

I William S Fleming of the county of Fleming
wishing to die intestate & there being infirmity
and the time of death uncertain I do make
as my last will and testament. It is my wish
he be buried in my own lot immediately west of my
fe and a like tomb erected. I owe but little
but that is first to be paid I have enough at
home & on deposit in the store to do that.
I want the partnership between John Danoldson
& myself to continue (if he pleases) until Geo. S
Fleming arrives at age and my family as heretofore
supported out of my share profits. If my son Charles
shall prove to be steady & a man of business he may
go into the store at the age of Twenty one & receive
one half of my profits with the then assent of
Mr. Danoldson I want all my children to be made
equine those that are not so in land must have
the money or Negroes, my son Charles is to have
my town property including the Sugar tree
late now rented to Cochran; my son John Thomas
to have all that part of my farm lying north of
James Branch to where it intersects James Lane
my son George Stratton to have the resi-
dual of my Farm all with the Exceptions I
hereafter make, I wish that my present
house shall be a home for my sister in
law & such of ^{her} family as live with her
until my son George arrives at the age of
21 years to be supported in the House hold
as heretofore at my expence which is to be
done by my son. She is to retain for her
house

551 enable her to raise my children, my debt
put out at Interest for their use, the balance
hired out or such of them as my Executors here
shall think fit and if at any time
shall misbehave or attempt to run off my
authorised to sell them but such as behave
to be treated with humanity, Tillah is an exception
she is to live with the family & to be treated well, until
arrives at 21 years at which time I give her to
changing him to treat with the same attention &
anxiety she has in raising him this free of charge
House hold & Kitchen furniture, my carriage
as may be necessary for the family are not
such other articles as my Executors or a majority
proper at the division my hold, is to be y
George as an appendage to the house yet if
or John should marry before they may
as their aunt or my Executors choose to, say
& my Executors may advance them or Loan to
Negroes without charge until divided
my watch when he is 21 years old
nious books are to be kept and
Books may be sold if a fair price
them or kept and divided I give
or a majority of them or such as
Survivor full power and authority
deeds where I am to do so and to sell
full my out lands & there are or to
to place a

division of the residue not taking any thing
consideration Specifically devised, as follows:
I will may wish to live here longer than
I shall arrive at age, I charge him with
providing her a home in his house and pro-
viding for her as I have done my dear wife and
to put an estimate upon it & charge the other
two each with one third. I want my sons to be
well educated & the inst. on my table of Negroes
& rents will be more than sufficient, but for
Gods sake send them no where where they
will learn to dipitate & play cards

I appoint my Brother Thomas Fleming, my
in Law Daniel Morgan & my Nephew John
Coldson Executors of this my last will and
testament, and I have every reliance they will
do my children justice and with this view I have
in discretionary powers I now repeat it and
renew they shall act as they think for the
best advantage of my children they are not
to be responsible and in case at any time a
doubt about this my will or the construction
they are to be the judges and decide
as I revoke all other wills lastly I have
the whole with my own pen hereby
this shall be my last will as
it given under my hand & seal
