Normal School Growth Illustrated as 265 Diplomas Are Given

ATHENS, Ga., May 29.—Development of the State Normal school under the administration of Dr. Jere M. Pound was brought to the fore here this when visitors attended the graduation of 265 girls and men—making them qualified to instruct the children of the public school systems.

Only a few years ago the State Normal had a student body of two or three hundred. Now it has over six hundred and already reservations have been received for every available bed in the dormitories for next year except accommodations for about one hundred.

The State Normal exercises Wednesday closed the year when Dr. W. A. Shelton, dean of the College of Liberal Arts of Emory university, delivered the baccalaureate address. Dr. Shelton reviewed the history of mechanical and physical progress, and ended by declaring that the progress made in the educational and spiritual world is even greater than that of the physical world because it prepares men to better enjoy the purpose of God in the universe. He said it used to be that education was meant to prepare a person for earning more money. Now it prepares them to serve more even unto sacrificing themselves to the higher society, relegating the money considerations to the rear.

The board of trustees closed its session here also Wednesday after electing E. S. Miller, of Columbus, president; Mrs. James E. Hays, of Montezuma, vice president; G. A. Mell, of Athens, secretary-treasurer. The faculty and President Pound were re-elected. The board decided to raise for \$110,000 maintenance \$75,000 for a gymnasium building.
