ILL BOOK

NO.

2

NVENTORIES

AND

ACC

1744-1778

1. The first step in the process is to identify the problem. This involves gathering information about the situation and the people involved.

2. The second step is to analyze the problem. This involves breaking the problem down into smaller parts and identifying the causes.

3. The third step is to develop a plan. This involves deciding on the best way to solve the problem and setting goals.

4. The fourth step is to implement the plan. This involves putting the plan into action and monitoring progress.

5. The fifth step is to evaluate the results. This involves assessing the effectiveness of the solution and making adjustments if necessary.

6. The sixth step is to communicate the results. This involves sharing the findings with the relevant stakeholders.

7. The seventh step is to document the process. This involves recording the steps taken and the results achieved.

8. The eighth step is to review the process. This involves reflecting on the experience and identifying lessons learned.

9. The ninth step is to share the results. This involves presenting the findings to the wider organization.

10. The tenth step is to implement the changes. This involves putting the recommendations into action.
