To the Worshipful Court of Orleans County

The foregoing statement presents a Settlement of the account of William Hume as Administrator of Joseph Clark deceased, and shows a balance in the hands of the Administrator of Fifteen Thousand Three Hundred and Fifty four Dollars and Seventy Cents.

It is proper to state that the bond on A. Owens for \$3000, and that on Ruffe for \$3500, are subjects of litigation, and though charged to the Administrator in part of the report, such charge ought to affect him only to the extent of his recovery upon them. I have not estimated a interest upon these bonds, not doubting that the account now presented will have to be remodelled to adapt it to the standing of the Administrator in relation to the estate as developed upon the termination of the suits pending in relation to these, and other matters connected with the estate. It is proper further to state that all the debts charged to the Administrator are suspended by the stay law, but none of them having been returned by him, they are all debited to him as a matter of course. It will become the duty of the Commissioner, in making future settlements, to go into an investigation the more of the debts actually secured, and to have a statement upon the result of that investigation, instead of following the usual course of adopting the balance reported in this statement as the proper one with which to charge the Administrator. I have not allowed Commissions on the account of the debt to Owens and Ruffe & others, when the amount to be realized from these debts shall be ascertained. Commissions should then be allowed. Interest is charged to the term of the qualification of the Administrator, but kept separate from the principal to the close of the statement, with a view to facilitate future calculations. As one of the bonds on which was suspended during the war by the interest, I am informed, this was the case with the bond on Alexander and perhaps others. I am Credited to Administrator with the interest debited to

him on the bond of Alexander & Joseph Hume deceased
 Commenced 1893
