THE MUTUAL FIRE INSURANCE CO.

OF SCRANTON, PA.,

No. 426 Lackawanna Ave.

Policies issued against loss or damage by fire on public or private buildings for one, or a term of years; also on household furniture, stocks, and merchandise generally, on liberal terms. The Company adopted at its organization all the safeguards which experience has proven necessary to result in a common average of loss. It is economically and prudently managed, and conservative in writing. Risks carefully selected and limited to such amounts, and distributed so as not to endanger the Company in case of large or disastrous fires.

It is one of the foremost of our local institutions, and offers to the public all the inducements that are advanced by any first-class company, and its directors are all well-known gentlemen of the highest social and financial standing and responsibility. It therefore behooves the farmer, mechanic, merchant, the guardian, executor and administrator of estates, the trustees of churches, school-houses and academies, to uphold by their patronage, this home company, and thus aid in retaining in our midst the large volume of money that is sent yearly to distant States and countries for indemnity against loss by fire.

Applications can be made to the office of the Company, or to any of its local agents or solicitors, and any information on the subject may be obtained by communicating with officers or directors at Scranton, Pa.

The Scientific American says: "The Herald of Health contains more sensible articles than any other magazine that comes to our sanctum."

THE HERALD OF HEALTH, FOR 1879,

Will present some new features which will make the volume one of special interest. It will give as its leading articles a series of twelve papers entitled

Physiological and Sanitary Marriage and Parentage.

This is a subject which is beginning to attract the attention of some of the most gifted minds in England, France, and Germany. It is one of especial interest to every class, especially to the scientist, and still more so to the parent and to the unmarried. The question will be discussed with great simplicity, and in a way that cannot give offense to the purest-minded person of either sex, and, we hope, to the instruction of all. No subject lies nearer the health, the happiness, and the progress of the race. In addition we shall discuss

The Home Treatment of Disease by Hygiene,

The Best Foods for Health and Strength,

Bathing, and How to Do It,

The Sun Bath, and Its Value,

The Air Bath, Saltwater Bathing,

Studies in Hygiene, Temperance, Natural Manner of Living,

Topics of the Times,

and the multitude of subjects which are ever new and useful. THE HERALD will aim to quicken thought, and especially to help every one to the best ways of living for the welfare of body and mind.

ONE DOLLAR A YEAR POSTPAID.

PREMIUMS.

Every subscriber for 1879, who sends 10 cents extra to prepay postage, will receive free a new and most valuable book of over *Two Hundred Pages*, just translated from the German by the Editor

On the Early Care and Management of Children,

Including Physical, Intellectual and Moral Education, and Family Government after the Kindergarten Method.

It is written by MRS. BERTHA MYER, a woman of rank and culture, and the work has produced a profound impression in Europe. The appendix of the book will contain HERBERT SPENCER'S great essay on

The Rights of Children.

It will contain also from the pen of the translator,

100 Hints and Suggestions to Parents on the Subject of Family Government.

The work is more interesting than any novel, and vastly more valuable, and worth at least one dollar to any reader. With this bill of fare we hope every subscriber will feel it not only a duty but a pleasure to send us several new subscribers. The work of publishing a Health Journal is largely pioneer missionary labor, and the burden should not be left alone on the hands of the publisher, but joyfully shared by all who sympathize with its objects.

NOTICES BY THE PRESS.

"We have read this work with profound interest, and return our thanks to the faithful author who has presented the important practical truths relating to girls, with such delicacy, plainness and candor. We know of no more suitable gift book for our daughters."—*New England Journal of Education.*

"We know of no book of its kind so thoroughly good and useful as this."—*Providence News.*

From the Cashier of the First National Bank, Albany, N. Y.

"MY DEAR MADAM.—My two daughters ask me to offer to you their grateful acknowledgement for the pleasure and benefit derived from reading, thinking, and talking about "What Our Girls Ought to Know;" and I desire to add my thanks in their behalf, and in the interest of all young girls, for the very great service you have done in writing it. I agreeably surprised my daughters by presenting it to them; and then at their request read it aloud evenings, with all my gentlefolks seated at their work around our library table. It was a cheerful and pleasant task. That the good Lord may bless and prosper you always in every good word and work, is the prayer of yours, very sincerely,

ADAM VAN ALLEN.

Fruit and Bread, A NATURAL AND SCIENTIFIC DIET.

BY GUSTAV SCHLICKEYSEN.

Translated from the German

BY M. L. HOLBROOK, M. D.

Editor of The Herald of Health.

To which has been added a letter

BY JAMES C. JACKSON, M. D.,

giving his experience in abstaining from animal food.

This remarkable book, translated with care, is one of the most interesting productions on the natural food of man yet given to the world. From the standpoint of anthropology, physiology, experience; from history, comparative anatomy, embryology; from an unperverted instinct, and morality, our author shows man to be by nature frugivorous, using this word in its broadest sense to include fruits and grains; and while necessity may have compelled him to resort to flesh rather than to starve, yet this does not change his nature. As an original contribution to the all absorbing subject of food, it will prove more interesting than any novel, and we believe more profitable reading. The benefits of its perusal will be:

1. To show what is the natural food of man.
2. To lead him to become a loving child of Nature.
3. To simplify and beautify his manner of living.
4. To emancipate women from the drudgery of the kitchen.
5. To lead to increased use of fruit.
6. To diminish the use of flesh, and, where possible, to do away with its use altogether.
7. Gradually to improve the health, and add to the enjoyments and value of life.

In addition also it will contain a complete and

WHAT THE DOCTORS, THE PEOPLE AND PRESS SAY OF THIS BOOK.

From P. H. HAYES, M. D., of Watkins, Mass.

The writer well understands the so frequent connection of a troubled spirit with broken health, and that from the fountain of her own warm Christian heart, and from her experience as physician, wife, and mother, she knows so well how to

"Minister to a mind diseased."

From MRS. SARAH R. A. DOLLEY, M. D., Rochester, N. Y.

No mother will read it who will not thereafter be better prepared to lovingly and understandingly guard and care for the physical and moral well-being of her children.

From MRS. DR. WINSLOW, Washington, D. C.

It does me good, and it will do every one good for whom it was written. What a happy thought it was for the author to diffuse herself in such a quiet, modest way over the hearts and lives of those she had previously blessed!

From MRS. DR. SAYLES, Elmira, N. Y.

I would rather have written that book than been queen of the greatest empire on this small globe of ours!

From REV. JOSEPH SMITH, Grand Rapids, Mich.

It is the best on such subjects that has ever met my eye.

From MRS. STANLEY, of the Female College, Elmira, N. Y.

I believe it to be the book above all others to put into the hands of young mothers and maidens, to help and to guide them in regard to those topics and functions peculiar to women.

From the Evening Mail, New York City.

We know of no book which in its way, deserved heartier commendation.

From Godey's Lady's Book.

This book treats in a thorough yet delicate manner of all troubles, cares, and diseases of women. We do not hesitate to say it is the best book of its class we have yet seen.

From Harper's Magazine, New York City.

Mrs. Gleason is able to say something to wives and to mothers which no man could say. There can be no difference of opinion about the value of the practical suggestions she affords, which are characterized by sound philosophy and clear, good, sterling common sense. We value the chapter, "Confidential to Mothers," might be published as a tract and sent to every mother in the land.

Lady Agents of good moral character can sell hundreds of copies of this work. For further particulars address.

AN

APPEAL TO MEN

In behalf of Human Culture through a Wiser Parentage.

FRIENDLY OPINIONS OF "THE BETTER WAY."

"There are but few men or women so wise and pure that they cannot find needed inspiration in this little volume, while for the mass of humanity—excluding no class on account of refinement or intelligence—it contains information and warning which are urgently needed."—*Christian Union*.

"The searching thoroughness, the solemn earnestness and wise persuasiveness with which you have done it are past praise."—*Rev. N. E. Boyd*.

Another says: "His views upon continence and the higher uses of procreative force are

new and striking, and worthy of careful attention."—*E. F. B.*

"The groans and sighs of women and her progeny have ascended up to heaven long enough. The angels have heard and answered. Through you light is shed on the hitherto dark, mysterious problems of transmitting to offspring the best and happiest possibilities of ourselves, and this light must be given to God's people without delay. Your book cannot fail to do much good."—*Caroline E. Winslow, M. D.*

The Secretary of the Moral Education Society, of Boston, writes: "I wish to say that I like the pamphlet more than anything I have yet seen on its subject, and shall put it into the hands of members of the association when they meet in the fall. It seems to me one of the most suitable of works for circulation through the agency of moral education societies."—*Georgiana Davis, Secretary of Moral Education Association*.

"His words of rebuke and warning will not be welcome to the 'respectable' debauchee, who sees in marriage no holiness, no lifting of united lives above what is merely sensual and devilish. To those who are looking for a better way—the way of health and heaven—the book will be very welcome; it will be a new gospel, full of life, light, peace."—*Mrs. H. F. M. Brown*.

One clergyman says: "The spirit, too, is excellent, as the matter is important and the manner serious."

Another affirms: "It can do only good."

A mother writes: "No words of mine can express my high appreciation of your book and the good it is destined to do."

Another says: "It points out the only way in which our race can become noble, or able to introduce a better type of beings on earth."—*E. R.*

A lady connected with a Moral Education Society in one of our large cities writes: "I am sure women everywhere joyfully and thankfully receive the light of the new era dawning upon us; but men! who shall convince them that this is the 'better way'? It is encouraging to find a man coming forward to enlighten men on this matter, and urge them to examine into it."

It is earnestly hoped that women will interest themselves in the circulation of this essay. It will be furnished by the dozen and the hundred at reduced rates. It is written in the interests of woman and her children, and cannot fail to do a great deal of good.

The Thirteenth Regiment, N. G. of Pa., was organized in October, 1878, at the time of the general re-organization of the State Militia, upon the foundation offered by the Battalion of the Scranton City Guard. The four Companies composing the S. C. G., now Companies A, B, C and D, Thirteenth Regiment, were the outgrowth of the brave and historic "Citizens' Corps," recruited upon the call of Mayor McKune for the preservation of law and order at the time of the labor troubles in the summer of 1877, forty of whose members hastily assembled at a moment's notice and dispersed the mob which had attacked the Mayor. At that time the necessity for an efficient military organization impressed itself so forcibly upon the minds of the people that a large subscription was raised for the equipment of the Scranton City Guard, by means of which these four companies were not only fully uniformed, but a plot of ground on Adams avenue was purchased, and supplemented by a loan a substantial and commodious Armory of brick was built for them. Armory contains two headquarters rooms, four company rooms, a drill room 75x90 feet, a janitor's room and store room. The building committee was composed of Messrs. Jas. Archbald, Wm. Cornell and N. A. Schoonmaker, on the part of the citizens, and Major H. M. Boies, Capt. A. Bryson, Jr., and Lieut. Wm. Kellow, three of the Guard. The corner-stone was laid by the Masonic Fraternity in the presence of a large concourse and with appropriate ceremonies, November 14, 1877, and it was opened for use by a grand military ball January 31, 1878. The Scranton City Guard had the honor of receiving and escorting the President of the United States upon the occasion of his visit to the Wyoming Centennial, July 3, 1878, and was highly complimented for their discipline and drill the next day in Wilkesbarre. In August of that year, the Honesdale Guard (Co. E), and the Guards of Carbondale (Co. F), were recruited and added to the Battalion, which was subsequently organized as a Regiment by the addition of the Zouaves, of Susquehanna (Co. G), and Captain Boone's Company of the old Ninth Regiment, from Pleasant Valley (Co. H), and now enjoys the reputation of being one of the crack regiments of the State, composed as it is of the representative men of Lackawanna county and the counties adjoining.
