Senator Hoar enjoyed his New

Year's day dinner less than his

Christmas dinner. It was pos-

sible. Senator Brewster spilled his

Christmas dinner by his speech

against the Force bill and his

apetite for his dinner yesterday

was killed by a grand triple attack

upon his political position, upon

the South by Senator's "Woolcut,"

Teller and Hale. The first named

Senator fired broadside after broad-

side into the Force bill of manue-

able argument, the ground work of

his logic being opposition to enact-

ing a law for the purpose of plac-

ing an acknowledged ignorant and

incompetent majority over an intelli-

gent minority. He stated plainly

that if there were a majority of in-

competent negro voters in the State of

Colorado, solidly opposed to the

intelligent white voters, that in

white vote would govern. That he

is a broad gauge man the following

words from his speech will demon-

strate. "For a quarter of a century

out from poverty and despair, the

South has been reaching forth its

efforts to plant its foot on the

rock of material prosperity; and

view of the marvellous growth and

transformation now taking place in

the Southern States, I believe it

would be unwise and unparliament-

ary to interfere in the conduct of its

internal affairs.

Senator Teller's speech was a ring-

ing demand for the shelving of the

Force bill and the enactment of the

financial legislation demanded by the

people of the country, which he de-

scribed as being on the very verge

of a financial panic.

order that other and more impor-

tant legislation might have a chance.

Mr. Hale also took occasion to give

the clover, or pig rule now pending,

which he says is altogether needless,

a few hard rap.

These things all in

markable speeches ever made in

And yet, there is a well grounded

fear on the part of democratic Sena-

## THE VIRGINIAN

WEDNESDAY, JAN. 18, 1893.

Washington Letter.

(From our Washington Correspondent.)

Washington, D. C., Dec. 26, '90.

Mr. Harrison now fully realizes the ancient adage "There's many a slip 'a' the sea." It would be hard to find a more disgraced man, just as he thought the plan was all set up for the passage of the Force bill, by which he expects to obtain another term in the White House, than the man who is now in the hands of the law, and who is being held in custody by the United States Marshal at the St. Louis Hotel. The charge that the result was brought about by a bargain between the democrats and the silver republicans was too silly to be taken seriously. The prominent gentlemen on both sides have given to it the same verdict, "entered," the fight against the Force bill determined to take advantage of any opportunity that might offer to defend it, and they were fortunate enough not only to succeed in having the measure passed, but to have it before Congress before the silver republicans could get up a bill, which, when amended, will afford the country a much needed financial relief.

It is hoped that the financial bill will be disposed of in the Senate in a few days, and it will, unless the republicans can succeed in whipping enough of their Senators into agreeing to take up the Force bill again, or the anti-silver republicans, who are now balking up some mischief, unless all signs fail, shall resort to filibustering to prevent a vote.

It passed the Senate Speaker Reed and Mr. Harrison will have a hard time to stop it in the House, and it is extremely doubtful whether Mr. Harrison, in view of this candidate for a re-nomination, will attempt to vote it, as he would otherwise like to do. Democrats are feeling very jubilant over their victory, as they have a right to do; it was fairly earned, and it was a fair result of the struggle upon the question of the Senate, so valiant and the inconvenience might be to individual Senators.

How the mighty have fallen! Ex-Senator Mahone, who once posed as the star of the United States Senate, is now dividing his time between poker playing and lobbying. He has a piece of "made" ground, which he bought for a song, that he wants to sell to the Government at an exorbitant price as a site for the new Government Printing Office, and he is lobbying to carry out his design. He also has another scheme that he thinks will be successful. He has "millionaires in it," provided the Force bill ever becomes a law, in the shape of a patent ballot box, ostensibly owned by his son, which he calculates to sell to the Government, to be used at every voting precinct in the United States. He will have to work fast, as after the fourth of next March the name of Mahone will be all that will be needed to kill any measure that gets before the democratic House.

The administration seems to be making a big mistake of Indian matter as it has everything else. It has launched a resolution, offered by Representative McAdoo, has been adopted by the House, providing for an investigation of the killing of Sitting Bull, and it is believed that the investigation will expose a shameful state of affairs.

The House is still hammering away on the Shipping bill, and its friends claim that its passage is assured, but this is not conceded by its opponents, who are numerous and energetic.

At last the correspondence of the Shipping bill matter, which was asked for months ago, at the last session, has been laid before Congress. I cannot give a better idea of what is thought of it than by quoting the remarks of Mr. McAdoo, who was chairman of the House committee on Foreign Affairs in the last House. He says: "The dues have arrived for Mr. Blaine to apply the vigorous policy."

Washington, D. C., Dec. 26, '90.

The democratic members of the Senate Committee have made a minority report on the Apportionment bill, favoring an amendment giving Arkansas, Minnesota and New York one member each apiece, because of the large fraction each of those States has after dividing the population by the number required per Representative. This, if adopted, would make the total membership of the House 559. The two new Senators from Idaho, who cast their maiden votes to lay aside the Force bill, have according to custom drawn lots to decide upon their respective terms. Mr. Shoup got the long term which expires March 4, 1895, and Mr. McConnell the short term, which ends with the present Congress.

## AN HISTORICAL OAK.

Relics from southern battlefields are still finding their way to the north, and they excite a good deal of interest among the veterans. At the office of Frederick E. Hovey there has arrived a section of an oak tree about 41 feet long and 19 inches through. It was produced as a relic from a farmer at Chickamauga for \$3, and he secured another dollar for carrying it to the railroad, nine miles away. It was shipped July 10, and should have arrived here weeks ago, but the war was so tracked during the strike and did not arrive here until this month. This piece of oak is deeply imbedded with shells. There are two whole shells, three halves and four small pieces. The cap on one of these shells is three inches in diameter and a few letters can be deciphered on it which might tell its make. The pieces have grooves in and are partly covered by gnawed oak. This tree stood very close to the headquarters of Gen. Thomas on Sept. 18, 1865, at the battle of Chickamauga, Providence, Georgia.

I never saw a petted, pampered girl who is yielded to in every whim by servants, and parents, that I do not sigh with pity for the man who will some day be her husband. It is the worst kind of danger, who has been taught that her whims and wishes are supreme in a household, who makes marriage a failure all her life. She has her way in things great and small; and when she does three diseases, pleasure of journey, which are beyond the family purse, she carries the day with tears or sulks, or pouting as a martyr. The parents murmur and suffer for her sake hoping finally to see her well married. They carefully hide her faults from the suitors who seek her hand, and she is every day with smiles and attentions to win the hearts of men, and the average man is blind to the faults of a pretty girl as a newly married bride is blind to the worst upon the traces about him. He thinks her pettish ways are more girlish moods; but when she becomes his wife and reveals her selfish and cruel nature he is grieved and hurt to think fate has been so unkind to him.

This, if adopted, would make the total membership of the House 559. The two new Senators from Idaho, who cast their maiden votes to lay aside the Force bill, have according to custom drawn lots to decide upon their respective terms. Mr. Shoup got the long term which expires March 4, 1895, and Mr. McConnell the short term, which ends with the present Congress.

The democratic members of the Senate Committee have made a minority report on the Apportionment bill, favoring an amendment giving Arkansas, Minnesota and New York one member each apiece, because of the large fraction each of those States has after dividing the population by the number required per Representative. This, if adopted, would make the total membership of the House 559. The two new Senators from Idaho, who cast their maiden votes to lay aside the Force bill, have according to custom drawn lots to decide upon their respective terms. ## AN HISTORICAL OAK.

Relics from southern battlefields are still finding their way to the north, and they excite a good deal of interest among the veterans. At the office of Frederick E. Hovey there has arrived a section of an oak tree about 41 feet long and 19 inches through. It was produced as a relic from a farmer at Chickamauga for \$3, and he secured another dollar for carrying it to the railroad, nine miles away. It was shipped July 10, and should have arrived here weeks ago, but the war was so tracked during the strike and did not arrive here until this month. This piece of oak is deeply imbedded with shells. There are two whole shells, three halves and four small pieces. The cap on one of these shells is three inches in diameter and a few letters can be deciphered on it which might tell its make. The pieces have grooves in and are partly covered by gnawed oak. This tree stood very close to the headquarters of Gen. Thomas on Sept. 18, 1865, at the battle of Chickamauga, Providence, Georgia.

## Girls who Make Poor Wives.

I never saw a petted, pampered girl who is yielded to in every whim by servants, and parents, that I do not sigh with pity for the man who will some day be her husband. It is the worst kind of danger, who has been taught that her whims and wishes are supreme in a household, who makes marriage a failure all her life. She has her way in things great and small; and when she does three diseases, pleasure of journey, which are beyond the family purse, she carries the day with tears or sulks, or pouting as a martyr. The parents murmur and suffer for her sake hoping finally to see her well married. They carefully hide her faults from the suitors who seek her hand, and she is every day with smiles and attentions to win the hearts of men, and the average man is blind to the faults of a pretty girl as a newly married bride is blind to the worst upon the traces about him. He thinks her pettish ways are more girlish moods; but when she becomes his wife and reveals her selfish and cruel nature he is grieved and hurt to think fate has been so unkind to him.

## A Deaf.

Wife—Have you brought home anything pretty for me?  
Unconscious Husband—Yes, myself. I looked everywhere, but there was nothing handsome to be found in the whole city. (Tears filling eyes.)

## Blind's Mother.

"There, you naughty boy! You've dropped your bread on the new carpet with the better side down."  
"Za! all right, mother. The target was every bit as good!" (Harper's Bazar.)

## Would That Be a Crime?

Susan—Why did you yell, "Stop thief!" at the man who was running toward the railroad station?  
Hedda—I saw that he was going to take a car. (New York Herald.)

THURSDAY, Feb. 29, 1906.

Washington Letter.

(From our Regular Correspondent.)

Washington, D. C., Jan. 28, 1906.

Senator Gorman is proving him-

self more than a match for the re-

publican Senators, and he is still con-

fident that with the help of the re-

publican support of democratic

Senators and the moral support of

the conservative masses of the coun-

try, the Force bill and its revision

can be defeated. His fairly and

equally outbalanced the republic-

ans when they attempted to wear

the democracy by a continuous

night and day session of the Senate,

and now he is winning new politi-

cally laurels by the manner in

which he is blocking the republican

attempt to force a vote upon Sena-

tor Aldrich's gag resolution. His

complete support of democratic

Senators and Mr. McKim to acknow-

ledge that he had made an erroneous

prediction. The republicans have but

one hope of succeeding, and that is

in the President's action—making

an arbitrary decision in their favor,

and the probabilities are rather in

favor of his doing so, although it

will be because of the vote upon Sena-

tor Aldrich's gag resolution. His

one hope of succeeding, and that is

in the President's action—making

speculation been made public before

his election. There are other big

republicans who will be exposed if

the committee does its duty without

fear or favor.

The latest action of Reed and his

brother-in-law in the House to force

the silver republican Senators to vote for

the Force Bill is outlined in the an-

ouncement that the House commit-

tee on coinage, before which the free

coinage bill now is, will not report

that measure to the House until the

Senate passes the Force bill. It re-

maines to be seen how the silver re-

publicans in the House will take

this. They will be given an oppor-

tunity of voting with the democrats

to discharge the committee and take

the bill up to the House. Repre-

sentative Reed has already offered a

substitute for a resolution to be re-

ported from the committee on Rea-

lism to limit the debate on the appropri-

ate bill, making the free coinage

bill a conditional order from and after

January 27th.

Resigning the Speaker.

It was a prayer of George Har-

ber that he might wholly be left to

the reign of the odds of his life to the

will of God, to be moved "as I

may love shall away." How much

freedom, how much worry it would

have been as all if we asked our life

to be moved as we would move it, as

the other one with him, thought

the hunter; but instead of that a

second one comes out, and while the

hunter waited for him to go inside

another came through the door. It

would certainly be too bad to spring

the door now, and so Davis waited

and every turkey but one came

out.

"Well, I'll make sure of him!"

said the hunter to himself, and he

opened the door.

"That's about as silly a performance

as I've ever guilty of," said the

eighteen hunters, "said the old one

in telling the story afterwards.

John Davis was a famous turkey

hunter in South western Ohio a few

years ago. He caught hundreds of

the birds every year, and was said to

be possessed of quite a handsome

property accumulated in this way.

One of his favorite methods of capt-

uring his game was by what he call-

ed a "spring trap." This was a small

log house, with a big door which

shut with a spring, managed by the

hunter.

A trail of corn was laid from the

door for a quarter of a mile into the

brush. The unsuspecting turkeys

would follow this track of corn, and

marsh inside, where presto! the door

closed with a snap, and they were

caught.

One day Mr. Davis was tending

the door of this spring trap, when

to his delight, he saw twenty fine,

large turkeys approaching. They

came up to the entrance. The first

one ventured in, then the second and

the third, until nineteen, were in the

log-house. The twentieth bird lin-

gered, and Mr. Davis waited, tooth

to clean the door without him.

He was sure of nineteen, but the

last one was a fine fellow, and he

couldn't bear the thought of losing him.

While he waited, one of the tur-

keys inside struck his head out of the

door, and then hopped outside.

"He'll go back in a minute, and

the other one with him," thought

the hunter; but instead of that a

second one comes out, and while the

hunter waited for him to go inside

another came through the door. It

would certainly be too bad to spring

the door now, and so Davis waited

and every turkey but one came

out.

said the hunter to himself, and he

opened the door.

President Harrison Announces the Death of a Man in a Message to Congress.

After Passing Resolutions Entering the Dead Soldier.

New York, February 14.—General Sherman died at 1:50 o'clock this evening. General Sherman has been in charge of the funeral arrangements. General Sherman will be buried at St. Louis.

The news of the death of General Sherman was conveyed to the republicans by the postman who stood on guard outside the house. From Secretary Barrett it was learned that General Sherman had remained unconscious to the last, dying with a smile on his face.

The general passed away without speaking to any member of his family, who were gathered about the bed. The funeral services will be held at 1:50 p. m. The funeral services will be held at 1:50 p. m.

After the practical killing of the bill, the Senate early this week and most of the time to the regular session of the Senate.

The radical republicans are breathing some derision in connection with the bill, but the democrats are wide awake.

Washington Letter.

(From our Regular Correspondent.)

WASHINGTON, D. C., Jan. 25, '90.

Senator Plumb does not agree with the majority of his party upon financial matters, nor upon the tariff, but when it comes to a question of the Government rap, which is the key-note of the day, the republicans are all in a row.

He has introduced a joint resolution providing that stenographers, clerks, and messengers, and all other employees of the Government shall be eligible for transfer to the classified service in any of the Government departments. This means that a couple of thousand republicans are going to be put into the regular Government service without going through a civil service examination; it also means that all of the democrats now in the classified service are to be discharged to make room for the republicans.

Mr. Plumb's bill is a colossal mistake, and there would be no grief if it was repealed tomorrow, but that is not the case. The bill is a colossal mistake, and there would be no grief if it was repealed tomorrow, but that is not the case.

He is a pretty thick-skinned man who cannot in three days be reached by public opinion. Representative Dingley has found it necessary to defend his silver pool investigating committee from the charge of not attempting to get all of the information possible out of the witnesses.

Oswald, who was before the committee last week. Mr. Dingley's denial is a confession of the committee's charge. He says the committee was anxious to have Oswald testify to what he had personally seen, but that it is objected to his giving hearsay evidence, and that the Dingley knows very well that two eminent republicans, Senator Cameron and Representative Taylor, of Iowa,

Illinois, were first brought out by hearsay evidence, but perhaps that was the very reason that he objected to any more of it. He doesn't want to see republicans found out, and they are not likely to be, unless some enterprising newspaper man does.

Mr. Blaine has scored another knock down on McKinley, Reed, and company by concluding the negotiation of a reciprocity treaty with Venezuela.

True the trade of Venezuela isn't very great, but it will serve to bring out the latitudes of McKinley tariff law, and for that reason, if for no other it is desirable.

Mr. Cleveland's letter in opposition to free coinage, published here this week, shows that his backbone is as strong as it was when he wrote the famous tariff message upon which the campaign of '88 was fought. Manifestly always or not, manifestly a free coinage or not, he agrees with his predecessor on this point.

It is stated that the House Coinage committee will next week report the free coinage bill, with recommendations from the majority of the committee against any silver legislation. This recommendation, it is said, will be a bit of sharp parliamentary practice, as it will prevent the bill being placed on the calendar, and the bill in committee, which was the first programme of the republicans.

Secretary Tracy received a sharp rebuff from members of his own party in the House this week for the manner in which he proposed to handle the bill. The bill in committee, which was the first programme of the republicans.

The House Indians, having testified their objection to being placed under the care of the year department, which was the principal reason for the bill, have been loaded down with presents and sent home, via Philadelphia and Camden.

## THE VIRGINIAN.

THURSDAY, ... Mar 19, 1901.

(For the Virginian.)

Brethren and Sisters.

We (the Farmers' Alliance) are

bound and allied together for a

grand and noble purpose. Our aims

are high and our purposes are noble.

Then, in view of these facts let us

beaten you, not despair in well do-

ing but on the other hand let us take

courage, by perseverance and by

united action to just honest prin-

ciples, which we, as a body, have.

We cannot fail to win the success

which awaits us in the near future.

We too often become discouraged

especially when things do not work

out as we think they should, and if

our pathway does not seem to lead

forward as it were, with the bright

lines of the noon day sun, we are

too apt to predict our own downfall

which prediction is detrimental to

our several interests. My hope is

we need not expect to fight the ter-

rible battle successfully which con-

fronts us without a struggle, without

great effort and without great pre-

paration. We must be ready for it.

There will be a great battle, and it

principles of the Alliance, and upon

all points relating to our interests.

We can never become united as we

should unless something of this kind

be done and it is important that

we become a united body for united

action and we will do it.

We must become better disciplin-

ed and more thoroughly organized

and as I conceive this is the best

way to obtain a better organization.
