Prefatory.

1982750

Situated on an island in the sea, but in close touch with a rich and prosperous country comprising one quarter of the United States, Galveston enjoys the unique distinction of being both a pleasure resort and a city of great commercial importance. Since the publication of the last directory Galveston has displayed many new indications of prosperity all pointing to future greatness, and today the city is more firmly grounded, and recognized more than ever before as a great factor in the development of the millions of square miles of country lying west of the Mississippi river. In the development of the port of Galveston by the Federal government, the great west has been furnished an outlet for its surplus products which eliminates the long rail haul and thus makes a deep cut in former freight rates. In this alone the port of Galveston has been worth millions upon millions of dollars to the people of the west for every dollar expended in building jetties, deepening the channel and providing protective works. In this great work Galveston citizens have done their part nobly. Besides spending dollars for dollars with the government in furnishing facilities for handling the great commerce of the West, they have builded a sea wall, one of the wonders of the world, and are filling the city to the level of the wall in order that their homes may be protected and the great sea port, established at the expense of more than \$10,000,000 expended by the Federal government and as much more by private citizens and corporations, might live. All this is a matter which has been published time and time again in the leading journals and magazines of the United States and Europe, and it is not the object of the publishers of this directory to repeat the details. Suffice to say, the work of placing the city beyond the reach of waves is being rapidly pushed to completion and at the present time, is far enough advanced to make the protection an absolute certainty. The Spartan courage and the undying love the citizens have displayed for Galveston is now a matter of history, which will not be forgotten for many generations.

In presenting this the sixteenth edition of the Galveston directory to the citizens, the publishers feel called upon to say a few words regarding the material prosperity of the city and of the accomplishments of the citizens in the way of building up and developing its natural resources. In doing this we can not refrain from commenting upon the nature of the city government, which, in a large measure is responsible for the renewed activity along commercial lines. To the commission government and the honest administration of public affairs is due the credit for the restoration of confidence in the city among the citizens themselves, who, having faith in a just, equitable and an honest expenditure of the money thus collected, have come forward with their back taxes and have gone ahead with improvements on their own individual property without fear of what the future may have in store. Taxes have been paid promptly and the city has not only wiped out all of the floating debts and

retired thousands of dollars in bonds, but at the same time have laid many blocks of brick paving, built miles of shell road, extended the water and sewer systems, all without additional bonds, and in the meantime city bonds have risen from 60 cents on the dollar to above par in the markets of the United States. A government which can accomplish these things in the short space of six years after bankruptcy and an overwhelming disaster, is a government deserving of the praise and confidence which has been so generously bestowed.

MUNICIPAL IMPROVEMENTS.

During the year which closed September 1 the city expended in permanent improvements \$181,325 divided as follows:

Paving and surfacing.....	\$55,209
Drainage	31,558
Sewer extensions.....	42,332
Waterworks improvements, (including Alta Loma pumping station).....	44,821
Fire Department, new hose, truck, engine house on beach, etc.....	7,605
Total	\$181,525

Besides the above expenditures by the city, citizens expended \$880,643 in the construction of new buildings and improvements; \$45,000 in the building of sidewalks and \$655,360 in improving facilities of industries, a total expenditure of \$1,762,528. The sum of \$119,619 of this amount was expended in beautifying the beach and making a pleasure resort not only for the citizens, but for the thousands of visitors who come annually to Galveston for health and enjoyment. Expenditures by the railroads and other corporations, the grade raising contractors and the government, not included in the above statement brings the total value of improvements made during the past year to \$2,553,526.

THE CITY'S FINANCES.

As previously stated, the city of Galveston is again on a solid financial basis, and although the vast public improvements have made the bonded indebtedness appear large, all of this indebtedness is provided for in such a manner that in a comparatively short period of time, the rate of taxation will be materially lowered. The grade raising bonds are provided for by the State taxes which are returned to the city and thus the city is being raised to a level with the sea wall at the State expense. The other bonded indebtedness of the city is provided for by sinking funds which are added to year by year in sufficient amount to meet every obligation when due.

Following is the last financial statement rendered by the city showing the bonded indebtedness of the municipality:

Financial Condition of the City of Galveston on February 28, 1908.

Bonded Debt.

40-year limited debt bonds of 1881.....	5 per cent	Due 1921-1927	\$592,000 00
40-year waterworks, street improvement and City Hall Bonds.....	5 per cent	Due 1928-1936	562,000 00
40-year limited debt bonds of 1891.....	5 per cent	Due 1932-1936	1,063,000 00
40-year limited debt bonds of 1891.....	5 per cent	Due 1935	191,000 00
40-year general indebtedness funding bonds of 1895.....	5 per cent	Due 1936-1938	52,000 00
40-year waterworks bonds of 1896.....	5 per cent	Due 1937	23,600 00
40-year public school house bonds of 1897.....	5 per cent	Due 1937	192,000 00
40-year general indebtedness funding bonds of 1897.....	5 per cent	Due 1937	300,000 00
40-year sewerage bonds of 1899.....	4 per cent	Due 1943	247,000 00
40-year grade raising bonds, series A.....	5 per cent	Due 1944	100,000 00
40-year grade raising bonds, series B.....	5 per cent	Due 1944	100,000 00
Total bonded debt.....			\$3,322,000 00

1875

1875

1875

1875

1875

1875

1875

1875

Less bonds held in trust for account of—

Sinking fund of 1881 bonds	\$78,000 00
Sinking fund of waterworks, etc., bonds	81,000 00
Sinking fund of 1891 bonds	70,000 00
Sinking fund of funding bonds of 1895	51,000 00
Sinking fund of funding bonds of 1897	12,000 00
Sinking fund of sewerage bonds	22,000 00
Sinking fund of grade raising bonds, B	67,000 00

Total bonds in trust	\$302,000 00
And cash balances in the sinking funds	68,967 45— 400,967 45
Net bonded debt	\$2,862,032 55

The assessed valuation of Galveston the past year was reduced at \$22,797,065, as \$1,244,653, an increase of \$1,552,412 for 1906, including the property now occupied by the grade raising canal, the valuation would approach the highest mark ever made by the city before the disaster of 1900. Property values are increasing rapidly and improvements are becoming so numerous that the assessed valuation of the city will be as the \$30,000,000 mark within a very short time.

The above totals were made up as follows:

	1906.	1905.	Increase.
Ground	\$12,082,193	\$11,730,591	\$291,602
Improvements	6,210,758	5,493,169	717,589
Personal	4,504,114	3,960,893	543,221
Total	\$22,797,065	\$21,244,653	\$1,552,412
Poll	1,001	1,541	
City tax	366,253	321,462	41,791
School	45,591	42,489	3,104

Following is the present rate of taxation:

	Ad valorem.	School.	Total.
City	\$1.60	\$0.20	\$1.80
County			1.00
State			.38
			\$3.18

The above rate is an increase of 8 cents by the city, a decrease of 3 cents by the county and unchanged by the State, making an increase of 5 cents in the total, made necessary by the many public improvements. However, property holders are satisfied because they know that every dollar of taxation is spent in improving public facilities.

The total assessment for Galveston county this year is \$22,293,390 as against \$22,069,360 for 1905. The total levy of taxes for 1906 is \$310,299.90.

The following is an itemized list of taxable values for the year 1906 as compiled by the State and County Assessor:

Area of land	238,139.68, value	\$ 2,127,855
Value of City property		4,983,870
Miles of railroad	267.20, value	981,075
Railroad rolling stock, value		173,765
Miles of telegraph and telephone lines		
261.13, value		111,280
Miles of street railroad	92, value	97,000
Number of boats	301, value	941,630
Number of horses and mules	1542, value	37,931
Number of cattle	8077, value	55,175
Number of sheep	330, value	310
Number of goats	38, value	45
Number of hogs	50, value	127
Number of jacks	2, value	120
Number of carriages, buggies, etc.,	728, value	23,377
Goods, wares, merchandise, value		855,395
Manufactured articles, value		78,220
Manufact's tools, implements and machinery, value		215,790
Steam engines and boilers, value		86,350
Amount of money of banks		488,270
Amount of money other than banks		196,650
Amount of credits other than banks		49,000
Amount and value of bonds other than U. S.		18,600
Amount of money on hand		99,050
Amount of shares capital stock		144,500
Miscellaneous property		433,935
Grand total		\$22,293,390

Following are the levies of various taxes:
State ad valorem tax, \$11,101.74; State school tax \$30,900.00; State poll taxes, \$1,670.50.

County ad valorem tax, \$55,508.49. County specials, \$160,525. County poll taxes \$2445.75.

County district school taxes, \$3893.13.
Grand Total State and County taxes, excepting polls, \$310,299.90.

THE PORT OF GALVESTON.

Backed by an immense territory in which there are millions of acres of fertile soil under cultivation, and millions more waiting the occupation of settlers; in which there are mines of gold, silver, copper, iron, coal and other minerals; in which there are oil fields of unknown capacity and virgin forests covering many miles in extent, the port of Galveston, the nearest deep water port to all this wealth, could not help but prosper, but besides these features, this vast territory is peopled with a progressive citizenship and Galveston with a citizenship unequaled in its energy which has made possible the rapid advancement of the port until it stands second only to the port of New York in the value of its foreign exports. There is a vast field for speculation regarding the future of the port when the territory tributary to it is settled with industrious citizens, but in this directory it is the object of the publishers to deal only with facts as they now stand and to leave to the imagination of their readers visions of what Galveston will be ten years hence.

During the fiscal year which ended June 30 Galveston advanced in rank to second place as an exporting port. It also stood first among the ports of the world in export cotton, breaking all records during the past season by handling more than 1,000,000 bales more cotton than any other port in the United States. The rank of the port in the exportation of cattle, provisions, lumber, cotton seed products, flour and grain has also been maintained and advanced in many instances, Galveston no longer being a single commodity and single season port as in times past. Business has expanded in all lines, and among the features can be mentioned the wonderful growth of the trade between Galveston and Mexican and Cuban ports.

As an index of the commercial expansion of the port of Galveston, the following statement of the records broken during the government year of 1905-06 is given:

Some of the Records for the Year 1905-06.	
Value of foreign exports	\$166,239,884
The record by	21,361,896
An increase in five years of	42.1 per cent
Value of foreign imports	\$5,018,315
The record by	25,116
Value of cotton exported	130,374,719
The record by	21,976,008
Amount of cotton exported, 2,229,183 bales; pounds	1,237,823,073
Increase of 50,444,973 pounds; decrease of	
Amount of packing house products exported, pounds	30,557,821
The record by pounds	17,557,821
Amount of corn exported, bushels	13,620,736
The record by bushels	7,871,053
Exports of animals, 199,454 head	\$1,733,453
The record by, 9,395 head	84,765
Total value of lumber, etc., exported	3,178,078
The record by	692,404
Total value of mineral oils exported	3,417,614
sub-products	1,513,017
The record by	
Total bank clearings at Galveston	638,740,000
The record by	95,210,000
An increase of 15 per cent over previous record and 57.6 per cent in a period of ten years.	

Total custom receipts.....	527,685.11
The record by.....	142,786.02
Total foreign tonnage entered and cleared, 308 vessels; net tonnage.....	1,903,320
The record by 107 vessels and 225,675 tons net.	

The year made records in the exportation of many other commodities and in the importation of sugar, coffee, seeds, fish and many other items of foreign production.

Although there is handled through the port of Galveston large consignments of nearly every product of the soil, mines and factories of the West, cotton and cotton seed products continue to be the chief items of export. In these items the port excels as the following government statistics will show:

EXPORTS OF COTTON. Twelve Years Compared.

Year—	Bales.	Pounds.	Value.
1905-06.....	2,229,183	1,247,823,073	\$138,374,749

1894-95.....	112,469	41,781

Receipts of cotton at the port of Galveston are much heavier than foreign exports, Galveston sending coastwise from 500,000 to 600,000 bales each season.

In the exportation of grain the port of Galveston ranks among the highest in the country and is now entering upon a season which is destined to eclipse all previous seasons in this line of trade.

In the handling of the immense commerce flowing through the port of Galveston it took 308 ships of a total net tonnage of 1,903,320 tons in the foreign trade and 735 ships of a total net tonnage of 1,828,415 tons in the coastwise trade. The following tables of comparisons will not be without interest:

Foreign Tonnage. Compared with Previous Years.

Year—	Entered— No. Tons.	Cleared— No. Tons.
1905-06.....	374 810,827	531 1,092,905
1904-05.....	311 725,343	460 972,905
1903-01.....	303 685,593	368 913,278

Foreign Tonnage—Continued. Compared with Previous Years.

Year—	Entered— No. Tons.	Cleared— No. Tons.
1902-03.....	217 539,581	333 820,301
1901-02.....	262 681,696	304 697,457

1894-95.....	366 386,616	287 320,898

FACILITIES OF THE PORT.

The port of Galveston is probably the best equipped port for the rapid and economical handling of cargo in the United States, and for this reason visitors from various parts of the world are so impressed that they never fail to bestow many compliments upon the city and the citizens who have made the port what it is. Although there is room for the berthing of over 100 large vessels at the present time and covered wharves of the world are space of over 50 acres there is yet room for additional wharves, enough to handle the commerce of the entire West for nearly a century.

This linear frontage represents terminal grounds, exclusive of that in use by the Wharf Company, of 5277 acres, according to the figures of Capt. C. S. Riecke, formerly U. S. engineer in charge at this port, divided as follows:

At Bolivar.....	988 acres
From Ft. Point to Tenth st.....	58 "
From Fifty-first to LaPorte bridge.....	685 "
From Virginia Point to Dullar Point.....	748 "
Around Pelican island.....	2,088 "

These figures cover the area of unimproved land between harbor lines and mean low tide shore lines, Galveston harbor, and thus do not include 600 acres of Pelican island, above mean tide.

With one vessel lying abreast the pier the harbor frontage offers berth room for 529 vessels at one time, divided as follows:

1. Galveston City Company, east, channel frontage 2200 feet, will accommodate nine vessels.
2. Gulf, Colorado & Santa Fe railway, channel frontage 3300 feet, will accommodate 41 vessels.
3. Galveston City Company, west, channel frontage 3300 feet, will accommodate 41 vessels.
4. Huntington, or Southern Pacific, channel frontage 3800 feet, will accommodate 47 vessels.
5. West end flats, channel frontage 10,000 feet, will accommodate 125 vessels.
6. Galveston Wharf Company, channel frontage 12,200 feet, will accommodate 80 vessels.
7. Pelican flats, channel frontage 16,000 feet, will accommodate 200 vessels.

The facilities in the way of trackage and yard room of the railroads terminating at Galveston are as follows: The Gulf, Colorado & Santa Fe has 25 1/2 miles of yard tracks, which can be increased 31 miles. The present car capacity of these tracks is 2800, and this can be increased 2700. This does not include the East End property, which we estimate can be made to supply a wharf frontage of 2 7/10 miles, with a possible trackage of 18 miles, and a capacity of 2000 cars. We do not mean to convey the idea that there will be wharf frontage for 2 7/10 consecutive miles, but that the aggregate frontage afforded by ships, say, 400 feet wide and 1200 feet long, would be that much.

The Southern Pacific has a wharf yard with 42

miles of track laid, with a car capacity of 2200. They can increase this to 52 miles trackage and a possible yardage for 3600 cars. Their wharf frontage is 1 1-5 miles, with possible increase of 2 1/2 miles.

The Galveston, Houston & Henderson has trackage in their yard which will accommodate 2100 cars, with a reserve trackage room for 1700 cars.

The Wharf Company has 2 1/2 miles of trackage, capable of accommodating 2500 cars. This can be increased 26 miles, which will carry with it an increase in their capacity of 3050. Their present wharf frontage is 4 1-10 miles, which may be increased 1 mile.

It is possible to still further increase the wharf frontage of this port 20 miles, which will include all that territory south of the Southern Pacific wharf to the bridge, a part of which has already been acquired by the Rock Island Railroad at a cost of \$100,000, and Pelican Island. This property does not belong either to the railroads or to the Wharf Company, and we presume could be acquired by any other lines seeking entrance to this port, should they find that they can not be accommodated by the present facilities here afforded by the Wharf Company and others.

The Rock Island has already secured terminal grounds, and the St. Louis, Brownsville & Mexican road will be running trains into the city before the new year. With the railroad service already in operation, together with the lines contemplated, the port can not resist the impetus forward even if so inclined, and with the citizens co-operating as they do the city and port will take higher rank than it now has in the commercial world.

BANK CLEARINGS.

The introduction to this directory would not be complete without making some mention of the general prosperity of the citizens of Galveston.

When the raising of the grade was first started, the banks prepared to make generous loans to property holders to aid them in standing the expense of raising their houses, saving their trees and shrub-

bery and otherwise placing their property in condition after the filling. Very little of this money was called for, the citizens standing the extra expense without borrowing money from any source.

Business has generally been good with every person engaged while the demand for labor often exceeded the supply, and wages have been high.

As a general indication of the prosperity of the city we give below a statement of bank clearings for the fiscal year 1905-06, the increase over the previous year amounting to 15 per cent and the increase in 10 years amounting to 57.6 per cent.

Month—	1905-06.	1904-05.
July	\$41,255,000	\$29,292,000
August	46,711,000	34,173,000
September	51,805,000	48,118,000
October	61,830,000	71,291,000
November	67,764,000	60,318,000
December	65,021,000	54,793,000
January	53,306,000	45,220,000
February	46,819,000	35,034,000
March	49,043,000	42,830,000
April	48,015,000	40,861,000
May	49,475,000	42,006,000
June	49,320,000	39,561,000
Total	\$638,740,000	\$513,500,000
Increase	\$95,240,000	

This directory contains 19,161 names and shows a population of 35,474, an increase of 920 names and 1637 in population over the 1905 issue.

In conclusion we desire to thank the citizens for the many courtesies extended while engaged in obtaining the information for this edition, and the representative business and professional men of the city for the patronage they have given us to aid in producing this volume.

J. L. MULLEN & CO.

MEMPHIS, TENN.

TO THE HONORABLE SENATE OF THE STATE OF TENNESSEE
AND TO THE HOUSE OF REPRESENTATIVES
IN SENATE CHAMBERS, MEMPHIS, TENN., JANUARY 10, 1892.
SIR: I have the honor to acknowledge the receipt of your
favorable report of the proceedings of the
committee on the petition of the
people of the county of Shelby, for
the establishment of a
public library in that county,
and to inform you that the same
has been referred to the
committee on the subject of
public libraries, and that the
committee has the honor to
report in favor of the
establishment of a public library
in the county of Shelby, and
that the same has been
passed by the Senate and
House of Representatives,
and that the same has been
approved by the Governor,
and that the same has been
published in the laws of the
State of Tennessee, and that
the same is now in force.

DOMESTIC RATES OF POSTAGE.

(Apply also to mail matter sent to Cuba, Puerto Rico, Guam, Philippines, Canada and Mexico.)

First Class—Letters and sealed matter 2 cts for each ounce or fraction.

Second Class—Newspapers and periodicals 1 ct for each four ounces or fraction.

Third Class—Miscellaneous printed matter: 1 ct for each two ounces or fraction.

Fourth Class—All matter not included in first three classes: 1 ct for each ounce or fraction.

Special Delivery—A special (10c) delivery stamp, in addition to postage, secures immediate delivery at any United States postoffice.

FOREIGN POSTAGE RATES.

Letters and Sealed Matter—Five cents for each half ounce or fraction.

Postal Cards—Single, 2 cts each; double, 4 cts each.

Commercial Papers—One cent for each two ounces or fraction, but not less than 5 cts on each packet.

Printed Matter—One cent for each two ounces or fraction.

Samples of Merchandise—One cent for each two ounces or fraction, but not less than 2 cts on each packet.

Postal Money Orders may be obtained at or paid at \$5.00 money order offices in the United States, and may be drawn on 48 foreign countries. The fees for domestic orders range from 3 cts to 30 cts, and these rates apply to orders payable in Canada, Cuba, Newfoundland, the Philippines, Tutuila and the U. S. postal agency at Shanghai, China, international orders from 8 cts to 50 cts.

The Registry System—Letters containing money, or parcels of valuable matter, should not be sent in the mails without being registered. The registry fee is 8 cts in addition to postage, foreign or domestic. Safe transit and proper delivery are assured. A receipt signed by the addressee is returned to the sender, without extra cost. A domestic registered letter addressed to any United States postoffice is insured for its value up to \$25.

POSTOFFICES IN TEXAS.

From U. S. Official Postal Guide, J. B. Lyon Company, Printers, Albany, N. Y.

The postoffices in Texas are divided into four classes, the first being called presidential postoffices, for the reason that when the salary of a postmaster reaches the sum of one thousand dollars, the appointment by law vests in the president. In the fourth class is found nearly all the offices; the salary being less than one thousand dollars, the postmaster is appointed by the postmaster general. The first class contains all offices where the salary is at least three thousand dollars; the second class runs from two thousand to three thousand, and the third class from one thousand to two thousand dollars.

The population of the United States, as per census of 1900, was 76,295,220; of Texas, 3,048,710 (males, 1,578,900; females, 1,469,810. Total number of foreign-born, 179,357; total number of whites, 2,826,669; an increase in Texas of \$13,187, or 36.4 per cent, since 1890.

The total number of postoffices in Texas Aug. 1, 1907, was 2902, of which 9 are first class; 38 are second class; 196 are third class; 2440 fourth class; 219 presidential offices. The total number of money order offices was 1507, and 42 money order stations. There are 30 cities in the State which have free delivery service—Abilene, Austin, Beaumont, Bonham, Cleburne, Corsicana, Dallas, DeLeon, El Paso, Euless, Fort Worth, Gainesville, Galveston, Greenville, Hillsboro, Houston, Laredo, Marshall, McKinney, Palestine, Paris, San Antonio, Sherman, Temple, Terrell, Texarkana, Tyler, Waco, Waxahatchie and Weatherford.

United States Dredge "C. B. Comstock"—Pier 14. George M. Prendergast, master; Lewis D. Sinclair, recorder; Charles F. McCluskey, mate; Hans P. Hansen, mate.

WEATHER SERVICE.

United States Weather Bureau—Local office (5th floor) Trust bldg. Bernard Bunnemeyer, section director; Eugene E. Spencer, chief clk; Harris A. Jones, John D. Ludlie, asst observers; Henry C. Hirscoe, printer; Carl G. Nelson, messgr. The stations of observation in Texas are: Abilene, Amarillo, Corpus Christi, Del Rio, El Paso, Galveston, Palestine, San Antonio and Taylor. The daily cotton belt weather report is taken at 7 a. m. by special observers at Abilene, Ballinger, Beeville, Blanco, Brenham, Brownwood, Corpus Christi, Corsicana, Cuero, Dallas, Dublin, Ft. Worth, Galveston, Greenville, Henrietta, Houston, Huntsville, Kerrville, Lampasas, Longview, Luling, Mexia, Nacogdoches, Palestine, Paris, San Antonio, San Marcos, Sherman, Taylor, Temple, Waco, Waxahachie, Weatherford, Wharton. Issues a daily map showing weather conditions all over the United States, and prepares and distributes forecasts for Eastern Texas.

United States Department of Agriculture, Climatological Service—Issued weekly, monthly and annually. Office (5th floor) Trust bldg. B. Bunnemeyer, section director.

Climatological Service of the Weather Bureau (Texas Section)—Office (5th floor) Trust bldg. B. Bunnemeyer, section director Texas section of the climatological service.

Wind Signal Bulletin—A red flag with a black center indicates that the storm is expected to be of marked violence. The hurricane signal consists of two red flags with black center, displayed one above the other; night signal, red meteor rockets. The pennants displayed with the flags indicate the direction of the wind. Red: easterly (from northeast to south). White: westerly (from southwest to north). The pennant above the flag indicates that the wind is expected to blow from the northerly quadrant; below from the southerly quadrant. By night a red light will indicate easterly winds, and a white light above a red light will indicate westerly winds.

COURTS.

United States Circuit and District Courts, Southern District of Texas—Hon. Don A. Pardee, Atlanta, Ga.; Hon. Andrew P. McCormick, Dallas; Hon. D. D. Shelby, Huntsville, Alabama, circuit judges; Hon. Waller T. Burns, Houston, judge Southern dist; Christopher Dart, clk U. S. circuit and dist courts Southern dist; M. C. McLemore, U. S. atty; C. C. Brewster, marshal.

Galveston—Courthouses (3d floor) Customhouse bldg sw cor 25th, Church. Miss Gertrude Predecki, depy clk. Regular terms 2d Monday in Jan. and 1st Monday in June. Counties returnable: Austin, Fort Bend, Matagorda, Wharton, Brazoria, Galveston, Chambers.

FIRE DEPARTMENT.

Fire Limits—Avenue A on the north, or any reclaimed land between Ave A and the channel; the alley between Postoffice and Church, on the south; 19th on the east and 25th on the west.

John H. Gernand, chief of dept; **John F. Boyle**, asst chief; **T. W. Reeve**, secy; **John Oldenburg**, electrician fire alarm system.

City Fire Alarm Telegraph—Instructions to Key Holders.

Insert the key in the box, open the door, pull the hook on the inside door down one time and let go. In case of fire and you come to a glass front box break the glass, open the door and pull the hook. You will then hear the works in the box ticking. You will know then that the alarm has gone to the stations. Remain at the box so as to instruct the department as to the exact location of the fire upon its arrival.

Do not try to remove the key from the box, as it must be released by the chief or his assistant. Do not pull the box for a distant fire. Three single strokes, fire under control. Three times 9 9 9, general alarm.

Flavoring Extracts.

RELIABLE COFFEE & SPICE CO., 2006-2008 Mechanic. See ad, p. 19.

DO NOT ATTEMPT TO REPAIR OR ALTER THE SEALS OR VALVES OF THIS ENGINE. IF YOU DO, YOU WILL VOID THE WARRANTY.

BOOKER & LYONS

1. The first step in the process is to remove the old seal. This is done by using a seal puller or a similar tool. The seal puller is inserted into the groove of the seal and then pulled out, removing the seal from the engine block.

2. Once the old seal is removed, the next step is to clean the area. This is done by using a wire brush and a solvent. The wire brush is used to remove any dirt or debris from the area. The solvent is used to clean the area and remove any oil or grease.

3. After the area is clean, the next step is to install the new seal. This is done by using a seal driver or a similar tool. The seal driver is inserted into the groove of the seal and then pushed in, installing the seal into the engine block.

4. Once the new seal is installed, the next step is to check the fit. This is done by using a feeler gauge. The feeler gauge is inserted into the gap between the seal and the engine block. If the gap is too large, the seal is not seated properly. If the gap is too small, the seal is too tight. The gap should be just right.

5. Finally, the engine is started and the seal is tested. This is done by running the engine for a few minutes and then checking the oil level. If the oil level is low, the seal is leaking. If the oil level is high, the seal is not leaking. The seal is tested by running the engine for a few more minutes and then checking the oil level again. If the oil level is still low, the seal is leaking. If the oil level is still high, the seal is not leaking.

1. The first step in the process is to remove the old seal. This is done by using a seal puller or a similar tool. The seal puller is inserted into the groove of the seal and then pulled out, removing the seal from the engine block.

2. Once the old seal is removed, the next step is to clean the area. This is done by using a wire brush and a solvent. The wire brush is used to remove any dirt or debris from the area. The solvent is used to clean the area and remove any oil or grease.

3. After the area is clean, the next step is to install the new seal. This is done by using a seal driver or a similar tool. The seal driver is inserted into the groove of the seal and then pushed in, installing the seal into the engine block.

4. Once the new seal is installed, the next step is to check the fit. This is done by using a feeler gauge. The feeler gauge is inserted into the gap between the seal and the engine block. If the gap is too large, the seal is not seated properly. If the gap is too small, the seal is too tight. The gap should be just right.

5. Finally, the engine is started and the seal is tested. This is done by running the engine for a few minutes and then checking the oil level. If the oil level is low, the seal is leaking. If the oil level is high, the seal is not leaking. The seal is tested by running the engine for a few more minutes and then checking the oil level again. If the oil level is still low, the seal is leaking. If the oil level is still high, the seal is not leaking.

The [Name] building is a prime example of modern architecture. It features a series of interconnected volumes that create a sense of movement and flow. The design is characterized by its clean lines and use of high-quality materials. The building's location in the heart of the city makes it a central hub for business and commerce.

The building's design is a testament to the power of innovative thinking. It challenges traditional notions of what a building can be and sets a new standard for architectural excellence. The result is a structure that is both functional and aesthetically pleasing.

The building's design is a testament to the power of innovative thinking. It challenges traditional notions of what a building can be and sets a new standard for architectural excellence. The result is a structure that is both functional and aesthetically pleasing.
