

The Chancery Court Order Book was examined for evidence marriages. Usually the references were found in the list involved in court suits. In many instances direct evidence the marriage exists; in other cases only an inference exists. In the latter case, the surname of the bride is marked with parentheses.

It is noted that the date of the suit is not a marriage but only an indication that a marriage had occurred prior date.

The format used includes the page number in the Chancery Court Order Book, the court date, the names of the man and woman and additional remarks. Standard abbreviations are used.
