WHEELER'S EXPEDITION.

From a gentleman who accompanied the expedi-
tion, we derive some facts and inferences that may
be of interest to our readers.

The command left Covington on the 10th of Au-
gust, and was compelled to make quite a circuit to
cross the Chattahoochee river and avoid the forts
of the enemy.

La North Georgia, Col. Hannon, was ordered to
strike the railroad near Calhoun, which he did
promptly and vigorously, capturing a train of cars,
a number of prisoners and a thousand beef cattle.
To save the cattle, his command returned to the
army.

The succeeding day, General Martin was ordered
to strike the road at Dalton, but from some cause,
his movements were tardy, and but little was ac-
complished. Gen. Wheeler, with what remained
of his command—Gen. Williams not having yet
joined him—attacked the enemy at Dalton, took the
town, destroyed a large quantity of tents and com-
missary stores, capturing some prisoners, wagons
and mules. Next morning an infantry force hav-
ing been sent down from Chutanooka to obstruct
our progress towards Tunnel Hill, Gen. Wheeler
retired from the town and started towards Cleve-
land, so as to cross the Tennessee river at Cotton
port.

At this point the river, from recent rains, was un-
fordable. This necessitated a delay of several days
or a tedious detour around Knoxville to find cross-
ings. The latter plan was adopted, and about twen-
ty miles of the road was destroyed. Crossing the
Holston river near Strawberry Plains, the command
marched a westerly course through Sparta, South-
ville and Liberty, until the Nashville and Chatta-
nooga road was reached in Murfreesboro. On both
sides of Smyrna and Laverigne the road was torn
up and burned for the space of ten miles. Some
fighting occurred and during it imprudent to at-
tack Nashville, the command marched across to the
Nashville and Decatur road, striking it near Frank-
lin.

About twelve miles of this road was destroyed.
Two of three engagements were had with the ene-
my, one of which fell the gallant and beloved
young officer, Gen. John Kelly, commanding a di-
vision, at the age of twenty-four. He had endeared
himself to his troops and gave promises of large
usefulness, if his life had been spared. Gen. Ros-
seau had collected a large force, seriously inter-
fering with work on the railroad, and Gen. Wheel-
er crossed the Tennessee at Clarksville to ef-
fect a junction with Gen. Martin and await the com-
ing up of the brigade of Williams and Robertson.

These troops, under the command of Gen. W., had
been detached near Strawberry Plains to join in the
next or succeeding day, but although repeatedly or-
dered up, had, from some unknown cause, not suc-
ceeded in so doing, as late as the 20th of this month.

The high waters and the absence of two brigades
were obstacles to the complete success of this ex-
pedition that no sagacity could have foreseen.

The Yankee papers are guilty of their usual men-
dacity in asserting that no damage was done. For
two weeks no trains were run through north of
Chattanooga, and the first through trip was made
on the 18th of September.

Much unnecessary and unjust censure has been
cast on Gen. Wheeler for the alleged failure of his
miscalculation. The men in the river and the di-
minution of his command are attributable to no
want of skill or to negligence on his part. While
on the lines of communication, it is well known to
cavalry officers and soldiers, that the work of es-
tration was prosecuted vigorously and effectively.
Wisely, fights were avoided, which possible, with
the enemy, as prisoners were an encumbrance; pa-
rols would not be recognized, and our wounded
would have to be left in the enemy's hands. Besides
Sherman could not be injured by fighting, and a
long as the cavalry are in line of battle no work
could be done.

The crops in Tennessee are quite abundant. In
the eastern portion of the State, where Johnson's
and Brownlow's and Maynard's influence predom-
inates, there are many Tories. In Middle Tennes-
see there is almost unbroken unanimity of senti-
ment in favor of the South. While there are few
men who have not been compelled to submit to the
hateful path, it is mostly on many consciences,
and from the loyal and true, the soldiers experienced
nothing but kindness and sympathy.

Without actual personal acquaintance with the
condition of affairs in the overruled districts no one
can realize the extent and severity of Yankee ty-
ranny. It is as oppressive as the air we breathe, op-
erating at home and abroad, and sitting like a night-
mare on every energy, passion and emotion. The

The Richmond Examiner considers that the final
uggle for the possession of Richmond and of
ginia is now near. The war is drawing to a
so, and if we hold Richmond till the first of No-
ber, it will be ours forever more. This re-
ed effort on the part of the enemy is due, the

WAR NEWS.

he news by yesterday's telegrams was very in-
-esting.
Virginia, Sheridan, notwithstanding his late
and victory," which has set all Yankeeedom in
tactics, is officially reported to be again retreating
ore Early. We suspect he has found Early too
gerous an antagonist to trust with the benefit of
g lines of communication, and this advance upon
r near of Richmond by the Valley has been aban-
ed. Around the capital of Virginia the grand
final struggle has at length opened and an im-
tant battle was fought on Friday with advanta-
ous results to the Confederates. It is probable
present week will be signalized by heavy fight-

in Georgia, we are looking, daily for important
ents. It is believed that all of Sherman's army,
cept a single corps, has left Atlanta in pursuit of
ood, who is playing the wild with Sherman's com-
munications. Reports all concur in representing
at with the exception of the single article of hard
ad, Sherman's commissariat is in a desperate
dition. He has been industriously engaged in
raging through all the neighboring counties, but
is believed, with no important results. Meat, fresh
salted, flour, meat and corn are commodities ex-
ceedingly scarce. If not altogether exhausted in At-
lanta. Draft and cavalry horses are subsisted
holly upon the forage obtained from the vicinity,
and this must be quite insufficient. Sherman's con-
dition is believed to be desperate. If he cannot
peedily overtake and destroy Hood and open his
communications to Chattanooga, but beyond that
military depot is the ubiquitous Forrest, busily
and constantly engaged in destroying all the means of
sustaining the commissaries from the Ohio river.
The situation on both sides is critical, but if Hood
can keep up his supplies, Sherman must evacuate
Georgia in no great length of time. A fortnight or
three weeks will determine this point.

The operations of Price in Missouri demand
a close attention. He is now upon the St. Louis
and Iron Mountain railroad, evidently not more
than twenty-five or thirty miles from St. Louis. His
cavalry, according to the Yankee accounts, have
