

DATES OF SETTLEMENT FROM VIRGINIA CERTIFICATES, WASHINGTON COUNTY, PENNSYLVANIA

By RAYMOND M. BELL

Washington and Jefferson College

What is now Washington County was formed in 1781. Before that time the territory was claimed by both Pennsylvania and Virginia. The land was purchased from the Indians in 1768. Pennsylvania started giving land grants in 1769. This was Cumberland County until 1771 when it became a part of Bedford County. In 1773 it became a part of Westmoreland County.

On the other hand Virginia claimed this first as a part of Augusta County and after 1776 northern Washington County was called Yohogania County; the southwestern part, Ohio County; and the southeastern part, Monongalia County. During the Revolution Pennsylvania stopped giving land grants. The dispute between Virginia and Pennsylvania was settled with the understanding that Virginia could issue certificates to her settlers which would be honored by Pennsylvania. From 17 November 1779 to 26 June 1780, Land Entries for certificates were made by about 700 in Yohogania County and by

nearly 400 in Ohio County. The original entry books are in the West Virginia collection at the West Virginia University in Morgantown. The books for Monongalia County were destroyed by a fire at Morgantown in 1796.

The advantages to researchers is that in applying for Virginia certificates each applicant had to state the year that he made his first settlement. As many of the applications as can be identified with present Washington County are listed below. This list shows only those whose land was based on Virginia certificates. It does not show the hundreds whose land titles were from Pennsylvania directly, and whose dates of settlement were not listed. A number of the entries have not been identified. Help has been received from Mr. Charles Shelter of the West Virginia Collection, Mrs. W. A. H. Melvaine of the Washington County (Pa.) Historical Society, and Mr. Harlan Keenan. This is the first time these data have been made available to genealogists.
