all matters relating to the history of Northumberland & history
of Britain and for his master of Hays - 1641
The first part of the history of the North
of England from the first of Henry the first to the
first of Henry the second was written in 1641
of May 1641.

I have been thinking of writing to you for some time but have been so busy that I could not find time. I am now in the country and have been very much interested in the progress of the cause. I have seen many of the friends of the cause and have been very much encouraged. I have also seen many of the enemies of the cause and have been very much disappointed. I have seen that the cause is not yet won and that we must continue to fight for it. I have seen that the friends of the cause are not yet united and that we must continue to work for unity. I have seen that the enemies of the cause are not yet defeated and that we must continue to fight for their defeat. I have seen that the cause is not yet won and that we must continue to fight for it. I have seen that the friends of the cause are not yet united and that we must continue to work for unity. I have seen that the enemies of the cause are not yet defeated and that we must continue to fight for their defeat.

I have been thinking much lately
 of the many things which I have
 done in my life, and how much
 I have accomplished. I have been
 very busy, and have had many
 things to do. I have been
 very happy, and have enjoyed
 every day of my life. I have
 been very successful, and have
 achieved many of my goals.
 I have been very fortunate, and
 have had many good things happen
 to me. I have been very lucky,
 and have had many great experiences.
 I have been very grateful, and
 have appreciated every moment of
 my life. I have been very thankful,
 and have given thanks for everything
 that I have received. I have been
 very blessed, and have had many
 wonderful things happen to me.
