

The foregoing is a statement of the account of William Miller Administrator of James Addison Dec'd for one half of said estate. It will be seen that interest is not computed on the sum with which the administrator is charged. The reason for this omission I think it proper to explain. When his two recent previous settlements showing annual balances which would properly constitute items of debit or credit as they might appear to be in favor of or against the estate. This cannot be done until a full settlement. Bringing up the account the annual balances reported, & making the above report shows a balance due from the estate of one thousand two hundred and thirteen dollars and fifteen cents exclusive of interest. Respectfully submitted.
