It is too much fitted to our infinitely extended & vast & boundless

it is a point for the plantation just to go to Mr. Voss, in

The second part of the book is the history of the
 city of London, from the time of the Romans to the
 present. It is written in a very plain and simple
 style, and is full of interesting facts and
 anecdotes. The author has been very diligent
 in his researches, and has collected a vast
 amount of material. The book is well
 illustrated with woodcuts, and is a very
 valuable work. It is one of the best
 histories of London that has been written.

Received of the Honble the Secretary of the Navy
 the sum of \$100.00 for the purchase of a
 copy of the Navy Register for the year 1858.
 This receipt is to be presented to the
 Secretary of the Navy for the purpose of
 obtaining a copy of the same.

It is now at least 10 years since I first began
to collect. I have been very fortunate in my
collections. I have collected many fine specimens
of plants, animals, and minerals. I have also
collected many interesting facts about the history
and geology of the country. I have been able to
do this because of the kindness of the people
with whom I have lived. They have allowed me
to go wherever I wished and to do whatever I
pleased. I have been able to see some of the
most beautiful scenery in the world. I have
also been able to learn much about the habits
and customs of the different tribes. I have
been able to do all this because of the
kindness of the people with whom I have
lived.
