I Isaac Hudson wishing to make division of
my estate among my children, proceed to do so in the following
manner. Item first, I reserve William Martin I give the land
he lives on, including the following boundary. Beginning at
the North Corner of the Ruckh place, where his fence joins it, thence
running on a North direction nearly with his present fence to a
beech stump, (the tree having been partly blown out & cut,) south
of his fence, thence turning to the right and running nearly
with his fence a long line crossing the Mill branch to the South
Corner of my little stall, thence turning to the right so as to in-
clude his present garden by the little stall, thence turning to
the right and running up the hollow, partly with his fence, to
his large white oak in the hollow, thence turning to the right
and running a short line up a little hollow, to a white oak
and beech at the head of it, thence running across the
field to a white oak by the Depot Road, thence crossing the
road and running a long line over the high part of the ridge
and crossing the hollow including the place occupied by
Joseph Harrison to a large white oak situated on a level
of the Run Haze, Hickman land.

I have given a fair share of my estate in the way of this creation.
I have then, I want to give the lower part of my plantation, containing the dwelling house and Guest Smith, bounded as follows. Beginning at the top of the hill in the west end of my lane, and running east with the lane, so as to crop the brick and run up to William Martin's line, dividing equally the large garden lot in front of the mill.
I have then

To my son John River I give the remainder or upper part of my plantation, also my Shetland Library left in my house by my son Thomas David, except Henry's Commentary and Davis's sermons, which I have given to Sarah Edith.

I have fourth. To my daughter Sarah Edith I give her two furnished beds, and her room. She is to have one room which is to be the choice of Miss Colli. She is to have her Bureau and dressing table and wash bottle and Bessy. She is also to have twenty pounds of silver annually to be taken out before my wife gets her third. But if the whole class of silver should fall short of one hundred pounds, then she is to have one fifth part. But in case she should leave this her present home, then she is to have one fourth of the stock, but not to exceed twenty sheep. She is to have privilege, so long as she may remain at the Old Farmstead of using and occupying two rooms, the east room up stairs and the little north side room downstairs. She is also to use and occupy her little garden and trees at the north corner of the house, and one sixth part of the large garden or lot in front of the mill. Also James Baymond is to pay her in view of the value of her land, five hundred dollars. (The hundred annually for four years) and John River the hundred, and then to be supported as one of the family.

I have fifth. To my two sons John River and James River I give all the remainder of my personal property, which I derive away and be sold as my indebtedness is so recommended as not to make it necessary.

I have sixth. To my wife I give her lifetime interest or legal dower, to be used or occupied by her just as she may desire, and no conveyance made on this will is to be so used as to injure in any way, the present Will acts.

And now I declare this division of my estate to be my last will and testament and I authorize and appoint my son John River to act and serve as my executor. Witness my hand and seal this thirtieth day of July. EIGHTH MONTH and thirty Five

The foregoing will provides that my daughter Sarah Edith shall be supported as one of the family. She is to be maintained as one of the family. Witness my hand and seal this third day of January 1866
