Jules A. Appler.

Street, Avenue and Alley Guide

OF

SAN ANTONIO, TEXAS.

EXPLANATORY.

The main base lines and rules adopted for numbering the houses of the city are as follows:
Every 25 feet is entitled to a number.

All Streets, Avenues and Alleys crossing East Commerce number from it north and south as far east as Monumental, where North Commerce commences, which is the base line for all Streets, Avenues and Alleys running north and south which cross them.

Streets, Avenues and Alleys crossing West Commerce number from it north and south.

Streets and Avenues crossing San Antonio river number from it east and west.

Streets and Avenues crossing South Flores number from it east and west.

Streets, Avenues and Alleys crossing Main Avenue are called east and west and numbering starts from it east and west.

North and South Laredo are the base lines for all Streets, Avenues and Alleys extending west from them.

Fredericksburg Road is the base line for all Streets and Avenues extending west from it.

Upper Labor ditch (4 w) is the base line for all Streets and Avenues extending north from it.

Austin Street is the base line for all Streets and Avenues extending east from it.

HOUSE NUMBERS.

To find on which side of a Street, Avenue or Alley the even or odd numbers are, reference to the following rules adopted in numbering will give the desired information:

Those extending East and West; Even Nos. south side, odd Nos. north side.

Those extending North and South; Even Nos. east side, odd Nos. west side.

Those extending Northeast and Southwest; Even Nos. southeast side, odd Nos. northwest side.

Those extending Northwest and Southeast; Even Nos. northeast side, odd Nos. southwest side.

On any given Street, Avenue or Alley the relative location of a particular place or house is obtained by running down the column of figures, which are their numbers at the several Streets, Avenues or Alleys that intersect them. For example, to find 710 Avenue C, it will be seen that 700 is on the corner of Seventh and 800 on the corner of Eighth, hence 710 Avenue C is between Seventh and Eighth Streets. Where no Nos. are given after the names of Streets it is because they do not commence with a 100; frequently the corner is occupied with a house which has no number. As new Streets are opened and named and the house numbering extends, I will add them in my Street, Avenue and Alley Guide.

Entered according to act of Congress, in the year 1892, by

JULIUS A. APPLER,

in the office of the Librarian of Congress, at Washington, D. C.

The above copyright applies only to the "Street, Avenue and Alley Guide" or my method of locating streets, avenues, alleys and house numbers;

JULIUS A. APPLER.

ARMOUR'S BUTTERINE

ALAMO IRON WORKS
FOUNDRY AND MACHINISTS.

NATURAL HOT SULPHUR NATATORIUM

AT THE

Southwestern ❖ Park,

C. SCHEUERMEYER.

The springs arise from an artesian well, 1,822 feet deep. The temperature is 104 degrees. The best scientific authorities are recommending its healing powers for

Rheumatism, Kidney, Liver and Skin Diseases

as well as in all cases of blood poisoning and diseases arising from it.

MINERAL WATER ANALYSIS.

Results estimated in grains per U. S. standard gallon, at the State University, Austin, Texas.

Sulphate of Magnesia.....	28.4592	Carbonate of Lythia.....	trace
Sulphate of Potassa.....	2.5279	Sesqui oxide of Iron.....	.1341
Sulphate of Lime.....	126.3693	Aluminium Oxide.....	.0482
Sulphate of Strontia.....	.6417	Silica Dioxide.....	.4722
Sulphate of Baryta.....	trace	Phosphate of Soda.....	.0246
Chloride of Sodium.....	64.7738	Iodide of Sodium.....	.0164
Chloride of Magnesium.....	13.9496	Bromide of Sodium.....	.3612
Carbonate of Magnesia.....	13.2440	Organic matter.....	46.3628
Total solids per gallon.....	297.3851		
At 60-o F. —cubic inches of gas per gallon.			
Sulphurated hydrogen gas.....	1.5355		
Carbonic acid gas.....	3.7919		

Signed by

G. H. WOOTEN, Chemist.

The public in general is invited to visit the springs. No use to go outside of the state to Topo Chico, Mexico, or Hot Springs, Arkansas, as these springs are not only equal, but superior to them.

EVERY VISITOR TO THE CITY SHOULD SEE **BEAUTIFUL WEST END**

The finest artificial lake in the south, lighted at night by electric lights.

Beautiful architectural beauty of over 200 houses.

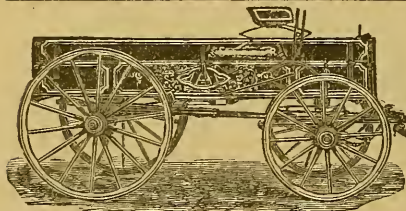

The finest electric car system in the state.

Fine artesian wells, flowing thousands of gallons of water every hour.

Its phenomenal success is due to the pure air, attractive features and beautiful location.

Handsome dancing pavilion and boats for rowing on the lake.

Cars leave corner of Houston and Main Avenue every fifteen minutes for the place.

ESTABLISHED 1855.

GEO. ECKENROTH,

Manufacturer and Dealer in

Buggies, ♦ Carriages, ♦ Ambulances, Spring Wagons.

REPAIRING OF ALL KINDS DONE PROMPTLY.

412 & 414 Market Street, Near Navarro, - SAN ANTONIO, TEXAS.

San Antonio Cornice and Ornamental Works,

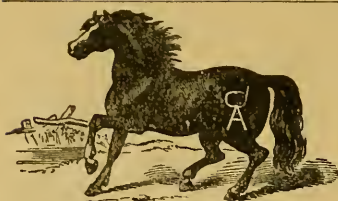

WHITE & SCHUTZE, Props.

Contractors of Galvanized Iron Cornices, Metallic Sky-Lights, Railings
Crestings, Tin and Metal Shingle Roofing, Also, Iron-Clad
Siding and Heavy Sheet Iron Work.

ADVANTAGES OFFERED

—BY THE—

Pacific Mutual

Life Insurance Co. of California.

ABSOLUTE SECURITY.

No Company other than THE PACIFIC MUTUAL affords the positive safety provided by the laws of California. This State is the only one which makes Stockholders responsible for all the Company's liabilities; no other State has such stringent laws governing the organization, conduct and supervision of life insurance companies. Besides which the Company's great financial strength, its past history and payments, attest its superior ability to meet its claims whenever they may mature.

UNRESTRICTED RESIDENCE OR TRAVEL.

Your business may call you to distant or foreign parts for residence or travel: whenever and wherever this may be, THE PACIFIC MUTUAL protects you from the beginning. It does not delay the protection for a term of years as many other companies do. Issues the most approved forms of Life and Endowment

Location of Fire Alarm Boxes and Keys to Same.

To give an alarm of fire, procure a key from a key-holder of a box nearest the fire, place the key in the lock of the box and turn it just as you would on an ordinary door lock.

Should an alarm be given from box 126, the bells strike once, then pause a few seconds, then strike twice, then pause a few seconds, then strike six times. The alarm is repeated three times by the bells in the engine houses.

Location of Boxes and Keys.

All Police and Sanitary Officers have keys.

The following parties have keys: A. I. Lockwood, 905 Avenue D; J. H. Erkener, Jake Weber, Alderman; E. P. Claudon, City Clerk; A. M. Cohen, City Auditor; L. P. Peck, Chief of Fire Department.

FIRST FIRE LIMITS.

The City Council, by an amendment to Sections 13 and 14 of Chapter XXI of the Revised Ordinances, passed and approved May 2, 1892, established the following as the first fire limits and Inner Fire District:

SECTION 13. That the following be and are hereby declared to be the first fire limits: Beginning at Convent bridge, thence up the river to Fourth street, thence along Fourth street to Nacogdoches street and Bowie street, thence along Bowie street to East Commerce street, thence along East Commerce street to Water street, thence along Water to South Alamo street, thence along South Alamo to Martinez street, thence along Martinez street to the river. thence along the river to Guilbeau street, thence along Guilbeau street to San Pedro creek, (where continuation of Guilbeau street intersects said creek,) thence along creek to public alley leading into South Laredo street, thence along South Laredo street to Durango street, thence along Durango street to South San Saba street, thence along South San Saba street to North San Saba street, thence along North San Saba street to Morales street, thence along Morales street to the San Pedro creek, thence along said creek to a point where West Rodriguez street will intersect San Pedro creek. thence along said line and West Rodriguez street to East Rodriguez street, thence along East Rodriguez street to San Antonio river, thence along said river to the point of beginning.

SECTION 14. That it shall be unlawful for any person to build or repair any building with lumber or other combustible material, whether ironclad or otherwise, when such building has been damaged to the extent of 50 per cent. of the value thereof, (privies and open sheds, when covered with metal, excepted,) or to roof, or to repair the roof of any building with any material not fire proof, or to remove any lumber or ironclad building from one place to another, within the following boundaries, which is hereby declared to be the Inner Fire District, to-wit: Beginning at the river where the continuation of Travis street will intersect river. thence along Travis street to Avenue D, thence along Avenue D to Third street, thence along Third street to the alley connecting with same on the east end, thence along said alley to Nacogdoches street, thence along Nachogdoches street to Bonham street, thence along Bonham street to East Commerce street, thence along East Commerce street to Alamo ditch, thence along said ditch to North street, thence along North street to South Alamo street, thence along South Alamo street to East Nueva and West Nueva streets to South East street, thence along South East and North East streets to Obraje street, thence along Obraje street to the San Antonio river at a point where continuation of Obraje street would intersect the river, thence along river to the point of beginning. The extent of damages to buildings, as aforesaid, shall be ascertained by the Board of Fire directors and certified by the Chief of the Fire Department to the City Council. Outside or beyond the limits designated herein, and within the fire limits designated in Section 13 hereof, lumber and ironclad buildings, when roofed with fire proof material, may be erected, provided that the premises shall be first inspected by the Fire Committee and permission granted by the City Council; Provided, however, that no permit shall be granted for any such building, until plans and specifications for such building or buildings have been first submitted to said Fire Committee and by them approved; and the person or persons granted any such permit, shall conform such building strictly with such plans and specifications so submitted and approved. By an ironclad building is meant a skeleton wood frame covered with sheet iron, not less in thickness than No. 26, in 24-28 inch sheets, to be put on in whole sheets where space will permit, and to be nailed not more than two inches from centers. Any person who shall erect or proceed to erect any building, without complying with the provisions hereof, shall be deemed guilty of an offense. Each and every day he continues to erect such building or allows the same to remain contrary to any of the provisions of this Section, shall constitute a separate offense.
