Department University of Wooster. In the summer of 1869, he began practice at Ashland, Ohio, and, after one year, came to Akron, where he has since practiced. He is a member of the Summit Co. Medical Society, and also the Union Medical Society of Northeastern Ohio. Oct. 6, 1870, he married Miss Frances, a daughter of Dr. William Bowen. She is a native of Stark Co., Ohio.

L. H. FARRAND, groceries, Akron; is a somewhat recent addition to the list of grocery merchants of Akron, yet one who has, by good financiering and a close attention to his business, placed himself among the rank of successful merchants, and, as such, is entitled to more than a passing mention. His name is of English origin, and he is a native of Wyoming Co., N. Y., where, at the age of 18 years, he began work at the carpenter's trade, and followed it as a business until he engaged in the grocery trade, except the time spent in the army during the war of the rebellion. In August, 1862, he enlisted in Co. C, of the 140th N. Y. V. I., but was transferred to the 1st N. Y. Dragoons, with which force he served for a time, and was then detailed as Sergeant of a corps of engineers, which was stationed near Fortress Monroe. In due time he received an honorable discharge from the proper authorities, after which he returned to his old home in New York. Seven years ago, he came to Akron, when his first introduction into the business in which he has been so successful was in the capacity of a salesman for Messrs. Heaston & Smith, with whom he remained for about four months. He then, in company with Mr. N. B. Allen, engaged in the business on his own account, and located in South Akron. The firm was known as N. B. Allen & Co., Mr. Farrand having almost exclusive charge of the business. His next step was to buy Mr. Allen's interest in the business, and, a few years thereafter, he moved to his present place of business, corner Main and Exchange streets, which is a well-finished business room, 20x65 feet. His success in the future can hardly be questioned, if the past may be taken as a criterion, as he began business on a capital of

\$150, and has now a business of an aggregate annual sale of \$3,200. He employs two clerks, and runs a delivery wagon. Lest he may think we design this as an advertisement, instead of a brief sketch of his business career, as well as other historical facts, we will only add that, in 1854, he was married to Miss Tryphena H. Lancaster, who is the mother of their only child, Master Alfred, aged 4 years.

DANIEL FARNAM, of W. B. Doyle & Co., Akron, was born in Essex Co., N. Y., April 8, 1816, and is a son of Amasa and Polly (Thompson) Farnam, natives of the Eastern States, who were married in New Hampshire, and moved to Northern New York at an early day, and to Vermont in 1817, where they resided until 1831, when they came to Ohio, their mode of traveling being by team and canal to Buffalo, thence by lake to Sandusky, Ohio, and by team to Marion County; thence a few years later to Hardin County. Here they died, and their son, the subject of this sketch, came to Akron on a visit to relatives and concluded to remain. He worked awhile in a saw-mill, and then in the powder factory, where he remained for six years. He then bought an interest in the linseed oil works, and three years later, the oil and powder business were consolidated. Mr. F. was identified with the business some three years, when he sold out and bought a farm in Hardin County. Two years later, he rented his farm and went to Xenia, where he became superintendent of the powder works, continuing for two and a half years, during the time buying an interest in the powder works of Akron, and finally returning to that place. He continued in the business until 1865, when he sold out and became a partner in the present business. He was married Dec. 23, 1843, to Miss Lydia Todd, a native of Seneca Co., N. Y. She was living in Akron with her sister, Mrs. Andrews. Seven children were born of this marriage, of whom six are living, viz., Harriet A., now Mrs. Cole, of Akron; George D., who lives in Akron; Abbie T., now Mrs. Reed, of Iowa; Francis J., Carrie, and Mary E., at home. Mr. F. voted first for Gen. Harrison, and has voted with the Whig and Republican parties ever since. He is a Baptist, and has been a member of that church for over fifty years.

DR. H. M. FISHER, physician, Akron, is a native of Warren, Penn., where he was born Sept. 1, 1848, and is the eldest of six children

and one of two surviving, born to Andrew and Elizabeth (Shafer) Fisher. He is a native of Alsace, France, and came to the United States when but 13 years of age, with his parents, who settled at Warren, Penn. He is a dentist by profession, and has followed it for the past thirty years. His wife is a native of Pennsylvania. They now live at Warren. H. M. (the subject), lived at Warren until 1872, except six years spent with his parents in Illinois and Wisconsin. He received an academic education in the Franklin and Warren Academies, and entered and pursued a collegiate course at the Allegheny College, at Meadville, Penn., for two and a half years, when, owing to ill health, he was compelled to discontinue his studies. He began reading medicine in 1867, with Dr. Daniel Shanahan, of Warren, and in March, 1872, he graduated at the Jefferson Medical College of Philadelphia. In June following, he began practice in Warren, remaining a few months, when he came to Akron. In December, 1872, he removed to Allegheny City, Penn., where he practiced in partnership with Dr. Thomas Elliott until March, 1876, when he again came to Akron, and has since practiced here. He was appointed surgeon for the N. Y., P. & O. R. R. at Akron Jan. 26, 1881. He is a member of Union Medical Society of Northeastern Ohio, and of the Summit County Medical Society, of which he has been Recording Secretary. He was married May 21, 1873, to Miss Mary Talbott, a native of Warren, Penn. They have two children, viz., Frank T. and Clara E.

NATHAN L. GLOVER, teacher of music, Akron. The subject of these lines is a son of Joel and Elizabeth (Shannon) Glover. He was born in Coshocton Co., Ohio, Dec. 1, 1842. Here he grew to manhood, employed by the multifarious duties of farm life, until he reached the age of 28. When but a boy, however, he began the study of music, and, at 10 years old, could read it quite readily. Impelled solely by his love for the art, he struggled on with only the meager advantages afforded at home and at the singing school until, in 1865, he gained such a mastery of vocal music that he began teaching and forming classes, first in Indiana and subsequently at various points in his native State. In 1868, he became a pupil of the Normal Music School held that year at Painesville, Ohio, under the management of N. Coe Stewart and S. B.

Hamlin, and, in 1869-70, he resumed the work of teaching, with increased success. During the summer of 1870, he entered the school again at Painesville, Ohio, as pupil. In 1871, the Normal Music School, which for several years has been under the direction of Prof. N. Coe Stewart, of Cleveland, Ohio, who has associated with him some of the finest musicians and prominent teachers in the West, was held in Akron, Ohio. This school, held each year (except 1876) in some town or city of Ohio, has educated a large number of pupils throughout Ohio and adjoining States, who have done more, perhaps, to popularize music than any other agency in the State. Mr. Glover became assistant teacher in the Normal of 1871, and, in the spring of 1872, he went to Cleveland, Ohio, and placed himself under the personal instruction of Prof. Stewart, remaining until the summer session opened in Akron, where he was again employed as instructor. In September, 1872, he was employed as teacher of music in the public schools of Akron. Up to this time, no systematic attempt had been made to introduce music in the Akron schools. A few lessons had been given by Mr. N. C. Stewart at long intervals. While a vast number desired musical instruction for their children, many believed that only the "favored few" could be taught to sing and read music, and among the last-named were some of the members of the board, who looked upon the introduction of music as a doubtful experiment. It was during this crucial period that our subject began his labors in the Akron schools, and nine years of persistent, earnest work have removed this branch of study from the realm of uncertainty. It has demonstrated that every child not deformed can be taught to sing. The course, which begins with the elements in lowest primaries, carries the pupil step by step over a twelve years' course to the high school, where classical music is sung. The results which follow the systematic study of music are second to none in importance, and offer discipline of mind and culture of the heart that can be obtained in no other way. In addition to Mr. Glover's continuous nine years' work in the Akron schools since 1872, he has simultaneously taught six years in the Wooster schools, seven years in Kent, seven years in Ravenna, two years in Wadsworth and one year in the Cuyahoga Falls public

schools, and has at present over five thousand pupils under his immediate instruction. Since 1871, he has been associate teacher during the summer sessions of the Normal Music School, held successively at Akron, Zanesville, Wooster, Sandusky, Delaware, Warren, Youngstown and Shelby. Mr. Glover was chorister of the Congregational Church of Akron from 1872 to 1877, when he was called to a like position in the First M. E. Church, where he still remains. He has also been leader of the Choral Society of Akron for several years. He was married, Aug. 21, 1873, to Miss Kate Morledge, of Waynesburg, Ohio. Of this marriage there are two daughters—Mary M. and Nellie L.

CHARLES R. GRANT, attorney at law, Akron; son of William T. and Esther (Treat) Grant; was born Oct. 23, 1846, in Orange, New Haven Co., Conn., where he lived until the war of the rebellion broke out, when he enlisted in the 12th Conn. V. I., under Gen. Butler, and held the position of dispatch bearer (which was oftentimes a very perilous one, as at times he was obliged to journey from 400 to 500 miles), on Gen. Butler's staff in the Department of the Gulf, and continued in that position on Gen. Banks' staff until October, 1863, when he was discharged. In April of the following year, he located at Cuyahoga Falls, where he engaged in farming until 1868, in the meantime employing his spare moments in study. In September of the same year, he entered the freshman class of the Western Reserve College, from which he graduated in 1872, as valedictorian of his class, which was composed of eighteen students. He then went to Denver, Colo., where he remained until the fall of 1873, recruiting his health. In October of that year, he returned to Ohio, and married Miss Frances J. Wadhams, of Boston Township, after which he entered the office of Judge Tibbals, of Akron, as student, and was admitted to the bar in September, 1874, at this place. His wife died Sept. 14, 1874. His health failing him, he again engaged in farming, until January, 1876, when he formed a partnership with H. B. Foster, and began the practice of law at Hudson, continuing until Nov. 9, 1876, when he married Miss Lucy J. Alexander, of Akron, and at once located here, where he has since continued practice, under the firm name of Foster, Marvin & Grant. He has contributed several articles to the *Central Law Journal*, of St. Louis, and the *Southern Law Review*, which

have attracted considerable attention from the legal magnates, some of his subjects being as follows, viz., "Statutory Liability of Guardians," "Constitutionality of Local Option Laws," and "A Monograph on the Monroe Doctrine." His second wife died on June 8, 1880, leaving one daughter. His father is a native of Virginia, of Scotch descent. His grandfather, William Grant, was shot by a Tory, on his return from the Revolutionary war. His mother was a descendant of Gov. Robert Treat, one of the early Colonial Governors of Connecticut. The father of our subject moved to Connecticut when a young man, and married, in about the year 1830. He was a shoemaker by trade, and an intelligent, well-read man, being a member of the Connecticut Legislature in 1844-45, and Justice of the Peace for twenty-five years. He was the father of three sons and four daughters, of which family our subject is the youngest son. One of the children is now deceased. Charles R. Grant is a very able attorney, and possesses rare intellectual endowments.

EDWIN P. GREENE, lawyer, Akron, a son of Charles and Mary T. I. (Bowen) Greene, and was born March 10, 1828, at Gaysville, Windsor Co., Vt. He lived in the village until about 15 years of age, receiving his education at common schools, and at Bradford Academy. Afterward, he commenced the study of law at Littleton, N. H., and, in 1852, came to Akron, where he finished his studies with Upson & Edgerton, and was admitted to the bar in Akron in September, 1853. In the fall of 1854, he was elected Clerk of the Court, which office he held for six years, when he resumed his practice of the law, and has continued it ever since.

BENJAMIN F. GOODRICH, President of rubber goods manufactory, Akron, is a native of Ripley, N. Y., and a son of Anson and Susan (Dinsmore) Goodrich, and was born Nov. 4, 1841. He was brought up on a farm until 12 years of age, when his parents died. About four years were spent in schools at Fredonia, N. Y., and Austinburg, Ohio. In 1858, he commenced the study of medicine at Westfield, N. Y., and graduated at the Western Medical College at Cleveland in February, 1861. He went into the 9th N. Y. V. C. as Hospital Steward, and, the following spring, was made Assistant Surgeon, and assigned to the Battalion of U. S. Engineers, serving in that capacity until November, 1862, when he entered

the University of Pennsylvania to attend a course of lectures, returning to his old post in the army in the spring of 1863, and serving until September, 1864; a short time in charge of a hospital at Aquia Creek. In 1865, he went to New York City and engaged in real estate business until 1870, when he came to Akron, and, in the following fall, built a factory and commenced the manufacture of rubber goods, and, in partnership with H. W. Tew, conducted the business until 1875. The first year, \$60,000 worth of goods was manufactured, which was increased under his management to \$300,000. The business was conducted until June, 1880, under the partnership of B. F. Goodrich & Co., when a stock company was formed, with subject as President; A. Work, Vice President, and Geo. T. Perkins, Secretary and Treasurer. This was the first factory of the kind west of the Alleghany Mountains. It employs from eighty to a hundred hands in the busy season. Mr. G. is President (1880) of City Council. He was married, in 1869, to Miss Mary Marvin, a daughter of Judge R. P. Marvin, of Jamestown, N. Y. Three children are the fruit of this marriage.

HON. NATHANIEL W. GOODHUE, lawyer, Akron, is a native of Lincoln Co., Me.; was born Dec. 20, 1818, and is a son of James and Elizabeth (Perkins) Goodhue, also natives of Maine. They were married in Grafton Co., N. H. Father died at village of St. Christopher in 1866, in his 83d year, and mother died in 1867, in her 80th year. They had seven children; five living—Julia, second daughter, is Mrs. Aaron Morrill, of Danville, Quebec; James, a merchant at St. Christopher; (subject); Jacob P. died in 1852 on his way to California and is buried in the Pacific Ocean; Joseph L. is merchant and manufacturer at Danville, and Elizabeth P. is teacher in Summit Co. The grandfather of subject, Stephen Goodhue, was a soldier in the Revolutionary war, and, but 17 years of age, was in the battle of Bunker Hill, where he was wounded; he was within a few feet of Gen. Warren when he fell in that battle. When subject was 3 years old, the family moved to the Province of Lower Canada, now Quebec, where they lived on a farm in the woods for a number of years, the nearest house to them being thirteen miles distant; followed lumbering and farming. In May, 1837, he removed to Canaan Township, Wayne Co.,

Ohio, where subject employed himself teaching during winter and peddling in summer. Most of his education, except two terms at Danville, Canada, was obtained around the fireside. He commenced teaching at 18, and, in April, 1840, he came to Greensburg in this county, where he taught during the summer, and in the winter in Greentown village (Lewis Miller, C. Aultman, Jacob Miller, Geo. Cook were pupils). Early in the summer of 1841, he became a clerk for Johnston & Irving, of Middlebury, Ohio; afterward, Kent & Co. He taught the Middlebury school in the winter of 1845-46. In February, 1845, he began the study of law with Hand & Nash, and, in the winter of 1846-47, was Engrossing Clerk of the House of Representatives at Columbus, and was admitted to the bar at the September term of the Supreme Court, at Akron, in 1847. In October, 1848, he was elected County Auditor, and re-elected in 1850, both times on the Whig ticket. On the expiration of his last term as Auditor, he opened a law office in Akron, where he has been in practice ever since. He was, by appointment of Gov. Chase, Canal Collector from 1856 to 1858, and, from September, 1862, to September, 1866, was Deputy Collector of Internal Revenue, having entire charge in Summit County. In 1873, he was elected on the Republican ticket to the State Senate from the district composed of Summit and Portage Cos. He declined a renomination to the position. He was chosen Republican Elector for the Eighteenth Ohio District in 1880, and was President of the Electoral College of Ohio. His first vote was cast for Harrison in 1840, and has been Whig and Republican ever since. He was married, Dec. 20, 1841, to Miss Nancy Johnston, of Green Township, in this county. They have four children—James P., died at 8 months old in January, 1844; Allan J., manufacturer at Rochester, N. Y., and served three years in the 104th O. V. I.; Mary H., wife of Rev. Samuel Maxwell, Rector of St. Paul's Church of Youngstown, Ohio, and Nathaniel P., law student and assistant in his father's office. Mr. G. is a member of the Episcopal Church.

JOHN T. GOOD, retired, Akron; was born Oct. 25, 1818, and is a son of John and Margaret (Richert) Good, natives of Alsace, France, lived within twenty miles of Strasbourg. He attended common schools until 14 years of age,

and one year at a private school. His father was a farmer and grain dealer, and took contracts to convey emigrants from Bavaria and Baden to Havre, a distance of 500 miles, in wagons; in 1838, he came to the United States, arriving in New York on the 5th of May, where he took canal to Buffalo, and lake to Cleveland, Ohio, thence to Chicago, and from there to Cincinnati by stage, and on foot thence to St. Louis; thence to New Orleans, where he had intended staying, but fearing yellow fever, went to Pittsburgh, remaining there and working in brewery until the next year, when he came to Canton, Ohio; he secured work with a wealthy farmer in the neighborhood of Canton, where he remained until December, when he became a clerk in the store of John Robinson, at Canal Fulton, the largest establishment outside of the cities. For eighteen months he continued in the store, and in May, 1842, came to Akron, where he obtained employment in the store of P. D. Hall, then the largest in the city; he remained in this store about three years, and went into the grocery business. In 1845, he built the first brewery in Summit County, which he operated until 1855, and kept a grocery until 1865, with good success. In March, 1850, in company with about forty others, he went to California, under Capt. Howe, reaching Placerville in August; he worked in the mines for awhile, but his health failing, he went into a grocery and provision store, and in December returned to Akron, via Panama. In 1865, he bought the oil refinery on Furnace street, which he enlarged until it had a capacity of 250 barrels per day. His son, Charles W., was his partner in this business, and, as J. T. Good & Co., conducted it successfully until 1872, when he retired from active life. He was married, April 16, 1844, to Miss Barbara C. Yost, of Stark, Co., Ohio; four children living—Charles W., hardware merchant, of Cleveland; Charlotte, wife of Edward Schwyer, of New York City; George P., wholesale merchant, of Joplin, Mo.; J. Edward, student in Kenyon College. Mr. G. is a member of the English Lutheran Church, and is Republican in politics.

OMAR N. GARDNER, Akron, son of James and Elvira C. (Chamberlain) Garduer; was born in Akron on Dec. 2, 1854; his parents were natives of New York State, and came here from Genesee Valley in about 1850; here his father followed the trade of brick-mason, and died in

the spring of 1873; his mother died in 1876. He is the only son, and has one sister in Jamestown, Lottie S., now Mrs. R. P. Robertson. Until the age of 16 he attended the public schools; in 1872-73, he was engaged as engineer on the Valley Railroad, and in the fall of 1873, he entered Buchtel College, remaining one year. In 1875, he entered the City Engineer's Office, as assistant, and remained nearly a year; from that time to 1878, he was engaged in engineering and surveying. In the spring of 1878, he was elected to the office of City Engineer, and has been re-elected every year since. In 1880, he got up a system of sewerage for the entire city, and superintended the sewerage, grading, curbing and guttering of Carroll street. In September, 1877, he married Miss Ella J. Bush, of Jamestown, N. Y.

THEODORE GORNER, Akron, senior member of the firm of Gorner & Planz, file manufacturers. He purchased the establishment of a Mr. Harter, the founder, in 1873, and carried on the business one and a half years, when he sold to H. Pohle, he taking in Mr. Planz, and being unable to pay for the business, it reverted to the former owner. He was born Dec. 15, 1845, in Saxony, near Waldenberg, to Gottlieb and Catharine (Magenhammer) Gorner, she a native of Bavaria, the father a native of Saxony, a shoemaker by trade, and came to his son in this country about five years ago. The subject of this sketch learned the trade of file-cutting in 1859, at which he worked in Germany, Denmark, France and Austria, until his departure for this country in 1867. After his arrival in this country, he worked in the principal Eastern cities and traveled throughout the Western country, returning in 1868, and began working for Mr. Harter, who had, in that year, started the works. He was married in 1873 to Elizabeth Miller, a native of Akron and daughter of Jacob and Christine Seidle. They have no children. He is a member of the Knights of Pythias.

ALDEN GAGE, deceased; son of Elijah B. and Margaret (Hoffman) Gage, was born in Herkimer, Herkimer County, N. Y., July 27, 1836. The family moved to Norfolk, N. Y., where his mother died when he was but 4 years old, and he lived on a farm adjacent to Norfolk, attending a school taught by one E. P. Greene. When a young man, he entered the Academy at Potsdam, N. Y., to prepare for college, and

spent two years in Amherst College, when his father died, after which he came to Akron in 1856, and secured the position of Deputy Clerk of the Court under Edwin P. Greene, whose pupil he had been in Norfolk. In the fall of 1861, he became Assistant Quartermaster under Capt. Myers, and followed the fortunes of the Union army until the fall of 1864. In November, 1865, he secured a clerkship under Capt. Nash in the Provost Marshal's office at Cleveland, Ohio, remaining in that position a year, during which time, on Sept. 20, 1865, he married Miss Belle Webster, second daughter of Charles Webster, of Akron, Ohio. Mr. Gage returned to Akron in 1865, and became Cashier of the Second National Bank, continuing five years. In July, 1870, at the opening of the bank of Akron, he became First Cashier and held that position until his death, November 12, 1875, at Santa Barbara, Cal., where he had gone to find relief from consumption. He was highly esteemed, public spirited and well informed. He was an ardent Republican, but never sought office. His only child, Martha, died when but 8 months old.

H. G. GRIFFIN, groceries, notions, etc., Middlebury, is a native of Ohio; he was born on his father's farm in Geauga County, Oct. 8, 1840, his parents, S. B. and Huldah (King) Griffin, were natives of Pennsylvania and Ohio. He came West and settled in Geauga Co., Ohio, in the year 1829, and farmed there until his death. He was well known and respected; he was a member of the Baptist Church, and took an active interest in its affairs. Mrs. Griffin lives on the old homestead; our subject lived at home until 1861. On Sept. 10 of that year, he enlisted in Company G, 41st O. V. I., and served two and a half years; he was in the battles of Shiloh, Murfreesboro, Chickamauga, Mission Ridge and the other engagements of the Army of the Cumberland to which he belonged, up to the time of his discharge, by reason of ill health. After recuperating on the farm about a year he began the manufacture of cheese for Budlong & Stokes, of New York, the factory being located in Geauga Co., Ohio. He continued some three years; then started a creamery for L. J. Randall, being the first in this State; about a year later, he went to Kentucky and managed a cheese factory in Woodford County for two years, when he moved to Painesville, Ohio, and, in company with L. F. Miller,

opened a grocery and crockery establishment, and about one and a half years later, he came to Middlebury, where he became connected with the grading of the Valley Railroad. In 1875, he engaged in the general merchandise business with George Viall & Co., and, in September, 1880, he began his present business. On Dec. 22, 1865, he married Miss Hattie Taylor, a native of Ohio. They have two children, viz.: Lizzie T. and Lucy H. He is a member of the School Board of Akron, a Republican in politics, and has taken an active interest in the party.

NOAH HODGE, lawyer, Akron, Ohio; was born in Springfield, Ill., Feb. 6, 1842, to Richard and Catharine E. (Divelbiss), and lived there until 1868. His father started to California with his family in 1852, and died of cholera about seventy miles west of Ft. Kearney, where he is buried, near the Platte River. After the father's death, the family returned to Springfield, where the subject of these lines attended the Illinois State University, now St. Paul's College. From this he graduated in June, 1862, and the following month he enlisted in the 124th Ill. V. I., and fought in the Vicksburg campaign. In September, 1864, he was commissioned 1st Lieutenant; he held the regimental position of Adjutant in the 52d U. S. Colored Regiment until his resignation in 1865, the war being over, immediately after which he became a tutor in the college from which he graduated, continuing one year, when he was made Professor of English and Latin, and Principal of the Preparatory Department, in which capacity he acted until 1868, when he received the degree of A. M. from the college; and the same year became Superintendent of the public schools of Mt. Carmel, Ill., continuing a year. In September, 1868, he married Miss D. L. O. Johnston, of Clinton, Miss., whom he had met while in the army. In June, 1869, he went to Clinton on a visit, and in the fall he removed with his family to Jackson, Miss. He was appointed by the military commander, Gen. Ames, Clerk of the Circuit Court of Hines County, Miss., and subsequently, by Gov. Alcorn, in November, 1871; he was re-elected to the same position, retaining it until 1876. He began the study of law in 1865, continuing it at intervals, and was admitted to the bar by the Supreme Court of Mississippi in January, 1875. His wife died Aug. 10, 1874, at Jack-

son, Miss., of typhoid fever, and is buried there. She left a son, Edgar O., and a daughter, D. L. O. In February, 1876, he came to Columbus, Ohio, was examined by the Supreme Court, on the 2d, and admitted to the bar; in March following, he opened an office in Akron, and has since been in active practice here. May 16, 1876, he married Miss Sarah W. Ashmun, daughter of the late Dr. George P. Ashmun, of Akron; she bore him a daughter, Fanny A., who died in her third year.

MILTON W. HENRY, merchant, Akron, Ohio, is a son of William and Rachel (Frary) Henry, and was born Oct. 13, 1816, in Blandford, Hampden Co., Mass., where he lived on a farm until 13 years of age, engaged, as he says, in useful employment. In May, 1830, the family came to Westfield Township, Medina Co., by teams, and settled in the woods, where a home was carved out of the great wilderness. In the fall of 1835, subject entered McGregor Academy, at Wadsworth, remaining one year, and during the time aiding Roswell, H. B. Kent & Spelman in their store of mornings and evenings and of Saturdays. At the expiration of his year, he was employed by them at \$100 per year. He remained with them until they sold out in the latter part of 1837, and was employed by the new firm, G. & J. Miller, until 1841. In the meantime, Mr. Spelman located in Akron, and with Mr. Clapp, opened a store under firm name of Clapp & Spelman. An urgent letter from Mr. Spelman to subject brought him to Akron in October, 1841, and as a clerk he remained with them until the spring of 1843, when, having saved up \$1,000, he bought a third interest in the store, Mr. Spelman owning the balance, and Clapp having retired. The firm was now H. B. Spelman & Co., and so continued until 1848, when Mr. Henry bought out Spelman, and subsequently sold an interest to Jas. Zwisler, and firm name, M. W. Henry & Co., lasted three years. Dec. 27, 1849, a fire destroyed a large portion of building and goods, on which was a small insurance. At 10 o'clock he had rented another building, and with the few goods left began business, continuing three years, when the owner rebuilt on the present site and Mr. H. bought an interest in the building and entered it in 1854, and has remained in it ever since. He remodeled it in 1857, and rebuilt it in 1877. The firm of G. C. Berry & Co. was formed in 1875. The first floor of this

elegant store is 40x65 feet ; the second is same size, and comprises the wall paper, shawl and underwear departments ; the third floor, carpets, oil cloths, matting, etc. The upper floors are utilized by the aid of an elevator ; there are fourteen persons employed, three of whom are ladies. The cash principle was adopted in 1876. Mr. H. has been a member of the City Council for a number of years, and a member of School Board for nine years. He is a stockholder and director in Taplin, Rice & Cos' foundry, and in Austin Powder Co., of Cleveland. In 1863, he became one of the original stockholders of the First National Bank of Akron, and has since been its Vice President and Director. He was married Dec. 5, 1843, to Miss Abigail Weeks, a daughter of Moody Weeks, of Copley Township. Of this marriage there are six daughters and one son, viz.: Olive C., Ella C., Julia A., Hattie A., Charles M., Grace P. and Mattie W., all of whom are living.

PHILANDER D. HALL, prominent and oldest merchant of the city of Akron, Ohio, represents the seventh generation of the Hall family, who came from Lancashire, England, with the New Haven colony in 1639. They soon afterward took possession of a grant of land given them by Charles I, extending from Long Island Sound northerly, twelve miles long and three-fourths of a mile wide, and near the city of Bridgeport, Conn., a part of which city it now includes, and where the subject of this sketch was born Oct. 10, 1808. He was educated at Weston Academy, where his family held a free scholarship, the academy being endowed by land given to it by his family. At the age of 20, he left the school at Weston, and taught in the academy at Saugatuck, Conn., afterward entering a dry goods store at that place, where he remained one and one-half years. Returning to Bridgeport, he engaged in the grocery shipping business, and importing West India products. In July, 1834, he made his first visit to Akron, and in May, 1835, opened his goods in his present location, then called Cascade Store ; he rented of Dr. Crosby, the assignee of Howard, Iredell & Fenn, who had recently failed ; the crash of 1837 destroyed the credit of all the merchants, fourteen in number, except his own, J. D. Commins and Kent's. Feb. 17, 1851, his store building was destroyed by fire, and the present building was rebuilt and occupied in December of the same year. From 1835 to 1857, Mr. Hall

gave his entire attention to the business, removing in the fall of 1857 to New York City, where, as buyer for Hall Bros., he still resides ; 1858, Mr. Hall spent most of the year in traveling in Europe, visiting the principal countries on the continent and the British Islands, and has since made two journeys to the Pacific Coast. Mr. J. D. Commins, Mr. R. P. Spalding and Mr. Hall were among the original subscribers to the Akron Rural Cemetery, and he, with Dr. Ackly, originated, and helped support the Episcopal Church. Orlando Hall, deceased, the younger brother of P. D. Hall, was born on the family place near Bridgeport, Conn., in 1820. He joined his brother in business at Akron in 1842. He was married to Sophia R. Towne Dec. 12, 1854, and died March 10, 1855. He was a popular business man, greatly esteemed by a large circle of acquaintances for his many virtues, and sincerely lamented.

CALVIN P. HUMPHREY, lawyer, Akron, Ohio ; is a son of Van Rensselaer & Laura (Pease) Humphrey, and was born in Hudson, Ohio, June 21, 1840. His father was a native of Litchfield Co., Conn., and his mother of Trumbull Co., Ohio. She was a daughter of Judge Calvin Pease, and married first G. W. Tallmadge, who died in Tallmadge Township, where she afterward married Mr. Humphrey. Subject graduated at Western Reserve College in 1863, and began the study of law with his father, Judge Humphrey, who died in 1864. In the fall of 1865, he (subject) entered Cleveland Law College, from which he graduated in 1866. After graduating, he located at Cuyahoga Falls, and lived there until 1874, when he came to Akron. He was elected City Solicitor in the spring of 1879. On the 20th of September, 1864, he was married to Miss Della Whedon, of Hudson.

WILBUR F. HAWXHURST, insurance agent, Akron ; second son of Isaac and Clarissa (Miller) Hawxhurst ; was born in Elyria, Lorain Co., Ohio, June 19, 1844. He was 14 when his father died. Shortly after, in 1860, he entered Baldwin University, at Berea, where he studied two years, and was then employed by the Western Union Telegraph Co. about two years as operator at the stations at Elyria and Youngstown. March 20, 1864, he enlisted in the 65th O. V. I. as private soldier. In the summer of the same year, he was detached as clerk for the Assistant Inspector General of

the District of Etowah, and located at Chattanooga, Tenn., for Capt. Mills and his successor, Capt. George M. Brayton, until June, 1865, when he was ordered to his regiment, then in Nashville, and again detailed as clerk to the Assistant (James I. Wilson) Commissary of Musters for the Second Division of the Fourth Army Corps, and served in that position until March 4, 1866, when he was discharged at Indianola, Texas. On his return, he was in the commercial school at Oberlin for some time. He again entered Baldwin University in the fall term of 1866, remaining two years. In 1868, he became book-keeper for Charles W. Stearns & Co., of Cleveland, and continued until 1870, when he entered the insurance office of W. F. Fox, of Cleveland, State agent for the old Putnam Insurance Co., and, in the fall of the same year, he opened a local agency fire insurance office at Lebanon, Ohio, which he conducted one year. In November, 1871, he was given the Ohio and Indiana State agency for the Watertown Fire Insurance Co., and continued in that field until January, 1874, when he accepted a like agency for the Royal Insurance Co., of Liverpool, England, serving one year. In 1875, he was employed for a year as rating agent at Cincinnati, Ohio, by the National Board of Fire Underwriters, and served also another year as rating agent throughout the Western States. In 1877, he was special agent in Ohio, Indiana and Michigan for the Connecticut Fire Insurance Co., of Hartford, and, in December of the same year, he located at Akron, and associated with M. Mattison in local insurance, representing several of the leading fire and life companies. Sept. 22, 1868, he married Miss Clara L. Mattison, of Hinckley, Medina Co., Ohio. They have one son living, and one son deceased.

JOSEPH HAYS, foreman molders' department Aultman, Miller & Co., Akron; a son of Hugh and Mary (Pollock) Hays; was born Oct. 17, 1843, in Stark Co., Ohio, and is the youngest son in a family of ten children, five of whom are living; parents are both deceased and were both natives of Ireland. In 1858, he began to learn the trade of molder with E. Ball, at Canton, Ohio, where he worked at molding until June 5, 1861, when he enlisted in Co. F, 4th O. V. I., for three years. He was with McClellan in the Army of West Virginia, and the Shenandoah Valley, with Gen. Shields,

and joined the Army of the Potomac after the seven days' fighting before Richmond, and remained with it until the battle of Chancellorsville, March 3, 1863, where he was wounded by a musket-ball, which shattered his elbow-joint. He was disabled eighteen months, and in Washington Hospital about eight months, when, in February, 1864, he was discharged. He draws a pension. He came to Akron soon after, and began work as a molder for Aultman, Miller & Co., in March following. He worked as a journeyman until Feb. 21, 1880, when he was made foreman in the molding department, which, when full, employs 110 men, and melts about twenty-eight tons of iron per day. He was married Aug. 16, 1865, to Miss Cora Dunbar, of Canton, Ohio; they have one son.

JOHN W. HOLLOWAY, master of machinery on C., Mt. V. & C. R. R., Akron, a son of Joseph T. and Susan (Hawk) Holloway, was born in Stark Co., Ohio, May 26, 1831. In 1848, he apprenticed himself to the trade of machinist, first at Cleveland, but in 1849 came to Akron and entered the machine shops of G. D. Bates & Co., serving with them two years. He went to Cumberland, Md., and took a place in the shops for a time, and during one year run a locomotive from Cumberland to the mines. He next became an engineer on a steamboat on the Ohio River, plying between Shawneetown, Ill., and Paducah, Ky., and was so employed for about one year. In the fall of 1854, he went to La Fayette, Ind., and was employed in the shops of the La Fayette & Indianapolis Railroad Company for one and one-half years, and, in 1856, became master of machinery on the Cleveland, Zanesville & Cincinnati Railroad, now the Cleveland, Mt. Vernon & Columbus, a position he has held ever since. In November, 1854, he was married to Miss Caroline E. Tift, of Cuyahoga Falls. Of this marriage there are five children. His (subject's) father was a native of New Jersey, and came to Stark Co., Ohio, about 1820, where he lived until 1831, when he removed to Cuyahoga Falls, and resided there until his death in 1878. He was a cabinet-maker, and in later years was an insurance agent, Justice of the Peace, etc.; served also as Coronor of the county.

REV. JOSEPH D. HOLLINGER, deceased (widow resides at No. 1203 South Broadway, Akron), died Oct. 4, 1871, and was buried at

Manchester, Franklin Township, with other of his relatives. His birth occurred near the place of his burial Jan. 22, 1839. His education was obtained in the district schools, with the additional advantages of the seminary at Greensburg, Summit Co., Ohio. He was the oldest son of Jacob and Barbara (Daily) Hollinger, she a daughter of Jacob Daily, one of the old pioneers of Franklin Township. The father of our subject was a twin brother to Michael Hollinger, who has resided in Franklin Township the longest of any person now living. Our subject connected himself with the Evangelical Association and began preaching in his 23d year, first serving at North Lima, Ohio, for one year; then at New Salem, Penn., one year; near New Hamburg, Mercer Co., Ohio, one year; thence back to North Lima, where he served two years; thence to Osnaburg, Stark Co., Ohio, where he served two years, subsequently returning to the State of Pennsylvania, where he filled the pulpit at Fulton Street Mission, Pittsburgh. While there, he was elected as Presiding Elder of Franklin District by the Church Conference then in session. While serving in this office, his lamentable death occurred as stated above. The supposition is that his fatal sickness was caused by overwork, as the ministers of that church are required to go through a four years' course of study before becoming regular members of Conference, their examinations occurring every year, the successful termination of their second examination being the occasion of their ordination as Deacons, and the fourth entitling them to the highest honors of the church, that of Elders, receiving license in full. The spring following the death of her husband, Mrs. Hollinger moved to the city of Akron, where she now resides. He was married, Dec. 13, 1858, to Mary E. Leuszler, born May 5, 1836, of Holland Dutch extraction, to John and Catharine (Long) Leuszler, he of Hesse-Darmstadt, Germany. Came early with his parents from the land of his nativity and settled in Doylestown, Penn., and, in 1853, settled near Wadsworth, Medina Co. Their children are Anna M., born Aug. 23, 1859, teacher at No. 7, south building public school; Harvey M., Aug. 28, 1861, engaged in the Buckeye works; Clara E., May 7, 1863; Royal E., April 10, 1866.

LEVI S. HERROLD, ex-Mayor, 958 South Main street, Akron; was born on the 17th day

of November, 1820. Is a son of Col. John George, the son of Frederick Herrold, who came from Germany to that part of Northumberland Co., Penn., now known as Snyder County, deriving its name from a distinguished gentleman of that name. The Herrolds were the first settlers in a township of the above-named county, where they took up several hundred acres of land and have always resided. The family having grown numerous, occupy the principal part of one or two townships in that section of country. His mother was Mary Steese, daughter of Frederick Steese, a very prominent man and mill-owner in Union and other counties in Pennsylvania. The subject of this sketch, on account of the indigent circumstances of his parents, was compelled to labor in various employments to support himself and secure the meager educational advantages which he received, amounting to three terms of district school. He at one time was employed as driver on the canal from McKees' Half-Falls to Havre de Grace on the tide-water; then steadily advancing, as his own energy and natural tact in business have shown in following him briefly through his subsequent business life of about ten years in general merchandising. Immediately after marriage, his official career began by being elected for a term of five years as Justice of the Peace in Snyder County, at the expiration of which he was re-elected for a second term, but after having served two years, he was called upon by the people of his county to serve a term of three years as second Sheriff of the county after its organization. In the spring of 1865, he came with his family to Akron, having purchased, the preceding summer, the grist and saw mill now owned by Brewster & Sons, which he run successfully for ten years; he served as Assessor of the Fifth Ward, a term of three years as Infirmity Director, and, in the year 1875, was elected Mayor of the city of Akron; after having filled successfully the last-named office until the expiration of his term, he retired to a quiet life and the superintendency of his farm in Springfield Township. He was married Aug. 2, 1842, to Lydia Motz, daughter of John and Barbara (Moyer) Motz, who were Union County people. They had eight children—four sons and four daughters—Mary M., born Sept. 9, 1843; George I., April 26, 1845; Alfred, Jan. 21, 1847; John S., Sept. 6, 1850; Henry S., Dec.

12, 1853 ; Ada B., April 24, 1856 ; Martha A., Aug. 4, 1858 ; Ida, Oct. 3, 1865. Mary M. married Capt. H. Harrison in the fall of 1863, and died Oct. 18, 1867, of hemorrhage of the lungs, in the depot at Cleveland, on her return home with her husband, having gone there for medical aid. She left one child, Mary Ida, born Aug. 23, 1865. George died Feb. 26, 1859 ; Alfred, April 9, 1847 ; Henry, Dec. 20, 1853 ; Ada B., Feb. 9, 1859 ; Ida, May 9, 1867. John was married to Mary Cook, daughter of Louis Cook, of Akron ; she dying in the spring of 1875, leaving one child, Lilly May, born Sept. 26, 1872. Both grandchildren are living with the subject of this sketch.

J. H. HOWER, of Hower & Co., manufacturers of oat meal, Akron, is a native of Stark Co., Ohio, and was born Feb. 22, 1822. His father, Jesse Hower, was a native of Center Co., Penn., and came to Ohio with his parents about the year 1815. His father, Jacob Hower, was a native of Pennsylvania, and a shoemaker by trade. He moved to Stark County, where he settled and improved a farm. Jesse moved to Clinton about the year 1823, and bought a farm of his father, upon which he built a saw-mill, but died soon after completing same. Mrs. Hower then moved to her folks', near New Berlin, where she lived some five or six years, when she married Mr. John Snyder, and located near Doylestown, where she died about the year 1855 or 1856. J. H. (the subject) lived at home until he was 30 years old, receiving a common-school education, working on the farm and teaching school during the winters from the time he was 18 years of age. At the age of 28, he bought an interest in a general store at Doylestown (firm Graham & Hower), and continued for five years, when he sold out and bought a pottery, which he operated for two years, and then sold out and organized the Excelsior Reaper and Mower Works of Doylestown, now conducted by Seiberling, Miller & Co. Mr. H. was connected with the works until 1875, though he came to Akron in 1866, and was one of the organizers of the Excelsior Reaper Works, as above, of which he was Vice President, and continued for some ten years. In 1879, he bought an interest in the Turner Mills of Akron, and, in 1881, his sons, Harvey Y. and M. Otis, bought out the interest of Mr. Turner, and formed the present firm of Hower & Co. He was married in 1852, to Miss Susan

Youngker, daughter of J. Youngker, of Doylestown. By this marriage there have been three children—Harvey Y., M. Otis and Charles H. Mr. H. and his wife are members of the English Lutheran Church, in which he has always taken an active interest, being one of its organizers, and a Trustee since. He was originally a Democrat, but a Republican since the organization of that party.

JACOB D. HOLLINGER, druggist, Akron, junior member of the wholesale and retail drug firm of Warner & Hollinger ; was born in 1844, and is a native of Summit Co. His people were among the early pioneers of Franklin Township. The early life of J. D. was spent on a farm. He was educated at the Evangelical College of Greensburg, and is a graduate of the Pittsburgh Commercial College. This latter attainment led to his accepting the situation of book-keeper for Mr. George Weimer, who, for many years, was one of the leading druggists of Akron. During Mr. Hollinger's connection with the firm as book-keeper, Mr. Warner was employed as prescription clerk. Though both young men, they now compose a firm that ranks among the leading druggists of the city. Their house was established in 1852, and the dimensions of their present house, No. 213 and 215 East Market street, is 33 feet frontage by 80 feet in depth, two floors and double basement cellar. Politically, Mr. Hollinger has taken no active part, he choosing rather to devote his time and energies to the building up of a good business. He is a member of Akron Lodge, No. 547, I. O. O. F. During the war of the rebellion, he served as a volunteer in Co. G, 19th O. V. I., three months' service, and also in the 104th O. V. I., three years' service.

H. B. HOUSEL, millwright, Akron ; was born April 9, 1821, in Stark Co., Ohio. When he was about 1 year old, his parents moved to Brewster's Corners, Summit Co. He was the oldest of a family of sixteen children, ten of whom are still living, and, at that early day in the settlement of Summit Co., but little opportunity was afforded him for getting an education. At the age of 19, he began learning the trade of a millwright with one John Gilcrist, with whom he served an apprenticeship of two years, which included six months of schooling given him by Mr. Gilcrist. The first summer after completing his trade, he worked at the carpenter's trade ; and, in the following winter,

he came to Akron, and helped to build the city mills. He followed "jour" work for about eight years, and since that time he has been contracting and building mills in Ohio and adjoining States. In 1847, he bought the old homestead farm, which was the home of his family until 1865, when he removed to Akron. In 1877, when the co-operative store was organized, he became interested in it; and, in 1880, he was made one of the directors; and, at present, when not otherwise engaged, he spends his time at the store. Jan. 24, 1844, he was married to Miss Ennice Meach, a native of Connecticut, but who came to Wayne Co., Ohio, with her people, when she was a child. Six children have been born to them, of whom but one son and two daughters are living. George, the son, has a decided talent for music, and, at present, he is connected with the schools of Muscatine, Iowa. Mr. and Mrs. Housel are both members of the First M. E. Church of Akron. He is well known throughout the county, and is a man whose name and reputation stand above reproach.

D. W. HOLLOWAY, merchant, Akron; is a native of Center Co., Penn., and is the son of Daniel C. and Sarah M. (Speaker) Holloway, both of whom lie buried at Aaronsburg, Penn., the former home of the subject of this sketch, and the place where most of his early life was spent; there he also received a fair education, and, though he was left an orphan at the early age of 14 years (he is now 24), and principally dependent upon his own resources, he has succeeded not only in establishing himself in a good business, but has, by carefully associating with that class of people who are possessed of a self-respect, built for himself a worthy name and reputation. His mercantile life began in Aaronsburg when he was 14 years old, and, though a part of his boyhood days were spent on a farm, he soon became partial to the life of a merchant, and how great his talent in that direction lay is evidenced by his present position and success. Nov. 1, 1879, he and Mr. Harrison became the successors of Mr. E. P. Holloway, under the firm name of Harrison & Holloway; their place of business is located on the corner of Main and Exchange streets, South Akron; it is a large storeroom, 27 feet frontage by 78 feet in depth, stocked with everything pertaining to the dry goods business. Mr. Holloway began first as a salesman for E.

P. Holloway, and, the better to enable him to do business successfully and accurately, he attended the night school of the Commercial College of Akron, from which he graduated; he now keeps the firm's books, and, though still a young man, he stands upon an equal footing with many of his competitors who are double his age.

H. HARRISON, merchant, Akron; senior member of the dry goods firm of Harrison & Holloway; has been a resident of Summit Co. since 1865; he is a man now 42 years of age, and a native of Snyder (formerly Union) Co., Penn. His boyhood was spent on a farm, and the most of his early life in his native State. Sept. 16, 1861, he entered the Federal army, and gave his services to his country to aid in the suppression of the war of the rebellion; he was made Captain of Co. F, of the 172d Penn. V. M., and remained in the service until Aug. 1, 1862. In 1865, he came to Summit Co., and for about one and a half years he was in the employ of E. P. Holloway; subsequently he engaged in milling; he and ex-Mayor Herrold, under the firm name of Herrold & Harrison, were proprietors of the South Akron Mills. For about one year he resided in the country and was interested in farming; again he became a resident of Akron, and, after having spent some time as a clerk for Mr. E. P. Holloway, he and W. H. Holloway bought the establishment on Nov. 1, 1879. He is a member of Aetolia Lodge, No. 24, K. of P., and a man in every way worthy to be identified with the business and social interests of Akron.

DR. ELIZUR HITCHCOCK, physician, Akron; is a native of Summit County. He was born on his father's farm in Tallmadge, Aug. 15, 1832, and is the fourth of seven children born to Lucius W. and Eleanor (Wolcott) Hitchcock. His parents were natives of Connecticut, his father coming on foot in 1822, to Tallmadge, where he bought a farm, married and raised his family. In 1873, he lost his wife, and left the farm, coming to Akron, where he now resides. Dr. Hitchcock remained at home until the spring of 1850, working on the farm and gaining such education as the schools of the neighborhood afforded. At 18, he entered the Western Reserve College at Hudson, where he studied two years, and then entered the Junior Class in Yale College, graduating there in 1854. During the next four years, he

taught select schools in Tallmadge and Gustavus, dividing the time between them. In 1857, he began reading medicine with Dr. Dudley Allen, at Kinsman, Ohio, and in 1860, graduated at the Medical Department of the Western Reserve College, at Cleveland, having taken a course previously at Ann Arbor, Mich. He began his practice at Mecca, but in the following spring located at Orwell, where he remained two years. He then went into the army as Surgeon of the 7th O. V. I., and resigned after serving about six months. In the fall of 1863, he located in West Williamsfield, Ohio, where he remained until 1869, when he sold out his business and attended the Bellevue Hospital. In 1870, he came to Akron and has since practiced his profession here. He is a member and President of the Summit County Medical Society, and also a member of the Union Medical Association of Northeastern Ohio. On Nov. 24, 1861, he married Miss Hattie Reed, a native of Mecca, Trumbull Co., Ohio, by whom he had one child, Gertrude R. His wife died in May, 1864. In November, 1864, he married Miss Lueretia Kellogg, a native of West Andover, Ashtabula Co., Ohio, by whom he has two children—Halbert K. and Lucius W.

H. P. HITCHCOCK, general insurance and local and special adjusting agent, Akron; is a native of Summit Co., Ohio. He was born on his father's farm in this county, July 18, 1841, and lived there until he was 16 years of age. He then engaged as clerk in the general merchandising business of Starr Bros. & Co., in Elyria, Ohio, where he remained one year, when he returned to his parents' home and remained until, at the age of 20, he entered the employ of the A. & G. W. R. R., now known as the N. Y., P. & O. Railway Company. He continued in this employ some seven and a half years, serving in all the subordinate positions up to that of conductor. During the construction of the road from Marion to Dayton, he had charge of the construction train with from fifty to seventy-five men, for about a year. Upon leaving the railroad company, he began working for the Continental Life Insurance Company of New York, as solicitor. During the year he was engaged with this company, he took \$360,000 worth of risks. At the expiration of this time, he engaged with the Enterprise Fire Insurance Co. of Cincinnati, Ohio.

This was about 1870, since which time he has been constantly engaged in the insurance business, adding to his agency various companies until now the combined assets of the companies which he represents reaches the immense sum of \$100,000,000. His list of companies includes some of the oldest and most reliable in this and the old countries. In 1876, he took the field as an adjuster, and has served with distinguished ability in this department since. For the past three years, Mr. Hitchcock has served as a special agent and adjuster for the Meridian, Fanieul Hall and Fairfield Companies, and is now acting in the same capacity for the Niagara of New York. He married Miss Elizabeth C. Upson, a native of Summit Co., Ohio. By this marriage there have been two children—one, Eva, living.

JOSEPH HUGILL, contractor and builder in stone and brick, Akron; was born in Yorkshire, England, September 1, 1834. His father, George Hugill, was a railroad contractor. Joseph was apprenticed at the age of 14 to the stone mason's trade and served three years, when he came to the United States and settled in Cleveland, where he lived with a married sister. Remaining in that vicinity several years, he went to Canada, where he worked at his trade on the Grand Trunk R. R., for two years, after which he contracted stone work on the Buffalo & Lake Huron R. R. He went to California *via* New York and Panama during the Frazer River excitement in 1858. He went to El Dorado Co., and worked at his trade in Placerville one year; the next year, he followed mining, and, in 1860, imbued with the excitement which then prevailed, he went to Nevada, working at his trade in Carson City, where he built the county buildings. He next went to Virginia City, where he did the stone work on the Gould & Curry Quartz Mills. He returned to Cleveland in 1864 *via* Panama and New York, and thence to Canada, where, on September 28 of the same year, he married Miss Sarah Wells, at Hamilton. She was a native of South Dumfries, Brant Co., Canada. In the spring of 1866, they came to Akron where he has since conducted the business of contractor and builder in stone and brick. In 1872, he purchased some land upon which he has developed a stone quarry which furnishes an inexhaustible supply of building material. By their marriage there have been four chil-

dren, of whom three are still living, viz., Willie E., Franklin W. and Daisy.

A. J. HUSE, cabinet-maker, is a native of Vermont; he was born in Windsor County, June 7, 1804. His father, Robert Huse, was a shoemaker by trade, but followed farming; he was a native of Massachusetts. His father was a sea captain, and lost his life in a storm at sea. Robert moved to Rochester, Vt., about the year 1797, of which place he was one of the pioneers. Our subject was born and raised on the farm. At the age of 22 he was apprenticed to the cabinet trade, and on Sept. 6, 1829, he married Miss Lonisa W. Austin, a native of Vermont. The following year they moved to Cayuga County, New York, where he worked at his trade until 1836, when he took the water route to Ohio and settled in Middlebury, where he worked at his trade until 1844; he then worked in a woolen machinery manufactory until 1872, since which time he has done general business pertaining to his trade. By his marriage there were five children, of whom but one lives, viz., Charles W., of Akron, Ohio. Mr. and Mrs. Huse have been connected with the Universalist Church for the past forty years. September 6, 1879, they celebrated their golden wedding, on which occasion friends to the number of 300 joined in the ceremonies.

WILLIAM FOSTER HOPE, manager of Akron Malleable Iron Works, Middlebury (Sixth Ward of Akron), is a native of Pittsburgh, Penn.; was born Aug. 4, 1838; his father, Richard Hope, was a contractor and builder, in which capacity he is well known in Pittsburgh, where he built many of the leading buildings of that city. William F. (subject) lived in his native city until September, 1880, receiving his education in the city schools, and also a course at Jefferson College. At the age of 18, he engaged as a book-keeper with Holmes & Co., edge tool manufacturers, where he remained two years; he then engaged in the grain commission business for himself, continuing for four years, when he took a position as general ticket agent for the Allegheny Valley R. R. for seven years. Next, he engaged as book-keeper for a wholesale grocery house for two years, after which he became book-keeper in the Second National Bank of Pittsburgh, remaining two years, and then went into the Auditor's Department of the Allegheny Valley R. R., and

remained there until July, 1880, when he came to Akron, Ohio, in September following, having formed a partnership, in August previous, with John F. Greer, under style of Akron Malleable Iron works, which is spoken of elsewhere in this Work. He was married in February, 1864, to Miss Lizzie E. Greer, a native of Pittsburgh. They have three children, viz.: Mary E., Annie W. and Nellie M.

A. M. HEATHMAN, groceries, provisions, flour and feed, 432 Centre street, Akron, is a native of Coventry Township, Summit Co., and was born July 28, 1832; is the eldest of seven children born to Elijah and Melintha (Westphall) Heathman, natives of Springfield and Coventry Townships. Elijah was the third son of Bennett Heathman, a native of Maryland, who came to Coventry in the early pioneer days, and followed farming there until his death. He was brought up on a farm, and worked also at carpenter's trade; also worked on Ohio Canal. Mrs. Heathman died at the residence of her daughter, in Copley Township, in the summer of 1880. A. M. (subject) lived at home until twenty years of age, brought up on the farm; also worked at carpentering, and visited Michigan, Indiana, Illinois, Wisconsin and Iowa. He was married Nov. 28, 1861, to Miss Agnes R. Kidder, a native of Akron, a daughter of John and Phoebe (Savage) Kidder, who were old residents of the place. In 1872, he engaged in the grocery business, the firm, Breniger & Heathman, continuing seven years; he then sold out and engaged in his present place. Five children have been born to him, four of whom are living, viz.: Melintha, George, Etha and Alexander—Ida, deceased.

DAVID E. HILL, President of the Hill Sewer Pipe Co., Akron, was born in Cattaraugus Co., N. Y., May 25, 1825, and is the youngest of four children born to David and Avis (McMillan) Hill, natives of Rhode Island, and who removed to New York in an early day. He was a carpenter by trade, and died in Cattaraugus Co. at the age of 77 years; she died at the age of 79 years. David E. (the subject) lived at home eighteen years; his brother was a cabinet-maker, and he learned the same trade with him. His education was received at the district schools. In 1843, he came to Middlebury, Akron, and worked for his uncle, Reuben McMillan, manufacturer of woolen machinery, until 1849, when the firm of Hill, Foster & Co., for

the manufacture of stoneware, was formed. They occupied the old "Black Mills," and continued in business until about 1851, when Mr. McMillan sold his interest to Hill & Foster. Mr. Hill was identified with the business until 1855, and retired for one year, at the end of which time he came back, and the firm became Hill & Powers, and later, Hill & Adams, which continued until 1868, when it was merged into a stock company, known as the "Hill & Adams Sewer Pipe Co.," Mr. Hill being President. He retired from the business in 1871. The old firm of Hill, Merrill & Co. made the first machine for the manufacture of sewer pipe in America. About the year 1866, Mr. Hill became one of a company of five men, who bought the present building, and engaged in the manufacture of woolen goods—known as the "Middlebury Woolen Mills." The business finally passed into the hands of Mr. Hill and John Townsend, and in the spring of 1873, the machinery was sold, the building was fitted for the manufacture of sewer pipe, and the Hill Sewer Pipe Co. was formed and incorporated, with Mr. Hill as President; his son, George R., being Secretary and Treasurer, with James Viall as Superintendent. Mr. Hill has always been a public-spirited man, favoring all improvements for the benefit of town or county. He served several years as a member of Middlebury School Board; also as a member of City Council of Akron, and as a County Commissioner for six years. He was an Abolitionist until formation of Republican party; since then he has voted with that party. He was married in June, 1848, to Miss Harriet L. McMillan, a daughter of Reuben McMillan. They have had three children, but one of whom is living—George R.

DENNIS A. HINE, deceased; was born in Milford, Conn., in the year 1808. His parents moved West and settled in Tallmadge Township, Summit Co., Ohio, at an early day. Our subject lived on the farm until 1829, when he came to Middlebury, and engaged as clerk in a general merchandise business of John McMillan's, and some years later, in company with Mr. M. L. Sherman, he engaged in the general merchandise business in Middlebury, they continuing a number of years, after which he clerked in Middlebury and at Tallmadge, and later conducted a butchering business in Middlebury, and next engaged in the fishing business on Lake Huron, after which, in company

with Drs. Jewett and Wright, conducted a water-cure establishment for a number of years in Middlebury; he then engaged in the nursery business, which he followed many years. He died July 27, 1878. Dec. 29, 1831, he married Miss Lucy A. Smith, a native of Groton, Conn. Of their eleven children, but five are living, viz.: Henry and Lewis C., both married and live in Akron; Addie, now Mrs. I. L. Bevis, of St. Louis, Mo.; Augusta, now Mrs. B. M. Allison, of Middlebury; and Jennie, now Mrs. Jacob Replogle, of Middlebury. Mrs. Hine is living on the old homestead.

DR. E. W. HOWARD, physician, Akron; is a native of Andover, Windsor Co., Vt., and comes of a family noted for its longevity; his father reached the age of 89; his father's mother reached 95; a great-aunt reached 115, and his great-grandmother the age of 97. Dr. Howard's parents, David and Cynthia (Crossman) Howard, were natives of Massachusetts. His father's family was one of those that contributed all their available male force to the Revolutionary war; his grandfather David, with his brothers James, Solomon, Joseph and Elias, went as soldiers, the latter being killed in the service of his country. Dr. Howard, the seventh child of a family of ten children, was born April 14, 1816; his youth was spent upon the farm, acquiring the rudiments of an education in the schools of the neighborhood, and more liberal advantages in a course at the Chester Academy. At the age of 19, he made a visit to the West, calling on his cousin, Prof. R. L. Howard, a physician in Elyria; was by him persuaded to study medicine, and accordingly began reading with him; this was in 1835. He subsequently attended lectures at Pittsfield, Mass., going later to Windsor Co., Vt., to read with L. G. Whiting, with whom he read for two years. In 1838, he graduated at the Berkshire Medical College, at Pittsfield, Mass., when he formed a partnership with Prof. R. L. Howard, in Elyria, Ohio. He practiced at Elyria only a year when he came to Akron, where he has remained in the practice of his profession up to the present. During the late war, he was sent by Gov. Tod to assist in caring for the wounded after the battle of Antietam. He was assigned to the hospital at Frederick City, Md., where he served about a month. In the following winter, the Governor again sent him to assist in caring for the troops, this time spending several months in hospital

work at Nashville, Tenn. Dr. Howard has been a member of the Summit County Medical Society since its organization, of which he has also been President. He is also a member of the Union Medical Association of Northeastern Ohio, which he has served two terms as President; of the Ohio State Medical Association, and of the American Medical Association. In 1876, he was a delegate to the International Medical Congress, held at Philadelphia. June 16, 1840, he married Miss Elizabeth Chittenden, a daughter of Henry and Elizabeth (Sprague) Chittenden, who were natives of Connecticut, and pioneers in Springfield Township. There are two children—Henry C., for the past seven years practicing in partnership with his father; and Frank D., engaged in the foundry business.

B. C. HERRICK, of Herrick & Cannon, wholesale and retail china, crockery and glass goods, Akron; is a native of Twinsburg Township, in this county, and is the eldest of five children, born to J. E. and Philo (Clark) Herrick; his parents were natives of New England; his father came when a young man from Massachusetts to Ohio, settling, in 1825, in Twinsburg, where he met and married his wife, a native of Connecticut; she came there with her parents in 1826. The older members of the family, including herself, walked a greater part of the way, while an ox team transported the household effects. After marriage they settled on a piece of land, cleared it, and are still living there, at the advanced age of over 75. In 1878, they celebrated their golden wedding. B. C. Herrick was born Oct. 25, 1829, and lived at home on the farm until 25 years of age, gaining the foundation of his education at the district schools, and later graduated at the Twinsburg Institute; at the age of 18 he began teaching winter school, continuing through ten seasons. In 1854, he went to Newbury, Geauga Co., Ohio, and, with his brother Earle, bought the business of E. Stone, Esq., and continued dealing in general merchandise, butter and cheese, for some two years, under the firm name of Herrick & Bros. He then sold his interest and bought a farm in Twinsburg, where he resided until 1867, traveling, however in the meanwhile, as a commercial traveler for four years. At this time he came to Akron, and in company with his brother-in-law, W. B. Cannon, formed the present business partnership. Mr. Herrick is a Trustee and

Steward of the Methodist Church, and takes an active interest in church matters. Feb. 4, 1858, he married Miss H. C. Cannon, a native of Aurora. By this marriage he has three children, Oakley C., Winnie C. and Victor M.

DAVID HANSCOM (deceased); was born Oct. 18, 1814, on his father's farm, near Portland, Maine; at the age of 6 years, his parents removed to Monroe Co., N. Y.; at the age of 18, he began learning the cooper's trade, and, when of age, he came to Ohio, stopping at Middlebury, where he remained one year, working at his trade; he then went to Lake Co., and pursued the same business there for three years. In 1840, his father's family came to Summit Co. and settled on a farm in Portage Township which the boys bought, the parents living with them. Our subject worked at Cuyahoga Falls some two years, then went to Ravenna, where he kept a hotel; also kept a hotel (half-way house) between Bedford and Twinsburg; he afterward came to Akron, where he conducted a cooper shop for two years; he then kept grocery until 1850, when he sold out to James Gardner, his partner; he then became one of a party of about one hundred and fifty going to California; he went to Pittsburgh and chartered a steamboat for the party, they embarking at Wellsville; they went direct to St. Joseph and thence overland to California, being three months on the way. Our subject engaged in the grocery business, and, after a year's stay in the land of gold, returned home by way of Panama and New York. Soon after his return, he and his brother Charles (the firm D. & C. Hanscom) engaged in the grocery business, and, some five or six years later, built on the northeast corner of Howard and Market streets, also taking their brother George in as a partner, under the firm name of Hanscom Brothers; they continued until about 1862, when they sold out, and, about a year later, engaged in the business again and continued about three years, when he again sold out; one year later, one of his rooms becoming vacant, he put in a stock of groceries and once more engaged in the business, continuing about seven years, since which time he lived retired until his death, March 26, 1881. The deceased was twice married—first, to Miss Sarah Pemberton, of Lake Co., Ohio; she died Oct. 21, 1844; they had three children, viz., Mrs. Thayer, of Westville, Ohio, and John and Cornelia.

March 17, 1845, he married Miss Sarah Stimson, a native of New York, and came with her parents to Ohio about 1840; there are two children—Mrs. Jennings, of Akron, and Frank.

COL. JOHN C. HART, deceased, was born in Cornwall, Litchfield Co., Conn., April 17, 1798. In 1802, his father, Rufus Hart, moved to Genesee Co., N. Y., where he lived until 1815, when he moved to Ohio. In the war of 1812, his father was a Lieutenant in a company commanded by Capt. Mallison, and was in the battles of Chippewa and Lundy's Lane and the burning of Buffalo. Between the age of 14 and 15, John C. enlisted in a company of cavalry at Rochester, N. Y., under Capt. Stone, and was with his father at Newark, Fort George and other contested points. He was at Black Rock as a bearer of dispatches when the British attacked Fort Erie in 1814. After the war, he and his father returned to Genesee Co., and, in 1815, they removed to Ohio, and settled at Middlebury, now the Sixth Ward of Akron. At the age of 21, John C. started south, going on foot to Steubenville, thence by raft down the Ohio. His raft lodging, he went on foot to Cincinnati, thence by canoe or skiff to Shawneetown, Ill., thence on foot to St. Louis, where, for a time, he worked in a mill, and, later, made bricks at Milton. The June following, he returned home and bought 50 acres of land just south of Middlebury, which he improved. He was married, Feb. 24, 1831, to Miss Margaret A. Sterling, by which marriage he had six children—four sons and two daughters. She died March 7, 1869, and, Dec. 22, 1870, he married Mrs. Mary A. Sterling, formerly Miss Todd, a daughter of Stephen Todd, of Beaver Co., Penn. She was born May 1, 1828, and, when 16 years of age, her parents removed to Wooster, Ohio, and, two years later, to Canal Dover, where she married John Sterling, a merchant of that place. He was born June 16, 1818, and died Dec. 14, 1854. By this marriage there were two children—John S., of Cleveland, and Flora E., now Mrs. Beardsley, of Cleveland. After her husband's death, she moved to New Lisbon, thence to Cleveland, where she lived until her marriage with Col. Hart, Dec. 22, 1870. Col. Hart obtained his military title by raising a regiment of cavalry at Middlebury under the old militia law of the State, and of which he was commander at the time it was disbanded.

HIRAM HART, retired, Akron; was born in Batavia, Genesee Co., N. Y., June 19, 1804, and is the fourth child in a family of seven children born to Rufus and Esther (Cotter) Hart, who were natives of Goshen, Conn. They were married in that State, and moved to New York about the year 1798, where they farmed until 1815, when he moved to Ohio. Two of his sons had come out the preceding spring. He settled on 100 acres of land in what is now Coventry Township, which he had bought before coming to the State, and which had been partly improved by a man named John Collins. Mr. Hart lived in this vicinity until his death, which occurred in 1840, his wife's death also occurring about that time. Hiram Hart (our subject) lived at home until he was 25 years of age. His educational advantages were limited, and confined to the district schools in New York, and a short period in Ohio. He was married, July 18, 1830, to Miss Sarah Smith, daughter of Moses and Sarah (Haley) Smith, who were natives of Massachusetts, and came to Ohio about the year 1825. After his marriage, he occupied a piece of land containing 50 acres, and continued upon it until 1844, when he bought the old homestead. In October, 1863, his wife died, leaving seven children, three of whom are living—Delos, a farmer in Springfield Township; Milton, cigar manufacturer, Akron, and Louisa, now Mrs. Thos. F. Cleveland, of Akron. Soon after the death of his wife, Mr. Hart moved to Akron, where he has since resided. He was married to Mrs. Pratt, formerly Miss Sophia M. Packer, a native of New York, who came to Ohio with her parents about 1832. They settled in Portage Co., where he died; she died in Akron, where she was living with her daughter. He was a prosperous farmer, and was widely known as a leading dairyman.

O. W. HALE, Deputy County Clerk; Akron; was born in Bath Township, Summit Co., Ohio, April 1, 1841, and is the third of five children born to William and Harriet (Carlton) Hale. They were natives of Connecticut and Ohio. She was the daughter of John Carlton, who died from wounds received in the war of 1812. William Hale came to Ohio with his parents in the year 1810, they being among the first permanent settlers in Bath Township. He was raised on the farm where he lived until 1857, when he located in Hudson, and in 1861

he moved on his farm, where he died the year following. He was three times married. His first wife, Miss Sallie C. Upson, of Tallmadge, died about six months after marriage. His second wife, who was Miss Harriet Carlton, died in 1853. His third wife, Miss Adaline Thompson, survives him, and is now the Matron of the Deaf and Dumb Asylum, at Fairbault, Minn. Our subject lived at home on the farm until 1861, when he enlisted in the 29th O. V. I., but, owing to his father's illness, received his discharge and returned home. Sept. 23, 1862, he married Miss Elizabeth Hanson, a native of England, who came with her parents to Summit Co. at the age of 13. By the marriage there were two children, one, H. C. now living. In 1868, Mr. Hale moved to Portage Co., where he lived two years. He then went to Corry, Penn., and engaged in the lumber business, and two years later he removed to Huntingdon, W. Va. where he also engaged in the lumber business. While at the latter place, he lost his wife, in 1874. He next moved to Akron and engaged as book-keeper in an agricultural implement store. In 1879, he took the position of Deputy County Clerk in the office under Sumner Nash, and has filled the position since. Nov. 26, 1876, he married at East Cleveland, Mrs. Cozad, formerly Miss L. E. Hine. She has one child by her former marriage, viz., Henry Irving Cozad.

LEVERETT JOSEPH IVES was born in Westfield, Mass., on the 19th day of September, 1806. He was a son of Joseph Ives and Sarah Bishop, both natives of New Haven, Conn. His paternal ancestor, William Ives, likewise recorded "Eves," came, it is supposed, from England, previous to 1639. He settled in New Haven, and was one of the sixty-three original free planters, who, upon the 4th day of June, 1639, signed the "Fundamental Agreement of Quinipiack" in, as tradition states, the barn of Mr. Robert Newman. Joseph Ives, son of William, married Jan. 2, 1672 or 1673, Mary Yale, born April 16, 1650, daughter of Thomas Yale, Esq., and Mary Turner, of New Haven. Mary Turner was a daughter of Capt. Nathaniel Turner; he, with Mr. Thomas Gregson, of New Haven, were of that "Godly company" who perished in the Phantom Ship, and both were direct ancestors of Leverett Joseph Ives. Gov. Elihu Yale,

in honor of whom, through his munificent donations, Yale College received its name, was likewise a son of Thomas Yale, Esq., and brother to Mary (Yale) Ives. Ensign and Deacon Samuel Ives, son of Joseph Ives and Mary Yale, was born in New Haven, Nov. 6, 1677; he died there Nov. 24, 1726, aged 49 years; he was one of the first two Deacons of the First Society Church of New Haven. He married Jan. 3, 1706, Ruth Atwater, born Dec. 31, 1688, daughter of Jonathan Atwater and Ruth Peck, of New Haven. Ruth Peck was a grand daughter of the Rev. Jeremiah Peck, who, "in 1660, was established, according to an act of court, in the Hopkins Collegiate Grammar School, of New Haven, and there taught the languages and sciences." Capt. Jonathan Ives, son of Deacon Samuel Ives and Ruth Atwater, was born March 14, 1716, "which perhaps is 1716-17." He married Feb. 19, 1737-38, Thankful Cooper, daughter of Joseph Cooper, of New Haven; she was born, probably, April 11, 1721. Capt. Jonathan Ives had four sons, all of whom served faithfully in the Revolutionary war. Jeremiah Ives, son of Capt. Jonathan Ives and Thankful Cooper, was born in New Haven, Nov. 19, 1738; he married June 7, 1768, Hannah Bassett, born Dec. 26, 1739, daughter of Abraham Bassett, of New Haven, and Mehitable Street, of Wallingford. Joseph Ives, son of Jeremiah Ives and Hannah Bassett, was born in New Haven, Feb. 2, 1771; he married Sarah Bishop, born Feb. 3, 1777; she was a daughter of Isaac Bishop and Sarah Macomber, of New Haven. Joseph Ives and Sarah Bishop, as already stated, were the parents of Leverett Joseph Ives. On the 25th of April, 1832, he married in Perrysburg, Cattaraugus Co., N. Y., Fidelia Elvira Field, born April 31, 1805, at Grass Hill, Gill, Mass.; they settled in the adjoining town of Lodi. About 1833, Mr. Ives removed to Hamilton, Canada, West. In the spring of 1837, owing to the occurrence of the Canada rebellion, being unwilling to swear allegiance to the British Crown, he removed to Cleveland, Ohio, and in the following autumn, became a resident of Akron, Ohio, where he lived twenty-three years, acquiring there prominence as a druggist; he identified himself largely in the interests of the town; was energetic in promoting its early growth, and may be truly styled one of its pioneers. In 1860, he removed to Chicago,

III. After remaining in the West a number of years, he returned East, and died at his residence, in East Orange, N. J., on the 20th of September, 1876, aged 70 years and 1 day. He was honest and upright in his dealings with men, a good citizen, a kindly friend and neighbor; his manners were pleasing, and full of hospitality; in politics, he originally belonged to the school of Whigs; in 1848, he voted the Republican ticket, and adhered thereafter firmly to the Anti-Slavery party. He gave to "Old John Brown, the martyr," the rifle he took to Kansas. Prominent in the early history of Akron, was the wife of the subject of this sketch. Fidelia Elvira Ives, daughter of Rodolphus Wright Field and Hannah Dwight Hollister, of Grass Hill, Gill, Mass. She traces her lineage through a number of the original settlers of New England, among whom may be mentioned Samuel Wright, of Springfield, Mass.; Elder John Strong, of Northampton, Mass.; Thomas Ford, of Dorchester, Mass.; Lieut. John Hollister and Richard Treat, both of Wethersfield, Conn.; and Zachariah Field, of Northampton, Mass., grandson of John Field, of England, the astronomer, who, in 1556, wrote the first astronomical work ever published, based upon the tables of the Copernican system; through it he has become known to history as the "Proto Copernican" of England. Like her ancestors, Fidelia E. Ives possesses energy, activity and strength of character; through all the years of her residence in Akron, her gentleness of spirit and large benevolence secured her many friends.

HENRY WARD INGERSOLL, Akron, Ohio. Lemi Ingersoll was born in Lee, Berkshire Co., Mass., and was raised on a farm. Theodosia S. Humphrey, whom he married, was born at Goshen, Conn. They both came, when young, with their respective families, to this county. Six sons and two daughters were the fruit of their marriage. The subject of this sketch was born to them Oct. 23, 1833, in Richfield Township, Summit Co., Ohio. When he was 2 years old, his family moved to Hudson. In 1857, he graduated from the Western Reserve College, and at once entered upon the study of law with Van R. Humphrey, of Hudson, then with Wolcott and Upson, of Akron, being admitted to the bar at the Supreme Court of Columbus, on March 29, 1859, after which he located in

Akron, where he has practiced ever since, except during the period passed in the army. He enlisted in September, 1861, in the 2d O. V. C., as a member of the regimental band, serving in the Western campaign in the division of Gen. Blount. During that and the following years the regiment made an excellent record. After the band was discharged by order from the War Department, he enlisted at the call of Gov. Brough, in 1864, in 164th Regiment, Company A., O. N. G., and served on the Potomac, where they were garrisoned in six forts. In 1862, he was commissioned by Gov. Tod, Captain in the 124th O. V. I., but owing to the consolidation of the companies, he was mustered out. He came again to Akron in the fall of 1864, and has been in continuous practice since. For several years he has been a member of the Council, and Recorder and Attorney for the corporation. In 1863, he was a member of the Council and took the census and prepared the necessary papers and obtained from the Secretary of State, the present charter as a city of the second class. For many years he has been chorister of the Congregational Church. June 6, 1866, he married Miss Sarah H. Boardman, of Newton Falls; there are two children living.

JAMES IRVIN, deceased; was born in Center Co., Penn., May 29, 1806. His father was a farmer, and he was raised to the same business. He came to Ohio about the year 1838, and located in Middlebury, at that time one of the most energetic business places on the Reserve. He here formed a partnership with Mr. John Johnson, and did a general merchandise business for a number of years, when Mr. Irvin retired, and so lived until his death, Sept. 4, 1863. He married Nov. 2, 1842, to Miss Martha Clark, a native of Springfield Township, Summit Co., and a daughter of Wm. L. and Sarah (De Haven) Clark. Mrs. Irvin is living still on the old homestead, in Middlebury, where so many years of her life have been passed; she has no children. Her father, William L. Clark, was a native of Union Co., Penn.

DANIEL A. JAMES, Akron; youngest son of Daniel and Mary (Pells) James, was born in Paris Township, Portage Co., Ohio, Oct. 13, 1846. His father was a native of Wales, and died in Portage Co., Ohio, in 1846; his mother was a native of New York State. He learned cabinet-making in Ravenna, Ohio; in 1866, he

came to Akron, and worked for Miller, Thomas & Co., until 1875, when he started a manufactory of office and church furniture and interior decorations, which business he has carried on since with fair success; in 1876, he located at 218 West Market street, employing five skilled workmen constantly; he experiences a steady growth of business. He is the youngest of sixteen children, of whom but five are living. In February, 1879, he married Louisa Thomas, daughter of George Thomas, of Akron.

M. JEWETT, physician, Middlebury; is a native of Massachusetts; he was born in Greenwich, Sept. 4, 1815. He came to Ohio in the year 1836, and located at Hudson, where he read medicine with Drs. Noble and Town; in 1839, he began practice at Mogadore, and the years 1850 and 1851 he spent in California, after which he returned to Ohio, and during the winters of 1855-56 and 1856-57, he represented Summit County in the State Legislature. In 1858, he removed to Middlebury, where he has since practiced his profession. The Doctor attended lectures at Willoughby, Ohio, and graduated from that college after its removal to Cleveland. Now 66 years of age, he is one of the oldest practitioners in the county; he has been associated in practice with Dr. Ferguson (a former student), of Mogadore, Drs. L. S. Esbright and S. T. Odell, of Akron, and at the present time with Drs. C. C. Davison and F. W. Reed. Having a great love for horticultural matters, he has given his leisure moments to the management of a small farm, and has now in bearing the largest peach orchard in the county, besides a great variety of other fruits, the care of which afford an appreciated recreation.

DR. W. C. JACOBS, 605 High street, Akron, is a native of Lima, Ohio, where he was born Feb. 26, 1840. His parents, T. K. and Ann (Elder) Jacobs, were natives of Juniata Co., Penn., whence they came, in 1836, to Ashland, moving two years later to Lima, where they have since lived. His father was a tailor by trade, though turning his attention to farming in the new country, and was one of the early pioneers of the latter place. Dr. Jacobs, the fourth in a family of nine children, spent his early years on the farm and in the village until the age of 16, when he received an appointment to the National Naval School at Annapolis, Md. He resigned in 1859, and

began the study of medicine in Cincinnati with Dr. William Carson, graduating in 1862, at the Ohio Medical College in that city. In April, 1862, he was appointed Assistant Surgeon in the 4th O. V. C., and served with the regiment until December, 1862, when he was promoted to the position of Surgeon and assigned to the 81st O. V. I., with which he served until the end of the war. During the Atlanta campaign, he served on the Operating Board of the Second Division, Sixteenth Army Corps. October, 1865, he came to Akron, where he has since practiced his profession. He is a member of the Summit County Medical Society, of the Union Medical Society of Northeastern Ohio, of the State Medical Society, and of the American Medical Association. Of the second named society Dr. Jacobs was the first Secretary, and has held offices in other of the societies. September 10, 1863, he married Miss Huldah M. Hill, a native of Knox Co., Ohio. Her father, Luther Hill, was a native of New York, and settled with his parents in Richland Co., Ohio, in 1811. Dr. Jacobs has one child—Herald L.

TIMOTHY S. JONES, of the firm of Jones, Wait & Co., potters, Middlebury, was born in Venango Co., Penn., April 22, 1829. His father, Alpheus Jones, was a blacksmith. At the age of 16, our subject began the potter's trade, and worked at same for five years. He then went to Tionesta, Penn., where he was lumbering until 1855. In this year he came to Ohio and settled in Middlebury, working for three years in the Sewer Pipe Company. He then worked as a potter one year, when, in company with Harvey Baldwin, he opened a pottery, which they conducted a number of years, when he sold his interest and worked at his trade as a hand. In November, 1880, the present company of Jones, Wait & Co. was formed. They have liberal facilities for making all kinds of stoneware, and will add double their present capacity during the summer. April 25, 1842, he married Miss Martha H. Watson, a native of Venango Co., Penn. Of their seven children, four are living, viz., Sarah, now Mrs. D. C. Allen, of Middlebury; Onna, now Mrs. C. M. Wait; Ada H., now Mrs. H. Akers; and Wilburn L., the latter and Mr. Wait Akers and T. S. Jones forming the company.

PARK B. JOHNSTON, Akron, is a native of Middlebury (now Sixth Ward of Akron). He was born Sept. 23, 1846, and is fifth in a family

of ten children born to John and Elizabeth R. (Newton) Johnston. Our subject lived at home until the year 1865, when he took a position as clerk in the Post Office Department at Washington, D. C., where he remained until 1871. He then returned to Akron and took the position of Deputy Auditor, which office he held until November, 1880. Oct. 16, 1878, he married Miss Lois Caruthers, a daughter of Perry C. and Cynthia Clark Caruthers, of Tallmadge Township. By the marriage there is one child, viz., Ethel Lois Johnston.

MRS. ELIZA KENT, Middlebury (Sixth Ward), is the widow of Roswell Kent. He was born in Leyden, Mass., May 18, 1798, and was a son of Zenas and Ann (Plumb) Kent, who were natives of Massachusetts. They removed to Ohio about the year 1812, and settled in Hudson, where he followed his trade of carpenter and joiner. He soon after settled on a farm in Portage Co., and lived in that vicinity until his death, which occurred in 1824. Mrs. Kent lived with her son Roswell until her death, which occurred in Middlebury about the year 1838. Roswell Kent lived at home until some time after attaining his majority. His educational advantages were limited. When he became of age, he went to Ravenna, where he clerked in his brother's store. About 1820, he came to Middlebury to establish a business for his brother and Mr. Oviatt, and about the year 1826 he bought the establishment, continuing in the business for a number of years. He then engaged in the manufacture of woolen machinery and later in the manufacture of sewer-pipe, which he followed until his death, which occurred July 19, 1871. He was married to Miss Eliza Hart, who was born August 6, 1808, in Middlebury, and was the first white child born there, and the third in Tallmadge Township. She was the seventh child in a family of eight children of Joseph and Annie (Hotchkiss) Hart. He was a native of Nova Scotia, and at the age of 12 years went to sea, being a sailor for a number of years, and finally became captain of a vessel. His wife was a native of New Haven, Conn. In 1804-5, they came to Ohio and stopped at Deerfield, and in April, 1808, came to Tallmadge Township, where the same year they erected a saw and grist mill. He died about the year 1830. Mrs. Hart lived in this vicinity with her son William until her death. Mr. and Mrs. Kent had seven children, of whom

but three are living—Ella K., now Mrs. Finley McNaughton, of Akron; Russell H., of the Akron Stone Ware Company, of Middlebury, and Flora K., now Mrs. T. S. Paige.

DAVID L. KING, manufacturer, Akron; was born in Warren, Trumbull Co., Ohio, Dec. 24, 1825. He was the third son of a family of eight children born to Leicester and Julia Ann (Huntington) King, both natives of New England. Mr. King's father commenced business as a merchant in Westfield, Mass., but, in 1817, desiring to establish himself in business at Natchez, Miss., he came West, spending some weeks in Warren, Trumbull Co., Ohio. He proceeded to his destination, where, although the prospect of success was very bright, he could not reconcile himself to the thought of rearing his family under the degrading influences of slavery. He finally abandoned his scheme, and returned to New York by vessel, narrowly escaping death from the yellow fever on the voyage. The same year, he removed to Warren, Ohio, and engaged in a successful mercantile business until 1833, when he became interested in the land upon which Akron is built. He served one term as Associate Judge, and subsequently represented the Trumbull County District in the State Senate for two terms, from 1835 to 1839. He became an ardent opponent of the institution of slavery, and afterward allied himself with the Liberty party, refusing the most flattering offers of advancement from the Whigs, in obedience to his convictions upon the question of slavery. He was the nominee of this party for Governor in 1844, and of the Free-Soil party for Vice President in 1847, though he subsequently declined, and gave his support to Martin Van Buren. He died Sept. 19, 1856, just as the principles for which he had labored were made the foundation of that great political party which has carried them on to such glorious fruition. The subject of this sketch, David L. King, graduated at an early age at Harvard College, and removed to Akron in 1846, where he at once entered upon the study of law in the office of King & Taylor. He was admitted to the bar in Cleveland in 1848, and, in 1851, established his residence there, practicing his profession with success until 1856, when he returned to Akron. Here, in 1867, he abandoned his profession and accepting the offices of Secretary and Treasurer in the Akron Sewer Pipe Co., the largest

institution of the kind in the world, he engaged in the manufacture of "vitrified sewer pipe." Since that time, this constantly increasing business has absorbed his whole attention. Rapid success followed his management of this company, the product of which in the past year reached the amount of \$400,000. The completion of the Atlantic & Great Western Railway, in 1864, gave a great impetus to the manufacturing interests of Akron, and to Mr. King's intelligent activity and financial ability is largely due the advanced position as a manufacturing point of which Akron is justly proud. All enterprises for the promotion of the city's growth have found in Mr. King a liberal supporter and a capable worker. He was prominent in securing the extension of the Baltimore & Ohio Railroad, and, in 1871, was elected President of the Valley Railroad, the establishing of which he did so much to secure. At the death of his father, Mr. King assumed the management of the large landed estate which his father owned in company with Gen. Simon Perkins, pursuing a policy in the disposal of these lands which materially aided the interests of the growing city. A member of St. Paul's Episcopal Church, and for fourteen years an active Superintendent of its Sunday school, he has ever been found a prominent worker in all charitable and benevolent enterprises. He is known throughout the community as an indefatigable worker, and is highly esteemed. He was married, May 1, 1849, to Miss Bettie Washington Steele, of Charleston, Va., a grand-neice of Gen. Washington. Of this union were born Ellen Lewis, Bettie Steele, Howell Steele, Susan Huntington and Martha Perkins King, all of whom are living except Ellen Lewis, who was married, Jan. 19, 1870, to David R. Paige, of Akron, and died Dec. 20, 1878, leaving two sons, Charles Cutler, born Nov. 25, 1870, and David King, born May 20, 1872. The second daughter, Bettie Steele, was married, Dec. 10, 1873, to John Gilbert Raymond, of Akron, and has one child, Harry King, born April 29, 1877.

FRANK J. KNAPP, manufacturer of stoneware, Akron, is a native of Baden, Germany. His parents, John and Barbara (Schneider) Knapp, came to America in 1847 and settled at Pittsburgh, going thence to Minnesota, and, in 1850, to Akron. His father was a stone-mason and followed the trade in this country; he died

about 1867; his wife died three years previous. Frank J. was born in Germany June 4, 1840; he came to this country with his parents, with whom he lived until he was about 22 years of age. At the age of 13, he was apprenticed to the potter's trade, and six years later, he was conducting his own shop; entering his wares at an agricultural fair, he secured the first premium over five competitors. He has been conducting the business here ever since, save for eight years, during three of which he was engaged at the business in Stark County, and later, worked five years with Johnson & Baldwin, in the Sixth Ward. He started his present business in 1868 or 1869, which has grown until he now employs about thirty hands and from four to six teams, turning out from 12,000 to 15,000 gallons per week. His business is done entirely upon orders, although he employs no agents. In 1862, he married Miss Louisa Hines, of Coventry, Summit Co., Ohio, and by her had three children, two of whom are now living—Mary and Emma. In the fall of 1878, he married Miss Katie Strunk, of Wadsworth, Medina Co., Ohio.

REUBEN N. KRATZ, book-keeper, Akron; was born in Milton Township, Wayne Co., Ohio, July 2, 1845; at 18 he began teaching, having received a good high-school education at Smithville. Until 1870, he taught in Medina, Summit and Wayne Counties. In 1871, he went to Pentwater, Mich., where, for two years, he had charge of the Union schools. In 1873, he came to Akron, and, in August of the same year, was married to Miss Amanda Miller, daughter of Charles Miller, of Akron; she bore him two sons; one is deceased. He entered the employ of Mr. Miller, having charge of the shops and lumber yards; finally, the firm was changed to Miller & Kratz. In 1877, he became a partner with Harvey F. Miller, continuing one year, followed by a year of teaching in the public school, since which time he has been book-keeper for D. W. Thomas. His mother was a native of Bucks Co., Penn., and his father, Jacob Kratz, was of German descent, also a native of Bucks Co., Penn., where he engaged in farming; he came to Wayne Co., Ohio, in 1838, and resided on a farm there until his death in 1872, leaving a family of five sons and one daughter, all now living, viz.: Samuel, a farmer in Wayne County; Maria, wife of J. C. Stiner, of same county;

Reuben N. (subject); Henry E., of Bucyrus, Ohio; Jacob L., farmer at Salt River, Mich., and Lee G., a student in the Cincinnati Conservatory of Music. Reuben N. Kratz is a member of the English Lutheran Church, and Superintendent of the Sabbath school.

J. A. KOHLER, lawyer, Akron, Ohio; is a son of Henry Kohler, and was born Aug. 15, 1835, in Franklin Township, in this county. He received his education at the public schools of the neighborhood, and at 18, went to the Lodi Academy. In 1853, he came to Akron, where he apprenticed himself to one Sanford for four years, and then began the study of law with N. W. Goodhue, and was admitted to the bar in 1859; elected Prosecuting Attorney two terms, beginning in 1868 and continuing to 1872; practiced with Hon. Sidney Edgerton for a number of years, and since 1881, in firm of Kohler & Saddler. He was married in May, 1860, to Miss Frances Coburn, daughter of Dr. Coburn, of Akron. They have two children—Burt and George. Subject's grandfather came from Holland, and settled in Berks Co., Penn., at beginning of 19th century. He was born about 1788, and was a soldier in the war of 1812; he came to Franklin Township, this county, about 1836, where he lived until his death in 1843.

RICHARD H. KNIGHT, publisher of *Akron City Times*, Akron, Ohio; is the second son in a family of seven children born to Jonathan and Deborah (Barber) Knight, Connecticut. The father was of English descent, but was born in Norwich, Conn., where he followed farming until 1832, when he came to Ohio and settled at Ridgeville, and resided there until his death. He had three sons and four daughters; five children still living. Richard H. (subject) was born Nov. 11, 1813, in Litchfield Co., Conn., and came with his father's family to Ridgeville as above (in 1832) and followed farming and stone-cutting in Lorain Co. for fourteen years, and then moved to Dover, Cuyahoga Co., where he lived until 1873. He owned a farm there, on which was a stone quarry, and he worked in the various departments of stone-work at Elyria, and on the Cleveland, Columbus & Cincinnati R. R. In 1873, he removed to Akron, and purchased the *Akron City Times*, and has devoted himself to the business management of it since. He was married Dec. 31, 1837, to Miss Emma Beebe, of Ridgeville, Ohio. They have three children, viz.: Eber H., carpenter, at

Grand Rapids, Mich.; Ellen, a teacher at Cuyahoga Falls, Ohio, and Clarence R., editor of the *Akron City Times*, who was born at Dover, Cuyahoga Co., Ohio, Aug. 9, 1850. He (Clarence R.) entered Lombard University, at Galesburg, Ill., at the age of 17 years, for four years, and in 1871-72 was in the Ohio Wesleyan University, at Delaware, Ohio. Came to Akron in 1872, and at the opening of Buchtel College, matriculated and finished the course in 1873; when in the December following he took charge of the editorial department of the *Times*, which position he has since retained.

ARZA KELLOGG, retired, Akron. The birthplace of our subject was in Addison Co., N. Y. His parents were David and Christiana (Traver) Kellogg. From the date of his birth, which was Feb. 11, 1799, he lived there for thirty-five years, attending school in his boyhood, and acquiring a thorough common-school education. When he attained his majority, he began to fight his own life-battles, and farmed at that place until 1834, when he discontinued the vocation, and, with a good team, started for Akron, which place he reached in September. For several years he engaged in teaming, but when, in 1848, the "gold fever" reached Akron, he grew discontented, and, in the spring of the following year, he, in company with fifteen others, driving three six-horse teams, traversed the overland route, arriving at Sacramento in August, which was five months from the time of his leaving Akron. There he engaged in the dairy and gardening business, within two miles of Sacramento, on the river, all the products selling for high prices; this he followed with good success for four years, at the end of which time he returned to Akron. It was in the spring of 1854 that he bought his present place, on Maple street, the lot consisting of $5\frac{1}{4}$ acres. In 1856, he was employed as Sexton of the Akron Rural Cemetery, which place he held for twelve years, since which time he has farmed land which he owned here. In 1874, he was appointed Superintendent of the Akron Cold Spring Co., and is one of its principal stockholders. In March, 1825, he married Miss Polly Marshall, of Starksboro, Vt., from which union one child was the issue, whom they named Julia O., and who died at Akron in her 19th year. His wife, Polly, is a granddaughter of Rev. Joseph Marshall, a noted and eccentric clergyman of Starksboro, Vt.

SAMUEL A. LANE, Mayor of Akron, and whose portrait appears in this work, was born in Suffield, Hartford Co., Conn., June 29, 1815. His father, Mr. Comfort Lane, commonly called by his townsmen "Judge Lane," beside cultivating a small farm, carried on quite an extensive carriage building establishment, his specialty being the old fashioned, ante-railroad, thorough-brace stage coach; "Judge" Lane was also something of an inventor, and beside fabricating a number of labor-saving devices for facilitating his own business, was the inventor of a cotton-picking machine called the "Suffield cotton gin," that, when perfected, he expected, would rival if not entirely supersede the celebrated Whitney cotton gin, then and ever since mainly used by the cotton planters of the United States. The letters patent, on parchment, for this machine, bearing the autograph signatures of John Quincy Adams, President, Henry Clay, Secretary of State, and William Wirt, Attorney General, and the great seal of the United States, under date of March 24, 1825, are still in the possession of the subject of this sketch. Mr. Lane, the father, dying before successfully introducing his machine to the public, it was never utilized, and the expenses incurred in its invention, construction, patenting, etc., were of course a dead loss. The boyhood of "Lant," as he was familiarly called, was about equally divided between the district school, the farm, and the painting room of the carriage-shop, it being the intention of his father to bring him up to the trade of a carriage painter—his next elder brother, Henry Leander, being designed by the provident father to be a wood-workman in the same line of business. The death of the father, however, Sept. 20, 1828, when Alanson was but 13 years old, thwarted this plan so far as he was concerned, though the brother, who had already been at work a year or so as an apprentice to the trade, was enabled to secure a situation in the then celebrated establishment of George & Henry Francis, in Hartford, and complete his trade. The condition of the deceased father's affairs was such, on settlement of the estate, that it became necessary for the sons old enough to do so to win their own bread. By working for the neighboring farmers in summer and doing chores for his board while attending school winters, Alanson was not only able to provide for himself but also to contribute

something toward the replenishment of the family larder until the spring of 1831, when, by an arrangement made for him by his eldest brother, Comfort U. Lane, who had been for several years a clerk in the store of Owen & Hurlbut, extensive paper manufacturers in the village of South Lee, Berkshire Co., Mass., he entered the adjoining store of Mr. Billings Brown, quite an extensive mill owner in the same village—the distance from Suffield to South Lee being about fifty miles. Commencing with Mr. Brown May 1, 1831, being then not quite 16 years old, the relations of the merchant and his clerk were of the most friendly and confidential character for a year and a half, when Mr. Brown, by reason of his other more important interests, substantially abandoned his mercantile business, and, in the fall of 1832, young Lane's clerkship was transferred to the store of Mr. Austin Hayden, in the more important village of Pittsfield, in the same county. Here he remained until the spring of 1833, when, on visiting home (after an absence of just two years, during which time he had outgrown the knowledge of his most intimate acquaintances), he entered into an arrangement with a Hartford book publisher to canvass Merrimack Co., in the State of New Hampshire, for Goodrich's History of the United States. Simultaneously with his arrival at Concord, the county seat of Merrimack Co. and the capital of the State, was the arrival of Gen. Andrew Jackson, President of the United States, who, with his Cabinet, was at that time making a grand triumphal tour through New England. The military and civic display on that occasion was probably greater than was ever witnessed in that State, either before or since, and though the embryo book agent was obliged to sleep for two consecutive nights in a stage coach in the stable yard of the hotel where he had intended to stop, he laughingly remarks that he has always felt gratified at the honors then and there paid to *him* and "Old Hickory." Though his father had been a staunch Democrat before him, the sight of the old hero and the "pomp and circumstance" of that occasion, probably had a tendency to confirm young Lane in his Democratic proclivities, and in making him, for many years after attaining his majority, an active member of the Democratic party. The display over, the canvassing business was vigorously proceeded with, every family and business establishment in the city

and county being visited, and the work so satisfactorily done, that on his return to Hartford, though then but a little over 17 years old, he was detailed to do similar work in Georgia and South Carolina, with his headquarters at Augusta. Arriving at his destination in January, 1834, the principal towns in the river counties above that point, in both States, were canvassed during the winter, spring and early summer, and a good portion of the books delivered. A hitch in the receipt of books from the North occurring, in the latter part of the summer, young Lane entered the office of the *Southern Spy*, an anti-nullification or radical Union paper, as assistant editor and general helper, in the village of Washington, Wilkes Co., Ga., then and for many years afterward the home of the since notorious Southern politician and rebel General, "Bob" Toombs. At the close of the election campaign, in October, 1834, in which the Unionists of Wilkes Co. were triumphant over the Nullifiers for the first time in several years, and having closed his canvassing matters, young Lane, with a view of resuming mercantile operations somewhere in the South, visited Mobile and New Orleans, in both of which cities, in January, 1835, he made a diligent effort to obtain a clerkship, but being a stranger, and there being at least twenty applicants to each vacancy, he was unsuccessful, and concluded to return North. Leaving New Orleans by steamer, and making short stops—at Louisville, Cincinnati and Columbus—he reached Cleveland about the 1st of March, whence he proceeded directly to Aurora, in Portage Co., where an aunt and other acquaintances from Connecticut resided. After a somewhat prolonged visit among his Aurora friends, and a short time spent at Ravenna, the county seat of Portage Co., he wended his way to the then new village of "Cascade," now the busiest portion of the city of Akron, taking up his abode at the "Pavillion House," kept by Mr. Charles B. Cobb, now residing on his magnificent farm just west of the city limits. This hotel stood on the northwest corner of Howard and Market streets, where the fine brick block of Dr. E. W. Howard and Edward Oviatt, Esq., now stands. Being now rather short in funds—in fact, substantially "dead broke"—our young adventurer was glad to avail himself of Mr. Cobb's offer to let him work for his board—clerking, tending bar, waiting on guests, etc.—

until something more favorable should "turn up." This was on the 10th day of June, 1835, and nineteen days before he had attained his 20th birthday. Mercantile clerkships being less plenty than aspirants therefor, and no eligible situation presenting itself, our impecunious young friend continued to mix whisky toddies and perform the multifarious duties of a village hotel tapster for about two months, when he was offered and accepted a temporary situation in the shop of a house and sign painter by the name of Burt, as a sort of half-apprentice, half-journeyman, at very low wages, and to board in the family of his employer—the very first jobs assigned to him being some ornamental work beyond the skill and capacity of his employer and so-called instructor. Applying himself diligently to the business in hand, with his natural taste for designing, lettering, etc., and his youthful experience in and about his father's carriage-shop, he was in three months the peer of his employer in all branches of the business carried on, and, in some, his superior. This arrangement continued until about the 1st of December, 1835, when work substantially closing down for the winter, our young "artist" returned to his old quarters at the Pavilion. Shortly afterward, however, he was offered and accepted the position of "pedagogue," in School District No. 7, Portage Township, about a mile and a half west of Akron, on the Medina road. Though not liberally educated, having graduated from the district school of his native town at the age of 15 years, and though several of his scholars were older than himself, and one or two in some branches greatly his superiors, he managed to get creditably through his term of three months, or at all events to draw, if not earn, the munificent salary which the Trustees had stipulated to pay him, to wit: *\$11 a month and board 'round*. In the spring of 1836, yielding to his natural tastes in that direction, his dire necessities, and the encouragement of his friends, Mr. Lane, then not quite of age, rented a shop and started in business on his "own hook," as a full-fledged "house, sign and ornamental painter," soon attaining, and for many years maintaining, a fair standing in that profession.

In September, 1837, while successfully pursuing his chosen avocation as a painter, availing himself of the slight knowledge of the printing business and journalism acquired in the office

of the *Southern Spy*, and taking an active interest in the reformatory measures then being inaugurated for ridding the village of certain professional gamblers and other disreputable characters, Mr. Lane commenced, and for a year and half maintained, the publication of a small semi-monthly paper, under the unique title of the Akron *Buzzard*, a more extended history of which will be found under the head of the "Press of Summit County," Mr. L., however, continuing his painting business without interruption. November, 11, 1838, Mr. Lane then 23 years old, was married to Miss Paulina Potter, of Castleton, Ontario Co., N. Y., the foster-sister of Mr. Paris Tallman, now living in happy retirement from active business, at No. 803 East Market street. A few days later, Mr. Henry L. Lane, the carriage builder heretofore spoken of, arrived in Akron from Connecticut, with the view of establishing himself in business here, and at the earnest solicitation of the brother, and to allay the fears of his young wife for his personal safety, by reason of his fearlessly exposing the disreputable characters and practices of the village, combined with other causes, in March, 1839, the *Buzzard* was discontinued, and a copartnership was formed between the two brothers, under the firm name of H. L. & S. A. Lane, for the purpose of carrying on a general carriage making and painting business. Shops were erected on the site now occupied by the brick blacksmith-shop of James A. Moody, on South Main street. Though quite limited in means, everything in those days having to be done on the "truck and dieker" principle, a fair business was being done, when, on the 20th day of July, 1841, the elder brother, Henry L. Lane, suddenly died, about two months, only, after his marriage to Miss Sarah Hovey, of Granville, Ohio. The surviving junior partner continued the business, though to great disadvantage, by reason of his non-acquaintance with the main branches thereof, until the close of that year, when he associated with himself an old graduate of his father's establishment, lately arrived from Connecticut, Mr. Jonathan Remington, the father of Mr. O. H. Remington, the jeweler now doing business on Howard street. The new firm of Lane & Remington continued in operation about two years, when the concern was sold to other parties. Too close application to his own branch of the business (paint-

ing) having by this time very materially impaired Mr. Lane's health, and having meantime also become deeply interested in the success of the Washingtonian Temperance Reform, then agitating the country, in the spring of 1844, Mr. Lane again embarked in the newspaper business, in connection with Mr. William T. Coggeshall, as detailed elsewhere, reviving the *Buzzard* as a temperance organ, but soon changing its name to the *Cascade Roarer*, which was continued with a fair degree of success for something over two years, Mr. Lane leaving to his partner the general conduct of the office, and devoting most of his own time to lecturing, canvassing for subscribers to the paper, correspondence, etc. One novel feature adopted by Mr. Lane, as a lecturer, was to take the other side, *i. e.*, traveling in connection with another lecturer, and discussing the question pro and con, Mr. Lane using the same arguments in favor of drinking, selling, etc., usually urged by drinkers and venders, and by carrying them out to their legitimate results, with the introduction of ludicrous illustrations to show that the use of intoxicating liquors, instead of shortening, prolongs life; instead of poverty, brings riches; instead of sorrow, happiness, etc., often producing a greater impression upon the minds of those addicted to their cups, and those engaged in the traffic, than the most eloquent straightforward lecturing could possibly do, the "discussions," unlike the regulation temperance lecture, calling out the very classes sought to be reformed and benefited. On the discontinuance of the *Cascade Roarer*, in the fall of 1846, Mr. Lane continued to occupy the lecture field, for the most part, until the fall of 1847, when, with improved health, he again embarked in the painting business, assiduously devoting himself thereto until the spring of 1850, so closely, in fact, that during the previous year a serious relapse of his old malady—a sort of paralysis of the stomach, or an aggravated form of dyspepsia—had substantially unfitted him for that or any other active business. With the view of bettering his physical as well as his financial condition, with some 200 other Summit Co. men, he started overland for California on the 14th day of March, 1850, and though many of his friends believed that, in the precarious condition of his health, he would never live to reach the Pacific Coast; and though the journey was very hazardous and fatiguing, he not only got

safely through, but heavier by thirty-two pounds than when he left Akron, and six pounds heavier than ever before in his life; a condition of things—thanks to the pure air, vigorous exercise and coarse food of the plains and mountains, and the salubrious climate of California—more than maintained during his entire two years sojourn upon the Pacific Coast. Arriving at Placerville, the first town entered in California, August 4, 1850, after a day or two spent among the mines, and a stop of one day at Sacramento, Mr. Lane proceeded immediately to San Francisco, where he remained during his stay in California, making his rooms the general headquarters of Summit Co. gold-seekers visiting the city, whether en route for home or on their way to the mines via the Isthmus route; also acting as the regular semi-monthly correspondent of both the *Beacon* and the *Democratic Standard*, in keeping the "loved ones at home" posted as to the movements of their friends in the mines and other portions of California—a service very greatly appreciated by the people of Akron and Summit Co.

On reaching San Francisco, a few days were spent in "prospecting," and finding nothing better suited to his tastes or his finances, Mr. Lane, having thoroughly regained his health and youthful vigor, then being 35 years of age, again embarked in the painting business, renting a small second floor room for a shop, and earning with his own hand over and above his board and expenses, about \$200 per month. At that time, Mr. James G. Dow, a former Akron merchant, one of the "Forty-niners," was engaged in the retail auction business, which was netting him about \$3,000 per month. In October, Mr. Dow disposed of his stock of goods, with the view of spending the winter with his family in Massachusetts. Before leaving, Mr. Dow advised Mr. Lane and Mr. Charles G. Caldwell, also a "Forty-niner," and an Akron boy, then operating a small "ranch"—growing milk, butter, eggs, etc.—at Sacramento, to embark in the auction business, in which he had done so well, offering to lease to them for six months a building owned by him, on the corner of Jackson and Montgomery streets, for which he was then receiving \$800 per month in rents, for \$600 per month, \$350 of which was to be paid monthly in advance to the land-owner, the remaining \$250 to remain in their hands until his return in the spring. The plan appearing

perfectly feasible, Mr. Lane added his little "pile" of about \$600 to the Mr. Caldwell's cash surplus of about \$1,400, the firm of Lane & Caldwell borrowing \$1,000 from a mutual friend, and with a cash capital of a little over \$3,000, "sailed in," Mr. Dow aiding them in the purchase of their goods and in getting started. The "grand opening" took place Dec. 1, 1850, and for a time gave promise of abundant success. Within three weeks, however, and almost before Mr. Dow had got outside the harbor, one of those sudden and disastrous commercial revulsions then peculiar to the Pacific Coast—a regular panic and stagnation in almost every branch of trade—occurred, in consequence of which not only was it almost impossible to sell anything, at any price, but affecting the wholesale trade to such an extent that they could go into the market and duplicate the very goods they had in stock at less than one-half the prices they had paid for them. This condition of things continued for several months, the result being, that though they struggled hard, and held on in hopes of better times, they sunk every dollar invested (though managing finally to refund their borrowed money), besides coming out, at the end of the six months, nearly \$1,500 in debt to their generous-hearted landlord; the building, however, having been destroyed in the big fire of May 4, 1851, about one month before the expiration of the lease. Before this, however, Mr. Lane had returned to his paint-pots and brushes, and Mr. Caldwell to his cows and chickens, which, in the mean time, had been in charge of Mr. William H. White, also an Akronian, and now the head miller in the Allen Mills of Akron. On his return, about the 1st of June, 1851, Mr. Dow, after listening to the lugubrious story of the broken-down merchants, philosophically remarked: "Well, boys, you've had a pretty rough time of it, but it's all in a life-time; and there's one consolation about it, the more you have of it the shorter'll be the life-time. But," he continued, "I'll not be hard on you, boys, for I know how it feels to be a 'busted-up community' myself, and if you'll make me up 50 cents on the dollar, I'll call it square." This offer was of course gladly accepted, each contributing his equal share, Mr. Lane at this time earning at his trade about \$300 per month, net. Soon after this, Mr. Dow and Mr. Charles W. Tappan, a lately-arrived Akronian, embarked in the

same business which had proved so disastrous to Messrs. Lane & Caldwell, in which, the panic being over, they made money very rapidly, their net profits averaging over \$150 per day for a year or more thereafter. Mr. Lane continued to wield the brush with varied success all the time, however, earning good wages, until about the middle of September, 1851, when he entered the service of Messrs. Dow & Tappan, as an auctioneer, on a salary of \$275 per month. About the 1st of November, the firm established a branch store on the same street, with Mr. Lane and a young Massachusetts Yankee by the name of Humphrey Sawyer, as salesman. Dec. 1, Messrs. Lane and Sawyer, and Hallett Kilbourn, another Akron boy, (now a well-known operator in Washington City), each bought a one-fourth interest in the "branch," Messrs. Dow & Tappan retaining the other one-fourth, Mr. Dow doing the purchasing, and the junior partners running the "chebang." Feb. 1, 1852, Mr. Kilbourn withdrew, Messrs. Lane & Sawyer, then, with the old firm of Dow & Tappan, becoming each one-third owners. March 1, Messrs. Lane & Sawyer bought of Dow & Tappan the remaining one-third interest, thus becoming the sole owners of the concern, Mr. Dow still doing their purchasing on a small commission. The plan was to buy at auction from wholesale houses, by catalogue, goods that would retail readily, such as clothing, boots and shoes, hats, blankets, watches, jewelry, revolvers, notions, etc., and sell them either at auction or private sale, always, of course, aiming to obtain a good liberal margin over and above the original cost of the goods, but very often selling them at less than one-half the original cost of production. Business slowing up somewhat during the months of March and April, Mr. Sawyer became disheartened, and insisted on closing the concern out, which was accordingly done on the 1st day of June, 1852, Mr. Lane not having sufficient capital to purchase his partner's interest and run it alone. Dividing their goods, Mr. Sawyer immediately disposed of his share at a loss, through a wholesale auction house, while Mr. Lane packed and stored his share to await the "logic of events." While "waiting and watching" for something else to "turn up," Mr. Lane something more than paid his current expenses by doing occasional jobs of lettering for an established house and sign painting firm,

until the latter part of August, when, yielding to a strong desire to see his wife and children, from whom he had then been absent about two years and a half, and the rather urgent solicitations of several Akron boys just in from the mines, en route for home, he sold his goods at a slight margin above cost, closed up his affairs, and on the 1st day of September, 1852, on the new and staunch steamer "Winfield Scott," set sail for Panama, by no means rich, but still with quite a fair showing for his thirty months' time and labor, considering the utter failure of the first half thereof; and with what was far better than gold, good health.

In the spring of 1853, Mr. Lane invested his California savings in a clothing and merchant tailoring establishment in Akron, which business he conducted with reasonable success until the spring of 1855, when every dollar was swept away by fire. In the fall of 1853, the Temperance Reform party of Summit Co. put Mr. Lane forward as an Independent candidate for Representative to the State Legislature, in competition with the regular nominees of the Whig Democratic and Free-Soil parties. Afterward, an arrangement was made between the friends of Mr. Lane and the Whig and Free-Soil leaders, by which all three candidates should submit their claims to a union mass convention, which was accordingly done, the contest being between Mr. Lane and Dr. Porter G. Somers, of Cuyahoga Falls. Union Hall was completely packed, and the vote was taken by passing around the hat, with no check whatever as to the number of ballots cast, or the right of any person to vote. The count resulted in a small majority for the Doctor, who was triumphantly elected over the pro-slavery, pro-whisky, Democratic candidate; though it was more than suspected at the time that the honest sentiment of that mass convention was defeated by partisan "strategy," and that Mr. Lane should have been, by right, declared its nominee. In January, 1854, Mr. Lane was appointed by the Town Council of Akron to fill the vacancy in the Board of Education of the incorporated village, occasioned by the death of Mr. Horace Canfield. On the re-organization of the board in the following April, Mr. Lane was elected Treasurer of the Board, holding the position until the expiration of his term in 1856. In the fall of 1855, Mr. Lane having been thrown out of business by the fire above spoken of, and having naturally allied

himself with the newly organized Republican party, presented himself before the Republican County Nominating Convention as a candidate for State Representative; but the honors were fairly won by that then stanch Republican, Dr. Mendall Jewett, of Mogadore, now an equally stanch Prohibitionist of the Sixth Ward in Akron. On the accession of Salmon P. Chase to the Gubernatorial Chair of Ohio, in January, 1856, Mr. Lane, backed by a majority of the business men of Akron, both Republicans and Democrats, applied for the position of Canal Collector for the port of Akron; but his genial and rotund friend, Nathaniel W. Goodhue, Esq., carried too many political guns for him, and won the prize for himself. Thus far, though doing his best to establish and maintain Reformatory and Republican principles, Mr. Lane's political aspirations had proved such utter failures that, though still working both on the rostrum and with the pen and the paint-brush, in the fabrication of party banners and mottoes, he had concluded to make no further efforts in the office line, when, in the fall of 1856, during the celebrated Fremont-Buchanan campaign, the Republicans in different parts of Summit Co. spontaneously fixed upon him as their candidate for Sheriff, and in their Nominating Convention nominated him for that position on the first ballot, by the very handsome majority of 17 over all competitors, some six or seven in number. Though bitterly opposed, on account of his radical temperance proclivities, he was triumphantly elected, and in 1858, was renominated by acclamation, and re-elected by a greatly increased majority. On the expiration of his second term, January 1, 1861, Mr. Lane became the editor-in-chief of the *Summit County Beacon*, then, as now, the sole Republican organ of Summit Co. Some three months after assuming his editorial duties, he was appointed by Gov. William Dennison, without solicitation on his part, or on the part of his friends, Probate Judge of Summit Co., to fill the vacancy occasioned by the death of Judge William M. Dodge. The honor, however, was respectfully declined, his editorial duties not permitting him to fill both positions, and as the appointment was only until the ensuing October election, about three months, and as he had but just retired from the office of Sheriff, he did not feel like asking the people for another county office so soon. Mr. Lane continued to devote the

best energies of his mind and body to the building-up of the *Weekly Beacon*, and its later adjunct, the *Akron Daily Beacon*, as detailed elsewhere in this volume, for nearly fifteen years, meantime becoming the one-third owner thereof, when, from causes entirely beyond his control, he was obliged to retire therefrom in the fall of 1875, without a dollar. At this crisis in his affairs, he again, in the fall of 1876, asked the people of Summit County for his old position of Sheriff, which, notwithstanding the objections urged against him that he was too old (being then 61 years of age); that he had already held the office two terms, and that he was too radical in his temperance and other reform notions, was generously given to him by a handsome majority of the voters of the county; as was also another term, by a still larger majority at the October elections in 1878. Notwithstanding his "advanced" age, his administration of the office was so successful and satisfactory to the people, that still another term would undoubtedly have been tendered to him, but for the constitutional provision that no incumbent of that office shall serve more than four years in any consecutive six years. Transferring his office to his successor, William McKinney, Esq., on the 3d day of January, 1881, Mr. Lane continued to make himself generally useful about the court house, as Mr. McKinney's Chief Deputy, some three months, when, on the 1st day of April, 1881, the Republican Convention of the City of Akron placed him in nomination for Mayor, by the very decisive vote of 36 to 12. At the election, April 5, almost superhuman efforts were made to compass his defeat, not only by his old-time bitter enemy, Democracy, but by the entire "bummer" and "hoodlum" element of the city, and though in no way seeking or working for the office himself, Republicanism and Law and Order principles so far prevailed as to secure the election of Mr. Lane by a small majority, to be the Mayor of the city of Akron for the period of two years.

In thus presenting the merest outlines of the varied and somewhat eventful history of Mr. Lane, compiled mainly from data furnished by himself, we have, at his request, omitted a large number of interesting, thrilling, as well as ludicrous reminiscences of his life—his youthful exploits as a "Gay Lothario" among the girls, and otherwise; his rich experiences as clerk

and book agent ; his getting lost in the woods and spending a night among the untamed Creek Indians in Alabama ; his frequent personal rencontres with blacklegs and other desperate characters, while publishing the *Buzzard* and *Cascade Roarer*; the numberless egg-peltings and other indignities received while preaching the gospel of temperance ; the hazards and hardships of his overland journey to California ; scenes, tragical and comical, including the excitements of the vigilance committee period, in San Francisco ; his "hair breadth 'scapes by land and sea," from shipwreck and pestilence upon the journey home ; the successful system of criminal detection pursued by himself and others, while filling the office of Sheriff from 1856 to 1861 ; his many encounters with both male and female desperadoes in and about the jail during his eight years of official service ; his experiences with the fire-fiend by which he was twice reduced from comparative affluence to substantial beggary ; his struggles with poverty, with disease and with domestic afflictions ; all possess an interest of no ordinary type, but which Mr. Lane thinks would occupy more space in this volume than their importance to the public would justify. But a few words more regarding the family matters of Mr. Lane should not be omitted. With the wife of his youth, Mr. Lane lived harmoniously and happily for almost a third of a century, her death occurring on the 2d day of July, 1871. To them were born eight children, four of whom, three sons and one daughter, were taken from them by death, in infancy and early childhood. Of the survivors, the eldest, Julius Sherman Lane, now in the 40th year of his age, is an honored citizen of Akron, a machinist by trade, and is one of the proprietors and the superintendent of one of Akron's most successful manufacturing establishments—The Webster, Camp & Lane Machine Company. The next son, Frederick Alanson Lane, now in his 32d year, is an engineer and pressman ; at present, after about ten years' acceptable service in the extensive newspaper and job press rooms of the Beacon Publishing Company, in Akron, is in charge of the presses and machinery of the *Ohio Farmer* in the city of Cleveland. The third son, Arthur Malcolm Lane, now 25 years old, is under the training of his elder brother, both a practical machinist and an experienced draughtsman, and, after about three years' service in the

draughting room of the celebrated Baldwin Locomotive Works, in Philadelphia, is now filling a similar position in the Rhode Island Locomotive Works, in the city of Providence. The youngest, a daughter, Carrie Maria Lane, now 23 years of age, was married, Sept. 11, 1878, to Mr. Albert J. Pitkin, also a graduate from the works of the Webster, Camp & Lane Machine Company, in Akron, who, after four years experience in the draughting rooms of the Baldwin Locomotive Works, at Philadelphia, is now the superintendent of the draughting department of the Rhode Island Locomotive Works, above alluded to, at Providence. And now, in summing up this brief sketch of his family, Mr. Lane bids us say that each and all of his living children are in every respect the superior of their paternal ancestor, a circumstance which he attributes entirely to the careful early training bestowed upon them by their sainted mother. Nov. 11, 1872, Mr. Lane married, for his second wife, Mrs. Emeline Manning, a sister of the former Mrs. Lane, with whom he has since lived in perfect harmony and happiness. Thus, in the 66th year of his life, though not rich in this world's goods, Mr. Lane is comfortably situated, and, in the companionship of his most excellent wife, the society of his children and grandchildren, and surrounded by kind friends and neighbors, he is happy in the thought that during his nearly half a century's residence among them, he has so largely attained and retained the respect and confidence of his fellow-citizens of the city of Akron and of Summit Co.

CARSON LAKE was born March 17, 1852, at Fredonia, N. Y., being descended on his father's side from stock of Gen. Warren, of Bunker Hill fame, and on his mother's side from the family which numbered among its branches the noted scout Kit Carson, and the Hills of Southern fame. He was the sole survivor of a family of six children. His father died when he was quite young, and in 1861, his mother going into the hospitals of Alexandria, Va., he spent some two years amid the thrilling surroundings of Washington and Alexandria at that period, a portion of the time serving as a Government messenger. Returning North, after some time in the Akron schools, he was sent for a year to the well-known Academy at Madison, Ohio, and then entered the office of the *Weekly Beacon* as an apprentice. His first newspaper work was

done about this time as local correspondent for the *Cleveland Herald*. He was finally promoted to the position of reporter, after the starting of the *Daily Beacon*. For some months, although not yet 18 years of age, during an unsettled condition of the office affairs, he had entire editorial charge of the paper. Resigning to enter college, he was for a year a student at Dennison University, Granville, Ohio, and a year at Buchtel College, leaving the latter just before graduating, to accept a position on the *Tri-Weekly* and *Weekly Times*, which was resigned a year later, the *Tri-Weekly* having suspended, and the *Times* changed hands, to accept the position of managing editor of the Toledo *Democrat and Herald*, the organ of northwestern Ohio Democracy. He occupied this position for a year and a half, when he was for a year business manager of the Toledo *Daily Commercial*. In December, 1876, he purchased the Akron *Daily* and *Semi-Weekly Argus*, which he sold in July, 1879, to Messrs. Weiner & Nelson, in order to accept the position of corresponding secretary of the Democratic State Executive Committee. This position kept him in Columbus for a year, during which time he was managing editor of the *Times and Statesman*, and State correspondent of the *Cleveland Plain Dealer*. In September, 1878, he became editor and manager for the *Gazette Co.* of the *Sunday Gazette*. In 1878, he was appointed an aide on the staff of Gov. Bishop, with rank of Colonel, but resigned the following year. He has a wide acquaintance throughout the State, and has several times been prominently mentioned in connection with State offices. He has, however, never desired such mention. Being warmly attached to Gen. Ewing's cause, it is probable he would have been given a prominent position, had that gentleman been elected Governor. He was married in 1873 to Olie E. Helfer, by whom he has four children.

DENNIS J. LONG, Agent Union Express Company, Akron; was born in Albany, N. Y., Nov. 28, 1844, where he lived until he was 15 years of age, when he came to Akron with his brother, J. A. Long. In 1859, he became an apprentice in the *Beacon* office, where he served about four years. In August, 1862, he enlisted in Company H, 104th O. V. I., serving the first two years as private soldier. In February, 1864, he was appointed to a clerkship in the office of Gen. Schofield, where he remained in

the Department of Ohio until the close of the war. June 28, 1865, he was mustered out at Greensboro, N. C. On his return, with A. L. Paine, he started a new weekly paper entitled, the *Summit County Journal*, in 1865, with Judge Carpenter as editor; this they conducted with good success two years, when Mr. Long sold out his interest and bought a one-third interest in the *Beacon*, being connected with that paper as stockholder and proprietor until 1875, when he became book-keeper in the office of the Akron Iron Company, continuing for two years. March 1, 1877, he was appointed agent of the Union Express Company; he is now agent of the Union, American and Adams Express Companies. In May, 1870, he was married to Miss Eliza A. Potter, of Akron.

CHARLES LIEBMAN, Akron; was born at Dayton, Ohio, June 30, 1854; when very young, his family removed to Cincinnati, Ohio, that he might have better opportunities for studying music. His father, Rev. L. Liebman, was a Rabbi at Dayton, Cincinnati, Columbus and Cleveland; also twelve years at Youngstown, Ohio. At each of these places the subject of this sketch studied music, for which he had early formed a great love. From 1874 to 1876, he attended the New England Conservatory of Music, at Boston, Mass., studying the piano and violin. In 1876, he went to New York City where he was under Prof. Mills and other noted teachers. In 1877, he became director of the Youngstown Maennerchor, where he remained two years; in June, 1879, he came to Akron, and, at the solicitation of the Akron Harmonic Society, he became the leader, also engaged in teaching piano, organ, violin and theory; he is a director of the society. Oct. 26, 1877, he married Miss Emma Ritter, of Youngstown, Ohio.

REV. W. LOTHMAN, Akron; oldest son of Ernest Lothman, was born in the village of Buer, situated in the southern part of the Kingdom of Hanover, Jan. 31, 1845. He was but 2½ years old when his parents came to Cleveland, Ohio, where his mother still lives, and where his father was in the employ of Morgan, Root & Co., having charge of their grocery until his death in 1861. The subject of this sketch attended the Cleveland Public Schools until he was confirmed in 1858, when he entered Concordia College at Fort Wayne, Ind., and graduated from the gymnasium of that

school in 1862. He then entered the Concordia University at St. Louis, Mo., from which he graduated in June, 1866, when he entered the ministry, serving the German Lutheran Church at Elyria and the St. Paul's Church at Liverpool, Medina Co., on alternate Sabbaths for six years, during which period, the membership of the Elyria Church largely increased, a new building was erected and a school established. In 1872, he received a call from Zion's Lutheran Church of Akron, and became its Pastor in August, having since continued. On June 20, 1867, he married Miss Betty Husmann, daughter of Rev. F. W. Husmann, Pastor of the German Lutheran Church of Euclid, Ohio. She bore him five children, and all are living.

J. A. LONG, Secretary and Treasurer of Akron Iron Co., Akron; is a son of John and Margaret (Reilley) Long, and was born April 10, 1837, at Albany, N. Y., where he lived until 18 years of age, when he left school and took the position of clerk in a lumber yard. In 1855, he came to Akron, Ohio, and became teacher in the public schools of Summit Co. for eleven terms, and working during vacation at various employments. In 1864, he became book-keeper for Aultman, Miller & Co., remaining with them for five years, when he was appointed Secretary and Treasurer of the Akron Iron Co., which position he still holds. Since his connection with the establishment, its business has increased threefold. He was married, Nov. 10, 1859, to Miss Mary A. Falor; daughter of Geo. A. Falor, one of the pioneers of Coventry Township. Twelve children have been born of this marriage, seven of whom are living—Ludie B., Celia R., Bennie A., John H., George A., Mary A. and Lloyd G. Mr. L. is Republican in politics; is a member of the Central Committee. Was first City Clerk, and held the office from 1865 to 1867, and Councilman from 1867 to 1869.

FRANK F. LOOMIS, an engineer in fire department, Akron; is a son of Joseph and Elizabeth (Taylor) Loomis; was born in Akron April 2, 1854, where he attended public schools until his father died, when he lived with an uncle at Wadsworth for some time. In 1869, he went into a pottery, working in it for one year; then learned the blacksmith's trade, and, in 1870, he became a minute man in Steamer No. 1, and served as fireman and blacksmith in the city fire department. At the death of James

H. Stanford, he was made engineer of steamer in January, 1881. He was married, July 10, 1879, to Miss Barbara Grad, of Akron. His father was born in Medina Co., and lived there till he was 14, and then went to Lake Co. When grown, he came to Akron, and became captain of a canal-boat for the Navigation Co. He followed this business until the war broke out, when he enlisted in the 29th O. V. I., and after a hard campaign with the Army of the Cumberland, he caught cold from fording a river, and died at Cumberland, Md., in January, 1862. Subject is the oldest son; one brother, Charles H., is a farmer, near Sears, Mich. Mother still lives in Akron.

DR. THOMAS M. LEIGHT, physician, Akron; was born on his father's farm in Perry Township, Snyder Co., Penn. (then included in Union Co.), on the 8th of August, 1827, and resided in the vicinity until 1857. He was married, Feb. 8, 1853, to Miss Bella R. Bobst, of Milton, Penn. They have no children. He commenced the study of medicine in the office of Drs. Wilson & Bibighouse, of Selin's Grove, then Union Co., Penn. (now Snyder Co.) He read with them some four or five years, and then began practice at McKee's Falls, in Snyder Co., where he remained about nine years, during which time he attended lectures at Philadelphia (Jefferson Medical College); also the University of Pennsylvania, attending a month or two each year, graduating at the Jefferson Medical College in July, 1857. From McKee's Half-Falls, he removed to Mifflin, Juniata Co., Penn., where he practiced in partnership with Dr. E. D. Crawford about seven years, during which time they served as surgeons of the Pennsylvania R. R. Co. He then came to Akron, Ohio, where he has since practiced. He is a member of the Summit County Medical Society, of which he is now (1881) Vice President, and is also a member of the Union Medical Society of Northeastern Ohio.

HON. SAMUEL W. McCLURE, son of Jairus McClure and Amma Hobbs, was born Nov. 8, 1812, at Alstead, Cheshire Co., N. H. His parents, when he was about 3 years old, returned to the place of their nativity, Brookfield, Worcester Co., Mass., with their children, two in number, consisting of the subject of this sketch and an elder sister. There they remained until he was about 7 years old, when they emigrated to Western New York, ultimately

settling in Monroe County, near what is now the city of Rochester. There they remained until the spring of 1828, when they removed to Medina, Medina Co., Ohio, where both died—the father in 1865, in the 89th year of his age, and the mother several years earlier, at the age of 71. His parents were of Scotch ancestry, though, on the paternal side, they had lived in the North of Ireland for two generations or more before emigrating to the United States, or rather to the British colonies of America, for such they then were. The mother, inheriting the fervent religious sentiments of her Scotch ancestry, intended to devote her son to the Christian ministry, and molded his youthful efforts and education in that direction; and, she was so far gratified that she saw him enter into full membership with the Congregational Church at the age of 15. With the ministry in view, he pursued his academical studies while he lived in New York, and until he was near 16 years old. At the age of 18, he commenced teaching in the public schools of Medina County during two or three years ensuing, when he entered Allegheny College, Meadville, Penn., and where he prosecuted his collegiate studies with great zeal, embracing in them other branches as well as the prescribed course. At about the expiration of three years, he retired from the institution and took private instruction for nearly one year of Rev. Lee, who was then Pastor of the church to which he belonged. He was in advance of his class when he left college. In 1837, he opened a select school in Medina, taught the same two terms, and at the same time entered the law office of Canfield & Camp as a student, with the view of entering the legal profession. In 1838, he went to Ashland, then in Richland County, and organized a select school there, which was afterward called the Ashland Academy when transferred to a new building erected by the citizens expressly for its accommodation. In this school he was employed less than two years, successfully managing the same, and also prosecuting his legal studies, a portion of the time in the office of Silas Robbins, Esq., and the residue in the office of the late Northern District Judge, Hon. Charles S. Sherman. During a part of the above time, he also edited the Ashland *Phoenix*, a non-partisan paper, and made of it a first-class literary and racy paper for his readers. In 1840, he returned to Medina, and

took charge of the editorial department of the Medina *Constitutionalist*, its former editor, then James S. Carpenter, Esq., having been elected to the State Senate for the Medina district. All through the exciting campaign which resulted in the election of William H. Harrison to the Presidency, both through the columns of his paper and upon the stump, he advocated, with much success, the cause of the Whig party, whose candidate Harrison was. Soon after his return to Medina County, he formed a law partnership with Senator Carpenter, and in the organization of the new county of Summit, Grant B. Turner, of Cuyahoga Falls, was added to the firm—Carpenter and McClure residing in Medina County, and Turner in Summit. In January, 1842, he married Miss Matilda E. Deming, of Ashland, and, in the spring of the same year, settled in Cuyahoga Falls, where he continued to live until 1865, when he removed to Akron, where he now resides. Grant B. Turner did not remain long in the practice of the law, and, retiring from the firm, it was left as originally formed, until 1850, when it was dissolved. He was elected Prosecuting Attorney of his county in 1847, but the next year, and before his term as Prosecutor had expired, he was nominated and elected to a seat in the Ohio Legislature, which office he held for one term only. From 1850 to 1864, he had associated with him, as law partner, the Hon. Henry McKinney, late State Senator from Summit and Portage District, and now Common Pleas Judge of the Cleveland subdivision.

In 1865, he associated with himself as law partner, Edward Oviatt, Esq., and that firm continued until the spring of 1871, when he was elected to the Common Pleas Bench, for the subdivision composed of Summit, Medina and Lorain Counties, serving in that capacity five years; and, not desiring a re-election, he retired to private life, and measurably from the practice of his profession. Possessed of an ample fortune, it was not necessary for him to endure the drudgery and fatigue of active practice. Still he is largely called upon for counsel in important business matters and suits, and occasionally engages in the trial of causes, especially in the District Court. In the mean time, he has visited Europe with his younger daughter; and with his wife and same daughter he visited California, making thorough tours

in each of those great sight-seeing portions of the globe.

He had by his marriage two daughters: Julia E., who became the wife of Mr. Henry G. Mathews, with whom she lived fourteen years, and died in February, 1881; and Ida M., who continues to live in her father's family. Judge McClure possessed elements of strength which gave him extraordinary power as a lawyer. He was an incessant and tireless worker, intensely enthusiastic in whatever he undertook to accomplish; had great courage, and was wonderfully quick in his perceptions. These qualities, combined as they were with a remarkable grasp for business affairs, rendered him a most dangerous adversary, and, for many years, made him one of the very foremost lawyers of the State. Probably no lawyer in Ohio tried more causes during the twenty-five years of his life between 1846 and 1871, than he, or was more successful. He more than made the cause of his client his own. With all his zeal, however, he never forgot the courtesy due from one gentleman to another; and while dealing the hardest kind of blows, in any given professional contest, he always left opposing counsel feeling kindly toward him personally, and to young men especially he was considerate and encouraging. Naturally he possessed a very quick, fiery temper, which required for its control constant watchfulness and a strong will, and this, as a general rule, he succeeded well in accomplishing, under all the varying changes of practice at the bar. For ready wit, vigorous thought and thrilling eloquence, he had no superior among his associates at the bar. He was always systematic, logical and ready in his public addresses; a fact somewhat surprising, since, at the commencement of his career, he dared not venture an attempt at speaking extemporaneously, and until he was 30 years old he had always carefully to write and commit to memory all his public addresses, being too timid and nervous to trust himself before an audience without such preparation.

He never was a politician, in the popular acceptance of the term, though he always took an earnest interest in public affairs, and occasionally took an active part in political contests; not so much from a partisan standpoint as from his thorough convictions of what, in the given contest, was the better public policy; that is, what was right. From his first appearance be-

fore the public until the close of the war of the rebellion, he was a most earnest anti-slavery man, and took a resolute and pronounced position against the system of slavery and its aggressions; and on all proper occasions sought to educate public sentiment in harmony with his own convictions. He was, as already stated, elected to represent Summit County in the General Assembly, in 1848, and as a Whig, and was a candidate for re-election in the fall of 1849, but was beaten by the united votes of the Democrats and Free-Soilers, by a majority of less than one hundred, while the balance of the ticket was beaten by about four hundred votes. He occupied a more flattering position in the Legislature, being universally recognized as one of its ablest and most useful members. His nomination for legislative position both times was much against his wishes, and he only consented to accept as a matter of public duty, on account of the peculiar attitude of the two leading political parties upon the slavery question, that then being the all absorbing question with the electors of Northern Ohio.

Judge McClure's industry and painstaking preparation of his cases when a practitioner, made him exceedingly restive when he was on the bench, at the heedless and dilatory modes of lawyers who came into court unprepared to try their causes; and, occasionally, provoked him into sharp reminders, that the public interests before him should not be sacrificed to the indolence of attorneys, and occasionally caused the summary disposition of their cases. But, as his modes and motives became understood and appreciated, the lawyers ascertained that their true interests were best subserved by willing co-operation with the court. He disposed of his judicial business with great dispatch, and to the general satisfaction of the bar. His sense of justice and fair play, always acute, led him first to find where justice lay, and then, he was almost sure to find some rule of law by which justice could be upheld. His great experience as a lawyer made him a very able tryer of causes, and his general knowledge of the law and the practice of the courts, made him a very first-class Judge, when exercising the jurisdiction of an appellate court, sitting as he did, during his entire term, mainly in Cleveland and Toledo.

In the early years of his practice, he was appointed United States Commissioner because

of his strict stand-up to his convictions, especially to cope with a band of counterfeiters, who, for years, had been preying upon the coin and currency of the country, headed by the notorious Jim Brown. While acting as such Commissioner, a singular incident occurred, in which he was a prominent actor, and it illustrates a peculiar social condition in the community where it occurred. Brown, for years, had defied the State authorities in his raids upon the currency, and thus far had been singularly successful in eluding the vigilance of the General Government. Though notoriously recognized as the leader of these law-breakers, he was elected and served term after term as Justice of the Peace of Northampton Township; and, to his credit it may be said, that he performed the duties of the office well. Complaint had been made before Commissioner McClure, and he had issued his warrant for the apprehension of Brown upon a charge of counterfeiting, and, while this warrant was out, standing in the hands of the Sheriff and unexecuted, Judge McClure appeared before Brown for one of two parties litigant. The trial being concluded, the Justice took the case under advisement, but was arrested and lodged in jail before he decided the case. He then rendered his judgment in favor of McClure's client, remarking, as he did so, that he hoped the Commissioner would take a similar favorable view of his case, and in his favor, whenever the same came up for hearing. Judge McClure did so, by holding Brown under \$20,000 bond for his appearance before the United States Court at Columbus, which, however, was afterward reduced to \$5,000 by the Federal Judge.

There is no telling how much the pulpit lost by the making of so able a lawyer. There is no question, however, that he would have won distinction as a divine. But his logical and independent cast of mind, on reaching full maturity, led him to distrust, and, in fact, to despise dogmatism, and to demand demonstration; or, at least, that every proposition and doctrine should challenge the approval of right, reason and common sense before his continued assent could be secured for the toleration of any given tenet, theory or system, whether in ethics, philosophy or religion. Consequently, at an early period of his life he abandoned, or, rather, never fully fell into the ways that had been with the very best motives marked out

for him. He may be classed with those who are popularly known as Free-thinkers or Liberalists: who believe in being good, and doing good for goodness' sake, irrespective of religious creeds, beliefs or sanctions, for they are legion; who advocate a greater degree of religious influence in the world than even sectarians, but it is the religion of humanity—the only genuine human ideal. It consists in loving human beings and other deserving objects, such as we know and can benefit, and not in loving a God or gods about whom we know nothing, and who, if they exist at all, are infinitely beyond the reach of the adoration of mortals.

LEWIS MILLER, manufacturer and inventor, Akron, the youngest of three sons of John and Elizabeth (York) Miller, was born in Greentown, Lake Township, Stark Co., Ohio, Aug. 24, 1829. His parents were respectable and industrious people. His father, a cabinet-maker, house-builder and farmer, originally came from Maryland, removing to the West in 1812. He was a man of sterling integrity, and universally esteemed, holding a prominent position in his community. Lewis, the subject of this article, spent his boyhood on a farm, until about 17, attending school in one of the old-time schoolhouses built of logs, having slab benches, etc. In 1846, he learned the plastering trade, serving two years with a man named Wm. Essig; he worked at this trade for five years, also attending academies in Illinois during winter seasons and teaching in Stark Co., Ohio, two terms, in that time having moved to Plainfield, Ill, near Chicago, in the meanwhile. In 1851, he returned to Greentown, where he connected himself as a partner with the manufacturing firm of Ball, Aultman & Co. (afterward of Canton) and by patience, determination and energy, soon mastered the machinist's trade, serving for but 50 cents per day at first while learning. In the fall of 1851, the company with \$6,000 capital in all, removed to Canton. The partners were six in number, viz: E. Ball, C. Aultman, David Fouser, Lewis Miller, Geo. Cook and Jacob Miller. They first manufactured threshing machines, stoves and plows, and old Obed Hussey reapers, and did repairing. They had no competition in reapers except one shop on the Ohio River. During 1849, our subject worked on the old "Hussey" reaper, and ever since that time he has been experi-

menting on reapers, every season, in harvest field. His remarkable aptitude for the machinist's trade, manifested itself so plainly, that, in a short time after his apprenticeship he was advanced to the superintendency of the works, and while in this position he invented the world-renowned "Buckeye Mower and Reaper"—known in the market as the double-hinged floating-bar—a distinctive feature from which all two-wheeled floating-bar machines are patterned. To this great and valuable invention he afterward added others of scarcely less utility, chief among which is his table rake (a self-rake), which he invented in 1865, and which attained a wonderful popularity, within a few years. With the manufacture of the "Buckeye" the business of the Canton house became so largely increased that, in 1863, it was found necessary to establish a branch concern at Akron, under the incorporated name of Aultman, Miller & Co., and in the following year he removed to Akron to take charge of the works here, since which time he has been superintendent and had full charge of the same. In this position he has lived to see the once insignificant shop expanded into wider halls, wherein is executed a business which, of its kind, is one of the most extensive in the country, which grand success is due, no doubt, to each partner giving all his time and attention to active work, wearing, so to speak, when the business was first commenced at Canton, the work apron himself, instead of hiring other men to do it. No dividends were declared until 1866. They attained success through hard labor, and some disappointments. On May 5, 1855, while they were all filled with machines ready for market, their entire establishment burned to the ground, with a loss of \$50,000, there being only \$7,000 insurance. It was in June, 1856, that the first patents were granted for the "Buckeye," and at various times over one hundred patents were granted to the firm, one of which was for "Miller's Binder," which machine is the result of Mr. Miller's study. The business has increased from six threshers and ten or twelve reapers per year, to twelve hundred threshers and about twenty thousand reapers and mowers per year, or one complete machine to every four and one-half minutes during working hours. They began building the traction engine in 1877, the capacity now being five hundred engines per year. At the

present time, he is President of the Canton manufactory, and of the Akron Iron Co.; also Superintendent of the Akron manufactory, and member of Board of Directors of the Weary, Snyder Manufacturing Co., of Akron. He is a Director of the Bank of Akron, and a stockholder in the First National Bank of Canton. He is a member of the Board of Education and was twice President of the same. He has taken a deep interest in politics, and worked in the Republican party, being an anti-slavery man, he is now connected with the National party. He became a member of the M. E. Church in 1843, has held all positions in the church, and been Sunday School Superintendent for twenty-eight years. He was three times a lay delegate to the General Conference of the church, and has been honored from time to time with other prominent positions of trust. He was President of the Ohio Sunday School Association; and of the Chautauqua Association, having been the originator of the Chautauqua scheme, and, as co-worker with Dr. J. H. Vincent, has infused new life into the methods of Sabbath school work, always the President. In educational matters he has taken a great interest, especially so in the case of Mt. Union College. He is President of Mt. Union College Board of Trustees, and is a Trustee of the Ohio Wesleyan University, and of Allegheny College. On Sept. 16, 1853, he married Mary D. Alexander, of Plainfield, Ill., who bore him eleven children, ten of whom are living, and are viz., Jennie, Ira M., Edward B., Robert A., Lewis A., Mina, Mamie, Grace, John V. and Theodore W. Eva died when 16.

JOHN MCGREGOR, Secretary and Treasurer of the Akron Steam Forge Company; he was born in Columbiana County, near Wells-ville, June 14, 1836; his parents, John and Margaret (McBean) McGregor, are natives of Scotland; they emigrated to America in 1828, and settled in Columbiana County, where they now reside. The subject of this sketch was raised on his father's farm, and, in 1861, entered Jefferson College at Cannonsburg, Penn., from which institution he graduated in 1863, standing sixth in a class of thirty-nine; he then entered Ohio Law College, at Cleveland, Ohio, where he remained one year. In 1864, he entered upon the practice of his profession at Akron, continuing at this for seven years, during which time he was elected City Solicitor, filling this position two years, from 1869

to 1871; he then purchased an interest in the Akron Steam Forge Works, and when the establishment was re-organized in 1872, under the control of a joint-stock company, he was elected Secretary and Treasurer of the association, which position he has faithfully filled ever since. Mr. McGregor is, at the present time, Treasurer of Portage Township; he was first chosen for this office in 1877, and has been re-elected each succeeding spring since then. He was married Nov. 11, 1868, to Miss Hattie E. Folger, daughter of William M. and Julia A. (Hayden) Folger; they are the parents of three children—Julia F., John and Mary.

CHARLES MERRIMAN, Akron; youngest child of Jesse and Rhoda (Fox) Merriman; was born July 1, 1800, in Berkshire Co., Mass., where he lived on a farm. When he was 10 years of age his mother died, leaving two sons besides our subject, and one daughter, viz.: Andrews, a physician, who settled in Madison, Lake Co., Ohio, in 1816, and practiced in that place forty-nine years and ten months; Clarissa, oldest of the children, who married Justin Cole, now one of the pioneers of Lake Co., and Alvin, who was a tanner by trade, going to Parkersburg, W. Va., in about 1840, where he lived a few years, then went to Centralia, Southern Illinois, and lastly to Bloomington, Ill., where he died. Mr. Merriman received, in his boyhood, a good common school education. Soon after his mother's death the other children married, and left home, but he remained and farmed there until 1835, taking care of his father, who was quite aged, and who afterward came here, and died in his 89th year. In 1834, accompanied by his father, he came, by canal and lakes, to visit friends in Lake Co., and in March, 1835, bought 272 acres of wild land in Portage Township, on the canal, two and a half miles from Akron, for which he paid \$1,200. On May 5 they started, with a team, to Madison, Ohio, completing the trip in fifteen days; they remained, improving some property there, until August, when they came on to their wild land. There they lived in a small cooper-shop with Charles Webster and family for two weeks. They could only with great difficulty obtain lumber; he built a house of round logs hewn down inside, and having unplanned boards for the floor, living there for seven years, when he built a large frame house, in which he lived until 1869, when he moved to Akron. He

owned 125 acres in Lorain County, which he exchanged for 95 acres near New Portage. He was a successful stock farmer, and a natural mechanic, putting up his own buildings. On Dec. 1, 1824, he married Miss Harriet Allis, of Dalton, Mass., who bore him four children, viz., Rhoda F. (who died in her seventh year, and was buried at Dalton), Charles Rector (now a physician of Akron, Ohio), Wells E. (a machinist of Akron, being a pattern-maker), and Louisa E. (who died in her second year). In politics he is a Republican, and has held several offices of trust in that party; he was formerly a Whig. He and his wife are members of the Congregational Church, he having joined it at the age of 17.

ANDREWS MAY, retired, Akron. The parents of the subject of this article were Dexter and Sarah (Andrews) May. He was born at Royalston, Hampshire Co., Mass., on Aug. 6, 1792. When 6 years old his parents moved to Concord, Vt., where they lived about six years, then moved to Montpelier; when he was 12 years old, he went to district school, and continued to attend about three months per year, until 16 years of age, when he learned painting, and helped to paint the first State House ever constructed in Vermont. Finding that the poisonous preparation of lead used in paint was not conducive to his health, he abandoned the trade, and commenced the carpentering, mill-wrighting and joiner trades, which he followed in Vermont until 1816. On July 1, 1818, he came to Ohio, sending his tools by wagon, having been employed for four years previous at Champlain, N. Y., by William H. Price in building mills. In the spring of 1812, he volunteered in the service, and three companies were drilled three months, and assigned to the command of Gen. Dearborn. The regiment to which our subject belonged, all volunteered to the expedition against Montreal, but were ordered back to Swanton Falls, in winter quarters to guard the frontier against the encroachments of Gen. Mayo with 1,000 hostile Indians. These three companies remained until spring, when they were mustered out. Subject again participated in the battle of Plattsburg; he rode on horseback through the neighborhood, rallying the men, who marched in good spirits to the battle. His employer, William H. Price, bought a tract of land at Kent, of 700 acres (Kent was called Franklin Mills post office).

Subject then built a large flouring-mill at Kent, supposed to be, at that time (1818), the largest in the State. Remaining in that vicinity, he built a large house for Judge Whitmore, in Stow, in 1820 and 1821. This place is now called Cuyahoga Falls. In 1821, he went to Thorndyke, and there went into partnership with Israel Thorndyke; started a nail factory, bringing good machinery from Massachusetts, grind stone from Nova Scotia, and nail plate from Albany, N. Y., the freightage on all of which being over \$6 per hundred. Although they made excellent nails, they failed to collect their pay for goods, and were, therefore, obliged to abandon the business. In 1823, he went into the plow business, employing Dr. L. Croby, of Middlebury, to mold over two hundred cast plows. They were called "Jethro Woods, No. 4." This was before the canal was put through, and he had five counties to work in, viz.: Portage, Medina, Cuyahoga, Wayne and Stark, and being obliged to travel on horseback to collect bills, he could not make it successful, even failing to collect enough to pay traveling expenses. At Franklin, he established a cupola furnace, using charcoal to cast plows. This he continued some four years, when he let it drop because of some infringements on the patent, which Wood did not litigate. In Dec. 31, 1824, he married Miss Ann L. Uttey, of Hartford, Conn., which marriage was blessed with five children, two of whom, Horace U. and Horace U. second, died, the former at Akron in his sixth year, and the latter (his namesake), at Akron in his 22d year. Those living are Albert D., of Yosemite Valley, Cal.; Helen M., at home, and Frank H., fruit dealer at Chicago, Ill. After leaving the plow business, he farmed in Franklin about one year, sending sixty barrels of flour to New York, this was in 1833. In about 1834, he built a house for Ithiel Mills, of Akron, which is still standing. In 1835, he moved to Akron, and in that year built the "Summit House," which is also standing. This place becoming then so unhealthy, he moved to Wadsworth, Ohio, where he lived five years employed in building. He returned in 1840 to Akron, and, having a carriage then, he drove in that year to all the meetings with the Democrats. After moving here he engaged in teaming and building until about 1875, when he was afflicted with paralysis. In belief, he is a Universalist, but belongs to no society, and is

thoroughly a cosmopolitan. He is a Republican and a Whig, and voted his first Presidential ticket for James Madison.

GEN. GEORGE W. McNEIL, miller, Akron, son of Samuel and Martha (Coakley) McNeil; was born Sept. 16, 1813, in Montgomery Co., N. Y. At the age of 10, with his father's family, he moved to a spot near Syracuse, N. Y. His father was a boat-builder, and George began to assist him when a boy, continuing to do so until 1837, when he came to Massillon, Ohio, where, in the fall and winter of the same year, he worked at carpentering and boat-building. In the spring of 1838, he entered the employ of Beach & Co., in the stone mills at Akron, acting as clerk, which position he retained until 1840, in the fall of which year he was made captain of the canal-boat "Cornelia," of Akron, which he ran to Cleveland, Buffalo and Albany, a distance of 900 miles, it being the longest run of any boat previous to that time. In the spring of 1841, he and Nicholas Rector put a run of stone in the old Center Mills, conducting it about one year, when they sold out, purchased the site for and built the City Mills, of which they sold a part interest to Philo Chamberlain, in 1843. Subject remained in that mill until 1874, when he took charge of the manufacturing department of the firm of Chamberlain & Co., which firm purchased the Aetna Mills, in 1862, both mills continuing under the control of Chamberlain, up to 1880. In July, 1874, Mr. McNeil withdrew from the company, and engaged in the manufacture of grain-cleaning machinery, which occupation he followed until 1878, five years previous to which date he invented the "McNeil Grain Scourer," which is still manufactured by G. W. McNeil & Sons, of this place. In December, 1877, the firm of McNeil & Baldwin was formed, and they rented the Aetna Mills of Chamberlain & Co. In 1879-80, they repaired it, and arranged for the new process of making flour. He was elected Brigadier General of the Eighteenth Division Ohio Militia in 1858-59. In 1858, he was elected on the People's Ticket Mayor of Akron. He was raised in the Whig school, and became a Prohibitionist in 1872. For twelve years, he has been connected with the Sons of Temperance as a prominent worker. Nov. 4, 1842, he married Miss Eleanor C. Martin, of Akron, who bore him one daughter and two sons, viz., Em-

ma (wife of A. E. Angier, of Columbus, Ohio), Charles A., of Akron, and George W., Jr., of New York.

REV. THOMAS E. MONROE, minister, Akron. Rev. Thomas E. Monroe, the able Pastor of the First Congregational Church of Akron, Ohio, is of Scotch descent, and one of four children of Job and Phebe (Collins) Monroe, being born at Plainfield, Conn., on April 28, 1829. His father was born in Massachusetts, and, in his early manhood, studied law; but, his health failing, he engaged in farming. In the war of 1812, he was Captain. He died in Oberlin, Ohio, in 1872, being in his 87th year. His three sons and one daughter, excepting the subject of these lines, are Abel, a banker of Woonsocket, R. I.; Prof. James Monroe, of Oberlin College, and Mary, who is deceased. The subject spent his youth on a farm, attending to farm duties, and receiving such an education as the New England schools afforded, including Latin. At 17, he began teaching in the public schools of Rhode Island, continuing for three years, when he entered a preparatory school at Providence, R. I. The year following, he entered Oberlin College, taking a classical course, in which he graduated in 1856; and, in two years after, graduated in a theological course. In the summer of 1859, he was ordained by the Cleveland Conference a minister of the Gospel. For one year, he was located at Amherst, Lorain Co., Ohio, becoming Pastor of the First Congregational Church of Mt. Vernon, Ohio, in 1860, which place he filled until 1873, in the meantime having increased the membership from 150 to 437. During his stay with that people, they built a church costing \$38,000. On April 1, 1873, he came to Akron, and became Pastor of its First Congregational Church, which position he holds, having now 650 members, exclusive of 122 absent ones, being an increase of 504 over the membership when he took charge of it. In June, 1859, he married Miss Mary Bernard, of Philadelphia, who bore him one child.

JAMES MATHEWS, insurance, Akron, is a son of James and Jane (Archer) Mathews, and was born April 23, 1803, in Washington Co., N. Y. When he was 8 years of age, his parents moved to Crown Point, and, a few years later, to Vermont. He was brought up on a farm, and, at the age of 22 years, commenced learning the cabinet-making business and paint-

ing, giving special attention to ornamental painting. His health failing, he discontinued the business, and was appointed Constable of Orange Co., Vt., and was thus employed until 1839, when he came to Akron, Ohio. He first commenced the manufacturing of grain shovels, and then engaged in building; and, in 1840, in working on Perkins & Co.'s Woolen Factory, now used as a mill. He next embarked in the grocery business, which he continued until 1845, when he built the Mathews residence, corner of East Market and Broadway, which was the second brick building in that part of the city. In the spring of 1849, he went into the insurance business, as agent of five of the leading companies, viz., Aetna, Phoenix, Springfield, Home of New York, and Hartford, continuing fire insurance, until, in 1873, when he gave it over to his son, Henry G. In January, 1857, he became agent of the Mutual Life of New York, and has retained it ever since, a period of twenty-four years. He is now the oldest agent of that company in the State, and has the best ratio of business, and has insured to the amount of over \$12,000,000. He was married in January, 1833, at Wells River, Vt., to Miss Agnes Grant, of that place. Three children were born of that marriage—George H. (died in December, 1872, in his 33d year); Henry, of Akron, and Charles H., book-keeper of Booth's Theater, New York. His wife died in April, 1870. Mr. Mathews was a Jackson Democrat; but, after the campaign of Gen. Cass, in 1848, he became a Whig; and, upon the organization of the Republican party, adopted its principles. In 1865, he was elected Mayor of the city of Akron for two years by a unanimous vote, and during his term of office made many needed improvements in streets, etc. He was a member of the first Board of Education of Akron, which was elected in 1847. He was a second time married, on the 23d of November, 1871, to Mrs. Isabella Tayler, widow of the late James D. Tayler, and a daughter of Alonzo Howard, one of the pioneer merchants of Middlebury, where she was born. Mr. M. built the Mathews Block on Howard street, in 1850, and rebuilt it in 1871. He is a writer of considerable merit; is of Scotch descent, and has a warm admiration for the ballads and verses of Scotia's immortal bard. During the residence in Vermont, he was thrown among the Scotch people of Caledonia Co., where he acquired a taste and

aptness for the Scotch dialect, which he speaks "like a native"—if occasion requires it. He was a member of the Town Council in 1842-43, and is now the only survivor of those bodies.

CHARLES MILLER, manufacturer, Akron; was born in Upper Nazareth Township, Northampton Co., Penn., Nov. 29, 1815 (a more complete history of whose family appears under the head of Norton Township). The first nineteen years of his life were spent on the farm and in receiving a very meager education; the following spring, he went to learn the carpenter and joiner's trade with one Charles Glass, hiring for two years, which he served with the exception of about three months; his salary was board, washing and mending, with a few tools at the expiration of his apprenticeship; the cause of his not serving the full time was on account of a hard master, and being compelled to do a great deal of work after night. During the time of his apprenticeship, he was engaged on the Beaver Meadow & Hazleton Branch Railroad, from Beaver Meadow to Mauch Chunk, which was at that time one of the first railroads in the State. In the spring of 1838, he came to Guilford Township, Medina Co., where he followed his trade until late in the fall, when he returned to Pennsylvania, and worked at White Haven, which was at the head of the Lehigh Canal; later he returned to Northampton Co., remaining there until in 1843, when he again came to Ohio, stopping for a time in Wayne Co. He worked at his trade and engaged in farming until in 1857, when he entered into a partnership with Abraham Krotz in the sale of farming implements for C. M. Russell & Co., of Massillon, in which they continued two years; the partner appropriating the money obtained from sales and dying on his way home from Illinois where they had been operating, left Mr. Miller in almost destitute circumstances when the indebtedness was paid up. In 1861, after John F. Seiberling began the manufacture of the Excelsior, at Doylestown, Mr. Miller acted as general agent, operating in a large territory and selling, himself, nearly half of the machines manufactured by that company. In 1863, he purchased a quarter interest in the Seiberling patents, and subsequently was compelled to expend hundreds of dollars in the purchase of other prior inventions to make their patents valid. In 1865, he having prior to that time formed a partnership

of several of Akron's prominent business men and purchased the ground for the manufacture of the Excelsior Mower and Reaper, they built the works of that company on Broad street in the city of Akron. John F. Seiberling afterward became connected with the firm which stood until in 1875, when they made an assignment, at which time Mr. Miller was the owner of \$65,500 in stock, besides having loaned the firm several thousand dollars, which has been almost a total loss. In 1879, he, in connection with his sons, purchased the chain works of a Mr. Matherson, at Cuyahoga Falls, and moved the same to Akron, having purchased the Schevere works where they are now extensively engaged in the manufacture of all kinds of chains and running from sixty to eighty men. He was married in February, 1843, to Hannah Bechtel, daughter of Abraham Bechtel; by this marriage there have been four sons and three daughters—Emma Elizabeth, Henry D., Amanda Ann, Harvey F., Levin J., S. Samuel, Cora O.; four are married and residents of Akron—Emma E., now Mrs. Frank Reifsnider, he a traveling salesman for the rubber works in Cleveland; Henry, married to Miss Minnie Sigley; Amanda, now wife of Mr. Kratz, superintendent at the Thomas Planing Mill; Harvey, married to Miss Mary Hayes. Levin J. is engaged in business in the West. Mr. Miller has been a man of great energy and business ability, and the manner in which he has adjusted the great losses which he has suffered has made him many warm friends in his declining age.

JUDGE ULYSSES L. MARVIN, lawyer, Akron; is a son of Ulysses and Elizabeth (Bradley) Marvin, and was born March 14, 1839, in Stow Township, this county, where his youth was spent until the age of 15, when he began painting with his father during the summer. His education was received, in addition to the public schools, in Twinsburg Institute, and Franklin Institute, at Kent, teaching in the meantime from the time he was 16 years of age. In 1858, he entered the law office of H. R. Foster, at Hudson, and the next spring came to Akron and completed his studies with Hon. Sidney Edgerton, and was admitted to the bar May 2, 1860. In 1861, he became Principal of the Union School of Kent, where he married Miss Dorena, only daughter of Hon. David Rockwell, of that place, Nov. 27, 1861. In

August, 1862, he enlisted as a private in the the 115th O. V. I., and served as a clerk in the office of Judge Advocate, at Cincinnati, until August, 1863, when he was commissioned as 1st Lieutenant in the 5th U. S. Colored Infantry, and as a part of the 18th Army Corps participated in the Peninsular campaign of 1864. In the attack on Petersburg and that campaign, he commanded the skirmish line at the Burnside mine explosion. During the siege of Richmond, he was promoted to Captain, and was wounded while leading his company at New Market Heights, Sept. 29, 1864, which disabled him for two months, when he returned to his command and was assigned to duty as Adjutant General on Gen. Shurtleff's staff, was sent to Ft. Fisher, then to Raleigh, N. C., and was at the surrender. He was brevetted Major at the close of the war for gallant and meritorious service, and made Judge Advocate on the staff of Gen. Paine, serving as such until mustered out of the service in October, 1865. He then returned to Kent and opened a law office, and two years later removed to Akron, forming a partnership with J. J. Hall for eighteen months. In the fall of 1869, he was elected Probate Judge, serving until February, 1876; since then he has been in practice of law first as the firm of Foster, Marvin & Grant, now the firm of Marvin, Grant & Foote.

EDWIN H. MERRILL, of E. H. Merrill & Co., manufacturers of stoneware, Akron, is a son of Abijah and Abigail (Scott) Merrill, and was born Feb. 9, 1808, in Painesville, Ohio, where he went to school in winter, and began his trade of potter with his father when but a boy, growing up with the business. In 1830, when he was 22 years old, he came to Springfield Township, working successively for Fisk and for Purdy, when he bought out Fisk. (The pottery and sewer-pipe business is one of the most extensive of Akron and Summit County, and receives full notice in the chapter devoted to the industries of the city.) After he bought out Fisk, his father's family came on (about 1835), and they began the manufacture of beer bottles, by machinery invented by subject, and upon which he had secured a patent. They remained in Springfield until 1847, and had in the meantime began the manufactory of tobacco pipes by machinery. They then moved to Middlebury, and made principally beer

bottles, tobacco and water pipes—making 300,000 bottles per year. They also invented a machine for making stone pumps, which they manufactured for a time. In 1854, they (Merrill Brothers), invented a machine for making sewer-pipe, and began their manufacture, under firm of Merrill, Powers & Co., the brothers owning one-half interest. They did well until 1857, when the panic came, and their principal buyers of Chicago could not sell, and having a large amount on hand, were forced to sell at reduced prices. About the same time, subject bought his brother's interest in the bottle factory, which he continued until 1860, when it was destroyed by fire, with total loss. He then came to his present place, 404 South Main street, and purchased the building now in use, where he has done a good business. The firm was Merrill & Sons, and they employed a force of some thirty men and boys. He was married, in 1838, to Miss Emily Gleason, of Bedford, Ohio. They have two sons and one daughter living. Henry E. is a member of the firm; William G. is in the pottery business in Virginia; Grace, now Mrs. F. W. Butler, who is a member of the present firm. In February, 1880, William G. retired from the firm of Merrill & Sons, and F. W. Butler became a partner, and the firm was changed to E. H. Merrill & Co.

CYRUS MILLER, merchant, Akron, Ohio; was born in 1831, in Allegheny Co., Penn. At an early age he was left an orphan, and that portion of his life was spent in the homes of different families, as chance might offer and as his services were counted as compensation. He had no opportunities of gaining an education, and at the age of 14 he began as a driver in the coal mines at Chippewa, Ohio, he having for some years previous to this been a resident of the State. He continued at driving in the mines for about five years, and then he spent three years in mining. He then accepted the position of shipper for Mr. David Morris, who was engaged in the shipment of coal from Girard, Trumbull Co., to Cleveland. For about nine years he was engaged in shipping, when he purchased a hotel in Girard, of which he spent the following eight years as landlord and proprietor. His last change, little over ten years ago, was to come to Akron, and with a capital of \$500, engage in the grocery trade. With this small amount as a beginning,

he has built up a business that ranks among the leading mercantile houses of the city, as, in the year 1880, the aggregate sum of his sales was \$80,000. His place of business is located at No. 142 South Howard street. Mr. Miller is a quiet, unassuming man, who has given his whole attention to his business, and though he began a poor boy, and was left dependent upon his own resources, he holds a position among the business men of Akron of which he may justly be proud. In 1849, he was married to Miss Delilah, daughter of John Wilson, of Stark Co., Ohio.

GEORGE S. MAY, lawyer, Akron, Ohio; was born Jan. 31, 1851, and is a son of Horace and Eleanor (Stow) May, the latter of the same family of Mr. Stow, the founder of Stow Township. His (subject's) father was born in Cazenovia, N. Y., July 6, 1811, and came to Akron in 1837, where he engaged in general mercantile business; having stores at Lock 1, one in North Akron, and a branch at "Slankertown." By prudence, economy, and a general adaptation to the business, he was successful, and retired on account of failing health in 1856, having accumulated a competency, which he managed with care until his death, in August, 1867. Mr. M. was always at the front in all enterprises of a public nature, and did much to establish the commercial and political importance of the town. A man of sterling worth, and with the reputation of being an excellent business man, he had the respect and confidence of all who knew him. Those who have listened with interest to his stories of business experiences of Akron in the early times, will remember with what pride he would boast of never having paid a debt a day after it was due in his life. His social qualities drew about him a host of friends and intimate acquaintances, and his home was always filled with company. Among others, Hon. B. F. Wade, R. P. Ranney, Judge V. R. Humphrey, were life-long friends, and always found a welcome with Mr. May. Subject was but 16 years old when his father died, and at the solicitation of Mr. Wade, took up the study of the law in the office of Edgerton & Kohler, where he remained until his admission to the bar, Sept. 2, 1872. In October following, he made a trip to the Old World, visiting the larger portions of Continental Europe and Great Britain, spending one year in the Law Department of the University of

Heidelberg, Germany. He returned home in 1874, and began the practice of law in Akron, where he has since remained. He was married Sept. 30, 1875, to Miss Elizabeth S. Rogers, of Boston, Mass. She died June 10, 1877, leaving two daughters.

REV. HENRY F. MILLER, Akron; a son of John S. and Ann (Forer) Miller; was born in Athens Co., Ohio, Aug. 22, 1829. His youth was spent on a farm, and, at the age of 18, he entered the Ohio University at Athens, and graduated in the class of 1853. He then became Principal of Transylvania University at Lexington, Ky., remaining one year. He taught in Meigs Co., Ohio, two years, and in Pomeroy two years. In 1859, he entered the ministry of the Universalist Church, and removed the next year to Madison, Ind., where he became Pastor of a church until 1863. He was then sent as general army agent to look after the sick and wounded soldiers in the Southwest, and distribute sanitary stores and attend to other charitable work, under the auspices of his church, with headquarters at Louisville, Ky. In July, 1865, he returned to Madison and was appointed by the Northwestern Conference of the Universalist Church General Financial Secretary to raise an endowment fund for Lombard University at Galesburg, Ill., and succeeded in raising \$100,000 in two years. He was appointed to a like work for the building and equipment of Smithson College at Logansport, Ind. He resigned the position in 1869, and was elected general agent of the Ohio State Convention, Universalists, for the founding of an institution of learning in Ohio, and in pursuance of this object, during same year, he made the acquaintance of John R. Buchtel, of Akron, and enlisted him in behalf of the enterprise. The result was the founding of Buchtel College, a history of which is given elsewhere. He continued in management of its finances until the building was erected and opened for the admission of students. He conceived and carried to success the idea of having Hon. Horace Greeley deliver an address at the laying of the corner-stone, which gave the college considerable prestige. Since 1871, with somewhat broken health, Mr. M. has divided his time between the work of the ministry and business pursuits. He was married, in 1853, to Miss Apphia Brown Cable, of Athens, Ohio. Of this marriage there were seven chil-

dren, five of whom are living—Henry E. was educated in the Akron schools, and is now farming in Medina Co.; Clinton D. is proprietor of the "99-cent" store of Akron; Paul R., a student of the Class of 1881, in Buchtel College; Mattie C. and Ernest still reside at home. Subject's parents were born in New Jersey, and settled in the woods of Athens Co., Ohio, in the early part of 1829.

C. H. MYERS, boots and shoes, Akron; is a good representative of the boot and shoe trade of South Akron, and, in fact, one of the leading dealers in the city. In speaking personally of some of the promoters of Akron's business industries, his name is worthy of more than a passing mention. He was born Dec. 6, 1852, in Middlebury, or what is now known as East Akron, and is the son of Charles F. and Elizabeth (Swope) Myers, the former a native of France, and a carpenter and architect by trade. When C. H. was about 10 years old, his father moved to the country and engaged in farming. About seven years of the life of C. H. was spent at hard work on the farm, when his people removed to Akron again, which move gave him a better opportunity of getting an education, both of a commercial and literary nature. After leaving school he spent about one year in the gearing department of the Buckeye Reaper Works. With the money earned by himself in this way he took a thorough course and graduated at the commercial college of Akron. After leaving college, he spent one year on the road as traveling salesman for a hardware house. He then began clerking for Mr. E. P. Holloway, with whom he remained till the spring of 1876, when he and C. A. Holloway, also an employe of E. P., engaged in the boot and shoe trade under the firm name of Holloway & Myers, and so continued to do a very prosperous business until the spring of 1881, when he purchased the interest of Mr. Holloway, and is now conducting the business alone in the old successful way. In the spring of 1877, he was married to Miss Catharine, daughter of Albert and Mary (Braenton) Corney. She was born May 11, 1854, in Bridgeport, Conn., and, when a child, came to Cuyahoga Falls with her parents. She lived there about twelve years, when her people removed to Akron. They were married by the Rev. Henry Baker. They are both members of the First M. E. Church of Akron;

he has been a member for the past fourteen years. One child has been born to them—Gracie, who was born on March 30, 1878, and died on March 4, 1880.

J. A. MYERS, foreman of the shipping department at Aultman, Miller & Co.'s, Akron; is a son of David B. and Elizabeth (Moller) Myers—she a native of Wayne Co., Ohio, he of Germany, but he came to Ohio with his widowed mother when about 6 months old; she married, in Cleveland, a Mr. Green, and moved to Independence, where she still lives, at the advanced age of 83 years. David, the father of our subject, moved from Wayne Co. to La-Porte Co., Ind., where he lived thirteen years, when he returned to Ohio in 1864, and resided at Canal Fulton and Clinton until 1868, when he came to Akron, where he now resides. He had three children—J. A., the eldest, born Jan. 15, 1847; Nancy, a Mrs. Henninger, and Etta, a maiden. The subject of this sketch received a very limited education, and, at twelve years of age, went into a drug store, in which business he continued until 1866, making rapid advancement in the knowledge of the business. He then worked with his father, who was a carpenter by trade, until Oct. 27, 1867, when he accepted the second position in the shipping department, where he is now employed, serving nine years in that capacity, after which he accepted his present position. He was married, Sept. 12, 1869, to Emma Clark, born Dec. 29, 1848, in Sheffield, England, but came when 1 year old to this country with her parents, Samuel and Sarah Clark, who were farmers in Springfield Township, both of whom are now deceased. By this marriage there are five children—Clarence Arthur, born July 1, 1870; Edna May, July 9, 1872; Daisy Emma, April 3, 1875; Myrtle Grace, Oct. 27, 1877; Chester Albert, April 6, 1881. Mr. Myers is a staunch Republican, greatly interested in education, a liberal supporter of churches, and he, with his family, are members of the Evangelical Association.

FATHER THOMAS F. MAHAR, Akron; was born in Scranton, Penn., Sept. 28, 1851. In 1866, he entered St. Louis College at Louisville, Stark Co., Ohio, and remained three years, having been for four years previous a student in St. Mary's College. In 1869, he went to Rome, Italy, where he began his ecclesiastical studies in the American College, con-

tinuing until 1875, when he came to Cleveland, Ohio, and was made Assistant Pastor in St. John's Cathedral, serving until Aug. 1, 1880, when he was sent to the pastorate of St. Vincent's Church of Akron. He received the degrees of Ph. D. and D. D. at Rome, Italy. He is the oldest son living born to Thomas and Ann (Hart) Mahar, both of whom were born in the United States and are now residents of Cleveland, where the husband superintends a rolling-mill.

RUDOLPH A. MAY, of the firm of May & Fieberger, Akron, dealers in stoves and tinware, also galvanized iron cornices, etc. Mr. May, of this firm, was born in Bohemia, Austria, April 3, 1847, and is the fourth of six children born to Anthony and Rosalia (Dreythaler) May, natives of Bohemia, Austria. Anthony May came to the United States in 1848, and in 1850, his wife and one child, (the three other children having died), came also to Akron, where he had been working. Mr. May first worked in the woolen factory, and in 1851, he engaged in the grocery business, which he followed until his death in 1855. Mrs. May soon after married Mr. Joseph Fieberger, who was also a native of Austria. They live now in Akron. Rudolph A., the subject, lived at home until he was 14 years old, when he went to Columbus, where he worked at silver-plating. Some months after he apprenticed to the tinning trade, receiving wages after the first year; he lived in Columbus two years, and then returned to Akron, and a year afterward formed a partnership with J. B. Cramer (firm Cramer & May), continuing until 1880, when the firm dissolved and was succeeded by the present one of May & Fieberger. He was married Sept. 9, 1874, to Miss Susan R. Rhodes, a native of Portage Co., Ohio. They have three children—Mary M., Lewis R. and Nellie L.

DR. THOMAS McEBRIGHT, physician, Akron; was born April 14, 1824, at Carlisle, Penn. He is the youngest of eight children born to George and Barbara (Brunner) McEbright. His parents were natives of Pennsylvania; moved in 1833 to Wayne Co., Ohio, where his father, though a tanner by trade, devoted his attention to farming. Here both lived until their death, living to an advanced age. Dr. McEbright lived on the farm until the age of 16 years, when he entered the Ohio Wesleyan University, continuing his studies at intervals until 1848, teaching district and select

schools in the meantime to support him in college. He finally abandoned his college course, before completion, on account of his health. He at one began reading medicine at Wooster, Ohio, with Dr. T. H. Baker, and graduated at the Starling Medical College, of Columbus, Ohio. He began practice at Nashville, Ohio, where he remained seven years, going from there to Millersburg. In 1861, he went from the latter place to the army as Surgeon of the 8th O. V. I., remaining with the regiment two years. Resigning, he returned to Millersburg, and soon after raised the 59th Battalion, consisting of five companies, which, upon the call for 100 days' men, was attached to the 166th Regiment. Dr. McEbright was made Colonel, but preferring to act as Surgeon, at his request, Gov. Tod appointed Col. Blake to succeed him, and commissioned Dr. McEbright as Surgeon. He soon after rose to the position of Brigade Surgeon, and in this position was detailed as Chief of the Operative Board at the battles of Antietam, Winchester, Wilderness seven days' fight, Rich Mountain, and the other engagements up to Gettysburg. In the fall of 1864, he was mustered out with his regiment and returned, coming to Akron to resume his practice, where he has since been engaged. Dr. McEbright is an active society man; a member of the Summit County Medical Society; was one of its founders, and among its earliest Presidents. He is a member also of the Union Medical Society of Northeastern Ohio, the State Medical Society, and the American Medical Association, serving in different official capacities in the two former. In June, 1853, he married Miss Nancy, daughter of Judge Thomas Liggett, of Millersburg, Ohio. They have had five children, only two of whom are now living: "Kit," who received the degree of Bachelor of Arts, at the Cornell University, at the age of 19; she has also received the same degree at the Buchtel, and is now completing a French course at St. Marie De Monoir, Canada. Carrie, the younger daughter, is attending school in her native city, Akron.

WILLIAM McKINNEY, Sheriff, Akron; was born in Franklin County, Ohio, Dec. 29, 1833, and is the youngest of five children born to Cineum and Abigail (Patterson) McKinney; he was butcher by trade, and dealt largely in stock; he died in 1834. Mrs. McKinney afterward married Mr. Luther R. Prentiss, a farmer

of Cuyahoga County, where she lived until her death, about the year 1855. Mr. Prentiss is yet living in Cuyahoga County, aged 78 years. Our subject lived with his mother until he was 16 years of age, when he was apprenticed to shoemaking and served three years, after which he followed his trade in Twinsburg, and in Iowa and Kansas for three or four years. In 1860, he returned to Twinsburg and opened a shop; in 1862, he left his shop in his brother-in-law's care, and enlisted in Co. G, 115th O.V. I., serving until the close of the war; he was first appointed Corporal and afterward promoted to 2d Sergeant; in 1863, he was detailed with Lieut. Nash to take charge of a block-house at Luverne, near Nashville, and, upon the transfer of Lieut. Nash, the Sergeant was left in command, and so remained until Dec. 5, 1864, when the place was captured by Forest; they were held prisoners, and, in March following, were moved to Black River, near Vicksburg; here the Sergeant escaped the guard and went to Vicksburg, where he took a hospital boat to St. Louis, and, from there, returned home, his weight being eighty pounds; after remaining home about a month, he went to Camp Chase, where he received his discharge, and returned to Twinsburg, where he resumed shoemaking, which he continued there until 1871, when he was appointed Postmaster by President Grant, and held the office until Jan. 1, 1881. In the fall of 1880, he was elected Sheriff on the Republican ticket, and entered upon the duties of his office in January following. Feb. 8, 1853, he married Miss Sarah A. Carver, a native of Twinsburg, and a daughter of George W. Carver, whose father was one of the pioneers of that Township; by the marriage, there has been born six children, of whom three are living, viz.: Clara, Perry and Paul.

JAMES C. McNEIL, proprietor of Akron Boiler Works, Akron, Ohio; was born in Onondaga County, N. Y., May 8, 1836, and is a son of Samuel and Nancy (Cokely) McNeil, who were natives of New York, and emigrated to Ohio about the year 1838, and settled in Coshocton County; they carried on farming there until his death in 1847, when his widow continued same until 1859, when she came to Akron, to live with James C., and died in 1867. The subject came to Akron in the year 1847, to live with his brother, and attended the public schools; at the age of 18, he apprenticed

to the machinist trade, with Webster & Taplin, of Akron, and served until he became of age; he followed the trade about six years in Cleveland, with the Cleveland & Mahoning R. R. Co.—three and a half years foreman of shops and two and a half years engineer on railroad—and then returned to Akron, and took charge of the machinery in the Akron Barrel Factory, where he continued for two and a half years. In 1866, the firm of Moffatt & McNeil was formed, and engaged in the manufacture of boilers and boiler plate-work; they continued four years, when Mr. McNeil became sole proprietor and has continued ever since. In 1880, Mr. McNeil built the present brick shop, 64x96 feet; he does a large business, and is a practical man; employs from twenty-five to thirty hands. He was married, in 1859, to Miss Mary Gale, a daughter and youngest child of Justus and Sarah (Hyde) Gale, a prominent family, and a native of Akron; they have two children, viz.: Grant C. and Sarah G. He has been a Republican since organization of the party, and from 1866 to 1869, was Chief of the City Fire Department.

J. C. McMILLEN, of Baker, Merriman & Co., Akron; was born in Clarion County, Penn., March 8, 1827, and is the second of a family of four children born to John and Sallie (Maxwell) McMillen. Mr. McMillen's parents were natives of Westmoreland County, Penn.; his father was a farmer, and subsequently, in 1862, moved with his family to Iowa, where the mother died, July 4, 1876. The family then moved to Michigan, where he is now living with a son. J. C. McMillen lived with his parents, assisting on the farm, until he was 18 years of age, when he was apprenticed to a cabinet manufacturer, with whom he remained until he attained his majority; he continued about three years longer as a journeyman, when he came to Akron and engaged in his trade. Some four years later, he united with others in establishing the Melodeon Company, and has been in company with Baker ever since. Nov. 29, 1853, he married Miss Evaline Reed, a native of Sharon Township, Medina Co., Ohio; she died Feb. 21, 1858, leaving one child, Laura, now Mrs. Brush, of Michigan. Sept. 19, 1861, Mr. McMillen married Mrs. Fulton, formerly Miss Catharine Schley, a native of Chambersburg, Penn.; three children have blessed this union—Guy, Mary and Emma.

A. J. McNEIL, boots and shoes, Akron; is the youngest son of William and Sarah (Pursell) McNeil, of Peninsula, and was born Dec. 23, 1850. He lived at Peninsula until 1864, when he came to Akron as clerk in the employ of David Snyder, in the grain and produce business, continuing for two years. In May, 1866, he became a clerk for Cutter & Howe, of Akron, where he remained until January, 1870. He then went to Indianapolis and clerked in a shoe store, but returned to Akron the next year and entered the employ of his old firm, Cutter & Howe. In company with A. L. Bowman, he, in 1873, bought the shoe establishment of C. R. Howe, and, under the firm of Bowman & McNeil, did business four years. In 1878, was engaged as traveling salesman for Childs, Groff & Co., wholesale boot and shoe dealers, of Cleveland, and continued with them two years. In 1880, was employed by M. T. Cutter as salesman for one year, and in March, 1881, associated himself with his brother, S. C. McNeil, at 121 S. Howard street. He was married, in July, 1873, to Miss Emma E. Ladd, of Akron. They have one daughter.

S. C. McNEIL, boots and shoes, Akron; is a son of William and Sarah (Pursell) McNeil, and was born at Sharon, June 28, 1843. He was ten years old when the family moved to Peninsula, Summit Co., where he grew up. He clerked here for some time, and, in 1862, became the partner of Frederick Wood in general store, continuing until about the year 1865, under the firm name of Wood & McNeil. In 1865, he went to Denver, Colo., remaining six months; then returned to Peninsula, and, in the fall of 1866, purchased a canal-boat, and ran from Peninsula to Cleveland, with stone, lumber, etc., until the fall of 1870, when, in company with Thomas Wood, he engaged in the lumber business under the firm of Wood & McNeil. In March, 1881, he opened a shoe store at 121 South Howard street, with a large stock of new goods, embracing every variety of boots and shoes, and a shop for custom-work. The entire stock was bought at the most favorable season, direct from the manufacturers for cash, also including the largest stock of trunks and valises in the city. Mr. McNeil has secured the services of his brother, A. J. McNeil, who has had fifteen years' experience in the shoe business. He was married, April 24, 1872, to Miss Jennie Beers, daughter of L.

Beers, a pioneer of Boston Township. They have one son and one daughter.

CAPT. THOMAS W. NASH, Recording Clerk, Akron; is a native of Williamsburg, Hampshire Co., Mass.; he was born Dec. 7, 1832, and is the fourth of five children born to Hophni and Lovisa (King) Nash. They were natives of Massachusetts; he was born Jan. 10, 1797; his father was a farmer, and he was raised to the same pursuit; in the fall of 1817, he came to Ohio in company with his cousin, John A. Nash; he settled in Richfield Township, where he was burned out, after which he moved to Bath Township, of which locality he was one of the pioneers; he lived in Bath Township, except a few years in his native State, until the fall of 1880, when he retired to Akron, where he now lives. Our subject lived at home on the farm until the year 1861; he received a common school course of study, and taught at home and in Indiana, where he was visiting. Oct. 3, 1861, he enlisted in Co. H, 29th O. V. I., and served throughout the war, during which time he was several times promoted, ranging from Orderly Sergeant to Captain (see record of regiment in this work); he was taken prisoner at the battle of Port Republic, and held three months in Libby and Salsbury Prisons, after which he was paroled. He returned home in July, 1865, and soon after visited in Livingston Co., Ill., where he purchased a farm. Feb. 14, 1866, he married Miss Nettie Culver, a native of Richfield Township, Summit Co., Ohio, and the following month occupied his farm in Illinois, and farmed until the spring of 1873; he then moved to Chatsworth, Ill., and became agent for Howe's sewing machines, and also taught school. In 1879, he returned to Akron, and has resided there since, and has followed his present business. By the marriage there has been two children, viz., Effie M. and Clyde C.

SUMNER NASH, County Clerk, Akron; was born in Bath Township, Summit Co., Ohio, May 10, 1836, and is the youngest of five children born to Hophni and Lovisa (King) Nash, who are spoken of elsewhere in this work. Our subject remained on the farm until he was 20 years of age, receiving a common school and academic course of study; he then went to Wisconsin, where he took a contract to clear a way through the forest near Plymouth for the Sheboygan & Fond du Lac Railroad, making

ties and cording the timber. He next drove stage between Oshkosh and New London. In the Spring of 1857, he took charge of a hardware store in Oshkosh, for E. H. Barber, and the following summer he returned home and took charge of the farm which he managed and taught school during the winters until 1862. Aug. 6, of that year, he enlisted in the service, and was assigned to the 115th O. V. I., and served three years; he enlisted as a private and was successively promoted to the rank of 1st Lieutenant. In 1863, he was detailed to relieve Lieut. John Eadie, in command of the military forces at Dayton during the election. In 1864, he was placed under Maj. Willet, and served as Assistant Inspector of Railroad Defenses, which position he held until the close of the war. In July, 1865, he returned home, and in September following bought a farm in Livingston Co., Ill. March 8, 1866, he married Miss Rebecca M., daughter of John A. Means, of Summit Co., Ohio; after the marriage, he occupied his farm in Illinois, and lived there until 1868, when he returned to Summit Co., where his wife died July 18, 1869. They had one child, M. Maud. He managed his father-in-law's farm for two years; in the spring of 1872, he engaged as agent for G. G. Baker & Co., manufacturers of lightning rods, etc., and traveled for them in Illinois until the following winter, when he returned to Summit Co., and was appointed Deputy County Clerk by John A. Means, which office he held until the term expired; he then served as Deputy for George W. Weeks, and in the fall of 1878 he was elected County Clerk on the Republican ticket, and entered the duties of the office Feb. 10 following. June 23, 1874, he married Miss Linnie A. Cross, of Columbus, Ohio.

THOMAS NORTON, retired, Middlebury; was born in Oneida Co., N. Y., April 16, 1806, and is a son of Peter and Elethina (Thompson) Norton, natives of Farmington, Conn. There is a record of the Norton family running back through nineteen generations, and the American branch of the family trace their ancestry through the same line. The earliest of the name—Lord Norville, of France—was an officer under William the Conqueror, and went into England in 1066. A genealogical chart of the family is kept at Cambridge, Mass.: "Norville is a corruption of the French term Nordville, North-ville, or North town, and Nor-ton or

Norton was subsequently adopted." Peter Norton, the father of our subject, was a farmer, and, in 1806, moved to Smithfield, Trumbull Co., Ohio, where he worked for his uncle, Luther Thompson, who settled there four years previous. In 1809, Mr. Norton moved to Tallmadge, Summit Co., and purchased fifty acres of timber land, on which he settled and lived for several years. In 1812, he was drafted, but, owing to family affairs, his son Almeron went in his place, serving a short term. In 1813, the family settled on the place where Thomas (subject) now lives, Mr. N. having bought 200 acres of wild land, upon which he lived until his death, Aug. 23, 1822. He was Treasurer of Tallmadge Township for many years. Mrs. Norton afterward married Elisha Farnam, and died Nov. 24, 1844. The subject lived with his mother until her death, and remained on the place, which now belonged to his brother Almeron. In 1851, his brother died, and subject bought out his brother's heirs, thus becoming the owner of the old homestead. He has always followed farming. He was married, Jan. 10, 1847, to Miss Hannah M. Coney, a native of Stark Co., Ohio, who was born April 13, 1812, and is a daughter of James and Nancy (Hamlin) Coney, he a native of Pennsylvania, who came to Stark Co. a young man, and she a native of Virginia, who came to the same county with her parents. Subject has one child—Martha M. (now Mrs. Theodore Johns, boot and shoe dealer, Des Moines, Iowa). Theodore Johns was born in Middlebury, Summit Co., Ohio, March 23, 1845, and is a son of John and Nancy (Grant) Johns, he having been born on the line between Delaware and Maryland, and she in New Jersey. They were married in Philadelphia, and lived in New Jersey until about the year 1832, when they came to Middlebury, where he carried on shoemaking. About the year 1852 he moved to Akron, and, in 1855, to Des Moines, Iowa. He there opened the shoe business, which he conducted until 1874, when he retired, and his son Theodore took his place, continuing with the old firm name. He (Theodore) was married to Martha M. Norton (daughter of Thomas Norton) June 2, 1873. They have had two children, one of whom is living, viz., Nettie.

WILLIAM ACER NOBLE, foreman C.-B. Dep't., Akron; a son of Theron and Lydia Dow (Acer) Noble; was born Dec. 1, 1851, and is a

native of Pittsburgh, Penn. When a year old, family removed to Akron, where his father had lived before. Subject was educated in Akron in the public schools, and, at 16, was apprenticed to the trade of machinist, in Taplin, Rice & Co.'s foundry, where he remained three years. He then went to Florida, where he remained two years, and, in 1873, returned and entered the employ of Taplin, Rice & Co., until the spring of 1876, and, in December of that year, engaged with Aultman, Miller & Co. as a mechanic, and, Sept. 1, 1877, was made foreman in cutter-bar department, which embraces three rooms and employs fifty men. He was married, in October, 1877, to Miss Kate Bigelow, of Mansfield, Ohio; one daughter living. Mr. N. and wife are members of the Episcopal Church; is Republican in politics. His father was born in New York, and came to Akron about 1835, and was one of the first Auditors of this county. He was a tanner, but followed milling, and ran the old Black Mill in Middlebury several years. Afterward, he owned the Cascade Mills; died Sept. 20, 1877, aged 73 years.

EDWARD OVIATT, Akron. Edward Oviatt, son of Marvin and Mary (Foot) Oviatt; was born on May 19, 1822, at Hudson, Summit Co., Ohio. He spent a part of his time on a farm during his youth, and attended school at the Richfield Academy at Granville, and Western Reserve College, during a portion of his minority. In May, 1842, he came to Akron, entering the Hon. D. K. Cartter, now the President Judge of the District of Columbia, for purpose of studying law, where he remained four years, and until Cartter removed to Massillon. In September, 1844, he was admitted at Medina as a practitioner at the bar in the State Courts, and, in November, 1856, at Cleveland, as a practitioner in the courts of the United States. He practiced law alone until July, 1865, when he formed a partnership with Hon. S. W. McClure, which lasted until May, 1870, the latter having been elected as one of the Judges of the Court of Common Pleas. He continued the practice alone till September, 1876, when he formed a partnership with George G. Allen, who had, a short time before that, been admitted to the bar, and with whom he still continues, under the firm name of Oviatt & Allen. He was one of the members of the Board of Education of the city for sev-

eral years; was City Attorney from 1854 to 1862, and Prosecuting Attorney for this county from 1865 to 1869 inclusive, having been almost unanimously nominated by the Republican party early in September, 1864, and, on the day of his return from the 100 days' service, leaving Akron as a member of Co. A, 54th Battalion O. N. G., but, on arriving in camp at Cleveland, in the organization of the 164th Regiment O. V. I., Col. John C. Lee commanding, he was appointed and served as Color Bearer of the regiment until his return home, the regiment having been located on Arlington Heights, Va., during the entire summer. He started in life without capital, and, for whatever of success in business he may have acquired, it was gained by industry and economy. On Sept. 8, 1847, he married Anna M. Wadsworth, daughter of Frederick Wadsworth, who bore him one daughter—Emma, now the wife of Calvin Edgerton, a lawyer residing in San Francisco, Cal. His wife died Aug. 9, 1854. Dec. 5, 1855, he married Frances A. Lansing, of Saratoga Co., N. Y., who bore him two children—Olivia F., wife of George G. Allen, and Edward Alling, the three above named being his only children. An ardent Republican, but not ambitious for office or political preferment, he has devoted his time and energies to his profession, seeking a reputation for fidelity and trustworthiness in business, rather than political honors. He adopted the rule early in life to owe no man anything pecuniarily, and if a debt was contracted in the purchase of real estate or otherwise, he lost no time or opportunity in meeting the obligation, and to this principle he gives the credit for much of his success in business.

HERBERT A. PRUNER, Palmer & Pruner, artificial stone, Akron; is a native of Dundas Co., Ontario, and was born July 5, 1849, receiving a common-school education. At the age of 16 years, he came to Cattaraugus Co., N. Y., where he worked on a farm for two years, when he returned to Canada, remaining there one year, and then went back to New York. For two years he was employed in a cheese factory in Chautauqua Co., and then returned to his old employment in Cattaraugus Co., where he remained two years. About the year 1873, he went into the shops of the N. Y., P. & O. R. R. at Randolph, in the blacksmithing department, but again returned to the farm. In April,

1878, he came to Akron, and was employed by S. Matherson, in chain works at Cuyahoga Falls for one year, when he returned to New York. In October, 1879, he came back to Akron, and, in January, 1880, became a member of the firm of Palmer & Pruner, manufacturers of artificial stone. (See Mr. Palmer's sketch.) He was married, March 24, 1880, to Miss Belle Le Vere, of Akron. He started without capital, and, until the age of 21 years, gave his earnings into the hands of the family.

HARRY A. PALMER, Palmer & Pruner, artificial stone, Akron, Ohio, is a son of William and Sophia (Brock) Palmer, and was born July 16, 1851, in Somersetshire, England. The family came to the United States in 1852, when he was but 8 months old, and settled in Tallmadge Township on a farm, where he was brought up until he was 15, when he went to work in a paper mill at Cuyahoga Falls, remaining about one year, and then became engineer for his brother-in-law at Mansfield, in Richland Flouring Mills. Two years later, mills were burned down and firm removed to Ashland, and he was again employed as engineer. In 1870, he went to Shelby and ran an engine about one year and then returned to Tallmadge in 1872, and took charge of a farm. In the fall of 1873, he went to Onarga, Ill., and Jan. 1, 1873, was married to Miss Mary C. Risser, of Ashland, Ohio. He bought a fruit farm near Onarga, Ill., and did well for two years, and in 1876, bought a farm in Edinburg Township, Portage County, where he farmed two years. In 1878, he went to Ashland, as engineer in the mills, until September 1879, when he came to Akron and bought the right of manufacture and sale of artificial stone in Summit County. Jan. 10, 1880, he formed a partnership with Herbert A. Pruner, and opened a manufactory at 203 North Howard street. The following is given as a matter of scientific interest: Artificial stone has been in use probably as long as any other building material, and is unquestionably one of the lost arts. In conformation of this, history informs us that the Moors long ago manufactured a durable artificial stone, specimens of which may yet be found at Gibraltar, which have withstood successfully the storms of ten centuries. The Coliseum at Rome is a sample of artificial work by the ancients. The Cisterns of Solomon, near the city of Tyre, are of still more ancient origin, yet these immense structures are

almost complete in their preservation. The noted Small Cob, together with a large number of scientific men, is of the opinion that the Pyramids were built of artificial blocks, manufactured upon the ground from the sands of the surrounding plains, by some cunning process that perished with the builders. Some of the largest and most permanent harbors and government works in the European countries, the great aqueducts of Central Europe, together with the Seagirt railroad station, and piers of the great bridge at New York, are instances where artificial stone is used almost entirely and with the best of success. Business blocks that are not surpassed in beauty and grandeur in New York, Chicago, San Francisco and many of the principal cities of the United States, are constructed entirely of this material. The great advocates of this building material are the eminent chemists and engineers of English fame, together with Maj. Gen. Gilmore, corps of engineers United States Army, whose engineering skill has given him a world-wide fame. Many different processes have been invented, yet all have met with more or less difficulty in trying to obtain a solid, durable stone. Under the patent process which Messrs. Palmer & Pruner now control in this county, these difficulties have been overcome, and they are now manufacturing a quality of artificial stone, perfect in appearance and adapted to all classes of work where natural stone or any other building material is used. Being of a hydraulic nature, it will harden and improve in solidity under water, it resists the action of steam, acids, and other disintegrating influences as well as our best building stone. The *Boston Journal of Chemistry* says that artificial stone is as safe and durable as natural stone, that its chemical nature is such that it becomes almost as hard as granite, and that there cannot be a doubt that it will subserve all the desirable purposes for which that material is employed. In some of our larger cities this stone is fast superseding the use of other building material, and is being extensively used for walks, trimming brick buildings, lawn vases, fountains and ornamental work of all descriptions. The sand in this location is particularly adapted to making this stone, it being coarse, sharp and siliceous. Ornamental work can be furnished at about one-half the cost of natural stone and will stand fire much better.

GEORGE K. PARDEE, lawyer, Akron: is a son of Hon. Aaron and Evaline (Eyles) Pardee, and was born March 1, 1839, in Wadsworth, Ohio, where he was brought up, and where he lived until 1862, when he enlisted as a private in Co. K, 42d O. V. I., Gen. Garfield's regiment. He took part in the battle of Chickasaw Bluffs, where he was wounded by a musket ball. He was Second Lieutenant, and for gallant services was promoted to Adjutant of the regiment. He was also at Young's Point, Grand Gulf, Thompson's Hill, Champion Hill, Black River Bridge, siege of Vicksburg, Jackson, Miss., and in the Red River campaign and other engagements of his regiment; finally promoted to Captain of Co. D. He returned to Wadsworth, and kept a dry goods store for three years, during which time he completed his study of the law under his father, and was admitted to the bar in 1866. He commenced practice in the courts of Medina until 1875, when he removed to Akron, where he has been in active practice since. He was admitted to practice in the United States Court in 1878. He was married, in December, 1860, to Miss Caroline C. Hard, daughter of Cyrus Hard, of Wadsworth. Four children have been born to them, viz., Karl A., Lionel S., Julia and William E. His father's family consisted of five sons and three daughters—William E. was an attorney, and died April 6, 1866; Henry C., attorney, at Medina; Almira S., wife of John G. Houston, of New Orleans; Judge Don A., attorney and United States Circuit Court Judge at New Orleans; George K. (subject); Fanny, deceased, was wife of P. B. Wilkins; Ella N., wife of Dr. Wallace A. Briggs, of Sacramento, Cal., and Sutliff E., attorney at Wadsworth, Ohio.

CHARLES E. PERKINS, Akron; sixth son of Col. Simon Perkins; was born in Akron, May 7, 1850; attended public school, and made further preparations at Hudson College; and, in about 1868, he entered the Troy Polytechnic Institute, where he pursued the engineer's course for three years, taking both a civil and mining course. On his return to Akron, he was elected City Engineer of Akron, continuing six years, the first year acting as assistant, and the last five being in the West. In the spring of 1878, he opened an agricultural warehouse on Canal street, where he has since conducted business with good success. He handles all kinds of

agricultural implements, carriages, wagons, scales and feed. In January, 1880, he married Miss May Adams, daughter of Frank Adams, of Akron.

COL. GEORGE T. PERKINS, banker, Akron, son of Col. Simon Perkins, was born in Akron May 5, 1836. His education was acquired in the schools of Akron and at Marietta College. In April, 1861, he enlisted as private soldier in the 19th O. V. I., and at the organization of Co. B was elected its Second Lieutenant, and participated in the West Virginia campaign. In August, 1862, he re-enlisted in the 105th O. V. I., and was promoted to the rank of Major. He was with the army of Gen. Sherman and Gen. Thomas in the Atlanta campaign. In 1864, he was made Colonel of the gallant 105th Regiment, and was its commander until the close of the war, being mustered out at Washington in June, 1865. On his return to Akron, he became Secretary of Taplin, Rice & Co., and held that position until July, 1870, when, at the organization of the Bank of Akron, he became its President, continuing in that office until 1876, when, at the demise of Mr. Alden Gage, Mr. Perkins became Cashier. He is also Secretary of B. F. Goodrich & Co., of the Akron Rubber Works.

COL. SIMON PERKINS, of Akron, son of the late Gen. Simon Perkins, of Warren, Ohio, was born at the latter place Feb. 6, 1805, where he remained until 1834, when he came to Akron and settled upon a tract of wild land containing some 5,000 or 6,000 acres, which he purchased in 1827. For a number of years prior to his removal to Akron, he assisted his father in the management of various land agencies, and in earlier years had experience in clearing up the wild lands of his native town. His education was at the common schools of Warren. In September, 1832, he married Miss Grace I. Tod, daughter of Judge Tod, and sister of the late Gov. David Tod, of Youngstown, by whom he had eleven children; eight of them are still living. Col. Perkins came of good Puritan and Revolutionary ancestry, being the descendant of John Perkins, who came to America with Roger Williams in 1661. His grandfather was Captain in the war of the Revolution, and his father commanded the forces raised in Northern Ohio for the defence of the frontier in the war of 1812. His mother was a Douglass, descendant of William Douglass, one of a

Boston colony which founded New London, Conn. After settling in Akron, Col. Perkins devoted himself to the improvement of his property, selling farms to settlers as they were wanted; raising improved breeds of stock and sheep, employing for a series of years, as Superintendent of these farming and stock operations, John Brown, afterward famous in the anti-slavery annals of the country. An eventful period, financially, in the life of Col. Perkins was that in which the Cleveland, Zanesville & Cincinnati Railroad was constructed to Millersburg. He was President of the road from the first organization of the company until it passed into other hands, and in the construction and equipment of the same, embarked his private fortune as well as all his energy and weight of character, and ultimately sank in the enterprise his own accumulations and what he had inherited from the estate of his father. In the later years of Col. Perkins' life, he has found congenial employment in superintending the improvement of the grounds of the "Akron Cemetery Association," and whatever of beauty and attraction those grounds now possess beyond their natural wildness and suitableness are due mainly to the Colonel's good judgment and love of the picturesque. Col. Perkins was never an office-seeker, always feeling probably that the man was more than any office, and that office should seek the man to fill it. Grace Park will always witness to his magnificent liberality. It was a gift to Akron before Akron had thought of being a city, and bears the name of his wife. There is no flaw in Col. Perkins' character. It is sterling throughout, and sound to the very core. His business integrity and the purity of his private life have always been above suspicion.

JUDGE STEPHEN H. PITKIN, lawyer, Akron; is a son of Rev. Caleb and Anna (Henderson) Pitkin, and was born Oct. 5, 1810, in Old Milford, Conn. When he was 7 years old, his father removed to Ohio, and settled in Charleston Township, Portage Co., where he preached to the church at Charleston Center until 1827, when he went to Hudson, and was one of the founders of Western Reserve College, its Vice President and financial manager—was its Vice President until his death, which occurred about 1864. Subject worked on a farm in Charleston Township until he was 17 years of age, when he entered Western Reserve

College, from which he graduated in June, 1834. In the following October, he went to Fulton Co., Ill., where he engaged in teaching, and at the same time entered upon the study of the law, and was admitted to the bar in the spring of 1836. He entered upon the practice of his profession at Lewiston, the county seat of Fulton Co., Ill., and practiced under Stephen A. Douglas, who was his personal friend. He was elected County Surveyor of Fulton Co., and Probate Judge of that county in 1838; served two terms—four years. He remained there until 1852, in active practice, when he returned to Hudson and took charge of the homestead, and assumed the care of his aged parents; his mother is still living, aged 97 years. In 1862, he was elected Probate Judge of Summit Co., to fill the vacancy occasioned by the death of Judge Dodge; was re-elected, serving until February, 1870. About the year 1872, he resumed his profession, and has been in active practice ever since. In January, 1871, he was elected Secretary of the Summit Co. Agricultural Society, holding same nine years, and was President of the society for 1880. He was married in October, 1854, to Miss Julia Lusk, of this county, who was sister of the wife of "Old John Brown." She died Oct. 7, 1873. They had five children, two of whom are living—Julian H., Superintendent of C. Aultman & Co.'s Works, Canton; Mary, wife of Abner Caldwell, of this township. He was married a second time, Sept. 24, 1879, to Miss Helen B. Bell, of Cuyahoga Falls.

S. E. PHINNEY, merchant, Akron; is a son of Calvin and Emeline (Martin) Phinney; his father was born in Massachusetts, and his mother in Vermont. His father came, when a boy, to Cuyahoga Co., Ohio, where he lived until his death in about 1870. He was for many years a merchant at Dover, meeting with fair success. S. E. is the oldest of five children, and was born at Dover, Ohio, Oct. 25, 1838. He employed his time until 20 in acquiring a good common school education and assisting in his father's store. He was for two years clerk in the store of Edwin Phinney, of Bath, this county. In September, 1860, he came to Akron and was employed as clerk with F. McNaughton & Co., in the dry goods business, four years. In 1865, he was employed by the Government as clerk for the Superintendent of Railroad Repairs, and traveled throughout

the South and West. He returned to Akron in 1867, and became the partner of S. G. Bardorf in the shoe business, continuing in that house until a year after the death of his partner, when he sold out, and was in the employ of Cutter & Howe for three and a half years. In 1870, he opened a shoe store in Hanscom's Block, and has been in that business ever since in the corner room, No. 101 Howard and Market streets. His store includes a full stock of all goods in his line, and a repair shop. Oct. 30, 1868, he married Miss Nellie G. Abbey, of Akron, daughter of H. S. Abbey. They have two children.

HENRY PERKINS, Akron; son of Simon Perkins, was born in Akron, on the old homestead, April 8, 1842. He attended the public schools until he attained his 20th year, when he became clerk in the Quartermaster's Department, under his brother, Simon, Jr., who ranked as Captain and Assistant Quartermaster for the Army of the Cumberland, and followed the fortunes of the army until the close of the war. On his return, he accepted a clerkship with the Cleveland Rolling Mill Co., having charge of the Lake Shore mill office for a period of five years. In 1870, he became Secretary for Taplin, Rice & Co., and has had charge of the business department of the office ever since. Oct. 20, 1868, he married Miss Emma White, of Cleveland, Ohio; one daughter is the result of the union. He is Superintendent of the Congregational Sabbath School, and Deacon in the church.

AUGUSTUS D. POWER, foreman blacksmith department in Aultman, Miller & Co., Akron; a son of Hiram and Hester (Parker) Power; was born at Augusta, Ky., April 14, 1831. When about 2 years old, the family removed to Cincinnati, Ohio, where his father died in 1834, and the mother, with family, removed to Norwalk, Ohio. Here subject grew up, and, at the age of 20, entered upon the blacksmith's trade at Norwalk, at which he worked, except two years, until 1864. He then went to Meadville, Penn., and, in the employ of the A. & G. W. R. R., was made foreman of the blacksmith department in 1865 in the company's shops at Kent, Ohio. In 1870, he came to Akron, and at once entered the employ of Aultman, Miller & Co. as foreman of the blacksmith department, consisting of three shops employing sixty men. He was married, March

21, 1855, to Miss Jane L. Rule, of Norwalk, Ohio. They have two daughters. He is a member of the M. E. Church, of which he was chorister until 1877. He studied vocal music, and was leader of the choir at the several places where he has lived.

J. H. PETERSON, dentist, Akron, Ohio; who began the practice of dentistry in Akron in 1854, and who now ranks as a pioneer member of the profession of Summit County, was born July 9, 1830, in St. Johns, New Brunswick. He is the second son and fourth child of a family of eight children born to John and Elizabeth (Laidley) Peterson, the latter of Scotch ancestry, and the daughter of Robert Laidley, a Captain in the British service in 1784. John Peterson was a native of Bath, Me., and, during the war of 1812, he entered the service of the United States, sailing from Boston in his own ship. He subsequently became a resident of St. Johns, N. B., where he was obliged to take an oath to become a loyal citizen, so long as he might remain a resident of the place. He afterward removed to Buffalo, N. Y., where he engaged in land speculations, by which means he lost his fortune. He then removed to Portage County, Ohio, where his family grew to their majority, and chose for themselves a business or profession. The Doctor first tried the study of medicine, but gave it up, and completed a course in the study of dentistry with Dr. B. T. Spellman, of Ravenna, Ohio, after which he spent one year in Cleveland in practice, and then at the date above stated removed to Akron. In his residence of almost thirty years, the Doctor has progressed step by step as the science of dentistry has advanced to an important place among the sciences. While he has held a position among the first professional men of Akron, he has also devoted much of his time to other duties and social affairs. Politically he was first a Democrat, then a Free-Soiler, and finally a Republican; with the latter party he has been identified for many years. During the war of the rebellion, he was Secretary of the Republican Central Committee of Summit County. He is a member of Akron Lodge, No. 83, and of Washington Chapter, No. 25, of the order of A., F. & A. M. He is also a member of the Masonic Relief Association. Nov. 29, 1856, he married Miss Caroline Van Evera, a native of Cherry Valley, N. Y., but a resident of Akron at the time of their marriage. Three

children have been born to them, two girls and one boy. Of the Doctor's three brothers, the youngest, William, entered the service of his country during the war of the rebellion. He was wounded at the battle of Gettysburg, from the effects of which he died, and his body now lies in the National Cemetery, with a Government tombstone marking his last resting-place. George K., the brother next older than the Doctor, was a civil engineer of some note, and was with John C. Fremont on his exploring trip to California. The eldest brother, Daniel C., went in an early day to the gold regions of California, and was one of the first company of miners that ever located at Sutler's Fork.

ROBERT S. PAUL, surveyor, Akron; is a native of Summit Co., Ohio; was born in Cuyahoga Falls Oct. 3, 1842, and is the fourth of seven children born to Hosea and Ellen (Gamble) Paul. His parents were natives of Northfield, Vt., and County Down, Ireland. His mother came to this country when a child with her parents to Colebrook, N. H., subsequently moving to Canaan, Vt., where she married Mr. Paul, who was then Postmaster there. In 1834, they came to Wadsworth, Medina Co. Mr. Paul had early studied and worked at surveying, and at Wadsworth taught school. In 1835, he moved to Cuyahoga Falls, where he lived until his death, May 29, 1870. Mrs. Paul is still living on the old homestead in Cuyahoga Falls. Robert lived at home until he was 20 years old, completing in the meanwhile a course in the high schools of Cuyahoga Falls, and teaching in Stow and New Portage. He worked at times with his father at civil and mining engineering. In 1862, he surveyed the narrow gauge road for the Brewster Coal Company. In August, 1862, he was assigned for duty with the Topographical Engineer Corps under Col. J. H. Simpson, in the Army of the Cumberland, where he served until 1865. Upon his return from the army, he attended the college at Lebanon, Ohio, for a year. He then went to the oil regions and followed his profession there about eighteen months. He also followed his profession in Cleveland for two years, where he spent a year in the Pennsylvania Polytechnic College. He then came to Akron, and soon after was appointed County Surveyor, to fill out the unexpired term of his father. He has since filled the position save one term, during which time he was employed

as Chief Engineer of the Ohio & Toledo Railroad. July 25, 1872, he married Miss Sarah M. Romig, a native of Indiana. By this marriage, there have been six children, five of whom are living, Ellen, Ada, Laura, Martha (deceased), Mary and Edward. Mr. Paul is President of the County Surveyors' Association, and is serving his second term. He was elected in 1881, as Secretary and Treasurer of the Ohio Institute of Mining Engineers, making him a recognized authority on these matters.

W. H. PAYNE, boat-builder, Lock No. 2, Ohio Canal, Akron; was born in Columbia, Lorain Co., Ohio, Aug. 10, 1822, and is the youngest of three children born to Willis and Rhoda (Bronson) Payne. He was a native of Connecticut, and emigrated to Lorain County when a young man, about the year 1816; while there he married Rhoda Bronson, a daughter of Herman Bronson, one of the pioneers of Boston Township. After his marriage, he came to Akron, where he died in 1836; she died in Boston Township in 1879. W. H., the subject, lived with his grandfather, Herman Bronson, from childhood until he was 20 years old, and received a common-school education. He was married Feb. 22, 1845, to Miss Julia Jaynes, a native of Vermont, who came here with her parents when young. After his marriage, he worked with his step-father, Jacob Barnhart, in his boat-yard in Boston Township, and in other similar establishments until 1864, when he came to Akron and bought out W. B. Storer's boat-yard, located at Lock No. 3, and continued the business for six years. He then sold out, and in 1873 established his present yard and has followed the business of boat-building ever since. During the six years he was in Akron, he built forty-two boats, and since beginning the business, he has built about one hundred and twenty-five boats. By his marriage, four children were born to him, of whom three are living, viz., Martha E., now Mrs. George Scott, of Akron; Anna L., at home; Charles H., who married Miss Martha Storm, of Knox Co., Ohio. He lives at home and conducts the business originally established by his father.

J. H. PENDLETON, Vice President, Second National Bank, Akron City; was born in Litchfield Co., Conn., Feb. 1, 1810, and was the eldest of eleven children born to Ward and Sallie (Cook) Pendleton, who were natives of Connecticut, and

came to Ohio in 1819, in a covered wagon. They settled in Stow Township, Portage Co., now Summit Co., where they bought wild land, upon which they built a cabin, and proceeded otherwise to improve their purchase. His death occurred here March 5, 1865; his wife died a few years previous, June 6, 1860. J. H. lived at home until he was about 20 years of age, with limited opportunities for receiving an education. At the age of 20, he engaged as a clerk in a general store owned by Stowe & Wetmore at Cuyahoga Falls. He continued with them until about 1835, and traveled for them through Northern Ohio selling goods. He then, in company with his brother, opened a general store at Brunswick, Medina Co., and, after one season, removed the business to Franklin Mills, in this county, where he remained until about 1840, when the business was sold, and he engaged in business with B. F. Hopkins, conducting flour and saw mill, also woolen factory (as Center Manufacturing Company) and general merchandise store. About 1847, the business was dissolved; and, in 1850, Mr. P. went to Cincinnati, where he was engaged in the construction of railroads until 1860, with headquarters at Cincinnati and Dayton. He then returned to Akron, and, in 1863, upon the organization of the Second National Bank, he became Vice President of it, a position he has held ever since. He has served as Trustee of Buchtel College several terms. He is a member of the Episcopal Church, in the affairs of which he has taken an active interest. Mr. P. has been three times married—first in 1832, to Miss Julia Corp; she died July 5, 1833; second, in November, 1834, to Miss Sybil Fletcher; she died May 29, 1841; third, Sept. 13, 1842, to Miss Eunice M. Post, a native of Summit Co. They have one child, viz., Nellie A.

LOUIS J. PROEHL, physician, Akron, Ohio; is a native of Akron, Ohio; he was born July 18, 1850, and is the eldest of seven children, born to George and Mary Louisa (Loose) Proehl; they were natives of Saxon-Altenburg, Germany, and were born near Leipsic, the famous battle-ground of Napoleon. He came to the United States in the fall of 1848, and settled in Akron the same year. In the spring of 1849, Miss Loose came to Akron (she was acquainted with Mr. Proehl in the old country). They were married July 1, 1849. He first employed himself at chopping wood, and then became a

helper at the Empire House. In the spring of 1849, he began work at his trade (stonemason), and continued at the same until 1858, when he bought a farm in Coventry Township, and occupied the same the following spring, where he has lived since, working at his trade in the summer. By the marriage there have been seven children, viz., Louis J., George A., William F., Tillie M., John F., Emma and Ida. Our subject lived at home until the spring of 1864. He then apprenticed with his father, working during summers and attending school during the winters, until he was 20 years of age, when he began teaching during the winters, and continued until the spring of 1873. He then entered the National Normal School at Lebanon, Ohio, graduating from the same in August, 1876, after which, he entered the Ohio Medical College at Cincinnati, attending one course of lectures, and read with Dr. W. C. Jacobs, of Akron, until the fall of 1878, when he returned to the college, and graduated from the same in the spring of 1879. He then came to Akron, and has practiced his profession there since, occupying an office with Dr. W. J. Underwood. He is a member of the Summit County Medical Society, and the Union Medical Association of Northeastern Ohio.

C. H. PALMER, Superintendent of the Barber Match Company, Akron; began to work for this company in 1864, at printing labels on a hand press and making the boxes, the Company being at that time located at Middlebury. In 1866, he took charge of the shipping department—printing the labels, making the boxes, covering the cases and doing the billing; and now on account of his faithfulness and general knowledge of all the different departments, he has been called upon to fill the high and responsible position which he now occupies. His father was Albert Palmer, son of Stephen M., who were natives of Lyons, Wayne Co., N. Y. They came to Middlebury in 1836, at which time the father of our subject was but 11 years of age. His grandfather started the first fanning-mill manufactory in this part of the country, under the firm name of Palmer & Stafford, the latter a brother-in-law; they did an extensive business for a few years when they dissolved partnership, the latter subsequently becoming extensively engaged in a stencil manufactory in the city of New York. The father of our subject after the death of Stephen M., in

1849, in connection with his brothers Charles and Henry, carried on the business for several years, when they moved to Goodlettsville, Tenn., where they remained until near the outbreak of the Rebellion, when they dissolved partnership and returned to the North. The mother was Ann Hoy, daughter of James and Shedrick (Furgeson) Hoy, who is still living. The subject of this sketch was married, Oct. 4, 1876, to Mary Ann Peckham, daughter of Thomas Peckham, a former partner in the firm of Barber & Co.; he is now one of the traveling agents. Mr. Palmer by his marriage has one child, Thomas Albert, born July 4, 1877. He is a staunch Republican politically; a member of the K. of P., Royal Arcanum and of the K. of H. He and wife are members of the Disciples' Church, greatly respected and loved by all who know them.

CHARLES PARISSETTE, merchant, Akron. There are probably few, if any, of the business men of Akron whose life has been so full of adventure as that of the subject of this sketch. He was born November 19, 1836, in Wesel on the Rhine, Rhine Province, Prussia. Until he was 14 years of age his life was spent most of the time in school. He was then apprenticed by his father to learn the grocery business, the terms being that he must serve three years' time and pay \$100. The old gentleman was for 49 years in the civil and military service of his country. Is at present living in New York City, though he and his wife, who was a Miss Mary Banhaus, and a native of Prussia, were at one time for about three years, residents of Akron. When our subject had finished his term of apprenticeship, he entered the employ of the firm whom he had served, at a salary of \$50 for his first year's service. He remained there until he was 21 years old, and then emigrated to America. He remained in New York for about 13 months, engaged as a grocery clerk, and then sailed for California. Once landed there, however, it was not long until he thought of the mines, and the wealth that possibly awaited him. Joining a company he was soon in what has since proved the richest mining district in the world, as he was one of the first seventy-six men who pitched their camp and began prospecting on the site of Virginia City. The cabin built and occupied by himself and partners was erected only about 200 yards from the mouth of the great Com-

stock lode. He remained in Virginia City about three months, when the Indian war broke out between the miners and Piute Indians. The organization of miners was under the command of Maj. Orsbry. The Piutes soon made it so warm for them that mining was out of the question. July 3, 1860, the terrible and decisive battle was fought at Pyramier Lake. Maj. Orsbry and his son were killed, with many others. Probably none would have escaped, had not the Indians been anxious to capture the horses, and therefore were careful not to shoot them. This desire on their part was the means of Mr. Parissette's escape. He had a splendid horse, and though surrounded by the yelling painted demons, he watched his opportunity, and broke through them and gained the Carson River, across which he swam his horse and rode for the mountains. He did not escape, however, without some severe arrow wounds, one of which was in the right hand and proved to be very painful. His only course now was to work his way to San Francisco, which he did, via the Hanes pass. Arriving at San Francisco he remained quiet until the recovery of his hand, when he again started for the mines. This time, however, he took good care to keep as far away from the Piutes as possible. He spent some time in the gold mines of what was known as Dry Town, where he made some money. Winter coming on, he and his partners went to San Francisco, and not caring to lie idle, they enlisted in the First Cal. V. I. for three years, thinking about three months would wind up the war of the rebellion. Instead of this, he found himself booked for three years of hardships and privations. Their regiment numbered 1,600 men, and was known as the First Column of California. It was placed on duty most of the time in the West, and served its country in that mode of warfare known as bush-whacking, or fighting the Indians. At one time Mr. Parissette's bunk-mate was so careless as to fall somewhat in the rear of the command, and when found, he was completely skinned, a deed that had been done by the Apaches. Mr. Parissette was an excellent shot and at one time wore the company badge for two years in succession. At last he was discharged at Las Cruces, New Mexico, on August 31, 1864. He was one of a company made up to cross the plains on their way to New York City, which they did, making the

journey in two months and fourteen days, though this included a few days' time spent at Ft. Larned, Kansas, to join in a buffalo hunt. In this hunt he used a Springfield rifle, and killed a number of buffalo. Arriving in New York, he stopped for a time with his brother, and then came to Akron in the fall of 1864. On December 25, of 1864, he began as salesman for N. Wagnor, groceryman, with whom he remained for about one year and three months, when he entered the employ of the old groceryman, John Cook, with whom he remained until 1870. He then bought the property where he now does business corner Main and Exchange streets, South Akron, and engaged in the grocery business on his own account. His business has been growing year by year, till now his aggregate sales per annum are about \$40,000. He is a live, energetic business man and has established this extensive business by his own energy and good financiering. He is a member of Granite Lodge, I. O. O. F., No. 522. In 1867, he was married to Miss Susan Selzer, a native of Bavaria. Five children have been born to them, all of whom are girls.

MARTIN QUIGLEY, late of Middlebury, in this county, was a member of the ancient and noble family of O'Coigley, now written Quigley, originally from the neighborhood of the Giant's Causeway, in Ireland, later of Queen's County, near Dublin. The Rev. Dr. Quigley, who was honored with a state prosecution by the British Government in the memorable rebellion of '98, and whose intimacy with Lord Cloncurry caused the imprisonment of the latter in the Tower of London the same year, was a member of this family. Dr. Quigley was one of the first victims of '98, having been executed at Penenden Heath on the 7th of May of that year. The ancient arms of the family, on which is cantoned the celebrated "Red Hand of Ulster," still borne by the members here, attest their illustrious station in Irish history. In early times, individual names were indicative of personal qualities. *Quigley*, in Irish, signifies *tall hero*, and the four young men of the family here, all of whom are over six feet in height, and each of whom has fought his way to honorable distinction, show that they are in every sense worthy of their ancient name.

Martin Quigley, the subject of this article, was born in Timahoe, Queen's County, Ireland, Nov. 11, 1805. His father was a prosperous

gentleman farmer, with fourteen children—seven sons and seven daughters, Martin being the thirteenth child. The children were educated partly in the parochial school, partly by private tutors. The eldest son, Cornelius, was a distinguished graduate of Dublin University. His brother Patrick was a Magistrate of Queen's County, and died there a few years ago at the age of 84. He founded the *Leinster Independent*, the leading paper of the county; owned more than a hundred houses in Maryboro, the county seat of the county; farmed over five hundred acres of land, and was one of the most popular men in the country, not only for his dignity and ability as a magistrate, his enterprise and public spirit as a citizen, but for his unfailling fund of wit and humor which delighted all with whom he came in contact. The writer of this notice had the pleasure of being entertained by him at his hospitable mansion near Maryboro, during quite a little visit there some years ago, and thus had personal knowledge of these facts.

Martin Quigley, subject of this notice, married there, in 1839, Miss Mary Ann Moore, of the old family of the O'Moore's, once Princes of Leix and Offaly, and formerly Kings of Leinster. Her brother, the Hon. James Moore, who had, in part, represented the city of Boston for four terms in the Legislature of the State of Massachusetts, prevailed on Mr. Quigley to come to this country, which he did with his family in 1848. It was expected that Mr. Quigley would settle in Boston, but he had his eye on the broader fields of the West. Mr. John Dunne, well known forty years ago in Summit County, was a cousin of Mrs. Quigley, and his reports of the prospects of Summit County induced them to locate here. They came in July, 1848, and, in illustration of the rapidity with which Mr. Quigley acted in business matters, it may be mentioned that in three days' time from his arrival in Akron, he had purchased a tract of land in Springfield Township, and had his family settled on it. He afterward bought the Landis farm, within half a mile of Middlebury; later, another farm in Copley Township, and, finally, a residence property on High street in Middlebury, which is still the family homestead.

One of the chief industries of this county now is the manufacture of stoneware, but when Mr. Quigley came here thirty-three years ago,

this industry was almost unknown. With rare sagacity Mr. Quigley saw from the start that something could be done in this matter. He had bought land immediately on his arrival with the intention of engaging in farming, but he soon began studying the stoneware business. There were then but two small potteries in Middlebury doing a trifling business. Mr. Quigley prospected around, found a bed of good clay, bought it and began to push things. He soon furnished the Middlebury potteries better clay and at lower rates than they had been able to get before. They could not take anything like all his output, so he looked abroad for a market, and was the first man to ship this clay out of the State. He sent it first by canal, and later, by rail to Cleveland, and thence by boats to Michigan, Wisconsin and other neighboring States. He became an enthusiast on the subject. Unable to persuade the timid owners in Middlebury to enlarge their works, he bought into the business himself and began to spread it. Clay, until his time, had been ground here in the old horse-power mill. This was too slow for his quick, Celtic blood. He went to Cleveland, bought a twenty horse-power engine and began grinding clay by steam. His partners got frightened; he bought them out and ran the business alone until 1862, when his two eldest sons, Thomas and William (twins, by the way), came on the scene. Having now reared and educated men to run the business according to his own ideas, he turned the manufactory over to them. Thomas and William were soon re-enforced by Hugh, and they, under the name of the Quigley Brothers, have pushed the business until they have warehouses now of a storage capacity of nearly three million gallons of ware. They send their goods by rail and water all over the United States, doing a business of over a \$150,000 a year. Though Mr. Quigley turned the business over to "the boys," he still watched over it fondly to the day of his death, and much of its success is, doubtless, due to his continued supervision. He found the business in Middlebury a small affair, employing only a few men. He lived to see it grow to be one of the leading enterprises of the State, with millions of dollars invested, and thousands of men employed in it. He was always proud of his connection with it. He loved to sit on the broad, shady porch of his house on High street and look out on the

blaze everywhere rising from the stoneware kilns; on the volumes of white smoke caused by "salting off" the ware; to hear the, to him, sweet music of the factory whistles while the smoke rose in clouds from the stacks of the steam clay-mills he had been the first to introduce, all telling of triumphs of industry, skill, patience and intelligence—triumphs which to him, probably, more than to any other man, the country was indebted. These triumphs would, doubtless, have come in time without him, but, how long the clay lay there, comparatively untouched until his arrival! How quick the whole country heard of it when he put his hand to the work! His sons still carry on the business, but they exert themselves in the larger field of handling the manufactured ware.

William married in November, 1864, Miss Theresa Smith, eldest daughter of Mr. John Smith, of Cleveland, one of the "solid" men of that city. Hugh married, May 2, 1876, Miss Helena Daly, eldest daughter of Mr. Peter Daly, likewise a prominent citizen of Cleveland. "Tom," being still a Benedict, does the traveling for the concern. William, on his marriage, withdrew from the firm, but carries on the same business on his own account.

Patrick, the youngest son, now known as Dr. Quigley, showed from his youth an inclination for the church. He made his college course in Cleveland, and, later, also his theological course, and was ordained a priest in the Catholic Church in 1869. Having shown unusual talents, the Bishop encouraged his going to Rome to profit by the higher instruction there. He spent four years in the Eternal City, attending the celebrated *Collegio Romano*, and came back with the proud distinction of being the only American student who ever won the title of Doctor from that institution. He has acquired considerable celebrity in this country as an authority on Canon law, having given to the public the result of some of his studies on some recondite branches of that subject, and being at this present writing attending Court in Pittsburgh as an expert in a case there in which a question of Canon law is involved. He has been for eight or nine years a professor in the Diocesan Seminary at Cleveland, in this State. He has the fine personal appearance characteristic of his family and, rare thing for a thorough student, is possessed of fine oratorical powers. His services are in great demand for addresses

on special occasions, and he has taken a very prominent part lately in the public discussion of the land league question, attracting now so much attention in this country as well as in Ireland. He learned German while a youth in this country, and French and Italian in Rome, so that he preaches in English, German, French or Italian, as occasion requires.

To return to the subject of this memoir. Mr. Quigley died in Akron, Oct. 8, 1878, being then 73 years of age.

The *Akron Daily Beacon*, the oldest newspaper, we believe, published in Summit County, had the following notice of his death, from which, as furnishing a cotemporaneous account from a public print, we copy the concluding portion, as follows :

“Mr. Quigley’s earnest religious convictions and his uniform readiness to discuss, amicably, and defend the tenets of his church—the Roman Catholic—have, for years, been greatly respected by the whole community. His regularity and vigor in attending the services of his church ‘in season and out of season’ have for long years been praised and admired by members of all denominations. And more—his religion gave him a rule of conscience in all his business transactions. Mr. Quigley’s wonderful devotion to his most estimable wife, as well as to all his sons’ interests, have often been commented upon as a beautiful example of a most affectionate and large-hearted husband and father. His obsequies were held yesterday, the 10th inst. The procession from the family home in the Sixth Ward, to St. Vincent de Paul’s Church was one of the largest our prosperous city ever witnessed. The services at the church were solemn and impressive and the spacious and magnificent edifice was filled with the friends of the deceased. The remains were met in the vestibule of the church by clergy in cope or surplice and with solemn chant escorted to the altar railing. The Rev. Dr. Quigley, of Cleveland, youngest son of the deceased, celebrated a Solemn Requiem Mass, assisted by Revs. John Brown, of this city, and A. R. Sidley, Pastor of the Immaculate Conception Church, Cleveland, as deacon and subdeacon. The pall-bearers were Messrs. P. Smith, of Cleveland ; E. Rowley, H. Baldwin, T. Johnston, John Cooke, Sr., and James McCalister, Sr., of this city. Amongst the clergy in the sanctuary, besides those above mentioned,

were Rev. N. A. Moes, Rector of the Catholic Seminary, Cleveland ; Rev. William McMahon, Pastor of St. Bridget’s Church, Cleveland ; Rev. Dr. Mahar, of the Cathedral, Cleveland ; Rev. M. Murphy, of Warren ; Rev. P. O’Mara, of Hudson ; Rev. William Finucan, of Massillon ; Rev. F. O’Neil, of Kent, and Rev. Father Mahony, Pastor of the deceased. After the Solemn Mass, Rev. Father Mahony delivered an able funeral oration in which he paid a high tribute of respect to the deceased as a most devoted husband, a good father, and a practical, fervent Catholic, and stated that he had a golden record on the parish books, and was equal, if not superior, to any other member of the congregation in supporting the interests of religion, and in contributing to the erection of St. Vincent de Paul’s splendid church. The preacher even described the generosity of the deceased as ‘princely’ and applied to him the words of the Apostle Paul : ‘I have fought the good fight, I have finished my course, I have kept the faith.’ After the funeral sermon, some excellent chanting was done by the clergy in the Sanctuary, and Rev. Dr. Quigley pronounced the last absolutions. The funeral procession was formed again and proceeded to the vault of the Soldiers’ Monument, accompanied by all the above mentioned clergy, where the remains, were deposited temporarily. Later they are to be interred in the family burial lot in the Catholic Cemetery on West Hill.”

Mr. Quigley was a most agreeable companion, always overflowing with wit and humor, and had the full measure of characteristic Celtic vivacity. A small book could easily be filled with most interesting accounts of his humorous and numerous controversial contests, political and religious, with various celebrities of the county, but lack of space forbids further mention of them here.

His beloved wife, a lady of well-known intellectual powers and womanly virtues, now past her 80th year, sorrowing, survives him. She is of a long-lived family, her great-grandfather having attained the patriarchal age of 132 years. She resides with her son, Hugh, in Akron, and will long be most affectionately remembered by all who have enjoyed the pleasure of her acquaintance.

Mr. Quigley was one of the few of whom it may be truly said, not only that he was without fear and without reproach, but that, by

reason of his skill in opening up new avenues of trade, his energy in developing new sources of wealth and his success in furnishing new fields for employment, he ranks as a public benefactor, one who has deserved well of his country. He is a man whose memory this community will always delight to honor.

THOMAS CRAIGHEAD REYNOLDS, A. M., editor of the Akron *Beacon*, was born Sunday, June 18, 1848, at Reynolds' Mill, just south of Canton, Ohio. He was the fourth child of his father, Mr. George Reynolds, oldest son of Mr. William Reynolds, first Clerk of Stark Co., Ohio. He was the oldest son of Mr. R.'s second wife, Jane (Lamb) Reynolds, oldest daughter of Thomas Craighead, of Cumberland Co., Penn., where men of that name were the earliest settlers of the Scotch-Irish, and the first Presbyterian preachers west of the Susquehanna River. Mr. George Reynolds' paternal ancestors were Virginians, his mother being a daughter of a Newport (R. I.) sea captain, and both of English stock. T. C. Reynolds spent his boyhood with his maternal grandparents in Canton, attending private school, and in Akron with his parents, who owned and kept the Empire House, attending the public schools. Thence, in April, 1863, he went to the Western Reserve College Preparatory School, and remained there through his freshman year. His college studies were completed at the University of Michigan, graduating from the classical course June 24, 1868, at 20, the youngest of his class, except Mark W. Harrington, since Professor of Astronomy at the University. His long vacations were spent upon the United States Survey of the Northern and Northwestern Lakes, that work being then under the superintendence of his uncle, Gen. W. F. Reynolds, of the United States Engineers, to whom Mr. R. also owes the liberal advances of money that secured his education and his interest in the Beacon Publishing Co. After graduating, and while upon duty with a longitude party of the Lake Survey at Oswego, N. Y., Mr. Reynolds was offered a reporter's place upon the *Detroit Post*, and began journalistic work July 14, 1868. Six months later, he went home to Akron as the *Beacon's* first reporter, soon being offered and declining a recall to Detroit with a better position and salary, and in January, 1869, he began work upon the *Beacon*, and on Dec. 6, 1869, the daily edition

was begun. Six months later, he left the paper because of an attempt to divide his pay with another, and, July 14, 1870, began work upon the Pittsburgh *Commercial*, next under C. D. Brigham, as paragraph writer and associate, succeeding Bartley Campbell, the dramatist, and being succeeded by Col. Richard Realf, the brilliant poet. In March, 1871, he visited St. Louis, Mo., with a view to starting an evening paper there with H. H. Byram, relinquishing his Pittsburgh situation. This was not practicable, and finally he got a place in Cincinnati upon an insurance and manufacturing journal, owned by one Tillinghast, Mr. R. being associated with Levi E. Thorne, since editor of the *Daily American Exchange*, at New York. Thanksgiving Day, 1871, he returned to Akron as editor of the *Beacon*, the internal trouble being terminated by the purchase of the interest of the trouble-makers by a number of business men as a stock company, with Mr. S. A. Lane, as business manager. Nov. 1, 1873, Mr. Reynolds left Akron, Mr. W. Scott Robison having offered him nearly a double salary to edit the Cleveland *Sunday Voice* and the *Trade Review*. During this time, he also wrote upon the *Leader's* editorial page. In June, 1874, Mr. R. went to Toledo as Clark Waggoner's associate editor of the *Morning Commercial*, remaining until January, 1875, when a re-organization of the Beacon Company brought him back to Akron to stay. This had been Mr. R.'s fixed purpose in all his changes, and he was joined in accomplishing it by Mr. Frank J. Stalal and John H. Auble. Two years later, Mr. Auble's interest was bought by Reynolds & Stalal, the latter since being business manager. When Mr. Reynolds first went to the *Beacon* in January, 1869, Mr. Stalal, then a Bohemian boy, had just entered the office as the only bindery workman. He began then to board with Mr. R.'s parents, making that his home until his marriage in July, 1877, the two being associated as brothers since. In June, 1873, Mr. Reynolds united with the Congregational Church of Akron, and Jan. 3, 1878, he married Lillian Alice, only daughter of John H. and Laura A. Waggoner, of Akron. In December, 1878, a son was born to them—William Waggoner Reynolds. Mr. R. has held no office, and seeks none.

GEORGE T. RANKIN, carpenter, Akron City; born in the City of Hudson, N. Y., Feb.

21, 1843; he was the son of Matthew and Mary (Linn) Rankin, who were the parents of nine children, as follows: Ellen, now Mrs. Amos Macy; Charles, died in 1880; Matthew, now of Cleveland; Mary, now Mrs. Peter Decker; Esther, now Mrs. B. F. Harris; George T., of Akron; Joseph, of Hudson, N. Y.; Elizabeth, now Mrs. Cornelius Shaw; John, of Cleveland. Mrs. Rankin was a lady of fine mental attainments, but died in 1849, while most of her children were quite small. Her husband died Jan. 15, 1871, in the 61st year of his age. The subject of this sketch, when 12 years of age, moved to Waterloo Township, Jefferson Co., Wis., where he remained about four years. In the fall of 1859, he returned to Hudson, N. Y., where he learned the carpenter and joiner's trade, serving an apprenticeship of three years; he then removed to New York City and worked at ship joinering, pattern making and general carpenter work, from the year 1862 to 1871. He was married, Sept. 8, 1870, to Mrs. Mary C. Weimer, who was born Jan. 21, 1847; in May, 1871, they settled in Akron, and since then have resided in the city. Mr. Rankin has frequently been employed at fine designs, which required much skill, and his workmanship on these tasks is a lasting proof that he is a master mechanic at his trade; he was employed for several years at millwright work since settling in Akron, and was agent, for some five years, for the Cleveland Electric Supply Company. At the present time, Mr. Rankin is a general carpenter and builder, employing, at times, six and eight hands. Mr. and Mrs. Rankin are members of Methodist Episcopal Church, of Akron; they are the parents of two children—Irving Cornelius and George Thomas. By her former husband, Mrs. Rankin had one daughter, Jennie T. Weimer.

W. G. ROBINSON, stationer, Akron, was born in Middlebury, now included in the city of Akron, March 20, 1838, and is the eldest of six children born to John C. and Margaret (Kelly) Robinson. His parents were natives of Union County, Penn., and came to Middlebury in the Spring of 1836. Mr. John C. Robinson was a farmer and followed this business in Ohio until his death in 1875. His wife's death preceded his some four years, occurring in 1871. Both were active members of the Presbyterian Church and were highly respected in the com-

munity in which they lived. W. G. Robinson was brought up on the farm, gaining his education in the select schools in the neighborhood and in the High School of Akron. In 1857, he began as a clerk with Mr. A. Sawyer, in his book and stationery establishment, where he continued for four years. He then bought the business of Mr. Sawyer and has since conducted it with signal success. In August of 1879, he associated himself with other gentlemen in the formation of stock company, known as the Akron Telephone Company, for operating Bell's telephone in the cities of Akron, Canton, Massillon, Youngstown and Springfield, of which he was made President, a position he still occupies. He is also Manager of the Akron Academy of Music, which has been under his direction ever since its erection in 1869. Mr. Robinson made his home with his parents until his marriage in 1861. On the 1st of January in that year he was united in marriage with Miss Mary E. Buckingham, a native of Watertown, Conn.

ENOCH ROWLEY, retired, Middlebury, is a native of Staffordshire, England, and was born Dec. 22, 1814. His father, William Rowley, was a potter and Enoch was taught the trade. In February, 1849, he landed in New York, prepared to try his fortune in the new country. He came to Cuyahoga Falls, having heard of that place in England. He worked at farming and gardening for about eight months, and in the fall of the same year, he came to Middlebury and bought his present place, where he has since resided. In the Spring of 1850, he and his two brothers-in-law, Edwin and Herbert Baker, began the manufacture of yellow and rockingham ware; it was the first made in the county, and was represented at the county fair in 1851. In 1853, he erected a stoneware manufactory and has been identified with the same ever since. He married Miss Eliza Baker April 21, 1834. She is a native of England. Of their eleven children but one is living, viz., William; of the deceased but two were married, one of whom leaves a family, viz., Ann J., married Mr. F. Manton, a native of England, who came to America about the year 1852, and is now a farmer located near Cuyahoga Falls, Ohio. By their marriage there were three children, viz., Charles F., Francis C. and Eva E. Mr. Rowley, though coming a stranger to a new country has by industry and economy been

successful in business, securing for himself and wife an ample competency for their old age. Both have spent over one-half a century as members of the Methodist Episcopal Church, in which he has taken an active interest, and has served in its several offices, being a class, leader for the past twenty-two years. In politics, he has taken his stand in the ranks of the Republican party.

WM. ROWLEY, stoneware manufacturer, Middlebury, Ohio; is a native of England, and was born in Staffordshire, Dec. 17, 1837. At the age of 12, he came with his parents to America, and settled in Middlebury, now Sixth Ward of Akron, where he has since lived. He began to work in a pottery, and, at the age of 18, established a business of his own, erecting a shop where his present establishment is. Since the destruction of his shop by fire, the building has been rebuilt of brick and he is now enlarging it so as to double its present capacity, which will employ from twenty-five to thirty hands. Mr. Rowley was one of the incorporators of the Middlebury Clay Company, and since the first year he has held the office of Secretary and Superintendent of the same. May 10, 1864, he married Miss Mary Jane Wills, a native of England. She came to the United States with her parents, and was living with them at Cuyahoga Falls at the time of her marriage. Of their four children, three are living, viz.: Arthur J., Maud L., and an infant.

WILLIAM H. RAGG, Marshal, Akron, Ohio. Wm. Ragg, Sr., was born in Aberdeen, Scotland, and came to the United States when 18 years of age, pursuing here the calling of baker and confectioner. He was prominently connected with the bakery of Queen Victoria, in England. He died in Cleveland, Ohio, in 1854, in his 43d year. Jane (Farquer) Ragg, (his wife), died at Paterson, N. J., in 1840; she was of French parentage. The only son of their marriage is the subject of this sketch, who was born in Paterson, N. J., Dec. 6, 1840. When 8 years old, he went with his father to Syracuse, N. Y., afterward living in Watertown, N. Y., until 1853, when they came to Cleveland, Ohio, where subject lived until 1871. At 16, he was apprenticed to H. P. Hopkins, where he served nine years at sign painting—the last six as journeyman. Then he opened a paint-shop in Cleveland, and carried on business until 1871, when he removed to Oil City,

Penn., and there engaged at his trade four years. In April, 1875, he moved to Akron, Ohio, and entered the employ of Charles E. Kidney, as painter, continuing six months, when he again established a paint-shop and successfully carried on business until 1878, when he was elected on the Republican ticket to fill the unexpired term of Jacob Koplin, (Marshal), and was re-elected in the spring of 1879 for two years, and in April, 1881, was again re-elected Marshal, on the Republican ticket by a large majority. Sept. 10, 1861, he married Miss Mary Pauline, daughter of Prof. Pierre A. Gollier, of Cleveland, Ohio. They have three sons living and one daughter deceased.

REV. JOHN F. ROWE, minister and journalist. Akron, son of Martin and Mary M. (Alshouse) Rowe, was born at Greensburg, Westmoreland Co., Penn., March 23, 1827. In his youth, he worked for several years at brick-laying, being master of the trade. In 1839, his father moved to Wooster, Ohio, where our subject prepared for college at Parrott's Academy, Wooster; and he entered Bethany College in 1850, graduating four years later, receiving B. A. degree. He was editor of the college paper. At 24, he entered the ministry, being ordained by Wooster Church in 1851. In 1855, he went to Springfield, Ill., where he became associate editor of the *Christian Sentinel*, continuing two years, preaching at the same time. In 1857, he went to Oskaloosa, Iowa, where he became associate editor of the *Christian Evangelist*, being at the same time solicitor for Oskaloosa College for two years, when he came to Wadsworth, Ohio, and was Pastor of the Church of Christ for several years. In 1865, he went to Corry, Penn., and organized a church; under his administration a church and parsonage were built; he labored there two years, and then came to Akron, where he has since remained. When his labors closed in Corry, he became associate editor of the *American Christian Review*, at Cincinnati, Ohio, for seven years. In April, 1874, the *Akron Argus*, a non-partisan and independent newspaper, was started in Akron, and he was editor-in-chief for a period of about two years; severing that relation, he was elected editor-in-chief of the *American Christian Review*, a position he still retains. It is one of the oldest papers extant devoted to the interest of the

Church of Christ. In the last twenty years, he has visited the churches of about twenty States and of Canada, being engaged in an evangelical work; he has been throughout the West as far as Salt Lake City, and South and East. He has brought many hundred persons into the Church. He has written several works on evangelical subjects, and is a public debater of ability. Sept. 28, 1852, he was married to Miss Editha M. Pardee, daughter of Judge Allen Pardee, of Wadsworth, Ohio. He has five children, all at home, viz., Eugene P., local editor of the *Beacon*; Kittie F. L., Ada E., Frank E. and Louis F.

THOMAS RHODES, retired, Akron; is a son of Thomas and Miriam (Garside) Rhodes, and was born April 18, 1826, in Lancashire, England, seven miles from Manchester. When 7 years of age, his parents came to America, landing at New York on the 10th of April, 1833. Soon after, they came to Massillon, Ohio, where they stopped for a short time, and then settled in Sharon Township, in Medina Co., where his youth was spent. His education was limited to the district schools, and to instruction received from an older brother. About the year 1854, he and his brothers bought a tract of land on "Chuckery Plains," which they farmed until 1859, when they sold out and removed to Portage Township, and bought 546 acres of land, which they cleared, improved and drained; he still owns 280 acres. In 1867, he purchased his present place, consisting of 11 acres, where he has since lived. He has been a careful student, and has gathered a valuable collection of books. In 1865, subject and his brother Samuel went to Panama, to examine there specimens of natural history. Samuel was taken sick, and, three days after leaving, died on board the steamship, Jan. 4, 1866, on the way to New York. In 1862, his brother Samuel was drafted, when he took his place, serving about ten months in Co. A, 72d O. V. I., during which time he took part in the siege of Vicksburg. Subject was married Dec. 21, 1876, to Miss Sarah B. Garside, of Wisconsin. He was a Republican from 1860 to 1872, when he joined the Prohibition party, and is now Financial Secretary of the Ohio Anti-Liquor Alliance, and a thorough temperance worker.

N. B. STONE, Secretary and Treasurer of the Weary Snyder Wilcox Manufacturing Company, Akron; is not only a pioneer of Akron,

but he has for many years been prominently identified with the lumbering interests of Summit Co., and, as a representative and promoter of this branch of the county's industries, his portrait appears in this work. Having for many years acted in concert with those citizens who are first looked to in the forwarding of any local enterprise resulting in the general welfare of the citizens of Akron, his name is worthy of more than a passing mention. A tracing of the genealogy of the family proves the name of that branch of the ancestry of which Mr. Stone is a descendant to be of English origin. He was born Sept. 18, 1816, in Mahoning Co., Ohio, and was the third child of a family of four children born to Milo and Sarah (Beardsley) Stone, both of whom were natives of Connecticut, and who, in the year 1815, quitted their native State, and, with an ox team, made their way westward to the much-talked-of Western or Connecticut Reserve; they settled in that part of Trumbull now known as Mahoning Co., and subsequently removed to Tallmadge Township, Summit Co.; this, also, at that date, was a part of Portage Co. Their settlement in Tallmadge was in 1817, which at that date was a tract of almost unbroken forest. By trade, Mr. Stone was a carpenter and joiner, but in that early day there was but little demand for mechanics of any kind; he therefore purchased and began the clearing up of a farm, though he devoted a portion of his time to working at his trade. The early settlers of Tallmadge Township being almost exclusively Connecticut people, it was not long before they established educational facilities far surpassing those of the surrounding new settlements; the result of their efforts in this direction, was the establishing at the Center of Tallmadge an academy of more than the ordinary standard. E. T. Sturtevant, a graduate of Yale College, was for many years their principal instructor, and to him many of the now prosperous and influential men of the Western Reserve owe the foundation of their success, N. B. Stone among the number. To Milo Stone is due a fair share of the credit of thus early paving a way for the education of his children; the church, however, received his greatest encouragement and most liberal support; by his early and persistent efforts, he succeeded in organizing the first M. E. Church of Tallmadge. Such offices as he would accept were given him, and,

upon the organization of Summit Co., he was appointed one of the Real Estate Appraisers. His death occurred in April, 1856, and that of his wife on Feb. 8, 1861. Nelson B. Stone, after having received a fair education at the Tallmadge Academy, began in earnest the battle of life on his own account; he spent several years in West Bloomfield, N. Y., Ravenna, Ohio, and Wheeling, W. Va.; in the latter place he spent two and a half years at book-keeping; in December of 1840, he came to Akron, and, a short time after his arrival, he accepted the Deputy Clerkship of Summit Co.; he continued to discharge the duties of Deputy until 1851, when he was elected to the office of County Clerk for a term of three years; he discharged the duties and increased responsibilities devolving upon him to the satisfaction of all interested, and, at the close of his term of office, he accepted the position of Deputy County Clerk of Cuyahoga Co., though he continued his residence in Akron; returning from Cleveland, or rather severing his connection with the official management of Cuyahoga's affairs, he became for a time connected with the firm of Aultman, Miller & Co. In 1865, he became a partner in the firm with which he is now connected, and in which he has since held the offices of Secretary and Treasurer. Mr. Stone has given liberally toward supplying Akron with the different railroads that are and have been so largely conducive to her success, and, in the building-up of churches and schools, he has been an earnest worker. Both he and Mrs. Stone are members of the First M. E. Church; in 1843, when the present Sabbath school of the First M. E. Church was organized, with an attendance of thirty-three pupils, Mr. Stone was elected Librarian, and has been officially connected with the school almost continuously to the present date, quite a period of time as Superintendent. He is an earnest, zealous worker in the Sabbath school, and at present is Secretary of the organization. In May of 1852, he was married to Miss Mary H. Clark, a native of North Springfield, Summit Co.; her death occurred in April of 1853; the issue of this marriage was one son—Nelson C.—who is now book-keeper for the Weary Snyder Wilcox Manufacturing Co. In August of 1854, Mr. Stone married Miss Elizabeth H. Beardsley, who was born within the incorporate limits of Akron, and whose people were among

Summit County's early and prominent pioneers. Two children have been born to them—Philo C., who died in 1872, and Dwight M., living at home.

INCREASE SUMNER (deceased); was born in Townsend, Vt., Feb. 25, 1800, and was a son of Thomas and Elizabeth Sumner. He lived in Vermont about sixteen years, and then came to Ohio and settled in Middlebury, where his brother Charles was living, and where he lived until his death, Nov. 18, 1868. He was quite a prominent man, was connected with the milling business, was also one of the early merchants of Middlebury, and also a stone contractor, and built many of the bridges of the county, and dams in Akron, besides doing much stone work on the canal. In 1849, he fitted up an ox-team, and with a party of sixteen or eighteen men, of whom he was Captain and Treasurer, went to California, arriving in safety. Throughout the trip, he disdained to carry firearms, feeling confident in his own natural powers. Arriving in California, he opened a store in a mining district and continued it for nearly three years, when he returned to Middlebury. When he left, he said he would return in three years to prevent his wife getting a bill of divorce. On his return, the first question he asked his wife was, if the bill had been obtained, and was answered in the negative. This was one of the jokes peculiar to himself. On his return, he devoted his attention to farming, but finally sold his farm and bought a piece of land upon which he opened a stone-quarry, and contracted stone work. He continued in this until his death. He was married March 29, 1837, to Mrs. Miller, formerly Miss Elizabeth Hammel, they have no children. The first marriage of Mrs. S. to Arthur Miller occurred Jan. 29, 1827; she was a native of Ithaca, N. Y., and was born Sept. 21, 1812. Mr. Miller died July 16, 1830, leaving two children, both of whom have since died. In September, 1836, Mrs. Miller came to Ohio and lived in Norton Township with friends of Mr. Miller until the February following, when she came to Middlebury, and in March was married to Mr. Sumner.

COL. JULIUS A. SUMNER, retired, Akron, whose portrait appears in this history as a representative of that class of the pioneers of Summit County who have been identified with the progress of almost every improvement that

has placed Akron and Summit Co. among the leading cities and counties of Ohio, is a descendant of one of the old and prominent families of the United States. The name of Sumner is familiar to the people from the fact of different members of the family having from time to time held prominent positions in civil and military life. Theirs has been a remarkably robust, large of stature, and long-lived race of people. An examination of the records traces the genealogy of the family back to 1634, when one George Sumner, who was of the third generation by the name, emigrated from Bicester, England, to the United States, and settled at Freeman, Mass. He removed from there to Milton, of the same State, where he was Deputy to the General Court in 1693, 1703, 1708-09. He was ordained Deacon, July 30, 1699, and died at Milton, in 1715. Edward Sumner, of the fourth generation, and son of George, was born at Milton, Mass., Aug. 29, 1676. He lived and died a resident of Massachusetts. John Sumner, of the fifth generation, son of Edward and the grandfather of our subject, was born August 1, 1705. He graduated at Harvard College, in 1723. Nov. 20, 1729, he married Susanna, daughter of Samuel Stevens, of Roxbury. She died Feb. 2, 1733. In 1737-38 he was Representative from Roxbury. He settled on Martha's Vineyard, where, on Sept. 22, 1738, he married Jedidah Smith. He was Judge of the Court of Common Pleas for Duke's Co., from 1761 to 1774, when he removed to Spencer, where he died in 1787. Thomas Sumner, of the sixth generation, and father of Julius A., was a son by the second marriage of John Sumner. He was born June 2, 1757, and was married at Brookfield, March 9, 1780, to Miss Elizabeth Holland, of the same place. They lived for a time at Spencer, and then went to Townshend, Vt., and in 1817 they removed from there to Middlebury, Ohio, where he died April 19, 1825, and his wife Oct. 10, 1842. Col. Julius A. Sumner, the subject of this brief memoir, was born Jan. 2, 1802, at Townshend, Vt., and from the time of his 14th year he has been almost wholly dependent upon his own resources. At the age of 14 years he went to Boston, and from there across the country on foot to Tyrone, Huntingdon Co., Penn. He remained there for a time, and then started again on foot a distance of 130 miles, across the Alleghany Mountains to Pittsburgh. There

he began work in a nail factory, in the manufacture of hand-made nails. He remained there until 16 years of age, and then went to the country and engaged in teaching school, which he followed for one year. It may seem improbable that a boy of this age, and with the meager opportunities for attaining an education that were afforded him, should be able to teach a common school, but it may be as well to state here, that Col. Sumner was a boy of more than ordinary ability, energy and determination, all of which traits of character have in later life placed him in a position far beyond the average pioneer of Summit Co. In the spring of 1818, he began his journey on foot and alone to Middlebury. He arrived there in February, and began in company with his father and brothers the erection of the first rolling-mill in what was then Portage Co. This was for the purpose of rolling strap and bar iron from which to manufacture nails, and to them must be given the credit of making the first market nails ever made in Ohio. In 1824, he married Miss Margaret, daughter of Rev. Obadiah Newcomb, of Wadsworth, Ohio. She was a native of Nova Scotia, and was the mother of his children.

About the time of his marriage, the Colonel engaged in the mercantile trade, in which he has since been interested, and stands to-day as the oldest or pioneer merchant of Akron, as he is still interested in business as a member of the firm of Clark & Sumner, grocers. When he began business, freights from New York to Middlebury were \$12 per 100 pounds. He sometimes ran as many as three stores at a time, but when freights came down to \$5 per 100, he found so much competition springing up, that he gave up a part of his mercantile business and opened a woolen-mill. In 1832, his health being somewhat impaired by confinement, he sold his mill and store and moved to the country. He purchased a tract of land, of which he cleared 175 acres the first year. He began farming as he did everything else, on a scale that surprised some of his neighbors. In a short time he owned 1,200 acres, most of which he soon put in a state of cultivation. At this same time, he built a distillery at Lock 17, on the canal, which (the latter) was finished Aug. 25, 1828. He also ran a pottery on his farm, and was engaged extensively at merchandising. As an evidence

of his executive ability, he was at one time running a farm of 1,200 acres, a pottery, two distilleries and three stores, and at the same time he was Colonel of one of the finest militia regiments in Ohio. He has built many costly buildings in Akron, among which is the Sumner House, erected in 1868 and burned in 1876, and immediately rebuilt and enlarged. This fire was a loss to him of \$50,000; this, with his previous losses of \$75,000, was a fortune of itself, especially as it was accumulated from a start of \$1, and yet to-day he is counted one of the wealthy men of Summit Co. During his early career, the Colonel made eight different trips East with cattle, and crossed the Alleghany Mountains on horseback as many times. He and a brother also were the first shippers of cattle from the Western Reserve to Philadelphia. Col. Sumner's first wife died in 1849. In 1853, he married the widow of H. Bradley, who was one of the early settlers of the County. They lived together for twenty-seven years, when her death occurred, Oct. 18, 1880. His children are, Charles A., now a prominent merchant of Baraboo, Wis.; Mary, wife of C. Ferguson; Nellie, wife of J. B. Haughton; Eliza, wife of E. Stilwell, and Vick, wife of Geo. S. Clark, the Colonel's associate in business. He is still a hale, vigorous man, of commanding appearance, extensive knowledge, and in his matured age enjoying the rich possessions of the fruits of his varied efforts.

EDWARD SUMNER, Akron, a brother of Charles Sumner, was born at Townshend, Vt., June 27, 1796; came to Middlebury about 1817, and in 1818, in connection with his brothers Julius and Joseph, built the first rolling mill and rail factory in the State, with which establishment he continued a number of years. He was married at 2 o'clock A. M., Jan. 1, 1822, to Miss Lucinda Hart, a sister to the wife of his brother Charles. He subsequently engaged in merchantile business until his departure, in 1848, for Baraboo, Wis., where he built a large hotel; also the court house for that county; he served one term in the Wisconsin Legislature, and, about the close of the war, went to a place near San Francisco, Cal., where he engaged in the hotel business and mining. At an early date he was Colonel of the 5th Ohio Militia, at that time the finest in the State; he has always taken an active part in Masonry, joining, as soon as age would permit, in the

State of New York, and soon after his settlement in Middlebury he organized the lodge by that name, fitting up a hall in his own house, which was used for several years, subsequently, with Judge Spaulding, organized the Akron Lodge.

MISS LOUISE SUMNER, stock-raiser and farmer, P. O. Akron; the only child of Charles Sumner and Clarissa Hart, daughter of Rufus and Esther (Cutter) Hart, who were natives of Cornwall, Conn., and migrated to Middlebury about 1815, after a residence of eleven years in the State of New York. She was born May 6, 1796, and died March 30, 1877, after a long and useful life. The Sumners moved to Vermont about 1800 from Roxbury, Mass., where the father of our subject was born, June 6, 1794; he resided in Vermont until the fall of 1816, when he came to Middlebury, arriving in the spring of 1817, and was married the June following; his parents, Thomas and Elizabeth (Holland) Sumner, arrived in the fall of 1817. During the early part of his life in Ohio he worked at the clothiers' trade and served the people as a minister of the Gospel; he built the first frame dwelling house in the village of Middlebury, hauling the lumber for the same from Wooster and Cleveland, and raising the frame on the day of his marriage; he also, in connection with Peleg Mason, kept the first store in the village, and about the same time he built the first carding mill, making subsequent extensive additions to the business; his congregation, until the time of the building of the canal, had grown quite extensive, but was almost totally broken up on account of the ravages of disease at that time, there being only four of his flock left to tell the story which had been so fluently imparted from the lips of their earnest and energetic leader, who rendered great assistance during that dark time to the widows and orphans, in providing for them—raising and finding homes for the orphan children, and building houses upon his own farm for the shelter of the poor and sick. He was a very enterprising, energetic, successful and liberal man, having, a few years after his removal to this State, purchased a large tract of land in Springfield Township, upon which he kept a large amount of stock of all kinds, and engaged in the business of drover, in which he was very successful, although at many times meeting with several narrow escapes in crossing the mount-

ains; his stock consisted of horses, cattle and mules. He moved to the farm, upon which his daughter now lives, in 1834. He was for nine years Associate Judge of Portage County, and was instrumental in the organization of Summit Co., in which he served as Associate Judge from its organization until his death. His death occurred June 22, 1845, his daughter acting as administratrix of the large estate, in connection with John Hart, and, being the only child, became heir to the large amount of property, which she has managed with great tact and skill since her 20th year. She is a lady of rare ability and business tact, which was undoubtedly inherited from the father, and by her great love and superior knowledge of all kinds of stock, in which business she has been very successful; having no little playmates she, in her attention to the pets of the farm and the care of the herds with her father, acquired that great love for the brute creation which she has. She has owned the finest flocks of Spanish Merino sheep in Northern Ohio, having imported some of the finest thoroughbred sheep in the country; the stock of her horses can be determined from the prices sold at, ranging from \$500 to \$2,000 singly; she is now dealing in cattle principally. Her coal interests have been very extensive for several years, she realizing from \$3,000 to \$5,000 annually in royalty from the Middlebury Shaft and the Sumner Bank.

JAMES H. STANFORD (deceased), Akron, Ohio, is a son of William and Jane (Stevenson) Stanford, and was born at Rochester, N. Y., Aug. 29, 1843. When a boy he came with his parents to Akron, where he attended the public schools and learned the trade of machinist, beginning in a Cleveland shop and finishing in the shops of Taplin, Rice & Co., where he worked until 1868, when he became engineer of steamer in the Fire Department; he had been a fireman for some time. He filled the position with ability until his death, which occurred Jan. 3, 1881, an event that was deeply felt by the city. He had by close attention brought the appointments of the engine house to great perfection. He was a competent electrician, and was one of the oldest firemen of the service, having been a member since the organization of the department in 1866. He served in the late war in Shields' Battery for three years. He was a member of the Buckeye Post, G. A.

R. The following is an eulogy by his old friend and teacher, J. Park Alexander:

To the Past and Present Members of the Akron Fire Department, this eulogy of our dead friend and comrade is respectfully dedicated by his former teacher and constant friend throughout a period of twenty-five years:

On the 1st of April, A. D. 1856, upon promotion, there appeared in the Grammer Department of the Akron High School, a boy small of stature, rugged in appearance, fair in complexion with round visage and rounder head, covered with intensely curled auburn hair, which boy entered into all the labors and tasks of the schoolroom with the same vigor, courage and determination that marked him in after years, in our estimation, as a man. The writer selected for him as a declamation in our school exercises at that time, "Cutter's Ode," to the sentiment uttered by Henry Clay at the dedication of a monument at Lexington, Ky., erected over the remains of those who had fallen in the battle of Buena Vista, among whom were those of his son:

"And I would cover all its height
And breadth before that hour of shame,
Till space should fail whereon to write,
Even the initial of a name.

"Dissolve the Union, mar, remove
The last asylum that is known,
Where patriots find a brother's love
And truth may shelter from a throne.

"Give up the hopes of high renown,
The legacy our fathers willed,
Tear our victorious eagles down,
Before their mission is fulfilled.

"Dissolve the Union, while the earth
Has yet a tyrant to be slain,
Destroy our freedom in its birth
And give the world to bonds again.

"Dissolve the Union, God of Heaven,
We know too well how much it cost;
A million bosoms shall be given
Before one golden link is lost."

Many times during the years 1856 and 1857, our boy patriot was called out before school and visitors to recite this ode, a portion of which is here given—recite it because he did it so well he rejoiced in its grand national sentiments—his heart beat in unison with its expressed patriotism, the brightness of his eye and the color upon his boyhood cheek, told how enthusiastically he drank at these fountains of national existence. And now that his spirit has fled, who is there to doubt but that with this banner in his heart he was found in 1862, enrolled among the magnificent army of patriots who fought at Knoxville, Kenesaw, Resaca and in the siege of Atlanta. Three years of service in the 19th Ohio Battery in the great war of the Rebellion, christened the boy into manhood, unobtrusive of its merits, but nevertheless recognized. Before the war, in the year 1859, he entered the Mahoning Railroad shops as an apprentice machinist, under his subsequent Chief in the Fire Department, James McNeil, as foreman. He served in these shops until August 1862, the date of his enlistment. After his discharge from the army, which occurred June 20, 1865, he

was engaged for a short time in the railroad shops here and with Taplin, Rice & Co. until in 1868, when he entered the employ of the city. He died with his armor on in the thirteenth year of his service for the city, faithful to the last, his life stands a shining example of his ability, his integrity, his worth. A silent captain among men—he led, they followed. An indefatigable student, he was at the same time an accomplished mechanic. Theory enticed him along her intricate paths, yet he never lost sight of the real, the practicable, and to-day all over our city and all through this department, are to be seen examples of his handiwork. Like a great balance wheel in motion, he moved steadily forward, stopping not at trifles nor moving more rapidly from mere imagination and without cause. Thirty-seven year from the cradle to the grave. Thirty-seven years onward, upward! Thirty-seven years and this star has risen to its zenith, blotted out in its pathway at midday, it hath fallen into the grave beneath our feet, and now, as the shadows of life point toward the east, with joined hands around this open tomb, we pledge anew our faith, our love, our hope in all that makes man immortal, as found in the remembrances of the life and character of our dead brother. We bow our heads in sorrow at the taking-away of our friend, and as we turn our footsteps away from this tomb, we exclaim in one voice, surely the ways of Providence are inscrutable and beyond finding out. James Stanford, as at the rising of the sun, we bid thee a glad welcome, as through the journey of life we stood near thee, loved and admired you, so now we, in our constancy of friendship, although with broken hearts, stand around thy grave at this final separation, and bid thee, noble hearted, grandly gifted, true hero, all hail and farewell.

FERDINAND SCHUMACHER, manufacturer, Akron. Ferdinand Schumacher was born in Celle, Hanover, on March 30, 1822, where he attended school until he was 15 years old, at which age he had completed the High School course; he then went to Harburg, where he worked five years as an apprentice in a wholesale and retail grocery, receiving no remuneration during that time. In 1842, he commenced clerking with his father, and continued for two years, when he went to Hanover, and clerked in the extensive sugar refinery of Egestorf & Hurtzig, for about six years, his salary at first being \$150, and finally \$200 per year. In 1850, in company with his brother Otto, he emigrated to the United States. He bought 46 acres of land in Euclid, twelve miles from Cleveland, where he farmed for a year and a half, at the end of which time he left the farm in charge of his brother, and came to Akron, where he at once formed a partnership with Theodore Weibesahn, and, in company with him, kept a fancy goods, toy and notion store

in the basement of P. D. Hall's store. After eight months he retired from this, and started for himself a small grocery store in the site of the First National Bank; this was attended with success, and he continued with it until 1863. In 1856, he rented water-power on the Ohio Canal, on North Howard St., and put in the necessary machinery for inaugurating a branch of manufacture, which steadily grew in value, and which was the manufacture of oat-meal according to ideas received by him as to the proper method of making palatable food out of the grain of the oat, while learning the grocery business in his native country. Into this, his adopted country, he introduced excellent oat-meal, by substituting machinery, driven by power, for the hand-mill he had been accustomed to see used by his employer in Germany. His experiment was successful, and the next year apparatus for pearling barley was added to what were appropriately called "German" mills, and the year following that, greater capacity was given to the mill itself, by increasing the water power. In 1863 the Empire Barley Mills were built, which were enlarged in 1876. He built, in 1879, an elevator for the storage of grain. In 1872, the first mill burned, but within thirty days after the fire, a new structure, known as the present German Mills was begun, and quite finished early in 1873. He bought the Cascade Flouring Mills in 1868, enlarged and supplied it with modern machinery. The capacity of the Barley Mills is 1,000 bushels per day; of the Cascade Mills, 250 barrels of flour; of the German Mills, 250 barrels oat-meal, consuming about 3,000 bushels of oats, in addition to which large quantities of pearl cracked wheat and feed are turned out. His three mills give employment to about 120 men and women, and the business amounts to \$1,000,000, or more, annually, extending to all parts of the country, all of it being under his personal direction, and with but one traveling solicitor. When he began, all the oat-meal in this country was imported from Canada and Europe, but at present the importations of this valuable food are trifling in amount. The secret of his success is perseverance, energy, and his determination to excel in the quality of his goods, being quite dissatisfied with anything short of excellence in the way of machinery. On Oct. 7, 1851, he was married, at Cleveland, Ohio, to his cousin, Miss Hermine

Schumacher, of Bevern, Brunswick, Germany, by whom he had seven children, five of whom are deceased. Louis and Adolph are living. He has been a Prohibitionist since 1870, has given support to the various churches, and has been a member of the City Council.

AVERY SPICER, Akron, Ohio. Avery, oldest son of Miner and Cynthia (Allen) Spicer, began life's voyage on Oct. 26, 1799, at Grotton, New London Co., Conn., since which time he has rowed steadily and carefully up-stream. He attended school but little in Connecticut, his family moving from there to this site when he was only 12 years old, at which time they were the only white settlers where Akron now stands, although there were three white families at Middlebury. Here he started to school, in company with six sisters, the schoolhouse being a frame building, at Middlebury, built by his father; his first teacher there was named Skinner, whom Mr. Spicer remembered as a very severe man, priding himself more on being a "master" than a teacher. On arriving here, his father bought 260 acres on the present site, none of which, at that time, was cleared. The three white families then in Middlebury were Aaron Norton, Rial McArthur and Capt. Hart. Mr. Spicer's father lived in McArthur's house for about four days, when he moved into a cabin, built of round logs, with no chinking; there was timber all around the house. Deer came in sight of the house frequently, and it was not an unusual occurrence to see bears. Mr. Spicer recalls one occasion when, on going to a neighbor's, he saw what he had at first supposed to be a hog standing on his hind feet, but which he soon discovered to be a bear; his dog, which accompanied him, advanced and received the "hug," in which affectionate embrace he left him, while he soon lengthened the distance between them and himself. It was about a month after this occurrence, that a dog's prolonged barking attracted his attention, and on investigation he found the disturbance to be at a hog-pen. Securing a candle and a gun, he and his father followed the dog, and discovered a bear, at which he took aim and fired, but it escaped. He returned, and, on finding the hog dead, hastened to build a fire to protect it, but the bear succeeded in stealing it away before he accomplished his purpose. The next morning, he sought and found them, killing the bear with

gun-shot. They had great difficulty in obtaining salt here at that time, and, after being here two years, he, a boy of 14, led a horse to Cleveland, and returned on foot with a bag of salt, having been gone four days. The year following he took a horse, loaded with three bags of flour, to the Liverpool Salt Works, at Rocky River; for about fifteen miles of the way he had no guide but blazed trees, and when in the woods night came on, he tied the horse and went to sleep on the bags. Before morning the wolves began to howl, and he slept no more that night. One morning, as he was just about to start a fire in his father's house, blowing the embers, he saw a rattlesnake coiled up about one foot from his hand, and to escape he threw himself backward, and when the light shone up struck the snake with the shovel, and then sprang on the bed in the dark, the fire having gone out; the snake was not killed, but badly hurt; it was but one of the many which were then existent. When they settled here, Indians were plenty. After Hull's surrender, Mr. Spicer's father enlisted and went to Cleveland, from which place he was sent back as Captain, with about 100 men in his command; he established a guard line from old Portage to new Portage, and part way to Cleveland. Subject was at Hudson when Perry won his memorable victory, and he distinctly heard the guns. He reverences greatly his name. While his father was in Cleveland, during the war of '12, his mother went each night, taking her family with her, to lodge in the home of Amos Spicer, who had settled in Coventry Township; and one morning, on returning home with subject and his cousin, Pierpont Spicer, she discovered that the door had been opened, and supposing it had been done by Indians, they made cautious reconnaissance. Pierpont, on going to the loft, sprang down and said he saw Indians in bed. All three ran from the house, but Mrs. Spicer, being unable to go swiftly, found a treasure in her boy, who slacked his gait to accommodate hers. On reflection, they all returned, and subject cautiously and tremblingly started up the ladder leading to the loft, followed very closely by her whose mother-heart bade her now urge him on, and now restrain him, which she did by gentle pushing or pulling at his coat, according as she grew brave or fearful. On reaching the loft, however, they found no one, although

there was evidence of some two or three persons having occupied their bed, who, no doubt, were some of Hull's men, and not the looked-for Indians. At the age of 21, he began earning his own living, working for his father two years at "truck and dicker," which employment brought him but \$7 per month. Later, he became foreman of a large number of hands on the Ohio canal, furnishing stone for its locks. In this he engaged for one season, and, in 1824 or 1825, he and his uncle rented a saw-mill and sawed lumber for the locks for a period of two years. He was boss of the hands who built the log bridge across the Cuyahoga, east of Mustle's, being paid the same amount they received, which was 31 cents per day. He married, on Sept. 3, 1826, Miss Harriet King, daughter of Joshua King, who settled on the Cuyahoga in 1810. Harriet was born on Sept. 27, 1810, and is said to have been the first white child born on the Cuyahoga from Portage to Cleveland. After his marriage, he bought forty acres of land at \$8 per acre, on the southern part of his father's farm, to which he made additions until he owned seventy-five acres, which he farmed until 1837. The first wheat he raised sold for 30 cents per bushel. In 1837, he bought 150 acres of land in Coventry Township, making additions thereto until he owned 366 acres, which he farmed with good success, keeping a dairy for several years. He was Trustee of Coventry Township for many years. In 1857, he moved to his present place, corner of Spicer and Carroll streets, Akron, where his father formerly lived. He was Infirmary Director of this county for fifteen years, serving during the construction of the present building. He has five children living, viz., Cynthia, wife of George Cogshall, of Akron; Austin A. (see sketch in Coventry Township), of Coventry; Harriet, wife of James T. Trowbridge, of Akron; Harrison M., farmer in Coventry; and Ella C., wife of Charles Parmenter, of Waltham, Mass. Four children are deceased, viz., Isaac A., who died in California in his 23d year; Sarah C., who was the wife of John Newton and died in Michigan, and Olive and Oliver, twins, who died when 5 months old.

JOHN F. SEIBERLING, Akron; oldest son of Nathan and Catharine (Peters) Seiberling, was born March 10, 1834, in Norton Township, this county, where he spent his youth, having

common and high-school advantages. In 1856, he came to Akron, and for two years engaged in the drug business. He returned in 1858 to Norton Township, and there ran a saw-mill for some two years, and, while working in the mill, became interested in the improvements of mowing and reaping machines, and, lacking favorable opportunities, constructed a machine which he brought out in 1859. In 1860, he experimented with this machine and named it the "Excelsior." In 1861, he took out his first patent—the main feature being the "dropper," which was the first made or conceived. From 1861, he gave his whole time and attention to the business, going to Doyleston, Ohio, where he established a manufactory which is still in operation. He experimented every season, and, in 1861, he invented the side-brace bar coupling, and, in 1862, the horizontal folding finger-beam. He was the first to discover the adjustable reel, which he did in 1870, or thereabouts. In 1875, he brought out the empire table rake, and in 1880, the single-wheel reaper. * * * He worked at Doylestown, until 1864, when he went to Massillon, where he established a manufactory, remaining one year. In October, 1865, he came to Akron and organized the firm of J. F. Seiberling & Co., for the manufacture of the "Excelsior," from which firm he withdrew in 1869. In 1871, he organized the Akron Straw Board Company, located at Middlebury, of which he is still a member, now being the President and Treasurer of the same; to this, by means of his own inventions, he has added several new improvements. In 1875, he commenced the building of the "Empire," a new machine with new features, which was invented by him during the time not engaged in manufacturing. The commendable features of the "Empire" are numerous, but it is especially valuable because of its strength and durability (the gears being inclosed, and all the parts made of iron), and the new principle making light draft and little noise. The present capacity is 5,000 machines per year, which meet a ready sale. In 1880, he purchased the old "Excelsior" works, and the business is controlled by himself, he being President and general manager. In September, 1859, he married Miss Catharine L. Miller, of Norton Township, and of this union there were nine children, all of whom are living, their names being as follows: Anna E., Frank A., Charles W., Cora D.,

Hattie M., Grace I., Kittie G., Mary B. and Ruth. The subject of this sketch has been a member of the School Board; he is a member of the English Lutheran Church, and is now Trustee.

ROLIN W. SADLER, lawyer, Akron; was born to James J. Sadler, July 7, 1856, in Centerville, St. Joseph Co., Mich.; eleven years later, moving to Bryan, Ohio, where he remained two years, followed by a two years' stay in Wanusee, at both of which places he attended school. In 1871, he entered Baldwin University, and remained one year, when he entered Mt. Union College, from which he graduated in 1874, after which date he engaged in teaching for some time. In the summer of 1876, he came to Akron, entering the law office of Edgerton & Kohler, as student, and was admitted to the bar in 1878, since which time he has been in active practice. Although young, he is a competent lawyer, and owes his success mainly to his own efforts, as, indeed, do nearly all truly successful men. On Sept. 15, 1880, he married Miss Carrie M. Comstock, of Bedford, at which place he was engaged a few years ago as Principal of the schools, previously having served in like capacity in the Reading, Mich., schools. The old firm name, Edgerton & Kohler, is changed to Kohler & Sadler. His father, James J. Sadler, was born in New York City, and moved thence to Pennsylvania, after which he came to Stow Township, where he grew to manhood, receiving his education in Twinsburg Institute. He began teaching at the age of 17, engaging in that vocation in different parts of Summit Co., and at Middlebury. He is now Superintendent of the public schools of Stanton, Mich. He has six children, of whom Rolin is the second son.

LOUIS B. SCHNEIDER, hardware merchant, Akron. Frederick A. Schneider was born in Altona, near Hamburg, Germany, and immigrated to Pennsylvania at an early day, where, when quite a youth, he became engaged in mercantile pursuits. His father was a Captain in the regular German army, and gave him a good education in German, French and English. In Pennsylvania, he engaged in book-keeping for a large house in Philadelphia, and teaching school; subsequently kept a hardware store at Chambersburg, where he met and married Miss Rebecca Faber, who bore him nine children, viz., Mrs. Chas. Cranz, and Mrs.

Judge G. W. Raff, of Canton, Ohio; Anton G., of Akron; F. A., of Omaha; Louis B.; Edward F. (deceased), who was an Adjutant under Gov. Hayes; Mrs. Henrietta R. Wallace, of Canton, Ohio; Mrs. W. J. Broatch, of Omaha, and Emma S. (deceased). In 1828, the father of subject moved to Canton, Ohio, where he engaged in the hardware business, and was very successful. Positions of trust were given him, among others, that of Mayor of Canton. He died in 1867. His fifth child and third son, Louis B., was born in Canton, Ohio, Nov. 15, 1834, where he lived until he was 16 years of age, at which period he came to Akron, where he engaged his services as clerk in the hardware store of C. Cranz & Co., retaining his position seven years. In 1858, he went to Omaha, Neb., where, for two years, he conducted a hardware store for his father, and then returned to Summit County, where he established a store of his own at Mogadore, which he managed for three years, at the end of which time, he established and conducted another at New Portage, which continued in operation but two years, both adventures being successful. In 1865, he came to Akron, and re-entered the store of Charles Cranz, this time as a partner, which for ten years he continued to be, and in 1875, he bought out the store, having since done a good business. In June, 1859, he married Miss Emma L. Welch, of Mogadore, and they have two children—Flora M. and Faber E.

JAMES B. STORER, Postmaster, Akron; son of W. B. Storer; was born in Akron Jan. 22, 1839, where, until he was 17 years of age, he attended the public schools, after which he learned the jeweler's trade, serving with W. H. Fallmon, and for a short time with H. S. Abbey. He was subsequently engaged in an iron store for a year, when the war broke out, and he enlisted as soon as the news reached Akron, being among the first on the roll of Co. G, 19th O. V. I., and was in service three months, rising, in the meanwhile, to the rank of Sergeant. He re-enlisted in Co. H, of the 29th O. V. I., engaging in the battles of Winchester, Port Republic, Cedar Creek, South Mountain, Antietam, Chancellorsville, Gettysburg, Lookout Mountain and Mission Ridge. He was appointed Adjutant and recruiting officer, and recruited almost every man present with the regiment in December, 1863, as veterans. In May, 1864,

on the Atlanta Campaign, in the first engagement at Rocky Race or Dug Gap, he was wounded by a minie rifle-ball, which struck his spinal column, which resulted in paralysis of his legs. He was carried from the field, and lay in the hospital at Nashville for three months. He was discharged in November, 1864, and after almost a year he was able to walk with the aid of crutches. Then he purchased a jewelry store at 116 Howard street, in which he still retains an interest, the firm name being J. B. Storer & Co. In June, 1870, he was appointed, by President Grant, Postmaster of Akron, for a term of four years; re-appointed in 1874, and again in 1878, by President Hayes. On Jan. 11, 1864, he married Miss Lucy M., daughter of Gibbons J. Ackley, of Akron. She bore him one child, a daughter. He is a member of the G. A. R.

EDWARD W. STUART, lawyer, Akron; son of Sylvanus and Caroline M. (Whittlesey) Stuart, who were natives of Connecticut, was born in Washington Township, Litchfield Co., Conn., on May 9, 1840, and two years later came with his father's family to Erie Co., Ohio, where they still reside. He is the oldest of their two children, his sister being now Mrs. Helen M. Gibbs, of Salina, Kan. Until he was 18 years of age, he farmed during vacations from school, and in 1858, he entered Western Reserve College, from which he graduated in October of 1862, the graduation of the class having been postponed because of their enlisting in the service. About seventy students formed Co. B, 85th O. V. I., and served, doing guard duty, four months, after which, for a period of four years, he was engaged in teaching. He was two years the Principal of Shaw Academy, of Collamer, Ohio. In 1866, he was admitted to the bar at Cleveland, having made law a study for four years. He commenced practice at Kent, Ohio, with S. P. Wolcott, Esq., continuing there until May, 1870, when he came to Akron, there forming a partnership with C. P. Humphrey, which continues. In April, 1871, he was elected City Solicitor, which office he held until January, 1877. In October, 1876, he was elected Prosecuting Attorney of Summit Co., and acted in that capacity two terms. In May, 1864, he married Miss Harriet Whedon, of Hudson.

LOUIS SEYBOLD, editor *Germania*; born on Sept. 22, 1854, in Hohenschwangan, Bavaria.

Attended the Gymnasium at Ellwangen, Wurtemberg, Germany. Came to America in 1873, and lives in Akron since 1875. Has been musical director of the Akron Harmonie, from 1876 to 1879, and accepted the editorship of the Akron *Germania* in 1878. Married in 1879, to Louisa Doppstatter, of Akron; has wife and one child.

FRANK J. STARAL, business manager of the *Beacon*, Akron. The subject of this sketch is a son of John and Julia (Podstatny) Staral. He was born Feb. 25, 1847, in the town of Beroun, Bohemia, where at the age of 12 he learned book-binding. He pursued this calling in his native town until 1865, when he came to the United States of America and ere long found employment in Cleveland, Ohio. Here he worked at book-binding about four years. He came to Akron Jan. 1, 1869, to assume the duties of foreman in the bindery of Lane, Canfield & Co. Mr. Staral held the same position in the Beacon Publishing Co., organized in 1871, until 1875. By his thrift and energy he became a stockholder in 1871. When the stock passed into present hands in 1875, Mr. Staral, with a larger share of stock, became its book-keeper, and succeeded Mr. J. H. Auble as business manager in 1877; a position he has since ably filled. July 10, 1877, he married Miss Bertha Weisenberger, of Cincinnati, Ohio. Of this union there is one son.

ALOIS STRÁUB, musical instruments, Akron, Ohio; is a son of Alois and Magdalena (Gudfried) Straub, and was born Sept. 11, 1826, in Baden, Germany. He learned cabinet-making at 14 years of age, and after working two years, he began to work on musical instruments in Fernbach, which he continued for four years, when he entered the German Army. After leaving the army, he came to the United States, arriving at New York in the latter part of the summer of 1849; he went to Philadelphia; and remaining in different parts of Pennsylvania until October 1851, he came to Akron, Ohio, and worked a short time in a cabinet-shop. He commenced the manufacture of musical instruments for Horton & Rose, which he continued about five years, when his health failed, and, in the spring of 1857, he was employed as a traveling salesman for the company. About the year 1861, he began dealing in instruments on his own account, it being the first music store in the city, and about 1870-71,

commenced this manufacture, which he continued some five years, at the same time keeping a music store, which he has continued ever since. He sells the celebrated Weber Pianos and the Mason & Hamlin organs, also the Burdette organs. He was married Jan. 5, 1857, to Miss Elizabeth Eisenhauer, of Akron. Mr. Straub is a member of St. Bernard's Catholic Church.

H. C. SANFORD, lawyer, Akron; a native of Portland, Me., was born Sept. 11, 1833, and is a son of John Q. and ——— (De Lano) Sanford, who were natives, the former of Brunswick, Me., and the latter of Plymouth, Mass. His father was an extensive lumber dealer, and suffered heavy losses from the embargo laid by the General Government, from the effects of which he never fully recovered. He died when subject was but 8 years of age, and, being anxious to do something for himself, he left home at the age of 9, and went to Manchester, N. H., where an older brother resided. He worked in the locomotive shops there, and attended the public schools, and spent one year, also, in Kendall Academy, of that city. At the age of 18, he came to Ohio, and was engaged successively on the Sandusky, Mansfield & Newark, and the Cleveland & Toledo R. R. He commenced as fireman, but was soon promoted to Engineer, and ran a passenger train before he was 21 years old. He continued on the C. & T. R. R. until 1855, when he went to Quincy, Ill., and at once began running on the "Northern Cross Road," now the Chicago, Burlington & Quincy, and, when the road was completed, he took the first passenger train over it from Quincy to Galesburg. He remained on this road about six years, and then gave up his position for a train at Augusta, Ill., that he might be at home, and also to have an opportunity for the study of law, which he had resolved upon. He procured some law books, and read them on the foot-board of his locomotive, at the rate of thirty miles an hour. While running on this road, he saved a passenger train of cars from running into a river near Plymouth Station, where a bridge had been washed away, by running his locomotive into the train. At the time, he was bringing out the construction train in the morning, and taking it back in the evening. The passenger trains transferred their passengers at the river, and, to facilitate matters,

the locomotive was put behind the train at the last station, to push it to the river, and, coming down grade one day, at a rate of speed they were unable to stop before arriving at the broken bridge, where the water was about twenty feet deep, and to prevent the train going into the river, Mr. S. started his engine under a full head of steam, and struck the baggage car, which was in front. When the trains stopped, his engine was within a few feet of the end of the rails over the yawning river, and he still standing at his post. The train was crowded with passengers, and, but for this act of heroism of his, doubtless many would have lost their lives. The engineer of the passenger train was at once discharged. Mr. S. left Illinois in 1861, and came to Amherst, Ohio, where he engaged in the dry goods business, but soon after went to the oil regions of Pennsylvania, but was unsuccessful in "striking ile," and he found employment on the A. & G. W. R. R. He did not stay long with this road, but went to Fort Wayne, Ind., and took an engine on the Wabash Railway; returned to Meadville, and ran between that place and Akron, until the shops were put in operation at Kent, when he took charge of the engineers and men at that place, and also of an eating-house for the railroad company at \$175 per month. He left their employ in the summer of 1867, and went to Ann Arbor, Mich., and attended the law school one college year, and was admitted to the bar at Ravenna, Ohio, April 24, 1868. He then formed a partnership with Hon. N. W. Goodhue, of Akron, for one year, at the end of which time he went to Kent, but returned to Akron in 1870, where he has since practiced. He was elected Prosecuting Attorney on the Republican ticket, and served one term; was elected City Solicitor in 1877, served one term, when he declined further honor. He was married on the 19th of January, 1857, to Miss Emily J. Fairchild, of Amherst, Lorain Co., Ohio, a daughter of Etam and Lydia Fairchild.

ERHARD STEINBACHER, merchant and banker, Akron; is a son of John and Catharine Steinbacher, and was born March 30, 1825, in Bavaria, Germany. He attended the common schools until 14 years of age, and spent two years at Heidelberg. In 1844, he came to the United States, remaining two years, a portion of the time as clerk in a hotel (Cobb's Exchange, of Akron) at \$8 per month; then went

to Cleveland, Ohio, and, in the fall of 1846, went back to Europe. He stayed there five or six months, and then returned to the United States, and came to Akron in 1847. In 1849, in company with fifteen others, went to California by the overland route, arriving in the land of gold in the latter part of July. He was successful, and returned to Akron, leaving California in December, 1850, via Panama, reaching Akron in February, 1851. He now opened a drug and grocery store (firm of Weimer & Steinbacher—Weimer retired in 1865), and has been an enterprising business man of Akron ever since. He has been President of "Citizens' Saving and Loan Association," ever since its organization in May, 1872; he has also been a stockholder in the First National Bank for fifteen years, and a stockholder and director in the Akron Iron Co., from its beginning. He was married, in April, 1853, to Miss Phœbe Potter, of Suffield, Ohio; they have three children, viz., Kate L., Edward E. and Georgia Belle.

CHARLES E. SHELDON, Superintendent of Whitman and Miles Manufacturing Company, Akron. Is a son of Samuel D. and Augusta (Smith) Sheldon, and was born July 18, 1850, in Fitchburg, Mass., where he attended school until 16 years of age. He then spent two years in the office of City Engineer of Fitchburg. In 1867, he became a clerk in the office of the Whitman & Miles Manufacturing Co., at Fitchburg, Mass., of which establishment his father was foreman previous to that time. He was made Superintendent at Fitchburg, which position he held until 1876, and the next year he came to Akron, and has since been Superintendent of the Whitman & Miles works here. He was married in November, 1870, to Miss Ruth L. Gifford of Fitchburg, Mass.

HARRY J. SHREFFLER, Akron, son of Frederick and Mary A. (Auble) Shreffler was born in Center Co., Penn., March 26, 1847. At 18, he worked on a farm near Wadsworth, Ohio, one summer. In 1866, he went into partnership with his father at West Salem, engaging in the manufacture of carriages, and continuing two years, when they removed to Burbank, Wayne Co., Ohio, where they continued in the same business. In July, 1871, he came to Akron and clerked two years in the post office, he was made Assistant Postmaster in April,

1874, and has held that position ever since. He is superintendent of carriers and registry, and has general charge in the absence of the Postmaster. Oct. 29, 1872, he married Miss Eva Cubbison, of Akron; she died Oct. 31, 1873. Aug. 6, 1878, he married Miss Fannie I. Fouser, of Akron, who bore him one daughter.

LOREN N. SMITH, Akron. Moses Smith was born at Stonington, Conn., Nov. 30, 1783, and died at Akron in his 83d year, Feb. 4, 1866. His wife, *nee* Miss Sarah Haley, was born Nov. 2, 1792, at Groton, Conn.; she was married to him on June 19, 1807, being only 15 years of age. They moved to Akron in 1826, and the following year he purchased a tract of land containing about 100 acres; here he farmed and engaged at the cooper's trade, having erected a shop for the purpose. He was an excellent marksman, and, as game was plentiful, he had many opportunities to display his skill. He regarded his word and was very exact in dealing. He was a staunch Democrat. Six children were born to him, viz., Sarah, wife of Hiram Hart, of Coventry; she died in 1862; Warren H., who died in 1865, on the Atlantic Ocean, in which he was buried, while on his return from California, being in his 53d year; Lucy A., wife of the late D. A. Hine, now living in the Sixth Ward; Henry, who died in his 6th year; Harriet H., who was the wife of J. B. Curtis, and died at Kent, in 1853, in her 35th year; Caroline S., widow of the late Alvin Austin, now residing in Akron; William H., the only one of the family born in Ohio, died in Chili, South America, in 1872, in his 45th year; and Loren N., the subject of these lines who was born in Dalton, August 16, 1823, being 3 years old when his family moved to Akron; he remembers seeing the first tree cut where his present residence stands. He went to school about six months per year until he was 17, learning the cooper's trade and to do farm work, from his father. In 1841, he became a clerk for the firm of James Sawyer & Co., remaining in their store until 1844, in the summer of which year he became proprietor of a confectionery and grocery store, it being the first one established on North Howard street. He was afterward engaged in the same business on the site of the First National Bank; from which place he removed to South Howard street until 1851, thence to Xenia, where,

under the firm name of Austin & Smith, he did a large business in confectionery; thence he removed to Cincinnati, in 1858, where he met with great success, remaining until 1878. While there he was President of the Phoenix Insurance Company; and a member of the City Council for several years. On account of failing health he relinquished his business in Cincinnati and located in Akron, taking charge of the old homestead. Nov. 6, 1845, he married Miss Sarah J. Adams of Akron; she was born in Cavendish, Vt., and came to Akron in 1837. They have three sons and one daughter, viz., Henry N., of Cleveland; Fred. A., of Cincinnati; Frank E., of Cincinnati; and Ida M., wife of R. S. Kirtley, of Cincinnati.

PROF. GUSTAV SIGEL, musician, Akron; was born in Wurtemberg, Germany, Jan. 30, 1848. He studied music in the conservatories of Germany until 1868, when he came to the United States, and for four years taught in Milwaukee, Wis. In 1872, he came to Akron, Ohio, at the call of the Liedertafel Society, and has since been its Director. From 1872 to 1878, he was teacher of instrumental music in Buchtel College. He is now teacher of piano and stringed instruments. He was Director of the Saengerfest held in June, 1880, at Akron, and through his efforts it was a success. He owns some valuable stringed instruments.

GEORGE G. SCHAFFER, Akron, son of John and Mary (Good) Schaffer, was born in Alsace (then a province of France), March 13, 1846. He learned weaving from his father, and engaged in that until he was 18 years of age, when, alone and with but a few dollars, he came to the United States, where he entered the employ of John T. Good, in whose oil refinery he worked for three years, followed by one year's employ at Oil City, after which he clerked for some time for Jacob Good, and six years was with Cook & Sons. In 1878, he opened a grocery on West Hill, where he did a good business. In 1880, he built the present two-story building, following out his own ideas and improving on the failures of others. As a matter of interest, we give the following from the *Daily Beacon*, descriptive of this establishment:

The grocery room is 22x60 feet in the clear; it has counters on either side with a cross counter in the rear end of the room; the side counters contain one of the new features in the way of glass front cases 12 inches high and 10 inches wide. These cases are about 14 inches long and are directly on the front

margin of the counter, leaving about 22 inches of counter room in the rear. There are some 60 of these cases which will at once be seen serve to display a large amount of goods, doing away with having boxes standing around with the lids half off. Sugar, crackers, etc., are kept in barrels incased in separable apartments behind the counters, and directly above them are all kinds of packages and canned goods on shelves, protected from dust by glass doors. The old style of drawers is superseded with permanent boxes with glass door covers, showing the goods without exposure. Beneath the counters on three-inch-high platforms is large space for apples, potatoes, etc., in full sight but not under foot as is the case in so many places, and all this class of matter being on platforms is free from the dust that naturally accumulates on any floor in a public place. All classes of goods are classified and all articles of a greasy nature are separated entirely from other goods, occupying the space behind the rear counter. The entrance to the cellar is from the warehouse which is conveniently reached by a partition door. By this arrangement no odors from the cellar can reach the grocery proper and furnishes every precaution against anything objectionable in the grocery department. The warehouse is arranged just as systematically as the grocery. In one department is a tier of shelves with the name of streets. When an order is filled, the goods are put in a basket and placed on the proper shelf. A drive-way leading through the warehouse, the delivering man can drive directly to his place, load his goods and be off, doing away with carrying loads of goods through the store. Tackling is provided so that all heavy articles do not have to be lifted. Molasses, cider, oil, etc., are kept in a department in the ware-room; in fact, there will be nothing on which to tear or grease your clothes as you walk about in the store-room, and everything will be open to inspection, and yet protected against dust or soiling by evaporation.

Jan. 29, 1874, he married Miss Caroline Buchman, of Wayne Co., Ohio, and have one daughter and two sons.

HIRAM J. SPICER, Akron, son of Maj. Miner Spicer, was born in Akron, Oct. 24, 1816, near the springs, about forty rods from his present residence, that being the spot where his father first built his cabin. He worked on the farm until he was 19 years old; he went to school at Middlebury, his first teacher being one Squire Brown, a very severe man, who resorted to the "gad" upon the slightest misdemeanor, real or imaginary, of the pupils. These "gads" were first roasted and then twisted to make them tough in order that they might hurt more, and some were notched for the same purpose. Subject shared the same lot with other school children in those days for three months per year, until he was 19. When he was but 9 years old, he carried the mail once a week

from Akron to Bolivar, a distance of forty miles, traveling on horseback, and continuing four years, except during the winter seasons. At the age of 19, he learned the carpenter's trade with one Gideon Gardner, serving for board and clothing two years; he soon after began taking contracts, working with his brother Miner, who was a millwright, on several of the early mills of this vicinity. He worked for ten years on the Austin Powder Mills, and for several years on residences. Feb. 31, 1839, he married Miss Marilla A. King, daughter of Joshua King, who was one of the pioneers of Northampton Township. Their children are Avery King, of Akron, and Alice M., wife of Sevillian Payne, of Davis Co., Mo. Three died when young. Our subject entered the employ of Aultman, Miller & Co., in 1865, and has since continued. He has worked in woodwork, and had charge of the repairs of the shop-machinery for the last nine years. He was a Whig and cast his first Presidential vote for Gen. Harrison; became a Free-Soiler in the days of Van Buren, and a Republican at the organization of the party. He has been a member of the Methodist Episcopal Church since 1872. His wife died Jan. 19, 1861, and, in August of the same year, he married Mrs. Cerenia L. Barnett, of Akron, Ohio.

JOSEPH S. SMITH, druggist, Akron; son of Christian Smith, was born in Warren, Warren Co., Penn., Dec. 4, 1855; at 14, he entered a drug store in Warren, where he remained four and a half years as clerk, after which he entered the Philadelphia College of Pharmacy, from which he graduated in the spring of 1877, being engaged as clerk in a Philadelphia house at the same time. In the fall of 1877, he and his brother bought a drug store at Wilkesbarre, Penn., continuing until 1878, when they sold out and bought the present store in September, 1878, of Sisler & Sorrick, located the first door north of the post office; they have a full stock of pure drugs, chemicals and sundries; they have a laboratory for the manufacture of fluid and solid extracts, gelatine-coated pills, elixirs and pharmaceutical preparations in general; they are doing a prosperous wholesale and retail business.

SIMON C. SMITH, druggist, Akron; was born in Warren Co., Penn., May 25, 1850; he attended the public schools of Warren until he was 15, when he clerked in the post office under

his father for five years; in 1868, he clerked for his father in a shoe store, and, the following year, became his partner, continuing as such until January, 1877, when he became a partner with his brother, Joseph S., at Wilkesbarre, Penn., in a drug store, remaining a year, when they sold out, and, under the firm name of Smith Bros., purchased their present drug store at 193 South Howard street; the business rooms are 80x22, with elegant modern appointments. He was married at Indianapolis September, 1873, to Miss Mary E. Cale, of that place; they have one son and one daughter.

EDWARD C. SIMPSON, Chief Engineer of Fire Department, Akron; is a son of Thomas C. and Mary J. (Hildreth) Simpson, and was born in New Haven, Conn., Feb. 18, 1836; in his 17th year, he came to Cincinnati, Ohio, with his father's family, and, in 1854, came to Cuyahoga Falls, where he served an apprenticeship with Bill Bros., at the machinist's trade, for about three and a half years; he worked at different points in Ohio until 24, when he went to Hartford, Conn., where he worked two years at his trade; in November, 1864, he came to Akron and entered the employ of the A. & G. W. R. R. Co. as mechanic until June, 1865, when he went to Kent in the employ of the same company until 1873, when he came back to Akron, and was employed in the C., Mt. V. & C. R. R. shops; in 1875, he became foreman of the finishing department of Aultman, Miller & Co.'s shops, employing a force at present of ninety men; he entered the fire department in 1876, and was appointed Assistant Engineer, which he held until June, 1878, when he was appointed Chief Engineer, a position he still holds. He was married June 3, 1862, to Miss Abbie Wilson, of Warrensville, Ohio; they have three children.

WILLIAM SHUTT, retired farmer; P. O. Akron; is a son of George, the son of Jacob Shutt, who came to America from Zweibreechen, Germany, before the war of the Revolution, and was sold by the ship's captain to pay his passage; after his marriage, he took up a large tract of land at Pittsburgh, where he resided at the time of Gen. Braddock's defeat, and, on account of the troublesome Indians, they returned to Maryland, to a farm near Boonesboro, Washington Co., two miles northeast of the battleground of Antietam. He had seven sons and one daughter—Jacob, born Aug. 15, 1764; John, born May 20, 1766, died at the age of 96,

in Stark Co., Ohio; Peter, born Jan. 18, 1768; Philip, born Dec. 1, 1770; George (the father of the subject of this sketch), and Henry, his twin brother, born Jan. 10, 1772 (George died Sept. 17, 1847); Adam, born March 15, 1774; Catharine, born Jan 16, 1776; all are dead. The father of our subject married Mary Magdalena Kreitzer, who was also a native of the State of Maryland; they had seven sons and two daughters—Henry, Elias, John, Susannah, Jacob, George, Abraham, William (our subject, born July 16, 1822), and Margaret; William and George are the only two living. The parents sold the old homestead formerly owned by the grandfather, and moved in 1836 to Paint Township, Holmes Co., Ohio, where they resided until their death; in 1852, William moved to Tuscarawas Township, Stark Co., where he resided fifteen years, and, in 1867, removed to Coventry Township, where he remained until in December, 1877, when he came to the city of Akron, where he has since resided. He was married Nov. 7, 1844, to Catharine Moyer, who died about five years later, leaving one daughter, who died May 2, 1873; he was re-married Oct. 24, 1850, to Amanda Cook, daughter of Adam and Regine (Harmon) Cook, natives of Franklin Co., Penn; they had two children—Samantha, born May 6, 1852, now Mrs. W. M. Vandersall, residing near East Liberty; and Uriah, born Nov. 29, 1856, died May 9, 1873. He is a staunch Republican. He received a liberal education, and began teaching school in 1844, which he followed for several terms. He and family are members of the Evangelical Association.

COL. DUDLEY SEWARD, Justice of the Peace, Akron; was born in Utica, N. Y., Jan. 14, 1819. He is a son of T. G. and Elizabeth Seward, and the fifth of a family of nine children. His parents, in 1812, removed to Watertown, N. Y. In 1835, Dudley went to Manchester (same State), where he clerked in a general store some four years, after which he taught school in winter, and worked on the farm in summer, until 1842, when he came to Ohio, and first located in Middlebury, but went to Wadsworth, then to Tallmadge, and finally to Akron. In the fall of 1847, he was appointed Deputy Sheriff, and served five years, when he was elected Sheriff, and served two terms. In April, 1861, he enlisted in the 19th O. V. I., Co. G, of which he was Sergeant. At the end of his

term of three months' service, he, in company with George A. Purington (now Captain in the 9th U. S. C.), recruited Co. A, for the 2d O. C., Purington being Captain, and Mr. Seward First Lieutenant. He remained in the service until October, 1865, and was promoted successively, by regular gradation, to Colonel of the regiment, which position he held when mustered out. He was in the battles of the Wilderness, Rich Mountain, etc., on the Morgan raid, the Wilson raid and in other hard service. Upon his return from the war, he remained two years in Akron, and was assistant clerk in Ohio Senate one term. He was then appointed Captain in 8th U. S. Cavalry, and served in California, Oregon and the Territories; in the regular army four years. In 1871, he returned home, and in 1873, he was elected Justice of the Peace, which office he has held ever since. He was married, Nov. 2, 1848, to Miss Lois Clark, a native of this county. Three children were the fruit of this marriage; two living, Louis D. and Mary C.

DAVID A. SCOTT, machine forger, Akron; was born in Springfield Township, Summit Co., Ohio, Nov. 21, 1812, and is a son of Josiah and Mary J. (Irvin) Scott, who were natives of Pennsylvania and Virginia, and were married in Pennsylvania. In 1811, they moved to Ohio, by team, and settled in Stark Co., in the fall of the same year moving to Springfield, now Summit Co. He was a blacksmith, and followed his trade, in connection with a small farm, on which he located, near Mogadore, where he lived until his death in 1824; she died in 1820. David A. (the subject), lived at home until he was 9 years old, and was then apprenticed to the blacksmith trade, with Mr. Abraham De Haven, of Springfield, and served with him until he became of age. He then went to Middlebury, where he worked at his trade until the fall of 1836. After some time spent at Madison, he went into business for himself, and in 1845 removed to Tallmadge, Summit Co. Four years later, he removed to Akron, and has worked at his trade since, except a few years, when he served as Constable, later as Deputy Sheriff, and, during the war, as Deputy United States Marshal. He held the office of Deputy Sheriff eight years. He was married, Nov. 21, 1838, to Miss Mary Ann Burton, a native of Montgomery Co., N. Y., and a daughter of Smith and Elizabeth (Wilcox) Burton, who

came to Middlebury, Ohio, in 1831. He conducted a sash and blind factory there, it being the first of the kind in the county. Four children were born to him, two of whom are living, viz., George S., merchant in Akron; Lois E., at home. Of the two deceased, William I. was telegraph operator, and died in 1866, and Walter B. was Captain of Co. H, 104th O. V. I., and died in Cincinnati, April 23, 1864. Mr. Scott was an early resident of the county, and often has shot deer and turkeys where Akron now stands.

M. SEIBERLING, Secretary and Superintendent of the Akron Straw Board Company, Middlebury (Sixth Ward), Akron; is a native of Norton Township, Summit Co., Ohio, and was born on his father's farm Jan. 16, 1839, and lived at home until he was 25 years of age. He is the fourth in a family of twelve children, born to Nathan and Catharine (Peters) Seiberling, and received a common-school education. In the spring of 1844, he took the management of a farm and saw-mill he and his brother J. F. had previously purchased, and conducted the business for five years, when he sold to his brother and moved to Canton, where he engaged in the lumber business for three years. He then sold out and came to Akron, and purchased an interest in the Akron Straw Board Company, and was made the Superintendent, and the following year he also took the office of Secretary; both offices he has held since. He was married in the fall of 1863 to Miss Sarah L. Miller, a native of Pennsylvania, and a daughter of John Miller, who came to this county about 1843. By this marriage, there have been nine children, seven of whom are living, viz., Emma, Alton, Katie, Ella, Frederick, Laird and George. Mr. S. has always been a Republican in politics. He is a member of the English Lutheran Church, in the affairs of which he takes an active interest, and has been both Deacon and Elder. In the spring of 1880, he bought a farm of 100 acres, located in Norton Township, about eight miles southwest of the city, which joins the old homestead, and which he operates, hiring the labor.

FRANKLIN G. STIPE, painter, Akron, eldest son of Harrison and Anna (Neutchen) Stipe, of Green Township. He was born at Greentown, Stark Co., April 23, 1846, and when quite small his parents removed to Green Township, Summit Co., where Franklin was

raised and educated. He attended the common schools, and at the age of 14, entered the Seminary at Greensburg, in which institution he received instructions for three or four terms. During the next few years he taught school in various districts of Summit County, teaching during the winter and assisting his father on the farm in the summer. He was a member of the Ohio National Guards during the rebellion, and as such was called into active military duty in 1864, serving from May to September in Co. H, 164th O. V. I. About the year 1866, he removed to Akron, and since that time has been engaged in that city at painting. He was married Sept. 7, 1865, to Soviah Koontz, who was born Nov. 17, 1843. She is the daughter of Jonas and Sarah (France) Koontz. Mr. and Mrs. Stipe are members of the First Methodist Church of Akron. They have four children, —Nora Elnor, Harry Jonas, Mable Lonely and Mattie Maria.

JACOB SNYDER, President of W. S. & Co., and architect, Akron; was born in Columbia Co., Penn., March 12, 1823, and is a son of Jacob and Elizabeth (Miller) Snyder, natives of Eastern Pennsylvania. He was a contractor and builder, and died in Columbia County, in 1849. She died there about 1854. Jacob, the subject, lived at home until 1845, during which time he learned the trade of carpenter and builder, and also received an academic education. In 1845, he entered Dickinson College, at Carlisle, Penn., and remained there three years, taking a general college course, also a theoretical course in architecture. He returned home and for two years engaged in contracting and building and practical architecture. He was married May 21, 1849, to Miss Mary A. Rinehart, a native of Cumberland Co., Penn. He came to Ohio in 1853, and settled in Akron, where he was for a time connected with the grocery trade. About 1855, he engaged in his business of contracting and building and architecture, which he followed until 1870, since which time he has devoted most of his time to architecture. In 1863, he formed a partnership in the lumber manufacturing business, with Messrs. Weary, Wilcox & Jackson; and still continues his interest in the business, most of the time having been President. He has served as a member of Board of Education and as Trustee of Portage Township. Of his marriage there were four children, one of whom is

living, Mrs. B. L. Dodge, of Akron. He was raised a Democrat and adhered to that party until the second election of President Lincoln, since which time he has been a Republican. He has been a member of the Methodist Episcopal Church since 1842, and taken an active part in its affairs. He was Superintendent of the Sabbath school a number of years, and is now a teacher and historian of the same. Mr. S. stands among the first in having contributed to the modern and advanced idea of Sabbath school architecture, and at present his practice in this kind of design extends throughout the State.

HUGO SCHUMACHER, book-keeper, etc., Akron, Ohio; the oldest son of William Schumacher, was born in Saxony, Germany, Jan. 14, 1853; he was 6 years old when he came with his parents to the United States and to Akron; from 1865 to 1868, he attended a private school at Braunschweig, and returned to Akron in the latter year, and entered the mills as packer, until 1871, when he became head book-keeper and cashier for F. Schumacher, a position he has ever since held. In May, 1875, he was married to Miss Amelia Mills, of Akron; they have one son.

DR. WILLIAM SISLER, Akron, is a native of Lycoming Co., Penn., and was born Sept. 12, 1819. He is the sixth child in a family of ten children born to Lewis and Margaret (Marsh) Sisler. They were natives of Pennsylvania, and moved to Erie Co., N. Y., in 1826, and engaged in farming, where he died. Mrs. Sisler continued her residence there until 1850, when she came to Manchester, Ohio, and lived with her children until her death, in 1872. At the age of 21 our subject came to Manchester, Ohio, where he followed teaching and farming. In 1843 he began reading medicine with Dr. Fernando Dalwick, of Canal Fulton, and in 1846 or 1847, he moved to Manchester, Summit Co., Ohio, and began to practice, his graduation at the Medical Department of Western Reserve College having been delayed because of his limited means. Upon the graduation of his brother, in 1852, they formed a partnership which continued until 1873. During the war, he responded to the call of Gov. Tod, and served in the hospitals after the battles of South Mountain and Antietam. In the fall of 1867, he was elected on the Republican ticket Representative from this County, to the State Legislature, and served

one year. Upon coming to Akron, he, in company with his brother-in-law, John F. Hoy, opened a drug store, which was continued until the fall of 1879. During his residence in Akron, the Doctor has not practiced medicine, except to accommodate some of his friends. In the fall of 1875, he was elected County Commissioner, and was re-elected in the fall of 1878. On July 23, 1846, he married Miss L. R. Hoy, a native of Manchester, Summit Co., Ohio, of which place her parents are pioneers. Six children were born, of whom three are living, viz., Mary L., now Mrs. Diehl; Emma, now Mrs. Neiburg, and Henry.

JUDGE NEWELL D. TIBBALS, Akron. Alfred M. Tibbals was born in Granville, Mass., Aug. 4, 1797; he came to Ohio with his father in 1804, and settled at Deerfield, Portage Co., on wild land; here he followed farming until his death, in 1858, being 61 years old; he was a successful farmer, and one of the early and influential members of the Methodist Episcopal Church; he never sought public office. He married, in 1821, Miss Martha Swain, a native of New Jersey, and one among the early settlers of Salem. She was born in 1800, and is still living; she was the mother of five sons, one of whom died at the age of 13; those living are J. Lincoln, a farmer near Kent; Frederick D., a farmer on the old homestead; Curtice S., a farmer in Deerfield, and Newell D., the subject of this sketch, who was born in Deerfield, Portage Co., Ohio, on Sept. 18, 1833, where he remained until he was 17, at which age he entered the McLain's Academy, at Salem, Ohio, from which he graduated in the spring of 1853. In September of that year he came to Akron and entered the law office of Otis & Walcott, where he studied until September, 1855, when he was admitted to the bar at Akron, and at once opened an office, engaging in active practice until 1875, when he was elected Judge of the Court of Common Pleas of the Second Subdivision of the Fourth Judicial District—Summit, Medina and Lorain Counties. To this position he was re-elected in 1880, for five years, to date from May, 1881. In the spring of 1865, he was elected City Solicitor (first), and filled that office two terms, having been influential in securing the present charter for the city of Akron, being employed by the Council to assist Mr. H. W. Ingersoll, Recorder of the incorporated village of Akron

under old charter. In the fall of 1865, he was elected to the State Senate from Summit and Portage Counties; in 1860, he was elected Prosecuting Attorney, and re-elected two years later; in 1870, he participated in the preparation of the charter and other papers for the organization of Buchtel College, and has been a member of its Board of Trustees ever since its organization. He was a member of the City Board of Education, and served as a member of the Ohio National Guards. Oct. 22, 1856, he married Miss Lucy A. Morse, of Akron, Ohio; she bore him three daughters and two sons.

COL. DAVID W. THOMAS, lumber and planing-mill, Akron; a native of Millersburg, Ohio; was born March 9, 1841, and is a son of George and Jane (Wilson) Thomas. His father was mostly brought up in Columbiana Co., Ohio, and at the age of 20 went to Holmes Co., where he was married in about 1840. His wife died in 1842, leaving an only child, David W., the subject, but an infant. In 1845, Mr. Thomas came to Akron, and about the year 1847, married, Miss Mary Caldwell, of Akron, who survives him, and had six children. He died in 1873. Only two of the last family of children are now living—Louisa J., wife of D. A. James, of Akron; Eva, wife of William Picton, of Akron. For some years, Mr. T. did a large contracting business, and added lumber, finally establishing planing-mills on Market street. He built many of the public buildings of Akron; was a member of the Council for several years, and prominently connected with the interests of the city. He was a Free-Soiler and one of the first Republicans; was a member of the Baptist Church and a devoted Christian. David W., the subject, was 4 years of age when his father came to Akron. He here attended school until he was 16 years old, when he went to Tallmadge to learn carriage-making with Oviatt & Sperry, serving an apprenticeship of four years, returning to Akron in February, 1861. In April following, he enlisted in Co. G, of the "old 19th," O. V. I., for three months, under Capt. Lewis P. Buckley, afterward Colonel of the 29th O. V. I. The 19th served in West Virginia until its term expired, and was in the battle of Rich Mountain. In October, 1861, Mr. T. enlisted in Co. H, of the 29th O. V. I. Their first engagement was at Winchester in which they were commanded by Gen. Shields.

He was also at Port Republic, in which his company came out with but fifty men; at Cedar Mountain; Chancellersville, where he was slightly wounded by a fragment of shell, and at Gettysburg. They were next sent to New York to quell the riot there, consequent upon the draft. Upon their return they were sent to the department of the southwest, and were at Wauhatchie and Lookout Mountain. Dec. 10, 1863, the almost entire regiment re-enlisted, and at the expiration of veteran furlough, joined Gen. Sherman in the Atlanta campaign. Mr. T. participated in all the engagements of that stirring period. He was made Sergeant Major, and for a time commanded Co. H, as Orderly Sergeant. At Atlanta he was commissioned First Lieutenant; went with Sherman in his "march to the sea," and, reaching Savannah, he was promoted to Captain, and assigned to Co. A, the post of honor. He was mustered out of the service at Louisville, Ky., June 22, 1865. On his return to Akron he engaged in the lumber and planing-mill business with his father, until 1873, when, upon the death of his father, Charles Miller and son became partners with him, remaining so until 1877, when subject sold out his interest to R. N. Kratz. The firm of Miller & Kratz closed up in 1878, and subject leased the planing-mill and lumber-yard, and conducted the business two years, when he bought it and has since done well in it, employing in the building season from sixty to one hundred men. In 1876, subject was elected Colonel of the 9th O. N. G., which was afterward consolidated with the 8th Regiment, and he was assigned ten full companies; it is one of the best-drilled and appointed regiments in the State. He has been an active member of the G. A. R. since its organization, and at the annual Encampment in 1880, he was elected Department Commander. He was married Sept. 11, 1868, to Miss Alice Hale, a daughter of J. M. Hale, of Akron. They had four children, viz.: George H., James A., Frank and Elizabeth. His wife died Jan. 11, 1880.

ALBERT B. TINKER, Financial Secretary of Buchtel College, Akron; was born Jan. 28, 1852, and is a son of Horace and Sophronia (Skinner) Tinker. He is a native of Portage Co., and was brought up on a farm until 18, when he entered (in 1870) Hiram College, teaching during the winters. In the fall of 1873, he entered Buchtel College, and gradu-

ated in June, 1876, when he retired to the farm, his health being impaired. He taught during the winter until 1878, when he came to Akron, and entered the law office of Green & Marvin, where he studied until 1879, when he was elected Financial Secretary of Buchtel College, a position he has since filled. He was married Dec. 25, 1876, to Miss Georgie Olin, of Windsor, Ashtabula Co., Ohio.

JAMES B. TAPLIN, Akron. In Clermont, N. H., on Aug. 12, 1812, was born to John and Abigail (Sperry) Taplin, the subject of this sketch, whose portrait appears in this work. At the age of 5 years, his parents moved to New Haven, Vt., where he lived three years, at the end of which time, he was taken with them to Franklin Co., N. Y., in which region he lived until about 22 years of age. His youth-time was employed in farming and attending school; the last six months of his school life were passed in the Franklin Academy, at Malone, N. Y. When 20 years of age, he began to learn carpentering, but only worked at that a short time, when he began millwrighting, and followed that in New York State until 1834. In the fall of 1834, he came to Akron, Ohio, partly by canal, and partly on foot; he then worked at carpentering for a short time, but followed millwrighting until 1848, during which time he worked on most of the early mills. In October, 1839, he married Miss Rachel Grandy, of Port Byron, N. Y., who had taught for some time in Akron. In 1840-41, he built a large mill in Constantine, Mich., returning to Akron in July, 1841. In company with G. D. Bates and Chas. Webster, under the firm of G. D. Bates & Co., he started the Globe Foundry at Akron, in 1848, in a small building, and on a small scale. In some two or three years, Bates retired, and the business was continued by the firm of Webster & Taplin, which continued with some changes until 1860, when fire destroyed a portion of the work, and the subject retired; in 1861, the present foundry was built, the firm being Taplin, Rice & Ford, as partnership until 1867, when a stock company was formed, and the business incorporated under the name of Taplin, Rice & Co., which continues. Of his marriage, there are two sons and a daughter, viz., John L., superintendent of machinery department; Chas. G., book-keeper for Standard Oil Co., Cleveland, Ohio, and Ella, who is still at home. In addition to these, there were three children,

two of whom died in infancy, and one son, Jas. F., died at 7. The subject is a member of the Congregational Church, and was a member of the Council.

WILLIAM H. UPSON, attorney, Akron, son of Daniel and Polly (Wright) Upson, was born Jan. 11, 1823, at Worthington, Franklin Co., Ohio, where he lived until his 10th year, when, with his father's family, he moved to Tallmadge Township, this county. At the age of 15, he entered Western Reserve College, Hudson, as a member of the Freshman Class, and graduated from that institution in July, 1842, standing second in his class in scholarship, and delivering the salutatory at its commencement exercises. Directly on leaving college, he began the study of law under the direction of Judge Reuben Hitchcock, of Painesville, Ohio, with whom he remained for the period of two years, when he entered the Law Department of Yale College, where he attended one year. In September, 1845, he was admitted to the bar at Cleveland, and, in January of the following year, began his profession at Akron, where he has continued in successful practice ever since. As general attorney for the Atlantic & Great Western Railway Company (now the N. Y., P. & O. R. R. Co.), and, later, as counsel for its Receiver, his attention for years has been especially directed to railway matters, in the important litigations of which he has been called much into other States, and twice to Europe. In politics he is a Republican. He was elected Prosecuting Attorney of this county in 1848, and served in that capacity two years. He was elected to the State Senate in 1853; to the Forty-first Congress from the Eighteenth District, comprising the counties of Cuyahoga, Summit and Lake (usually called the Cleveland District), in 1868, by a majority of over 6,000, and was re-elected in 1870. He was a member of the Committee on Reconstruction in the Forty-first Congress; Chairman of the Committee on Private Land Claims, in the Forty-second, and a member of the Committees on Elections and Manufactures, in both. He was one of the leaders of the opposition to the measure giving back-pay to members, from its inception. When under cover of a general appropriation bill it was brought before the House for adoption, his moral sense was keen enough to discover at once the wrong sought to be perpetrated, and

securing, by persistent effort, a recognition from the Chair, he denounced it in no uncertain words, and made the motion to strike out the objectionable clause. This was the key-note of opposition to what is known as the "salary grab;" others, recognizing the justice of his position, joined him in that strenuous fight against the measure, that gained for him and them the hearty approval and thanks of an undivided country. The old Eighteenth (Cleveland) District was recognized as one of the most important and influential in the nation. Its wealth, its growing and diversified interests and industries, the character of its people, all combined to make the office of its representative one of peculiar honor, responsibility and influence. The trust reposed in him was so well performed that when, upon the close of his second term, he withdrew from political life, its press and people, without regard to party, gave him the warmest and most gratifying approval. He was a delegate to the National Convention, at Baltimore, which renominated Abraham Lincoln in 1864, and was a delegate at large from Ohio to the Convention at Cincinnati, which nominated Rutherford B. Hayes. He is a member of the Board of Trustees of Western Reserve and Oberlin Colleges, and also of Lake Erie Female Seminary, at Painesville, Ohio. He was first President of the Summit Co. Bar Association, and is now a member of the Executive Committee of the State Bar Association. On May 20, 1856, he married Miss Julia A. Ford, of Akron. They have two sons and two daughters.

P. UPINGTON, harness-maker, Akron; the leading dealer in South Akron in harness, saddles, etc. Came to Akron in 1848, and began at "jour" work; he followed his trade in this way for about one year, and then began business on his own account. He was born March 3, 1821, in County Cork, Ireland; he learned his trade with his father, and received a fair education in his native land. In 1847—the year of the great famine in Ireland—he was one of a committee whose business it was to distribute the donations. In 1848, as before stated, he came to Akron, where, after engaging in business on his own account, he continued it without interruption, except during the war, when he spent a time in the trimming department of Mr. Collins' carriage factory. In 1876, he built the store he now occupies, which is 24 feet frontage

by 55 feet deep, three stories and basement, and located near the corner of Main and Exchange streets; he also owns considerable real estate in different parts of the city. He is a member of the order of A., F. & A. M., and of the following Lodges: Akron Lodge, No. 83; Washington Chapter, No. 25; Akron Council, No. 42; and Akron Commandery, No. 25. He was formerly a member of Massillon Commandery No. 4, and, upon the organization of Akron Commandery, he became one of the charter members.

W. R. UPHAM, boot and shoemaker, Middlebury; was born in Windsor Co., Vt., in 1810, and was brought up on the farm. At the age of 17, he was apprenticed to his trade, and, after completing same, went to Burlington, Vt., where he worked for one year, thence to Rochester, N. Y., remaining there one year, and, in the fall of 1833, came to Akron. In the spring of 1844, he moved to Middlebury, where he has since resided. He worked at shoe-making until 1850, when he went to keeping hotel in the Temperance House; also conducted a livery and feed stable until 1856. He then sold matches for six or seven years, traveling in Ohio, Pennsylvania and Virginia, after which he resumed his trade, and has worked at it ever since. He served as Constable in 1848; was elected Justice of the Peace in 1870, but did not qualify or serve. He was a Whig in politics, and, upon the organization of the Republican party, adopted its principles. He was married, in 1834, to Miss Susan E. Burns, a native of Albany, N. Y., and ten children have been born to them, seven of whom are living—William Potter (lives at Red Wing, Minn.), Almira (Mrs. Robert Vance, also lives at Red Wing), Elizabeth (now Mrs. George Capell, lives in Detroit, Mich.), Ella (Mrs. James Curran, lives in Middlebury), George (Red Wing, Minn.), Charles (lives in Iowa), Walter Potter (lives at home); all are married except George and Walter.

DR. W. J. UNDERWOOD, physician, Akron; was born in Dillsburg, York Co., Penn., March 20, 1840, and is the fourth of five children born to Joseph and Hannah (Wells) Underwood. His parents were natives of Pennsylvania, his father being of Quaker descent and his mother of German. His father was a whip-maker, and followed his trade in Dillsburg until his death in 1842. Mrs. Underwood was subsequently

married again, but is now a widow and living at Wooster, Ohio. Dr. Underwood lived at home until 1860, acquiring such education as the schools of the neighborhood afforded, at the same time teaching during the winters up to the time of his beginning the study of medicine. In 1860, he began reading with Dr. Ira Day, of Mechanicsburg, Penn., and graduated from the Jefferson Medical College in Philadelphia in 1864. In 1862, he went out with the 19th Penn. V. M. as medical officer, and after a short period, the regiment being disbanded, he was assigned to the hospital at Chambersburg as Assistant Surgeon. A month later he was transferred to the hospital at Camp Curtin, where he served about two months, being assigned at the expiration of that time to the 151st Penn. V. I., with which he served as Assistant Surgeon during the term of that regiment's enlistment. Returning from the army, he completed his studies, graduating as noted above. In the spring of 1864, he came to Ohio and began practice in company with Dr. A. Houtz, in Canal Fultou. This partnership was continued for two years, when it was dissolved. After practicing a year by himself, he came to Akron in August, 1867, where he has since been actively engaged in the practice of his profession. Dr. Underwood is a member of the Summit County Medical Society, of the Union Medical Association of Northeastern Ohio, of the Ohio State Medical Society, and of the American Medical Association. In the two first he has served in various official capacities. In December, 1864, he married Miss Harriet, daughter of John J. Shoemaker, Esq., of Harrisburg, Penn.; she died Dec. 9, 1873; three children were born, of whom two only are living—Edward S. and Alfred C. Feb. 28, 1877, he married Mrs. Francis C. Pizzala, of Brooklyn, N. Y. In 1878, Dr. Underwood was appointed Examining Surgeon for Pensions, an office he now holds. He has also served the city of Akron as Councilman.

ALVIN C. VORIS, Brevet Major General United States Volunteers, whose portrait appears in this work, was born in Stark County, Ohio, on the 27th of April, 1827, the eldest of nine brothers and four sisters, children of Peter Voris and Julia (Coe) Voris, all of whom lived to attain manhood and womanhood; the first death among them occurred in the summer of 1864, from starvation, in the Andersonville

rebel prison pen; five of these brothers served in the Union Army in the war of the Great rebellion, three of whom lost their lives by reason of that service, and the other two were badly wounded and will carry to their graves broken down and painful bodies in consequence of these wounds. His father was a Pennsylvanian by birth, and, at the age of 16, with his parents, settled in Stark Co., where he continued to live till the spring of 1834, when he moved into what is now Summit Co., then Portage Co. Peter Voris represented Summit Co. in the General Assembly in 1847-48, was the Whig candidate for the State Senate for the Summit and Portage District in the fall of 1848, but was defeated by a combination of Democrats and Free-Soilers; in 1850, was appointed one of the Associate Judges for his county, and served in that capacity till the office was abolished by the present Constitution. In 1857, he removed to Illinois, where he died in January, 1880, at the age of 81 years. Judge Voris always had the confidence of all who knew him, possessed rare intelligence and purity of character, was public spirited, fearless and outspoken with his convictions, and a most sturdy hater of all kinds of meanness. Gen. Voris says of his father that he never heard him utter an oath or obscene expression, that, not only in manners, but in essence, was he an every-day Christian gentleman. Julia (Coe) Voris was a Connecticut Yankee by birth and education, and possessed great force of character, intelligence and grace of manners, was richly endowed with those womanly qualities that eminently fitted her for society, and the nurture and moral development of her children; she was a most devoted Christian and was universally respected and beloved. The subject of this sketch says of himself that there was nothing remarkable about his birth or early life, except that he was the first baby in the family, but supposes that he was as good and bothersome, as studious and frolicsome, and heedless and playful as boys in general; that he was a good scholar and took his juvenile switchings as complacently as any other of the boys, is not denied. He lived with his parents till after he was 18 years old, when he went from home to school, one year at Twinsburg Institute, and the two following years at Oberlin College, Ohio, taking an elective course, teaching public school, in the winter months, and working

for a couple of hours each day at the shoe bench, in the meantime, to pay for books, tuition and board, for all which he paid as he went along, without being a burden to any one for a cent. In February, 1850, he came to Akron, where he has since resided, and was employed by Auditor Goodhue, in his office, for a few weeks, when he went into the Clerk's office, under L. S. Peck, Esq., where he served for two years as one of his deputies. On the new Constitution going into effect, in February, 1852, Charles G. Ladd, an attorney of the Summit County bar, who had been elected Probate Judge, but by reason of sickness, of which he died in August following, was never able to get to his office personally, appointed young Voris his Deputy Clerk, which place he filled till the decease of Judge Ladd; the entire business of the office was thus thrown upon him; that he opened the office well, and devised proper modes for doing its business and keeping the records, is attested by the fact that they have been since followed, and that he correctly and faithfully acted for some six months as de facto Probate Judge is also attested by the fact that his acts in that behalf have never been legally questioned. During all this time, since he came to Akron, he was a close student of the law, with reference to entering upon its practice, was admitted to the bar in June, 1853, and at once formed a partnership with the late Gen. L. V. Bierce, his law preceptor; this arrangement continued till 1857. As a young lawyer, he was singularly successful, both in getting business to do and in his manner of handling it; with the next term after his admission till the outbreak of the rebellion, he was constantly pitted against the strongest lawyers of the Ohio bar; his great energy, ceaseless industry, courage and thorough preparation of his cases, gave him a recognized standing with the best of them.

Sept. 25, 1853, he married Lydia Allyn, daughter of Israel Allyn, Esq., then residing near Akron, with whom he lived till March 16, 1876, when Mrs. Voris died, after a most painful illness of over four years. She was a most devoted wife and mother, and left three children, Edwin F., who is an attorney and practicing with his father, and two daughters, Lucy A. and Bessie Coe. Edwin has settled down in life, married a wife, and like his father, is zealously engaged in raising a family of children.

In 1859, A. C. Voris was elected to represent his county in the General Assembly, which office he held for two years. In which, as a member of the Judiciary Committee, Chairman of Penitentiary Committee, and several important select committees, he was distinguished for his great industry and practical knowledge, which was also true of every matter in which he engaged. Instead of being a society man, or employing his efforts in mere partisan contests, he directed his attention to the practical business matters before the Legislature, and in which he at once took rank as a leader. He was regarded as one of the ablest men on the floor of the House. He was apt and convincing as a debater, and always ready as a parliamentarian. He was selected Chairman of the Committee of the Whole House when the general appropriation bills were under consideration, because of his sleight at dispatching business, and was complimented with having managed so as to get through in half the time expected to be consumed. Before his legislative term expired, the war of the rebellion broke out. All through the long session of 1861, he took a most decided stand against backing down to the demands of the South, and fearlessly urged resistance to and no compromising with treason or traitors, and fought with all his might, all efforts from whatever source they came, aiming to prostitute the Legislature of the State in the interests of slavery, or the treasonable demands of State Rights as interpreted by the planter States.

In September, 1861, the demand for men became so urgent for the army that he felt it his duty to go to the war himself, and enrolled himself as an enlisted man in the 29th O. V. I., but, without solicitation on his part, Gov. Dennison appointed him a Second Lieutenant for the recruiting service, under which he was mustered into the United States volunteer service on the 2d of October ensuing, for the organization of a regiment, to which he applied himself with such zeal and effect that, in the organization of the 67th Ohio, to which his men were assigned, he was entitled to a Lieutenant Colonelcy of the regiment, and would have gone into the field as its Colonel, if he had said so; but having had no previous military training, he chose to go as its Lieutenant Colonel. His regiment went into the field in Western Virginia, Jan. 19, 1862. He was its chief instruct-

or from the date of its organization, Dec. 18, 1861, drilling and teaching men and officers, at such intervals as active service in the field permitted. On the 16th of March following, he became its commanding officer. On the evening of the 22d of the same month, he took his regiment into its first fight, against a reconnaissance of Stonewall Jackson, before Winchester, Va., which was, in fact, the opening of the first battle of Winchester, one of the most obstinately fought infantry battles of the war, the brigade to which the 67th Ohio was attached being ordered out to repel this attack, which was on our picket lines, to the south of Winchester. Lieut. Col. Voris turned out his command so rapidly that he took the lead of all our troops, and, in one hour from the time he got his orders, was four miles from camp, and pushing the enemy, his being the first Union troops in the fight. He, with his men, held the front the entire night, and kept the advanced position toward the enemy next morning till ordered to support a battery of artillery, which he did under a brisk fire from the enemy's batteries, till the infantry battle opened, when he was directed "to pitch in;" not very definite orders, as the enemy were then three-fourths of a mile off, and extended over a wide front, and mainly obscured by woodland and hills. He led his men at a double-quick, against a terrible fire of shot and shell directly in his front, and right for the point where the infantry fighting appeared to be fiercest, and formed his men immediately to the left of Col. Tyler's brigade, which was lying on the ground in front of a rebel brigade, within point-blank range, the latter being thoroughly protected by a stone-wall fence. Both sides kept up an incessant fusillade of small arms, neither daring to advance on the other, with the advantage all on the side of the enemy. The 67th formed obliquely on the head and front of the wall, and not more than 150 feet from the right flank of the rebel brigade, from which it got a deadly fire, without being able to do much execution in return. He held this position but for a short time, and, not securing the desired results, undertook to place his men so as to deliver an enfilading fire from behind the stone wall. While making this movement, he was shot in the right thigh, getting a very painful though not dangerous wound. The Color Sergeant hesitating, Lieut. Col. Voris seized the colors, and, sup-

ported by two men, under each shoulder, notwithstanding his wound, called on his men to follow him, and, placing them in such position that this wall afforded no protection to the enemy, they opened a most destructive fire upon them. Two or three volleys caused the rebels to waver, when he ordered a charge upon them, which was executed with such impetuosity that the enemy broke in great disorder, and the 67th dashed through their lines with a yell that was plainly heard above the din of the battle. Tyler's brigade soon followed suit, and the whole left wing of Jackson's army was thrown into a disordered retreat. Gen. Voris deservedly thinks this one of the very best public acts of his life. Seeing that the stone wall was as good as a fort for the enemy, and that no decisive movement could be made against them till they were dislodged from it, he, of his own motion, pitched into them on their flank, a movement that was decisive of the only Union victory ever gained over Stonewall Jackson. He was promoted to the colonelcy of his regiment July 18, 1862, and served with it in the most arduous enterprises in Eastern and South-eastern Virginia, till the end of that year. Among the thrilling incidents of the year, he had the ill luck to be shipwrecked, with six companies of the 67th Regiment, off Fortress Monroe, Va., en route to re-enforce Gen. McClellan on the Peninsula. This was described by an eye-witness as follows: "In the middle of the night, the waves tumbled the old barge at a fearful rate, and soon all hands were aroused by the startling cry that the line towing the barge had parted, and that she was going to the bottom. To us on the steamer this was terrible intelligence for half our regiment. Its Lieut. Colonel, Adjt. Girty and several line officers were on the wreck. As the barge broke from the steamer, its rudder was crushed to atoms, leaving the crazy craft entirely at the mercy of the waves. We could see, through the darkness, that the upper deck had broken down, and every indication showed that the craft was really going to pieces. The steamer was swung round as rapidly as possible, to give help. As we passed round, we could see fragments of the wreck floating by. The shrieks of the frightened ones on the barge were truly distressing to us. For a long time, we could get no intelligence that gave us any hope, it being impossible to get near the vessel. Fi-

nally, we heard the clear voice of Col. Voris, giving orders and urging the men to be quiet. He tried to soothe them by saying that 'all would end well, if they would let him boss the concern.' By the way, the Colonel says that bossing that rickety old barge in a storm is worse than fighting Stonewall Jackson. By great exertion, the boys were able to cast the anchor of the barge, and in a little time a hawser was fastened to the wreck, and the steamer came to the rescue. Such a scramble to get off never was seen on dry land. One poor boy, in his overhaste, jumped overboard and was drowned, and five others were severely wounded. Col. V. was the last man to leave the wreck, directing the delivery of his men till all were safe, before he thought of himself. He came on board the steamer in rather an un-officerlike plight, bare-headed, in shirt sleeves, with naught but shirt, pants, vest and shoes in the line of dress; all his other *fi.cens* went with the barge;" and in that undress he reported to Gen. J. A. Dix, the next morning, for new supplies for his men.

In January, 1863, he was transferred with his command to the Department of the South, where he participated in the siege operations before Charleston, S. C., till the close of that year. He commanded his regiment in the disastrous assault on Ft. Wagner, the night of the 18th of July, in which he was very severely wounded, and was sent north in a few days after to nurse his wound. In less than sixty days after he got this wound, he reported back to his command for duty, and shortly after was in the trenches before Charleston.

When the expedition was about to start from Hilton Head to attack Charleston, Col. Voris, with his regiment, was ordered to report for duty to Gov. Saxton, at Beaufort, S. C., to aid him in his civil administration. He did not relish Provost Marshal and other fancy work while a great enterprise was on foot, and went at once to Gen. Hunter, who had command of the department, and inquired of him if he really intended to capture Charleston. Being answered in the affirmative, he told Gen. Hunter that he was making a fatal mistake in leaving his (Voris') regiment out; that there was not a man in the ranks of the 67th Regiment whose pockets were not full of locofoco matches with which to burn the cursed rebel city. Col. Voris carried back in his pockets an order to

join the expedition. The 67th did not go to Beaufort.

In the spring of 1864, he was assigned to duty with his regiment in the movement up James River, Va., against Richmond, under Gen. Butler, and thenceforth was identified with the Army of the James till the close of the war. On the 9th and 10th of May, 1864, with less than 2,000 rifles and eight pieces of artillery, he successfully fought and repulsed confederate Gen. Ransom with four times as large a force, some ten miles below Richmond. In this engagement, he was specially conspicuous for gallantry and ability, and gained a brilliant victory, the first success for Gen. Butler in his advance on the confederate capital. On the night of the 9th, when it became apparent that there would be a renewal of the fight the next morning, and (Col. Voris had sent for re-enforcements) Gen. Gilmore, to whom Col. Voris had sent for re-enforcements, directed his Adjutant General to send him assistance, but not to send them under command of an officer senior in rank to Col. Voris, that he wanted the way left clear for him to fight with the enemy without interference from a superior officer. Gen. A. H. Terry said of this engagement, that if he had 10,000 such men as Col. Voris and the 67th O. V. I., he could take Richmond with them. For this fight Col. Voris was recommended for promotion as Brigadier General of Volunteers; but political reasons in his Congressional district prevented so well-earned advancement. He was then suffering from his Ft. Wagner wound, and was so prostrated by the fatigue and anxiety of the day, that he had to be helped to camp. Again, on the 20th of the same month, he fought the enemy at the Win Bottom Church, on the Bermuda Hundred front, re-taking our picket line, from which our troops had been forced; at the same time taking confederate Gen. Walker prisoner. He still keeps Gen. Walker's sword as a trophy of that affair. The 16th of June following, while in command of the picket line, as general officer of the day, he took the line of rebel works, by which Gen. Butler had been bottled up on the Bermuda Hundred, taking quite a number of prisoners, and several heavy guns in the enterprise.

At Deep Run, on the left bank of the James, below Richmond, in August next, he led the skirmish line in an attack on the enemy's lines, protected by temporary field works, which

were carried with so much impetuosity that the rebels could fire but one volley, but so destructive was it, that one-third of the attacking force was killed and wounded; before they could re-load their pieces, our boys were clubbing them over their heads with the butts of their rifles. In an engagement on the 13th of October ensuing, he commanded a brigade of colored troops; also below Richmond, where he urged his dusky soldiers to remember that now was their time to wipe out many an old score. If what the boys say is true, he told the contrabands to give their old oppressors h—l. Again, on the 27th and 28th of October following, he commanded a brigade of white troops on the Charles City road, in an attack upon the outworks for the protection of Richmond; and in the latter part of the next November, he commanded a division against an attempt of the enemy to turn our flank on the north side of the James. On the 2d of April, 1865, he led the charge on Fort Gregg, Petersburg, Va., and after having been in the ditch of the fort up to his neck in mud and water for nearly half an hour, he climbed up on its walls by the aid of a ladder made by the boys with their guns with bayonets fixed, and thrust into the walls one above the other, being the first Union officer on the fort. This was the last fort taken by storm of the confederate works surrounding Richmond and Petersburg, after being most tenaciously defended, at a loss of fully one-fourth of the garrison in killed. At Appomattox he was in the fight at the last ditch, and got a receipt for that day's work from a fragment of a shell on the left arm. He was breveted a Brigadier General in 1864, and a Major General of Volunteers in the year following, "for distinguished services in the field," as the order appointing him recites.

Upon the close of hostilities, he was assigned to command the politico-military district of South Anna, Va., embracing a territory of triangular form, one angle at Richmond, the other two in the crown of the Blue Ridge, extending each way more than a hundred miles; the duties of which were both of a political and military sort, including the supervision of all that relates to civil and military administration. He was for more than six months as absolute a satrap as ever governed, there being no other governing power except by and through the military, not a single civil, police or political

officer being recognized except by and under the military authorities. The colored people just emancipated had to be especially cared for and protected, all the interests of society looked after and conserved, the prejudices and cruelties of the system of slavery resisted and eradicated, a new system of labor organized, the mutual distrusts of the whites and negroes allayed, and confidence created between the late slave-owners and the freedmen.

He called together both white and colored people at their county seats, and publicly and together kindly tried to instruct them as to their new relations, urging fair dealing, justice and humanity in their future intercourse, and upon terms of impartial equal rights. To protect the late slaves, and especially the infirm, old and little ones from ill-treatment and want, he found it necessary to make and publish orders prohibiting all sorts of personal violence, and turning off such infirm and helpless ones without adequate provision for their present support; and, in default of which provision, he directed adequate assessment to be made and collected by military power. He absolutely put a stop to the devilish practice of flogging colored people, and permitted no penalties to be inflicted on them that were not visited upon white people for like grade of offenses. So considerate was he in the administration of his public duties, that he never had a matter appealed from his orders or decrees to department headquarters during the whole time he was in command of this district, though every class of disputed right came before him, common to community from murder down. His Department Commander said of him that his was the only district in the State that did not make him trouble. Gen. Robert E. Lee was a resident of his district, and under his command for several months after the surrender. The Charlottesville *Daily Chronicle* wrote concerning his administration, when he left the district, that "Gen. Voris has conducted himself in command here in the kindest and most considerate manner, and has shown himself an energetic, faithful and just officer. He leaves with the best wishes of our people." The colored people found in him a most valued friend and protector.

As illustrative of his way of putting things, we narrate the following incidents: When he went first to Charlottesville, Va., to organize for

the civil administration of Albemarle Co., and parol and amnesty those who had been in open rebellion against the United States, he was interviewed by a delegation of citizens as to what relations the freedmen would thenceforth sustain. To whom he replied, that the freed men were citizens of the United States, and, as such, possessed equal rights with all other Virginians; that the General Government would protect them as such; that he would do all in his power to reconcile and harmonize any antagonisms and distresses existing between the two races; but that they would be required to adjust their intercourse with them on terms of reciprocal equality of rights. A fiery planter, not relishing this equality doctrine, spoke up, "I tell ye what it is, if my niggers don't do as I say, I will flog them." Gen. Voris instantly replied, "In that case, if I was your nigger, I would take your life, Sir." The Episcopal Rector of the same place, and afterward a high dignitary in his church, came to him to get indulgence from the military authorities to omit from the prayer of their church service, the President of the United States and all others in authority, etc., alleging, as a reason, that such prayer would be insincere, and that his congregation could not, with their present feeling, join honestly in it. "Let us see," said the General, "Is it because they look upon the President and those in authority as still being enemies?" It being admitted that this was substantially their feeling, he replied, "I am not much of a Christian, and may not appreciate the gravity of the situation, nor do I know how your church people regard the New Testament Scriptures; but if you mean to set them a truly Christian example, I would advise you to do as Christ commanded, 'Love your enemies, and pray for them which despitefully use you and persecute you,' instead of coming to the military authorities to get excused from obeying the commands of Almighty God."

As a soldier he never shirked duty or exposure. He always shared with his men their hardships, dangers and privations, and never asked of them what he would not do himself. So prompt was he in the execution of whatever he had to do that the boys called him "Old Promptly," a name certainly not inappropriately applied. All through the war, in case of sudden danger, he was always first in place for action with his men. His watchfulness

and strict attention to business, caused him to be assigned to the command of his brigade when he was junior colonel in it.

He was greatly beloved by his men, who, at the close of the war, gave him one of the finest presents given to any officer during the war, a magnificent sword, belt and sash, costing nearly a thousand dollars; every man of his old regiment contributing toward its purchase. A leading Ohio daily paper in referring to this present, said: "A worthy gift from one of the best regiments ever mustered into the service to one of the best soldiers that has entered the field." He always saw to it that his men had every thing the commissariat and quartermaster's departments could furnish, and ever stood up for the just rights of every enlisted man; was a strict disciplinarian, requiring exact and prompt performance of duty from men and officers alike. He looked most carefully after the honorable character and standing of every man and officer in his command, not only as soldiers, but as men and American citizens. Not a man under him but felt always free to approach him at all proper times, on terms of pleasant intimacy, nor ever felt that any grievance would be slighted by him, merely because he was a private soldier. He was proud of his men. We quote from his report for the War Department regarding the meritorious part the 67th O. V. I. had taken in the war. After having given the various campaigns and actions in which it had participated, he says: "The good order always observed by the 67th, the fidelity with which it discharged all its duties, and the fortitude with which it met all its vicissitudes, amid shipwreck on the sea, heat, cold and storm by land, and hate in an enemy's country, are worthy of as high place in the archives of the country as its most glorious deeds on the battle-field, than which no regiment can claim more glorious. I cannot close without saying I am proud, PROUD, PROUD of the glorious, triumphant, bully 67th."

We quote the following from the editorial columns of a leading Ohio paper, as showing in what estimation he was held by his superior officers as a soldier: "Every General under whom Voris has served has esteemed him highly as brave and discreet. Gen. Terry, one of his corps commanders, says Col. Voris, in every action in which he has been engaged, has exhibited fine qualities as a soldier, and on sev-

eral occasions has been conspicuous for capacity and courage." The editorial notice of him by the leading Ohio papers are fairly represented by what George A. Benedict, editor of the *Cleveland Herald*, published concerning his record: "Among civilians appointed to the service, not a recipient has proved himself more worthy the trust than Gen. Voris. He has shown industry, perseverance, discretion, talent, and an utter fearlessness of danger." His regiment won a great reputation in the war, much of which was due to the efforts and leadership of Gen. Voris. He is not only a brave man in danger, but possesses that higher order of courage in an eminent degree—the courage of his convictions. He thoroughly believes in the policy of frank, honorable, fair dealing in all things. He was mustered out of the service in December, 1865, after having served in the army fifty and a half months, and then returned to Akron and engaged in the active labors of his profession, but under great difficulties, owing to the disability occasioned by his Fort Wagner wound.

In November, 1873, he submitted to one of the most remarkable surgical operations in the annals of surgery. His wound had apparently healed. The bullet which caused it was cut in two parts on his sword-belt ring, the smaller part lodging in the circular abdominal muscle, and was removed by the surgeon at the time of the injury; the other part passed downward and backward in the abdominal cavity, and lodged on the crown of his bladder and became impacted in the walls of that organ until the fall of 1872, when it penetrated them and became loose within. Up to this time it had been a source of great annoyance and bodily infirmity, the cause not being suspected even by Gen. Voris. Now it became most torturing, giving constant and almost unendurable pain, so much so that his friends supposed he must speedily die. His physicians did not suspect the nature of his disorder till early in the summer of 1873, too late in the season for a desirable operation. He waited, under the advice of his surgeon, until the ensuing fall, when he underwent the lateral operation in lithotomy, by which three-fourths of an Enfield rifle shot was extracted, weighing one and one-eighth ounces. The great wonder is that he ever survived the first effects of this shot, and then that he should carry it over ten years and have

his bladder perforated by it, endure the torture and systematic derangement it caused and not die, to say nothing of the surgical operation. Nothing but pluck and an extraordinary constitution saved him. His surgeons say that he was the coolest and most self-possessed subject they ever witnessed at the operating table. All the years of his life since the 18th of July, 1863, have been weighed down by this injury, the pangs of which are still borne in nerves which never cease to ache.

In the spring of 1873, he was elected a delegate to the late Constitutional Convention, and, though suffering terrible agony from his army wound, much of the time of its session, he took a leading part in its deliberations and was one of its most efficient and influential members. He is an ardent Republican, politically, without being partisan, either in feeling or action, and a distinguished champion of protection to American industry. His late campaign speeches on the protective policy were conceded to be masterly efforts and were widely circulated. As a public speaker he is frank, candid, earnest, eloquent, never abuses, and always addresses his hearers as if they were intelligent and self-respecting. He is invariably listened to with interested attention.

As a lawyer, though his education was not what is strictly denominated liberal, was ample for all the requirements of his chosen profession, especially when it is considered that he was endowed by nature with a most vigorous and exceedingly wiry constitution, and a mind whose vigor, tenacity and comprehensiveness compared admirably with his physical organization. What he lacked of ancient classical erudition was more than compensated by the carefulness and thoroughness with which he had mastered the special science that covered the field of his future professional efforts. It was not long after he came to the bar till he took his position permanently in the foremost rank, composed though it was, of the ablest competitors. Whatever he undertook to do, he did with all his might, mind and strength, utterly fearless, though by no means regardless of the degree and character of the opposition to be encountered. In his arguments to the court upon questions of law, he was always clear, logical and concise. In his addresses to the jury, he was equally clear, systematic, and cogent in his statements of facts deduced from

the evidence, and his own inferences and conclusions therefrom; and in such efforts he often rose to the very highest plane of exalted and refined forensic eloquence. At the commencement of his professional career, he occasionally fell into a style of oratory somewhat too verbose and ornate, and also into action and gesticulation too continuous and violent; but increasing years and experience soon enabled him to excide such objectionable superfluities. In practice, and in his social intercourse with his brethren of the bar, he was always courteous and considerate in regard to the feelings of others, however much heated in debate. He was truthful insomuch that arguments made with him orally could be relied upon as implicitly as if reduced to writing. In his demeanor toward the court, he always recognized its assumed dignity, and accorded corresponding treatment. As to deception, chicanery, and trickery of all sorts, he simply despised them, and he equally despised and condemned every professional *shyster* who practiced or attempted to practice such arts, with a view to thwart the ends of justice.

EDWIN F. VORIS, Akron, only son of Gen. A. C. Voris, was born in Akron, July 31, 1855. He graduated from the High School in 1872, and entered Buchtel College at its opening, graduating June 30, 1875. In the fall of the same year, he entered the Harvard Law School, and graduated in June, 1877, being admitted to the bar at Cleveland, Ohio, in Oct. 8, of that year. June 8, 1878, he went to St. Louis, and the following month was admitted to the bar in Missouri. He practiced and studied with J. M. & C. H. Krum, of St. Louis, until February 1879, when he returned to Akron, and there associated himself with his father, since which time he has continued to practice under the firm name of Voris & Voris. October, 1879, he married Miss Lizzie U. Slade, of Columbus, Ohio.

NICHOLAS EMMONS VANSICKLE, tobacco merchant, Akron; one of seven children, was born in Germantown, N. J., November 10, 1816, to Henry and Mary (Emmons) Vansickle, both of whom were natives of New Jersey. In 1825, they moved to Ithaca, Tompkins Co., N. Y., where the subject of this sketch engaged in farm labor and blacksmithing with his father, walking two miles to school three months per year. In May,

1837, by canal, they moved to Ohio, settling in Bath Township on a farm. After settling in this State, our subject learned to make cloth, and from 1838 to about 1845, with his brother-in-law, Jacob Allen, was engaged in the cloth business, during that period being one of the proprietors of the City Woolen Factory, now occupied as the City Mills. In September, 1844, he married Miss Margaret Mathew, of Akron. Of this union there are two children, Ella (now Mrs. E. R. Grant, of Norton) and Dora (now Mrs. N. H. Bassett, of Cleveland). In 1848, he removed to Bedford, Ohio, where he kept a hotel on the old stage line from Cleveland to Pittsburgh, for a short time, after which he engaged in the railroad business, at which he has been very successful, having built considerable portions of several roads. In 1861, he returned to Akron, and for some years following, was employed in the public works of this place. In 1871, he built twenty miles of the Tuscarawas Valley Railroad. In 1875, he bought his present tobacco store on Market street. He has taken an active part in the Agricultural Society of Summit County, having been a member of the Executive Committee and of the Board of Directors of the same. He was formerly a member of the City Council. He is a staunch Republican, because of which fact he was several times burnt out during the three years he was in Hannibal, Mo. (from 1857 to 1860), the last time at a loss of \$30,000, in railroad contracts and buildings.

H. C. VIELE, County Treasurer, Akron; was born in Washington Co., N. Y., Oct. 29, 1841, and is the second in a family of five children born to Hiram and Abbie M. (McFarland) Viele. He was a native of Pittstown, Rensselaer Co., N. Y., and was born Sept. 5, 1813. His father was a farmer and he was brought up on a farm until he was 20 years old, when he engaged as a clerk in the stove trade business at Rochester, Monroe Co., and two years later he became a partner in the business, in which he continued for five years; he then lived a year in Washington Co., when the family came to Akron (1842), he engaged as a clerk and book-keeper in the Stone Mills and continued there until 1868, when he opened a flour and feed store, in which business he remained until his death, July 25, 1874. He was married to Miss Abbie M. McFarland Oct. 17, 1838.

She is a native of Salem, Washington Co., N. Y. Of their five children, three are living, viz., H. C., Mary I. and Fannie G. Mrs. Viele is living on the old homestead. Our subject received his education in the schools of Akron, and at the age of 16, began clerking in the Stone Mills with his father for eight or nine years. He then became the agent for the Merchants Union Express Co., and after one year he entered the office of the C., Z. & C., now C., Mt. V. & C. R. R., and served two or three years, when he became a partner with his father in the flour and feed business, and after one year he was appointed County Recorder to fill the vacancy of Granville Thorp, deceased. He next served as a clerk in the County Treasurer's office, and continued as such until 1878, when he was elected on the Republican ticket as County Clerk, and was re-elected to the office in 1880. Oct. 16, 1873, he married Miss Libbie F. Maek, a native of New York. They were married at her home, at Flat Bush, Long Island. By the marriage there is one child, viz., Fannie Mack.

GEORGE VIALL, Treasurer Middlebury Clay Co., Akron (Sixth Ward); is a native of Middlebury (Sixth Ward of Akron), and was born March 12, 1834; is the only child of Thomas C. and Mahala (Atwood) Viall, who were natives of Vermont and Connecticut, and when young came to Ohio with their parents. He built a woolen and saw mill in Middlebury which he conducted until his death in 1834. She settled with her parents in Springfield Township, where her father owned 1,000 acres of land. They were married in 1832. After the death of her husband in 1834, she was again married in 1840, to Nathaniel Munson, and in 1845, they moved to New York, but returned about 1850. He was a tanner by trade, and followed the business in Middlebury. He died in New York while on a visit to his relatives about the year 1865. She is still living, and makes her home with her son, Leroy Munson, in Tallmadge Township. George Viall lived at home with his mother until he was 19 years of age, receiving a common-school education. At the age of 19 he engaged in the grocery business at the old forge north of Middlebury. He followed the business some eighteen months, and then sold out and bought a canal-boat, following boating for three summers, when he again embarked in the grocery business in Middlebury, which he continued for three years,

then sold out and opened business in Akron, where he did business three years longer. He then sold out and commenced the manufacture of stoneware in Middlebury, continuing for eight years. He sold out and went into general merchandise in Middlebury, and after nine years again sold out. He was one of the incorporators of the Middlebury Clay Co., of which he is Treasurer, and has also served as Secretary. He has served two terms in the Middlebury Council. He was married Aug. 24, 1857, to Miss Maria Reepsomer, a native of Trumbull Co., Ohio. They have had three children, one of whom is living, viz., Nannie L., also an adopted child, Edward Carl.

JOHN F. VIALL, undertaker, corner Water and River street, Akron; is a native of Chautauqua Co., N. Y.; was born April 30, 1825, and is the fourth of a family of nine children born to Bennett and Wealthy (Arnold) Viall. They were natives of Vermont and Connecticut, and were married in New York, whither he had gone when a young man, and she with her parents. He farmed there until 1832, when he came to Ohio, and settled in Springfield Township, farming there some two years. He then came to Middlebury and took an active interest in a saw and woolen mill, built by himself and brother Thomas, continuing until the latter's death, after which he continued some three years longer. He then went to Wisconsin, where he remained for two years, and then returned to Middlebury, and soon after went to Granger Township, in Medina Co., where he followed farming until his death in 1877, aged 84 years. She died in 1845. He married a second time to Mrs. S. Hinekley, who died about four years after her marriage. A third marriage was to Mrs. Rhoda Baker; she survived him about one month. John F. (the subject) lived at home until he was 22. He learned the cabinet-maker's trade with his brother in Middlebury. After three years his brother died, and himself and brother Eli engaged in the furniture business under the firm of Viall Brothers, and continued about ten years. Subject then sold out and worked for G. W. Barber & Co. twelve years, then worked for Kent & Baldwin, woolen machinery manufacturers, for two years. He then bought an interest in his brother's cabinet-making business, continuing three years, when the firm became Viall & Replogle, the latter succeeding

Eli Viall, and three years later he sold to Mr. Dewey, and about three years after John F. Viall became sole proprietor, and quit the furniture business and followed the undertaking business since. He was married, Nov. 4, 1847, to Miss Cornelia C. Wheeler, a native of Tallmadge Township. They had seven children, five of whom are living—Francis (now Mrs. Obendorf, of Middlebury), Edwin W. (married, and lives in Middlebury), Laura C. (now Mrs. Charles B. Macey, of Middlebury), Arthur G. and Otis live at home.

C. VOGT, carriages, Akron. Though identified with the manufacturing interests of Akron for but a few years, he has already established quite an extensive business. He is the son of John and Susan M. (Seltzer) Vogt, and was born in Rhine Province, Germany, in 1846. In 1852, his people emigrated to the United States and settled in Springfield Township, Summit County. There he worked on his father's farm until he was 15 years old, and then he spent one year in the mines. He began to learn his trade in 1865, after which he spent three years with E. A. Collins as finisher for him. He then spent one year in Tallmadge. In 1874, he began business in Akron on his own account; his capital was small, and competition lively, but with a determination to succeed he pushed along, and in 1880 built this present manufacturing establishment, which is located on the corner of Main and Middlebury streets, South Akron, and is of the following dimensions: 22 feet front by 136 feet deep, three floors, and blacksmithing and trimming-shop in the rear. The ground floor is the wood-working room, the second is used as a repository and office, and the third is devoted to painting and finishing. Mr. Vogt has taken quite an interest in political affairs, though he has been no office-seeker; however, he was pressed into the service so far as to have served four years as a member of the City Council from the Fifth Ward. This was by the courtesy of his Democratic friends. He was married in 1869 to Miss Mary E. McDonald.

JAMES VIALL, Superintendent Hill Sewer Pipe Co., Akron (Sixth Ward); is a native of Akron, Summit Co., Ohio. Was born Jan. 15, 1828, and is the sixth of nine children born to James and Sarah (Hubbard) Viall, natives of Vermont, where they were married, after which they came to Ohio (about 1822) and settled in

Summit Co. Here he followed for a time charcoal burning, and later he became a contractor on the canal. After its completion, he engaged as bridge-builder, and built many of the bridges in this county. He died in February, 1837; his wife lived in the vicinity until her death, in the summer of 1880, at the age of 84 years. James (the subject), lived at home until 22 years of age, receiving but a limited education at the district schools. In 1841, he went on the canal, following the same until 1865, the first two years as driver, and in 1843—then but 15 years old—began as steersman, continuing as such as long as he remained on the canal, running between Pittsburgh and Cleveland. He embarked, in 1865, in the manufacturing of stoneware, buying the business of Wm. Owens, which was located in Springfield Township, and has conducted the same ever since. About the year 1876, he sold a half-interest to George Markle, under the firm name of Viall & Markle. He also became interested, in 1865, with J. B. Woods, in the mining and manufacturing of clay, which he has since continued, and which has been incorporated into the Middlebury Clay Co. In March, 1873, he, in company with Mr. Hill and others, incorporated the Hill Sewer Pipe Co., of which he is Superintendent. He was also engaged for several years, with Moses J. Huggins, in the grocery business in Middlebury, and for a time were the only representatives in that line in the place. He was married, Jan. 29, 1850, to Miss Mary Davis, a native of Middlebury, and daughter of Benjamin and Mary Davis—the former deceased, Mrs. Davis still living with her daughter, aged 86 years. Mr. Viall served as Councilman several terms in Middlebury before its incorporation. He has always been Republican in politics.

W. W. WARNER, abstractor of titles, etc., Akron; was born in Springfield Township, in this county, Feb. 28, 1848, and is the eighth of nine children born to John and Mary (Ettie) Warner. His parents were natives of Connecticut, and came to Ohio about 1839 and settled in Portage Township, Summit Co., Ohio. His father was a worker in iron, and was principally engaged as forgeman after coming to Ohio. Aug. 6, 1863, he was drowned in the Cuyahoga River at Cuyahoga Falls. His mother died Dec. 3, 1859. Mr. Warner lived at home until the death of his father, when he went to live with Mr. Charles Curtiss, working on his farm

for a year, when, Mr. Curtiss selling out, young Warner remained with the purchaser of the farm. After a year, he went East, finishing the education begun in the district schools and those at the "Falls," in the Quaker City Business College of Philadelphia. After an absence of two years, he returned to Cuyahoga Falls and engaged as book-keeper for Hanford & Yeamans, and Hanford Brothers, who succeeded the former. The following year, he came to Akron and served as Deputy Recorder for James A. Lantz, and later, for Mr. Thorp, continuing some two years in all. In 1871, he began the business of preparing abstracts of titles. In 1874, he added the feature of real estate and loan agency to his business, forming a partnership with E. C. Ruggles, under the firm name of Ruggles & Warner. Two years later, the partnership was dissolved, Mr. Warner continuing the business alone to the present. April 15, 1869, he married Miss Annie M. Yeamans, a native of Philadelphia; she died Oct. 27, 18—, leaving two children—Arthur Lee and Harry Albert, who were twins. Oct. 25, 1877, he married Miss Alice G. Littleton, a native of Cleveland. There is one child by this marriage—George Littleton.

AARON WAGONER, Auditor, Akron; was born on his father's farm in Franklin Township, Sept. 19, 1844. His early years were spent on the farm, and in the schools of the neighborhood, until the fall of 1862, when he enlisted in the army, joining Company B, 6th O. V. C. Soon after his enlistment, he was appointed Corporal, and later, a Sergeant, finally reaching the rank of Second Lieutenant in command of the company. He was mustered out as Second Lieutenant in 1865. This regiment was with Sheridan in the Potomac Army, took part in the battle of the Wilderness, on the raid to Richmond, at Appouattox Court House, and all the engagements of the army. At Aldie he was wounded, and for several months was disabled for active service. Returning from the army, he came to Akron and engaged as salesman in the dry goods establishment of Overholser, Keller & Co. After serving in this capacity for some eighteen months, he engaged as their book-keeper, continuing for four and a half years, when the firm dissolved. In 1872, he entered the City Bank as Teller, continuing there until 1880. In the fall of this year, he was elected on the Republican ticket as Auditor,

entering upon his duties in the following November. April 30, 1868, he married Miss Amanda Smith, a native of Summit County; by the marriage there have been born two children, viz.: Mabel Blanche and George Edward.

DR. JOHN WEIMER, physician, Akron; is a native of Alsace, France, and was born Aug. 23, 1813. His father was a farmer. Our subject received an academic course of study, and at the age of 19 set out for America. On his arrival he felt the necessity of being able to speak the language of the new land. He engaged his services to a Yankee family, with whom he remained several months; then entered a store in Buffalo, N. Y., as clerk, and after about three months, while in Ohio on business, he met Dr. Underwood, of Baltimore, Stark Co., and arranged with him to read medicine, under his instructions, which he began to do in the latter part of the year 1832; two years later, he read one year at Canton with Dr. Breisacher, and in April of 1836, he began to practice at Uniontown. In 1847, he removed to Akron, where he has practiced since. The Doctor is a member of the Summit County Medical Society. In September, 1839, he married Miss Catharine Christy, a native of Springfield Township, Summit Co., Ohio. She died in January, 1875. There were four children and but one is living, viz., Mrs Valentine Hay, of Somerset Co., Penn. Dec. 25, 1879, he married Miss Mary C. Miller, a native of Stark Co., Ohio.

CHARLES WEBSTER, President of the Webster, Camp & Lane Machine Company, Akron, was born in Litchfield, Connecticut, Sept. 3, 1810, and is a son of Samuel H. and Elizabeth (Knowles) Webster, natives of Hartford, Conn. When Charles was 3 years old his parents removed to Hartford, where they lived some twenty-three years. His education was confined to a limited attendance at the district schools. At the age of 16, he (subject) was bound to the carpenter's trade until of age. After this he worked one year in a manufactory of window blinds. He then followed his trade until 1835, having established his residence in Massachusetts. He was married, April 30, 1833, to Miss Martha A. Atherton, a descendant of the Rev. Hope Atherton, who came over in the Mayflower. The fruit of this marriage was eight children, but one of whom is now living—Isabella, Mrs. Gage, of Akron. In

1835, Mr. W. came to Ohio with his family in a one-horse wagon, in company with Charles Merriman and family. They left Dalton, Mass., May 5, 1835, and were fifteen days on the journey, arriving at Matteson on the 20th. He worked for a time on a hotel for Mr. Merriman, after which he visited Akron, settling on a tract of land belonging to Merriman. He built a cabin on it, but the following spring he moved to the then village of Akron, where he has ever since resided. He worked at his trade, and at millwrighting until 1848, when on the 15th of May, in company with G. D. Bates and James Taplin, he formed a partnership under the firm name of G. D. Bates & Co., which continued until 1869, when a stock company was formed, of which Mr. Webster is President. Their business is the building of stationary engines and boilers, and mining, milling and pottery machinery, also of general machine work. Mr. Webster has been identified with this business ever since its establishment in 1848. When he came to Ohio, he was in very limited circumstances, and has accumulated his means by his own industry.

T. G. WILLIAMS, of Williams & Abbott, stoves, tinware, etc., Middlebury (Sixth Ward); was born in Durham, England, May 2, 1843. In 1846, his parents, Rev. Michael and Mary (Wilkinson) Williams, came to America, and resided successively in New York City, Paterson, N. J., Johnstown, Penn., Alexandria, Ind., Pittsburgh, Penn., New Castle, Penn., when they remained at the latter place several years. While there the subject went to Johnstown and learned the tinner's trade, and, at the beginning of the late war, enlisted in Co. K, (Johnstown Zouaves) 3d Penn. V. I.; served three months, when the command re-enlisted for three years, and again, at the close of the term, as veterans. In the first enlistment for three years, his command became Co. A, 54th Penn. V. I. In the re-enlistment as veterans, Mr. Williams was commissioned as First Lieutenant of his company. He participated in the battles of the first Bull Run, Petersburg, New Market, Lynchburg, Winchester, Antietam, Cedar Creek, Fisher's Hill, at Appomattox, and all other engagements of his command. He was in the army from the first battle of Bull Run to the surrender at Appomattox; was wounded twice in the battle of Lynchburg, and was confined some two weeks in hospital, when he re-

joined his regiment; was again wounded at Winchester, but kept with his command rather than go into a hospital. His regiment was taken prisoners a few days before the surrender, and were afterward paroled. They were in full view when the surrender took place. He was discharged at Harrisburg, and afterward came to Ohio, his father being on a circuit at the time in Twinsburg Township, Summit Co. T. G. (subject), lived in Twinsburg, and, about 1866, went to Cleveland and worked at his trade, serving as foreman of Parrish & Knight's shop for four years. He then engaged in business for himself at Atwater, Portage Co., and one year later came to Middlebury, where he engaged in business and has since lived. He was married, in 1878, to Miss Julia A. Koon, a native of Springfield Township. By this marriage they have three children, viz., Maud D., May and Archibald. His parents came to Ohio from Pennsylvania, and his father has preached in Ohio since, until recently. He and his wife now live at New Philadelphia, Ohio, retired.

S. C. WILLIAMSON, Probate Judge, Akron; was born in Randolph, Portage Co., Ohio, Aug. 18, 1837, and resided there until 1854, when he entered the preparatory school at Hudson, Ohio, and, in 1860, graduated from the Western Reserve College. In the spring of 1861, he enlisted in Co. G., 19th O. V. I., and served three months, when he re-enlisted (October, 1861) in the 18th U. S. I. He was appointed Sergeant, and served in this capacity until the battle of Stone River, where he was wounded and was confined to the hospital for three months. After a leave of absence of several months, having been promoted to the rank of Second Lieutenant, he was assigned to duty at Detroit and Grand Rapids as mustering and disbursing officer, and subsequently was promoted to the rank of First Lieutenant, and, in 1864, he was ordered before the Retiring Board at Wilmington, Del., and retired with the rank of First Lieutenant, and was next ordered to Missouri on duty in the Provost Marshal General's Department, serving as assistant until the closing of the office; he was then assigned to duty as Post Adjutant and Inspecting Officer at Benton Barracks, and later, at Fort Leavenworth, Kan., as Assistant Commissioner of Musters, where he served until January, 1867, when he was commis-

sioned Captain of the 42d U. S. I., and was stationed with the regiment at Hart's Island and Madison Barracks, N. Y., until the consolidation of his regiment with the 6th at Fort Gibson, Indian Territory, where he was placed on waiting orders, and resumed the reading of law with Tibbals & McKinney, completing a course interrupted by the war, and was admitted to the bar in 1870, and began practice in company with F. S. Hanford, and after a year or two practiced alone. In the fall of 1875, he was elected Probate Judge on the Republican ticket, and was re-elected in 1878.

J. H. WISE, deceased, was a native of Green Township, Summit Co., Ohio. He was born March 24, 1821. His father, George H. Wise, was a merchant of Greentown. Our subject was raised in his native township Dec. 14, 1853. He married Miss Catharine Middlekauff, a native of Hagerstown, Washington Co., Md. At the time of the marriage, and for five years thereafter, he was engaged in the mercantile business in Greentown, with his brother-in-law. In 1858, he sold out his interest in the business and came to Akron, superintending the farm he had bought just north of the city. In 1861, he engaged as agent for the United States Express Company at Akron, and continued in that employ for four years, and next clerked in the Buckeye Works; he was interested in and became Secretary and Treasurer of the Akron Straw Board Company, but sold his interest after one year, after which he served as assignee for a number of concerns. By the marriage, there were three children, all since deceased. Their son, W. W., was Quartermaster of Co. L, 2d O. V. I., and died in the service of his country at Ft. Scott, Kan. Mr. Wise died March 30, 1877. Mrs. Wise has continued her residence in the old homestead in Akron.

ANDREW WILSON,* a descendant of a family of martyrs. The late Andrew Wilson, of Stow Corners, was a man of sterling worth and integrity, withal a just man in all his relations. He was born Oct. 23, 1799, at Acworth, N. H., and as he was known to state, he lived during the life-time of Washington, Washington dying the 14th of December, 1799. Mr. Wilson, with his father's family, moved from Acworth, N. H., to Guernsey Co., Ohio, in 1815, in an ox-wagon, driving their stock before them.

*Akron Beacon.

Their nearest neighbor was three miles distant, and they were obliged, on one occasion, to carry a fire-brand the three miles to start a fire. He left his father's home in the wilderness, bought his time until he became of age, and came to Cleveland, Ohio, in 1819, and was employed with Judge Kingsbury in the grading of the streets around the public square, and in clearing the forests in the county roads, when Cleveland was but a hamlet with but a score of houses. On two occasions he returned to New Hampshire, walking all the way there and back again to Cleveland in mid-winter. He considered the soil of no consequence, which he could have purchased at \$3 per acre, in the heart of the town, but instead purchased a large farm a few miles east, in Warrensville, paying more for it—believing it to be the best investment—where he resided for forty-two years, cleared off the native forest, built buildings, and made a beautiful home. He held many offices of trust and honor. He married in 1829, Miss Lurancy Thomas, of Hudson, formerly from York State, and reared a family of eleven children, of whom eight survive him. In 1866, he sold his farm, and located at Stow Corners, Summit Co., where he resided to the time of his death. His was a family of noble lineage. As far back as 1606, the family of John Wilson and many others in Scotland were Presbyterians and come-outers from the Church of England, and were subjected to many martyrdoms and persecutions for religion's sake. It is related of the family that there was a grandmother and granddaughter, both by the name of Margaret Wilson, who were bound to stakes at low water tide in the sea, and were permitted to perish at high tide with others who would not recant, and thus died in their faith. The name Margaret has been perpetuated, in commemoration, in each generation down to the present. The family subsequently emigrated to Londonderry, Ireland, and from there to this country, in 1718, and located with others in New Hampshire, and named the town Londonderry, after the city of their adoption in Ireland. In William Cullen Bryant's recent history of the United States, page 138, Vol. III, we quote the narrative of their history. He says:

“The emigration of some Scotch Presbyterians to New Hampshire, in 1718, while Shute was Governor, was of much importance. The people who undertook to better their condition in America, were

descendants of the colonists who had been transferred by James the First to the North of Ireland, where their condition, from penal laws against Protestants and from local taxation, had become intolerable. Arrived first in Boston, they dispersed in various directions; but sixteen of the families holding together, settled upon lands a few miles north-east of Haverhill, in New Hampshire. The disputed title of the land gave them some trouble, but under the Governor's protection they remained upon the spot of their choice, and, being joined from time to time by other families, they called their place Londonderry in 1722. Their minister, MacGregor, informed Gov. Shute how offensive it was to them to be confounded with the Irish, against whom they had fought always in the defense of Protestantism; but the New Hampshire people were jealous of the new-comers, who went into quiet possession of the soil at a time when their own lands were threatened with litigation. The Presbyterians did the province the good service of introducing the manufacture of linen by the spinning-wheel and the cultivation of the potato. The vegetable was first planted at Andover, whose inhabitants began by boiling the balls instead of the bulbs, wondering when the result was served up at their simple tables, that a potato was considered an esculent. The prosperity attending the new colonists led other people to petition for grants of land."

Andrew Wilson's grandfathers, for six generations in direct descent, were named John Wilson. His own grandfather, John Wilson, was an original settler at Londonderry, N. H., and his own father was a triplet, and was so small that he was placed in a quart cup at birth, but subsequently grew to be a very large man, and was known as "Big John Wilson," to distinguish him from another family, who were known as "Little Wilsons." "Big John Wilson's" family consisted of twenty-one children, all living to grow up and meet together at one time. Andrew Wilson was one of the oldest sons. The family descendants are now numbered by the hundreds, and are scattered from New Hampshire to Oregon. He lived a serene and happy life, and died at the ripe old age of 81 years and 2 months, Dec. 23, 1880. He was a staunch Whig and Republican in politics during life. In later years a member of the Disciples' Church where he resided. His wife passed on before him in 1856 to the reward of a faithful life. Some years later, Mr Wilson married for the second time, Mrs. Nancy Lindsey, a sister of his first wife, who survives him." Andrew Wilson's children were: first, Harriet, who married Austin B. Burdick, and resides at Grand Rapids, Mich.; Nancy W., married Lansford W. Perry, of the lumber firm

of Woods, Perry & Co., Cleveland, Ohio; the first son, Emery, died in infancy; Julie E., married William H. Hower, junior partner of the firm of Hower & Son, dry goods, Cleveland, Ohio; died Aug. 25, 1871, aged 37 years, leaving one child, a daughter, Birdie B. Hower; Andrew J., farmer and blacksmith, a soldier for three years, on the Union side in the great rebellion; married Miss Laurie Lindsay, and resides on his farm in Stow. Hiram V. resides in Cleveland, and is a member of the lumber firm of Fisher, Wilson & Co.; married Miss Alma Fisher. Abbie A., married E. C. Simpson, Chief of the Akron Fire Department (see biography); also connected as foreman of the machine department of the Buckeye Mower & Reaper Works, and resides in Akron. John W. was accidentally killed by the fall of a tree at his home, then in Warrensville, Ohio, at the age of 15 years; Solon N., lumber dealer at Akron, where he resides (see biography); Mary Z., married Daniel Tuttle, and resides at Grass Valley, Cal.; Mattie L., married Harpin A. Botsford, a brother of Solon N. Wilson's first wife; resides at Cleveland, Ohio.

JOHN J. WAGONER, President Wadsworth, and Manager Franklin Coal Company, Akron; was born in Franklin Township, Summit Co., Ohio, Dec. 17, 1832, and is the fifth child in a family of nine children, born to George and his second wife Rebecca (Sowers) Wagoner. They were natives of Cumberland and Lancaster Counties, Penn. George Wagoner was a farmer. He came to Ohio in 1812, and settled near Canal Fulton, in Stark Co., where he lived about four years, during which time he lost his first wife. Her maiden name was Sarah Rhodes. By the marriage, there were four children. In 1816, he came to Franklin Township, where he bought some wild land, which he improved, and lived upon until his death, on April 23, 1873. The deceased was a member of the Lutheran Church, in the affairs of which he took an active interest. He served his township as Treasurer for sixteen consecutive years; was well known and respected by all. Mrs. Wagoner, his second wife, survives him. She is living on the old homestead, and is now (1881) past 77. She is a daughter of Henry Sowers, Sr., who settled in Franklin Township about the year 1814. He was a blacksmith, and followed his trade in Manchester. John J. Wagoner received a common-school course of study. At the age of 19, he

began teaching in East Liberty, and the following spring he came to Akron, where he engaged as a clerk with J. D. & J. M. Edson, with whom he remained until 1855, when he formed a partnership with John Sisler, and conducted a general merchandise business at Manchester, this county, until 1862, when he sold his interest and returned to Akron, where, in the following October, he engaged in the mercantile business with Mr. Jacob Wise, and later became first a partner, and, upon the formation of a stock company, the Secretary and Treasurer of the J. F. Seiberling Company, of Akron, manufacturers of the Excelsior Reapers and Mowers, which position he held until 1874, when he withdrew, and purchased an interest in the Wadsworth Coal Company, of which he became President. In February, 1880, his son, C. F. Wagoner, purchased the Franklin Coal Mine, of which his father is General Manager. Nov. 8, 1855, he married Miss Catharine Weaver, a native of Franklin Township. By the marriage, there are two children, viz., Charles F. and Carrie May.

S. N. WILSON, lumber dealer and contractor, Akron; was born in Cuyahoga Co., Ohio, Oct. 19, 1843, and is the sixth of eight children born to Andrew and Lurancy (Thomas) Wilson. Our subject was brought up on the farm. He received an academic course of study; also attended one year at Oberlin, which place he left to enlist in the 150th O. V. I., in which command he served about four months, and was at Washington, D. C., when attacked by the rebel Gen. Early. He returned home from the army, and took the management of the home farm, owning a place on becoming of age, when he went to Kent, and conducted the lumber business three years. He then came to Akron, where he has conducted the business since. Jan. 15, 1868, he married Miss Alice E. Botsord, a native of Middlebury, now Akron, Ohio. She died Jan. 14, 1870. June 20, 1872, he married Miss Nannie C. Albertson, a native of Millersburg, Ohio. They have three children, viz., Lena L., Ralph B. and Ross A.

B. F. WHEELER, grain buyer, Akron; was born in Salem, Mass., June 9, 1808, and is a son of Oliver and Hannah (Ashby) Wheeler, who were natives of New Hampshire and Massachusetts, and were married in Salem. He removed to Rochester, N. Y., about the year 1817, and, some ten years later, to Cattaraugus

Co., where he engaged in cabinet manufacture, in connection with his trade of millwright, and lived there until his death, in about 1856. Mrs. Wheeler then removed to Akron, Ohio, and lived with her son, B. F. Wheeler, until her death, in 1865. Our subject lived at home eleven years; he then went into a drug store for two years, after which he went to Rochester and clerked in a dry goods store for six years. He then returned to Cattaraugus Co., and worked at the cabinet business for a time. He was married, July 11, 1829, to Miss Eliza Miles, a native of Vermont, and, in 1836, he moved with his family to Ohio, and settled at Franklin Mills, now Kent, Portage Co. In the spring of 1840, he moved to Akron, and worked at painting several years, and then engaged in the grocery business, being the second in that line in the place. He was located where the Empire House now stands, and followed the business some ten years. After clerking for his son-in-law a few years, he went into the grain trade. During the war, he bought and shipped grain, and, after its close, he engaged as buyer for Mr. F. Schumacher, and has continued in that capacity ever since. Mr. Wheeler was formerly a Democrat, and, upon the enactment of the Fugitive Slave Law, he became a Free-Soiler, then a Whig, and finally a Republican, upon the organization of that party. His wife died in 1844; she was the mother of five children, three of whom are now living—Sarah, Mrs. John Starr, of Akron; Julia, Mrs. M. Simpson, of Michigan, and Henry F. Mr. W. was again married, October 30, 1845, to Miss Catharine F. Butts, a native of Columbiana Co., Ohio. Three children is the result of this marriage—Ollie L., now Mrs. W. H. Thompson, of Meadville, Penn.; Minnie E., now Mrs. M. R. Hayne, of Akron, and Harry E., of Akron. In 1851, Mr. W. joined Summit Lodge, No. 50, I. O. O. F., and has been an active member ever since; has been Permanent Secretary of his Lodge for the past fifteen years. He is a Past Grand and a Past Patriarch, and was Representative to Grand Encampment three times. He has been an active worker in the temperance cause for over half a century, and was the first man in "old Cattaraugus" to attempt to raise a house without the use of liquor.

JOHN WILLSON, livery, feed and sale stable, Middlebury; is a native of Staffordshire, En-

gland, and was born Nov. 15, 1834. He lived at home, engaged in different kinds of labor, until he was 23 years of age. His education was wholly original, never having attended school a day in his life, except Sabbath school. At 23, he began, in a small way, trading in green groceries at his house, and also using a wagon in same business, which he continued several years, when he went to work in a brick-yard, and, in 1862, he came to America, to accomplish which he borrowed one-half of his passage money. He landed in Quebec, Canada, and soon located in Toronto, where, for a time, he worked as a hostler. He then went to Meadville, Penn., and worked on the Broad Gauge Railroad, and, in the summer of 1863, came to Akron, where he has since lived. He first commenced work in the potteries by the day, and afterward began teaming; next ran an omnibus for awhile, and finally engaged in his present business. In the summer of 1880, his stable was burned, and, the following fall, he erected his present brick stable, 1125 Market street, which is 35x100 feet, and two stories high. He keeps from nine to twelve horses in livery, and six at teaming and jobbing. In the summer of 1849, he was married to Miss Esther M. Cooper, a native of Staffordshire, England. There have been nine children, six of whom are living—Henry, Elizabeth (now Mrs. James White, of Akron.) George, Albert Edward and Francis. Mr. Wilson has always been Republican in politics.

ALANSON WORK, Vice President of Akron Rubber Works, Akron. Alanson Work, Sr., was a native of Connecticut, and moved to Illinois. He was one among the first of the Anti-slavery men. He was imprisoned, in 1841, for helping slaves to escape, the sentence being for twelve years, but he was pardoned out after three years, and with one George Thompson, went as a missionary to Africa. Alanson Work, Jr., was born at Quincy, Ill. on March 1, 1842, and when he was about 5 years old his parents moved to Middletown, Conn., thence to Hartford, where he attended public schools until he was 17, spending one year in Trinity College. When 19, he was employed in the Metropolitan Bank of New York, and continued seven years. In 1868, he moved to Cincinnati, Ohio, and, as partner in the firm of Chamberlain, Gibbs & Co., engaged in building rail-

road bridges and railroads, for two years, and when he went to Rhode Island and took a contract to rebuild the bridges on the Providence & Wooster Railroad, putting up fourteen double track bridges in about one year. Next he took charge of a fire engine manufactory, at Providence, R. I. He was Superintendent of the Allen Fire Department Supply Co. for five years, and during that time took out several patents on fire engine supplies, one now adopted by the United States, being Work's Patent Coupling. January 1, 1879, he became Vice President and Superintendent of the Akron Rubber Works, where he has since been employed. He was married, in 1865, to Miss Henrietta Lane, of Brooklyn, L. I. She bore him seven children.

JOHN WOLF, merchant, Akron. Christopher Wolf, physician, a native of Bavaria, was the father of John Wolf, and died three years after the birth of our subject, leaving him with no means other than such as his own ingenuity might invent. John was born in Town Selb, Bavaria, Jan. 25, 1837. He attended German schools until he was 14 years of age. In 1851, he came to the United States, reaching Aurora, Ind., in December; at this place he clerked in a store until 1853, in September of which year he came to Akron, and here clerked nine years, two of them with G. T. McCurdy, and seven for M. W. Henry. In 1862, he became a partner in the firm of M. W. Henry & Co., which partnership continued seven years; he sold out in 1869. In the spring of 1870, he became a member of the firm of Wolf, Church & Beck, in the Academy of Music building, remaining there five years, when they moved to their present place, and have since done a large wholesale and retail dry goods and notion business. Oct. 25, 1864, he married Miss Anna Howe, of Akron, daughter of Richard Howe, one of the pioneers of Akron. He is a Director of the Savings & Loan Association, and was one of the members of the firm of Taplin, Rice & Co., and a director and stock-holder in the same.

WILLIAM WATERS, foreman puddling department Akron rolling-mill, Akron; son of John and Ann (William) Waters; was born in Monmouthshire, South Wales, Dec. 27, 1823. At 14, he entered a rolling-mill as helper in the British Iron Works of Monmouthshire, and worked at different places as puddler. In 1846, he came to the United States, and located

at Troy, N. Y., where he worked in a rolling-mill some three years, and then came to Pomeroy. Meigs Co., Ohio, and was employed in the same manner four years. He then moved to New Castle, Penn., remaining until 1860, and moved thence to Niles, Trumbull Co., Ohio, until 1864, returning to New Castle, remaining until 1867, in each of these places being employed in rolling mills. In April, 1867, he came to Akron, and, at the opening of the mills here engaged as puddler, until December, 1869, when he was made foreman of that department, a position he still retains, having now about ninety men in his department. Oct. 3, 1843, he married Miss Ann Rodrick, of Monmouthshire, South Wales. He has eight children living, viz., Eliza, Thomas, Lewis, Ann, Mary, Kate, John and James. He has been a member of the M. E. Church for twenty years.

LORENZO D. WATTERS, lawyer, Akron, son of Hiram and Elizabeth (Croninger) Waters, was born Oct. 4, 1855, in Carroll, Fairfield Co., Ohio. When he was 14 years old, his parents came to Akron, where he attended public schools until 1872, when he entered Buchtel College, at its opening, remaining until 1875, when he spent one year with his father in the construction of a mill. In the spring of 1877, he entered the law office of J. J. Hall, for the purpose of studying the profession, and was admitted to the bar March 17, 1879, when he at once formed a partnership with Mr. Hall, and has since been in active practice under the firm name of Hall & Watters. He is one of Akron's best lawyers.

JAMES WILDES, Akron; son of Patrick and Mary (Gough) Wildes was born in Kinderhook, N. Y., Dec. 25, 1838. His parents were born near Dublin, Ireland; when James was but a child they came to Portage Co., near Ravenna. Patrick was Superintendent of the Pennsylvania & Ohio Canal from Breakneck to the junction of the Ohio Canal at Lock 1, and for about four years James assisted him, after which he went to California by the Panama route, and remained about four years. He worked in the gold mines for some time, and afterward in the copper mines of Calaveras Co. He returned by water route in July, 1864, and located with his father on a fruit farm in Berrien Co., Mich., near St. Joseph, remaining a year, after which he came to Kent and entered the employ of the Atlantic & Great Western

Railroad Company as fireman and mechanic. In 1868, he left that position and came to Akron, where he laid the track of the Brewster Railroad, reaching from Main street to the mines of Coventry Township, a distance of some five miles. He remained in the employ of Brewster & Sons as manager and engineer for ten years. In 1878, he opened a coal office on Mill street, where he was located until 1879, when he became the agent for O. S. Jacobs, dealer in coal, and has since continued, doing a large business. November, 1864, he married Miss Lizzie Callahan, of Tallmadge, Ohio, and there are two sons and two daughters of their marriage. He was elected Street Commissioner of Akron in April, 1881, by a large majority.

GEORGE I. WRIGHT, lawyer, Akron, is a son of James Wright and was born Aug. 29, 1849 in Suffield Township, Portage Co. His father was a native of England, and in 1821, when 9 years old, came with his parents to the United States, and in 1832 they settled in Springfield Township; he was a Justice of the Peace, and was successively farmer, saw-miller, etc., in Lucas Co., Ohio. He bought a place on North Hill in about 1865, where the family now reside, on Tallmadge avenue. He died in November, 1876 and was an enthusiastic Republican. In the winter of 1870, subject entered Alleghany College, at Meadville, Penn., from which he graduated in 1874, with the first honors of his class. He was three years Superintendent of Chagrin Falls schools, when he removed to Meadville, Penn., remaining there until the summer of 1880, when he returned and became the law student of N. Hodge. In August, 1875, he was married to Miss M. A. Williams, daughter of Prof. S. D. Williams, of Meadville, Penn. They have two sons.

GEORGE W. WEEKS, of the firm of Baldwin & Weeks, Akron, a son of Leavitt and Celestia (Taylor) Weeks, was born Nov. 24, 1831, in Wadsworth Township, Medina Co., Ohio. In June, 1832, the family removed to a farm in Copley Township of this county, where his youth was spent, and where he attended the common and select schools of the time. His mother died when he was 17, and the family was broken up. At 18, subject went to Iowa and worked on a farm near Burlington until 1854, when he went to the "gold diggings" near Georgetown, Cal., by way of Panama.

He returned the next year, by the same route, to Copley Township, and engaged in farming. In 1864, he moved to the village of Copley Center and taught school for a time. In 1866, he leased a farm in the vicinity, and operated it until 1873, when he came to Akron and assumed the office of County Clerk, to which he had been elected the year previous. He filled the office six years. Feb. 4, 1880, he became a partner in the firm of Baldwin & Weeks, doing a large business in furniture, undertaking and upholstery. He was married in February, 1856, to Miss Mary A. Coon, of Copley Township. They have six children living—Vira E., George W., Jr., Leavitt A., Olic M., Irving H. and John L. Mr. W.'s father, Leavitt Weeks, was born in 1792, and when a child, the family removed to Vermont, where they followed farming until about 1819, when he came to Wadsworth Township. There were three brothers—Moody, Peter and Leavitt; the two latter were carpenters. Leavitt married Celestia Taylor, a native of Connecticut, and died in Michigan in 1866. They had ten children—Darius died at Middlebury in 1879; Cyrus, a farmer near Des Moines, Iowa; Mandred F., is sheep-raiser in Sandwich Islands; our subject; Rossney M., oil producer at Bradford, Penn.; Martha, wife of late Mr. Ford, at Santa Barbara, Cal.; Mary, wife of M. L. Warner, of Cuyahoga Co.; Harrison, a farmer in Copley; Peter, a grain merchant at Beason, Ill.; Henry, at same place.

HORTON WRIGHT, Akron. Horton, son of Chester and Abigail (Davis) Wright, was born at Elyria, Ohio, Sept. 22, 1825. The greater portion of his youth was passed in Cleveland, to which city the family removed in 1836, Peninsula, Summit Co. and Ft. Wayne, Ind., having in the meantime, been places of residence. Remaining here for a period of thirteen years, occupied for the most part in attending school, working at the printer's trade, and in the grocery business. He removed, in 1849, to Columbus, and in 1850, accepted a position at Cincinnati as tuner in a musical instrument factory. In this business he remained until 1875, being employed successively by H. B. Horton & Co, Akron; Child & Bishop, Cleveland, and the successors of the firm of H. B. Horton & Co., of Akron, and as a general piano tuner. At the last-named date (1875), he became Librarian of the Akron Public Library,

which position he now holds. With the exception of two years' residence in the West he has lived in Akron continuously since 1862. In November 1856, he was married in Columbus to Miss Susan W. Baker, daughter of Edward Baker, of Akron, and has two sons, John B. and Charles B., both of whom reside at home.

GEN. THOMAS F. WILDES, Lawyer, Akron; son of Patrick and Mary (Gough) Wildes, both of whom were natives of Balbriggan, near Dublin, Ireland, where they were married. They came to Montreal, Canada, in 1832, where they lived until 1839, when they removed to Ohio and settled on a farm near Ravenna. Mr. Wildes died there in January 1877, and his wife in November, 1875. Three sons were born to them, viz., Thomas F. (the subject), John C., who enlisted in Co. A., 4th Michigan Cavalry, and died in Murfreesboro Hospital, April 2, 1863 from wounds and typhoid fever; and James, a coal dealer of Akron. Thomas F. Wildes, the subject of these notes, was born near Montreal, Canada West, June 1, 1834. He came with his father's family to Portage Co., Ohio, in 1839, and remained there on a farm until he was 17 years of age, when he left home with an education limited to reading and writing, and for several years worked for farmers near Ravenna during the summer, and went to school in the winter time. He attended the Twinsburg Academy, and also an Academy at Marlboro, Stark Co., Ohio, and still later, 1857 and 1858, spent two years at Wittenburg College, Springfield. He became Superintendent of the Wooster Graded School during the years 1859 and 1860. He purchased the Athens, Ohio, *Messenger*, of which he became editor and owner on the 1st of January, 1861, and remained in charge of it until August 1862, when he relinquished it to become Lieutenant Colonel of the 116th O. V. I. He was almost constantly in command of this regiment or its brigade, until February, 1865, when he was promoted to Colonel of the 186th O. V. I. The 116th was in twenty-eight battles, and according to the report of the War Department made in 1855, it stood fourth among Ohio regiments in point of number of men and officers killed in action, and sixth in these regards and number of men who died of disease. In all these engagements, Gen. Wildes was in command of the regiment or of the brigade to which it was attached. He was wounded several times during the war;

some of these wounds were so serious, that he has not yet recovered from their effects. One of these wounds was received at the battle of Cedar Creek, when "Sheridan was twenty miles away," and in which Gen. Wildes commanded his brigade. He got off his horse, bound up the wound, which was in the thigh, with his handkerchief, and then returned to his saddle and there remained until the battle ended. His brigade was the only one of Crook's corps which remained unbroken when the Confederate Gen. Gordon struck and flanked it that memorable morning. This brigade was composed of the 116th, 123d Ohio, 34th Massachusetts and battalion of the 5th New York heavy artillery—the battalion being captured on the picket line. The three regiments stuck together through that awful flank-fire, made four separate charges during the day, and at night camped in their old quarters. This was the only brigade in the corps that saved its camp equipage and stores from the disaster of the early morning, and it was done by hard fighting. For his gallant conduct in this battle, Col. Wildes was commissioned Brevet Brigadier General. In February preceeding this promotion, he was made Colonel of the 186th, as already stated, and was sent with it to Chattanooga, where, in command of a brigade he served until the close of the war. September 18, 1865, he was mustered out, having been in the service over three years, the larger portion of the time as Brigade Commander in the Army of West Virginia, the Army of the James and the Army of the Tennessee. Upon leaving the army, he turned his attention to the law, and on the 2d of April, 1866, he graduated from the Law Department of the Cincinnati University, and was simultaneously admitted to the bar. He entered upon the practice of his profession at Athens, Ohio, where he resided until 1872, when he removed to Akron, and has been an active practitioner in the courts of Summit and surrounding counties ever since. In 1866, he was a candidate before the Republican State Convention, and lacked but three votes of a nomination for Secretary of State. He was also prominently mentioned for the same office in 1880, but declined the candidacy. He is an able lawyer, a pleasing speaker, an enthusiastic advocate and an energetic worker in political campaigns.

RICHARD B. WALKER, Akron. Aaron

Walker was born in Belchertown, Hampshire Co., Mass., as was also Miss Submit Clark, whom he married. They were the parents of ten children, of whom but one was a daughter. In 1850, they removed to Illinois, where they died. Richard B. was born to them in Belchertown, Mass., Aug. 11, 1825; he was the seventh of their nine sons. In January, 1852, he married and came to Akron, previous to which time he had been engaged in mercantile pursuits. After his arrival here he purchased a stock of agricultural implements which he sold at retail, it being the first store of the kind in Akron. Connecting this with hardware he did a thriving business until 1862, in which year he was employed by Aultman, Miller, & Co., as traveling salesman for Northern Ohio. As at that time there were but few of the now popular "Buckeye" machines in his assigned territory, he was successful in effecting great sales. Owing to their superiority over the mowers and reapers he had previously sold, he devoted his time exclusively to them from 1858. It required a great deal of labor to introduce the first machines; when set up ready for action, there was always a great crowd of spectators, anxiously awaiting its movements. In the winter of 1858-59 he purchased one hundred of them, and, in spite of the frost, sold ninety-seven. From that time the business has been constantly and rapidly increasing. At one time there were many competitors, but the number is lessened now; each year he has conducted numerous field trials and has done the active outside work. In 1859, the "Buckeye" won a \$10-prize offered to the machine among the best then made that would most quickly mow a half-acre of land. In January, 1852, our subject married Miss Mary E. Jennie, of Ware, Mass.; they have four sons, viz., William, a book-keeper at Cleveland, Ohio; George R., a lawyer at Chicago; Charles, also a book-keeper at Cleveland, and Arthur H., a student at Williams College. He is a member of the Congregational Church.

ADAM E. WALKUP, painter and grainer, Akron; born in Van Buren Co., Iowa, June 28, 1847, to David and Elizabeth (Brower) Walkup. The Browers are of old Holland Dutch extraction and heirs of the famous Anneke-Jans-Bogardus estate now in litigation. The subject of this brief sketch is the youngest of three sons; four daughters younger composing the family.

At the death of his mother in 1856, he went to live with a man by the name of John Clark, who resided in Decatur Co., Iowa, with whom he lived until his 19th year, learning carding and spinning, which he subsequently followed in different parts of Iowa and Illinois, until in the year 1869. In the year 1868, while working at the mills in Warsaw, Ill., he was caught in a pair of steel cog-wheels, which tore the flesh from the bone of his right leg, from the knee to the ankle, making a very painful wound, which laid him up for a considerable time; also at Burlington, Iowa, he narrowly escaped death by being accidentally caught in machinery. His father, with the two oldest sons, fought nobly in the late war, and, after a second marriage, moved to Nebraska, where he is now living. In 1870, the subject of this sketch came to Millersburg, Ohio, where he engaged in his present occupation, and in the spring of 1871, came to Akron, where he was married the following November to Susie Henry, daughter of William and Susan (Evans) Henry, residents of Green Township, this county. By this marriage there have been born three sons—William Edmond, born Jan. 2, 1874; Royal Andrew, Jan. 3, 1876; Orvil Stephen, June 22, 1878. They are members of the Evangelical Association, and he is a stanch Republican.

HENRY YOUNG, son of Daniel and Anna M. Young, was born in Wiltshire, England, Feb. 22, 1831, and was but a babe when the family came to the United States, settling in Wayne Co., Ohio. There the father had preceded them, and had rented a mill three miles from Wooster. He operated several mills in Wayne and Richland Cos. until his death in 1845. The subject of this sketch worked on a farm until he was 18 years old, when he learned the

cabinet trade at Millersburg, Ohio, with one Isaac Harpster, serving three years. He worked at La Grange, South Bend and Logansport, Ind., returning to Millersburg in 1854, where he opened a cabinet-shop, and carried on business until 1864. He then came to Akron, and at the opening of the Buckeye works entered as a wood machinist. In October, 1867, he was made foreman of the wood-work department, which position he still retains, having over a hundred men under his supervision. Mr. Young is a member of the Congregational Church, is a Democrat in politics, and has been in past years, and is now, a member of the School Board for the Second Ward. On the 30th of May, 1854, he married Miss Elizabeth C. Justice, of Millersburg, Ohio. Their only child is Robert J., of Akron.

ROBERT J. YOUNG was born at Millersburg, Ohio, on the 1st day of 1855, and came to Akron with his parents at the age of 10. He graduated from the Akron High School in the summer of 1871; entered Western Reserve College in the fall of 1872, where he remained two years, and completed his collegiate course at the University of Michigan, being a member of the class of 1876, of which he was class-day orator. Having studied law for a time in the office of Hon. Wm. H. Upson, he went to Toledo where he served as city editor of the *Daily Commercial* until the summer of 1878. Returning then to Akron, he resumed his law reading, and was admitted to the bar in June, 1879. Since that date, he has practiced in the city, first as junior member of the firm of Hodge & Young, afterward alone. On the 28th of June, 1877, he was married to Miss Ida Mount, of Ann Arbor, Mich., who died at Akron on Jan. 30, 1881.

PORTAGE TOWNSHIP.

JOSEPH BABB, farmer : P. O. Akron ; was born May 4, 1820, in Berks Co., Penn. His father's name was David Babb ; his mother's, Susan (Marks) Babb. The grandfather's name was Mathias ; he was a native of Germany. He had three sons, David, Samuel and John ; he had also three daughters. The eldest son was the father of the subject of this sketch. The mother of Joseph Babb had eleven children. Joseph came to Osnaburg, Stark Co., Ohio, about 1825, and stayed two or three years, and then came to Springfield Township where he resided until 1859, when he moved to Portage Township where he still lives. The father of Joseph was a cabinet-maker. He had eleven children born, seven of whom reached maturity—Catharine, Sarah, Polly, Susan, David, Samuel, Joseph. The last mentioned started out in life at the age of 14, binding himself to H. G. Weaver (subsequently a Representative from Summit Co.) for three years. The terms of the bond were six months' schooling, board and clothing, and 80 acres of Government land. At the expiration of the three years, Joseph took the value of the land in cash, preferring it to the real estate. He continued in the employment of Mr. Weaver for two years at \$130 a year, and one summer at \$12 a month. He then went to Stark Co., and worked for his brother David three years, at an average of \$128 a year. After this, he rented the farm of Mr. Weaver and purchased a threshing machine at the same time, the two he ran for three years. His was the first cleaning machine in Summit Co. Mr. Babb subsequently went into the pottery business in Springfield, in the Purdy Pottery, which he managed for two years. He then hired the Purdy farm in Mogadore, working it for four years. After the expiration of that time, he returned to Stark Co., Lake Township, and purchased a farm and saw-mill, which he owned for four years, when he disposed of it and came to Portage Township, this county, where he finally settled down, having bought 260 acres in the extreme northeast corner of the township upon which he continues

to reside. The land cost him \$28 an acre and is now worth \$100. Mr. Babb was married March 25, 1847, to Elizabeth Wise. His wife was born July 30, 1822, in Stark Co. She was the eldest child of George H. Wise. The family of Mr. Babb consists of five sons and one daughter, their names are Jacob M., George W., Amelia M., the wife of Horace Camp ; Wm. W., Frank N. and Edwin. The father began in Portage comparatively poor, but by thrift and economy has acquired a competence. In politics, he is a Republican ; in religion, he is skeptical.

HARRISON BAUCHMAN, farmer and dairyman ; P. O. Akron ; was born in Lehigh Co., Penn., Oct. 15, 1833 ; the son of Theobald and Mary Ann (Wilhelm) Bauchman, who moved to Norton Township during the spring of 1835 and settled upon a farm of 160 acres which they purchased from a Mr. Parly ; the Bauchman family afterward removed to Springfield Township, and finally into Coventry, where Theobald died in February, 1866 ; Mrs. Bauchman died in August, 1872. At the age of 14, Harrison was employed by his elder brother, who farmed their father's land in Norton Township, and continued with him until he attained his majority ; he then worked for other parties some twelve months ; when about 22 years of age, he purchased a threshing machine, which he ran for several seasons ; for the next seven years, he was employed by John R. Buchtel on the farm now owned by Mr. Bauchman, which he purchased from his employer some sixteen years ago ; he bought 75 acres of Buchtel and 15 of another man, sold 34 acres, and has at the present time 56 acres. Mr. Bauchman has been engaged in the dairy business for many years ; his establishment, which stands second to none of its kind in the county, is conducted upon a system adopted by the proprietor after years of experience ; at the present time, he keeps over forty cows, and these are mostly of the Jersey grade. June 6, 1867, he was married to Miss Amanda Richards, daughter of William Richards, of Akron ; their

present residence, built during the summer of 1875, is one of the largest farmhouses in Summit Co., and so neat and tasty in appearance that it would be an ornament to the city if located in the finest quarter of Akron.

CHARLES W. BAUER, farmer; P. O. Akron; the subject of this sketch was born in Northampton Co., Penn., Nov. 22, 1836; he was the son of Charles and Saloma (Miller) Bauer, who moved to Summit Co. in 1842, and purchased in Norton Township 140 acres of land, which tract was occupied by the Bauer family for over twenty-five years, and owned by Mr. Bauer at the time of his death, in October, 1876; his wife is still living in Norton Township. Charles W. Bauer was educated in the common schools of Norton, and, for two terms, he attended the Western Star Normal School; he worked for his father until 23 years of age; was married May 26, 1860, to Miss Mary Serfass, daughter of Andrew and Sarah (Hawk) Serfass; then worked for his father-in-law for two years. In 1862, he removed to Berrien Co., Mich., and resided there nine months; then returned to Norton Center, and for about three years, worked at coopering; the next five years he farmed in Norton Township, first renting 100 acres of land belonging to Jacob Wise, and then 160 acres of David Baughman; about the year 1873, he rented the Dodge farm in Portage Township, continuing on this land four years; then purchased 73 acres some three miles west of Akron, which he occupied three years. In the spring of 1880, he returned to the Dodge farm, upon which he is now located, managing at the present time this tract of 380 acres and his own farm. For the past six years he has been engaged in the dairy business, which he conducts very successfully on an extensive scale. He has always been a Democrat and voted the ticket "straight" at State elections; at other times supports the best men. Mr. and Mrs. Bauer are members of the Lutheran Church, at Loyal Oak. They are the parents of five children, all living—Hiram Elmore, Albert Franklin, Erving Wellington, Artie Monroe and Viola Jane.

EDWARD A. BARBER, farmer; P. O. Akron; was born in Genesee Co. (now Wyoming) N. Y., Dec. 30, 1826; son of Jared B. and Electia (Turner) Barber, who were both born in Connecticut. Jared B. on Feb. 1, 1793, and Electia June 29, 1799; they were married at

Wales, Erie Co., N. Y., Dec. 25, 1815. Electia Turner was the daughter of Jacob and Phæbe (Spencer) Turner, early settlers of what is now Buffalo, N. Y.; Phæbe died Oct. 11, 1811, and was buried in the woods, and the site of her grave is now in the heart of Buffalo; Jacob died Nov. 3, 1820. Jared B. Barber was a soldier for a short time during the war of 1812, and his wife drew a pension from the Government for several years previous to her death. They removed to Ohio in July, 1831, and settled in Norton Township, then Medina County; after two years, the Barber family removed to Copley and purchased 66 acres of land from Gad Bronson; they remained here some fifteen years, then returned to Norton Township for a short time, and, finally, settled on a small piece of land in Portage Township, where Jared B. died April 17, 1854; Electia his wife died March 29, 1881. They were the parents of three children—Jane, now Mrs. Dennison Pettibone, a resident of Akron; Spencer T. enlisted in the 13th Mich., V. I., during the rebellion and died in the service; Edward A., the youngest child and subject of this sketch, was four years of age when his parents removed to Ohio; he received a common-school education and worked on his father's farm until 22 years of age; then removed to Indiana where he remained some six months. He returned to Ohio and purchased, with his brother Spencer, the 66 acres in Copley belonging to their father; this tract was too small for both to farm and Edward A. sold his interest to Spencer, and shortly afterward bought a small piece of land in Portage, to which he has added since then other real estate, and now owns about 40 acres. After returning from Indiana, Edward A. worked at the stonemason's trade for five years; then learned the carpenter's trade and followed this for over twenty years in Akron, working both in the city and in the country; he is at the present time engaged in farming; was married May 17, 1851, to Miss Caroline Derthick, daughter of Corydon and Fannie (Judd) Derthick, of Copley Township; she was born Oct. 6, 1831; they have one daughter, Florence, who was married Sept. 4, 1871, to Levi Monosmith. Mr. and Mrs. Barber and daughter are members of the Disciples' Church of Akron. Mr. Barber has served for two terms as Assessor of Portage Township.

SOLOMON BARE, retired farmer and gar-

deney; P. O. Akron; born in Berks Co., Penn., May 28, 1814; son of John Adam and Susan (Knoehr) Bare, who resided in Berks County, some eighteen miles from Reading, until the year 1833, when they removed to Niagara Co., N. Y. John Adam was always a farmer; he afterward returned to Pennsylvania, and died in Mercer County about the year 1863; his wife died many years previous. Solomon received a knowledge of the common branches in the schools of Berks County; he worked at farming until about 32 years of age, then learned the trade of a boat-builder, and was employed by Lyman A. Spaulding, of Lockport, for several years, after which he followed this trade a short time in Erie, Penn., and Cleveland, Ohio. About the year 1853, he removed to Summit County, and for some three years worked at the carpenter's trade; then worked at Wadsworth, Medina Co., for six months, then removed to Norton Township, where he continued in the hotel business many years; was located first at Bates' Corners, then at Johnson's Corners and removing to Bates' Corners. While in Norton Township he purchased his present property near Akron, paying \$100 per acre for 20 acres, and removed to this land in October, 1864, where he has since resided. He was engaged for many years raising small vegetables for the Akron market, which proved a very lucrative business. In later years, he laid out upon his land two additions to the city of Akron, and a street between them has been named Bare street in his honor; this land has been much improved by the proprietor, who has erected several houses upon various lots, but a portion has been sold by him at the rate of \$1,200 an acre. Mr. Bare started out in life as a poor boy, but, by industry and good management, he has secured a competency. He was married first to Miss Eliza Lindsey, daughter of George W. Lindsey; by her he had two children—Thomas J., the eldest enlisted in the 29th O. V. I., during the rebellion, and was killed at Rocky Face; the youngest, Frances Louisa, is now Mrs. Thomas Rawlins, of Akron; Mr. Bare's first wife died, and he was married to Mrs. Mary Baughman, daughter of Abraham Burgey; by her Mr. Bare had three children—Isabella and Ida, who now reside with their father, and William Henry, who died aged 4. Some two years since, he was married a third time to Miss Caroline Hartman,

daughter of Peter Hartman. Mr. and Mrs. Bare are members of Grace Reformed Church of Akron. Mr. Bare has always been a Democrat, but, during the war, gave his support to the Union party, voting for Brough in 1863, and Lincoln in 1864.

SMITH BUNKER, farmer; P. O. Akron; is a native of the Green Mountain State. His parents were Dodavah and Rebecca (Hall) Bunker. Dodavah was born in Barnstead Co., N. H., and Rebecca, at old Hartford, Conn. They were married at the latter place, and moved to Huntingdon, Chittenden Co., Vt., where Smith was born, March 9, 1818. The Bunker family settled in Norton Township in 1834, where they remained one year; then removed to the Dodge farm, in Portage Township, and after five years, to Bates' Corners, Norton Township, where Mrs. Bunker died. Her husband then moved to Berrien Co., Mich., and died there about 1845, at the age of 83. Smith was educated in the common schools of Vermont, receiving instruction at a school three miles from his home. When about 18 years of age, he purchased a threshing-machine, in partnership with his brother Abraham. This was an old style machine, being only a thresher, and it was necessary to separate the wheat from the straw with a rake. After one year, Abraham removed to Michigan, and Smith continued the business alone for nearly ten years. He then worked at Gale's furnace, in Akron, for twelve months, and was employed on the farm owned by Mr. Gale's heirs for two years; then for several years worked for various parties in Copley and Portage Townships. About the year 1856, he purchased from Horace May 26 acres of the farm he now occupies, trading for it 40 acres near Loudonville, Ohio. He afterward bought 31 acres from James Lyon, and now owns 57 acres. When the Bunker family first settled on this land, in 1856, the country in the immediate vicinity was very wild, in consequence of the condition of Copley Swamp, which has since been drained; at that time, Mr. Bunker could from his door-step shoot wild turkeys, and he reports that once he killed four at one shot. The swamp was in those days a favorite "roost" for wild pigeons, and several settlers in the immediate vicinity state that occasionally the pigeons would fly so thickly to and from the swamp that they could not see the sun for an hour. Mr. Bunker was married, April 21,

1849, to Miss Mary Ann, daughter of John and Rosannah (Ritchie) Sherbondy. She was born Jan. 23, 1832; they are the parents of ten children—Alfred T., now of Keokuk, Iowa, and married to Ella Tremble; Rosa, now Mrs. Jason Bunker; Sarah, died, aged nearly 3; Lurinda, died, aged nearly 2; Ophelia, Ella, Oscar, Elmer, William and Homer.

ROYAL BROCKWAY, farmer; P. O. Akron. This gentleman is a native of Broome Co., N.Y., where he was born Feb. 1, 1815; when about 4 years of age, his parents moved to Tioga Co., remaining there some ten years. In the fall of 1830, they settled in Medina Co., Ohio, residing in Wadsworth Township for three years, and after 1833, in Norton Township. Royal's parents were William and Rhoda (Taylor) Brockway; they had four sons, who removed to Medina Co. with them—Almeron, died while a resident of Sharon; Royal, of Portage Township; William, now of Sharon; Lesley, died in 1855; the father died in 1860, aged 84, and Rhoda, his wife, 1867. Royal was educated in the schools of New York State and Medina Co.; worked on his father's farm until he attained his majority; removed to Indiana, where he was married, July 3, 1838, to Miss Susan E. Hall, who was born and raised in Perry Co., Ind.; she was the daughter of Presley and Nancy (Anderson) Hall. Royal remained in Indiana some twelve months, working at the carpenter's trade; then farmed his father's land in Norton Township one year; he returned to Indiana, and remained three years. In 1845, he bought 80 acres of land in Copley Township, which he occupied until 1853, when he left for California, remaining there three years, during which time he mined, kept boarding-house and worked as a carpenter and joiner; his wife was with him in California. They returned to Ohio in 1856, and two years afterward, on April 11, 1858, he left for Pike's Peak; while crossing the plains to Denver, he had charge of the company to which he was attached. Mr. Brockway relates many interesting incidents which occurred during his life on the border, and of which he had a personal knowledge. After six months, he returned to Summit Co., where he has since resided. He farmed in Copley Township until November, 1864, when he removed to Portage, having sold his land in Copley. Mr. Brockway owns at the present time, 247 acres in Portage, which he

purchased in 1860. For some years he has been engaged in the dairy business, and was for three years connected with a cheese factory, during which time he kept from 45 to 75 cows; he afterward made cheese on his own farm for a short time. Royal has served as Trustee of Copley Township; was chosen Captain of a "squirrel-hunter" company during the rebellion. Mr. and Mrs. Brockway are members of the Universalist Church, of Akron; they are the parents of two children—Rice W., born Dec. 18, 1842, and Royal, born April 1, 1856. Rice was a member of the 104th Regiment O. V. I., and served during the war; he was married, March 30, 1865, to Adeline S. Thompson, and they have one child—Linus. Royal, Jr., is a boiler-maker, and resides in Akron; he was married, Jan. 3, 1875, to Caroline P. Stoskopf, and they have one son—Lyle.

ROYAL BAIRD, farmer; P. O. Akron; is a native of New England, born at Grafton, Windham Co., Vt., Sept. 17, 1806, the son of Abijah and Abigail (Stickney) Baird. The Stickneys have been a prominent and influential family of New England and the United States for many years; the following descent is taken from a printed genealogy, now in Mr. Baird's possession: William Stickney, of Frampton, England, was baptized Dec. 30, 1558; his son William was baptized Sept. 6, 1592; Samuel, his son, was born in England 1633, and shortly afterward they emigrated to America; William, son of Samuel, was born Jan. 27, 1674; his son William, Oct. 14, 1704 or 1705; his son William, April 3, 1743, and his daughter Abigail, March 6, 1770; she was married, June 25, 1793, to Abijah Baird, who was born, June 25, 1767; they were the parents of ten children, as follows: Abijah, Franklin, Ebenezer, Abigail, Esther, Ira, Royal, Louisa, Celia Arvilla and Josiah Dana. Abijah died at Bridgewater in 1844; his wife, April 28, 1847. Royal, subject of this sketch, came to Ohio in the fall of 1833; a short time afterward, purchased 113 acres in Copley Township; he returned to Boston, where he engaged in business until 1836, when he settled on his farm, but for some seven years he remained in Philadelphia the greater portion of each year, where he was employed. In the spring of 1850, he left for California, and stayed in the gold regions two years; since then he has been a farmer and stock-dealer; he owns at the present time 161

acres in Copley and 68 in Portage Township; was married May 9, 1836; he is the father of one child, Gusta Minerva; she was born Feb. 8, 1837, and married Zachariah R. Prentice, of Portage Township; they have two children, Burton C., born Feb. 5, 1874, and Hubert Hayes, born Aug. 22, 1876. Mrs. Baird was born June 12, 1820; she is a grand-daughter of Mrs. Elizabeth Winslow, who married Joseph Hawkins, May 20, 1784; they settled in Vermont when that State was comparatively new, and suffered many hardships. Joseph was born in Providence, R. I., Nov. 3, 1760; was a soldier during the Revolutionary war, and a captive for three years in a British prison; removed with his two sons and three daughters to Ohio, in 1833, and died Nov. 17, 1848; his wife died May 6, 1829; their daughter Susan married Caleb Casewell, who died in 1826; Susan died February, 1862; they were the parents of Mrs. Royal Baird.

SIMON BONFIRE, farmer; P. O. Akron; was born in Germany in 1842, the son of John Bonfire, who came to this country when Simon was 6 months old, and settled in Portage Township, in what is styled "Chuckery," where he engaged at his trade of shoemaker. August, 1861, Simon enlisted in Co. E, 115th O. V. I., and served three years as a soldier, earning an honorable discharge. On Jan. 17, 1866, he married Maria Wise, who was born March 4, 1840. For six years he worked in the Buckeye shops, but since has been engaged in farming; he has good property in the township; he had one child, Ermie E., who died at the age of 7, of diphtheria. Mr. Bonfire votes the Republican ticket.

A. L. CALDWELL, farmer; P. O. Akron; was born Jan. 13, 1838, near Logansport, Ind. His parents were Tarleton and Julia (Vrooman) Caldwell. Tarleton Caldwell was born in Virginia, near Clarksburg, about the year 1816. His ancestors were natives of Ireland, who, coming to America, settled in Virginia. Tarleton came West with his parents when a mere youth, settling in Indiana, where he was married to Miss Vrooman, who was born in Schoharie Co., N. Y. The Vroomans are of German stock. Our subject moved with his parents to Missouri; stayed nine years, then went to California, in 1849, and engaged in mining, where the elder Caldwell still resides (Lower California). Ten children were born them, who were

Abner, William, Marion, George, Charles, John, Jerome, Hugh, Ida and Dora, five of whom are now living. Abner engaged in mining with his father. In 1860, he returned to the Buckeye State. April 2, married Mary Pitkin, who was born in 1843, in Fulton Co., Ill., daughter of Judge Stephen Pitkin, who married Julia Lusk, daughter of Amos Lusk, one of the early pioneers in the county. After his marriage, Mr. Caldwell returned to California, where he remained until 1865. He has since been a resident of the township, and has been engaged in farming. He was for some time employed as clerk previous to the time he located on his farm, consisting of 70 acres, on Tract 3.

JAMES COURTNEY (deceased); was born in 1816, in County Kerry, Ireland; son of Patrick and Mary McCarthy Gallee, who had eleven children born them—Daniel, John, James, Francis, Jerry, Thomas, Patrick, Mary, Abigail, Margaret and James. James was married in Ireland to Mary Harrity, and by her had one son—James, who was killed in the late war, having served all through the rebellion. He was a member of Co. A, 1st Regiment, and was in the artillery—a true and valiant soldier, and was killed while manning his gun, in 1864. Mr. Courtney emigrated to this country in 1840. He came to Akron, where he worked for several years as a common laborer. Having no means when he came to this country, was glad to get work for any price, 50 cents per day being the price paid at first, yet he succeeded in saving sufficient means to enable him to purchase 30 acres of unimproved land, which he cleared up. In 1864, he moved to the north part of the township, purchasing 100 acres. His wife died in 1853. In September, 1861, he married Mrs. Julia Hogan, who was born Feb. 2, 1825, in Kilkenny, Ireland, daughter of Stephen and Mary (Welch) Bergen. Mr. Courtney died Feb. 19, 1878. He was esteemed by all who knew him as a good neighbor and an upright citizen. He was a successful business man, having secured all his property by his own industry. Mrs. Courtney was first married to Patrick Hogan, in April, 1845, and came to America the same year of their marriage, landing in New York. Mr. Hogan died in 1857. She came West the following year. By Mr. Hogan she had six children, but three living—Nora, who married Frank Courtney, son of James Courtney, by his first wife. Mary, Mrs. James McGuire, and

Stephen, now in Colorado. By last wife, Mr. C. had two children—Joseph and Julia.

A. CURTISS, farmer ; P. O. Akron ; was born in 1836, in Boston Township ; son of Giles and Fannie (Carter) Curtiss. Augustus left home before his majority. He was raised to farming. In 1855, he went to California, where he remained four years, returning home after a successful experience, being engaged in mining, and at one time in the grocery trade. In August, 1861, he enlisted in Co. A., 2d O. V. C., and served until June the following year, when he was discharged on account of disability, caused from a heavy fall from his horse. He was then engaged in the dairy business in Stow Township with his brother. In 1864, he engaged in the lumber business. Nov. 25, 1865, he was married to Helen Barnhart, born July 27, 1845, in Boston, daughter of William and Laura (Chaffee) Barnhart, to whom were born Laura, William H., Mary and Helen. In the fall of 1868, Mr. Curtiss was elected Sheriff of the county, and re-elected in 1870. He afterward served as a Deputy four years, and during the whole time served the people in a manner creditable to himself and with satisfaction to the people. He has since been engaged in farming, having 158 acres of land. He has no children. Mr. Curtiss' father was born in Connecticut in January, 1808 ; son of Ethan ; his wife in 1807, in Ireland. They came to this country and settled in Boston Township in 1815. Ethan, the father of Giles Curtiss, had three sons—Lewis, Nelson and Giles, the latter the only surviving member of the family. Ethan finally located in Trumbull Co., Ohio. Giles located in the southeast part of Northfield, about the year 1840, where he cleared up that farm, and is yet living with his worthy companion. They have had seven children, six of whom grew up—William A., George S., Augustus, Mills, Lewis and Eliza, who married Sylvester Honey, and lives on the homestead.

HENRY FREDERICK, farmer ; P. O. Akron ; born in Wayne Co., March 20, 1834 ; his great-grandfather, Thomas Frederick, was born near Lancaster, Penn., about 1745, and, when some 7 years of age, his father, Noah, was killed by the Indians, and Thomas taken prisoner. He was adopted as one of the tribe, and remained with them seven years, but, after the treaty with the French and Indians, he, in connection with all other captives, was deliv-

ered to the English at Fort Du Quesne. He afterward settled in Northumberland Co., Penn., from which section he removed to Ohio with his family in the year 1804, and died May 3, 1808, while a resident of Center Township, Columbiana Co. His wife, Anna Margaret Frederick, died Feb. 28, 1826. Their son Thomas was born near Lancaster, Penn., Dec. 1, 1778 ; emigrated to Columbiana Co., with his father, in 1804 ; was married, May 2, 1804, to Elizabeth Schock, who was born March 8, 1785. He was a soldier during the war of 1812 ; removed to Wayne Co., and settled in Chippewa Township during the year 1813. He died July, 1871 ; was the father of fourteen children. His eldest son, Jacob, was born in Columbiana Co., February, 1805, and removed to Wayne Co. in 1813 ; was married to Margaret Rasor, and removed with his wife and family to Copley Township about 1843, where he now resides. Jacob had seven children, as follows : Samuel, Thomas, Henry, Eli, Benjamin, William and Christopher. Henry, the subject of this sketch, was educated in the common schools of Doylestown and Copley Townships ; worked for his father until May 20, 1858, when he married Miss Ellen Viers, daughter of James McClintock and Eliza (Allen) Viers. During the summer of 1858, he worked out by the day. In October, 1858, he rented John C. Stearns' farm of ninety-seven acres, and farmed this three years ; then the farm owned by the heirs of Jonathan Spafford ; after about eighteen months, he purchased this land, which he afterward sold. In the fall of 1865, he removed to Norton Township, and, after eight months, returned to Copley and rented 240 acres of Peter Wicks, which land he farmed for one year. In 1867, he purchased 546 acres, in connection with Royal Brockway, from the Rhodes brothers. This land was divided between Messrs. Frederick and Brockway. The former sold a portion of his, and bought other tracts, and now has 233 acres. Mr. Frederick is, at the present time, engaged in raising stock and farming. He is a member of the Disciples' Church of Akron. His wife is connected with the same congregation. They are the parents of three children—Charlotte Eliza, now Mrs. Harry N. Sherbondy ; James McHenry, and Grant. Mr. Frederick was elected Trustee of Portage Township in 1874, and served for three years ; was chosen Infirmary Director of Summit Co. in the

fall of 1876, and re-elected in 1879. At both elections, he ran ahead of his ticket.

FREDERICK FOUSE, farmer; P. O. Akron; was born March 17, 1825, in Lake Township, Stark Co.; son of John and Christina (Miller) Fouse. John Fouse was born in 1794, in Blair Co., Penn.; his wife in 1801. John Fouse was a son of Nicodemus. The father of Christina was Abram Miller, whose family came to Ohio shortly after the war of 1812, locating in Stark Co. The Fouse family were among the early settlers in the county. Abram Miller settled in Plain Township; John Fouse in Lake Township, where he died, when his son Frederick was a babe. Four children were born them—Savilla, Nicholas, Priscilla, and Frederick, who is the youngest and only surviving member of the family. Frederick stayed at home until 22 years of age. May 4, 1848, married Elizabeth Gaite, who was born Nov. 25, 1827, in Cumberland Co., Penn., daughter of Jacob and Mary (Keiper) Gaite. Jacob was a native of Germany. The Gaite family came West about the year 1829, locating in Stark Co., and raised a family of nine children; of the number living are Jacob, Levi, Joseph and Elizabeth. After Mr. Fouse was married he lived on the homestead twenty-seven years. In January, 1873, purchased 107 $\frac{12}{100}$ acres, where he now resides, adjoining Akron on the northeast, costing \$118 per acre. Of eleven children born, nine are living, viz., Melinda, John, Reuben, Jacob, Edwin, Menodes, Fernando, William and Ira. He and wife are members of the Reformed Church.

BENJAMIN GARMAN, farmer; P. O. Akron; was born June 20, 1819, in Lehigh Co., Penn.; son of Abram and Elizabeth (Naffe) Garman, to whom were born Phillip, Conrad, David, John, Adam, Jacob, Henry, Abram and three daughters. Abram Garman's father was a native of Germany, and came to Pennsylvania, settling in Lehigh Co. when the country was new. Elizabeth Naffe was a daughter of Barnhart, who had three sons and one daughter, Benjamin, whose name heads this page, was but 12 years of age when his father died. In 1836, he came to Ohio with his mother and brother Eli, who located in Homer Township, Medina Co. Eli purchased eighty acres of land, and was for several years the head of the family, who, besides himself, were Josiah, Rebecca, Jared, Benjamin, Abram, Levi, Eliza-

beth and Mary. Benjamin worked three years for his brother, then worked one summer in Norton Township, and chopped the following winter. Returning to Lehigh Co., Penn., the spring of 1840, he married Esther Clouse, who was born in same county Dec. 19, 1823, daughter of Phillip Clouse, whose wife's maiden name was Elizabeth Evert, both natives of Lehigh. Their offspring were Eliza, Sophia, Esther, Hannah, Nathan, David and Uriah. After Mr. Garman's marriage he returned to Homer Township, where he purchased forty acres of unimproved land for \$250, and subsequently added to the same until he had 120 acres, when he came to this county, which was in March, 1863, when he purchased 151 acres at \$34 per acre; has since been a constant resident of Portage Township, and among its valued citizens. Seven children have been born to him—Alfred, Rosa A. (who married Louis Esselburn, a resident of Homer), Elizabeth (married Frank Weygandt, and resides in Macon Co., Ill.), Sarah (the wife of Louis Andrews, and reside in Harrisville, Medina Co.), Irene (the wife of Mandus Baughman, of Wadsworth, Medina Co.), Uriah, and Alfred are residents of this township. Mary married Charles Starks, of Akron, Ohio.

JOHN GLENNAN, farmer; P. O. Akron; was born 1828, in Kilkenny, Ireland; son of James and Bridget (Killfoil) Glennan, the grandfather of John was Darby Glennan. John left the land of Erin at the age of 22, to try his fortunes in America, landing in New York, where he remained about one year and a half, and in 1852 came to Ohio, and began work in Akron and vicinity, working much of the time in the stone quarries. Afterward purchased land, where he now lives, which was unimproved, costing him \$40 per acre; working in the quarries in the day time, and, upon his returning home, spent a portion of the night in clearing up his land. Oct. 19, 1852, married Ann Bergen, born June 24, 1824, in Kilkenny, Ireland. Her parents were Stephen and Mary (Welch) Bergen, to whom were born thirteen children. March 11, 1878, after a short and severe illness, Mrs. Glennan died, leaving a husband and five children to mourn her demise. She was a faithful wife, a loving mother, and a valuable helpmeet to her husband. The children are Katie, Bridget, James, Anna and Julia; two deceased—Mary, aged 10, and

Stephen, a babe of 4 months. Mr. Glennan has a snug farm of thirty-six acres, upon which he has excellent buildings, all which have been the outgrowth of his own hard labor, assisted by his deceased worthy companion. With the exception of his brother James, in Tallmadge, he is the only representative of the family in the county or State.

GEORGE W. GLINES (deceased), for many years Superintendent of the Summit County Infirmary, was born in Vermont Oct. 10, 1832, and died March 4, 1878; he was the son of Asa and Roxana (Sinclair) Glines, who removed to Lake Co. and settled near Painesville when their son was quite small; Asa afterward settled in Cleveland; his wife died in 1849, and, shortly afterward, while keeping a store on the West Side, he suddenly disappeared, and his relatives never heard from him. George W. was married June 4, 1856, to Miss Julia Ferguson, who was born in Willoughby, Lake Co., Dec. 24, 1832; she was the daughter of Finley and Julia (Judd) Ferguson; Finley was born in August, 1801; was the son of John and Mary Ferguson, who were born in Scotland; he died Dec. 8, 1878; his wife died nearly fifty years since. The Judds were Yankees, and removed to Ohio from Boston, Mass.; shortly after, Mr. and Mrs. Glines were married they removed to Mayfield, Cuyahoga Co., where they farmed for nearly ten years. In 1864, Mr. Glines enlisted in an artillery regiment, and served until the civil war closed. He held several minor offices in Cuyahoga Co., and, in 1868, received the appointment of Superintendent of the Summit County Infirmary, and was employed by the Infirmary Directors to fill this responsible position from April 1, 1868, until he died. His widow, Mrs. Julia Glines, having demonstrated, during the ten years her husband was Superintendent, that she was eminently qualified for the position made vacant by his death, was appointed to succeed him, and the best evidence that she has successfully managed the institution is the fact that she has been continued in the same position ever since, and was, in January, 1881, re-appointed for the term commencing April 1, 1881. Mr. Glines was during his life a member of the M. E. Church, and his widow is connected with the same denomination. Two children were the result of their marriage—Julia and Charles; the latter died in infancy; Julia was born Dec. 14, 1858, was married Nov. 27, 1877,

to Worth Davis, and they have two children—Worth, born July 5, 1879, and James Finley Davis, born Aug. 12, 1880.

JUSTUS GALE (deceased), was an enterprising and successful business man in Akron during the early history of the place; he was the son of Ephraim and Mollie Gale, who were residents of Guilford, Windham Co., Vt., at the time of his birth, Jan. 14, 1798; was educated in the schools of his native State, and married, June 8, 1823, Sarah Hyde, who was born at Guilford, April 26, 1802; she was the daughter of Dr. Dana Hyde, a prominent physician in Guilford for many years, and died July 18, 1827; her mother's maiden name was Lucy Fitch. For some ten years after their marriage, Mr. and Mrs. Justus Gale remained in Vermont; for five years, he was in the mercantile business at Dover; then kept a hotel at Wells River for about the same length of time. In 1833, they moved to Ohio and settled at Akron in July, embarking in the mercantile business with Edward Pulsipher and Alvin Austin, who were also natives of Vermont; the firm was styled Pulsipher, Gale & Austin, and their establishment was at what is now South Akron. At this time there were very few houses at Akron, and the country between the village and Middlebury was a wilderness. After continuing in the mercantile business for some five years with Messrs. Pulsipher and Austin, they dissolved business relations, and then Mr. Gale for some ten years ran a tin store; for a short time he was a partner with Lyman Cobb; in connection with Paris Tallman, they engaged in the manufacture of stoves, kettles and castings; their furnace was situated on the site now occupied by C. A. Collins' carriage establishment. Mr. Gale died June 28, 1847; previous to his death, he sold his interest in the furnace, and also purchased the 40 acres now occupied by his widow and her son; in 1849, the Gale family removed to this land. Mr. and Mrs. were the parents of six children—Lucy Jane, now Mrs. Alexander Brewster, of Akron; Sarah, married Frank Adams, now a resident of Middlebury—she died Jan. 11, 1863, leaving two daughters—May, now Mrs. Charles Perkins, and Julia, now Mrs. Arthur Latham; Francis Gale, died in 1845, aged 16; Ann, now Mrs. Theodrick Balch, of Akron; Henry, was married Dec. 3, 1857, to Miss Mary Pettibone, daughter of Norman and Susan (Whitmore)

Pettibone—they have two children, Jennie Adams and Susie Hyde; Mary, the youngest daughter, married James C. McNeal, of Akron; they have two children, Grant and Sarah. Mr. Gale served for several years as a Justice of the Peace in Vermont. His wife is now a member of the Episcopal Church of Akron.

ENOS HAWKINS, farmer; P. O. Akron. Among the early settlers of Portage Township were the Hawkins family, who were natives of New England. Enos was the son of John Emerson and Jemima (Pratt) Hawkins; the former was the son of John and Sarah Hawkins, and was born Aug. 18, 1780, in Woodstock, Windsor Co., Vt.; Jemima, who was the daughter of Asa and Betsy Pratt, was born Oct. 20, 1785. They were married in 1803, and nine children were the result of their union: Enos, subject of this sketch; Ira, who died many years since, while a resident of Portage Township; Lucy, married Ansil Miller, and died at Akron; Mary, married Luman Mills, and died while a resident of Wadsworth Township; John Wesley died at the age of 16; Asenath married Wm. Ellis, a resident of Boston Township, and died about 1843; Horace, and Nelson, the youngest child, are now residents of Portage Township; Almira, the youngest daughter, married Zachariah Prentice, of Portage Township, and died many years since. Six of the above children moved from Vermont with their parents, in 1816. They reached Portage Township, October 28 of that year, and shortly afterward Mr. Hawkins purchased 100 acres of land. At that time no other families were residing in the southwestern portion of Portage Township, but Josh King lived near where Simon Perkins does now. Enos Hawkins, subject of this sketch, was born near the Green Mountains, Bridgewater Township, Windsor Co., Vt., Dec. 5, 1803, and was nearly 13 years of age when his parents moved to Ohio. He received a knowledge of the common branches in the schools of Vermont and Ohio. In 1825, he was a member of the locating party employed to survey the route of the Ohio Canal, and continued at this business for two years. When the canal was opened, he was appointed Superintendent of Repairs, and had charge of the section from Cleveland to Short Pinery Level; this division was some eighteen miles in length, and he continued at this for many years, until removed by the Democratic Administration at Columbus, Mr. Hawkins be-

ing too much of a Whig to suit the ruling party. He then farmed in Independence Township Cuyahoga County, until about the year 1872, when he removed to his present farm. In 1830, he purchased nearly 100 acres of land in Portage Township; since then he has sold a portion of this, and now has 49 acres. He was married in 1836 to Miss Mary Parker, daughter of Cardy and Mary Ann (Lee) Parker. They were the parents of four children: Emily, died in infancy; Emma, died aged 16; Minerva, now Mrs. A. W. Gillett, of Portage Township; Ella, now Mrs. Charles Green, of Independence, Cuyahoga Co. Mrs. Enos Hawkins died Jan. 11, 1854.

JOSEPH HILL, farmer, Akron; was born Nov. 30, 1825, in Guilford, Windham Co., Vt. His parents were Tyler and Sallie (Fish) Hill. Tyler was born in New Hampshire in 1793, son of Fisher Hill, whose wife's maiden name was Chase. Tyler Hill emigrated West with his family in 1836, coming by canal from Troy to Buffalo, thence by water to Cleveland. At Brooklyn, he secured an ox team, conveying his family to this county, making his settlement in the northeast part of Twinsburg, where he purchased 144 acres of land. Having at the time of his arrival \$1,300 in money, which was expended for land and such necessities as circumstances required; here he remained until his death; he was a good citizen and a Christian, who adhered to the tenets of of the Baptist Church. Six children were born them, whose names were Delight, Hannah, Ambrose, Jane, Joseph and Sarah. Joseph was married March 14, 1854, to Mehitable Drake, born Feb. 29, 1836, in Boston Township, daughter of Nathan and Lizzie (Bowker) Drake. He was born in New Hampshire, Dec. 1, 1786; she, in same State, May 30, 1792. To this couple were born the numerous family of fifteen, whose names were, David, Silas, Mary, Amy, A——, Jasper B., James N., Emily, John D., Elizabeth, Joseph, Benjamin, Nathan, Mehitable and Mariamne. After Mr. Hill was married he moved to Solon Township, where he lived five years, then moved to Twinsburg and stayed two years, returning to Solon and lived three years. Located on the farm he now owns, in 1864; since remained. Has now over 300 acres of land situated in the extreme north part of the township. Of eleven children born him, Charles G., Jessie, Ira M., Joit-

ajuba, Aquilla, Schuyler J. and George M. are living; Lillie L. died at 7, Leander at 5, Lizzie and Viva when young. Farming is the business in which he has been engaged. Not a member of any orthodox church. Father was Democratic; Joseph, Republican. The parents of Mr. Hill were Baptists. Her father died in 1852, mother about seven years later. Were early settlers.

CHAUNCEY HART, deceased. This pioneer was born in Oneida Co., N. Y., Sept. 10, 1797; son of Renben Hart, who was a native of Connecticut. Chauncey moved to Tallmadge in 1816. Oct. 10, 1819, he married Rosella Hard, who was born in 1798. in Berkshire, in North Vermont. She was a daughter of Abram and Rebecca (Flagg) Hard, whose children were Cyrus, Abram, Nelson, Moses K., Orilla, Sophia, Roseila, Laura and Julia A. In 1821, Mr. Hart moved to Wadsworth, Medina Co., where he purchased some unimproved land, which he improved. In 1853, he located in Akron, where he lived several years; then he located on his farm, where he died, March 20, 1877. His wife died the year following, March 26. To them were born four children; but two are now living, Mrs. Cunningham and Mrs. Beardsley. For more than one-half a century, he was a member of the M. E. Church. From that time forward he never wavered from his course, but attested the genuineness of his profession by an upright and blameless life. For the last seven years, he was an invalid, and suffered greatly, yet through all his affliction he waited with Christian resignation for his Master's call, and was ready to pass over to the shining shore. His remains now rest in the cemetery, near by his last home. Amanda, his youngest daughter, was born in October, 1840, in Wadsworth. Oct. 17, 1861, she married Avery S. Beardsley, who was born in Coventry, this county, Oct. 26, 1838, son of T. and Temperance (Spicer) Beardsley. Mr. and Mrs. Beardsley have one son, Chauncey Hart; they reside on the homestead farm.

WILLIAM H. JONES, farmer; P. O. Akron; was born July 17, 1833, in Oneida Co., N. Y. Son of John H. and Sarah (Simpson) Jones. The former was born August, 1806, in Albany, N. Y., son of Samuel and Betsey (Hamilton) Jones. Samuel was born at Schenectady, N. Y., in the "Mohawk Dutch" settlement. Betsey Hamilton was born in Dublin, Ireland,

where she lived until 11 years of age. Sarah Simpson was a daughter of John. John H. Jones came west in 1834 to Ohio, remained some time, and then moved to Indiana. They had six children who grew up to maturity—Louisa, William, James, Mary E., Charlotte and Sebra. William H., was raised to farming. On Aug. 25, 1862, he enlisted in Battery B, and served one year, when he was discharged on account of disability. He returned home, remaining until February, 1864, when he re-enlisted in Co. B, 188th O. V. I., and remained until the close of the war. March 14, 1855, he married Susannah Best, a daughter of John Best, who was born in Mercer Co., Penn., in 1796; son of John Best, who came from Germany and settled in Mercer Co., when the country was new. John Best married Rebecca Watson, a daughter of Gabriel Watson, who had fourteen children born to him. John Best came to Northampton in 1832, where he purchased unimproved land at the center of the township, which he cleared up, and lived on the same as long as he lived. His death occurred March 18, 1861; his wife is yet living. They were members of the Methodist Episcopal Church. They had ten children, Mrs. Jones being the eldest of the family. To Mr. and Mrs. Jones have been born ten children, eight of whom are living. They have 100 acres of land. Mr. Jones' father was killed in August, 1868. His wife died Jan. 14, 1877.

GEORGE MILLER, retired farmer, Akron, whose portrait will be found in this work, has been a resident of the State since 1810; was born Dec. 14, 1807, in Perry Co., Penn., eldest child of Jacob and Sarah (Lutman) Miller. The Millers are of German stock, and were among the better class of that nationality who left the "Faderland" to cast their lots with America and its varied interests. At the age of 3, our subject "came West" with his parents, who made their first settlement in Canfield Township, Trumbull Co. He was a carpenter by trade, but his worldly possessions were very limited indeed. His first purchase of land was 60 acres, which he partially cleared. The country at this time was a dreary wilderness, the inhabitants were very few and much scattered. He immediately began the arduous task of clearing a spot for cultivation, and soon had a cabin erected in which he resided until 1816, when he moved to what is now Wadsworth Township, Medina Co.

(then Portage), where he purchased 120 acres of Gen. Wadsworth at \$3 per acre. Here he found as uninhabitable a place of settlement as in Trumbull Co. The nearest settlement on the east was that of Joseph Harris, of Harrisville Township, sixteen miles distant. Upon this place he spent the remainder of his life, dying in 1859; his wife preceded him nearly a score of years. Of the family born to this couple were George and his twin, who died young; Samuel, who died aged 1 year, Petsey, who died at 14; David was killed at Akron while in the discharge of his duties as fireman at a fire; John; Aaron died while on his way to California in 1851; Catharine married Reuben Baughman; Mary now Mrs. Alexander Beck; Harriet, now Mrs. Shaffer; and Susan married Henry Parmelee. George was raised to hard labor; what schooling he obtained was the plainest rudiments of the cabin schools, but was increased by careful study at his father's fireside. His father being a carpenter and cabinet-maker, George soon learned the use of tools and assisted his father in his labors as a house-builder, and manufacturing such articles as were required by the early settlers who came to their western homes without tables, chairs, or scarcely any furniture. Coffins were manufactured for the unfortunate ones, which were split out of logs, then hewn out to encase the mortal remains of the lone pioneer. Mr. Miller left home at the age of 23, made his first purchase of land in Sharon of 60 acres of unimproved land, which cost him \$4 per acre; he afterward added 15 acres, and then 27. After a residence of three years, he returned to Wadsworth, where he purchased 100 acres, which he cleared up, remaining on the same until 1853, when he moved to his present place on Tract 4, which has ever since been his place of living. In 1831, he married Rebecca Baughman, daughter of Paul Baughman. Upon Mr. Miller's arrival here he purchased of Gov. Tod 240 acres at \$25 per acre. He has now 231 here, and 120 in Wadsworth. His faithful wife was taken from him in the year 1868, leaving him four children—Paul, now in California; Sarah, who married S. Coplin, and has five children—Charles, George, Rollin, Homer and Oscar; Martha married Frank Springer, now of Medina, having one child, Fred, by her first husband; John F., at home, he married Charity Brouse, daughter of William Brouse, of Wadsworth;

John F. has one child, Elton. Paul married Matilda Horn, and by her has two sons. Mr. Miller has already passed the limit allotted to mankind and is now spending the eve of his life in the sweet quiet of his home. He is held in high esteem by all who know him. Politically he has been Democratic, and always true to the principles embraced by his party. Religiously, he was reared a Lutheran, but later in life he has become impressed with the doctrine of universal salvation. He has been a man of industrious habits, and been prospered in all of his business undertakings; he has taken an active part in whatever was calculated to advance the interests of the people at large; has been a substantial member of the community, and liberal in his contributions to charitable and educational purposes. He has devoted his life to agricultural pursuits, never seeking the publicity of office, yet, at the solicitations of friends, has filled several offices of trust in the community. While in Medina Co., he served as Justice of the Peace, Township Trustee, Treasurer and Assessor. Acting independently of sect or denomination, yet has favored everything known to be right and opposed to wrong; honestly and openly laboring to promote good morals and advance the common interests of all good citizens. By his frugality and industry he has acquired a handsome property, and is one of the self-made men of the county.

JOHN McCausland, farmer and brick manufacturer; P. O. Akron; was born June 26, 1824, in County Antrim, Ireland, and is a son of James and Jane (Drain) McCausland. James was born in February, 1799, the only son of James, his father, who bore the same name. Jane was a daughter of Hugh Drain. John emigrated to Ohio in 1849, having served his father several years after his majority, and came here poor. He began work in this county as a common laborer, receiving at first \$8.50 per month; afterward, by the year, receiving \$120, then \$150 annually. In 1853, he married Mary McQuillan, who was born in County Antrim, Ireland, in April, 1827; daughter of Charles and Mary (Mulheren) McQuillan. After Mr. McCausland acquired sufficient means, he bought a team and the necessary implements, and engaged in farming, renting land about six years on the Phelps farm. In 1859, he purchased where he now lives, first buying 76 acres, for which he paid \$28 per

acre. He has since added to the same, having now 112½ acres. In 1871, he engaged in the manufacture of brick, and has been every year increasing his facilities until he has now productive capacity of 2,000,000 per year, there having been such a demand that he has not been able to fill the orders that have been given him. He has four children living—James, John, Margaret and Mary. Mr. McCausland is one of the substantial men of the township. Coming here a poor man, he has, by diligence and economy, acquired for himself a home and a sufficient competence, and built up a manufacturing establishment in his line which is the largest in the township; a man of intelligence and a liberal patron of the public journals.

AARON OVIATT, retired farmer; P. O. Akron; a member of a numerous, important and influential family of Summit County. He is a grandson of Benjamin Oviatt, who was born Feb. 27, 1755; Benjamin was a soldier during the Revolutionary war; was married Dec. 8, 1774, and died Sept. 24, 1832; Elizabeth, his wife, was born Aug. 29, 1754, and died Dec. 5, 1832; they had eleven children—Heman, Luman, Benjamin, Olive, Salmon, Betsy, Clarissa, Nathaniel, Huldah, Mary and Anna. Many of these settled in what is now Summit County, at an early day, and became active and energetic citizens in their respective communities. Benjamin, and his sons Luman and Heman, bought the northwest quarter of the township of Richfield, paying \$4,000 for 4,000 acres. Luman never lived in Summit County, but Heman settled at Hudson and was one of the founders of Hudson College; Benjamin, his brother, also settled in Hudson; Salmon and Nathaniel settled in Richfield; Betsy married Elisha Ellsworth, of Hudson; Clarissa married Elijah Ellsworth, of Richfield; Huldah married a Mrs. Thompson, of Hudson; Mary married the gentleman after whom Hudson Village was named, and when he died, Darius Lyman, of Ravenna. Luman Oviatt, father of Aaron, was born Sept. 6, 1777; married May 10, 1796, to Rhoda Norton, born Oct. 9, 1777. They resided in Goshen Township, Litchfield Co., Conn.; were the parents of ten children, many of whom moved to Summit County, as follows: Birdsey, at Hudson; Nelson, at Richfield; Kessiah died at Goshen; Rhoda, formerly Mrs. Julia Humphrey, of Richfield; Heman, at

Richfield; Marcus died in Connecticut; Aaron, subject of this sketch; Moses, of Cuyahoga County; Harriet, formerly Mrs. Washington B. Bigelow, of Richfield; Laura, formerly Mrs. Jonathan Spafford, of Copley. These are all dead except Aaron and Moses; their mother died Jan. 10, 1821; Luman married a second time and had three children—Sarah Lucretia, Lyman B. and Samuel—but they never removed to Summit County; their father died Dec. 7, 1838. Aaron was born August 4, 1810, in Goshen Township, Conn., where he was raised and educated. He was married Jan. 9, 1833, to Electa, daughter of Reuben Brown, of Norfolk, Conn.; they had three children—Orestus died aged 9, Heman died in California, Huldah married More Briggs and removed to Iowa. Aaron's wife died and he came to Summit County, where he was married Oct. 11, 1846, to Miss Marion B., daughter of Salmon and Mary B. (Hawkins) Hoisington. He then returned to Connecticut, resided there two years, and removed to Copley and purchased 123 acres, which land he farmed until about seven years since, when he removed to Akron City. Mr. and Mrs. Oviatt are the parents of eight children, as follows: Orestus Aaron, deceased; Quincy G., deceased; Ella, now Mrs. Hugh Mussleman; Truman, deceased; Clara E., now living in Cuyahoga County; Jennie M., now Mrs. Fred. Tarble, of Akron; Phila D. and Edward.

FRIEDRICH PFEIFFER, farmer; P. O. Akron; was born Jan. 17, 1829, in Hagenstein Kirchenfeld, Oldenburg, in Northwest Bavaria; son of George and Catherina (Bank) Pfeiffer. George was the only son of his father, who was a manufacturer of woolen cloth, and who was accidentally killed in his mill. Catherina was a daughter of John Bank, whose wife was Caroline Haas. John Bank had eight children born him, of whom John, Charles, Catherina, Derothe and Caroline grew to maturity. John Bank was a man of wealth and influence; was largely interested in the manufacturing interests of the place, ran a distillery, an oil mill, a blacksmith-shop, and owned several farms besides. He had sons whose names were John, Charles and John, two of whom are prominent ministers—Charles, in New York, John in Buffalo. To George and Catherina were born Frederick, George (who died in California after a residence of twenty-two years), Catherina

(married Rev. George Rettig, of Iowa), Jacob (now in Wadsworth), Louisa (now Mrs. Mono Smith), Charles (in Akron). Frederick came to Ohio in 1848; he came to Akron poor, but was not afraid to labor; worked at farming, ran an engine two years, and worked in a store and mill. March 19, 1854, he married Catherina Grohe, who was born April 23, 1829, in Baden; eldest daughter of Adam and Catherina (Rettig) Grohe. Adam Grohe was a son of John and Eva (Shaeffer) Grohe, whose children were Adam, Michael, Eva, Jacob, John, Phillip and George. Mrs. Pfeiffer came to this State in 1852. After Mr. Pfeiffer was married he lived six months in Defiance Co., then one year in Madison Co., Ind., and then came to Akron, where he worked a farm on shares. He worked three years in Wadsworth on George Miller's farm, rented a farm in Clinton one year, then bought a farm in Sharon Township, Medina Co., which he sold eight years afterward. After making several changes, purchased where he now owns, having eighty-five acres at a cost of \$7,000. Has one child—George Frederick, born Nov. 3, 1860.

WEBSTER B. STORER, horticulturist; P. O. Akron. The subject of this sketch was for thirty years an enterprising and energetic business man of Akron; born in Portland, Me., Jan. 24, 1809; son of Joseph and Charlotte (Knight) Storer. Joseph was a ship-carpenter and joiner in Maine until 1818, when he moved to Zanesville, Ohio, with his family; assisted by John Wilson, his partner, he built the first forked bridge over the Muskingum River at Zanesville; in 1828, he removed to Cleveland, where he was engaged for many years building vessels, steamboats, canal boats, and other water craft. Joseph died in the spring of 1868 at the advanced age of 92; he was the father of six children; all are living, the youngest being 70, the eldest 80, and the aggregate of their ages is 450 years; they are Eliza (now Mrs. Joel Chapman, of Eric Co.), George K. and Joseph (of Brooklyn, Cuyahoga Co.), Samuel (of Clyde, Ohio), Webster B., and Hester (now Mrs. Harris Brainard, of Parma, Cuyahoga Co.). Webster was educated in the schools of Portland and Zanesville. He served an apprenticeship with his father, and at the age of 21 commenced business for himself in Cleveland; for four years he was employed at ship-joiner- ing; he then farmed in Cuyahoga Co. for one

year; in 1836, he removed to Akron, and, for three years, was engaged building houses; during this time he erected the first house ever built on Mill street, upon the lot now occupied by the Universalist Church; during the next quarter of a century he followed canal-boat building for some eighteen years, employing at times over twenty hands to assist him, constructing one year twelve boats; he built the first boat which had a capacity of 2,600 bushels of wheat; he was in partnership at this business for two years with Jacob Barnhart, and for ten years with Ansel Miller. About the year 1856, he was engaged in the wholesale and retail grocery trade, continuing at this some two years. In 1863, he sold his interest at canal-boat building to William H. Payne, and then ran an iron store for five years in partnership with his son-in-law, J. L. Noble. In 1868, having traded his city property for 208 acres of land, he removed to this tract, where he has resided ever since with his son-in-law. For some twelve years he has been raising small fruit, and is a member of the State Horticultural Society, and an honorary member in a similar association of Franklin Co. He served as Trustee of Portage Township several terms; was Infirmary Director of Summit Co. for three years; was a member of the Board of Education in 1850, when the Central High School building was erected. Mr. Storer was originally a Democrat casting his first Presidential vote for Gen. Jackson. He supported Van Buren in 1836 and 1840; then being an ardent sympathizer of the anti-slavery movement, he united with the old "Liberty" party; since the formation of the Republican party he has voted that ticket; was connected with the underground railroad and the men who conducted its passengers through Summit Co.; was chosen President of the meeting at Akron called to express the indignation of the citizens when John Brown was hung. July 24, 1832, he was married to Miss Mary A. Bangs, daughter of James and Martha (Nash) Bangs. Mr. and Mrs. Storer are members of the Disciples' Church of Akron; they were among those who organized the congregation in 1840; he has served as Deacon and Overseer in the church for many years. They are the parents of five children, one died in infancy; the others are Daniel W. (now of Shelby); Hatty I. (now Mrs. J. L. Noble; she was married

Dec. 3, 1855, and is the mother of two daughters—Mary and Lucy M. Noble), James B. (now Postmaster of Akron), George S. (now of New York City).

JACOB SHAKE, farmer; P. O. Akron; was born Jan. 19, 1827, in Wurtemberg, Germany. His parents were John and Kate (Ripley) Shake; he was a son of Jacob. Our subject was the youngest of a family of eight children. In March, 1854, he married Frederica Richards, who was born Aug. 27, 1832, in Wurtemberg; daughter of Davis and Catharine (Kutz) Richards. Davis Richards' father was John Richards; Catharine Richards was a daughter of George Kutz. In the same year in which he was married, Mr. Shake came to this country; coming west to Ohio, he stopped in Liverpool Township, Medina Co., where he worked by the month. After saving some money, went to Northampton, where he bought 25 acres of land unimproved, costing \$2 per acre. This place he cleared up; he then moved to this township, where he purchased and has since resided. He has now 100 acres of land, which he has cleared up, and erected suitable buildings thereon. He has been a hard-working man, a careful manager, and has been successful and secured a good home. He has ten children—Christian, who resides on her father's farm; Catharina, now the wife of Henry Schumacher; Mary, the wife of Martin Dice; Helen, Rosa, Charles, Eliza, Willie, John and Ida. Mr. and Mrs. Shake are members of the German Reformed Church.

C. M. SMITH, farmer; P. O. Akron; was born in Lake Township, Stark Co., Ohio, Nov. 14, 1818, of a family of seven children born to James and Sarah (Houser) Smith. James was born in Pennsylvania Jan. 16, 1790; son of John, who was a native of New Jersey, and had born to him five sons and three daughters. James Smith married Sarah Houser, who was born in Lancaster Co., Penn., Jan. 11, 1792. She was a daughter of Peter, who was a son of John Houser, a native of Germany; his wife was Mary Fisher, by whom he had thirteen children. Of those who grew up were Mary, Catharine, Margaret, Amelia, Julia, Margaret, 2d, Peter, Tunis and William. The parents of our subject were married in Pennsylvania, and emigrated to Stark Co. about the year 1813. They entered 160 acres in Lake Township; in 1823, he moved to Springfield, remaining there

until his death, Nov. 15, 1858. To this couple were born Peter, now in Michigan; John, in Elkhart, Ind.; C. M., Catharine, now Mrs. M. Hagenbaugh, in Tallmadge; James, died at the age of 50, in this county; Housel, in Bath Township; Amelia, Mrs. Hiram Allen, in Nebraska. C. M. left home at 20, learned the cabinet-maker's trade, and worked at the same thirteen years. He was first married to Rebecca Monroe, who died one year afterward, leaving one child, since deceased. His second wife was Catharine Fulkerson, who died two years afterward, leaving one child, Sylvester. On Jan. 28, 1849, he married Grazella Ruckel, who was born in Pennsylvania, April 18, 1826; daughter of Peter and Mary (Hagenbaugh) Ruckel. Mr. Ruckel came to this country about 1832, and settled in Sharon Township, Medina Co. His wife died when Mrs. Smith was 1 year old. Mr. Smith moved to his farm April, 1858, bought 111 acres of unimproved land, and cleared it up; he is a self-made man. He has had four children, three living—Elizabeth, Mrs. Joseph M. Byerley; Allen J. and Sarah. Mr. Smith has the best of farm buildings, and is a successful farmer.

EPHRAIM SHERBONDY, farmer; P. O. Akron; one of the earliest settlers of Portage Township, born in East Huntington Township, Westmoreland Co., Penn., Jan. 25, 1612; the eldest son of John and Rosannah (Ritchey) Sherbondy, who settled in Portage Township, with their family, in the spring of 1817. George, a brother of John, came at the same time with his family, and they traveled from Pennsylvania with only one large wagon for the two households. At that time, there were only nine other families living in the township these were Avery Spicer, Paul Williams, Samuel Newton. — Phelps, John Hawkins, — Ayres, Samuel Nash, — King and George Sholls. Of these nine families only three persons are now living, Avery Spicer, his wife and Enos, son of John Hawkins. Several years afterward, Melkiah Sherbondy, father of John and George, moved to Portage and his son Peter also settled in Summit Co., with his family at an early day. From these families were descended numerous offspring, who are at the present time occupying most of the land originally purchased by their ancestors. John Sherbondy was elected Trustee of Portage Township fifteen years in succession; he was

also Assessor for many years; he died March 22, 1866, at the age of 76; Rosannah his wife died Aug. 12, 1852; they were the parents of fourteen children, six died before maturity, eight raised families as follows: Ephraim, Uriah and Levi, now of Portage Township; Sarah, now Mrs. Jacob Smith, of Copley; Reuben and John, now of Portage Township; Ann, now Mrs. Smith Bunker, of Portage; Homer, now of Nebraska. Ephraim, subject of this sketch received a very meager education in his youth. He worked on his father's farm until 20; then at the carpenter's trade for fifteen years, during which time he was employed repairing the canal for the State. He was married Aug. 10, 1846, to Miss Elizabeth Edwards, who was born in Logan County, December 29, 1824; she is the daughter of Justus and Margaret (Smith) Edwards; Justus died in October, 1852. Mr. and Mrs. Sherbondy are the parents of nine children, as follows: Amanda, now Mrs. Thomas Farell, of Cleveland; Wallace, of Copley Township and married to Maggie Porter; Justus died aged 10 months; Ada, now Mrs. Benjamin Frederick, of Copley; Eunice, now at home; Rosa, died aged 13 in June, 1873; John, Giney and Lydia at home. Mr. Sherbondy owns at the present time some 24 acres of land, and has been a farmer since he left the Ohio Canal.

A. A. TINKHAM, farmer; P. O. Akron; was born in Windsor Co., Vt., Jan. 24, 1824, the only son born to his parents, Allen and Mary Ann Tinkham. Mary Ann was a daughter of Robert Cain, who came from England and settled in Dedham, Mass., where his children Esther, Harriet, Mary Ann and Robert were born. Amos was 4 years of age when his father died; his mother afterward married Mr. Washburn. The family came West in 1832, first to Wayne Co., Canaan Township, where they lived until 1837, when they moved to Wooster, remaining one year; then to Seville in Medina Co., and remained there until 1839. Amos remained with his step-father until he was 13 years of age, and, subsequently, hired out to Philo Chamberlain, in Akron, to drive team, and do general outside work until the spring of 1842, when he entered the mill and learned the miller's art, following the same until 1849; then engaged in the livery business at Franklin, now Kent, remaining nearly one year, then returned to Akron, and continued in

the business until 1862, when he went into the army, and served two years in the Quartermaster's Department; returning home, lived one year in the city; then moved to the farm where he has since lived; his farm consists of 150 acres. May 1, 1853, he married Mary Bangs, born May 24, 1828, in Richfield Township, daughter of E. N. Bangs, who was born April 10, 1800, in Stanstead, Lower Canada; his father was James, who moved some four months previous from Hampshire Co., Mass., to that place, in 1819, with his entire family, which consisted of Hortensia, Theodore, Harriet, Elisha, Martha, Samuel, Clarissa, Henry, Mary Ann and James. The family moved to Norwalk, Ohio, 1821, where he was married to Abigail Wallace, of Petersham, Mass., by whom he had two sons and four daughters—Henry, Adeline A. Barnard, of Chicago; Mary Tinkham, of Akron; Louise Simmons, of Chicago; Celestia, Mrs. P. J. Moersch, of Akron. In 1821, Mr. Bangs moved to Milan, Ohio; in 1825, removed to Richfield, Summit Co.; in 1836, to Akron, where he lived until his death, Nov. 17, 1878. Abigail Wallace was a daughter of Daniel, whose children were Abigail, Simeon, Lewis, Miranda, Harriet (deceased), Sarah L. (deceased), and Adeline. Mr. Tinkham has two children—Clara, Mrs. I. R. Miller, of this township, and Fred at home.

A. TEEPLE, farmer; P. O. Akron; was born in December, 1841, in Franklin Township; son of John and Dorothe (Miller) Teeple. He was born Oct. 5, 1795, in New Jersey; son of Andrew Teeple, who came from Holland. He had three sons—Andrew, George and John. The Teeple family came West to Ohio, settling first in Jefferson Co., at Steubenville, where Andrew died in 1810. To him were born Jacob, George, William, Pitney, John, Mary, Sophia and Ann. At the age of 18, John Teeple, the father of the above, came to Canton, where he hired out as a common laborer. Being industrious and economical, he succeeded in saving means to enable him to engage in business for himself. He worked for some time at contracting. He made his first purchase of land in Franklin, where he cleared up a farm of 160 acres, which cost at first \$3 per acre. Upon this farm he died Sept. 13, 1864; wife Nov. 26, 1866. She was a member of the Disciples' Church. He believed in Universal salvation. Their children were Catharine, George, Isaac

who was killed in the late war at Champion Hills, May 16, 1863; member of Co. A, 42d O. V. I.; Simon, David, Aaron and John P. Aaron was raised to farming, receiving the advantages of the common district schools, and finally attended two years at Hiram College, having James A. Garfield as preceptor. At the age of 19, enlisted in September, 1861, in Co. A, 42d O. V. I., and served three years, participating in the principal battles in which the regiment was engaged. In the fall of 1865, he was married to Rachel Hiser, born Dec. 16, 1843, in Sandusky Co., daughter of Daniel and Elisabeth (Richard) Hiser, who had the numerous family of sixteen children, twelve grew up. Mr. Teeple moved to this township in 1869, and has 100 acres of good land. He has two children—John Frank and Nellie E. Mr. and Mrs. Teeple are members of the Disciples' Church.

SAMUEL UNDERHILL, farmer; P. O. Akron; was born April 9, 1804, in Hyde Park, Dutchess Co., N. Y.; son of James and Clara (Quinby) Underhill, both of whom were born in Westchester Co., N. Y.; he in 1870; his wife two years later. The Underhills were of Quaker belief. James Underhill was a son of Nathaniel, whose ancestors came from England. Clara Quinby was a daughter of Samuel, whose wife was a Powell. To them were born seven children—Moses, Obadiah, Edward, Mary, Jane Catharine, Ann and Clara. The children of Nathaniel were James and Clara. Nathaniel was a lover of horses, and during the time of the Revolution purchased horses for the army. The children of James were Nathaniel, Samuel, Mary, Abram, Philo, Abel, James, Ann, Sarah and Catharine. In 1810, James Underhill moved to Coxsackie, N. Y., where he lived until 1813, when he died of pneumonia. Our subject was early in life left without a home. At the age of 20, he began the study of medicine, received his first diploma at Saratoga, N. Y.; afterward took lectures at New York City, and then came west to Ohio, first locating in Stark Co., in 1830, and began the practice of medicine. Although educated an allopath, he afterward changed to hydropathy. After becoming well-read in phrenology and studying scientific works, his views in regard to religion became changed, and has since been a Spiritualist. He has practiced medicine thirty years, also having two brothers, Abram and Abel, who have been engaged in the practice of medicine. He came

to this township in 1863. In June, 1868, he married Electa Sanford, who was born in Hudson Township, daughter of Garry and Emily (Richardson) Sanford, who were early settlers. The former died in 1843; the latter in 1873; they had ten children. Since the Doctor's location here, he has been engaged mostly in farming. He has one son.

DANIEL B. WASHBURN, farmer; P. O. Akron; born at Kingston, Plymouth Co., Mass., Dec. 15, 1818; the son of Abiel and Rebecca (Adams) Washburn; when about thirteen years of age his parents removed to Summit Co., after stopping one winter in New York State; and for some two years Abiel followed the shoemaker's trade until he died, Aug. 25, 1834. A short time previous he purchased from Samuel Nash, one of the early settlers of Summit County, 122 acres of land, and most of this is still owned by his descendants. When the Washburn family removed to this land, there were only two log houses and a frame building between their farm and Akron; what is now Wooster avenue was laid out but not fenced. Abiel and Rebecca Washburn were professors of the Swedenborgian faith; she died Aug. 9, 1865; they were the parents of six children—Cornelia G., now Mrs. Albert G. Mallison, of Akron; Lorinda, a resident of Sacramento, Cal.; Leander, of Galesburg, Ill.; Keziah, married Charles Mallison, and died about seven years since; Rebecca, now Mrs. John Wilbur, of California; Daniel B., of Portage Township, subject of this sketch, who has resided upon his present farm since 1834; he received a knowledge of the common branches in the schools of Massachusetts and "York" State, and finally "graduated" at a log cabin school-house in Portage Township. He was married December 10, 1849, to Mrs. Anna M. Adams, daughter of Robert and Betsey (Viers) Adams. She was born Sept. 15, 1818, in Richmond, Va.; her parents died when she was young and she removed to Massachusetts and was married to Daniel Adams, and by him had four children—Louisa Q., now Mrs. William T. Babcock, of Akron; Delia J., now Mrs. Thomas Thomas, of Sonoma Co., Cal.; Helen F., now Mrs. George Bunker, of Portage Township; Francis B., now of Akron, Ohio. Mr. and Mrs. Daniel B. Washburn are the parents of five children—Winslow, now at home; Alice, now Mrs. Lyeurgus

Force, of Middlebury; Julia, now Mrs. Frank Sherbondy, of Portage Township; Addie A. and Anna A., now at home. Mr. Washburn has always voted the Republican ticket since the formation of that party, previous to that time he was a Whig, casting his vote for William Henry Harrison in 1840.

GEORGE H. WISE (deceased); born Nov. 10, 1800, in Longstown, Union Co., Penn., a son of Henry and Elizabeth (Seibald) Wise, whose children were John, Jacob, Henry, William, George, Christopher, Daniel, Mary and Abram. Henry Wise came West about the year 1812; John, his son, served in the war of 1812; Henry Wise settled in Lake Township when the country was new, remaining upon the place of his settlement until his death, which took place in 1839. George H. was raised a farmer; about the year 1820, was married to Catharine Wise, who was born May 11, about the year 1803, daughter of David and Catharine (Denious) Wise; he was a son of Frederick and Catharine, who came from Germany and were sold to pay their passage. The parents of Mrs. Wise came West when she was but 9 years of age, settling in Stark Co., where they remained until their death. To them were born Betsy, Polly, Catharine, Barbara, John, Sarah, Nancy and David; of those living are David, John and Mrs. Wise. For a time after the marriage of Mr. Wise, he located in Greentown, where he kept tavern and carried on the butchering business; was a carpenter by trade at which he worked in the early part of his life. In 1860, came to the township and purchased 349 acres of land, upon which he lived until his death which occurred Aug. 22, 1880; was father of thirteen children who were Jacob, Elizabeth, Sarah, Harriet, Lydia, Eliza, Washington, Jefferson, Wesley, Emma J., Melissa J., Washington and Nettie D. Wesley was born Nov. 1, 1838, died Dec. 25, 1862; married Clarissa Pryor, born in October, 1843, in Northampton, daughter of Samuel S., and Anra Everet. The Pryors were from Vermont, and

the Everets from Germany. Mr. Wise has three children—Mary, Addie and Freddie; there are 312 acres in the estate.

WILLIAM ZELLER, farmer; P. O. Akron; was born in Lake Township, Stark Co., Ohio, Nov. 4, 1824; son of Adam and Elizabeth (Hoover) Zeller; Adam was born about the year 1789, in Union Co., Penn. The Zeller family came West to Stark Co. about the year 1815, and settled in Lake Township; he first bought 80 acres, upon which he settled; he then moved to a place adjoining, and, finally, located in Greentown, where he died in 1853; he was highly esteemed in the community, a good Democrat and a quiet citizen; his wife survived him but four days. Twelve children were born to them—Polly, Joseph, Daniel, Benjamin, Sarah, Anna, Betsey, Susan, William, Aaron, Robert and Jeremiah—ten of whom came to maturity; those living are Daniel, in Brimfield Township, Portage Co.; William, in this township; Benjamin, in Cass Co., Mich; Elizabeth, married Absalom Shubert; Jeremiah, in same county and State. Our subject remained at home until 1842; he learned the harness-maker's trade, at which he worked about ten years. On Sept. 2, 1847, he married Sarah Wise, who was born May 16, 1825, in Stark Co., daughter of George H. Wise, who was an early resident of Stark Co; after Mr. Zeller was married, he lived several years in Greentown, afterward removing to Uniontown, where he carried on his trade and was engaged in butchering; in 1855, he moved to the country, where he farmed five years; in 1860, he moved to Portage Township and located where he now resides, purchasing 70 acres of land (but 6 acres improved), paying \$50 per acre; he has since cleared up his farm and has excellent buildings thereon; his farm is situated in close proximity to the city of Akron. They have three children—Almira (Mrs. B. F. Huffman), Joseph H. and George. Mr. Zeller is a Republican in sentiment. His brother Aaron served as a soldier in the late war, doing his duty manfully.

HUDSON TOWNSHIP.

JOHN BUSS (deceased) ; was born in Smarden, Kent Co., England, Sept. 28, 1811. His father's family emigrated to the United States in 1825, and settled in Sherman, N. Y. Mr. Buss resided with his parents until his 18th year, when he entered the Mayville Academy, afterward attending school at Dunkirk, N. Y. In 1833, he came to Hudson, intending to take a full college course, with the object of preparing himself for the ministry. He remained in the preparatory department for two years, and entered the Freshman class, but was finally compelled to abandon his studies on account of failing health. In July, 1836, he entered the store of Kent & Brewster as clerk, remaining with them until November, 1839, when he went to Columbia, Mo., and engaged as private tutor in the family of a Mr. Allen for about one year, thence to Lake Providence, La., where he taught school until May, 1841, when he returned to Hudson, Ohio. In September of that year, he formed a partnership with E. B. Ellsworth, in the dry goods business, in which he continued about three years, when he retired, and entered into partnership with T. M. Bond, in the store now occupied by his son. About three years afterward, Mr. Bond retired, the business being continued by Mr. Buss, until the stock was bought by Morrell & Ingersoll, in 1856. They were in business about two years, when Mr. Buss necessarily resumed control of the business again, and continued until 1867. Mr. Buss has served the people of Hudson in almost their every office. He held the office of Mayor two terms, being elected in 1858, and again in 1871. He was Corporation Treasurer four terms ; was member of the Council and Trustee for many years, and served as Justice of the Peace twelve years. He was married to Miss Eliza Goodman, Jan. 1, 1845. They had eight children, four of whom survive—Charles H. and Mary J., who reside here ; Mrs. C. R. Seymour, of Winchester, Mass., and Fred B., of Chicago, Ill. Mr. Buss enjoyed the confidence and esteem of his fellow citizens, which was won by his strict honesty and unswerving integrity. His remains were laid in "God's acre," on Dec. 1, 1880. On the

evening of his death, a meeting of citizens adopted resolutions expressive of the esteem in which Mr. Buss was held, and their sorrow at his demise. All places of public business were closed as the funeral procession passed through the village. Charles H. Buss became familiar with mercantile business by assisting in his father's store. He attended school at Western Reserve College, not completing a full college course. In 1876, he and Sebastian Miller purchased, in partnership, the stock of his father (John Buss), and conducted the business under the firm name of Buss & Miller. Subsequently, Mr. Miller withdrew, and Mr. Buss has since been conducting the business alone. He was married to Miss Mary Squire, Jan. 1, 1872. They have two children, viz., Augusta M. and John C. Mr. Buss was elected Corporation Treasurer, which office he has held two years.

HARVEY BALDWIN, deceased, son of Stephen Baldwin, was born in Goshen, Conn., Sept. 17, 1798. He came here from the old home when 16 years of age, in 1814, and accepted a clerkship in the store of his brother, where he remained about three years. On Oct. 6, 1817, he married Miss Anne Mary Hudson, daughter of David Hudson, who is frequently mentioned elsewhere in the history. Mrs. Baldwin was born Oct. 28, 1800, and was the first white child born within the limits of Summit Co. Mr. and Mrs. Baldwin turned their attention to farming and preparing for themselves a home, and to that end they moved to a farm some few miles from the site of Hudson, where they remained about three years. Mr. Hudson was desirous to have them reside near him, and therefore he made preparations to have them move, which they did, coming to the farm where Mrs. Baldwin now resides. Of their four children, the wife of Prof. Edwin S. Gregory is the only survivor ; those deceased are Anna N., who died when about 7 years old ; Harriet M., and Lucy S., the youngest, who died at 17. Mr. Baldwin was identified with the general improvement of the vicinity from the time he began to do business. He was one of the Trustees of the Western Reserve College for over forty years.

He remained in full possession of his faculties to the last, and passed away peacefully June 12, 1880. Mrs. Baldwin resides on the old homestead, in probably the oldest residence in the county; it was built by her father in 1806. She is possessed of extraordinary vitality for one of her age, and, although she is in her 81st year, she is as attentive to the duties of house-keeping as ever. She is the only survivor of a family of seven sons and two daughters.

F. W. BUNNELL (deceased); was born in Waterbury, Conn., July 6, 1820. He learned the carpenter's trade in his native place, and when about 21 years of age, he came to Ohio, locating at Hudson, where he established himself in the business of contracting and building. Among the buildings erected under his direction may be mentioned the Pentagon, the M. E. Church, and some of the best residences in this place, two churches in Twinsburg, and one church at Ravenna. These, in addition to many good residences throughout the country, are monuments of his workmanship. He married Marie Mansur Jan. 12, 1845. She was born in Hudson March 9, 1825, and the only daughter of Perley and Phylene (Bears) Mansur. Mr. Bunnell died here April 24, 1875, leaving a widow, but no children. Mrs. Bunnell's father, Perley Mansur, was born in New Hampshire, in 1800. He learned the blacksmith's trade in Boston, Mass., and, in 1823, he came to Ohio and stopped with his brother who had located in Delaware, Ohio. On account of malarial affections, which were then prevalent in Delaware and vicinity, Mr. Mansur disliked the locality, and he and his wife started with a horse and wagon for the North, hoping to find a more desirable location. On their way they stopped overnight at Hudson with David Hudson, who, on learning that Mr. Mansur was a mechanic, insisted upon his making this his future home, as there was much demand for the labor in which he was skilled in the then growing town. The citizens, being interested, were anxious for him to remain here, and, to assure him of their zeal in the matter, they set to work and built him a shop on Main street, near where Mr. Wadsworth's present shop is located. He worked at his trade about nine years, when he moved to a farm which he had purchased in this township. He engaged extensively in buying and selling cattle. This business he followed about twenty years, when

he retired from business, and moved to Hudson, where he died, in 1858, in his 58th year. His widow survived him until 1880, when she died at this place in her 78th year. They had two sons—George, of Cumberland Co., Ill., and James, in the real-estate business at Cleveland.

THOMAS BLACKBURN, farmer; P. O. Hudson; was born in Lincolnshire, England, Oct. 9, 1833. When about 25 years of age, he emigrated to the United States, and came direct to Summit Co., Ohio; he resided in Pennsylvania about three years. He enlisted in the 1st Ohio Light Artillery Sept. 10, 1861, and served almost four years. At various engagements he had two horses shot on which he was riding, and three others wounded, but fortunately escaped without being injured in the least. With the exception of two weeks, he was never off of duty during almost four years of continuous service. The regiment in which he was, opened the fight and closed it in the battle of Murfreesboro, which lasted seven days, and participated two days in the contest at Chickamauga; also at Shiloh, Franklin, second battle of Nashville and Perryville, Tenn. In the latter, their regiment lost heavily—18 men killed, 42 wounded, 68 horses were killed, and 7 guns were taken by the rebels. He returned to Summit County after his discharge, and April 10, 1866, he married Hannah Cowley, daughter of Joseph Cowley, of Tallmadge. They have three children, viz., Florence J., Henry J. and Lottie H. Mrs. Blackburn was born in England and came to the United States with her parents when she was 4 years old. Mr. Blackburn's father died in England; since then his mother emigrated to this country, and is now passing her declining years under the filial care of her son's family. She is in her 90th year and is very feeble.

CHARLES BOUTON, hotel and livery, Hudson; was born in Lake Co., Ohio, Jan. 3, 1829. His father, Seth Bouton, came at an early date from New York, and settled in Lake County, Ohio. They moved to Peninsula in 1836; they built a log cabin, a Mr. Beeres also building one at the same time; these constituted all the buildings or settlements at that time between Peninsula and Hudson. Here the Bouton family lived about twelve years, when they moved to Illinois, and where Seth Bouton now lives in his 82d year. When our

subject (Charles) was about 14 years old, he went to learn the boat-building trade with one Waterman, in Peninsula, where many canal-boats were built. When he was 19 years of age, he took charge of the boat-building business for Waterman, and remained until 21 years of age, when he concluded to go to California during the rush to the gold mines of that State, where he worked at mining for about two years, and met with reasonable success during his stay. Returning to Ohio, he resumed his trade at Peninsula, and in the winter would build a boat and run it during the summer, then dispose of all in the fall of the year; this he followed for about five years. In 1859, he, in company with Henry Johnson, purchased a yard and dry-dock and conducted the boat-building business until 1873, when he sold out. To Mr. Bouton belongs the credit of building the first round-stern propeller canal-boat ever in use, and, up to this date, he built the last boat that has been built in Peninsula in 1872. When he sold out in 1873, he came to Hudson, and purchased the Mansion House property in 1874, and has been in the hotel and livery business since. He has been twice married, first in April, 1854, to Helen A. Johnson, daughter of Henry Johnson, of Boston Township; she died May 29, 1872, leaving three children: Lillie B., now wife of R. K. Pelton, of Cleveland; Lawson and Clarence. His second marriage was celebrated with Ada D. Crosley, of Cleveland, in April, 1874.

WILLIAM CHAMBERLAIN, deceased. With his wife and several children (viz., Joseph, William, Amos, Reuben, Samuel, Philemon, Asahel, Hiram, Lucy, Lydia and Mary) emigrated from Connecticut to Ohio, and settled in Hudson Township, in 1809. One daughter, Ann, married a Mr. Case, and located at Granville, Ohio. They were among the early pioneers of the county, and applied themselves to clearing the land and making general improvements; bearing the many privations with a determined resolution to overcome every obstacle. Being industrious, they laid the foundation of material prosperity. All except Hiram have long since mingled their dust with that of mother earth. The representatives of the family still in this vicinity are the lineal descendants of Amos, the third son of William. He (Amos), was a youth of about 16 years when his parents came here; he took jobs of

chopping by the acre, and chopped much of the timber in this vicinity, and thereby procured some means to buy a piece of land for himself. He married Jerusha Crane, who came to Ohio from Connecticut, at an early date, with her parents. They had ten children, nine of whom grew up to maturity, viz., Horace A., Harris B., Schuyler M., Laura M., Jerusha A., Catharine R., Orville W., Cordelia M. and Henry H. Both Amos and his wife died here, at an advanced age.

HARRIS B. CHAMBERLAIN; P. O. Hudson; was born May 20, 1819, on the old homestead, in this township. Having been reared to farm life, he began in the same pursuits, and has followed the same all his lifetime. His course of education was that received at the common schools. In October, 1850, he married Miss Maria Henry, daughter of James Henry, of Aurora, Ohio. They located on a farm in the vicinity of his early home, which was formerly the home of John Brown, of Harper's Ferry fame, where they have resided ever since. Their union was blessed with three children, viz., Eliza, now Mrs. D. C. Bentley; Ella, now widow of Henry Ellsworth, and Clara. Mrs. Chamberlain was born May 4, 1820, in Aurora; is the youngest of nine children born to James and Sarah (Cochrane) Henry. He was a native of Connecticut, but moved to Harpersfield, N. Y.; thence with his wife and three children to Aurora, Ohio, in 1804. They were the third family to settle in that place; there Mr. Henry officiated as Justice of the Peace for many years. At a very early date in the history of Ohio, his wife's father, John Cochrane, located about 1,400 acres, and when on his way out with his family, he took sick, and died at Buffalo, N. Y., and was said to be the first white man to die at that place. Of James Henry's family, those surviving are the widow of F. Booth, of Twinsburg; Harvey H., of Iowa; Gilbert H., of Emporia, Kan.; Mrs. Blanchard, of Lyons, Mich., and Mrs. Chamberlin.

SCHUYLER M. CHAMBERLIN, farmer; P. O. Hudson; was the third son born to Amos Chamberlin, which occurred Nov. 3, 1821. He received a fair education in the common schools and turned his attention to farming, and by care and industry has been quite successful. When about 22 years of age, he married Miss Jane E. Bliss. They began on a farm almost all in woods, which his father gave him, and

which he improved, making a comfortable and pleasant home. They have three children, viz., R. R., in Hudson; Geo. S., in Streetsboro Corners, and Julia B., now Mrs. Robert White. Mrs. Chamberlin's parents were Josiah and Sarah (Cooley) Bliss, natives of Springfield, Mass. Mr. Bliss died in Massachusetts, leaving a widow and four children. One of them—Sarah A.—remained in Massachusetts; the three other children—William B., George J., and Jane E., now Mrs. Chamberlin—with their mother, emigrated to Ohio in 1830. Mrs. Bliss died in Aurora, Portage Co. Her son, Geo. J., is a minister of the Gospel in the Methodist Church in Cleveland; William B. enlisted during the war of the late rebellion, and was seriously wounded at the second battle of Bull Run, and after lying eight days on the field in a disabled condition, he was found alive; he died soon afterward of exhaustion.

CARROLL CUTLER, President of the Western Reserve College, Hudson; was born Jan. 31, 1829, in Windham, N. H. He was the third child born to Rev. Calvin and Rhoda (Little) Cutler. The Rev. Calvin Cutler was a native of Vermont, and a graduate of Dartmouth College. In 1822, he entered the ministry under the auspices of the Presbyterian Church in New Hampshire. He was energetic in establishing schools, and liberal in their support whenever dependent on private subscription, thereby providing the best possible school facilities for his large family. President Cutler began to teach school when about 17 years of age; and at 18 years he entered the Phillips Academy, at Andover, Mass. In 1850, he entered Yale College, and graduated in 1854. At the close of his collegiate course he taught in Bloomfield, N. J., one year; then entered the Union Theological Seminary at New York. He was appointed tutor in Yale College in 1856, where he remained two years. Aug. 10, 1858, he married Miss Francis E. Gallagher; they went to Europe, where Mr. Cutler spent a year in study, and traveling, returning to New Jersey in 1859, and in April of the following year he was appointed Professor of Mental Philosophy and Rhetoric, in the Western Reserve College. In 1871, he was elected President of the College. They have one child, Susan Rhoda. Mrs. Cutler was born at Sackett's Harbor, N. Y. in 1828. She was the daughter of Capt. J. H. Gallagher, of the U. S. A. He

resigned his commission in the army, and entered the ministry in 1838, His religious views accorded with Presbyterianism and in that faith he was ordained, and preached thirteen years; when on account of failing health he was obliged to withdraw from pastoral duties.

SIDNEY COLLAR, farmer; P. O. Hudson; was born in Warren Co., Vt., Aug. 2, 1808. His father (David Collar) was a carpenter and millwright by trade, and when our subject was about 5 years old, the family moved from Vermont to New York. In 1820, they moved to Ohio with a family of fourteen children, and in 1826 they located in Hudson; but his father removed to Lorain County, where he died many years ago. Sidney was the second child and eldest son of fifteen children (one died before they came to Ohio) in all eight boys and seven girls; he began on his own account when about 19 years old. He married Carolina Stone Dec. 23, 1830; she was the daughter of Nathaniel Stone who came here in 1810. Mrs. Collar was a babe only 6 weeks old when her parents left Connecticut. Soon after his marriage, Mr. Collar bought 33½ acres where he made a comfortable home, which he finally sold and removed to the farm where he now lives in 1835; and on which he has lived ever since. It was all heavy timber at that time, through which the deer fearlessly ranged. Mr. and Mrs. Collar had three children—Carolina L., who was married to Mr. Draper, and is deceased; Emeline E. was wife of Alph. Stone, and died in Michigan; and Sarah, who is Mrs. S. Griest, who resides with Mr. Collar and has charge of the farm. Mr. Griest was a volunteer in the late rebellion, serving in Co. E. 88th Ind. V. I.; at the close of the war he returned to Ft. Wayne, Ind., from which place his regiment came. But soon after the close of the war he returned to his native place (Summit Co., Ohio) where he was married and resided ever since.

M. CHAPMAN, farmer, P. O. Hudson, was born in this township, west edge of Lot 84, Dec. 18, 1821, son of John and Eliza (Bassett) Chapman. Mathew was the eldest of a family of seven children, who were, Harriet, Mary, Ellen, John, Henry and Rufus. Our subject was raised to farming pursuits. In April 1849, he was married to Sarah B. Waite, born Sept. 25, 1828, in Boston Township, daughter of Benjamin and Sarah Chapman, whose maiden name

was Kent. The above were early settlers in Boston Township. With the exception of a few years of his early married life, which was spent in Boston Township, he has been a constant resident of this township, and engaged in farming and stock trading; has 280 acres of land, and is a neat and successful farmer; has two children—Emily E., now Mrs. W. Morse, of Cleveland, and one son, William H., on home farm. John Chapman, the father of Mathew, was born in England, about the year 1788; at age of 13 was pressed into the British Navy, and during the war of 1812, served on the flagship Queen Charlotte. At the time of Perry's victory he was captured by the Americans, taken to Chillicothe, where he spent one winter, then taken to Cleveland and exchanged. Shortly after, he came to this locality and engaged as a farm laborer; saving some means, he made his first purchase into Wadsworth Township, Medina County; afterward, traded his farm for land in the northwest part of this township, locating there about the year 1829, where he died Jan. 15, 1866, having at the time 150 acres of land. He and wife were members of the Congregationalist Church; was Democratic in sentiment and a worthy citizen of the community.

LORA CASE, retired farmer; P. O. Hudson; was born in Granby, Conn., Nov. 17, 1811. He is the fifth child and second son born to Chauncey and Cleopatra (Hayes) Case, who were natives of Connecticut. They emigrated to Ohio with their five children, viz., Laura, Chauncey, Clarinda, Parintha and Lora. They located on the farm, now owned by Henry, on July 4, 1814. In company with the Case family was Gideon Mills and wife (the latter was a sister of Mrs. Case), drove through, one with an ox team, and Mr. Case with a team of horses. For the nourishment of their children on the journey, they drove along a milch cow; it took them six weeks to drive from Connecticut to Hudson. Mills and his wife died many years ago in Hudson. Suggestive of the inconvenience and almost impossibility to procure some of the necessaries in pioneer days, we refer to a trip made by Mr. Chauncey Case and his ox team to Cleveland for a barrel of salt for himself and Dr. Moses Thompson, and for which he paid in cash \$22, and occupied four days to go and return. There were five other children born to Mr. and Mrs. Case after their removal

to Ohio, viz., Edward, Lucian, Henry, Amelia and Maria. The ten children all lived to maturity. Laura died when about 21 years of age. Chauncey and Lucian reside in Macomb, Ill.; Clarinda was the wife of Alvin Loomis, she died in Hudson; Parintha married Amos E. Wood, of Wood Co., Ohio, both deceased; Edward moved to Troy, Kan., where he died; Amelia is wife of Charles Hunt, of Cuyahoga Falls; Maria is widow of John Gross, of Hudson. When Lora was about 25 years old, he began for himself. He married Sarah A., daughter of Thomas Wright, who came here from Connecticut at an early date, May 10, 1837. They located in Streetsboro, Portage Co., and in 1864, they removed to Hudson Township. They had five children, three lived to maturity—Chauncey, George (deceased), Mary E., Julian W. (deceased) and Wilber L. Mary E. is now Mrs. S. E. Scott formerly of Mentor, Lake Co., and who has entire charge of the farm. Mr. and Mrs. Case reside with Mr. Scott in their ripening years.

HENRY CASE, farmer; P. O. Hudson, was the son of Chauncey and Cleopatra (Hayes) Case, and was born Oct. 30, 1817. He was brought up to farm life, and received a fair education in the primitive schools of his time. Oct. 29, 1847, he married Mary L. Goodman. She was born in New Hartford, Conn., Sept. 7, 1828. They have eight children living, viz., Nelson, Eugene, Franklin (deceased), Eliza (deceased), John, Edmond, Hattie, Frederick, Mary and Clara. His father is mentioned in the sketch of Lora Case, and date of emigration to this State. They succeeded admirably, considering the many privations and wants of a numerous family of helpless children in the primitive forest. They erected their commodious brick residence about 1832, and was one of the first if not the only brick residence in the county at that date. The old folks died here on the old homestead; he in 1864, in his 85th year, and she in 1867, in her 87th year.

DARROW FAMILIES. Hudson, of this vicinity are the lineal descendants of Joseph and George Darrow, who were natives of the State of New York: had moved into Connecticut, and thence to the Western Reserve, with the emigrating party under the direction of David Hudson, in 1800. They were young men, respectively about 25 and 23 years of age, when they came here. They located about

two miles south of Hudson Center, where they built and made general improvements, and soon their settlement showed signs of thrift and prosperity. And, as their families multiplied, they generally settled in the same vicinity, hence the name "Darrow street," was given to the road leading south from Hudson through their settlement. A younger brother, James, came here a few years subsequent to the first settlement, but remained only a short time, when he removed to the vicinity of Lebanon, and joined the sect known as the "Shakers," where he died several years ago. Joseph, married Sarah, daughter of Simeon Prior, in 1803; they had thirteen children; two died in childhood, four in youth, and seven lived to maturity, viz.: Polly, Lyman, Abbey, Sophia, Julia, Sarah A. and Charles. Of these only three survive—Lyman in Missouri; Julia, at Lebanon, Ohio, and Mrs. Hial Danforth, of this place. Abbey married Ransom Miller; they moved to Missouri, where she died; Polly, was widow of John Walker and died here (Sarah A. is the deceased wife of Dr. H. Danforth). The wife of Joseph Darrow died May 30, 1847; he survived until Nov. 13, 1856, when he died in his 82d year.

GEORGE DARROW was married to Olive, daughter of Joel Gaylord—date indefinite—but not later than 1801 or 1802, and are said to be the first couple married in Hudson. They reared eight children to maturity—four boys and four girls; several died in childhood. Eliza was married three times; first to Seth Fifield, next to D. Bates and last to Orin McNeal. They moved to Iowa where she died in 1878. David was twice married, his first wife being Sophia Hawkins, and after her death he married Chloe Hayden. While digging a well on his premises in 1850, he met with a sad fate; he had begun to "wall" it up when the banks caved in and killed him. Amanda was wife of David O'Brien; they are both deceased. Charlotte was wife of Homer Oviatt, and died in Hudson. George was a blacksmith by trade and worked on the old homestead for some time. He moved to Texas, thence to Iowa, where he enlisted and served as Drum Major. He died in hospital of disease contracted in the service.

DANIEL DARROW was born Oct. 15, 1816, on the old homestead where William resides. He got a fair education studying for a term in the

Preparatory Department of Western Reserve College, and one term at Tallmadge. When 18 years of age, he began teaching school, and taught nine winter terms, working on the farm during the summer. He married Elizabeth A., daughter of William Norton, March 22, 1849. (She was born near Harrisburg, Penn., Feb. 22, 1828, and came to Ohio with her parents when quite young.) They reared four children, three of whom are living, viz.: Celia, wife of J. A. Conaro; Julia, wife of Luther B. Wetmore; and Irwin D.; he married Lottie Moore.

WILLIAM DARROW was born where he resides, Oct. 12, 1818; he was reared to farm life, and always followed the pursuits of a farmer. He married Harriet E. Deacon, Dec. 15, 1842. (She was born June 26, 1823, in Hudson. Her father, Henry Deacon, settled here in 1806.) They had eight children, four of whom are living—George H., La Fayette, William M., and Mary, now wife of J. Morris; Emma (deceased) was wife of H. D. Nickerson; Olive went to Iowa and there married Thomas McNeal. During the war of 1812, George Darrow volunteered his services and rose to the rank of Colonel. In the early settlement of the country, his residence was turned into a hotel, where he entertained the weary travelers and teamsters who were ever passing and in need of refreshments. His wife was called away Aug. 9, 1845, but he survived until 1860, when he died at a good old age, being upward of 80 years.

DANFORTH FAMILY; although this family cannot be considered among the pioneers of the county, yet they were early settlers, and those who remained became influential and respected citizens in the community. The progenitor of those bearing the name in this vicinity was Enoch Danforth, a native of New Hampshire, who in due time married Hannah Haines. They moved from their native place to St. Albans, Vt., where they resided several years, when they resolved to emigrate to the west. In the autumn of 1821, Mr. and Mrs. Danforth, with their seven children, set out for Ohio, and in November of that year they arrived in this county, and located on what is now Darrow Street, in Hudson Township. They had been here less than two years, when Mr. Danforth concluded to remove to Illinois; in the meantime their eldest daughter, Sabrina, had been married to Hiram Thompson, and

located here. Mr. and Mrs. Danforth, with seven children, as their family was increased by one while residing here, started for Illinois, and got as far as Sandusky, where they were winter-bound; there they made provision for spending the winter, expecting to resume their journey as early as possible in the spring. But in this their hopes were blighted, as sickness assailed the family, and death removed their babe; next the grim messenger summoned the devoted husband and father, leaving a widow and six helpless children, viz.: Hial, Mary, Lovina, Harrison, William and Judy, who were but meagerly provided for, as traveling and sickness had exhausted much of their means. After Mr. Danforth's death, his widow and children retraced their steps to Hudson. To procure the means of support, the three boys, though mere youths, began to work in this vicinity—Hial, with one John Sawyer; Harrison, with Capt. Oviatt; William, with Horace Metcalf; and in these places they remained until they arrived at manhood and began to do for themselves. Mrs. Danforth and three daughters returned to Vermont. With the expectation of recuperating his failing health, William sailed from Boston on a whaling vessel when about 22 years of age; but died in the Sandwich Islands, where the vessel called. Hial was the second child and eldest son of Enoch and Hannah Danforth; he was born in New Hampshire, June 8, 1808; by the time he had arrived at manhood he had learned the art of boot and shoe making, with Mr. Sawyer, with whom he resided; he opened a shop on Darrow street and began business on his own account when about 23 years of age, and was soon afterward joined by his brother: they conducted the business about ten years, when Hial purchased a small farm, to which he has added until he owns 120 acres of good land, which constitutes a good home, where his advanced years are passing in a quiet, retired manner. He married Sophia, daughter of Joseph Darrow, May 4, 1831; they had five children—Mary, Milton C., Helen (who is wife of Virgil T. Miller), Charles and Edmond E. Milton C. and Helen are the only survivors of their children. Mrs. Hial Danforth was born March 31, 1810; she was the fourth of thirteen children born to Joseph and Sarah (Prior) Darrow.

DR. HARRISON DANFORTH, physician, Hudson; was the fifth child and second son

born to Enoch and Hannah (Haines) Danforth, in New Hampshire, April 15, 1814. As already stated in the sketch of the Danforth family, the Doctor was early left to do for himself, on account of his father's death. When about 21 years of age, after associating himself in business with his brother Hial, his ambition was unassuaged. Having a decided inclination for the study of materia medica, he entered upon the study of medicine with a zeal worthy of the profession, and became an ardent student under Israel K. Town, M. D., of Hudson. After some years of study and experience, Dr. Danforth diverged to some extent from the allopathic system of practice. He adopted the views of the eclectic school, and has practised his profession for a period of more than thirty years, in this vicinity, with more than ordinary success. The first ten years were divided between the duties of his business and profession. But about the date of the outbreak of the rebellion, he sold his farm and has since given his whole attention to the practice of medicine, and enjoys the confidence as well as much of the patronage of the community in which he has resided for the last sixty years. Space forbids us enlarging on the struggles and temptations intervening between the condition of the poor boy, without even parental advice and the desirable sphere which he now enjoys. He married Sarah A., daughter of Joseph Darrow, September, 1836; to them were born six children viz., Francisco L., Lovina A., Mortimer W., Theodore C., Edwin H. and Clarence E. Mrs. Danforth died in September, 1869. The Doctor married a second wife, Martha Holton, Feb. 28, 1874. In 1861, Francisco and Mortimer responded to the first call for soldiers, but were discharged, the requisite number being enrolled. Mortimer W. re-enlisted at the second call in Co. G, 115th O. V. I., and served until the close of the war. He was taken prisoner at Nashville, Tenn., on Dec. 4, 1864; stripped of all his valuable effects, including a pair of good boots, and marched barefoot to Meridian, Miss., and suffered terribly from exposure, his feet and legs, to the knees being seriously frozen. He was transferred to Andersonville in March, where he was imprisoned when the war closed. Was discharged at Jacksonville, Fla., in June, 1865, and returned home, studied medicine with his father, and graduated at Philadelphia Medical College.

and is now practicing in Kent Co., Mich. Clarence E. is a graduate of the Columbus Medical College, Columbus, Ohio, and also practicing his profession in Kent Co., Mich.

HENRY DEACON (deceased); was a native of Lancaster, Penn., born about the year 1795; son of Marmaduke and Mary (Carter) Deacon, whose offspring were Robert, Betsy, William, Henry and John. Marmaduke was a native of Ireland, son of Robert Deacon. Marmaduke settled in Pennsylvania, where he remained until his removal to Ohio, locating in Hudson Township in 1805, where he purchased about 210 acres, in the southwest part of the township, where he lived until his death, which occurred in 1832—that of his wife in 1806, one year after their arrival in this county. Her death was occasioned from the effects of a scare. The Indians made a raid upon her, while her husband was gone to mill, threatening to scalp her if she did not reveal the supposed place of her husband's money. Henry, his son, succeeded him, and occupied the farm. He was married to Elizabeth Carter, Feb. 14, 1821, and by her had seven children, whose names were: Mary A., born Dec. 25, 1821; Harriet E., born June 26, 1823; William C., born Jan. 16, 1825; Fannie, born Dec. 5, 1828; Elizabeth, born Oct. 9, 1830; James, born June 14, 1833; Henry H., born June 17, 1839; the latter being the sole surviving member of the family. Henry Deacon, the father of the above, died Feb. 12, 1877, his wife two days later, after a life companionship of fifty-six years. They were both buried in one grave. Mr. Deacon was an industrious and successful farmer, a man of quiet and unpretentious disposition, who always remained at home and attended to his own personal affairs; was always vigorous and healthy, and, up to the time of his sickness, was never sick a day in his life. Although living many years near a railroad, never was in a coach or rode in one. His son, Henry H., now owns and runs the farm; has never married.

JOHN DEACON, retired farmer; P. O. Hudson. One among the oldest living pioneers of this township is the above, who was born in Lancaster, Penn., Nov. 28, 1802, and came out with his father, Marmaduke, in 1805, and for three-quarters of a century has remained constantly on the farm his father located on. April 5, 1832, was wedded to Julia Ann E. Lawrence, who was born May 23, 1813, in Cin-

cinnati. Her parents were Martin C. and Submit (Griffin) Lawrence. He was born in Dutchess Co., N. Y., March 20, 1793. He was a son of Chauncey and Sallie H. (Clark) Lawrence, who were born Sept. 25, 1767, and Sept. 19, 1769, respectively, and were blessed with fifteen children. Chauncey's father was Uriah, who was born Dec. 25, 1720; married Aug. 13, 1743, to Mary Clark, who was born Jan. 15, 1725. The Lawrence family trace their ancestry to one Robert Lawrence, of Lancastershire, England, born in Rome, 1150. He was an officer attending his sovereign, Richard I, and for meritorious conduct was knighted Sir Robert Lawrence. There is an estate now of over \$100,000,000, consisting of real estate and money in the Bank of England, now awaiting the proof of title to ownership, of which Mrs. Deacon is an heir. John Lawrence (the great-great-grandfather of Mrs. Deacon) married Mary Townly, daughter of Lord Richard, whose wife was Mary Widrington. Both of the above had estates which were willed to their heirs, of which heirs are those of Mary (Townly) Lawrence. Mrs. Deacon came West to Ohio with her parents in 1818, who located in this township. To Mr. and Mrs. Deacon have been born eleven children, ten living: Horace, John W., David, Emily, Cyrus B., Edmond W., Lucinda E., Lewis, Frederick B., Louisa M., Caroline M., deceased. Mrs. Deacon has been a member of the church since 15 years of age. On account of the feeble health of Mr. Deacon, the care and management of the farm has fallen upon his wife, who conducts it successfully.

EDWIN DEWEY, retired farmer; P. O. Hudson; was the son of Stephen and Percy (Mosley) Dewey, of Westfield, Mass., where he was born Sept. 17, 1795; he moved into the State of New York, and, when about 22 years of age, he, with several others, moved to Ohio and settled in Portage Co., where he farmed for several years alone, then returned to Massachusetts and brought his parents and several younger children along with him to Ohio. Having learned the shoemaker's trade in Massachusetts, he applied himself to the same for several years in Portage Co., in connection with his-farming. He has been married three times—first, to Eva Haymaker, May 7, 1820; she died in April, 1825, leaving three children—Charles, Electa (wife of John Beckwith) and Eva (widow of A. Hackett); his second mar-

riage was celebrated Sept. 11, 1826, with Ann Spears; she died Jan. 3, 1868, leaving one child—Isaac; his present wife was Eliza, a daughter of Elisha Perkins, formerly of New York, but moved to this county and settled in Northampton Township at an early date. Mr. Dewey removed from his farm in Portage Co. to Darrow Street in Hudson, in 1864, where he spends his advanced years in the enjoyment of a pleasant home.

JAMES DITTY, tinner and hardware merchant, Hudson; was born in Toronto, Canada, Feb. 2, 1849; his parents were Sanderson and Ann (Foster) Ditty, who emigrated from the north of Ireland to Canada in 1841; his father died when James was about 5 years old, leaving a widow and a large family. When about 15 years of age, he was apprenticed to the tinner's trade, in Toronto, continuing for five years; he worked at journey-work there for some time, and, in the spring of 1868, he came to Cleveland, where he worked two years; in 1870, he came to Hudson and worked for J. L. Chapman two years, and afterward eight years for John N. Farrar; in January, 1881, he purchased the tin and hardware stock of J. L. Chapman, and, from a business point of view, is beginning a new era in his affairs. He married Sarah A. Hussey, of Toronto, Canada, January, 1867; they have five children—Lillian, Walter, Annie M., Ralph and James S. Mr. Ditty is establishing a good trade, and carries an assortment of general hardware and stoves.

PHILLIP FILLIUS (deceased); was born in Bavaria, Germany, April 6, 1806. He emigrated to the United States in 1833, and located at Cleveland, where he remained four years. He married Anna Barbara Keis, in 1837, and soon after moved to a farm in Hudson Township, Summit Co. Here they resided, and reared a family of nine children, viz., Catharine, wife of James Corbett, of Missouri; Lizzie, wife of John Thomas, of Indiana; John, Phillip and Jacob are residing in Georgetown, Colo., the latter a member of the bar of that town, John, being interested in mines there. Josephine is wife of Alexander Nesbitt, of Northfield Township; Ella, wife of Perry Sherman, of Michigan; Charles, member of the bar at Cuyahoga Falls, and Ernest, who resides on the farm. Mrs. Fillius was born in Wurtemberg, Germany, Aug. 15, 1817, and came here with her parents, who emigrated

early in April, 1831, and arrived in Cleveland in August of the same year, after four months' traveling, almost weary of life itself. Her father's name was Frederick Keis. There were of them six children, five girls and one boy. Mr. Fillius died on his farm, where he first located in Hudson, June 14, 1878. Ernest was born May 20, 1856. He married Irene Carson, daughter of David Carson, formerly of Pennsylvania, now of Michigan, Aug. 17, 1880. They reside with his widowed mother, and is the only one of the family now with her.

PROF. E. S. GREGORY, retired, Hudson; was born in Fleming, N. Y., April 20, 1828. His father, William Gregory, was a native of Connecticut, and was twice married. His first wife died, leaving four children, viz., William, Eben, Munson and Marie. In 1829, Mr. William Gregory walked to this State on a prospecting tour, traveling to Cleveland, which was then a mere hamlet; thence to Hudson; thence westward about seventy-five miles, where he purchased, of a settler, 204 acres of land, having some trifling improvements and a log cabin, for the sum of \$1,100. He returned to New York for his family, which consisted of his four eldest children, second wife and two babies, E. S. and Lydia. They came by canal to Buffalo, thence by lake to Huron, thence by wagon to their new home in the almost unbroken forest, in 1830. Harmon, the youngest of the family, was born after they came to this State. Mr. Gregory prospered in his new home, and, by dint of industry, made the forest give place to the fields of grain. Both himself and wife are now deceased, he dying in 1868, and she in 1879. Prof. E. S. Gregory was the eldest child of his father's second marriage, and was only about 2 years old when brought here by his parents. His early life was that customary to farmer boys, until he was about 16 years of age, when he began teaching school. A year later, he entered Baldwin University, near Cleveland, remaining for some time. He entered the Preparatory Department of the Western Reserve College in the spring and fall terms of 1847, and taught school during the winter months. He entered the Western Reserve College in 1848, remaining three years, when he entered Harvard College, where he graduated in 1852. He accepted the superintendency of the public schools of Monroeville for one year; thence to the Western Reserve College at Hudson as Principal of

Preparatory Department, which position he held seven years. He was appointed Assistant Professor of Latin, and served as such in the Western Reserve College from 1860 until he resigned six years later. He moved to Youngstown, and was appointed First Principal of the Payen High School, which position he retained for thirteen years. While there, he spent much labor and time in analytical chemistry, which has been his study for some time. He married Clara M. Baldwin, July 28, 1852, she being the only surviving daughter of Harvey Baldwin. They have two children—Hattie M. and Anna.

CHARLES G. GUILFORD, editor and proprietor of the *Hudson Enterprise*, was born in Lanesboro, Berkshire Co., Mass., in October, 1834. Served an apprenticeship to the printing business in the office of the *Berkshire County Eagle*, in Pittsfield, Mass., from 1848 to 1852. In the fall of the latter year came to Ohio, and entered the employ of the *Cleveland Herald*. In 1854, went to Waterbury, Conn., where for six months was one of the publishers of the *Naugatuck Valley Democrat* (a semi-weekly paper.) Disposing of his interest in the *Democrat*, Mr. Guilford returned to Ohio and again entered the employ of the *Cleveland Herald*, remaining there in various capacities until the breaking-out of the war, when he enlisted in Battery B. 1st O. V. L. A., Capt. Stondart, serving during the entire war, at the close of which he resumed his position on the *Herald*. In April, 1875, he removed with his family to Hudson, and two years later, May 1, 1876, he purchased the *Hudson Enterprise*, at that time a little amateur sheet, unknown outside of the village where published. Entering with his whole heart into the work of building up the paper, Mr. Guilford has succeeded in making the *Enterprise* a journal suitable to Hudson and the county. He has a pleasant little farm of 20 acres about a mile east of the village where he resides. It is located on a ridge, said to be the highest point of land in the county, and from which can be obtained a view of four of the surrounding villages.

REV. HENRY B. HOSFORD, retired minister, Hudson; was born in Williamstown, Mass., Dec. 17, 1817. He was the son of Stephen and Annie (Brown) Hosford, who were natives of Massachusetts. His father was a merchant and manufacturer in Williamstown. Our subject entered Williams College in 1839,

and graduated in 1843. When his collegiate course was finished, he taught in the Hopkins Academy for one year, and then returned to Williams College, where he taught four years. During these four years, he studied theology privately, and, in 1839, he was ordained a minister of the Congregational Church, at Jordan, New York. He returned to Massachusetts in 1850, and had charge of the congregation at Sunderland until 1853; that summer he filled the place in Williams College left vacant by the Professor of Mathematics, who had taken a vacation. In January, 1854, he was appointed Professor of Intellectual Philosophy and Rhetoric in the Western Reserve College at Hudson, which position he resigned six years afterward. He was engaged in the Sanitary Commission at Chattanooga and Nashville, Tenn., during the two last years of the war. On his return from the South, he resumed his ministerial labors in the neighboring churches which extended to Akron, Cuyahoga Falls, Hudson, Kent, Rootstown, Atwater, Twinsburg and Streetsboro; and frequently preached at other places. He married Miss Mary E., daughter of Benjamin Plant, of New Hartford, N. Y., Sept. 3, 1850. Mrs. Hosford was born June 17, 1824. They have seven children viz., Sarah A., wife of Rev. John P. Jones, now a missionary in South India; Frances J., Mary E., Harriet M., wife of Chas. W. Foote, of Akron; Henry H., Helen P. and Daniel M. Mr. Hosford conducted the Female Seminary in Hudson during the school term of 1874-75. Since failing health has compelled his retirement from active life, he attends to insurance at his home, representing five substantial companies.

S. E. JUDD, real estate and insurance, Hudson; was born in Watertown, Conn., June 13, 1813. His ancestors were a people of remarkable longevity, and were early settlers of that State. His great-grandfather purchased from some Indians the title to some property in the early settlement of the colony, which is owned by representatives of the family to this day. His father's parents were the first settlers of Watertown, Conn., his grandmother being the first child baptized by the first resident minister, in 1739. She died at the advanced age of 100 years. Mr. S. E. Judd was the son of Eleazer and Lydia (Brownson) Judd. He was engaged extensively in the manufacture and sale of cloaks for several years. He was married

April 6, 1836. to Mary L. Strong, who was born April 19, 1811, in Connecticut. In July, 1851, they emigrated to Hudson, Ohio, where he entered into the real estate and insurance business, and, although not an early pioneer of the place, he has been identified with some of its public improvements. He has been twice elected Mayor of Hudson. In 1871, they removed to St. Paul, Minn., but returned to Hudson in 1873. Their only child, Jennie S., is the wife of Dr. F. Hodge. Mr. Judd visited his native town, and participated in the one hundredth anniversary of its incorporation on June 17, 1880. The insurance companies represented by him are the Aetna, North American, Manhattan of New York, Niagara of New York, Watertown of Watertown, N. Y., Lancashire Insurance Co. of England, Ashland County Mutual, of Ashland, Ohio, and the Aetna Life of Hartford, Conn.

LUTHER F. KILBOURNE, farmer; P. O. Hudson; is the second son of Justin E. and Mary A. (Fitch) Kilbourne, and the only survivor of the family. He was born where he resides, March 20, 1842. His business has always been that of a farmer, except four years, when he was appointed Guard at the Ohio State Penitentiary, at Columbus. He returned to Hudson and took charge of the farm. He married Mary A. Briggaman July 2, 1873. They have two children living, Francis H. and Cornelia E. His grandfather, George Kilbourne, was born in Berlin, Conn., Nov. 19, 1769. When 26 years old, he married Almira Wileox, of Simsbury. After residing in Farmington and Goshen for about ten years, he joined the emigrant party which was induced to come hither by David Hudson. Mr. Kilbourne traded his property in Goshen to Birdsey Norton, and in part payment took land in Hudson Township. The party left Goshen, Conn., Sept. 1, 1801, their teams being all ox teams except one. Mr. Kilbourne was obliged to buy a horse by the way to assist his oxen, in consequence of the warm weather and hilly country. They proceeded nicely, their course being through Reading to Womelsdorf, thence via Lebanon, Harrisburg, Carlisle, Shippensburg and Strasburg, where they came to the mountain called the "Three Brothers," a part of the Alleghenies; after three days hard work they got over; but two days later they began climbing the hills again, when their horse tired out, and they sold him to a widow who lived there for one loaf of

bread. They pushed on with a single yoke of oxen until they were almost exhausted, when a stranger passed with an ox team which he offered for sale. Mr. Kilbourne bought them, paying in part some boots and shoes which was part of his load. They came on through Bedford, Somerset, and so on to Pittsburgh. They crossed the Ohio about ten miles below Beaver; from there they proceeded to Griersburg, and so on until they struck the southeast township of the Western Reserve, where they found many old acquaintances from Connecticut who lent them a helping hand as they passed through. When they came to Ravenna, Mr. Kilbourne sold his wagon for a cow and some grain to support him through the winter, and on the sixtieth day of their journey they arrived in Hudson. Mr. Kilbourne stopped with Mr. Bishop until he got a cabin built. In the course of two years, Mr. Kilbourne had cleared about 25 or 30 acres of land, when, in the spring of 1803, unfortunately, he got his thigh broken by a piece of timber falling on him while assisting to raise a building. This together with ague disabled him from doing any farm work for two years. With the help of the oldest boy, who was 7 years old, his wife was obliged to cultivate the land and attend to domestic affairs as well. By her untiring energy, she succeeded in supporting the family until 1805, when he found it necessary to sell the farm and resume his trade, which was tanning and shoemaking. To this end he moved to Newburg, it being an old settlement. Remained there three and a half years, when, by the persuasion of Rev. David Beacon, he moved to Tallmadge, where he resided nine years, cleared a farm, and was prepared to live comfortable during the remainder of his life. His son-in-law, Capt. Oviatt, induced him to return to Hudson, where he died March 14, 1865, in his 97th year. His noble wife had preceded him in death Dec. 19, 1859, in her 88th year. They reared six children—Sophia, Asahel, George, Timothy E., Eliza and Justin E. Justin E. married Mary Amanda, daughter of Col. Fitch. They were the parents of Luther L. Mrs. Justin Kilbourne died March 20, 1876, and he in Nov. 16, 1880.

M. A. LUSK, retired farmer; P. O. Hudson; born June 2, 1803, on Lot 77, in this township, having been a resident of the township well-nigh fourscore years, and is the oldest living resident. His father was Capt. Amos Lusk.

who commanded a company during the war of 1812, and died the year following, May 24, 1813, aged 40 years. He came to this township in 1801, when it was an unbroken wilderness. His wife was Mary Adams, who was born in Stockbridge, Conn., May 15, 1768, a daughter of John Adams, who was a cousin of John Quincy Adams, who graced the Presidential chair. Mary (Adams) Lusk, the mother of our subject, died Jan. 20, 1843. She was the mother of nine children, among whom was Dianthe, who was born June 12, 1801. June 21, 1820, she married John Brown, of Osawatomie, Kansas, and Harper's Ferry fame, and by him had five children, viz., John, Jason, Ruth, Owen and Frederic. Our subject was left fatherless at the age of 10. Learning the hatter's trade, he followed this vocation for several years. At the age of 23, he married Dency Preston, born in Canton, Mass.; she died of consumption; by her he had Henry, Loring, Charles, Lucy and Amos. Loring was killed by cars running over him—was a brakeman. March 31, 1843, married Mrs. Sallie Secoy, whose maiden name was Post. She was born Sept. 14, 1815, in Westbrook, Conn., daughter of Joshua and Mollie (Dee) Post, to whom were born thirteen children, Mrs. Lusk being the eleventh daughter. All of the children lived to be over 60 years of age, with one exception. Mr. and Mrs. Lusk have one daughter only, Dency, who married Henry Pettengill. Mr. Lusk has an adopted daughter, Eva, who has lived with them since 2 years of age. Mrs. Lusk's first husband was Chester Secoy, by whom she had four children—Lester, Julitte, Mary and Pickney. Charles served four years in the late war, member of 2d O. V. C. He had two horses killed under him. Amos and Charles Lusk also wore the "blue." Mr. Lusk has not been a member of a church since 1835. Mr. Lusk has for several years been retired from farming.

M. MESSER (retired) Hudson; was born in Orwell, Vt., June 25, 1803. He was taught in youth the advantages of farm life, and, with a view to locating on Western land, he set out on a prospecting tour through Ohio, in May, 1828. He traveled over the territory now embraced in Trumbull, Portage and Summit Cos.; thence to Cleveland, which he remembers as a then mere hamlet with only about four *two-story* buildings in the place. He finally se-

lected and purchased 225 acres on which there were some trifling improvements, a small portion being cleared, on which was built a log cabin. He returned to Vermont, thence to Nottingham, Mass., where he was married to Almira C. Bates, March 15, 1829, moving the same year to the farm, where they occupied the cabin, which was on the premises, for eight years, when they erected a comfortable residence. Finding his health failing he sold his farm, and moved to Hudson in 1850. He was appointed Treasurer of the proposed Clinton Air-Line R. R., and having loaned the company about \$16,000, he suffered a heavy pecuniary loss on account of the failure of the company. He was appointed Postmaster in 1861, and held the office for seventeen years. He has been identified in official capacity in the Presbyterian Church as Deacon upward of fifty years, and forty years of that time he has officiated as Treasurer. Their two children are Orelia, who was the wife of Mr. Marvin, of Atwater, and who died leaving four children, two of whom survive, and Adelle, wife of George W. Stowe, who has one child, Charles M. Mrs. Messer was born in Granville, Mass., Sept. 23, 1805.

EDWARD W. MORLEY, Professor in Western Reserve College; P. O. Hudson; was born in Newark, N. J., Jan. 29, 1838. He is the son of Rev. S. B. and Anna C. (Treat) Morley. The Rev. S. B. Morley was a native of Massachusetts; he graduated at Williams College, and was a student of Yale Theological Seminary. Our subject, Prof. Edward W. Morley, began the study of chemistry when about 11 years of age. At the age of 18, he entered Williams College, and graduated in 1860. During the late war, he was appointed Agent for the Sanitary Committee at Ft. Monroe, in 1864 and 1865. At the close of the war, he returned and accepted a position as teacher in South Berkshire Institute, Massachusetts. In 1869, he was appointed Professor of Chemistry in the Western Reserve College, at Hudson, and in 1873 he also accepted the Professorship of Toxicology in the Medical College of Cleveland. He married Miss Isabella E. Birdsall, daughter of James Birdsall, Esq., of Hillsdale, Columbia Co., N. Y., on Dec. 24, 1868.

B. F. MELOY, blacksmith; Hudson; was born in Juniata Co., Penn. April 27, 1827. His father moved with his family to Portage Co., Ohio, in 1834; there the parents of Mr.

Meloy died. In 1843, our subject went to Middlebury to learn the blacksmith's trade with the Belden Bros., where he served a year. At the expiration of his apprenticeship, he came to Darrow Street, in 1846, where he worked about a year, then purchased the business interest of William Darrow, Sr.—who had taken it from one Fifield—and here he has continued ever since. He married A. E. Canfield, of Litchfield, Medina Co., Ohio, April 15, 1847. She was born in Connecticut, and came with her parents to Ohio when quite young. They had no children, except one adopted daughter—Julia, now wife of Wm. Hartel.

S. E. OVIATT, manufacturer; Hudson; was born in Richland Township, this county, Aug. 2, 1832. He is the son of Russell and Julia (Curtis) Oviatt. Russell was the son of Salmon Oviatt, who was one of three brothers (viz., Salmon, Heman and Nathaniel) who emigrated from Connecticut, and were among the first pioneers of this county. Russell Oviatt was a well-to-do farmer; hence the first efforts of his son (S. E.) were also in that direction. Mr. S. E. Oviatt had charge of the farm when quite young, as his father sustained injuries from which he never recovered, caused by jumping from a buggy. Of their five children, three lived to maturity, viz., Mariam, S. E., and Russelline; Chloe and Adrian died in childhood. Mr. Oviatt received a good common-school education. He attended the Richfield Academy two terms, but his assistance being required at home, he was not afforded the opportunity of further advancement. He evidently conducted his agricultural pursuits with a thoroughness seldom attained by young men, as diplomas in his possession attest, which he received after entering in competition with quite a number of townships in Summit and adjoining counties, for the best acre of wheat, beans, oats and corn, in 1853; also, a diploma for the best three-year-old horse at the same time. Having a taste for mechanics, and being naturally an inventive genius, he has produced several valuable patents, viz.: "The Oviatt grain thresher"; also, the farm wagon known as the "Common-sense Wagon," said to be more convenient and more durable than the ordinary ones; and a sled, known as the "Independent runner." Oviatt patent; this latter improvement has experienced a large demand. He moved into the village of Richfield, purchased

and built a residence worth about \$3,000, on part of what was his grandfather's old homestead, reserving 7 acres, which he retains. He endeavored to build up manufacturing industries at Richfield, and for a time was actively engaged with the Richfield Agricultural Works, which were operated by a "stock" company. He established a spoke factory, which he conducted for two years, when he closed out. He moved to Akron in 1874, where he engaged in the agricultural implement trade for about three years, at the same time contemplating an establishment for the manufacture of his special patents. He made an effort to organize a stock company in January, 1878, at Hudson, and, so far as the organization was concerned, his efforts were successful. It was on the co-operative plan, and the members were mechanics without means, but were men to whom Mr. Oviatt was willing to give an opportunity to progress with the enterprise; four of the members became dissatisfied, and those remaining purchased the stock of the outgoing members. Although the business, for some time past, has not been in a thriving condition, the prospects of the institution at present are encouraging. It is known as the "Oviatt Manufacturing Co." Mr. Oviatt was married, Feb. 14, 1856, to Fannie E. Watkins, of Plainfield, Will Co., Ill. She was born in Wyoming, N. Y., May 24, 1836; her parents, with their family, moved from New York to Illinois when she was small. Mr. and Mrs. Oviatt are parents of five children, viz., Julia A., Russell L., Edward P., Fannie E. and Maud.

L. D. OSBORNE, M. D., physician, Hudson; was born in Onondaga, N. Y., Aug. 16, 1820; he was the son of Levi Osborne, a cloth-dresser. While the subject of this sketch was yet in infancy his mother died, leaving three children, two of whom lived to maturity, but are now deceased; his father married a second time, by which union there were three children, two of whom reside in Allegany Co., N. Y., and one in Cleveland, Ohio. The family came to Ohio in 1833, and located in Willoughby, Lake Co., where Mr. Osborne died several years ago. Our subject, Dr. Osborne, entered a private school conducted by Mr. A. D. Lord, of Lake Co., and was also a student of Senator Allen, thus obtaining the preliminary course of his education; he entered the Lake Erie Medical College, since merged into the Starling

Medical College of Columbus, and graduated in 1845; during his collegiate course, he read medicine privately with Dr. John Delamater, who was a professor in the college; he began the practice of his profession with his preceptor in Willoughby, in 1843, where he remained about five years, when he moved to Warsaw, Wyoming Co., N. Y., there remaining about three years; on account of failing health, he resolved to return to Ohio, and accordingly did so, locating in Portage Co., where he practiced about four years. In the fall of 1854, he established himself in Hudson, where he has practiced the healing art ever since. He married Miss Mary Elenora Johnson Aug. 22, 1848. Mrs. Osborne was the daughter of Enoch Johnson, of Charlestown, Portage Co., where she was born, October, 1828. They have three children, viz.: Mary E., Hattie E. (wife of Rev. T. S. Scott, of Rockford, Ill.), and Lulu.

NEWTON PECK (deceased); was born in Brockfield, Vt., July 25, 1808; he was the sixth of a family of ten children, two of whom survive—Reuben and a sister, Mrs. T. S. Paine, of Vermont. When quite young Prof. Peck evinced a strong desire for knowledge, and when the work of his father's farm prevented him from attending school he would eagerly improve every opportunity with his books; when quite a small boy and driving his father's oxen at the plow, he would carry his Latin Reader, "Liber Primus," which he studied at intervals while the animals were resting, thereby getting some knowledge of Latin; at 17 years of age, he began teaching school in Vermont; he spent one year a student in a university there, and, by ardent study, he soon mastered Latin and Greek; he became a good Hebrew scholar, and was said to be one of the best readers of Sanscrit in the United States. He conversed in French, could read German, Spanish and Italian. Considering his ability as scholar and teacher, he was one of the most unassuming of men; he was thorough in the higher branches of mathematics, and acquired some knowledge of astronomy; while teaching in West Virginia, he calculated accurately the details of the solar eclipse of 1837; he was a careful student in the natural sciences, and particularly fond of botany and geology. In 1837, he founded the Marshall Academy at Guyandotte, West Virginia, which has since developed into a college; he came to

Ohio in 1832, and spent the first year in study at Western Reserve College, Hudson; but graduated from Augusta College, Kentucky, in 1837. His limited means compelled him to teach at intervals to procure the necessaries of life during his collegiate course; he was appointed tutor in Kenyon College at Gambier, in 1834. He married Aurelia K. Brewster, of Ravenna, Oct. 16, 1834; she was a sister of Anson A. Brewster, one of the pioneer merchants of Hudson. After a few years residence at Ravenna, he went South, but returned to Ohio and located permanently at Hudson in 1858. He taught for a period about forty years in the States of Vermont, Ohio, West Virginia, Kentucky and Tennessee; and among his pupils, who have gone into official public life, we mention the late Henry A. Smith, of Minnesota; Gen. E. B. Tyler; S. D. Harris, of the *Ravenna Press*; and D. Lyman, Chief of the Division of Navigation at Washington, D. C. Mr. Peck was a member of the Protestant Episcopal Church, being confirmed in Vermont when 22 years old. He passed away July 6, 1880, leaving a widow and two children, viz.: Thos. K. Peck, of Wa Keeney, Kan., and Eleanor A., who resides here with her aged mother.

M. C. READ, attorney at law, Hudson, was born in Williamsfield, Ashtabula Co., Ohio, Aug. 21, 1825. His parents, Ira and Mary (Smith) Read, were natives of Massachusetts; they moved to Ohio in 1813; Mrs. Read carried their only child on horseback the entire distance from Massachusetts to Ohio. They here turned their attention to farming, and succeeded in hewing out a comfortable home in the forest, where they reared their children, viz.: Albert N., Daniel W. (deceased,) Newton S., Matthew C. and Mary C.—twins—she the widow of Selby Bemen, and Emeline R., wife of J. J. Gray, of Ashtabula. Mr. and Mrs. Read finally removed to Trumbull Co., Ohio, where they passed their later years, being spared to see and know that their early efforts to procure a good home, and fit each member of their family for his separate place in society were not in vain. He died in 1861, in his 72d year, and she in 1869, in her 79th year. Mr. M. C. Read was engaged until 18 years of age, like most young men who are reared on the farm. About that time he entered the Western Reserve Academy at Farmington; later the Grand River Institute at Austinsburg, Ohio. In 1844,

he entered the Western Reserve College at Hudson, from which he graduated in 1848. He taught a select school in the city of Columbus, Ohio, which was well patronized by the best citizens of the place, but was broken up by cholera, which was then prevailing in the community. Mr. Read was taken seriously ill with the disease, and returned to his home, placing himself under the care of his brother, a physician in Ashtabula, where he remained about one year. Having regained his health, he taught the Academy at Gustavus, Trumbull Co., for one term. He read law in the office of Chaffee & Woodberry, of Jefferson. When his study of law was completed, he was called to Hudson to edit the *Family Visitor*, a journal which was published here at that time. While connected with the *Family Visitor* he taught the Grammar School in Western Reserve College for one year. He then began the practice of law and continued until the outbreak of the war, when he was called with the Sanitary Commission, and was with the Army of the Cumberland until they reached Chattanooga, Tenn., where he was stationed until the war closed. On his return he was appointed Deputy Revenue Collector, during President Johnson's administration. In 1869, he was appointed on the State Geological Surveying Corps, and continued a member in field work until the survey was completed. He was appointed to lecture on zoölogy and practical geology in Western Reserve College. His time is now occupied in the practice of his profession and special geological surveys. He married Orissa E. Andrews, daughter of Wm. Andrews, an attorney of Homer, N. Y., Aug. 28, 1851. Their eldest son, William H., is a graduate of the Western Reserve College, and now a member of the Toledo bar. The other children are Chas. P., Mary O. and Susan J.

N. P. SEYMOUR, LL. D., professor in the Western Reserve College, Hudson; born in Hartford, Conn., Dec. 24, 1813, was the fifth child and second son born to Charles and Catharina (Perkins) Seymour. In 1830, at the age of 16 he entered Yale College, graduating four years later. After spending two years in the Hartford Grammar School, he was appointed Tutor in Yale College. In 1840, he accepted the professorship of Latin and Greek, in the Western Reserve College, a position he filled for thirty years. On the occasion of his resigna-

tion in 1870, the committee of the Board of Trustees appointed to prepare a minute in relation to his resignation reported the following, which was adopted by the board: "Prof. N. P. Seymour having at a previous meeting tendered to the board his resignation of the professorship of Greek and Latin, and the same having been reluctantly accepted, the board cannot permit a connection so long continued, and which has been so highly advantageous to the college to terminate without recording their high sense of the great value of his services, and their conviction that by his wise counsel, his eminent attainments as a scholar, and his self-denying devotion to the best interests of the institution for thirty years, he has largely contributed to its usefulness and prosperity, and to the high standard of scholarship and thorough course of instruction for which it has been distinguished. And in the hope that the college may still to some extent enjoy the benefit of his counsel and labors, he has been appointed Emeritus Professor of Greek and Latin, and is invited to give lectures from time to time, as may be agreeable to him upon subjects connected with his late department of instruction." Prof. Seymour has thus retained his connection with the college, and lectures at times upon the same subject in other institutions. In 1867, he received the degree of Doctor of Laws, conferred by Kenyon College. In 1841, he married Miss Elizabeth Day, daughter of Hon. Thomas Day, of Hartford, Conn. Of their union, three children was the issue, their eldest son Charles, is a member of the bar in Knoxville, Tenn., where he established himself soon after the late war; Sarah is now the wife of Wm. C. Parsons, of Akron; Thomas, the youngest, was appointed professor of Greek language in Yale College in July, 1880.

CHARLES STONE, farmer; Streetsboro Township, Portage County; P. O. Hudson; was born one mile east of Hudson, January 12, 1812. His father, Nathaniel, and mother, Sally (Holenbeck) Stone, were natives of Connecticut. They removed to Ohio in 1810. Mrs. Sidney Collar was their only child, at that time, a mere babe. Mr. Holenbeck, the father of Mrs. Stone, came from Connecticut at the same time; they drove through with two ox teams and a single horse, spending two months on the journey. They arrived at Hudson in November, 1810, and, purchasing some land,

began to prepare a home thereon. They reared twelve children, ten of whom lived to maturity, viz., Carolina, Charles, Sidney J., Emeline (deceased wife of R. Cobb), Randolph, Helen, Belinda, Roswell, Orlando and Clesey. The family removed from their first location to their purchase in the east of Hudson Township and across the line into Portage County, where the old folks died, he in 1861, and his wife about four years later. Charles married Sabrina Draper, April 18, 1837. They began farming on about 60 acres which he got of his father, and built a log cabin. To this land he added by purchase, until he owned 200 acres. They had seven children, viz., Harriet E., Frederick, Salina, David, Moses, Mary L. (died when about 3 years old), and Clarinda S. Frederick enlisted in the 9th Ohio Battery, September, 1861, and served until March, 1862, when he died in hospital at Somerset, Ky., after a short illness. Salina is wife of Charles Cash, of Hudson; David married Annie, daughter of William Wilson, of Medina County—he and his brother Moses have control of the farm; Harriet E. and Clarinda S. are also at home with their parents. Mrs. Charles Stone was the only child of Moses Draper by his first wife. She was born in Washington County, N. Y., June 3, 1818. Her mother died when she was a mere infant, and her father married a second wife, by whom he reared several children; they all emigrated to Ohio in 1831, and the following year Mrs. Stone came to her father's with a family who were coming here at that time. They have been very successful, and look back on pioneer life with much satisfaction. On the night of the 5th of February, 1847, a sad calamity happened in the burning of his father's residence, in which Belinda, a young lady about 21 years of age, perished in the flames; the other members of the family barely escaped with their lives. It was one of the primitive log-cabins, and stood a little south of where Charles' residence is located. The accident is supposed to have occurred by the renewal of the fire when the last ones retired, for the purpose of keeping the house warm through the night.

CHARLES J. SMITH, Professor in Western Reserve College, Hudson, was born in Clarendon, Ohio, Oct. 16, 1844. He is the second son born to Josiah and Martha (Haskell) Smith, who were natives of Connecticut,

but came to Ohio with their respective families in the early settlement of the State, and located in Geauga County. At from 16 to 19 years of age. Prof. Smith began teaching a district school in the winter months, during the summer season his time being occupied on his father's farm. He then accepted a position as teacher in the Bloomfield Academy, where he remained one and a half years. He entered the Western Reserve College in 1866, and graduated therefrom in 1870, in the fall of the same year, being appointed Professor of Natural Philosophy. He married Miss Julia E. King Aug. 23, 1871. Their children are as follows: Esther K., Charles K. and Charlotte P. Mrs. Smith was born in Warren, Trumbull Co., Ohio, Aug. 20, 1845. She was the daughter of Lester King, who was the son of Judge King, of Warren.

SYLVESTER H. THOMPSON, retired; Hudson, more familiarly known as Judge Thompson, was born in Hudson, Ohio, July 28, 1808. He was the fifth child born to Dr. Moses Thompson (who is mentioned in the township history, as being the first physician of Summit County). Dr. Thompson was married to Elizabeth Mills in Connecticut, in 1795; they moved into the State of New York immediately after their marriage, where they lived until 1800, when he came to Ohio and selected land in the vicinity of Hudson; then returned to New York for his family, which consisted of wife and one child; they arrived here and settled permanently in 1801. They were blessed with eleven children, viz., Eliza L. (deceased) was wife of Horace Metcalf; Susan, (deceased) was wife of Horace Holbrook; Mills, now deceased was a prominent farmer; Emily (deceased) was wife of Samuel Woods; Sylvester H.; Virgil M., of Stow Township; Ruth, wife of Leander Starr, of Hudson; Mary, widow of John Hazeltine, who with her daughter resides west of Hudson; Sarah A. (deceased), who was the wife of Chas. Aikin; Martha, died in youth, and Elizabeth, who is unmarried. Over half a century of Mrs. Thompson's life and labors were well spent in this community. Besides the care incident to rearing of her own numerous family, it would require a volume to do justice to her memory, as respecting her humane and benevolent characteristics and acts toward the sick or needy, during the days of meager supplies,

with the pioneer settlers ; her life work closed on Nov. 20, 1851. Dr. Thompson survived his wife until Nov. 17, 1858. There was nothing remarkable in the early life of Judge Thompson ; he attended school in boyhood, and got a fair education in the old primitive schools of his early life. His brain was spared the confusion of college classics, but was possessed of an abundance of practical good, hard sense, which with strict integrity, eventually placed him in the front rank of honored citizens. When he was about 22 years of age, he began farming, on his own account, on 80 acres for which his father paid \$420. He was married to Carolina D. Peck, May 14, 1833. She was born in Connecticut, Dec. 6, 1808, and came here from Waterbury, Conn., on a visit to her brothers, who were contractors and builders, and who built the Congregational Church in Hudson. Seven children were born to Mr. and Mrs. Thompson, viz., Charles S. (deceased); Sherman P., Martha E. (now Mrs. P. G. Clark, of East Cleveland); Theodore F. and Albert S., and two who died in childhood. Mr. Thompson was the first Assessor in Hudson Township, and has held other offices which were the gift of the people of the township. He was elected Justice of the Peace, and after serving one year he resigned, to accept the appointment of Associate Judge, in 1845, which office he held until the new State Constitution was adopted, with provisions which abolished the office of Associate Judge, in 1851. In 1864, he was appointed Commissioner for this county on the Cleveland & Pittsburgh Railroad. He was connected with the City Bank of Akron, Ohio, of which he was President for thirteen years. The first apples which were grown in this vicinity, were probably those on Dr. Thompson's premises, trees produced from seeds taken from a piece of pomace, which the Doctor picked up where he stopped to feed his ox team when coming here through Pennsylvania, in 1801, formed nucleus of an orchard. Judge Thompson remembers distinctly the first apple which was borne thereon, in 1813. That was the *first*, and only one produced on their trees that year, and as it increased in size and reddened with the sun, like the "apple" of old, it was the source of considerable temptation to the children to taste it and not "transgress," so they devised a means : two pulled the slender tree against the

house, to which it stood close, a third one would climb, scrape a hole in the apple with his finger nail and carry the scrapings down to those doing service at the stem until all would have a taste. Although in advanced years, the Judge is in robust health and enjoys in a retired manner, the fruits of his early industry, as well as the high esteem of his fellow citizens. His wife, who was his great helper in his much varied life, died Nov. 23, 1876.

STEPHEN THOMPSON, deceased ; was born in Goshen, Conn.; he married Abigail Hutchinson. They, with three children, William, Hiram and Elijah, emigrated to this township in the fall of 1801. They reared a family of eleven children in all—William, Hiram, Elijah, Serena, Lucretia, Alonzo, Uriah, Premila, Amos, Alonzo 2d, and Abigail. The old folks (Stephen and his wife), died many years since, in the east of Hudson Village. Hiram was born in Goshen, Conn., Aug. 30, 1797. When he was about 17 years of age, he began to work for himself, and paid for 50 acres of land where he now lives. He married Sabrina Danforth, Jan. 23, 1823. She was the eldest daughter of Enoch Danforth ; she was born in New Hampshire, Jan. 26, 1806. They reared nine children, viz.: Lorenzo, now in Kent Co., Mich.; Amelia, wife of Dr. E. Meyers, of Uniontown; Harriet, deceased, wife of Henry Sandford; Jeremiah, now in Le Mars, Iowa; Laura L. is wife of William Bell; Mary, deceased, wife of Charles Case; Louisa, wife of Orrin Reynolds, of Chicago, Ill.; William was killed by the cars when thrown from the track, near Hudson, in 1864; Emma, wife of E. Cartwright. Mr. Hiram Thompson added to his first purchase until he owned 161 acres of good land. He never worked a team of horses on farm work, but used oxen instead all his time. Mr. and Mrs. Thompson have retired from the active duties of the farm, and left the same to the care of their daughter and son-in-law, William C. Bell. He was born in Pennsylvania in March, 1841, and came here in 1859; he enlisted in the late rebellion, in August, 1861, Co. A, O. V. C. He got his discharge Dec. 31, 1863, and re-enlisted as veteran in same company and regiment, and served until the close of the war, and got his final discharge Sept. 11, 1865. He had two horses shot from under him, one of which fell on him and disabled him, in September, 1864, near Charlestown. On

his return, he married Laura L. Thompson. They have three children, viz., Willie L., Emma A. and Frederick W. At the time Stephen Thompson and his family came, they brought several cows and about eighteen sheep, which they drove all the way from Connecticut. They had hard work in protecting their sheep from the ravages of wolves in those days, as lambs and pigs were frequently carried off. Wild turkeys were plentiful, and Hiram has shot several at their barn, substituting corn for shot when the latter could not be procured.

HARRY C. THOMPSON, deceased. He was born in Berkshire Co., Conn., Nov. 24, 1801. He was the son of Isaac and Polly (Campbell) Thompson, who moved, with their family of eight children, from Connecticut to Ohio, in 1814, locating at Ravenna. Their children were Eliza, now widow of Dr. Swift, living at Ravenna; Harry C., deceased; Charles B., deceased; Orrin C. T., now a Presbyterian Minister in Detroit, Mich.; Robert W., deceased; he and Richard J., who resides on the old homestead at Ravenna, were twins; Mary, in Ravenna; Charlotte, deceased. When Harry C. was about 21 years of age, he discontinued farming, and apprenticed himself to a tailor in Ravenna. When his apprenticeship expired, he went to New York, and there worked at journeywork until he became perfectly acquainted with the business. In about two years, he returned to Ravenna, and opened a tailoring establishment—the only one of the kind in the place. His trade increased until he employed eight hands and conducted a very successful business. In 1836, his health failed, from too close application to his business, necessitating a withdrawal therefrom. He was married to Harriet A. Ellsworth, Jan. 7, 1830. She was the daughter of Elisha and Elizabeth (Oviatt) Ellsworth, who came here from Connecticut in 1811. Mrs. Thompson was then a child about 2 years of age. She was born in Connecticut Nov. 23, 1809. When Mr. Thompson closed out his tailoring establishment, they opened a boarding-house in Ravenna, which they conducted with success for many years; this he afterward sold out, and purchased a farm north of Hudson, where they resided twelve years. In 1868, they moved into Hudson, where they anticipated a life of rest in their lives' evening-time, apart from the bustle and toil of the world. Mr. Thompson was elected Justice

of the Peace after coming to Hudson, and served eight years. He has been appointed administrator of twenty-four different estates. Mr. and Mrs. Thompson were parents of two children, viz.: Robert W., who resides on the farm; and Elisha, who died at the age of 12. Mr. Thompson's worldly cares ceased in death Dec. 19, 1877. Mrs. Thompson is one of the few who came here in pioneer days, and, although well advanced in her 72d year, has a good memory and a vigorous constitution.

AMOS THOMPSON, farmer; P. O. Hudson, is the son of Stephen Thompson, who came from Goshen, Conn., with his wife and three children, settling here in 1802. Amos was born in this township, Sept. 13, 1812. Throughout his whole life he has been a well-to-do farmer without any desire for notoriety in public life. He has been twice married; first in 1836, to Miss Laura Smith, of Randolph. By this union there were six children, three deceased and three living. Those surviving are Henry O., Ada A. and Arthur N. Their mother was a native of the State of New York, and came here with her parents about two years previous to her marriage; she died Sept. 13, 1874. Mr. Thompson's second marriage was with Mrs. Lavina Sandford, widow of the late Peter Sandford, of Kent. The present Mrs. Thompson was twice married prior to her union with Mr. Thompson; she has one child, Emma Arrow, by her first husband, John Arrow.

S. E. TOWNSEND, farmer; P. O. Hudson; was born on Oct. 8, 1825, in New York, from which place his parents, Eli and Sarah (Kenyon) Townsend emigrated to Ohio with two children, viz.: Cynthia and himself, in 1833. They located in Richfield, and, after our subject had passed his majority, he learned the carpenter and joiner trades which he engaged in successfully. He has been twice married; first to Miss Vanilla Smith, who died leaving four children, three of whom survive, viz.: Charles E., Mary E. (now wife of Clifford Axtell) and Lewis S.; his second marriage was with Mrs. Sarah Farnum, Oct. 18, 1863; they have one child—Myron E. Mrs. Townsend was born in Massachusetts in 1827, and came to Ohio with her parents in 1842. Her first marriage was with Darwin Farnum, of Richfield, in 1851; died May 18, 1859. In December, 1879, Mr. Townsend purchased and moved to his present

home, which consists of 90 acres of excellent agricultural land, lying immediately west of the corporation limits of Hudson. With its

advantages and improvements, besides the natural beautiful location, it is all that could be desired.

CUYAHOGA FALLS TOWNSHIP.

EPHRAIM BLOOD, retired, Cuyahoga Falls; was born in Saratoga Co., N. Y., May 27, 1821. His father, David Blood, was a farmer by pursuit, and married a lady by the name of Mary Hewitt. When scarcely of age, the subject of this sketch went to the trade of carpenter and joiner, which he followed steadily until 1852. He then engaged in millwrighting, which he continued to work at until 1876, at which time the firm of Snyder & Blood, builders and contractors, was formed. Both being practical carpenters, and possessing a thorough knowledge of their business, they immediately assumed a prominent position, and their trade annually increased. In January, 1881, Mr. Blood withdrew from business entirely, and is now leading a retired life. His marriage was celebrated Aug. 18, 1847, Miss Mary A. Reece becoming his wife. She, too, is a native of the Empire State, and was born March 18, 1822.

O. B. BEEBE, dry goods, Cuyahoga Falls; is a son of Oliver D. and Phoebe (Holt) Beebe, and was born Oct. 17, 1807, in New London, Conn. His father was a carpenter and joiner by trade, and moved to Middletown, Conn., when the subject of this article was in his childhood, and there he grew to maturity. While yet in his youth, he learned the trade of book-binder, and did "jour" work until he came to this county, with the exception of one year that he conducted business for himself. In December, 1831, he came to Cuyahoga Falls, and continued to work at his trade until 1848, when he engaged in mercantile pursuits, which he has since followed, keeping at present a large and complete stock of dry goods. His marriage was celebrated Sept. 30, 1832, at Middletown, Conn., Miss Sarah A. Babcock becoming his wife. Their union has been fruitful of four children—Jane, Mary, William O. and Robert. The elder son is the

only one living, he being his father's partner in business. Mr. and Mrs. Beebe are members of the Episcopal Church. He was Postmaster of Cuyahoga Falls during the administration of James K. Polk; has been Mayor. He is a Republican.

J. H. BYRNE, grocer, Cuyahoga Falls; was born in Ireland, April 14, 1822, and is the youngest of a family of twelve children born to Thomas and Catharine (Halleck) Byrne. The father died when the subject of this sketch was only 3 months old, and the family soon after emigrated to America, settling in Clinton Co., N. Y. In 1833, they moved to what is now Summit Co., Ohio, and located in Tallmadge Township. J. H. received but a limited amount of schooling, and his first effort at earning money was performing light work during the surveying for the Ohio Canal. He learned the trade of carriage-maker with Oviatt & Avery, at Tallmadge, Ohio, and, in 1838, came to Cuyahoga Falls and entered the machine-shop, where he worked for several years. He conducted a saw-mill in Lucas Co. two years, and the rest of his life has been passed here, clerking until 1871, when he and S. W. Herrington engaged in business, keeping a store of general merchandise for three years. In June, 1879, he commenced his present business, keeping a grocery and provision store. He was married, Aug. 28, 1845, to Catharine Malone. She was born in Wood Co., Va., May 7, 1825, and has crowned their union with two children, who grew to maturity—William P. and Thomas C. The younger died when in his 15th year. The elder studied dentistry, and died Nov. 29, 1879, having been a practitioner for ten years. Mrs. Byrne is a member of the Episcopal Church. He is a member of the I. O. O. F., and is independent in his political views.

L. W. BOYS, barber, Cuyahoga Falls. L. W. Boys was born in Bennington, Vt., Nov. 20, 1843. His parents were G. L. and Sally (Davis) Boys. The father was also a native of the same place, and, by trade, a machinery-molder. The subject of this sketch is the only child of his parents. In about 1846, the family came to Akron, Ohio, where they remained two years, and then came to Cuyahoga Falls, Here they have ever since resided. Previous to the civil war, the son served an apprenticeship under his father as a machinery-molder. He ran away from home at the age of 19 and enlisted in the United States Navy, under Commander J. C. Carter, of the United States steamer Michigan. After he had served about a year, he was taken sick with typhoid pneumonia, and was discharged for disability. He returned home, and started to learn the cabinet-maker's trade, but his lungs were so delicate because of his previous illness that he gave up the trade, and a second time ran away from home. At Cleveland he again enlisted, this time in the Volunteer Navy, Eleventh District, Mississippi Squadron, and was stationed under Acting Commander M. Forrest, a nephew of the rebel Gen. Forrest. He participated in three engagements at and near Decatur. He was also on the first gunboat that reached Knoxville, Tenn. He served to the close of the war, and was honorably discharged. After his return, he again engaged in the machine-molding business in Cuyahoga Falls, but, not being able to continue the business because of his previous illness, he went into the barbering business. He has continued in that line to the present time; meanwhile, he has invented an improved barber and dental chair. Mr. Boys was married, Sept. 20, 1866, to Phoebe E., daughter of G. W. Hobart, Esq., of Medina, Ohio. He has had two children, both of whom have died. Mrs. Boys was born June 15, 1850. Mr. Boys is a Republican in politics, and is of a race of Old-Line Whigs. He is a young man of push and energy, and is destined to make his mark as a business man.

J. C. CASTLE, attorney, Cuyahoga Falls; was born at Elkhart, Ind., Sept. 11, 1842, and is a son of Levi B. and Elizabeth (Cranson) Castle. His father was an itinerant minister

in the M. E. Church, and passed many years a resident of the western part of the State of New York. He moved to Ohio in 1855, and, in 1861, became a resident of Summit Co., where he passed the rest of his life, dying in February, 1875, when in his 84th year. The subject of this sketch commenced doing for himself when young, his first venture, being as a newsboy on the C., C., C. & I. R. R., during which he saved enough money to enter the Baldwin University at Berea, Ohio. Before the expiration of his second year, the liberties of his country were imperiled by armed secession, and he laid aside his studies to become a soldier. He entered the 9th Ohio Battery, and served over one year, when he was discharged for physical disabilities. In 1864, he became a minister in the M. E. Church, and was thus employed for fifteen years, when he commenced the practice of law, which he had studied in the meantime, having been admitted in September, 1878. He opened his office at Cuyahoga Falls in February, 1880. He has earned quite a reputation throughout the county as a lecturer, and is widely and favorably known as the "sensible humorist." He was married at New Philadelphia, Ohio, June 15, 1869, Miss Anna Campbell becoming his wife. Their union has been blessed with four children. Those living are William A., Olin C. and John H. Mr. Castle is a member of the I. O. O. F., and of the G. A. R. He is a Republican.

ROWLAND CLAPP, Cuyahoga Falls; was born April 16, 1804, in Franklin Co., Vt., and is a son of Reuben and Hepzibah (Gates) Clapp, both of whom were natives of Worcester Co., Mass. His father was a farmer by pursuit, and passed the greater part of his life a resident of the Green Mountain State. The subject of this sketch received a good common-school education, and, when in his 21st year, commenced teaching school. In 1826, he left his native State and started for the Far West, walking most of the way to the home of a brother at New Albany, Ind. He taught school there a short time, and then came to Ohio, where he finally made his home, near the town of Cuyahoga Falls. He has followed various callings and occupations, and has borne an upright and honorable character throughout

his long residence in this community. His marriage was celebrated Nov. 9, 1834, Miss Martha Gaylord becoming his wife. She was born in what is now Stow Township, Summit Co., Ohio, Sept. 23, 1813, a daughter of Jonathan and Martha (Thomas) Gaylord, who moved there from Middletown, Conn., in 1809. Mr. Clapp lost his companion the 6th day of June, 1873, their union having been crowned with three children, named, respectively, Elizabeth, Ashael and Emily. The oldest is the wife of M. H. Barber, and the son married a lady by the name of Maria Loomis. Mr. Clapp was a communicant of the St. John's Episcopal Church at Cuyahoga Falls when organized, over fifty years ago, and is the only one now living who was then a member. His connection with the church has been exemplified by a worthy and consistent life, and he has for many years been one of the most influential and prominent members. During the progress of the war, he was appointed a member of the Ohio Relief Agency by Gov. Brough, and stationed at Annapolis. He is a Republican.

JAMES H. COOKE (deceased), sewer pipe works, Cuyahoga Falls: was born in Hartford, Conn., in 1834, and is a son of Henry and Laura Cooke. When 1 year old, he was brought to Cuyahoga Falls, Ohio, and here grew to maturity. His father was a man of enterprise, and was endowed with business qualifications that placed him among the foremost men of his time. James was in his father's employ for some time, but, wishing to engage in business that would be of a more permanent and pleasing character, he became interested in the sewer pipe works of Cuyahoga Falls, and eventually attained the position of sole proprietor. His business was conducted on a large scale, and ranks among the leading industries of the enterprising town of Cuyahoga Falls. He was married, Sept. 11, 1855, at Galena, Ill., to a daughter of Prof. Germain. She was born at Catskill, N. Y., Nov. 12, 1837, and, a few years later, her father became Professor of Mathematics at Burlington, N. J., in Burlington College and St. Mary's Hall. In 1849, he went to Galena, Ill., and engaged in civil engineering. He now resides at Cuyahoga Falls. Mr. Cooke

died Sept. 21, 1880, leaving a family of five children, named, respectively, George, Laura, Kate, Alice and Edward. Mrs. Cooke is a consistent member of the Congregational Church.

HORACE B. CAMP, manufacturer of tile, etc., Cuyahoga Falls; is one of the enterprising and energetic business men of Cuyahoga Falls, in which he has resided since 1864. He was born in Tuscarawas Co., Ohio, Nov. 9, 1838, and is a son of Hezekiah and Abigail (Fosdick) Camp. His father came to Ohio from Greene Co., N. Y., in 1827, and for some time taught school, being a single man at the time. He was an ingenious and enterprising man, and, in the year 1840, opened a coal-bank in Springfield Township, Summit Co., Ohio, and commenced shipping to Cleveland. The following year, he moved to that city to superintend his rapidly growing business, and remained there until 1852, when he again returned to Summit Co. He was engaged in the manufacture of water-pipe at Middlebury until 1861, when he retired to a farm. He died at Cuyahoga Falls in August, 1872. Horace commenced doing for himself when of age, and for one year was in the employ of the Barber Match Company, of Akron, with headquarters at Lima, Ohio. He then conducted the farm until 1864 when he came to Cuyahoga Falls and engaged in the manufacture of sewer-pipe. In 1876, he engaged in his present business, with G. W. Babb for partner, and the following year withdrew from the sewer pipe works, and has since devoted his attention to the perfection of his rapidly growing business. He has recently become sole proprietor. His marriage was celebrated in April, 1873, Miss Amelia M. Babb becoming his wife. She is a daughter of Joseph and Elizabeth Babb, and was born in Summit Co., Ohio, August 7, 1852. Three children have blessed their union, viz.: Grace, Henry H. and Louis. Mr. Camp has served as Mayor of Cuyahoga Falls, and is identified with the Republican party.

JOHN DOUDS, farmer; P. O. Cuyahoga Falls: was born in County Antrim, Ireland, March 17, 1825, and is a son of William and Ellen (McEllenhatten) Douds. John left his native land in 1843, and landed on the shores

of America on the 9th day of June. For one year, he lived near Ottawa, Canada, and then came to Summit Co., Ohio, where he has since resided. He settled in Boston Township, where he cleared a farm, and has paid his whole attention to farming and dairying. He was married, September 2, 1845, to Mrs. Mary A. Cooke, her maiden name being Drake; she died October 3, 1878, having borne him five children, three of whom are living, viz.: William J., who married Margaret J. Shields; Carrie E., wife of Albert C. Viers, and Anna M., wife of John E. Whaley. He has also an adopted son, named Joseph J. Douds. He was again married, Nov. 27, 1879, to Mrs. Anna Duncan, widow of Col. James F. Duncan, of Cuyahoga Falls. She has three children living by her first union—George A., Carrie D. and Thomas D. Mrs. Douds is a member of the Episcopal Church. He has served as Trustee for many years; is a member of the Masonic fraternity. He is a Republican.

JOSIAH GAYLORD, Cuyahoga Falls; was born in Stow Township, Summit Co., Ohio, in September, 1824; he is a son of Steward and Mary A. (Creamer) Gaylord, and grandson of Steward Gaylord. Josiah's father was a ship-carpenter in Middletown, Conn. Having a large family of children, Mr. Gaylord determined to come West to Ohio, that they might, in the then new country, build homes of their own. In 1809, he and a number of others of Middletown, with their families and ox teams, started to Ohio, arriving, after a long and eventful trip of forty-four days, in Stow Township, where Mr. Gaylord had previously purchased a tract of land of Judge Stow, the proprietor. Knowing but very little about pioneer life, he employed a man to conduct the place, while he went to Cleveland to work at his trade. His children were Mary, John, Steward, Almira, George, William, Josiah, Hiram and Robert. Mr. Gaylord died October 6, 1840, after having lived to see many of the mighty forests of Stow Township leveled by the pioneer's ax. The subject of this biography was reared on a farm, where he received the rudiments of a good education. After his father's death, he gradually assumed control of the old homestead, buying out the

heirs and adding to the place, until he now owns a fine farm of 108 acres, 18 being in Cuyahoga Falls, and the rest in Stow Township. On the former, he has cleared one of the most beautiful places in the whole neighborhood for pleasure parties, picnics, etc. The grounds are admirably situated on the banks of the Cuyahoga, and a more convenient place for such purposes can hardly be found. In 1860, Mr. Gaylord married Laura Beckley, daughter of Noel Beckley; she bore him four children, viz.: Mary, Noel, Willis W. and Norman J. The pioneer Gaylords were old-fashioned Presbyterians in religion, and Whigs (latterly Republicans) in politics.

W. M. GRISWOLD, ticket agent, Cuyahoga Falls; was born July 21, 1835, in Middletown, Conn., and is a son of Martin and Mary (Post) Griswold, both of whom were natives of Connecticut. His father moved to Ohio in 1843, and secured a farm in Summit Co., Stow Township, on which he lived a number of years before he retired to Cuyahoga Falls, where he now resides. When 19 years old, W. M. commenced working in the railroad office at Cuyahoga Falls, where he has since remained, an efficient and polite official. In 1875, he became the telegraph operator for the company, and combines the two duties in one. He was married, in 1855, to Charlotte E. Deming, of Summit Co. She died Oct. 30, 1865, leaving two children, Carrie May and Charlotte E. In 1868, he was united to Mrs. Lavina Stillwell of Portage Co. Two children have crowned this union—Clarence W. and Ellen M. Both Mr. and Mrs. Griswold are members of the Disciples' Church. He is a member of the I. O. O. F. and Royal Arcanum. He has served as Treasurer of the Township, and also of the School Board, since 1877. He is a Republican.

J. B. HARRISON, farmer; P. O. Cuyahoga Falls; was born in Madison Co., N. Y., July 16, 1808, and is a son of Joseph P. and Eleanor Harrison, who came to that county from Litchfield Co., Conn., about the year 1804. His father was a farmer by pursuit, and served in the war of 1812. While at Sackett's Harbor, he contracted a disease from which he died in December, 1814, leaving a family of small children to the mother's

care. Before he was yet 10 years old, the subject of this sketch went to live with a neighbor, receiving his "board and clothes" for the labor he could perform, and, while thus engaged, he no doubt laid the foundation of industry and perseverance that has been among the marked characteristics of his life. He remained with him nearly five years, and then, with an elder brother, conducted the homestead left by the father. When 19 years old, he commenced working out by the month, and for four years was thus employed, during which his hard-earned money was carefully saved, and he then commenced farming for himself. In 1836, he moved to Geauga Co., Ohio, and engaged in mercantile pursuits, and, in 1848, came to Cuyahoga Falls, where he followed the same business, being associated with gentlemen engaged in the paper-mills at this point, the firm being J. B. Harrison & Co. In 1856, he withdrew from the store, but retained an interest in the paper-mills until 1865, when he quit, and engaged in farming, owning a farm near the town. He was married, Feb. 13, 1832, to Miss Caroline Nichols; she was born in Litchfield Co., Conn., June 9, 1813, and accompanied her parents to Madison Co., N. Y., in 1823. She died Jan. 4, 1879, having blessed their union with three children, viz.: Olive, Helen A. and Joseph B. The eldest was married to William C. Hitchcock, and died Sept. 10, 1857, leaving two small children—Ida M. and Charles F., who have been since members of Mr. Harrison's family, having been adopted, and reared with the same care as his own children. They both attended the University at Syracuse, N. Y., and the elder is now a teacher in the public schools at Cuyahoga Falls, and the younger has recently engaged in the manufacture of pot-rivets, being associated with two other gentlemen. Mr. Harrison's son, Joseph B., was married when young, to Louise Patterson, and is now engaged in the mercantile business at Drakesburg, in Portage Co., where he has resided since 1874. He has one child—Carrie. Mr. Harrison and family are members of the Congregational Church.

F. S. HEATH & CO., druggists, Cuyahoga Falls. Among the reliable business firms of the pleasant town of Cuyahoga Falls, none

stand before the public in a more enviable position than the one above named, who conduct one of the best stores in Summit Co. The proprietors, F. S. and T. F. Heath, are sons of Stephen and Hannah (Chamberlain) Heath, and were born in Litchfield Co., Conn. In 1835, their father removed to Western New York, where the sons grew to maturity and passed their early life on the farm. In July, 1851, T. F. Heath came to Cuyahoga Falls, having graduated, the previous March, from the College of Physicians and Surgeons at New York City. He engaged in the drug trade, and, in the latter part of the same year, was joined by his brother, who has since been his partner, and conducted the telegraph business since 1858. The Doctor has had a lucrative practice since coming here, and stands high in the medical profession of the county. He was married, in 1854, to Emily A. Bruce; their union has been fruitful of three children—Frank T., Arthur T. and Gracie E. The eldest attended the College of Pharmacy at Chicago, and carefully fitted himself for the business of druggist. Dr. Heath has for many years been agent for the Charter Oak Life Insurance Company.

H. E. HOWARD, clothing store, Cuyahoga Falls; was born at Worthington, Ohio, Jan. 2, 1823. His father, C. Howard, was an enterprising and industrious business man, and for many years resided at Delaware, Ohio. He moved to Cuyahoga Falls to engage in the manufacture of paper, and, after remaining here a number of years, went to Newark, Ohio, where he conducted the Park Hotel. One year later, he went to Zanesville and engaged in the coal business, which he followed the rest of his life. The subject of this sketch attended Kenyon College two years, and made his first venture in the business world as a merchant at Delaware, Ohio. In 1855, he came to Cuyahoga Falls, where he has since resided, being associated for awhile with others in a paper-mill. In 1861, he entered the army as Chief Musician of the 12th Ill. V. I., and, when his services were no longer needed in that capacity, he was employed in the Paymaster's department until near the close of the war. He then traveled for a large paper firm of New York for fourteen years, and only

recently settled down to his present business. His marriage was celebrated Nov. 6, 1851, Miss Catharine A. Thompson, of Delaware, Ohio, becoming his wife. Their union has been fruitful of seven children—Mary, Kate, Julia, Fannie, Jessie (deceased), Charles and Bessie. Mrs. Howard and the four eldest daughters are members of the Episcopal Church. He is a Republican.

W. A. HANFORD, Mayor and Justice, Cuyahoga Falls; was born in Norwalk, Conn., July 11, 1819, and is a son of Charles and Ruth Hanford. His father was a farmer by pursuit, and died in that State in 1828. The subject of this sketch, although only 9 years old at the time, came to Ohio to an uncle, who lived at Hudson, in what is now Summit Co., and, for three years, he lived in that town. After buffeting around for several years, he finally settled down in Tallmadge Township, and remained until 1850, when he moved to Cuyahoga Falls. Engaging in the manufacture of paper, the business prospered and largely increased while he was an interested party, but the enterprise was marred by various misfortunes that occurred, and, in 1868, he withdrew, and has since been engaged in business more suited to his taste and inclinations. He is engaged in the insurance business, and holds the office of Justice of the Peace. He was the first Mayor of Cuyahoga Falls, and is now filling the office for the third time. Mr. Hanford is well known throughout Summit Co., and has endeared himself to many of her citizens by his courteous manners and business integrity. He was married, March 16, 1840, to Mary T. Sackett, who was born in Warren, Litchfield Co., Conn., June 5, 1819, and accompanied her parents when they removed to Ohio. This union has been crowned with seven children, only three of whom are now living, viz.: Charles, Lewis M. and Henry E. Mr. Hanford was one of the leading spirits in the organization of the Summit County Agricultural Society, and held the office of Secretary during the early part of its existence.

W. S. HOUGH, physician and surgeon, Cuyahoga Falls; is a son of Joel I. Hough, and was born April 3, 1844, in Atwater, Portage Co., Ohio. In September, 1861, he enlisted

in Battery D, 1st Ohio Light Artillery, and served for one and a half years, and then as Hospital Steward until October, 1864. Returning home, he entered the Charity Hospital College at Cleveland, Ohio, from which he graduated in the spring of 1866. For ten years he practiced with Dr. J. C. Ferguson, at Mogadore, in this county, and then located at Cuyahoga Falls, where he has a lucrative practice. His marriage was celebrated in June, 1867, Miss Anna Golby, of Cleveland, Ohio, becoming his wife. Their union has been blessed with one child—William Condie. Dr. Hough is a member of the Masonic fraternity and of the I. O. O. F.

JOSEPH JONES, horseshoeing, Cuyahoga Falls; was born in Yorkshire, England, Nov. 12, 1840, and is a son of Joseph and Mary (Acroyd) Jones. His father was a blacksmith by trade, and, in the summer of 1847, emigrated to America with his family and settled at Cuyahoga Falls, Ohio. He was in humble circumstances, but, by industry and frugality, not only sustained his family, but became the possessor of a good shop and had a flourishing trade. He died Feb. 24, 1879, having been on the retired list for a number of years. Joseph was the eldest son, and, when 10 years old, went to work in the shop with his father, and, when 15, made a full hand at the trade. He was married, December 31, 1862, to Miss Eveline M. Newburgh, of Cuyahoga Falls, Ohio, her birth being recorded May 8, 1847. The next day after his marriage, he assumed control of the shop, which he has conducted successfully ever since, and has a large and flourishing trade. His marriage has been fruitful of seven children, viz.: Carrie Ida, Frank E., Minnie E., Lulu, Charles W., Maude and Birdie. Mr. Jones is a man of industrious habits, and is esteemed by the citizens as one of the most honorable and upright men. He is a member of the I. O. O. F., and of the Town Council. He is a Republican.

JOSHUA L'HOMMEDIEU, grocer, Cuyahoga Falls; was born in Middletown, Conn., March 16, 1821, and is a son of Joseph and Betsey (Gridley) L'Hommedieu. His father was a rope-maker by trade, and passed his life a resident of Connecticut, dying in 1837.

Joshua commenced clerking in a store in Hartford when 16 years old, and, two years later, accepted a similar position at Amherst, Mass., where he remained until 1842, when he came to Cuyahoga Falls, Ohio. He engaged in business with two brothers who had preceded him, and paid his first attention to the manufacture of starch, and, a few years later, ran a large ashery and grocery store as well. He subsequently enlarged his business, and kept a store of general merchandise, and at the same time conducted business of a similar nature at Northampton, and at Akron; was also in this kind of business in the oil regions of Pennsylvania during the height of the excitement, but, since 1863, he has kept a grocery and provision store only at Cuyahoga Falls. He was Postmaster of Cuyahoga Falls from 1853 to 1861, and has served as Mayor of the town. He is now serving his fourth term as Justice of the Peace, and a third term as a Director of Summit County Agricultural Society. He was married, in March, 1852, to Julia, daughter of Sylvester and Emma Pease. She was born in Summit Co., Ohio, in April, 1834, and has crowned their union with six children, four of whom are living, viz.: Townsend P., Mary F., Arthur and Joshua H. Mrs. L'Hommedieu is a member of the Congregational Church. He has always acted with the Democratic party.

L. W. LOOMIS, dealer in stoves, tin, glass and wooden ware, etc., Cuyahoga Falls. Among the prominent business men of this place, in which the varied industries have drawn together a large number, none, perhaps, exercise more tact or display better judgment in the management of their business than this gentleman, who conducts one of the leading houses of Northern Ohio. He was born in Madison Co., N. Y., Jan. 11, 1836, and is a son of William and Emeline (Thomas) Loomis. His early life was passed on his father's farm, and, when of age, he commenced the battle of life, with no capital save his natural business qualifications and a determination to succeed. For four years he was a "tin peddler" for Smith & Herrington, of Waterloo, N. Y., and then entered the service of his country as a private soldier in Co. G, 13th New York V. I. At the expiration of his enlistment, which

was for two years, he once more entered the service of his old employers, and, in February, 1864, accompanied by his brother, H. E. Loomis, he came to Cuyahoga Falls and founded the present business, Smith & Herrington, owning a half interest. In March, 1865, he bought out his brother, and, in 1867, became sole proprietor. He has a large number of wagons on the road, that are supplied with wares manufactured at his shop, and by this means he is enabled to do an immense business. He has also a large branch store at Canton, Ohio. Mr. Loomis is associated with Mr. H. E. Parks in the proprietorship of the "High Bridge Glens and Caves," one of the most picturesque and lovely resorts in Northern Ohio, the scenery being undoubtedly the finest in the State. It is annually visited by thousands of pleasure-seekers, and Mr. Loomis can justly be proud of his connection with the enterprise. He was married, June 3, 1863, to Jane Curtiss, of Canandaigua, N. Y. This union has been blessed with five children—Lilian M., Byron H., Irving L., Melvin C. and Arthur N. Arthur died Oct. 30, and Melvin Nov. 4, 1880.

JAMES J. MOORE, Superintendent of the Falls Wire Manufacturing Company, Cuyahoga Falls; was born in Pittsburgh, Penn., Feb. 14, 1830, and is a son of William and Margaret Moore. About the year 1835, they moved to Cuyahoga Falls, where they lived some fifteen years, and then went to Williams Co., Ohio. James clerked in a store for awhile, and then secured a position on the railroad as express and mail agent. In 1861, he entered the service of the Government, in the Paymaster's Department, and was thus employed until the close of the war. In 1870, he entered the employ of Camp, Cooke & Co., with whom he remained until the organization of the Falls Wire Company, when he became its Secretary, and, at the re-organization in 1879, under the name of the Falls Wire Manufacturing Company, he was retained as Superintendent. Mr. Moore is a genial gentleman, and spends much of his time in traveling in the interests of his firm.

GEORGE PAUL, civil engineer, Cuyahoga Falls; is one of the prominent and widely known citizens of this county, in which he has

always lived, being born at Cuyahoga Falls Sept. 8, 1837. His father, Hosea Paul, was born at Braintree, Vt., and reared at Danville. He passed the early part of his life in a drug store, and studied surveying and engineering. He married a lady by the name of Ellen Gamble, who came to America from County Down, Ireland, when in her youth. In 1834, he moved to Ohio, and for one year lived at Wadsworth, in Medina Co., when he came to Cuyahoga Falls, where he passed the rest of his life. He first engaged in the flouring business, in which he was unfortunate, and then followed engineering and surveying, being Surveyor of Summit Co. from 1857 until his death, in May, 1870. George is the eldest but one of a family of seven children, and learned surveying and engineering in the best of all schools—experience. In 1857, he went to the machinist's trade and served three years at this place, and has the honor of planning the first steam canal-boat that plied on the Ohio Canal. In 1860, he went East, and for two years was employed in various shops. Passing the required examination for an engineer in 1862, he entered the regular service of the United States Navy, being under Admiral Dupont, of the South Atlantic Squadron, three years, and then returned to his surveying and engineering, which he has since followed, with the exception of a short time he owned a machine-shop at this place, buying it in 1867. In 1878, he was elected member of the State Board of Public Works, an office he has filled with credit to himself and State. He was married, May 10, 1871, to Olive A., daughter of Austin and Eliza (Taylor) Babcock. She was born May 21, 1842, at Cuyhoga Falls, Ohio, her parents coming here from Massachusetts. Mrs. Paul is a member of the Congregational Church. Politically, Mr. Paul is a Republican.

E. C. RUGGLES, attorney, Cuyahoga Falls; was born at Canfield, Ohio, May 14, 1840, and is a son of Charles and Lucy (Peck) Ruggles. His father adopted the legal profession in early life, and has always resided at Canfield, where he is now passing a retired and quiet life. He has been an energetic and enterprising man, and is held in high estimation by the members of the bar, with whom he has

been associated for many years. The subject of this sketch did not enjoy the usual facilities for acquiring an education, and for some time performed light duties about the court house. In the spring of 1863, he was appointed Recorder of Claims against the Government, with headquarters at Nashville, Tenn., and filled that office until the close of the war. He then passed two years in Illinois, and returned to Canfield and commenced the study of law. He was admitted to the bar in 1869, and, in the summer of 1873, came to Cuyahoga Falls from Kent, where he had located some two years previous. He now enjoys a lucrative and growing practice, and finds this a pleasant place for one of his profession. He was married in April, 1859, to Catharine, daughter of William and Amanda (Mygatt) McFarlaue. This happy union has been blessed with one child—Ellen M. Mrs. Ruggles and daughter are members of the Congregational Church. He is a Republican.

DR. C. W. RICE (deceased); was born at Middlefield, Otsego Co., N. Y., April 15, 1803, and was a son of William and Sarah (Belknap) Rice, he being the third of a family of ten children. He passed his early life on a farm, and, when 17 years old, went to the trade of book-binder, which he worked at until he was 25, and then commenced the study of medicine with Dr. Ariel Spaford, of Coopers-town, N. Y. He remained with him about three years as a student, and graduated from Fairfield College, Herkimer Co., N. Y., in January, 1829. He practiced with his old preceptor for one year, and then came to Cuyahoga Falls, Ohio, where he soon had a large practice. He stood the acknowledged head of the profession for many years, and died Oct. 7, 1861, leaving many friends to mourn his loss. He was married, Nov. 6, 1834, to Lucy W. Wetmore, daughter of Josiah and Nancy (Willard) Wetmore. She was born in Middletown, Conn., July 13, 1812, and accompanied her parents to Ohio in 1818. They secured a farm in what is now Summit Co., Stow Township. Dr. Rice was throughout life a man of integrity, and bore an upright character in every department of life. He united with the Episcopal Church soon after coming to this place, and was an upright and

consistent Christian, devoting much of his time to objects of charity. His marriage was blessed with three children—Sarah F., William C. and George W.

WILLIAM SOUTHMAYD, insurance, Cuyahoga Falls; was born May 16, 1830; he is a son of Erastus and Clarissa (Rice) Southmayd, who were parents of four sons—Walter, William, and Horace and Henry (twins). William is the only one living of this family. William's father, Erastus, was born in Middletown, Conn., March 29, 1847. When a young man, he left home and went to New York City to take charge of a mercantile business there for his brother. His brother failed, and, in the fall of 1818, Mr. Southmayd came to Ashtabula Co., Ohio, and that winter taught school there. In the spring of 1819, he came to Stow Township, Summit Co., Ohio. He taught school in that county, the winters of 1819 and 1820, and then went back to Connecticut, where he remained but one year, when he again came to Stow Township, and, April 18, 1822, married Anna, daughter of Caleb Wetmore. By her he had three children—Lucy, Charles and Leonard. Lucy is now dead. Charles was born Feb. 4, 1825. He married Helen A. Wilson, an adopted daughter of Darius Wilson, and is now a resident of Stow Township. A biographical sketch of Leonard will be found in another part of this work. Mr. Southmayd's wife died Dec. 19, 1826, and, March 21, 1827, he married Clarissa Rice, the mother of the subject of this sketch. Clarissa Rice was born Feb. 6, 1805, and was the second white child born in Stow Township. To this union were born four children, as stated above. Mr. Southmayd died Oct. 10, 1866, and his second wife March 14, 1879. William Southmayd was reared on the old homestead in Stow. He was married Nov. 4, 1852, to Martha, daughter of Darius Wilson. This union was blessed with two children—Lucy, born May 13, 1855, married Charles N. Gaylord, and resides at Monroe Falls; George M., born Jan. 12, 1863. Mrs. Southmayd was born Dec. 27, 1831, and is one in a family of seven. Mr. Southmayd started in life with scarcely anything. He now owns the old homestead in Stow—48 acres—which has been in the Southmayd fam-

ily fifty-three years. He owns a house and lot in Cuyahoga Falls, where he resides. Mr. Southmayd represents the Citizens' Mutual Relief Association, one of the best and most reliable insurance firms in the State of Ohio. After his marriage, Mr. Southmayd taught school considerably. He is a teacher of ten winters' experience. He and wife have been members of the Church of Christ thirty-one years, in which he has held positions of honor and trust. He is a Republican in politics, and has been Township Clerk of Stow twenty years. In October, 1879, he was elected to fill a vacancy as one of the Directors of the County Infirmary, and re-elected in 1880, for three years. Horace Southmayd, brother of the subject of this sketch, was in the 42d O. V. L., under Col. (now President) Garfield, and was in the engagement at Middle Creek, Ky., where the Union forces met the rebels under Humphrey Marshall, and, as it was said, "let daylight shine for the first time in Kentucky." Horace was wounded here, but did not leave the service until he was afterward taken ill. His folks went after him and brought him home, where he died in May, 1862.

P. H. STANDISH, chain works, Cuyahoga Falls; was born at Sing Sing, N. Y., May 5, 1835, and is a son of John and Relief (Hayden) Standish. His father was a native of the State of Rhode Island, and comes of a family who were noted for their ingenuity and mechanical skill. He was connected with one of the first cotton-mills in that State, and his whole life was one continued round of enterprise and industry. He conducted different kinds of business during his life-time, and resided in various parts of the Union. In 1850, he came to Cuyahoga Falls, where he remained some seven years, and then went to California, where he passed the rest of his life. When the subject of this sketch was of age, he crossed the mountains to the Golden State, where his ingenuity and mechanical skill were in ready demand, and there he engaged in business. The manufacture of agricultural implements received his attention, and he invented the celebrated Standish Steam Plow, that is covered by letters patent in several countries of Europe, as well as in the United States. He was also quite largely interested

in the milling industry. He returned to Missouri in 1871, and resided in that State until 1878, for two years being master mechanic in the penitentiary at Jefferson City. He was engaged in manufacturing in St. Louis quite extensively, and then came to Cuyahoga Falls, where he is conducting a large business, that adds materially to the growth and prosperity of the town. He was married, in 1857, to Marie Gorham, of California, Wisconsin being the place of her birth. This union has been blessed with one child, a daughter, named Almira.

GEORGE SACKETT, farmer; P. O. Cuyahoga Falls; is a son of Aaron and Huldah (Tanner) Sackett, both of whom were natives of Litchfield Co., Conn., and was born Jan. 6, 1821, in that county. His father was a farmer by pursuit, and in 1838, moved to what is now Summit Co., Ohio, and secured a farm in Tallmadge Township. His companion died in April, 1855, and he in June, 1873, at the residence of a son in Copley Township, where he had been living a few years. George was reared to farming, and, by industry and economy, at length secured a tract of land in the township of Cuyahoga Falls. It was all forest, and was cleared mostly by himself, and has since been partly laid out and sold as town lots. Mr. Sackett was married, in September, 1848, to Helen Williams; she died in 1851, and he was then united to Fanny V. Grant, on the 9th day of February, 1854. This union has been blessed with one child—Mary P. Mr. Sackett has a pleasant and refined home, and can now enjoy the fruits of his early labors with the satisfaction of knowing that industry and integrity are sure to have their reward. He has held different offices, at the solicitation of the citizens of the county, and, in 1880, was Real Estate Appraiser of the township of Cuyahoga Falls. The same year, he was chosen a member of the State Board of Equalization, to represent the counties of Summit and Portage. Both he and wife are members of the Congregational Church. He is a Republican.

E. N. SILL, bank, Cuyahoga Falls; was born in Windsor, Conn., Jan. 6, 1801, and is a son of Elisha N. and Chloé (Allyn) Sill. His father was a physician, and devoted the active

part of his life to the practice of his profession in the State of Connecticut. The subject of this sketch is the third of a family of nine children, and graduated from Yale College in 1820. For several years he engaged in teaching, and, in 1829, came to Cuyahoga Falls, where he has since resided. For a short time he was engaged in manufacturing, and, having been instrumental in the organization of the Mutual Fire Insurance Company of Portage Co., was chosen Secretary—an office he held until the expiration of its charter. The Summit Co. Branch of the Ohio State Bank was located at this point, and Mr. Sill became its President soon after. He has ever since held that position in the bank at Cuyahoga Falls—first, in the National Bank, which he organized, and at present in the Inter-National Bank. He has also been Director in the First National Bank since its organization. Mr. Sill served one term as State Senator, and, for the seven years following that service, was Fund Commissioner of the State. He is a member of the Congregational Church and a well-known and highly respected citizen of the town of Cuyahoga Falls.

R. J. THOMAS, manufacturer of stoneware, Cuyahoga Falls; was born in Wales, Aug. 24, 1831, and is a son of John and Anna (Rees) Thomas. His father was a blacksmith by trade, and, in 1835, emigrated to the United States and settled in Palmyra Township, Portage Co., Ohio, where he ever after lived. Here he secured a farm, and, although he worked at his trade some at first, he may be said to have been a farmer after coming to America. Five children accompanied the parents to this country, and four were born to them after their arrival. Both Mr. and Mrs. Thomas were consistent members of the Unitarian Church, and their industrious habits crowned them with a competency before their death. She died in February, 1867, and he in December, 1868. The subject of this sketch received a good education, and for several years taught school during the winter season. In the spring of 1857, he entered the employ of William H. Harris, of this county, who owned and operated a large coal-mine, and, in July, 1859, he leased the mines and conducted them until the spring of 1867, with

the exception of two years that he passed in Trumbull Co. He engaged in the manufacture of stoneware at that time, and has a younger brother for a partner. Their business is conducted on an extensive scale, but fails to meet the demands of their numerous patrons, and they therefore buy largely from other manufacturers. Mr. Thomas was married, March 31, 1860, to Ann, a daughter of David S. and Hannah Davis. She was born in Wales in February, 1838, and accompanied her parents to Portage Co., Ohio, when in her childhood. Their union has been fruitful of six children, four of whom are living, viz.: Edwin D., Irving Seward, Hattie and Franklin W. Mr. Thomas and wife are members of the First Congregational Church.

GRANT B. TURNER, Variety Iron Works, Cuyahoga Falls; is a son of William and Rosanna (Owen) Turner, and was born Oct. 17, 1810, in Blooming Grove, Orange Co., N. Y. His father was a cooper by trade, and, in 1818, moved to Trumbull Co., Ohio, where he remained ten years, and then came to Cuyahoga Falls, where he passed the rest of his life. Grant B. is the eldest of a family of four children, and, when 19 years old, went to the printer's trade, in the office of the *Western Intelligencer*, at Hudson, Ohio. After five years application, he left the business, and has since devoted his attention to other pursuits. For four years, he was Deputy Sheriff of Portage Co. He studied law, and, after his admission to the bar, practiced the profession for several years. In 1856, he, in company with several other gentlemen, founded the Variety Iron Works, the firm being Turner, Parks & Co. Mr. Turner is the only one of the original firm connected with the business at the present time, his partners being Messrs. J. A. Vaughn and W. A. Taylor, two well-known business men. Their facilities for manufacturing are excellent, and their reputation, earned by years of careful attention to the wants of their patrons, places them in an enviable position in the business world. Among the many things manufactured at their shops are steam engines, grain-cleaning machinery, mill gearing, wire-working machinery, and clay-grinding machines—a part of which are covered by patents taken out by this firm. The

demand for their products is not confined to the United States, but includes considerable trade with several European countries. Mr. Turner was married, April 30, 1835, to Ada Morley, of Canandaigua, N. Y. They have three children—Augusta, Hattie and Alice, all of whom are married.

D. J. THOMAS, manufacturer of stoneware, Cuyahoga Falls; is a son of John and Anna (Rees) Thomas, and was born in Palmyra Township, Portage Co., Ohio, April 14, 1841. When 19 years old, he came to Tallmadge Township, in Summit Co., and went to work in the coal-banks. Aug. 24, 1862, he was married to Maria Thomas, of Portage Co., where she was born April 15, 1841. Two days after this union, Mr. Thomas went into camp at Massillon, having enlisted, previous to his marriage, in Co. C, 115th O. V. I. He served three years, and was captured at Laverne, Tenn., but escaped ten days later, while at Columbia, being then on his way to the prison pens of the South. He returned to Cuyahoga Falls, and engaged in the grocery and provision business with John I. Jones, with whom he remained about one year, when he withdrew and engaged in his present business. His companion died May 31, 1863, and he was again united in the bonds of marriage the 13th day of July, 1867, Ruth Williams, of Tallmadge, becoming his wife. This union has been fruitful of six children, viz.: Ella D., Delbert J. (deceased), Lizzie A., Walter (deceased), Sarah Josephine, and Mabel Carrie (deceased). Mrs. Thomas is a member of the Congregational Church.

MAJ. CHARLES WRIGHT WETMORE (deceased), was born in St. Albans, Vt., Sept. 8, 1803, where he passed his boyhood and early manhood. He was married to Miss Hazeltine in 1825. They, with their three children, moved to Chillicothe, Ohio, in 1830, where Mr. Wetmore established himself in business. In 1832, they removed to Cuyahoga Falls, where the remaining years of Mr. and Mrs. Wetmore's life were spent. During these years, Mr. Wetmore has repeatedly occupied high public trusts at the solicitation of his fellow-citizens. He held the office of Mayor several successive terms, and was so generally popular throughout the Reserve that,

had he aspired to political honors, he would undoubtedly have received the highest offices within the gift of the people of the State. His domestic tastes, however, induced him to seek a more quiet life, and the circle of his usefulness and civil duties were circumscribed by his own choice. Mr. Wetmore was one of, and for, the people; distinguished for his sympathy and benevolence. It was his delight, during his active life, to assist young men starting out in their career—professional or business. For a number of years previous to his death, Mr. Wetmore was quite infirm, but, throughout the time, a cheerful, uncomplaining invalid, always glad to see the friends who remembered the Major with affection. His life work ended Sept. 29, 1880. Funeral services were conducted at the house by the Rev. E. V. H. Danner, and at the grave by the Masonic fraternity, of which the deceased had been a member during the greater part of his life. His wife was born in the year 1800; she was, on her mother's side, a descendant of the Worcesters, who were early settlers at Worcester, Mass., and from whom it is said the town took its name. For some time previous to their marriage, Mrs. Wetmore had been living with her sister, Mrs. Judge Bridges, in St. Albans, Vt., and had enjoyed the privilege of a good education and intelligent society; it was hard for her to think of locating in a Western hamlet, without schools, churches or anything which makes society worth living for. Cuyahoga Falls, at that time, had a store, a hotel, a few dwellings, several mills, and a schoolhouse; in the latter, religious services were held once in two weeks. Full of the spirit of enterprise, added to earnest religious zeal, Mrs. Wetmore determined to awaken interest, if possible, in the formation of a Sabbath school. She met with many discouragements, but finally the influential family of Mrs. H. Newberry pledged their assistance, and the work progressed without opposition. Mrs. Wetmore, with the aid of the Misses Mary and Fanny Newberry, founded the first Sabbath school in Cuyahoga Falls in the spring of 1833, and continued one of its teachers until advancing years and growing cares caused her to retire. So remarkable was her modesty, and so unmindful was she of her

charitable deeds, that not till within the past few years did she relate to her family the early history of the school, and her relation to it. She was one of the few who were instrumental in organizing the first Foreign Missionary Society of the town. The Maternal Association, which was organized a few years later, she was a leading member of. It was a society composed of praying mothers, who often met to consult in regard to the religious training of their children. Mrs. Wetmore was one of the few who composed the Congregational Church at its organization. She was ever a consistent and devoted member of that church, her position being aggressive against anything that tended to lower its orthodoxy or to enfeeble its spirituality. She was pledged to its benevolent enterprises. Her highest ambition for her children was that they might be intelligent and Christian laborers in the church so dear to her. Her cheerful disposition added to her faith in the wisdom of the providences of God, enabled her to rise above sorrow, and ever minister to those of less faith and fortitude. She was a generous friend to the home missionary. One of these, in acknowledging the receipt of a religious newspaper, on which she annually paid the subscription for him, begged the privilege of calling her "mother." A lady in Boston writes: "She was the only mother I ever knew." And many others, especially orphans, or those whose circumstances would place them in reach of her care or benevolence, think they also have the right to claim her as a "mother" indeed. She possessed an inexhaustible fund of knowledge, from which she could draw with adaptability, as occasion demanded. Much of the Bible she could repeat: one had only to commence a verse, when she would continue to repeat, from memory, the rest of the chapter. Her mind was a storehouse of history, both sacred and profane. Possessing rare executive ability, excellent judgment, and that valuable gift, common sense, we can justly say she was a person of uncommon character and endowments; and at her demise—which occurred Christmas night, 1877, aged 77 years and 8 months—the loss was severely felt in many directions, but fell especially severe on her own family. The self-sacrificing mother

was the idol almost worshiped by her children, who delighted in her brilliant, cultured intellect, her ready wit and her finely drawn conclusions; they rejoiced in her independence of thought and action, and her pitying scorn for what was wrong, and that she dared to live a life of non-conformity to the vain customs of the world. Of herself she seldom spoke or thought; for herself she seemed not to have ever lived. It was love and ministry unceasing for husband, children and grandchildren, that made her appear like an angel of light in her own household. She was calculated to lead each member of her family in thought and action; even the strongest were leaning upon her comparatively unimpaired faculties, when she was suddenly called away. The surviving members of the family are Miss Salome S. Wetmore, who is a resident of the village; Mrs. Louise, wife of Capt. H. S. Wetmore, of South America; and William Shepard Wetmore, of the firm of Frazer & Co., merchants, of Hong Kong and Shanghai, China.

J. F. WEIDNER, cooper, Cuyahoga Falls; was born in Wurtemberg, Germany, Jan. 18, 1827. His father, Michael Weidner, was a farmer, and passed his life in his native land. The subject of this sketch was only 8 days old when his mother died, and, as is usual in such

cases, he grew to maturity without that kind and watchful care that none but mothers know how to bestow. He learned the trade of cooper, and, in 1849, emigrated to America for the purpose of acquiring a position in the world that he considered was beyond his reach while in the "Fatherland." Coming to Ohio, he passed one year at Cleveland, and, in March, 1850, became a citizen of Cuyahoga Falls, where he has since resided and worked at his trade. His industrious habits, coupled with his business integrity, has given him a competency, and here he has, as it were, realized the dreams of his youth. He was married at Vermillion, Ohio, Aug. 9, 1853, to Miss Catharine Hess. She was born in Hessen, Germany, July 13, 1832, and came to America when 4 years old. Their happy and prosperous union has been blessed with five children—Elizabeth C., Charles A., Mary C., George F. and Nellie G. The eldest married Mr. E. E. Pierce, and resides at New Brighton, Penn.; Charles married Miss Elsie Smith, and resides at Cuyahoga Falls, where he is interested in the manufacture of pot-rivets. Mr. Weidner, wife and two eldest daughters are members of the M. E. Church, of which he is Treasurer, and takes an active part in its prosperity, having been connected therewith over twenty years. He is a Republican.

NORTHAMPTON TOWNSHIP.

JOHN A. BOTZUM, Buckeye. John George Botzum, father of this gentleman, was born in Germany in 1796. He was the son of John Botzum, who was a native of Germany, and the parents of one son (John G.), and two daughters. John G. was married to Miss Catharine Dragsar, in 1819. She was a native of the village of Urmerspach, Germany, where she was born in 1796. Her parents moved to Poland when she was 7 years of age, leaving her with her mother's brother in Germany. She never saw her parents afterward, and continued to reside with her relatives until her marriage with Mr. Botzum. They were the parents of the following family of children: Michael, born in 1820; Catharine, in 1821, and died in 1825; Susan,

born in 1823; Nicholas, in 1825; George, in 1827; John, in 1829, and died in 1834; Adam, born in 1830; Catharine, in 1832; John A., in 1834, and Conrad in 1836. All of these children were born in Germany, except Conrad. In 1836, Mr. Botzum and family left their native village, and went by ox team to the seaboard, where they took passage on the vessel Princeosa for the United States, arriving at New York on the 17th of July of the same year. Here they met an agent, who, after some talk, persuaded Mr. Botzum to go to South America, where he was told a fortune awaited him. Before they had completed arrangements for the voyage, however, Mr. Botzum learned from the authorities that it was a plan to get himself and

family to that far-off country, where they would be sold into slavery. This decided him in his course, and, in a short time, we find the family aboard a flat-boat on their way to Albany. From there they went by canal to Buffalo; thence by the lake to Cleveland, Ohio. Here the family were compelled to stop for a time, owing to sickness in the family. After a short time, they took passage on an open flat-boat on the canal for Niles. From there they went to Ghent, in Bath Township. Here Mr. Botzum obtained work at 50 cents per day, digging a mill race. They remained at this place two years, and, while the father was at work so hard, his good wife found time to go into the wheat fields of the farmers of that neighborhood, and glean, as did Ruth of old. The first season her gleanings, when threshed, amounted to *eight bushels* of nice wheat. After a stay of two years at Ghent, they removed to Niles, and, after four years, purchased a farm, upon which they ever afterward resided. Mr. and Mrs. Botzum were members of the Catholic Church, and would often walk great distances to attend church. In 1839, they walked to Canton, Ohio, to attend church at that place. They were frugal, industrious people, and respected by all who knew them. John A. Botzum was raised upon a farm, receiving but a limited education. When about 18 years of age, he went to Cleveland, and, for about a year, was engaged as clerk in a mercantile house. He then returned home, and, until 1858, was variously employed. He then engaged in mercantile pursuits at Botzum Station, where he has since remained, and, during that time, has been prominently identified with the growth and prosperity of that place. He has been quite an extensive dealer in lumber, live stock and real estate, and, when the Valley Railroad was building, took the contract for grading one and a half miles of the road, near Botzum Station. The man he contracted with proved worthless, and Mr. Botzum lost, in this undertaking, over \$5,000. Mr. Botzum was married to a Miss Stout, a native of Northampton Township, this county. She is the daughter of George and Eliza (Woolford) Stout, appropriate mention of whom is made in another part of this work. Mr. and Mrs. Botzum are the parents of two sons, to whom they have given superior advantages for obtaining educations. Mr. Botzum is a self-made man, in the fullest sense of the word. He is a good and useful citizen, and

has the respect and confidence of the entire community.

A. G. BILLMAN, farmer and stock-raiser; P. O. Akron; was born near Wooster, Wayne Co., Ohio, Dec. 18, 1833. He is a son of Henry and Maria (Best) Billman, and grandson of David and Mary (McDonald) Billman, and great-grandson of John and Julia (De Caveren) Billman. The last two were natives of Prussia, and John was one of the regular soldiers there. Becoming tired of the service, he ran away and shipped on board a vessel bound for the United States, where he arrived in safety. Soon after his arrival the war between the colonies and Great Britain broke out, and Mr. Billman immediately offered his services in behalf of the colonies to Gen. Washington. Owing to his previous experience he was commissioned Captain, but by bravery was promoted to Colonel. He served through the whole eight years, participating in the battle of Lexington, the campaign of Virginia, and was with Gen. Washington at Valley Forge, where, in connection with the rest of the troops, passed one of the most severe winters of suffering ever known in the history of war. He was wounded three times, but never quit the service. After the close of the war, he married Julia De Caveren, and was made overseer of "Hamilton's Plantation" in Virginia, four miles from Gen. Washington's. At the end of four years he had saved sufficient money to purchase a large farm of unimproved land, but, in time, turned it into a plantation. In 1818, he sold this property and purchased a large farm near Baltimore, Md., and, in 1819, his death occurred. His eldest son David moved to Lancaster Co., Penn., soon after his father's death, and lived there until about 1825, when he was induced by Gen. Bell, whom he had served under as private in the war of 1812, to remove to Wayne Co., Ohio. He purchased a large tract of land near Wooster. He died here in 1866. His third child was Henry Billman, who is the father of the subject of this sketch. He was born in Lancaster Co., Penn., and married his wife, Maria Best, in Allegheny Co. He came with his parents to Ohio in 1825, and, in 1845, came with his family to Northampton Township, Summit Co., and purchased the farm on which his son Alexander now resides. He was one of the few men who commanded the respect and esteem of every one, and of him could be

truly said he was one of nature's noblemen. At the time of his death he was a member of the M. E. Church. Alexander G. Billman was reared principally on the farm, and in youth he received a good education. He was married, Feb. 21, 1861, to Eliza Hartman, daughter of the Rev. Peter Hartman, of Wayne Co., Ohio, and to this union there were born the following family—George, Frank, Arthur, one that died in infancy, and Blanche G. Mrs. Billman was born Feb. 11, 1839. Mr. and Mrs. Billman are members of the M. E. Church, and Mr. Billman is a Republican in politics. He owns 207 acres of well-improved land, which has been in his family ever since it was a forest.

MARY A. BUTLER, the daughter of Joseph Wallace, was born in Franklin Township, Portage Co., Ohio, Feb. 22, 1841. On the 22d of February, 1841, she was united in marriage with Jackson Bean, son of Henry Bean, and by him had three children; Charles A., Frank W. and Alanson J. Mr. Bean was a widower with two children at the time of his marriage with Miss Wallace. His occupation was auctioneering. He died July 10, 1869, and Feb. 6, 1874, his widow married Henry Butler, who was a widower with four children. To this union there were born three children; Fronie, Byron E. and Maud L. By the death of her first husband Mrs. Butler and her children were left 78 acres near Old Portage. At present she lives on a farm of 56 acres which was given her by her father. Mr. Butler is a Democrat, and his wife is a member of the Baptist Church.

L. H. COX, proprietor of stone quarry, Cuyahoga Falls; was born in Northampton Township, Summit Co., Ohio, Sept. 24, 1837. He is one of the following children born to Leonard and Lydia (Thompson) Cox: Lyman H., Lenora M., Frances, deceased, and LeRoy. Mr. Cox died July 7, 1862. Lyman H. Cox passed his youth and early manhood on the farm, receiving a good common-school education. When he was 21 years and 11 days old he commenced life on his own responsibility. He was married Aug. 6, 1861, to Ann M. Fitts, daughter of Roswell Fitts, and by her has one son, Fred, born Dec. 8, 1865. Mrs. Cox was born April 8, 1836. In 1866, Mr. Cox came to his present place and purchased 4 acres. This tract of land is underlaid with the best quality of building rock in Summit Co. For a better description of this rock see the history of

Northampton Township in another part of this work. This quarry is undoubtedly one of the best in the county. Besides this property, Mr. Cox owns a half interest in the old homestead which consists of 100 acres in the western part of the township. Mr. Cox is a member of Lodge No. 187, A., F. and A. M., and he is a Greenbacker in politics.

WILLIAM CARTER, farmer; P. O. Cuyahoga Falls; is a son of William and Jane (Carter) Carter and grandson of Jared Carter. His father was a native of Middletown, Conn., and was born Feb. 13, 1792. June 16, 1814, he married Chloe Wadsworth, and by her had five children as follows: Maria E., born May 30, 1815; Sarah, born June 7, 1818; Mary, born Jan. 7, 1820; Emily, born Oct. 31, 1822, and Amelia, born Jan. 31, 1835. The mother was born March 10, 1794; she died Oct. 17, 1826. Mr. Carter was a bricklayer by trade; he came to Northampton Township at a very early time, and, being a master of his trade, received plenty of employment. The first brick building in the village of Cuyahoga Falls was built by him, as was also the jail at Akron, and many other of the best buildings in the county. His second wife was Jane Carter, to whom he was married in Northampton Township, Oct. 17, 1834, and by her had the following family: William (the subject of this biography), born Sept. 26, 1836; Patty, born July 25, 1838; Mahala, born Oct. 11, 1842, and Helen, born April 27, 1845. Patty married Wallace Harrington, and Mahala married Fred Harrington, brothers. Mr. Carter died April 24, 1876. William Carter, Jr., passed his youth and early manhood on the farm; he was married Nov. 19, 1863, to Martha Pardee, daughter of Harry and Fanny (Benedict) Pardee, and to this union were born two children—Eleanor F. born in 1864, and Harry, born in 1865. Mrs. Carter was born Sept. 16, 1838. Our subject's mother is yet living on the old Carter homestead, which consists of 72 acres. The Carters are among the old pioneers of Summit County, and are also among the leading citizens.

SIMEON DICKERMAN, farmer and dairyman; P. O. Cuyahoga Falls; was born in Norton Township, Summit Co. (then Medina Co.) Ohio, June 22, 1824. He was one in a family of six children, born to Clement C. and Almira M. (Ormsby) Dickerman. The names of these children are Gilbert C., dead; Simeon, Orlando,

Henry, Asenath and Chloe, dead; Henry married a Mrs. Renn, of Pennsylvania; Asenath is the wife of Charles P. Gardner, and lives in Minnesota; Orlando married Elizabeth Pearson, sister of our subject's wife, and lives in Medina Co., Ohio. The parents were married in Norton Township, Jan. 11, 1821. Clement C. Dickerman came to Medina Co., Ohio, at the early period of 1816, and his first location was in Norton Township, now in Summit County. Mr. Dickerman was a poor, but hard working citizen. His death occurred March 21, 1847, leaving a widow and family to mourn his loss. His widow is yet living with her son Simeon, at the advanced age of 81 years. Simeon Dickerman passed his early career on the farm assisting his mother in the care of the family, receiving but a limited chance for an education. On the 9th of October, 1850, he was united in marriage with Miss Mary A. Pearson, daughter of Arza and Achsah Pearson, old settlers in York Township, Medina Co., Ohio. After his marriage, Mr. Dickerman still continued to reside on the old place in Norton Township, until the spring of 1852, when he moved to Akron, and for one year engaged in teaming. The next year he engaged in the grocery business in that city and so continued for about four years. In 1858, he came to his present place and engaged in farming and sheep-raising. He soon discontinued this and engaged in his present pursuit, in which he has ever since been engaged. Mr. Dickerman owns 300 acres of excellent land, 192 acres of which are in Northampton, and the balance in Boston Township. To his union with Miss Pearson, there were born the following family: Henry A., born Nov. 23, 1856, died Nov. 16, 1865; Lydia A., born Aug. 26, 1863, and Charles E., born Dec. 20, 1866, died Sept. 5, 1874. Mrs. Dickerman was born in Rutland Co., Vt., April 18, 1831. Mr. and Mrs. Dickerman are among the best connected families in the township, and are good and hospitable people. Mr. Dickerman is a staunch Republican in politics, and he and wife are members of the Methodist Episcopal Church.

EDWIN FOLK, farmer; P. O. Cuyahoga Falls; is a son of John and Mary (Fulwiler) Folk, who were natives of Pennsylvania. John Folk was born in 1796, and Mary his wife was born in 1798. This couple were the parents of ten children—Catharine, Mary, Sally, Jesse,

Edwin, Hannah, John, Daniel, Polly and David. The three last were born in Ohio. All these children are living. In 1833, this family came to Mahoning Co., Ohio, where he commenced farming and weaving, the latter being a trade he had learned years before. Mrs. Folk died July 20, 1865. Mr. Folk is still living making his home with relatives in Trumbull Co. Edwin Folk was born in Pennsylvania, Feb. 25, 1826. He came with his parents to Ohio in 1833, and, in his youth, received a common-school education. His people were very poor on their arrival in Ohio, like a good many other pioneer families. An incident in their life is here worthy of mention, and one that shows what people were sometimes compelled to do to keep from starving. At one time they cleared *one acre of timber-land for three bushels of shelled corn*. When 19 years of age, Edwin, like the rest of his brothers, was given his time, and for a number of years farmed and followed the carpenter's trade. He was married, Aug. 26, 1849, to Rebecca J. Hart, daughter of Samuel Hart, and by her had four children—Minnie S., born June 17, 1851, and who is now the wife of Rev. O. O. Osborn, and resides in Michigan; Ida J., born Jan. 16, 1855, now the wife of Griffith G. Roberts, farmer, and resides in Northampton; Charles E., born June 17, 1860, died Sept. 29, 1861; and Ella M., born May 3, 1863. Mrs. Folk was born May 1, 1829. Mr. Folk is a hard-working, industrious man. His wife is a member of the Baptist Church, and he is a member of the Lutheran Church.

MARVIN GIBBS, farmer; P. O. Buckeye; was born in Tuscarawas Co., Ohio, July 13, 1832. He is a son of Charles and Isabelle (Steele) Gibbs, who were parents of the following family: Margaret, James (dead), Mary A., Marvin, John S. (dead), Warren (dead), and one that died in infancy unnamed. The father was a native of Virginia, and was born in about 1799. He was a farmer, and was reared on a farm. He married Isabelle Steele in 1825; she was born in 1801. Mr. Gibbs came to Tuscarawas Co., Ohio, in about 1825, and after a residence there of eleven years, came to Northampton Township, Summit Co., Ohio, and settled on the farm now owned by our subject. At the time of their settlement in Northampton, there was no clearing whatever on their place, and being a man of very little means, Mr. Gibbs was compelled to go in debt for it. He

was a hard worker, and an honest, upright man in his dealings with men; and, at the time of his death, the place was cleared of all incumbrances. Mr. Gibbs died July 28, 1869. His widow still survives him, and resides with her son, Marvin, on the old homestead. Marvin passed his youth and early manhood on the farm. Was married Feb. 19, 1861, to Amanda E. Burgan, and her parents were among the pioneers of Sharon Township, Medina Co., Ohio. To this union there was born one son, Charles N., born in 1865. Mr. Gibbs is a Democrat in politics, and his mother is a member of the M. E. Church. The homestead consists of 85 acres of well-improved land.

HARRINGTON FAMILY. Job Harrington was born in Bennington, Vt., March 9, 1792. He was a son of Richard Harrington, who was of English descent. During the fall of 1814, Job Harrington and Susan Hartle, who was born in Georgetown, Penn., Jan. 27, 1796, were married. To this union there were born the following: John, born Feb. 2, 1818; George, born Aug. 20, 1819; Seth W., born June 13, 1821; James, born Nov. 17, 1823; Clarissa, born June 8, 1827; Warren A., born July 18, 1829; Alvin, born July 17, 1831; William, born July 11, 1833; Fred L., born Oct. 14, 1835; Wallace, born April 27, 1837, and Newton S., born May 22, 1840. John married Calista Prior and lives in Iowa; George married Clarissa Turner, but has since moved to Michigan and died; Clarissa married Alvin A. Wheeler; Warren has never married; he went to California in 1853, and has never returned; Alvin died in childhood; William married Chloe Carr; Wallace married Patty Carter, a sister of Fred L.'s wife; Newton served in the late war and died from diseases contracted while in his country's service; Seth W. married Freelope Jones, daughter of Rees and Jane (Wright) Jones, on the 12th of November, 1846, and by her had the following family: Ethelbert S., born April 17, 1848, died March 3, 1852; Robert W., born Oct. 25, 1857; J. Athaliah, Oct. 7, 1853; Delbert R., born Feb. 7, 1857; Grace N., born Nov. 30, 1865, and J. May, born April 2, 1868. The mother of these was born in Northampton Township, Sept. 6, 1824. Seth Harrington died Oct. 23, 1876. He joined the M. E. Church when 16 years old, and always remained in it. He was active in his duties for the advancement of education and religion. He taught school quite a

number of terms, and also held various township offices. He left a large circle of friends to mourn his loss. James Harrington married Lydia M. Hawley, daughter of Richard and Esther (Gorman) Hawley, on the 7th of March, 1850. To this union there were born the following: Amoret A., born Dec. 30, 1850, died Feb. 21, 1864; Ezra J., born Dec. 10, 1854; Wilfred J., born May 11, 1858, and Cora M., born Aug. 6, 1861. The mother was born Feb. 28, 1832. Mr. Harrington owns 70 acres of land, on which he resides in Northampton. Fred L. Harrington married Mahala Carter, Oct. 10, 1866. She is a daughter of William Carter, a sketch of whom accompanies this work, and was born Oct. 11, 1842. This union was blessed with four children—Charlie E., born Feb. 24, 1869; Burt C., born April 19, 1872; Frank L., born Dec. 13, 1874, and Myron E., born May 22, 1877. This family resides on the old Harrington homestead, which consists of over 100 acres. Job Harrington, the father and grandfather of the foregoing named individuals, in 1812, started on foot from Bennington, Vt., to Tallmadge Township, Summit Co., Ohio, where he arrived the same year, having traveled all the distance on foot. On his arrival, he purchased a farm for his parents, and the next year, 1813, his parents came there, and, building them a log cabin in the heart of the wilderness, commenced life there. In 1815, Job and his wife purchased and moved on the farm now owned by Fred L., in Northampton, and there remained until their respective deaths. Mrs. Harrington died Nov. 9, 1849. Mr. Harrington's second wife was Mary M. Paige, to whom he was married Nov. 30, 1851. She is yet living and resides in Cuyahoga Falls. Mr. Harrington died March 24, 1869. He early became identified in the history of Northampton Township, by the active part he took in advancing the best interests of his township and county. By his generous disposition and kind actions toward the Indians, he made life-long friends of them, and they regarded their white friend as a most good and noble chief. The first four years after his arrival in Northampton, Mr. Harrington was unable to work, owing to ill-health. His whole life in Ohio was one filled with the stern realities of a pioneer's life, in which innumerable hardships presented themselves. By the time he had begun to realize the comforts he had secured by his hardships, his life labors ceased,

and he was laid away at rest in the grave; a rest that he had denied himself in life. Mr. Harrington was regarded as among the best citizens Northampton ever had, and his descendants are among the first families in the township.

JOHN HOVEY, farmer; P. O. Buckeye. Among the old and time honored residents of Northampton Township, is the subject of this biography. He was born in the District of Montreal, in the Province of Lower Canada, June 1, 1814. He is the son of Abiel and Martha (Hardy) Hovey, who were parents of the following family: Amos, Ira, Aurelia, Mary, Abiel, James, John, Martha, Silas and Paulina. Of these, only James, John and Silas are now living. The parents were natives of Massachusetts. They came to what is now known as Boston Township, Summit Co., Ohio, in 1819, and settled first on the farm now owned by Thomas Woods. After living here and enduring the hardships of a pioneer's life two years. Mrs. Hovey died. His widow survived him until 1837, when she too died. John Hovey was reared on a farm, and not having the school advantages in those early days that we of the present have, his education was limited. He was married, June 18, 1835, to Maria Chamberlain, daughter of Ephraim and Deborah (Schoonover) Chamberlain, who emigrated to Northampton Township, Summit Co., Ohio, from New York, in 1820. To this union there were born five children—Nelson A., Simeon E., Aurelia, Harvey T. and Ephraim C. Of these, only the oldest and youngest are living. Nelson married Mary Howland, and lives in Old Portage. Ephraim married Lovisa Allen, and lives in Northampton Township. Mrs. Hovey was born in September, 1813, and is one in a family of six. Mr. Hovey's whole life has been passed in farming and lumbering. He now owns a farm of 76 acres of well-improved land, and is a staunch and unflinching Republican in politics.

ISRAEL JAMES, Cuyahoga Falls; was born in Berkshire Co., Mass., March 13, 1814. He is a son of Moses and Polly (Vining) James who were parents of three children—Israel, Orin and Joseph, all of whom are living. Mrs. James died in 1824, and Mr. James' second wife was Catharine Williams, and by her had one daughter, Lucretia. Mr. James came to Portage Co., Ohio, from Massachusetts in 1818, driving overland with an ox team. After a

journey of six weeks they reached their destination, where Mr. James' parents had preceded him one year, and where he had purchased a tract of land containing 1,000 acres. Here Moses James and family lived for a number of years, undergoing innumerable hardships incident to the pioneer's life. In about 1858, he moved to Geauga Co., Ohio, where he lived until his death, which occurred in his 78th year. Israel James remained at home until he was fifteen years of age. He then apprenticed himself to learn the blacksmithing trade. In 1832, he came to Cuyahoga Falls and has remained there ever since. For the first fifteen years following his arrival he followed blacksmithing, and at the end of that time started a *forge*, which finally turned into one of the best manufacturing houses in the town. Soon after his starting this enterprise, Mr. James gave \$12,000 for the property on which his mill was situated. He then, in connection with two other men, began the building of the "James Block," the largest building in Cuyahoga Falls, but his two partners failed before the work was accomplished, throwing the whole cost on Mr. James. He also built the building in which the Schumway drug store is situated, but the building has since been sold. In his enterprises, Mr. James has been most unfortunate. In 1866, he built a saw-mill on the site of where the Heath & Thompson mill now stands. In 1869, this mill took fire, and all in it, including his lath, shingle and lathing machines were burned to the ground. In six weeks time by the enterprise of Mr. James, a new mill was erected at a cost of about \$4,000. In 1871, the mill-dam gave way and was destroyed. This was replaced at a cost of \$4,000. Mr. James has done more to build up the town of Cuyahoga Falls, than perhaps any other man. He and wife are members of the M. E. Church. He first married Hannah T. Steel, Sept. 25, 1835, and by her, there were born two children—Henry and Israel. This wife died Nov. 9, 1847, and Mr. James, for his second and present wife married Mary E. Randall, March 11, 1848. To this union there were born three children—Laurel E., Frank, dead; and Minnie, who is the wife of E. J. Squire. Mrs. James was born Sept. 15, 1821.

DAVID G. MYERS, farmer and stock-raiser; P. O. Cuyahoga Falls, was born in Stark Co., Ohio, Aug. 30, 1819. His parents, George

J. and Anne (Welty) Myers, were both natives of Maryland. The father was born in 1786, and mother in 1788. They came to Stark Co., Ohio, in 1810, and Mr. Myers, besides farming, carried on the mercantile business for a time. He owned the first dry goods store in Uniontown. Mr. Myers died Dec. 2, 1853, and Mrs. Myers died March 26, 1858. They were the parents of nine children, only four of whom are yet living. David G. Myers was reared principally on the farm. In 1839, he came to Akron, and for ten years was captain of a boat on the Ohio Canal. Sept. 11, 1841, he was united in marriage with Matilda P. Corp, daughter of Elias and Sarah (Pratt) Corp, and by her had the following family: Francis A., born Aug. 10, 1842, now the wife of Cyrus Shoemaker; Adrian, born May 9, 1845, died March 21, 1847; Ellen I., born Sept. 15, 1847; Alma L., born April 6, 1850, now the wife of L. N. Foust; George E., born March 1, 1852; Mary A., born June 8, 1854, now wife of Lewis Keek; Rena V., born May 26, 1856, now wife of J. A. Johnson, and Milton J., born Sept. 13, 1858. The mother of these was born April 27, 1819, in Saratoga Co., N. Y. In 1849, Mr. Myers retired from canal life and settled upon a farm in Boston Township. He remained there until March, 1857, when he moved to his present place in Northampton Township, and where he has ever since resided. During his farming experience in Northampton, Mr. Myers has done more, perhaps, to build up the stock interest than any other man. He owns 86 acres of land, is Independent in politics, and is a gentleman in every respect.

WILLIAM NORTON (deceased); was a native of York Co., Penn., and was born in June, 1803. His early years were passed on a farm, and during that time he received a good practical education. In 1827, he married Selah Deniston, and in 1829, he and two brothers, with their families, moved to Wayne Co., Ohio. Mr. Norton's first location was on a farm two miles south of Wooster, where they resided two years. At the conclusion of that time, they purchased a farm of 80 acres, four miles north of Wooster, where they resided four years. At the time of Mr. Norton's settlement in Wayne Co., it was but thinly populated, and the citizens of the township often made his house their place of voting at the regular township elections. In 1835, Mr. Norton moved

from Wayne Co. to Northampton Township, Summit Co., Ohio, where his widow yet lives. To his union with Miss Deniston there were born nine children—Elizabeth, now the wife of Daniel Darrow; James, who died when 19 years of age; Mary J., widow of Abner Cammer; Amanda, widow of Wesley Appleton, and present wife of Josiah Starr; Charity A., wife of Miles Oviatt; Rebecca, who died when 14 years old; William H., married Mary Smith, resides in Northampton; Josiah, married Mary Hart, and lives in Michigan, and Cyrus L., who is single and lives with his mother on the old homestead, which consists of 70 acres. Mrs. Norton was born in York Co., Penn., in 1808. During the latter end of Mr. Norton's life, he began suffering from a cancer in the stomach, and after a very long period of uncomplaining sufferings, he died as he had always lived—an upright man and a devoted Christian. The date of his death is July 29, 1866. Mr. Norton was a man of considerable ability and self-reliance. He proved an invaluable assistant in his neighborhood, in making shingles for himself and neighbors. In his political views, he was a Whig, until the Republican party was organized, when he became identified with the latter, and, for his honest and fair dealings, held various positions of honor and trust in the gift of that party. In conclusion, it can be said that Mr. Norton was a gentleman in every sense of the word.

WILLIAM PRIOR, Cuyahoga Falls. There is not a more appropriate biography for the history of Summit Co., Ohio, than is the history of the Prior family, who are so intimately connected with the early history of Northampton Township; the earliest records of this family are traced back to Joseph Prior, who was a native of the Highlands of Scotland. The next, in the order of descent, is Joshua, son of Joseph Prior, who was born in Northern England. Of Joshua Prior, not much is known, nor is the exact date of this family's coming to America known. Simeon Prior, son of Joshua Prior, was born in Hampshire Co., Mass., May 16, 1754. On the 1st day of January, 1781, Simeon Prior and Katharine Wight were united in marriage. The history of the Wight family is of considerable importance and interest; Katharine (Wight) Prior was a daughter of one of the proprietors of the Isle of Wight, after whom the island received

its name; in their religious belief, this family was Protestant, and during the church disturbances, the property was confiscated by the Catholic Church Government, and the Wights were compelled to flee to the Netherlands for safety; after the Restoration, the family returned to England to reclaim their property; they were successful in their petitions, but the papers made out that gave them the property were destroyed in the Great London Fire, and the estate was lost. To the union of Simeon Prior and Katharine Wight there were born fifteen children, only one of whom, Gurden, is yet living. At the time of the breaking out of the Revolutionary war, Simeon enlisted in the cause of the colonies and was under the command of Col. Derby; he participated in the battles of Princeton, Trenton and others, and was one of the men who piloted Gen. Washington across the Delaware River at Trenton. In the year 1802, he and family moved westward; they started with an ox team and afterward took a boat, landing at the mouth of the Cuyahoga River, where Cleveland now is situated. At this early time there was not a frame building in the village, and only a few log huts marked the place; the Priors abandoned their boat at this point, and started toward the interior; after some indecision, they finally located on what is now known as Lot No. 15, Northampton Township, Summit Co., Ohio, and to them can be accredited the first settlement in that township. In the family born to Simeon and Katharine Prior, there was one son, William, who was born April 6, 1783; this son was married twice; first to Sarah Wharton, by whom he had seven children; his second wife was Polly Culver, by whom he had two children—William and George; George served in the late war, and was killed in the battle of the Wilderness. William was born in Northampton Township, April 20, 1825; he received a good common-school education in youth, and on the 20th of April, 1847, married Ruth Woodrow, daughter of Henry Woodrow, Esq., and to this union were born two children—Matilda, who died in infancy, and Minnie, who is now the wife of L. E. James. Mrs. Prior was born June 17, 1826. Mr. Prior is a gentleman who takes quite an interest in the advancement of education, and is a teacher of thirty-three terms of successive school teaching. The political complexion of the present generation

of Priors is Republican, and they are among the best families of Summit Co.

SAMUEL S. PRIOR, farmer; P. O. Cuyahoga Falls; was born in Northampton Township, Summit Co., Ohio, Dec. 4, 1815. He is a son of Elisha and Harriet (Stiles) Prior, and grandson of Simeon and Katharine (Wight) Prior, of whom appropriate mention is made in the biography of William Prior. Samuel Prior is one in a family of seven children: Laura, Delia, Samuel, Amanda, L. R., Benjamin and Harriet. He was reared on the farm, and received a good common-school education. He has passed his whole life on the homestead of his father, with the exception of five years, from 1835 to 1840, while he was at Cuyahoga Falls, having charge of an oil mill there. Dec. 12, 1839, he was united in marriage with Miss Ann Everett, daughter of John Everett, and by her had a family of nine children, as follows: Harriet, born March 4, 1841; Stiles S., born Sept. 16, 1842; Clarissa, born Oct. 4, 1843; B. H., born June 23, 1845; F. S., born Jan. 23, 1847; Amanda, born April 15, 1851; died Sept. 15, 1853; Florence A., born May 25, 1854; Olive M., born May 1, 1857; and Della K., born April 12, 1863. Mr. Prior owns a nice farm near the beautiful city of Cuyahoga Falls. He is a Republican in politics, and is an intelligent and enterprising citizen.

AMOS L. RICE, farmer; P. O. Cuyahoga Falls. Dr. Lewis Rice was a native of Massachusetts, and was born about 1782. He practiced medicine when quite a young man, and during the war of 1812, served in the capacity of Assistant Surgeon. At the close of the war, Dr. Rice began looking for a congenial place in which to practice his profession. The young and popular State of Ohio was, at this time, attracting considerable attention, and this State suiting his fancy, Dr. Rice, in 1814, emigrated westward, and located in what is now known as Stow Township, Summit Co., Ohio. There being no other physician in the whole neighborhood, Dr. Rice immediately received a very large practice, being quite often called ten and fifteen miles distant. He continued his practice there until 1835, when he moved to Northampton Township, and settled on a farm of 108 acres. He did not discontinue his practice on his removal, but still pursued it up to a short time before his death. Dr. Rice was twice married, his first wife being Lucy Rice, by whom

he had three children—Orlo, Lucy A. and Aethusa. These children are all living. His second wife was Chloe Pratt, to whom he was married Jan. 5, 1823. To his second marriage there was born one son, Amos L., the subject of this biography. Dr. Rice's second wife died Oct. 28, 1845. After a long life of usefulness, Dr. Rice died March 25, 1861. His journey to Stow Township from Saybrook, Conn., in 1814, was a very eventful one, coming with two yoke of oxen; he was fifty-two days on the road. Amos L. Rice was born in Stow Township, Summit Co., Ohio, July 13, 1824. He received a common-school education, and on the 21st of October, 1856, was united in marriage with Phoebe O. Jaquays, daughter of John and Agnes (Osborn) Jaquays, and by her has two children—Chloe A., born July 19, 1863; and Lewis P., born June 23, 1874. Besides these two, Mr. and Mrs. Rice have one child by adoption—Martin H., born May 27, 1857. Mrs. Rice was born May 3, 1836. Mr. Rice is one of the prosperous farmers of Northampton Township. He is nicely situated near Cuyahoga Falls, and he and family are highly respected citizens.

ISAAC SCOTT, farmer; was born in Muskingum Co., Ohio, March 31, 1817. He is a son of Banfield and Lydia (Norris) Scott, who were parents of two children, Isaac and Sarah. The father was a native of the "Bay State," while Mrs. Scott was a native of Connecticut. Prior to her marriage with Mr. Scott, Mrs. Scott had married Stephen Lamonyon, and by him had three children—Charles, Cornelius and Stephen. After the death of Mr. Lamonyon, his widow married Mr. Scott, who died during the fall of 1832, in Sharon Township, Medina Co., Ohio. Mrs. Scott's third and last husband was Joseph Dean, and by this gentleman bore one son, James. Our subject, Isaac, at the age of 15 commenced the battle of life on his own responsibility, and from then until he became 22, worked at different employments in Summit and neighboring counties. He was married Dec. 28, 1837, to Fannie Wallace, daughter of Henry and Clarissa (Strong) Wallace, and to this union were born three children—Henry, born Dec. 28, 1840; Wallace, born Sept. 15, 1843, and Walter, born Jan. 23, 1852, who died Dec. 9, 1864, of *cerebro spinal meningitis*. Henry, who married Miss Ida Bishop, is a farmer and resides

in Northampton. In 1861, he enlisted in Co. H, 29th O. V. I., Capt. Schoonover, and was discharged for ill health in 1862. He re-enlisted the next year in Co. H, 177th O. V. I., and served until the close of the war. He was First Corporal, but was promoted to Sergeant. Wallace is a farmer, married Mary Best and also resides in Northampton. Mrs. Scott was born in Stow Township, April 14, 1822. Mr. Scott has the most part of his life lived in Northampton. In 1852, he purchased 160 acres on lot No. 51, but has since sold 7 acres of it. He started in life a poor boy, with no one to depend upon, but by hard labor and economy, has secured a pleasant home. He is a Democrat in politics, but favors a strong anti-license law, and he and wife have been members of the Methodist Episcopal Church for almost half a century. Mr. Scott's father was a soldier in the war of 1812, as was also his mother's first husband. Mrs. Scott's grandfather, Theodore Strong, was Captain of a man-of-war, under the command of Admiral Porter. Mr. Scott has been a hard working man, knowing comparatively little of the ease and comforts of life until later years. He is an excellent farmer and an honorable, upright gentleman.

WILLIAM VIALI, dairyman and farmer; P. O. Cuyahoga Falls; son of Burrill Vial who came from Chautauqua Co., N. Y. during the winter of 1831, on a sled to Middlebury in what is now known as Summit Co., Ohio. He is of English descent on his father's side, but his mother, Sarah (Ferguson) Viall was of Scotch descent. At the time of their removal from New York to Ohio, Mr. and Mrs. Viall were the parents of six children, and after their arrival, there were born to them six more, making a total of six sons and six daughters. Eleven of these grew to be adults. There are now living in this family of children only nine. The Vialls were in very poor circumstances at the time of their arrival, and Mr. Viall had to labor early and late to keep his family decently supported. He first settled on the farm now owned by Uriah Horner. In 1850, he and family emigrated to Jackson Co., Iowa, where they lived until the death of their parents. The father's death occurred Dec. 23, 1862, of heart disease. He was buried on Christmas Day, 1862, in Sterling Cemetery, Jackson Co., Iowa, aged 69 years 8 months and 25 days. His wife never

survived the shock of her husband's death, and she died Jan. 4, 1863, aged 62 years 6 months and 15 days, and was also buried in Sterling Cemetery. The father was a Republican in politics, and he and wife were consistent and devoted members of the M. E. Church. The names of the children are Eliza, Burrill, Elzina, dead; Sullivan, John N., William, Mary, Julia, dead; Adaline, Clark, dead; Amelia and Lafayette. William, the subject of this biography, passed his youth and early manhood on the farm, receiving a common-school education. He was married Oct. 17, 1849, to Sabina, daughter of James and Mary (Dickerson) McPherson, and by her had four children—Charles W., born Aug. 9, 1852, died April 24, 1853; Martha T., born April 19, 1854, now wife of George W. Hanson, and resides in Medina Co., Ohio; Mary D., born April 4, 1856, and is now the wife of Fred S. Prior, and resides in Northampton, and James F., born April 25, 1860. Mrs. Viall was born Oct. 16, 1832, in Utica, N. Y., and Mr. Viall was born Aug. 20, 1828, in Chautauqua Co., N. Y. After fifteen years of farming on the prairies of Iowa, our subject returned to Ohio, and for the first year lived on the Lindsey farm, in Stow Township, Summit Co., Ohio. He sold that soon afterward, and the following year purchased the old "Lewis farm" in Northampton Township, where he has ever since resided. He now owns 134 acres of well-improved land. Is a Republican in politics, and has held the office of Justice of the Peace for twelve years. He and wife are members of the Disciples' Church, and are among the first citizens of Northampton Township.

ABIEL L. WAITE, farmer and stock-raiser; P. O. Everett. Walter Waite, father of Abiel Waite, was a native of Massachusetts, and was born in 1789. Oct. 10, 1811, he married Elizabeth Blackford, who was born April 18, 1789. In 1811, Mr. and Mrs. Waite started westward overland with one horse and a wagon, and in this wagon was conveyed all of Mr. Waite's possessions, which consisted principally of the following: His wife, a skillet, a gun and an ax. They arrived in Cuyahoga Co., Ohio, the same year they started, and, thus equipped, commenced life in the wilderness. In about 1820, they moved into Richfield Township, Summit Co., Ohio. It was here, April 14, 1829, that the mother of six children, and the wife of

Walter Waite died. Of the six children, only two are now living—Frederick and Rufus. In October, 1829, Mr. Waite married Mary Hovey, sister of John Hovey, whose biography will be found in another part of this work. To Mr. Waite's second marriage, there was born the following family: Abiel L., John M., Martha E., Walter S., Mary V., Alfred C. and Lucetta M. John and Mary are dead. Abiel was reared on a farm, and received a common-school education. He was married, Jan. 6, 1853, to Mary McLoney, daughter of William and Mary (Stephens) McLoney, and to this union were born seven children—James E., born Sept. 28, 1853; Walter F., born Sept. 29, 1856; Mary V., born Aug. 22, 1859; Scott, born Dec. 22, 1861, died Jan. 7, 1863; Ezra M., born May 20, 1864; Sherman A., born May 30, 1871, and Elnora, born Oct. 1, 1874. Mrs. Waite was born in Northampton, Dec. 29, 1833. Mr. Waite's father died Sept. 2, 1869, and his mother Oct. 29, 1868. In our subject's family, there is one child—Mary V., who is married. Her husband is Eugene Hancock. In about 1829, Mr. and Mrs. Waite, Sr., came to Northampton Township, and settled on the farm now owned by Abiel L. This place consists of 187 acres, on which our subject has always lived, with the exception of five years in Wisconsin. Mr. Waite is a staunch Republican, and an influential citizen.

JOSEPH WALLACE, farmer; P. O. Buckeye; was born on the Holland Purchase, in New York, Dec. 18, 1813. He is a son of Joseph and Ruth (Robinson) Wallace, who were parents of nine children, only the following named being alive: Ruth (Baldwin), Sophronia (Crawford), Sobrina (Butler) and Joseph. Joseph Wallace, Sr., was a native of Vermont, and, in the war of Independence, he was one of the "Green Mountain Boys," under the command of Col. Ethan Allen. He served six years in this war. His death occurred in 1828. His widow survived him until 1840, when she too died. Joseph, Jr., was reared on a farm, receiving a good education. In 1840, he purchased land in Northampton Township, Summit Co., Ohio, where he now lives, and the same year moved to and located on it. He was married, in 1836, to Amanda Wolford, daughter of Peter and Elizabeth (Worthinger) Wolford, and by her had six children—Alexander; Mary A., now wife of Henry Butler; James E., dead; Lewis B., dead; Sophronia, now wife of James Smith,

and Byron E. Mrs. Wallace was born Feb. 27, 1814, at Portage Co., Ohio. Her son, Alexander, served in the late war, in Co. H, 29th O. V. I., for nine months, and then was discharged for disabilities. In his time, Mr. Wallace has taught eighteen terms of school. He is Independent in his political views, voting in all cases for the man instead of the party. He has held various township offices, among which might be mentioned Township Treasurer, which office he held eleven years. He and wife are members of the Baptist Church, and they are excellent citizens in every respect. Mr. Wallace owns a fine farm of 210 acres, nicely situated near church, school and railroad.

WILLIAM H. WILLIAMSON, farmer and dairyman; P. O. Akron; was born in Orange Co., N. Y., Aug. 7, 1829. He is a son of Palmer and Amy (Horton) Williamson, natives of New York, who were parents of the following family: Mary F., William H., Bradner, Susan, Jane, Alveretta and Julius O. Bradner, Jane and Alveretta are dead. The father was a farmer. In 1831, he emigrated Westward, where he had friends, and to better his circum-

stances. He first located in Tallmadge Township, Summit Co., Ohio, on the Demmick farm, renting that two years. He then purchased the Isaac Gaylord farm. In 1835, he sold that place and went to Stow, where he has ever since resided. His wife died Sept. 27, 1879. William H. lived on the old place and worked his father's farm, excepting three years, until he was 31 years of age. He was married Nov. 15, 1860, to Mariette, daughter of Benjamin and Hannah (Chapman) Stark, and to this union were born the following family: George B., born Aug. 18, 1861; Amy H., Feb. 20, 1863; Emily, born Nov. 13, 1865, and Frank P., born Dec. 1, 1872, died Oct. 18, 1878. Mrs. Williamson was born in Stow Township June 7, 1838. After his marriage, Mr. Williamson farmed in Stow Township eight years and Hudson Township one year. He then came to Northampton and located on his present place, where he has since remained. He owns a fine farm of 166 acres. Is a staunch Republican in politics, and his wife is a member of the Disciples' Church.

STOW TOWNSHIP.

GEORGE W. BAILEY, farming and dairying; P. O. Cuyahoga Falls; was born Feb. 11, 1836, in Stow Township; he is a son of Warren Bailey, who was born in Middletown, Conn., Sept. 26, 1796; the father was a ship-joiner by trade, which business he steadily followed until he came to Ohio. While at Middletown, he married Sally Thayer, who was born Sept. 3, 1798, the marriage date being Sept. 18, 1821. From this union the following family was the issue, viz.: Mary, born Oct. 16, 1822, died July 27, 1847; Lamira, born May 14, 1825, died Aug. 2, 1860; John C., born Jan. 2, 1828; Hannah M., born March 31, 1830, died June 5, 1868; George W., born Feb. 11, 1836; and Francis M., born Oct. 16, 1838, died March 11, 1868. Being a poor man, Mr. Bailey concluded to come West to Ohio to better his own circumstances and give his children opportunities to build homes for themselves; in 1832, they came to Stow Township, Summit (then Portage) Co., Ohio, via the ocean to New York;

thence to Buffalo by canal; thence to Cleveland by Lake Erie; and thence to Old Portage by canal. For the first few years after his arrival, Mr. Bailey worked at his trade in Cleveland, and also at the carpenter's trade during the fall season at home. He arrived in the fall of 1832, and that winter lived with Nelson Sears, the next spring purchasing his homestead, and continued to reside there. Mr. Bailey died March 1, 1867, aged 70 years; his death was caused by jumping from a buggy while his horse was running away, resulting in so serious a fracture of his limb as to necessitate its amputation, which operation he did not survive, and died June 2, 1873, aged 75 years. Of this family only two—John C. and George W.—are living; the former married Mary Cartwright, is a farmer and fruit-grower, and lives in Tennessee. George W. was married March 25, 1867, to Elizabeth Brown, of Herkimer Co., N. Y., and by her had three children—Millie M., born April 6, 1869, died June 20,

1869; Bertha E., born Oct. 6, 1870, and one that died in infancy. Mrs. Bailey was born in New York July 1, 1843. Mr. Bailey enlisted, Aug. 12, 1862, in Co. C, 115th O. V. I., and was assigned to the Twentieth Corps; he was discharged July 5, 1865. He is a Democrat in his political views, and is liberal in his religious views. He owns 154 acres of good land, and is a self-reliant, intelligent gentleman.

JOHN J. BRADLEY, farming and dairying; P. O. Kent. Arba Bradley, the father of the subject of this sketch was a native of the State of Connecticut. By trade he was a blacksmith, but he soon changed his vocation to silver-smithing. At the time of his marriage, he was foreman in Starr's gun factory in Middletown, but preceding his coming to Ohio a short time, he was proprietor of a brass foundry. His wife was Esther Chamberlain, by whom he had the following family: Elizabeth, Cyrus, Samuel, Jacob, Chloe, Jacob, Arba, John, Robert and Ransom, twins, and Esther. John J. Bradley was born in Middletown, Conn., April 21, 1815. When he was between 14 and 15 years of age, he came with his sister, Mrs. Marvin, to Stow Township, Portage Co. (now Summit Co.), Ohio, where his father had previously purchased a tract of land of 160 acres. He lived with his sister during the fall and winter of 1829, while he was engaged clearing the underbrush and timber off as much of his father's land that he possibly could. In June, 1830, his father came out, and bringing with him a supply of lemons and Santa Cruz rum, instituted a "logging bee," and with the help (?) of his sour punch and the neighbors, cleared a sufficient place to plant an orchard and erect his log cabin. He then went back to Connecticut, and the same fall returned bringing his family. They built their house on the place they had cleared, Lot 50, and he and wife lived here the rest of their lives, clearing and improving the place with the aid of their children, and taking part in all the pioneer industries of that early day. John J. Bradley and Ruth C. Brewster were united in wedlock, Dec. 19, 1839, and their home was ever afterward in Summit County. To this union were born a family of three—Julia Ann, born Nov. 12, 1840, died in infancy; Samuel, born March 26, 1843, died Oct. 19, 1862, at Camp Dennison from disease contracted while in his country's service. Mary Esther, born Sept. 6, 1847, died Oct. 3, 1847. Mrs. Bradley

died March 10, 1879, very suddenly from neuralgia of the heart. Mr. Bradley's whole life has been passed on his own place. He is a prominent Democrat in politics, having held various positions of honor and trust in that party. He is a man of considerable mechanical ability, and is among the enterprising men of Summit County.

MRS. FANNY COCHRAN, farming and dairying; P. O. Cuyahoga Falls; was born in Washington Co., Penn., June 15, 1814. She is the daughter of John Bird, and sister of James Bird, who was shot on Lake Erie. When but a child she, together with her parents, moved to Steubenville, Ohio, where she remained until her marriage with Robert Cochran, which took place in 1830. In about 1834, Mr. and Mrs. Cochran came to Stow Township, Summit Co., Ohio, where Mrs. Cochran has lived ever since. This couple were parents of the following family: Joseph (deceased), John, Jane (deceased), William, Norman, Robert, Maria, Fanny, Elmira (deceased), James and Martha. John married Miss L. Carrier; William married Maria Carley; Norman married Carrie Black, and these three families live in Michigan. Robert married Martha Hall, and lives in Tallmadge Township. Maria is the widow of John Fannigan, and resides in Boston Township. Fanny is the wife of H. G. Moon, and is a resident of Stow Township. Jane was the wife of Richard Williams; James married Rachel Best, and is a resident of Northampton Township; Martha married William B. Galloway; Elmira was the wife of P. Galloway, and Joseph died at the age of 18, being unmarried. Mr. and Mrs. Cochran settled on Lot No. 72, in Stow, and, at the time of their settlement, it was a dense forest. They cleared land on which they built a log cabin, starting in a truly pioneer manner to build them a home. Mrs. Cochran has been a lady of more than ordinary powers, as the following will show: After working hard and enduring innumerable privations, Mr. Cochran took the gold fever at the time of the gold excitement in California, and bidding his family adieu, set forth on the long trip to the gold mines. On his arrival there he opened a grocery and exchange store at a mining town called Placerville, and, after remaining here some time, sold out and started for Sacramento for the purpose of engaging in a like business there. On the

way, he and his companion, by the name of Morris, were attacked and murdered by the Indians. Mr. Cochran's remains were recovered and interred at a place then called Haintown, on Doolittle Ranche. This left Mrs. Cochran with a large family dependent on her for support, and with 80 acres of land that was encumbered by a mortgage of \$1,100. By the hardest labor she has cleared the place of all indebtedness, and added to it 20 acres more, making in all now 100 acres. In 1872, her two sons, Norman and Robert, enlisted in the cause of their country's defense, the former being in Company D., 29th O. V. I., and the latter in the 115th O. V. I. Norman was in quite a number of engagements and was twice wounded; owing to ill health he was transferred to the Commissary Department. Mrs. Cochran lives alone with hired help on the old place, living the life of an humble Christian.

M. D. CALL, farming and dairying; P. O. Hudson; is eldest in the following family born to Jerry and Lavina (Danforth) Call: Moses D., William D., Jerry C. and Hanson O. Mr. Call's grandfather, Moses Call, was a native of England, and on his coming to the United States, first settled in Massachusetts. From this State they moved to Merrimac Co., N. H., where the parents of our subject were married. Mr. Call, the father of Moses D., owned a farm, and on this farm Moses lived until 1838, when he left home and went to Boston, where he engaged in the bakery business. After remaining three years in Boston, he disposed of his property there and started for Peoria, Ill., but on the way stopped and visited friends in Summit Co., Ohio. While here he was taken ill, and when he recovered, instead of continuing on to Illinois, as was his intention, he decided to remain in Ohio. For four years after his arrival, Mr. Call carried on the cooper's trade in summers and taught school during winters. In November, 1842, he married Harriet M. Starr, daughter of the old pioneer, Josiah Starr, who came to Stow Township in 1804. In 1859, Mr. Call obtained possession of his present place, where he has ever since resided. To his union with Miss Starr there were born four children—Mary, Emma A., Ellen J. and Charles A. Mary married G. H. O'Brien, who is engaged in the agricultural business in Akron. Emma is the wife of E. A. Seasons. Ellen is the wife of Lafayette Darrow, and Charles A. married Olive

A. Prior, the daughter of S. S. Prior, whose family history accompanies this work. Mr. Call was born July 12, 1815, and his career through life is one of honor and uprightnes. He is a staunch Republican in politics, and has held the office of Justice of the Peace in Stow Township for thirty-four years, besides holding various other township offices. During the fall of 1877, he was elected County Commissioner, and re-elected during the fall of 1880. He owns a fine farm of 188 acres on Lots 77 and 67. His wife was born in Stow Township on the farm now owned by Mr. Call, Sept. 25, 1818.

VOLNEY CHAMBERLAIN, farmer; P. O. Kent; was born in Oswego Co., N. Y., in December, 1804. He is descended from English ancestors, whose family history entitles them to an old and honorable name. He is a son of Ebenezer and Susanna (Jones) Chamberlain, who were natives of Middletown, Conn. These parents, at a very early day, emigrated from Middletown to Redfield, Herkimer Co. (now Oswego Co.), N. Y., the latter part of their journey being through a dense forest by "blazed" trees. Volney remained with his parents in New York until he was 6 years old, and then with his parents moved back to Middletown, where they resided until 1814; again removing to New York, where the father died in 1829, and the mother in 1864. The subject of this sketch is one in a family of thirteen children, eleven of whom lived to become almost men and women. He was married, Jan. 18, 1832, to Mary, daughter of Willet Ranney, and from this union were born the following family: Orville L., Marian G., Leora E., James W., Charles L. and Edgar V. Orville married Maria Grogan, and lives in Shreveport, La. Leora married John Deuble. James married Emma Fay (is a machinist and lives in Akron); Charles married Loretta Woodward, and lives in Minnesota; Edgar married Mary Bradley, and lives at home, as does Marian, who is unmarried. In 1853, the subject of these lines left New York, and came directly to his present farm in Stow Township, which consists of 94½ acres situated on Lots 39 and 40. Mr. Chamberlain is a Republican in politics, and has served the various townships in which he has lived in almost their every office. Mr. Chamberlain is a well-informed, genial, intelligent gentleman, and he and family command the respect of a large circle of friends.

"CLIFF HOUSE," C. E. KIDNEY, Proprietor, Stow Corners. One of the most beautiful resorts for pleasure parties and private individuals, is situated near the famous glens and caves on the Cuyahoga River, in Stow Township. During the fall of 1880, Mr. Kidney purchased the "Cliff House" of Gen. Gross, and since that time has been remodelling and changing the appearance of the property, until it is now recognized as one of the leading resorts for pleasure seekers. This property consists of 10 acres, through which a beautiful gorge extends, and within this gorge are glens, caves and grottoes, while half a mile distant is the beautiful Silver Lake. Cuyahoga Falls is near the "Cliff House," but yet far enough distant to relieve the pleasure-seeker of the continual turmoil and bustle of the city. Around the hotel, Mr. K. is laying out walks, drives, croquet grounds, swings, dancing halls, and in fact has everything beautiful that will make the "Cliff House" a continuation of what it has been since coming into Mr. Kidney's hands.—a grand success. Mr. Kidney was formerly a resident of Akron. He is a painter by trade, but owing to ill health he has retired from that business and engaged in his present occupation.

HARVEY DAVIS, farmer and fruit-grower; P. O. Hudson; was born in Genesee Co., N. Y., in 1813. His parents, Nathaniel and Electa (Palmer) Davis, were natives of Middletown, Conn., and from their native village they went to New York, in 1807. From New York they came to Summit Co., Ohio, in 1818, where they remained for a short time. From this point they went to Copley Township, buying 320 acres of woodland, on which they soon erected a comfortable log cabin, and they then commenced clearing and improving the place. Here Mr. and Mrs. Davis brought up a family of nine children, of whom only our subject and two others are living. Mr. and Mrs. Davis always made this place their home, from the time of their arrival there to their deaths. Harvey was raised and educated in Copley Township. He began in life with nothing but a strong constitution and willing hands. He was married, in 1842, to Clarissa Bosworth, and by her had a family of six—Francis, Nathaniel (deceased), May and Fay. Francis was a soldier in the war of secession, and was a member of Company G., 115th Regiment, O. V. I. Since the

war, he married Hattie Nighman, and lives in Mt. Vernon, Ohio. Warner married Amie Grubb, and lives in Stow Township. In 1855, Mr. and Mrs. Davis went to Tennessee, and farmed there until 1859, when they came back to Ohio. After living one year in Copley Township, they came to their present place, which consists of 40 acres on lot 68, in Stow Township. Mr. Davis deals quite extensively in fruit, and he has one of the finest vineyards in the county. Mrs. Davis is a member of the Church of Christ. Mr. Davis is an intelligent and enterprising citizen.

W. H. FERRY, farmer; P. O. Kent; was born in Belcher, Mass., Aug. 20, 1823. He is one in a family of eleven children born to Aaron and Elizabeth (Gilbert) Ferry. Aaron Ferrey was twice married, his second wife being Mary Ferson, by whom he had two children. In 1833, this family came from Massachusetts to Ohio, making their home near the northwest corner of Franklin township, Portage County. By trade, Mr. Ferry was a brick-maker, a business he followed to a considerable extent in connection with farming. When a young man, he was swindled out of almost all his property by a land speculator, and on his arrival in Ohio only had about \$400. When the subject of this sketch was about 4 years old, he was taken sick and by injudicious doctoring, was made a cripple for life. When his father married the second time, he started out in life for himself. He commenced by working by the month for those who would have him in his crippled condition. Through all his hardships in seeking a home, Mr. Ferry displayed great determination and energy. Where many others would have given up in despair, he still continued the struggle, saving all his hard-earned pennies in the hope he might secure enough in time with which to commence a home. At one time he was on board a steamboat on Lake Erie, and during a terrific storm the boat was wrecked, but Mr. Ferry, with the rest of the passengers, were rescued by the timely arrival of a steam tug, "The Arrow." Mr. Ferry, however, lost all his property on the boat. Sept. 5, 1855, he was united in marriage with Miss B. R. A. Loomis, daughter of H. A. Loomis, of Portage County, and to this union were born the following family: Laura E., born July 16, 1857; Mary E., born Sept. 5, 1861; Phebe P., born March 7, 1865, and Hannah N. A., born Aug.

18, 1868. Mrs. Ferry was born April 18, 1832, and died Feb. 25, 1877. Mr. Ferry came to his present place in 1859, where he has ever since remained. He run in debt \$2,700 for his place, and for the first four years did not make enough to pay the interest on the debt, besides his actual household expenses. The farm consists of 80 acres, and in 1863 Mr. Ferry tried to find a purchaser for the place for the same amount he gave for it, but without success. He then determined to keep and pay for it himself or break up altogether. By the hardest of labor, and with close economy, he in time began to improve his land and gradually pay off the debt. At present he is entirely out of debt, and with one of the finest farms in Stow Township. This he has acquired by his own exertions, working most of the time at a disadvantage. Mr. Ferry, however, has a stout heart, and now after he has accomplished his object, can look back and be merry over his hard life in the past.

F. M. GREEN, Kent. F. M. Green and wife represent two of the old and time-honored settlers of Summit Co., Ohio. Mr. Green was born Sept. 28, 1836. He is one of two children born to Philander and Tarissa (Root) Green. His brother, Albert W., lives in Alliance, and is mail agent of the Pittsburgh, Fort Wayne & Chicago Railroad. Philander Green was born in Mahoning Co., Ohio, in 1811. He is a son of Samuel and Lucy (Baily) Green, and grandson of Samuel Green, who was a near relative of Gen. Nathaniel Green, of Revolutionary war fame. In about 1817, Philander, with his parents, came to Coventry Township, removing thence to Bath Township, and from there to Norton Township, in about 1818. Philander's father was twice married, the first time to Tarissa Root on Nov. 15, 1835. This lady died Jan. 8, 1839. He afterward married his second and present wife, Lestina Briggs. Mr. Green early became identified with the Church of Christ, and, in 1842, commenced exhorting and preaching the doctrine advocated by that church. March 11, 1862, his son Frances married Ellen E. Stow, whose father, Albert C. Stow, was born in Stow Township, at Monroe Falls, July 5, 1810. He was a son of Capt. William Stow and Margaret Gaylord, who were natives of Middletown, Conn., the father being a sea captain. The Stows are of English descent, and they trace the family

lineage back to a lordship, and an old and honored family. Early in 1809, Mr. Stow's father changed from "a life on the ocean wave" to one on "terra firma," and having previously purchased land of Judge Stow, the proprietor of Stow Township, who was a relative, he and his family started overland with ox teams, and, after a long and eventful journey, arrived at their possessions—300 acres—at Monroe Falls. William Stow, in 1812, built a boat for the purpose of assisting the Government during the war of 1812, and this boat was the first one that sailed out of Cleveland. At the close of the war, Mr. Stow returned to his family at Monroe Falls, and recommenced life in the wilderness. Albert C. Stow was married, Nov. 22, 1835, in Jackson, Mich., to Almira Barrett, and by her had two daughters—Ellen E. and Emma A. As stated above, the former married F. M. Green. Mr. Stow resides on a good farm of 83 acres, while opposite to him lives his daughter and son-in-law, who, with their family, cheer and comfort Mr. and Mrs. Stow and Mr. and Mrs. Green in their old age. To the union of Mr. Green and Miss Stow there were born six children, viz., Lurie A., Fannie M., Mary T. (deceased), Frank A., Daisy A., and one that died in infancy. Both families, the Greens and Stows, are active workers of the Church of Christ, and they are Republicans in politics. F. M. Green became a member of that church Sept. 9, 1852. He preached his first regular sermon Sept. 13, 1863. He has held various positions in the church. His present employment is Corresponding Secretary of the General Church Missionary Society of the Christian Church denomination.

H. B. GAYLORD; P. O. Cuyahoga Falls; was born in Stow Township March 15, 1818. He is a son of Thomas and Betsey (Butler) Gaylord, and grandson of Jonathan and Patty Gaylord, who were natives of Middletown, Conn. In 1809, Jonathan Gaylord and family started to Middletown with ox teams, and, traveling overland through the unbroken forests of the West, arrived in the same year in what is now known as Stow Township, Summit Co., Ohio. Seeing in the surrounding country that which would eventually be valuable land, he located on Lots 15 and 16, and this property has ever since remained in the Gaylord family. At the time of his settlement, there was not a particle of clearing on the lots he had selected.

After clearing a place large enough, Mr. Gaylord erected a rude log cabin, and in this manner lived through the early history of Stow Township, becoming more or less identified with its rise and progress. At the time of his death his property was divided among his three sons—Jonathan, William and Thomas. The latter being youngest, received the home place. To Thomas Gaylord and Betsey Butler's union there were born the following family: Sylvanus, Henry B., Charlotte, Lewis, Elizabeth, and two that died in infancy. Sylvanus, Lewis and the mother are dead; and Mr. Gaylord's second wife was Isabell Speers, by whom he had two daughters—Jane and Polly. The parents are now both dead. Henry B. Gaylord was reared on the home farm, receiving a common-school education. His wife is Elizabeth, daughter of Jeremiah Banning, of Goshen, Ind. Mr. Gaylord is a Republican in politics, and owns a fine farm of 112½ acres of excellent farming and grazing land. In their religious belief the family were of the Old School Presbyterian stock. As citizens they were quiet and unobtrusive.

A. L. GILBERT, farmer; P. O. Cuyahoga Falls; was born July 29, 1809. Is a son of Orin and Mary (Barber) Gilbert, who were natives of Litchfield Co., Conn. The father was a farmer after moving to Ohio, but formerly carried on the shoemaking and tanning trade. In the fall of 1828, he came to Stow Township, Summit Co., having exchanged 60 acres of land there for over 200 acres in Stow Township. He settled on Lots 31, 32 and 41, which are now owned by his two sons. Mr. Gilbert was an influential and enterprising citizen, taking an active part in all the improvements and enterprises of his neighborhood, either morally or intellectually. He did as much as, if not more, for the erection of the Episcopal Church at Cuyahoga Falls, of which he was a member, than any other one man. He died July 13, 1846, and his wife March 13, 1874. They were parents of the following family: Lemiry, Lewis, Mary, Henry, Harriet, Wallace, Maria, Edwin, Lyman and Louisa, and one that died in infancy. A. L. Gilbert has been twice married. His first wife was Almira Gaylord, by whom he had two children—Mary and Emily, both of whom are dead. His second and present wife was Mary Tuttle, by whom he had six children—Sarah, Lydia (dead), Orin, Albert, Frederick

and Arthur. Mr. Gilbert owns 180 acres of excellent land, and he and wife are members of the Episcopal Church. Is a Republican in politics, and an honest and influential citizen.

GEORGE W. HART. Col. John C. Hart, the father of the subject of this sketch, was born in Cornwall, Litchfield Co., Conn., April 17, 1798. He was a son of Rufus Hart, who was born in Goshen, Conn., in 1771, and Esther Cotter to whom he was married in 1795. In 1802, Rufus Hart and family moved from Connecticut to Genesee Co., N. Y., when he again moved to Ohio. In the war of 1812, Mr. Hart served in the capacity of Lieutenant in a company commanded by Capt. Mallison. He was an active participant in the battles of Chippewa, Lundy's Lane and at the burning of Buffalo. When between 14 and 15 years of age, John C. Hart enlisted in a cavalry company commanded by Capt. Stone, and was with his father at Newark, Ft. George and other contested points. On their evacuation of Ft. George, they suffered incredible hardships, their tents and clothing being such as were brought from their homes. Here young Hart learned a lesson of enduring hardships that he retained through after life. After the close of the war, he and his father returned to Genesee Co., where they remained but a short time, and in May, 1815, they removed to Ohio, locating at Middlebury, now the Sixth Ward of Akron. There were then but three or four log cabins in what is now that city, and the surrounding country was an almost unbroken forest. When 21 years of age, John C. left home for the South in search of employment. He traveled on foot to Steubenville, where he got on board a lumber raft and floated down the Ohio River until the raft lodged on an island, he then made his way on foot to Cincinnati. From this point he went to St. Louis, where he engaged to work in a mill for a man living near the city. After about two months at this business, he left and went to a small town called Milton, where he engaged in the manufacture of brick, but was soon after taken ill with fever and ague, and the following June returned home. He then purchased 50 acres of land just south of Middlebury, on which he soon erected a house and barn. Feb. 24, 1831, he was united in marriage with Mrs. Margaret A. Sterling, and to this union were born George W., John S., Charles S., Hiram J., Elizabeth and Fanny A.

All of these are living except Hiram and Elizabeth. Hiram served his country faithfully in the war of secession, and died from diseases contracted while in the service. The father, John C., was naturally of a military turn of mind, which only required opportunity for development. When advanced in life, he raised a regiment of cavalry of which he was elected Colonel. Mr. Hart died Aug. 20, 1880. Of his children that are yet living, John S. married Zilpha Tinker, of Peoria, Ill., but that lady has since died. Chas. S. married Mrs. Molly Ferney, and lives in Middlebury. Fanny is the wife of Clinton Ruggles, and resides in Akron. George W. was born in Middlebury, July 12, 1832, and in youth received the advantages of the common schools of his native village. He was married Aug. 18, 1853, to Miss Anna H. Beardsley, daughter of Talmon and Temperance (Spicer) Beardsley. Talmon Beardsley was born in Delhi, Delaware Co., N. Y., Dec. 15, 1799. He removed with his father's family to Licking Co., Ohio, in 1810, and from there came to Middlebury in 1818. He has since purchased and sold a farm in Springfield Township, and also a farm in Coventry Township, at the latter place living about thirty years. In 1831, he married Temperance Spicer, daughter of Maj. Miner Spicer, who was one of Middlebury's earliest pioneers. To this union were born seven children, of whom the living ones are Mills H., Avery S., Anna H., Hattie D. and Louisa J. Mills married Prudence Spicer, and is a resident of Ogden Junction, Utah. Avery married Amanda Hart, and lives in Akron. Hattie is the wife of Gates Babcock, and they are residents of Akron. Louisa married George Stover, and lives in Stark Co., Ohio. The two deceased are Emily A. and Avery T. The children of George W. Hart, the subject of this sketch, and his wife, are Freddie, born July 1, 1855, died Sept. 26, 1855; Lizzie, born April 22, 1857, died April 29, 1862; Emily F., born Jan. 13, 1859; Georgie Anna, born Dec. 4, 1861, died Dec. 28, 1873; Clarissie A., born July 25, 1865, and Maggie, born May 5, 1871, died Aug. 16, 1871. Mrs. Hart was born in Middlebury, July 18, 1832. The death of Georgie Anna was accidental, caused by the kick of a horse. She was driving a team of horses for her father while he was loading the sled with corn. In some way she slipped from the load, and fell beneath one of the horses feet.

The animal became frightened and commenced to kick, one foot striking her face disfiguring it frightfully, one of the corks penetrating the skull. She was sensible when taken up and continued so until the next Sunday, when life became extinct, and the spirit of Georgie Hart forsook its clay tenement and returned to God who gave it. She was a bright, winsome child, the pride of her friends and playmates. Of an active and cheerful disposition, she was always willing and ready to assist in whatever was required of her. Her faith was firmly fixed in God. After the accident, she asked her mother if she thought she would die; she was told that they did not know, but were fearful she would. She answered that she was willing, and seemed not to fear death to the last. Her untimely fate was a sad blow to her parents, and the deplorable accident cast a gloom over the entire community. Mr. and Mrs. Hart have been singularly unfortunate. Of a family of six children, only two are now living. Ever since their marriage, they have lived on their place in Stow Township. The farm consists of 150 acres of well-improved land. Mr. Hart is a staunch Republican in politics, and he and wife are members of the Episcopal Church. There is no family better known, or more highly esteemed than that of George W. Hart.

SIMPSON HIBBARD, farming and dairying; P. O. Hudson; among the early settlers of Stow Township were William and Catharine (Sadler) Hibbard, who were natives of Ireland. Mr. Hibbard was a poor boy, and, often hearing of the beauties of America from friends who had come here previously, he determined to brave the perils of a long voyage and cast his lot among the pioneers of Ohio; in 1833, he left his native country, and, after a long voyage, arrived in the United States in safety; he came directly to Stow Township, Summit Co., Ohio, and subsequently married the mother of our subject—Catharine Sadler, who bore to him the following family: Simpson, Eliza J. and Mary E. Eliza married S. P. Donaldson, and lives in Geauga Co., and Mary lives in Peninsula. Mr. Hibbard first began life by farming on 40 acres, which he had purchased on his arrival in Stow; by hard labor and economy this has been so increased as to make one of the finest farms in Stow Township. Mr. Hibbard's wife is dead, but he is yet living with his son, at

the advanced age of 75 years. Simpson was born in Stow Township, June 5, 1844; he was reared on the farm, assisting his father in clearing and improving the place; he was married May 18, 1864, to Sarah J., daughter of John Senter, and by her had a family of five children, as follows: Eddie A., Fred, John S., Garret F. and Rollon. Mr. Hibbard owns a farm of 200 acres, which has about 1,000 rods of tileing on it; he is Democratic in his political views, and is a quiet, unassuming gentleman, having the friendship and good will of a large circle of acquaintance.

W. L. HANDFORD; Cuyahoga Falls; was born in Otsego Co., N. Y., April 13, 1811; he is a son of Uriah and Rhoda (Boalt) Hanford, and grandson of Charles Hanford, of Norwalk, Conn. Our subject's father was a sea-faring man, and his son remained at home during his father's voyages; in his youthful days he learned the hatter's trade; in 1826, he came to Ohio, and his home ever since has been in Summit Co. In 1844, he married Mary Sanford, daughter of Frederick and Clarissa (Parmelee) Sanford, who came from Litchfield, Conn., to Ohio, in 1834. During 1837, the cyclone, that passed through Stow Township, struck Mr. Sanford's house, completely demolishing it, killing Mr. Sanford and his aged father and two sons. Mrs. Sanford and the present Mrs. Hanford were the only ones saved of the family. Mr. and Mrs. Hanford have had born to them one child that died in infancy. Mr. and Mrs. Hanford are members of the Episcopal Church; they own a farm of 100 acres, on which they are pleasantly located.

GEORGE NORTH, farmer; P. O. Cuyahoga Falls; was born in Middletown Conn., Dec. 6, 1819. He is a son of Selah and Anna (Newell) North, and grandson of Simeon North, who was the inventor of the breech-loading carbine. Simeon North was a man of more than ordinary ability, and as a master mechanic was known far and near. About the time of the breaking-out of the war of 1812, the Secretary of War came to Mr. North and made the proposition, that if Mr. North would build a factory for the manufacture of guns for the United States Army, he would give him \$52,000. This proposition was accepted. Mr. North erected a large brick factory (which is yet standing) in Middletown, and employed a large force of men in the manufacture of his improved car-

bine. Mr. North remained in the employ of the Government fifty-two years. Our subject's father learned the gunsmith's trade in his father's factory. To his union with Anna Newell there were born the following family: Nancy, Julia, Egbert, George, John, Philly, Charles, Sarah and Newell. The mother of these died in Connecticut, and Mr. North then married Sarah Duran, a widow lady, and by her had six children—Charlotte, Ellen, Bessie, Selah (dead), Selah and one that died in infancy. In 1834, Mr. North and family came to Stow Township, Summit Co., Ohio, and first located on Lot 8. After living here a number of years, they sold out and moved near Monroe Falls. Mr. North had just built a house there, when one day during a heavy thunder shower the house was struck by lightning and Mr. North was killed. The date of his death is Aug. 13, 1850. He was a member of the M. E. Church and an excellent citizen. In 1841, George North went back to Middletown, traveling the entire distance on horseback. For the first few years he farmed there, and then bought a large flouring-mill which he ran three years, doing an extensive business. He was married March 10, 1847, to Catharine Wright, daughter of Daniel and Patience Wright, of North Stonington, Conn. To this union there were born four children—Charlotte, Wallace N., Linus and George. Charlotte is the wife of Benjamin Brown, and lives in Michigan; Wallace and Linus are dead; George is single and lives with his parents on the home farm in Stow. Mr. North returned to Stow in 1853. He now owns a fine farm of 100 acres on which he resides, besides two lots and a house in Cuyahoga Falls. Mrs. North was born in Rhode Island June 27, 1820, but moved to Connecticut when 9 weeks old.

HIRAM REED, farming and dairying; P. O. Hudson; was born in Columbiana Co., Ohio, Jan. 13, 1825; he is one in a family of twelve children born to John and Rebecca Reed. Mr. Reed's father was by trade a weaver, but he discontinued weaving when Hiram was 6 years old, and moved to Portage Co., where he went to farming. At the age of 18, Hiram apprenticed himself to a boss carpenter to learn the trade; after three years' servitude, he commenced plying his trade in his neighborhood, continuing for a number of years. In October, 1851, he was united in marriage with Phebe

Sadler, daughter of Arthur Sadler, and the three succeeding years he and his wife lived with her father. At the time of Mr. Reed's marriage, his total possessions was only \$10, but for three years he worked at his trade faithfully until he had acquired some capital with which to commence housekeeping; his father-in-law then gave to Phebe 20 acres of land, which was increased to 83 acres in 1861, by Mr. Reed; in 1866, he sold all his possessions at this place, and purchased the original Frederick Wolcott farm of 127 acres, at Monroe Falls; after three years, he purchased 63 acres more adjoining him, and, in 1871, sold out and went to Hudson; he purchased a farm at the latter place, but, after two years, sold out and moved where he now resides; he now owns a farm of 300 acres, delightfully located, half of which lies in Hudson and half in Stow Township; during the year 1880, this farm yielded 1,762 bushels of wheat from 63 acres of land. Not being content with farming alone, Mr. Reed erected a cheese factory in 1877, in which he manufactured the American cheese; in 1878, abandoning that, and in its stead manufactured Swiss cheese. In this last venture, Mr. Reed has been reasonably successful; during the season of 1880, this factory turned out over *fifty-three and two-fifths tons* of an excellent quality of Swiss cheese. By his judicious management and honorable dealings, Mr. Reed has proven to be one of the best business men in Stow Township; he has also proven that in order to be successful one must not necessarily be born wealthy. His wife bore him the following family: Angeline, Elizabeth, H. Ellen, Harriet, Arthur and one that died in infancy; the mother of these died Feb. 7, 1871, and, March 20, 1873, Mr. Reed married Mrs. Sophia Galloway, widow of Henry Galloway and daughter of Broady McKenzie. Mr. Reed is a Republican in politics.

REV. L. SOUTHMAYD, minister, Cuyahoga Falls; was born December 19, 1826, in Stow Township, Summit Co., Ohio. He is a son of Erastus and Anna (Wetmore) Southmayd, and grandson of Partridge and Hannah (Fanning) Southmayd. Erastus Southmayd was a native of Middletown, Conn., and was born March 29, 1787. He was the sixth child in a family of nine children. When a young man he left home and went to New York City, engaging in the mercantile business. He failed

at this in 1812, and seven years later, emigrated westward, locating in Stow Township, Summit Co., Ohio, where he remained until his death. On his arrival in Stow, Mr. Southmayd began teaching school, which vocation he followed for some time. April 18, 1822, he was united in marriage with Anna Wetmore, daughter of Caleb Wetmore, and of this union were born three children—Lucy, Charles and Leonard—the mother dying after giving birth to the last-named. Soon after his marriage Mr. Southmayd moved to Stow Corners, where he opened a tavern. He afterward married Clarissa Rice, who became his wife March 21, 1827; this lady was born Feb. 6, 1805, and she is the second white child born in the township of Stow; to his second marriage four sons were born, viz.: Walter, William, and Horace and Henry—twins; of these William alone is living. Mr. Southmayd's services, as agent, were secured and retained for a number of years by Joshua Stow, the proprietor of the township, before it was sold to the settlers. He finally died Oct. 10, 1866, and his wife March 14, 1879. In his political views, Mr. Southmayd was a Republican, and a strong temperance man; he was identified with the Disciples' Church, and his descendants are members of the same. Leonard Southmayd received a good education in youth, and, in 1850, married Elizabeth A. Stark, daughter of the old pioneer, Benjamin Stark; their union there was without issue; but Mr. and Mrs. Southmayd have raised three of their neighbor's children—Charles H. (who died in the army), Fredrick W. and Jessie R.—the last named being the only one that received the name of their foster parents. Mrs. Southmayd was born Jan. 14, 1826. At the close of the war, Mr. Southmayd was ordained a minister of the Disciples' Church, in which capacity he has served ever since. He owns the undivided two-thirds of the old Stark homestead, which consists of 144 acres. Of the Southmayds, there are but two others in the State of Ohio; these are Charles and William; the former a farmer in Stow Township, and the latter an insurance agent, located at Cuyahoga Falls.

NELSON SEARS, retired farmer, Cuyahoga Falls. This gentleman, one of the old landmarks of Stow Township, is one in a family of ten children, born to Daniel and Betsey (Thomas) Sears, and was born in Middletown, Conn., in 1802. When 3 years of age, Mr. Sears, together

with his parents, moved to New York. At the age of 14, Nelson determined to accompany his father, who was at that time preparing to go to Randolph, Portage Co., Ohio, and, with well-filled knapsacks, they began their walk of nearly 500 miles through the forests of New York, Pennsylvania and Ohio. Mr. Sears' father only remained in Portage Co. that winter, and the next spring he built a sleigh, and, loading it with deer skins, went back to Lewis Co., N. Y. Nelson, however, remained, working for his grandfather at Randolph for three years. Becoming homesick, he concluded to go back to his friends in York State, and, in due time, reached home in safety. On Jan. 17, 1828, he married Lucy Roberts, of Middletown, Conn., and from that place removed to New York, where he continued to reside until the fall of 1831, when he came to Stow Township, Summit Co., Ohio, locating on Lot No. 11. He has ever since resided in Stow, helping to clear and improve the township, and build up the town. By legitimate farming alone, Mr. Sears has earned valuable property. He only had \$1.50 on his arrival in Stow. Until recently, he possessed 225 acres of land; but gave his two living children 100 acres apiece, reserving for himself and wife about \$10,000 worth of property. This couple were parents of the following children: Sarah A. (deceased), Robert, Angeline, Julia A. (deceased), Harris (deceased), Ellen M. (deceased) and Horace (deceased). Robert and Angeline are both married, and they are the only children living. Robert married Elsie Hazard, and Angeline became the wife of B. R. Bucklin. Robert served his country in the war of the rebellion. Mr. Sears is a Republican in politics, and he has at times held various township offices. He is regarded as one of Stow Township's best citizens.

ROBERT STEWART, farmer; P. O. Hudson; son of Joshua and Margaret (Walker) Stewart was born in Stow Township April 8, 1805. He is the first white male child born in Stow Township. His father, Joshua, was a native of Virginia, and his grandfather, Thomas Stewart, was an old Revolutionary soldier. Joshua Stewart came from Virginia to Ohio in 1803, walking the entire distance. His total possessions at this time was only an ax. He married Margaret Walker soon after his arrival, and then, in 1803, came to Stow Township, and located on Lots 88 and 89. His family were

the second white settlers in the township. Here they passed through a long period of suffering, clearing the land, making their own clothing and enduring the hardships incident to a pioneer's life. There were born to his marriage with Miss Walker eight children—Robert, Betsey, Thomas, George, Margaret, James, Sally and Joshua. James and Joshua are dead. Robert Stewart, as well as his brothers and sisters, were raised in the woods of Stow Township. He remained at home, working and assisting his father in clearing the home place until he was 25 years of age. He then started out in life for himself. He was married, Sept. 11, 1858, to Nancy Tracy, daughter of William and Nancy (Ish) Tracy, of Wayne Co., Ohio, and to this union were born Franklin F., William, Margaret J., Jeanette, Sherling P., Nancy E. and George I. (twins). Mr. Stewart started in life a poor boy with but \$5 he could call his own. By hard labor and economy he has made for himself and family, with the aid of his wife, a fine home. They now have 54 acres in Stow Township, and 155 in Hudson Township. Mr. Stewart's father and mother were the first couple married in Hudson Township. Much more of the Stewarts will be found in the history of Hudson and Stow Townships.

LEVI SWINEHART, farmer; P. O. Kent; was born in Springfield Township, Summit Co., Ohio, Jan. 26, 1836. He is a son of Benjamin and Catharine (Garl) Swinchart, and grandson of Christian Swinchart, who was one of the brave men that freed the colonies in America from the tyrannical rule of Great Britain. Benjamin Swinehart was born in Northumberland Co., Penn., Jan. 30, 1811. He came to Uniontown, Stark Co., Ohio, in 1829, where he worked at his trade—shoemaking—for a time. March 10, 1835, he married Catharine Garl, and had the following children—Levi, Samuel, Sarah, Lucinda, Harriet and Daniel. Lucinda lived to become the wife of Jacob Brumbaugh, but has since died. Samuel married Elizabeth Brumbaugh, Sarah married Isaac Sausaman, Harriet married Frank Ewell, and all three live in Portage Co., Ohio. Daniel married Catharine Nittle, and is a resident of Sandusky Co., Ohio. The father came to Ohio a poor boy, but, by industry and economy, amassed a good fortune by the time of his death. Mr. Swinehart was well known by a large circle of neighbors, and his death, which occurred Feb. 11,

1878, was deeply deplored by a large concourse of friends who followed his remains to their last resting-place. His widow never fully recovered from the shock occasioned by the death of her husband; she died June 28, 1878. Levi Swinehart was raised in every sense of the word a farmer boy. His early life was filled with hard work and privations. He carefully saved his hard-earned money until he could place it to a good advantage. On the 4th of March, 1859, his wedding with Sarah Myers was celebrated. To their union were born Almeda E., Celestia C., Eldora C. and Nelson E. (deceased). Mrs. Swinehart is a daughter of Daniel and Esther Myers, and she was born in Green Township, Summit Co., Ohio, Feb. 9, 1835. In 1875, Mr. Swinehart purchased his present farm in Stow Township. This place consists of 96 acres of the best land in the township. Mr. and Mrs. Swinehart are members of the Darrow Street Grange.

VIRGIL M. THOMPSON, son of Dr. Moses and Elizabeth (Mills) Thompson, was born in Hudson Township, Summit Co., Ohio, March 14, 1810. Dr. Thompson was a native of Goshen, Conn., and being one in a large family, his father gave him his time as his own when he was 17. With no money to his name to speak of, and a small bundle of patched clothes on his back in a pack, Moses determined to hew his way, and become a physician, and, being a young man of spirit, in time accomplished his desires. In 1800, he started on foot, and traveling the miles of unbroken forest, arrived in what is now known as Hudson, Ohio, whither friends had gone the preceding year. Arriving in Hudson in April, he immediately purchased a large tract of land (600 acres), for friends back East, and 160 acres for himself. He at once commenced clearing the land he had selected for himself, and in July went back to Goshen, married Elizabeth Mills, and in 1802, removed to Hudson, where they remained until their respective deaths. To his marriage with Miss Mills there were born thirteen children: Eliza M., Susan, Mills, Emily, Sylvester, Virgil, Ruthy, Sarah A., Mary, Martha, Elizabeth and two that died in infancy. All that are now living (five in number) reside in Summit Co. Virgil was reared on the old homestead in Hudson. In 1836, he married Maria Smith, who died about two years after their marriage. Mr. Thompson's second wife was

Marie Antoinette Turner, to whom he was married in May, 1842, and by whom he had three daughters—Celia M., married to H. H. Chamberlain, but has since died; Mary A., and Emma P. Mary is the wife of her dead sister's husband, H. H. Chamberlain, and Emma married E. D. Ellsworth, by whom she had two children—Fred and Mamie. Mr. Thompson purchased his present place in 1836. He owns 355 acres of good land, and is a staunch Republican.

H. E. TALCOTT, farmer; P. O. Kent; is a native of Lewis County, N. Y., and was born May 9, 1809. He is a son of Joel and Zilpah (Kelsey) Talcott, who were parents of four children—Electa, Lucy, Laura and Hezekiah E. When but four years old, Hezekiah's father died, leaving the widow and four children to struggle through life as best they might. Hezekiah remained with his mother until he began doing for himself, and afterward the mother made her home with her son. In 1830, he came to Ohio, and having relatives in Stow Township, Summit Co., he selected a place there on Lot 19, which was at that time an almost unbroken forest. The fall succeeding his coming, his mother and family came out, and together they started life in the wilderness. Dec. 29, 1833, Hezekiah married Betsey Burdick, daughter of John Burdick, and by her had a family of ten, as follows: Henry L., Asher M., Charles G., Myra V., Zilpah A., Ellen J., Emma E., Lorenzo A., Ethel W. and Electa M.; all these are living, and all are married excepting the two youngest. Mrs. Talcott was born in Stow Township, in 1816, and her parents came to the township from Massachusetts, in 1812. Mr. and Mrs. Talcott had three sons in the late war—Charles, Asher and Lorenzo; Charles passed about four years in actual service, participating in some of the most hotly-contested engagements. He was with Sherman on his memorable march to the sea, but during all his army career he never received a wound. Mr. and Mrs. Talcott's children are married as follows: Henry L. married Mary Anthony, and lives in Michigan; Asher married Sarah Thomas, and lives in Kansas; Charles G. married Mary Evans, and is an employe at the Buckeye Works, at Akron, Ohio; Myra is the wife of Edward Peck, and lives in Hudson; Zilpah married Orson E. Moore, of Bath Township; Ellen married D. Barnard, and is a resident of Stow;

Emma married Martin Hokbridge, and lives in Kent, Ohio; Lorenzo is an artist in St. Paul, Minn., and he married Mary Peck. Mr. Talcott is a Republican in politics, and he and his wife are hospitable, kind and courteous people.

WETMORE FAMILY. The Wetmores, of Stow Township, were originally from Wales. It was some time during the sixteenth century that three Wetmore brothers, Seth, Chauncey and one whose name is forgotten, emigrated from Wales to the United States, and all the Wetmores in America are said to be the descendants of these three brothers. One of them settled in Connecticut, one in Massachusetts, and one in New York. The Wetmores of Stow Township are the descendants of Seth, who settled in Connecticut. William and Titus were the sons of Seth. In 1804, William and Titus—the former with his family—started for what is now known as Stow Township, Summit Co., Ohio, where they arrived in June, the same year, locating on Lots 36, 25 and 35. William's wife's maiden name was Anne Ogden, and they were parents of the following family: William, Edwin, Clarissa and Henry. William Wetmore, Sr., was a man very decided in his views, and of great energy of character. Before the county in which he resided was divided, he was selected as Judge of the Common Pleas Court, of Portage Co., and in that capacity served with general satisfaction. Of his sons, William and Edwin imbibed some of the political attributes of their father, William at one time serving as State Senator and Edwin as County Commissioner. Of the children of Judge Wetmore, only one son, Henry, is yet living. Edwin Wetmore was twice married; first to Polly Wetmore, by whom he had three sons—Silas, Luther and Charles. His second wife was Polly Bell, by whom he had two daughters—Clara and Hattie. The three sons are dead, but the two daughters, with their mother, are yet living. Silas Wetmore was born July 4, 1821. He married Mary Birge, Aug. 27, 1846, and to this union were born two sons—Charles B. and Edwin S.; the latter is single. Charles married Adaline Kelly, and by her has three children—Arthur, Ida and Jennie B. Silas Wetmore died March 12, 1871. He was an excellent citizen, and his death was greatly deplored by a large circle of friends. His widow, with her two sons, resides on the farm left by the husband and father in Stow Township. In 1807, William

Wetmore's brother, Titus, who came with him to Stow Township in 1804, married Sarah Wetmore, daughter of Caleb Wetmore, and by her had three children—Seth, Willard and Josiah. Of these, Willard died in 1831, and Seth in 1832. Josiah was born in Stow Township, in 1816. His youth and early manhood was passed on the farm, during which time he received the education the common schools of that early day afforded. In 1839, he married Elizabeth R. Brainard, daughter of Enoch S. and Abbey Brainard, and by her had two sons—Willard W., born in 1843, and Luther B., born in 1847. The former married Julia Gaylord, and the latter Julia Darrow. To the first union there is born one daughter, Jessie, and to the last, four children—Burt D., Harry J., Leona and Celia. Josiah Wetmore's wife died in August, 1879, and his second and present wife was Velonia Le Moin, daughter of Noah and Hannah Le Moin. In their political faith, the Wetmores early espoused the cause of the Whigs, but when the Republican party was created, they joined its ranks, and have since been among its most powerful supporters in Stow Township. On their arrival here, they settled on land devoid of a particle of clearing, and commencing at the foot of the ladder, have, by their honorable, upright dealings, become among Summit Co.'s best and most respected citizens.

L. H. WILLECOX, retired farmer; P. O. Cuyahoga Falls: was born in Berlin, near Middletown, Conn., Aug. 3, 1804; he is a son of Isaac and Lucy (North) Willecox, who were parents of a family of ten children. The father of Mr. Willecox was twice married, his second wife being Mary Randall, by whom he had six children, making a total of sixteen children in this one family. In 1809, Mr. Willecox and family, with a Mr. Kelsey and family, started with ox teams for the West, in which to seek homes for themselves and children; after a journey of forty-two days through an unsettled country, and passing through almost innumerable hardships, they arrived, Oct. 26, 1809, in what is now known as Stow Township, Summit Co., Ohio; on their arrival, they were met by Indians, who showed every demonstration of joy on their coming. Mr. Willecox cleared a place on which to erect a cabin, and, after he had cut and hewed the logs, by the help of the Indians, raised him a comfortable double log cabin; this place was situated on Lots 3 and 4; Mr. and

Mrs. Willcox remained here all the rest of their lives, clearing and improving their place by the help of their children, and assisting in building up a country from a dense forest to what is now a beautiful farming country, dotted over by fine farms and elegant homes. Through all their early experiences, the Willcoxes were regarded by the Indians as firm friends; they were always faithful and honest in their dealings with the savages, and the Indians were not backward in showing their gratitude. Leverett H. Willcox was raised in the woods of Stow Township. He was married, July 15, 1829, to Hannah Porter, daughter of William and Mary Porter, and to this union were born the following family: Orpha, Louisa, Lydia, Elizabeth, Sophronia, Mary, Lemuel, Clarence, William, Henry and two that died in infancy; there are now five daughters and two sons living, and all are married; Mr. Willcox has had twenty-five grandchildren and two great-grandchildren. Mrs. Willcox died March 4, 1881; she was an exemplary Christian, a kind wife and an affectionate mother. Mr. and Mrs. Willcox had lived together as husband and wife fifty years seven months and seventeen days. Mr. Willcox, in early years, did not receive any of the benefits of school whatever, but has since acquired an excellent practical education. With perhaps but one exception, he is the only one of the old pioneers of Stow Township yet living.

JOHN WELLS (deceased). This gentleman was born in New Lisbon, Ohio, Aug. 23, 1803; he was of English descent, and one in a family of ten children born to John and Polly (Walker) Wells, all of whom are now dead; his youth and early manhood was passed on a farm, but when he arrived at manhood he learned the carpenter's trade, which occupation he steadily followed until he purchased his farm in Stow Township. From New Lisbon he moved to Jefferson Co., Ohio, when it was all woods, there being at that time but few white settlers in that locality; he settled at what is now Wellsville, which was afterward named after him: from this point they came to Little Ireland, in Stow Township, Summit Co., Ohio, locating on a farm entirely devoid of clearing. He was married, July 15, 1830, to Miss Emily Gilbert, daughter of Orin Gilbert, a sketch of whom will be found in the biography of A. L. Gilbert; to this union were born one son and three daughters—Henry, who died when about

9 years old; Harriet (who died), the wife of William Perkins; Frances and Alice. Mr. Wells died March 2, 1875; he was an honorable man in every respect, and was one well calculated to hold the position he did in the hearts of his fellow-townsmen. He and wife had removed to Cuyahoga Falls soon after their marriage, and, after a residence there of about two years, purchased a farm of 94 acres on Lot 32 in Stow Township, where his family are yet living. Mrs. Wells was born Oct. 27, 1807, and her two daughters—Frances and Alice—and grand-daughter—Lillie—are living with her; the only other grandchild—Hattie—is living with her father in Kent, Ohio. Mr. Hart was a resident of Summit Co. over forty years, and his life was one of usefulness and hard labor. John Wells, the father of the subject of this biography, was a native of Virginia, of English descent, and was a brave and efficient soldier in the war of 1812; he was a man loved and respected, and was an upright and honorable gentleman; his ancestors came over in the Mayflower.

J. O. WILLIAMSON, farmer; P. O. Hudson; was born in Stow Township March 14, 1845. He is a son of Palmer and Amy (Horton) Williamson, and a grandson of William and Mary (Palmer) Williamson. The father, Palmer Williamson, was born in Westchester Co., N. Y., Oct. 9, 1802. When he was 16 years of age, he was sent to live with a merchant in Salisbury. After residing here two years, he went to Hyde Park to work on the dock and sell lumber, remaining at this place three years. In 1823, he obtained a position in Poughkeepsie as shipping clerk and dock hand; and, three years later, on Feb. 22, 1827, he married Amy Horton, when he began farming, which has since been his vocation, save one year, during which he kept tavern in Goshen, N. Y. During the spring of 1831, he and his family came to Ohio, first locating in Tallmadge Township, Summit Co., where they remained three years, when they moved to his present place in Stow Township, where he has since resided. His wife bore him children, viz., Mary, Horton, Bradner (deceased), Susan, Jane (deceased), Aldrette (deceased) and Julius O. When he came to Ohio, Mr. Williamson was probably worth about \$300, but, nothing daunted by his poverty, with the help of a loving and brave wife, he walked from the poverty of early pio-

neer life to the comforts of a later day. Mrs. Williamson died Sept. 27, 1880. Mr. Williamson survives her death, and he and his son, Julius O., live together on the old homestead in Stow. Feb. 24, 1875, Julius married Rosetta Z. White, daughter of Henry and Almira White,

and by her has three children—Henry J., Homer E., and John P. Julius and his father own a large farm of over 250 acres, which is nicely situated, being four miles from Kent, four from Hudson, five from Cuyahoga Falls, and nine from Akron.

COVENTRY TOWNSHIP.

WILLIAM ALLEN, farmer; P. O. Akron; son of Jonah Allen, was born Oct. 14, 1798; died May 15, 1874; he of Jesse Allen. His mother was Cynthia Spicer (for further history of Spicer family, see Avery Spicer): she was born May 21, 1803, and died Sept. 11, 1860. The family of Jonah and Cynthia were Catharine, born Nov. 5, 1822; Mrs. Beckwith, who died Jan. 23, 1855; Edward, born Aug. 18, 1824, died July 9, 1841; William, the subject of this sketch, born Feb. 18, 1827; John, whose history appears in another place in this work; and Cynthia, who died in infancy. William received but a meager district-school education, being employed upon the farm until about 17 years of age, when he began work at the Akron City Woolen Mill, his father being a heavy stockholder, where he learned the various branches of the business, such as carding, coloring, finishing, etc.; subsequently returning to the old farm south of the city, where he and his brother John farmed together for a time; then returned to the city, where he kept for one year the boarding department for the Perkins Company, to whom the former company had sold. At the expiration of that year, the factory being converted into a flouring-mill, he again returned to the farm, where he has since resided. He was married Nov. 11, 1847, to Amy Amanda Beckwith, daughter of Chauncey and Susannah (Barnes) Beckwith, who came to Norton Township, about 1820, from Hartford, Conn. Mrs. Allen was the second daughter of a family of six children, three sons and three daughters: she was born Sept. 16, 1830, and by her marriage has two children—Newton W., born April 2, 1857; and Cynthia Anna, Sept. 11, 1860. Newton was married, April 28, 1880, to Mary E. Grove, daughter of David Grove, a prominent farmer

of Franklin Township. Mr. Allen has held the most prominent positions in the township, such as Trustee, Township Clerk and President of the School Board; a man of good business tact, which has been conducive to his success, and of a Christian spirit, he and family being members of the Disciples' Church, to which he is a liberal giver as well as to all other societies promoting the cause of Christianity.

LEVI ALLEN, Jr., farmer; P. O. Akron; was born July 28, 1824, on the farm where he now lives; his education was sufficient to enable him to teach. He remained with his father until the spring of 1850, when he started from Akron to Sacramento City, Cal., going most of the way on foot in company with Edwin Allen, Isaac Spicer, Sterns Sparrowhawk and Ephraim Bellows; they endured a great deal of hardship and suffering on account of lack of provision and water; he lived in the principal cities, and engaged in mining in the mountains. The latter years of his stay there were spent on a ranch in the stock business and the raising of grain. At one time while returning on horseback to Sacramento City from his mining interests in the mountains, he was chased by two desperadoes (there being a great number in that country), for eighteen miles, and only escaped by the superiority of his steed and the approach upon civilization; many more incidents of the experience of about sixteen years of frontier life might be related, but space will not permit. On the 24th day of December, 1856, he was married to Mary E. Ware, a native of Amherst Co., Va., by whom he has had three children—a pair of twin boys who were buried there with their mother, and Mary E. P., born Aug. 16, 1858. His second marriage occurred in

1868, to Cornelia Adelaide Knapp, daughter of William H. and Deborah (Wightman) Knapp, who are prominent in the history of Cuyahoga Co., where they resided, and where Mr. Knapp served the county for nine years as County Surveyor, he being a man of influence, and one of the oldest settlers in that county, their settlement being made in about 1810. Mr. Allen has two children by his second marriage, viz., Cornelia Cynthia Adelia, born June 13, 1871; Albertina May Deborah, May 14, 1872. He returned to Akron in December, 1866, from the Pacific coast, and subsequently engaging in a general farm life and the improvement of stock. Is a member of the Disciples' Church, and a man of prominence in his township.

JOHN ALLEN, farmer; P. O. Akron: was born Oct. 20, 1829, to Jonah Allen, whose history appears in another place in this work, under the head of William Allen. The subject of this sketch spent his early life in assisting in the farm work, and in securing as good an education as the common schools of his time would admit of. On the 9th of December, 1857, he was married to Ann Morgan, daughter of Isham and Juliette (Meech) Morgan, who came to Newburg, Cuyahoga Co., Ohio, in 1811, from Groton, Conn. The Morgan family was among the oldest and most prominent families of Cuyahoga Co. Mr. Allen by his marriage has four children—Emma C., born Nov. 2, 1858, and married June 2, 1880, to Henry B. Sisler, one of the coal merchants of Akron; Jesse M., born April 6, 1864; Isham F., Jan. 2, 1868; John R., March 23, 1871. The Allens are a quiet and unassuming people, not aspiring to office, but paying strict attention to the most improved methods of agriculture, in which they are engaged, and very successful. They are members of the Disciples' Church, and have at heart the improvement of the morals of the people, and the advancement of education and religion.

ISRAEL ALLYN, deceased; was born Dec. 24, 1790, in Groton, New London Co., Conn., and died May 7, 1873. He moved to the farm upon which his two daughters, Lucy and Hannah now live, and to whom we are indebted for this sketch, in March, 1819, with a family consisting of wife and two children. The

wife was Lucy Gallup, born March 22, 1789, and married Aug. 1, 1813; daughter of Jacob and Rebecca (Morgan) Gallup, who were married in 1766, and were natives of the State of Connecticut. Israel's parents were Ephraim, born in 1748, died Dec. 28, 1816, and Temperance (Morgan) Allen, who died Oct. 3, 1799, having been born May 4, 1752, and married Nov. 15, 1770. The wife of Israel died July 2, 1850. Ephraim was the father of seventeen children, twelve by his first wife, the subject of this sketch being one of a pair of twins, the eleventh child and seventh son, the four oldest being daughters. His second marriage was to Mrs. Rebecca (Morgan) Gallup, a sister to first wife; she was born April 9, 1766, died July 3, 1834. By this union five children were born, two of whom are now living—Erastus and Edward, prominent men in the State of Connecticut, and Austin, who died at Canaan, Conn., in 1878. Israel's family consisted of seven children—George H., born Oct. 31, 1814; Israel M., June 20, 1818; Abel G., Oct. 4, 1820; Lucy R., Sept. 15, 1822; Austin, Aug. 20, 1828; Lydia, June 16, 1831; Hannah S., Aug. 15, 1833. Three are deceased—Lydia, Mrs. Gen. Voris, died March 16, 1876, leaving three children—George H., married a Miss Altay A. Hall, also leaving three children, two sons in Akron and one daughter in Sun City, Kan., with whom the mother is living. Austin was married in August, 1854, to Huldah Voris, a sister to Gen. Voris, by whom he had six daughters, all living in Ottawa Co., Mo., except the oldest, who is teaching in the high school at Akron. He died April 15, 1871. Israel M. resides near Eaton Rapids, Mich.: was three times married, first, to Hannah Mather; second to Mrs. Caroline Ludlow, by whom he had two sons and one daughter; third marriage to Elmira Nichols. The subject of this sketch was in the war of 1812: a carpenter by trade, but engaged in farming after coming to this State. He is a man of rare abilities, of remarkable force of character, honest and industrious, a very prominent man among the people, and nearly worshiped for his kindness and assistance rendered the poor. He held the most prominent offices in the township of Coventry, and received the honor and praises of all the people.

ABEL G. ALLYN, farmer; P. O. Akron; is the third son of Israel Allyn, whose history appears in another part of the biographical department of Coventry Township; was born Oct. 4, 1820, in the vicinity of Akron, and received a common district-school education such as could be secured at that early day. He assisted in the management of the old homestead until 1847, when he purchased the farm on which he now resides, where his life has since been spent in a general farm and dairy business. His marriage occurred Oct. 10, 1847, to Adeline Capron, daughter of Ara and Eliza (Sweet) Capron, who came from Susquehanna Co., Penn., about 1825, making their settlement on the line between Copley and Bath Townships, this county, where they engaged in farming. They have six children, viz., Addie, born July 23, 1848; Charles, May 25, 1851; Ida, Feb. 15, 1854; Leora, May 14, 1860; Ettie, Jan. 28, 1863, and Gertie, Nov. 24, 1869. The three oldest are married—Addie, to Preston Barber, who is engaged at the Buckeye Works; Charles, to Ada Viall, and now residing in Summit, Greeley Co., Neb., where he is farming, and is also Postmaster at Summit, which he named after his native county; Ida, the wife of States A. McCoy, a former resident of this county, now of St. Joseph, Mich. Mr. Allyn has held the most responsible offices of his township, and is now serving his fifth term as Director of the agricultural society of this county.

JOHN BEESE, Superintendent Summit Mine; P. O. Akron; son of Samuel, who was a son of Sampson, a native of Somersetshire, England, but moved to Monmouthshire, South Wales, when his son Samuel was 4 years of age, which was about the year 1800, there living and dying and raising a family, by his first marriage, of eleven children, of which our subject is one, having been born March 1, 1829. By his second marriage he had twelve children, four of whom are still living in their native country. Five of the children by the first marriage living in this country. His mother was Esther Jones, who, at a very tender age, on account of the loss of her mother, was taken by a family named Roberts, with whom she lived until her marriage. Mr. Beese spent his life with his father, who was engaged in

mining, until the fall of 1850, when he came to Youngstown, working in the Mahoning Valley until the fall of 1868, when he came to Coventry, accepting at that time the superintendency of the Middlebury Shaft, which position he held for about eight years; then that of the Summit mine, formerly the old Steese bank, which position he now holds. He was for some time Superintendent of both mines, which required a great amount of business tact and ability. He has been engaged in his present business for about twenty-four years. He was married, No. 4, 1853, to Agnes Thornton, who was born Jan. 31, 1836, daughter of Alexander and Mary (Meak) Thornton, all natives of Scotland, who came to America and settled in Sharon, Penn., in August, 1849, where her parents still reside. The father being one of the most prominent farmers and stock-raisers in Mercer County, and both hale and hearty at an advanced age. Their family, which consisted of ten children, nine of whom are living in different parts of the county, are all of considerable prominence. Mr. Beese has eight children—Alfred, born Aug. 18, 1854; Charles, June 10, 1856; Eliza, June 2, 1859; Mary, Nov. 4, 1861; Belle, May 26, 1864; Samuel, Nov. 18, 1866; John, Oct. 16, 1869; Agnes Caroline, June 19, 1873. Charles was married, Jan. 8, 1878, to Mary Hausman, residing in Sharon Township, Medina Co., Ohio, and is mining the Ebbert coal, which belongs to his father. The mine being situated on township county lines, they are mining for two counties and four different townships. Eliza is the wife of Henry Stroman, who is engineer at the Brewster Coal Company's mine in Springfield Township.

GEORGE BURGNER, farmer; P. O. New Portage. Jacob Harter, the father-in-law of the subject of this sketch, was born Jan. 10, 1793, in Dauphin Co., Penn.; he a son of George, who was born about 1757, and died about 1833; he a son of Mathias, who came from Germany very early in 1700. His mother was Elizabeth Bauman, who died in her 95th year; she a daughter of Abraham Bauman, natives of Dauphin Co. also. Jacob came with his father to Stark Co. in 1805, settling near Canton. In the spring after arriving at the age of 18 years, was "taken in the first

draft, first class," for the war of 1812. They were first sent to Wooster under Gen. Bell, where they built a block-house; no danger being anticipated, they were sent still further west to Mansfield, where they camped for a short time, and being put under the command of Gen. Simon Perkins, they were sent to his camp about forty miles north, afterward going to Lower Sandusky. The war ending in a short time, he returned home. In 1815, he was married to Catharine Souers, daughter of Henry and Catharine (Harter) Souers, from Lancaster Co., Penn., and early settlers in Stark County. In the spring of 1831, Mr. Harter with his wife and seven children came to Coventry Township from Franklin. His family were ten in number, seven of whom still survive—one son in Iowa, two in Indiana, and one in Norton Township, this county; two daughters reside in Stark County, the other, a Mrs. George Burgner, with whom the old gentleman resides. Mr. Burgner is the son of Jacob, a son of Peter Burgner, who came from Berne, Switzerland, when but 15 years old. The record of the Burgner family is contained in a German Bible, printed in 1573, and a testament printed in 1545, the two books now being the property of Jacob Burgner, who resides at Fremont, Ohio. The father of Jacob Burgner arrived in Canton July 4, 1812. He engaged in farming in Jackson Township, and, in 1815, came to Franklin Township, being among the first in that township. His wife was Mary Conrad. George received a very limited education, in an old log schoolhouse, which was built upon his father's farm, and afterward taught in same place in the winters of 1835 and 1836; from that time until 1852, he worked at the carpenter's trade, and the warehouses at New Portage. May 2, 1852, he was married to Anna Harter, and settled upon the farm where they now live. They have had four daughters, of whom three are now living—Amanda, born Jan. 9, 1855; Mary, Jan. 23, 1859, and Clara, March 10, 1870. Amanda is the wife of George A. Proehl, by whom she has two children—Clara Bertha, born Feb. 26, 1877; and Vincent, Sept. 15, 1880. Mr. Proehl is a farmer and stone mason in Coventry Township. Mr. Burgner held the office of Township Trustee four terms, and

was elected Township Treasurer, but declined the office.

BREWSTER BROS. Coal Company, Middlebury, is composed of Stephen, born Oct. 2, 1832; Jonathan H., Jan. 11, 1834; James G., Jr., and Hiram, June 8, 1835; and George W., March 21, 1837; sons of James G., born in Groton, Conn., Jan. 9, 1797; and Martha (Hassen) Brewster, who is a daughter of Jonathan and Mary Brown, who were residents of the State of Pennsylvania. James G., Sr., was a son of Stephen, born March 4, 1770, and Lydia (Bellows) Brewster, born May 14, 1771. They were married May 1, 1796. The Brewster Coal Company is well known throughout Summit County, and the north part of Ohio: the biography of James G. appears in the biographical department of Springfield Township. Jonathan H. and Hiram are bachelors, and the family histories of Stephen and George W. appear below. Stephen, the subject of this sketch, is living in the fourth house built upon the same location where his grandfather settled in 1811, being one of the first settlers in Coventry Township. He was married, April 2, 1874, to Charlotte H. Meach, daughter of John A. and Lydia Ann (Housel) Meach, early residents of this township. They have four children—Ephraim H., born Dec. 25, 1874; Hayes Wheeler, June 25, 1876; Stephen M., March 5, 1878; and Sir Walter, April 1, 1880. George W. was married, Oct. 19, 1876, to Marie L. Kent, who was born June 1, 1843, to Josiah and Lucia (Miller) Kent, who were among the first settlers in Suffolk Township, Portage Co., Ohio, where the father has resided for about sixty-five years on one farm. They have three children—Georgia Marie, born Sept. 20, 1877; Hiram Wallace, Sept. 24, 1879; Arthur Kent, Dec. 20, 1880.

HENRY J. BELLOWES, farmer; P. O. Akron: is the youngest son of Ithamar, whose history appears with that of John H. Bellows. He received a common district-school education, attending until about 20 years of age, the intervening time being spent upon the farm. He was married, July 4, 1856, to Louisa Weston, born Dec. 24, 1837, and daughter of Francis and Amanda (Himman) Weston, who were among the earliest settlers in Springfield Township. They have one child—Mary—

born July 16, 1857, and married Sept. 6, 1875, to Frank Rabenstine, son of Ephraim Rabenstine, who was one of the early settlers of Stark Co. They reside with Mr. Bellows, and have one son—Dwight. The subject of this sketch was for seven years engaged in the dairying business, four years on his present farm, and three years on the Sumner estate, south of Middlebury, where he lived from the fall of 1873 to 1876. He is a staunch Republican, and he and his family are members of the Methodist Episcopal Church. He is a liberal giver to the cause of religion, and the advancement of missions and schools; is prominently engaged in all the enterprises of the township, but not an office seeker.

BENJAMIN S. COOKE, machinist, with Webster, Camp & Lane, and farmer; P. O. Akron. The father of the subject of this sketch, Charles Cooke, son of Benjamin S., a native of Brooklyn, N. Y., was a harness-maker by trade, and engaged in business in Baltimore, Md., and in Camden, N. J., where his son, Benjamin S., was born March 22, 1833. Charles was born in Brooklyn Feb. 18, 1810, and died June 25, 1849. He was married, July 12, 1831, to Sarah Stout, daughter of James and Rebecca (Stiles) Stout, natives of Salem Co., N. J.: he was the possessor of the famous "apple orchard farm" opposite Fort Delaware. The Stouts and Stileses were of the original Quakers, who settled before the Revolution in Burlington and Camden Cos., N. J. The family names possess considerable wealth and influence in England. The parents of our subject are both deceased, leaving a family of four children—Benjamin S., Rebecca, Abigail, now deceased, and Sallie, wife of Charles Peck, a business man of Pittsburgh. Rebecca, wife of Henry Carles, residing in Camden. Benjamin S. received the advantages of education until the age of 16 years. At 18, he began learning the trade of a machinist, at which he is now engaged with Webster, Camp & Lane. He has worked at his trade in a great many different cities and States, and was, at 22 years of age, steamboat engineer upon the Delaware River, and during the war, engineer in Admiral Farragut's squadron of the navy, and at the taking of Fort Morgan, at the mouth of the Mobile.

His travels have been extensive, taking in twenty-six States, Mexico and Cuba; he came to the farm which he now owns, about two miles from Akron, in the spring of 1868, from Mifflin, Penn. In 1878, he built a portable engine, giving it by his great inventive talent, many new points, which make it superior to all others of like design. On his farm he has a very profitable pebble quarry, with all the machinery for separating the pebble from the sand, for fire brick manufacturing, making a superior quality of brick. He was married, June 27, 1862, to Ermina K. Frank, daughter of Jacob and Sarah Frank, natives of Juniata Co., Penn. They have had three children, one of whom died in infancy; those living are Sallie, born Sept. 18, 1866; and Rebecca, April 22, 1873.

HIRAM S. FALOR, Akron; born in Coventry Township, at the farm upon which he now resides, March 22, 1829; the son of George A. and Nancy (McCoy) Falor, who were early settlers of Summit Co.; he received a knowledge of the common branches in the schools of his native township; when 19 years of age, became an apprentice in the harness-shop of Orrin Beckwith, of Akron, remaining three years; then started a shop of his own, and carried on business some ten years. In the spring of 1860, he went to California; for a short time clerked in a wholesale store at San Francisco; then went to Humboldt Bay, crossed over the mountains to Salmon River and mined for four months. During the latter part of 1860, he removed to Virginia City, Nev., then a Territory, and opened the first harness-shop ever started in that place; his establishment was called the "Pioneer Harness-Shop." He served as a petit juror in the first court ever held in Storey Co. During the early part of 1861, he organized the Virginia City Grays, and was elected Captain of the company: when the rebellion was inaugurated the company tendered their services to the Government, but were declined by the national authorities who, at the time early in the war, did not wish to pay the expense of transporting the company to the seat of hostilities. In September, 1863, Falor returned to Akron, remaining for some five years in the city. In 1868, having purchased 30 acres

from his father, he removed to Coventry Township, erected a residence on this land, a part of the old homestead, where his family now resides. In January, 1880, he was appointed by Hon. Joseph Turney, Treasurer of Ohio, to be Messenger in the office at Columbus; he also had charge of the Attorney General's office and the Mine Inspector's rooms in the Capitol. Mr. Falor was, on April 28, 1853, elected by the Council of Akron to be Deputy Marshal of the place, and served for two years. He was Secretary of the Summit County Agricultural Society for four years, and Assistant nearly ever since its organization; has been a member of the I. O. O. F. for over twenty years, and, as early as 1854, filled the office of Noble Grand in that order; has also been a Mason since 1852. He was married, July 4, 1854, to Miss Bertia E., daughter of Benjamin and Bertia E. Agard, and by her had four children—Benjamin Stanton, died aged 8; Claude Emerson, now a member of Co. G, 10th Regiment of the regular army; Nancy Honora, died aged 7; Minnie Florence, now at home. His first wife died Jan. 2, 1872, and he was married a second time to Mrs. Phoebe A. Lutz: two children being the result of this union—Hiram, Garcelon and Phebe. Mrs. Falor, by her former husband, is the mother of two children—Minnie C., now Mrs. Harry Flower; and Sylvester E. Lutz. Mr. Falor is now at the age of 52, in reasonable good health and circumstances.

MOSES FALOR, farmer; P. O. Akron; was born in the city of Akron Feb. 3, 1827, to Abraham and Polly (Osborn) Falor: his grandparents were Adam and Elizabeth Falor, who came from Pennsylvania among the first settlers of Stark Co., Ohio. The Osborns were from the State of Connecticut. There were ten children in his father's family, seven sons and three daughters, of which the subject of this sketch is the fifth son, and has lived near the city of Akron his whole life, noting the rapid progress of that place, in the building-up of the great manufacturing interests of which she can now boast. Mr. Falor received but a limited education, his time being spent on the farm with his father in the performance of the various duties connected with farm life. His marriage occurred Feb.

10, 1853, to Hannah H. Wilson, born 1827, Oct. 20, and daughter of Moses D. and Jane (McCoy) Willson, who were among the first settlers in Coventry Township. They have had eight children, four sons and four daughters—Albert, born Feb. 22, 1854; Ida Jane, Feb. 9, 1856; Clinton, Oct. 10, 1857; Rollin J., Dec. 18, 1859; Clara L., Sept. 12, 1863; Grace N., Oct. 11, 1866; Cora May, Dec. 18, 1869; Jasper M., May 26, 1874. All are living except Clara, who died Oct. 20, 1866. Clinton was married July 18, 1880, to Isabel Kintz, daughter of Samuel Kintz, and is engaged in the molding-room at the Buckeye Works. They are engaged quite extensively in farming and dairying. They are members of the Disciples' Church, respected and esteemed as citizens.

ADAM GREENWALT, grocer and farmer; P. O. Akron; son of Michael and Henrietta (Brehm) Greenwalt, who were natives of Germany, but emigrated to America in 1841, and settled in York State, where he worked at farm work until 1843, when he came to Massillon and worked in a warehouse for eight years; then purchased a farm two and a half miles north of that place, where he died Jan. 13, 1873, in his 54th year. His wife survives him at the old homestead in her 60th year, she coming to Massillon in 1839. Adam was born Sept. 18, 1845; received a limited education and enlisted Oct. 18, 1862, in Co. C, 13th O. V. I., under Capt. William B. Lamberts, at Mansfield, and sworn in to service at Columbus: thence to Cincinnati, Louisville and Cave City, where he joined his regiment and began the hard life of active soldiering, which lasted for more than three years, during which time he participated in all the hotly contested battles and skirmishes engaged in by the Southern army. At Murfreesboro. the regiment was badly cut to pieces, suffering great loss: also at Mission Ridge, engaging in the great charge at that place, with Grant the great leader, by his side: thence to Knoxville, Chattanooga and the seven months Georgia campaign: then back to Chattanooga, Huntsville, Franklin and Nashville, engaging in the battle at that place; thence to Texas, landing at Indianola; afterward to San Antonio, where he was discharged by Capt. D. A.

Geiger, on the 26th day of October, 1865, after having displayed great bravery and discharged nobly the duties of a soldier. He is one of the six or seven members of the original company, who returned home. He came to this county about 1867, from Stark Co., and about seven years later in company with his brother-in-law, purchased the farm of 82 acres upon which he now lives. He was married, Oct. 10, 1867, to Catharine Koontz, daughter of Frederick and Charlotte (Dippey) Koontz, who were natives of Germany, but emigrated to America about forty-five years ago. They have three children living—William Henry, John and George Adam.

MATHIAS HARTER, farmer; P. O. Akron. The Harter families in our county and country have become quite numerous. The original stock emigrated from Wurtemberg, Germany, in the year 1743. Three brothers landed in that year in the city of Philadelphia. The colonial laws then allowed the owners of ships to sell all emigrants for a stated time, so as to pay their indebtedness to the ship. The voyage having been both tedious and perilous, all the emigrants had to be sold for debts. One of the brothers being lame he didn't bring anything on the block, so the mother of the family, who was a stout woman, was sold and worked out the indebtedness. Two of the brothers moved into the interior of Pennsylvania, and one went to the colony of New York and settled in the valley of the Mohawk. The name was originally Herder, similar to the Herder who was one of Germany's most distinguished authors, theologians and teachers. The names of some of the Harters who were among the first settlers in the southern part of this county are Andrew, who settled near the village of Manchester, and Jac Harter, who lives now in Coventry Township. These Harters are first cousins. Andrew came to Franklin Township in 1814. But John Harter, the father of Jac, moved to Stark Co. previous to the war of 1812. The Harter family to which Andrew and Jac belong, is noted for its longevity. The former is past 87 years, while the latter has rounded up his 88th year. Andrew has now a brother living in Center Co., Penn., who is 90 years old, and two sisters who are

past 80. The name of the original grandfather who came from Germany was Mathias. It was he who was lame and did not bring anything. Andrew Harter's father's name was John, who was born and raised in Lebanon Co., Penn. The family of Andrew Harter consisted of five sons and one daughter, who was the wife of Mr. Daniel Diehl, of Franklin Township. Two of the sons are dead—Andrew and Isaac. George resides at Independence, Iowa; Daniel and Mathias reside in Coventry Township. The latter lived in the State of Missouri when the war of the rebellion broke out. And as he resided in one of the hottest hot-beds of secession, he had great opportunities to learn the real spirit of the Southerners. After the fall of Fort Sumter, he took his wife and two children and started for Iowa, where he formerly resided, and after locating them as comfortably as he could, he enlisted in the 9th Regiment of O. V. I. After the battles of Look-out Mountain and Mission Ridge in the fall of 1863, he re-enlisted for three years more, or during the war. He was with Gen. Sherman on his great march from Atlanta to the sea, and through the Carolinas and Virginia to Washington, and was mustered out at Louisville, Ky., in the month of June, 1865. After the war was over, he moved with his family to the city of Akron, where he started the "Akron File Works," in the fall of 1868. Mathias Harter was married, in 1855, to Miss Sallie M. Hall, the youngest daughter of John Hall, second of Springfield Township, who was one of its earliest pioneers. The family of Mathias Harter consists of three sons—Edwin C., Sigel F. and James Hall; and two daughters—Jennie Winona and Sallie Belle. The two first sons and the first daughter were born at Independence, Iowa; of the remaining two, the daughter was born in Akron, and the son in the township of Coventry.

JOHN HEINTZ, farmer; P. O. Akron; came to New York in August, 1834, from Hesse, Hamburg, on the west side of the Rhine, near Frankfort-on-the-Main, which country now belongs to Prussia. He was born Oct. 24, 1812, to Peter and Louisa (Bauers) Heintz; she was a daughter of George and

Margaret Bauers. His father was a prominent farmer in his native country; his family consisting of three sons and three daughters. John being the only son now living; his oldest sister living in Germany, the second, Louisa, wife of Urias Whitner, of Coventry; and Mary, wife of Joseph Slager, now residing near Aurora, Ill. John was married, March 20, 1836, in Cleveland, to Sophia Kech, daughter of Conrad Kech, a prominent farmer of Trumbull Co., Ohio; by her he had seven children, two of whom died in infancy. John F. in his 29th year, after having been married some time to Susannah Renninger, who is also deceased, leaving three children—Charles and Edward, living in Bath Township, and Joseph living with relatives in East Liberty. There are four children living, one son and three daughters—Louisa, wife of Louis Moore, residing in Pine Bluffs, Ark.; Sarah, wife of Joseph Arnold, a farmer in Sharon Township, Medina Co.; Amelia, widow of Henry Bolinger, she residing in Clarke Co., Ind.; and George, married to Sarah A. Harris, a farmer in Bath Township. The first wife of John Heintz died in 1849; his second marriage occurring May 20, 1851, to Margaret (Rost) Bollen, a daughter of Jacob and Agnes (Bollinger) Bollen, who were natives of Schaffhausen, Switzerland, came to New York in 1848; subsequently moving to Norton Township. Mr. Heintz after complying with the requirements of the compulsory education law, learned the painter's trade. After coming to America he sought for work at his trade, and not being able to speak the English language, was unable to secure a position. He then traveled in search of work, a part of his time being spent in Holmes Co., Ohio, and in Cleveland, where he learned the butcher's trade, which he followed in the latter place, and in Akron, subsequently learning the cooper's trade which he followed until 1853, when he moved to the farm which he now occupies. He has held the various township offices of trust, and with his family, are connected with the German Reformed Church of Akron.

GEORGE HEINTZ, farmer; P. O. Akron; son of Philip, whose history appears in that of John Heintz, in another place, was born Jan.

28, 18 7. Philip came from Germany in the spring of 1845, to the farm on which our subject now lives, with his wife, two sons and two daughters—seven more, two sons and five daughters being born after their emigration to Coventry Township, he dying Dec. 29, 1876, in his 67th year: of the whole number of children eight are now living—two brothers, Philip and John, in Bath Township, this county, engaged in farming; one sister, formerly Mrs. Jacob Glass, who died in Kansas, she afterward marrying Elias Gaskanbach, a farmer in Miami Co., Kan., where they now reside; the others are Mrs. Matilda Sherbondy, whose husband is Superintendent in rubber works; Mary, Mrs. Urias Kramer, also engaged in rubber works; Magdalena, a Mrs. Eli Petra, engaged at the sewer-pipe works; Catharine, formerly a Mrs. Philip Burgy, now a Mrs. Philip Laubert, working at the Seiberling Company Works: all residing in Akron. George, the subject of this sketch, was married to Mary M. Beck, born Sept. 1, 1853, and daughter of George Beck. They have one child—George Philip, born Aug. 21, 1878. The mother of our subject is Mary (Baird) Heintz, born Sept. 29, 1814. George learned the potter's trade, at which he worked eight years, the rest of his life being spent in a general farm avocation. They are members of the Trinity Lutheran Church, living Christian lives and commanding the respect of the people.

ALEM HIGH, farmer; P. O. New Portage; son of William High, who was born Feb. 13, 1796; he of Josiah High, a native of Berks Co., Penn. William was married to Elizabeth Reninger Sept. 10, 1822; she was born Jan. 6, 1801, and died Sept. 3, 1872; they had three children—Alem, the subject of this sketch, born June 1, 1823; Isaac, June 21, 1825; Anna Eliza, Dec. 18, 1828; all of whom are living, the latter the wife of Rev. L. C. Edmonds, married Feb. 1, 1850, and located in Adamsburg, Snyder Co., Penn.; Isaac was married to Mary Jane Ludwig; the second marriage, to Jane Moore, with whom he is still living in Medina; he engaged in the hardware and grocery business at that place. Alem was married to Leah Wildroutd May 30, 1850, she dying April 6, 1851; second marriage, to Mary

Weirick, Aug. 29, 1854; expired July 21, 1863; third marriage, to Elizabeth Daily, Nov. 2, 1865. By all marriages, he has had ten children: By first wife, one, who died in infancy; second, four children, two of whom died in infancy; those living are Amasa Milton, born Oct. 10, 1859; Sarah E., Sept. 26, 1861; third marriage, five—Leora, born Sept. 4, 1866; U. G., July 9, 1868; Milo, Feb. 26, 1870; Lydia A., Oct. 23, 1871, died May 10, 1875; and Joshua, Jan. 8, 1875. William High came to Springfield Township in the spring of 1832, where he lived and worked at the carpenter and joiner's trade for about eleven years, then came to the farm upon which his son now lives, and upon which he has carried on a general farm life since, securing a district-school education. Our subject has held the various township offices of trust; is a liberal supporter of all the enterprises of the township, and watchful in the advantages of education for his family.

ELMER HOUSEL, Weighmaster at Sweitzer Shaft, Akron: is a son of Martin, born Nov. 20, 1794, in Westmoreland Co., Penn., and died Sept. 30, 1856, in his 63d year: he is a son of Jacob Housel. Martin was one of the first settlers in Coventry Township; his first wife was Charlotte Brewster, a sister to Alexander Brewster, whose sketch appears in another place in this work. By this marriage there were three children—Hiram, Jacob and Lydia; second marriage, to Margaret Viers, by whom he had twelve children, eight of whom are living; they were as follows: Charlotte, Sarah, Martin, Liverton, Harrison, Nancy, Martha, James, Alice, Elmer (the subject of this sketch), Benjamin and Oscar. All are married—Charlotte, wife of C. L. Goodwin, engaged in prospecting coal; residence, Girard, Trumbull Co., Ohio; Martin, a millwright in Middlebury; Harrison, mail agent on the Chicago, Burlington & Quincy Railroad; Martha, wife of James Kilfoyle, who is connected with the railroad at Niles, Ohio; James, foreman in sewer-pipe company at Middlebury; Benjamin, a carpenter in Northfield, Cuyahoga Co., Ohio; Oscar, carpenter in Galesburg, Ill. Our subject was born Feb. 25, 1846; attended school and worked on a farm until 16 years of age, when he went to

Girard, Ohio, where he worked in a flouring-mill eleven years, then engaged in the coal business in different parts of the Mahoning Valley, continuing in the same business, principally, until the present time. He was married, Oct. 3, 1871, to Rachael A. McCartney, daughter of A. W. and Mary A. (Dunlap) McCartney, of Girard, Ohio. They have three children—Guy, born June 16, 1873; Mary, Feb. 28, 1876; Elizabeth, Jan. 17, 1879. In November, 1880, after the opening the new shaft of an extensive coal-mine on the Sweitzer farm, he accepted his present position—that of Weighmaster.

HOUSTON KEPLER, farmer; P. O. New Portage: is a son of Jacob Kepler, who was born about 1797, in Center Co., Penn. His father was John, a native of Bucks Co., Penn., but moved with his family to Green Township, in 1802. The early ancestry were from Switzerland. John and a valuable horse were instantly killed at a cider-press by being struck with a heavy lever which became detached. Jacob remained with his father until 18 years of age, when he began working for himself, returning, however, at harvest time, to assist his father. At about 25 years of age, he was married to Susan Marsh, daughter of Adam Marsh, an early settler of Franklin Township. Jacob was always a hard-working man, with a great desire for the acquisition of wealth, which he afterward possessed. In 1822, he settled on the farm where his son Houston now lives, which at that time was a vast wilderness, but, by clearing and grubbing, he became the possessor of more than 1,100 acres of land in Coventry Township. They had thirteen children—four sons and nine daughters: six are living—two sons, both represented in this work; and four daughters—Mrs. Thomas Baughman, Mrs. Henry Wise, Mrs. Andrew Oberlin and Mrs. Solomon Reninger. Huston was born Aug. 25, 1839; he stayed with his father on the farm until his marriage, which occurred April 2, 1863, to Catharine Foust, daughter of Abraham and Elizabeth (Mauery), daughter of Frederic and Catharine (Hillygoss) Mauery, natives of Pennsylvania. In 1850, the Fousts came from near the southern line of the State of Wisconsin, whither they had gone, a short

time before, from their native State, to Green Township, where they purchased the place known as the "Old Foust Farm." The old people there died—the father on his birthday, Oct. 20, 1875, aged 66 years; the mother, Aug. 18, 1872, aged 56 years. Houston has four children—Clara Alice, born Feb. 24, 1864; Laura Jane, Aug. 11, 1867; Maggie Elizabeth, Oct. 13, 1872; and Nelson Eugene, May 16, 1877. He was elected Clerk of the township in the spring of 1864, which position he held for six successive terms, and two terms thereafter was Treasurer one year, and for the last fifteen years has held the office of Justice of the Peace, and eleven years member of the School Board, taking an active interest in the progress of education. His life upon the farm is more especially devoted to the raising of grain, the products of his farm being from twelve to fifteen hundred bushels of wheat alone. He and family are members of the Reformed Church, and liberal givers to the cause of religion and the building of churches.

SAMUEL KEPLER, farmer: P. O. New Portage; is a son of Jacob Kepler, a brief history of whom appears with that of Houston Kepler, in this work. Samuel was born April 17, 1830, and received the educational advantages of the old log schoolhouse of those pioneer days, with its puncheon floor and Congress stove, with holes bored in the logs of the building, and wooden pins driven in to support their writing-desks, etc. At 21 years of age, he engaged in farming on his present location, which was a part of the land owned by his father. He was married, Sept. 12, 1851, to Suannah Swigart, daughter of George and Elizabeth (Daily) Swigart, she a daughter of John Daily, who was supposed to have been the first settler in Franklin Township. They were natives of Bucks Co., Penn. By this union there were seven children, five of whom are living—Uriah A., born in 1852; Anna, in 1855; Jacob, July 19, 1859; Samuel, Dec. 9, 1865; Minnie May, Dec. 5, 1871. Uriah A. married Mary Lamb, daughter of Nathan Lamb, formerly a prominent business man of this county. They are farming at Chanute, Kan.; Anna, wife of Hon. Hugo C. Preyer, formerly of the *Ohio Staats Zeitung*, at Canton,

now editor of the *Great West*, an independent paper published at Denver, Colo. He is also President of the Stonewall Mining Company. The mines of this company, four in number, are situated near Crosson, on the line of the Denver & South Park Railroad, about forty-eight miles from Denver. The camp is considered one of the best in the State, with a capital of \$1,000,000. He is also Secretary of three other mines. Jacob, second son of Samuel Kepler, has advanced to a considerable degree of prominence as a township politician and a business man. He received a district-school education, with the additional advantages, for a short time, of the high schools and College of Canton, Ohio, where he was also engaged for a time as solicitor upon the *Ohio Staats Zeitung*. When a lad of but 16 years, he became very much interested in public matters, and, at 21 years of age, was appointed by the Trustees to canvass the township for election purposes, on account of the great number of transient men. He has been for a considerable time a regular correspondent of the *Akron City Times*, and is at present living upon the farm with his father. The subject of this sketch has held the various township offices of trust since his marriage—those of Trustee, Treasurer, and, in 1880, was Assessor of real estate.

JOHN P. KEPLER, Akron; proprietor of the Farmers' Coal Bank, Coventry Township Ohio, which was started in 1874, opening a mine of coal of a superior quality, with a vein averaging about four and a half feet, and employing at one time nearly forty men. His machinery consists of two engines, one of eighty-five-horse power, the other of twenty-horse power; being a practical engineer, he is able to run his own power, as well as the general superintendency of his mine. In 1878, he began utilizing his power by engaging in wood-turning of all kinds, and light sawing; but, on the 13th of February, 1880, his building, 36x46, was destroyed by fire, entailing upon him a heavy loss. He was born March 5, 1849, to John A., the son of Andrew and Maria Kintz, the latter a daughter of John Kintz, of Chippewa Township, Wayne Co., Ohio. His boyhood was spent in Green Township, where he was born, working on a farm

and at the carpenter's trade. He afterward went to Akron, where he learned the machinist's trade, having before had some experience in that branch of machinery, so that he is now able to build an engine complete. Afterward, for about a year, he kept a meat market, and, since being engaged in the business of mining, has devoted some time to prospecting for coal and the study of geology. He was married, July 27, 1865, to Lovina Stroman, daughter of John Stroman, of Springfield Township. They have two children—Clara M., born June 9, 1869; and Henry Edgar, Feb. 4, 1879.

JOHN KITTINGER, retired farmer; P. O. Akron; was born east of the city of Lancaster, Penn., Aug. 28, 1809. His father was Abraham, son of Casper, whose father came from Germany about one hundred years ago. His mother, Elizabeth Hunsicker, a native of Switzerland, came to this country in about the year 1800. The subject of this sketch has spent his life in farming and fancy-coverlet weaving, being at present engaged, to a limited extent, in the latter occupation, his apprenticeship being completed when not quite 21 years of age, so that, for more than half a century, he has plied his trade. In the year 1833, he came from the land of his nativity to New Portage, where he resided for about two years, then returned to the East to purchase machinery for weaving purposes. He was married, in the spring of 1835, to Sophia Babb, daughter of George Babb, one of the early settlers of Springfield Township; five children blessed this union, three of whom are still living—Jacob, born Feb. 19, 1837; George, Sept. 23, 1838, died in infancy; David, Oct. 25, 1840; Levi, May 26, 1842; and Amanda, Sept. 23, 1850. All three of his sons served in the cause of their country—Levi in the 14th Ohio Battery, under Capt. Burrows, dying April 15, 1852, of a fever which he contracted at Pittsburg Landing; David served three years in the 29th O. V. I., under Col. Buckley, and was discharged after the battle of Atlanta; returning home, he engaged in work at the wagon-maker's trade at Hammond's Corners, Bath Township, this county, where he still resides; Jacob resided in Randolph Co., Ill., with his family, where he joined a regiment and entered the service;

being taken prisoner soon after, he lay at Richmond until that city was taken by the Union forces; he is now residing at Paris Landing, engaged in coopering and carpentering. Mr. Kittinger's wife died March 26, 1870. He is a staunch old Republican, and has been a member of the German Reformed Church for nearly fifty years.

CHARLES F. KOHLER, Akron: the oldest of a family of five sons and one daughter; born Sept. 6, 1855, to Andrew; he of Andrew and Sarah Fisher, daughter of John Fisher. He is of German-English descent. Charles' father was for many years engaged in general merchandising at Richfield and Jersey Shore, in the State of Pennsylvania, where, in Juniata Co., Charles was born, and received all the educational advantages of his community; then, after moving to Akron, in the spring of 1870, he completed the high school term and took a course at the Oberlin Commercial School, where he received a diploma for proficiency. On the 1st of January, 1879, he accepted the position of Weighmaster and book-keeper at the Summit Mine, formerly the old Steese Mine. He was married, April 10, 1879, to Alice Brittain, daughter of John T. Brittain whose history appears in the biographical department of Springfield Township, of this work. They have one child—Burt B., born Feb. 4, 1880. Charles' only sister, Mrs. Ferdinand Diebold, residing in Cleveland; his oldest brother, John, studying medicine with Dr. Leight; the others are attending school, the father being careful that his children improve their educational advantages.

SIMON P. MARSH, teacher and farmer; P. O. Akron. The ancestors of this estimable gentleman were natives of the State of Pennsylvania, near Williamsport; his father, George L., was born Feb. 7, 1808, and died April 18, 1870, the son of Adam, a carpenter by trade, who came to Franklin Township, this county, about 1819, and died in 1862 or 1863, aged about 82 years. George L. received a very limited education on account of the early removal of his father to the above-named township, and the prevailing idea of those early times that work was more necessary than education; his services were, at a tender age, demanded upon the farm. He was married

to Elizabeth Hane, Dec. 1, 1831; she was born July 20, 1811, and died Nov. 2, 1867. By this union there were six sons and six daughters—George Adam, born Dec. 8, 1832; John Jacob, Dec. 30, 1833; Samuel Christian, Aug. 25, 1835; Nancy, April 4, 1837; Lovina, Jan. 8, 1839; Elizabeth, April 3, 1840; Sarah, April 7, 1842; the two last are dead—the latter, wife of John Myers, by whom she had one child Ida Elizabeth, born June 22, 1862; William Henry, Jan. 22, 1844; Hiram Franklin, Nov. 23, 1845; Simon Peter, April 5, 1848; Harriet, May 3, 1850; and Amanda, Sept. 16, 1852. Mr. Marsh, before his marriage, entered 160 acres of land, which he afterward cleared up, and raised the large family mentioned above, ten of whom are still living, all the sons having been teachers. George teaching and farming in Marshall Co., Ind.; William teaching and carpentering in Tallmadge Township; John farming in Stark Co.; the others are residents of Franklin Township; the daughters are wives of the sons of the earliest and most prominent early settlers of that township. Simon P. began teaching at 16 years of age, having received his certificate to teach when but 15 years of age; he has now taught his twentieth term of district school. He was married, Oct. 15, 1872, to Sophia E. Young, born July 21, 1848, in Franklin Township, daughter of Samuel, the son of Abraham Young; her mother was Sarah Shook, daughter of Jacob and Elizabeth (Vensall) Shook, natives of Pennsylvania, but early settlers of Franklin Township. They have had four children, one dying in infancy; those living are Ellery Leroy, born Aug. 1, 1874; Charles Gilbert, March 1, 1877; and Etta Elizabeth, March 26, 1879. He purchased the beautiful farm upon which he now lives in March, 1874, and, in the spring following, his removal to the township, was elected to the office of Township Clerk, which position he has held to the present time, except the year 1879. He and family are members of the Reformed Church; a prominent Democrat, and an enterprising young man.

SAMUEL W. MILLER (deceased): was born in Westmoreland Co., Penn., Dec. 6, 1812, and died Jan. 28, 1881, suddenly, of heart disease; his parents were Jesse and

Elizabeth (Weaster) Miller, both of whom lived to a great age—she about 106 years. They came from Venango Co., Penn., to the farm on which the widow now lives, in January, 1865, after having resided in many different places in their native State, he being a stone-mason by trade, but afterward engaging in farming; his father, Jesse, was a miller by trade, and a school-teacher of considerable prominence. Samuel married Elizabeth Seger June 11, 1833, daughter of John, he of John and Ann (Rhodenbush), she of Jacob and Ann Rhodenbush. They had eleven children, four of whom died in childhood; those living are William J. M., born March 3, 1834; Mary Caroline, Dec. 12, 1836; John H., May 12, 1839; Sarah Ann, Nov. 30, 1841; Eunice C., July 2, 1847; Hannah M., June 4, 1856; and George W., April 28, 1859. William married Elizabeth Homm, who was born in Philadelphia; they have two children—John L. and Sarah A., who, at this writing, reside in Venango Co., Penn. William, being called here by the death of his father, is contemplating a removal to this State to assist his mother in the management of the farm; the second is Mrs. James Graham, living in Wood Co., Ohio; the third, to Amanda Gregg; they reside in Akron; the fourth, a Mrs. Samuel Foster, who is a mechanic in the knife-works at Akron; the fifth, a Mrs. Earnest B. Teits, a tailor at Akron. The two youngest are at home. Mr. Miller was a man respected by the people of his community, and, with his wife, members of the church, and gave liberally of their means for the support of the cause of religion and the advancement of the people.

SAMPSON MOORE, JR., farmer; P. O. Akron; the youngest of six children—four sons and two daughters—of Sampson Moore, who came from the County Antrim, near Ballymena, Ireland, in May 1822, landing at Fairport, Ohio, and going from there to Painesville, Lake Co., Ohio. Sampson, Sr., died nine days after landing at Fairport, and his widow afterward married one James Hall, and, in March, 1826, moved to the farm upon which the subject of this sketch now lives. The step-father died about two years later, and the mother Sept. 7, 1855, at about 68

years of age. She was Jane Kerr, a native of Ireland, and daughter of Robert and Margaret (Boyd) Kerr, who was a sister of Gen. Boyd, of Revolutionary fame, who died in New York City. The Kerr family was formerly of Scotland, but moved into Ireland, and, like the Boyd family, became very wealthy and of considerable prominence. Mr. Moore was married, Jan. 10, 1864, to Mary E. Shutt, daughter of Abraham and Catharine (Gregg) Shutt, who were natives of Maryland—the Greggs of Pennsylvania. They have four children—Jane C., born Feb. 21, 1865; Emma T., Nov. 26, 1869; Louisa M., Oct. 17, 1871; and James S., May 26, 1875. The Moores were of English descent, Sampson's grandfather being sent from England to Ireland as legal agent for an estate. James Moore, a brother to Sampson, is probably responsible for the p appearing in that name; he was a jeweler at No. 68 High street, Belfast, and, upon the face of an "old bull's-eye" watch, which he presented to his brother, he used the letters of the name to mark the hour, instead of figures or other characters, and supplying the deficiency in the number of letters. Mr. Moore is a member of the Disciples' Church, a staunch Republican, and a man of considerable prominence in the township in which he lives.

GEORGE PROEHL, farmer; P. O. Akron; was born April 9, 1822, to George and Christine (Boedchel) Proehl, who were natives of Saxe Altenburg, Germany; his father was a grain-dealer in that country, dying when the subject of this sketch was at a very tender age, probably about 1825, at about 50 years of age. George is the youngest of six children, all of whom are dead except an older sister, who still resides in their native country. He received his education under the compulsory laws of the country, was a soldier from 1842 to 1846, serving the required time as a regular; then went on the reserve force for two years, after which he received his freedom. In the fall of 1848, he came to America, shipping from Bremen to New York, where he landed after a forty-three days' voyage; he immediately came to Akron, where he worked the first ten years at his trade, that of stone-cutting and masonry. In 1858, he pur-

chased the farm upon which he now lives, moving to the same in the spring of 1859, and has been working at his trade and farming since that time. He was married, July 1, 1849, to Louisa Loose, who was born May 21, 1825, to Gottfried and Elizabeth Loose, who were also natives of Saxe Altenburg, Germany. She came to America without her parents in the year of her marriage. They have had eight children; one died in infancy; the oldest, Louis J., born July 18, 1850; George, March 8, 1852; William, May 14, 1854; Maria Matilda, April 18, 1856; John Franklin, Aug. 8, 1861; Emma, Aug. 17, 1864, and Sarah Ida, Jan. 29, 1867. Louis is a graduate of the college at Lebanon, Ohio; also, in 1879, graduated from the Ohio Medical College at Cincinnati, and is now practicing with Dr. Underwood, in the city of Akron. George, Jr., married Amanda Burgner; William married Allie S. Vandersall Dec. 7, 1879, by whom he has one child—John Martin, born Sept. 6, 1880; he is engaged in farming in Coventry. Maria M. is the wife of John R. Davis, who is teacher of a graded school started by himself at Brecksville; he is also a graduate of Lebanon, Ohio. They were married April 18, 1880. Mr. Proehl and family are members of church, and he a liberal supporter of religious and educational privileges.

ISAAC ROMIG, farmer; P. O. New Portage; is a son of Jesse Romig, a native of Lehigh Co., Penn., who died in 1867, in his 85th year; he was the youngest of five children—four sons and one daughter, all of whom are dead. Isaac was born in Wayne Co., Ohio, March 14, 1827. Jesse came from his native county to Wooster in the fall of 1826, where he lived four years, then removed to Thompson Township, Seneca Co., where he died. He was the father of thirteen children, all of whom lived until after 21 years of age; there are at present two sons and five daughters living, our subject next to the youngest. Their residences are as follows: John, a farmer in Marshall Co., Ind.; Susannah, widow of Michael Kern, Thompson Township, Seneca Co.; Polly, widow of Samuel Shirk, living in the State of Michigan; Juliana, a maiden living with the last-mentioned; Catharine, wife of John Good, a farmer of some official prom-

inence in Stark Co., Ind.: Martha, wife of George Collier, a farmer in York Township, Sandusky Co., Ohio. Our subject received a very limited education, attending the district school about six months, his time being occupied upon the farm with his father until 20 years of age, after which he worked by the month for a time. In February 1850, he was married to Lucy Ann Good, daughter of Adam Good. By her he had two children, she dying in June, 1855, in Stark Co., Ind., whither they had gone shortly after marriage. His second marriage was to Mary Good, in December, 1856, a cousin to his first wife; by the latter marriage there were eight children, two of whom died in childhood; those living are Sarah Matilda, born March 21, 1851, now the wife of Robert Paul, the present County Surveyor, living in Akron; Mary Magdalene, born Oct. 23, 1853, the wife of Moses Werley, a carpenter and cabinet-maker in Wadsworth, Ohio. Emma L., born Aug. 28, 1862; Hiram F., Aug. 31, 1865; George W., July 4, 1868; Clara A., Oct. 6, 1871; Charles N., Sept. 12, 1875; Archie H., Aug. 16, 1878. Mr. Romig has been a member of the School Board of his township, taking an active interest in the education of his family; his business is grain and stock raising. He and family are members of the Grace Reformed Church. After ten years' life in Indiana, and meeting with many reverses in trying to secure a home, he sought a new field in Summit Co., Ohio, where, after many trials and hardships, he has, by diligence and perseverance, secured one of the most beautiful homes in Coventry Township.

RILEY ROOT, farmer; P. O. New Portage; is the youngest of eight sons, one daughter being younger; he was born June 30, 1807, his parents being Reuben and Sarah (McMillin) Root, natives of Canaan, Conn., but came to Coventry Township in the winter of 1818, and engaged in farming, at time when the city of Akron consisted of only three log cabins, Cleveland and Canton being the nearest markets. The subject of this sketch received a very limited education, his time being employed in farming and at odd jobs of clearing. He was married, Sept. 27, 1827, to Lucinda Manning, who was born Jan. 29, 1812, to John and Sophia (Cogswell) Manning. They have

had five children—Fannie, born Jan. 11, 1828, married Jan. 24, 1847, to Orson Moore, and died Jan. 19, 1875; Orpha, born Dec. 27, 1829, married, July 1, 1852, to John Meredith, a resident of Bath; Harriet, born Sept. 21, 1833, married Sept. 2, 1852, to N. C. Minor, a resident of Johnson's Corners; William, born Dec. 27, 1835, married, Oct. 6, 1859, to Rosetta Bunker, who died Oct. 23, 1872; he re-married March 20, 1873, to Mary Ann Smith (McCune); Olive, born Sept. 1, 1839, married, Nov. 10, 1859, to Charles Ingersoll. They have lived on their present homestead for forty-four years, clearing up all the land and making progress with the times. Mr. Root was, in his younger days, an expert with the rifle, having at one shot killed two deer, and on several occasions two turkeys; he has been an honest and industrious farmer all his days, and, with his noble wife, is a member of the M. E. Church.

FRANKLIN E. RENINGER, farmer; P. O. Akron; is a son of Solomon Reninger, deceased, born Sept. 26, 1830, in the State of Pennsylvania, and came to Coventry in the spring of 1831, he a son of John and Mary (Spotts) Reninger. Mr. Reninger was a man of many pleasing characteristics, and his death, which occurred April 1, 1870, after nearly fifty years of life among the people of Coventry, was greatly lamented by the people of many years' acquaintance. His wife, who is still living, is Lovina Kepler (see sketch of Kepler family). Franklin was born July 10, 1855; being second son of a large family, his educational advantages were limited; however, he has taken an active part in the different enterprises of the township. He was married, June 22, 1874, to Catharine Ries, born May 25, 1858, to Henry, a son of Nicholas Ries, who were natives of Hesse-Cassel, near Unter-Haun, Germany; he came to America in 1845, in his 17th year. Her mother was Elizabeth Brehm, daughter of Conrad and Elizabeth (Karr) Brehm, natives of Bavaria, Germany; she came to this country in 1846, in her 14th year. By this marriage there were three children born—Lizzie, Dec. 18, 1875; Clara, Oct. 5, 1879; and one who died in infancy. Mr. Reninger carries on general farming and stock-raising; is a member of

the Coventry Center Cornet Band, and Clerk of School Board, taking a lively interest in the advancement of education.

SAMUEL STEFFEE, farmer; P. O. Summit: was born Jan. 2, 1819, to Adam, a son of Leonard Steffee who were natives of Huntingdon Co., Penn., where they resided, and were engaged as tillers of the soil. The father of our subject died in 1878, in his 84th year. Samnel's mother was Sally Stroup, daughter of Adam and Eve Stroup, who were also natives of the State of Pennsylvania. He obtained his education, which is moderate, by carefully utilizing the spare moments which he had from labor, the whole time that he spent in school being but one-half day, his father having moved into Venango Co. as one among the first settlers, and when the schools were more than five miles distant. He assisted his father on the farm until about 21 years of age, when he engaged at the charcoal works, at which employment he was engaged nearly thirty years. He was married about 1844, to Margery Allen, daughter of Gen. George Allen, who was one of seven brothers engaged in the war of 1812, but returned home at the close of the war, having passed safely through many hair-breadth escapes with the Indians. By this marriage there were seven children, four of whom are living—Thomas, Louisa, Narcissa and Samuel. The three oldest are married and living—Thomas, in Coventry Township; Louisa, wife of Charles Carpenter, in Portage Township; Narcissa, wife of John Nichols, a farmer in Copley; Samuel, at home. His second marriage was to Sarah Jane Manross (Manson), daughter of George and Sarah (Burdick) Manross, who were natives of York State: she, by her first marriage, had five children—Louis, Robert, Euphemia, Mary T. and George Washington, all living, the four oldest married; by her marriage to Mr. Steffee she has two children—Jesse and Elmira. Jesse Manross, who was a relative or Mrs. Steffee's, was also engaged in the war of 1812, and captured by the Indians, with whom he lived a short time, sharing the life of a prisoner with other comrades among the Indians, but finally made a very narrow escape. Mr. Steffee came to Coventry in the

spring of 1865, where he has since been a prominent Republican and grain-raiser, also taking part in all the different enterprises of his township.

AUSTIN A. SPICER, farmer and coal-dealer; P. O. Akron; son of Avery Spicer, whose history appears in the part devoted to the city of Akron; was born Feb. 27, 1834, and spent his early years in securing a good common-school education sufficient to qualify him for teaching, which he engaged in while traveling through the States of Michigan and Illinois in the year 1855, and a part of 1856. In the year 1857, March 19, he was married to Julia A. Lantz, born Nov. 22, 1835, to Jacob and Elizabeth (Albert) Lantz, the mother being a native of Hagerstown, Md., the father of the State of New Jersey, but among the early settlers in the southern part of Springfield Township, this county. They have four children—Julia May, born July 5, 1859, and died Sept. 15, 1860; Ernest, Albert K., Lizzie Beatrice. Mr. Spicer, in the year 1860, went to California, where he intended making his future home, and engaged in mining for a time, but, on account of the death of his daughter, he returned to Coventry and engaged in the stock business and farming. Since 1875, he has been engaged in the coal business, mining from his own farm, and in running a coal-dock in the city of Akron, where he is now doing business. Mrs. Spicer has an old German Bible, printed in 1727, and handed down to her from her great-grandmother: also several other relics of antiquity.

ELIAS L. THORNTON, farmer; P. O. Akron; son of David Thornton, who came from the land of his nativity, Snyder Co., Penn., to Coventry Township in 1836, his father, John Thornton, following in 1839. Elias, the subject of this sketch, was born April 25, 1850, on the farm where he now resides, receiving, in his earlier life, a very limited education, on account of not being able to understand the English language, so that the success with which he has met is due to his own energy and business tact. In about the year 1870, he began running a restaurant, belonging to his father, in the city of Akron, in which business he continued about two years, the latter half of the second year for

himself, having purchased the business of his father, who died April 23, 1874, since which time Elias has had charge of the large farm contained in the old homestead, in addition to a 53-acre lot adjoining, which he purchased a few years ago. He has, also, in connection with his large farming interests, employed men as blacksmiths and harness-makers in shops on his own farm, and extensively engaged in the lumber business, furnishing from his own land timbers for the different coal mines in Coventry Township, and, in partnership with the Swartz brothers, purchased several acres of timber land near Manchester, Franklin Township, which was furnished in ties to the railroad company. In the early part of the centennial decade, he entered into partnership with the Motz brothers, at Uniontown, in the tannery business, which

they continued for about two years, when they sold the stock and retired from the business, retaining the real estate, which they hold jointly at the present time. He has charge, on the old homestead, of one of the finest pleasure-grounds in Summit Co., it being finely located on the reservoir, where can be found the best of boating and fishing, and having every modern convenience, makes it a most popular summer resort. He is now building a store-room on his farm adjoining the mines, for the purpose of supplying the farmers and mining trade. He was married, Sept. 7, 1875, to Alice Stahl, daughter of Benjamin and Catharine (Sholley) Stahl, formerly of the city of Akron. They had three children: two are living—Dora Belle and Grace Leona.

BOSTON TOWNSHIP.

HIRAM V. BRONSON; Peninsula; is a son of Harmon and Molly (Hickox) Bronson, who were natives of Waterbury, Conn. Harmon was born Dec. 18, 1774; his wife Dec. 17, 1777. They were united in marriage Dec. 18, 1795, and, with his father's family, came to Ohio in 1809. Harmon settled in Cleveland with his family, while his father went on to Columbia, Lorain Co., where he resided until his death in 1816. Harmon Bronson was by trade a carpenter, and was occupied in this business during his residence in Cleveland, the place at that time scarcely meriting the name of village. Upon the breaking-out of the war of 1812, he sent his wife and family to Connecticut, but they only reached a town in New York State, however, when their money was exhausted, and she remained there all winter, working in a hotel; and, at the close of the war, she took a presented opportunity to ride back to Cleveland in a lumber wagon. In 1815, Harmon removed to Lorain County, where he engaged in farming, remaining there until 1821, and then returned to Cleveland. He remained there but a short time, however, moving to Boston Township and locating at Peninsula, where the remainder of his days were passed. He became a large land-owner, and was largely

interested in developing the business interests of the township. He erected the first saw and grist mill at that place, which he successfully conducted for some years. His death occurred upon the anniversary of his birth and marriage, Dec. 18, 1853. His wife died Feb. 18, 1858. Hiram V. Bronson was born in Cleveland in 1811, and came with his parents to Peninsula in 1824, where he has since resided. Upon the death of his father, he succeeded him in his milling and various enterprises. He has been an active participant in all public enterprises; has striven to promote all measures conducing to the best interests of the community, and has been instrumental in securing for Peninsula such advantages as will last as long as does the community. He has served as Justice of the Peace, and as Assistant United States Internal Revenue Collector for four years, and as Postmaster for eight years. He is now pleasantly situated, retired from active life, but always finds time to lend a helping hand to any enterprise which tends to promote the welfare of the community with which he has been so long identified. To the fund of reminiscences and historical facts which he has gathered during his life of nearly 70 years, the historian of Boston Township is chiefly in-

debted for the material of his sketch. Mr. Bronson was united in marriage, in 1835, to Miss Ruth L. Ranney, a native of Ohio, and daughter to Comfort and Betsey (Hubbard) Ranney, pioneers of Boston Township, a more complete sketch of whom will be found elsewhere in this department. Of the children born to Mr. and Mrs. Bronson, Lucy, born May 1, 1838, married P. H. Dudley, C. E., Dec. 12, 1871. Mr. Dudley is the inventor of the "dynamograph"—a car so constructed that by passing over a road he can give an accurate chart, showing its exact condition as to the rail, road-bed, natural resistance, speed, amount of coal and water used by engine, grade, etc. This is one of the most intricate and valuable inventions of modern times. Mr. Dudley's first car was constructed for the Victorian Government for the railways of Australia. He is now constantly employed in examining the railroads of this country, and can be found most of the time with his family in his car, which is fitted out with elegant appointments. Mr. Dudley is also the inventor of an electric clock, which is making a sensation in scientific circles. Emily V., born May 7, 1843, was married to Hon. A. L. Conger, of Akron, Nov. 1, 1864. Mr. Conger is one of Akron's most prominent citizens, of whom an extended sketch will be found elsewhere in this work. Harmon, born Aug. 15, 1846, has traveled extensively, and is a promising young business man, at present living in Philadelphia, engaged in business connected with the electric clock of Mr. Dudley's invention.

FREDERICK. N. BOIES, retired farmer, Peninsula. Perhaps none of the older settlers of the township have passed through such a varied and interesting career as the subject of this sketch. He was born in New Hampshire in 1800, and remained with his father, who was a farmer, until he was 17 years of age, when he engaged in lumbering upon the St. Croix River for three years. He then returned home, and for a year engaged in the mercantile trade, afterward in the stock business, and finally in lumbering, which he continued for four years, and then, after a few months, devoted to various occupations, he went to Portland, Conn., and farmed three years. While there, he was married to Miss Elizabeth Lewis, who was born in 1805. They were married Jan. 5, 1830. After his marriage, Mr. B. was boss teamster in the

famous freestone quarries of Portland for three years. In the fall of 1834, he removed with his family to Ohio, and bought a piece of land in Northampton Township, remaining there three years, when he removed to Stow Township, and started a blacksmith-shop, which he conducted for some time, his family enjoying the superior school advantages of that township. He traded his shop, after a time, for 80 acres of land, upon which he remained one year, and then bought and located upon 110 acres of land in Boston Township. In 1849, he went to California, but returned in about one year, and resumed farming and dairying. One day, while milking, he was stricken with paralysis, from which he partially recovered, and, exposing himself, caught cold, which resulted in the loss of his eyesight. Since June, 1876, he has not been able to see a ray of light. Mentally, Mr. Boies is as vigorous as he was in his prime, and relates, with minute dates, interesting reminiscences of the former days of his busy life. Himself and wife are members of the Episcopal Church, in which he is Senior Warden. They are now living in Peninsula, and enjoy the satisfaction of having raised a worthy family of children, viz., Mrs. Ann L. Cole, Peninsula, Ohio; Mrs. Mary Worthington, who died in Connecticut; Charles E., Fred W., Mrs. Effie A. Worthington, of Portland, Conn., and Helen, who died at the age of 14, in Boston Township.

CHARLES E. BOIES is a young and promising business man of Peninsula. He was born in Stow Township, in 1840. At about the age of 15, he went to Connecticut, from which place he took passage upon a coasting vessel. In August, 1862, he enlisted in the 20th Conn. V. I., and was in active service during all the rebellion, after which he again went to sea for a year. In the fall of 1867, he came to Peninsula, and started a meat market, after which he engaged upon the canal a year; and, in 1872, went into partnership with his brother, F. W. Boies, who was engaged in milling at Peninsula, which business they operated together until January, 1880, when he sold out to his brother, who afterward disposed of the business to George Thomas & Son, with whom Mr. Boies is now engaged. He was married, in 1868, to Miss Alice A. Warburton, of Northampton Township. They have two children—Edith M. and E. Rice. Charles is now serving as Township Trustee, and as a member of the Council, and has served

as Constable two terms. He is a member of Meridian Sun Lodge, No. 266, A., F. & A. M. of Richfield.

FRED W. BOIES was born in Stow Township, Sept. 17, 1842, and, until 21 years of age, was an assistant upon his father's farm. In 1862, he enlisted in the 115th O. V. I., and served for three years in all the engagements of his regiment. Upon his return to his home, he engaged in business upon the canal, and followed boating for himself six years, at the expiration of which time he engaged at farming for two years, and then, with his brother Charles, followed milling, at which he devoted his time exclusively up to February, 1881, when he sold out to George Thomas & Son. He is a young man, possessing good business qualifications, and will succeed at whatever he undertakes.

FRANK BUTLER, farmer; P. O. Peninsula; is a young and extensive farmer of the township. His parents are Thomas and Catharine (Brennan) Butler, both of whom are natives of Ireland. They emigrated to America, and subsequently settled, in 1849, upon the farm which Frank now owns. Frank was born in Northampton Township, in 1851, but has resided in Boston Township since the removal of his parents there, being engaged in farming and lumbering. He now owns 280 acres of land, which he previously shared in partnership with his brother John. He has improved the place with buildings, and has the farm under good cultivation. He is an industrious and deserving young man, and is highly respected by his fellow townsmen. John Butler was born in Northampton, in 1848, and has been farming for the greater portion of his life. His health is such that he goes to the Southern States to spend the winter months, but the remainder of the time is identified with Boston Township as one of its most respected inhabitants.

EDWARD BLAKESLEY, retired farmer; Peninsula; is a son of Edward and Rhoda (Daggett) Blakesley. His father was a native of Hartford, Conn.; his mother, of Schenectady, N. Y., where they were married. They emigrated to Ohio, in 1835, locating in Richfield Township, where they resided for many years. His father was an extensive land-owner, owning land in Hinckley, Granger, Royalton and Brecks-ville Townships. He died, Jan. 14, 1876, in Royalton. His mother died at his home in Peninsula, Feb. 11, 1879, at the advanced age

of 92 years. The subject of this sketch was born in Onondaga town and county, Jan. 11, 1815, and has been engaged in agricultural pursuits his entire life. He commenced farming for himself in Richfield Township, remaining there nearly nine years; from there he removed to Boston Township, where he has since resided. He has now disposed of his land, and is living in retirement in Peninsula. He is naturally endowed with a genial and liberal spirit, and is a respected and progressive citizen. Mr. Blakesley was married to Miss Ellen Robinson, of Richfield, in 1844; they had three children, but one of whom is now living—Ellen Tate. His wife died Feb. 14, 1857. July 5, 1879, he was married to a second wife, Mrs. Betsey McBride, widow of John McBride.

JOHN CONGER (deceased). Job and Roby (Potter) Conger, were married in Vermont, and settled upon his father's farm, at St. Albans. He was one of eleven children, all of whom were Methodists and took a great interest in the church. His father is believed to have been the progenitor of all of the name in the United States. He was a native of New York, and she of Vermont. To them was born, at St. Albans, Vt., the subject of this sketch—John Conger—in September, 1805, who, as soon as he became old enough, worked upon the farm at home, and, they having a brick-yard, he learned to manufacture brick. He was married to Hannah Beals, a daughter of Enoch and Hannah (Hurlburt) Beals, she being a native of Massachusetts. Her father was a farmer, and lived a mile and a half from St. Albans, at which place he and his wife lived and died. Of their daughters, but one other than Mrs. Conger survives; her name is Mary Ann Beals, and her home near Avon, in Wisconsin. Mrs. John Conger was born in Massachusetts, in 1805. After her marriage with Mr. Conger, they remained in St. Albans five years, where he was employed on the farm and in the brick-yard. In 1833, he came to Ohio, and for one season clerked at Cleveland for one Ira Jewell, when he was joined by his family, which then consisted of his wife and two children—Sidney P. and George S., an infant, who died when 3 years of age. Subsequently, they moved to Boston, Ohio, where, in company with one Silas Eaton, he established a yard for the manufacture of brick, at which occupation they continued for some time. In 1844, Mr. Conger went into

partnership with one Erastus Jackson, with whom he was associated until the time of his death, and who was, from the date of their co-partnership, his fast friend. Seven children were born to him, viz., Sidney P., Sandford L., George S., John C., Arthur L., and Lucy Cole, wife of Dr. A. M. Cole, of Peninsula. He was Postmaster under Polk and Pierce; was also Constable, Trustee, and frequently called upon in settlement of estates and arbitration of differences between parties. He was Captain of Artillery, in Vermont, and was deeply interested in the militia service in his adopted State. He died Nov. 30, 1853.

SIDNEY P. CONGER, deceased; was born in Vermont in 1829, and came with his parents when they removed to Boston Township, where his early life was passed. He was married Nov. 6, 1853, to Miss Bridget I. Codey, of Boston Township; she died in January 1861, leaving two children—Lucy Jeanette Warburton, living in Peninsula, and Sidney John, a resident of Akron. He married a second wife, Miss Rose McIlwain, of Boston Township, April 10, 1862. Mr. Conger was a prominent business man of the township, engaged in various enterprises. He was engaged in the manufacture of brick for a number of years, and also owned 180 acres of land which he operated, making a specialty of dairying. He served one term as County Commissioner, and held various township offices of trust. He was a member of Meridian Sun Lodge, No. 266, A., F. & A. M. His death occurred in August, 1874, in his life's prime, and was a severe blow to the business interests of Boston. Mrs. Conger is living in Boston Village; she has three children living—George C., Mary Belle and Allie Blanche.

JOHN C. CONGER, farmer; P. O. Peninsula; was born in Boston Township in 1835. His early days were passed engaged in home duties, receiving a good district-school education. He first left home and was gone one season with Lieut. Reynolds upon a topographical survey of the lakes. Returning to Boston Township, he engaged at farming and brick-making until the breaking-out of the war, when he enlisted Aug. 16, 1861, in Co. A. 2d O. V. C. and was in active service until April 8, 1863. He returned to Boston Township and engaged in farming, at which he has continued up to the present time. He has 135

acres of land, commandingly located a short distance from Peninsula, and well improved. As a citizen, Mr. Conger ranks as one of the most intelligent and honorable. He was married in September 1867, to Miss Eunice M. Stillman, who was born in Rhode Island in 1844. They have been blessed with five children—Fanny S., Luen J., Elmer B., Pamela P. and Mary G. Mr. Conger has served as Township Clerk and is a member of Meridian Sun Lodge, No. 266, and of Summit Chapter of Twinsburg A., F. & A. M.

A. M. COLE, merchant, Peninsula; is a son of Edmund H. and Ann L. (Boies) Cole. Edmund H. Cole was born in Niagara Co., N. Y., in 1824, and came with his parents to Ohio at the age of 8 years. His ventures for himself commenced at an early age, first engaging in school-teaching, and then buying and shipping stock. In 1856, he commenced his mercantile career, at which he continued until his death. He first associated himself with F. & T. Wood, under the firm name of Wood, Cole & Co., continuing until 1863, when he bought out his partners and continued in business alone in the same locality, which he carried on until his death, Jan. 11, 1876. He was a man prominent in all objects of charity, enterprising in all movements tending to the growth, the advantages and welfare of the community, foremost in educational and township affairs, and taking a leading interest in agricultural fairs, serving as Marshal at the fairs in Akron each year. Throughout the excitement prevalent during the war, he was found most loyal and patriotic, aiding with all the means within his power to protect and save the Union. He opened in 1868, the stone quarry south of the town to give employment to laboring men, and was one of the incorporators of the Put-in-Bay Grape and Wine Co., which he was successfully connected with for several years. His death was a severe loss to the business interests of Peninsula and vicinity. He was married in 1848, to Miss Ann L. Boies, daughter of Frederick N. Boies, of Peninsula. Mrs. Cole is living in Peninsula, educating her younger children. Four children now living were the result of this marriage—A. M., H. W., Nellie and Fred.

DR. A. M. COLE was born in Everett, July 6, 1850. His education was common school and Commercial College. For several years he was

assistant in his father's store. He then entered upon the study and practice of medicine. He commenced his studies in the office of Dr. Morton, of Peninsula, and finished with Dr. Pixley, who was at that time in practice at Cleveland. He graduated in the Medical Department of Wooster University, of Cleveland, in 1873-74; attended two courses of lectures in Cleveland, and one course at the College of Physicians and Surgeons of New York. He then returned to Peninsula and was urged to remain there by his father, who was in ill health. He practiced there two years, the last year in company with Dr. Pixley. Upon the death of his father, he entered upon a mercantile career, at which he is now engaged. In 1879, in company with his brother, H. W. Cole, who conducted the business there, he opened a store in Deerfield, Portage Co., which was carried on to a successful termination, by the disposal of the stock. His brother then came to Peninsula and entered into partnership with him under the firm name of Dr. A. M. Cole & Bro. They carry a large and well-selected stock of dry goods, groceries, drugs, medicines, etc., and have built up a large and still increasing trade. Dr. Cole, although not in active practice, has an office in his store, and does a good office business. He is a prominent Mason, and takes a leading interest in all the political issues of the day. He has served as School Director two years, and has been Treasurer of the School Fund for three years. He is an advocate of temperance, and is ready to aid any movement for the advancement of the business, social and intellectual good of the community. He is a director and one of the principal owners of the "Tri-Union Telegraph Co.," which runs from Chagrin Falls to Medina, and which is a good paying investment. Mr. Cole was united in marriage in 1876, to Mrs. Lucy J. Truscott, of Cleveland, a widow with two children—Harry and Jessie. Mr. and Mrs. Cole have one child—Sam.

H. W. COLE was born in Peninsula in 1857, received a good education, and for some time acted as a commercial traveler from Cleveland. He is now the junior partner of the firm, and brings to the business good commercial attributes.

H. H. CASSIDY, grocer, Peninsula; was born in Boston Township in 1850. His parents are Patrick and Margaret Cassidy, who

located in the township in 1820, where they still reside. Our subject started out in life for himself at the age of 18; he sold osage-orange hedge for two years, and then engaged in the lightning-rod business for five years. He next engaged at farming for two years, and still owns, with his brother James, a farm of 170 acres in the township. In December, 1880, he in connection with John Russell opened a grocery store in Peninsula, and are now engaged in trade there under the firm name of Cassidy & Russell. Mr. Cassidy also owns and is operating a saw-mill in the village. He is now serving the third year as Township Trustee, and is a pushing and enterprising business man. He was married in 1877, to Miss Anna Cody, of Boston Township. They have one child—Archimedes.

ANDREW R. CASSIDY, hotel, Peninsula; was born in Boston Township in 1844, and is a son of Patrick and Margaret Cassidy; he attended school until he became 16 years of age, after which he engaged for several years in teaching—in all about eighteen terms—in different portions of the county; in 1866, he started for the West and was gone about eight months, visiting many different localities; upon his return home, he taught school one term in Hudson; he then engaged in farming in Boston Township, at which he continued about seven years, still owning the farm; in 1875, he rented the hotel where he is now living, in Peninsula, and, in 1878, bought the property, which he has carried on up to the present time, but devoting most of his time to cheese and butter making, at which he has been largely engaged for the past five years; he owns one factory and rents two others, and, during the season of about eight months yearly, makes upon an average 1,700 pounds of cheese and 250 pounds of butter daily; two of these factories are located in Boston, and one in Richfield Township. Mr. Cassidy has served the township as Assessor for seven years, as Township Clerk for three years, and the past year as Real Estate Assessor. He was married in 1869, to Miss Agnes Doherty, of Cleveland; they have three children—Grace E., Helen M. and Andrew H.

CHARLES FISH, farmer; P. O. Boston. The Fish brothers, Charles and Buel, own 362 acres of land in Boston Township, which they are rapidly clearing and improving; at the time of its purchase, a few years ago, it was

covered with underbrush and timber; now they have over 50 acres in a good state of cultivation, and, being young and industrious men, they will in a few years have a large portion in cleared and fertile fields. Charles was born in Cuyahoga Co. in 1842; he was married to Miss Mary Campbell in 1865; they have two children—Willis and Millie. Charles has associated with him in his farming enterprise, a cousin—Deming B. Fish—who was born in Cuyahoga Co. in 1846, and is an enterprising and industrious young man. Buel Fish was born in Cuyahoga Co. in 1847; he was united in marriage, in 1868, to Miss Lela Hollister, of Cuyahoga Co.; they have two children—Nellie and Lida. Charles and Deming were both volunteers in the late war, serving long and faithfully in the defense of their country; Charles was a member of the 7th Ky. V. C., and served over three years; Deming was a member of the 52d O. V. I., and also served three years, during which time he was once a prisoner for five weeks.

A. W. HANCOCK, farmer; P. O. Peninsula; was born in Massachusetts in 1832, and came to Ohio with his parents, who settled in Richfield Township, their sketch appearing in that township history. He passed his early days upon the farm until he became 20 years old, when he engaged in various occupations—farming, driving, etc., until 1857, when he was married to Miss Lydia M. Humphrey, who is a daughter of Isaiah and Almira (Waite) Humphrey; her father was born in Connecticut in 1807; her mother in Massachusetts in 1809. Her father came with his parents to Twinsburg at an early day. He was a lawyer by profession, and, after his marriage, resided a number of years in Twinsburg, engaged at his profession, subsequently removing to Boston Township, where he bought a farm, dividing his time between the two vocations. He died in 1877; her mother is still living in the township, upon her farm. After his marriage, Mr. H. worked upon his father-in-law's farm for two years, and then enlisted in the 64th O. V. I., Co. G. He was in active service all through the war, and rose from a private, through all the different grades of merit, to that of Major, as which he was mustered out in 1865; his regiment participated in a great many severe battles—Stone River, Chickamauga, Pittsburg Landing, Nashville, and the siege of Atlanta being the most

memorable. Through them all he passed, and only received a slight wound in the leg at Chickamauga. Our space forbids an extended notice of his military career, and suffice it to say that his duty to his country was performed most honorably. After his return home he removed to Cleveland, where, for four years, he was engaged in training horses upon the Cleveland Driving Park. He then entered the employ of the American Express Company as messenger, and had the route from Cleveland to Erie for a short time, after which he acted as their agent at Vernon, Ohio; from there going to Mansfield, being the messenger from there to Toledo for two years, and from Cleveland to Columbus four years. In 1877, he returned to Boston Township, where he has since resided, engaging in farming. Mr. and Mrs. Hancock have two children—Sylvia E. and Harry H.

ERASTUS JACKSON; James Jackson, a native of New York, was born near King's Bridge, now New York City, and, in A. D. 1800, he went to (then) Hollwell, C. W., where, eight years after, he married one Celia Whitney, who was visiting her sister, a Mrs. Palmer, at that place. Miss Whitney was a native of Litchfield Co., Conn. Her mother was a near neighbor and acquaintance of Israel Putnam, and, previous to her death, could remember many events which have since become matter of history. Two years after the marriage of Mr. Jackson and Miss Whitney, they moved to New York State, settling where Brockport, N. Y., now is. The same year, 1810, the subject of these lines was born to them. Mrs. Whitney Jackson died in 1827, leaving eight children, of whom Mrs. Milina McBride, of Summit Co., Ohio, is the only one living except our subject. James Jackson, of Kalamazoo, Mich., Mrs. E. Gardner and Willett Jackson, Brockport, N. Y., are now living. Mr. E. Jackson passed his minority on the farm. In 1832, he started Westward for the purpose of paying a visit to his aunt, Mrs. Palmer, who had moved to Marietta, Ohio, stopping on his way at Boston, Ohio, where he clerked in a grocery one summer; the ravages of cholera, and the consequent stagnation of business, inducing him to discontinue the clerkship, when he made the visit to Marietta, and returned to his native State, where, the following winter, he began school-teaching, which, in connection with other vocations, he followed until 1837, when he re-

turned to Boston. At the "Lock" in Boston, he clerked in a grocery, teaching school the first winter, and the following spring he went into business at that place for himself, continuing for four years, when he started a furnace at the same place, which now is existent at Hinckley; he conducted its business about two years, when, in 1844, in partnership with Mr. John Conger, he went into the brick business. They manufactured the bricks for all the first brick buildings of Akron, many of which are standing, and among which may be mentioned the Empire House, P. D. Hall's, Baldwin's, Exchange, Gardner & Hanscome's, M. W. Haney, William Upson's, and Perkins & Cumming's Block. During their partnership, they invested their money in land—some of their purchases being 169 acres, for which they paid in bricks, which they sent to Cleveland, 134 acres of Sheldon C. Leavitt, where the Conger homestead now is; McBride's farm of 150 acres, and 409 acres from the C., C., C. & I. R. R. Co., west of Boston Village, Ohio. By putting their money directly into land they made a sure, steady progress toward affluence. His partner, Mr. Conger, died on Nov. 30, 1853, and, for two years, he conducted the business in partnership with the sons of the deceased, at the end of which time he withdrew and commenced farming, which occupation he has since followed. Commencing in life as a poor clerk he has grown to be one of the wealthiest land-owners in the township, and his success is due to his own energy, and perseverance. He has served as Justice of the Peace for about twelve years, as Township Clerk five years, and, for some time, as Township Treasurer. He was Postmaster of Boston from 1848 to 1852, and is present Postmaster of Peninsula, having held the position since Hayes' administration. On June, 1854, he was married to Mrs. Conger, widow of his former partner.

HENRY KERST, coal dealer, Peninsula; was born in Germany in 1840; his parents emigrated to America in 1854, and first settled in Cleveland, remaining there one year, and in 1855, removed to Boston Township, remaining there until their deaths. Henry began life as a boatman upon the canal, and finally, in partnership with another gentleman, bought a boat and began business for himself; he subsequently disposed of his share of the boat and bought one alone, continuing in that

business for a number of years; he began his coal operations by bringing up a boat load in the fall and selling it during the winter: in 1880, he disposed of his boat, and started a coal-yard in Peninsula, at which he is now engaged. He was married Dec. 25, 1879, to Mrs. Esther Noah, of Boston; she has two children—Andrew and George. Mr. Kerst is a popular and deserving citizen with progressive business habits; he is a member of Hudson Lodge, No. 510, A., F. & A. M.

LEWIS LEMOIN, station agent Valley R. R., Peninsula; is a son of Benjamin and Priscilla (Pray) Lemoine; his father was a native of Massachusetts, and his mother of Connecticut. They were married in Pittsfield, Mass., in 1821, and in 1827, they emigrated to Ohio, locating first in Medina Co., but only remained there one year, when they removed to Massillon, where for ten years he was engaged in the tailor and clothier business with Charles Skinner; about 1838, he removed to Akron, and worked at the trade, for Jacob Allen, for two years, when he removed to Brandywine, Northfield Township, when for eight years he was employed in a woolen-mill; he has served as Justice of the Peace, as Township Trustee, and has always been prominent in educational affairs, and in all movements toward the advancement of humanity. He is now living with his son at Macedonia, and is in the 87th year of his age. His wife died in the summer of 1876. Lewis was born in Pittsfield, Mass., Dec. 24, 1822; when 18 years old, he commenced driving on the canal, and passed through the several gradations from driver to packet Captain, his experience in that line covering about twelve years; he next became connected with the railroad business, and commencing at Cuyahoga Falls with the C. & Mt. V. R. R. Co. as switchman, going thence to Clinton as station agent, where he remained two years, and thence to Macedonia, where, with the C. & P. R. R. Co. he served seventeen years as station agent; he was next employed two years at Columbus, as night watchman of the Treasury; he is at present in the employ of the V. R. R. Co. as station agent for Boston and Peninsula. Mr. Lemoine was united in marriage, Feb. 28, 1853, to Miss Lucinda Post, daughter of Henry and Mary A. (Clark) Post, who were natives of Connecticut and pioneers of Boston Township. Mr. Post came to the

township in 1804, but shortly afterward returned to Connecticut and was married; returning with his wife, he built the first log cabin in the township, and cleared the first 10 acres of land; he served through the war of 1812, his wife remaining in the township alone, surrounded by dangers of almost every description, as Indians and wild beasts were numerous; however, she passed safely through all, and, with her husband, lived through the various changes of pioneer life to the days of modern improvements; she died in October, 1859; her husband survived her several years; he served as Justice of the Peace, and was a progressive and respected citizen; he was finally killed by the cars, July 4, 1865, at Macedonia, while on a visit to his daughter. Mrs. Lemoin was born in Boston Township, Jan. 11, 1827. They have four children, viz.: Theodore, now station agent at Macedonia; Lew D., Sylvia E. and Dollie O. Mr. Lemoin served Northfield Township four years as clerk; he is a prominent Mason, being a member of Hudson Lodge, No. 510, and Akron Commandery, No. 25; he is P. H. P. of Summit Chapter, and P. M. of Hudson Lodge.

HIRAM LEE, farmer; P. O. Peninsula; is a son of Hiram and Ann Lee, who came to Boston Township in 1861. Hiram has followed the occupation of a farmer from the age of 16 years up to the present writing, and is considered one of the best, most practical and most industrious farmers of the township. He was united in marriage in December, 1865, to Miss Elizabeth A. Gillson, who is a daughter of John H. and Hannah (Schofield) Gillson. He was a native of England, his wife of New York. They were married in Ohio, and came to Boston Township in 1841. Mr. Gillson settled in the southern portion of the township, where he resided until his death, which occurred Feb. 1, 1877. His wife still resides upon the farm, which consists of 116 acres of finely located and well drained land, and is one of the best cultivated and improved farms in the township, being conducted by Mr. Lee. Mr. and Mrs. Lee have four children—Herbert G., Parker A., Corda M. and Edwin H. He is one of the enterprising and progressive spirits of the township, and is a deserving and respectable citizen.

VOLNEY MILLER, farmer; P. O. Hudson; is a son of Samuel and Sally (Ozmun) Miller. Samuel Miller was born in Orange

Co., N. Y., and his wife in Tompkins Co., where they were married. They were pioneers of Boston Township, locating there in 1810, upon the State road, where he purchased 150 acres of unimproved land, and where for some years they resided, their lives being replete with the toil and hardships to which the "advance guards" of the army of civilization are subject. They next removed to Hudson Township, disposing of part of his farming interests in Boston. Here he resided for twenty-five years, engaged in farming, and then removed to Michigan, where he died at the age of 77, his wife having died in Summit County many years previous. Volney is the only child of this union living. He was born in Boston Township July 20, 1811, and has been engaged in agricultural pursuits for the most of his life. He has, with the exception of three years' residence in Hudson, lived at the old homestead, where his parents first settled. His property now consists of 314 acres of land, a good portion of which is improved. He has improved the farm since it came into his possession with a fine brick residence and in commodious outbuildings until it is a most desirable home. Mr. Miller has served the township as Trustee and Constable. In education and its interests, he has always been forward, and as a citizen is respected and trusted. He was united in marriage, June 4, 1835, to Miss Susan Thompson, a daughter of Abram Thompson, one of Hudson's first settlers, where she was born June 3, 1813. They have had two children—Louisa S., who died at home, and Virgil T., who resides with his parents upon the old homestead. He was married, July 3, 1862, to Miss Helen S. Danforth, of Hudson Township. She has borne him three children, viz., Millie L., Minnie M. and Ora V.

D. McBRIDE, butcher, Peninsula; is a son of James A. McBride, who was born in Youngstown, Ohio, in 1816. He came with his parents to Boston Township at an early day, and has been a resident there since. He began life by working out by the month, as the death of his father left a large family. He then worked on the canal about two years, and then started a grocery at Boston with one Mr. E. Jackson, which they run for several years. He married, in 1842, Miss Melina Jackson, sister of his partner. She was born in Brock-

port, N. Y., in 1818. They are now living in Peninsula, where Mr. McBride is engaged in boat-building. D. McBride was born in Boston Township in 1846. He first began life for himself as a butcher, in 1872, at Peninsula, where he has since successfully conducted the business. He runs a wagon through the country during the summer months. He erected a building in 1875, in Peninsula, which is one of the finest business buildings in the town. A lower storeroom he now rents to W. W. Whiting for stoves, hardware, etc., and occupies the upper room himself, which is admirably furnished, for his business. Mr. McBride has a fine commencement for a young man, all the result of his energy and business qualifications. He has been Corporation Marshal, and is at present serving as Councilman. He was united in marriage, in 1872, to Miss Lucy Fitts, daughter of Roswell Fitts, an old and respectable citizen of the township. They have one child—Chrissie.

JAMES A. McBRIDE, boat-builder, Peninsula; was born in Youngstown, Ohio, in 1816. He is a son of William and Agnes (Duncan) McBride, who were early residents of Boston Township, coming there about 1822. His father was by trade a millwright, and built, for the Wallace family, the Brandywine grist and flouring mill, one of the pioneer industries of Summit Co. Wm. McBride died in Boston Township, about 1829; his wife lived to be about 65 years of age. James A. McBride has been a resident of Boston Township the greater part of his life, engaged in different occupations, but has devoted the major part to boat-building and repairing. For several years, he was in partnership with Erastus Jackson, Esq., in the grocery trade, at Boston, and also embarked in an edge-tool manufactory, at Boston, for several years. He removed to Peninsula in 1861, where he has since resided, and has been working at his trade. He was married to Miss Melina Jackson, sister of E. Jackson; she is a native of Brockport, N. Y. The members of this family now living are Harriet, Mott, Duncan, James and John, all living in Boston Township. Mr. McBride has served as a member of the Corporation Council for two or three years. His grandfather, James Duncan, a Presbyterian clergyman, was one of the earliest writers against slavery, and was the author of a book which was published many years before

the war, and awakened a great interest for the cause.

O. J. MOTT, blacksmith, Peninsula; was born in Franklin, Portage Co., Ohio, in 1841. He commenced to learn the blacksmith's trade with L. Beers, at Peninsula, Ohio, when he was 16 years of age. He remained with him for four years, at the expiration of which time he enlisted in the 2d O. V. C., and was in the service for more than three years. Upon his return to Peninsula, he entered into partnership with his former employer, L. Beers, which continued for ten years. In 1875, he erected the large and commodious shop where he is now located, and where he is doing a lucrative and leading business. Mr. Mott is a skilled workman, and one of Peninsula's representative and honored men. He has served the township as Treasurer for four years, and has been a member of the Corporation Council several times. He was married in 1868, to Miss Phœbe McArthur, who died in June, 1879, leaving four children—Arthur, Sylvia, Jessie and Le Grand. He was united to a second wife, Miss Mary Lightfoot, in June, 1880.

FRANKLIN OZMUN, farmer; P. O. Hudson; is a son of Isaac and Maria (Neuman) Ozmun. His father was born in Orange Co., N. Y., in 1785, and his mother in Pennsylvania, in 1787. They were married in Tompkins Co., N. Y., where they settled upon a farm, remaining four years, during which time Franklin was born, in 1807. In 1811, they emigrated to Ohio, and in October of that year located upon 59 acres of timbered land (where subject now resides), and possessing, like most pioneers, industrious habits, they became large land-owners, adding to their land until they possessed about 400 acres, which they divided among their children. He served the township as Trustee and as Justice of the Peace for twenty-one years, as Township Treasurer, and held various offices of trust and honor. He was also greatly interested in the militia, in which he ranked as Captain and Major. He died May 26, 1866. His wife, aged 94 years, still lives upon the old farm with her son Franklin (our subject). The children of this worthy couple are as follows: Margaret Crossman, of Michigan; Hector, who died in Boston Township; Polly M. Carter, of Richfield; Catharine Ashley, of Strongsville; Abram N., who was born Jan. 26, 1827, and married, on July 3, 1862, Miss Eliza Veers.

He commenced life farming in Northfield Township, but returned to Boston in 1866, where he has since resided; he has three children—Laura A., Mary M. and Charles V. Franklin has resided upon the farm where his parents settled, during his entire life; he has always followed farming, and now owns about 170 acres of improved land. He is considered one of the solid, substantial citizens of the township.

HECTOR OZMUN, deceased; was born Feb. 19, 1815, in Boston Township; was a son of Isaac and Maria (Neuman) Osmun, pioneers of Boston Township. He married Aug. 24, 1840, Miss Nancy Long, who was a daughter of Christian Long, an early settler of Summit County, and a resident of the county until his death. Nancy was born in Northumberland Co., Penn., Jan. 1, 1822. After their marriage, they removed to the western part of Boston Township, where she still resides. He was a farmer and interested in dairying; he died May 19, 1879. Mrs. Ozmun still resides upon the farm of 236 acres of improved land, which is cultivated by her sons. The children are as follows: Isaac and Andrew, both married and farming in Michigan; Mary Viall, of Boston Township; Margaret and Lucius, at home; Augusta Peach, living in Boston Township; Edward, a resident of Hudson; Sarah, at home; Henry, in Michigan; and Lincoln, at home. Mrs. Ozmun has a sister living in Bath Township, Mrs. Elizabeth Huntley; and two brothers in Indiana, Andrew and Christian Long.

DR. SUMNER PIXLEY, Peninsula; is a son of Stephen Pixley, one of the pioneers of Richfield Township. Dr. Pixley was born in Massachusetts in 1816, and was not quite 1 year old at the time of his parents' settlement in Richfield. His early days were passed upon the farm there. After deciding to make the medical profession his life-work, he entered the office of Drs. Trask & Leonard, of Strongsville, remaining with them about two years, also studying in the office of Dr. Munson, of Richfield, one and a half years. He then attended the Western Reserve College, graduating in the medical department in 1846 and 1847. He also took a full course of lectures at the College of Physicians and Surgeons, New York, and at the Jefferson Medical College of Philadelphia. He began the practice of his profession at Wooster, Ohio, where he

continued ten years. He then removed to California, where he practiced in Marysville about eighteen months. In 1854, he returned to Richfield, where he remained until 1869, when he removed to Cleveland, where he practiced until 1876, at which time he removed to Peninsula, where he has since resided. Dr. Pixley has an extended practice, and occupies an elevated rank among his professional brothers. He is a member of the State Medical Association and of the Northeast Medical Association. He also served as Surgeon of the 110th O. V. I., and was in field and hospital service nearly two years. He was married in April, 1847, to Elmira A. Tupper, who is a daughter of Charles and Julia H. (Briggs) Tupper, natives of Vermont, and early settlers in Strongsville, Cuyahoga Co., where they resided up to the time of their deaths. Mr. and Mrs. Pixley have two sons—Chelius S., who graduated from the Cleveland Medical College in 1873, and is now engaged in practice in Elkhart, Ind.; Will H., a promising young law student, now in the office of Gen. Wildes, of Akron. He was elected Justice of the Peace of Peninsula when 21 years old, and is now serving as such.

JORGEN PETERSEN, painter, Peninsula; was born at Elsinore, Denmark, within a short distance from the castle, made celebrated by Shakespeare in his "Hamlet." His father was a sailor, and served in the Danish navy many years. He afterward engaged in fishing, at which occupation our subject passed his earlier years. At the age of 15 he served on an English collier, remaining upon it four years as a sailor. Next upon an English vessel for four years, and, in 1842, shipped upon the American bark "Richmond," of Plymouth, and landed in New Orleans. After serving as a sailor for six years, sailing from American ports, he engaged with a firm in New York and learned the painter's trade, remaining with them five years. He then worked at his trade three years there, and, in 1855, emigrated to Ohio. He located in Peninsula in 1864, and was first engaged as a painter of canal-boats, afterward building the boat "Scandinavia," which he conducted for fifteen years, since which time he has been following his trade. He was married, in 1849, to Miss Marie V. Miller. They have seven children living—Charles M., Emma C., Francis E., Albert, Ada M., Lizzie and Edith. Mr. Petersen has always been an industrious and

respected citizen, and has been Township and Corporation Clerks. He has a most entertaining fund of reminiscences of his varied life, which makes him an interesting companion. He is also familiar with several languages.

LYMAN C. POST, farmer; P. O. Hudson; is a son of Henry Post, Jr., and Lucy A. (Curtis) Post. His father was the first white male child born in Boston Township. His mother was born in Hudson. After their marriage they lived in the northeast corner of the township the most of the time until their deaths. He died in September, 1879, and she in November of the same year. The grandparents of our subject were the first settlers in the township, and an extended sketch of their lives and pioneer experiences will be found in another portion of this work. Lyman is the youngest of a family of six children—Minerva Hine (of Twinsburg), Lydia Warrell (of Northfield Township), Mary A. Clisby (Trumbull Co.), George H. (of Michigan), Sophronia Johnson (a resident of Macedonia), and the subject of this sketch, who is a native of Boston Township, born in 1850, a resident of the township and of the old homestead up to the present time. He has followed farming for the most of his life, and, in connection with his farm, he erected, in November, 1879, a steam saw-mill, to the operation of which he devotes a part of his time, and which is proving a profitable enterprise. He was married in 1873, to Miss Ella Johnson, of Geauga Co., who died May 22, 1875.

ANTON PFAUS, shoemaker, Peninsula; is a native of Germany, where he was born in 1847. His parents emigrated to America when our subject was only 5 years of age, they locating in Cleveland, where they remained until they died. Anton learned his trade in Cleveland, serving an apprenticeship of nearly three years, after which he worked at the trade there about one year. In 1867, he came to Peninsula, after a few months in Hudson, where he located, and has since followed his chosen trade. It is now his intention to add to his business by placing upon sale a line of boots, shoes, etc., and carry on a first-class boot and shoe store. Mr. Pfaus was married to Miss Laura McClure, of Peninsula, in 1870. They have one child—Herman.

LUTHER B. RANNEY, farmer; P. O. Hudson; is a son of Comfort and Betsey (Hubbard)

Ranney, both natives of Connecticut. Comfort was born March 20, 1788, and Betsey April 2, 1790; they were married in Connecticut, Dec. 25, 1808, and came immediately to Hudson. The same year, accompanied by his father and brother Jacob, they started from Connecticut and his father died upon the way, and Jacob followed him soon after reaching Hudson. Comfort Ranney's father was a soldier in the Revolution, and owned, at the time of his death, a tract of land in Richfield. Comfort located in Hudson; he was a ship-carpenter by trade, and soon after moved to Cleveland and followed his calling there. But, because of poor health, his stay there was brief and he soon after returned to Hudson and engaged in running a saw-mill, which was finally burned, when he removed to Boston Township about 1820, and purchased a piece of land where he resided only a few years, when he died July 14, 1823. His wife survived him until Jan. 4, 1868, when she died, aged 78. Of the children born to them the following are now living: Luther B.; Julia A. Shields, residing in Kansas, and Eliza S. Shields, of Boston Township; Ruth L. Bronson, of Peninsula, Betsey J. Hurlburt, living in Cleveland, and Moses, of Northfield Township. Mrs. Ranney was subsequently married to Mr. Collier, by whom she had two children—Capt. M. J. Collier, of Cleveland, and Fred M. Collier, of Indiana. Mr. and Mrs. Ranney were both members of the Methodist Church. Luther B. Ranney was born in Hudson Nov. 28, 1809. After the death of his father in 1823, their farm was sold and our subject, with the laudable ambition to regain it, worked by the month for Deacon Hudson at \$5 per month, and was, by industry and perseverance, finally the happy owner; the farm is located upon the State road, and now consists of well-cultivated fields and is improved with good buildings and all modern comforts. Mr. Ranney is, essentially, a self-made man, having begun life under many difficulties. He is a most intelligent and well-informed man. Mr. Ranney has served in various offices of township trust, and ranks as one of the citizens *par excellence*. Mr. Ranney was married in 1833, to Miss Sally M. Carter, who died July 29, 1846, leaving five children, three now living—Comfort, of Michigan; Harriet S. Leach, of Michigan, and Sarah M., living in Akron; he was married April 6, 1847, to a second wife, Miss Caroline Clapp, daughter

of Richard and Anna (Alvord) Clapp, natives of Massachusetts, and early settlers of Brecksville; she was born in Massachusetts May 3, 1821. Their children are three in number—Julia Ann Criss, of Akron; Luther K., and Carrie M. Evans, also a resident of Akron. Mr. and Mrs. Ranney resided in Akron three years to secure for their children superior school advantages. Luther K. entered for a classical course at Buchtel College, of Akron, but on account of ill health was forced to leave; he is now studying at home where he has a well-selected library of books. Mr. Ranney, during the gold excitement of 1850, went to California, where he remained for four years, mining with good success. He relates many stories and reminiscences of the pioneer days of his parents; he has, in his possession, a wooden bottle, which was carried by his great grandfather, and by his grandfather through the Revolution, and which descended through his father to himself.

W. W. RICHARDSON, merchant, Everett; is the principal representative of the mercantile business of Everett, and was born in Licking Co., Ohio, in 1840. His parents were William and Jane Richardson, his father being a native of New York and his mother of Vermont. They first settled in Licking County, where his father followed the carpenter and joiner's trade. He died while living in Illinois where he was practicing medicine. His mother is still living in Delaware Co., Ohio. Our subject began his business ventures upon the canal being the owner of a boat, and was engaged for three years in the transportation of stone to Cleveland, the most of which was used by the A. & G. W. Railroad. He next turned his attention to farming, following that occupation in Boston Township for three years, and for the next ten years in Bath Township. In March, 1879, he removed to Everett Station, where he has since devoted his attention to the mercantile business. His store is located upon the banks of the canal, and his stock consists of groceries, dry goods and a general line of boat supplies. He was married Feb. 25, 1863, to Miss Sylvia Myers, who was born in Portage County in 1840. They have three children—Margaret A., Dora B. and Eva P. Mr. Richardson is the owner of the celebrated chestnut stallion "Sunshine."

WILLIAM RICHARDSON, farmer; P. O. Boston; was born in Bucks Co., Penn., in 1814.

His father was a mechanic, but subsequently became a farmer, and our subject's early life and experience was in the care and cultivation of his father's land. He remained at home until he was 27 years of age, and then engaged in farming in Bucks County for himself, continuing there three years, and one year in Philadelphia County; he then rented another farm which he cultivated for two years, at the expiration of which time, he was engaged as a drover for a year. In 1856, he removed to Brooklyn, Cuyahoga County, and engaged in milling there for a few years, after which he again resumed farming, continuing until 1864, when he removed to Boston Township, where he has since resided. His farm consists of 200 acres, about two-thirds of which is in cultivation. He has improved the place in buildings and erected a neat and desirable residence. Like the most of his neighbors, he is making the dairy business a specialty. Mr. Richardson was united in marriage, in 1840, to Miss Mary M. Hagstoz in Philadelphia. They have an adopted son—Franklin E.

LEWIS B. ROSWELL, Marshal, Peninsula; was born in Lake Co., Ohio, in 1832. His parents were Ambrose and Elizabeth (Van Looven) Roswell; his father was a native of New York and his mother of Pennsylvania. They were married in Canada, and subsequently removed to the States, locating in Lake County, where they remained about three years, then removing to Hudson where they were residents for the remainder of their days. Lewis started out in life for himself at the age of 15, working upon a farm for over a year. He then learned the shoemaker's trade at Twinsburg, and followed that trade in different localities, chiefly Hudson and Peninsula, for many years, since which time he has engaged in various occupations. He is at present serving the corporation of Peninsula as Marshal. He was married in 1873 to Miss Nettie Wilson.

GEORGE STANFORD, farmer; P. O. B. s-ton; is one of the oldest settlers now living in Boston Township. He was born in Beaver Co., Penn., Oct. 9, 1800. His parents were James and Polly (Johnston) Stanford. His father was a native of Ireland; his mother of Pennsylvania. They emigrated to Ohio and settled in Warren, Trumbull Co., about 1802, where they remained about three years, moving thence to Bristol, remaining one year. His father then

joined a surveying party to locate and survey Boston Township, and he removed his family in March, 1806, taking 169 acres upon the west bank of the Cuyahoga River, near Boston. Here they resided for the remainder of their lives. Many of their pioneer incidents and adventures appear in the township history. She died in July, 1814, and James in January, 1827, leaving nine children—George being the only one now living—who has been engaged in agriculture, and has resided upon the old homestead farm since his parents' death. He furnishes many of the dates and reminiscences of pioneer days, found in the township history. The farm (which now consists of 284 acres) has been greatly improved by him. He has served in various offices of township trust, having been Justice of the Peace for six years. He is a consistent member of the Methodist Church. He was united in marriage, Jan. 17, 1828, to Catharine Carter, a daughter of Thomas and Elizabeth Carter, early settlers of the township, locating there about 1819, and remaining there during their lives. Catharine was born in Ireland, in 1804; she departed this life Dec. 20, 1872. Eight children were the result of this marriage—Emily, who died an infant; James M. and Ellen, both of whom died at 20 years of age; William Irwin (deceased); Perkins W. Stanford, who enlisted as a private in the 2d O. V. C., Co. A; he was subsequently promoted to Sergeant; was finally captured a prisoner in 1864, and died in Andersonville Prison; Eliza, who died at the age of 3 years, and George C., born April 18, 1839. He was married to Miss Lida Wetmore, Dec. 23, 1869. They have three children—Ellen, Perkins W. and Clayton J. George is now serving as Postmaster of Boston.

ANDREW STUART, grocer, Peninsula; was born in Ireland in 1850. In 1852, his parents emigrated to America and settled in Norton Township, Summit Co. His father was a farmer, and our subject remained at home until he became 14 years of age. He then went out to work upon a farm, at which he continued nearly four years, and then went to work upon the canal, boating about four years; and then upon a farm again two years, at the end of which time he was engaged upon public works at Akron one season. In 1871, he began clerking in a grocery at Everett's Station, working there about a year, and from there to Peninsula, and

engaged in the same occupation for D. Peck, with whom he remained some three years or more; after which, for a few years, he engaged in different occupations. In 1879, he returned to Peninsula and purchased the stock of his old employer, D. Peck, where he is now engaged in trade for himself. He keeps a general line of groceries and boat supplies, and is doing a flourishing business. Mr. Stuart has by industry and hard work effected a good business commencement, and will doubtless become one of the successful business men of Peninsula.

DANIEL TILDEN, farmer; P. O. Peninsula; was born in Vermont in 1790. His parents were natives of Connecticut, where they were married; they then removed to Vermont, where they resided for some years, moving from there to Massachusetts, where the remainder of their lives were spent. Daniel, at the age of 16, left home: and, in 1817, came to Ohio, settling in Hiram, Portage Co., where he bought a piece of land and began the task of clearing it. He remained there about two years, and, after disposing of his land, returned to Massachusetts, where he remained about six years farming. In 1824, he returned to Hiram, and, after one year, came to Boston Township, where he accepted a job upon the canal. He was also engaged several years at milling. He then entered upon his farming operations, locating upon the McBride farm, where he remained four years; after which, he bought 160 acres of land, located in the western part of the township, where he has lived since 1837. He was married in 1832 to Nancy Mather, who was born in Vermont in 1792, and died in Boston Township in 1849. They had two children—Nancy, who died when an infant, and Daniel W. Mr. Tilden commenced life with no pecuniary assistance, and has accumulated a handsome property. He has served as Township Trustee, and was elected Justice of Peace, but did not serve. Daniel W. Tilden was born in March, 1836, in Boston Township, of which place he has since been a resident. He has always followed farming and lived upon the old homestead since his father removed there. They have 450 acres of land, which is of good quality and under good cultivation; and they have also been considerably interested in dairying and cheese-making. Daniel W. was married, in 1857, to Miss Harriet Hall, who was born in New York in 1839. Her parents subsequently removed to Summit Co.,

where they passed the remainder of their days. They have but one child living—Pearlie M. Daniel W. has served the township as Trustee for many years, and is one of the leading citizens. His father is past 90 years of age, but still retains vivid recollections of his early struggles, and relates many reminiscences of pioneer life.

BURRILL VIALI, farmer; P. O. Peninsula; was born in Hanover Township, Chautauqua Co., N. Y., in 1821. He is a son of Burrill Viall, who was born in Bennington Co., Vt., in 1793, and removed to New York in 1814, settling in Chautauqua Co., where he soon after married Sarah Ferguson, who was born in Cooperstown, N. Y. They removed to Ohio, and first settled in Middlebury in 1831, removing from there to Northampton, and residing there until 1850, when they removed to Jackson Co., Iowa, where they resided until their deaths, his occurring Dec. 23, 1862, and hers Jan. 4, 1864. They were both members of the Methodist Church. They had twelve children, six boys and six girls. Burrill, Jr., has always followed farming. He remained with his parents until 20 years of age, and, in 1841, bought 50 acres of land, which is a part of the farm where he now resides. He is a self-made man, having commenced the struggle of life with small means, and, by industry and practical ability, accumulated a large farm, which is ornamented by an elegant residence, finely appointed. His is one of the model farms of the township, and his system consists in dairying and general farming. He ranks as one of the township's most valuable citizens, having served as Trustee, and taken an active interest in its educational matters. He was married, Dec. 24, 1843, to Miss Jane White, who was born in Cleveland, Ohio, Feb. 7, 1823. Her father, Solomon White, was a native of Vermont; her mother, Hannah (Bronson) White, of Connecticut, he served as baggage boy in the war of 1812, at the age of 14, under Gen. Harrison. Her mother was taken to Connecticut by her mother, to avoid the danger of warfare. Her parents remained at Cleveland until she was 10 years of age, when they removed to Brooklyn, living there four years. He was the Cuyahoga Co. Pork Inspector. They subsequently removed to Boston Township, and finally emigrated to Jackson Co., Iowa, where they both died; his death occurred Jan. 24, 1864; his

wife died March 15, of the same year. Mr. and Mrs. Viall's family are as follows: Sarah J., deceased; Mattie J. Humphrey, living in Richfield; Mary A. Carr, of Cuyahoga Falls; Julia F. Oviatt, Boston Township; Lucy E. Clark, residing in Middlebury; Kittie E. and Jennie M., at home.

B. J. VIERS, farmer; P. O. Hudson; is a son of Charles and Laura (Patterson) Viers. Charles Viers was born in Jefferson Co., N. Y., in 1806, and was married to Laura Patterson in 1827. She was born in Vermont in 1810. He was the son of a farmer and pioneer of Jefferson Co., and subject to the toil and privation of that life from his childhood. After his marriage, he farmed in that county for some years, and then emigrated to Ohio, settling in Northfield Township in 1831, where he still resides. His wife died in October, 1877. Their children are as follows: Bazzel J.; Theda E. Holt, of Northfield; Eliza J., the widow of George Lamb, now the wife of A. N. Ozmun, of Boston Township; Samantha, deceased; Charles Albert, of Hudson, and Laura M., deceased. Our subject was born in Jefferson Co., N. Y., in 1829; he remained with his parents until 20 years of age, receiving a common-school education. He taught school one winter, at the age of 19. His occupation for many years subsequently was that of a laborer. About 1864, he began farming operations for himself, purchasing a piece of wild land, which he cleared and worked for two years, when he disposed of it and bought land in Norton Township, farming there about seven years. In 1874, he purchased a tract of land where he now resides, in Boston Township. His farm consists of 218 acres of improved land, located upon the "State road." Mr. Viers is a practical and industrious farmer, and stands high in his township and county. He was married, in November, 1856, to Miss Lovena Ford, daughter of Marvin Ford, of Northampton. She was born in Northampton in 1839. They have eight children living, and one deceased (Clara A., died at 6 years of age)—Laura E., Marvin F., Charles E., Lydia A., Albert B., Linda M., Rose I. and Lillie I. (twins).

FREDERICK B. WADHAMS, farmer; P. O. Hudson; was born in Litchfield Co., Conn., in 1804. He is a son of Seth and Lucy (Davis) Wadhams. His mother died when he was about 2 years old, and his father subsequently mar-

ried her sister. His father died, leaving five sons and one daughter. Frederick, who was but 4 years of age, lived with his step-mother until he was 16 years old, and then went to live with Gen. Abernethy, at Torrington, Conn., with whom he remained until he attained his majority, working in the mercantile business. In the fall of 1825, he went to South Carolina, and was in the employ of Wadkins & Birge for six years, in the mercantile trade, having charge of one of their stores, located at Lawrence. After severing his connection with them, he engaged in business for himself there, peddling dry goods and notions, at which he continued for five years, meeting with good success. He then returned to Connecticut, where he was married, September, 1830, to Miss Cornelia Phelps. He then bought the Mansion House, of Litchfield, which he owned for several years, but which proved an unfortunate investment, and in 1835, he started for Ohio, with but little money, but rich in hope, perseverance, industrious habits and good business qualifications. He located in Boston Township, purchasing 150 acres of timbered land at \$16 per acre, borrowing most of the money to pay for it. Mr. Wadhams has resided in the township from that day to the present time, and has been so largely engaged in various enterprises that our space will hardly afford a complete history. His farm at present comprises about 400 acres of as fine land as there is in the township, with superior improvements in buildings, and with a location unequalled for a commanding view of the landscape for miles around, together with good drainage, and a stone quarry of superior grade; he has also engaged in dairying. His business transactions for many years were extensive. He interested himself largely in the lumber trade, during which he ran saw-mills, cooper-shops, canal-boats, etc.; he also owned at one time about 1,400 acres of land, and has done much to promote the prosperity of the township. Beginning life as he did, without money, it is a great source of satisfaction for him to review his past life, and reflect that to his perseverance, honesty of purpose, and industry alone, is due all of his well-deserved prosperity. He was married again, Sept. 16, 1846, to Miss Jane Jones, who was born in New York in 1816, and is a daughter of Rees and Jane (Wright) Jones, early settlers of Northampton, in which township history a sketch of them appears.

Her grandfather Wright was also one of Northampton's pioneers. Mr. and Mrs. Wadhams have three children—George, Ellen and Charles, all at home. Mr. Wadhams has a son, Frederick B., by his former wife, living in Cleveland. The Wadhams family are of English descent, tracing the line back to 1680, and were the founders of Wadhams College, in England.

F. WOOD, merchant, Peninsula. Prominent among the business interests of Peninsula is the general mercantile store of F. Wood. Mr. Wood was born in County Wicklow, Ireland, in 1828. His parents were Nesbitt and Eliza (Morton) Wood. His father resigned a commission in the English army, and, with his family, emigrated to America in 1835, locating in Michigan. In 1838, they removed to Boston Township, where they resided for the remainder of their lives. His father's death occurred in 1863, and his mother's in 1868. The subject of this sketch began his mercantile career at the age of 18, when he entered the store of Arthur Layton, at Boston Village, with whom he continued about three years, and, in the same store, with his successor, J. D. Edson, for over four years. In 1853, he came to Peninsula, and started in business for himself, purchasing the stock of Charles Curtis. In 1863, he removed to his present location, where he has since been successfully engaged in trade, with a general stock of dry goods, groceries, etc., and also a line of drugs and medicines. He has also devoted considerable attention to other business interests and enterprises, for many years being the principal owner of the stone quarry, south of the village; and, in 1872, when it became a stock concern, he retained an interest until 1879, when he disposed of his stock to F. Schumacher, of Akron. He held the office of Deputy Postmaster, and that of Postmaster for twenty-one years. He has also served in various township offices of trust. He is a member of Richfield Lodge, Meridian Sun, No. 266, A., F. & A. M. Mr. Wood was married, Feb. 16, 1854, to Miss Charlotte M. Barnhart, who was born in Peninsula, June 19, 1836, and is the daughter of Jacob Barnhart and Rhoda (Bronson) Barnhart. Jacob Barnhart was born in New York, in 1804, and emigrated to Cleveland in 1832, and from there to Peninsula, in the following year, when he became engaged in the boat-building business, in which he was a pioneer in that section. He was a respected and enterprising citizen during

his entire life, taking a prominent position and active interest in the enrollment of volunteers during our late war; his patriotism being so sincere that, although nearly 60 years of age, he enlisted in the 2d O. V. C., but was not allowed to serve. He died Jan. 26, 1874. His wife, Rhoda Bronson, was born in Middlebury, Conn., Oct. 9, 1800. She was a daughter of Hermon and Molly (Hickox) Bronson, a more extended sketch of whom is given elsewhere. She was married, in March, 1816, to Willis Payne, who died in Akron in 1828, leaving two sons—H. B. Payne, lawyer at Richmond, Ind., and William H., a boat-builder at Akron. She was married to Jacob Barnhart, in March, 1833, and survived him nearly six years. She died in September, 1879, Charlotte M. being the only child. Mr. and Mrs. Wood have had four children—Annie C., who died at the age of 20 months; Stella A., the wife of H. L. Cross, of Cleveland, who have a son Charles Wood; Minnie E., who died in infancy, and Fred C. They have an adopted daughter—Miss Julia E. Mr. and Mrs. Wood, together with their family, are members of the Episcopal Church, in which they have been prominently identified for many years. Mr. Wood is the superintendent of the Sabbath school, and his wife, for many years, was the organist and leader of the choir.

F. C. WETMORE, farmer; P. O. Peninsula. The Wetmore family in America are descendants from Thomas Whitmore, who came from the West of England to Boston, Mass., in 1635. Judge William Wetmore was born in Middletown, Conn., in 1771, and came to Ohio in June, 1804, with his family, as agent of the Western Reserve Land Company, for the sale of their lands. He located in Stow Township and built the second house in that township. He was a general counselor of law, and served during the war of 1812, acting as Commissary of Supplies. In 1825, with his sons Henry and William, he made the first survey of Cuyahoga Falls, and commenced the improvements and laying-out of the town. They also started saw, flouring and oil mills in company with John Stow. He was a prime mover in giving life and impetus to business interests there. He died Oct. 9, 1827. William O. Wetmore was born Sept. 5, 1796. Married, Oct. 2, 1822, Miss Elizabeth Wallace. He resided for a number of years at Cuyahoga Falls, where he was extensively engaged in manufacturing.

He built the first paper-mill in Ohio, on the wet-felt plan. He removed to Boston Township in 1850, and bought a large tract of land and was beginning extensive business operations there, when he was taken suddenly ill through exposure, and died Jan. 12, 1852. He represented the counties of Portage and Summit in the State Legislature in 1844-45. His wife died Oct. 9, 1875. Children as follows: Henry, now living in Boston Township; Edwin, of Northampton; Mary Collier, in Indiana; Frederick C.; Julia Wood, of Boston Township, and Eliza Stanford, of Boston Township. Frederick C. Wetmore was born in Stow Township March 6, 1835. Upon the death of his father, he engaged in various occupations until the spring of 1866, when he bought the saw-mill at Peninsula, which his father had built, since which time he has been engaged in farming and lumbering in Boston Township. He has 160 acres of valuable improved land, and gives the dairying business considerable attention. Mr. Wetmore has served the township in many offices of trust, as Trustee, Town Clerk, Constable, Mayor and Councilman of the corporation, and as Justice of the Peace one year, at the expiration of which he resigned. He was united in marriage, Oct. 23, 1860, to Miss Emily Wetmore, a descendant of the same family as himself. Her father was Nathaniel D. Wetmore, a native of Connecticut, who embarked early in life in business, which led him to reside severally in Canada, Dover and Rochester, N. H., and Cuyahoga Falls and Cleveland, where he is now in business in connection with Brainard's Sons. He was a member of the General Assembly of New Hampshire in 1846-47-48, and is a correct an extensive business man. His wife was Lydia McIntosh, who died in Cuyahoga Falls in 1865. Mr. and Mrs. Wetmore have two children—Ethelbert and Lida. A daughter, Mildred, died at 4 years of age.

ALFRED WOLCOTT, farmer; P. O. Hudson; is a son of Alfred and Margaret (Craig) Wolcott, pioneers of the township; Alfred Wolcott was born in Connecticut, his wife in Wheeling, Va. He was a surveyor and was employed by Perkins to survey most of the land of the Western Reserve; he was married in Youngstown, Ohio, about 1806, and in the fall of that year bought the land where Gen. Sanford now resides; but thinking it

would be unhealthy on account of the river, sold to Stanford, and purchased a tract of land where Alfred Jr., now resides. He bought 115 acres and built a cabin upon it and began the clearing of the land. He raised a large family of children, three girls and six boys—Melinda, the eldest, was the first white female child born in the township; only three of the children are now living—Alfred, Jr.; Darius, a resident of Geauga County, and Mrs. Mary Gaylord, of Stow Township. He followed his occupation of surveyor many years, laying out many of the township roads, and most of the land adjacent. He served as Justice of the Peace for eighteen years, and in other minor offices, taking a deep interest in educational matters, teaching school many terms. He died in 1835; his wife in February 1863. Alfred Wolcott, Jr., was born Jan. 28, 1812, in Boston Township, and remained at home, assisting in clearing land, as most boys of that period did, until he became of age. He was married, April 18, 1836, to Miss Mary Scovill, who was born in Connecticut, in 1821; her father died in Connecticut and her mother subsequently married Thomas McCauley, and in 1832, they removed to Summit County; they now reside in Hudson. After his marriage he bought a farm in Northfield Township, which he soon afterward traded for the old homestead from his brother. Here he has resided up to the present time, making many improvements and adding to his possessions, until he now owns 257 acres, the major portion of which is under cultivation. He has made a specialty of the dairying business. He was elected a State Representative from his district and served two years; has also served as Assessor and interests himself generally in all enterprises and improvements of merit. Mr. and Mrs. Wolcott have five children living—Simon P., a graduate of Western Reserve College, and now practicing law in Kent, Ohio; John, of Grand Rapids, Mich., who is a graduate of the Mercantile College of Hiram; Anna A. Bissell, living in Michigan, a graduate of Painesville Female Seminary; Alfred, Jr., also a graduate of Western Reserve College, soon to go to Cincinnati to study Law; Fremont, at home; Andrew A. enlisted in 29th O. V. I. and died in service.

ALLEN WELTON (deceased); was born in Vermont, July 18, 1809. He was for many years

a prominent farmer and dairyman of Boston Township. At the time of his death he was the owner of two cheese factories in the township, and was for many years a prominent member of the Ohio Dairymen's Association, in which he was a leader. He was one of the pioneer dairymen of the Western Reserve, starting the second factory within its limits. He was a man of extraordinary energy and possessed great executive ability. Commencing life a poor boy, one of his first enterprises proved a disaster; he had chopped 400 cords of wood in New York State, which, by a sudden uprising of the stream, was all swept away. He was of very industrious habits, which, coupled with good judgment, made his later enterprises successful, and at the time of his death he left a handsome property. He was a popular citizen and was very patriotic, taking a leading interest in all efforts to carry on the late war. He was married in New York State to Miss Sarah Striker, by whom he had five children—Francis (deceased), George W., now a resident of Bradford, Penn., who was in the service nearly three years; William H. H., of Akron, who served in the "Squirrel Hunters;" John A., of Bath Township, who was in the service over three years, and Ellen E. Ozmun, who is living in Michigan. He was married to a second wife, Louise Thompson, March 17, 1852. She was born in Hudson, in 1831, and is a daughter of Mills and Catharine (Allen) Thompson, who were early settlers in the county. Five children were the result of this marriage—Cora A., Emma C., Hattie J., Iva J. and the eldest, a son, Frank E. Mr. Welton died in Boston Township, April 3, 1878, and in his death the community lost a valuable citizen and one of its progressive business men. Mrs. Welton is living upon the homestead, which consists of 180 acres of valuable land, finely located and improved.

W. W. WHITNEY, hardware, Peninsula; is a young and promising business man of Peninsula. He was born in Akron in 1856; commenced to learn his trade as tinsmith at the age of 19, with D. E. Sheppard, of Richfield, with whom he remained four years; he then worked a short time for Green Lease, at Peninsula, thence to Hudson, where he worked four months for G. H. Grimm. In November, 1879, he returned to Peninsula, and, in July, 1880, commenced his present business venture. He

purchased a new and complete line of hardware, stoves, tinware, agricultural implements, etc., and is doing a promising and growing trade. He is a skillful and experienced workman in tinware, in which line he does general repairing. His business location is central, and, as he is a popular and deserving young man, will, doubtless, grow into a fine trade.

C. S. WHITNEY, shoemaker; Peninsula; is a native of New York State, having been born in Oswego Co., in 1829. His father died in New York State, and his mother subsequently removed to Ohio, locating about 1835, in Parma, Cuyahoga Co. Our subject commenced to learn his trade at the age of 20 years, in West Cleveland, and has followed that calling all his life. He came to Peninsula

about 1860, where he has since remained. He was united in marriage in 1854 to Miss Melissa Washburn; they have three children—William W., Daniel L. and Nellie V. Mr. Whitney is considered one of the best citizens of Peninsula, and is an industrious and proficient workman.

FRANK E. WELTON, farmer and dairying; P. O. Peninsula; is a son of Allen and Louise (Thompson) Welton. He was born in Boston Township Dec. 9, 1853. He is, by occupation, a farmer, and is a rising young dairyman. He has been interested in cheese-making for the past eight years, and is carrying on the factory located upon their farm. He was married Dec. 28, 1875, to Miss Ella Hancock, daughter of E. D. Hancock, Esq., of Richfield Township. They have one child—Park E.

SPRINGFIELD TOWNSHIP.

ROBERT L. ATCHISON, merchant, Mogadore, Ohio. This gentleman was born in Washington Co., Penn., April 15, 1813, being the son of Humphrey and Betsey (Loury) Atchison, who were natives of Washington Co., where he (Humphrey) was engaged in farming. In 1816, he moved to Steubenville, Ohio, where for a short time he was proprietor of a hotel. Becoming dissatisfied, he moved to Yellow Creek, where he became interested in procuring and selling salt, at which business he was very successful, and had contracts in many parts of Ohio and West Virginia. He died in March, 1876. The subject of these lines lived at home until he was 14 years of age; he was then engaged to drive a stage, the route being from Wheeling to Janesville, which occupation he followed for seven years. In 1834, he came to Akron and engaged in the manufacture of stoneware, at first as journeyman, and subsequently as proprietor, which business he has carried on up to the present time. He engaged in the mercantile business in 1855, with a small capital, which business also he successfully controls. He was united in marriage to Fannie Purdy on Jan. 10, 1841, from which marriage three children were born to them, viz.: Alfred P., Charles C., and Emma, wife of Norton Atwood (deceased). A

son of the last named lives with him, and is a musician of considerable note. Mr. Atchison is an active Republican.

ABRAM BRUMBAUGH, farmer and stock-raiser; P. O. North Springfield; is a son of Jacob and Susan (Ditch) Brumbaugh. Jacob was a native of Pennsylvania, and came to Stark Co., Ohio, in 1810, where he was married to Susan Ditch in 1828; she was a native of Germany, and came to Summit Co. with her parents at an early day. There were nine children in the family. They were members of the German Baptist Church. The subject was born in Stark Co., Ohio, April 21, 1835. He lived at home until he was of age, attending the district schools. In 1857, he was united in marriage to Sarah Shoner, daughter of P. H. and Dorothy Shoner, who were natives of Germany, and early settled in Springfield Township. The result of that marriage is an interesting family of six children, viz.: Emma J., Monroe A., Caroline, Amanda, Minerva and Laura. In 1860, he took charge of his father's farm and threshing. He purchased a farm of 100 acres in Lake Township, where he remained for two years, afterward exchanging it for a grist-mill in Springfield Township, known as the Tritt Mill. He settled on a farm of 146 acres in Springfield Township,

where he now resides. He has engaged extensively in buying and shipping stock. Mr. and Mrs. Brumbaugh are active members of the Lutheran Church. Mr. Brumbaugh has always voted the Democratic ticket, and has held many offices of trust, and is one of the most successful business men in Springfield township.

JOHN T. BRITTAIN, farmer; P. O. Brittain. This gentleman was born on his father's farm in Columbia Co., Penn., Aug. 16, 1823. His parents moved to Springfield Township in 1832, and settled on the farm he now occupies. His early days were spent on the farm. At the age of 21 years, he married Hannah Rogers, daughter of Gerdon and Sarah Rogers, of Geauga Co., Ohio, and the following-named children were born, viz.: Amanda, wife of Wesley Corp, of Northampton Township; John; Sarah, wife of Herman Newbower; and Hannah, wife of Thomas Gilcrest, of Springfield Township. Mrs. Brittain died in March, 1852, aged 24 years. His second wife was Catharine Potts, of Suffield Township; eight children were born to them, six of whom are living, viz.: Olive, Lemuel, Alice, Cora, Grace and Edith. Mr. Brittain is comfortably situated on a fine farm of 200 acres, which is valuable because of the amount of ore it contains. He takes an active part in the welfare of the township, and, when the people of Springfield petitioned for a post office to be located where Brittain is, it was their desire to have it given his name. Mr. Brittain has always voted the Republican ticket, and has held many township offices.

EDWARD BERRY, Postmaster and merchant, Brittain; son of Henry and Elizabeth Berry; was born in Union Co., Penn., April 4, 1832. At an early age, he left home and commenced to drive mules on a canal, running between Pittston, Penn., and Baltimore, Md., and followed that occupation for four years. He then engaged with the Captain of a schooner, for whom he worked four years, sailing principally along the coast. He arranged to take passage on a vessel that was to sail around the world, but, before leaving, returned home for the purpose of bidding his parents farewell, and was taken suddenly ill, being sick for about three months; abandon-

ing his sailor's life, he was apprenticed to a shoe-maker to learn the trade; at the expiration of his apprenticeship, he began as journeyman, working and traveling extensively for three years. In 1853, in Stark Co., Ohio, he started a boot and shoe store and custom shop, doing business until 1856, when he began to sell other articles. In 1869, he purchased the property now occupied by him and started a general store, conducting the business ever since. In February, 1880, he was appointed Postmaster at Brittain. On April 23, 1853, he married Maria Leib, daughter of John Leib, of Stark Co.; four children were born to them, three of whom are living—Sarah E., Martha A. and Henry L. He is a Democrat in principle, and has held many township offices.

JAMES BREWSTER, coal operator, Middlebury; is the son of James G. and Martha Brewster, and was born in Coventry, this county, Jan. 11, 1834. He lived on the farm with his father until he was 21 years of age, when he went to California, where he remained twelve years, engaged in mining. In 1867, he returned home and began farming. Then, in company with his brothers, he began operating the coal mine which was located on their farm, and has been in that business up to the present time. They also own an interest in the Buckeye Sewer-Pipe Works of Middlebury, and a grist-mill in Coventry Township, and other property. In May, 1870, he was married to Mary Davies, daughter of Rev. David Davies, of Portage Co.; they have six children, viz.: Albert, Martha, Mary, Laura, Rose and Modena. Mrs. Brewster is a member of the Congregational Church of Akron. Mr. Brewster is a staunch Republican, always having voted with that party, and is considered one of the stalwarts.

BENJAMIN COLDREN, miller, Lake, Stark Co. The subject was born on his father's farm in Lancaster Co., Penn., May 5, 1821. His parents, Abram and Mary Coldren, were natives of Lancaster Co., Penn., where they were engaged in farming up to the time of their death; he died in 1866, aged 75 years, and she in 1845, aged 40. The subject assisted his father on the farm until he arrived at the age of 18, when he left home

and worked on another farm for two years; but, being dissatisfied with this work, and having a desire to become a miller, he apprenticed himself, two years later, to a miller in Lancaster Co., Penn., serving three years. He then took charge of a mill and followed that business three years. In 1847, he rented another mill, where he successfully carried on business for thirteen years. In 1860, he moved to Springfield and purchased the mill property known as the Phoenix Mill, where he has continued in business up to the present time. He has made many improvements, and it is now one of the first-class mills of Springfield Township. In connection with that property, he owns a farm in Springfield. In 1853, he was married to Ann Sheets, daughter of John and Elizabeth Sheets, of Lancaster Co., Penn. Their children were Mary, wife of John Myers; Samuel, deceased; Caroline E., wife of Adam Swinehart; and Pansy. Mr. Coldren is Democratic in principle, and has voted with that party since its organization.

GEORGE CARPER, farmer; P. O. Middlebury; is the son of Samuel and Ester Young, who came to Stark Co. from Pennsylvania at an early day, where they settled on a farm of 160 acres, where they lived until their death, the mother dying in 1864, and the father in 1868. The subject's early life was spent in assisting his father on the farm. At the age of 21, he left home and worked on a farm for three years. On Dec. 22, 1861, he was united in marriage to Elizabeth, the only child of Henry and Elizabeth Young. Five children were born to them, as follows: Amanda, Margaret, Samuel, Ruben and Henry (deceased). Mr. Carper settled on a farm after his marriage, and has continued in that calling up to the present time, in addition to which, having been licensed to preach in 1872, he has acceptably filled the pulpit of the German Baptist Church. He owns 250 acres of valuable land, and also has an interest in a clay bank. He lives with his father-in-law, Mr. Young, who was a native of Lancaster Co., Penn., where he was born in 1819, and came to Springfield at an early day. Being a cooper by trade, he followed that calling for several years, until about 1842, when he engaged in

farming, and, by his industry and economy, has become one of Springfield's wealthiest men. He and his wife are members of the German Baptist Church.

HENRY CRAMER, farmer; P. O. Mogadore; is the son of Daniel and Catharine (Myers) Cramer, and was born in Uniontown, Summit Co., Ohio, Oct. 15, 1822. In his early life, he assisted his father on the farm. At the age of 21, he left home and purchased 80 acres of land in Green Township, and worked at chopping and clearing for three years, when he discontinued the same. He was married to Elmira Stall, daughter of Simon and Deborah Stall, May 6, 1846, and six children were born to them, viz.: Calvin, Melanthon, Sybella (deceased), William H. (deceased), Martha E. and Cora A. After his marriage, he settled on 208 acres of land in Springfield Township, where he labored diligently, until he has one of the best-improved farms in the township. Subsequent to the death of his first wife, he married Isabella Jones, daughter of William and Jane Jones, and she bore him two children—Jennie B. and Arthur H. (deceased). His wife died March 1, 1880, and her loss was keenly felt by neighbors and friends, who greatly esteemed her.

WILLIAM F. CROTZER, retired farmer; P. O. Mogadore. Among the early settlers of Summit Co. is the subject, who was born on his father's farm Oct. 30, 1799. His father, John Crotzer, came to Springfield in 1816, the subject accompanying him. In his youth, he assisted in clearing the farm, obtaining such education as the early schools afforded. On Dec. 28, 1820, he was married to Margaret Dunbar, daughter of Alexander Dunbar, of Pennsylvania. They had no children, and his wife died on June 5, 1872. He settled on his present farm at an early day, and did the first plowing done at Brittain. He was united in marriage to Mrs. George Rehard, formerly from Pennsylvania; her maiden name was Sarah A. Degarmo. They are both active members of the Presbyterian Church, he having been a member for a number of years. In politics, he is a Democrat.

JOHN W. CHAMBERLIN, farmer; P. O. Krumroy; son of Joseph and Agnes (Deal) Chamberlin; was born in Springfield Town-

ship March 22, 1845. He remained at home until, and for several years after, his marriage, which occurred Oct. 21, 1869, the lady being Elizabeth Wise, daughter of Samuel Wise, of Stark Co.; there were three children. In 1877, he purchased of the heirs 83 acres of the homestead farm. He has made many improvements, and his is considered one of the pleasantest homes in the neighborhood. Mr. and Mrs. Chamberlin are members of the M. E. Church. Joseph Chamberlin, his father, soon after settling in Springfield Township, built the grist-mill known as the Chamberlin Mill, and conducted business therein for several years, when he again followed farming. He died in 1873, aged 64.

DAVID ELLET, school-teacher, Akron. This gentleman is the son of David and Sarah (Fite) Ellet, and was born in Springfield, Summit Co., Ohio, Feb. 7, 1827. His parents died when he was young, and he lived with his grandparents. At the age of 11, he went to Findlay and lived there a year, when he returned to Springfield Township and lived with Jehu Ellet until he was 17, when he attended school at Middlebury; from there he went to Wadsworth, where he entered Wadsworth Academy, subsequently attending the institute at Twinsburg, where he remained for some time. In order to acquire a more complete education, he attended Franklin College, where he remained until his health began to fail. He was considered one of the best-informed students in the college, and was especially noted for his proficiency in the Latin language. On June 14, 1849, he was united in marriage to Keziah Ellet, daughter of Jehu Ellet, of Springfield Township. There were three children, viz.: Lucinda E., Minnie J., Arthur L.; Sarah E., is deceased. Since his marriage, he has been engaged in farming and teaching. He is a member of the Board of School Examiners of Summit Co. Mr. and Mrs. Ellet are devout members of the Presbyterian Church.

K. J. ELLET, farmer; P. O. Middlebury; is a son of Jehu and Elizabeth Ellet. His father was from Hartford Co., Md., and came to Trumbull Co., Ohio, in 1802 with his parents, where they remained until 1810, when they came to Springfield and settled a farm of

640 acres. His mother's parents were from Pennsylvania, and settled in Trumbull Co., Ohio, in 1820. After their marriage, they lived on a farm up to the time of their death; he died March 23, 1860, aged 66 years, and she in September, 1865, aged 73 years. The subject was born in Springfield Dec. 27, 1831. He lived at home, doing farm work and attending district school, until March 16, 1854, when he was married to Lucinda E. Norton, daughter of Lester Norton, who came to Springfield from New York State in 1808. Three children were born to them, viz.: Mattie, wife of Milo White, of Springfield; Cora J., wife of Frank Weston; and King Fred. Mr. Ellet lives on the homestead farm, consisting of 132 acres of valuable land. He is a staunch Republican, and has held many township offices.

ROBERT GILCREST, miller, Brittain. The subject of this sketch was born in Washington Co., Penn., Feb. 28, 1810. He lived at home until he was 22 years of age, working on the farm during summers and attending school in winters. At the age of 22, he left home and went to Wellsburg, Va., where he began working in a boat-yard, remaining for four years. In 1838, he came to Stark Co., Ohio, where he became engaged in the millwright's trade, which he continued eight years in different parts of Ohio. In 1849, he came to Springfield and purchased the mill property known as the Western Reserve Mill, in which business he has been engaged ever since. In 1832, he was married to Mary Martin, daughter of Robert Martin, of Brooke Co., Va. Mrs. Gilcrest died in 1838. His second wife was Rebecca Myers, of Springfield. They have five children—Caroline, wife of Frederick Schnee; Thomas; Matilda, wife of Benton Adams, of Akron; Mary A. and Anson. Mr. Gilcrest is a staunch Democrat.

A. W. HALL, stoneware manufacturer, Mogadore; is the son of Robert and Mary (Warner) Hall; born in Portage Co., Ohio, Aug. 15, 1843, on his father's farm, where his boyhood days were spent. At the age of 7, he came to Mogadore with his mother, attending school until he was 14 years old, when he began to work on a farm in Portage Co., continuing for two years, when he went to

Oshkosh, Wis., remaining but one year, during which time he was working on a farm. Returning to Ohio, he went to Tallmadge, where he again attended school, remaining until the breaking-out of the war, when he enlisted in Co. F, 7th O. V. I., remaining in that company but three months, when he enlisted in Co. G, 29th O. V. I. He was taken prisoner at Chancellorsville May 3, 1863, being released on the 1st of June of the same year. He served through many battles, and was with Sherman while on his march to the sea. He returned home in 1866 and engaged in the pottery business, the firm name being Martin & Hall. Their works were destroyed by fire in 1868, and he then bought more extensive works. The firm is now Myers & Hall, and are doing a flourishing business. In March, 1867, he was married to Helen Warren, daughter of William H. and Phoebe Warren. From their union two children were the issue—Harry R. and Eva. Mr. Hall is an active Republican, and enjoys the confidence of all.

HARLIN HILL, farmer; P. O. Mogadore; is a son of John and Eunice Crame Hill. John, the father, was born in Rhode Island, but removed to Clarence, N. Y., where he was engaged in farming; he remained there but a short time when he removed to Allegany Co., N. Y., and settled on a farm, where he lived for several years. At the breaking-out of the war of 1812, he volunteered his services and was engaged in the battle in which Gen. Brock lost his life, and after the war he moved to Canada, where he remained until the time of his death. The subject of this sketch was born on his father's farm in Clarence, N. Y., in the year 1810, and his early life was spent on his father's farm. At the age of 18 years, he learned to manufacture woolen goods in Canada, and was engaged in the same for ten years, when he sold out. In 1844, he came to Summit Co., settling in Tallmadge Township, remaining there eight years. He then purchased the farm he now lives on, consisting of 300 acres of land. In May, 1835, he was married to Mary M. Church, daughter of John K. and Mary Church, who were natives of Vermont, and settled in Summit Co. at an early day. From that marriage there were

six children born, as follows: John H., Hiram C., both killed in the late war; Franklin F., William E., Eugene H., and Edith P., wife of Albert Kent, of Mogadore. Mr. Hill has always been identified with the Republican party.

JOHN S. HART, contractor, Middlebury; was born in Middlebury, Summit Co., Ohio, Dec. 5, 1833, to John C. and Margaret A. (Sterling) Hart, and lived on his father's farm until he was 16 years of age, when he entered the high school at Abingdon, Mass., where he remained one year, and then attended the high school at Winchester, Mass., where he remained for a short time, and then returned home and assisted his father at farming and other business. On March 12, 1856, he was united in marriage to Zilpha M. Tinker, daughter of Daniel Tinker, of Rochester, N. Y. Two children were born to them, viz.: Louise Sumner and Hiram S. (deceased). In September, 1873, his wife died, and on the 19th of July, 1874, he married Rose Henry, daughter of Jacob Henry, of Pittsburgh. They have no children. In 1856, he engaged in farming, which business he followed until 1861, when he adopted the stoneware business, in company with William E. Smith, at which he continued until 1873. In July, 1875, he was engaged by the Akron Strawboard Company—the largest establishment of its kind in the State—as contractor, which business he is now engaged in. In addition to this, he carries on the old homestead farm. Mr. Hart is a staunch Republican, always having voted with that party.

AUSTIN M. HALE, farmer and nurseryman; P. O. Mogadore. Among the first settlers of Portage Co. was the subject's father, Thomas Hale, who, in 1806, left his home in Suffield Co., Conn., for the State of Ohio. Upon his arrival in the new country, he was engaged to teach school, which business he carried on for several years. In 1810, he was united in marriage to Laura Moore, who was a native of Vermont. The subject has in his possession a letter written by his father to Mr. Moore, asking his approval of their marriage. Thomas Hale came into possession of 1,800 acres of land in Portage and Medina Cos. at the death of his father. He served as

Justice of the Peace for upward of forty years. His death occurred in June, 1841. The subject's early life was spent on his father's farm. At the age of 17, he moved on the farm which he now occupies. On Jan. 1, 1838, he was married to Samantha Bellows: four children were born to them—Thomas, Albert, Laura and Mary. His wife died in 1870. He married his second wife, Laura Brown, on Feb. 6, 1871, and of that marriage there is one child—Nellie May.

PETER HILE, farmer; P. O. Mogadore; is the son of Henry and Maria Hile, and was born Nov. 11, 1824. When but 5 days old, his mother died and left him in charge of a brother, where he lived until he was 10 years of age, when he commenced to work on a farm in the summers and attending school during the winters, which life he led for seven years. He then learned the blacksmith's trade, serving three years as an apprentice; he worked in company with his brother for two years, when they dissolved partnership and he conducted the business alone for a time. On Feb. 25, 1846, he was married to Olive L. Boyd, who bore him two children, viz.: Emily R., wife of Quinn Monroe, of Texas; and Sarah L., wife of Henry Weimer, of Springfield. Mr. Hile began life a poor boy, but, by his industry and economy, has acquired a fine property. Mr. and Mrs. Hile are members of the Disciples' Church.

GEORGE W. HART, farmer; P. O. Middlebury; is the son of John and Sarah (Dunbar) Hart, who were natives of Pennsylvania, where they were engaged in farming. In 1819, they came to Springfield and settled on a farm. In 1839, they bought and settled on the farm now owned by George, where they lived until their death. The father was a soldier of the war of 1812, and died at the ripe age of 82; and the mother, at the age of 66. The subject was born on his father's farm in Springfield, March 17, 1833, and is the youngest of a family of seven children. His younger days were spent on the farm and attending school. In 1864, he enlisted in Co. H, 4th Battalion O. V. I., and served 100 days. On Nov. 23, 1856, he was married to Rebecca Myers, daughter of John D. Myers. There were three children, as follows: Arilda J.,

wife of Oren Swinehart; Ira L. and Luther E. Mr. Hart's grandfather was a soldier under La Fayette, serving seven years.

JONATHAN HOOVER, farmer; P. O. Lake; is the youngest of a family of eight children born to Samuel and Susan Hoover, who were natives of Huntington Co., Penn., where they followed farming until their death. The subject was born in Huntingdon Co., Penn., Feb. 8, 1818, and lived at home until he was 10 years of age, when he came to Stark Co., Ohio, with John Harley. When he reached his 18th year, he began to learn the shoemaker's trade; served three years as an apprentice, and then started in business for himself in Lake Township, where he continued for twelve years. In 1851, he bought and settled on a farm of 113 acres, where he lived until 1867, when he sold his farm and bought the one he now lives on, consisting of 155 acres of valuable land. In 1843, he married Catharine Fouse; nine children were born to them, viz.: Franklin, William, Elizabeth, Priscilla, Sarah, Ellen, Daniel, Wilson and Ida. Mr. and Mrs. Hoover are members of the German Baptist Church. Mr. Hoover is a staunch Republican.

SAWYER M. IRISH, farmer; P. O. Middlebury; is the third of a family of six children born to Jonas and Sallie (Sawyer) Irish. They were natives of Rutland, Vt., and moved to New York State in 1810, settling on a farm, and afterward moving to Knox Co., Tenn., in 1866, where he engaged in farming, which he continued until his death, which occurred in 1873, his age being 73. His companion died in New York State in 1860, her age being 65. The subject of this sketch was born on his father's farm in Cattaraugus Co., N. Y., July 12, 1820. Here he assisted his father at farming until he attained his majority, when he left home and worked on another farm. In 1842, he came to Summit Co. and began farming in Springfield Township, where he remained for some years. He afterward purchased 40 acres of land, where he has since resided. In 1842, he was united in marriage to Julia Decker, daughter of John Decker, of Orange Co., N. Y.; four children were born to them, viz.: Melvin, Elizabeth (wife of H. Crosier, of Portage,) Carrie (wife of H. Neli,

of Springfield), and Hattie (wife of J. K. Kimes, of Portage Co.). Mr. Irish has been successful in his pursuits. His wife has been a member of the M. E. Church for several years. Mr. Irish is a staunch Republican, and has voted the Republican ticket for several years.

WILLIAM H. JONES, farmer; P. O. Britain; son of John and Lucy C. Jones, was born in Lodi, Medina Co., Ohio, Aug. 3, 1841. His father died when he was young, and he lived with his grandparents until he was twelve years of age, when he left them and worked in different parts of the county. In 1858, he began working at the carpenter's trade, serving his apprenticeship, afterward continuing at the trade until 1862, when he enlisted in the 120th O. V. I., and served three years. He was with his company in Texas the greater part of the time. At the close of the war he returned home, and, in 1866, came to Akron where he again worked at his trade and at contracting. In September, 1862, he was married to Sarah A. Summerton, of Wayne County, Ohio, she bore him five children, viz., Ora A., Berties E., Frank E. (deceased), John V. and Lucy E. J. In 1878, he purchased a farm of 90 acres on which he now lives. In politics he is a Republican, and is among the stalwarts of the township.

ALFRED KREIGHBAUM, farmer; P. O. Lake; is the oldest of a family of fourteen children born to William and Sarah Kreighbaum, who were natives of Lancaster Co., Penn., and came to Stark Co. at an early day, where they settled on a farm of 235 acres. The father was engaged in farming until his death, which occurred in 1869. His wife survives him and lives in Greentown, Stark Co., at the present time. The subject was born in Stark Co., Ohio, April 14, 1835, on the farm, where he remained until 1858, where he was married to Mary A. Pontius, daughter of Samuel and Catharine Pontius, of Stark Co. From that marriage there were three children—Sadie C., Emma L. and Louise D. (deceased). Soon after his marriage he bought a farm of 45 acres, where he resided for five years, and, in 1870, bought and settled on the present farm, consisting of 154 acres of valuable and well improved land. Mr. and Mrs. Kreigh-

baum are members of the Methodist Episcopal Church. Mr. K. is Democratic in principle, and has always voted that ticket.

ELIAS KURTZ, farmer; P. O. Lake; Is one of eleven children born to Jacob and Catharine (Gibble) Kurtz, who settled in Portage Co., Ohio, in 1856, on a farm where he still lives, his wife having died in 1873. They were natives of Lebanon Co., Penn., where the subject was born in May, 1833. He lived at home until he was 18 years of age, when he began to learn the carpenter trade, serving two years as an apprentice, and working at it in Pennsylvania until 1856, when he came to Portage Co. with his parents, where he continued at his trade for several years. He was also engaged in contracting. In 1854, he married Catharine Kunse, daughter of John Kunse, of Dauphin Co., Penn. There were twelve children, nine of whom are living. In 1868, he bought and settled on a farm of 140 acres, where he lived three years, and then bought 102 acres of valuable and well-improved land where he now resides. Mr. and Mrs. Kurtz are members of the German Baptist Church of Springfield, which they have attended for many years. He is one of the most successful farmers in Springfield Township.

SIMON LAUDENSLAGER, retired merchant, Mogadore. The subject of this sketch was born in Snyder Co., Penn., Oct. 18, 1819. His father, John Laudenslager, owned a farm, and Simon spent his youthful days thereon. In the month of September, 1839, he in company with his family left his native home to seek a more desirable one in Ohio. They journeyed in wagons and reached here after twenty-three days of driving, settling in Magadore, where our subject worked at the tailor's trade for fifteen years, first as a journey man, and subsequently carried on the business for himself. In 1854, he engaged in the mercantile business with R. L. Atchison (whose sketch appears in this work), and continued in the business for eight years, when he sold his interest to his partner. His ambition would not allow him to remain idle, and, in 1868, he again started a general store, and carried on business until 1874, when he sold his interest, since which time he has lived a retired life. He was married to Elizabeth Green, daughter

of Benjamin and Lucy Green, May 30, 1844. There were no children; his wife died in 1878, aged 54 years. He has since his retirement from business traveled extensively through the United States, and takes an active part in the erection of the Connotton Valley Railroad. He has been a member of the Disciples' Church since 1843, and Elder in the same since 1854. In politics he is a Republican, and has held many offices in his township, which is Democratic.

PETER LEPPER, farmer; P. O. Middlebury. The subject of this sketch was born Oct. 6, 1826, in Mahoning Co., Ohio. He lived with his parents, Adam J. and Mary (Stine) Lepper until he was 12 years old, when he began life as a mule driver on the Ohio & Pennsylvania Canal, his route being from Cleveland to Youngstown, which employment he followed for three seasons. At the age of 15, he was engaged by a stage route company to drive a stage from Erie to Conneaut, which he did for one year. He then engaged as steambot hand on board a steamer running between Cincinnati and Nachez; growing tired of that life he returned home, soon afterward coming to Akron, where, for three years, he worked by the day. By his economy he saved money enough to purchase a team and wagon, which he did and began peddling, dealing principally in cigars and notions, which he carried on successfully for two years. In 1850, he purchased and settled on 60 acres of land in Suffield Township, Portage Co., where he remained for several years. In 1869, he bought and settled on his residence farm which consists of 254 acres of well-improved land; he also owns a farm of 140 acres in Brimfield Township, Portage Co. In 1880, he started the Bohemian oat meal mill at Middlebury, where he is doing a thriving business. In connection with this business he is extensively engaged in the sale of farming implements, and is considered one of the best and most successful business men in Springfield Township. In 1850, he was married to Catharine Sausaman, daughter of John Sausaman, of Portage Co., Ohio. Seven children were born to them as follows: J. H., T. F., Louisa, Maggie, Lizzie, Catharine and Jefferson. Mr. and Mrs.

Lepper are members of the German Baptist Church of Akron.

JACOB MISHLER, farmer and civil engineer; P. O. Mogadore. This gentleman was born on his father's farm in Pennsylvania Feb. 24, 1828. His father, Samuel, and mother, Elizabeth (Beecher) Mishler, had nine children, the subject being the eighth. In 1833, his father came to Springfield Township, where he settled on 140 acres of land. Here the subject spent his boyhood days, and obtained such education as the common schools afforded. At the age of 19, he taught and continued teaching for ten years. About this time he saw in the *New York Tribune* an advertisement of the sale of surveyor's instruments. He procured a set, and, unaided, set to work, the result being considerable notoriety as a surveyor. In Suffield Township he owns 103 acres of land, upon which he is to erect some buildings on the Connotton Valley Railroad, and in the deeds of conveyance are the articles prohibiting the sale of intoxicating drink to any person. In 1851, he was married to Louise, daughter of Joseph and Susan Myers. There are six children—Menno S., Milton B., Maria, wife of J. W. Wise; Lizzie, Frank J. Mr. and Mrs. Mishler are devout members of the German Baptist Church, with which they united twenty-six years ago. His first voting was with the Free-Soilers. He was elected by the Republicans to the office of County Surveyor, which office he held for several years.

PHILIP MYERS, retired farmer; P. O. Lake, Stark Co. Is the son of Michael and Agnes Myers, who were among the first settlers in Green Township, settling there in 1812. They were natives of Center Co., Penn., where Michael was engaged in blacksmithing, which business he had followed for several years. Owing to the newness of the neighborhood in which he settled, he was obliged to abandon his trade for some time, and turned his attention to farming; he purchased 100 acres of land, cleared it, and resided upon it to the time of his death, which occurred in 1847; his wife died in 1852. The subject was born in Center Co., Penn., February, 1809, when but 3 years of age he was brought to Green Township, Summit Co. He remained on the farm

assisting his father until he was 21 years of age, when he settled on 88 acres of land, which he now owns in connection with another valuable farm and some town property, all in Springfield Township. In 1831, he was united in marriage to Rosana Buchtel, daughter of Peter Buchtel. There were ten children, seven of whom are living—Urias, Rebecca, Thomas Jefferson, James M., Malinda, Susan and Jennings. Mrs. Myers died Nov. 27, 1880, aged 70 years. Mr. Myers has voted with the Democratic party since its organization.

GEORGE MARKLE, potter and grocer, Brittain; son of Adam and Barbara Markle, was born in Springfield Township Sept. 11, 1846. He attended school until he was 17 years of age. In 1864, he entered Co. D, 1st Ohio Light Artillery, and remained for eighteen months. In 1865, he was engaged by Whitmore, Roberson & Co., of Akron, as salesman. In 1866, he began learning the potter's trade, working as an apprentice until 1868, when he removed to Manchester, Iowa, where he engaged in that business for two years, when he returned to Summit Co., and, in company with James Viall, of Middlebury, engaged in the manufacture of stoneware. They are now doing a thriving business. He is engaged with his brother, Lewis E., in the grocery business. In 1867, he was married to Carrie Swartz, and two children were born to them, viz., Archie and Grace. In politics, he is a Democrat.

D. W. MARTIN, farmer; P. O. Akron; is one of a family of eleven children born to Andrew and Rebecca (Way) Martin. He was born in Springfield Township, Ohio, February, 1841. During his early life he assisted his father on the farm, and attended common schools and the seminary at Greensburg, remaining at home until he was 21 years of age. In November, 1861, he was married to Rebecca J. Henderson, daughter of William and Jane Henderson, of Springfield, who were formerly from Pennsylvania. Six children were born to them as follows: Luella, wife of William Yerrick, of Springfield Township; Ida C., Florence, Herman H., William A. and Jennie. In 1860, he settled on a farm in Springfield. He now owns and resides on a farm of 117 acres of valuable land. He was

a Colonel in the late war. He is a Democrat in politics, and has held many offices of trust. He is a member of the Masonic Order, Lodge No. 83, Akron. Rebecca (Way) Martin, mother of the subject, was born in Suffield Township, Portage County, Ohio, April 29, 1804, and was the first white child born in that township. Her parents, David and Rebecca (Baldwin) Way, were natives of Connecticut, and came to Portage Co. in 1802. Mrs. Martin's early days were spent at her home in the woods, where she remained until she was 18 years of age, when she married Andrew Martin, who was a native of Pennsylvania, and settled in Springfield at an early day. Eleven children were born to them, five of whom are living. Mr. Martin died June 11, 1878, at the ripe age of 83 years. Mrs. Martin still lives on the old homestead, and is highly esteemed by her neighbors and friends. She is a devout member of the Reformed Presbyterian Church.

JACOB METZGER, farmer; P. O. Middlebury; was born on his father's farm in Lancaster Co., Penn., Jan. 2, 1841. His parents, Henry and Mary (Geibe) Metzger, were natives of that place. In the year 1855, they came to Lake Township, where they settled on 100 acres of land, and farmed until 1872, when, selling the farm, they moved to Uniontown. Mrs. Metzger died in 1875 at the age of 65. In 1879, he married again. After coming to Ohio, our subject learned the carpenter's trade, serving two years as an apprentice, and afterward working at the trade. At the breaking-out of the war, he enlisted in Co. E, 115th O. V. I., serving until its close. He assisted in building the block-houses at Murfreesboro, and was one of the thirty men closed in by the rebels for seventeen days. At the close of the war he returned to Stark Co., and began working at his trade. In February, 1868, he was married to Leah Wise, daughter of George and Barbara Wise, of Stark Co. Three children were born to them, as follows: Aerman H., Mark E. and Floyd J. In April, 1878, he bought and settled on a farm of 146 acres where he now resides, and is one of the most successful farmers in Springfield Township. Mr. Metzger is a Republican in politics.

WILLIAM McCLELLAN, farmer; P. O. Mogadore. The subject of this sketch was born on his father's farm in Trumbull Co., Ohio, July 4, 1807. His parents, Robert and Rosana McClellan, were among the first settlers there. The subject's early life was spent in assisting his father on the farm and attending school. In 1818, he came with his father to Summit Co., where they settled on 100 acres of land. Here it was that William worked and spent his younger days. At the age of 26, in 1833, he was united in marriage to Jane Cummins, of Trumbull Co.; from that union three children were the issue—Robert A., Jane E. (wife of Urias Cramer, of New Philadelphia); and William A. He now owns 65 acres of valuable land. He has been a member of the United Presbyterian Church for several years. He has discontinued farming, and is paying his attention to sheep-raising. His son, R. A., is carrying on business on the farm, making it his home. He has gained the respect of all who know him.

LEWIS E. MARKLE, grocer, Brittain: the son of Adam and Barbara Markle, was born at Brittain May 10, 1855, where he attended both district and high schools. At the age of 17, he was engaged by one of Akron's merchants as clerk, where he remained one year, and then engaged with J. Park Alexander as foreman and collector of his fire-brick works. He afterward withdrew and clerked for Viall & Markle, where he remained one year. In 1876, he traveled through the Eastern and Western States. In 1877, he purchased Mr. Viall's interest in the grocery business, and engaged in the same in company with his brother. Although a young man, he has rare business qualifications. He is a Democrat in politics. His father was a native of Wurtemberg, Germany, and came to America at an early day, settling in Medina Co. He came to Brittain and engaged in the grocery business, which he conducted until his death, in 1858.

F. W. MYERS, stoneware manufacturer, Mogadore; is the son of Joseph and Susan (Winger) Myers, who were natives of Lancaster Co., Penn., where they were engaged in farming. In 1838, they removed to Wayne Co., Ohio, settling on a farm; in 1876, remov-

ing to Mogadore. The subject was born Dec. 4, 1830, in Lancaster Co., Penn. He attended district schools, and, at the age of 15, left home for the purpose of obtaining a better education. At the age of 18, he was apprenticed to the potter's trade; after serving his apprenticeship, he continued at the trade for several years. In 1864, he began business at Mogadore, on a small scale, purchasing a shop which he afterward enlarged to those now standing. He, in company with A. W. Hall, are doing an extensive business, employing from forty-five to fifty men. The pay-roll amounts to \$1,600 per month. In 1852, he was married to Lydia Mishler, daughter of Joseph Mishler. There were five children, two of whom are living, viz., Maria L., wife of Dr. Steele, of Mogadore; and Grace Eugenia. Mr. and Mrs. Myers are members of the Disciples' Church. Mr. Myers is a Republican.

LEVI H. RHODES, contractor, North Springfield; is the oldest of seven children born to Joseph and Rosana (Housley) Rhodes, natives of Stark Co., where his father engaged in farming. The subject was born in Summit Co., Ohio, May 14, 1847. He lived at home on the farm until his marriage, which occurred at the age of 18, to Martha E. England, daughter of George England, of Medina Co. From that marriage three children were born to them, viz., Minnie V., Martha A. and George E. After his marriage he learned the miller's trade in Wayne Co., at which he worked for some time, when he was obliged to discontinue it on account of his health. Then he farmed in Medina Co. for two years, at the end of which time he came to Springfield Township and engaged as contractor for the Middlebury Clay Company. In 1872 and 1873, he was engaged in the stoneware business. He afterward re-commenced contracting, which business he has been engaged in up to the present time. He invented what is known as the miner's drilling machine, which is valuable. Mr. and Mrs. Rhodes are both members of the Presbyterian Church. Mr. Rhodes has always voted the Democratic ticket, and has held many township offices.

HENRY RITTER, farmer; P. O. Krumroy; son of John S. and Elizabeth (Hendricks) Rit-

ter; was born in Union Co., Penn., March 11, 1834. When he was 1 year old, his parents came to Ohio and settled on a farm in Summit Co., where the subject spent his younger days. He lived at home until he was 26 years of age, and obtained such education as the district schools afforded. In February, 1859, he married Louisa Kepler, who were formerly from Pennsylvania. They have seven children, viz., William, John, Charles, Norman, Elsie, Harry and Earnest. In 1861, he purchased and settled on 80 acres of land, and, by his industry and economy, has accumulated a handsome property, also owning a valuable farm in Green Township. He commands the respect and esteem of all. In politics, he is a Republican, and is ranked among the stalwarts.

ABRAHAM SNYDER, farmer; P. O. Lake. The subject is the fourteenth child of a family of fifteen children born to Jost and Saloma Snyder, who were natives of Pennsylvania. Jost Snyder was a weaver by trade, and followed the business until 1819, when he came to Summit Co., settling in Green Township on a farm of 63 acres. It was on this farm the subject was born May 4, 1833, and where his early days were spent. He obtained such education as the district schools afforded, and, at the age of 18, he left home and worked on a farm for two years; followed threshing for twenty-two years in Summit and Stark Cos., where he gained a notable reputation. In 1858, he married Catharine Cranable, of Portage Co., who bore him five children as follows: William, Stephen D., Sarah S., Elias A. and George P. He now owns 140 acres of well improved lands, and a comfortable property in Portage Co. Mr. Snyder has always voted the Democratic ticket, and has held many offices of trust. He was 1st Lieutenant of a company during the war, but was never called out.

WILLIAM J. SCHROP, potter, Krumroy; was born in Berks Co., Penn., April 19, 1833. His parents, Michael and Maria (Giesler) Schrop, were natives of the same place, and came to Summit Co., settling in Springfield Township in 1839. The father was a tailor by trade, and continued the business up to the time of his death. The subject of this sketch

lived at home until he was 17 years of age, gaining his education at such schools as the neighborhood afforded. At the age of 18, he was apprenticed to the potter's trade with F. & G. Purdee, of Mogadore, serving two years, and continued with the company as journeyman for some time. Subsequently he was engaged by J. Ebberling as foreman of the pot-shops, and, in company with his brother, E. G. Schrop, bought the Brown pottery, which they rebuilt in 1871. They are now engaged in the manufacture of stoneware. They also own an interest in the clay-mill at Mogadore. He is a first-class workman, and while serving his apprenticeship made the smallest perfect jug ever turned on a wheel, its dimensions not exceeding the size of a kernel of corn. He is the oldest correspondent on the *Beacon*, continuing through all its changes of ownership. On Dec. 25, 1854, he married Louisa Henderson, daughter of William and Jane Henderson, of Springfield. They have three boys—Edward H., who is in business with his father, and a music teacher of considerable note; William G. and Perry. Mr. and Mrs. Schrop are members of the Presbyterian Church.

HENRY STEIN, retired farmer; P. O. Brittain; was born in Baden, Germany, Aug. 10, 1818, and is one of the eight children born to Daniel and Catharine Stein, who came to Coventry Township from Germany in 1832, where they lived on a farm for many years. In 1845, our subject left home to earn a livelihood, and, being industrious and economical, he was enabled in 1856, to purchase a farm of 100 acres in Green Township, where he resided until 1878. He purchased a pottery known as the Burn's pottery, but did not conduct the business. In July, 1844, he was married to Mary Kramer, daughter of Henry Kramer, of Dauphin Co., Penn. Six children were born to them, viz., Lavina, wife of John Sell, of Akron; Mary E., wife of Benjamin Holland, of Indiana; William H.; Amanda A., wife of E. Killinger, of Green Township; and Daniel P. Mr. and Mrs. Stein are members of the German Reformed Church. In politics, he is a Democrat, and has held many offices of trust.

J. B. SWITZER, farmer; P. O. Brittain; is the son of Charles and Mary R. Switzer, who

settled in Coventry Township and engaged in farming, the father also working at the carpenter's trade. Mr. Switzer was a native of Pennsylvania, and his wife of Connecticut. He has an interest in a very valuable coal mine in Coventry. The subject was born on his father's farm, in Coventry Township, Summit Co., Ohio, Aug. 8, 1848, where he remained until he was 21 years of age, when, with others, he was engaged prospecting for coal. He afterward took charge of his father's farm for four years. In July, 1874, he was married to Rebecca, daughter of Adam and Catharine Yerrick, of Springfield. Three children were born to them, two of whom are living. In 1875, he purchased and settled on the farm where he now resides, which consists of 105 acres of well improved land. For ten years he taught singing school in different parts of Summit Co. In politics, he is a Republican.

JAMES A. STETTLER, farmer; P. O. North Springfield; is the only child of William and Sarah (Reichely) Stetler, and was born in Union Co., Penn., May, 1840. At the age of 10 years, his parents moved to Green Township, Summit Co., Ohio, where they settled on a farm. He remained at home doing farm work and attending school, until September, 1860, when he was married to Lavina Koons, daughter of Henry and Esther Koons. Four children were born to them, viz., William H., Charles E., Marion T. and Clarence O. In 1879, he purchased 120 acres of valuable and well-improved land, where he now resides. Mr. and Mrs. Stetler are members of the Evangelical Association. Mr. Stetler is Democratic in principle. His father and mother are comfortably settled on one of the best farms in Green Township.

FRANCIS WESTON, retired farmer; P. O. Middlebury; is the son of John and Margaret Weston, who were natives of Litchfield Co., Conn., and who came to Springfield in March, 1814, where they settled on a farm of 260 acres, and lived there until the father's death, which occurred in September, 1837, at the age of 82. The mother died in 1864, at the advanced age of 93 years. The subject was born in Litchfield Co., Conn., April 20, 1790. In 1814, he came with his parents to Springfield, and, in company with his father,

purchased the farm where he now lives. In 1817, he was married to Amanda Hinman, daughter of Caleb Hinman, formerly from New York State. There were five children as follows: Celestia, wife of Mathias Rhodes, of DeKalb Co., Ind.; Margaret, wife of Lyman Brown, of Springfield; Louisa, wife of Henry Bellows; Lydia, wife of Martin Biek, of Michigan; and Salmon, who married Mary J. Fox, of Springfield, and is settled on a farm near the old homestead. Mrs. Weston died Oct. 17, 1859, aged 57. Mr. Weston married in October, 1860, Elizabeth McGown, daughter of Dr. John McGown, of Orange Co., N. Y. She was the widow of John Decker, to whom she was married in 1807. Mr. Weston owns 160 acres of well-improved land, and is the oldest man in Springfield Township. Mrs. Weston is a lady of high culture, and has now reached the ripe age of 91. They are both active members of the Methodist Episcopal Church. Mr. Weston has voted the Republican ticket, since that party was organized.

ABIA WHITE, farmer; P. O. Mogadore; son of Jacob and Rachel (Brittain) White, was born in Luzerne Co., Penn., Oct. 18, 1816. His father and mother were natives of New England, and settled in Luzerne Co. in an early day. In 1824, his father moved to Summit Co., and settled on a farm, afterward moving on another of 150 acres near North Springfield. He died on May, 25, 1853, and his wife on April 3, 1855, aged 76. At the age of 21, our subject learned the carpenter's trade, at which he worked a few years, and then turned his attention to farming, which business he still engages in. On Feb. 21, 1844, he was married to Martha Hagenbaugh, daughter of Christian Hagenbaugh, of Medina Co., of which marriage there were five children, four deceased. The only child, Milo, is living on his father's farm. Mr. and Mrs. White are members of the Methodist Episcopal Church. Mr. White has always voted the Republican ticket.

JOEL F. WEBB, farmer; P. O. Mogadore. Among the wealthy farmers of Springfield Township ranks the subject, who is the son of John and Elizabeth (McDermoth) Webb. The father was a native of York Co., Penn.,

where the subject was born Nov. 10, 1823, where his early life was spent, and whence he, in company with his father's family, came to Portage Co., where they settled on a farm of 125 acres, which the subject now owns. In 1863, he was united in marriage to Marion Anderson, daughter of Benjamin and Sarah

Anderson. She bore him four children, three of whom are living—Mary Grace, Martha L., John F. (deceased) and Joel William. He owns 184 acres of valuable and well-improved land, and in addition considerable town property. He has been a life-long Democrat, and an admirer of Democratic principles.

TALLMADGE TOWNSHIP.

WILLISTON ALLING, architect and builder, Tallmadge; is a son of Jonathan and Maria (Clark) Alling, who were natives of Connecticut, and came to Trumbull Co. in 1807, where they settled on a farm; he was engaged in farming until his death, which occurred in 1878, at the age of 86 years; his widow died in 1880, at the age of 80 years; they were the parents of five children, the subject being the youngest. Our subject was born in Trumbull Co., Ohio, Oct. 26, 1842; at the age of 12 years, he left home and worked in a saw-mill for four years; he came to Tallmadge in 1858, and began working at the carpenter's trade; he has been engaged in building and working at his trade up to the present time. He entered the office of Mr. Snyder, the architect of Akron, where he remained about four years. He is considered an architect of considerable note. In 1868, he married Emily Carter, daughter of Horatio L. Carter, of Brimfield, Portage Co.; there are three children of that marriage—Julia, Walter and Ruth. Mr. and Mrs. Alling are members of the Congregational Church. He is a strong Republican, and has held many offices of trust.

SYLVESTER BARNES, farmer; P. O. Tallmadge; is the third of a family of twelve children born to Phineas and Abigail Barnes, his birth occurring Feb. 28, 1805, in Granville, Mass. His parents came to Ohio in 1815, settling in Trumbull Co.; after remaining there for several years, they removed to Norton Township, Summit Co., where they lived until removed by death. Our subject's early life was spent on the farm of his father, where he remained until he was 21 years old; he obtained his education in the common schools of his neighborhood, and learned the carpenter's trade, working at the same for several years;

in 1831, he bought a farm east of the center of Tallmadge, where he lived until he removed to the present farm. Oct. 27, 1831, he was united in marriage to Esther, daughter of Maj. John Treat, of Tallmadge, who still lives to share his happiness; from that marriage there have been six children, four of whom are living, viz., Sidney C., Sylvester E., Francis N. and Clark B. Mr. Barnes united with the M. E. Church fifty-six years ago, and is one of its most proficient members; Mrs. Barnes is a member of the Congregational Church, uniting with the same when a girl.

J. E. BALDWIN, carriage manufacturer, Tallmadge; is a son of John and Mary Baldwin; they were natives of Milford, Conn.; Mr. John Baldwin, while young, was apprenticed to a carriage-maker in New Haven, Conn., working for a Mr. James Brewster, who built the first carriages in the United States; after serving his apprenticeship, he soon after began business for himself, which he carried on for twenty-five years; he died in 1867; his widow survived him and still lives in Milford. There were ten children in their family, the subject being the oldest. J. E. was born in Milford, Conn., Oct. 24, 1827; he attended school until he was 17 years of age, when he entered his father's factory to learn the trade of a carriage-maker; after working in his father's shop for four years, he went to New Haven, where he worked for one year in order to get a thorough understanding of his trade; he came to Tallmadge in 1848, and worked for Oviatt & Sperry for ten years as a wheelwright; he then contracted to furnish wheels for their work, and furnished, while in connection with them, 1,950 sets of wheels; in 1859, he engaged in business for himself on the northeast corner of the public square in Tallmadge, where he carried on

business extensively, at one time employing thirty men ; his works were destroyed by fire soon afterward, from which he suffered a loss of \$3,000 ; he rebuilt, and carried on business until 1871, when he suffered the second loss by fire ; in 1872, he built the works he now occupies. In September, 1852, he was united in marriage to Harriet S. Wright, daughter of Francis H. Wright, of Tallmadge ; from that marriage there were six children, all of whom are living.

C. C. BRONSON, Tallmadge ; the eldest child of Jarius and Irena (Mallory) Bronson ; was born in Woodbury, Litchfield Co., Conn., July 5, 1804. Soon after, his father moved to Middlebury, New Haven Co., his native place, where young Bronson spent the first fifteen years of his life. In February, 1819, the father, in company with a brother, Augustus Bronson, and Ebenezer Richardson, with one horse and wagon, left for the West, arriving in Tallmadge the following March. Here the father selected Lot 1, in Tract 4, and his brother Lot 2. Going immediately to work, they cleared and planted six acres, and in June Jarius returned for his family, leaving his brother to build a log house and care for the crops. On the 25th day of August, with his family, consisting of his wife and seven children, together with the wife of Augustus and Dan Saxton, Jr., left with two yoke of oxen and a wagon for their new home on the Western Reserve. On the road they were attacked with dysentery, resulting in the death of two of the children, a boy of 5 years, in Oneida Co., and one of 3 years, in Livingston Co., N. Y. On the 3d of October, they arrived in Tallmadge. Jan. 21, 1820, the family moved into their newly constructed log house, which was without fire-place or chimney. Thus, at the age of 15, was C. C. Bronson brought face to face with the stern realities of pioneer life. Their lot had been cast in the midst of a dense forest, out of which they had undertaken the task of making a home. But with that sturdy will possessed by most of pioneers, they pressed forward, and, in time, became surrounded with comfort and plenty, and Mr. Bronson's father and mother lived to enjoy the fruits of their toil. The former died April 7, 1857, and the latter April 7, 1863, each at the age of 78 years. The farm which Mr. Bronson assisted his father to carve from the forest has been his

home until this day, where he still lives in comparative health and comfort a respected citizen.

JOHN CHAPMAN (deceased) ; was born in Cornwall, Eng., in the year 1812. He lived at home until he was 19 years of age, when he came to America, settling in Oswego, N. Y. He had worked in a flouring-mill before leaving home, and had a good knowledge of his trade. He was engaged in one of the mills in Oswego, where he remained until 1832. He then came to Akron for the purpose of putting the stone mill in operation which was being built. The owners not being prepared, he went to Middlebury and worked for McNorton & Noble, where he remained for some time. He then returned to Akron and finished the stone mill, and in June, 1832, he made the first flour ever made in Akron proper ; he continued to run the mill for about a year. In 1833, he went to Rochester and worked at his trade for about a year. He returned to Akron and took charge of the stone mill, where he remained for a short time. He was a practical mechanic and miller, and many of the early mills built in Summit Co. were erected under his supervision. He purchased a farm adjoining Akron, where he lived several years, then bought the farm his widow now lives on. In 1857, he married Phebe Budd, daughter of Solomon Budd, of Akron, who bore him four children—John L., Nellie, Caroline and Cora. Mr. Chapman died in April, 1881, after a short illness, at the age of 69 years. He was respected by all who knew him for his integrity and gentlemanly qualities. His widow and son John L. conduct the farming on the farm where Mr. Chapman had made many improvements.

H. S. CARTER, retired merchant, Tallmadge ; is a son of Adoniram and Arilla (Sackett) Carter. They were natives of Litchfield Co., Conn., where Adoniram, the father, was engaged in farming. He was connected with the company who had the contract to dig the race from Cuyahoga Falls to Akron. He furnished part of the capital, and sent his son, H. S., to look after his interests. He never moved from his home in Connecticut, and died in 1842, while on a visit to some friends living in Illinois. After his death, his widow came to Tallmadge, where she died in 1848. H. S. Carter, the subject of our sketch, was born in Litchfield Co., Conn., in the year 1817.

He lived on the farm until he was 21 years of age, and attended the seminary at Warren, Conn., and was about to enter Yale College, when his classmate, to whom he was much attached, died. He then abandoned the idea. He was then sent by his father to look after his interests in the company of which he was a member. H. S. was to bring considerable money with him to put into the enterprise, but upon his arrival, he not being satisfied with the manner in which the business was conducted, refused to furnish the money. He engaged in mercantile pursuits in Tallmadge, in company with W. A. Hanford, which firm did business for three years, when E. V. Carter purchased Mr. Hanford's interest. This partnership continued until 1846. He then took in as partners C. and B. D. Wright, with whom he continued in business until 1872. He owns considerable real estate, including a small farm. In 1846, he was united in marriage to Martha Wright, daughter of Alpha Wright, of Summit Co. From that marriage seven children were born, five of whom are living—H. W., a practicing physician of Fond du Lac, Wis.; Mary A., at home; H. H., studying music in Leipzig, Germany; Starr V. V. and Charles. Mr. and Mrs. Carter are members of the Congregational Church. In 1846, was appointed Postmaster at Tallmadge, holding the office until 1872.

JAMES CHAMBERLAIN, farmer; P. O. Tallmadge; is a son of Luther and Caroline (Davenport) Chamberlain, who were natives of Litchfield Co., Conn. The father was a carpenter by trade, and worked at the same for several years. In 1811, he came to Ohio, settling in Tallmadge, where he settled on a farm north of the center of the town. After remaining there two years, he purchased a farm east of the center, and worked at his trade in connection with farming. He was called out in the war of 1812, but, owing to ill health, was dismissed from the service. He died in 1870, at the ripe age of 89 years; his wife died in 1839, at the age of 57 years. Our subject was born in Tallmadge, May 10, 1817. He remained at home until he was of age, and then worked his father's farm, which he inherited and lived on until 1867. He purchased forty acres of well-improved land, where he now resides. In 1844, he was married to Harriet Heath, of Livingston Co., N. Y. They had no children, but took George H. Chapman to raise,

to whom they gave a good education, and cared for him as if he were their own child. He is now a practicing physician at Grand Crossing, Ill. Mr. and Mrs. Chamberlain are devout members of the Congregational Church of Tallmadge.

P. C. CARUTHERS, farmer, P. O. Tallmadge; is the eighth of a family of ten children born to John and Nancy (Allen) Caruthers. John Caruthers was born in Carlisle, Penn., where he lived until 1811, when he came to Ohio, settling in Tallmadge Township. He was a tanner and shoemaker by trade, and worked for several years at the same. Upon his arrival in Tallmadge, he purchased a farm in the southeast corner of the township, where he lived until he died. He was in the war of 1812, for a short time, and died Dec. 14, 1853. Our subject was born in Tallmadge, May 1, 1818. His childhood was spent on the farm, obtaining his education in the schools of his neighborhood. At the age of 21, he began farming the homestead, which he afterward purchased, where he lived until 1870; he then sold it and purchased the farm he now occupies, consisting of 83 acres of well-improved land. Oct. 21, 1840, he was united in marriage to Cynthia N. Clark, daughter of William L. Clark, of Akron. From that marriage there were three children, as follows: Elmer P., Charles Clark and Lois N., wife of Park Johnston, of Akron. Elmer was a graduate of the Western Reserve College, of the class of 1865, and was employed as Principal of the Deaf and Dumb Asylum, at Little Rock, Ark, where he remained for seven years. He was considered one of the most successful teachers in the country. After remaining there for seven years, he took a trip across the plains for his health, but received no benefit therefrom, and died Sept. 3, 1876, at the age of 37 years. Charles, the younger son, was a graduate of the Western Reserve College, studied medicine and attended lectures at the Starling Medical College. He enlisted in a company attached to the 60th O. V. I. He was with Grant until the close of the war, being wounded in the battle of Petersburg, and was offered a discharge, but would not accept it. He returned home, and after three months again joined his company. After his return at the close of the war, he lived at home until his death, which occurred May 10, 1871, at the age of 24 years.

NEWTON DUNBAR, farmer; P. O. Tallmadge; was born in Springfield Township, Summit Co., Nov. 10, 1853. His parents, John and Fanny (Hostler) Dunbar, were natives of Summit Co., and lived there several years. John Dunbar was a plasterer by trade, and worked at the same until 1856, when he engaged in the stock business, in Iowa. He was very successful, and was considered a thorough stockman. He removed to Springfield, where he died in 1859; Mrs. Dunbar died in 1856. Our subject's early life was spent on the farm and attending the schools of his neighborhood. At the time of his father's death, he being then but 6 years old, he went to live with Sherman Pettibone (whose sketch appears in this work), where he remained on the farm until 1877. In 1877, he was married to Mary E. Pero, daughter of Jasper and Elizabeth Pero, of Tallmadge. From that marriage there have been two children, one of whom is living. Although a young man, Mr. Dunbar has accumulated considerable property. Upon the death of Mrs. Dunbar's father, she inherited the homestead, consisting of 156 acres of well-improved land.

DR. D. E. FENN, dentist and farmer; P. O. Tallmadge; is the eldest of a family of twelve children born to Wyllys and Hannah (Root) Fenn. They were natives of Connecticut. The father was from Milford, and came to Ohio in 1819, settling in Tallmadge; he was a carpenter, and worked at his trade for several years after his arrival. He built many buildings in the Sixth Ward of Akron. In 1838, he bought a farm, and settled on the same, where he lived until he died, his death occurring in 1880, at the age of 78 years. Hannah (Root) Fenn was a native of Waterbury, Conn.; she died in 1870, at the age of 62 years. Dr. D. E. Fenn, the subject of this sketch, was born in Tallmadge March 16, 1828. His early life was spent at home, where he lived until he was 34 years of age. He obtained his education in the schools of his neighborhood. In 1852, he purchased the farm he still occupies. In 1861, he began the study of dentistry. He was an apprentice but a short time, when he opened an office, and has since been engaged in the profession. He is a skillful workman, and has gained a reputation which is a credit to any one. He owns 215 acres of well-improved land well stocked with cattle and horses of excellent pedigree. Oct. 12, 1851, he was united in marriage to

Charlotte A. Wolcott, daughter of Guy and Annis Walcott, of Connecticut, formerly. From that marriage there were three children, as follows: Wilbur W., associated with his father in business; Annis E. and Harriet W., both at home. Mr. and Mrs. Fenn are devout members of the Congregational Church, of Tallmadge; the two oldest children are members also.

T. H. FENTON, pipe and stoneware manufacturer; Tallmadge; was born in Mogadore Oct. 22, 1847. His early life was spent in attending the school of his native town. At the age of 18, he began learning the potter's trade in his father's works at Mogadore. After working in his father's shop five years, he started the works he now manages, in company with H. H. Stahl. At the close of one year, he purchased Mr. Stahl's interest, and conducted the business alone until 1876, when he took in as partner his brother, Curtis Fenton, who is still connected with him. The shop's capacity is about 6,000 gallons per week, and about 150,000 pipes. In 1870, he was united in marriage to Mary Stahl, daughter of A. M. and Laura Stahl, of Trumbull Co., who bore him two children. His brother Curtis married Katie, daughter of Dr. James Ferguson, of Mogadore.

C. GUISE, farmer: P. O. Munroe Falls; is a son of Elias and Christiana (Marsh) Guise, and was born in Manchester, Summit Co., Ohio, Jan. 28, 1849; he attended the schools in his native town until 1865, when he entered the grammar school at Akron, and, one year later, the high school of the same city, where he remained for twelve consecutive terms. After completing his education, he returned to his father's farm and remained one year. In January, 1871, he was united in marriage to Viana, daughter of Samuel Thornton, of Akron, Ohio, and from whom he received 117 acres of well-improved land. There are two children from that marriage—Nellie Bell and Newton H. Elias Guise, the father of our subject, was born in Snyder Co., Penn., where he lived until 1835. He learned the tailor's trade while young, and upon his arrival in Summit County in 1835, he opened a shop in East Liberty and one at Johnston's Corners, and conducted the business successfully until 1845. He then disposed of it and settled on a small farm in Franklin Township, where he lived five years. He then moved on his father-in-law's farm and remained nine years, and, in 1865, purchased

and settled on 65 acres of land, where he still resides. There were five children in his family, two of whom are living. Mr. and Mrs. Guise are members of the Evangelical Church of Akron, Ohio.

ALVAN A. HINE, farmer; P. O. Tallmadge; son of William and Phila (Root) Hine, whose sketch appears in this work, was born in Tallmadge in September, 1831. His youth was spent on his father's farm. He obtained his education in the common schools, and the academy at Tallmadge. After leaving school he returned to the farm, where he lived until he was 22 years old. In 1853, he went to Knox Co., Ill., and engaged in the clothing business in company with Mr. Atwood. They were engaged in business for eighteen months, when he returned to Portage Co., and lived there but a short time. He then removed to Mogadore, where he remained one year, and while there he was engaged by J. Welsh as clerk in a general store. In 1859, he removed on his father's farm where he has since resided. In 1852, he was married to Sarah J., daughter of Philo Atwood, of Springfield Township. From that marriage there has been five children—Elton, Arthur, Frank, Leora and William. Mr. and Mrs. Hine are members of the Congregational Church.

WILLIAM HINE, farmer; P. O. Tallmadge. This gentleman was born in New Haven Co., Conn., his birth occurring July 22, 1801. He lived at home until he was 9 years old, and then went to work for a farmer in the neighborhood, where he remained five years, and then returned home where, for about two years, he attended school during the winter season, and worked on the farm in the summer. In 1820, his father's family came to Ohio, and with them came our subject, who worked for his father until 1823, when he began clearing a piece of land of 50 acres, a part of the farm he now lives on. He now owns about 235 acres of well-improved land. Dec. 24, 1823, he was united in marriage to Melia Root, who was a native of Waterbury, Conn. From that marriage there were three children—William E., of Livingston Co., Ill.; Alvin A., of Tallmadge; and Melia A., wife of T. F. Metlin, of Akron. Dec. 24, 1873, Mr. and Mrs. Hine celebrated the fiftieth anniversary of their wedded life; about seventy of their friends assembled at the home of Mr. Hine, where they showed the love and esteem

they cherished for the pioneer couple. Jan. 25, 1881, Mrs. Hine departed this life at the age of 75 years. She was a Christian lady, a kind mother, and a loving wife. Mr. and Mrs. Hine were members of the Congregational Church.

DANIEL HINE, farmer; P. O. Tallmadge; was born in New Haven Co., Conn., May 23, 1806. At the age of 14 years his parents came to Ohio, settling in Tallmadge, Daniel assisting in clearing and working the farm until he was 27 years of age, when he purchased a piece of new land, which he cleared and occupied until 1837; then selling his farm, he went to Kentucky, where he remained the winter of 1838-39; when he returned to Tallmadge and settled on the farm he now occupies. Soon after he settled, he started a vineyard, carrying on the same successfully for several years. In 1830, he was married to Sally Caruthers, of Tallmadge, with whom he lived happily until 1869, when she died, at the age of 62 years. He married for his second wife, Sarah, widow of Caleb S. Clevis, of Yarmouth, Me. Mr. and Mrs. Hine are members of the Congregational Church, of Tallmadge. In politics, he is a Republican, and has always been identified with that party. He served as Coroner, and was appointed Deputy Sheriff. His father, Abraham, was a native of New Haven Co., Conn., where he was engaged in farming. In 1820, he came to Ohio, settling on a farm in Tallmadge; he lived on the farm up to the time of his death, which occurred in 1856, at the age of 81 years. Mrs. Abraham Hine was born in Hartford Co., Conn., and lived until 1864; she was 88 years of age.

MICHAEL HAWK, farmer; P. O. Middlebury; son of Philip and Margaret Hawk. They were natives of Germany, where they were engaged in farming. In 1839, they came to Ohio, settling in Portage Co., on a farm; they lived on the farm up to the time of their death. The father died in 1862; the mother, in 1874. There were five children in the family, our subject being the youngest who was born in Germany, Sept. 27, 1835, and came to Portage Co., Ohio, with his parents, in 1839. At the age of 21 years he began farming, first working the homestead. In 1870, he bought the farm he now lives on. He began life a poor boy, but, by industry and economy, has accumulated a nice property, owning 144 acres of well-improved land in the southern part of the township. He

was married to Albertenia Bletcler, daughter of Michael Bletcler, of Randolph, Portage Co. They have two children—Albert and Lydia. Mr. and Mrs. Hawk are members of the Grace Church, of Akron.

C. A. JOHNSTON, farmer; P. O. Tallmadge; son of William and Elizabeth Johnston, whose sketch appears in this work. The subject was born in Green Township, Summit Co., July 16, 1842. His early life was spent on the farm and attending school. In 1860, he entered Mt. Union College, when he remained three years. After leaving college, he engaged in the oil business, in Pennsylvania and Medina Co., where he conducted business successfully for two years. He then engaged in the coal business, in company with W. G. Johnston, which they carried on for six years. He then carried on the milling business, in the State mill, for one year. In 1876, he bought the farm he now lives on, of 104 acres of well-improved land. In 1870, he was married to Sarah A. Swartz, of Franklin Township; from that marriage there were three children, two of whom are living—Lizzie M. and Clara B.

CAPT. J. A. MEANS, Ex-County Clerk, Tallmadge; was born in Allegheny Co., Penn., in February, 1811. He obtained his education in the common district schools, and, at an early age, was apprenticed to the tanner's trade, at which he worked until he was 22 years old. In 1833, he came to Summit County, settling in Northfield Township on a farm of unimproved land, and by hard work and economy, accumulated a fine property. In 1836, he was appointed Deputy County Surveyor. He remained on the farm until about 1860, when he was elected Clerk of the county. After serving part of his term, he organized Company C, 115th O. V. I., of which he was made Captain, serving his country three years; at the close of the war, he returned home and again engaged in farming. In 1870, he was re-elected County Clerk, holding the office for three years, and, at the expiration of his term of office, he was elected Clerk of the city of Akron, serving three years. In 1877, he purchased 12 acres of land adjoining Tallmadge Center, upon which he has made some very fine improvements. In 1835, he was united in marriage to Eliza Chapin, daughter, of A. Chapin, of Northfield. From that marriage there were six children, two of whom are living—Nathan A., of Akron,

and E. A., wife of W. B. Marsh, of Tallmadge. In September, 1879, his wife died at the age of 68 years. In October, 1880, he married Mrs. M. V. Walton, widow of Dr. L. C. Walton, of Tallmadge. Mr and Mrs. Means are members of the Congregational Church of Tallmadge.

C. B. MAURER, barrel manufacturer, Tallmadge; is a son of John J. and Sophia Maurer, who were natives of Prussia; they came to Rochester, N. Y., in 1833. John J. was a barrel-maker, and worked at his trade previous to his coming to Rochester, where he was one of the largest manufacturers, doing business there for several years. He died from the effects of a wound caused by the explosion of a sky rocket, while celebrating the day the Atlantic cable was first laid. After his death, his oldest son carried on the business. C. B. was born in Rochester, N. Y., May 14, 1842, and obtained his education in the public schools of that city. At an early age, he entered his father's shop and worked there until he was of age. In 1864, he went to California and worked at his trade for about one year, when he returned home, where he remained but a short time, when he went to Sandusky, Ohio, and thence to Dayton, where he was engaged as leader of an orchestra in a concert troupe. He traveled about six months, when he abandoned the troupe and came to Akron, where he has since been engaged in business, at first working at his trade. In 1868, he built a factory which has since been enlarged. He employs about fifty men and manufactures about 180,000 barrels per year. In 1873, he, in company with Commins & Allen, built a large stove factory in Union City, Penn. In 1870, he was married to Miss Mary A. Dunnigan, of Akron, Ohio, who bore him four children. He purchased the property known as the Francis H. Upson property, in 1880, where he still lives. By his industry and economy, he has accumulated considerable property.

MORRISS SISTERS, farmers; P. O. Middlebury; are the daughters of Aaron and Sarah (Isbell) Morriss. Mr. Morriss was a native of Winstead, Conn., where he lived until he reached manhood, in the meantime learning the carpenter's trade, and, at the age of 21, left home, and in company with Peter Hepburn went to Georgia. Mr. Hepburn returned home soon after, leaving Mr. Morriss in a strange city among strangers. He was not among strangers but a

short time, for his gentlemanly bearing and conduct made him many friends. He was engaged in contracting and building, and contributed \$50 toward the erection of every church being built in the vicinity in which he lived. After an absence of thirteen years, he returned to New Haven, Conn., where he married Sarah Isbell, widow of Capt. Fregift Coggeshall. From that marriage, there were two daughters—America and Corene. After his marriage, he came to Tallmadge, settling on a farm, where he lived until he died in 1871, aged 74. He was one of the best workman in the country, and made part of the furniture in Yale College and other public buildings. Mrs. Morriss lived on the farm until she died, her death occurring in 1879, at the age of 78 years. America was born in Tallmadge, in 1835, and Corene in 1836. They attended school at Hudson for some time, and then entered the Ontario Female Seminary at Canandaigua, N. Y., where they remained until they were about to graduate. They have lived on the farm ever since.

L. B. PIERCE, nursery-man and florist; P. O. Tallmadge; is a son of Nathaniel and Minerva (Sanford) Pierce, whose father was a native of Litchfield Co., Conn., and came to Ohio in 1839. The mother was born near Burlington, Vt. Our subject was born in Tallmadge Township, April 30, 1840. He lived at home until he was 20 years of age. He received his education in the common schools and the academy at Tallmadge, and, when 18 years of age, was prepared to enter college. After completing his education, he returned to the farm, and there remained until 1864, when he enlisted in Co. D, 164th O. N. G. At the close of the war, he returned home, and, in 1866, purchased 40 acres of the old homestead, and began improving it. He soon after turned his attention to fruit growing and nursery business, and has been engaged in the same pursuit up to the present time. For years, he had been carefully reading works on landscape gardening, and, in 1880, he put his knowledge on the subject into practical use. He is considered a proficient landscape gardener, and, in 1881, opened an office in Cleveland, where he still visits. In 1873, he was married to Miss E. M. Bradley, of Kent. From that marriage, there is one child. In 1857, he united with the Congregational Church at Tallmadge.

MRS. JASPER PERO, Tallmadge, is the youngest of a family of five daughters born to

John and Susan Gareheart, who were natives of Pennsylvania, and settled in Middlebury in 1836. The subject's father was a stonemason by trade, and worked at the same for several years. He moved to Portage Co., remained there a short time, then moved to Indiana, where he died. Our subject lived at home until 1849, when she married Jasper Pero, who was a native of France, and came to Ohio in 1832, settling in Springfield Township, where he was engaged in farming. He learned the potter's trade and worked at the same for several years in connection with farming. By his industry and economy he accumulated considerable money, and with it purchased a farm in Portage Co., which he afterward exchanged for the one now owned by Newton Dunbar, where he lived until his death, which occurred under very distressing circumstances. He was a great lover of horses, and every opportunity afforded him he would be found around them. March 16, 1877, while working about them, was kicked and instantly killed by one of his horses. He was the father of two children—Mary E., wife of Newton Dunbar, and Flora, wife of Daniel Beal, both of Tallmadge.

HERBERT A. PECK, farmer; P. O. Tallmadge; is a son of Anthony and Harriet (Clark) Peck, who were natives of Milford, Conn., and came to Summit County in 1822, settling on a farm of 200 acres in Tallmadge Township, where he lived until he died. His death occurred in 1845. His widow survives him, and lives with her son Herbert. The subject of this sketch was born in Tallmadge Township Nov. 13, 1842. His childhood was spent on his father's farm. He attended the schools of his neighborhood and the academy at Tallmadge, where he procured a good education. He then turned his attention to farming, which business he is still engaged in. He owns 310 acres of valuable land, situated in the southern part of the township. He has always been identified with the Republican party, and has been Treasurer of the Summit County Agricultural Association for several years.

SHERMAN PETTIBONE, farmer; P. O. Middlebury; is a son of Norman and Amelia Wetmore Pettibone. They were natives of Connecticut, where they were engaged in farming. Norman died in 1814, at the age of 45 years. His widow married for her second hus-

band Simeon Hart, of Burlington, Conn. There were six children from her first marriage and two from the latter. She died about the year 1860, at the age of 84 years. Our subject was born in Burlington, Conn., in 1809. His childhood was spent on the farm and attending the schools of his neighborhood and the academy at Burlington. After leaving school, he worked on a farm, and, at the age of 18, was employed by a New York merchant as clerk, for whom he worked two years. In 1830, he was employed by Jerome & Darrow, clock manufacturers, of Bristol, Conn., as salesman, traveling for that firm five years through the Southern States. In 1835, he came to Ohio, settling in Tallmadge Township, where he has since resided. He owns 150 acres of valuable land, situated in the southern part of the township. May 20, 1835, he was united in marriage to Sarah B. Lambert, who was born in Orange, New Haven Co., Conn. From their union there were three children, as follows: Fanny E., widow of Philo Wright, of Detroit, Mich.; Sarah V., deceased, and Sherman B., who is associated with his father on the farm. He is a member of the Congregational Church of Tallmadge. Mr. Pettibone is a staunch Republican.

J. B. RICHARDSON, farmer; P. O. Tallmadge; was born in Tallmadge April 5, 1834. His childhood was spent at home on the farm, his education being obtained in the common schools and the Academy of Tallmadge. When 21 years of age he began life for himself, first working for his father on the farm. In 1856, he went to Iowa and Illinois, where he remained for a short time, but returned in 1858 and purchased the farm he now occupies, 80 acres of well-improved land. In 1860, he was united in marriage to Miss Frances Evans, daughter of D. N. Evans, of Portage Co. The subject's father, E. Richardson, was born in Middlebury, Conn. In 1799, he lived at home on the farm until 1817, when he started across the country on foot, arriving in Tallmadge Township, where he worked at chopping for one year. Before leaving home he promised his parents to return in one year; he did so, walking the whole distance. He returned to Tallmadge and worked for Squire Whittlesey for two years, he then settled on 50 acres of land, where he remained the greater part of his life. In 1822, he was married to Elizabeth Porter, who was from

Waterbury, Conn. From that marriage there were three children—Mary, wife of S. H. Cooley, of Oneida, Ill.; Charles P. and J. B. Mrs. Richardson died in 1858, at the age of 55 years. In 1862, J. B., our subject, married Lauretta, widow of Amos Parker, of Geauga Co. Mr. and Mrs. Richardson are members of the Congregational Church, of Tallmadge.

GEORGE RIPLEY, farmer; P. O. Middlebury; is a son of William and Elizabeth Ripley, of Yorkshire, England, and was born in Yorkshire in September, 1822. His father died when he was young, and he was obliged to work in a mine, serving until he was 21 years of age as an apprentice, for which he received his board and clothes. In 1850, he came to Ohio, settling in Clinton, where he worked a short time. He then removed to Coventry Township, where he worked for about two years. In 1852, he operated a coal bank, which he was engaged in for ten years, meeting with good success. In 1861, he purchased the farm he now lives on, consisting of 160 acres of well-improved land. In 1844, he was married to Martha Marsden, who was a native of Yorkshire, England. From that marriage there were eight children, four of whom are living, viz.: William, Charles, John and Eli. Mr. Ripley is a stalwart Republican, and by his industry and economy, has, from a poor boy, become a wealthy man.

C. A. SACKETT, farmer; P. O. Tallmadge; is the seventh of a family of nine children born to Clark and Laura M. (Akin) Sackett, his birth occurring May 15, 1837, in Tallmadge Township. His father was a native of Warren, Conn. He remained at home until he was 21 years old, working on the farm and in his father's distillery. In 1814, he left home for the purpose of making a new home in the West; he made the journey on foot, and, after a wearisome tramp, reached Tallmadge, and bought the farm now owned and occupied by our subject. He lived on this farm until a few years before he died. He united with the Congregational Church, at Tallmadge, while young, and was a devout and faithful member, and was also Deacon of the above-named Church for several years. He was twice married; first to Cynthia Preston, who lived but about six weeks after their marriage. He married for his second wife, Laura M. Akin, who bore him nine children. She was a Christian lady, and

by her death the Congregational Church lost a proficient member. She died March 30, 1846. Mr. Sackett died May 14, 1862. Our subject's early life was spent on the farm, and he obtained his education in the common schools and the Academy of Tallmadge. After completing his education, he returned to the farm, where he remained until 1864, when he enlisted in Co. B, 164th O. N. G. He was gone but about 100 days, and upon being released, he returned to the farm, where he has since lived. At the time of his father's death, he purchased the farm where he now resides. In 1861, June 25, he was married to Catharine Ashman, daughter of Russell and Marcia Ashman, of Tallmadge.

B. W. SKINNER, farmer; P. O. Tallmadge; is a son of Solomon and Caroline (Waldo) Skinner, who were natives of Hartford, Conn. At the age of 18, the father of our subject enlisted in the war of 1812, and served his country in such a manner as becomes a true soldier. Soon after the war he came to Ohio, and, settling in Bath Township, he bought a farm of unimproved land, and, after many months of wearisome labor, he converted it into a pleasant home. He remained there until 1860, when he removed to Milan, Ohio, and there he died July 22, 1880, at the advanced age of 91 years. The subject of this sketch was born in Bath Township, April 6, 1835, his youth being spent on the farm, where he obtained his education in the common schools of his neighborhood. He worked on the farm until he was 18 years of age, and then came to Tallmadge Township, and worked at the same business for several years, at the expiration of which time he had accumulated considerable money; he then rented a farm, and soon after bought 33 acres of land, where he now resides, now increased to 97 acres. In 1864, he enlisted in Co. D., 164th O. N. G. At the close of the war, he returned to the farm, and has remained there ever since. In 1856, he was married to Laura Dickinson, of Northampton Township, who bore him five children, as follows—Laura E., Carlton B., Olive A., Lucy R. and Minnie M. Rev. O. S. Skinner, brother of our subject, was a young man of bright prospects. He was much attached to him, and by his death the Church lost a proficient and active worker.

WILLARD SPERRY, stock-dealer and farmer; P. O. Tallmadge; is a son of Adna and Julia (Wilcox) Sperry. The father of our

subject was a prominent man, and came to Tallmadge about the year 1808, and engaged in farming, settling on the farm now owned by Willard. He was extensively engaged in buying and shipping stock, and carried on the same successfully up to the time of his death. Our subject was born in Tallmadge Township, Oct. 4, 1851. He remained on the farm until he was 14 years of age. He then went to live with his uncle, Dr. Sperry, of Tallmadge, with whom he lived until he was 20 years of age, when he went to Colorado and remained one year. He then returned to Pennsylvania, remaining there for some time. While there, he acted as superintendent of a large lumber establishment. In 1877, he settled on the farm he now lives on. He has been engaged in the stock business extensively. In 1874, he was married to Flora A., daughter of Weems Caruthers, of Tallmadge Township.

J. S. STROMAN, farmer; P. O. Munroe Falls; is a son of Henry and Catharine (Stine) Stroman; was born in Springfield Township, Summit Co., July 30, 1845. His youth was spent on the farm of his father, obtaining his education in the meantime in the schools of his neighborhood. In 1876, he settled on a farm of 117 acres of valuable land in the northeast corner of the township, where he has since resided. In 1872, he was united in marriage to Maggie, daughter of Thomas and Mary Ellis, of Thomastown, formerly of Wales. From Mr. Stroman's marriage, there has been one child. Mr. Stroman, although a young man, has accumulated a handsome property. He has always been identified with the Democratic party. Henry Stroman, the father of our subject, was born in Union Co., Penn., in 1818, and came to Ohio with his parents in 1824. He remained at home until he was 25 years of age, when he settled on a farm; he then worked at day's work for about three years. In 1850, he bought and settled on a farm of 40 acres, which he increased to 160. He has been an industrious man, and for his industry he has been rewarded. He is now a well-to-do farmer. There have been born two children in his family, J. P. and W. H.

H. H. STAHL, stoneware manufacturer, Tallmadge; was born in Trumbull Co., Ohio, May 9, 1847, his parents, A. M. and Laura Stahl, being natives of Ohio, the father of Columbiana Co., and the mother of Trumbull Co.

The father of our subject was a farmer, and conducted the business successfully. In 1880, he removed to Ashtabula Co., where he still resides. His wife died in 1852, at the age of 35 years. Our subject's early life was spent on his father's farm and in attending the schools of the neighborhood. At the age of 15, he enlisted in Co. M. 2d Heavy Artillery, serving until the close of the war. At the close of the war, he returned to Ashtabula Co., and attended school for about one year, and finished his education in his native town. In 1866, he came to Mogadore, this county, and began to learn the potter's trade, serving as an apprentice one year. He then worked as journeyman for one year, and, in 1868, in company with J. Lee, operated a shop in Mogadore. This company lasted about two and a half years. He then worked as journeyman for about one and a half years, and, in 1870, he, in company with T. H. Fenton, began the manufacture of stoneware in Tallmadge, they making many improvements, and carrying on the business successfully for about one year. In 1876, he purchased the works he now manages, and, having made many improvements, has now one of the best shops in town. In 1869, he was married to Laura Hale, daughter of A. M. Hale, of Springfield, whose sketch appears in this work. From that marriage there has been one child—Howard Austin. Mr. and Mrs. Stahl are members of the Methodist Episcopal Church of Tallmadge.

IRA P. SPERRY, sewer-pipe manufacturer, Tallmadge; is a son of Lyman and Lydia (Peck) Sperry, the father being a native of New Haven Co., Conn., where he was engaged in farming. In 1819, he came to Tallmadge Township, settling on a farm in the northeastern part of the township, where he lived until he died, his death occurring in 1858, aged 86 years. Mrs. Sperry died in 1836, at the age of 52 years. Our subject was born in Waterbury, Conn., in the year 1818. He came to Ohio with his parents in 1819, and lived on his father's farm until he was 14 years of age, when he was apprenticed to a blacksmith to learn the trade, serving three and one-half years; he then learned the carriage-ironing trade, which occupied three years; he worked at the latter for one year. At the age of 21, attended school at Cuyahoga Falls for about one year. Then engaged with William C. Oviatt, of Tallmadge, as

a carriage-ironer, working for him for two years. In 1844, he purchased an interest in the works of William C. Oviatt, of Tallmadge, where they did a successful business. Their work was in use in every section of the State and many other States. They had a carriage depository in Cincinnati for fourteen years, where they did business to the amount of \$300,000, but sold his interest in 1871. In 1870, he engaged in sewer-pipe manufacturing, in company with S. J. Ritchie and Dr. Sperry, of Tallmadge. They did an extensive business until 1879, when their shops were destroyed by fire, which proved disastrous to the village of Tallmadge. The works were valued at \$150,000, and were the best of the kind in the State. Sept. 27, 1841, he was united in marriage to Clarissa Carlton, daughter of Peter Carlton, of Portage Co., and from that marriage, they had six children, four of whom are living; their names are as follows: Willis C., George P., Francis L. and Henry B. The first named is a practicing physician in York Co., Neb. Mr. Sperry is a stalwart in the Republican party. In 1858, was elected by the Free-Soil party as their Representative in the Ohio Legislature. Mr. and Mrs. Sperry are active members of the Congregational Church.

JESSE SPRAGUE, farmer; P. O. Middlebury; is the eighth of a family of eleven children born to Jonathan and Sarah Sprague; they were natives of Sharon, Conn., where they were engaged in farming; the father was a tanner and currier by trade, but worked very little at it, learning the shoemaker's trade, which he followed for several years; in 1805, he came to Ohio, first stopping in Canfield, Mahoning Co., where he remained three years; in 1808, he came to Tallmadge Township, settling on a farm; this family was the fourth family in the township. Mr. Sprague died in 1837, at the age of 70, his widow dying in 1843 at the age of 64. Our subject was born in Tallmadge, Oct. 13, 1809, and lived at home until he was 21 years of age; he then took charge of the farm, where he lived fifteen years; in 1851, he purchased the farm he now occupies. In 1836, he married Sallie Y. Lane; from that marriage there were two children—Rhoda, wife of David Foote, of Portage Co., and Heman, who is associated with his father on the farm. Mr. Sprague has always voted with the Republican party.

DENNIS TREAT, farmer; P. O. Tallmadge; son of Samuel and Alice (Weston) Treat, whose sketch appears in this work, was born in Tallmadge May 28, 1831; his youthful days were spent on the farm; he obtained his education in the common schools and the academy of Tallmadge; he lived on the farm until he was of age; at the time of his father's death he purchased the old homestead, where he has since resided. In 1864, he enlisted in Co. D, 164th O. N. G., and, while in service, was stationed at Arlington Heights; after his release from the service he returned to the farm, where he has since resided; he owns 200 acres of valuable land, which he has farmed successfully. In 1874, he was elected President of the Summit Co. Agricultural Society; he had previous to this date acted as Vice President of the same society. In 1857, he was united in marriage to Rhoda H., daughter of Dr. Philo Wright, of Tallmadge; from that marriage there have been four children, viz., Alice W., Florence S., Hiram B. and Henry W. Mr. and Mrs. Treat are members of the Congregational Church of Tallmadge.

HARRIET E. TREAT, farmer; P. O. Tallmadge; is the widow of Lemuel P. Wolcott, who was born in Tallmadge Aug. 18, 1831; his childhood was passed on the farm, where he remained until he had grown to manhood; he obtained his education in the common schools, the Windom Academy and the Nelson High School; after completing his education, he returned to the farm, and there lived until it was divided between himself and brothers. In November, 1856, he married Harriet E., daughter of Richard and Amoret Treat, who shared his happiness until death separated them; he died Nov. 10, 1876, at the age of 45 years; he was a man much missed in the surrounding community in which he lived, for his amiable disposition, gentlemanly bearing and devotion to his church. He was the father of three children—Mary E., Flora I. and Bryan T.—all at home. Mrs. Wolcott still lives on the farm, is comfortably situated, with hosts of sympathizing friends, who with her share the loss of a kind husband and loving father.

PHILIP THOMAS, coal operator, Tallmadge; is a son of John and Rachel Thomas, both of whom were natives of Wales, where the subject was born in 1825, in the shire of Monmouth. When 8 years old, Philip went to work

in a coal-mine and was thus employed until 1851, when he emigrated to America. Coming direct to Ohio, he settled in Summit County, Tallmadge Township, where he has since resided, with the exception of two years he passed in the township of Coventry. For a short time he worked in the coal-bank of W. H. Harris, and then came to the Upson banks which he and Wm. T. Owen leased in 1868. Four years later he secured his partner's interest and is doing a good business, employing some forty men, and mines about 15,000 tons annually. Mr. Thomas has by industry and economy secured a position in life that reflects credit on himself and shows what can be accomplished, even under adverse circumstances by a determined will. His marriage was celebrated in 1849, Miss Sarah Williams becoming his wife. Their union has been crowned with twelve children, eight of whom are living, viz., John, Mary, Philip, Llewellyn, Henry, Morgan, Frank and Willie. Mrs. Thomas is a consistent member of the Welsh Congregational Church. He is a Republican.

ANDREW TREAT, farmer; P. O. Tallmadge; was born in New Haven Co., Conn., Dec. 22, 1799. He spent his youthful days on the farm; he obtained his education in the common schools and the academy of his native town. In 1823, he came to Tallmadge Township, and settled on a farm of 109 acres of partly cleared land, where he has since resided. He now owns about 525 acres of well-improved land. He has given his attention to farming exclusively, and by his industrious and economical habits has become the wealthiest man of his township. April 24, 1823, he was married to Marrietta N. Treat, who was born in New Haven Co., Conn. From that marriage there has been two children—Joseph A., of Cleveland, and Julia E., wife of F. F. Fenn, of Tallmadge. Mr. and Mrs. Treat are members of the Congregational Church of Tallmadge, uniting with the same over sixty years ago. April 24, 1823, they celebrated the fiftieth anniversary of their marriage day.

S. C. TAYLOR, farmer; P. O. Middlebury; was born in Tallmadge Oct. 29, 1837, and is the only child living of a family born to Elijah and Betsey (Clinton) Taylor. Elijah Taylor was a native of Massachusetts, his birth occurring in 1796. He lived on the farm until 1816, when he came to Ohio, settling in Portage

Co., where he remained ten years, and while there was engaged in farming. In 1826, he removed to Tallmadge and settled on a farm. He was a thrifty farmer, and by his industry and economy accumulated a large amount of property. He died Feb. 10, 1872, at the age of 76. His wife was a native of Trumbull Co., Ohio, her parents settling there at an early day. She bore him two children—S. C. being the only surviving one. His early life was spent on the farm. He obtained his education in the schools of his neighborhood. He has always been engaged in farming on the farm on which he was raised. In 1860, he was married to Sarah Hagenbaugh, of Tallmadge, who bore him one child, viz., Albert W. She died Dec. 7, 1864. He married for his second wife Sarah McNeal, daughter of James and Sarah McNeal, who are residents of Pennsylvania. From the last union there has been three children, viz., Minnie E., Charles C. and Howard H.

STANLEY TREAT, farmer; P. O. Tallmadge; is the third of a family of six children born to Samuel and Alice (Weston) Treat, who were natives of Connecticut, and came to Tallmadge in 1818. Samuel Treat obtained his education in the common schools of New Haven Co., where he remained until he came to Ohio. In 1818, he walked across the country, reaching Tallmadge after a long and tiresome tramp. He purchased 300 acres of land in the southeast corner of the township, upon which he settled the year following. In 1820, he was married to the above-named lady, who bore him six children, five sons and one daughter. Three of the sons died after reaching manhood. Samuel, Jr., was a prominent lawyer of Williams Co., and by his death the county lost one of its most enterprising men. Henry was a farmer of Northampton Township, and H. B., a graduate of the Western Reserve College and a proficient scholar, died in Mississippi after a short illness. While there he was engaged in school-teaching. The father of our subject lived on the farm up to the time of his death he was a leading man in church and society circles. The subject of this sketch was born on his father's farm in Tallmadge June 6, 1826. He obtained his education in the common schools and at the Tallmadge Academy. After completing his education he returned to the farm, where he remained until he was 25 years of age. He then bought a farm of 160

acres in Northampton Township, where he remained four years. He then returned to the homestead and lived there a short time. In 1868, he bought the farm he now lives on of 155 acres of valuable land. In 1852, he married Eliza Stilwell, of Portage Co., who bore him one child—Arabella. Mrs. Treat died in 1861. He married for his second wife Charity M. Kent, daughter of Martin Kent, of Mogadore. From that marriage there are two daughters, both at home.

D. B. TREAT, farmer; P. O. Tallmadge; is a son of Calvin and Jane Treat. The father was a native of Orange, Conn.; he came to Ohio in 1824, settling in Tallmadge Township, on a farm of 300 acres. He cleared the farm, and sold about 90 acres; the remainder he kept and occupied until 1864. Mrs. Treat died, and he married for his second wife Elizabeth, widow of Harvey Hinman. After they left the farm, they took up their residence at Tallmadge Center. Our subject was born in Tallmadge, in December, 1836, and attended the schools of his neighborhood, the academy at Tallmadge, and the college at Hudson. After leaving college, he began teaching school, being engaged in that occupation for several years. In 1863, he enlisted in the 5th Independent Company of O. V. S. S., and was with Sherman through Georgia. He was gone two years, and after he returned engaged in farming, being engaged in the same up to the present. In 1861, was married to Catharine Price, daughter of Cyrus and Jane Price. They have four children—Calvin, Fannie, Edward and Elizur. Mr. and Mrs. Treat are members of the Congregational Church of Tallmadge.

DANIEL A. UPSON, farmer; P. O. Tallmadge. This gentleman was born in Worthington, Franklin Co., Ohio, Feb. 17, 1821, where his youth was spent. His parents moved to Tallmadge while he was young, and there entered the Academy, and at that institution he received the greater part of his education. After leaving school, he attended to the farm duties, and there remained for several years preceding the death of his father, and at the time of his father's death he inherited the old homestead, where he still resides. In addition to his farming interests, he has a large interest in the coal-banks known as the Upson banks. In 1859, he conducted a fair in Cuyahoga Falls, the first one of the kind ever held

there, and spared neither time or funds to make it a success. He had the fleetest horses of his day on the grounds, such as Flora Temple and other horses of like pedigree. He has many interests in Akron, among them are the oat-meal mills, etc. Mr. Upton never married, but is living on his farm, and is one of the most active men in church or society circles. Feb. 17, 1881, he was surprised by over 100 of his many friends, who assembled at his house for the purpose of showing the friendship they cherished for him. The parents of our subject, Dr. Daniel and Polly (Wright) Upton, were natives of Connecticut, and came to Ohio in an early day. Dr. Upton's youth was spent on the farm and in attending the schools of his neighborhood, where he received a liberal education. He was engaged in teaching school for several years, and at the same time studying medicine. He graduated in medicine, and then sought a home in Ohio; he first located in Trumbull Co., where he remained several years, and, in 1818, he removed to Franklin Co., settling in Worthington, and there remained until 1832, when he removed to Tallmadge. He was elected Representative, by the people of Franklin Co., several times. After his removal to Tallmadge, he discontinued his practice, paying special attention to his coal banks. He married Polly, daughter of Deacon Elizur Wright, of Tallmadge, but formerly of Connecticut. She was a Christian lady, an amiable wife and kind mother.

WILLIAM UPTON, farmer; P. O. Tallmadge; was born in the County of Kerry, Ireland, June 24, 1814. At the age of 16 years, he took passage on a vessel bound for Quebec. When out about sixteen days, and off the coast of Nova Scotia, the vessel was wrecked, having on board 303 passengers, men, women and children. The captain ordered the women and children to be taken ashore (which was two miles distant) first, then the older men, and by that time the vessel was fast going to pieces. Our subject, with eleven other young men, was advised by the captain to swim the distance. They undertook it, and eleven of them reached shore in an exhausted condition. He saved nothing from the wreck, and went three days without food. He started off in search of food or a settlement, and, after traveling for some time, saw a small boat belonging to a fishing smack. He told the occupants of the disaster, who took

them aboard of the smack, and brought them to Louisburg, N. S. The passengers of the ill-fated vessel, with the exception of our subject, were taken to Quebec. He remained in Louisburg for three months. He then worked his way to Boston, on board a coal vessel. From there he went to Albany and Schenectady, N. Y., where he remained a short time. In 1833, he came to Ohio, settling in Summit Co., and engaging in shoemaking for six years at Tallmadge Center. He then settled on a farm of 220 acres, where he has since resided. In 1836, he married Maria Sprague, daughter of Jonathan Sprague, of Tallmadge. From that marriage, there were six children, one of whom is living—Rev. J. S. Upton, of Bridgewater, N. Y. Mrs. Upton died in 1873. He married, for his second wife, Mrs. Kate Murphy, of Akron. The father of our subject, Capt. John Upton, had, from a boy, followed the seas. His mother was Mary Fuller, who was a consistent and earnest member of the Church of England.

A. A. VIALI, farmer; P. O. Tallmadge; was born in Harrisburg, Penn., Nov. 29, 1848. He remained at home until he was 16 years of age, receiving his education in the common schools of his neighborhood. In 1864, he enlisted in 184th O. V. I., where he remained until the close of the war. After his return home, he was engaged as engineer on a steamboat. He then worked on the Pittsburgh & Cleveland Railroad, where he fired a locomotive. He was then engaged by J. A. Caruthers to take charge of machinery in his mill. In 1878, he purchased, in company with C. D. Caruthers, the mill he now operates. In 1879, he was united in marriage to Helen Caruthers, daughter of J. A. Caruthers, of Tallmadge, whose family settled there in an early day from Connecticut. Mr. Vial is a strong Republican, and has always been identified with that party.

DR. AMOS WRIGHT, physician, Tallmadge; the first white male child born in Tallmadge Township, and his birth occurred Oct. 5, 1808; his parents, Dr. Amos and Lydia (Kinney) Wright, were natives of Connecticut, he coming to Trumbull County in 1801, where he remained until 1802, when he returned to Connecticut and married the above-named lady, who was the daughter of Rev. Aaron Kinney. After his marriage, he came to Trumbull County, where he remained until 1808; he then came to Tallmadge where he remained until he died.

He was the first practicing physician in this section of the State, and his practice was extensive. Our subject attended the academy in Tallmadge until he was 14 years old, and then went on the farm where he remained until he was 19 years of age. In 1827, he began the study of medicine in his father's office, where he remained two years; he then went to Cincinnati and attended lectures in 1829 and 1830. In 1831 and 1832, he attended lectures at Yale College. He returned to Tallmadge in 1833, and opened a drug store in Middlebury, conducting the business for one year, then removed to Trumbull County and practiced medicine for two years. He returned to Tallmadge in 1836, and has remained there ever since. He has an extensive circuit of practice, visiting

patients in Portage, Stark and Summit Counties. On the 31st day of March, 1831, he was united in marriage to Clemence C. Fenn, who bore to him nine children, six of whom are living—Stella, Celia, Ellen M., Julia I., Darwin E.; Samuel St. John associated with his father in his practice; H. M., Sarah E. and Alice are the names of those deceased. Alice was well and widely known in social and musical circles, and had distinguished herself as a singer of more than ordinary ability; she died in 1874, at the age of 23 years. March 31, 1881, Dr. and Mrs. Wright celebrated the fiftieth anniversary of their wedded life by a golden wedding, given by them at their home, and entertained a host of congratulating friends.

NORTHFIELD TOWNSHIP.

J. G. ALEXANDER, merchant, Northfield; is one of the rising young merchants of Summit County; born in Cleveland, May 6, 1848; son of Hamill and Martha (Nesbit) Alexander. The father of our subject was born Aug. 6, 1818, in West Pennsylvania; son of James Alexander, whose ancestors hail from "Bonnie Scotland." He came West with his son Hamill in 1838, locating in Cuyahoga County, and engaged in agricultural pursuits, bringing his son up to this calling, whose marriage with Miss Nesbit occurred Nov. 17, 1842, whose birth is recorded April 7, 1822, born in Wheatfield Township, Indiana Co., Penn., daughter of John and Ann (Matthews) Nesbit, who came West from Pennsylvania, locating in the township in 1831. After the marriage of Hamill Alexander, he remained one year on the farm; then removed to Cleveland, where he lived nine years, being engaged in the mercantile business. From there he moved to Macedonia, this township, engaging in the lumber business, where he remained until his death, which took place July 4, 1854. To him were born a family of three children, viz., John N., now residing in Lansing, Mich.; James G. and Martha J. (now the wife of Dr. J. C. Bryson, of La Cygne, Lynn Co., Kan.). James G., at the death of his father, was but a lad of 6 years; being then thrown upon his own resources, he has since that time

rowed his own craft. When a mere lad, he hired out by the week, receiving \$5 per month, and continued on in this way until he accumulated means to enable him to engage in business for himself. In 1869, he moved with his mother and sister to Johnson Co., Mo., and farmed four years, which gave him more experience than profit. Returning, in November, 1872, to this town, he engaged as a clerk for Lyons, Logan & McClellan, remaining with them one year and a half, and then engaged one year with E. A. Palmer & Brother as traveling salesman. April 13, 1876, he married Ellen F. Love, daughter of John and Jane Love, of Coshocton County. The May following, he succeeded J. D. Lyon & Co., and has since been engaged in general merchandising, and is doing a safe and lucrative business. His business has increased to double its first dimensions. He is now handling all kinds of farm machinery, engines and threshers. He is energetic and an excellent business man. March 20, 1878, his lovely wife passed to the land "beyond the river," leaving him companionless. She bore him one child—Jennie—who sleeps in the cemetery beside her. Since the death of his wife, his mother has been his comforter and housekeeper. Mr. Alexander and mother are members of the U. P. Church, as also was her father.

MRS. JANE W. BACON, retired, Northfield ; was born Nov. 16, 1811, in Jefferson Co., this State, to James and Sarah (McClintick) Pritchard. Her father was born in Maryland, son of William Pritchard, to whom was born three children. The father of Sarah McClintick was James, whose wife was Mary Williamson ; they raised a family of six children, whose names were Mary, Rachel, Nancy, Sarah, James and Samuel. James, the father of the above, was a Commissary during the war of the Revolution, and was present at the battle of Bunker Hill. To James and Sarah Pritchard were born two children—Jane W. (Mrs. Bacon) and Sarah. His first marriage was with Tabitha White, by whom he had eight children ; two of the number, Hezekiah and William, were soldiers in the war of 1812 ; William was Captain, his brother Hezekiah dying in the service. Mrs. Bacon's father removed West to Jefferson Co. in the latter part of the last century, locating in Steubenville ; he was a man of superior ability and talent, was a Judge of the Court of Steubenville, and was one of the framers of the State Constitution and a member of the State Legislature, when they met at Chillicothe ; here he died Feb. 6, 1813. His wife survived him until 1856 ; she was for sixty years a member of the Methodist Episcopal Church. Mrs. Bacon was married June 22, 1828, to David C. Bacon, who was born in Genesee Co., N. Y., July 18, 1803 ; he was a son of Isaac and Nancy (Cranmer) Bacon. Isaac Bacon came to Ohio, locating in this township, on Lot 63, in 1807, where he cut down a few trees and erected a cabin ; while this was in progress, parties who were cutting the road leading from Hudson to Cleveland, hearing the sound of his ax, knowing the country to be uninhabited, started in quest of the unknown woodsman, and there found the frontiersman busy at his work ; and, in honor to him, and for his accommodation, changed the direction of the road and run it past his domicile ; hence the crook in the road which has since existed as a landmark in the township. This pioneer of Northfield Township died November, 1812 ; his son, David C., succeeded him in the ownership of the farm, and remained in the township until his death, which occurred Oct. 22, 1880. Five children were born to him, of whom but two are living, viz. : Sarah J. (now the wife of Dr. B. F. Roy, of Geauga Co., this State) and Miles

P., who is a resident of this township. Reason P. died June 6, 1859, at the age of 31, leaving no issue. Mrs. Bacon has been a member of Methodist Episcopal Church over fifty years, and was the first to experience religion in the township, and for one year was the only professor of religion in the township ; she resides on her farm of 130 acres, which was settled by the elder Bacon, her house being the first frame built in the township.

NOEL BECK, farmer ; P. O. Northfield ; was born Feb. 17, 1818, near Salem, Columbiana Co. ; son of Paul and Mary (Dickinson) Beck ; Paul was born in Loudoun Co., Va., son of Preston Beck, to whom was born Edward, Paul, John, Richard, Mary, Esther, Phebe Ann and Rachel ; Mary Dickinson was born in Redstone, in New Jersey ; her mother's maiden name was Martha Hatfield ; the father of Mary Dickinson was named Jesse Dickinson, whose mother's name was Sarah Richardson before marriage ; the family on both sides were of Quaker families. Preston Beck came out to Columbiana Co. with his family before the commencement of the present century, being one of the pioneers of that county. Paul Beck was twice married—first, to Mary Dickinson, who bore him eight children ; those who grew up, were Matilda, Jesse, Joseph, Noel and Martha ; his second marriage was to Rachel Foster, by whom he had eight children. Noel came to Bedford in 1834. June 1, 1840, he was married to Maria Sheets, born March 28, 1819, in Columbiana Co. ; her parents were George and Sarah (McConnors) Sheets ; he was born Nov. 30, 1783, she March 5, 1787 ; he was a sailor when young. They were born and married in New Jersey ; their nuptials are recorded as taking place in the year 1808 ; to them were born ten children, nine of whom grew up. George Sheets and wife, with two other families, composed of Father McConnors and wife, and Robert Thomas and his wife, all came out in 1812 together, in a two-horse wagon containing what little of this world's goods they possessed. Soon after Mr. Sheets' arrival in the State, he was drafted into the war of 1812. His father's name was Yosey, who married Elizabeth Kuntz, and by her he had seven children—John, Joseph, William, Samuel, George, Adam and Betsey. Mr. Beck, at the time of his marriage, had nothing but his hands and his worthy wife to begin with ; not

having the money to buy any furniture, he turned in and made his own table, chairs, and such articles as they were obliged to have, which served them until they could afford "store" furniture; he bought 40 acres "in the woods," of his father, costing \$400, yet in four years had it paid for; after living on this farm ten years, he sold it for \$700 and moved to this township, purchasing 93 acres on Lot 13 for \$1,400, but afterward cost him \$300 more, in consequence of a dower lien coming to light which he had to square off; he lived on this place three years and located where he now resides, where he has 101 acres. Four children have been born to him—Mary (Mrs. Charles Pell), Clarkson and Alice (Mrs. John A. Ellett), all of this township. Mrs. Beck is a member of the Disciples' Church. Mr. B. is not a member of any denomination, but is a good Republican.

CLARKSON BECK, farmer; P. O. Bedford; was born in Bedford Township, Cuyahoga Co., March 20, 1847, the fourth of the family, and the third of the number who grew up. He removed with his parents to this township when about 3 years of age, his father first locating on the "ledge." Clarkson remained with his parents until he was 25 years of age. Jan. 14, 1872, he married Rebecca J. Stanley, who was born 1851, in Columbiana Co., this State, daughter of Waddy and Lydia (Mather) Stanley. Her father was born in Virginia, Sept. 4, 1816, and her mother on Feb. 2, 1822, in Pennsylvania. Waddy was a son of Waddy, Sr., who was the parent of ten children, viz., Joel, Samuel, Thomas, Waddy, Precilla, Lucy, Nancy, Rebecca, Anna and Deborah. Lydia was a daughter of John and Catharine (Smith) Mather, to whom were born ten children—Samuel, Thomas, Sarah, Daniel, Jessie, Ann, William, James, Lydia and John. To Mrs. Beck's parents were born Catharine A., Joshua L., Rebecca J. and Thomas, who died at 4 years of age; Edgar W. died when 16 months' old. The Stanleys and Mathers are Quakers. The Mathers were Hicksites; the Stanleys were Guernseys. The old gentleman died March 31, 1871, and his wife March 30, 1861. Since Mr. Beck's marriage, he has been a resident of the snug farm of 82 acres, which he now owns. He has three children, viz., Bertha May, Mattie Jane and George D. Mr. Beck is among the enterprising young men of the county. He has a pleasant

home and family, and is a representative young agriculturist and business man.

GEORGE L. BISHOP, farmer; P. O. Northfield; born Jan. 23, 1842, at the center of Northfield; is the youngest of a family of three children of Orin and Celina (Lilley) Bishop. George was 3 years of age when his father died, and was then raised by Mr. Seidell, his step-father, who taught him the wagon-maker's trade. In August, 1861, he enlisted in Co. K, 19th O. V. I., for three years, and after the expiration of his time, re-enlisted and served until the close of the war, receiving his discharge in November, 1865. He served in seventeen battles; his first was Shiloh or Pittsburg Landing, then Mission Ridge, Chickamauga and winding up with the battle at Nashville, when Hood attempted to match W. T. Sherman—to invade the enemy's country. It can be said of Mr. Bishop that he was a true and valiant soldier during all his time of service, and was always with his command, with the exception of five months, when he was in the hospital in consequence of wounds received at Stone River, and during this time the regiment were not in any engagement. Upon his return home from service, he resumed his trade at the Center with Mr. Seidell, remaining with him two years. He then engaged with a New York firm, and for six years was their general agent, having the State to canvass in the interests of patent medicine. After which, he and his brother Clark purchased a farm together, which they carried on some time, when he sold his share to his brother. Dec. 31, 1819, he married Martha Way, who was born May 4, 1850, in England, daughter of Charles Way, who came to the country in 1859. Since his marriage he has resided at Brandywine. Both he and his wife are members of the M. E. Church. He is also a member of A. F. & A. M., and a loyal Republican.

SIDNEY BEANEY, farmer; P. O. Macedonia; he is the son of John and Jane (Weston) Beaney; was born March 1, 1819, in Sussex Co., England. John Beaney was born March 28, 1776, and his wife April 11, 1780. To them were born twelve children—Mary, born in 1799; Susanna, in 1802; James, in 1804; Alfred, in 1806; William, in 1809; Walter, in 1811; Jesse, in 1814; Jane, in 1815; John, in 1816; Sidney, in 1819; Ann, in 1820; Joshua, in 1823. Sidney left England when a young man,

and came with Alfred and Jesse to New Hartford, Litchfield Co., Conn., where his brother Walter was engaged as foreman in a cotton factory. Here Sidney found employment for two years, and then went to Stockbridge, Berkshire Co., where he engaged for two years more in a factory at that place. In company with two others, he started West in May, 1841, and, after a long, tedious journey of adventures, they came to Hudson, where he engaged in brick-yard shoveling, at \$7 per month. Here he stayed six months, and then worked three years in a hat store, for Mr. Strong, after which he went back to England, and brought out his parents, and after staying one year with them in York State, he came back to Hudson, where he purchased 60 acres of land where he now resides, there being then a small clearing on the same. Here Mr. Beaney has since lived, and though poor when he commenced life, he has at length become prosperous, having now 180 acres of land, with excellent buildings thereon. His father died suddenly of heart disease in March, 1864, and his mother died the following September. June 28, 1858, Mr. Beaney was married to Mary Roughton, born March 19, 1836, in Cambridgeshire (March Parish). She was the daughter of Benjamin and Sarah (Thompson) Roughton. To Benjamin and Sarah Roughton were born twelve children, of whom seven grew up: Alice, Rachel, John, Rebecca, John and John R., twins; Mary and Sarah (also twins); Keziah, Thomas, Jemima and James. The father of Mrs. Beaney died when she was 8 years of age. She came to America with her mother in 1847, and located in Strongsville. Her mother died November, 1873. She was a Free-Will Baptist, and her husband a Calvinist, in belief. Mr. and Mrs. Beaney are members of the Baptist Church. They have three children, viz., Walter, Sidney and Sarah J.

AMBROSE W. BLISS, farmer; P. O. Northfield. The Bliss family trace their origin to one Thomas Bliss, who was born in England about the year 1550, the name having been traced from the Norman-French Blois through the forms Bloys, Blyse, Blysse and Blisse to the American Bliss. The family is supposed to be of Norman descent, having come to England with William the Conqueror, and it is thought by some to have been connected with the Norman kings. The history of the American family begins with the Puritan brothers

George Bliss and Thomas Bliss, Jr., who came to America to escape religious persecution, landing in Boston in 1635. Thomas Bliss died at Hartford in 1640. Four of his five sons came to Springfield, Mass., in 1643, and their mother, Margaret Bliss, soon followed, making the journey in five days through the forests to Hartford. She bought a tract of land on the Connecticut River, through which now extends Margaret and Bliss streets, named for them. From her comes the "Springfield family," which is now scattered over the world, having three of its members missionaries in Turkey, while others have been traced to Asia, Africa and Australia. Among the famous members and descendants of the family are Ralph Waldo Emerson and the late P. P. Bliss, the singer, who was a descendant of the original Thomas Bliss. Ambrose W. Bliss is a native of Vermont, born in Jericho Township, Chittendon Co., Dec. 6, 1806, and the eighth child of a family of eleven children, viz.: Julius, Cynthia, Fannie, Hosea, Timothy, Laura, Lucia, Ambrose W., Lavina, George, and one deceased, born to Timothy and Anna (Campbell) Bliss, both of whom were natives of Connecticut. Timothy was born Feb. 16, 1769, Anna Feb. 2, 1769. Ambrose was brought up on a farm. At the age of 18, he left home and learned the carpenter and millwright's trade. In the fall of 1833, he came to this State, working on the public works in the harbor at Cleveland and Black River, where he had charge of a force of men for some time. May 9, 1839, he married Emelue Palmer, born April 5, 1815, in Windsor, Conn., daughter of Hezekiah H. and Abigail (Taylor) Palmer. Mrs. Bliss was the second of a family of six who grew to maturity. Since Mr. Bliss was married he has been a constant resident of the township. When he first came, he and his brother Hosea purchased 148 acres (Lot 76) in partnership, upon which Hosea built a log-cabin. Ambrose in the meantime located one-half mile south of the Center on a tract of 30 acres, upon which he lived about three years and a half. He then purchased 165 acres at the Center, where he has since resided. While he has carried on farming since his coming, yet he has in the meantime been engaged at his trade, having built nearly all the aqueducts and lock-gates on the canal between Brecksville and Cleveland. Being an excellent work-

man, his services have been brought into requisition by the public. Mr. Bliss is one of the self-made men of this township. He has been industrious, prudent and economical, and has now 240 acres of good land. Since the dissolution of the Whig party, he has been a Republican, and has filled several offices of trust in the township and served two years as Commissioner of the county. He is not a member of any orthodox church, yet is a supporter of the Gospel and a friend to all religious orders and enterprises that are calculated to advance the interests of the community at large. He is a life member of the American Bible Society. He and his family patronize liberally the newspapers and monthly periodicals. Of four children born three are living—Ellen, Lorin and George. Horace was a member of Co. C, 115th O. V. I.; enlisted August, 1862, and died Feb. 20, 1863, of disease contracted in the army. All the Bliss family are Republicans with the exception of George Bliss, who was a Democrat. He represented this county in the State Legislature.

C. J. CHAFFEE, farmer and stock-raiser; son of Comfort and Perses (Skinner) Chaffee, was born in Hampden Co., Mass., April 14, 1817. Comfort's father bore the same name; he was a son of Asa, who was the son of Asa, Sr., which makes Comfort J., whose name heads this sketch, of the fifth generation from Asa Chaffee, Sr. The Chaffee family were among the stanch families in the Colonial times; nine of the family were represented in the war of the Revolution. Comfort, Sr., married Mary Bliss; their children were Comfort, Joel and Bliss. To Comfort and Perses were born ten children, of whom Polly (Mrs. G. Smith), settled in Springfield, Mass.; Rodolphus died in Michigan; John M. died in Springfield, Mass.; Jonathan S. died in Grand Haven, Mich.; Perses married S. Hunt, and raised four children; William P. lives in Wilberham, on his grandfather's place, and Electa settled in Hampden. Mr. Chaffee's great-uncle, Isaiah Ephraim, was among the number who chased the wolf in the den, which Maj. Putnam captured. Isaiah and William were at Braddock's defeat. Isaiah was in command of the wagon-train, and was attacked by the Indians; Isaac fought with desperation, and was finally shot, but had slain nine of the dusky warriors ere he received his death wound. Subject, being

of a mechanical turn of mind, worked in machine-shops, and was engaged for some time in the armory at Millberry—engaged in the manufacture of pistols and spring-bow callipers; also, at Chiekopee Falls, on slide wrenches. He came West in 1840, and worked at Brecks-ville a short time; then went to Elyria, and assisted in building the first machinery used in the mills by Herrick & Palmer; with this firm he remained nearly three years. June 24, 1845, he was married to Asenath Ward Ferry, born Nov. 13, 1819, in Massachusetts, a daughter of Noah Ferry and Rebecca Ward. Noah was born in Palmer, Mass., 1783; he had two sons and four daughters, whose names were James A., Asenath W., Sophia J., Rebecca, Maria and Noah F. Noah was a son of Judah and Hannah (Cooley) Ferry. Rebecca Ward was a daughter of Reuben Ward, whose wife was Rebecca (Firbush) Wood, a daughter of Dr. Wood. Reuben was a son of Lieut. Urijah Ward, and a brother of Sheriffs Asa, Calvin and Dr. John Ward. Perses, the mother of C. J., was a daughter of Jonathan V. and Drusilla (Perrin) Skinner, to whom were born five children—Aaron, who was a noted lawyer, George, Frank, Orin and Jonathan, who was a manufacturer. The Skinners were from England, and were among the first settlers in America. Mr. Chaffee has been a resident of this township for many years; he has been a successful farmer and has 375 acres of land, situate in the west part of the township; said farm is well adapted to farming and pasturage. The spars of Commodore Perry's boat were cut off this land, also the timber of which the vessel "Sardis" was built. Mr. Chaffee has been in the past quite extensively engaged in the dairy business, running 70 cows, but more recently is engaged in stock-raising. He has two children—Lucian M. and Anna M., now Mrs. Dr. Franklin M. Coates, in Berea, Cuyahoga Co.

Z. F. CHAMBERLIN, farmer; P. O. Macedonia. The Chamberlin family of this county, originated from William Chamberlin, who came from England to Connecticut, in 1780; his wife was Jemima Skinner. Amos, his son, married Jerusha Crane, by whom he had five sons and four daughters, viz., Horace A., Harris B., Schuyler M., Orville W., Henry H., Laura, Jerusha, Catharine and Cordelia. Horace A., was born in Hudson Township, March 24, 1819; Sept. 24, 1839, he married

Anna Post, who was born Nov. 28, 1820, in Hudson Township, daughter of Zina and Marena (Kellogg) Post. Zina was born in Saybrook, Conn., son of Joshua, who died in Connecticut. Marena was a daughter of Bradford Kellogg, a native of Vermont, who entered the Revolutionary war when young, and who being under-size, stood on a log at the time of inspection to raise him to regulation height. Zina Post was a soldier in the war of 1812, and at one time 250 of Hull's soldiers encamped one night on his premises and partook of his hospitality. To Horace and Anna (Post) Chamberlin were born six children—Zina F. and Francis A., now in Newburg in the wire works; Edward A., at Cuyahoga Falls, in rivet manufacturing; Horace A. and Willie E., on the homestead; Delos (deceased); Horace A., died Oct. 30, 1876; his wife is yet living. Zina F. and his father were born on the same farm. March 20, 1862; he married Sarah A. Paxson, born in Stark Co., Lexington Township, Ohio, April 20, 1841, daughter of Heston C. and Rachel (Ingledue) Paxson, her father was born Feb. 17, 1794, in Lancaster Co., Penn., son of William, whose ancestors came from England. Rachel Ingledue was a daughter of Blackstone and Nellie (Wheat) Ingledue, to whom were born, seven children—Reason, Eber, William Rachel, Parmelia and Ellen. To Heston and Rachel Paxson were born four children whose names are Ezra W., now in Stark County; Lucinda, now in Marshall Co., Iowa, the wife of R. Strang; Melinda (Mrs. Joseph Sheets), Stark Co., Ohio, and Sarah A. (Mrs. Chamberlin). Since the marriage of Mr. and Mrs. Chamberlin they have been constant residents of this township, with the exception of one year spent in Cleveland and a short time in Hudson Township. He is now located on the farm his father (Horace) owned, situated on Lot 8, which is one of the finest locations (inclusive of house and farm buildings) in the township. His farm consists of 150 acres. He has but one child—Hanmer E., born July 14, 1866. The Chamberlin and Post families are Republicans.

MRS. GEORGE DARLING, Northfield; was born in Putnam, Washington Co., N. Y., March 11, 1821. Her parents were Robert Sheill, who was born in Scotland, Oct. 28, 1784, and died Oct. 11, 1834, and Mary (Easton) Sheill born Aug. 13, 1789, and died March 7, 1828. Rob-

ert Sheill was a son of William Sheill who was born in 1760, and died in June, 1844. Mary Easton was a daughter of George Easton and Margaret (Hutton) Easton, who was a daughter of William Hutton, of Scotland. To Robert Sheill and wife were born nine children—Margaret, Elizabeth, Jane, Janette, Agnes, Mary, Bathsheba (Mrs. Darling), William and Robert. Jane, Agnes, Mary, Bathsheba and Robert are the surviving members at this date (1881). Robert Sheill was a weaver in his native home (Scotland). George Easton was a soldier in the Revolutionary war. Adam Darling was born in Scotland about the year 1778, and was married to Elizabeth Porteous Dec. 18, 1812. In the year 1816, they emigrated to America, landing at Baltimore, where they remained for about a year, and from there they removed to Putnam, Washington Co., N. Y. To Adam and Elizabeth were born ten children—George, born Jan. 8, 1814, at Dunbar, Scotland; John, Helen, James, Margaret, Thomas, William, Janette, Elizabeth and Mary. Those living are James, of Sac Co., Iowa; Margaret, Mrs. Daniel Boyd, of Pocahontas Co., Iowa; Janette, Mrs. Adam Kuhn, of Houston Co., Minn.; Thomas, of Oakland Co., Mich., and Mary, Mrs. Isaac Thompson, of Houston Co., Minn. George Darling and Bathsheba Sheill were married in Putnam, Washington Co., N. Y., June 13, 1843. In the year 1845, they removed to Northfield, and located one-fourth mile north of the Center. Mr. Darling was a carpenter by trade, as was his father, and, during his life, he pursued his trade industriously. He died June 24, 1880, at the age of 66 years. He was a member of the United Presbyterian Church for upward of forty years, and was highly respected by all who knew him. His wife and four children remain on the homestead with their mother. Mary E. is one of the most successful teachers of the county, having an experience of twenty-eight terms of teaching. Margaret A., relict of Thomas McArthur, of Putnam, Washington Co., N. Y., who died Sept. 6, 1876, leaving one child—Ida Marion. Robert A. and Georgiana are at home.

J. C. DEISMAN, farmer; P. O. Northfield; born May 12, 1831, in Salem, Columbiana Co., Ohio, the second child born to Henry L. and Letitia (Coulson) Deisman. He was born Feb. 27, 1807, in Warrington Township, in York Co., Penn., whose father bore the same name (H. L.).

Was a native of Germany; came to America prior to the war of the Revolution, when he was 14 years of age, and was sold to pay his passage money. He settled in Pennsylvania, and raised a family of seven children, who were Rebecca, Rachel, Susan, Elizabeth, Mary, Henry L. and John. The father of James C., our subject, was a weaver by trade, which vocation he followed for many years. In 1828, was married to Letitia Coulson, whose birth was Nov. 5, 1809, in same county as her husband; she was a daughter of Charles and Elizabeth (Glass) Coulson; he was a son of David, whose wife was Jane Clark. Mrs. Deisman was the only child born to her parents that lived to be grown. Elizabeth Glass was a daughter of Daniel and Letta (Gray) Glass, both natives of Ireland; they had children as follows: William, Daniel and John. The children of David Coulson were William and Charles. Mr. and Mrs. Deisman came West to Columbiana County, about the year 1830, and, about seven years afterward, came to this township with \$160, purchasing 35 acres on Lot 41, costing him \$6.25 per acre, with no improvements, here they settled, when he got his cabin built had 50 cents left, he working at his trade when not engaged at his home on the farm, and paid for his land, remaining on the same until his death, Oct. 8, 1867, having been for many years a member of the Methodist Episcopal Church. His wife yet survives him; has been a member of the same church since 16 years of age. James C. left home soon after 21; Nov. 15, 1858, was married to Elizabeth Patterson, born Jan. 15, 1835, daughter of Thomas and Jane McNeelen, born December, 1799; he was born in Pennsylvania Jan. 22, 1797, son of Andrew, who was a Virginian. The mother of Thomas Patterson was Mary Bell. The children of Andrew, were Andrew, Nathaniel, Thomas, Belsey and Polly. Jane McNeelen's parents were William and Mary (Ray) McNeelen, whose offspring were Ellen, Jane, Peggy, Eliza, Nancy, William and Samuel. The parents of Mrs. Deisman came West in 1857, to Bedford Township, Cuyahoga Co.; they had six children—William, James, Thomas, Ellen, Mary and Lizzie; parents died, he 1878, she 1844. After Mr. and Mrs. Deisman was married, they located in Bedford Township, remaining there until 1870, when he moved to the township, purchasing 103 acres on Lot 61,

where he has since resided; has one daughter—Emma, born 1860. Mrs. Deisman is a member of the Methodist Episcopal Church. He is a member of Bedford Lodge, No. 375, A., F. & A. M., also of the Chapter of R. A. Masons.

JOHN DOSENBURY, farmer; P. O. Northfield; was born Dec. 1, 1800, in Hunterdon Co., N. J., to Cornelius and Mary (Stillwell) Dosenbury. Cornelius was a son of Abram, who was a soldier in the war of the Revolution; he and all his brothers served under Gen. Washington in the battles of Trenton, Princeton, etc. Abram Dosenbury was a native of Holland, and emigrated to the United States about the middle of the seventeenth century. Mary was a daughter of John Stillwell, whose wife was Sarah Stevenson, whose family was from Germany. Cornelius had ten children born him, viz., Sarah, Ann, John, Hannah, Elizabeth, Charity, Rebecca, Phineas, Cornelius, and Phebe (deceased). John left home at 21, and moved about from place to place for several years before he settled down; then, in 1829, he came West and stayed one year in Michigan; also some length of time near Zanesville. Nov. 14, 1835, he married Ruth Duncan, born Dec. 6, 1816, in Beaver Co., Penn.; she was the daughter of John and Elizabeth (McLean) Duncan. John Duncan's parents came from Ireland, and he was born on the sea while his parents were coming to this country. Thirteen children were born them; eleven grew up, whose names were Robert, John, Hannah, Ruth, McLean, William, Elizabeth, Mary, James, Simeon and Perry. The Duncan family settled in this township about the year 1821. To Mr. Dosenbury nine children were born; those living are William (in Montcalm Co., Mich.), John (in Pierson, same State), Sarah (this county), George, Cornelius, Frank, Harriet (at home) and Jane (died at 31). John built the first house in Pierson. Mrs. Dosenbury is a member of the M. E. Church. He is not a member of any denomination, but is a believer in Spiritualism.

L. R. FOSTER, farmer; P. O. Macedonia; was born in Warrensburg, Warren Co., N. Y., Aug. 7, 1831, to Lyman and Minerva (Everest) Foster. His father was born Feb. 28, 1805, near Augusta, Maine; he was a son of Eli and Amy (Carpenter) Foster. The Fosters are of Irish ancestry. The tradition is, that four brothers came from Ireland and settled in the

Eastern States; from them have descended the existing families of the name. To Eli and Amy were born Fannie, Lyman, Eli and Eliza. Minerva Everest was born in Essex Co., N. Y., June 17, 1806, daughter of William Everest, who was born Sept. 24, 1771, in Addison Co., Vt., son of Zadock Everest, whose ancestors came from England, and are in direct line of connection with the Dudley family. Zadock Everest was one of the early settlers in Addison Co., Vt. The first session of court in that county was held in his house, and at the time of the Revolution his house was headquarters for the officers of the troops, who were encamped on the farm. To Zadock were born thirteen children. William Everest married Mina Holcomb, by whom he had thirteen children, nine of whom grew to maturity—William B., Harvey, Almira, Clarissa, Minerva, Amanda, Miranda, Zadock and Marshall. Eli Foster and wife, after marriage, moved to Maine, where Lyman (the father of L. R.) was born, and when 10 years of age, removed with his parents to Warren Co., N. Y. The parents of our subject were married March 10, 1829; to them were born eight children, viz.: Orlando, Le Roy R., Andrew J., Amanda E., Alonzo L., Sarah J., Rada M. and Amelia M. The parents of the above came West in 1841, and located in Macedonia, with a family of six children and \$52 in money, and a scanty amount of household goods; though poor, being industrious and handy with tools, by working at the carpenter's trade and whatever labor was the most remunerative, he was successful and acquired a good home and a competence. He died Sept. 24, 1875. He was one of the founders of the Baptist Church, and was for many years a regularly ordained Deacon of the same; was a free and outspoken man in whatever he deemed was right; was a friend of the bondman, who were fleeing for liberty, ever found in him a true friend, and was a man who never aspired after political preferment. William Everest and wife came West to this State in 1841, where they lived until their death. His decease took place Jan. 23, 1856; his wife's in April, 1861. Our subject was raised to farming, and at the age of 19, began teaching in the public schools; he taught singing classes during the winter; music is a talent that has always predominated in the family. July 1, 1859, he married Maria Stevens, born in Princeville, Peoria Co., Ill.,

daughter of William and Maria (Blood) Stevens. Mr. Stevens is now an extensive land owner in Quiver Township, Mason Co., Ill. Mrs. Foster died Nov. 1, 1862, leaving one child—Ora M. Mr. Foster has 175 acres of land, and, though not a member of any church, is a friend to and supporter of Christianity, and an active worker and superintendent of the Sunday school. He is a true Republican, and a strong temperance man.

GEORGE FORBES, stock-trader, Macedonia. Esquire Forbes was born April 27, 1840, in Aberdeen Co., Scotland, and was the youngest of a family of nine children born to Nathaniel and Margaret Souder. His father was born about the year 1794, son of William Forbes. Margaret was a daughter of Robert Souder, to whom were born two children—Margaret and Mary, both living. The family emigrated to this State, locating in Cuyahoga Co., Solon Township, in 1852. Nine children were born to them, eight living—Mary (now in Solon, the wife of George Cowan), Robert (in Bedford Township), Margaret and Isabella (same township), also John and James (of this township), and Alexander (a teacher of Cleveland). After several years' residence, Nathaniel purchased land and located in this township in 1862. His death occurred May, 1875; his wife, still living, is a resident of Bedford Township. George was raised to farming pursuits; receiving the advantages afforded at the common district school and at Hiram, he launched out as a teacher, and was successfully engaged for several years. Since 1864, he has been engaged in stock-trading. In June, 1875, he formed a matrimonial alliance with Fannie Bliss. Since April, 1876, he has served as Justice of the Peace. His good judgment, aided by his studied acquaintance with common law, conspire to make him an able and satisfactory officer. Although not a member of any church, he contributes to the support of the Gospel.

ELIHU GRISWOLD, retired farmer; P. O. Macedonia; born in Schroon, Essex Co., N. Y., Sept. 2, 1807; was raised in Essex Co., where his father, Elihu, died. Mr. Griswold came West to this township May 19, 1832, and purchased 164 acres on Lot 7, from Henry M. Boardman, upon which there were no improvements whatever. Building him a small cabin a short distance north of his present residence; he then cut off about ten acres and sowed the

same in wheat; the following year, while this was maturing, he returned East to his native county, and was married to Betsy Potter, and returned with her the same week; he started, driving the entire distance, in a buggy borrowed from Col. Arthur, of Northfield Center. Since Mr. Griswold came, he has resided on his first purchase. In 1843, he built his present residence. His wife died Dec. 30, 1862, leaving no issue. June 14, 1863, he was married to Louisa, born, 1841, in this township, daughter of William and Sarah (Baum) Powell. Mr. Griswold has been seriously injured by a fall occasioned by a horse running away; his health and mental faculties are impaired to such an extent as to render him incompetent to attend to his own business affairs, of which Mrs. Griswold has taken charge, and, in the management of the same, she has displayed a spirit of enterprise and business tact not seen in the average woman. She has been a member of the M. E. Church for over a score of years. Mr. Griswold is not a member of any church, yet has always been an honorable man, upright and straight in his business transactions, and has been highly respected in the community. They have one son—Elihu W., born Nov. 8, 1865. He owns 186 acres of land.

MRS. ALMIRA HERBERT, retired; P. O. Macedonia; third daughter of Elisha and Sarah (Simms) Hyde; was born Sept. 28, 1812, in Hartwick, Otsego Co., N. Y. Elisha was raised in Vermont; Sarah Simms was born in Rhode Island, and was the daughter of a sea-faring man, who was the captain of a merchantman; the family are supposed to be of English descent. To Elisha was born Grace, who married Truman Chaffee, who settled in Trumbull Co., this State, and raised a large family; they finally located in Orwell, Ashtabula Co.; Sarah also settled in Trumbull Co. after becoming the wife of Horace Mansfield; they raised no family. Elisha Hyde was a soldier in the war of 1812; he died Oct. 8, 1862, his wife in 1827; both were members of the M. E. Church. Mrs. Herbert came West to Trumbull Co. in 1824, with her parents, who settled in Farmington, where they died, as per above statement. Sept. 9, 1845, she was married to James Herbert, who was born in Leitrim Co., Ireland; his parents were William and Jane (Saddler) Herbert. Mr. John Senters was a boon companion to Mr. Herbert, and came with him from

the same county in Ireland to this State, and together they worked on the public works at Cleveland and at Akron; after saving some money, they made their first purchase in partnership, one taking the south part of the lot and the other the north. Mr. Herbert died in 1865. Mrs. Herbert is a member of the M. E. Church.

J. A. HERBERT, farmer; P. O. Macedonia. John A. Herbert was born on the farm where he now lives June 21, 1852; he is the third child of four born to James and Almira (Hyde) Herbert; Hattie is an experienced and successful teacher, and Sarah is the wife of O. T. Holbrook, of this township. John A. was married to Mary Means, born Oct. 24, 1857; she is a daughter of Andrew S. Means, one of the prominent farmers and pioneers of this township; they have one child, Ouida. John A. now resides on the homestead farm, which contains 206 $\frac{3}{4}$ acres; his mother and sister Hattie reside in Macedonia.

HORACE HOLBROOK, retired farmer; P. O. Macedonia; third child of John and Susannah (Towne) Holbrook, was born in Essex Co., Vt., June 19, 1803. He was one of ten children—eight of whom lived to be grown, whose names were Rebecca, Horace, Salem, Adaline, Alanson, Irena, William H. and Nelson M. The boys are yet living—Salem in Wisconsin, Alanson in Michigan, William in New York, Nelson in Iowa, Horace in this township. Irena is not married, and resides in Michigan. Job was the grandfather of Horace, and married Naomi Stebbins. Jonathan and William Towne served in the war of the Revolution, and Alanson Holbrook in that of 1812. The Towne family trace their origin to William Towne, an Anglo-American, born about the year 1600, who came to Salem, Mass., in 1640, and afterward removed to Topsfield in 1852, where he died, aged 72. His son Jacob was born in 1631, and in 1657, married Catharine Symonds, and by her had six children. John, his son, was born April 2, 1658. Feb. 2, 1680, he married Mary Smith, and settled in Oxford in 1712. Ten children were born him. The next generation was Israel, born Nov. 18, 1684—married Susan Haven, who bore him ten children. Israel, the next in order, was born Feb. 12, 1727, purchased a farm in Belchertown in 1749, married Naomi Stebbins in 1754. She was born Nov. 9, 1735. He died Dec. 10, 1805, in his 78th year, and she on Feb. 12, 1827, in

her 92d year. All of the children, ten in number, were born and brought up in Belchertown. Next was Salem Towne, born March 5, 1779, married Abigail King, March 26, 1807, and lived in Granville, N. Y., until 1829, when he moved to Aurora. Abigail was born Oct. 12, 1781; she died while on a visit to Gallipolis, Ohio, Dec. 7, 1840, in her 60th year. The children, seven in number, were all born in Granville, N. Y. Horace was raised a farmer; leaving home at 21, he embarked for himself, and worked out by the month. In the spring of 1834, he came West, purchasing, where he now lives, 80 acres. Returning in 1835, he married Mary Guthrie, born in 1809; a daughter of James Guthrie, whose wife was a Munson. His wife died fourteen months after their marriage, leaving no issue. April 11, 1839, he married Susan Thompson, born in Hudson Township, Oct. 2, 1802; daughter of Moses and Elizabeth (Mills) Thompson. She died in January, 1879; by her he had one son, Ossian T., who now resides with Mr. Holbrook on the homestead. His present wife was a daughter of James Herbert, one of the old settlers of the township. Mr. Holbrook began in life poor, and has now 175 acres, situated a short distance north of Macedonia. He is a member of the Presbyterian Church, and one of the solid and substantial representatives of the community.

C. HUNT, farmer; P. O. Northfield. Calvin Hunt is the youngest of a family of eleven children, whose parents were Abner and Betsy (Johnson) Hunt. The names of the children born them were Lovina, Almira, Nancy, Abner, William, Norman, Russel, Marshall, Hannah and Calvin, all of whom lived to be men and women. Abner Hunt was born in Massachusetts Aug. 18, 1791; wife born in same State in 1788. Abner was a son of Jacob Hunt, who was a soldier in the war of 1812. To him were born children as follows: Jacob, Thomas, John, Sallie and Hannah. Abner Hunt came West in 1817, remaining one year on Tinker's Creek, in Cuyahoga Co.; the year following, came to this township, where he rented land several years; coming here poor, had but little means to do with. March, 1825, located in the north part of the township on Lot 72, purchasing 38 acres of Dorsey Viers; no improvements at the time of purchase. Ten years afterward, he added 14 acres more, which was the date of Calvin's

birth, which occurred Oct. 13, 1835, on the same farm where he now resides, which his father first purchased, and remained on the same until his death, which took place Jan. 17, 1876; his wife "passed over" Oct. 1, just two years previously. Both of them were members of the Methodist Episcopal Church ere they came to this State, and were among the first members who united with the church at the Center at the time of its organization. Mr. Hunt was an Old-Line Whig, and one of the esteemed citizens of his township. Calvin, being the youngest of the family, has never left the homestead. March 24, 1865, married Victoria Waite, daughter of Walter and Polly (Hopkins) Waite, who were natives of Maine, and came to Richfield Township, this county, when the country was comparatively new. Mrs. Hunt was born in Northampton, June 4, 1829, and bore him two children—Edwin Odell and Mary Blanche. Aug. 27, 1880, after a short illness, Mrs. Hunt closed her eyes in death, and joined the "innumerable throng," leaving her husband and two children to mourn her demise. She was a member of the Methodist Episcopal Church, in which she was a great worker, in the Sunday school a valued worker, and was a lady of superior mental worth, and, possessing many personal attractions, was a bright light in society, a kind associate, a true wife and devoted mother. Mr. Hunt is also a member of the church of his parents' choice, and class-leader. Mr. Hunt, the father of Calvin, had, at the time of his death, fifty-four grandchildren and forty-six great grandchildren. Mr. Hunt has 104 acres of land, and is among the well-to-do farmers in the township.

WILLIAM HURST, farmer; P. O. Bedford; this worthy gentleman is a native of Ireland, born March 26, 1815, in County Leitrim. His parents were William and Catharine (Senters) Hurst. William was a son of Robert whose wife was Jane McLean, to whom were born Joshua, James, Thomas and William. Catharine was a daughter of Charles, whose wife was a Stinson before marriage. They had children as follows—Charles, William, Catharine and Mary. By his second marriage he had one child only, named Margaret. To the parents of Mr. Hurst were born ten children, seven sons and three daughters; but four grew to maturity, viz., John, William, Mary and Jane; Mary never came to this country; she married

William McDermot ; Jane died in Ireland at the age of 22 ; John settled in Canada. The religion of the family was of the Episcopal order. The father of William was a weaver by trade ; he died when William was a lad of 10 years ; he was raised by his mother until he was 19 years of age ; two years after he set sail for America, landing in Quebec ; after a short stay he came to this county, in 1836. Stow Township was his first home in America. Here he " hired out " by the month. Oct. 27, 1846, he married Fanny O'Brien, who was born July 9, 1818, in Hudson Township, daughter of Henry and Sarah (Walker) O'Brien, who were both natives of Ireland, and located in Hudson Township in 1802. To them were born David, William, Martin, Moses, Mary, Harriet, Fannie and Sarah. After Mr. Hurst's marriage he moved to Michigan (Kalamazoo), where he purchased 123 acres of land ; after keeping the same four years and a half, he sold it at a gain. Upon his return from Michigan he located on his father-in law O'Brien's farm, where he stayed two years and then bought 165 acres one mile and a half northeast of Hudson, where he remained from 1853 to 1863. Then he purchased 194 acres in Twinsburg Township. In March, 1869, he moved to his present place, where he has 53 acres ; his house and 5 acres stand in Bedford Township, the remainder (245 acres) is in Summit County. January, 1856, his wife died, leaving no issue. He was married May 27, 1858, to Mary Spafford, born in this township May 7, 1838, daughter of Nathan B. and Mary Morrison. Her mother was born in New Hampshire in 1800, her father in Chittenden, Vermont, in 1791. He was a soldier in the war of 1812, as was also John Morrison (Mrs. Hurst's grandfather). Mr. and Mrs. H. are members of the Episcopal Church.

J. W. HYNTON, farmer ; P. O. Northfield ; son of John and Elizabeth (Halpenneg) Hynton ; was born in this township in 1850. Mr. John Hynton was born in Wicklow Co., Ireland, June, 1810 ; he was a son of John Hynton. Elizabeth was born March 5, 1822, in the same county ; her father's name was John Halpenneg, and he married Mary Tumma. John Hynton, the father of our subject, was a man of education and culture ; he came to America about the year 1840. Soon after his marriage, he and his brother Edward

made a purchase of 147 acres in the northwest corner of the township, where they engaged in business together ; uniting their energies, they were successful in accumulating property. He remained on the farm until 1860, when he moved across the line into Cuyahoga County, where he died Sept. 15. His brother Edward died in 1879. They were men of honor, and commanded the respect of all who came in contact with them, either in a business or social way. To John Hynton were born four children, viz., Mary (Mrs. H. Dubler, of Newburg. Catharine (Mrs. T. Walsh, of Cleveland), John W. and Elizabeth (now Mrs. James Cassidy, of Boston Township). May 23, 1876, subject was married to Anna Cassidy, born in Boston, daughter of Patrick Cassidy, to whom were born seven children. In April, 1872, J. W. settled on the farm he now owns, which consists of 95 acres. He has three children, viz., Lucy M., Agnes B., and Frances E. The mother of J. W. lives on the farm, where her husband resided at the time of his death.

W. H. KUHN, farmer ; P. O. Bedford ; was born March 22, 1813, in Allegheny Co., Penn., to Archibald and Martha (Stotlar) Kuhn. Archibald was a son of Michael, to whom were born five sons and three daughters, whose names were Eve, Archibald, Adam, Samuel, John, Mary, David and Nancy. Michael's father was a native of Holland ; so also were the Stotlars. Our subject was the youngest of a family of eight children—Michael, Jacob, Nancy, Archie, David, Catharine, John and William H. The great-grandfather of W. H. was Adam Kuhn, whose wife was Eve, and whom were born Michael, Nicholas and Samuel. Archibald was a Federalist, and took an active part in the affairs of his county. He represented his county in the State Legislature ; was a commissioned officer during the war of 1812. Archibald Kuhn and wife died before W. H. was grown, yet he remained on the homestead until his marriage, March 7, 1843 ; he married Mary Elder, born Feb. 28, 1824, in Indiana Co., Penn., daughter of Rev. Robert and Jane (McConaughy) Elder. Robert was born near Harrisburg ; son of John Elder, who had six children—Joseph, Thomas, James, Robert, Belle and Betsey. Robert Elder's mother's name was Polly Caruthers. The Elders left the north part of Ireland for Scotland at the time of its insurrection, or religious persecu-

tion. To Robert McConaughy were born nine children; of the boys, Simon and James came West and settled in Ashland County. Robert Elder, the father of Mrs. Kuhn, was a soldier in the war of 1812; also Samuel Kuhn, the uncle of William H. While Mr. Kuhn (W. H.) was yet a young man, he was elected Major of the Seventh Battalion of Alleghany County Volunteers, being the youngest officer in the battalion. In June, 1843, he came to this township, where he purchased 107 acres on Lots 31 and 41. He has now 204 acres. To him have been born ten children; of those living are Margaret J., the wife of John Shirk, of Muscatine, Iowa; Luther, in same county; Robert, now a practitioner of materia medica in Shelby Co., Iowa; Mary, Willie and Frankie, at home; Luie, at school preparing for the ministry. Since Mr. Kuhn was 16 years of age, he has been a member of the church of his parent's choice (Presbyterian), and is now an official member of the same. Mr. Kuhn is one of the successful farmers of the township, as well as one of its valued citizens. He is a liberal supporter of the leading journals and periodicals of the day.

A. J. KELTY, farmer; P. O. Macedonia; born May 24, 1841, in Columbiana Co.; is the son of Owen H. and Ruth Hinksman. His father was born in 1812, in Salem Co., N. J.; he was a son of William Kelty who was in the war of the Revolution, with two of his brothers, of whom nothing was heard after the war's termination. The Keltys are of Dutch descent. To Owen and wife were born William, Aaron, Samuel, Sarah, Andrew and Henry. The family came first to Columbiana Co., where Owen settled on a squatter's claim; subsequently moved to Bedford Township, in Cuyahoga Co.; here he died, in November, 1869. A. J. was raised at home until 20 years of age, when he began for himself. Sept. 16, 1866, he married Harriet Powell, born Jan. 16, 1845, in this township, daughter of William and Sarah Powell. Mr. Kelty moved on this farm in March, 1869, having then 88 acres. Mr. Kelty is a hard-working man, and is making financial success. He has five children, viz., Henry, George, Harriet, Anna M. and Charlie A. Mr. Kelty had three brothers in the late war. Aaron was in the 90th Regiment and 5th Cavalry, and served about four years; he was nine months in Libby Prison, and, when he was released, weighed only eighty-

six pounds. Samuel did duty on Johnson's Island two years. Henry served four years in Co. K, 9th Ohio Battery. Mrs. Kelty has been a member of the Methodist Episcopal Church since 14 years of age. Mr. Kelty's family are "Disciples."

H. LANFORD, farmer; P. O. Northfield; born Jan. 2, 1804, in the Town of Schroon, Essex Co., N. Y.; is a son of Daniel, who was born in Connecticut, and served in the Continental Army, participating in the battle of Bunker Hill. His wife was Jemima Hotchkiss, who was born in Clarendon, Vt. To this couple were born fifteen children, and fourteen of the number grew to maturity. Elias, Daniel and Luther were among the sons, all of whom participated in the war of 1812; Elias was killed at Plattsburg. The Lanfords are of Irish descent; Daniel's father emigrated from Ireland to the Middle States several years prior to the Revolutionary war. Hezekiah left home at 10 years of age, and was raised by one Mr. Lockwood. At the age of 22, Aug. 3, 1825, he married Roba Scriptures, born March 21, 1811, in Chesterfield, Essex Co., N. Y., a daughter of John and Betsey (Chamberlain) Scriptures; her father was born in Concord, N. H., about the year 1770; his parents were Samuel and Hannah (Barrett) Scriptures. Samuel came from England, when he was 17 years of age; Hannah was a native of Holland, and quite young when she came with her parents to America. To Samuel and Hannah were born twelve children. Betsey Chamberlain was a daughter of John and Betsey (Bowman) Chamberlain; the latter family came from Goffstown, N. H. Betsey Bowman's parents died when she was quite young; her father's name was Charles. John and Betsey had five children born to them. John Scriptures was twice married; first to Polly Saunders, and by her had nine children; his second marriage was to Mrs. Betsey Mace, who had nine children by her first husband; by the last union five were born—Jernia, Ezra, Wesley, Sallie and Roba. These twenty-three children were raised together, and their relations were of the most harmonious character. After Mr. Lanford's marriage, he worked several years at Schroon, in a saw-mill. In August, 1833, he came West to Franklin Township, Portage Co., where he engaged to work for Zeno Kent, at general farm and mill work; while here, he took up

carpenter and joiner work, and did considerable in this line. March, 1841, he came to this township, and bought 5 acres on Lot 3, in this township, which he kept about seven years, and sold to Charles West; then removed to the northeastern part of the township, purchasing about 40 acres, where he remained until 1861, when he came to his present place (on Lot 86), purchasing 86 acres. Mr. Lanford came to this country a poor man; when he arrived at Franklin Township, he had \$7, a sick wife, and two children, and with the aid of his wife earned what they have by hard labor and economy. They have six children—three living—Harriet (Mrs. Berry), Lorenzo and Milo at home. Aug. 3, 1875, Mr. and Mrs. Lanford celebrated their golden wedding.

REV. JAMES W. LOGUE, minister, Northfield, was born July 17, 1812, in York Co., Penn., to James and Jennette (Gibson) Logue. The grandfather of our subject was James, whose birthplace was Ireland, and he emigrated to America prior to the war of the Revolution, in which he was a participant, serving through the entire struggle. He married Ann Gabby, and by her had two children—James and Ann. Jeanette Gibson was a daughter of James, a native of Scotland, but married his wife after his arrival to this country, and by her had twelve children. To James and Jeanette Logue were born quite a numerous family, but four of the number grew to man's estate, viz., Ann John, Elizabeth and James W. Our subject remained under the guardianship of his parents until he was 20 years of age, when he entered Jefferson College, thence to Union College, New York State, where he received his graduation honors, after which he entered the theological school at Canonsburg, where he remained four years, and began his ministerial labors in 1841. June 6, 1843, he formed a matrimonial alliance with Mary J. Cooper, who was born in the city of Baltimore, Md., Dec. 3, 1820, daughter of Samuel and Jane (Campbell) Cooper. Her father was born in County Derry, Ireland, and Jane, his wife, was a native of Carlisle, Penn. To them were born twelve children, Mrs. Logue being the youngest. Immediately after the marriage of Rev. Logue, he moved West to this State, locating in this township, where he was installed as Pastor of the United Presbyterian Church, and since that time has administered to the spiritual

interests of his charge without intermission, and through his instrumentality many have been called from darkness to the marvelous light. To Mr. Logue have been born five children, of whom three are living, viz., Jennie C., now Lady Principal in Monmouth College, Illinois (she entered the arena as teacher at the age of 14); Joseph T., now attorney at law at Cleveland, and James R., now attending theological school in Allegheny Co., Penn. Nettie, now deceased, was the wife of Mr. J. C. Alexander. She died Feb. 15, 1874, aged 22.

WILLIAM M. LEMMON, farmer; P. O. Northfield; was born Oct. 27, 1822, in Westmoreland Co., Penn., to William M. and Jane (Matthews) Lemmon. The grandfather of our subject was named William also, and was a native of the Emerald Isle. The Matthews are of Scotch ancestry, and afterward settled in the North of Ireland. Mr. Lemmon came West with his father in the spring of 1832, when he was a lad of 10; he well remembers the long ride in the feed trough, the family coming through by covered wagon. His father previously purchased 160 acres on Lot 44, and coming out, found a "squatter" on the land, and gave him \$107 to vacate. There was a cabin built, and about twenty acres underbrushed and partially "slashed;" the remainder was as nature produced it. The old log cabin stood in the road, about twenty rods north of Mr. Lemmon's present residence. When his father came he labored arduously, and, by much self-denial and good management, he succeeded in paying for his land. Eight children were born them; seven grew up—Samuel, Martha, William, Jane, John, Archibald, Robert and James. William L. and John now only are left. His grandfather Lemmon was the father of James, Thomas and William, and was a soldier in the war of the Revolution. James Lemmon was in the 1812 war. The parents of William M. remained on the place where first they settled up to the time of their death; his death occurred May 13, 1858; his wife's June, 1857. He was one of the first Elders in the United Presbyterian Church at this place, and always bore a prominent part in the affairs of the church, ever ready to do his duty and to advance the cause of his Master. William M. was 22 years of age, when he began for himself; he made his commencement by working out by the day and month for such remunera-

tion as the times and circumstances afforded. He worked sixty days for a 2-year-old colt, and the same time for a yoke of young steers. His first purchase was twenty acres of land, when he was 26 years of age, for which he paid \$425. He shortly afterward sold it at an advance of \$200, and, in 1851, he went to Allegan Co., Mich., where he purchased 100 acres, which he farmed for five years, and then sold it, and, with the price it and its productions brought him, he returned to this township in the spring of 1858, and purchased the homestead farm, on which he has since been a resident. His marriage took place March 1, 1854, with Ellen Kerr, who was born in Columbiana Co., Ohio, Oct. 14, 1825, daughter of James and Mary (McClellan) Kerr. Her father was born in Adams Co., Penn., Aug. 1, 1788, and her mother in Chester Co., Penn., Feb. 14, 1789. They came to Salem, Columbiana Co., this State, in 1807, were married in 1819, and had seven children, who grew to man's estate. The Kerrs and McClellans are of Scotch ancestry. Mary McClellan's father's name was James, and he was a Revolutionary soldier. His wife was Hannah Withrow. To them were born Samuel, William, Robert, John, Lindsey, Mary, Thomas, Rebecca, Anna and Elizabeth. To James Kerr were born Hannah, William, James, Ellen J., John, Rebecca A. and David. The father died Dec. 5, 1869; his wife now lives in Columbiana Co., and is 92 years of age. Both were members of the Old School Presbyterian Church. The father of James Kerr, above mentioned, was likewise named James, and a native of Ireland. His wife was Jane McAdams. Mr. Lemmon was bereft of his wife Aug. 19, 1872. She left him four children, viz., Mary J., Harvey K., Lizzie H. and Mattie A. Mr. Lemmon and wife have long been associated with the church. His father was in early times Democratic in his political views, but later in life he was *en rapport* with principles which favored the abolition of the system of slavery. Mr. Lemmon has now 193 acres of land, and is one of the most affluent agriculturists of the township.

ALEXANDER McCONNELL, farmer; P. O. Northfield; is a native of the Emerald Isle, and was born July 22, 1824, to John and Sarah (Rogers) McConnell, being one of ten children. Emigrating to this State in June, 1834, John located in Coshocton Co., where Alexander

was raised to farming, and lived with his parents until his marriage, which occurred May 15, 1850. His wife's maiden name was Ann Whaley, a native of this county. By her he had one child—George A., who died at the age of 2 years and 4 days. Mr. McConnell had the misfortune to lose his wife after three years of married life. April 24, 1856, he was married to Mary J. Nesbit, born in this township Oct. 20, 1832, daughter of John and Ann (Matthews) Nesbit. After Mr. McConnell's first marriage, he located on 200 acres of land in Coshocton Co., upon which he lived until his advent to this county, when he disposed of his farm, and located in this township, April, 1859, on Lot 56, at the Center, where he has since resided. His original purchase consisted of 104 acres; ten years later, he purchased 25 acres adjoining him, on Lot 46. Mr. McConnell has had four children; three are living, viz., Hettie Ann, John N. and Emma J.; James L. died when 20 months old. Mr. McConnell and wife are members of the United Presbyterian Church; he has been associated with this denomination for over thirty years. Farming has been the business of his life; in the discharge of his duties as such he merits the name of being a snug and economical farmer, his farm and surroundings giving proof of the good management and taste of its proprietor.

JAMES M. McELROY, cheese manufactory, Northfield; was born in Westmoreland Co., Penn., March 20, 1826, the third of a family of fourteen children, ten of whom grew to maturity, whose parents were James and Ruth (Nesbit) McElroy. James was born in same county as son, in the year 1799, in May; she, in the same county and State, six weeks later, the same year as her husband. The grandfather of our subject was James, whose place of birth was Ireland. He came to Pennsylvania when a lad, where he afterward married Petsy Douglass; the children were born as indicated, John, Alexander, Mary and James. James, the father of James M., married Ruth Nesbit, and by her had Alexander, James M., William, John, Mary, Ann, Esther, David, Samuel and Elizabeth. Ruth Nesbit was a daughter of William and Esther (Robinson) Nesbit. James M. came West with his father to the north part of this township in June, 1838, where our subject was raised to farming. Since leaving the homestead, he has made many changes, and trav-

eled about considerably, but for the most part has been a resident of the township. In 1863, enlisted in Co. G, 115th O. V. I., and served twenty-three months, when he was discharged on account of disability from impaired eyesight, or "moon blindness." July 5, 1866, was married to Sarah McElroy, born in Westmoreland Co., Penn., Aug. 8, 1827; daughter of John and Sarah (Menoher) McElroy; she daughter of John and Jane (Clifford) Menoher. Mrs. McElroy came West the same year she was married. Mr. McElroy is proprietor and owner of "Spring Grove Cheese Factory," which he has run for several years. Has one son, Frank A., born in June, 1868. Mr. McElroy and wife are both members of the United Presbyterian Church.

MRS. ELIZA MCKISSON, farmer; P. O. Northfield; was born Sept. 13, 1812, in Onondaga Co., N. Y., to Abel and Betsy (Hill) Havens. Abel was young when his father died, leaving two children, himself and Cyrus. Betsy was a daughter of George and Esther (Cramer) Hill, to whom were born Jeremiah, Thomas, Betsy, Sallie, Mercy, Hannah and Nancy, all of whom lived to raise families. To Abel and Betsy Havens were born eight children, who were Eliza (Mrs. McK.), Harriet (now in Iowa Co., Iowa, the wife of A. Doty), George (who settled in Delaware Co., this State), William, Silas, Maria, Mahala and Clark. But three are living, Silas, in Delaware, Harriet and Mrs. Doty. Mr. Abel Havens and wife came to this township in 1818, when Mrs. McKisson was but 6 years of age. Her father settled in the east part of the township, where James Wallace now resides. Mr. Havens lived here many years, then moved to Twinsburg, where he lived until his removal to Delaware Co., Ohio, where his wife died in 1859. In 1866, he moved to Iowa, and lived with his daughter Harriet until his death, which event occurred July 24, 1874. Both he and his wife, for many years, had been members of the Methodist Church. In 1839, March 13, Eliza Havens became the wife of James McKisson, who was born in Harrison Co., Ohio, in 1811, and came to this township when it was comparatively new; he purchased this farm, and was among the first settlers. After Mr. and Mrs. McKisson were married, they moved into a log house, which is yet standing; in this they lived until the present brick structure was erected. Mr. McKisson died Aug. 19,

1866. He was a successful man in business. Since his death she has remained on the farm, where she has a nice residence and $71\frac{1}{3}$ acres, having no children.

R. M. J. MCKISSON, farmer; P. O. Northfield; was born on the farm he now owns, June 25, 1838; son of Robert and Rebecca (Viers) McKisson. Robert was a son of Samuel, who was among the early settlers in the township. R. M. J. was raised on the farm, and, at the age of 20, he left home; his first work was in the powder-mills; afterward he worked by the month and was engaged for three years in the lumber business; subsequently he purchased a canal-boat, and for three years and a half he boated, running from Cleveland to Portsmouth, dealing mostly in coal transportation; subsequently he engaged in the lumber business until 1871; has also been engaged on contracts for railroad companies; finally, he returned to the homestead, where he farmed the place until December, 1880, when he purchased the same; the farm consists of $160\frac{1}{2}$ acres. In 1860, he was married to Ellen Burns, born in 1844, in Bedford Township, Cuyahoga Co., daughter of Hugh and Margaret (Boyle) Burns, both natives of Ireland. Mr. McKisson has three children—Daniel, Ella A. and Margaret.

LEONARD McNIECE, farmer; P. O. Northfield; was born Dec. 29, 1818, in County Antrim, twelve miles from Belfast, and is a representative of one of the prominent families in the North of Ireland; his parents were Isaac and Jane (McKinstry) McNiece; Isaac was a son of Isaac, whose family consisted of six children—Isaac, Leonard, John, Rebecca, Maria and Ruth; Jane McKinstry was a daughter of Henry and Mary (McNitt) McKinstry, to whom were born a family of eleven children, viz., Henry, William, Robert, Ann, Charlotte, Sarah, Mary, Margaret, Eliza, Hannah and Rebecca. To Isaac and Jane McNiece were born Isaac Mc., Leonard, William H., Robert, Mary Jane, Eliza and Sarah. The religion of the family on both sides was Episcopalian, and all were members of the Established Church. Isaac, the father of the subject of our sketch, was a farmer and linen draper, but raised his sons to agricultural pursuits. Leonard left home at his majority, May 29, 1847. He married Ann Bell, who was born April, 1819, in Antrim Co.; her parents were Jonathan and Mary (Tipping) Bell, whose children were Nelson, Thomas, Jon-

athan, William, Mary J., Ann and Sarah; July 4, of the same year of their marriage, Mr. McNiece and wife started from Liverpool, and, after a voyage of fifty days, landed at Philadelphia, where they remained three months, then came direct to this township; upon his arrival he was poor, and for three years he worked as a common laborer, and saved means sufficient to enable him to make a payment on a piece of land on Lot 59, purchasing at first $31\frac{1}{2}$ acres of Homer Oviatt, for which he agreed to pay \$756; this he soon was enabled to call his own, and then added more at different times, until he acquired 120 acres, which, with the assistance of his worthy wife, he has earned by hard labor, much self-denial and constant savings, and is now among the substantial and opulent husbandmen of the township; he has improved his slender opportunities, and, in point of intelligence and general information, is well versed; his mind is well stored with historical events that are connected with the history of the old countries. Since his advent to this country, he has acted independent of sects and is a free and liberal thinker, and in matters of political nature is a sound Democrat, and still adheres to the principles and traditions inculcated in the old Jacksonian party. He is a worthy member of the community in which he resides. He has two children—Jonathan B. and Anna.

ANDREW S. MEANS, Macedonia; born Feb. 17, 1814, in Allegheny Co., Penn.; is the third of a family of seven children, all of whom raised families of their own. The parents of the above are Nathan and Elizabeth (Cochrane) Means. He was born July 20, 1784; son of John Means, of Irish descent, who had borne him Nathan, John, James, Joseph, Jane and Nancy Means. To Nathan was born John A., Samuel C., Andrew S., Elvira A. (Mrs. John F. Curry, in Allegheny Co., Penn.), Martha (Mrs. William Wood, same place), James (on the homestead), Robert S. (also in same place, on farm adjoining homestead). Nathan, the father of Andrew S., is yet living on the homestead, at the ripe age of 97. Elizabeth, his wife, was a daughter of Samuel Cochrane, to whom was born Polly, Sallie, Elizabeth, Ann, Margaret, Robert, Samuel, John and William, all dead. Nathan Means moved to Allegheny Co., Penn., in 1799, and was among the early settlers of that place. He was a tanner by occupation.

In 1810, he purchased and located on his present farm in Allegheny Co., Penn. Andrew S. was raised on the farm, and assisted his father in the tannery, remaining with him until 26 years of age. In March, 1840, he came to this township and purchased 160 acres of land, where he now resides. He had been out three years previously, and, liking the country, he returned and made the purchase as above mentioned. There were no improvements whatever on this land. He built a light cabin shortly after his arrival. January, 1842, he was married to Mary J. Wilson, born in Pittsburgh, Penn., June 8, 1820, daughter of John and Elizabeth (Morrow) Wilson, who were old settlers in Pennsylvania. Mrs. Means died May 6, 1872. They have had nine children—Elizabeth (now deceased), John W., Nathan A., Joseph M., James H., William R., Mary H. (Mrs. John A. Hibbard), Robert F. and Lillie. Mr. Means has 220 acres of land. He and his wife have been members of the Presbyterian Church for many years. He has now been a constant resident of this township for forty years, which long acquaintance has endeared him to his neighbors and friends.

MUNN BROS., Macedonia, sons of Hiram and Esther (Crammer) Munn. Hiram Munn was born August 10, 1800, in Trenton, N. J., son of Nathan and Esther (Warner) Munn, who had nine children, viz., Warner, Myron, Oscar, Eri, Archie and Hiram, Ruth, Betsy Ann, Irene and Lydia. Myron and Warner were in the war of 1812. Hiram emigrated to this State with his father about the year 1817. Hiram was a carpenter and cabinet-maker; he settled on Tinker's Creek, in Cuyahoga Co., where he engaged at his trade. Feb. 6, 1844, he became the husband of Esther Crammer, who was born July 14, 1814, in this township, daughter of Abram and Nancy Voster. Abram was born in New Jersey Aug. 10, 1787; Nancy in Amsterdam, Holland, Dec. 20, 1777; she was of a family of thirteen children; her father, Adrianas, died when she was young. Mrs. Munn came to this county with her parents about the year 1813, located on Lot 72, in this township, where they lived six years, then moved to Lot 54; about the year 1824, they moved to Macedonia, where Mr. Cranmer purchased 90 acres; it was a dense growth of timber; on the East the nearest neighbor was three miles. To them were born five children—Nancy (Mrs. Rev. L.

E. Beardsley), Esther (Mrs. Munn), Elizabeth (Mrs. W. Storrs), Isaac W. and Jeremiah. Shortly after the marriage of Mr. and Mrs. Munn, they located at Macedonia. Mr. Munn died suddenly March 29, 1880; for fifty years of his life he was a member of the M. E. Church, and was a licensed minister. His life was adorned by an upright Christian walk. To him were born eleven children; eight living—Irene (Mrs. Julius Brittan, of Portage Co.), Frances A. (Mrs. J. W. Caldwell, this township), Isaac W., Abram C. and Amos R. (twins), Zarada E. (wife of H. Bromley, general freight and ticket agent on the L. & S. R. R.), Ferdinand and Lillie (at home). Abram C. and Amos R., engaged in the mercantile business, in 1865, at Macedonia, and have since been doing a thriving and prosperous trade. They are young men of enterprise—keeping a general stock of such goods as are in demand by the people—dry goods, groceries, Yankee notions, etc., etc. Abram C. was commissioned Postmaster, and also express agent since that time. He is a member of Twinsburg Lodge No. 375, A., F. & A. M., and of Summit Chapter, R. A. M., No. 74. In 1874, he married Mary McLaughlin, has one child, Gracie A.

ALEX. NESBIT, farmer; was born on the farm he now owns, 1843, March 10, son of William and Lucinda Nesbit. William Nesbit was born March 24, 1794, in Westmoreland Co., Penn., and came to Ohio, settling in the township during its early settlement. He was a participant in the war of 1812, entering the war before he attained his manhood. His wife Lucinda was born Oct. 27, 1806, in Herkimer County, New York. She was a daughter of Asa and Phebe (Wood) Hungerford, to whom were born Lucinda, Asa and Horace. Horace, now in Portage County, Asa, in Allen County, both of this State. Phebe Wood was a daughter of Samuel and Petsey (Stewart) Wood, to whom was born Phebe, Henry, Betsey, Samuel, Silas, Lucy, Jonathan and Julia. Mrs. Nesbit removed west to Cuyahoga County with her parents when she was 3 years of age; both of them died shortly after their arrival to the State. She was raised by her grandfather Samuel Wood. She was first married to Thomas Johnson and by him had six children, four living; he died in 1837. Her second marriage was with Mr. Nesbit, and by him had seven children, of the number living, are Alex-

ander, David G., Emily L. and Caroline E. Mr. Nesbit was for many years a member of the U. P. Church. He died in October 1873. Dec. 16, 1874, Alexander was married to Josephine Fillius, born Nov. 15, 1843, in Hudson Township, daughter of Phillip and Barbara (Keis) Fillius; both were natives of the Old World; he was born in Bavaria, April 12, 1806, she in the Kingdom of Wurtemberg at Stuttgart in 1817. He was a son of Phillip. The family came to America, and to Cleveland in 1836, the year following located in Hudson Township. To them were born nine children, who were Catharine, Elizabeth, John, Josephine, Phillip, Jacob, Ella, Charles and Ernest. Mr. Nesbit has one child—Grace E., born Nov. 1, 1877. Her father (Mr. Nesbit) died 1878, her mother living.

JOHN NESBIT, farmer; P. O. Northfield; is a native of the Keystone State, born Oct. 22, 1830, and came West with his parents when he was a babe. His parents were John and Ann (Mathews) Nesbit who were natives of Pennsylvania. John Nesbit traded land in Pennsylvania for 160 acres on lot 83 in this township, upon which he settled, afterward purchasing 56 acres on Lot 73. There were no improvements upon lot traded for, a small cabin and 3 acres on Lot 73. Upon this farm our subject was raised and has since passed his life, remaining with his father on the homestead until he was 36 years, and, but for the timely meeting of Florilla J. Nesbit he "might have been" a bachelor during the remainder of his life. Oct. 11, 1866, he became the husband of the lady who now bears his name. Her father's name was Joseph Patterson, who married soon after the death of her mother. She was then raised by Dr. Allen Nesbit, and ever after bore the maiden name of her mother who was Florilla Nesbit, who had two children by Mr. Patterson—Anna and Florilla. Mrs. Nesbit was born in Lawrence, Penn., March 20, 1842, her parents she knows but little of. They have five children—Anna W., James, John C., Ambrose and babe; one named William died when three years of age. Since Mr. Nesbit has married has remained on the farm, he having 120 acres. He and wife are members of the U. P. Church and is one of the valuable members of the community.

JOHN PACKARD, farmer; P. O. Northfield; son of Isaac and "Polly" (Smith) Pack-

ard, was born Feb. 7, 1823, in Massachusetts. Isaac was born in Massachusetts, April 14, 1788. He was the son of Ichabod, who was born March 29, 1763, and Loriania Tower, born June 20, 1763. To this couple were born Isaac, Jonathan, Orick, Sylvester, Hart, Emily, Emery H., Hart 2d, and Sylvester 2d. Polly Smith was a daughter of Andrew and Margaret (Gagg) Smith, to whom were born Jeanette, John, Mary, Harriet, Sarah, Minerva, David, Anna, Roxana and Levi. Andrew Smith was born Sept. 14, 1764; Margaret Gagg, March 19, 1762. Ichabod Paekard was a soldier in the war of the Revolution; Sylvester, his son, was Fife Major in the war of 1812. John, our subject, came West with his father, Isaac, in June, 1823, when a baby. His father located at Brecksville, where he kept the first tavern of that place; his occupation was that of clothier, which business he carried on at Brecksville, Hinckley and Strongsville. He died at Independence, in September, 1854, and his wife on Feb. 12, 1865; he was a Baptist in belief, and she a Presbyterian. John began for himself at the age of 21; he left home with an empty pocket, and an ax on his shoulder, resolving to hew his way through life, and to obtain a home at some future day and become a business man. He commenced cutting timber in a small way, and sold his products, which were borne off on the canal; this he continued for several years. The panic came on, which destroyed the sale of his timber, and he abandoned the business and purchased 50 acres of land in Brecksville Township, and began farming; several years after, he purchased 35 acres more. In 1868, he sold his first purchase, and bought 81½ acres in Independence, and moved on the same; this he retained five years, when he sold it. About this time he caught the "Iowa fever," and bought 640 acres in Shelby and Carroll Counties, and went out to see his purchase. Being unfavorably impressed with the outlook, he returned home, after having an interesting and eventful trip. He afterward traded this land with his brother Ichabod, for other in Michigan, and yet retains 160 acres of it. Jan. 9, 1871, he married Sarah E. Bramley, born March 1, 1845, in Lorain County; she was the daughter of Matthew and Sarah E. (Oldershaw) Bramley; they were natives of Derbyshire, England, and came to this country in 1840; they had a family of thirteen children.

Mr. Paekard removed from Independence to this township in 1872, locating on Lot 92, where he owns 185 acres. He also owns 49 acres in Brecksville, 250 acres in White Co., Tenn., 100 acres in Van Buren Co., Mich., besides land in Iowa. Matthew Bramley was born Jan. 9, 1802. The children born to him were John P., Anna, Hannah, Martha, Marian J., Mira, Frank M., Matthew, Rebecca, Julia, Sarah E., George and Elias. Parents of the above live in Lorain Co., where they settled in 1840. Mr. Paekard's children are Mary M., Myra A., Julia E., Sadie B., and an infant. Mr. Paekard is one of the most successful business men and safest financiers in the township.

WILLIAM L. PALMER, farmer; P. O. Northfield; was born Nov. 4, 1820, in Windsor, Hartford Co., Conn., to Hezekiah H. and Abigail (Taylor) Palmer. His father was born Jan. 19, 1781; his mother in Buckland, Mass., Jan. 12, 1792. They were married May 29, 1811. To them were born a family of eight children—Julia A., Emeline, Abigail T., William L., Horace H., Henry T., and two deceased. The Palmers are of old Connecticut stock, who came over in the Mayflower. Some of our subject's ancestors were soldiers in the war of the Revolution. The father of our subject first came West to this State, locating in Willoughby, in 1822, where he lived a short time, but, because of the prevalency of ague, he returned with his family and lived on the Holland Purchase in New York for some time, and then returned to his native county and State. In 1831, he came out and selected 160 acres at the Center of this township. Returning, he brought out his family in June, 1832, by canal from Albany, N. Y., and with the family settled in the woods, which in a short time was transformed to productive fields. Upon this tract the elder Palmer lived until his death Oct. 7, 1863; that of his wife occurred Dec. 10, 1875. He was a man of hardy constitution, a worthy citizen and a Jacksonian Democrat. William L. was reared among the early pioneer surroundings of the township; deer and wild game were plentiful. His first ideas of the fundamental principles of "book learning" was obtained in a log school which stood on the site where the town pump now stands. Nov. 15, 1849, he was married to Amelia Whitney, born in Uniontown, Stark Co., Oct. 6, 1827, daughter of William and

Hannah (McNaughton) Whitney, both natives of Vermont. Her father was born Feb. 22, 1795; her mother in Rutland Aug. 25, 1795. He was a son of William Whitney, and she a daughter of Daniel McNaughton. Mrs. Palmer was of a family of eight children, five living—Louisa, Helen, Harriet, Parmelia and Mrs. Palmer. Since Mr. Palmer came to the township he has been a constant resident. Has served several terms as Justice of the Peace, and is at present fulfilling the duties of that office. He was seven years Postmaster, and bore well his part as a citizen and a neighbor. He has but one child, Helen, still at home. His nephew, William Palmer, has resided with him since a mere child, and recognizes no other place as home.

HENRY T. PALMER, carpenter, Northfield; was born in Windsor, Hartford Co., Conn., Dec. 12, 1829, and came West with his parents when 2 years of age. Raised to farming, he, in his early manhood, learned his trade and worked for his brother-in-law, A. W. Bliss. March 2, 1854, he married Mary J. Hillman, who was born in 1836, daughter of David and Mary (Derrick) Hillman, to whom three children were born, Mrs. Palmer being the youngest; her mother died when she was very young, and she was raised by Mrs. Hollister, and saw her father but little afterward. She learned but little of her parents farther than that her mother was born in Canada, and was of Scotch parentage. She has a brother, Benjamin B., in Salamanca, N. Y., and one sister, Eliza (Mrs. Lyman Allen). After Mr. Palmer was married he resided fourteen years at the Center, and, in 1873, moved to the place he now owns, where he has erected new buildings throughout, and has a very pleasant and desirable residence situated a short distance north of the Center. They have had one child—Freddie, born March 20, 1864, who died Feb. 5, 1877, of spinal disease. He was beloved by all who knew him, both by his companions and those of riper years, being kind-hearted to his associates and obedient to his parents. Henry T. was a son of Hezekiah H. and Abigail (Taylor) Palmer, who were among the first settlers at the center of Northfield, where they lived as its honored citizens, and in all the relations of life they were universally esteemed and beloved. Mrs. Palmer, at the age of 16, made a profession of religion and united with the Baptist Church,

and for sixty-eight years she ever remained true to her allegiance, and never faltered in her Christian course, ever adhering with tenacity to the church of her early choice. Mr. Palmer never united with any church, yet he was not opposed to religion, but always acted independent of sects and denominations, yet favoring everything known to be right. In his daily intercourse with others he was unassuming, obliging and courteous; was scrupulously upright in all his dealings, ever diligently prosecuting his own legitimate business, and never meddled with the affairs of others; yet he was a man of decided opinions, which he rarely failed to express at the ballot-box; he died as he lived, an honored and substantial member of the community. Henry T. is an official member of the Presbyterian Church, is a man of few words and of a retiring nature, shunning publicity and preferment, and is a worthy citizen. "Aunt Mary," as she is familiarly called, is, like the good Samaritan, ever ready to do good, both in sickness and in health.

HENRY PHILE, farmer; P. O. Macedonia; born May 30, 1804, in Bucks Co., Penn., to Henry and Mary G. (Allshouse) Phile. His father was born in Germany. Mary G. was a daughter of Gabriel, to whom were born five children, three sons and two daughters. Henry Phile, Sr., was a wagon-maker by trade. He came to Pennsylvania in 1795. Twelve children were born him, viz., Mary, Betsy, Katie, Rebecca, Priscilla, Eliza, Sarah, Hannah, Lydia, John, Joseph and Henry. Henry moved with his father to Columbiana Co., the last day of 1808; afterward to Green Township (now Mahoning Co.). Here his father settled on land purchased from the Government, his death occurring in 1833, at the age of 77. His wife died seven years later. At the age of 18, our subject left home, learned the cabinet-maker's trade in Trumbull Co., and afterward established business with a partner at Ellsworth; this association lasted two years, the partner walking off with the money, leaving Mr. Phile with the experience. He then came to Franklin, where he engaged in the carpenter and cabinet work. In April, 1830, he came to this township. Dec. 16, same year, he was married to Roxie Cranmer, the second child born in this township, which birth is recorded March 22, 1812, on Lot 72; she was a daughter of Jeremiah and Hannah (Cole) Peck. Jeremiah

was born in New Jersey in 1762, and served all through the war of the Revolution. He was a son of Jeremiah, who was a native of Scotland. Hannah Cole was a daughter of Joshua and Eunice (Bennett) Cole, both being natives of New York. Mrs. Phile was one of ten children. The family came first to Chagrin Falls, and, in 1811, they located in this township. Mr. Phile located on the farm he now owns, in April, 1837. There were but few improvements on the place. He came here with very limited means. His first location was a short distance west of Macedonia, where he worked at his trade. When he located on his present farm, he engaged in both farming and practicing his trade. Corn was \$1.50 per bushel, wheat \$2, and other things in proportion; meat was out of the question; wages very low and money hard to get; yet, by the aid of his rifle, he obtained venison and wild turkeys, then plentiful. Though Mr. Phile was twice bankrupted by bailing and by a dishonest partner, yet he has been successful, having now a good home and 118 acres of land. Of nine children born, five are living—Eunice (Mrs. A. E. Salsburg, of Ottawa Co.); also Henry and George, in same place; Mary, at home; Ava G. (Mrs. James Wolcott, of this township). Mr. Phile has always been a true Republican.

JOHN POPE, deceased; born in Aberdeenshire, Scotland, in 1793; was son of John, to whom were born two children, Barbara and John. John Pope, whose name heads this page, married Isabella Centers, daughter of William and Isabella, whose children were Alexander and Isabella, all natives of Scotland. John Pope emigrated to the county in 1837, lived three years in Twinsburg, and then located on Lot 27, this township, purchasing 80 acres, on which a log cabin and a small patch was all the improvements made at the time of his arrival. Here he remained until his death, which occurred Dec. 14, 1859. His life was characterized by a sincere devotion to the principles of Christianity. For many years prior to his death, he was a devoted member of the U. P. Church, having been a member before his departure from Scotland. He was brought up under the ministrations of the good old Bunyan, of Whitehill, and united with the church at the age of 16; he afterward was chosen Ruling Elder, and became identified with the Sabbath-school interests in his native country.

Upon his arrival here he cast his lot with the U. P. Church at Northfield Center, where he served as Ruling Elder for twenty years, and, as in Scotland, he was much interested in the Sabbath-school cause, and was ever an able and enthusiastic worker in the same. He was a man possessed of a good mind, a great reader as well as a sober thinker. He loved to read and comment on the Word of God, and the inspiration and light which he derived from its careful study was ever demonstrated in his every-day life and association with his fellowmen. When in the discharge of his duties as a Christian, his true character manifested itself. His disease was exhaustion of the nerves of the brain, occasioned by a partial sunstroke. His last words were, "I die, trusting in Jesus." His worthy companion united with the Secession Church in Scotland, at the age of 17, and was a professor for sixty years; her father was also a member for many years. Mrs. Pope was a very exemplary woman in her family, ever striving to impress upon their minds that Godliness was more to be esteemed than riches, and to live with an ever-ready preparation for the mansions above; though not a lady of strong constitution, yet her accustomed seat in the sanctuary was rarely ever vacant on the Sabbath. To them were born ten children, six living—Isabella (now in Portage, the wife of James Sterling), William (in Cleveland), Margaret (Mrs. Thomas Mackey), Alexander (in Indiana), Ellen and George L. (on the homestead, unmarried). The farm is situated immediately south of the town of Macedonia, and consists of 200 acres of land. All of the children are members of the church of their parent's choice.

MRS. S. POWELL, farming; P. O. Macedonia; was born June 1, 1824, in Salem, Columbiana Co., this State; daughter of Thomas and Mary (Perkey) Baum. Her father was born June 20, 1798; her mother June 28, 1797. Thomas was a son of John George Baum, who was a native of Germany. To him were born George, Joel, John, Sarah, Ann, Betsey and Thomas. Mary Perkey's father's name was Daniel; he too, came from Germany. Mrs. Powell removed with her parents to this county, locating on Lot 34, where there were some improvements. Thomas Baum died Dec. 24, 1860; his wife died June 28, 1855, of cancer. To them were born John, Sarah, Mary, Martha.

Elizabeth, George, Madison and Emeline ; but five are living. Mrs. Powell was married Jan. 30, 1840, to William Powell, who was born Sept. 10, 1814, in New Jersey ; son of Henry, whose father was George, who was a native of Germany, and was among the number who resisted the tyranny imposed upon the people at that time, and wore placards in their hats, "Liberty or death." His son Henry was sold to pay his mother's passage money to this country. From New Jersey, he came to Salem, in Columbiana Co., where he took a lease for five years, but sold it soon afterward, and the money he invested in land in Mahoning Co., upon which he settled, and afterward became a man of wealth. His son William remained in Mahoning until a young man, when he went to Michigan, where he lived a short time, and, returning to this State, came to this township—three years afterward, he formed the alliance as above recorded—locating on the farm, where he died Oct. 26, 1869. Five children were born to him, four living—Maria L., now the wife of Elihu Griswold, of this township ; Harriet E., Mrs. A. J. Kely, also of Northfield ; Mary R. and William J., at home. The farm consists of 122 acres (Lot 33). Mrs. Powell has been a member of the church of her parents' choice (Methodist Episcopal) since 14 years of age. At the age of 8 years, she heard a sermon preached by Rev. Ghee, which carried conviction to her heart, and was then impressed with the importance of becoming a Christian. This discourse was delivered in a log cabin, the speaker's desk was a rude bench. Her first union with the church body was at Macedonia, under the ministration of Rev. Whorlon. Mr. Walker never took an active part in religious matters ; having been raised among the Society of Friends, or Quakers, he was ever afterward imbued with the doctrines of that sect, and never affiliated with any church afterward, yet was a consistent and upright member of society, and highly esteemed for his good qualities.

A. K. RICHEY, farmer ; P. O. Northfield ; born Jan. 31, 1828, in Wayne Co., Ohio ; son of Thomas and Mary M. (Koplin) Richey. Thomas was born in the north of Ireland Jan. 31, 1790, of Scotch Irish ancestry ; he was a son of Thomas, whose father likewise bore the same name. The grandfather of A. K. had five children born him—Charles, Thomas, George, John and Margaret. Mary Koplin was born

Jan. 1, 1799, in Huntingdon, Penn., daughter of Matthias Koplin, whose children were Christopher, William, Abram, Matthias, David, George, Mary M., Catharine, Rachel and Barbara. Thomas Richey emigrated to America in 1812, and was enrolled as a soldier, afterward receiving a land warrant. When he came to this country he was poor ; had neither education or friends ; his first work was in New York City at the fisheries, afterward worked in Capt. Dupont's powder works on Brandywine Creek, where he worked continuously for several years. In the meantime, he purchased 160 acres of unimproved land in Chippewa Township, Wayne Co. ; this was about the year 1821 ; he remained at the powder works until he had saved sufficient to enable him to liquidate his purchase, paying for the same in three annual installments. April 4, 1826, he married, having moved to his land two years previous. His family consisted of twelve children, eight of whom grew up, four dying in infancy. Those who attained manhood's years were A. K. ; Matthias, near Doylestown, Wayne Co. ; George, in this township ; Thomas, in Michigan (Palo, Ionia Co.) ; Jane, Mrs. J. W. Cook, of Cooksville, Allen Co., Kan. ; Margaret, who married a Dehaven ; Catharine, Mrs. Nathaniel Tilton, of Ogle Co., Ill. ; Mary A., who never married. In 1852, Thomas Richey sold his farm in Wayne Co., and bought 211 acres on Lots 84 and 74, and remained on the same until his death, which is recorded Aug. 27, 1867. She survived him until June 22, 1880. They were both members of the Old School Presbyterian, and though he could not read, yet he knew the Psalms and shorter catechism to the letter, and required his family to repeat them verbatim ; was a man of mirthful and sunny disposition, of strong constitution ; a man of energy, industrious habits, and devoted his life to agricultural pursuits ; was successful in his business undertakings, and enjoyed the esteem of the community in which he lived. A. K. was 22 when he launched out for himself ; had the advantages afforded at the common district school, and attended three terms at the High School at Tallmadge ; began teaching at the age of 18, and wielded the ferule for about eight terms. Nov. 6, 1856, married Elizabeth Bain, born Sept. 19, 1836, in Greenwich, Washington Co., N. Y. ; her parents were Jacob and Catharine McNaughton. He

was born in Argyle, Washington Co., N. Y., April 30, 1807; she in same place April 14, 1806. He was a son of James C., whose wife was Marietta Dings. James C. was a son of Casper Bain, whose wife was Maria Clump; to them were born Phillip, James, Peter, John, Catharine, Margaret, Casper and Elizabeth. He was married second time, to Mary Gillespie. The Bains are from Scotland; the first one that came to this country was sold to pay his passage. To Jacob and Catharine were born five children, viz., Finley, Elizabeth, Marietta, Katie M. and James McN. Catharine McNaughton's father was named Finley, his wife was Elizabeth Murray; to them were born Duncan, Catharine, William, Malcomb, James, Archibald and John. Mrs. Richey came West with her parents in 1855, who located in this township, remaining until their death; he died May 5, 1877; she May 9, 1880. The first year after Mr. Richey was married he lived on his father's farm. In April, 1858, moved to his present place of living, where he purchased 114 acres on Lot 81, which was settled by Mr. Cronizer; has since added to his original purchase, having 230 acres. Since April, 1856, both Mr. Richey and wife have been members of the United Presbyterian Church. The Richey family are possessed of considerable versatility of talent, and more than ordinary ingenuity, that has enabled them to turn their hands readily to almost anything in the trades or mechanics. Mr. Richey and family are great readers, he being a liberal patron of the current and historical literature of the day, Mrs. R. being tolerably well read up in the theory and practice of medicine, of which she keeps a quantity on hand for family and neighborhood use; has six children—Margaret Z., Jacob F. T., Thomas T., Andrew F., Elmer R. and Ella Kate. Elmer, born Jan. 31 (his grand-father and father having the same birthdays), has as large a quantity of Indian relics as can be found in the country.

GEORGE RICHEY, farmer; P. O. Northfield; was born Oct. 12, 1834, in Chippewa Township, Wayne Co., Ohio, and is the third son and fifth child born (who grew to maturity) to Thomas and Mary M. (Coplin) Richey. George came to this township with his parents, who reared him to agricultural pursuits, but George, being of a mechanical turn of mind, soon learned the carpenter and joiner's trade,

at which he worked, until, at his father's request, he took charge of the farm. Jan. 29, 1868, he married Sarah J. Love, born at Coshocton Co., Ohio, Dec. 28, 1838, daughter of John and Jane M. (McConnell) Love. Both were natives of North Ireland, and emigrated direct to the Buckeye State, spending the first winter at Millersburg, Holmes Co., then came to Coshocton Co. Mr. Love, the father of Mrs. Richey, was married in Coshocton. To him were born eight children—Sarah J. (Mrs. Richey), Mary A. (maid, who never married, died at 24), Catharine (Mrs. James Overholt), Samuel (on the homestead), Ellen (now deceased, who was the wife of J. G. Alexander, of this township), Emma, John M. and Miranda, at home. Her mother died May 8, 1876; her father is yet living on the homestead in Coshocton. Both he and wife members of the Presbyterian Church. Since the marriage of Mr. Richey he has remained on the homestead farm, he having 149 acres. Of five children born him but three are living—Anna E., Emma L. and Maro O. Maggie died of diphtheria at the age of 7; John T. died when 8 months old. For twenty years Mr. Richey has been a member of the Presbyterian Church, and is the present Ruling Elder of that body, and Church Clerk.

A. RICHARDSON, farmer; P. O. Northfield; son of Amos and Betsy (Barber) Richardson; was born Dec. 14, 1810, in Hampshire Co., Mass. His father was born in Massachusetts, about the year 1775, and was a son of Thomas Richardson, who came from England. The Barbers are of Welsh ancestry. To Amos and Betsy Richardson were born ten children, eight of whom grew to maturity, viz.: Beman, Eliza, Hollon, Austin, John, Mary, Amos, Lyman, Lucy and Hannah. Amos moved with his parents to Sherburne, Vt., in 1818, and the year following came West to Cuyahoga Co., locating in Independence a short time, then came to this township, locating on Lot 43, where John Wilson now resides. He died about the year 1826. Amos remained with his mother and eldest brother until he began business for himself. Nov. 7, 1832, Amos married Phebe Wood, born June 3, 1814, in Bedford Township, daughter of Henry and Esther (Cramer) Wood. Henry Wood was born in Connecticut Aug. 9, 1790; he was a son of Samuel, who was a son of Jonathan. Samuel Wood

was born June 30, 1767; he was married to Betsy Stewart, born Aug. 22, 1768; to them were born ten children, viz.: Phebe, Henry, Samuel, Betsy, Silas, Lucy, Jonathan, Charlotte, Julia and Esther. Jonathan Wood was born in Connecticut Dec. 14, 1724, and married Abiel Bailey. The Woods are of English descent, the Stewarts of Irish. Betsy's father died in the Revolutionary war. Henry Wood was a soldier of the war of 1812, and, at this writing, is the oldest man in the township. Nine children have been born him, viz.: Phebe, Samuel, Martin, Maria, Henry C., Charlotte, Roxie, Henry J. and Esther. After Mr. Richardson was married he located in Freedom, Portage Co., where he bought 40 acres, but lived there one year only, and then came to the place he now owns. In August, 1834, he bought 83 acres and built him a cabin where he has since resided. Four children were born to him, viz., Ira (now in Toledo, life and fire insurance agent), Maria (Mrs. A. G. Shields, of Hudson Township), Ellen (the wife of Harlow Bissell, of Ness Co., Kan.), Olive (Mrs. Fred W. Stark). Mrs. Richardson is a member of the Methodist Episcopal Church. Mr. R. has 86 acres of land.

A. R. RINEAR, farmer; P. O. Northfield; is a native of this State; was born Jan. 5, 1826, in Columbiana Co.; son of John and Mary Jobs. The former was born, April 23, 1782, in Burlington Co., N. J.; the latter, June 27, 1794. John Rinear was a son of Joseph, whose father was a Frenchman. To Joseph was born John, William, Warden, Rebecca, Jane and Amy. To John and Mary (Jobs) Rinear were born Augustus, Albert R. and Sylvester. The father of A. R. came to Bedford Township, Cuyahoga Co., in 1834, where he located a piece of land, and returned, bringing out his family in the spring of 1835; here he remained until his death, March 26, 1850, that of his wife, same month, 1864; both of them were consistent members of the M. E. Church, and adorned their profession by a Christian life. Albert R. was married Sept. 21, 1847, to Esther Nesbit, who was born Oct. 7, 1823, in Westmoreland Co., Penn., daughter of John and Ann (Mathews) Nesbit. After marriage, he located on a farm adjoining his father, just across the line adjoining Northfield, where he lived until 1850, when he moved to this township, purchasing 60 acres on Lot 72, where he lived until 1867, in March, when he purchased 110 acres where he now re-

sides, having a good farm and under good improvements. Four children have crowned his marriage, whose names are Mary, who is now the wife of M. E. Van Horn; Sylvester, now a traveling salesman; Martha and Charlotte A. Mr. Rinear and entire family, with the exception of Sylvester, are members of the U. P. Church; Sylvester is a Methodist; Mr. Rinear has been a member of his church nearly thirty years. Mr. R. and family are readers of the leading journals and prominent newspapers of the day.

G. M. SEIDEL, wagon-maker and undertaker, Northfield; was born Aug. 13, 1821, in Selp, Kingdom of Bavaria, to J. M. and Elizabeth (Krautheim) Seidel. Our subject early in life learned the wagon-maker's trade, and worked three years at the same in Bohemia. Having heard glowing accounts of America, he bade good-bye to his early associations, and, in the spring of 1841, set sail for our country, arriving in Baltimore in June, soon turning his steps westward to this State, crossing the Alleghany Mountains on the inclined railroad. Reaching this part of Ohio, he engaged to work in Tallmadge for S. A. Lane, and afterward worked two years in Akron; then went to Hudson, where he worked five years, and after a limited sojourn in Twinsburg, he came to this township, Feb. 23, 1848, and engaged at his trade at the Center, and has since been the resident wheel-wright and wagon-maker of the place. Sept. 27, 1850, he married Mrs. Salinda Bishop, whose maiden name was Lillie, born in Windsor Co., Vt., March 3, 1812; she was a daughter of Benjamin and Hannah (Young) Lillie, both natives of Hebron, Conn. Hannah Young is a descendant of Miles Standish. Mrs. Seidel is of a family of thirteen children; seven of the number grew to maturity, and but two of them are living—herself and Mrs. Bliss. Her father died in Jericho, Vt., 1821. Mrs. Seidel came West with her mother and her brother George, who was for twenty-one years Justice of the Peace of the township, in 1833, locating in this township. She was married to Orin A. Bishop, in October, 1845. Mr. Bishop's father was Benjamin, who married Polly Whitcomb, of Connecticut. Orin Bishop was born in Richmond, Vt., Aug. 3, 1805, and was of English descent. The mother of Mrs. Seidel died in August, 1864. By Mr. Bishop she had three sons—Clark B., Orin A. and George L., who served through the late war and was a member

of Company K., 19th Regiment O. V. I.; he was a true and valiant soldier, was once wounded, causing a five months' absence from his regiment, which in the meantime was not in active service. Orin A. served three months in the 115th Ohio, and was discharged on account of disability. For twenty-five years Mr. Seidel has been a member of the U. P. Church, and is one of the Elders of that body. His parents were members of the Lutheran Church. Mrs. Seidel is a member of the M. E. Church. Since Mr. Seidel's residence, he has been engaged at his trade; for the past five years he has taken up the undertaking business, and met with reasonable patronage. For nearly a year past his health has become seriously impaired, the result of a fall from the scaffolding of a building, upon which he was at work.

JOHN SENTER, farmer; P. O. Bedford. To William and Jennie (Hurst) Senter were born Robert, Catharine, Margaret, John and Jane. Of these, John, the subject, was born Dec. 23, 1805, in Lochton, County Leitram, Ireland. His parents died when he was young; all but Robert and John died of fever when young. At the age of 18, Mr. Senter left his native land for America, landing in New York; he soon after made his way to Cleveland, where he worked on the public works for some time, also at Akron, being employed at both places about ten years, in which time he had saved enough means to purchase some land. He and James Hibbard purchased a lot together, situated in the northeast part of the township, Mr. H. taking the south half, and Mr. Senter the north, the land costing \$3 per acre, and was purchased two or three years ere they settled on it. Dec. 31, 1843, he married Jane Boyle, born June 26, 1824, in Londonderry, Ireland, daughter of Edward and Catharine (Alexander) Boyle. Edward was a son of James; mother's name was Rose. Catharine was a daughter of John and Jennie (Woodburn) Alexander. The Alexanders and Boyles were among the prominent families in the north of Ireland; were educated and people of high respectability. Mrs. Senter came to this country with her parents when she was but a child of 5 years. Her parents settled first at Willoughby; afterward at Dayton, in Lake County, where they lived until 1855, and finally moved to Dayton, Mich.

To Mr. and Mrs. Senter have been born ten children, seven of whom are living—Sarah Jane (Mrs. Simpson Hibbard, of Hudson Township); William H., of this township; Edward B., in Cuyahoga County, near by; James B., on Lot 35, west of Macedonia; Della V., Fred B. and Carrie. Ella J., Robert and John A. died when young. Mr. Senter was raised a member of the Established Church, and is now a member of the Baptist Church, as are nearly all the family, Mrs. Senter having been a member since she was 14 years of age. Mr. Senter has acquired a good property; before dividing his land he had 258 acres, all of which has been the outgrowth of small beginnings. For several years he has been engaged in running a dairy; from a start of ten cows, he increased the number to forty-two, manufacturing their own cheese. They have raised an intelligent family. Three of the eldest children have taught school. Mr. Senter has now 141 acres of land, and still pushes ahead to accumulate for his family.

A. J. SHIELDS, farmer; P. O. Northfield; was born Oct. 3, 1838, in Mahoning Co., Ohio, to Archibald and Sumantha (Rainey) Shields. Archibald was born Oct. 16, 1808, in Mahoning Co., Ohio, and Sumantha in Hudson Township July, 1812. Archibald's father and two brothers came to this State about the year 1810, and were in the war of 1812. To Archibald's father were born William, Archibald and Andrew (twins), Betsey and James. Sumantha was a daughter of Comfort and Betsey (Hubbard) Rainey, to whom were born seven children—Luther, Julia, Sumantha, Elizabeth, Ruth, Moses and Sarah. The Rainey's came West from Connecticut to Hudson Township about the year 1808. Archibald Shields was a millwright, and built the mills at Little Fork. The family are of Scotch ancestry, and are of good stock. To Archibald were born ten children, all of whom lived to manhood and womanhood, viz., Comfort, Allen and Albert (twins), Betsey A., Angelina, Cordelia, Margaret, Elmer and Elsie. Mr. Shields died Nov. 2, 1880, and enjoyed the esteem and confidence of the community in which he lived. A. J. was reared to farming, and remained with his parents until he attained his 26th year. Oct. 8, 1863, he was married to Clarissa Ford, born in this township Jan. 12, 1842, daughter of Marvin and Lydia (Cornell) Ford; her father was born in Hudson Town-

ship Feb. 20, 1818; her mother in Rensselaer Co., N. Y., Dec. 16, 1815; he was a son of William, born in Herkimer Co., N. Y., in 1771. The mother of Marvin Ford was Sallie Gaylord, who was born in Goshen, Conn., Nov. 16, 1783; his grandfather was Joel Gaylord, and was a Drum Major in the war of the Revolution, and was with Washington at the battle of Monmouth. He came to Hudson Township in 1800, and purchased one mile square; his wife came in 1801. She was married in Connecticut to William Leach, and came out with an ox team. William Ford came to Hudson in 1815, and for many years was a Methodist class-leader. For several years past Mr. Shields has been engaged in the lumber business, and buys and sells in large quantities. He has a saw-mill at Macedonia; also 150 acres of land in Hudson Township. His children are—Lydia S., born Sept. 3, 1864; Eva and Ella M. (twins), Jan. 27, 1867; Agie D., March 16, 1870; Alice, July 13, 1876, and Effie M. The last two mentioned died when young. The mother of Mrs. Shields died May 3, 1873. She and her husband came to this township in the year 1836.

Z. P. SORTER, farmer; P. O. Northfield; son of Elijah and Margaret (Middaugh) Sorter; was born May 26, 1827, in Allegany Co., N. Y. His father was born in Essex Co., N. J., Sept. 5, 1782; he was in the war of 1812. The Sorters are of English and the Middaughs of Scotch descent. Henry Sorter was the grandfather of Z. P. To him were born nine children, viz.: Elijah, Nathaniel S., Zebulon, Henry, Jonathan, Rebecca, Anna, Mary and Charity. Abram Middaugh was the father of John, Abram, Elijah, Alvin, William, Polly and Betsey. Elijah came West in March, 1831. To him were born eleven children, viz.: Charles (near the old homestead), Harry (who is a representative to the Legislature), Isaac (in Seward Co., Nebraska, in the lumber business), Zebulon, James M. (in Kansas, Nemaha Co.), Sarah (Mrs. J. Jones, of Mayfield Township, in Cuyahoga Co.), Catharine (of Missouri), Asa, Gurney, Arvilla (Mrs. M. Fields, in Lake Co., Ohio), and Margaret A. (Mrs. Evans, of Missouri). The father died March 13, 1869, and the mother Feb. 18, 1880. Mr. Sorter was for many years a member of the M. E. Church. He celebrated his golden wedding in 1861. His house was the home and rendezvous of the ministry. Z. P. had good school advantages,

and was a classmate of James A. Garfield at the Geauga Seminary. Mr. Sorter taught school twenty-one terms, afterward engaged in farming; he first bought 25 acres, then 225 in Geauga Co., then 300 in Lake Co., 600 in Kansas, and afterward 380 where he now lives. He came to the township in 1871, and has since remained; he is now engaged in farming pursuits in this township.

JASON M. SPAFFORD (deceased); was born Sept. 18, 1831, in Twinsburg Township; he was the son of Nathan and Polly (Morrison) Spafford. Jason lived in Twinsburg until he became a young man, then he came to Northfield Township with his father, where he lived until March 4, 1854, when he married Philena Cranson, who was born April 5, 1829, in the town of Lenox, N. Y., and came West with her parents (when she was 1 year old), who located in Chester, Geauga Co. Mrs. Spafford's parents were Gershom and Philena (Fosdick) Cranson. Philena was a daughter of John and Philena (Robbins) Fosdick. Gershom was born in New York State, and was the son of Abner Cranson. To John and Philena were born fourteen children. To Gershom and Philena Cranson were born nine children. The Cransons are of French descent and the Fosdicks of English. After the marriage of Mr. Spafford he located on the farm now owned by his widow. Mr. Spafford died May 25, 1876. He was one of the substantial members of the community and a liberal supporter of the Gospel; for many years he was a stanch member of the Baptist Church; he was a man highly respected in the township for his many virtues; he was a good farmer and a successful financier, having, at the time of his death, 275 acres of good land. Since his death, Mrs. Spafford has remained on the farm, which now consists of 165 acres, she having given 110 acres to her daughter Armarilla, who is the wife of Joseph Carter, and resides in Twinsburg. Mrs. Spafford has been a member of the Baptist Church for many years.

ROBERT VAN HORN, farmer; P. O. Northfield; was born Jan. 20, 1812, in Harrison Co., Ohio; son of Edward and Margaret (Hamilton) Van Horn. The Van Horns are originally from Holland, the early ancestors emigrating to the United States in 1623, locating on the Holland Purchase in New York—some of them owning land where Trinity

Church now stands, in the city of New York. Robert Van Horn, whose name heads the narrative, is of the eighth generation of the family from which they trace their ancestors. Edward Van Horn, when a lad of 5 years, moved with his father, Daniel Van Horn, to Mifflin Co., Penn., where they settled in 1783; finally moved to Tuscarawas Co. Daniel Van Horn's wife was Anna Barteman, born 1749, daughter of Edward Barteman, whose wife was Anna Debaen. They were married 1735. To them were born ten children. Daniel Van Horn died in Tuscarawas Co. in 1822, being 93 years of age. His son Edward, the father of the above, was born in New York March 10, 1778. Was married, in 1803, to Margaret Hamilton, who was born in Chester Co., Penn., 1776; daughter of Robert Hamilton, of Irish descent. His family consisted of four children, three daughters and one son. Edward Van Horn removed West to Harrison Co., this State, in 1807, where he purchased land, and remained on the same until his death, which took place 1855; that of his wife was in 1839. To them were born five children, viz., Anna, who died at 12; Martha, never married; Jemima, Mrs. M. Downey, of Noble Co., this State; Robert, and Jane, who never married. Our subject was brought up on the farm. Dec. 26, 1833, was married to Catharine Kuhn, born Aug. 29, 1809, in Allegheny Co., Penn.; daughter of Archibald and Martha (Stotlar) Kuhn. Mr. Van Horn came to this township in April, 1837, purchasing 86 acres on Lot 62, for which he paid \$12 per acre, paying the money down. There were about 25 acres partially cleared at the time of his purchase. Upon this plat of ground he has since remained a constant occupant. To him have been born three children—Archibald K., now a physician in Stephenson Co., Ill.; Ann J., now the relict of Joseph Boyd, who died Aug. 31, 1875, leaving no issue; Milton A., now on farm adjoining. Mr. Van Horn's family have been Presbyterians in religious belief. His father, Edward, for fifty years was an Elder in the Church. Mr. Van Horn is a member of the U. P. Church, and is Clerk of the Sessions. Edward Van Horn was a soldier in the war of 1812. His brother Jacob was Paymaster of the same regiment.

M. A. VAN HORN, farmer; P. O. Northfield. Milton A. was born on the farm where he now resides, March 27, 1843, being the youngest of

a family of three children born to his parents, Robert and Catharine (Kuhn) Van Horn, who raised their son to agricultural pursuits. December, 1864, he became the husband of Harriet Thompson, who was born in Parkman, Geauga Co., Ohio, daughter of Graham and Harriet (Pearce) Thompson, to whom were born Henry, William, Alfred, James, Robert, Mary, Maria and Harriet. March 25, 1872, Mrs. Van Horn, after an illness of ten days, died of diptheria, leaving two children—Frances J., born Oct. 18, 1865; and Jennie Maria, June 19, 1870. July 30, 1873, he was married to Mary A. Rinear, born in Bedford Township, Cuyahoga Co., and eldest daughter of Albert R. Rinear, whose wife was a Nesbit. Mr. Van Horn and wife are members of the U. P. Church. Aside from his farming, he is engaged in trading; handles agricultural implements; handles the Eureka Mower, of six feet cut; has also the agency for the Cooley Creamer; is a young man of good business habits, straightforward and enterprising; and is a progressive man, open and outspoken in everything that does not bear upon its face the semblance of right. He is a warm friend to education, and ever ready to contribute to local enterprises wherein are involved advantages that will redound to the interest of the community at large, but not in sympathy with any institution that is working under a rule of secrecy.

F. M. WAITE, farmer and contractor; P. O. Northfield; first saw the light of day Jan. 26, 1830, on the farm he now owns. His parents were Benjamin and Loretta (Bacon) Waite. Benjamin was born in Hatfield, Buckland Co., Mass., in the year 1796; his father was named Benjamin, also, whose ancestors were from England. The last-mentioned gentleman's grandfather was in the French and Indian wars, and was an Indian fighter; he at one time had a son captured by the Indians, but the father, pursuing them to Canada, rescued him from their hands. His valor and long-range rifle were well known among the Indians, who, after the war terminated, made several attempts to capture the rifle. At one time, when plowing in the field, an Indian crept up near where he was at work, and shot Mr. Waite through both arms. Knowing his gun was near at hand, and seeing the owner shot, he yelled in a taunting way in broken English: "You shoot no more Indian."

I get long gun now." But not so; our hero succeeded in getting his gun across both fore-arms, and carried it to the house; the Indian gave up the chase. Loretta, the mother of Mr. Waite, was a daughter of Isaac and Nancy (Cranmer) Bacon, who came to this township as early as 1807 or 1808. Benjamin Waite, the father of F. M., first came to Brecksville about the year 1810; returning to Massachusetts, he came out again in 1814, or thereabouts. In 1829, he was married, and located on the farm F. M. now owns. To him was born eleven children; nine grew to maturity. By his first marriage, he had Benjamin, Nelson, Obadiah and Sarah; by his second wife, Loretta Bacon, were F. M., Loretta, Olive, Emily, Adah and Maude. His parents were both members of the M. E. Church. His father died in 1864; his mother in 1858. During Mr. Waite's sojourn in this township, he killed 300 deer, 7 bears, and quite a number of gray wolves. Francis M., at the age of 18, bought his time; the price was \$200. He then worked out one year by the month, saving \$100, which he invested in a joint-stock company, and went to California in 1849, where he engaged in mining, remaining two years and a half, in a short time returning to his father the \$200, plus the interest, as the price of his freedom. After having an extended and varied life of change and interesting incidents, he returned to this township with \$2,000 in gold. He was married, in 1853, to Ellen Chapman, born in Hudson Aug. 12, 1828, daughter of John and Eliza (Basset) Chapman. John Chapman was born in England in 1792, and came to this country at the age of 20, and was the first gunner on board the Queen Charlotte at the battle of Lake Erie. Mr. Waite has two children—Bird and Laura. For several years Mr. Waite has been engaged as foreman and contractor on the public works at Cleveland, and elsewhere, on sewerage and railroad building. He is a member of Twinsburg Chapter, No. 74, R. A. M., and Bedford Lodge, No. 375, A., F. & A. M.

MRS. H. A. WALKER, farming; P. O. Northfield; was born July 11, 1808, in Lancaster Co., Penn., to Stewart and Martha (Beard) Miller. Mr. Miller died very suddenly, falling from his chair while waiting for dinner. He was a son of Joseph, who was of Irish ancestry, as were the Beard family. Joseph Miller was

a General during the war of the Revolution, and did effective service as a soldier and commissioned officer. To him were born fourteen children. Stewart was blessed with seven children, four are living, viz., Harriet, Mary, Rebecca and Augustus, who resides in Lancaster Co., Penn.; Mary, also, and the wife of William Pickell; Rebecca, now the wife of George Pickell, of Caldwell Co., Mo. By the death of her father and mother, Mrs. Walker, when a mere child, was left alone in the world, but in the person of her uncle Rev. John Banks, who married her Aunt Mary, she found protection, who gave her a home and educated her. He was the Pastor of the *first* Seceder Church in Philadelphia, and was a man of superior talents and great moral worth. She resided in Schenectady at the time of her marriage, which occurred Feb. 20, 1834; the gentleman was John Walker, born in Princeton, N. Y., 1806, son of George and Jane McMicken, the latter being from the Highlands of Scotland. Mr. Walker was a carpenter by trade, and, in 1836, came West, locating in this township, where Mrs. Walker now resides. He first purchased 45 acres, only four or five of which were cleared; he subsequently added to it, at different times, until he owned the *entire* lot. His death occurred Sept. 3, 1866. Since 1834, he had been a consistent member of the U. P. Church. He was a man highly esteemed in the community in which he lived. Though not an over-zealous man, yet, in his attachments to the principles which early he professed, he was firm and uncompromising. For several years prior to his death, he was in poor health, and though enduring at times intense bodily pain, yet he bore it with Christian fortitude and patient resignation. His noble and amiable companion still survives him and resides on the farm, and is a firm believer in the doctrines embodied in the creed of her church, having been a member of the same since 1824. Her farm consists of 160 acres, which she rents and resides upon, having it under her own management and supervision. Mrs. Walker has long been esteemed in the community as an upright Christian lady, and for her benevolence and goodness of heart.

JAMES W. WALLACE, retired; Macedonia. The Wallace family came from Scotland. The first one of whom there is any record of came from Scotland during the reign of Queen Anne of England, locating in Londonderry, Ire-

land. His son was John, who emigrated in 1716 to Londonderry, New Hampshire, with his father, above described his first name not known. The next in regular descent was James, the fourteenth child of his parents, who settled in Ackwith, New Hampshire, about the year 1775. He married Margaret Archibald, and by her raised ten children, viz., George, Robert, Jane (married Noah Page), John, Ann (married Hezekiah King), James, William, Margaret (married Robert Finley), Nancy (Mrs. Stephen Tharton) and Jonathan. George Wallace, eldest son of James, was born March 6, 1776, and in 1798 came to the Western Reserve to Youngstown. June 29, 1802, he married Harriet Menough, born in Maryland, Feb. 25, 1784, eldest daughter of Samuel and Isabella (Waugh) Menough, who emigrated from Chester County, Penn., in 1790; eight years later they came West to Youngstown where they settled. To George and Harriet Wallace were born James W., George Y., Perkins and Emeline. James was the only one born in Trumbull County. The family after a short time moved to Geauga, afterward to Cleveland in 1810, and where Mr. Wallace, (George) engaged in the hotel business; was here during the war of 1812. Gen. Harrison and other prominent officials were many times among the guests at his house. While here, Mr. Wallace issued supplies to the soldiers at the time of Hull's surrender under the direction of Gen. Jessup; afterward, entered Gen. Harrison's camp where he remained until appointed Commissary before he could draw his pay for the services rendered. While here in Cleveland, Mr. Wallace built a vessel and was engaged in the commission business. In 1814, he began building the saw-mill and dam at Brandywine. In the summer of 1815, built the grist-mill, and the distillery in the fall of 1816; he put in a small stock of goods in the upper room in the mill. In November, 1818, he moved his family to Brandywine. In the fall of 1820, commenced building the factory which began operations the year following spinning and carding; 1822, began manufacturing, the products of which supplied the wants in this line for forty miles each way, and was for several years one of the prominent manufacturing points in the State. In 1843, the mill was swept off by high water. George Wallace died April 4, 1849, Mrs. W. Jan. 4, 1848. The

subject of these lines was born Nov. 27, 1803, in Youngstown, the eldest son of George and Harriet (Menough) Wallace, was raised to active business pursuits under the training and guardianship of his father. In 1825, began business on his own account; about his first adventure in business was taking two-mile contract building canal; afterward, in company with his father and another party, took four miles near Massillon, subsequently built five miles and aqueduct at Roscoe; afterward boated two years. Then engaged in the employ of Giddings, Baldwin, Pease & Co., continuing in their employ five years; firm name was afterward changed to S. A. Andrews, Baldwin & Co.; he remained with this firm in the capacity of purchasing agent during the winter, taking charge of the water craft during boating season; was then known on the line as Capt. Wallace. Subsequently went to Boston, where he was agent for the Boston Land Company for some time, where he remained until spring of 1838. He and his brother George carried on the business at Brandywine after their father retired. After Mr. Wallace abandoned the agency for the firms above mentioned, he returned to Brandywine, where he remained permanently, being mostly afterward engaged in farming. Sept. 8, 1835, he was married to Adaline Hanchett, who was born near River Raisin, Wisconsin, June 17, 1817, daughter of Hiram and Mary (Smith) Hanchett; he was born in New York, she in Massachusetts; they had three children. Hiram Hanchett was a surveyor; previous to 1814, he built the "Lady of the Lake," the first good vessel that was built on Lake Erie. In 1871, Mr. Wallace moved to his present place where he has since resided. Mr. Wallace is now in a measure retired from active business; has been successful in his business relations and now ranks among the affluent and solid financial men of the county. His excellent business qualifications have been called into requisition at different times as a public officer, serving at one time as Trustee on the Clinton Railroad, and in all the different and various phases of his business life he has ever sustained himself as an upright man and worthy citizen. He and wife are members of the Presbyterian Church, and in all the various relations in society have merited the esteem with which he is held in the community. Has five children living—Hiram H.,

Warren W., Leonard C., Mary C. the wife of Lorain Bliss, and Margie S.

H. H. WALLACE, farming; P. O. Northfield; was born Feb. 18, 1843, in Boston Township, being the second child born to James Wallace; remained at home until he was several years past his majority. Dec. 5, 1867, was married to Mary A. Mearns, born in Cecil Co., Northeast Maryland, Feb. 15, 1843, daughter of John and Mary (Waugh) Mearns; she was a daughter of Esquire Robert Waugh, who obtained his land from William Penn, the deed bearing his seal upon it; this land remained in the Waugh family for 103 years. The Mearns and Waughs are of Scotch-Irish descent. Mrs. Wallace was of a family of five children—William R., Martha J., Mary A., Stephen J. and Charles F. Her father died 1869, at the ripe age of 80 years. Since Mr. Wallace was married he has been a constant resident of the township with the exception of nine years spent in Pocahontas Co., Iowa, where he has 640 acres of land; he went in 1871, and returned to this county in 1880. Jan. 8, 1880, he purchased the farm he now owns, situated on Lot 64, where he has 86½ acres with good brick house thereon. Has six children—Adda, Belle M., Anna W., Margie S., George H., Schuyler H., Mary L. died young, aged 2 years. Both Mr. Wallace and wife are members of the Presbyterian Church.

CHARLES WEST, farmer; P. O. Macedonia; was born April 17, 1803, in Hebron, Washington Co., N. Y.; his parents were Charles and Patience (Lee) West. Charles West's grandfather was named Levi. Charles and Patience had three children—Ira, Egbert and Charles. The latter never saw his father, his birth occurring about two months after his death; his mother, the same year of his birth, moved to Dover, Dutchess Co., N. Y., where she again married, and he lived with them until he was about 19 years of age, at which time his brother Egbert came and took him back to his native county. Mr. West engaged that winter with Titus Foster to board him in lieu of services rendered night and morning while attending school; soon after he hired to work for Mr. Foster, and continued to work by the month until his marriage, which occurred Jan. 17, 1833. The lady, Mary B. Nelson was born Feb. 15, 1802, to John and Martha (Baldrige) Nelson. After his marriage, Mr. West worked land on shares

until, in 1835, he came West, direct to this township and purchased 50 acres of land, which, by means of industry and economy, he has increased to about 90 acres of good land all paid for, situated a short distance east of Macedonia, where he lives enjoying the quiet of his home; his first wife died, leaving three children—Martha B., Fannie N. and Patience A., who married Anson Hollister, and moved to White Co., Ill. She has since died, leaving one son—Frank C.; Martha and Fannie reside with their father. Mr. West was married to Nancy Johnson, who was also a native of Hebron, Washington Co., N. Y.; she died Feb. 4, 1879, leaving no issue. For many years Mr. West has been a consistent member of the Baptist Church, in close communion. In politics, he has always been a Democrat of the Andrew Jackson type, and is as honest in his sentiments politically as in his religious tenets.

JOHN WILSON, farmer; P. O. Northfield; was born Sept. 6, 1816, in Allegheny Co., Penn., to John and Mary S. (Kiddoo) Wilson. John was a son of John and Jean Renshaw, to whom were born a family of twelve children, viz., James, Andrew, Mary, John, Eliza, Agnes, William, Samuel, Susan, Joseph, Mary and Benjamin. To John Wilson was born John, Mary, James, Samuel, Margaret and Sarah T. To James Kiddoo, the father of Mary, were born Thomas, John, David, Samuel, Joseph, Mary, Jane, Isabella, Fannie and Betsey. John Wilson, the father of our subject, was born on Monday Sept. 20, 1789, in Allegheny Co., Penn.; his wife, same place, May 27, 1790. To them were born eight children; six grew to maturity—James, John, David M., Mary J., Joseph F., William R. After Mr. Wilson left home, he lived with his uncle, Samuel Kiddoo, and was raised to agricultural pursuits. He came West to this township in the fall of 1843, and purchased 84 acres on Lot 43; returning East, came back in the spring of 1844. June 6, same year, was married to Hannah Chapin, who was born in Westmoreland Co., Penn., Oct. 9, 1819, daughter of Amzi and Hannah (Power) Chapin. Amzi was a son of Edward Chapin. The Chapin family have all descended from Deacon Samuel Chapin, who came from England and settled in Springfield, Mass., in 1642. From this reverend gentlemen have sprung the numerous progeny of Chapins. Hannah Powers was a daughter of Rev. James Powers,

whose wife was a Miss Tanner. Amzi was born in Springfield, Mass., March 2, 1768. Married to Hannah Powers, Oct. 10, 1800. She was born June 17, 1781. To them were born eight children—Mary, Eunice L., James P., Jane S., Eliza, Amzi, Hannah and Rebecca M. Of this number Mrs. Wilson is the sole surviving member of the family. Edward Chapin, the father of Amzi, was born Feb. 16, 1724. Eunice Colton, his wife, was born July 19, 1728. To this venerable twain were born Aaron, Edward, Lucretia, Lucius, Calvin, Alpheus, Amzi and Eunice L. This couple died Jan. 6, 1800, and April 8, 1806, respectively. The religion of the family has been Presbyterian on both sides. Since 1844, Mr. Wilson has been a constant resident of the farm he located upon at the time of his arrival. His farm is under excellent improvement, with neat buildings. He has two sons. Amzi, born June 17, 1845; William J., born Aug. 9, 1847. Amzi has been licensed to preach, and is now at the seminary (theological) preparing for the ministry. William J. is in the piano trade at Cleveland. Mr. and Mrs. Wilson are members of the Presbyterian Church, of which her father, Amzi was one of the founders. He came West in 1831, locating on Lot 81, where he purchased 160 acres. He died Feb. 19, 1835; she, June 15, 1855.

THEODOSIUS WOOD, Macedonia; was born Jan. 14, 1801, in Buckland, Franklin Co., Mass. His parents were Amos and Lovica (Temple) Wood. Amos was a son of Forbes Wood, whose ancestors came from England. The mother of Lovica Temple was Lucretia Butler; her grandfather was one of two brothers who settled in Boston during the early history, and built several blocks of buildings on their land in that city. Both the Butlers and Woods are noted for their longevity; two of his grandmothers lived to be 87 each; two aunts lived to be 100 and 104 respectively.

Forbes Wood and Amos, his son, were both in the war of the Revolution. They were among the early settlers in Buckland. Amos was twice married, having by both wives fifteen children. Mr. Wood was married to Betsey Johnson in May, 1831; she was born April 12, 1812, in Buckland, Franklin Co., Mass. Her parents were Josiah and Betsey (Elmore) Johnson. Forbes Wood married a lady by the name of Gauze, of Scotch descent, and by her had John, Amos, Lovica and Sallie. Both Forbes and son Amos were staunch old "Feds," and stood by the colonists in their efforts for freedom. Forbes was a soldier in the old French and Indian war, and when the time came for him to take his stand he did it, both he and son casting their lots with the loyal New England people. Theodosius came West in 1832, reaching this State in September of the same year; he first purchased 96 acres at Strongsville, Cuyahoga Co. After one year's ownership he sold out and moved to Calhoun Co., Mich., where he purchased 150 acres. After a short residence there, he sold it at a gain of \$1,600, and came to this town, where he bought 72½ acres. Subsequently he moved to Wisconsin, near Milwaukee, where he invested in land, remaining there two years; he then sold it at a marked advance, and returned to this township, where he has since lived. He has a comfortable home, and is in the possession of a reasonable competence to provide for all his wants. He has no children. Mr. Wood has already passed the limit of time allotted to the race, and is now spending the eve of his life in the enjoyment of his home. He has always acted independent of sects or denominations, yet always favored everything known to be right, and is not in sympathy with any scheme or enterprise that will not augment the interests of the people at large. He is no partisan, but a firm and solid Republican.

NORTON TOWNSHIP.

DANIEL ANDREW, retired farmer; P. O. Sherman; was born in Northampton Co., Penn., near Nazareth, July 7, 1796, and is a son of Jonathan, he of Nicholas; his mother was Elizabeth (Myer) Andrews, daughter of Martin Myer, who are all natives of Pennsylvania. The limit of Daniel's education was about four terms' attendance upon subscription school, his earlier life being spent in making spools, for his father was a weaver by trade. He afterward engaged in an agricultural life until about 30 years of age, when he learned the trade of millwright, at which he worked several years. In about 1850, he settled at River Styx, where he resided one year, then moved to the farm on which he now lives, and where there is now being mined, by a Cleveland firm, a superior quality of coal, from a four-and-a-half-foot vein, yielding him a handsome royalty. He was married to Anna Friede, by whom he had nine children, six of whom are living, viz.: Stephen, Daniel, James, Josiah, Melinda and Catharine; all are married; Joseph, Cyrus and Edward are deceased, the two latter leaving families in good circumstances in the West. His wife dying, he was married to a Mrs. Clay, the widow of Henry Clay; her maiden name was Peggy Pontius. Mr. Andrews is a member of the Reformed Church, and has been for about fifty-five years, and is a gentleman commanding the respect of all the people of his community.

CHARLES H. BAUER, retired farmer; P. O. Loyal Oak; is a son of Daniel, who was born in Bethlehem, Northampton Co., Penn., April 10, 1801, the son of Jacob, he the son of Charles, who was born in Germany early in 1700. The mother of Daniel was Gertrude Shott, the daughter of Elizabeth (Maudan) Shott. Daniel received a very meager education, his time being spent on the farm with his father. On Nov. 22, 1822, he was married to Elizabeth Miller, sister to John Miller, whose history appears in this work. By this union there were three sons and three daughters—

Susannah Maria, born March 22, 1824; John J., March 12, 1825; Charles H., Sept. 7, 1826; Catharine L., Dec. 30, 1828; Joseph D., March 30, 1832; Elvina E., Aug. 15, 1839. Mr. Bauer's was one of the six families who came to Ohio in 1843, of whom mention is made in another part of the work. He is a very sprightly old gentleman for one having passed fourscore years. His son Charles was given as good educational advantages as could be obtained in the district schools of an early date, remaining with his father upon the home farm, which was purchased upon arriving in this country, until his marriage, Aug. 27, 1853, to Sarah Everhard, who was born Nov. 11, 1832, to Jonathan and Catharine (Wall) Everhard. They were natives, the former of Armstrong Co., the latter from Sunbury, on the Susquehanna, in the State of Pennsylvania. Jonathan Everhard was the third settler in Sharon Township, Medina Co., where he went from Wadsworth with a few men and built a house in one day, returning at night. By his marriage with Sarah Everhard there were two children born; one died in infancy, and Leora C., born Feb. 10, 1864, is now attending school in Pennsylvania. Mr. Bauer is now holding the office of Township Treasurer; is an enterprising man in all the affairs of the township; a member, with his family, of the Lutheran Church, and a liberal giver to the cause of Christianity.

JOHN J. BAUER, tanner; Loyal Oak; is a son of Daniel Bauer, whose history appears with that of Charles Bauer in this work. He received but a limited education, yet, from his earliest years, has shown a remarkable aptness for mathematics. He lived with his father in a Moravian settlement in Pennsylvania, on a farm which had been leased by the grandfather, and where his father had resided for thirty-one years, up to 1843, when he sought a home in Norton. At 22 years of age, he began learning the mason's trade with his uncle, but abandoned it after two years

on account of sickness. He then learned distilling, working five years at that without drinking one drop. He then engaged in farming with his brother Charles, purchasing the farm in partnership now owned by the latter. For several years, he engaged in coopering at the Corners. In 1864, after disposing of his farming and coopering interests, he purchased the tannery now owned and carried on by himself and son Byron. He was married, Jan. 17, 1850, to Catharine Everhard, daughter of Jonathan and Mary (Wall) Everhard, she a sister to Catharine Wall, mother of Charles Bauer's wife. They have had, by this marriage, seven children—six sons and one daughter—five of whom are living, two having died in infancy; they are Milton M., born June 4, 1853; Byron B., June 24, 1856; Jonathan M., June 25, 1861; Cora O., Jan. 9, 1864; Albert A., Dec. 22, 1865. Milton, a graduate of the National Normal School at Lebanon, Ohio, also a graduate of the Long Island Medical College at Brooklyn, N. Y., now practicing at Uniontown, Stark Co.; Byron, married to Fannie Jennings, daughter of Joseph and Elizabeth (Wall) Jennings; they have one child, born Jan. 21, 1881, making the fiftieth heir of Daniel Bauer in this State; J. M. is engaged with Harrison & Holloway, dry goods merchants, South Akron; the two younger are at home. Mr. Bauer has been nine years Justice of the Peace, three years Township Clerk, one year Treasurer of Township, and for more than ten years a member of the School Board. He and family are members of the Lutheran Church, he being one of the most prominent supporters of churches and schools in the township. He has been a leader of singing in the church since 1851, and his daughter organist since her 12th year.

JOSEPH D. BAUER, farmer; P. O. Loyal Oak; a member of one of the oldest and most prominent families in Norton Township; was born March 30, 1832. His father was Daniel Bauer, whose history appears in another place in this work. About twenty years of his early life were spent on the farm with his father, and in receiving his education; after that age, he learned the wagon-maker's trade at Loyal Oak, with his brother-in-law, William Sweit-

zer. He was married, Sept. 30, 1854, to Sarah Serfass, daughter of Andrew and Sarah (Hawk) Serfass; her grandparents were Lawrence and Barbara Serfass, and John and Susannah (Hahn) Hawk, all natives of the eastern part of Pennsylvania, principally Carbon Co. They have had four children, two of whom are living—Lorinda L., born Dec. 1, 1855, died July 10, 1862; Ann Adelia, Sept. 2, 1859, died July 4, 1862, of that dreadful disease, diphtheria; William D., June 4, 1863; Fietta E., Dec. 25, 1865. Joseph has resided in Norton Township since 11 years of age, and held the most responsible offices—that of Treasurer, Trustee, and, in 1880, was Real Estate Assessor, giving satisfaction to the landholders and receiving the sanction of the County Board. He is a liberal supporter of religion and education; is a member of the School Board, and he and family are members of the Lutheran Church and Sabbath school.

JOHN C. BAUGHMAN, farmer; P. O. Johnson's Corners; was born in Lancaster Co., Penn., March 2, 1827, and came with his parents, John and Agnes (Conrad) Baughman, an older brother and one sister, to Chippewa Township, Wayne Co., where they resided fourteen years, the father working at cabinet-making, the two sons clearing and tending a small piece of land which they had purchased. In the fall of 1844, they moved to the now Steinbring farm, which he purchased and farmed until 1856, afterward selling the same to his son, John C., and returned to Wayne Co., where his wife died; he then lived alone between four and five years, when he left his home and lived with his children until his death, which occurred in 1872, at the home of our subject. By close application, Mr. Baughman has acquired a good education, although attending school but a short time; at 20 years of age, he began working at the carpenter and joiner's trade, having, previous to that time, acquired some knowledge of the trade. He is now, in connection with his farming, engaged in contracting and building, and is quite extensively engaged in the lumber business. He was married, July 29, 1849, to Elizabeth Barkhamer, daughter of John and Dorothy (Flickinger) Barkhamer, natives

of Pennsylvania, the father settling in Franklin Township about 1815. They have had eight children, five of whom are living—Ruben B., born July 12, 1850; Isaac J., Oct. 10, 1851; Arvilla, April 1, 1855; Callista, Jan. 21, 1863; Clara E., Aug. 21, 1875; those deceased are Amanda E., born Nov. 2, 1856, died Oct. 29, 1860; Emma, born April 3, 1861, died March 27, 1863; Cora, born June 11, 1865, died Sept. 24, 1870. Ruben B., married to a Miss Wise, farming east of Johnson's Corners; Isaac J., to Mary Minor, he a medical student with Dr. Rockwell; Arvilla, a Mrs. William H. Nice, residing in Wadsworth, he a teacher. Mr. Baughman has held the offices of Township Treasurer and Trustee; was a candidate for Infirmary Director, and received the nomination for County Treasurer by the Democratic party, but declined the nomination. They are members of the Reformed Church.

JOSEPH BURGESS, farmer and coal miner; P. O. Johnson's Corners; was born in Lancashire, England, about forty miles from Liverpool, and six miles from Manchester, Dec. 10, 1820. He is a son of Samuel, who died at 49 years of age; he of John Burgess. Joseph received three months' schooling, for which he paid a tuition of 6 cents per week. At 7½ years, he began learning, with his father, the trade of weaving silk, cotton and fancy flower work, by which he was able to earn his father about \$3 per week. His mother was Ann Simpson, a daughter of Robert Simpson, who lived to 94 years of age, and a brother to James Simpson, noted in the manufacturing circles of England. The parents of our subject died—the mother when he was but 10 years of age, the father when he was 14. At 19 years of age, he was made a member of the organization of Odd Fellows; at the same age, after working twelve hours a day, would attend the night school. He gained valuable information in the business of mining in England, among other practical points which have been conducive to his success. In the spring of 1848, he came to America; worked in the States of Pennsylvania and Rhode Island until in the spring of 1849, when he came to the farm upon which he now lives, and began opening the coal-bank known as the Bartgess bank, which he rented

for seven years, then bought, subsequently selling to Mr. Bartgess. He has now just completed, with his brother-in-law, the opening of a valuable bank of coal two miles west of Massillon, having leased 60 acres, 40 of which, after prospecting, proves a vein averaging from four to four and a half feet of superior quality. The firm name is Sonnhalter & Burgess. He was married to Catharine Sonnhalter Jan. 29, 1856, by whom he has three living children—Thomas, Samuel and George, all living at home; a little girl was drowned in infancy. Mr. Burgess has for the last thirty-three years been a subscriber to the Boston *Investigator*—being a man of liberal views, but of strict honesty and integrity in all business transactions, and having the confidence of the people who know him.

ALVIN D. BETZ, farmer; P. O. Norton Center; was born in Huntingdon Co., Penn., July 19, 1826; son of Abraham, he of John Betz; his mother was Sarah Beyer, daughter of David Beyer. Alvin received a limited education, assisting his father on the farm until 16 years of age, then engaged exclusively in farming; was married May 20, 1846. In the fall of 1849, he moved to Pacific, Columbia Co., Wis., where he purchased land and resided about twelve years in the State of Wisconsin and one year in Minnesota, he holding a claim on the Winnebago Reservation; having disposed of his property in the West, he purchased the old homestead upon which he now lives. Twelve children were born to them, ten of whom are living—Sarah J., Jerusha C., Mary S., John Charles Fremont, Clara E., Ira David, Archie Oliver, Hazwell Abraham, Alvin E. and Laura E. Jerusha C., now Mrs. Charles Seiberling; Clara E., Mrs. Joseph May, both living in Iowa; Sarah J., Mrs. John L. Serfass; Charles, married Susan Cassell; both are living in Summit Co. Mr. Betz is a prominent man and office-holder in the Summit Grange, No. 1283, of which he is the founder, and very proud of it, as it is the most flourishing grange in the county. Mr. Betz is an enthusiastic supporter of all religious denominations, and all enterprises for the advancement of education, and a good moral atmosphere throughout the county. He is engaged in the

breeding of thoroughbred cattle and hogs, a general farming, and bee culture. He and wife are connected with the Mutual Protection Association of Columbus, Ohio. The father of our subject settled in Wadsworth Township, Medina Co., from the State of Pennsylvania, in about 1822, where they lived until in 1847, when they moved to the farm now occupied by the son.

AARON BETZ, farmer; P. O. Loyal Oak: is the second son of a family of five sons and two daughters, and was born June 2, 1835. His father was John, born in March, 1808, died Feb. 1, 1863; he of John, born in 1773, and died in 1852. They settled in Chippewa Township, Wayne Co., Ohio, from Pennsylvania, about 1821. His mother, who is still living, was Rebecca Beyer, born Jan. 27, 1807, daughter of David, born Sept. 7, 1763, and Sarah (Crum) Beyer; her grandfather was William Crum, born April 5, 1731, died Oct. 10, 1790; her grandmother was Mary (Crum) Crum, born Dec. 5, 1746, died June 26, 1798. They had four children—Mary, Sarah, Abraham, William. Aaron remained on the farm until his enlistment, in 1861, in Co. C, Akron B. L. I., P. C. Hard, Captain, but was the same year honorably discharged on account of disability. He re-enlisted, however, in 1862, and served in Quartermaster's Department, 7th Division, Army of the Ohio, at Cumberland Ford, Ky., when he was again honorably discharged. He then remained at home in charge of the farm, his parents being aged, and three other sons being in the army, and his oldest brother in Wisconsin. He was married, Aug. 20, 1863, to Catharine Baughman, born Oct. 24, 1835, and daughter of David and Elizabeth (Blocker) Baughman. They have ten children—Bertha R., Mary E., George W., Florence L., Susan C., John D., Sarah E., Charles O., Fred E., Rocse Ellen. Mr. Betz is engaged in grain-raising and feeding stock: has held the office of Township Trustee two terms, and a member of the School Board. He is also a member of the Norton Subordinate Grange, of which he is a prominent office-holder.

NORMAN BLOCKER, farmer; P. O. Loyal Oak: was born March 8, 1835, to Eli and Mary (Myers) Blocker, who were natives of the State

of Maryland; his father, Eli, was born in 1807, and died in 1845. Although his death occurred in early life, he had suffered all the trials of an early pioneer life, in clearing up the farm where his son now resides. His first settlement in this State was in Wadsworth Township, Medina Co., but, subsequent to his marriage, he moved to Norton Township, where there were five children born unto them, two of whom are living. Norman, the second of the family of children, received but a limited education in the district school, his help being required, at 10 years of age, by his widowed mother in supporting the family and tending the farm, where he has been engaged since. His mother is still living, in her 75th year, as hale and hearty as twenty years ago. Norman was married, Nov. 9, 1861, to Mary Elizabeth Betz, daughter of John and Rebecca (Byers) Betz, natives of Pennsylvania. Mrs. Blocker was born July 5, 1839. They have had four children, three of whom are living—David E., born March 21, 1863; Lillian G., June 8, 1864, died Sept. 18, 1864; Ermina Amelia, Sept. 2, 1865; and Samuel Allen, Nov. 13, 1875. Mr. Blocker has at heart the furtherance of all good enterprises and principles, the improvement of stock and agriculture, and the promotion of the principles of the Republican party.

DAVID L. CARTMILL, telegraph operator, New Portage; born at Annapolis, Parke Co., Ind., Feb. 12, 1845, to Jacob and Eliza (Atchinson) Cartmill, and was the third of four children. The father died when David was but 5 years of age. At about 10 years of age, he came to New Portage and began working to educate himself, which, by his energy, he succeeded in doing. He began working, in 1860, in the pottery, where he continued for about eight years, and at the expiration of that time, on account of the injury to his health, he abandoned the business, having, in the meantime, devoted his evenings to the study of telegraphy, which he subsequently adopted as a business, and, after working at several different places, was given charge of the office at New Portage, on the N. Y., P. & O. R. R., formerly the A. & G. W., where he has been for the last thirteen years. He was married, March 4, 1872, to Miss Hattie

Hettrick, who was born March 20, 1850, to John and Mary Jane Hettrick. They have one child—Harley Edwin, born March 28, 1874; they are also raising a little niece, Mary May, born June 10, 1874. He is a member of the Masonic fraternity at Wadsworth, member of the School Board, and, with his wife, a member of the M. E. Church, in which he is one of the Trustees. The following is a brief account of the tragic death of his uncle: In the year 1825, on the 9th of September, a civil, quiet man named Johnston fell in with young Cartmill (an uncle of the subject of this sketch) as he was carrying the mail from Freeport to Coshocton, and, when night came on, the two stopped at a tavern kept by Mrs. Sarah Booth, which was on the Coshocton road. The next day, they continued their journey together, and, after going about three miles, came to a spring of cold, clear water, where Johnston paused to get a drink, while Cartmill went on up the hill. The sharp report of a gun and a scream of terror burst simultaneously upon the ear of Johnston, who hastily ran on and found the poor boy weltering in his own blood and so near dead that he could not speak. Circumstantial evidence appeared against Cartmill's companion; consequently, he was confined in the New Philadelphia Jail, which was a log building standing on the ground now occupied by the public offices. He was finally proven innocent, and the murderer of the boy, a young man by the name of Funston, proven guilty by the identification of a \$10 bill known to have been in the possession of the mail-boy. He was tried, convicted, and, on the 30th day of December, was taken to the place of execution, where he paid the penalty of the law for the commission of one of the most dastardly deeds ever chronicled.

DR. M. M. DICKSON, Johnson's Corners: a son of Robert Dickson, who was a native of Dumfriesshire, Scotland, emigrating to this country at 21 years of age, and locating in York Co., Penn., in 1819, died in 1860. His mother was Susanna McCall, who died in 1849, at 46 years of age; she a daughter of Matthew and Ann (Logue) McCall. The great-grandfather of our subject, Matthew McCall, came from Ireland to this country in about 1770, and

engaged in the war of the Revolution during the whole time. The Doctor was born near York, Penn., March 23, 1828; his parents soon after (probably in 1829) settled near Zanesville, where they engaged in farming, our subject residing in that vicinity until about 24 years of age, when he located in New Portage, where he remained, completing his studies and practicing for two years, when he settled permanently in the village of his present location. In his early youth, he learned the potter's trade while at home, which served him in educating himself in after life, he receiving a diploma from the Cleveland Medical College in the month of February, 1855. He enlisted in the 74th O. V. I. as Assistant Surgeon, which position he held two years, then was made Surgeon of the regiment until the close of the war; he joined the army at Stone River, being present subsequently at the battles of Chickamauga and Chattanooga, where the regiment remained all winter, being exposed to great suffering; then at Lookout Mountain and Mission Ridge. After the re-enlistment of the regiment, they started from Ringgold, being present at Buzzard's Roost, Resaca, and many other battles and skirmishes in their march of 150 miles, which occupied twenty-one days. They were in the 14th Corps, under Gen. Thomas; also in Sherman's march to the sea. After remaining in Savannah for a time, they crossed the Savannah River and marched up through South and North Carolina to Martha's Vineyard, where Johnston's army surrendered to Sherman, which ended that campaign. They then participated in the review of "Sherman's bummers," at Washington; they were then sent to Louisville, with the intention of going into Texas to look after Kirby Smith, but returned to Cincinnati, where they were mustered out of service and returned home about the 1st of August, 1865. He was married, June 14, 1854, to Sylvina Irvin, daughter of John and Clara (Merton) Irvin, who were residents of Zanesville. By this marriage there were seven children, three of whom are living—Chalmers M., born April 25, 1855; Gertrude C., July 28, 1866; Robert Theodore, June 25, 1871; the remaining four died in infancy. Chalmers M. is a graduate of the Michigan University at Ann Arbor, and

is now practicing medicine at Port Clinton, Ohio, and building up a successful practice. The Doctor is thoroughly interested in the education of his family, and has been successfully engaged in mercantile pursuits at the village in which he now lives.

URIAH EBBERT, farmer; P. O. Western Star; was born June 10, 1823; son of Isaac, who was born Jan. 30, 1800, and still living in Sharon Township, Medina Co.; he of John. His mother was Maria (Lamb) Ebbert. Isaac moved, with his wife and two children, to Lawrence Township, Stark Co., in the spring of 1823, where they lived more than thirty years, then moved to Sharon Township in the spring of 1859. The subject of this sketch says that he got his education riding horses around the barn floor tramping out grain, hauling saw-logs, chopping timber, grubbing, and in all manner of hard work on his father's farm, where he remained until his marriage, Nov. 14, 1847, to Catharine Keller, born Feb. 15, 1826, daughter of Philip and Catharine (Shook) Keller, who were natives of Center Co., Penn., but settled in Jackson Township, Stark Co., about 1815. They had one child—George, born July 21, 1848, and died Aug. 6, same year. They moved to their present home in the spring of 1860, where he has followed farming and stock-raising. In the fall of 1870, the John Beese Coal Company opened up a mine on his farm, where there were several acres of coal, the vein averaging about four and a half feet, of fine quality, and where they mine several thousand tons annually. He and wife are members of the Reformed Church, in which he has served as Deacon for many years, and worked in the Sunday school; is a liberal patron of all charitable enterprises.

JOHN HARTER, farmer; P. O. Johnson's Corners; is a son of Jacob Harter, who was a soldier of 1812, and whose history appears in this work under the head of Coventry Township. He was born Aug. 28, 1822, in Franklin Township, near Manchester. His educational advantages were such as could be acquired in those early pioneer days, in a wooded country, his father settling at a very early date, and purchasing 100 acres of heavy timber land at \$4 per acre, in what was then known as the Hineckley Tract. In 1844, our

subject left the home of his father and worked at different places until in 1845, when he started to Galena, Ill., performing most of the journey on foot; after stopping for a time in Galena, he went to Dubuque, Iowa, where he attended a mill for a few months, then went up the river to the pineries in Wisconsin, returning in the fall of 1847, on a raft, from Black River, Wis., down the Mississippi to St. Louis, then to his home in Summit Co. He was married, Sept. 20, 1848, to Elizabeth Baughman, daughter of Theobald and Mary (Wilhelm) Baughman. He engaged immediately in farming, living the first five years on the old Bartgess farm in southern Norton; then moved to the farm which he now occupies, purchasing the same from his father-in-law, about 1857. By his marriage with Elizabeth Baughman, eight children were born unto them—George, Oliver, William (who died after arriving at maturity), Theobald, Eli, Otis, Melvina and Mary. Three sons and one daughter are married, Theobald now living near Millersburg, Holmes Co., Ohio; George and Oliver now residing in Fayette Co., Ill.; Melvina, the wife of Wilson Waltz, residing on the Harter farm. Mr. Harter is a prominent man in Norton Township, having held the various offices of trust, both in the township and in the German Reformed Church, of which he and family are members.

MRS. E. W. HARTZELL, farmer; P. O. Norton Center; is the widow of the late Aaron Hartzell, who was born April 23, 1827, to Isaac and Anne Maria (George) Hartzell, who were natives of Northampton Co., Penn. His grandfather, John Hartzell, a son of Philip Hartzell, and of English descent, settled in Northampton Co. about 1740, where their posterity resided for more than a century. John was an officer in the Revolution, and was appointed an Esquire at 21 years of age, in which capacity he served fifty-three years. The subject of this sketch was born Feb. 25, 1843. She is a daughter of Thomas Woodland, who was born May 15, 1803, in Kent, England, to Richard and Sarah (Umpage) Woodland. The Woodland family are heirs to several millions of a legacy left by the Umpage family. Her mother was Martha Woodward, born March 27, 1807, in London.

England, and is still living; the father died a few years ago at his home in Wooster, Ohio, where he was a very prominent man during his many years' residence at that place, as the history of the family appears in a more complete form in the Wayne Co. work. Mrs. Hartzell was married, Dec. 6, 1866, to Aaron Hartzell, at her home in Wooster; the following March, they moved to Akron, where he engaged as general manager and traveling agent for the J. F. Seiberling Manufacturing Company for three years; afterward, in connection with Charles Craz, John J. Wagnor and Mr. Perkins, purchased the mine now owned by the Wadsworth Coal Company, he acting as Secretary and Treasurer. He soon after disposed of his coal interests, and, in May, 1871, built the storeroom at Norton Center, and engaged in general merchandising with Dr. Dickson until December, 1873, when they purchased the store building at Johnson's Corners of the Barnes brothers, where they carried on business until December, 1874, when he returned to Akron on account of the death of their little son, he assisting in the settlement of the business of the J. F. Seiberling Company after their assignment, and, after the formation of the new company in the works formerly occupied by rake company, he was book-keeper and traveling agent. At St. Louis, while representing the company on a Western trip, he was stricken down with paralysis Jan. 10, 1877, and died Sept. 8, 1878, after having received every attention that money and friends could give. They moved on the farm where the widow now lives March 7, 1877. Two children were born to them—Charles Woodland, born Nov. 14, 1868, died April 15, 1874; and Bessie, born Oct. 18, 1876. Mr. Hartzell was a prominent member of the I. O. O. F. Lodge, No. 51, of the city of Akron; a member of the Reformed Church, to which he was a liberal giver, as well as to the college of that denomination at Tiffin, Ohio, where he received a liberal education.

DR. JOHN HILL, farmer; P. O. Western Star; whose portrait appears in this work, was born Oct. 26, 1823, in Sussex, England. His father was named John, as was his grandfather also. The mother, Harriet Wickham,

was a native of the County of Kent, England. They emigrated to America in the year 1828, from the now sunken port of Rye, in the English Channel, landing in New York after a wearisome voyage of six weeks. They engaged in farming near Utica, N. Y., where they remained until in the spring of 1832, when they removed to Orange Township, Cuyahoga Co., Ohio, purchased a farm and resided there until about 1843, when he sold his purchase and set out for Tazewell Co., Ill., where he re-engaged in agricultural pursuits until his death. The subject of this sketch left home when but 15 years of age, and worked at odd jobs for the five years following, giving his earnings to his father, who, at the expiration of that time, removed to the West. John then began attending school, receiving a limited education; however, he engaged in teaching a few terms. In the fall of 1847, he began the study of medicine with Dr. Alexander Fisher, at Western Star, and, in the fall of 1848 and 1849, he attended lectures at the Cleveland Medical College. In 1850, he started upon a traveling expedition, first to California, where he lay sick for six months in the city of Sacramento. He remained in that State until in May, 1853, when he took passage for Australia, being seventy days on the voyage. In May following, he left that country for London, England, arriving there in September of the same year. After stopping for a short time there, he shipped for New York, landing late in October following. Early in December, he went to Cleveland, where he again entered the medical college for the years 1854 and 1855. Although urgently requested by the Faculty of that institution to accept a diploma, he objected upon sufficient reasons, and, in the fall of 1855, entered the Jefferson Medical College at Philadelphia, receiving a diploma from that institution in March, 1856; returned to Western Star, stopped a short time, then engaged in the practice of medicine in Sharon Township, Medina Co., where he remained nearly a year; was then, in March, 1857, married to Catharine Pardee, daughter of Ebenezer and Almira (Brace) Pardee. By this union there have been six children born—Harriet Almira, born June 22, 1858, died Oct.

30, 1878; John E., born Aug. 2, 1859, now engaged in business in the city of Akron; Martha B., born Jan. 2, 1861; Brace P., Aug. 12, 1865; Josephine Elizabeth, March 28, 1875; and an infant son, Jan. 4, 1881. Mr. Hill was elected County Commissioner in 1870, and, having so faithfully discharged the duties of that office for nearly nine years, he was elected, by the voters of Summit Co., in 1879, to a term in the Legislature of Ohio. He is a man of great natural ability and force of character, honest and pure in his business and social relations, commanding, by the purity of his principles, the respect and honor of all the people with whom he is connected.

WILLIAM H. LAHR, farmer; P. O. Norton Center; is an interesting and prominent young man of Norton Center, and son of John and Mary Margaret (Miller) Lahr, natives of Pennsylvania, and was born April 16, 1850. The first twenty years of his life were spent in attending school and assisting his father in agricultural pursuits. He was married, Dec. 1, 1870, to Sarah J. Lerch, who was born in Copley Township, and daughter of Peter and Rebecca (Schweitzer) Lerch, natives of Northampton Co., Penn. Mrs. Sarah Lahr was born April 15, 1850, there being one day's difference in the ages of husband and wife. They have two children—Charles Horner, born April 13, 1873; and Aletta Pearl, Jan. 21, 1880. Mr. Lahr served a term of three years as member of the School Board of the Norton Center Village School, and was re-elected in the spring of 1880; he shows a great interest in the improvement of the schools and the advancement of the educational interests of his township. He is a Republican politically, and, with his estimable wife, members of the church. His father, John Lahr, was born June 19, 1823; his father was John, grandfather Jacob, all natives of Pennsylvania; his great-grandfather Lahr came from Germany early in 1700; his mother, Susan Knecht, her father, Leonard Knecht, her mother, Maria Steckchel, natives of Pennsylvania. John learned the carpenter's trade at a very early age, with his father, at which he worked for thirty-five years, in connection with agricultural pursuits. He was married, Jan. 8, 1845, to a Miss Miller, daughter of

John and Susan (Bower) Miller, Keystoneites, by whom he had three children—Lucinda Elizabeth, William H. and his twin brother, Jonas Franklin; all are deceased except the subject of our sketch. John has been a resident of Norton Center since the spring of 1844, and closely identified with the interests of the township, the improvement of its industries, and the affairs of church.

JOHN LOUTZENHISER, farmer; P. O. Sherman; is a native of Northampton Township, Westmoreland Co., Penn., and son of David and Catharine (Long) Loutzenhiser, who were also natives of Pennsylvania. He was born May 23, 1802; he received but a very meager education, attending subscription school two or three miles distant, and completing his education in about seven months, the remainder of the time being spent in assisting his father with the farm work. In September, 1829, he, with his father and family, came to Norton Township, and, on the 23d of November, 1830, he was married to Miss Lydia Baughman, whose parents lived on the farm known now as the Dr. Simmons' place, in Wadsworth Township, Medina Co. His wife was born in Trumbull Co., Ohio, Aug. 4, 1812, daughter of Lawrence and Anne Maria (Creitz) Baughman, whose parents were Simon and Anne Maria Creitz, natives of Northampton Co., Penn. John, after marriage, more than fifty years ago, moved to the farm on which they now live, it being then a perfect wilderness, but, by their industry, good management and frugal habits, have made for themselves a beautiful home, raised and educated a large family, and saved a surplus for their old age. They have had fifteen children, eleven of whom are living—Lawrence, born Dec. 30, 1832; John B., Feb. 26, 1835; Jonas W., Sept. 19, 1839; Anna M., Jan. 22, 1837; Paul G., April 8, 1841; Moses, Feb. 15, 1843; Rachel, Dec. 2, 1844; Susan, Aug. 16, 1848; Lydia, July 25, 1850; Florinda, Sept. 23, 1852; Katie, March 25, 1854. The family are members of the German Reformed Church in Wayne Co., and give liberally to the support of religious institutions and schools; also lend a helping hand toward the advancement of the people of their community. They have

four children married—Jonas, to Susan C. Bauer, and working at the mason's trade and farming in Summit Co.; John, to Jane E. Keppel, is a farmer, and resides in Seneca Co., Ohio; Rachel, to George W. Braden, a farmer in Morrow Co., Ohio; Susan, to Fred Schneider, a shoe-maker in Hametown, Ohio.

ALEXANDER MENTZER, farmer; P. O. Loyal Oak; was born in Canton Township, Stark Co., Ohio, Nov. 2, 1835, to John Mentzer, born Feb. 2, 1800, he of George William, natives of the State of Maryland. They moved to Lancaster Co., Penn., thence to Columbiana Co., Ohio, where they settled in 1812. About fifty-one years ago, they settled in Stark Co., where the subject of this sketch was born, as stated above. His mother's people came from Somerset Co., Penn., to Stark Co., in 1814. Her maiden name was Mary Ann Smith, daughter of Jacob, who died in 1864, in his 83d year, and Elizabeth (Rhoades) Smith. Alexander, with the remaining children—two older sisters—received a limited education, but afterward taught their parents to read and write, and assisted them with farm work. They moved to the farm on which Mr. Mentzer now lives in 1853, and where he was married, Feb. 24, 1864, to Amelia Blocker (see sketch of Norman Blocker). They have had five children—John Frederick, born Sept. 7, 1865; Charles Oscar, Nov. 22, 1867; Sarah E., Sept. 2, 1870; Harvey Allen, Nov. 17, 1872; Frank Elmer, Feb. 20, 1876. Mr. Mentzer has held the office of Township Trustee, and has been prominently engaged in the enterprises of the township. He is a liberal giver to the support of churches and the promotion of educational advantages; is engaged in a mixed industry—stock and grain raising.

STEPHEN D. MILLER, farmer; P. O. Sherman; is a son of John Miller, born the 15th of November, 1802, in Northampton Co., Penn.; he a son of Jacob, born in April, 1777, died Jan. 12, 1836; he of David, born in 1756, died 1831; he of Walter, born in 1716, died in 1808; he came from Germany; John is in possession of a fine old leather pocket-book, brought from Germany by the last-named ancestor nearly 150 years ago; also, an old-fashioned clock, which is still keeping time

faithfully, brought by a branch of his mother's family by the name of Bair. His mother was Margaret Serfass, her father William Serfass. They have followed farming throughout their lives. John was married, Oct. 14, 1823, to Susannah Bauer, sister of Daniel Bauer, whose history appears in another place in this work. They had twelve children, eight of whom are living; they were among the early settlers of Norton Township, coming in with the large number who came from Pennsylvania in 1843. Stephen was born July 19, 1827, in Nazareth Township, near Easton, Northampton Co., Penn, where he resided, attending school and assisting on farm, until in 1843, when he came to Ohio with his parents, with whom he remained until 24 years of age, when he was married, Nov 6, 1851, to Mary Ann Musser, born Sept 15, 1831, in Trumbull Co., where her parents settled about the year 1812, and resided until 1840, when they moved to the farm on which Stephen now lives; she is a daughter of David and Mary Ann (Read) Musser, natives of Pennsylvania. They have six children—Sarah Jane, born July 1, 1852; Albert, May 21, 1859; Norman F., Oct. 26, 1861; Harriet O., March 13, 1863; Charles O., Nov. 11, 1866; Mary Susannah, Aug. 23, 1870. Sarah Jane, a Mrs. Columbus Seiberling, whose sketch appears in another place in this work. Mr. Miller, at the beginning of the war, held for two years the position of Deputy Revenue Assessor for a part of the 18th Congressional District; he has also held the most responsible township offices, and, for about eight years, acted as agent, on his own account, for the Doylestown Machine Company, then traveled seven years longer as general agent throughout the different States, for same company. He is a man having at heart the improvement of all the affairs pertaining to the good of his community, and with his family are members of the Lutheran Church.

AMOS W. MILLER, merchant, and Postmaster at the village or cross-roads known as Johnson's Corners; was born Nov. 3, 1850, at Norton Center, in a well-preserved house belonging to the Aaron Hartzell farm; his parents, Joseph B. and Caroline (Steckel) Miller, were natives of the State of Pennsylvania, but located in Norton Township in the spring of

1847; his grandfather Miller was Daniel; his grandfather Steckel, Daniel, he of Solomon, who lived more than one hundred years. Amos assisted with the work on the farm and attended to the very limited education he received until 16 years of age, when he began clerking in a general store kept by E. P. Holloway at Loyal Oak, where he remained a few months, then engaged with J. E. Wesener, a dry goods merchant of Akron, with whom he remained but a few months, then traveled through different parts of the West, where he engaged in farming; returning, subsequently, to the dry goods business in the city of Akron, with Sabin & Rudesill, was sent by them to Canal Fulton to take charge of a branch store; in 1871, he, under the firm name of A. W. Miller & Co., purchased the branch store at that place, where they continued with success until the fall of 1879, when the firm dissolved partnership, Mr. Miller retiring. In the spring of 1880, he started the general store where he is at present located and doing a good business. Was married, May 21, 1874, to Emma Walzer, daughter of Louis and Catharine (Ehrett) Walzer, who were natives of Alsace, France, now a portion of Germany. They have three children—Inza, born Feb. 17, 1875; Roland, June 9, 1877; Bertha, Oct. 5, 1879.

JACOB J. MILLER, farmer; P. O. Loyal Oak; was the only child of Joseph and Julia Ann (Hahn) Miller, daughter of Peter and Margaret (Kostenbader) Hahn, who were natives of Northampton Co., Penn. Joseph was the first of the large Miller family to migrate to the West, where he died after about one year's residence in Wadsworth Township, where they made their settlement, the mother returning to her native State after his death, and a few years later married a Mr. John Knecht, with whom she lived until his death, she then returning to Norton Township, where she is now living, in the village of Loyal Oak. Jacob received a very limited education, leaving home at 15 years of age, and coming to Ohio, where he engaged in farm work until in his 23d year, when he was married, March 19, 1861, to Theresa Resh, born May 11, 1843, and daughter of John and Rebecca (Hartzell) Resh, who were all natives

of Pennsylvania. They have had four children—Edgar M., born July 18, 1862, in Norton Township; Cora A., April 19, 1865, in Wadsworth Township; Eugene L., July 11, 1871, in Copley Township; Gertrude O., at Johnson's Corners, May 28, 1878. Mr. Miller is one of the enterprising men of his township, and one of the foremost stock men, having brought from Canada his French stallion, "Montreal Lion;" is also breeding Durham cattle and Cotswold sheep. He and wife are members of the Summit Co. Society of Patrons of Husbandry, members of the Lutheran Church, and earnest advocates of the cause of temperance and improvement of society.

JONAS FRANKLIN MILLER, farmer; P. O. Loyal Oak; is a son of "Uncle John Miller," whose history appears in another place in this work; was born Nov. 3, 1832. His education was limited, the principal part of it being practical, such as could be acquired by spending most of his time clearing in the woods and in general farm work upon the place where he now lives, and upon which his father settled in 1844. He was married, Jan. 17, 1856, to Marietta Schlabach, daughter of George and Esther Ann (Lichtenwalner) Schlabach; her father is still living, in his 82d year, he a son of Jacob Schlabach, who came from Germany about 1799, and settled in Northampton Co., Penn. Her grandparents on her mother's side were Peter and Susan (Oswold) Lichtenwalner, residents of Northampton Co. There have been nine children born unto them—Uriah A., born Jan. 7, 1857; Alice M., April 17, 1858; Milton Henry, Dec. 4, 1860; Ida M., died in 6th year; Harry E., Jan. 21, 1868; John G., July 29, 1870; Ella S., Sept. 17, 1873; Freddie Allen, died in infancy; Lizzie Catharine, Feb. 8, 1877. Uriah A. was married, June 5, 1877, to Addie Koplín, by whom he has two children. He is engaged in farming in northern part of Norton; Alice M., now the wife of Harvey A. Myers, a farmer in Copley Township. Mr. Miller has been Trustee of his township, and held other offices of trust. He and wife are members of the Lutheran Church. He is one of the prominent stock men of the township, dealing in graded and thoroughbreds, as well as being engaged in general farming.

DANIEL MILLER, farmer; P. O. Loyal Oak; son of David, who was born June 17, 1796, and died in 1856; he also of David; his mother was Mary, daughter of Jacob and Gertrude (Schodt) Bauer. Daniel came from near Nazareth, Northampton Co., where he was born Dec. 30, 1821, to Norton Township in the spring of 1843, with Daniel Bauer and family, with whom he had lived since 14 years of age. When about 18 years of age, he began learning the carpenter and joiner's trade, at which he worked for about ten years in this township, then engaged in the butcher business about eight years longer, since which time he has followed farming, being very successful, in consequence of his industrious and frugal habits. He was married, Aug. 24, 1852, to Amelia Boerstler, born Feb. 20, 1833, daughter of John and Mary (Esch) Boerstler, who were natives of Northampton Co., Penn., but came to this State in 1846, with a family of five children, Amelia being the oldest daughter, and by whom Daniel has had one child—Franklin Harrison, born March 30, 1856, and has followed farming with his father, where he is now living with his family, having married Sarah Ann Moser in May, 1876, by whom he has two children—Mattie May, born Jan. 14, 1878; and Elsie Pearl, Feb. 7, 1880. They devote their time to the improvement of stock and the best method of agriculture. He and family are members of the Lutheran Church, and highly respected by the people of his community.

PARMELEE FAMILY, New Portage. The history of this family, in a very complete form, can be found in the possession of Eliza A. Parmelee, from whom this sketch was obtained, and who is very careful in the preservation of the old family record, which is too voluminous for publication; therefore, only the different heads of the family will be mentioned in this work. John Parmelee landed in this country June 1, 1639, from Guilford, England, and, with twenty-four other families making up a church, they were the first settlers of Guilford, Conn., which place they named after their former home. After arriving in this country, they all signed a covenant never to depart from one another, etc. John Parmelee, first, born in England, date of birth

not given; John, Jr., second, date of birth not given, but very probably in England; Isaac, third generation, born in Guilford Nov. 21, 1665; Abraham, fourth, in Guilford, May 18, 1692; Abraham, Jr., fifth, in Guilford, April 28, 1717; Theodore, sixth, born April 3, 1751; Theodore Hudson, seventh, Jan. 25, 1792, and came to this State in November, 1812, settling on the farm now known as the Swartz place, returning to his native place to teach school during the winter; in the fall, Nov. 3, 1813, was married, and started, on the morning of the 4th, to their home in the wilderness, where they endured every hardship of an early pioneer life; they had nine children, six of whom are living—Mrs. Caroline K. Earl, born Oct. 30, 1814, of the eighth generation; Maria, Eleza A., Mrs. Clarinda Chapman; Charles, living in Tallmadge Township; and Martha, a Mrs. Rose, her husband an ex-Mayor of Cleveland; Theodore H. Earl, of the ninth generation, eldest son of Mrs. Caroline H. Earl, born April 18, 1836, in Newton Falls, Trumbull Co., Ohio; his child, Leafy, of the tenth generation, born Oct. 29, 1868, in New London, Wis.; the father of the eighth generation was a man of great ability, holding many of the prominent positions in the county, a man of sterling integrity and honor, a member of the church during the greater part of his life. Eliza began attending Oberlin College in 1842, and graduated in 1844, being one of five of the family who graduated from that college, Charles taking the collegiate course, and six of the family attended the same institution; she taught for more than thirteen years in different academies in the State of Pennsylvania; during the college years of 1856 and 1857, she held the position of Professor of Natural Sciences in the college at Iberia, Morrow Co., Ohio; this position she resigned, and returned home to take care of her mother and grandmother who were aged and feeble; she is now superintending her farm of more than 100 acres of choice land, in the eastern part of Norton Township.

DR. W. T. PARMELEE, physician, New Portage; was born in Southington, Conn., Feb. 19, 1830, to N. L. and Eximena (Horton) Parmelee; his father, who was also a physician, removed to Delhi Co., N. Y., where he

resided three years; then to Baker, Brown Co.; then, in 1851, he moved to Binghampton, where he died March 4, 1880, after a practice of about fifty years. W. T. received a common-school education, and, after studying with his father until about 22 years of age, attended lectures at Geneva, N. Y. He has practiced medicine for about twenty-nine years, in New York, Pennsylvania, Maryland and Ohio: also on board the Government ships as Assistant Physician for five years, from Norfolk, Va., to Palestine, and in Summit Co. for the last seven years, now located at New Portage; was married, Oct. 14, 1851, to Sarah Slaight, a native of York State, and daughter of David and Catharine Slaight, by whom he had one child—Gertrude, born Oct. 3, 1854, now the wife of William Creque, residing at Trumansburg, N. Y.; his first wife died in the year 1861; his second marriage, to Mary Jane Porter, daughter of William C. and Mary Jane (Graves) Porter. The Doctor is a staunch Republican, a member of the I. O. O. F. and Sons of Temperance, in which cause he is an earnest worker. He was Independent Assistant Physician at the battle of Gettysburg; is a member of the Evangelical Association, Superintendent of two Sabbath schools for two years, and teacher of Bible-class for four years.

M. LOUIS SHOOK, painter, Norton Center. The subject of this sketch was born in Chatham Township, Medina Co., Ohio, his father, a prominent farmer, residing on the old homestead. Louis received a common-school education, attending, after his 9th year, in winters only, his services being required upon the farm during the summer season; he, however, being an apt scholar, soon mastered all that was then taught in the common schools, and, at the age of 17 years, having overcome great opposition, received the benefit of one term at a select school at Chatham Center; the second winter following, he taught a district school in his native township with good success; the autumn following, he again attended school at Chatham Center; the next winter, he taught school in Homer Township, where he continued during the winter seasons until his 23d year; prior to this time, however, he had turned his atten-

tion to painting, which he ultimately adopted as a profession, after attaining his majority. During his early career as a teacher, he became acquainted with the lady who afterward became his wife—Miss Minnie Messinger; they were married Oct. 17, 1875, since which time he has resided at his present location. In the summer of 1876, he engaged to teach the Center District School for nine months in succession; this so impaired his health that he abandoned teaching and engaged in the mercantile business with Adan G. Seas, at Norton Center, during which time his father-in-law died, May, 1878; subsequently, on account of light trade, they closed out the business, and he again, in 1879, resumed the brush, which he has continued with success until the present time. During the course of his mercantile career, he was instrumental in restoring the post office at Norton Center, at which place he is Postmaster, also holding the position of Township Clerk by appointment. Of his ancestry, one branch can be traced to Germany, the great-great-grandfather, Ackerman by name, emigrating from that country to Philadelphia near the time of the Revolution, and from that city to Bucks Co.; he had a family of six sons, viz.: John, Jacob, Daniel, George, Henry and Abraham; from Bucks Co. they moved to Lower Mt. Bethel Township, Northampton Co., Penn., where they purchased a large tract of land on the Little Martin's Creek, where he soon erected a saw and grist mill; at the death of the elder Ackerman, his son Jacob, who is the direct ancestry of the Shook family, became the miller; the property was divided among the sons, who, having settled upon different parts of the estate, formed quite a settlement, which was called Ackermanville, and now known by that name. In 1823 or 1824, Jacob rebuilt the mill, which he owned until his death. He was married to Rebecca Kulb, by whom he had three sons and eight daughters, respectively: John, Isaac, Catharine, Elizabeth, Barbara, Rebecca, Mary, Susan, Magdaline, Lydia and Jacob, who fell heir to the mill property, and who is still living on the old homestead. Henry Shook, grandfather of the subject of this sketch, was born in 1799, in Plainfield Township, Northampton Co., Penn.; he mar-

ried Catharine Ackerman in the year 1820, and worked his father's farm for about seven-teen years; from there he moved to Tunkhan-nock, Wyoming Co., Penn., in the year 1837; he was the father of nine children, as follows: Jacob, George, Rebecca, Susan, Isaac, John E., Catharine, Aaron and Helen; their eldest son, Jacob, was born in Plainfield Township, Northampton Co., July 18, 1821; he lived with his parents until their removal to Wy-oming Co., when he returned to his uncle at Ackermanville to learn the miller's trade, at which he worked until in the winter of 1843; he was married, in the fall of 1842, to Rebecca Berkey, who was born Aug. 11, 1818, near Ban-gor, Penn.; in the spring of 1843, he mi-grated to Ohio with his father-in-law, Chris-tian Berkey; they came in wagons, making the trip in twenty-four days, landing in Ches-ter Township, Wayne Co., Ohio, on the 16th day of May, 1843; here he remained working in several different mills for a few years, finally renting a mill near Ashland, Ohio, where he remained until the year 1851, when, on account of ill health, he abandoned his trade and purchased a farm of 56 acres in Chatham Township, Medina Co., where he moved on the 2d of April of that year; a few years later, 40 acres more were added to their home, where they are now surrounded with every comfort necessary for the enjoyment of life. They have been blessed with four chil-dren—Mary A., born in Chester Township, Wayne Co., June 20, 1843, was married in January, 1864, to John Hange; Susan was born near Ashland, June 7, 1846; married Irwin Reimel in October, 1869; resides in Upper Mt. Bethel Township, Northampton Co., Penn.; M. Louis, born June 1, 1853; Katie, Dec. 25, 1857, in Chatham, the young-est still remaining at home. Of the mother's family, the great-grandfather, Christian Berkey, was born in 1759; he was a native of Pennsylvania, and was married to Gertrude Kulp; they had ten children. Christian Berkey, Sr., died in 1829; his wife, in 1840. Their home was in Lower Mt. Bethel Town-ship, Northampton Co., where their son Chris-tian was born, and married Barbara Shaum in 1817. Mrs. Minnie Shook, wife of our sub-ject, was a daughter of Jacob Messinger, who

was from Forks Township, Northampton Co., where his brothers and sisters still reside; he came to Ohio about 1854, and was married to Mrs. Mary A. Johnson, by whom he had two children—Minnie and La Fayette, the latter dying when about 4 years of age, and the fa-ther May 8, 1878.

THE SEIBERLING-MILLER COMPANY, Doylestown, Wayne Co., Ohio. This company, in the year 1861, began business at their pres-ent location, under the firm name of Cline, Seib-erling & Hower, in the manufacture of the now famous Excelsior Mower and Reaper, then an entirely new machine, invented by John F. Seiberling, a young farmer of Norton Town-ship, who has, by his numerous inventions, been of great service to the agricultural inter-ests of the United States; a more complete history of his various enterprises will be found under the head of the City of Akron, where he has been engaged in the extensive manufacture of machinery since 1865, still re-taining one-third interest in the Doylestown company, with his brother, James H. Seiber-ling, and S. H. Miller, a brother-in-law, super-SEDING the other three partners, J. H. and J. J. Hower, and Peter Cline. The firm have rapidly increased their business from the manufacture of twenty-five machines in the year 1861, to about 1,500 the past year, at their shops in Doylestown. This energetic firm, though not being able to supply the de-mand for their now popular machines, have greatly increased their machinery and facility for work, so that they are now able to manu-facture, with the same work, from three to four hundred more machines than formerly. In connection with the Excelsior, which they be-gan manufacturing more than twenty years ago, with all the different improvements and attachments which time and expense could suggest to an inventive mind, they are also constructing the Empire Mower and Reaper, an invention of Mr. Seiberling's about six years ago; and, in 1880, he brought out the new single-wheel reaper, which was thor-oughly tested, and will be quite extensively manufactured this year. They are building the following different machines: Two styles of sweep-rake, table-rake, dropper, self-binder, single-wheel reaper, etc. James H. Seiber-

ling, the head of this firm, is a son of Nathan Seiberling, whose history appears in another part of this work; he was born Nov. 25, 1835, and received a very ordinary education, remaining with his father until his marriage, which occurred Oct. 9, 1860, to Elizabeth Baughman, who was born in Norton Township Aug. 28, 1838, to David and Elizabeth (Blocker) Baughman. They have four children—Mattie Jane, born Feb. 17, 1864; Albert Franklin, May 16, 1866; Olive May, Dec. 14, 1868; Robert Walter, Dec. 21, 1874; two died—Allen Byron, born March 6, 1862, died Sept. 15, 1866; George Willard, March 19, 1873, died Sept. 24, 1874. After marriage, Mr. Seiberling engaged in farming on the Harter farm one year, then purchased a farm in Copley, where he resided one year, then sold his farm for the purpose of engaging in his present business; he now owns one of the finest farms, of 196 acres, in Norton Township. Samuel H. Miller, the junior partner, was born May 28, 1839, in Northampton Co., Penn., son of John Miller, whose history also appears in this work. Mr. S. H. Miller is in possession of some old relics, owned first by Walder Miller, a native of Germany, who died in 1806, aged 92 years; next, by David Miller, who died in 1831, aged 75 years; third, by Jacob Miller, died in 1836, aged 57 years; fourth, by John Miller, father of our subject, who is still living. Samuel H. remained in school until 12 years of age; went to Akron, where he clerked about six years in the store of M. W. Henry; he afterward attended school and remained on the farm until December 15, 1863, when he began clerking for Cline, Seiberling & Co., at Doylestown, where he remained until in 1865, when he was made a partner in the firm. He was married, Aug. 29, 1867, to Ella L. Schneider, daughter of Alfred and Clarissa (Clewell) Schneider, who were natives of Pennsylvania. They have had six children, three of whom are living—Alfred J., born Dec. 8, 1868; William R., March 6, 1875; Carrie E., Jan. 24, 1877. His wife was born Jan. 27, 1847. Willard H., Robert, and an infant son, died in infancy.

NATHAN SEIBERLING, farmer; P. O. Western Star. More than fifty years ago,

there came among the "Yankees" of Norton Township one of the first of that industrious and thriving German population which now inhabit the township, and who became the successors to the first "Yankee" settlers in that part of the Western Reserve. Mr. Seiberling, to whom the writer alludes, was born April 14, 1810, in Lynn Township, Northampton Co., Penn.; he is a son of John F. and Catharine (Bear) Seiberling; his grandfather was Frederick, his great-grandfather Christian, all natives of Pennsylvania. The Seiberling family are noted for longevity, all the ancestry mentioned living in the early remembrance of our subject. The father of Nathan was a shoemaker and farmer, and, at the time of his death, which occurred in his 93d year, was the oldest office-holder in the United States Government, having held the office of Postmaster in his native county for more than sixty years. Our subject worked on the farm and learned the trade of shoe-making in the shop with his father; his school-days were of less than one year's duration, he obtaining his education by closely economizing the spare moments. He was married, Dec. 6, 1829, to Catharine Peter, born June 27, 1811, a daughter of Jacob and Margaret (Moser) Peter, natives of Northampton Co.; in June, 1831, he came to his present home, where he purchased 96 acres in the woods, and began life with a determination which won for him wealth and honor in after years; after working hard all day in the woods, he would return at night with a light heart to his humble home and faithful wife, where, after the frugal meal, he would work until 12 o'clock at night, his wife beside him, whittling out pegs, at shoe-making, for the few neighbors, that he might earn bread for his family's support; but, by industry and frugal living, he became very prosperous, owning, at one time, several hundred acres of valuable land, besides investments in stocks and bonds, all of which he has shared liberally with his large family, fifteen in number, eleven of whom are living, one having died in infancy; two sons and one daughter after arriving at maturity. His sons have become very prominent as inventors and manufacturers of machinery, their farming implements being used throughout the differ-

ent States and Territories; six sons are represented in this work, with their farming and manufacturing interests. Mr. Seiberling is a staunch Republican; has the office of Justice of the Peace, and, with his family, are members of the Lutheran Church, he and wife having been members of that organization for about fifty-five years.

COLUMBUS SEIBERLING, farmer; P. O. Western Star. Columbus Seiberling, a promising young farmer and stock-dealer, was born to Nathan Seiberling on the 14th day of November, 1848, near where he now resides. His education, as far as the prosecution of his studies at school, was very limited, but, by close application to study during his spare moments, he has thoroughly informed himself upon all the general topics of the day. He, as a dutiful son, assisted his father with the numerous cares of his extensive business until attaining his majority. In the early winter of 1869, he went to the State of Iowa, where he engaged in farming, principally, for a time, then traveled through different parts of the West, viewing the country, returning in the winter of 1870. March 14, 1871, he was married to Sarah J. Miller, daughter of Stephen D. and Mary A. (Musser) Miller, who were natives of the State of Pennsylvania, and among the early settlers of this county; by her he has had six children, five of whom are living—Mary C., born Nov. 3, 1872; Mattie May, Nov. 3, 1873, died at 10 months of age; Corman E., Feb. 4, 1875; Carrie E., Jan. 1, 1877; Sadie May, Dec. 4, 1878; Lohman Arthur, July 29, 1880. Mr. Seiberling is always interested in the advancement of education and the improvement of society; also, in the improvement of farm and agriculture generally. He and family are members of the Lutheran Church, and have the esteem and respect of all their neighbors.

MILTON A. SEIBERLING, farmer; P. O. Sherman; son of Nathan Seiberling, whose interesting history appears in another place in this work, was born Nov. 20, 1850, and received a common school education, at the same time rendering his father valuable assistance in his business until his marriage, Nov. 30, 1871, to Fyetta E. Johnson, daughter of Joseph and Mary Ann (Hartzell,) afterward a

Mrs. Messinger. Mrs. Seiberling was born in Norton Township, but her parents were natives of Pennsylvania. They have two children—Minnie Letitia, born April 15, 1873; Mattie May, Jan. 28, 1875. Mr. Seiberling is an enterprising young man, industrious and frugal in his habits, pleasing and courteous in his manners, and highly esteemed by the people of the community in which he lives. He and wife are members of the Lutheran Church.

CHARLES STUVER, Western Star, who was born Jan. 9, 1808, is a son of John, he of Philip Stuver, who was a native of Germany, a comb-maker by trade, emigrated to this country about the middle of the eighteenth century and settled in Pennsylvania, where our subject and his father were born. Charles received his education in German by attending subscription school a short time, and, in his earlier years, rendering his father what assistance he was able on the farm. At about 17 years of age, he began learning the wheelwright's trade, at which he worked until in the spring of 1849, when he moved to Wadsworth Township, where he lived two years, then moved to the farm on which he now lives. His mother was Elizabeth Bauer, daughter of Daniel and Margaret (Shutt), natives of Pennsylvania. Charles was married, July 3, 1831, to Mary Ann Santee, daughter of Joseph and Margaret (Ritter) Santee, natives of Pennsylvania, but of French origin. They had twelve children, all living, viz.: Marietta Salinda, James Dillworth, Annaminda Elizabeth, Henry William, Emma Caroline, Aaron Simon, Adeline Rebecca, Jonas Franklin, Sarah Ann Clarissa, Sevilla Louisa, Eliza Adelia, Florenda Catharine—all married except Sevilla Louisa, who is living at home with her father, the mother being deceased since March, 1878; Adaline, married to Joseph Kulp, a dentist in Muscatine, Iowa; Aaron married a Miss Josephine Huff, and is now a member of the bar at Newton, Iowa; Henry, to Susannah Miller, of this township, is now farming near Brookfield, Mo.; Marietta, Mrs. John Santee, who is farming in Wadsworth Township, Medina Co.; Annaminda, Mrs. John Hoch, a farmer in Center Norton; James, married to Miss Kate Hoch; he

it now farming in Wadsworth Township; Jonas, to Kate Hodge; is book-keeper in the Woods bank at Arkon; Emma, Mrs. William Santee, a mechanic at the Empire shops, Akron, Ohio; Sarah, Mrs. George Wise, who is engaged in the rubber works at Akron; Eliza, Mrs. Charles Holloway, of the firm of Holloway & Myers, boots and shoes, Akron; Florenda, a Mrs. Durbin Holloway, of the firm of Harrison & Holloway, dry goods, Akron. In 1876, the Brewster Coal Company of Akron opened a mine of several acres of superior coal, the vein averaging about four and a half feet, which affords him a large income. He and his interesting family are members of the Lutheran Church, and greatly respected by the people of their township.

HENRY TIPPERY, farmer; P. O. Loyal Oak; is the son of Abraham Tippery, a native of Williamsport, Md., who died in the spring of 1872, aged 81 years; his mother is still living, in her 85th year, in Clarion Co., Penn., but a native of Berks Co., Penn.; her maiden name was Elizabeth Harpst, daughter of Andrew and Barbara Harpst. Henry was born July 26, 1827, and received his education by attending about two months in each year, from 13 years until about 20; he rendered what assistance he was able on the farm until about 24 years of age, when he engaged as farm hand for two years to one Samuel Fox; was married June 9, 1853, and worked with Mr. Fox thirteen years longer; his wife was Elizabeth Goodman, daughter of Jacob and Mary (Alshouse) Goodman, her parents being natives of Pennsylvania. In September, 1868, they moved from Clarion Co. to the farm on which they now live; they have had four children, three of whom died in infancy; the one living is Mary C., born July 9, 1854, living at home. Mr. Tippery and family are members of the Reformed Church, and a liberal donor to the support of religious and educational purposes; he has served a number of years as Township Trustee, and as Clerk of the township two terms; is a public-spirited man, and connected with the society of Patrons of Husbandry, in which he has held the highest offices.

SYLVESTER VAN HYNING, farmer; P. O. New Portage; was born in Mahoning Co.,

Ohio, Nov. 22, 1805, to Henry and Hannah (Brauer) Van Hyning, who were natives of the State to New York, but came to Northampton Township, Summit Co., through Mahoning, in the fall of 1805; after a residence of about ten years in Northampton, they moved to the farm upon which the subject of this sketch now resides, they being among the first settlers in Norton Township, and Mr. Van Hyning the oldest settler now living in the township. He received about three months' schooling in a log schoolhouse; his services being required upon the farm, he was deprived of the advantages which would have better qualified him, and made his subsequent active life more satisfactory to himself. The farm of 150 acres upon which he now lives was purchased by his father about sixty-five years ago, of a Mr. Robinson, at \$3 $\frac{1}{2}$ per acre. He was married to Melissa Hollister, born Oct. 24, 1821, by whom he had eight children, seven of whom are living—Hannah, born March 22, 1838; Henry, July 16, 1840; Perry, Jan. 29, 1845; Sylvester, Sept. 5, 1848; Norman, Nov. 15, 1851; Homer, Oct. 14, 1856; Giles, Jan. 24, 1859; Charles, Aug. 24, 1862; died Oct. 24, 1865. Mr. Van Hyning, the father of our subject, died at 102 years of age, after a long and wearisome pioneer life. Sylvester is a careful farmer, giving attention to the most improved methods of agriculture and stock-raising. Although not a member of a church, he is a liberal giver to the cause of religion and the building of churches, his wife being a member of the Methodist Episcopal denomination.

ISRAEL WARE, deceased; born in Ellsworth Township, Trumbull Co., Ohio, May 23, 1808, to Daniel and Magdalene (Ritter) Ware, who were natives of the State of Pennsylvania, and came to Summit Co. among its early settlers, where they engaged in clearing up the country. After a residence of about one year in this new country, Daniel, the father, died, leaving his wife, Magdalene, with four small children, who, for support, were thrown upon their own resources; his was the first grave made in the old burying-ground belonging to the German Reformed Church, situated in the edge of Wayne Co., adjoining the corners of Summit and Medina Cos. Israel was married

to Mary A. Loutzenhiser, by whom this sketch was related, June 16, 1831; she was born Jan. 13, 1809, in North Huntingdon, Westmoreland Co., Penn., and daughter of David and Catharine (Long) Loutzenhiser, who moved from the East to Norton Township in 1829, more than fifty years ago. By her he had eight children, six of whom are living, all in this vicinity; those living are Josiah, born July 3, 1832; Louisa, March 15, 1834; Carlos, Feb. 6, 1836; Mary A., Jan. 21, 1838; Norman, Feb. 24, 1840; Isabel, March 24, 1842; Catharine, Jan. 28, 1844; Daniel I., Aug. 3, 1846. Carlos was killed at the battle of Jackson, Miss., while nobly bearing the colors; Catharine died in her 19th year; and Israel, the father, July 18, 1861. Mrs. Ware and all her children are members of the German Reformed Church.

JOHN WALTENBERGER, farmer; P. O. Loyal Oak; born in Franklin Township, Stark Co. then, now Summit, March 11, 1825; son of Daniel, he of Daniel, natives of Pennsylvania, but settled in said county about 1814, among the pioneers. His mother, Mary Whitesalt, daughter of Conrad W., who settled near Uniontown, Stark Co., about the same time that the Waltenbergers settled in Franklin Township. The father, Daniel, was among the number who cleared the land of its heavy growth of timber and shared all the trials of early pioneer life; raised a family of five children, two of whom are living—John, and Sarah, Mrs. William Belts, of Franklin Township. The father died in January, 1872, in his 79th year; his mother, in 1872, in her 72d year. John received an ordinary education, and worked with his father on the farm until his marriage, which occurred Feb. 21, 1850, to Susan Baughman, born March 25, 1824, daughter of John and Agatha (Conrad) Baughman, whose grandfather and grandmother were Lecnard and Agatha (Redich) Conrad. They have had three children, two of whom are living—Amanda Viola, born Aug. 19, 1851; and Frank M., Sept. 1, 1855; the youngest died in infancy; Amanda V. married, March 12, 1872, to William H. Young, a farmer and mechanic, by whom she had two children—Clara May, born May 9, 1874; and Carmon Walter, Nov. 17, 1878; the husband

died July 31, 1880, in Copley Township, where they resided. Mr. Waltenberger is a successful farmer; has been Township Trustee and member of School Board. They are members of church, and liberal givers to all worthy enterprises, and those conducive to good, and the advancement of the people.

WILLIAM WUCHTER, retired farmer; P. O. Johnson's Corners; born in Lehigh Co., Penn., May 15, 1819; is a son of John and Maria B. (Sammel) Wuchter. William is about eight years older than his brother Eli, who is also represented in this work, and in whose sketch a more complete history of the family will be found. William received but a meager education, his time being occupied in assisting his father on farm and in general work until his marriage, which occurred March 26, 1846, to Aurilla A. Cahon, daughter of James and Miranda (Holmes) Cahon, he a native of Maryland, she of Sheffield, Mass.; her parents Joseph and Charlotte Holmes, came to Norton Township in 1816, being one of the first families in the township. William and his wife have had a family of thirteen children, seven of whom are living—George Wallace, Mary L., Aurilla V., Helen, Eli H., Lottie M. and Sarah Lydia; four are married—George W. to Sarah Hines, living in Tallmadge Township, this county; Mary S., Mrs. Ephraim Marsh, living in Osceola Co., Mich.; Aurilla V., Mrs. Joseph D. Knecht, living in Akron; Helen, Mrs. Thomas B. Dillworth, also resides in Akron; the three younger ones are at home. Mr. Wuchter has always been engaged in agriculture since coming to this State, in Coventry and Norton Townships; is a staunch Republican, and he and wife are members of the Lutheran Church.

ELI WUCHTER, farmer; P. O. Johnson's Corners; was born in Lehigh Co., Penn., Jan. 12, 1827, and is a son of John, born Jan. 9, 1792; he of Martin. His mother, Maria Barbara (Sammel), born Sept. 24, 1789; she of John and Anna Maria (Schneck), who were residents of the State of Pennsylvania. The Wuchter family moved to Norton Township in the spring of 1834, from the East, and engaged in agricultural pursuits, with the father working a part of each year at the stone-ma-

son's trade, until the latter years of this life, which were spent in coopering. After the death of his wife, in 1849, Feb. 20, he was remarried, and lived until the 1st day of September, 1863. Eli spent the earlier years of his life, or until the death of his mother working on the farm and obtaining the meager education which he received; he then worked for about three years in the States of New York, Ohio, Indiana and Illinois; was married, May 13, 1852, to Susan Betz, born Aug.

17, 1833, and daughter of John and Rebecca (Beyer) Betz, who were also natives of Pennsylvania, but moved to this part of Ohio about 1832. The family consists of three children—Rebecca Catharine, born March 29, 1853; died Aug. 23, 1854; Martha Amelia, Aug. 18, 1855; and John Harvey, April 1, 1860, living at home. Mr. Wuchter is a staunch Republican, and, with his family, members of the Lutheran Church, and respected by all the neighborhood.

GREEN TOWNSHIP.

ELKANAH BENDER, farmer and school teacher; P. O. Inland; son of Daniel and Levina (Wadsworth) Bender, born in Greensburg March 24, 1853. His grandfather, Jacob Bender, removed from Lancaster Co., Penn., about the year 1821, and settled in Springfield Township. Jacob was a millwright for many years, and worked at what is now called the Chamberlain Mill. He was married, first to Miss Catharine May, who was by him the mother of Daniel Bender, born May 25, 1820, in Lancaster Co., Penn. After his first wife died, Jacob married Rebecca Kreighbaum, and settled in Green Township. Daniel, the father of Elkanah Bender, removed with his parents to Summit Co. when he was about 1 year old. He was educated in the common schools of Springfield Township, and, when about 13 years of age, was apprenticed to learn the harness-maker's trade. He worked one year at Uniontown, and then finished his apprenticeship at Canton; he afterward worked at Massillon, Greentown, Greensburg and other places. When about 21 years of age, he started a shop in Greensburg, where he continued in business until he died. He was married, first to Catharine France—she died about six months after their marriage, and, about two years afterward, in February, 1846, he "led to the altar" Miss Levina Wadsworth, daughter of Samuel and Catharine (Runk) Wadsworth, who were married in Westmoreland Co., Penn., where Samuel Wadsworth died. Shortly after his decease,

Mrs. Wadsworth removed to Ohio with her daughter Levina, who was born March 2, 1822, and they settled in Stark Co. for one year; then removed to Green Township and resided south of Greensburg two years, and after Mrs. Wadsworth married Jonathan Grable she removed to the village, where she died, July 10, 1876, in the 80th year of her age. In February, 1853, Daniel Bender bought the farm of 36½ acres, now occupied by his wife and children, who erected their present residence in the summer of 1878. Previous to occupying this house, they resided in Greensburg for many years. Daniel Bender served as Township Treasurer many years, and was elected Township Trustee several terms. He died July 2, 1861, leaving three children—Marietta, born August 6, 1848, now married to Alkiah Koontz, of Stow Township, and the mother of three children—Alice, Russell and Katie; Alice A. Bender, was born Nov. 18, 1850; and Elkanah, March 24, 1853. Their mother is a member of the Church of Christ at Greensburg. Elkanah has been a teacher for the past ten years; at the age of 17, he took charge of the school in the Grable District; he then taught one term in the Johnson District; then one term in the Frank District, and, for the next five, was employed in Greensburg. During the winter of 1880-81, he had charge of the school in King District.

ELIAS CRAMER, farmer; P. O. Inland; the only son of Daniel and Elizabeth (Thorn-ton) Cramer; born in Green Township Sept.

14, 1834. Daniel was the youngest son of Solomon Cramer, who removed with his family from Center Co., Penn., and settled in Green Township during the year 1812, when Daniel was quite young; owing to the poor facilities for acquiring an education in those days, Daniel did not secure in his youth a very extended knowledge of the common branches, but, by his own efforts in later years, he gained a fair education; he was early apprenticed to learn the carpenter's trade with Peter Buchtel, which occupation he followed until his decease; he was married, in March, 1833, to Miss Elizabeth Thornton, whose only child is the subject of this sketch; a short time after his marriage, he purchased of William Benn 45 acres of land lying southwest of Greensburg, and, in 1850, 17 acres belonging to the estate of Louis Spotts. Daniel was a member of the Evangelical Association of Greensburg, of which congregation he was an active, influential and consistent member, holding for many years the offices of Class-leader, Exhorter and Trustee. He died April 26, 1863. Elias Cramer, his son, was educated in the schools of Green Township, and attended Greensburg Seminary; he worked on his father's farm until his death; was a member of the 164th Regiment O. N. G., and during the civil war was called into the service for some four months; is owner at the present time of about 52 acres of land; was married, Aug. 16, 1860, to Miss Rebecca Staver, daughter of Rev. Elias and Mary (Yerrick) Staver; eight children are the fruit of this union—Oliver J., Daniel, Sarah J., Emma, Elizabeth, Mary Anna and Etta. Mr. and Mrs. Cramer are connected with the Evangelical Association of Greensburg, of which church he is an active and consistent member, having held in the past years the offices of Class-leader, Exhorter, Trustee and Steward; is Superintendent of the Sunday school at the present time. In politics, he has always been a Republican.

ABRAHAM CRAMER, farmer; P. O. Uniontown; was born Oct. 26, 1827, in Green Township, and has been a resident ever since; he is the only living child of Solomon and Elizabeth (Myers) Cramer. Solomon was born in Center Co., Penn., May 6, 1796, and,

when about 16 years of age, his father, Abraham Cramer, removed to Summit Co. with his family, and settled in Green Township in 1812, purchasing from the Government the quarter-section now owned by William Stettler and John Snyder. Abraham was by his first wife the father of five children—Solomon, Elizabeth, John, Daniel, and one whose name we have been unable to ascertain; Elizabeth married Michael Wise, and died many years ago; John worked on the Ohio Canal for some time, and afterward died at Greentown; Daniel died at Greensburg in April, 1863. Solomon, the father of the subject of this sketch, was married, about 1825, to Miss Myers, who died some five years later in 1830; he started in life as a poor man, and worked hard in order to secure a competency for his only child; about the year 1832, he purchased 70 acres of Jacob Cline; nearly twenty years later he bought another piece of 40 acres, and, again in 1860, another tract consisting of 41 acres, making a total of 151 acres, which is now owned by his son. Solomon died March 8, 1874, nearly 78 years, while residing with his son Abraham. The subject of this sketch was educated in the schools of Green Township, and married, April 3, 1856, to Miss Sarah J. Wiley, daughter of John and Ruah (Gaff) Wiley. They are the parents of seven children—John Wesley, died in infancy; Ruah, married Daniel Vandersoll Dec. 9, 1880; Mary Ella, Walter Grant, Sarah M., Nellie died aged 2, and Harley Forrest. The present residence of the family was erected during the summer of 1878. Mr. Cramer has always been a Republican. He is a member of the Reformed Church, and formerly connected with the congregation at Millheim.

JACOB FOLTZ, farmer; P. O. Nimisila; son of Abraham and Elizabeth (Lausehe) Foltz, born in Lancaster Co., Penn., June 21, 1822. Abraham was a tailor by trade, and also followed farming; he died in August, 1831, at the age of 53; during his life he was married twice, and the father of eight children—John, George and Barbara by his first wife; and Samuel, Jacob, Abraham, Elizabeth and Henry by the second. Henry Lausch, grandfather of Jacob Foltz, was a soldier during

the Revolutionary war, and wounded at the battle of Brandywine; he served three years during the struggle for American independence. Jacob Foltz was educated in the common schools of Pennsylvania, and, at the age of 14, he was apprenticed to learn the tailor's trade with Jonas Renninger, of East Earl; after remaining with him for five years, he worked for Benjamin Swartz, of East Cocalico, and, after some twelve months, opened a shop on his own account in Brecknock Township, Lancaster Co., where he made custom work for many years. He discontinued this business about April, 1857, and some twelve months later removed to Franklin Township, Summit Co., where for three years he followed butchering, residing near Manchester; for the next five years he kept the Mansion House, at that village; in March, 1866, he removed to Green Township, having purchased 34 acres of land from James Serfass; some four years later, he bought 26 acres from John Kaler; he sold a small tract of $5\frac{1}{2}$ acres, and bought 15 more from Messrs. Herring and Rohrer, having at the present time about 70 acres. His residence was put up in the summer of 1876. Mr. Foltz was married, Sept. 29, 1841, to Catharine Baker, daughter of Peter and Madgalena Baker, of Lancaster Co., and they are the parents of the following eight children: Lucetta, now Mrs. David Hotelling, of Ionia Co., Mich.; Susan, now Mrs. Hiram Haring, of Montcalm Co., Mich.; Elizabeth, now Mrs. David Stump, of Manchester, Franklin Township; Catharine, now Mrs. Frank Slaybaugh, of Williams Co., Ohio; Barbara, now Mrs. Reuben Clark, of Gratiot Co., Mich.; Isaac, now a resident of Manchester, Franklin Township; Maria, died aged about 20 while visiting in Michigan; Caroline, now Mrs. Benjamin Loeihr, of Wilson's Corners, Medina Co., Ohio. The first wife of Mr. Foltz died Nov. 21, 1863, and he was married the second time, to Mrs. Catharine Kauffman, daughter of John and Elizabeth (Grove) Stump. The result of this union is one child—William Henry Foltz. By her first husband Mrs. Kauffman (now Mrs. Foltz), had six children: two died in infancy, four are living, viz., Rev. J. C. Kauffman, now Pastor of the Lutheran Church, at Orr-

ville; Levi M., now a resident of Franklin Township; S. Ellen, now at home; and Samuel S., now a student in the Junior Class of Wittenberg College, at Springfield, Ohio. Mr. and Mrs. Foltz are members of the New School Lutheran Church at Manchester, in which congregation Mr. Foltz has served as Deacon, Elder and Treasurer. He has also been elected Assessor of Green Township for one term, and of Franklin for two; was Land Appraiser for Green in 1870, of which township he has also been chosen as Trustee.

DANIEL FOUST, farmer; P. O. Inland; is the youngest son of John and Catharine (Schaber) Foust, was born at the farm upon which he now resides, Sept. 25, 1842. John was born in Union Co., Penn., May 2, 1795; he was the son of Philip and Magdalena (Long) Foust; when about 24, he removed to Green Township and purchased from the Government the northeast quarter of Section 21. (This land is now occupied by his widow and her son Daniel—it is the only tract in the township which has not passed from the hands of the original family that purchased it.) In 1820, this land was covered with a heavy growth of timber, but by hard work he succeeded in clearing this to a great extent; for many years he followed shoemaking and weaving at night and during the winter; he united with the Reformed Church during his youth, and was connected with the congregation at East Liberty, of which he was an active member, serving as Deacon and Elder for many years. John was married, Dec. 29, 1822, to Catharine Schaber, who was born July 10, 1800; she was a daughter of Philip and Elizabeth (Bickle) Schaber. They were the parents of nine children, viz., Mary, born in 1823, married Samuel Foust and died many years ago; Elizabeth and Abraham, died in infancy; John, Dec. 19, 1829, and died about 1854; Samuel, born June 6, 1831, and now a resident of Iowa City; Michael, Nov. 12, 1835, and died aged 14; George, Aug. 30, 1837; he enlisted in the 29th Regiment O. V. I., under Col. Buckley, and, after serving three years, was killed at Buzzard's Roost; Catharine, Nov. 16, 1840, now living with her mother; Daniel, the subject of this sketch. John died May 25, 1874, after living on his farm in

Green Township over half a century. Daniel was educated in the schools of Green Township; he has been a farmer and stock-raiser all his life; was a member of the 164th Regiment O. N. G., and was in active service for four months during 1864. For several years he owned a half interest in a threshing machine with his cousin Abraham Foust. He recently purchased the full-blooded Durham Bull "Leo," and also other cattle of this grade; the Foust homestead was erected in 1847; the barn was built in 1834, and refitted and painted in 1879. Daniel was married, Oct. 24, 1861, to Mary Ann Dreese, daughter of Isaac and Nancy (Yerrick) Dreese. They are the parents of seven children, all girls, of whom six are living—Minerva Ellen, Nancy Cora, Lorena Alice (deceased), Bertha May, Mary Abbi, Sarah Saloma and Celia Catharine. Mr. and Mrs. Daniel Foust are members of the German Reformed Church at East Liberty.

ISAAC FRANKS, farmer; P. O. Inland; was born Feb. 21, 1817, in that portion of Trumbull which is now within the limits of Mahoning Co.; he was the son of Jacob and Elizabeth (Dice) Franks, who were natives of Washington Co., Penn., and removed with their parents to Trumbull Co., Ohio, where they were married; ten children were the result of their union, nine reached maturity—Samuel, now of Portage Co.; Andrew, formerly of Green Township, now deceased; John, a former resident of Green, but died some thirty years ago, his only son Joel was killed in the army; Henry, now of Eaton Co., Mich.; George, died in April, 1876, while residing north of Akron; Isaac, subject of this sketch; Jacob, died some seven years since in Iowa; Elizabeth, now Mrs. Peter Gates, of Muscatine, Iowa; Jonas, now a resident of Michigan. Jacob Franks was a soldier during the war of 1812; he was wounded in the arm at a battle near Lake Erie, and carried the ball in his flesh for six months; during the later years of his life, drew a pension from the Government; he died about 1847, aged 64 years; in April, 1850, his wife removed to Green Township and purchased 103 acres of land, which was farmed by her son Andrew until his death; and then resided

with her son Isaac until she died Oct. 27, 1877, aged 97 years and 3 months. The subject of this sketch removed to Green Township about the year 1841, in the fall; he was then a poor man, and for some two years worked at days work and by the month, making rails, chopping wood and at the carpenter's trade, until he saved enough to warrant him in purchasing 64 acres of land, which tract he owns at the present time; he afterward bought other land from various parties, and now owns about 280 acres; having during the past twoscore years gained a competency by habits of industry and good business management; he purchased the first threshing-machine ever brought to Summit Co., and, for six seasons, followed this business; in 1873, he erected his present residence which is the largest frame dwelling in the township. For some years Mr. Franks has been engaged in breeding thoroughbred stock. In 1868, he purchased the first two Jersey calves ever imported into Green Township, paying \$205 for the animals; since then the Franks family have always had pure blooded cattle of this grade, which are as well bred for dairy purposes as any other stock of Jersey cows in Summit Co. In 1878, they paid \$600 for three yearlings and three calves; they have also the most extensive stock of Italian bees in Green Township. Isaac Franks was married, June 13, 1850, to Miss Sarah Catharine Miller, who was born March 5, 1833; she was the daughter of John and Susau (Stambaugh) Miller; was born and raised in what is now Mahoning Co., where her father died in the fall of 1879, aged 90 years. Mr. and Mrs. Franks are members of the Evangelical Association at Greensburg, of which denomination they have been earnest and consistent members for many years. They are the parents of two children—Emanuel and Mary E., now Mrs. Madison Kepler. Emanuel was born July 23, 1851; he was educated in the common schools of his native township, and afterward attended Greensburg Seminary for six terms. Was married, Nov. 21, 1876, to Ella Francis Cox, daughter of Henry and Charlotte (Horner) Cox; they have one child—Lloyd Mondella, who was born June 25, 1879.

JOSEPH GRABLE (deceased), formerly of Green Township, was born in Washington Co., Penn., Dec. 8, 1812; son of Jonathan and Catharine (Barkhammer) Grable, and married, in 1832, Susanna Cox, daughter of Jacob and Elizabeth (Hartsoph) Cox, who was also born in Washington Co., Oct. 13, 1815, where they resided until 1834, and then removed to Green Township, settling upon the farm now occupied by Jacob Grable, which land Jonathan Grable, father of Joseph, had purchased from the Government; they remained there for some twenty years, then removed to the farm now occupied by Mrs. Susanna Grable, which Joseph purchased of Frederick Pontius about 1864; Joseph was always a farmer, but for many years cried sales for those desiring the services of an auctioneer; was chosen Land Appraiser by the citizens of Green Township, at one Decennial Appraisal; he died March 9, 1867. Mr. and Mrs. Grable were members of the Disciples' Church; they were the parents of ten children; record of these is as follows: Sarah, born May 7, 1833, married Conrad Ream, and died aged about 24, leaving one son, Adam—now a resident of Caldwell Co., Mo.; Mary Ann, May 8, 1835, and died in Iowa aged about 22; Jacob, born Sept. 6, 1836, now a resident of Green Township; he married Miss Amelia Stauffer Jan. 1, 1857; they have five children—Marion, Effie, Florence, Harry and Bessie; Elizabeth, March 9, 1838, married William Cole, they reside near Belmont, Ill., having six children—Ellsworth, Clyde, Joseph, Hatty, Eddie and Samuel; Jonathan, April 5, 1839, died some three years since at Osceola, Iowa, leaving one child, named Anna; Samuel, Aug. 19, 1840, resides in Green Township with his mother; Catharine, November 10, 1842, married Daniel Shutt, and died Oct. 30, 1864; Jerome, Jan. 11, 1844, enlisted in the army for three years during the rebellion, and died about 1870; Levina, April 9, 1846, and died March 13, 1865; Minerva, Jan. 31, 1848, married Alfred Yerrick, who died May 16, 1879, leaving six children—Omsby, Lois Lovina (now living with her grandmother), Susan, Stella, Bessie, Johnny and Ida. Jonathan Grable moved to Green Township a short time after his son Joseph did, and set-

tled in the southern portion; he removed to Greensburg where he died many years since, and was buried on his farm some two miles south of the village.

REV. P. W. HAHN, Inland; was born in Columbiana Co., Ohio; the oldest son of Peter and Mary (Stump) Hahn; Peter was born in Baltimore Co., Md., and Mary Stump in York Co., Penn. They were married, in 1811, by Rev. Mr. Stauch, of the German Reformed Church. During the year 1800, George Adam Hahn, father of Peter, left his Eastern home, with a family of six sons and daughters, and removed to Ohio, settling in Columbiana Co. The same year George Adam Stump, with his four sons and six daughters, left York Co., Penn., and occupied land in the same district in Ohio. Both of these pioneers had served in the American army during the Revolutionary war, and their grandson, the subject of this sketch states: "I remember distinctly of hearing them relate incidents of the war and of the great and good man Washington." These two families, with another by the name of Sumner, formed the nucleus of a new community; both of the sturdy patriots died in Springfield Township. Peter and Mary Hahn had nine children—Sarah, married Dr. Sowers, of Columbiana Co., and now deceased; Mary, now the wife of Rev. J. Crouse, of Tiffin, Ohio; Libbie, married J. H. Donald, and now deceased; Rev. P. W., now of Green Township; Rachael, now Mrs. J. Frankfort, of Rockford, Ill.; J. W., now of Texas; J. D., now of Plainfield, Ill.; George, died in California; Jeremiah, died in Illinois. The subject of this sketch was educated in the schools of Columbiana Co., and remained on his father's farm until 22 years of age; he then entered the ministry of the Evangelical Association, of which denomination he has been an active minister for thirty-seven years; during this period he has preached throughout Ohio, Indiana, Illinois, Pennsylvania, Maryland, New York and New Jersey; he preached for two years at Kelly's Island in Lake Erie, crossing and re-crossing on the ice during the winter; for some twelve months he was collector of funds to aid the Evangelical Printing House now located at Cleveland. Mr. Hahn was married, April 30,

1846, to Mary A. Mottinger, daughter of John and Barbara (Long) Mottinger. They are the parents of four living children—Flora Almeda, Jennie Cornelia, Charles Beecher and Henry Ward. Rev. Hahn has charge at the present time (February, 1881), of Wilmot Circuit of Stark Co.; he owns a fine house and some 23 acres of land, which lies just south of Greensburg Village.

CYRUS HARTONG, farmer; P. O. Inland; was born Sept. 25, 1816; the son of Jacob and Elizabeth (Tritch) Hartong, who were born on the same day, April 21, 1796, and married about the year 1815. Jacob was the son of Christian and Barbara Hartong, who were residents of Lancaster Co., Penn., at the time of his birth. Jacob remained in that State until the year 1824, when he removed with his wife and family to Green Township; he purchased some 200 acres of land, which is now owned by the Widow Thursby. Jacob was a weaver by trade, and followed this business in connection with farming for some fifteen years after he removed to Green Township. He was a member of the Evangelical Church of Greensburg, and died in November, 1869; his wife died in 1842; they were the parents of twelve children, and these are all living, the youngest being over 40 years of age. These children are located at the present time as follows: Cyrus, in Green Township; Elias, near Joliet, Ill.; Allen, Green Township; Mary Ann, now Mrs. John Swartz, of Coventry Township; Harriet, now Mrs. George W. Craig, of Coventry Township; Eliza, now Mrs. Andrew Kiblinger, of Franklin Township; Catharine, now Mrs. John Miller, of Green Township; Jacob, near Joliet, Ill.; Lydia, now Mrs. Elias Thornton, of Elkhart, Ind.; Jonathan, Levi and Franklin, near Joliet, Ill. Cyrus Hartong, the subject of this sketch, removed with his parents to Green Township in 1824. He attended school for a short time in Pennsylvania; and also the schools of Green Township, and since his youth he has acquired by reading a very fair education. Assisted by his younger brothers, he cleared his father's farm. By a long life of toil at farming and habits of economy, he has acquired a competency and owns at the present time a fine farm of nearly 150 acres

in Green Township, 160 acres of land in Iowa, and his present residence just south of Greensburg. Cyrus Hartong was married, in January, 1841, to Miss Elizabeth Wetzel, who was born at what is now Greensburg Aug. 17, 1821. They were the parents of thirteen children, four died in infancy, nine are living as follows: Louis, in Jackson Township, Stark Co.; Margaret, now Mrs. Henry Swigart, of Portage Township; Levi, Green Township; Catharine, now Mrs. Eli Smith, of Jackson Township, Stark Co.; Mary, at home with her parents; Hannah, now Mrs. Levi Bachman, of Green Township; Cyrus Wilson, Green Township; Emma, now Mrs. David Heckman, of Green Township; John Lincoln, at home with his parents. Mr. Hartong has served twice as Trustee of Green Township, and has also been elected to other minor offices of honor and trust. He is a member of the Evangelical Church of Greensburg; his wife is also a member, and they have brought all the children up in that faith.

WILLIAM HENRY, farmer; P. O. Summit; son of Peter and Susannah (Mongold) Henry; born in Germany April 16, 1816. Peter was a farmer in one of the Rhine Provinces of Germany, living about thirty miles from the River Rhine. He was the father of four sons who were coming of age, and not wishing to give one up each year to the German Government, he determined to emigrate. He received about \$1,500 for his small farm of some 25 acres in different patches, and, about the year 1835, embarked with his wife and four children for America. His first wife, the mother of Henry, had died about four years previous; Peter settled in Coventry Township where he resided some twelve years, he then removed to Marshall Co., Ind., and died nearly thirty years ago. Peter was, by two wives, the father of nine children, as follows: Henry, who died while a resident of Marshall Co., Ind.; William, the subject of this sketch; Martha, married John Dice and resided east of Akron near the old forge; Jacob, now of Marshall Co., Ind.; John, died while a resident of Green Township about 1855; Susannah, married William Bitman, and afterward his brother Charles; they removed to Dubuque, Iowa, where she died;

Frederick, died while a resident of Marshall Co., Ind.; Charlotte, is now Mrs. Andrew Warner, of Marshall Co.; Katie, married William Logan, after removing to Indiana. William Henry was educated in the schools of Germany, and worked on his father's farm both in Germany and America until he became of age. He was married, Oct. 17, 1844, to Susannah Evans, daughter of Abraham and Susannah (Shadé) Evans, who were married in Lancaster Co., where Mrs. Henry was born Sept. 27, 1821; Mrs. Evans died Feb. 15, 1872, aged 84 years 2 months and 15 days; her husband died many years previous. William Henry and wife are the parents of eleven children as follows: John, born Sept. 13, 1845, married Catharine Weyrich, and now a resident of Tallmadge Township (during the war he was a member of Co. A, 104th O. V. I.); Susannah, born July 13, 1847, and now Mrs. Andrew Walkup, of Akron; Henry, born Jan. 27, 1849, and died April 16, 1855; Katie, born Jan. 1, 1851, and now Mrs. Samuel Warley; Rebecca, born Dec. 31, 1852, now at home; Mary, born Sept. 24, 1854, now Mrs. Aaron Ritter, of Green Township; and Sarah, her twin sister, who died March 18, 1855; Hiram, born Sept. 11, 1856, married Hattie McCummings, and now a resident of Tallmadge; Amanda, born Sept. 28, 1858, now Mrs. Andrew Switzer, of East Liberty; William, born June 18, 1861, married Jennie Semler, and now a resident of Coventry; Louis Ellsworth, born June 10, 1864, and now at home. Mr. Henry started in life a poor man; previous to his marriage and for several years afterward, he worked out by the day and month for various farmers; he then farmed several of Adam Yerrick's tracts of land on the shares for some ten years; then removed to Franklin Township and rented the Rex farm for eleven years. He then purchased 70 acres of Matthias Battey in Franklin Township, and, after about six years, sold this and bought, in 1871, of Samuel Long, the farm upon which he now resides, which consists at the present time of 64 acres. His residence was put up in the summer of 1878. Mr. Henry is a member of the Evangelical Association of East Liberty; his wife is a member of the same denomination.

D. F. HUNSBERGER, merchant, Inland; one of the most enterprising and energetic business men of Summit Co.; born March 5, 1835; the eldest son of John and Cynthia (Triplet) Hunsberger; he received a knowledge of the common branches in the schools of Green Township, and afterward attended Greensburg Seminary and at Marlboro, Stark Co. He entered his father's store when quite young; was so small that it was necessary for him to stand on a store box to sell goods, and in fact "grew up behind the counter." In October, 1863, John Hunsberger transferred the establishment to his two sons, D. F. and C. F., who conducted the business until July 1, 1868, under the firm of Hunsberger Brothers. Since then D. F. has managed the establishment; he has at the present time a branch store at Uniontown, and runs the warehouse at Uniontown Station, where he is engaged buying grain. He was a member of the O. N. G. during the rebellion, and was in active service from May to September, 1864; was chosen Captain of Co. H, 164th Regiment. He has been a member of the Township Board of Education since 1868, and is Postmaster of Greensburg at the present time, which business is attended by his son Arthur F. It is worthy of note that he was the first young man from this section of the county who visited New York City, having been sent by his father to purchase goods when he was about 18 years of age. Mr. Hunsberger was married, Nov. 25, 1858, to Miss A. C. Henkle, of Ashland Co., and they have six children—Sheridan G., now a student at Oberlin College; Arthur F., Deputy Postmaster; Homer E., Lottie C., Arlin E. and John H. John Hunsberger, for many years a merchant at Greensburg, was born in Lancaster Co., Penn., Aug. 14, 1808; he was the son of John and Mary (Bender) Hunsberger, who moved to Ohio in 1822, with nine children, and settled in Green Township, purchasing 400 acres of land. These children were: Abram, of Green Township; Fannie married John Harter, and died near Joliet, Ill.; John, of Greensburg; Mary, now Mrs. Peter Buchtel, of South Akron; Samuel, of Green Township; Elizabeth, now Mrs. Jacob Garmon, of Greensburg; Levi, went to California during

gold excitement and never returned; Catharine, unmarried; Isaac, near New Portage, Summit Co. John remained on his father's farm until he was 22, when he entered Hart & McMillen's store at Middleburg, and clerked there about four years; then started a store in Uniontown, Stark Co., and after three years removed to Greensburg, at which village he was engaged in the mercantile business until he transferred the store to his sons; through his efforts a post office was established at Greensburg, and he was appointed first Postmaster by President Van Buren; holding this position for some ten years. He was married to Cynthia Triplet, daughter of William Triplet, the first settler of Green Township, and they have three children—D. F., of Greensburg; Celia, now Mrs. Bechtel, of Jackson Township, Stark Co.; and Clinton F., of Akron, Ohio.

ALEXANDER JOHNSTON, farmer; P. O. Greentown, Stark Co. "You just go to Alexander Johnston and he will tell you all about it." This was the language of many old settlers when asked by the historian in regard to facts of the early days in Green Township. The general opinion seemed to be that the proper source for reliable information would be one, who, during a residence in the township of nearly threescore and ten years, had occupied such positions in the community which proved him to be superior in intellect to the great majority who now reside or have lived in Green Township. Alexander Johnston was born in Center Co., Penn., Nov. 7, 1808, the eldest son of Cornelius and Elizabeth (Wilhelm) Johnston. Cornelius was of Scotch-Irish descent, and born in Center Co. Feb. 17, 1782; married to Elizabeth Wilhelm March 25, 1806; she was born Jan. 8, 1787, and the daughter of Abraham Wilhelm, who settled in Green Township in 1814, and entered from the Government 320 acres of land, upon which the village of Greensburg is now located. Cornelius and his wife came to Green Township at the same time and purchased 160 acres, upon which he resided for over half a century. He was always a farmer, but chosen frequently to offices of honor and trust by the citizens of the township; he died June 3, 1870; his wife died Aug. 23, 1854.

They were the parents of eight children, five sons and three daughters, as follows: Mary, born March 3, 1807, resides with Mrs. Goodhue, of Akron; Alexander, subject of this sketch; Abraham W., whose sketch appears in this work; John, born Feb. 11, 1813, married Elizabeth R. Newton, Feb. 4, 1840, and died while a resident of Middlebury, Jan. 26, 1879; William, Aug. 3, 1815, married Elizabeth G. Moore, April 22, 1841, and now a resident of Copley; Cornelius, Feb. 8, 1819, married Mary McNaughton Sept. 10, 1851, and now resides at Akron; Nancy, Aug. 22, 1822, now Mrs. N. W. Goodhue, of Akron; they were married Dec. 20, 1841; Eliza Ann, March 5, 1827, and married Lot M. Watson, of Copley, Dec. 27, 1865. During his youth, Alexander received instruction at the pioneer schools of Green Township, but most of his education he acquired in the later years of his life by his own efforts; he worked on his father's farm in the summer and taught school during the winter; he had charge of the school at Greentown for six winters in succession, and taught many terms in Green; was chosen Township School Examiner, and continued in this position until the office was abolished by the Legislature. Was elected Clerk of the township for two terms, and served as Justice of the Peace for six years. When Summit Co. was formed in 1840, he was elected County Recorder, serving first for six months; in the fall of 1840, he was re-elected for a full term. During the winter of 1846-47, he represented Summit Co. in the Legislature; he has also been elected to many other minor offices of trust and honor by the citizens. Alexander was married, March 14, 1850, to Miss Lovina (Thornton) Thursby, she was born Nov. 8, 1821; they are the parents of three children—Horace Greeley, a surveyor and engineer; Newton and Anna Maria. Mr. Johnston owns at the present time 125 acres of land, upon which is a fine residence situated one-half mile from Greentown Station. He was originally a Whig, but has voted the Republican ticket since the formation of that party.

ABRAHAM W. JOHNSTON (deceased): an early settler and for over half a century a resident of Green Township; born Oct. 25, 1810, in Center Co., Penn.; the second son

of Cornelius and Elizabeth (Wilhelm) Johnston. He came with his parents to Green Township in 1814; attended school very little in his youth, owing to the limited facilities offered for obtaining an education at that early day, but in after years he acquired by his own efforts and constant reading a more extended knowledge than most citizens of Green Township ever had. In early life, he was apprenticed to a Mr. Danner, of Canton, and learned a trade; after his term of service, he opened a shop at Greentown, where he remained for nine years. Then returned to his father's farm, and, after five years, purchased the homestead, residing there until he died. He was chosen by his neighbors to occupy many offices of honor and trust in the township; was married, May 25, 1835, by Rev. O. T. Plympton, to Miss Catharine Moore, who was born Feb. 27, 1814, in Northumberland Co., Penn. She was the daughter of John and Margaret (White) Moore, who were both natives of Northumberland Co.; they moved to Ohio in 1823, with their family, and settled on a farm in Springfield Township, now Summit Co., where they resided until they died. Mr. Abraham Johnston died Aug. 28, 1877; his widow is still living on the farm with their daughter Maggie. Mr. and Mrs. Johnston were the parents of five children—Washington G., born Feb. 18, 1836, now farming the homestead; Cornelius, March 4, 1839, and died in early childhood; Mary E., Jan. 9, 1842, married Jan. 4, 1866, to S. H. Hunsberger, and now living at Ottawa, Ill.; Maggie J., April 4, 1849, and resides with her mother; Isabella, June 16, 1852, married Oct. 23, 1878, to Corbin Dillman; they now reside at Joliet, Ill. The three daughters were educated at Greensburg Seminary. Washington G. attended Oberlin College for two years, and was also a student at Mt. Union; when about 20, he entered his uncle's dry goods store at Akron, remaining here two years; then commenced prospecting for coal in connection with his cousin, Cornelius A. Johnston; they opened the Johnston shaft in Franklin Township, working that for four or five years; they also manufactured oil at Akron for some eighteen months; Washington then removed to Rochester, N. Y., and

for four years was engaged manufacturing boots and shoes; he returned to Summit Co., and, after his father's death, purchased the homestead, now 153 acres, which he farms at the present time. He was married, Oct. 1, 1863, to Miss Anna Irvin, and they have four children—James Irvin, Katie May, Grace and Mattie.

JACOB KING, farmer and stock-buyer; P. O. Inland; the son of William and Margaret (Stroup) King; born in Coshocton Co., Ohio, Jan. 20, 1838. He received a common-school education in the district schools of Mill Creek Township, Coshocton Co., and previous to attaining his majority he engaged in the mercantile business at Warsaw, a small village of his native county, forming a partnership with Christian Strome; after about two years he sold his interest in this establishment, and entered the seminary at Greensburg, where he remained for some eighteen months; he then attended Spring Mountain College, of Coshocton Co., for about six months, and, after teaching school for one term in Whitley Co., Ind., re-entered Greensburg Seminary. He was married, Feb. 27, 1862, to Miss Elizabeth Gougler, daughter of John and Mary (Thornton) Gougler. Mr. Gougler was born in Union Co., Penn., June 16, 1807; was married to Miss Thornton March 28, 1833, and they were the parents of four children—George and Samuel, residents of Green Township; Elizabeth, wife of our subject; and Elias, now a resident of Coventry Township. The Gouglers removed from Pennsylvania to Green Township about the year 1838. Mr. and Mrs. King are the parents of four children—Mary Martha, Samantha Jane, Ama Maranda and John William. For three years after his marriage, Mr. King farmed his father-in-law's farm upon the shares; he then settled on his present farm in the spring of 1865. He is an active member of the Evangelical Association of Greensburg, having been a member of this denomination for some twenty-two years. His wife has been connected with the church about the same length of time. In the spring of 1870, Mr. King received a license to preach from the Pittsburgh Conference of the Evangelical Association, and was for two years assigned to Stark

Circuit; for the next two years he was located on Austintown Circuit, in Mahoning Co., and afterward to Erie Circuit, in Pennsylvania, for the same length of time. He was a very efficient worker in the cause of religion, and during his ministry in Stark Co. two new churches were erected on his circuit, one at Homeworth and the other at Louisville: two new church edifices were also erected while he was engaged on Austintown Circuit, one in Berlin and the other on Green Township, Mahoning Co. These four new church buildings in as many years, were in a great measure the direct result of his skill at financiering for the congregations, of which he was then Pastor, and he received credit for his efforts in a lengthy article published in one of the organs of the association. Mr. King is at the present time a local minister; he is a member of the I. O. O. F. Lodge, of Greensburg, and is undoubtedly the largest stock-dealer of Green Township.

L. M. KEPLER, farmer; P. O. Inland; youngest son of Andrew and Sarah Ann (Kintz) Kepler; born at his father's farm just south of East Liberty May 15, 1852; was educated in the common school of that village, and attended Greensburg Seminary for two terms. At the age of 20, he taught school in District No. 12, Coventry Township, for one term, and afterward in District No. 12, Springfield Township, for two terms, and District No. 3, in Green Township, for two terms. He was married, Nov. 26, 1876, to Miss Mary E., only daughter of Isaac and Sarah Catharine (Miller) Franks. They have one child—Earnest, who was born June 15, 1878. Andrew Kepler, father of the subject of this sketch, was born in Green Township March 16, 1815; he was the son of Andrew and Mary (Cramer) Kepler, who settled in Green Township with their family during the spring of 1810. Andrew, Jr., received a very limited education, owing to the poor facilities offered in the early days: he worked for his father until he was 21; then farmed for several years; in 1841, he erected a hotel in the village of East Liberty, and, after keeping tavern for two years, traded the establishment to John Castetter for his present farm; he has served as Trustee several terms, and is Treas-

urer of Green Township at the present time. He was married, April 28, 1836, to Sarah Ann Kintz, who was born June 20, 1817; they are the parents of seven children—Maria, now Mrs. Daniel Stam, of Greensburg; Hiram, proprietor of a laundry at Akron; Isabella, now at home; John Perry, of Tallmadge; Sylvester, a resident of East Liberty, and Justice of the Peace of Green Township; Oliver C., died in infancy; and L. M., subject of this sketch.

REV. ADAM KLINEFELTER (deceased); a pioneer minister of the Evangelical Association, and for many years a prominent and influential member of the congregation at Greensburg. He was born May 1, 1796, in Shrewsbury Township, York Co., Penn., where he lived until he became of age. He united with the Evangelical Association at 19, and, at the Tenth Annual Conference held at New Berlin, Penn., in June, 1817, was received into the itineracy as a preacher on probation, and sent to the Lancaster Circuit in Ohio. The Evangelical Association then numbered only twenty-one itinerant ministers, and 1,493 members; Father Klinefelter survived them all, and was, previous to his death, the oldest living minister of this denomination. In the year 1818, he traveled Schuylkill Circuit, Penn.; in 1819, Somerset; in 1820, Union; in 1821, Lancaster, Ohio; in 1822, York, Penn. In 1823, was elected Presiding Elder and stationed on Ohio District, which field he occupied as Elder for four years; in 1827, he was sent to Sandusky, Ohio; 1828, Schuylkill, Penn.; and 1829, to Canton Circuit, Ohio. In consequence of the hardships he suffered during this active ministry of thirteen years, his health was undermined, and he was compelled to locate, in 1830, on account of bodily infirmities, but, for nearly fifty years afterward as a local preacher, he did good service for the cause he loved. He was married, Aug. 2, 1825, to Margaret Dillman, born May 26, 1805; a daughter of Conrad Dillman, one of the early settlers of Green Township. For several years Rev. Klinefelter resided on his father-in-law's farm, but, about the year 1843, he purchased from a man named Yohe the 160 acres in Green Township, and resided upon this land until he died, March 22, 1878.

It was then written of him: "As a man and associate he was always straightforward, open-hearted, sociable and communicative. In his company no one would be likely to become sad or gloomy, for he was always cheerful, and the influence of his friendly spirit was almost irresistible. He was strongly attached to the church of his choice, without being uncharitable toward others, and, although he attached great importance to the early customs, manners and spirit of our church, he was more progressive than many whose best years belong to this progressive age. As a Christian, he was sincere and firm in his belief and principles, constant in his devotions, and exemplary in conduct. He liberally supported every good enterprise of the church." Margaret, his wife, was thrown from a wagon June 1, 1879, and suffered instantaneous death. They were the parents of ten children—Joel and Amelia, died in infancy; Joseph, died in 1846, aged 14; Catharine, who resides on the farm, is a frequent contributor of the *Evangelical Messenger*; Amos, now a resident of Joliet, Ill., married, May 12, 1859, to Mary E. Hammer, they have six children—Emna, Clara, Charles, Lena, Susan and George. Mary, died in 1846, aged 6; Simon, resides at the old homestead; William, now a minister in Des Moines, Iowa Conference; married, May 10, 1870, to Ellen Holl, and has five children—Herbert, Maggie, Mary, Edgar and Alice. Elizabeth, married Nov. 19, 1868, to Jacob J. Long, they reside in Cerro Gordo Co., Iowa, with four children—William E., Jesse, Gertrude and Ruth. Levi, now County Superintendent of Cerro Gordo Co., Iowa; he was married, Oct. 14, 1879, to Miss Carrie E. Brown.

SAMUEL B. LONG, farmer; P. O. Uniontown; born Nov. 15, 1830, in Center Co., Penn.; the son of Samuel and Eva (Hersberger) Long. Johannes Hersberger, his grandfather, was born Oct. 3, 1770, and Miss Christina Elizabeth Fehler, daughter of John Jacob Fehler, was born in 1773; they were married in 1795, and became the parents of ten children—George, Eva, Leonard, Susanna, Catharine, Thomas, Johannes, John Henrich, Christina and Maria Hersberger; only two of these are living. Eva, the oldest

daughter, was born Dec. 9, 1798, and, on Dec. 17, 1822, married Samuel Long, who was also born in Center Co. Feb. 22, 1792; the result of this union was nine children, viz., Mary, married Michael Laney, and died while a resident of Copley Township; Rachel, now Mrs. Simon McLean, of Grundy Co., Ill.; Leah, now Mrs. Samuel Baum, of Venango Co., Penn.; Rebecca, now Mrs. Joseph Weikeal, of Ashland Co., Ohio; Samuel B., subject of this sketch; Reuben, died aged 3; Johnson, now of Meadville, Penn.; Elias, now of Akron, Ohio; Daniel N., of Copley Township. Samuel B. Long was educated in the schools of Venango Co., Penn., where his parents removed when he was about 6 years of age. After leaving school he worked at painting steadily for about fifteen years, and then at different times for some five years, following this business at Venango, Oil City, Petroleum and other places in Pennsylvania. In 1854, he removed to South Bend, Ind., and remained there about twelve months, then returned to the Keystone State. During the oil excitement, he was engaged for a short time in buying and selling oil lands, and his operations at this were generally successful. He has also worked at cabinet-making for several years; March 28, 1867, he removed to Green Township and settled upon the farm now owned by William Henry, near East Liberty; after eight years he sold this to Henry, and purchased of Andrew Shanafelt the 118 acres upon which he now resides. During the summer of 1880, he erected upon this a very neat dwelling house. Mr. Long was married, Feb. 21, 1854, to Miss Louisa Thomas, daughter of Samuel and Elizabeth (Rhodes) Thomas, who was born July 1, 1839; they are the parents of the following children: Thomas, Newton, Sylveen, Frank M., Etta, Eva, Byron S., Ernest, Ervin, Jennie, Addie, Della and Emma. They are all living; the oldest daughter, Sylveen, was married, Oct. 18, 1878, to Charles Schnee, of Springfield Township, and is the mother of two children—Nellis and Matilda. Mr. and Mrs. Long are members of the Methodist Church at Uniontown.

DANIEL MOTTINGER, farmer; P. O. Inland; the son of John and Barbara (Long) Mottinger, born in Green Township March

29, 1841. His grandfather was of Scotch descent, and one of the early settlers of Columbiana Co., who entered at the Government office the land upon which the village of New Lisbon now stands. The nearest white neighbor was at that time some eighteen miles distant. During the war of 1812, this early pioneer of Columbiana Co. enlisted in the American army, and through exposure in the service he contracted disease from which he eventually died. His son John was born May 8, 1799, and removed from New Lisbon about 1830, and settled in Green Township, purchasing 135 acres of land. He was married to Miss Barbara Long, and they were the parents of ten children, three sons and seven daughters, viz., Susan, now Mrs. Jacob Burkett, of Green Township; Elizabeth, now Mrs. Henry Stroh, of Elkhart, Ind.; Mary, now Mrs. P. W. Hahn, of Green Township; Joseph, now of Jackson Township, Stark Co.; Leah, now Mrs. John L. Bender, of Akron; Sarah, now Mrs. Elias Baughman, of Green Township; Maggie, now Mrs. Wesley Harold, of Sugar Creek Township, Stark Co.; Rebecca, now Mrs. Elias Hartong, of Akron; Samuel, now a resident of Plainfield, Ill.; and Daniel, of Green Township. John Mottinger was a carpenter by trade, and assisted by Peter Buchtel he built the Evangelical Church edifice at Greensburg. He was a prominent and influential member of that congregation, and, in the year 1865, having resided in Green Township for thirty-five years, he sold his farm to Thomas Shoemaker and removed to Will Co., Ill., where he is now living at the advanced age of 82 years. Daniel, his youngest child, the subject of this sketch, was educated in the schools of Green Township and also the Seminary at Greensburg. He taught school in various districts of the township for some eight terms. Was a member of the Ohio National Guards during the civil war, and as such was called into active service and commissioned 2d Lieutenant in Co. H, 164th O. V. I. He was married, December 25, 1862, to Miss Lizzie J. Shoemaker, daughter of Thomas and Sarah (Beatty) Shoemaker. They are the parents of the following children: Lily J., Charles C., Arthur S. and Byron T. Mr. Mottinger has been Superintendent of the

Union Sunday school at Greensburg, during the past eight years, and is a very active, earnest and faithful worker in the temperance cause, which reform movement has been greatly aided of late years by his efforts in Green Township.

MICHAEL MYERS, farmer; P. O. Uniontown; born in Center Co., Penn., Nov. 11, 1811; the oldest son of Henry and Elizabeth (Bushong) Myers, who removed to Green Township when Michael was about 18 months old. They settled on the farm now owned by him, and resided there until they died. When the subject of this sketch was young, the facilities for acquiring an education were very limited; he never went to school in his life, being compelled to labor early and late upon the farm. May 26, 1840, he was married to Miss Rebecca Ann Grotz, who was born Sept. 5, 1817; she was the daughter of Abraham and Mary (Kuhn) Grotz; her grandfather, John Kuhn, was a soldier in the American army during the Revolutionary war, and died July 3, 1845, while a resident of Green Township, at the advanced age of 88 years. Abraham Grotz was married to Mary Kuhn while they were both residents of Pennsylvania; he followed his trade as a hatter in Bloomsburg for many years, but removed to Green Township about the year 1834. He was the father of eleven children—Eliza, married William Coggeshall, and died in 1853; Julia Ann, married James Lacothe; David, died while a resident of Green Township; Rachael, now Mrs. George Bidleman, of Green Township; John, now a resident of Pennsylvania; Maria, now Mrs. Norris Coffman, of Ashland; Abraham, died in 1858; Rebecca Ann, now Mrs. Michael Myers; Matilda, died in 1842; Louisa, now Mrs. John B. Myers, of Green Township; and Emeline, died in 1842. Abraham Grotz died Aug. 4, 1848, aged 72 years and 8 months; his wife died March 22, 1856, aged 73 years and 9 months. Michael Myers and wife are both members of the Reformed Church at Millheim; he owns 129 acres at the present time; they were the parents of two children: Byron, their only son, born March 7, 1843, died Jan. 10, 1859, aged nearly 16; and Mary Lovina, their only daughter.

JOHN B. MYERS, farmer, P. O. Uniontown; born in Green Township Jan. 18, 1818; the son of Henry and Elizabeth (Bushong) Myers. The Myers family were of Germanic extraction, but probably from Switzerland. The grandfather of Michael was Isaac, who lived in Union Co., Penn., near Straubstown; Isaac had a son named Jacob, who married a Miss Ream, she was an exemplary Christian; they had eight children—Phillip, Jacob, George, Henry, Christopher, Michael, Barbara and Catharine. Michael was born March 1, 1765, and resided on his father's farm until 19 years of age, and then, in 1784, married Agnes Buchtel, who was born Dec. 1, 1765. About the year 1805, Michael removed from Union Co. with his wife and family to Center Co., Penn., where they remained about seven years. Michael followed his trade as a weaver for many years, but found this occupation injured his health, and commenced getting out mill-stones which was a very remunerative business, but one day a small piece of the stone flew into his eye; he was obliged to discontinue work for six months; meeting with a second accident of this kind some time afterward, he abandoned the business and commenced blacksmithing in a small way, learning the trade as he went along, until finally he was a master mechanic as some of his pieces of handiwork will testify to-day. He excelled in whatever he undertook. His love for music was manifested in the variety of instruments he was able to play, such as the flute, cornet, drum and fife. About the year 1813, he removed with his family to Ohio and settled in Green Township. Michael was the father of eight sons and five daughters, viz., Henry, Michael, Jacob, Christopher, Joseph, John, Philip, George, Sophia, Elizabeth, Barbara, Mary and Susan; only three are now living; they are residents of Springfield Township—Phillip, George, and Mary, now Mrs. Spade. Henry, Michael, Joseph and John died near their father's Ohio home; Jacob and Christopher removed to Indiana and died there; Susan, died at 16; Sophia, died in early life after marrying Benjamin Pontius; Barbara, married a Mr. Bowers and died in Uniontown; Elizabeth, married a Mr. Buchtel, and died in Wood Co., Ohio. Michael

seemed always to have the welfare of his children at heart; and in precept and example he was a Christian. He died Aug. 5, 1841, at the residence of his son George in Springfield Township; his wife died at the home of her son Michael. It is related by John B. Myers that some two weeks previous to the death of his grandfather, the aged pioneer entered the shop of his grandson, who was working at the forge and affirmed that he had just seen a spirit which brought the tidings that he would soon pass to another world. Henry Myers, father of John B., was born in Pennsylvania about the year 1788; Elizabeth Bushong, his wife, was born the same year and they were married several years previous to the time the Myers family removed to Green Township. Five of Henry's children reached maturity, viz., Michael, born in 1811, now a resident of Green Township; Henry, born in 1815, and died in 1857, while a resident of Akron; John B., subject of this sketch, born Jan. 18, 1818; Elizabeth, born Jan. 9, 1822, and married John Hammill; Jonathan, born Nov. 12, 1825, now a resident of Green Township. Henry was a blacksmith by trade, and lived on the farm now occupied by his son Michael; he was a member of the Reformed Church, as was also his wife; she died June 10, 1864, and he survived her over ten years until Dec. 6, 1874. John B., his son, was when a mere boy apprenticed to learn his father's trade, and worked at the forge early and late; consequently he had no time left to acquire an education; he never went to school in his life; at the age of 15 he had the entire control of his father's shop, in which he worked until 25 years of age; he then purchased 72 acres of land, and has since then been a farmer, owning at the present time over 100 acres, upon which the village of Myersville is located. He was married, Nov. 16, 1843, to Louisa Catharine Grotz, daughter of Abraham and Mary (Kuhn) Grotz; she was born Dec. 9, 1824; they are both members of the Reformed Church at Uniontown. The Myers family held their first annual re-union and picnic Saturday, Sept. 6, 1879, and the second one on Sept. 4, 1880.

PETER MYERS, farmer; P. O. Nimisila; born in Union Co., Penn., March 20, 1820;

the son of Daniel and Esther (Kauffman) Myers; Daniel was born in 1782, and resided in Pennsylvania until 1825, when he settled with his family in Stark Co., Ohio; he was a finely-proportioned man, six feet and two inches in height, and weighing during the last twenty years of his life about 325 pounds; he died in 1845, while a resident of Stark Co.; his wife is still living at the advanced age of 87 years; they were the parents of ten children as follows: David, now of Franklin; Elizabeth, died aged 50; Mary, now a resident of Union Co., Penn.; Peter and Elias of Green Township; Hannah, now Mrs. Daniel Diehl, of Franklin; Catharine, of Green Township; Margaret, now Mrs. Peter Warner, of Branch Co., Mich.; Sarah, now Mrs. Levi Swinehart, of Portage Co.; William, now of Akron. Peter Myers was educated in the public schools where he was raised; in 1860, he moved on to a purchase of 100 acres of land in Green Township, to which he added some eight years later 32 acres more. He was married, Oct. 8, 1861, to Mrs. Mary Lancaster, a daughter of John and Elizabeth (Grove) Stump; the result of this union was three children, one died in infancy, two are living—Isaac S. and Sarah Catharine, or "Kittie." By her first husband Mrs. Myers was the mother of three children—Theodore Lancaster, now of North Hampton Township; Cecelia, married Charles Heisa, and died aged 24 leaving one child—Ida A.; Levi A. Lancaster, now a resident of Akron. Mr. and Mrs. Myers are members of the Reformed Church at Manchester. Their present home was built in 1862. Mr. Myers has frequently been elected Trustee of Green Township; the number of times he has been chosen to serve in this position of trust, is the best proof which can be given to show how he is esteemed by his neighbors; while serving in this position during the war, he was greatly instrumental upon several occasions in clearing the township from the draft.

WILLIAM D. SWEETEN, merchant, Inland or Summit; was born in Chester Co., Penn., March 11, 1841; the son of John H. and Henrietta E. Sweeten. His ancestors came from Sweden, and settled in Pennsylvania and New Jersey. John H. was born

March 18, 1818, and married about the year 1840, six children being the result of this union—William D., the subject of this sketch; Henrietta, now Mrs. Louis Bowling, of Baltimore, Md.; James M., now of Akron; Elizabeth, now Mrs. Cyrus Keiser, of Montgomery Co., Md.; Catharine, now Mrs. Marshall Martin, of Suffield Township, Portage Co.; and John, now a resident of Greensburg. William D. Sweeten was educated in the common schools of Pennsylvania. In 1857, he removed with his parents to Akron, where they remained for some two years, when they settled in Lake Township, Stark Co., in 1859. Mr. Sweeten is a painter by trade; he was engaged at this occupation in 1861, when the great rebellion broke out, and considering it the duty of all loyal citizens to aid in suppressing this revolt against national supremacy, he tendered his services to the Government. On Sept. 1., 1861, he enlisted in the 2d O. V. C., under Col. Doubleday, and served until Oct. 1, 1865, and during over four years our subject followed the fortunes of this regiment, of which it is affirmed that it traveled a greater distance than any other cavalry regiment in the service. For the first eighteen months they were stationed in Kansas and Indian Territory; then transferred to the Army of the East Tennessee under Gen. Burnside; they were at the surrender of Cumberland Gap and sent to capture Morgan, the rebel raider. When Gen. Grant assumed command of the armies, and the cavalry corps was formed under the gallant Phil Sheridan, Mr. Sweeten was transferred along with his regiment, which had in the meantime (Jan. 1, 1864), enlisted as veterans for the war, to the Army of the Potomac. They served in the valley of the Shenandoah, taking part in the battles of Winchester and Cedar Creek, all of the conflicts in the Wilderness campaign, and on the raid south of Richmond under Gen. Wilson. After the grand review in 1865, this regiment was stationed at St. Louis and Springfield, Mo. When Mr. Sweeten returned to civil life, he followed his trade as a painter until the spring of 1880, when he purchased a stock of dry goods and groceries, and embarked in the mercantile business at Myersville. He continued there until February, 1881, when, having

fitted up a room at East Liberty, he removed his establishment to that village, where he will undoubtedly succeed in building up a fine trade. Mr. Sweeten was married, Oct. 1, 1868, to Miss Lucetta J., daughter of Abraham and Nancy A. (Gerst) Hunsberger. The result of this union has been three children—Lula May, Winfred Claude and Edwin Roy. In the spring of 1870, Mr. Sweeten was chosen Justice of the Peace by the citizens of Green Township; he was re-elected in 1873; and again in 1879, but, after serving some twenty months on his third term he resigned, Dec. 1, 1880. Mr. Sweeten is an active member of the Disciples' Church at Greensburg, of which religious denomination he has been an Elder during the past eight years. He has also served as Superintendent and Assistant of the Union Sunday School at Greensburg.

HARRISON STIPE, farmer; P. O. Inland; was born in Lancaster Co., Penn., Dec. 6, 1824; the only son of Peter and Elizabeth (Gaetz) Stipe. Peter, the father, died in 1824, before his only child was born; after several years Harrison's mother married Henry Stroll, and they removed to Stark Co. and settled in Greentown; Mrs. Stroll is living in that village (February, 1881), and will be 80 years of age April 3, 1881. Stroll was a hatter by trade, but never followed that business in Greentown—he worked out by the day and month. Harrison did not possess in his younger days many of the comforts and luxuries which are bestowed lavishly upon more fortunate children of this generation. He was early apprenticed to learn the cooper's trade, and served at this for nine years; occasionally he followed the occupation of a common laborer, but, desiring to provide a home for himself and family, he rented of John Gougler the farm now owned by his son Samuel, situated southwest of Greensburg; after tilling this tract of 129 acres for about eight years, Stipe removed to the 140 acres also owned and now occupied by Samuel Gougler; he remained there for five years. In 1865, he purchased of David Coleman his present farm, paying \$50 an acre for 80 acres; in 1866, he bought ten acres of wood-land of Henry Heiss; Stipe removed to this farm in 1867, and it has been greatly improved by him during the few

years it has been in his possession; his present fine brick residence was erected in 1874, and the neat and well-arranged barn in 1867; he also owns a house and lot in the city of Akron. Mr. Stipe started in life as a poor man; when he first rented a farm it was necessary for him to borrow \$150 in order to purchase a team with which to farm on shares; at that time he had only 15 cents tax to pay, but, by industry and economy, he has at the present time a much larger income and declares it is now just as easy for him to raise his present tax of about \$60, as he could the 15 cents not many years since. Harrison Stipe was married, June 22, 1845, to Miss Anna Neutechen, daughter of Daniel and Mary (Mottinger) Neutechen, who had six children—Anna, the oldest, was born Dec. 9, 1825; Elizabeth, now Mrs. Frederick Houser, of Springfield Township; Lavina, now Mrs. Samuel Ream, of Springfield Township; Mary, now Mrs. Christian Spitler, of Greensburg; Catharine, married Jacob Hildenbrand, and they removed to Iowa, then to Illinois; Daniel, the youngest, died May, 1849, in the 18th year of his age. Daniel Neutechen, Sr., died about August, 1831, and his wife in May, 1837. Mr. and Mrs. Harrison Stipe were the parents of three children—Franklin, Washington and one that died in infancy. Franklin, the oldest son, whose sketch appears among those of Akron City. Washington, the youngest son of Harrison Stipe, assists his father in managing the farm. Washington was married, on Jan. 2, 1879, to Miss Lydia Baker, and they have one child—Irvin Franklin, who was born June 30, 1880. Mr. and Mrs. Harrison Stipe are members of the Evangelical Association of Greensburg, of which congregation Mr. Stipe is an active member; he has served as Class-leader for six or eight years, and has been an Exhorter about the same period. He has also served for twelve years on the Township Board of Education.

THOMAS SHOEMAKER (deceased); was for many years a leading spirit in all the movements established by philanthropists, for the purpose of improving the moral and spiritual condition of mankind; he was born in Lehigh Co., Penn., Sept. 18, 1815, and died in Green Township Nov. 11, 1879; Thomas

was the son of Peter Shoemaker, who was the father of seven children, viz., Moses, died some thirty years since in Mercer Co., Penn.; Thomas, the subject of this sketch; Levi, now a resident of Bartholemew Co., Ind.; Gideon, died about twenty years ago near Salem, Ohio; Ama, now Mrs. Charles Beil, of Hamburg, Penn.; Leah, now Mrs. Harmony, and a resident of Indiana; Lavina, now Mrs. David Boyer, of Michigan. In his youth the subject of this sketch received very little instruction in consequence of the poor facilities for obtaining knowledge, but he was naturally bright, and in after years acquired by reading and study a good education. He was married in Mercer Co., Penn., June 4, 1844, to Miss Sarah Ann Beatty; Robert Beatty, her father, was of Irish descent, and married Miss Anna McMillen, a "Scotch lassie;" both were born in this country. Robert and Anna were the parents of six children—Amelia, died aged 2; William, died aged 14; Sarah Ann, now Mrs. Shoemaker; Samuel, now a resident of Ashtabula; Eliza, now Mrs. Weld N. Alden, of Meadville, Penn.; Isabella, who died at 42. Mrs. Shoemaker was born Sept. 1, 1809, and when about 7 years of age her mother died; at the age of 18, she went to live with her uncle and aunt, William and Elizabeth Beatty, remaining with them until they died; William, in April, 1847, and Elizabeth, in August, 1862. Robert, their brother, died December, 1860. Mr. and Mrs. Shoemaker sold the farm in Mercer Co., Penn., about 1865, and removed to Summit Co., purchasing the 50 acres upon which Mr. Shoemaker lived at the time of his death, and also the old Mottinger farm. They are the parents of three children—Elizabeth J., born March 26, 1845, now Mrs. Daniel Mottinger; Mary C., born Jan. 21, 1847, and married in 1864, to Oliver Weimer; he was the son of Gabriel and Elizabeth (Dunbold) Weimer; was a music teacher, and served in the army for two years; he died in 1867, at the age of 24, leaving one daughter—Jennie Trueanna. Mrs. Mary Weimer was afterward married to George T. Rankin, whose sketch appears among those of Akron City. William B., only son of Thomas Shoemaker, was born Feb. 14, 1849; he is a thresher by trade, having worked at this busi-

ness during the summer season for ten years, owning for a time the half interest in a machine. He was married, July 4, 1872, to Miss Sadie J. Fasnacht; they have two children—Gordon Gilbert and Thomas G., and reside at the homestead with Mrs. Shoemaker. In the year 1843, Thomas Shoemaker was converted under the ministry of the Evangelical Association, with which he united, and was always an active and worthy member of the church, and at the time of his death held the offices of Class-leader, Trustee, Assistant Superintendent of the Sabbath school, and teacher of the Bible class. By his decease the Sunday school, prayer meeting and public congregation lost one of their most active members; he was a firm believer and advocate of the doctrine and experience of Bible holiness; a liberal supporter of the Missionary cause, and the church in general. He was a man of principle, decision and moral worth, who took great interest in the leading questions of the day; was a stanch temperance man, radical in his views, and during the later years of his life always voted the Prohibition ticket.

CORNELIUS E. TRASTER, teacher, Summit; is one of the finest educated young men of Green Township; he was born in Springfield Township, Summit Co., April 3, 1853; the son of Daniel and Margaret (Kreighbaum) Traster. Daniel was born in Union Co., Penn., and moved to Summit Co. about the year 1832; he is at the present time living in Springfield Township; is the father of eight children as follows: Hester Ann, Sarah J., now Mrs. Samuel Ritsman, of Springfield Township; Jacob W., of Whitley Co., Ind.; Rebecca M.; John, of Suffield Township, Portage Co.; Hiram, of Springfield; Cornelius E., subject of this sketch; and Mary M. Mrs. Daniel Traster is a member of the Lutheran Church at Uniontown. Cornelius attended the common schools of Springfield Township during his youth; he was raised on the farm and remained with his parents until about 17 years of age; then worked by the month for some three years; he entered Greensburg Seminary which he attended four terms, and was also a pupil in Warner's Normal Institute at Akron, and the Northwestern Ohio Normal

School at Fostoria. He has taught school for seventeen terms as follows: First in Springfield, and then one term in District No. 11, Green; three in Springfield; one in East Liberty District; one in Springfield; four in District No. 2, Green; two in District No. 4, Green; two in District No. 3, Green; and two in the East Liberty District. In April, 1881, he was elected Clerk of Green Township. He was married, Sept. 13, 1877, to Miss Lovina A., daughter of Henry and Sarah Elizabeth (Benner) Raber. Mr. and Mrs. Traster are members of the Reformed Church of East Liberty. Henry Raber, father of Mrs. C. E. Traster, was born June 14, 1831, at the farm upon which he now resides. He was the son of Henry and Rossanah (Suder) Raber; Henry, Sr., was born in Germany about 1792, and, when 6 years of age, his father Conrad emigrated to America, and settled near Reading, Penn., and about twelve years later removed to Stark Co., Ohio. Henry, Sr., married Sarah Huyerd; and after she died, Rosannah Suder; he died in October, 1859; his second wife in November, 1871; Henry Raber, Jr., was the father of six children—Mary Alice, died aged 3; Lovina Alma, now Mrs. C. E. Traster; William Madison, Anna Eliza, Minnie Levora and Norman Dayton. Henry has served as Township Trustee three terms, and as School Director nine years. Mr. and Mrs. Raber are members of the Reformed Church at East Liberty.

SAMUEL WISE, farmer; P. O. Summit; born in Union Co., Penn., July 3, 1818; was the youngest son of Peter and Elizabeth (Vonieda) Wise; Samuel received a knowledge of

the common branches in the schools of Pennsylvania; he was early apprenticed to learn the blacksmith's trade, which he followed in Union Co.; in 1842, he removed to Green Township, and for six months worked for Phillip Seecht, who kept a shop at Greensburg. He was married, Oct. 22, 1843, to Miss Catharine Raber, daughter of Henry and Rosannah (Suder) Raber; he then farmed his father-in-law's land on shares for several years, until he purchased the farm of Mr. Raber; he also bought some land of Daniel Evans, and owns at the present time 143 acres; was the father of nine children, three died in infancy, six are living—Rosannah, now Mrs. George Hinland, of Akron; Elizabeth, now Mrs. John Chamberlain, of Springfield Township; Sarah, now Mrs. Edward McChesney, of Springfield Township; Aaron, now residing on the farm with his father, and married some five years since to Miss Mary Miller, of Union Co., Penn.; Lovina, now Mrs. Huston Kreighbaum, of Green Township; and Catherine Jane, now at home with her father; Mrs. Wise died Feb. 1, 1867. Samuel Wise when a young man united with the Lutheran Church in Pennsylvania; since moving to Green Township, he has been connected with the Reformed congregation at East Liberty, in which society he was an Elder for some two years. His wife was also a member of this denomination. Samuel has frequently been chosen to serve in several minor offices in the township; his present brick residence was built about the year 1855; a short time previous to this, his home was destroyed by fire.

RICHFIELD TOWNSHIP.

SAMUEL B. AXTELL was the fourth child in a family of twelve children who lived to be men and women—six boys and six girls. His mother is still living, now in her 89th year. His parents emigrated from Morris Co., N. J., to Franklin Co., Ohio, where he was born Oct. 14, 1819. His parents were poor, and his early life was that of most boys in the West, working on the farm and in the woods, and in the meanwhile picking up a little education. In his 17th year, he went to Oberlin, because it was a manual-labor school, and he could pay his board by work, earning 10 cents an hour at work clearing land, and paying about \$1 per week for board. He finished fitting himself for college at the Shaw Academy in Euclid, now East Cleveland, and entered Western Reserve College at Hudson, Ohio. He did not graduate, but has had an honorary degree conferred on him by this college, and is also an honorary member of the Alumni. In 1840, he was married to Adeline S. Williams, of Bath, Summit Co., Ohio. They have three children living at this date (1881) and five grandchildren. In 1851, he went from Richfield to California, and his wife followed and joined him there in 1856. In California, he was a practical miner and laborer, working with all his might at whatever his hand found to do, and continuing the study of law, which he had commenced before leaving Ohio. He was admitted, upon examination, to the Supreme Court of the State of California in 1854, and commenced the practice of law in Jackson, Amador Co., in that State. He was three times elected District Attorney. Removing to San Francisco, he was elected, in 1867, to represent that city and district in the Fortieth Congress, and was re-elected to the Forty-first Congress. In politics, he was known as a War or Union Democrat, and was the only man on the Democratic side of the House who voted for the reconstruction acts and the act of 1869 to strengthen the public credit. On the tariff, he was also in sympathy with those who sought to build up by judicious protection the "American system." In January, 1875, he

was appointed by Gen. Grant Governor of Utah Territory, and in the summer of that year was transferred to New Mexico, where he acted as Governor for three years and a half, assisting during two Territorial Legislatures to obtain much needed and progressive legislation. In 1876, he was chosen by the Executive Committee of the Centennial Exhibition as one of the Judges in the mineral department, and, in the same year, was a delegate in the Cincinnati National Republican Convention, where he assisted to pass the resolution which sought to restrict the importation of Chinese to this country. He is a firm believer in non-sectarian public free schools, liberally assisted by the General Government, and in the supremacy of the general Government as opposed to the doctrine of State sovereignty. His home is now at Richfield.

P. L. ALLEN, saddlery and harness, West Richfield. Prominent among the successful business men of West Richfield, and one that has been long established, is the subject of this sketch. Mr. Allen is a native of New York State, being born in New York City in 1826, and where his parents resided until, at the age of 10 years, when they removed to Hinckley Township, where they resided for several years. His father, Peter Allen, subsequently removed to Cleveland, where he continued a resident until his decease. Our subject came to West Richfield at the age of 17, and began to learn his trade with Jonathan Page. After perfecting himself in all the various branches of his chosen occupation, he engaged in business for himself, and in which he has continued up to the present time. His stock consists of saddles, harness and trunks, which he manufactures, and which he has constantly on hand in large assortments of finished work, and is also a dealer in buffalo robes, blankets, whips, etc., together with a department devoted to repairing of all kinds, making in all a complete and reliable establishment.

JAMES E. BUCK, farmer; P. O. West Richfield; is a son of Heman Buck, who, together with his father, Denton Buck, were

pioneers of Richfield, locating in 1811, one-half mile south of the Center, but soon afterward removed to the farm, which is now known as the "Buck Homestead." Heman was born in Massachusetts Dec. 16, 1792, and came to Richfield with his father in 1811, but he did not locate permanently until 1813. He continued a resident of the old homestead until his death. He married the Widow Worden, her maiden name being Polly Mace, who was born in Schoharie Co., N. Y., April 14, 1795. He died Oct. 11, 1852, aged 62 years; she died April 16, 1874, aged 79 years. Their children now living are as follows: Mrs. Arvilla Prickett, in Richfield Township; Mrs. Mary Wheatley, living in Virginia; Mrs. Martha Chandler, Mrs. Julia Hart, and James E., residents of Richfield Township; Orson H., a son, deceased. He enlisted in the 177th O. V. I., and died in 1865, at Goldsboro, N. C., from disease contracted while in service. James was born in Richfield Township, in June, 1830, upon the old homestead where he has resided for the whole of his life, following in the profession of his ancestors, and to which he gives his whole time and attention. His farm consists of 160 acres of land. He was married in March, 1859, to Miss Josephine Watkins; she was born in New York State, in 1839. They have five children—Charles E., Martha G., Luella F., Orson H. and Lois E.

J. A. CHANDLER, Justice of the Peace, West Richfield, is a son of Capt. Joel and Sophia (Smith) Chandler, natives of New Hampshire. Capt. Chandler was born in 1789, his wife in 1798; they were married in the town of Alstead, Cheshire Co., in 1820, where they lived until 1835, when they immigrated to Ohio and settled in Richfield Township upon a farm in the western portion of the township, where they resided for the rest of their lives. He died in March, 1874, and she in April, 1854. Sophia M., a daughter, married Judson Culver, an old resident of the township; she died in 1873. Mary J., and the subject of this sketch are the descendants. J. A. Chandler was born in Alstead, N. H., in 1824, and worked upon the farm in Richfield, after their removal there, until he attained the age of 28. He taught school winters for sixteen years, and has always been interested in educational affairs. From 1863 to 1865, he was engaged in the book trade at Alliance, Ohio, and for nearly six years was in

the mercantile business in Richfield. He has served the township as Clerk, Assessor, Trustee, and is at present serving his fifth term as Justice of the Peace. He was married, May 17, 1843, to Miss Martha M. Buck, a daughter of Heman and Polly (Mace) Buck, whose histories appear in other portions of this work. Martha was born in Richfield Township in 1825. They have three children—Francis M., living in Cleveland, where he is serving as Deputy County Clerk; Jennie A. and George L.

DR. M. S. CHAMBERLIN, West Richfield, was born in Trumbull Co., Ohio, in 1843, his father was a farmer by occupation and our subject's early life was passed upon the farm until, at the age of 18, he went to California, where he remained for five years. He then returned to Ohio locating in Garrettsville, where he engaged in the drug trade and the study of medicine. Dr. Chamberlin is a graduate of the Philadelphia Medical College in medicine and surgery, and of the Meadville (Penn.) College of Pharmacy; he is also a member of the National Eclectic Medical Association. He removed to West Richfield in 1876, where he has since been a resident engaged in the handling of drugs and the practice of his profession. He was united in marriage, in 1866, to Miss Corlin J. Stone in Garrettsville; they have three children—Norris D., Irving R. and Preston. Mr. Chamberlin is a member of Richfield Lodge, No. 266, A., F. & A. M., and of the Port Clinton Lodge, I. O. O. F. With his wife he is a member of the Baptist Church.

SAMUEL S. CLARK, farmer; P. O. West Richfield; is a prominent citizen, and a son of Samuel and Lucy (Sheldon) Clark, early settlers in Richfield Township. His father was a native of Massachusetts, and his mother, of New York State; they were married in New York State, and immediately removed to Hampshire Co., where they resided about eighteen years. In May, 1833, they moved to Richfield Township, taking up some 200 acres of land and resided upon it until their deaths. His father was a prominent and respected citizen, and, in the early years of his residence in the township, taught school and served in various township offices. He and wife were members of the Presbyterian Church, in which, for a number of years, he was Deacon; he died May 1, 1876, and his wife followed him in March, 1877. They were parents of eleven children, nine of

whom grew up. Those who are now living are as follows: Lorinda Hills, living in Medina; Mary Payne, Samuel S., and Eliza Swan, residents of Richfield Township; and Alfred A., a resident of Cleveland. Samuel S., our subject, was born in Hampshire Co., Mass., in December, 1823, and was in his 10th year when his parents removed to the township. He remained upon the farm, at home, until about 19 years of age, and, after a year's residence in Granger Township, Medina Co., went to West Richfield and engaged in the drug and jewelry trade, at which he continued for nearly fifteen years; he then disposed of his business in town, and soon after bought the old homestead farm, where he has since resided, engaging his attention in agricultural pursuits. He has always interested himself in educational matters, and is one of Richfield's most progressive citizens. He was married in September, 1846, to Miss Caroline Prickitt, a daughter of Samuel and Hannah Prickitt, old residents of the township, whose biographies appear in another sketch. Caroline was born in New Jersey in September, 1824. They have but two children living—Mary C. and S. Earl, living in Akron; two are deceased—Ellen A. and Eva A. Mr. Clark has 110 acres of improved land, conveniently located, about two miles south of town.

GEORGE B. CLARKE, farmer; P. O. Richfield; was born in Litchfield Co., Conn., in 1835. His parents were William and Harriet Clarke; his father was a native of Connecticut; his mother of New York; they removed to Twinsburg, where they continued to reside up to his death; he was a carpenter and joiner by trade, and built many of the houses and churches of that township; his mother is still living, residing with her oldest son, H. D. Clarke, in Michigan. George has passed most of his life in mercantile pursuits and book-keeping. He came to Richfield in 1863, and was in the employ of Weld & Farnum for fifteen years—a year at Medina at book-keeping, and a year in the produce commission business. In 1880, he returned to Richfield and purchased from the heirs the old Wilcox farm, where he is now engaged in farming. He was married, in December, 1865, to Miss Amelia Wilcox. They have three children—Archie B., Anna G. and Louie. Mr. Clarke has served the township as Trustee two terms, and ranks as one of the leading progressive men of the community.

He is a member of Meridian Sun Lodge, No. 266, A., F. & A. M.

FRANK I. DUNBAR, druggist, West Richfield; is a young and enterprising business man of West Richfield. He was born in Brighton, Lorain Co., Ohio, in 1856. His father, Simeon T. Dunbar, is a native of New York, and his mother, whose maiden name was Ellen E. Ackley, was born in Connecticut; they are now residents of Richfield, his father being Pastor of the M. E. Church. Frank has had the advantages of a classical course of education at Berea, where he graduated. In 1879, he came to West Richfield to reside, and, in 1880, bought out a stock of drugs, medicines, etc., and is now permanently located there engaged in that business. His stock is large and complete, and, as it is his intention to keep all the sundries of a first-class drug store, is a great and welcome addition to the business interests of West Richfield.

THOMAS E. ELLSWORTH, retired, West Richfield; was born in Litchfield Co., Conn., March 7, 1797, and is a son of John and Anna (Birge) Ellsworth; also natives of Connecticut. Our subject's early life was passed in Connecticut, where he learned the cabinet-maker's trade. He came to Ohio on a visit in 1821, but did not locate permanently until January, 1822, when he came to Richfield Township. He now resides in West Richfield, which is indebted to him for most of its buildings, and for the start and impetus given to it by his acts of enterprise, a more extended account of which appears in the township history. He now carries on a cabinet-shop, which is operated by his son Ransom. He was married, June 15, 1825, to Miss Mary Bigelow, daughter of John and Lydia (Benedict) Bigelow, pioneers of Richfield Township, locating in 1814, and residents of the township up to their deaths. He died June 17, 1841; she died March 24, 1866. Mr. Ellsworth lost his first wife Jan. 14, 1864. They had five children—Elisha T. (died March 2, 1879, in Cleveland, leaving a wife and five children), Ursline (died May 1, 1853), Ransom C. (living in West Richfield, where he is engaged in the cabinet-making trade; he is married to Miss Cora Humphrey, a daughter of Norris Humphrey, Esq.; they have three children); James W. (a resident of Cleveland), Mary C. (died Aug. 20, 1853). Mr. Ellsworth was married to his second wife, Louisa Waite,

widow of Benjamin Waite, Nov. 16, 1865. He is a member of the Congregational Church, and has been a Deacon in the church for over fifty years. He is a useful and respected member of society, an honored citizen, and universally respected and beloved. Mr. Ellsworth has a brother Ransom residing in Hudson. A sister, Polly Lewis, also resides there; she is 90 years of age, all that are left of a family of nine children.

A. E. EWING, was born Oct. 25, 1816, near Cobourg, Upper Canada, on the north shore of Lake Ontario, his father having been a native of Greenwich, Mass., and his mother of Dorset, Vt. Till the beginning of 1836, he resided in Canada; in March of that year, he entered the Medical School at Castleton, Vt., and in the fall of same year to school at Hanover, N. H. (Medical Department of Dartmouth College), where he graduated in 1839. Early in 1840, commenced practice in Granger, Medina Co., Ohio. He spent three years in that town and Sharon, and then went to Medina, where he practiced till 1837, when he was married to Miss E. N. Oviatt, of Richfield, Summit Co., Ohio, and soon thereafter removed to Hillsdale, Mich., where he practiced his profession and edited a Whig newspaper during the Cass and Taylor campaign, and for a year or so afterward. In the latter part of 1849, he returned to Ohio, and, in the spring of 1850, settled in Richfield, where he has resided up to the present time (1881), except from 1856 to 1863, during which he lived in Wisconsin, and from May, 1876, to May, 1878, during which he lived in Berea, Ohio. He has two living children—daughters, and has lost two sons, one in early infancy, and the other, George M. Ewing, who was born in Cleveland, Jan. 31, 1850, and died in Berea, Aug. 6, 1876.

GEORGE M. EWING, son of Dr. A. E. Ewing: was born in Cleveland, Ohio, 1850, and died in Berea, 1876; he spent much of his life in Richfield, and had there a large circle of friends, who mourned his early death. He studied law, and had been admitted to practice at Cleveland; he was regarded as a young man of brilliant promise, both as a speaker and writer. Gay and genial in manner, yet possessing a ready sympathy for all forms of suffering, without effort, he attracted friends to his side wherever he was known; but with all his joyousness, a certain seriousness pervaded much

that he has written; there was a tendency in him to ponder the great problems of our existence, which found expression in the lines below, written not long before his death, but not published while he lived:

THE MYSTERY OF LIFE.

This world is but a resting place—
A pause upon the rising plain—
A second of time, then on we move,
And our swift march commence again.

The whole of life is but a step—
A round in the ladder we climb—
We stop to breathe, then start once more
To the swift-winged music of time.

For what great end were we begun,
By the powers that placed us here?
We may ask, but we ask in vain—
No answer greets the aching ear.

If we ask the dead on the hillside,
They but speak of the past alone.
They've lived and breathed and passed away,
But their lips are mute as the stone

That marks where their ashes lie—
All alone in death's quiet sleep:
They have solved the mystery we feel,
Yet God's holy secret they keep.

If next to old Nature we turn,
And seek for our answer there,
We hear but the murmuring night-breeze;
She heeds not our frantic prayer.

Rebuk'd by the silence that greeteth
These queries propounded by man,
We question no longer the workings
Of Heaven's deep fathomless plan.

So the question of life still remaineth
The strangest of miracles wrought,
The powers of all mind transcending,
And the widest conception of thought.

This passing tribute is perhaps due to one who always cheerfully accorded the kindest appreciation of all that was good in others.

LOUIS P. ELLAS, farmer; P. O. Richfield; was born in Tioga Co., N. Y., in 1834. His father, Loren Ellas, was a native of Vermont; his mother's maiden name was Sarah Hardy, she was born in Connecticut. They were married in Vermont, and subsequently removed to New York State, where for a number of years his father was engaged in farming and lumbering. In 1837, they removed to Northampton Township, Summit Co., locating upon a farm, where his father died in 1845; his mother was a resident of the county until 1867,

when she removed to Steuben Co., Ind., where she departed this life in 1874. Louis learned the trade of boat-building and carpentering, in Boston Township, while in early life, and followed that trade about thirteen years there; for two years after he was engaged in keeping a grocery in that township, after which time he removed to Bath Township, where for three years he was engaged in the hotel business. In April, 1863, he removed to Richfield Township, where he has since resided; he first engaged in the hotel business in West Richfield, remaining there one year, and then removed to the "East Center," where he was proprietor of the hotel there until 1874, during which time he also was engaged in buying and selling stock. He then disposed of his hotel property and purchased a farm, which he worked for three years, making a specialty in stock-raising and dealing, then returning to the hotel in Richfield, where he continued until April, 1881. He now intends to devote his time to farming and lumbering. He owns 240 acres of land in the township, finely located and mostly improved. He was married in April, 1856, to Miss Amanda M. Monday; she is a native of New York, where she was born, in Tioga Co., in 1831. Their children are Elmer C., married to Miss Nancy J. Fixler, he is farming in Richfield Township, and Misses Emma and Ella. As a landlord, in which so many years of Mr. Ellas' life has been passed, he is deservedly popular, being genial, obliging and courteous, and as a citizen he is popular and enterprising. He is a member of Meridian Sun Lodge, No. 266, A., F. & A. M.

JOSEPH HALLIWILL, farmer; P. O. West Richfield; is a son of William and Elizabeth (Cox) Halliwill, natives of Pennsylvania and pioneers of Summit Co., locating in Franklin Township in the spring of 1814. They were the first settlers in that township. Christopher Johnson, whom the county atlas claims as the first settler, came the day after the Halliwill family. They resided there until 1833, when they removed to Richfield Township, locating in the southern part of the township, where son Joseph now resides. They continued residents of the township until their deaths. He died July 25, 1855, and his wife Nov. 18, 1876. Mr. Halliwill was a prominent and respected citizen, and occupied various offices of trust. He was elected one of the first Justices of the Peace while a resident of Franklin Township,

which office he filled honorably for several years. There are ten children now living, as follows: John, living in Fostoria; David, a resident of Bucyrus, Ohio; Thomas, in Medina Co.; Levi, living in Michigan; Andrew R., a resident of Henry Co., Iowa; Joseph, the subject of the sketch; Absalom O., residing in Michigan; Jane Woodruff, in Fulton Co.; Priscilla Bunker, in Henry Co., Ill., and Kessiah, living in Medina Co. Joseph was born in Franklin Township in 1825, and since the removal of his parents to Richfield, has been a resident of that township and of the old homestead, following in the profession of his father, in which he has been deservedly successful. He has 200 acres of improved land, and, for the past twenty-five years, has made quite a specialty of sheep. As a citizen, Mr. Halliwill is progressive and enterprising, and takes a lively interest in matters of education and in township affairs. He has been a Trustee of the township. He was united in marriage, Jan. 23, 1857, to Miss Elizabeth Battles. She was born in New York State Oct. 23, 1833, and came with her parents to Medina Co., where they were early settlers, and residents of Chatham Township for the remainder of their lives. They have two children—Milo, born Aug. 6, 1857 (he was married, Dec. 25, 1880, to Miss Hattie A. Freeman, a daughter of Milton Freeman, an old resident of the township, now living in Michigan; he is living upon his father-in-law's farm, located one-half mile north of the West Center, which he has charge of, and which he is at present working), and a son at home, Levi. He was born Dec. 23, 1860.

LESTER HALL, farmer; P. O. West Richfield. One of the oldest settlers now living in Richfield Township. He was born in Southern Massachusetts in 1800. At the age of 14, his parents removed to Portage Co., where they settled and resided for the remainder of their lives. His father died in 1842, aged 72; his mother in 1863, aged 89. Lester came to Richfield in 1823, and took up 163 acres of timbered land located where he now resides, and began the difficult task of clearing. For many years he endured the privations and vexations of pioneer life, but has lived to see his farm a cultivated and improved tract, and where once the tall timber stood, through which wild beasts prowled and all manner of

wild game were at home, he now can see the smiling fields of cultivation and improvement. His wife, who has made the journey of life with him and shared its burdens, was a daughter of Joshua and Clarissa (Clark) Finch, early settlers and pioneers of Portage Co. Celestia Finch was born in Massachusetts in 1806, and was married to Lester Hall in 1826. They were the first couple married in Freedom Township, Portage Co. Their children are as follows: Manly, born in Richfield Township in 1830. He remained at home until 23 years of age, and then removed to Michigan, where for several years he followed farming, and was married, in 1855, to Miss Henrietta Southwick, who was born in New York State in 1834. In 1875, he returned to Richfield Township with his family, where he has since resided, located upon the old farm, which he is operating. The farm consists of 81 acres, and they make a specialty in dairying. They have three children—Edwin L., Franklin N. and Charles A. Milo, another son, is living in Akron, engaged in the grocery trade at No. 289 South Main street, and Melissa Williard, also in Akron. Mr. Hall relates many interesting events of his pioneer life, some of which appear in another portion of this work. Timothy Hall, a brother of Lester, came to Richfield about three years previous to his settlement. He was one of the most wonderful wood-choppers known. He cleared with one ax 140 acres of timber in about two years, and many other extraordinary incidents of him might be related if space permitted. He died in the township Sept. 13, 1869, aged 75 years. Mrs. Hall has been a consistent member of the Methodist Church for over half a century. They are both respected and beloved.

E. D. HANCOCK, farmer; P. O. Richfield; is a son of Alonzo and Azubah (Sheppard) Hancock, who were natives of Massachusetts. He was born Jan. 11, 1803. She was born Sept. 19, 1803. They were married in Massachusetts, and first settled in New York State, and, in 1833, located in Richfield Township, where they resided for the remainder of their lives. His father served as Township Trustee for a number of years; he was one of the most powerful men in the country, with a large physique, weighing 210 pounds, all bone and sinew; he cleared a great deal of land, especially that of Dr. Ransom, and 180 acres of his own; he could chop

a cord of wood in 40 minutes; he was temperate in all of his habits, industrious, and universally respected; he died suddenly with heart disease, in November, 1862. His mother died in 1839. Our subject was born in New York State in 1830; he has been a resident of the township since his people first located there, and has been engaged in agricultural pursuits. In 1865, he bought the farm where he now resides; he has 200 acres of land, mostly improved, and makes dairying a leading vocation. He has served the township as Trustee for four years and as a Constable two years; in 1875, upon the organization of Richfield Grange Patrons of Husbandry, he was elected the first Master and served two years, serving again in 1880 in the same capacity; he is now acting as Treasurer of their society. Mr. Hancock was united in marriage, Dec. 2, 1851, to Elizabeth Lockert, of Richfield Township. She was born in Galway, Saratoga Co., N. Y., in 1831. Mr. and Mrs. Hancock have the following children: Amelia, Hanson, Eugene, Ella Welton, Julia Powers, Frank F., Cora I., Ralph A. and John P. John Hancock enlisted in the sharpshooters, and was in service nearly a year; he died at Nashville from disease contracted while on duty.

HIRAM HART, farmer; P. O. West Richfield; was born in Windham Co., Vt., in 1833; his early life was passed in his native State, where, up to the age of 19, he worked at farming, and for one year worked in a store; he then went south, remaining one year, and, in the spring of 1855, removed to Ohio, locating in Richfield Township and purchasing the farm where he now resides; he has 174 acres of land, located about two miles south of Richfield Center, and where he follows the occupation of general farming. Mr. Hart was married, in the fall of 1854, to Miss Jeannette L. Stearns. She was also a native of Vermont, and died in Richfield, leaving two children—Elmer S. and Emma E. He was married to a second wife, Miss Arlette A. Clark; she is a daughter of Park B. and Nancy Clark, early settlers of Twinsburg; she was born there in 1838. They have five children—Arthur C., Dana H., Roy K., Carroll P. and Gratia C. Mr. Hart has served the township as Trustee, and has always taken an interest in educational affairs. He is at present serving as a County Commissioner, having been elected in 1879.

HENRY W. HOWE, Richfield; is a son of Capt. Richard Howe, one of the first settlers and leading citizens of Akron, who was born in St. Mary's Co., Md., March 8, 1799. His father died in 1810, leaving a widow and seven children, of whom Richard was the eldest. In 1812, his mother removed to Ohio with her family and settled in Franklinton. Lucas Sullivan, a wealthy land-owner, was so well pleased with the youthful Richard that he adopted him and reared him as one of his own children, giving him the benefits of a good education, and teaching him civil engineering, which occupation he followed for many years. He surveyed and located a railroad from Columbus to Cincinnati, and upon the organization of the Board of Engineers to survey and locate the Ohio Canal in 1824, he was selected as one of its members, retaining his position until 1850, attaining the rank of President Engineer. He resigned in 1850, and went to California, where he remained three years, during which time he received from Samuel D. King, Surveyor of California, Deputy Surveyorship of the State, and ran the meridian line from the summit of Mt. Dabola to the Bay of Monterey. From 1863 to 1865, he was in the employ of the Pan Handle Railroad at Steubenville, superintending the construction of the bridge across the Ohio River at that place. His home was in Akron, where he had settled in 1829. He was always active in public enterprise, and foremost in any act to promote the growth and prosperity of the city. He served in 1834 as one of the building committee that erected the first Presbyterian Church, and, in 1840, was one of the trustees for building the court house and jail. He was also one of the prime movers in establishing the cemetery. His death occurred in Akron, March 19, 1872. His wife, Roxana Howe, was born in Bristol, Ontario Co., N. Y., Jan. 4, 1805, and died at the age of 70 years. Their children are as follows: Charles R., who was one of the prominent business men of Akron, and enlisted in the 100 days' service, serving his time honorably; he died in Akron Dec. 7, 1875, bequeathing to the Cemetery Association \$5,000; Nathan J. Howe, who is a resident of Chicago, where he occupies the position of General Freight Agent of the Wabash Railroad; Mrs. Emily B. Ingersoll, of Sterling, Ill.; Mrs. Anna Wolf, residing in Akron, and the subject of this sketch. Henry W. was born

in Bath Township in 1828, his early life being passed in Akron, where he obtained good educational advantages, graduating at Oberlin, in 1849. He decided upon a professional life, and entered the office of Judge Carpenter, of Akron, where he commenced the study of law. He subsequently practiced with Judge Carpenter, in partnership, until the election of Carpenter as Judge, when he engaged in the manufacture of agriculture implements in Akron for seven years, and from there removed to Richfield, in 1871, where he engaged in manufacturing enterprises for nine years, and where he is at present residing. While a resident of Akron, he served as a member of the Board of Education and of the City Council. He has also been a member of the Board of Education of Richfield, where he served one term as Justice of the Peace. He is now serving as Secretary of the Summit County Patrons of Husbandry. He was united in marriage Dec. 12, 1859, to Miss Isadore C. Bell, who is a native of Connecticut, and is at present serving as Postmistress of Richfield. They have three children—Edwin B., Frank R. and Abbey B.

NORRIS HUMPHREY, farmer; P. O. Peninsula; was born in Hartford Co., Conn., in 1806; his parents were Oliver and Rhoda (Woodford) Humphrey, also natives of Connecticut. They emigrated to Ohio in 1816, arriving in the Western Reserve and locating in Trumbull Co. July 4, where they were residents for the remainder of their lives. His father was a blacksmith by trade, which he followed, together with farming. He was in the war of 1812, and served as Orderly Sergeant in a light infantry company. He died Aug. 6, 1846, aged 63 years. His mother's death occurred Sept. 24, 1867, aged 81 years. Their children were as follows: Norris, the eldest; Elvira Irwin, now living in Portage Co.; Julius, a resident of Akron; Ellen Bolster, living in Cleveland; Anna Harris, also a resident of Cleveland; Ezekiel—he learned the printer's trade in Warren Co., and subsequently moved to the Southern States, locating first in Natchez; when the Texas revolution broke out, he volunteered, and joined a cavalry company of 100, fitting and equipping themselves, under Gov. Quitman; after serving through the war, he started the *Morning Star*, the first paper published in Texas after the revolution; he died in 1836, of yellow fever, contracted while heroically caring

for fever-stricken sufferers; his brother Norris has now the deeds of 1,280 acres of land given him by the State for his services during the revolution; George, a physician by profession, died in Cleveland. Our subject's early life was passed in Trumbull Co., where he learned the blacksmith's trade with his father. In 1829, he removed to Richfield Center, where he followed his trade for two years. He purchased, in 1829, 50 acres of land for \$3 per acre. This was the first purchase in the "Wilcox Tract." In 1830, he built the first frame house between the Cuyahoga River and Richfield. He married, Feb. 10, 1831, Miss Julia Case; she was a native of Trumbull Co., and a daughter of Ira and Ursula (Hyde) Case, natives of Connecticut and early settlers in Trumbull Co. Her father served in the war of 1812; her mother was of English descent—a member of the "Hyde" family. After his marriage, Mr. H. moved upon his land, and has, up to the present time, continued to reside where he first purchased. He has now 200 acres, about 50 of which is timbered; his land is finely improved and conveniently located. While prospecting for minerals upon his land, and in the vicinity, he discovered, at a depth of twenty feet, several veins of water, which now furnish an inexhaustible supply of pure water. Mr. Humphrey helped to organize the first militia company in the township, in 1832, and was appointed Captain in 1834; he was appointed Major of the 1st Battalion, Light Infantry; he still preserves the old commissions appointing him to his positions. While a resident of Trumbull County, he served the Township as Constable, which was at that period an important office. Since he has been a resident of Richfield, he has served in many offices of trust. He was for several years a Township Trustee, and for two terms Assessor of Personal Property. In educational affairs he has always taken a prominent part; he was one of the Directors of the Richfield Academy for several years. At the breaking-out of the war, he from the first took an active interest in organizing a company and aiding in every way for the preservation of the Union. He sent four of his boys out in the service, fitting them from his own pocket. Mr. H. lost his wife Jan. 26, 1871, aged 62 years. Their children are as follows: Austin, now a resident of Lincoln, Neb., where he is engaged in the hardware business in part-

nership with his brother Norris; Cora Ellsworth, living in Richfield Township; Oliver N., a resident of Lincoln, Neb.—he was in the service about two years, on the frontier, among the Indians; Lucien E. enlisted in the 115th O. V. I., and was in the service five years—now a resident of Richfield; Decius served in the 64th O. V. I. as Fife Major for five years—he died April 1, 1868, aged 22 years; Truman, now living on the old homestead—he was married July 4, 1875, to Miss Lida Hale, a daughter of Andrew Hale, an old resident of Bath Township.

AGUSTUS J. HUMPHREY, farmer; P. O. West Richfield; is a son of Julius and Rhoda (Oviatt) Humphrey. Julius was born in Goshen, Conn., in 1800, and his wife in Goshen in 1802. They were married in 1820, and removed to Richfield the same year; he died in the Louisville Hospital in January, 1864, from disease contracted while there; he went South after James Sanborn, of the 64th O. V. I., who was sick in that hospital, but neither returned, James dying about two weeks after Mr. Humphrey. The mother is still living in Richfield with her son Augustus. Their children now living are as follows: Phœbe Carter, living in Richfield; Lucia Bennett, living in Akron; Maria Sanborn, living in Richfield; Augustus was born in 1833, and has passed his life upon the old homestead and devoting his whole attention to farming. He has 85 acres of land, finely improved and conveniently located. He was married, October, 1852, to Miss Priscilla Sanborn, a daughter of John and Sibyl (Farwell) Sanborn, both natives of New Hampshire, and early residents of Boston Township, coming there in 1834, where they resided twenty years, and subsequently removed to Richfield, where he died in July, 1866, his wife still living with her daughter Priscilla. Mr. Humphrey was born in New Hampshire, in 1833. They have one son, Earnest, who is married to Miss Flora Hart, a daughter of Henry Hart, a resident of Richfield Township. They have one child—Clarence.

HENRY KILLIFER, blacksmith, West Richfield; was born in Richfield, in 1838. He is a son of Henry and Jane (Curtis) Killifer, natives of Connecticut; they came to Richfield Township at an early day, but subsequently removed to Putnam Co. Henry returned to Richfield and engaged at the blacksmith's trade,

in 1858 ; at the commencement of the war, he enlisted in Battery A, 1st Ohio, and was in the service four years, enlisting in August, 1861, and discharged in August, 1865. He then returned to Richfield, where he has since been working at his trade. He was married to Miss Orvelia Spafford Oct. 17, 1867 ; she was born in Summit Co., in 1842. Her father, Martin C. Spafford, was born in Vermont, in 1808, and came with his father, Jacob Spafford, to Richfield, in 1816, where they remained three years and then removed to Copley, where Jacob lived about forty years, then removing to Bath Township, where he died. Martin passed his early days upon his father's farm ; at the age of 21 he went to Portage Co., and worked in a distillery for three years, and from there removed to Bath, where for twenty years he worked at shoemaking and milling. He then removed to Richfield, where he now lives, following the occupation of a miller for the most of the time. Martin was married in 1836, to Miss Mary Brown, whose parents were early residents of the county. They have four children—Orline Sheppard, living in Akron ; Orvelia ; Beulah Derr, living in Huron Co., and Willie F., a resident of Hudson. Mr. and Mrs. Killifer have two children—Mary and Henry. Mr. Killifer is a member of Richfield Lodge, No. 266, A. F. & A. M., and is a genial and benevolent neighbor, a fine mechanic, and an enterprising citizen.

JAMES LOCKERT, farmer ; P. O. Richfield ; was born in Galway, Saratoga Co., N. Y., in 1802. His father was a farmer and our subject remained at home until he attained his majority. He married April 8, 1830, Miss Minerva Moon, of Galway. In June, 1833, he emigrated to Ohio, locating in Richfield Township, and, in the spring of 1834, removed to the northeast corner of the township, where he purchased the land where his residence now is. He has now retired from active life and is now living with his son Lorain. His family is as follows—Elizabeth, wife of E. D. Hancock, of Richfield Township ; Ann Edgell, living in Richfield ; James W., a prominent farmer of the township ; Lorain, also a leading farmer ; Mary Jane Snow, of Brecksville ; Alexander, of Warren Co., Ohio, who is a Baptist minister, and Minerva Reid, wife of Chas. W. Reid, who has purchased the old homestead. Mr. and Mrs. Lockert were members of the Baptist

Church ; she died April 25, 1879. Mr. Lockert has served as Township Trustee and is one of its honored and respected citizens. When he removed to his present location it was a wilderness, and his own individual efforts have done much to hasten the prosperity which now smiles upon the improved and cultivated fields divided among his children. He owned, at one time, nearly 500 acres which was a direct accumulation of his own industry and energy. Lorain was born in 1840, and married in 1870, Miss Helen Andrew, of Boston Township. He served in the 177th O. V. I., from 1864 to the close of the war. He has 142 acres of land under good cultivation. They have one child—Harley. James W. was born June 29, 1837 ; he was married Dec. 31, 1863, to Abigail Reid ; they have three children—Willis W., Mina M. and Floyd L. He has 175 acres of land, which is finely improved and cultivated. Minerva, born Sept. 21, 1843, was married to Chas. H. Reid Dec. 31, 1863. They have three children—Lula L., Jessie L. and Blanche A. Ann Edgell, born in Saratoga Co., N. Y., in 1832 ; was married March 19, 1856, to Mason Edgell, who died in 1868. She has three children—Minerva, Elizabeth and Lillie.

O. T. MEADE, farmer ; P. O. Richfield ; son of Abner and Barbara (Klopenstine) Meade. His father was a native of Vermont, and mother of Francee ; they were married in Springfield Township, Summit Co., and were residents of that township for several years ; his father was engaged in the pottery business there, which was about the first business of that kind in the county. They next removed to Richfield Township, locating in the southeastern portion of the township, where for many years they were engaged in farming ; here his mother died and his father subsequently moved to Bath Township and farmed there several years. In 1879, he removed to Kansas, where he now resides, engaged in farming and stock-raising. Three of their children now reside in Summit Co.—Charles, in Boston Township ; Mary Bomgardner, in Richfield Township, and the subject of this sketch, Trueman, as he is familiarly called, was born in Springfield Township, in 1843, and the most of his life has been passed in Richfield Township, where he is now engaged in farming and stock business. He is an energetic and enterprising young man, and will doubtless become one of the solid men of

the county. He was married Sept. 20, 1871, to Miss Mary Schaffer; they have two children—Norna and Geo. G.

ALFRED T. NEWTON, farmer; P. O. Richfield; is a son of Marcus Newton and Hannah (Fletcher) Newton. Marcus was born in Goshen, Conn., June 12, 1811, and came with his parents to Ohio when they removed thither. He was married to Miss Hannah Fletcher, Jan. 1, 1833. He was a local Methodist minister as well as a farmer, and led a conscientious, Christian life; he died in the township in January, 1874. His wife died three years previous, Jan. 14, 1871, in Hillsdale, Mich., at the home of her daughter, Mary L. Brown, who is the only daughter now living; she resides at present in Branch Co., Mich. Alfred was born Dec. 21, 1836, in Richfield Township, and has always been a resident of the township; he has devoted his time entirely to agricultural pursuits, and is one of the prominent land-owners of the township. He bought the old Marvin Oviatt farm in 1868, and has made it his home ever since. He was married, Sept. 15, 1864, to Miss Huldah E. Swan; she was born in Boston Township in 1842. Her father, Levi L. Swan, was a native of Connecticut, and an early settler of Boston Township. Mr. and Mrs. Newton have four children living—Eda and Eva (twins) Mary L. and Clara A. Alfred M. died at the age of 5 months. Mr. Newton is a member of Brecksville Lodge, I. O. O. F., and is an enterprising and respected citizen.

LUCIUS NEWTON, farmer; P. O. West Richfield; is a son of John and Laura (Thompson) Newton. John Newton was a native of Connecticut, where he was born, Feb. 24, 1787. He first came to Ohio in 1806, locating in Hudson, where he remained a few years, and then returned to Connecticut, when, in 1810, he married Miss Laura Thompson. In 1815, with his wife and two sons, Marcus and Lucius, he returned to Ohio, and after a few years residence in Hudson, he removed to Richfield, where he became a large and successful farmer, and a prominent and influential citizen, accumulating a handsome property. He was a member of Assembly and an Associate Judge, under the constitution of Ohio. He died in Richfield Township in March, 1867; his wife had died four years previous. The children were as follows: Marcus was a farmer, and local Methodist minister. He was an earnest and consistent

Christian; he died in January, 1874. Lucius, our subject, was the next child. John T., now a prominent lawyer, residing in Toledo, and Rebecca Weld, living in Richfield Township. Lucius was born Dec. 19, 1814. He began the battle of life for himself at the age of 22, locating in Royalton, Cuyahoga Co., where he purchased 640 acres of timbered land, 200 acres of which he cleared and fenced. He remained there about five years, then removing to Richfield Township and locating upon the farm where he now resides, and where he has been a continuous resident since. He has accumulated a large tract of land, having at one time nearly 1,000 acres, part of which he has divided between his children. He has been strictly engaged at farming and stock-raising all of his life, which he has made a decided success. He was married in May, 1838, to Miss Catharine Brockway; her parents were natives of Connecticut and pioneers of Trumbull Co., where she was born in 1818. Their children are as follows: John T., a prominent farmer of Richfield Township; Homer E.; he is married to Miss Clara Dale, and is farming in the township; Minet L., farmer, at home; Laura McKinstrey, and Virgil L. He is married to Miss Alice S. Conrad, and also a farmer of Richfield Township.

JOHN T. NEWTON, farmer; P. O. West Richfield; is a son of Lucius Newton, one of the pioneers of the township; was born in Richfield Township Feb. 17, 1839. His life, until he attained his majority, was passed under the guardianship of his parents, upon the farm, for which pursuit his education and inclinations have well fitted him, and which occupation he has always followed. As a *practical* farmer, he is one of the most prominent in the township. He was married, Sept. 3, 1868, to Miss Mary Adams, daughter of Samuel T. Adams, of Medina; she was born in Medina Oct. 11, 1850. They have four children—John Edward, born Oct. 5, 1869; Jay Thorne, July 23, 1871; Earl Brockway, May 11, 1874; Mary G., March 11, 1878. In March, 1872, Mr. Newton removed to his present location, about one and one-half miles north of the West Center, where he has 110 acres of fine farming land, which he has improved in buildings, fences, etc. He makes specialties in fancy poultry, hogs, sheep and cattle; he is also engaged extensively in bee culture, which branch he makes quite a study,

and which has proven most remunerative. He has always been interested in the school interests, and all matters pertaining to the best interests of the township.

GEN. O. M. OVIATT (deceased); was born at Goshen, Litchfield Co., Conn., Feb. 24, 1799, and removed with his father, Capt. Heman Oviatt, to Hudson, Portage Co. (now Summit Co.), in 1803, Hudson at that time being an unbroken wilderness, with but a few white inhabitants, its principal denizens being the Chippewa tribe of Indians. His father kept a small store, stocked with such goods as met ready sale with the few whites and many Indians then scattered over the Reserve. But the general trade was one of barter with the latter, for their furs, etc., which were the principal currency of that early period. Gen. O. was so constantly associated with the Indians in his youth as to render him as proficient in the use of their language as in his own. With the exception of a period which he spent in attending school at the Litchfield Academy, at Litchfield, Conn., (John Brown, Sr., accompanying him), most of his youth was passed in Hudson. The friendship there formed with old Osawattomie continued through life, Mr. O., in after years, aiding him in some of his public enterprises, especially in his Kansas expedition. In the winter of 1820, with a companion named Timothy Hall, and a pair of oxen and a sled, he came to the township of Richfield; it was at that time almost entirely unsettled, and with only a doubtful trail between the two points. After the erection of a small abode, in the following spring, he was married to Miss Phœbe H. Coe, of Charlestown, Portage Co., Ohio, and with his young wife moved to the new home. The ensuing year he commenced the building of a store near his residence, at the center of the town, cutting down the forest and removing the green stumps from the ground to locate the same. There are one or two individuals still living who assisted in this work—Mr. John Payne, now aged 83, and Mr. Lester Hall, both now residents of this place. This store was the principal point of trade for the country around for a circle of twenty miles or more, and for over fifty years, or until the year 1876, was continuously open to successful trade. Gen. O. was noted for his large business capacity, probity, and strictly honest dealing. He was also greatly interested in the building-up of the

town and forwarding its best interests. In the erection of the first Congregational Church, in 1830, he bore a large share of the burden, and in the educational interests he was strictly identified and foremost in his endeavors to make the same a success. At this time, a large share of the emigrants to this Western region were poor, and their hardships many, in their endeavors to obtain homes, and there were many who expressed great gratitude for timely assistance rendered them by him at that early period. In the year 1836, he met with the great affliction of his life, in the death of his beloved wife, a few of whose characteristics the writer cannot refrain from mentioning. Her special pleasure was in visiting the sick and needy of the then scattered population, whom she would cheer by kind words and supplying their necessities. She was an earnest Christian worker through an active and busy life, and died on March 1, 1836, aged 34, sincerely mourned by all who knew her. Five children were born of this marriage, of whom but two are living, viz., Mrs. Dr. A. E. Ewing, and O. M. Oviatt, still residents of this town. Gen. O. afterward married Miss Lucretia S. Ward, of Hadley, Mass., a Christian lady of refinement and intelligence, with whom he lived happily until his death. Of this marriage there were born four children, of whom three are living—Mrs. Geo. W. Gardner, of Cleveland; Mr. Wm. H. Oviatt, and Mr. Louis D. Oviatt, of Longmont, Colo. Ellen P. Oviatt died May 5, 1856, aged 11 years. In the year 1848, Mr. Oviatt removed to the city of Cleveland, where he had property interests, his first residence there being the present Catholic nunnery on Euclid Avenue, which he sold to them ostensibly for a school building, but which they since have transformed into a nunnery and school against a strict stipulation with him at the time of its purchase, that it should never be used for that purpose, he being always a strong anti-Catholic. After a few years spent in the commission business, he engaged very extensively in the packing business with D. J. P. Robinson, now of Mentor, which partnership was continued very successfully some eighteen or twenty years. In politics he was at first an ardent Whig, but after the formation of the Republican party he fully indorsed its principles, and adhered to them until his death. He was often urged to become a candi-

date for office, but generally refused, believing the office should seek the man; still he was called to many positions of trust, among others in an early day, that of Associate Judge of Medina Co., one of his Associates being Judge Pardee, of Wadsworth. He was member of the City Council of Cleveland many successive terms, several times elected its presiding officer, member and Chairman of its Finance Committee, and held other positions of trust, the duties of which were conscientiously executed and to the satisfaction of his friends who had placed him in office. In the year 1868, he retired from active business, and after an absence of nearly twenty years from his early home, having a desire to spend his remaining years near his children, he returned thither; but his residence there was of short duration, for after one year of pleasurable intercourse with his children, old friends and neighbors, he was suddenly attacked by a disease (which had troubled him for many years) and died after three days illness. His remains were removed to Cleveland and interred in his own private vault in Woodland Cemetery.

O. M. OVIATT, son of Gen. O. M. and Phoebe H. Oviatt, was born in Richfield, July 12, 1825, and has lived in this town continuously up to the present time. He received his early education at the old Richfield Academy, Rev. Harvey Lyon being his instructor. After attending school in later years at Gambier, Ohio, Granville, Ohio, and Hudson College (English Department). He was married, Aug. 2, 1848, to Miss Frances C. Hammond, daughter of Nathaniel and Lucy Hammond, both residents of Richfield. After his marriage he resided for some time on the old homestead near the center (his father having removed to Cleveland, Ohio). In June, 1857, he removed to his present residence previously occupied by his grandfather, Capt. Heman Oviatt. He held the position of County Commissioner two terms (six years). He has given much attention to the educational interests of the town, and took a leading part in the founding of the present Richfield Central High School, overcoming strong opposition from its non-supporters. He has also been a member of the Board of Education the past twelve years.

SCHUYLER R. OVIATT, P. O. Richfield; is a son of Marvin and Mary (Foote) Oviatt, who were both natives of Connecticut. Mar-

vin was born in Goshen Oct. 1, 1797, and his wife in Norfolk Feb. 2, 1795. They were united in marriage in 1818. The father of Marvin, Capt. Heman Oviatt, was born in Goshen, Conn., Sept. 20, 1775; he was married Jan. 10, 1796, to Miss Eunice Newton, she was born Nov. 15, 1777. Capt. Heman Oviatt was one of the pioneers of Summit County, coming with David Hudson, to Hudson Township, in 1800, returning in the fall of the year to Connecticut, and returning in the spring of 1801, with his family. He located in Hudson Township where he resided for a number of years, taking a prominent position in all acts of public importance and improvements. He endowed Hudson College, while a resident there, with a fund of \$12,000. His first wife, Eunice, was a woman universally beloved, and possessed much influence over the Indians. She died Sept. 17, 1813, leaving three children—Marvin, Orson and Harriet. Heman married for a second wife Sophia E. Kilbourne, by whom he had two children—Heman, now a resident of Cleveland, and Elizabeth, living in Richfield Township; she lived about twenty years, and after her death he married the Widow Curtis, of Akron, who survived him several years. In 1839, Heman removed to Richfield Township, where he resided up to his death, which occurred Dec. 5, 1854. A more extended narrative of his business enterprises, and connection with the township and county, will appear in another portion of this work. Marvin was married in Hudson in 1818, and engaged in farming for a short period in that township, and then connected himself with his brother Orson, in Richfield. In 1825, he went to Cleveland, and was engaged in the mercantile trade there for a few years, and then went South, and was in the produce business upon the Ohio and Mississippi Rivers; after a few years he returned to Richfield, and again went upon a farm. At the breaking-out of the gold excitement in California, in 1850, he started for the Pacific Coast, and after remaining there three years, started to return home, but fell from the steamer, upon which he had taken passage upon the San Juan River, and was drowned, August 1853. His body was never recovered nor any of his effects. His wife died in Richfield, May 31, 1876. Their children now living are as follows: Schuyler R., Tracy M., a Presbyterian Minister now living in Cali-

fornia; Edward, a prominent lawyer of Akron; Celia, now the wife of Baxter H. Wood, of Medina; Virgil L., a graduate of the Western Reserve College (deceased); Carlos, died in Corry, Penn., having a wife and son; Schuyler R., was born in Hudson Township in 1819. His education is academical, graduating at the Richfield Academy at the age of 20. He is by occupation a civil engineer, and has also devoted considerable attention to horticultural pursuits. At various times he has served the township and county in offices of public trust, prominent among which we mention, as County Surveyor, and also County Treasurer from 1871 to 1875. In township affairs he has always taken a leading interest; is now serving as Notary Public. In 1880, he prepared and delivered a historical address, in Richfield, at the pioneer meeting of that year, and also furnishes many of the facts and incidents which appear in the township history. He was united in marriage in June, 1842, to Miss Charlotte A. Weld, a daughter of James Weld, Esq., who was before his death one of Richfield's most prominent business men. They have two children—James S., a graduate of Western Reserve College, and at present living in Cleveland, serving as Assistant City Civil Engineer, and Miss Lotta, at home.

DARIUS L. OVIATT, farmer; P. O. West Richfield; is a son of Nathaniel and Hannah (Deming) Oviatt, natives of Litchfield Co., Conn., and pioneers of Summit Co., locating in Richfield Township in 1812, and residents of the township for the remainder of their lives. His mother died in April, 1831; by a subsequent marriage his father had six children, only one of whom is now living—Ruth Freeman, a resident of Michigan; two sons, John and Charles, died while in the service. His father's death occurred in March, 1863. Our subject was born in Richfield Township Jan. 22, 1825; he remained upon his father's farm until about 19 years of age, and then went to Hinckley, Medina Co., where he resided about fifteen years, marrying while there, in August, 1849, Miss Emma Crissy; she died in May, 1861; three children were the result of this marriage—Moseman C., now a resident of Michigan; Linus W., living in Richfield Township; and Truman D., now living in Cuyahoga Co. In September, 1861, he was married to his second wife, Miss Phœbe J. Tuthill; they have four

children—Emma J., Charlie C., Hattie E. and Alma I. In October, 1861, Mr. Oviatt returned to Richfield Township and located upon the old homestead, where he has resided up to the present time; he has 126 acres of improved land, conveniently located, about one mile north of West Richfield. He has always taken an interest in educational and township matters, and is a respected and enterprising citizen.

STEPHEN C. PIXLEY, farmer; P. O. West Richfield. Prominent among the old residents of Richfield Township is Stephen C. Pixley, the subject of this biography. He came with his parents to the township in 1816, from Massachusetts, where he was born in Franklin in 1813, and has been a resident of the township, and lived upon the farm, taken up by his father at that time, up to the present time. His father was Stephen Pixley, a native of Massachusetts, where he was born July 9, 1781; his mother's maiden name was Orpha Cooley, also a native of Massachusetts; she was born March 27, 1781; they were married in Massachusetts Nov. 25, 1804. In 1816, they started from Massachusetts with a team and two yoke of cattle, and, after a journey of six weeks, reached Richfield; they located in the northwestern portion of the township, where they lived for the remainder of their lives. His father's death occurred Oct. 31, 1829; his mother's, Sept. 6, 1840. Their children now living are as follows: Sumner, a resident of Boston Township; Seymour, living in California; and our subject, Stephen C.; a son, Alvin C., a prominent resident of Richfield Township, died in June, 1878, leaving a wife who is still a resident of the township; they had five children, all of whom are deceased. Owen C., a son, died from disease contracted in the service of his country. Stephen C. was united in marriage, Nov. 13, 1850, to Miss Eliza Buell; she died in 1855. In March, 1856, he was married to Miss Sarah E. Tupper, who died May 5, 1857. May 17, 1860, he was again married, to Miss Maria L. Foster; she is a native of Ohio, born in Cuyahoga Co., April 27, 1834; they have three children—Frank S., born Nov. 21, 1863; Orla C. and Chrysie I. (twins), born Oct. 18, 1867. Mr. Pixley has 95 acres of land, all of which is improved except 8 acres of timber located in the northwestern portion of the township, about two miles from West Richfield. He has been prominently identified with the growth and development of the township, and

furnishes some of the incidents and dates given in the township history. As a citizen he is enterprising and progressive, and is universally respected by his fellow townsmen.

FRANKLIN PRICKITT, farmer; P. O. West Richfield. The Prickitt family are prominent citizens and extensive land-owners in Richfield Township, and are worthy of especial mention. The parents were Samuel and Hannah (Allen) Prickitt who were natives of New Jersey, and of Quaker descent. He was born Oct. 15, 1784, and his wife Aug. 4, 1793. They were united in marriage April 3, 1821, in New Jersey, and first moved to Wayne Co., N. Y., where they resided about seven years. From there they emigrated to Ohio, locating in Richfield Township in 1834, taking up 200 acres of land, which was situated where the farms of Franklin and Allen S. now are. There they resided until their labors below were ended, and they "were gathered with their fathers." He died at the ripe age of 88 years, and his wife at 85 years of age. Franklin, the eldest son, was born in New Jersey in 1823. He remained with his parents until he was married, Jan. 9, 1850, to Miss Sarah Fearnley. She was a native of England. After his marriage, he built him a house upon the farm where he now resides, which consists of 70 acres of land, which was a part of the old homestead. Although he calls himself a farmer, he has devoted a great share of his time to making rifles and general repairing. He is a natural mechanic, having never learned the machinist's trade. He was the first gunsmith in the township, and has made hundreds of rifles with tools which he manufactured mostly himself, and in his workshop may be found many evidences of his skill. His first wife died in 1867, leaving a daughter, Alice. In June, 1866, he was married to a second wife, Miss Arvilla Buck, a daughter of Heman and Polly Buck, who were pioneers of the township. She was born in Richfield Township in October, 1828. They have two children—Francis and Elma.

SAMUEL H. PRICKITT, farmer; P. O. West Richfield; a son of Samuel and Hannah (Allen) Prickitt; was born in Wayne Co., N. Y., Jan. 6, 1829. He remained with his parents in Richfield until 1854, and then started for California, where he remained for ten years, engaged in various occupations. He

then returned to Richfield and purchased of S. E. Oviatt the farm, consisting of 110 acres, where he now resides, and which he has improved generally since his residence upon it until it is one of the most desirable farms in the township. He was united in marriage, Feb. 14, 1866, to Miss Ann A. Garthwait. She is of English descent, her parents, Charles and Ann (Fearnley) Garthwait, being both natives of England, and for many years residents of Richfield Township. Mrs. Prickitt was born in Richfield Township Dec. 20, 1842. They have one child—Miss Edith, born Sept. 10, 1867. Mr. Prickitt, as a farmer, is practical and prosperous; as a citizen, he is enterprising and progressive, and, together with his estimable wife, are intelligent and esteemed citizens.

ALLEN S. PRICKITT, farmer; P. O. West Richfield; is a son of Samuel and Hannah (Allen) Prickitt. He was born in Wayne Co., N. Y., Dec. 29, 1833, and since the removal of his parents to the township has lived upon the old homestead, which he now owns. He has 125 acres of good land, finely improved and located conveniently. He has served the township as Trustee, and has taken great interest in educational affairs and all matters of public importance. He was married, March 22, 1859, to Miss Jane Kirby, daughter of John and Elizabeth Kirby, natives of England, and who are old residents of the community. Mrs. Prickitt is also a native of England, where she was born in 1833. They have two children—Mary and Rosa.

H. C. SEARLES, Postmaster and merchant, West Richfield; is a prominent merchant and an enterprising citizen; he is a son of Daniel Searles, an early settler of Hinckley Township, where he still resides. The subject of this sketch was born in Hinckley Township in 1841, and passed his early life up to the age of 16 upon the farm. His education commenced in the district schools; he then went to Hiram College, where he continued his studies until the breaking-out of the war, when he enlisted in Battery A, 1st Ohio, and served for two years, but was forced to leave the service on account of injuries. Returning to his home, he then engaged in the mercantile business as clerk for B. H. Wood, of West Richfield, with whom he continued for eight years. He then, in 1873, commenced in trade for himself, in which he has been actively engaged up to the

present time. In 1878, the store in which he was doing business was burned; he then erected the large and commodious building where he is at present located; his stock consists of a large line of general merchandise, and he purchases all kinds of country produce. Mr. Searles has served as Postmaster since 1873, and in matters of public importance has always taken an active interest. He has served the township as Treasurer for the past fifteen years, and as a member of the School Board for six years. He was married, in 1863, to Miss Elizabeth Parker, a daughter of Rev. Sanford Parker, a Methodist minister; he was killed while a resident of Hinckley; she was born in Hinckley Township in 1844. They have three children—Harry I., at present attending Hiram College, Lizzie A. and George DeForest.

DANIEL T. SHELDEN, farmer; P. O. West Richfield; is a son of Jonathan and Abiah (Northrop) Sheldon. His father was a native of Rhode Island. When he was 4 years of age, his parents removed to Massachusetts, where he resided until he was married. They then removed to Schoharie Co., N. Y., where they resided about twenty-five years. In 1822, they removed to Ohio, locating in Richfield Township, where they resided for the remainder of their days. Daniel was born in Schoharie Co., N. Y., in 1806, and came with his parents to Richfield when they removed there, where he has since been a resident, and by occupation a farmer. He was married, in March, 1836, to Miss Martha Robinson, who died in 1837. In October, 1838, he was married to a sister of his first wife, Miss Mary Robinson. They have four children—William II. (who is a resident of California), Martha A., Dustin and Charles R., living in Richfield Township, and Miss Mary E., at home. Mr. Sheldon is living upon the old homestead, about one and a half miles south of the Center, where he has lived over half a century; he has devoted his time exclusively to the cultivation of his land, which is in a high state of cultivation and well improved. He is a well known and respected citizen in the township where he has lived for so many years.

M. LEE SPRANKLE, farmer; P. O. West Richfield; is a son of John and Susannah (Keck) Sprankle; his father was a native of Pennsylvania, where he was born in 1802; his mother, a native of Ohio, Columbiana Co., where she was born in 1816; she is still living with her son,

M. Lee, in Richfield; his father first located in Columbiana Co., where he resided about three years, and then removed to Wayne Co., where he remained about nine years, and then, in the spring of 1850, removed to Richfield Township, locating in the southern part of the township, where he resided until his death, which occurred in 1854, aged 52 years. Our subject was born in Wayne Co., in 1839; at the death of his father, he started out in life for himself, working by the month about twelve years, and then purchasing from the heirs the old homestead, where he has since resided. He has 96 acres of improved land, with good buildings, and in a high state of cultivation. He was married, in September, 1872, to Miss Lilla Kirk, a daughter of George Kirk, of Bath; they have three children—Gertrude, Jessie and Birdie. Mr. Sprankle has served the township as Assessor, and is a member of Meridian Sun Lodge, No. 266, A., F. & A. M. He has three brothers and two sisters living—Jeremiah, living in Michigan; Daniel, a resident of Montana; David W., a minister in the United Brethren Church, living in Portage Co.; Lydia Dunn, in Michigan, and Sarah Harris, living in Copley Township; a brother, William H., was killed by lightning in Richfield Township, in 1867.

NATHAN SWIGART, farmer; P. O. West Richfield; was born in Stark Co., Ohio, in 1831; his parents, John and Elizabeth (Halliwill) Swigart, were pioneers in Stark Co. In 1832, his father came to Richfield Township and purchased a tract of land, located where Nathan now resides, but before he perfected his arrangements for removal from Stark Co. he was stricken down by death; his mother subsequently removed to Richfield and settled upon the farm, bringing with her a daughter, Louisa, and Nathan, our subject. She was afterward married to Oliver Taylor, by whom she had four children; she continued a resident of the farm until her death, aged 63 years. Nathan has been a resident of the old farm since their first location there, and is now in possession of it; he has 109 acres, about 40 of which is timbered; he is making quite a specialty in dairying, having very fine facilities for butter-making, there being upon his farm fine springs of running water, of even temperature the whole year. He was married in 1860 to Miss Harriet J. Willey, whose parents were old settlers of

Medina Co. They have ten children—John, Herbert, Louis, Ada J., Lura A., Otho T., Clara, Samuel G., Clarence and Garfield. Mr. Swigart is a prosperous farmer and respected neighbor; he has taken an active interest in schools, and is a member of Osborn Corner Grange.

FAYETTE VIALL, proprietor hotel, Richfield; is a son of Burrill and Sarah Viall, who were early settlers in Northampton Township; they have four children now living in Summit Co.—Burrill, a prominent farmer, of Boston Township; Mary, the wife of Dr. Pope, of West Richfield; William, now a resident of Northampton Township; and Fayette, the subject of this sketch. He was born in Northampton Township in 1845; he accompanied his parents to Iowa in 1850, where he remained until 1863, when he enlisted in the 24th Iowa V. I., and was in the service until the close of the war. He then returned to Iowa, where he remained about a year, and then came to Boston Township, where he resided for several years with his brother. In November, 1872, he was married to Miss Emma Gilbert, a daughter of Chancey and Sophrona (Carter) Gilbert; since his marriage he has been a resident of Richfield Township, where he has been engaged in farming and also in the hotel business, which occupation he resumed in April, 1881, in Richfield Center, where he owns a hotel property. Mr. and Mrs. Viall have two children—Raymond and Willie.

HENRY C. WADHAMS, retired farmer; P. O. West Richfield; was born in Litchfield Co., Goshen, Conn., Jan. 15, 1802. His parents, Seth and Lucy (Davis) Wadhams, were both natives of Connecticut; his father was a merchant in Goshen, and died in 1808; his mother departed this life the year previous (1807). After the death of his parents, Henry went to live with an uncle, with whom he remained until he attained his majority, working upon a farm. He then started for Ohio, coming with Frederick Baldwin, in a one-horse wagon; they reached Hudson, where Baldwin stopped, and our subject came on to Richfield, where his brother, William S., and many old Connecticut acquaintances were located. He reached Richfield in 1823, and bought a farm, upon which he lived until 1844, when he sold out to Schuyler Oviatt, and moved to West Richfield and engaged in the mercantile busi-

ness with H. B. Pomeroy, with whom he continued one year. In 1850, he went to California, where he remained five years, engaged in mining and keeping a public house. He then returned to West Richfield, where he has since resided, retired from active life. He was married, March 23, 1825, to Miss Eunice Layton; she was a daughter of John and Eunice Layton, natives of New York, and residents of Ontario Co.; she was born in Ontario Co., May 5, 1805. Their children are as follows: Louisa Bigelow, living in Michigan; Mandana M. Mansur, died in Hudson; Destine A., was educated at Mt. Holyoke, Mass., and died while teaching at Knoxville, Ill.; Clarentine, died at the age of 8 years; Eunice Carr, living in Cleveland; Henry P., a resident of Cleveland—he is the senior partner in the firm of H. P. Wadhams & Co., engaged in investments, securities, and brokers in stocks, grain, provisions, etc. Mr. Wadhams, while a resident of Richfield Township, has served as Constable about seventeen years, and as Deputy Treasurer for twenty-five years. He has been identified in many acts for the improvement of the township, and is a respected and progressive citizen.

WILLIAM WHEATLEY, farmer; P. O. West Richfield; is an extensive land-owner and one of the prominent citizens of Richfield Township. His parents, Joseph and Jane (Teal) Wheatley, were natives of England. They emigrated to America in 1832, and located in Richfield Township; they purchased 100 acres of land of Samuel Snow, who went to Canada and joined in the insurrection, where he was captured and sent to Van Dieman's Land. Mr. and Mrs. Wheatley brought with them eight children from England, only three of whom are now living—Sarah, the widow of Uriah Oviatt, residing in Richfield; F. J., a son, for many years a prominent citizen of Granger Township, Medina Co., now living in Danville, Va., where he has a large plantation. The mother died in March, 1857, and the father in December, 1858. William was born in England, in 1825, and since the removal of his parents to Richfield, has been a resident of the Township and of the old homestead. In 1852, he was united in marriage to Miss Elizabeth Lawrence. She is also a native of England, where she was born in 1823. They have five children—Martha C., William L., Emma J., George and Charles. Mr. Wheatley has added to the original farm

until he has, at the present time, 420 acres, about 75 of which is timber, and the rest finely improved. This property is located about one mile south of the Center. He is an enterprising and progressive farmer, to which he devotes his time exclusively; he makes quite a specialty of fine Durham stock, and in superior breeds of sheep. For a number of years he was prominently interested in the Agricultural Association of the county, but of late the cultivation of his land engages his whole time and attention.

DR. JEREMIAH CULLEN WILCOX (deceased); was born in Hartford Co., Conn., Dec. 6, 1790. His father, Dr. Jeremiah Wilcox, having become owner of the "Wilcox Tract," consisting of 16,000 acres on the Western Reserve, resolved to become an emigrant himself, so, with his family, he removed to Vernon, Trumbull Co., which was then a wilderness, and there they located and lived for the remainder of their lives. "Cullen," as he was familiarly known, performed the labors incident to a pioneer life for a few years, and then resumed his studies, which he had commenced in Connecticut, and entered Jefferson College, where he graduated in 1813, in the same class with Thomas H. Benton, who was for so many years the celebrated United States Senator. Having prepared himself for the medical profession, mainly under the instructions of his father, he commenced to practice in the town of Hartford, where he continued for twenty years. He married, in 1816, Miss Lorena Bushnell, who died in 1831, leaving five children, only two of whom are now living—Jeremiah B., living in Deer Lodge, Montana Territory, and Mrs. Gen. Sturges, of Louisville, Ky. His health having become impaired, he gave up his practice, and for better educational advantages, removed to Hudson, where he engaged in business, and in 1839 removed to Richfield Township, where he owned a large tract of land, and became one of its most honored and respected citizens. He was a devoted and consistent member of the Congregational Church. In 1839, he was married to Mrs. Julia A. Pettee; her maiden name was Wilder; she was born in Johnstown, N. Y., Sept. 19, 1814; she was married in New York York State and left a widow when 20 years of age. At the time of her marriage with Dr. Wilcox, she was a teacher in the schools of Ravenna. She is now living at Glenville, Cuya-

hoga Co. Dr. Wilcox died Jan. 26, 1873. Their children are as follows: Amelia; Henry C., living in Kansas; Cullen, now attending Yale College, fitting himself for the ministry; Frank A. and Stella H., with their mother at Glenville.

BAXTER WOOD, retired merchant, West Richfield; is an old and respected citizen, and at one time a prominent merchant. He was born in Wooster Co., Mass., Jan. 2, 1797. His father, Williard Wood, was a farmer, and upon the farm the first twenty years of his life was passed. He received a good education, and put it to a practical use by teaching school for fourteen winters. He was engaged in the hotel business in Massachusetts for six years, and in Connecticut for three years. He then removed to Indiana, where he remained only one year, engaged in the same business. In 1838, he removed to Richfield and first engaged in the hotel business, there continuing six years. He then entered the mercantile business in West Richfield, under the firm name of B. Wood & Son, and for twenty-five years was in active trade. He is now retired from business, and living upon a small farm located between the two Centers. He was married, while living in Massachusetts, Nov. 19, 1822, to Miss Eliza Fairbanks. She was born in Hampden Co., Mass., Sept. 24, 1797. They have three children who are a pride and comfort to them—Mrs. Pauline Sheppard, the wife of O. C. Sheppard, of Medina; Baxter H., one of Medina's most prominent business men, and Charles W., one of the old and prominent business men of West Richfield. He was born in Thompson, Conn., in 1835. He commenced his business life at the age of 18, as assistant in his father's store, and has been the mercantile trade ever since. He was for a number of years in partnership with his father, but for the past eight years has been alone. His stock consists of a general line of merchandise, in which he does a leading business. He was married in November, 1862, to Miss Elizabeth Okes. She was born in Cuyahoga Co., in 1838. They have six children—Frank O., Stella, Weldon C., Edith C., Harry and Arthur. He is Secretary and Treasurer of the Ohio Telegraph Co., a short line between Peninsula and West Richfield, and a member of Meridian Sun Lodge, No. 266, A., F. & A. M.

DEXTER WOOD (deceased); was a native of Massachusetts, where he was born in

1801. He was one of the early settlers of Richfield Township, where he located in 1834, in the southern portion of the township, and where he remained a respected citizen for the remainder of his life. He died in March, 1846. His wife is still living upon the old homestead; her maiden name was Mary Reid; she was born in New York State, in 1815; her father, Elias Reid, was an early settler of Richfield, coming there about 1833. He died in the township in 1857. Mr. and Mrs. Wood were married Nov. 26, 1835. Three children are now living—Willard, born in

November, 1836. He was married in 1861, to Miss Lora Hurlbut; she died June 21, 1878. Willard now resides upon the old homestead. Dexter, born in November, 1838. He is living on the farm; he was married in 1861, to Miss Sarah J. Moore. They have five children—Adelpha, Belle, Rosa, Emma and Edward; and Mary E., born Sept. 24, 1843. The homestead consists of 94 acres, the most of which is well improved. It is conveniently located about two and one-half miles from the Center. The family are intelligent and enterprising, and are respected citizens of the township.

BATH TOWNSHIP.

JARED BARKER, Bath. Mr. Barker is one of the leading agriculturists and live-stock dealers of Summit Co. He was born in Monroe Co., N. Y., Sept. 10, 1819. He is the son of Lanson and Betsey (Phelps) Barker, both of whom were natives of Connecticut. They were married in Pittsford, Monroe Co., N. Y. In 1827, Mr. Barker came to Ohio and purchased a tract of land in Holmes Co., and the year following came West with his family and stopped for a few weeks at Massillon, Ohio, and then moved to Granger, Medina Co., Ohio. He lived in Medina Co. some years, and then purchased a place in Royalton, Cuyahoga Co., Ohio, upon which he resided for most part the remainder of his days. In his family were the following children, viz.: Roxie A., William, Jared, John, Lyman, Mary and Frances. He departed this life in 1855, and his wife in 1847. They were intelligent, Christian people, and had the respect of all who knew them. Jared Barker lived at home and assisted in the farm duties until 27 years of age. He was united in marriage to Miss Eleanor Munson Dec. 16, 1847. She was born in Wayne Co., Ohio, Nov. 25, 1827. By this union there were two children, viz.: Mary E. and William. Mrs. Barker died Sept. 9, 1856. Soon after his marriage Mr. Barker came to Bath Township, and the year following purchased 300 acres of land, going in debt for nearly the entire amount. By hard work and economy he paid for this land, and has added to it, until he now owns over 500 acres. Upon his farm are five large barns

which are very conveniently arranged, and afford shelter to a large number of live stock. Mr. Barker has made a specialty of wool-growing, and is one of the most successful and practical stock-growers in the county. He now has upon his place about eighty head of short-horn cattle. A number of these are thoroughbred, and the rest good grade cattle. He also has upon his place some fine Clydesdale and English coach horses. Perhaps there is not a man in Summit Co. who owns more good stock of all kinds than Mr. Barker. He began as a poor boy, and is in the fullest sense of the word a self-made man. He is of a retiring disposition, and does not meddle much in political affairs, yet he is decided in his opinions which he never fails to express at the ballot-box. His donations for educational, religious and other charitable purposes have been very considerable; nor have they been confined to Bath Township alone. Many of them are yet unknown in the community in which he resides.

CONRAD CARVER; P. O. Buckeye; was born in Hesse-Cassel, Germany, Nov. 10, 1810; he is the son of John and Margaret (Miller) Carver, who were natives of Germany, and the parents of four sons and two daughters. Conrad Carver remained at home and attended school until he was 14 years of age; he then began working for a man at \$8 per year; he continued working in his native country until about 26 years of age, never receiving more than \$12 per year for his services; he had dur-

ing this time saved some money, and he now determined to try his fortunes in the New World, so, bidding farewell to home and fatherland, he started in 1836 for the new El Dorado, landing in New York in September of the same year; he at once started for Cincinnati, but, on his arrival at Cleveland, he was compelled to stop, as his means were exhausted; after some time, mainly spent in trying to find employment, he took passage on a canal boat, and, on its arrival at Peninsula, he was asked by a farmer of that place if he did not want to work; Mr. Carver told him that he did, and soon bargained to work for him during the winter; he worked for this man six months; at the expiration of that time and when they came to settle, the man could not pay him, and Mr. Carver never received one farthing from him; his clothes were nearly worn out, and, in the early spring, he found employment helping to clear the canal; he worked on the canal some four years in different capacities, and during that time, by strict economy, he had saved sufficient means to purchase 30 acres of land in Bath Township, paying \$6 per acre for it. Perhaps there is not a man in Bath Township who has done more hard work than Mr. Carver; many and many a time, after working all day for some of his neighbors, he would return home and spend a great portion of the night clearing up his own farm. His untiring energy has been crowned with success, as he is to-day one of the wealthiest farmers of Bath Township; his farm of 195 acres is well improved and nicely situated in the eastern part of the township. He was united in marriage to Miss Sarah Lutz Oct. 14, 1838; she was born in Cumberland Co., Penn., Dec. 2, 1820; from this union there were nine children, viz., Lavina, Mary A., Eliza, Simon P. and Alfred living; John, Margaret, Rose A. and Polly deceased. Mr. Carver is a Republican and a member of the Evangelical Association. He has been ably seconded in all his undertakings in life by his good wife. It can truly be said of them that there are no better or more respected people in the township than they.

J. W. CLAPPER, Ghent. This gentleman was born in Wayne Co., Ohio, Feb. 12, 1845. He is the son of John and Lydia A. (Biers) Clapper, the former a native of Wayne Co., Ohio, and the latter of Orange Co., N. J. They were the parents of two children—our subject

and his sister Sarah. She is the wife of R. Y. Robinson, Esq., and resides in Bath Township. John Clapper died when he was but 27 years of age. He was a promising young man, noted for his energy and straight business habits. His widow married again and is still a resident of Wayne Co. J. W. Clapper began life as a poor boy, and, when yet quite young, began for himself as a farmer. He served his country in the late war in Co. I, 5th O. V. V. C. He was united in marriage to Miss Mary M. Huston Oct. 23, 1867. She was born in Wayne Co., Ohio, Dec. 12, 1847, and is the daughter of William and Sarah (Van Kirk) Huston, both natives of the Keystone State, and early settlers of Wayne Co. Mr. and Mrs. Clapper are the parents of four children, viz., Emma L., John W., Sadie and Jacob R. Mr. Clapper is a staunch Republican in politics, and interests himself in public improvements of all kinds. He owns 102 acres of land, which is well stocked, and which he farms in a very creditable manner.

MRS. CHARLOTTE DOOLITTLE, Bath. Among the old and honored pioneer women of Bath Township, none is more worthy of especial mention than Mrs. Charlotte Doolittle, who was born Feb. 28, 1809, in Bristol, Ontario Co., N. Y. She is the daughter of Stoten and Lydia (Allen) Hale, both of whom were natives of the Empire State, and the parents of five children. Mr. Hale was a wheelwright by trade. He was a soldier during the war of 1812, and served his country with distinction. Both he and wife died when our subject was a small girl. She was united in marriage to Mr. Samuel Shaw in 1827. He was born in Bristol, Ontario Co., N. Y., in 1804. From this union there were six children, viz., Samuel A., Samuel H., Charlotte C., Lorenzo, Dency L. and Richmond. In 1829, Mr. and Mrs. Shaw left their native State for Bath Township, this county. They had purchased 145 acres of land, which, on their arrival at Cleveland, they paid for which left them about \$60 to begin improvements with. They arrived in Bath Township on Tuesday, and the following Friday they had a building erected, into which they moved. It was a rude structure indeed, and built on a side hill with the fire-place in the lower end, and only a rude puncheon floor in a portion of it. When it rained, the water would run in from the upper side and come coursing down through the room

and put out the fire. This served them as a dwelling by being "patched up" for some time, when they added an upper story to their dwelling. This was an unusual proceeding, and the people of the neighborhood thought they were "putting on airs." Mr. Shaw was a carpenter by trade, and a man of energy and great physical powers. His good wife and companion would go with him into the woods and help him get out timbers for buildings. She would take one end of the cross-cut saw and saw with her husband all day long, only stopping long enough to get their meals. They worked on in this way until the death of Mr. Shaw, which occurred in 1836. They had in this time built a large two-story, frame house, had a nice, young, bearing orchard, their place well stocked, and many other comforts and conveniences. Mrs. Shaw was married, in 1837, to Mr. Lyman Doolittle, a native of Ontario Co., N. Y., where he was born in 1801. This gentleman died in 1862. By this second marriage there were five children, viz., Liza M., Lucy M., Orpha O., Irving and Genevieve. Mrs. Doolittle lives upon the old homestead, surrounded by the comforts and conveniences of a well-earned competency. She is a lady of more than ordinary powers of mind and executive ability, and is respected by all who know her.

CHARLES H. HARRIS, Buckeye. Thomas N. Harris, father of this gentleman, was born in Beaver Co., Penn., Oct. 30, 1804. His father, Warren Harris, was a native of the "Old Dominion," and moved to Wayne Co., Ohio, in 1812. Thomas N. was married, in Wayne Co., in 1828, to Miss Eliza Peach. She was born in Frederiek Co., Va., Aug. 9, 1808, and is the daughter of Jacob Peach, a native of Virginia, from which State to Pennsylvania he removed with his family in 1809, and two years later, he came to what is now Jackson Township, Stark Co., Ohio. He came to Summit Co. in 1830, and settled in Bath Township, where he passed the remainder of his days. He was twice married, and was the parent of twenty children. In Thomas N. Harris' family were six sons and six daughters, viz., Rachel A., William, Minerva, Louisa, Jacob P., Charles H., John S., Lewis H., George D., Angelina, Sarah and Lodelia. Of these twelve children, only five are now living. On the breaking-out of the rebellion, William, John S., Lewis H. and George D. entered their country's service.

Lewis H. was killed at the battle of Winchester, Va. George D., after being captured, and suffering untold privations in Southern prisons, was paroled, and took passage for home on the ill-fated Sultana. How or in what manner he met his death was never known. The other two boys lived to return home. Mr. and Mrs. Harris have been residents of Bath Township since 1832. They have a nice home, and have the respect and esteem of all who know them. Charles H. Harris was born in this county Feb. 27, 1838. He received a good common-school education, and, when 13 years of age, went to live with Jacob Peach, his grandfather. After reaching his majority, he worked two years for his grandfather, and then rented the farm of him. He has ever since remained upon the farm, and, after the death of his grandfather, he purchased the place of the heirs. He was united in marriage to Miss Caroline Harris July 14, 1860. She was born in Stark Co., Ohio, Nov. 7, 1840. This lady died Feb. 26, 1873. By this marriage there were four children, viz., Frank E., George R., Eber W. and Eleanor. Mr. Harris was married to Miss Lucinda Spraukle Jan. 22, 1874. She was born in Stark Co., Ohio, Dec. 18, 1836. Mr. Harris owns 106 acres of well-improved land, which he has obtained for the most part by his own endeavors. He is a Republican, a member of the Evangelical Association, and an enterprising, public-spirited citizen.

ABRAHAM HARSHEY, Ghent. This gentleman was born in Wayne Co., Ohio, Oct. 18, 1843. He is the son of Jacob and Sarah (Beltz) Harshey (see biography of John Harshey). Abraham was raised upon a farm, receiving but a common-school education. He was united in marriage to Miss Mary Baughman Feb. 23, 1864. This lady was born in Wayne Co., Ohio, Feb. 10, 1844. Her parents were from the "Keystone" State, and settled in the township in Wayne Co., Ohio, which bears their name, in a very early day. In Mr. Harshey's family are two children, viz., John C. and Jessie M. Since his marriage, Mr. Harshey has followed farming, milling and cheese-making, in all of which he has been quite successful. Although his early education was quite limited, he has, since reaching his majority, surrounded himself with useful and standard books and papers, and by the careful study of them, has acquired quite a store of

useful knowledge, which we find him daily putting into practice. Mr. Harshey is a staunch Republican in politics, though liberal in his views regarding religion and men. He has held offices of honor and trust in Bath Township, where he is well and favorably known. He owns 145 acres of land, upon which are good, substantial farm buildings. Summit Co. would be much better off had it more such young men as Abraham Harshey.

JOHN HARSHEY, Ghent. The father of this gentleman, Jacob Harshey, was born in Lebanon Co., Penn., July 12, 1812. His wife, Sarah Beltz, was born in the same county Dec. 25, 1812. They were married in their native State in 1803, and, two years later, removed to Wayne Co., Ohio, where they resided until 1849, when they came to Bath Township, this county, where they have since resided. They were the parents of the following family of children, viz.: John, Jacob, Abraham, Henry and Sarah. Jacob and Henry are now dead, the others are married and reside in Bath Township. Both the Harsheys and Beltzes were originally from Switzerland, and their coming to America dates back to Colonial times. Jacob Harshey's father was a soldier of the war of 1812, and his grandfather of the war of the Revolution. Jacob Harshey is one of the wealthiest farmers in the county. He began as a poor boy, and is a self-made man in the fullest sense of the term. He owns 536 acres of good land at the present time. He has given liberally to his children and to religious and educational enterprises. His eldest son, John, was born in Lebanon Co., Penn., Feb. 2, 1834; he passed his youth and early manhood assisting his father upon the farm. On the 6th of October, 1856, he was united in marriage to Miss Lydia Rice. This lady was born in Fayette Co., Penn., Feb. 22, 1836. They are the parents of five children, viz., Emma A., Sarah F., George W. and Otis R., living; Leroy, who died in infancy. Mr. Harshey owns 345 acres of land, upon which are good substantial farm buildings; he raises good stock of all kinds, and is one of the leading and successful agriculturists of the county. He has held a number of positions of honor and trust in Bath Township. Is a Republican in politics, and a consistent member of the United Brethren Church.

EDWARD HELLER; P. O. Ghent; was born in Northampton Co., Penn., May 23, 1826.

He is the son of Abraham and Elizabeth (Evenrider) Heller, the former a native of Bucks Co., Penn., and the latter of Lehigh Co. The father was a miller by trade, a frugal, industrious man, who had the respect and confidence of a large circle of friends. He was the parent of seven children, five of whom are yet living; he died in 1852. His wife survives him, at an advanced age, and is a resident of the Quaker City. Edward Heller received a common-school education, his youth and early manhood being passed upon his father's farm and in the mill. He was united in marriage to Miss Julia A. Dutt, in 1851. This lady was born in Northampton Co., Penn., in 1827. From this union four children were born, viz., Quintus A., Benjamin F., Amanda E. and Emma D. Mr. Heller remained in his native State until 1852; he then came to this county, and purchased a farm in Copley Township, upon which he resided until 1870, when he sold out and came to Bath Township, and purchased the Ghent Mills. This is a large, three story steam and water grist and saw-mill, and is the largest and best in the western part of the county. Mr. Heller also owns a grist-mill, one-half mile east of Ghent, and 21 acres of good land in the township. He is a Republican, and a member of the Evangelical Association. He is an upright business man, a consistent Christian gentleman, and has the respect and confidence of the entire community.

ROSWELL HOPKINS, Ghent. This gentleman was born in Bath Township, this county, April 3, 1825. He is one of a family of eight children born to Isaac and Susan (Harrison) Hopkins. Isaac Hopkins was a native of the "Empire" State, where he resided until reaching his majority, when he went to Pennsylvania, and while there met the lady who became his wife. She was a native of Connecticut, but had come with her parents to the "Keystone" State when a child. On the 10th of September, 1813 (the day of Perry's victory on Lake Erie), Mr. and Mrs. Hopkins left their home in Pennsylvania for Bath Township, Summit Co., Ohio. They came in a large wagon drawn by two yoke of oxen, and, after a journey of six weeks, arrived safe and sound at their destination. They located on what is now known as the McMillan farm in the southwestern part of Bath Township. Mr. Hopkins had purchased quite a tract of land, but after the war was

over everything depreciated in value to such an extent and money became so scarce that it was only by the greatest exertions and strictest economy that he was able to keep his property. It took years, however, to accomplish this, and few men would have had the energy and perseverance to have done as much. He was honored during his lifetime with a number of offices which he filled with much credit to himself and lasting benefits to those for whom he labored. He was ever ready to advance the public good, and renowned for his strict business principles and sterling integrity. He departed this life in 1852, followed by his faithful wife ten years later. Roswell Hopkins received but a limited education, as his services were required at home nearly all the time. Whenever he had a spare day, however, he would work for some of the neighbors, and his earnings would go toward clothing him. He was united in marriage to Miss Elizabeth Lee Oct. 8, 1846. This lady was born Dec. 18, 1828, in New York. From this union there were ten children, viz.: George, Wait, Ira, Burt, Ami, Cecil, Edna, Irene, Grant and Emma. Wait, Ami, Cecil and Emma are the only ones now living. Mr. Hopkins began life as a poor boy, his wedding suit being of "home-spun," and he now says, "I was very glad that I had as good." He followed farming exclusively until 10 years ago, a business he was very successful at. Since that time he has dealt quite extensively in lumber. He owns a saw-mill which is propelled by water, and which is supplied with the latest and most approved machinery. He owns 250 acres of land which is nicely improved. He has held positions of honor and trust, and is a Republican in politics, although not a strict party man. His rule is to vote for men and measures and not for party. The county would be much better off did it contain more such men as Mr. Hopkins.

GEORGE KIRK, Bath. Michael Kirk, the grandfather of this gentleman, removed with his family from the Keystone State to Stark Co., Ohio, in 1817; his son William was at this time about 22 years of age, and the year following was united in marriage to Miss Maria Miller, a native of Pennsylvania. From this union there were eleven children, viz., George, Margaret, Rufus, Albert, Bazil, Ezra, Rebecca, Maria, Clara, Lodema and Melissa. Mr. Kirk

always followed farming and stock-raising, a business he was eminently fitted for, and one he was very successful at. He died Feb. 24, 1870. He had been a good and useful man, and a respected and honored citizen; his wife survives him and resides at Freeport, Ill. George Kirk received a common-school education, and remained at home working for his father until he had reached his majority; he then, for two years, worked for his father at \$100 per annum, and at the expiration of that time he, in company with his father, took a trip throughout Indiana, Illinois and Iowa. While in Iowa, Mr. Kirk purchased 125 acres of land in Cedar Co. After an absence of some months they returned to Stark Co., this State, where for a period of four years George was variously employed. He was united in marriage to Miss Eliza Shisler, March 26, 1846; this lady was born in Lancaster Co., Penn., July 18, 1826; they have been blessed with seven children, six of whom are yet living, viz., Seth, Lilla, Frank, Ira L., Miller S. and Cora; the one deceased was named Ralph. In 1846, Mr. Kirk came to Bath Township and located on the farm he now owns. There were but few improvements on the place, and he has by his industry and good taste so improved it that it is second to none in the township. He deals quite extensively in sheep, which he has been very successful in handling; he also has paid considerable attention to the raising of Durham cattle, and has at the present time some fine specimens of this valuable breed upon his farm; it can truly be said of him that he is one of the most practical and successful farmers and stock-raisers in Bath Township. He is a Republican of the stalwart kind, and has filled many offices in the township with much credit to himself and lasting benefits to those for whom he labored. He and wife are members of the Evangelical Association, and, though passing into the "sear and yellow leaf," their years sit lightly upon them. They are located in a pleasant and comfortable home in a community where they are respected and and beloved, and where the record of their well-spent lives can never be effaced.

MORRIS LYON; Montrose. John Lyon the father of this gentleman, was a native of the "Bay" State; his father served as a soldier in the Revolutionary war, and, although a hard-working, energetic man, never succeeded

in accumulating much property. The consequence was that John Lyon, when quite young, was bound out to the miller's trade, and had but few of the advantages boys of the present day enjoy in the way of obtaining an education and gaining a knowledge of the world. He was united in marriage, in Rhode Island, to Miss Elizabeth Holden, a native of that State. Some time after his marriage, he removed to Ontario Co., N. Y., and resided there, engaged in agricultural pursuits, until his removal to Copley Township, this county, which was in 1834. In his family were eight children. He died in 1849, and his wife in 1873. Morris Lyon was born in Bloomfield Township, Ontario Co., N. Y., June 1, 1823. He was brought up on his father's farm, his education being such as the common schools of that day afforded. In 1840, he entered the wagon-shop of S. A. Lane & Co., of Akron, and after remaining with them some time went to Medina, Ohio, where he worked at his trade some two years. He at length located at Copley Center, where he worked at wagon and carriage making for quite a number of years. He followed farming some years, and three years ago he came to Montrose, and engaged in mercantile pursuits, which business he has since followed. He was united in marriage to Miss Laura A. Briggs, Sept. 11, 1848. This lady was born in Copley Township, this county, in 1824; from this union six children were born to them, viz., Duane C., Irvin E., Julien W., Fremont E., Ossian G. and Albert. Mrs. Lyon departed this life in 1868. Mr. Lyon has given his sons such advantages as his means would admit of; Julien W. is a graduate of the Ohio Medical College of Columbus, and is located at Akron, Ohio; Fremont E. is a graduate of the Ann Arbor School of Dental Surgery, and is also located in Akron; Irvin E. is engaged in mercantile pursuits in Cleveland; Albert lives in Adair Co., Iowa, and Duane C. and Ossian G. reside in Copley Township. Mr. Lyon is a staunch Republican in politics, and is well posted on the important issues of the day. He has always been a strong advocate of the temperance reform, and those who have heard him in his quiet way sum up the evidence against this great social and moral evil, cannot help agreeing with him that the preponderance of evidence is strongly against it. Both the moral and intellectual standing of Summit County would be of

a much higher order, were there more such men as Mr. Morris Lyon.

MRS. LAURA T. McMILLAN; Montrose; this lady was born in Bath Township, Summit Co., Ohio, March 17, 1836. She is the daughter of Morris P. and Hettie B. (Looker) Miller, the former a native of Ontario Co., N. Y., and the latter of New Jersey. They were married in the "Empire" State, where they remained until 1817, when they came to this county and located in the northwestern part of Northampton Township. Six years later they removed to Copley Township, where they lived some time and then moved to Sharon Township, Medina Co., Ohio, and thence after a few years to Bath Township, which they ever afterward made their home. They were industrious, intelligent people and were the parents of seven children (a complete history of the Miller family will be found in another part of this work). Laura T. lived with her parents until her marriage with Mr. G. W. McMillan, which occurred June 11, 1863. This gentleman was born in Bath Township, this county, Oct. 10, 1838. He was raised upon the farm he owned at the time of his death, and received the benefits of a good common-school education. He was one of the most successful and practical farmers of Bath Township. He dealt quite extensively in live stock, and was noted for his fair dealings and straight business habits. He died after a short illness, May 13, 1878. Thus passed away in the prime and vigor of his manhood, one of the county's most useful and honored citizens. He was a man of broad and liberal views, encouraging everything known to be right and promptly rejecting everything known to be wrong. His widow survives him and resides upon the old homestead, which consists of 116 acres of nicely improved land. She is a lady of refinement and intelligence, and has the respect of the entire community.

HARVEY MILLER; Montrose; this gentleman was born in Hartford Co., Conn., June 12, 1818. He is the son of Elisha and Sarah F. (Woodford) Miller, both natives of Connecticut, where they were reared, married and resided until 1827, when they moved to this county, arriving in Bath Township, Feb. 27. They came the entire distance in a sleigh, but the latter part of their journey was performed on ground that was nearly bare. Mr.

Miller had purchased about 800 acres of land in the southwestern part of Bath Township, which he immediately began to improve. In his family were the following children—Lyman R., Anson, Elisha E., Sarah E., Clarinda, Lowley, Nathaniel O., George, Harvey and Evelina; all these children were born in Connecticut, and six of them are yet living, attesting to the vigor and vitality of the original stock. Mr. Miller was a man of more than ordinary ability, and was noted for his integrity and straight business habits. He kept a tavern for eighteen years on the home place, and was for years Postmaster. He creditably filled a number of positions of honor and trust, and was respected by all who knew him. This worthy man and pioneer died at his home in Bath Township, Feb. 14, 1854, and his good wife, Aug. 17, four years latter. Harvey Miller was raised upon his father's farm, and receiving such education as the log schoolhouses of that early day afforded. His union with Miss Ann Wagar occurred Oct. 16, 1844. This lady was born in Montgomery Co., N. Y., Feb. 7, 1825. They have an adopted daughter—Rosetta, who is the wife of Mr. T. F. Porter. Mr. Miller has always followed farming, and stock raising, a business he is eminently fitted for. He owns 88 acres of land which is nicely improved, and under a high state of cultivation. He has always been a strong anti-slavery man, and an earnest advocate of temperance and sobriety. He and wife are members of the M. E. Church, and have contributed largely toward its support. In fact they are ever ready to support any enterprise that has a tendency to build up the community in which they live, or benefit their fellow-man. They are worthy people who enjoy the respect and confidence of all who know them.

RALSAMON MILLER, Ghent. Ralsamon Miller was born Dec. 7, 1838, in Granger Township, Medina Co., Ohio. He is the son of William and Electa (Crosby) Miller, both of whom were natives of the "Empire" State. The Millers came to this county in 1817, and settled in the northwestern part of Northampton Township. William Miller is one of the wealthy and leading agriculturists of Summit Co. He resides in Copley Township, where he is well and favorably known. Ralsamon Miller was raised to farm labor, receiving the benefits of a common-school education. He was

united in marriage to Miss Sarah Harshey, Oct. 21, 1858. She was born in Wayne Co., Ohio, Oct. 12, 1832. From this union there were four children, viz., Elizabeth, Sarah L., Ida M., and Alpha L. In early boyhood, Mr. Miller manifested a strong liking for handling and being where live stock were being handled. After reaching man's estate, he embarked in the live-stock trade, and has since that time handled a great deal, usually buying and then preparing them for market. He has been uniformly successful, and his judgment is seldom at fault. He owns a well-improved farm of 240 acres, also a grist-mill two miles east of Ghent, and is quite extensively engaged in the manufacture of cheese. He is a staunch Republican in politics, and has creditably filled several township offices.

REV. WILLIAM B. MOODY, Bath. This gentleman was born in Kennebec Co., Me., Feb. 17, 1808. He is the son of Joseph and Bridget (Davis) Moody, both of whom were natives of Shapley, Me., where they were married and resided until 1806, when they moved to Kennebec Co. In 1813, they removed to Ontario Co., N. Y., and from there to Richfield Township, this county, in 1821. They were the parents of nine children, viz., Daniel, Joseph, Davis, Samuel, Ephriam, Rhoda, Priscilla, Bridget and William B. Bridget and William B., are the only ones now living. Mr. Moody and wife were intelligent Christian people. He died in 1824, and his wife in 1847. William B. Moody was reared upon a farm, and, during his youth and early manhood, received no education to speak of. After he had reached his majority, he surrounded himself with good and useful books and began a course of self-instruction, which extended over a period of four years. He was ordained a minister of the M. E. Church by Rev. Robert R. Roberts, at Wooster, in 1840. Some years later he withdrew from this church on account of their position on the slavery question, and connected himself with the Protestant Methodist Church. In 1850, he became a member of the Wesleyan Methodist Church, with which denomination he has ever since labored. During his life his ministerial labors have not been confined to Summit Co. alone, but has been extended over the counties of Medina, Geauga, Lorain and Cuyahoga. He was united in marriage to Miss Harriet Osborn May 14, 1828. She was born

in East Cleveland, Ohio, in 1811, and died Aug. 20, 1856. From this union there were nine children, viz., William B., Deborah, Joseph, Rhoda, James, Samuel, Ira, Davis, and one that died in infancy without naming. He was married Oct. 11, 1856, to Mrs. Julia (Adams) Spencer, who again brought to his hearthstone the genial influences of a home left desolate by the death of his first wife. One child, John B., has blessed their union, and with this interesting son and most excellent wife, he enjoys in advancing years the pleasure and comforts of a happy home, and an ample competence. In social and public life, Mr. Moody occupies a highly honorable position. From early life a "worker in his Master's vineyard," he exemplifies in his life the duties and doctrines of a pure Christianity, and has frequently been a representative in the highest councils of his Church. Such is a brief outline of Rev. William B. Moody's life. May his declining years rest lightly upon him, and Summit Co. long be spared the life of one of her noblest men.

OLIVER MOORE, West Richfield; this gentleman was born in Hamilton Co., Mass., Jan. 6, 1811; he is the son of Roswell and Sarah (Clark) Moore; the former a native of Connecticut, and the latter of Rhode Island; after their marriage they resided in Massachusetts until 1819, when they moved to what is now Franklin Township, Portage Co., Ohio, where they ever afterward resided. They were the parents of six children, viz., Roswell, Oliver, Joseph, Sarah, Almada and Electa; four of these children are yet living and are the heads of families. Mr. Moore was killed while at work in the woods by a falling tree, in 1831. His wife lived until 1868, when she quietly passed away. Mr. Moore was a farmer, but worked at the stone and brick mason's trades at times; he was an energetic, public-spirited man, and his untimely death was deeply regretted by his family and a large circle of friends. Oliver Moore was raised upon a farm, and his education was such as could be obtained in the log schoolhouses of that early day. He was united in marriage to Miss Ann Rockwell, July 6, 1835; she was born in Ontario Co., N. Y., April 9, 1812. The fruits of this union were three children, viz., Leicester O., Lewis A. and Roswell P. Leicester O. was born in Portage Co., Aug. 30, 1837; he was married to Mary E. Longfellow, Aug. 2, 1868;

she was born in Cuyahoga Co., Ohio, July 28, 1842; they have one child, viz., Stella L. Roswell P. was a soldier in the late war, and was severely wounded at Gettysburg, and was a brave and gallant soldier; he is now dead. Lewis A. has been a resident of New Mexico some years. Mrs. Oliver Moore departed this life April 6, 1864. Mr. Moore was united in marriage to Miss Emily Hopkins, June 2, 1868. This lady was born in Franklin Co., Vt., Dec. 17, 1808. Mr. Moore has always followed farming and stock-raising, and has owned at different times large quantities of real estate; he has given liberally to his children, and still owns 93 acres of well-improved land. He was, during the days of slavery, a strong pro-slavery man, and has ever advocated temperance in all things. He has been an exemplary member of the Methodist Episcopal Church a great many years, and at the building of a church of that denomination in Bath Township, in 1869, Mr. Moore gave \$600 of the \$2,000 that it cost to build it. The church was named "Moore's Chapel" in honor of him, and will for years to come be a fitting monument to his memory. Summit Co., would be much better off had it more such men as Oliver Moore.

ORISON MOORE, Montrose. This gentleman was born in Brookfield Township, Trumbull Co., Ohio, Sept. 21, 1822. He is the son of Lester and Ruth (Twining) Moore, both of whom were natives of the Bay State. In 1812, Mr. Moore came to Ohio and purchased a tract of land in Trumbull Co., and two years later moved to his property and began its improvement. They remained in that county until 1837, and then removed to Norton Township, this county. Mr. Moore was a soldier of the war of 1812, and held a Captain's commission. He was an energetic man, kind of heart, and ever ready to help his fellow-man. This last characteristic proved a detriment to him, as he lost heavily at different times by going security for those whom he thought to assist. In his family were eight, all of whom are now living, and who are the heads of respectable families. Mr. Moore died in 1859, and his wife in 1851. Orison Moore received such education as the schools of that early day afforded, and remained at home, assisting his father upon the farm until about 25 years of age. He was united in marriage to Miss Fanny Root Jan. 24, 1847. She was born in Summit Co.,

Ohio, Jan. 11, 1828, and died Jan. 19, 1875. On the 30th of March, 1876. Mr. Moore was united in marriage to Miss Zilpha Stark, who was born Nov. 15, 1842, in Stow Township, this county. Mr. Moore came to this county in 1837, which he has since made his home, with the exception of ten years that he resided in Portage Co. He has lived in Bath Township since 1864, where he owns a nicely-improved farm of 108 acres. He is a staunch Republican in politics, and one of the most practical and successful farmers and stock-raisers in Bath Township.

HENRY PARDEE, Ghent. This gentleman was born in Skaneateles, N. Y., April 15, 1826. He is the son of Harry and Fanny (Benedict) Pardee, both natives of the "Empire State," where they were married and resided until 1828, when they came to Ohio and settled at Middlebury, in what is now Summit Co. Mr. Pardee was a chair-maker by trade, and, soon after locating in Middlebury, began working at his trade. It was not long ere his facilities for manufacturing were inadequate for his rapidly increasing trade. He, therefore, erected suitable buildings, and, in a few years, he found that he had the largest business of the kind in Northern Ohio. Besides manufacturing all kinds of cabinet-ware, he made pails, tubs, etc., etc. In 1849, he moved to Akron, and, for some years, was actively engaged in business in that place. He owned a saw-mill in Northampton, where the greater portion of the material used by him was gotten out. He employed a great many men, and was one of the most active business men the county ever had. A number of years previous to his death, he moved to Northampton Township, where, on the 6th of February, 1879, he quietly sank to rest. He was the parent of the following family of children: Margaret, Henry, James, Horace, Mary, Edward, Luther, Elijah, Albert and Martha. Horace and Albert were soldiers during the late war, and well and faithfully served their country. Mr. Pardee was one of the first men in the county to engage largely in the manufacturing business in any manner, and to him more than any other does Middlebury and Akron owe their large and extensive manufactories and the thrift and enterprise that characterize them. He possessed several qualities of a high order, and was noted for his nobility of soul and his scrupulous honesty. In early life

Mr. Pardee was admitted a member of the Masonic Order, and was greatly delighted with its principles and teachings, availing himself of every opportunity to acquire a knowledge of the work and to comprehend the sublime principles of the Order. His widow survives him at the advanced age of 80 years, though she is as smart and active as many ladies at 50. Henry Pardee received the benefits of a common-school education, and, until he was 33 years of age, worked with and for his father in different capacities. He was united in marriage to Miss Caroline Prior, in 1846. She was born in Geauga Co., Ohio, in 1828. From this union there are four children, viz.: Julia, Julius, Harriet and Enoch. In 1856, Mr. Pardee came to Ghent, but, after a year, returned to Northampton, where he remained some three years and then returned to Ghent, and, in connection with Mr. Alonzo Coffin, rented the woolen-mill of that place, and for four years was engaged in the manufacture of woolen goods. At the expiration of that time he sold out to Mr. Coffin, and embarked in mercantile pursuits in the village. In this business he remained until a short time ago. During this period he was village Postmaster, and was engaged in manufacturing two-horse wagons, chairs, tables, and was one of the founders of a cheese factory at that place. He is now engaged in manufacturing waterproof goods known as the "Hammerstain process." This is a superior way of preparing waterproof goods, and gives universal satisfaction wherever it has been tried. By this process the fabric is *proofed on both sides*, which makes it entirely waterproof, and at the same time impervious to heat or cold. Mr. Pardee also has discovered a process for making one of the cheapest and best fire-kindlers as yet manufactured. The manner and rapidity with which he has completed and perfected these two important industries reflects great credit on him, and will be a lasting monument to his memory in time to come. This same energy and thoroughness have characterized his every walk in life. He has been successful because he has been cautious, thorough and industrious. He is well respected because his conduct has been above reproach. He has held numerous positions of honor and trust, and is a respected and honored citizen.

RUFUS RANDALL, M. D., Bath. This gentleman and well-known physician and sur-

geon, was born in Sharon Township, Medina Co., Ohio, July 7, 1834. He is the son of Delano P. and Lois (Huntley) Randall, both of whom were natives of the Empire State. They were married in their native State, and were the parents of four children, viz., James, Rufus, Marcellus and Harriet. They came to Sharon Township, Medina County, in an early day, where the father yet resides, the mother being dead. Mr. Randall was a carpenter by trade, but has for the most part been engaged in farming and mercantile pursuits since he came to Ohio. He is a good man and useful citizen, and has the respect and confidence of all who know him. Rufus was raised upon his father's farm, and received the benefits of a good common-school and Academic education. When about 17 years of age, he began the study of medicine with Dr. C. W. Northrop, with whom he remained about a year, and then went to Columbus, Ohio, and entered the office of Dr. John Hamilton, one of the most skillful surgeons and successful practitioners in the West. He remained under Dr. Hamilton's instructions until he graduated from the Starling Medical College, which was in 1858. Soon after graduating, he located at Hammond's Corners, where he has since resided and where he has built up a large and steadily increasing practice. Always a careful and close student of Pathology, as he found it in his practice, he has become a leader in the use of new and rational remedies, and with surprising and uniform success. He was united in marriage to Miss Eliza Roberts, in 1863. This lady was born in Copley Township, this county, Dec. 3, 1841. From this union there were three children, viz., Effie B. and Cora La Q., living, and Ida M., deceased. Dr. Randall has been a life-long Republican, and an earnest advocate of equal rights and all needed reforms. He is a member of the Masonic order and one of the county's best citizens.

SYLVESTER SHAW (deceased). This gentleman was born in Bristol, Ontario Co., N. Y., March 5, 1806. He was married in his native State Oct. 16, 1828, to Miss Harriet Parsons, a native of Ontario Co., where she was born Aug. 11, 1809. In 1832, they left their native State for Bath Township, this county, arriving at their destination on the 18th of November of the same year. They came the entire distance in a large wagon drawn by oxen, and, on

their arrival in the township, moved their goods into a small log cabin that had been built on their land. In this they lived until one more comfortable and commodious could be erected. Both Mr. and Mrs. Shaw, however, were energetic, and it was not many years ere they were surrounded with a great many comforts and conveniences. They were the parents of the following family of children, viz.: Harriet C., Sylvester P., Vashti M., Samuel, Marietta, William, Sibyl B. and Constant. Mr. Shaw was a hard-working man, and accumulated a goodly share of this world's goods. He was a man who paid strict attention to his farm duties, never aspiring to any political prominence, although he was decided in his views of right and wrong, which he never failed to express when occasion required. This useful man and much-respected citizen departed this life Nov. 17, 1875. His widow survives him, and resides upon the old homestead. She is an intelligent Christian lady, and has the respect of all who know her. Constant Shaw was born on the old homestead Nov. 20, 1852. He married Miss Cora I. Worden Oct. 15, 1874. She was born in Richfield Township, this county, Dec. 24, 1852. They have one child, viz., Leon. Samuel Shaw was born Aug. 11, 1838. He was married, Sept. 15, 1860, to Miss Lucy Webster. She was born in Ontario Co., N. Y., May 21, 1838. They have two children, viz., Loretta and Berdella. Sylvester P. Shaw was born Aug. 25, 1831. He was united in marriage to Miss Sarah R. Moody March 23, 1856. She was born in Richfield Township Nov. 20, 1838. They have four children, viz.: Gilson B., Hattie V., Durward B. and Bertha V. There are other members of the family who are married and are the heads of respectable families. All the Shaw boys are well-to-do farmers and respected citizens.

CHANCY SALISBURY, Ghent. This gentleman was born in Bath Township, this county, March 10, 1830. He is the son of William and Sylva (Atwell) Salisbury, both of whom were natives of Ontario Co., N. Y. They were married in their native State, and removed from there to this county in 1827. Mr. Salisbury had come to the county the year previous and purchased 75 acres of land in Bath Township. In his family were eight children, five of whom are yet living. He was a newsboy in Buffalo during the last war with England and witnessed

the burning of that place by the British. He always followed farming after his marriage, a business he was very successful at. He was renowned for his sobriety, economy and straight dealings, and it is said by those who knew him that "his word was just as good as his bond." He died April 8, 1863, and his wife Feb. 24, 1867. Chaney was raised upon a farm receiving a common-school education. After reaching his majority, he worked by the month for his father and for men in the neighborhood. He worked some fourteen months in Indiana, and one winter in Wisconsin. He was united in marriage to Miss Maria Hopkins Sept. 28, 1870. She was born in Bath Township June 25, 1830. Mr. Salisbury has always followed farming and stock-raising. He owns 100 acres of well-improved land, nicely situated, near the center of the township. He is a Republican in politics, and has filled several township offices with great acceptance. He is an enterprising, public-spirited man, and a useful and honored citizen.

HOUSEL SMITH, Montrose. This gentleman was born in Springfield Township, Summit Co., Ohio, Oct. 14, 1824. He is the son of James and Sarah (Housel) Smith, both of whom were natives of Lancaster Co., Penn., where they were married and resided until 1812, when they moved to Lake Township, Stark Co., Ohio. After about two years they moved into Springfield Township, it being then a part of Stark Co. They were the parents of seven children, viz., Peter, Catharine, John, Cyrenius, James, Housel and Amelia. Mr. Smith always followed farming and stock-growing. He was a successful business man, an exemplary member of the M. E. Church, and a useful member of society. He departed this life in 1857. His widow survives him and resides north of the city of Akron. Housel Smith received but a limited education, and, up to the time he was 18 years of age, worked for his father. He was then given his time, and began working his father's farm on the shares. After about eight years, he purchased 50 acres of land in Bath Township and began its improvement. In a few years he sold this farm and purchased 104 acres where he now lives. He has since added to this until he now owns 140 acres of good land, which he has nicely improved. He was united in marriage to Miss Susanna Moore March 6, 1851. This lady was born in Spring-

field Township, this county, May 6, 1830. From this union there are eight children, viz., Emanuel C., John N., James A., Robert H., Sarah L., Charles H., George E. and Margaret J. Mr. Smith is a Democrat in politics, and a member of the United Brethren Church. He began life as a poor boy, and is a self-made man in the fullest sense of the word.

MICHAEL SPRANKLE, Ghent. John Sprankle, the father of this gentleman, was a native of the Keystone State; when he was quite a child, his parents removed to Stark Co., Ohio, where they entered a large tract of land. Here John Sprankle was married and resided until 1833, when he moved to Summit Co., settling in Bath Township; he was a miller by trade, and that, in connection with farming, he followed during his life-time; he was the parent of two sons and five daughters; he was a hard-working man, and always paid strict attention to his own affairs; he was scrupulously honest, and was esteemed and respected by all who knew him. Michael Sprankle was born in Stark Co., Ohio., March 23, 1821. His advantages for obtaining an education were very limited, and from early boyhood was inured to toil, he remaining at home until about 21 years of age; he then rented a farm of his father in Stark Co., and began doing for himself. He was united in marriage to Miss Eliza McGrew, in 1843; this lady died in a few years, leaving a son and daughter, viz., Charles and Lucinda. Mr. Sprankle was married June 13, 1848, to Miss Harriet Albertson, a native of Stark Co., where she was born Nov. 25, 1828; by this union there were eight children, four of whom are yet living, viz., Oliver, Edwin, Collins and Allie A.; those deceased were named—Alonzo, Burton, John A. and Cora E. Mr. Sprankle continued to reside in Stark Co. until 1865, when he moved to Bath Township, this county, which he has since made his home. He began life as a poor boy and has by his own exertions and the assistance of his good wife secured a goodly share of this world's goods; he owns 363 acres of well-improved land, and is one of the best and most practical farmers in Bath Township; politically he is a Republican; he and wife possess social qualities of a high order, and are among the leading citizens of the township.

J. M. THORP, West Richfield. The parents of this gentleman, Manville B. and Fanny W.

(Clark) Thorp, are among the early settlers of the county. Manville B. Thorp was born Feb. 7, 1808, in the Empire State, and his wife in the Bay State, March 7, 1811. They were married in Bristol, Ontario Co., N. Y., Nov. 3, 1832, and two years later came to Bath Township, this county, where they have since resided. Jeremiah, father of Manville B., was a soldier of the war of 1812, and his father, Nathan Thorp, served his country in the war of the Revolution. Manville B. Thorp and wife, on first coming to this county, settled on the farm now owned by them in Bath Township, there being no improvements on the land at that time. They are the parents of five children, all of whom are now living. Mr. Thorp has always been a hard-working, enterprising and public-spirited citizen, and has been very successful in all his business undertakings; he owns over 300 acres of good tillable land, which is nicely improved. J. M. Thorp was raised upon a farm and received a good common-school education; he was united in marriage to Miss Vashti M. Shaw, May 24, 1857; she was born in Bath Township this county, Aug. 30, 1834; they have four sons, viz., Elwin C., Warren S., Ayers C. and Maynard B. Mr. Thorp was born in Ontario Co., N. Y., Nov. 25, 1833; in 1863, he began the study of dental surgery, and after some years began its practice at Akron, to which place and Richfield, Ohio, his practice has been confined, he always finding enough to do. He has an office at Richfield, and has a good paying practice; he is a quiet, unassuming man, and possesses the confidence and esteem of all who know him.

JOSEPH F. WHITCRAFT, Bath; John Whitcraft, the father of this gentleman, was born in Fayette Co., Penn., in 1797. While he was yet a small boy his parents removed to Jefferson Co., Ohio, and from there, after a few years, to Stark County. Here his youth and early manhood was passed, his education being such as the log schoolhouse afforded. He was united in marriage in 1823 to Miss Eleanor Harkins, a native of Westmoreland Co., Penn., where she was born in 1800. Her parents had removed from the Keystone State to Wayne Co., Ohio, in 1813. Soon after their marriage, Mr.

and Mrs. Whitcraft took up their residence in Stark County, where they resided until their removal to Bath Township, this county, in 1832. The year previous Mr. Whitcraft had come to the township and purchased 82½ acres of land. He did some clearing and erected a log cabin, in which the family moved upon their arrival. The following children were born to Mr. and Mrs. Whitcraft, viz., William, Thomas, Hugh, Samuel, Joseph F., Esther, John, Silas, Nancy and Eleanor, seven of whom are yet living. Mr. Whitcraft was a prominent and respected citizen, and held during his lifetime many positions of honor and trust. He was renowned for his strict business principles, integrity, and readiness to promote the public good. This good man and pioneer departed this life in 1842. His wife survives him at the advanced age of 81 years. She has a very retentive memory and is as smart and active as many ladies at 50. Joseph F. Whitcraft was born Sept. 22, 1830, in Stark Co., Ohio. His early education was limited, being confined to such as could be obtained in the log-cabin schoolhouse. He was but 12 years of age at the time of his father's death, and he remained at home helping to care for the younger members of the family until he was of age. He then took charge of the farm, which he resided upon until four years ago, when he came to Hammond's Corners and engaged in mercantile pursuits. He was united in marriage to Miss Adaline A. Miller, March 22, 1855. This lady was born in Richfield Township, this county, June 20, 1834, and is the daughter of Moses C. and Anna (Compton) Miller, who were among the first settlers of this county. Six children have been born to Mr. and Mrs. Whitcraft, four of whom are yet living, viz., Clara B., Jennie E., Mariam I. and Sigel B. The deceased were named Cora E. and Sherman. Mr. Whitcraft is a staunch Republican and is Postmaster at the "Corners." He has held positions of honor and trust, and is highly spoken of as an official. He was a delegate to the Kent Convention in 1855, and voted for James A. Garfield for State Senator. He is a pleasant, courteous gentleman and one of the county's best citizens.

FRANKLIN TOWNSHIP.

JACOB BREITENSTEIN, Sr., lawyer, Clinton. He is the oldest and only son living of Jacob Breitenstein, who was married to Barbara Sweithauser, both natives of Ober Rhein Kreis, Germany. He came to this country with his parents in 1836. They came to Marshallville, Wayne Co., Ohio, and remained there one year, when they removed into Chippewa Township in the same county. They remained there fifteen years, when they came to Franklin Township, this county. His education was received in the common schools of Germany, attending school but six weeks in this country. He worked on his father's farm until 24 years of age, when he married Lydia Keller, a native of Pennsylvania. He worked for six years as a coal miner, after which he bought a small farm of 24 acres with his earnings. He carried on farming very successfully until 1876, when he retired. He then began practice as a lawyer in the Justice's Courts. By his industry and economy he has amassed considerable wealth, and is now owner of five farms, including a valuable and rich coal mine, which yields him no small income. He has six children—John, Jacob D., Elias, Daniel, Andrew and Mary. He has served as Township Trustee for a number of years, and is a Notary Public. He is a member of the German Reformed Church. His parents came to this country very poor, and all he has was acquired by his own exertions.

MATHIAS DAVIS, retired farmer; P. O. Johnson's Corners; was born Sept. 23, 1810, in Pennsylvania. His father, John Davis, with wife and ten children, emigrated from Pennsylvania to Ohio, and settled on the farm where Mr. Davis is now residing, in 1817. The parents have long since gone the way of all mortals, and but four of the children survive, viz., Mathias, Nancy, Christina (now Widow Hassett, living in Hudson Township with her son), and Mary living in Carroll Co. Matthias took charge of the farm when about 19 years of age. He and a brother farmed it together for several years. Their location is one of the most naturally picturesque spots in the township, being quite elevated, overlooking the valley of the Cuyahoga River for miles, and immediately

over the Erie & Ohio Canal. The first wheat raised for market in this vicinity, was that grown by Mr. Davis, which was sold for 50 cents per bushel, and one of the first lots ever shipped to Cleveland on the canal was a lot of Mr. Davis' for which he received about 50 cents per bushel. Mr. Mathias Davis never married, and is now well advanced in years; lives in very comfortable circumstances, and cares for an aged and feeble sister; he is a man of generous and hospitable impulses, though very unassuming; his memory is replete with incidents of early pioneer life and hardships, which both old and young were necessitated to endure during their struggle for existence in the unbroken forest.

ANDREW DONNENWIRTH, saddler, Clinton. He is one of the nine children of John Donnenswirth, a native of Alsace, France, who married Margaret Lang. He was born in Canal Fulton, Stark Co., Ohio, Dec. 19, 1845. He received a common-school education, and learned the trade of saddler. He came to Clinton in 1865. There he began his career as a business man, by carrying on a harness and saddle business. In 1868, he opened a general store, doing a good business until 1880, when he again worked at his trade. He was married in 1869 to Mary A. Ingraham, a native of England. They have five children—Ross, Willie, Belle, Lorena and Daisy M. He enjoys the confidence and good-will of his fellow-citizens, and was recently elected Justice of the Peace. He is a member of the English Lutheran Church.

DAVID D. DAILEY, farmer; P. O. Nimisila. He was born in Blair Co., Penn., Nov. 15, 1817. He worked on his father's farm until 1841, when he came to Franklin Township, and has been here ever since. He was married in 1846, to Elizabeth Row; they had one son, Adam; wife died in 1850; he was remarried, in 1852, to Anne Holl. They have four children—Andrew, Catharine, Michael and Clara. He is one of the prominent and well-to-do citizens of his township.

LEWIS EVERHARD, traveling salesman, Nimisila. He was born in Plain, Stark Co., Ohio, Nov. 26, 1829. He was raised on a farm,

and obtained a common-school education. He came to Manchester, Ohio, in 1866; began his career as a salesman with the Warthorst Stone Co., of Massillon, Ohio, in 1869. He was married, in 1854, to Anne Hoy. They had two children—Frances E. and John H. She died in 1869. He was remarried, in 1871, to Nancy Williams; one child, Lottie O., is the fruit of this marriage. He is a member of the Disciples' Church.

DAVID GROVE, farmer; P. O. Nimisila; was born in Franklin Co., Penn., July 3, 1822; is son of Jacob and Rachel (Dice) Grove, who were also natives of Pennsylvania. They emigrated to Ohio in 1832, with their five children, viz., David, Polly, Solomon, Arabella and Jacob; three others were born to them after their removal to this State, viz., Ephraim, Rachel and Hannah; these are all living. Mr. Grove located in this township, and spent the remainder of his life here, and died in the 72d year of his age. David was married to Mary Long Oct. 12, 1844. They have reared four children, viz., Byron F., Eliza, Mary and Emma. Mrs. Grove was born in Westmoreland Co., Penn., and was brought to Wayne Co., Ohio, by her parents when about 2 years old. Both Mr. and Mrs. Grove are familiar with the hardships of pioneer life, but enjoy a competency earned by their own industry and care.

HENRY A. HOUSMAN, Superintendent Franklin Coal Mine, Clinton. He is the oldest son of Jacob Housman, who was married to Catharine Brougher. He was born in Franklin Township July 19, 1840. He worked on the farm until he was 20 years old. He was then employed as clerk in a store in Manchester, Ohio. In 1860, he went into business for himself. This he carried on successfully until 1870, when he took charge of the Franklin Coal Mine. He came to Clinton in 1875, and has resided here since; he also taught school here for one and one-half years. He was married in 1862, to Margaret Sisler, a native of Manchester, Ohio. They have two children—Nellie and Fannie. He is at present Superintendent of the Franklin Coal Mine, an extensive and paying mine.

JAMES M. KERSTETTER, general store, Nimisila. Among the self-made business men of Manchester is the subject of this sketch; he was born in Green Township, Summit Co., Ohio, March 17, 1851; his parents were old

settlers of the county; he was the oldest of three children; he was raised on the farm, and, when 11 years old, he went with his parents to Manchester; his education was such as the common schools of the village afforded, and his business career was begun with a clerkship with Kerstetter & Housman. He went into business for himself in 1871; he is now keeping a general store, and all he has he obtained by his tact, industry and economy. He was married in 1868 to Isabel Benner, a native of Franklin Township; they have one daughter—Olive M. His business career is one of remarkable success, he having comparatively nothing when he started.

DANIEL SMITH (deceased); was born in Pennsylvania April 10, 1811, and came here with his father's family during the construction of the canal. He married Eliza Diehl March 15, 1835; she was also a native of Pennsylvania, and came here with her parents about a year previous to her late husband, her father, Jacob Diehl, settled at Canton, Stark Co., when they came from Pennsylvania, then to Franklin Township. Soon after Mr. Smith was married, they repaired to the farm, where his widow and daughter now live, and, on June 7, 1861, he was called away, leaving a widow and large family to mourn his loss. They were parents of ten children, viz., Judson, Rachel, Amanda, Mary, Ransom, Louisa, Angeline, Carolina, Josephus and Ida; the last named resides with her aged mother. When their eldest boy, Judson, was about 4 years old, he met with a sad and fatal accident; while he, with one of his sisters, were endeavoring to cross the mill-race on unsafe footing, he fell in, and, although his father was at work near by, the boy was drowned before it was possible to rescue him. In 1834, Mr. Smith and his father built a saw-mill, which Daniel owned and operated many years; the mill property he had sold, but owing to non-payment by the purchaser, he (Mr. Smith) had to take it back, and the season preceding his death he had refitted the mill. Since his death, Mrs. Smith has managed the affairs of her business with more than ordinary executive ability, and reared her family, and yet lives to see them enjoy their own homes.

JOHN A. STUMF, farmer; P. O. Nimisila; was born in Franklin Co., Penn., June 2, 1809; he is son of Michael and Mary (Ashway) Stumf. In 1819, they moved from Pennsylvania—par-

ents and five children—and settled six miles west of Massillon, in Tuscarawas Township, Stark Co. They had in all seven children—Catharine, John A., Jacob, Elizabeth, Polly, Lydia and Nancy—the two last named were born after their parents came to this State. About nine years after their locating in Stark County, Mr. Stumpf was assisting a neighbor in “raising” a log cabin; during the progress of the work, some feeling of rivalry as to which party should have their end of the log first in position arose; the result being that one end of a log was carried up much quicker than the other, causing a skid to break, and swinging the other out of place and in its descent struck Mr. Stumpf on the head and killed him. This sad and fatal accident left the widow with her seven young children, in poor circumstances, in the new and sparsely settled country. Shortly after his father’s death, John A. returned to his uncle’s in Pennsylvania to learn the carpenter’s trade, and remained there three years. In the meantime he got married to Mary Grove in April 1832; and the following month came back with his wife to his mother’s in Stark Co., Ohio, where they lived one year, and in 1833 he moved to Franklin Township and purchased 80 acres, which was partially improved. He worked at his trade for two years after coming here, and then turned his attention principally to farming, which has been his life work, except when he chose to do odd jobs of carpenter work or manufacture anything for his own use, as he was quite handy at any kind of wood-work. He owns a good farm on which he erected a commodious brick residence in 1845. They had five children—Lucinda (who died at 5 years old), Alpheus, Eliza (was wife of Eli Stout, who died in the army of the rebellion; she is also deceased, leaving one child, Ida, and was reared by Mr. Stumpf), Hiram and

Mary M. (deceased). Mrs. Stumpf died in September, 1872. His mother remained on the old homestead in Stark County, until a short time previous to her death, when she removed to Wayne County, when she died September, 1874, in the 92d year of her age. Besides John A., only Catharine (now widow of Sam Davis of Lucas County), and Lydia (now wife of Moses Hingley, of Richland County), survives.

A. SISLER, M. D., Nimisila; he was born in Lycoming Co., Penn., Dec. 29, 1823. When 4 years old, he went to Erie Co., N. Y., with his parents; here he remained until 1844, when he came to Nimisila, and has been there ever since. He read medicine with his brother, Dr. William Sisler, who was at that time in active practice there. He attended lectures in the Cleveland Medical College, and began practice in partnership with his brother, in the spring of 1848, and is at present practicing in Manchester. He was married in 1848 to Amanda E. Hoy, a native of Nimisila. Nine children are now living—Francis E., Charles E., Clara A., Caroline B., Lewis E., Everett B., John H., Jennie L. and William H. He is a member of the Disciples’ Church.

EPHRAIM STUMF, farmer; Nimisila; is the son of Jacob and Catharine (Sorrick) Stumpf, who came from Pennsylvania to Ohio when quite young. They settled in this township, where Ephraim was born May 28, 1842. There were four other children born to Jacob and Catharine Stumpf, viz.: Matilda, Nathaniel, Amos (deceased) and William. Ephraim lived with his parents until he was married, which event occurred Nov. 29, 1870, to Louisa Smith, daughter of Daniel Smith. They have two children—Bertha and Clarence. Mr. Stumpf is a man of few pretensions, but an industrious citizen who attends to his own affairs in an unassuming way.

COPLEY TOWNSHIP.

WILLIAM G. ADAMS (deceased); was the youngest in a family of eight children born to James and Hannah Adams. The names of these children are as follows: John, Alexander, James, Thomas, Charles, Cyrus, Caroline and William G. William was born June 17, 1819, and when quite young his parents moved from his native State—Pennsylvania—and came to Wayne Co., Ohio, where he remained with his parents until he was 26 years old, and then moved to Bath Township, and subsequently to Cuyahoga Co., Ohio. July 24, 1846, he married Catharine, daughter of James and Sarah Leonard, and to this union were born a family of six children—James L., born June 4, 1849; John, born Dec. 30, 1850; Melville, born Sept. 10, 1852; Charles, born Feb. 20, 1854; Prentiss, born June 14, 1857, and Sarah, born Sept. 2, 1860. Mrs. Adams was born Sept. 2, 1823. In the spring of 1860, Mr. and Mrs. Adams, with their family, left Cuyahoga Co., Ohio, and came to Copley Township, Summit Co., Ohio. It was here, on May 2, 1868, that Mr. Adams' death occurred, of pneumonia. In his younger days, Mr. Adams taught school to some extent, and his subsequent life was full of enterprise and usefulness.

ALFRED ADAIR, farmer; P. O. Copley Center; was born in Montgomery Township, Northampton Co., Mass., Feb. 6, 1807. He is a grandson of Andrew Adair, who was a native of Ireland, and a son of James L. and Bathsheba (Griffin) Adair, to whom were born the following family: Theodosia, Sally, Alfred, Ursula, Anna, Elizabeth and Micah. At the age of 10 years, our subject, with his parents, removed to Genesee Co., N. Y., where they remained until 1824, when Alfred, who was then 17 years of age, went to Canada, where he remained but one year, at the end of which time his father died, and he returned home to his widowed mother and took charge of the homestead, clearing it of a heavy debt then hanging over it. In December, 1835, he married Martha P. Chamberlain, daughter of Moses Chamberlain, and by her had eight children, viz., James L., who was born Sept. 24, 1837, and died July 11, 1842; Joseph L., born Nov. 28,

1839; Alfred A., born March 25, 1841; Martha A., born April 19, 1843; Emily, who was born July 27, 1845, and died Aug. 24, 1848; Martha, who was born July 31, 1847, and died Jan. 24, 1881, and Newman and Newell, twins, born July 15, 1850. In 1840, Mr. Adair, family, and mother, came to Copley Township, Summit Co., Ohio, where the mother died, in January, 1855, and the wife, Jan. 29, 1880. These two had been married about forty-five years, and during that time were always kind and considerate toward each other, and her death leaves an aching void in his heart, as in those of her relatives and friends. They took great pride in educating their two sons, J. L. and A. A., who valiantly served their country in its time of need, enlisting in the spring of 1862 in Co. A, 4th O. V. I., and serving faithfully until the close of the war in 1865. Mr. Adair is an old and much respected resident of Copley. He is a Republican, and is one of the township's ablest citizens.

DELOS BOSWORTH, farming; P. O. Copley Center; was born in Copley Township, Summit Co., Ohio, Jan. 11, 1818. He is a son of Allen and Hannah (Harrington) Bosworth, who were parents of the following family: Polly, Sally, Delos, Norton, Norman and Leonard. Allen Bosworth was a native of Rhode Island, while his wife was born in Vermont. In 1815, Mr. and Mrs. Bosworth came to Summit Co., Ohio (then Medina Co.), from Otsego Co., N. Y., locating at first in Tallmadge Township, but the following year moved to Northampton Township. In 1817, they moved to Copley Township, locating on Lot 22. This was the first settlement in Copley Township. At the time of his settlement in Copley, Mr. Bosworth's total possessions in money amounted to only \$1.50, and this he gave for the erection of his log cabin. He purchased 150 acres of land on credit, and then started out in the battle of life. Delos remained with his parents on the farm until he was 24 years of age, and March 16, 1841, married Christina Wagoner, and to this union were born three children—Millard, born Feb. 16, 1845; Norman, born Feb. 28, 1847, died Dec. 29, 1861,

and Eleonora, born June 26, 1849. Mrs. Bosworth died Sept. 3, 1855, and on the 8th of April, 1858, Mr. Bosworth married Abbey W. Whinery, and by her had one son—John C., born Dec. 27, 1860. Soon after Mr. Bosworth's first marriage, his father died, and Delos took charge of the family, and moved to the north-eastern part of the township, on Lot 14. He now owns 130 acres of fine farming and grazing land, which he has made by his own labors. His son Millard, in August, 1862, enlisted in Co. H, 42d O. V. I., and served gallantly through a number of battles, and during his service, lost his health, which he has never regained. Mr. Bosworth is a Republican in politics, and he and wife are members of the Universalist Church.

TRUMAN BOUGHTON, farmer; P. O. Copley Center; was born in Ontario Co., N. Y., Aug. 22, 1814. He was the fifth child in a family of six children born to John and Sally (Roat) Boughton, and their names, respectively, are Noble, H. W., S. L., Mary, Truman and Nathaniel. When in his 4th year, Truman's mother died, and soon afterward his father married Polly Stimpson, and by her had the following family: John, George, William, Morris, Sophia, Elmer and Levi. In 1833, this family came to Bath Township, Summit Co., Ohio, where they lived until the father's death, which occurred in 1848. His widow afterward removed to Michigan, where she has since died. Truman lived with his father until he reached his majority, and then began for himself. In April, 1833, he was united in marriage with Flora Davis, daughter of William and Avis (Hopkins) Davis, and to this union were born five children, as follows: B. Franklin, E. D., H. G., Olive I. and M. H. Soon after his marriage, Mr. Boughton settled on Lot No. 27, about a mile east of Copley Center, and has resided there ever since. His family are all married, and are all living in Summit Co. B. F., the eldest son, enlisted in August, 1861, in Co. A, 2d O. V. C., and served all through the war in the same company, and was finally discharged in September, 1865. Mr. B. started in life with nothing but a stout heart and willing hands, and by the hardest labor has acquired a nice home and fortune. In politics he is a Republican, and is an energetic and enterprising gentleman.

BYRON CHAPMAN, M. D., Copley Center; was born in the State of New York Jan. 8,

1822. He is a son of A. and P. (Lane) Chapman, who were parents of this family: Orson, Sally, Lovina, Melissa, Orlin, Lucius, Cynthia, William, Harlow, Loretta, Almeron, Byron and Lucinda. In the fall of 1835, this family came to Copley Township, and settled one-half mile south of Copley Center, on 154 acres, of Lot No. 28. Byron remained here with his parents until 22 years of age, receiving a good common-school education. At that time, he commenced the study of medicine with his brother William, who was a practicing physician at Copley Center. He attended medical lectures at Cleveland for two years, and graduated in March, 1847. At the time of his graduation, his brother William, the doctor, was taken ill and soon died. Byron took charge of his brother's practice immediately, and meeting with excellent success he has remained there ever since. Dec. 23, 1847, he was united in marriage with Matilda A. Dils, daughter of Abram Dils, and by her has two children—Willis D., born Oct. 3, 1848, and Fanny P., who is now the wife of Albert E. Hiestand. Willis married Ella A. Marriner; he is a civil engineer in Leadville, Colo. Mrs. Chapman is in very poor health. Mr. Chapman is a Republican in politics, and does quite an extensive business in his profession.

WILLIAM CASKEY, farmer; P. O. Copley Center; was born in Wayne Co., Ohio, Oct. 13, 1832. He is a son of Benjamin and Margaret Caskey, and is one in the following family, all of whom are living: Margaret, Nancy, Andrew, John, James, Jane, Finley, William, Mary, Benjamin and Drusilla. The father of these came from Ireland when very small. He was a soldier in the war of 1812, and in 1853, came to Bath Township, and from there to Copley in 1858. The father died from a stroke of palsy in February 1867. The mother is yet living in Copley at an advanced age. When about 21 years of age, William left his parents and went to Iowa, where he made his home seven years. During his stay there he married Louisa Dodt, and by her had two children—Angeline, who died in infancy, and Eldora, born Jan. 16, 1862. Mr. Caskey served three years in the late war in Co. B, 22d Iowa V. I., and while in the service his wife died. At the close of the war he returned to Copley Township, and Dec. 25, 1868, married Caroline Fenner, by whom he has one son—Arthur F., born

March 14, 1871. Mr. Caskey's farm is situated on Lot No. 35, Copley Township, Summit Co., Ohio.

S. DALES, farmer; P. O. Montrose; was born in Cartright Township, Delaware Co., N. Y., March 25, 1802. He is one in the following family, born to William and Susanna (Hunt) Dales, viz., Stephen, William, Peter, Samuel, James and Hannah, of whom but Stephen and James are living. In 1812, this family came to the neighborhood of Cuyahoga Falls, near which place the father rented a farm for his family, and then enlisted as teamster in the war of that year. Since their arrival in Summit County, the Dales have resided there. The father died an honored and respected citizen at the advanced age of 76. The date of the mother's death is Jan. 20, 1841. In December, 1826, Stephen was married to Miss Marcia Richardson, daughter of Elkanah Richardson, and to this union was born a family of seven children as follows: Olive, Alvira, Mary (deceased), George (deceased), George S., William and Angeline. After his marriage Mr. Dales removed to Bath Township where he and family remained two years, at the expiration of which time they moved to Copley Township, locating on Lot No. 4, where they have since made their home. For them life was filled with the privations and hard labor common to pioneers. The wife and mother died May 26, 1865, and for his second and present wife Mr. Dales married Mary Viall, widow of Sullivan Viall and daughter of George Freely. Mr. Dales has a fine home and property, which he and his family have earned by hard and honest labor.

HENRY FRANCISCO (deceased); he was born near Morristown, N. J., May 20, 1802; he was a son of John and Jane (Pier) Francisco, and they were the parents of the following family: Maria, David, Anna, Betsey, John, Henry, Caroline, Samuel and Barney. Our subject remained with his parents on the farm until he arrived at manhood. In July, 1823, he married Lovina Chapman, and by her had a family of nine children—Paulina, Mary A., Catharine, Maria, William J., A. C., John H., Charles E. and Ellen J. He remained in New York until 1830, and then went to Chautauqua Co., same State, and kept a hotel there for two years; in 1835, he came to the north part of Copley Township, Summit Co., Ohio,

and after a short time, moved to the southwestern part. At the time of his death, which occurred March 27, 1869, he was living on Lot 38, one mile south of the Center. He came to Copley with scarcely anything, but by hard labor left to his heirs over a hundred acres of good land. His sons William and John served faithfully in the late war in the defense of their country.

DAVID FRANK; Copley Center; was born in Wayne Co., Ohio, Nov. 14, 1828, and is a son of Peter and Nancy (Ball) Frank; his father was of German and his mother of English descent; he is one in a family of eight children. When our subject was 3 years old, his parents removed to Stark Co., Ohio, where they remained seven years, and, at the end of that time, came to Copley Township, Summit Co., Ohio, where he remained, and where his parents afterward both died; David received a good common-school education, and, on Oct. 15, 1857, was married to Melissa Witner, daughter of Daniel and Susan Witner, and by her had four children—Jennie, born Feb. 12, 1860; Grant H., born March 16, 1864; Zedellia Z., born Feb. 6, 1869; and F. F., born Dec. 10, 1871. At the time of his marriage, Mr. Frank located on a farm one mile west of Copley Center, and he has remained there ever since; he and his estimable wife have labored hard, and now, by their hard labor and self-denial, have a nice farm of 85 acres of excellent land. Mrs. Frank was born Feb. 3, 1838. Mr. Frank is a Republican in politics, and he and wife are members of the Reformed Church, of Copley Center.

SAMUEL FREDERICK, farmer; P. O. Copley Center; was born in Wayne Co., Ohio, Feb. 27, 1831. He is a son of Jacob and Margaret (Razor) Frederick, who were parents of the following family: Samuel, Thomas, Henry, Eli, Benjamin F., William and Christopher C. In 1840, the subject of this sketch and his parents moved to Copley Township. At the age of 19, Samuel commenced learning the shoemaking trade in Wadsworth; he has since followed the business seven years in Copley. Nov. 7, 1850, he married Sarah Fryman, daughter of Daniel Fryman, and by her had a family of eight children—Susan, Benjamin F., John H., Jacob, Eliza J., Ella E., Daniel and George B. Since his marriage, Mr. Frederick has lived in different parts of Copley. His present place

is situated on part of Lots Nos. 27 and 34, one mile east of the Center. To some extent since his marriage, Mr. Frederick has also followed the cooper's trade. For sixteen seasons, Mr. Frederick has followed threshing, but his present occupation is farming. He and wife are excellent citizens, and both are members of the Lutheran Church.

C. C. FREDERICK, school-teacher and farmer; P. O. Copley Center; is a native of the township in which he resides, and was born Oct. 24, 1844. He is a son of Jacob and Margaret (Razor) Frederick, who were parents of seven sons, of whom all but our subject were born in Chippewa Township, Wayne Co., Ohio. At the age of 20, our subject began on his own responsibility, by farming summers and teaching winters, and this business he has followed up to the present time. His marriage with Miss Ella M. Taylor was solemnized Nov. 11, 1869. Mrs. Frederick is a daughter of Theodore and Matilda (Hoyt) Taylor, and was born March 26, 1853. To her union with Mr. Frederick there were born five children—Homer, born June 30, 1870, died May 23, 1876; Herman E., born Jan. 12, 1872; Alena Bell, born March 5, 1874, died May 12, 1876; Aleta M., born Nov. 14, 1876; and Ernest L., born Aug. 24, 1879. Homer and Alena Bell were attacked with scarlet fever, and, after a short illness, were carried away from their home on earth to a happier one above. After his marriage, Mr. Frederick worked his father's farm for three years, and then moved to Copley Center, and taught school eighteen months. He then purchased and settled on the farm he now lives upon, which is located on Lot No. 24. Mr. Frederick has held different township offices. In politics, he is a radical Republican, and a member of the Lutheran Church of Norton.

A. C. FRANCISCO, Copley Center; was born in the State of New York Aug. 12, 1836. He is a son of Henry and Lovina (Chapman) Francisco, who were the parents of nine children. When our subject was but a year old his parents came from New York to Summit Co., Ohio, locating in Copley Township, where our subject has lived up to the present time; he remained with his parents on the farm until he reached his 20th year, and he then commenced farming for himself. In September, 1860, he married Imogene Scudder, daughter of Walter and Catharine Scudder, and by her

had the following family: Carrie, Hattie, Arthur, Olive and Charles. In August, 1862, our subject enlisted in Co. H 104th O. V. I., and was discharged for disabilities in June, 1863. Mr. Francisco has never since regained his health; he has, with the exception of one or two years, always lived in Copley Township; he is a Republican in politics and a good and enterprising citizen.

ANSEL S. GARDNER (deceased), was a native of Cuyahoga Co., Ohio, his birth occurring July 1, 1839. His parents were Warren and Caroline (Perry) Gardner, of Germanic descent, both being natives of the Empire State, and both coming to Ohio when the country was yet a wilderness, filled with various species of wild animals. He was one in a family of four children, and when 7 years of age his mother died, and his father married Harriet Avery, by whom he had one child. Ansel was reared on a farm, securing in the meantime a fair education from the common schools. After the age of 19, and previous to his marriage, he worked at farming during the summer months, and in the ship-yards at Cleveland during the winter months. On the 31st of December, 1861, his marriage with Miss Elisabeth Crosier was celebrated. Her parents were Paul and Barbara (Husong) Crosier, of Euclid Township, Cuyahoga Co., Ohio. To Mr. and Mrs. Gardner were born four children, as follows: Alice, born Sept. 14, 1863, died Sept. 21, 1864; Alfred E., Oct. 20, 1865; Hattie, April 4, 1868, died Dec. 9, 1870; Franklin J., Dec. 31, 1873. Mrs. Gardner's birth occurred March 9, 1840. Mr. and Mrs. Gardner remained at Cleveland until the 28th of May, 1861, when they moved to Grand Traverse, Mich, settling on a tract of land devoid of clearing and with no neighbor nearer than a mile, and with a vast forest of pine stretching away for miles in all directions. Reservations of Indians were near, and many wild, fierce animals lurked in the heavy pine forests. Here they remained five years, during which time Mr. Gardner and three other men from Traverse City went by canoe down the bay to Northport, thirty miles distant, where they organized Leelenaw County. In July, 1866, Mr. Gardner and family returned to Ohio, making their home first in Portage Township, Summit Co. In December, 1872, they removed to Copley Center, where the family has since resided. Mr. Gardner worked industriously at

his trade—carpenter and joiner—until February, 1880, when he was taken down with a severe attack of rheumatism; at the end of two weeks he seemed to rally, but soon afterward was taken with ague, from which he never fully recovered. Spinal troubles increased his affliction, until at last he died on the 1st of April, 1880. He was a kind father, a loving husband and an exemplary citizen; no unkind word was ever spoken to his family by him, and his death was mourned bitterly by his devoted wife and children. He was laid to rest in the village cemetery, and over his lonely grave the sweet flowers of loving remembrance are strewed, and tears of affection fall upon the silent earth. The neighborhood mourned his untimely death, and revere his name as among their most honored dead. Thus dear friends are returned to dust, but their names become living jewels in the bright casket of memory.

JOHN GOULDIN, farmer and merchant; Copley Center; was born in New Lisbon, Columbiana Co., Ohio, Sept. 30, 1815. He is a son of John and Esther (Chandler) Gouldin. When John was 9 years old, his father moved near Cleveland, engaging in agricultural pursuits. John remained with his father until his marriage with Miss Betsey Hendershot, which event occurred May 3, 1835. To this union was born the following family: Charles F., born March 1, 1848, died Oct. 1, 1855; Mariam, born May 20, 1840; Albert, born Aug. 30, 1842; Lucy E., born May 3, 1849, and Bina, born Oct. 24, 1852. After his marriage, Mr. Gouldin had charge of a saw-mill for four years, and in the fall of 1839, purchased a piece of land in Copley Township, Summit Co., Ohio, and has retained the ownership of that land ever since. In 1873, he commenced in the agricultural implement business in Akron, and his work there met with excellent success. In 1876, he took in two partners, and the firm name then became Kramer, May & Gouldin, and this remained unchanged until 1878, when the partnership was dissolved, Messrs Kramer and May retiring. Mr. Gouldin still carries on the business at No. 114 North Howard street. Politically, Mr. Gouldin is a staunch Republican. He divides his residence between his home and business in Akron, and his country seat in Copley Township.

V. G. HARRIS, farmer; P. O. Copley Center; was born in Wayne Co., Ohio, Feb. 7, 1826;

is one in the following family born to Aaron and Eleanor (White) Harris; Francis M., Elizabeth M., Hamilton, Vincent G., William W., Cordelia, Ellen and Caroline. The subject of this biography remained with his parents until he was 23 years of age. In September, 1849, he was united in marriage with Martha Long, daughter of Jacob Long, and to this union was born a family of nine children, as follows: Rebecca B., born June 20, 1850; Mary, Sept. 28, 1851; Joseph J., Feb. 18, 1853; John, Feb. 15, 1855, died in infancy; Elizabeth, born Feb. 10, 1856; Eliza, May 28, 1857; Charles F., June 12, 1859; Sarah, Dec. 26, 1852, and Andrew J., Feb. 24, 1865. Mr. Harris started in life with little to depend on but his own exertions. He came to Copley Township in 1850, purchasing 50 acres of land. He advanced on his farm first \$450, with a balance of \$750 to pay. Since that time he has added by degrees, until he now owns a fine farm of 200 acres of well-improved land, besides other property. Mr. Harris is one of the leading men of his township, and is well respected by all his acquaintances.

JAMES HAMMOND, retired farmer; P. O. Copley Center; is a native of Yorkshire, England, and was born April 6, 1811; he is a son of Thomas and Ann (Barton) Hammond, who were parents of the following family: Mary, George, Joseph, John, Edward, Elizabeth, James, Thomas and Charles; James remained in England, working at different employments, until 1848, when he arrived in New York June 20. He was married June 30, 1838, to Elizabeth, daughter of James and Nancy Spensley, and by her had the following family: Anna, born April 1, 1839; Spensley, born April 10, 1841; George, born Oct. 18, 1843; James E., born Aug. 20, 1846, born in England; and William A., born July 4, 1849; Lizzie, born Dec. 5, 1854; Joseph E., born March 14, 1851, died in infancy; Frank P., born April 15, 1857; Charles, born Sept. 27, 1860; and Alice D., born Feb. 21, 1864, born in America. At the time of his arrival, Mr. Hammond had \$26; he and family came to Medina Co., where they remained one year, and from there went to Akron; on his arrival in Copley Township, Summit Co., Ohio, he purchased a small farm that is now owned by William Wagoner, and remained there five years; he then purchased a larger farm in the southern part of the township, and has by degrees made himself inde-

pendent; he started in the United States with scarcely anything, but by degrees, economy and close attention to business, he has purchased and paid for a fine farm of 332 acres. In the politics of this township Mr. Hammond has figured quite prominently, having identified himself with the Republican party. He is one of Copley's best and most respected citizens, and in the hearts of his fellow-townsmen has a warm place.

LEVI D. HOLLINGER, farmer; P. O. Akron; was born April 6, 1846, in Franklin Township; he is a son of Jacob and Barbara (Daily) Hollinger, who were parents of the following: Joseph, Michael, David, Jacob, Levi D., Amanda, Harriet, and Josiah and Uriah (twins); the mother of these children died in 1860, and Mr. Hollinger married his second wife, Mary Underholt, and by her had two children—Warren and Minnie. Levi remained with his parents until during the war, when, being a lad of only 17, he enlisted in the cause of his country in Co. E, 13th O. V. I., and was afterward transferred to Co. D; he participated in some of the most noted engagements of the war, among them being Stone River, Chickamauga, Mission Bidge, Buzzard's Roost, Resaca, Peach Tree Creek, Atlanta, Franklin, Nashville, Kencsaw Mountain and many others; Mr. Hollinger was one of the few who escaped drowning from the sinking of the steamer Matagorda, below Memphis. He was married in February, 1868, to Minerva Wylie, daughter of John Wylie, whose biography appears in this work; to this union were born two children—Myrven J., born Oct. 23, 1868, and Dwight, born July 5, 1876. Mrs. Hollinger was born Feb. 8, 1843. Soon after their marriage, Mr. and Mrs. Hollinger moved to Benton Co., Iowa, where they remained farming for six years; at the end of that time they returned to Franklin Township, Summit Co., Ohio, where they lived until about 1878, when they came to Copley Township, where he has since resided.

SAMUEL HENKEY, farmer; Copley Center; was born in Lancaster Co., Penn., in October, 1828. He is a son of Louis and Catharine (Less) Henkey, who were parents of seven children; when our subject was but an infant his parents moved from his native State to Stark Co., Ohio. Our subject received a common-school education in youth, and he remained with his parents until he became a man. In

October, 1849, he married Mary Witmer, daughter of Jacob and Elizabeth (Gougler) Witmer, who was born Aug. 21, 1827. To this union were born five children—David, born Oct. 8, 1850; Mary E., born Feb. 4, 1854; Catharine, Nov. 14, 1863; John H., May 24, 1855, and Elizabeth, born July 14, 1858. In 1851, Samuel, together with his parents, moved from Stark Co., to Wayne Co., Ohio, and, after four year's stay there, moved to Summit Co., Ohio. They lived in the latter county in different localities, until about 1860, when they came to Copley Township, Summit Co., Ohio, where our subject and family have ever since resided. Mr. Henkey is a Republican in politics, and he and wife are members of the Evangelical Association of Bath Township.

G. W. HAWKINS, farmer; P. O. Copley Center; in 1814, Copley Township received its first settlers, and among them were the parents of the subject of this sketch. Much of their early experiences in the woods of Copley will be found in the history of this township in another part of this volume. G. W. Hawkins was the first white child born in the township, that date being Dec. 29, 1815. At the age of 10 years Mr. Hawkin's father died of fever, and at the age of 14, took charge of the old homestead, 100 acres, and remained in charge until 1834, when his mother married again, and his step-father bought out the heirs. In January, 1840, he was united in marriage with Miss Matilda Hubbard, daughter of Reuben Hubbard, and to this union there were born five children—Adelia, died in infancy; Eliza, born June 4, 1845, died Nov. 18, 1871; Alice C., born Sept. 14, 1847; George W., born Sept. 2, 1851, died Nov. 13, 1876; Eugene R., born June 28, 1854. Five years after his marriage, Mr. Hawkins moved on to the eastern part of Lot 1, where he has ever since resided. Mrs. Hawkins is a member of the Methodist Episcopal Church, while Mr. Hawkins is a Democrat in politics. This family are among the leading ones of Copley Township.

WILLIAM JOHNSTON, farmer; P. O. Akron; was born in Green Township, Summit Co., Ohio, Aug. 3, 1815, and his birth was the second or third in the township. Mr. Johnston is a son of Cornelius and Elizabeth (Willhelm) Johnston, who were parents of the following family: Mary, Alexander, Abram (deceased),

John (deceased), William, Cornelius, Nancy and Eliza. The father was born Feb. 17, 1782, in New Jersey. When a young man he moved to Center Co., Penn., where he remained until he came to Ohio. He died in June, 1871, at the advanced age of 89. Of the children, Alexander still resides in Green Township. He was the first Recorder of Summit Co., and afterward served as member of the Legislature. John was also a member of the State Legislature, serving at one time in the very distinguished position of Speaker of the House. Cornelius is a retired merchant of Akron. Nancy is the wife of Hon. N. W. Goodhue. William, the subject of this sketch, has held various township offices, and at one time was Director of the County Infirmary. This family came to Green Township from Center Co., Penn., in 1814. The first few years after their arrival they had difficulty in earning the wherewithal to supply their wants. The children received the most of their education by the light of the hickory bark blazing in the great fireplace. William Johnston remained with his parents until he was 29 years of age. He married Elizabeth G. Moore, daughter of John Moore, April 22, 1841, and by her had two sons—Cornelius A., born July 16, 1842, and John M., born Aug. 13, 1844, the former of whom married Sarah Swartz. John married Miss A. Dales, who bore him two children, viz., Jessie and Marcia. In April, 1844, Mr. Johnston came to Copley Township, locating on Lot 15, where he has ever since resided. He is a Republican in politics, and has been a subscriber for and read the New York *Tribune* for forty years.

CHARLES C. MILLER, farming and gardening; P. O. Akron; was born in Akron, Ohio, Dec. 11, 1832. He is the eldest child born to Ansel and Lucy A. (Hawkins) Miller, who were parents of two sons—Charles C. and James N. Mr. Miller, the father, was a native of Bridgewater, Vt. When a young man, he left home and went to Boston, Mass., where he worked at his trade, carpenter and joiner. While here, he assisted in building the Quincy Market House, on which he worked, scarcely missing a day, for 466 days. From Boston, Mr. Miller went to Rochester, N. Y., living there one year. In 1828, he started West on a "prospecting" tour, and coming to Akron, he was so well pleased with the then village and

surroundings, that he returned to Rochester, and the next year, 1829, came to Akron for the purpose of making that his permanent home. Nov. 22, 1831, he married the mother of Charles C. and James N. From the time of his arrival in Akron, until 1840, Mr. Miller steadily followed his trade. About this time, he purchased an interest in a boat-yard there, and engaged in the manufacturing of boats. During the winter of 1859–60, he sold out, and then went to live with his son Charles, with whom he resided until his death, Dec. 16, 1879, aged over 81 years. Charles C. Miller was reared and educated in Akron principally. He was married in August, 1860, to Mary A. Philbrick, daughter of Daniel Philbrick, of Michigan, and by her had a family of five children, as follows: Frank E. (deceased), Lottie A., Ansel P., Lute H. and Carl E. Mrs. Miller was born in Cattaraugus Co., N. Y., Jan. 12, 1843. Immediately after their marriage, Mr. and Mrs. Miller came to their present place of residence, in Copley, where they have since resided. Mr. Miller is a Republican in politics, and an intelligent gentleman.

WILLIAM MARTENES, farmer; P. O. Akron; was born in Harmony, Butler Co., Penn., Dec. 25, 1844. He is a son of Cornelius and Mary (Flowers) Martenes, and they were parents of the following family: Abraham, dead; Maria, William, Sarah, dead; Angeline, Austin, Rosa A., dead; and Nancy A. In 1865, this family came to Copley Township, Summit Co., Ohio, where the parents remained until their respective deaths. Our subject was married in June, 1868, to Eliza Squires, and by her had one child, Charles G., who was born in March, 1869. Mrs. Martenes died Nov. 29, 1875. Dec. 31, 1876, Mr. Martenes married Jennie Squires, a niece of his former wife's and a daughter of Chester Squires. Mr. Martenes has always been a farmer, and as such is among the best in his locality. He is a Republican in politics, and he and wife belong to the Church of God.

CHESTER ORCUTT, Copley Center; is a native of Copley Township, and was born March 8, 1839. He is a son of Chester and Jerusha (Chamberlin) Orcutt, who were parents of two children—Chester and Elmira. These children are half-brother and sister to Parnel, Olive, Elizabeth and George Orcutt. Our subject was raised on the farm by his parents. In

December, 1871, he made a visit to California, and was gone three months, the longest he was ever away from Copley Township. May 5, 1876, he was united in marriage with Melissa Simmons, daughter of Dr. and Margaret Simmons, and by her had one child, Elmira E., born Feb. 11, 1877. His wife died Dec. 25, 1878, and at the time of her death was a member of the Disciples' Church.

G. H. RITCHIE ; P. O. Akron ; was born in Portage Township, Summit Co., Ohio, Oct. 21, 1851. He is a son of Melchiah and Margaret (Squires) Ritchie who were parents of the following family : George H., Sarah, Henry (dead), Hiram, Robert, Jennie, Leonard, Melchiah and William. In 1852, this family moved into Copley Township and this has always been our subject's home. George H. remained with his parents in youth, receiving a good education. In November, 1872, he married Mary A. Klingaman, only child of Jacob and Hannah Klingaman who was born Feb. 2, 1855. To this union one daughter— Lettie May, born June 13, 1873. After his marriage, Mr. Ritchie located on a farm of 65 acres, two miles east of the center on Lots 35 and 26, and this has since been his home. In 1875, Mr. Ritchie experienced religion, and he joined the religious sect known as the Church of God. In 1878, he commenced exhorting and preaching, and has since that time been assistant circuit minister of the circuit in which he resides. His whole family belong to this church.

SAMUEL ROTHROCK, (deceased), was a native of Philadelphia, Penn., and was born Oct. 20, 1820. He was one in a family of eight children, of whom Samuel and Rebecca (Eshbaugh) Rothrock were the parents. In 1834, Samuel, together with his parents, came to Stark Co., Ohio, and here he resided until 1846. On the 25th of December, 1845, he was united in marriage with Catharine, daughter of Christian Stauffer ; and to this union were born the following family : Samuel, Christian, David, Amos, Levi, Susan, Mary, Maggie, Anna and Jacob. These children are all living and all reside in Summit County. After his marriage, Mr. Rothrock commenced farming, and such was his occupation through life. In the spring of 1853, he and family came to Copley Township, Summit Co., Ohio, and settled on Lot No. 12. In 1871, he commenced suffering with

dropsy, and after about six months' intense suffering, his death occurred. That event was Dec. 29, 1871. He and wife were members of church, and Mr. Rothrock was a most estimable citizen.

WILLIAM C. SACKETT, farmer ; P. O. Akron ; born in Litchfield Co., Conn., Oct. 29, 1827, the son of Aaron and Huldah C. (Tanner) Sackett ; Aaron was born Jan. 7, 1791, and Huldah Aug. 10, 1793 ; they were married May 15, 1816, and the parents of ten children as follows : Theodosia, now Mrs. Seth B. Hall, of Huston, Texas ; Harriet, now Mrs. W. A. Hanford, of Cuyahoga Falls ; George, now of Cuyahoga Falls ; Sarah, died, aged 14 ; Emeline, died in 1867, aged 42 ; William C., of Copley ; Seth, now of Colorado ; Maria C., now Mrs. Cornelius Kellogg, of Freedom, Portage Co. ; Frances A., married Bruce Baldwin and moved to Missouri, where she died ; Sarah M., now Mrs. H. C. Grant, of Cuyahoga Falls. Aaron was always a farmer ; he died at the residence of his son William, June 8, 1872. The father of Huldah C. Tanner served in the Revolutionary war, and his widow drew a pension for many years previous to her death ; Huldah was a member of the Congregational Church at Tallmadge ; she died April 24, 1855. When the subject of this sketch was about 10 years of age, his parents removed to Ohio and settled in Tallmadge Township ; William was educated mostly in the schools of Tallmadge ; he attended the High School of Akron during the winter of 1848-49, when M. D. Leggett, formerly U. S. Commissioner of Patents, was Principal ; then farmed land on Chuckery Plains north of Akron for about two summers. In the fall of 1851, he left Summit County for California and Oregon, where he remained four years. During most of this time he was engaged in mining, at first near Shasta City, which was then at the head of wagon navigation, and then for about one year in the neighborhood of Jacksonville, Oregon, situated at the head of Rogue River Valley. Mr. Sackett returned to Ohio in the summer of 1855, and in the fall purchased from George Sackett, his brother, the farm upon which he now resides ; the land was then known as the Isaac C. Isbel property, and familiar to most people as the "Copley Swamp." Mr. Sackett was married in the year 1857, to Miss Hatty L., daughter of Henry Galbraith, of Akron ; he is the father of four children—Clarence, died, aged 18 ; Hattie,

died, aged 6 ; Ina, died, aged 4 ; William A., his only living child, is now a student of the Akron High Schools ; he was born in March, 1866.

J. W. SWIGART, farmer ; P. O. Copley Center ; was born in Lawrence Township, Stark Co., Ohio, Oct. 16, 1836. He is the son of Jacob and Abigail Swigart, who were parents of four children—John W., George S., Alfred J. and Maggie C. In 1847, the Swigart family moved to Summit Co., Bath Township, and the family home has been there ever since. John W. lived with his parents until he was 21 years of age, and, June 10, 1858, he was united in marriage with Sarah J. Stump, who was born Aug. 24, 1837. To this union there were born seven children—Alfred, born April 10, 1859 ; Charles E., Dec. 10, 1861 ; Clara J., Oct. 7, 1864 ; Mary E., June 13, 1867 ; William W., Oct. 4, 1870 ; John C., Oct. 15, 1873, and Stella M., Aug. 23, 1879. When Mr. Swigart arrived at his majority, he purchased a farm in Bath Township, where he remained six years, farming during the summer and teaching school during the winter. In the spring of 1864, he came to Copley Township, and has remained in different localities ever since. Mr. Swigart is a Democrat in politics, and an earnest advocate of the advancement of education. He and wife are members of the Reformed Church at Copley Center.

CHARLES TAYLOR, farmer ; P. O. Copley Center ; was born in Copley Township, Summit Co., Ohio, Feb. 27, 1834. He is a son of Theodore and Matilda (Hoyt) Taylor, who were parents of thirteen children, of whom the following only are living: Daniel, Charles, Ophelia, Joseph and Ellen. The father, Theodore, was born in Connecticut, in 1801. In 1818, in company with his parents, he came to Norton Township, and two years after their arrival his father died. In 1827, he was married to Miss Hoyt, and soon after this event moved to Copley, where they remained until their respective deaths. The father died Aug. 11, 1862, and the mother Dec. 23, 1880. Charles Taylor remained with his parents, assisting them on the farm, until 20 years of age. In October, 1855, he was united in marriage with Sophronia Cook, daughter of Edmund Cook, after which he removed to St. Joseph Co., Mich. He remained here about a year and then returned to Copley, where he has ever since made his home. To

Mr. Taylor's union there was born the following family : Charles M., Emma, Lewis C., Fietta and Mary. He has a nice home, on part of Lots 27 and 34. He is an intelligent gentleman, and a Republican in politics.

PETER WEEKS (deceased), was born in Gilmanton, N. H., Jan. 29, 1793. He was one in the following family born to John and Hannah (Moody) Weeks—Levitt, Peter, Abigail, Dorothea, Moody, Celestia, Matthias and Mary, the youngest being the only surviving member of the family. Peter remained with his parents at the place of his birth until about the age of 25, and then, in company with Abel Bennett, moved westward, locating in Wadsworth, Medina Co., Ohio. They were among the earliest settlers of that neighborhood, and coming as they did, with their knowledge of the carpenter and joiner business, they proved a valuable addition to the settlement. Two years after his arrival in Wadsworth, Mr. Weeks' two brothers, Levitt and Moody, arrived, and the three brothers then formed a partnership in the carpentering business, the firm taking the name of Weeks Bros., and this firm erected nearly all the buildings of Wadsworth prior to 1832. In November, 1821, Peter Weeks and Alathia Taylor were united in marriage. This lady died, and his second wife was Catharine Francisco, daughter of Henry Francisco, and by her had three children, as follows—Alathia, born Nov. 1, 1863, died in infancy ; Martha L., June 1, 1866, died June 16, 1878, and Charles P., born Sept. 1, 1870. Besides his own family, Mr. Weeks reared three of Levitt's children, who were left motherless when quite small, and two of Moody's children, who were left orphans in childhood. Mr. Weeks came to Copley Township in 1832, locating on Lot No. 23. He was a hard-working, industrious man. He was kind and sympathetic in his family duties, and always gentlemanly and courteous in his intercourse with neighbors. He early in life identified himself with the Disciples' Church, and, in his religious duties, was always prompt. He came to Ohio with no property, but by honest and upright dealings left 500 acres of excellent land at his death. In 1872, he commenced suffering with heart disease, which finally terminated in his death Nov. 2, 1873. On his 80th birthday, friends to the number of one hundred gathered in to celebrate the event, and, in his latter hours, Mr. Weeks recalled

this scene with a happy heart to think he had so many friends who were so much interested in his welfare. But thus it is, one by one the old landmarks are fast fading away, but the hope of the present generation is to record the events of these old pioneers that in years to come their names and deeds will not be forgotten, but treasured up, and, in after years, prove an honor to their families.

WILLIAM WAGGONER, farmer; P. O. Copley Center; was born in Schoharie Co., N. Y. Nov. 13, 1829, and is one of the following family born to William and Catharine (Spahr) Waggoner: Andrew (dead), John (dead), Christina (dead), Anna, Almira, Peter (dead), and Amanda and Matilda, twins (dead). In 1835, our subject and parents came to Copley Township, Summit Co., Ohio, and their first settlement was on Pigeon Creek. They remained here in a log cabin one year and then removed to Lot 38, about a mile south of the Center. Mr. Waggoner has at different times served in the capacity of stone-mason, but at the time of his second removal in Copley Township, up to the time of his death, his chosen occupation was coopering. Our subject lived with his parents until he was 20 years of age, and then went to Akron and learned the bricklayer's trade, which he has followed to a considerable extent since during the summer seasons and teaching school during the winter. In April, 1857, he married Ann B. Stearn, and he and wife went to Iowa, where they remained seven years, he working at his trade. In 1864, they returned to Copley Township, where our subject has made his home ever since. Mrs. Waggoner died Nov. 15, 1863. In December, 1863, he enlisted his services in his country's behalf, and served until the close of the war, participating in the battles of Franklin, Nashville and many others. At the close of the war he went to Akron to work at his trade until he married Lydia A. Randolph. This event took place March 4, 1869. They then moved to Copley. Mr. Waggoner owns 96 acres of land; is a Republican in politics, and is highly esteemed by those who know him.

JOHN WYLIE, farmer; P. O. Akron; was born in Washington Co., Penn., Dec. 25, 1809, and is the only child of John and Sarah (Hewitt) Wylie. When 3 years of age, John's parents died and he then went to live in Stark Co., Ohio, with his uncle, Henry Everhard, who was

appointed his guardian. His uncle was the owner of a mill, and young Wylie was reared to the milling trade; he received a good common-school education, and when he became of age, commenced milling, which business he followed many years afterward. In September, 1833, he married Ruemma Gaff, daughter of James Gaff, and by her had six children—Amanda, died in infancy; Sarah J.; Elizabeth, died in childhood; Paul, dead; Theron G. and Minerva. After his marriage, Mr. Wylie carried on the milling business in Springfield and Coventry Townships, in Summit Co., Ohio, until 1855. He then discontinued milling and removed to Lot 16, in Copley Township, same county, and has made that his home ever since. His son Paul served with distinction in the late war as Color Bearer in Company H, 104th O. V. I. He served three years and was in a number of engagements. Mrs. Wylie died April 14, 1859; Mr. Wylie's second wife is Jane Ayers, widow of Orin H. Ayers, who had one son, Mervin, by Mr. Ayers. This son was one of the brave boys in the 6th Ohio Battery that gave such efficient service. He finally died of disease at Chattanooga Tenn. Mr. Wylie is a staunch Republican in his political views, and is an honorable, upright man in every respect.

GEORGE W. WISE (deceased). A native of Summit County, and a prominent and influential citizen of Wadsworth, Medina County, for many years; born in Green Township November 17, 1828, and died December 28, 1879. He moved to Medina County when a young man, and purchased a farm near Wadsworth; was also engaged in business at that place. He erected a number of buildings in the village, among which were the schoolhouse and Odd Fellows' Block. He served as Township Trustee, was chosen to other minor offices, and elected Commissioner of Medina County; was connected with various societies, among which were the Masons, Odd Fellows, Good Templars and Knights of Honor. In April, 1871, he moved to Michigan with his family, and located in Isabella Co., being one of the pioneer settlers of Wise Township, which was named in his honor. He served there as Justice of the Peace and Tax Collector; was engaged in the lumber business and kept a store. For about twenty years, he was a partner with E. G. Loomis, both at Wadsworth and in Michigan. Mr. Wise was married, June 1, 1861, to

Miss Electa M. Pettibone ; they were the parents of three children—George Grant, born Dec. 16, 1865 ; Nettie P., born Aug. 18, 1868, and William Dennison, born June 4, 1870. After Mr. Wise's death, the family returned to Summit Co., and now reside in Copley Township. Mrs. Wise is the daughter of Dennison and Jane (Barber) Pettibone. The Pettibones are of French descent, their ancestors having left France during the Revolution, and after staying in England a few years removed to America. Dennison was born Oct. 22, 1807, in Hartford, Conn.; the son of Norman and Amelia (Whitmore) Pettibone ; he was married Feb. 26, 1834, to Jane Barber, who was born Nov. 6, 1816. After residing in Norton Township over thirty years, Dennison died, Jan. 18, 1872, leaving four children—Pamela, now Mrs. Colbetzor, of Copley ; Electa M., now Mrs. G. W. Wise ; Phebe Ellen, now Mrs. Albert Beach, and Jared B., of Akron.

CHARLES F. ZIEGLER, miller, Copley Center ; sole owner and proprietor of Copley Mill. This gentleman was born in Germany in 1831. When but a small lad he came to the United States, which has since been his home. He was raised and educated in Philadelphia, and when a young man removed to New Jer-

sey, and in 1862 came to Ohio, locating in Wadsworth, Medina Co. In 1866, Mr. Ziegler purchased the Copley Mill, paying for the same \$3,300. The mill at this time was in a very poor condition. Mr. Ziegler immediately commenced renovating and improving the property, making additions as his means increased, placing in an almost new engine, until he now owns one of the best mills in western Summit Co. Under Mr. Ziegler's management, this mill turns out a brand of the best quality of flour, and the mill has quite an extensive run of custom grinding. Since coming to Copley, Mr. Ziegler has purchased, besides his mill property, a nice lot of land of 7 acres, on which he has erected a fine house at a cost of \$1,500. While living in Wadsworth he married Lovina Yoder, and this couple have one son, Charles, who lives with his parents. Mr. Ziegler started in life a poor boy. At about the age of 14 he commenced learning his trade, which he has ever since followed, giving him an experience that entitles him to the name of being one of the best millers in this county. By industry and economy he has arisen from poverty to one of ease and comfort. He is an intelligent and enterprising citizen.

TWINSBURG TOWNSHIP.

ETHAN ALLING, deceased, whose portrait appears in this work, was born in North Milford, Conn., Aug. 13, 1800, and was a son of Lewis and Elizabeth (Clark) Alling. His education was received by a limited attendance at the schools of his neighborhood. In 1814, he entered the grocery store of Loomis & Johnson, in New Haven, where he remained two years, when the firm failed. In March, 1817, he came to Ohio with three hired men for the purpose of improving some land his father had bought in Twinsburg Township, and in Tract 3. They at once commenced preparations for building, Mr. Alling thus becoming the first actual white settler in the town. In July, his father and mother arrived and became settlers. They both died in September, 1823. The subject was married, April 24, 1824, to Miss Eliza Blackman, of

Bridgeport, Conn., who is yet living, and is now (1881) in her 80th year. Mr. Alling opened a tavern in Twinsburg in December, 1826, a business he continued for a number of years. He was appointed Postmaster in October, 1827, and, in 1831, he commenced the mercantile business, and, in 1835, built a storehouse, in which he long did a good business, and was finally succeeded by his two eldest sons, Francis and Hoadly, who carried on the business until their death. Mr. Alling retired from business, and, during the latter years of his life, lived upon the old homestead; he died April 22, 1867. He was an active and energetic business man, liberal in his support of churches and charitable objects, and in public enterprises a leader. By his marriage there were five children, but one of whom is now living, viz., E. L. Mrs. Alling

has lived on the old homestead since her husband's death.

MRS. SARAH C. BENNETT, farming; P. O. Twinsburg; was born in Orange Township, Cuyahoga Co., May 14, 1838, to Almon and Henrietta (Squires) Smith, natives of Connecticut, to whom were also born Almon S., Asher V., Susan H., Orange V., Orville and Lyman. Henrietta was a daughter of Morehouse, whose wife was a Mead. Henrietta came to Mahoning Co. about the year 1820, and moved to Orange, Cuyahoga Co., in 1822; her husband died in Orange in 1849. Mrs. Bennett was married, Jan. 27, 1858, to Elam Bennett, whose name she now bears; he was born in this township, on the farm which she now owns; his parents were Henry and Fannie (Streeter) Bennett, natives of the Eastern States. Henry Bennett was one of the early settlers in this township; he had three sons—Cyrus, Henry S. and Elam. Mr. Bennett's life was spent on the farm on which he settled. He was held in high esteem by all who knew him. He and his wife were members of the M. E. Church. He died Oct. 14, 1873, and she in May, 1878. Mrs. Sarah Bennett lived happily with her husband until his death, which occurred Sept. 8, 1871. Since his demise, she has remained on their farm of 175 acres, with her three sons, Almon C., Delos H. and Otis.

Rev. SAMUEL BISSELL, educator, Twinsburg. The ancestors of the above were of English descent, and the family trace them to one John Bissell, who left Somersetshire in 1628, landing in Plymouth in the same year, and, in company with others, went overland to Windsor, on the Connecticut River, where he settled, and from him have sprung a numerous family. Here was born Israel Bissell, who was the grandfather of our subject; he entered the Colonial army, and died of camp distemper, at the age of 45; the same fate came to the grandfather on Samuel's mother's side. Israel Bissell had three sons and four daughters, viz.: Israel, Justus and Robert; Eunice, Roxana, Prudence and Anna. Robert had three sons and two daughters, viz.: Samuel, Roswell and David; Laura and Bianca. Samuel was born April 28, 1797, in Middlefield, Mass.; he came West with his parents to Ohio in 1806, and settled in Au-

rora, now Portage Co., which was at that time on the verge of the "Far West." Here his father settled and raised his family amid the wild scenes of that period. No schools existed here at this time, except those of privation and hard labor. Up to the year 1816, Samuel assisted his father in clearing up their forest home. Having a burning desire for an education, and, in the absence of proper schools, he began a systematic course of study, including the classical, and fitted himself for college, and graduated in Yale in 1823; two years later, in New Preston, Conn., he was licensed to preach, and returned to Aurora, where he engaged in teaching a select school, and, shortly afterward, took charge of a small Congregational Church society at Twinsburg, then in a weak and feeble condition, and ministered to their spiritual wants for about fourteen years; the society, in the meantime, grew and prospered. About this time, he gave up his pastorate and resumed teaching, and established the well-known Twinsburg Institute, a description of which the reader will find in the history of the township in this volume. Since that time, he devoted himself to teaching, having had charge of this institute for fifty-two years, during which time more than 6,000 students of both sexes have been under his instruction: among this number were 200 Indians, from five different tribes, some of whom have surpassed in scholarship any of the white youth in the institution. It may truthfully be said of Mr. Bissell that, in his labors, he has been unselfish in his ends, not too highly esteeming worldly wealth or honors, but has given his life and labors to benefit his fellow-man. Mr. Bissell was twice married—first, to Fannie A. Gaylord, who died leaving no children; his present wife was Amelia C. Sikes, born Nov. 28, 1823, in Summers, Tolland Co., Conn.; her parents were Chauncey and Cynthia (Hancock) Sikes; Chauncey was a son of Abel Sikes, and Cynthia was a daughter of Gibson and Eunice (Green) Hancock, all of South Wilbraham. The children of Chauncey and Cynthia were Amelia C., Henry C., Francis, George M., Ralph F., Julia A. and Elizabeth M. Mrs. Bissell graduated, June 30, 1850, in the Wesleyan Academy at Wilbraham, Conn., and for

many years has been a successful teacher. Mr. and Mrs. Bissell have one daughter—Fannie A.

H. A. BISSELL, farmer; P. O. Twinsburg; was born March 3, 1847, on the farm where he now lives; his parents were Cephas and Isabel (Crawford) Bissell; his father was born in Middlefield, Mass., June 25, 1800, and was the son of Justus, who was a son of Israel Bissell, who was a native of Connecticut. Cephas came West with his parents to what is now Portage Co. in 1806, and settled in Aurora. Feb. 23, 1829, he was married, by Rev. John Seward, to Isabel Crawford, who was born in Orange Co., N. Y., May 20, 1806, to Solomon and Anna Crawford, whose other children were Alexander and Cadwalder. Solomon was born Feb. 14, 1772, and Anna, his wife, Feb. 24, 1783; they were married March 13, 1800. Cephas Bissell spent the early part of his life in Aurora, and removed to the eastern part of Twinsburg Township in 1832, where he lived until his death, which occurred May 18, 1867; his wife still survives him. Their children were Cephas, born in Aurora April 19, 1830, died Sept. 28, 1873, leaving one son, Freddie; Isabel, who was born in Aurora Sept. 20, 1831, and died Dec. 27, 1833; Anna, born in Twinsburg Dec. 25, 1840, married Nelson Dodge, and died Jan. 30, 1862. Henry A. was married, Dec. 18, to Anna Nichols, born in this township Feb. 25, 1859; she was the daughter of Oscar A. and Ellen (Hutchinson) Nichols; she bore him one son—Roy H., Sept. 22, 1880. Cephas Bissell, the father of our subject, was regarded in the community as an upright man and worthy citizen; he and wife were both members of the Congregational Church. Henry A. is the only child living; he is engaged in farming and dairying, and is doing a good business; his farm consists of 415 acres.

JAMES BROWN, farmer; P. O. Twinsburg; was born Dec. 1, 1806, in Hampden Co., Mass., to James Brown, whose father's name also was James. The mother of our subject was Orvilla Phelps, of Connecticut; his father, being a poor man, he left home at the tender age of 7, and was buffeted about from place to place until he was 11 years of age, when he was bound out until his majority,

after which he worked out by the day and month, receiving small compensation for his labor. In his 27th year, he married Emeline Waterman, daughter of Zebedee, a soldier in the war of the Revolution. Mr. Brown came West in the spring of 1839, to Twinsburg, where he manufactured shoes, which business he had followed to some extent before he came West. In 1841, he purchased the land where he now resides, which then was mostly unimproved. April 14, 1843, his wife died, leaving one daughter—Caroline, now Mrs. John W. Barge, who is a resident of Cleveland. Jan. 10 of the following year, he married Maranda Hanchett, born July 1, 1825, in Yates Co., N. Y., daughter of Seth and Patty Remington Hanchett, who were natives of Connecticut, and removed to Yates Co., N. Y., prior to the war of 1812. To them were born nine children. The family came West to this township in 1833, locating in the southeastern part. Mr. Brown, by his last marriage, has one child only—Almon James, who perpetuates the family name. To James, the grandfather of our subject, were born James, William, Nicholas, Daniel, Thomas, Lewis, Israel, Petsey and Jennie. To James and Orvilla Phelps were born Hannah, Orvilla, James, Roswell and Almon. Almon James was born Feb. 16, 1846, and, on March 5, 1868, married Miss Dunchee, who was born Dec. 18, 1848, to Harrison and Sylphina (Nye) Dunchee. Almon J. has one son—James H., born Dec. 27, 1877. The farm consists of 300 acres, the result of hard labor and rigid economy.

H. W. CANNON, farmer; P. O. Twinsburg; born in Blanford Township, Hampden Co., State of Massachusetts, March 5, 1830; was the only child of his parents, Nathan and Elizabeth (Waterman) Cannon, and came West with them to Portage Co. in 1833, and thence to this township in the following year, where his father purchased 80 acres of land on Lots 41 and 42. Upon this place our subject has since resided. His early youth was spent on the farm and attending school, his education, in his later school-days, being received under the guardianship of Rev. Samuel Bissell, of the Twinsburg Institute, where he attended several terms. Since he has grown

to manhood, he has conducted the farm, and has been identified with the interests of the township. He has always been a stalwart Republican, and has repeatedly filled important offices of the township. He has been twice married—first, to Violetta Hamilton, Feb. 1, 1856, daughter of John Hamilton, of Nelson, Madison Co., N. Y.; she died in May, 1862, leaving two children—Clayton and Hattie. Jan. 1, 1869, he married Delia Harmon, born in Aurora, Portage Co., Oct. 23, 1838, daughter of Israel and Maria (Benjamin) Harmon. Mr. and Mrs. Cannon are members of the Congregational Church. They have one child, Julia May. Israel Harmon was born Dec. 25, 1808, and died at the age of 72; his wife was born Dec. 24, 1814; to them were born five children. Nathan Cannon was a son of Nathan, of English ancestry; his children were Israel, Sylvester, Tryphenia, Artamissa and Salomi. Zebedee Waterman, the grandfather of our subject on his mother's side, entered the Continental army at the age of 14, and served as teamster. Nathan Cannon died Aug. 17, 1869, and his wife Nov. 20, 1879.

ALBERT CHAPMAN, retired farmer; P. O. Twinsburg; was born April 12, 1812, in Hampden Co., Mass., being the fifth of a family of nine children of Nathan and Eunice (Parks) Chapman. Nathan was born in Groton, Conn., and was the son of Isaac Chapman, who was a soldier in the Revolution, and to whom were born Elisha, Abner, Nathan, Isaac, Bradford, Susan, Mary and Thankful. To Nathan and Eunice were born Polly, Betsey, Oriel, Albert, Vinson, Norman, Aldin, Carlos and Laura. Albert's father was a first-rate farmer, and raised his sons to become tillers of the soil. Albert, leaving the parental home about the time he became of age, engaged his services by the month, and labored industriously. In 1837, he came West to this State, spending the first year at Kent, Portage Co.; he afterward went to Clay Co., Ind., where he bought 160 acres from the Government, and, shortly after, purchased 40 more. After nearly six years of pioneer labor, he traded his land for 65 acres in this township, where he removed in 1845. Here he has since resided. He formed a matrimonial alliance with Sarah Eno, born May 15, 1815,

at East Granby, Hartford Co., Conn., daughter of Gaylord and Azubah (Phelps) Eno; her father was born in East Granby, and was a son of David, who was wounded while a soldier in the war of the Revolution; Azubah was a daughter of Azariah, of Welsh descent. Gaylord and Azubah had a family composed of David, Delia, Sarah, Lorenzo, Gaylord, Azubah, Charles, Lydia and Virgil. The worldly result of the labors of Mr. Chapman, assisted by his faithful helpmeet, is 250 acres of land, situated in the northern part of the township, mostly on Lots 5 and 6; they have also valuable property in Cleveland. Since 1868, he has been retired from active business, and resides at the Center. They have two children—Nathan A., who married Grace How, having two children, Jennie G. and Albert C.; Lydia, who married Ed Johnson, and has also two children—Albert E. and Arthur G. Mr. Chapman is a Baptist, and his wife a Methodist.

MRS. MARGARET COCHRANE, farming; P. O. Twinsburg; was born Aug. 14, 1824, in Edinburgh, Scotland, to William and Isabella (Shaw) Baxter; Mr. Baxter was a tanner by trade, having in charge a tannery in Scotland, the proprietor of which became bankrupt, which threw Mr. Baxter out of employment, when he decided to come to America. Mrs. Cochrane emigrated to this country with her parents when she was 9 years of age; the ship was the Royal Blackburn, which was three months in coming across. They came near being wrecked, and at one time were out of provisions. The family located at Ravenna, Portage Co., where he followed his trade two years, and then engaged in farming, which business he followed until his death; his first purchase was 50 acres at Shalersville, for which he paid \$4 per acre; he afterward added 64 acres, remaining upon it until removed by death, on Feb. 6, 1874; his wife died suddenly, Aug. 6, 1876; they were members of the Established Church; they had four children—James, in Ravenna; Isabel, now the wife of John Moore, of Kent; Mrs. Cochrane, and David (deceased). June 10, 1845, our subject married David Cochrane, whose name she bears; he was born in Scotland, to John and Mary (Brodie) Cochrane. David came to

this country with his parents when it was new, the family locating on what is now Liberty street, this township. Mr. Cochrane was a farmer, a kind man, and good citizen; he died Nov. 17, 1878, of consumption, having been in poor health for twenty years; the children born to him are ten, viz.: James, Robert, Margaret, Willie, David, Isabella, Mary and Martha (twins), Almira and John. Mrs. Cochrane still remains on the homestead, owning land in Ravenna and in this township, amounting to nearly 300 acres in all.

ELMORE W. CLARK, hotel, Twinsburg; was born April 10, 1816, in Watertown, Conn.; he was one of nine children born to Leverett and Amy (Warner) Clark, their names being Ann, John, William, Burk, Phila, Park B., Mabel, Elmore W. and Leverett. In 1823, Elmore came West with his father, who located on the south side of the square, purchasing 100 acres of land, paying for it at the time of the purchase; when he came, he had \$1,000 in money, which was considered a very large amount at that time, its possessor being looked upon as a rich man. At the age of 17, Mr. Clark engaged as clerk to Ethan Alling at this place, remaining with him three years; he afterward spent some time in the South, engaged in the manufacture of lumber, boating the same to New Orleans; next, he went to Willoughby, where he clerked three years, after which, for a period of three years, he was engaged in the mercantile business at Drakesburg, Portage Co.; Oct. 12, 1842, he was married to Arvilla Carver, who was born at Whitehall, Washington Co., N. Y.; Oct. 6, 1823, to Bernice and Rachel (Collier) Carver. Since 1855, Mr. Clark has been engaged in the hotel business at this place, and is an efficient and popular landlord. Of five children born to him, three are living, viz.: Bela B., Stella (the wife of O. P. Nicholds, of this township) and Etta M. Bela B. was married to Alice Pratt, born in this county to M. D. and Amanda (Hull) Pratt, who were early settlers in Copley Township. Elmore W. was elected Justice of the Peace in 1876, serving one term. Bela B. was his successor, which position he yet retains. For many years, Mr. Clark has been a member of the Masonic fraternity. Bela B. is a member of Summit

Lodge, No. 213, and Summit Chapter. R. A. M., No. 74.

EZRA CLARK, retired farmer; P. O. Twinsburg; son of Ezra and Naomi Williams; was born March 25, 1807, in Saybrook, Middlesex Co., Conn.; his father was a son of Paul, whose father was William, who, with two brothers, came from England and settled in Saybrook. Sarah Wheeler was the wife of Paul, who served in the war of the Revolution; their children were Sarah, Jesse, Asa, Betsey, Irene, Eliza and John (twins), Benjamin and Adah. Bemen, George, Peter and Paul were the offspring of William. To Ezra and Naomi were born Ezra, Gilbert, Fannie, Rufus, Dianah, Mary, Norman and Henry. Ezra came West with his mother and stepfather in 1821; they made the journey with two yoke of oxen, and by one horse, and were thirty days in coming; they located on the Wilcox Tract, Lot No. 10, for which he had traded his land in Connecticut. In September, 1831, Ezra was married to Lucy Webster, who was born in Washington Co., Ohio; she died Feb. 19, 1874, leaving four children, viz.: Celia, Mrs. Seymour S. Fowler, of Franklin Co., Penn.; Clarissa N., Mrs. Edwin Betts, in Hamden, Geauga Co.; Harrison L., same county; Emma M., Mrs. Edgar Betts, Hamden, Geauga Co., Ohio. Mr. Clark was married, Dec. 6, 1874, to Mary C. Wright, who was born March 20, 1821, in Saybrook; she was the daughter of Joseph and Irene (Clark) Dennison; Irene was a daughter of Paul and Sarah (Wheeler) Clark. To Joseph and Irene were born Louisa, Charles, Sylvia and Mary; Joseph died in 1838, and his wife in 1835. Mr. Clark's first purchase of land was in the northern part of the township; this he sold soon after, and made his permanent settlement on Lots 9 and 16; he and wife are members of the M. E. Church, and he is a consistent Republican.

ERASTUS DANIELS, farmer; P. O. Twinsburg; son of Lemuel C. and Eunice (Young) Daniels; was born in August, 1824, in Middlesex Co., Conn.; he was raised to farming in his early boyhood, which business proved distasteful to him, and he learned the wagon-maker's trade. Of the children born to Lemuel and Eunice Daniels, were Aristar-

chus, Seth, Levi, Amasa, Edmund, Harriet, Rosetta, Esther A. and Eunice. In 1849, Erastus came West, to this township with his brother Levi, purchasing 105 acres of E. Carver, on Lot 14, for which they paid \$3,000; for about fifteen years they followed their trade, in connection with farming. Jan. 9, 1860, he married Wealthy Matthews, who came West in 1853; she was born June 26, 1836, in St. Lawrence Co., N. Y., and was the daughter of John Matthews, who was born in January, 1807, in Hamilton Co., Vt.; her father was a son of Joseph, who was born on Cape Cod Aug. 16, 1772, and was a Sea Captain; he died Dec. 6, 1845; his wife was a Hall. The mother of Mrs. Daniels, prior to her marriage was Delulia Thompson; their marriage was solemnized Jan. 1, 1827, and her death occurred Sept. 20, 1840; the Matthews family are of English ancestry; the children born to John and Delulia Matthews were as follows: Louisa, Mary, Martha, Amelia, George, Wealthy, Harriet and Alma. To Mr. and Mrs. Daniels have been born one child—Minnie G.; they are members of the Congregational Church; in politics, he is Republican, yet no politician; his farm, consisting of 105 acres, is situated nearly one mile south of the Center; his brother Levi died in February, 1865, and was unmarried.

S. FREEMAN, physician. Twinsburg. Among the successful practitioners of materia medica in this county who are self-made, and who have justly merited the success gained, is Dr. Freeman, who was born in Painesville Oct. 1, 1830, to Jeduthan and Sally (Edison) Freeman; Jeduthan's father bore the same name as himself, and was of pure English stock; his children were Jesse R., Calvin, Russell, Moody, Jeduthan, Lucy and Keziah; Jeduthan was a soldier in the war of 1812; was a blacksmith by trade, which vocation the Doctor became thoroughly versed in during his minority; having a love for the science of medicine, he began a course of reading while at work at his trade; he took his first course of lectures in the school of homœopathy in Cleveland, and his last in Chicago; he began practice in 1858 in this township, and has since continued, having a large practice.

DR. L. G. GRISTE, physician, Twinsburg. The Griste family descended from John Griste, the great-great-grandfather of our subject, who came from England to America in 1720, and settled in Norwich, Conn.; he had three children, among whom was John, Jr., born July 31, 1734, married Delight Lathrop, had the following children: George, Charlotte, John and Eunice. George was born Aug. 14, 1772, and married Lois Bradner; had thirteen children, among whom was John B. Griste, the father of our subject, born Nov. 13, 1811; married Louisa Hale Aug. 31, 1837; was born April 3, 1813. The fruits of this union was two children—Perry O. and Luman G. Obed Hale, the grandfather of L. G., was born in Enfield, Conn., Oct. 29, 1740. His wife was a Mindevell by name, born in Massachusetts May 10, 1741. The Hales are descendants of Sir Matthew Hale, the Jurist. John B. Griste came to Ohio in 1833; was a carpenter by trade, he died Aug. 11, 1867; his wife yet survives him. The Doctor was raised to farming, but, at the age of 19, began reading medicine Aug. 7, 1862. Enlisted in Co. E, 105th O. V. I.; after serving in several hotly-contested battles was wounded in the hand, losing his third finger by gunshot. Was discharged Feb. 24, 1864, on account of disability. In November, 1867, married Zilpha Freeman, born April 6, 1846, in Chagrin Falls; daughter of Jeduthan and Sarah (Edison) Freeman. He was born June 9, 1808, in New York; son of Jeduthan of English stock. Sarah Edison was a daughter of Levi and Clarrisa (Moulton) Edison; he was a son of Levi, born in Tolland Co., Conn. His wife was Mary Blodgett; Levi was in the war of 1812, and the father of seven children. To Levi and Clarissa were born twelve children. In 1869, the Doctor graduated at Eastman's College at Poughkeepsie. Served as Town Clerk six years, when he resigned and attended lectures at the College of Homœopathy at Cleveland. In 1874, began the practice of medicine in Twinsburg, where he has a lucrative practice. Has two children—Le-Mars and Ethel L.

MRS. LUCIA HAWKINS, farming; is the relict of Joseph A. Hawkins, who was born March 7, 1805, in Litchfield Co., Conn.;

his father was a native of England, and upon his arrival in America, settled in East Windsor, Conn. His children were named Joseph, Hannah and Grant. At the outbreak of the war of 1812, he went out to battle; he died about the year 1817, leaving his wife with seven children, and in straitened circumstances. Joseph came West about the year 1829 to Hudson Township. Dec. 15, 1831, he married Lucia Pond, who was born March 5, 1815, in Winchester, Conn. Preston and Esther (Whedon) Pond, both natives of Connecticut. The family came West in 1818, with their ox team, and her father's first location was on Lot 14, in Twinsburg Township; he was among the first arrivals, there being but about five families in the township at that time. Lucia was one of eight children, viz., Lucia, Harriet, Mary, Sarah, Laura, Julius, Julia and Lewis. Mr. Pond remained in this township but a few years, and then removed to Hudson, where he died about the year 1833. His companion reached the ripe age of 85. He was a good man, upright and conscientious in his dealings, and although not a member of any ecclesiastical order, yet he lived a Christian life. After the marriage of Mr. and Mrs. Hawkins; they lived in Hudson until 1837, when they moved to the southeastern part of this township, and engaged in farming. In his early life, he served as Captain in the militia, afterward as Colonel. He was the first to introduce the stock of Devonshire cattle in this township. Mr. Hawkins died Aug. 12, 1873, having at the time of his death 400 acres of land. The farm was first settled by Lewis Alling. Mr. Hawkins was a member of the Congregational Church, of which his wife is an active representative. There are two sons—Albert W. and Alfred; A. W. resides on homestead.

CHAUNCEY LANE, farmer; P. O. Twinsburg; was born Aug. 31, 1803, in Middlesex Co., Conn., and was the son of Phillip Lane, who was born in Killingworth Jan. 9, 1766, and was married, November, 1795, to Rebina, who was born Nov. 26, 1770, in the same county. To them were born Luman, Henry and Harry, Lovina, Chauncey, Julius, Abner, Harriet, Nathan and Polly. The parents of the above died in Killingworth Jan. 11, 1851,

and June 2, 1850, respectively. Phillip was a son of Joseph, whose father was John, the son of Robert, who emigrated from England about the year 1670. Chauncey remained at home until he passed his majority, when he came West in November, 1828. In February of the following year, he purchased 100 acres of land for \$300, on Lot 12. May 31, 1837, he married Phebe Bailey, born Jan. 20, 1811, in Groton, New London Co., Conn., to Asher and Abigail (Smith) Bailey, her father having been born in the same place in December, 1775. He was a son of John, who was one of three brothers, who came from England and settled in Connecticut. Abigail was a daughter of Samuel Smith, who was 16 years of age at the time of the battle of Fort Griswold in Revolutionary times. The Baileys were Congregationalists, and the Smiths Baptists. Mrs. Lane came West to Geauga Co. with her brother in 1836; her parents followed soon after, and settled in Munson, same county. Two children Chauncey P. and Caroline, were born to Mr. and Mrs. Lane. C. P. now resides on the farm where he was born Jan. 14, 1844. He married Mary E. Ames, a native of Vermont, and has three children—Carrie, Frank and Eddie, who is now serving as Justice of the Peace. Caroline resides in Minnesota, the wife of Hon. William Fowler. Mr. Lane has a good farm of nearly 100 acres.

ORRIS LEACH, farmer; P. O. Twinsburg; son of Daniel and Anna R. (Bissell) Leach; was born Oct. 18, 1818, among the hills of Hampshire Co., Mass. His father was a son of Daniel, Sr., whose sons were Daniel, Ira, Joseph and Isaiah. Anna Bissell was a daughter of Justus, who served in the war of the Revolution. The Bissell family have all descended from one John, who came from Somersetshire, England, to America in 1628. The parents of Orris died when he was in his minority. His father was a farmer, and was also engaged in the milling business. At the age of 23, Orris came West to Aurora, where he engaged at farm labor. April 28, 1850, he married Sallie M. Blair, who was born Aug. 21, 1819, in Aurora; she was a daughter of Isaac and Rebecca (Taylor) Blair, who were among the early pioneers of that county. Isaac

Blair was a son of Isaac and Bathsheba (Frost) Blair, to whom were born ten children—Matthew, Elijah, Elam and Eli (twins), Isaac, Bohan, Mollie, Julia, Anna and Rebecca. To Isaac and Rebecca Taylor Blair were born Mary A., Milton, Emily, Sallie, Carroll, Jane, Louisa, Emeline and Armilla. Isaac served in the war of 1812. Mr. Leach came to Twinsburg in 1851, and for several years was engaged in trading. He moved to his present home in 1870, and has over 160 acres of land where he resides; he also owns 65 acres in Michigan. Mrs. Leach was for twenty-three years a teacher, and taught eleven years in one place. Their children are—Addie, Mrs. L. Hawkins; Bride, Mrs. F. L. Haggett; and Manly.

HENRY LIVINGSTON, cheese manufacturer, Twinsburg; son of Henry and Nancy (Lacore) Livingston; was born April 26, 1830, in Watertown, Jefferson Co., N. Y. His father was a son of Henry Livingston, Sr., who was born in Armagh on the Emerald Isle. Nathaniel was the father of Nancy, he had born to him Nancy, Margaret, Luke, Cleantha, Champion and Jerusha. Henry, the father of our subject, was born about the year 1786, in Ireland, and emigrated to New York in the early part of the present century. He was an Irishman, born of a highly respected family who were among the intelligent class, ranking high in social position. He was identified prominently with the interests both of a local and general character. As a Freemason he ranked high, having advanced from the Blue Lodge to the orders of Knighthood. To him were born seven children, viz., Margaret, Sarah, Henry, J. A., John W., Jane and William. The family came West to Cleveland Sept. 10, 1837, where the father died soon after. At the age of 16, Henry learned the shoemaker's trade at this place. Dec. 25, 1850, he was married to Laura Done, born in this township May 23, 1832, and the daughter of A. B. and Maria Done, who were from Connecticut, and came West about 1826. Aug. 29, 1864, he enlisted in Co. E, 177th O. V. I., and served until the close of the war. Upon his return home, he resumed his former occupation. About the year 1868, he engaged in the manufacture of cheese at this place.

He has but one child—Ella M., who is now the wife of George L. Fuller, of this township. Two others died—Russell H., at 17; and Laura A., 2 years of age. Mr. L. is a member of Summit Lodge, A., F. & A. M., No. 213, and Summit Chapter, R. A. M., No. 74. He is in politics a Democrat.

J. W. McINTOSH, retired farmer; P. O. Twinsburg; is one of the early settlers on Liberty street; he was born Feb. 4, 1805, in Trumbull Co., this State; son of Pascal and Abi (Clark) McIntosh. He was a son of Ebenezer, whose birth place was Scotland, and emigrated to the Eastern States prior to the Revolutionary war, in which he was an active participant. To him were born Betsey, Pascal, Moses, John and Daniel. Ebenezer's wife was a Marvel prior to her marriage. Pascal was born in New Hampshire, received a collegiate education at Yale, and was a man of superior ability. He came West about the year 1799; first to the mouth of Chagrin River, where he lived about two years; then moved to Mantua, where he kept bachelor's hall for some time. Abi was a daughter of Ephraim, whose children were Isaac, Ephraim, Acenath, Rachel, Abi, Polly, Hannah, Pascal. The father of the above died in Mantua Township; for many years he has been a substantial member of the Methodist Episcopal Church. His superior education made him a useful member of the society in which he lived, and of which he was ever a loved and honored member. John W. left home at 22, and learned the carpenter and joiner's trade, at which he worked for several years. At the age of 24, he married Olive Ferris, who was born March 11, 1814, in Suffield, Portage Co., to Granderson and Mary (Card) Ferris. Her mother was born in Portage Co., and her father in Virginia; he was a son of John, who married Jerusha Lockwood. Mary Card was a daughter of Silas Card. Mr. and Mrs. McIntosh came to this township in September, 1831. He built his cabin about forty rods south of his present residence, "all woods" at this time, and game very abundant; he killed, one afternoon, three deer and two turkeys. They had several children, all of whom are deceased; but two lived to be grown, viz., Mary, who married David Riley, and died

leaving two children—Randolph and Mary. Alexander, who died at the age of 19, was a young man of much promise. He was a student under James A. Garfield at Hiram, and before his death prophesied that Garfield would be President.

A. L. NELSON, merchant, Twinsburg; only son of Salmon C. and Mary (Thompson) Nelson, was born Dec. 8, 1827, in Hebron, Washington Co., N. Y. Salmon was born June 11, 1804, in Washington Co., and was the son of Moses, whose father was John Nelson. Moses Nelson married Chloe Carver, who bore him Salmon, Mary, Silas, Fannie, Harley, Daniel, Almira and Eliza J. Mary Thompson, the mother of A. L., was born Nov. 2, 1807, in North Granville, N. Y., to James and Catharine (Kelleyham) Thompson. Her father was born in England, her mother in Ireland. They died when she was quite young, hence she knew but little concerning their history or origin. Mrs. Nelson was married to Salmon C. Dec. 30, 1826. They came West in 1833, locating in this township and engaged in farming, remaining until he was removed by death. April 7, 1866. He was a man highly respected in the community, and possessed kind and generous impulses. She still survives him. A. L. was married, June 12, 1853, to Belvia A. Smith, a native of the Empire State, daughter of George B. Smith, who married Clara Everest. In 1853, Mr. Nelson engaged in business at this place, and has since continued. He is a successful and reliable business man. He was for several years Postmaster. He keeps a general store, composed of such things as are required in the farming community. Although not a member of any church society, he is not unkindly disposed toward any ecclesiastical order, and in bestowing charity where it is needed, he is not found wanting.

JUNIA NORTH, retired, Twinsburg; was born in Litchfield Co., Conn., April 30, 1796. He was the son of Junia and grandson of Noah North, whose ancestors came from Farmington, England. Noah North's wife, whose maiden name was Looms, bore him three sons and two daughters. To the father of our subject were born Roxania, Tryphenia, Ariel, Ruba, Willard, Sabrina, Junia, Lura,

Lorain, and Frederick and Philomelia (twins). Mr. North who was raised a farmer, came West in the spring of 1823, and lived in Braceville the first year; the year following he purchased with \$1,500 100 acres on Lot 24, in this township. April, 1824, he married Lovina Meriam, who taught the first school in the township. She came West with her uncle, who settled in Hudson as early as 1802. Mr. North remained on his farm from the time of his marriage until about the year 1862. His wife died leaving seven children. Mr. North's present wife was Mrs. Mary Knapp, whose maiden name was Wolcott. His home and church, to which he was greatly devoted, are at the Center. For sixty-five years he has been a member and one of the pillars of the Regular Baptist Church, and was one of the six who formed the church body at the time of its organization in the township, and has filled the office of Deacon for many years. Far advanced in years, he is nevertheless remarkably well preserved, and, like a shock of grain fully ripe and fit for its master's use, he stands ready awaiting His call.

HORACE NORTON, retired farmer; P. O. Twinsburg; youngest son of Aaron Norton, was born June 10, 1808, in Otsego Co., N. Y. His father was born July 3, 1751, in Killingsworth, Conn., and served as a soldier in the Revolution. He was twice married—first to Eunice Ruddy, and moved to Pittsfield, Mass.; thence to New York, where he married Lydia Hutchinson. He has ten children, viz., Uriah, Selden, Eber, Lebbeus, Simon, Joseph (by the first marriage); Lydia, Sawyer, William A. and Horace (by last marriage). The parents of Horace died suddenly of an epidemic disease, and were buried in one grave. Horace came West to Aurora, Portage Co., in the year 1814, with his brother Selden, with whom he lived for several years. When a lad of 8 years, he was sent to mill with oxen and cart to Northampton, seventeen miles distant, which journey occupied three days; the first day he reached the mill, sleeping on his sacks; the following day he had his grist ground, and started home in the afternoon; night coming on he sought lodging of George Powers, and, in the absence of money, proffered

a portion of his grist, which was not required nor taken; on the following day he reached home. His early life was spent in the woods battling with the monarchs of the forest. For several years he took jobs of clearing, and, at the age of 21, he in one year, chopped 25 acres ready for logging, and cleared 10 acres ready for wheat. May 14, 1833, he married Miranda Fisk, who was born April 13, 1816, at Batavia, N. Y., to Benjamin and Beulah (Lamberton) Fisk. Her father was born in York State Dec. 22, 1787, and her mother in the same State Aug. 22, 1794. He was a son of Benjamin, who served in the war of 1812, and was sent to Canada as a spy and was poisoned by eating food given him by a woman. The Fisk family came West to Chester, Geauga Co., in 1818. Benjamin Fisk died October, 1872, his wife Jan. 18, 1868. To them were born Meranda, Tryphena, Orin, Sophrona, James, Benjamin and Horace. Mr. Norton purchased land in Geauga Co. before his marriage, and sold it soon after; then he purchased 123 acres upon which he lived nine years. In 1842, he removed to this township, where he has since lived. He now has 118 acres of land. Of a family of ten children, he alone is living. The others died at the average age of 70 years. None of the boys were ever intoxicated or went to law; all were hard-working and industrious men, honest and upright in their dealings. Mr. and Mrs. Norton are members of the Methodist Episcopal Church. Their children are Paulina, who married J. M. Baker, of Ashtabula Co., Ohio; Cordelia, Mrs. C. Baldwin; Newton, in Michigan, and Mrs. Samuel Crankshaw.

S. F. OVIATT, farmer; P. O. Hudson; born Nov. 27, 1827, in Hudson Township; was the son of Benjamin and Rhoda (Kellogg) Oviatt; his father's name was Benjamin, who married a Carter, and by her had the following children, viz., Luman, Heman, Benjamin, Salmon, Nathaniel, Hulda, Olive, Mary and Betsey. She was captured by the Indians at the age of 12, remaining a captive fourteen months, when she was ransomed by the British. Her father was an early settler in Connecticut; in his absence to the settlement for provisions, the Indians came, massacred the mother, a son 17

years of age, and infant, burned the cabin and took Miss Carter, a sister and her little brother, 5 years of age, with them, whom the tribe adopted and he ever after remained with them. The Oviatts are said to be of Scotch descent. Benjamin, the father of Salmon F., was born in Litchfield Co., Conn., February, 1779, and emigrated West in 1799, to what is now Hudson Township, locating on the land his father had previously purchased. He married Rhoda Kellogg, who was a daughter of Bradford Kellogg, whose wife was a Thompson, to whom were born Alonzo, Alfred, Rena, Luna, Alvira, Rhoda and Polly. To Benjamin and wife were born eleven children, of those who grew to be adults were Elizabeth, Olive, Hanford, Julia, Silas, Salmon F., Martha and Mary. Benjamin, the father of the above, died in 1849, aged 69, having at the time of his death about 700 acres of land. He was for a number of years a member of the Presbyterian Church, and took an active part in religious matters. May 9, 1849, Salmon F. married Margaret Cameron, who was born in Stark Co. Jan. 31, 1831, to Jeremiah and Elizabeth (Andrews) Cameron, to whom were born six sons and three daughters. Since Mr. Oviatt's marriage, he has resided in the southeastern part of the township, where he has been prosperous and happy. He has no children. His land consists of 575 acres.

JOEL R. PARMELEE, farmer; P. O. Twinsburg. The Parmelee family originated from three brothers, who came from England to America prior to the Revolution. The family settled in North Killingworth, Conn., one of whom was killed in King Phillip's war. The subject of these lines was born in Fairmont, N. H., July 14, 1815; son of William Parmelee, whose wife's maiden name was Fannie Rice. William was a son of Daniel, who was a son of Lemuel, who was born in 1700, in Killingworth, Conn. To William Parmelee was born thirteen children. Those who grew up were Lucius, Mary, Fannie, Joel R., Samuel N., Harriet, Daniel S., Emily and Edward (twins). William Parmelee came West in 1828, located in this township, and cleared up his farm; remained in the township until his death; he was a good citizen; a

Deacon in the Congregational Church for several years. Joel R. received a liberal education, fitted for college, taught school some, but finally settled down to agricultural pursuits. Aug. 24, 1844, married Harriet A. Holt, Dec. 7, 1815, in Chester, Conn.: daughter of Benjamin and Lucy (Southworth) Holt. The Holt family emigrated from England to America; descended from one William Holt, born 1610; removed to Wallingworth, Conn., in 1675. Had seven children born to him, among whom was Nathan, who was wounded in King Philip's war; he married Rebecca Bebee; by her had three children: his son Nathan married Phebe Tomlin; had four children. His son William married Sarah Way, and had seventeen children. Sir John Holt was a Baronet. Joseph Holt was born in September, 1769; he was a soldier in the war of the Revolution. Benjamin Holt was born Dec. 22, 1766, his wife Julia July 2, 1764. Mr. and Mrs. Parmelee have four children—Howard R., now a minister in Edinburg, Portage Co.; Mary E., now the wife of Amizi Wilson; Harriet F., who is now a missionary to Kiyata, Japan; William B., a student in college. Mr. Parmelee and all his family are members of the Congregational Church—he for fifty years.

GARDINER PARMELEE, farmer; P. O. Twinsburg; born April 2, 1827, in this township; is the eldest child of Zeno and Juliet (Post) Parmelee. His father was born Jan. 21, 1801, in Killingworth, Conn. He was but a small lad when his father died, and, at the age of 7, went to live with one Mr. Wilcox, remaining seven years, when he began learning the blacksmith's trade with him, and, on completing it, he walked from his native State to this township, where he established a business in a log shop at the Center as early as 1822 or 1823. He was married to Juliet Post, daughter of Joshua and Mollie (Dee) Post, who was born Aug. 29, 1806, in Westbrook, Conn. She was the daughter of Joshua and Mollie (Dee) Post. To them were born five children, viz., Gardiner, Mary, Henry and Juliet. He died in April, 1862; she also is deceased. Both were members of the Congregational Church. Gardiner learned the blacksmith's trade with his father; after

attaining his majority, he conducted the business for his own benefit for a few years. Nov. 9, 1848, he married Rhoda Roach, who was born Dec. 10, 1829, in Hebron, Washington Co., N. Y. She was the daughter of James Roach, whose wife was Mary Nelson. February, 1862, Mr. Parmelee purchased 100 acres a little west of the Center, which place has since been his constant residence. On the farm is an excellent stone quarry, which is a considerable source of revenue to its owner. He has three daughters, viz., Mary, who married F. Dolaishe, residents of Put-In-Bay; Jose B. at home; and Chloe O., now Mrs. Charles Riley, of this township. He is not a member of any church, but favors religion and practices morality.

PHILO POST, farmer; P. O. Twinsburg; was born June 29, 1817, in Saybrook, Conn., to Joshua and Mollie (Dee) Post. His grandfather's name was also Joshua Post. The father of Mollie Dee was Marcus. To Joshua and Mollie (Dee) Post were born thirteen children, viz., Joshua, Polly, Deborah, Emily, Dianah, Jerusha, Mercy, Belinda, Sallie, Hettie A., Hannah, Juliet and Philo. Philo came to this county with his parents when 4 years of age; the family located in the southern part of the township, near Brandywine, upon land which his father purchased before leaving Connecticut. Joshua died about two years after his arrival. When 14 years of age, Philo moved to Liberty street, this township, with his mother, who purchased 50 acres. With her he lived until his union with Miss Luna Carpenter, which event took place Jan. 1, 1850. She was born Aug. 7, 1828, in Boston Township, and was the daughter of Aaron and Tirzah (Drake) Carpenter, both of whom were natives of Connecticut, and were among the early settlers of Boston Township. To them were born a family of children whose names were Melinda, Luna, Martha, Mary, Cynthia, Maria, Elijah, Cornelius B., George, Comfort, Elijah. Aaron Carpenter was for many years a member of the Methodist Episcopal Church, and a Class-leader of the same. He was a just and upright man, and worthy citizen. The political status of both sides of the families have been Whigs, and more recently Republicans. Since Mr. and Mrs.

Post have been married, they have resided on the farm where he first located. He has been an industrious man, and has been successful in accumulating a good share of this world's goods—having 200 acres of land, which is adorned by excellent farm and house buildings. Of six children born him, those living are: Emma V., now the wife of L. Bennett; Stella L. Harry E. and Rosa M. Willie died when 15 months old, and William at 5 years of age.

MOSES N. ROACH, mechanic and farmer: P. O. Twinsburg; was born Oct. 16, 1832, in Hebron, Washington Co., N. Y., to James and Mary (Nelson) Roach. His ancestors came from Ireland. The Roach family came West in 1836, locating in this township on Lot No. 1. When Mr. Roach arrived here, he had but \$5 in money. He was a carpenter and joiner, and worked at his trade, earning enough to pay for his land, which was unimproved. He worked at his trade during the day, came home, and by night cut down trees, which the boys would trim up the next day; this was continued until the land was cleared. For nearly a score of years he worked at his trade, and spent the remainder of his life on the farm. He died in February, 1876; he was an upright man, and a member of the Methodist Episcopal Church. To him were born Gilbert, now in Cleveland; Chloe C., Mrs. Horatio Bartlett, in East Cleveland; Rhoda, the wife of Gardiner Parmelee; Moses N. and Martin V. B. At the age of 16, Moses left home and learned the blacksmith's trade. June 11, 1853, he married Minerva Beldin, daughter of Erastus and Betsey (Armstead) Beldin, to whom were born seven children. Since Mr. Roach was married, he has been engaged at his trade and at farming, and, with the exception of three years spent in Hudson Township, he has been a resident of this. He rents 180 acres of land in the west part of the township, and carries on his shop at the Center. He has two children—Albert E. and Alonzo N. Both he and wife are members of the Methodist Episcopal Church. He is much interested in the Sunday-school cause; is a Superintendent thereof, and an ex-

cellent mechanic. He is a zealous member of the Masonic fraternity: a member of Summit Lodge, A. F. & A. M., and Summit Chapter, R. A. M.

OLIVER RONIGER, farmer; P. O. Twinsburg: he was born June 10, 1807, in Eri, Switzerland; his parents were Mecher and Frances (Miller) Roniger, to whom were born seven children—two sons and five daughters. Oliver was bereft of his father when 2½ years old; remained with his mother until a lad of 14, when he began to provide for himself. When 21, he went to learn the stone-mason's trade, at which he worked four years, learning the plasterer's art and the laying of brick as well. To better his condition, he set sail for America in November, 1832, coming on direct from New York to this township; arriving here, his worldly possessions amounted to a haversack of old clothes and 75 cents in money, which he afterward loaned to an acquaintance to purchase necessities for his family. When Mr. Roniger came, he was not familiar with the English language, which was taken advantage of, at times, by unprincipled men, who endeavored to profit by his native honesty and unsuspecting manner. Two years afterward, by diligence and economy, he purchased 35 acres in the southeast part of the township. In November, same year, he married Jane Burroughs, born April 1, 1812, in Mifflin Township, Mifflin Co., Penn.; her parents were John and Sarah (Durst) Burroughs, who emigrated to Palmyra, in Portage Co., when she was about 15 years of age. Since the location of Mr. Bolinger in this township, he has been a constant resident and worthy citizen; he has been industrious and prosperous, having acquired 175 acres of land. He is a member of Summit Lodge, No. 213, A. F. & A. M.; has no children, but adopted a son, Morris Dunn, at 2 years of age, who now bears their name; he was born in Boston Township, Oct. 22, 1846, son of John and Martha (Reed) Dunn. Morris married Mary Sabin, born in Ravenna; they have five children—Minnie, Martha, Millie F., Elsie M. and Oliver.
