

Supervisor's Dist. No. 2
 Enumeration Dist. No. 15

Special Schedules of Manufactures—Nos. 7 and 8.

August, 1880.

FLOUR AND GRIST MILLS—CHEESE, BUTTER, AND CONDENSED MILK FACTORIES.

Products of Industry in Minick's Dist. No. 1, in the County of Jackson, State of Georgia, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

FLOURING AND GRIST-MILLS.

NAME OF CORPORATION, COMPANY, OR INDIVIDUAL PRODUCING TO THE VALUE OF \$500 ANNUALLY.	CAPITAL (REAL AND PERSONAL) INVESTED IN THE BUSINESS.	GROSS ANNUAL VALUE OF THE PRODUCT.	WAGES AND HOURS OF LABOR.										MONTHS IN OPERATION.										POWER USED IN MANUFACTURE.									
			AVERAGE NUMBER OF HANDS EMPLOYED.										MONTHS IN OPERATION.										POWER USED IN MANUFACTURE.									
			Men above 16 years.	Men above 12 years.	Children and youth.	Men above 16 years.	Men above 12 years.	Children and youth.	Men above 16 years.	Men above 12 years.	Children and youth.	Men above 16 years.	Men above 12 years.	Children and youth.	Men above 16 years.	Men above 12 years.	Children and youth.	Men above 16 years.	Men above 12 years.	Children and youth.	Men above 16 years.	IF WATER-POWER IS USED.

CHEESE FACTORIES: BUTTER FACTORIES: COMBINED BUTTER AND SKIM-CHEESE FACTORIES: CONDENSED MILK FACTORIES:

[illegible]

CHEESE FACTORIES: BUTTER FACTORIES: COMBINED BUTTER AND SKIM-CHEESE FACTORIES: CONDENSED MILK FACTORIES—Continued.

[illegible]

1.5 - time: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.

NOTES.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 6 months on half time; or 3 months on one-third time. Great care and judgment should be exercised in making the returns relative thereto.
The inquiries in respect to the values of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. Mill Supplies and Fuel should be included.
First. Weight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop.
Second. Weight of goods received from the manufacturer, less the wholesale price of the goods.

The cost of Superintendence, Rent, Freight of Goods to market, means the wholesale price of the goods.
The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods.
If the stream is a very small one, mention also the larger stream or river into which it flows

POWER USED IN MANUFACTURE.—If the stream is a very small one, only serviceable boilers and engines are to be reported. The best information available should be used in filling these columns.

HORSE-POWER.—This is an inquiry of great importance. The best information available is that the horse-power of a steam engine is equal to the number of cylinders multiplied by the stroke in feet, multiplied by the diameter of the cylinder in inches, multiplied by the number of revolutions per minute, divided by 33,000.

NOTES RELATIVE TO CH

Items 15 have reference to all factories of this class, and should be filled for every establishment.

COLUMNS 16 to 21 have reference to manufacturers of butter only.

COLUMNS 22 to 27 have reference to manufacturers of butter only.
COLUMNS 28 to 38 have reference to those factories that manufacture both cheese and butter.
COLUMNS 39 to 44 have reference to those factories that manufacture condensed milk.

COLUMNS 39 and 40 have reference to manufacturers of condensed milk.

COLUMBIA UNIVERSITY LIBRARY

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

A member of this class and should be filled for every establishment enumerated.

COLUMNS 1 to 15 have reference to all factories of this class, 16 to 20 reference to manufacturers of cheese only.

COLUMNS 16 to 21 have reference to manufacturers of butter only
COLUMNS 22 to 27 have reference to manufacturers that manufact

COLUMNS 28 to 38 have reference to manufacturers of condensed milk.

COLUMNS 39 and 40 have reference to management.

Special Schedules of Manufactures—Nos. 7 and 8.

24	25	26	27	28	29	30	31	32	33	34	35	36	37	38	39	40	41	42	43

NOTES.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.

The inquiries in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto.

The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods for sale in the neighborhood only, the value of the product means the price charged at the shop.

POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows.

Only serviceable butters and cheeses are to be reported. The best information available should be used in filling these columns.

Horse-power.—This is an inquiry of great importance.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.

COLUMNS 16 to 21 have reference to manufacturers of cheese only.

COLUMNS 22 to 27 have reference to manufacturers of butter only.

COLUMNS 28 to 33 have reference to those factories that manufacture both cheese and butter.

COLUMNS 34 and 40 have reference to manufacturers of condensed milk.

Special Schedules of Manufactures—Nos. 7 and 8.

FLOUR AND GRIST MILLS—CHEESE, BUTTER, AND CONDENSED MILK FACTORIES.

Products of Industry in 27th District, Mississippi, in the County of Jackson, State of Mississippi, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

S. P. Orr Enumerator

NOTES.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle. The inquiries in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. The cost of superintendence, rent, freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop. POWER.—This is an inquiry of great importance. The best information available should be used in filling these columns.

Enumeration Dist. No. 55

The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

- (1.) Boot and Shoe Factories.
- (2.) Cheese and Butter Factories.
- (3.) Flouring and Grist Mills.
- (4.) Salt Works.

- (5.) Lumber Mills and Saw Mills.
- (6.) Brick Yards and Tile Works.
- (7.) Paper Mills.

- (8.) Coal Mines.
- (9.) Agricultural Implement Works.
- (10.) Quarries.

SCHEDULE 3.—MANUFACTURES.—Products of Industry in Georgia, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

Post Office: Waynesboro

 Supervisor's Dist. No. 2
 Enumeration Dist. No. 3-7

The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

- (1.) Boot and Shoe Factories.
- (2.) Cheese and Butter Factories.
- (3.) Flouring and Grist Mills.
- (4.) Salt Works.
- (5.) Lumber Mills and Saw Mills.
- (6.) Brick Yards and Tile Works.
- (7.) Paper Mills.
- (8.) Coal Mines.
- (9.) Agricultural Implement Works.
- (10.) Quarries.

SCHEDULE 3.—MANUFACTURES.—Products of Industry in *Chambers Dist.*, in the County of *Jackson*, State of *Georgia*, during the twelve months beginning *June 1, 1879*, and ending *May 31, 1880*, as enumerated by me.

Post Office: *Jefferson Jackson Co. Ga.*

H. S. Bennett

Enumerator

1 Name of Corporation, Company, or individual producing to the value of \$500 annually.	2 Name of Business, Manufacture, or Product.	3 Capital (real and personal) invested in the business.	Average number of hands employed.				Wages and Hours of Labor.						Months in Operation.					18 Value of Product (including laboring and material) of a dollar.	19 Value of Product (including laboring and material) of a dollar.	Power used in Manufacture.							
			4 Male above 15 years.	5 Females above 15 years.	6 Children and youth.	7 May to November.	8 Number of Hours in the ordinary day of labor.	9 Average day's wages for a skilled mechanic.	10 Average day's wages for an ordinary laborer.	11 Total amount paid in wages during the year.	On what River or Stream?				If water power is used.					If steam power is used.							
											12 On full time.	13 On 3/4 time only.	14 On 1/2 time only.	15 On 1/4 time only.	16 Tides.	17 Height of fall, in feet.	18 Number.			19 Kind.	20 Revolutions per minute.	21 Horse-power.	22 Number of Boilers.	23 Number of Engines.	24 Horse-power.		
1 W. L. & A. Bell	Cotton Gin	500	10	-	2	1	10	50	40	200	3	1	5	25	Beach River	27	1	Gravel	4	2	30						
2 Bonham & Son	Cotton Gin	200	5	3	1	10	5	75	50	100	1	1	10	10	Beach River	14	1	Gravel	2	2	30						
3 Arnold Bros.	Cotton Gin	1000	8	6	1	12	12	100	50	50	4	9	40	40													
4 W. L. & A. Bell	Cotton Gin	200	5	3	1	10	5	75	50	100	1	1	10	10	Beach River	14	1	Gravel	2	2	30						
5 W. L. & A. Bell	Cotton Gin	200	5	3	1	10	5	75	50	100	1	1	10	10	Beach River	14	1	Gravel	2	2	30						

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the product reaches \$500 annually, including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts.

COLUMN 2.—The kind of business or the character of product should be described as specifically as possible, thus: Sewing-Machines, Carrets, Furniture, Foundry, Machine Shop, Blacksmithing, &c.

COLUMN 11.—In many establishments (as carpenter shops, blacksmith shops, &c.) it will be found that no ordinary laborers are employed. In this case column 11 will not be filled.

COLUMNS 13 to 17.—All the 12 months of the year should be accounted for in one or more of the columns 13 to 17, thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and 2 months idle.

COLUMNS 18 and 19.—These inquiries are of prime importance. Great care and judgment should be exercised in making the returns relative thereto, especially in the case of small shops where book-accounts are not kept.

COLUMNS 20 and 21.—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

[18.]—The value of the product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product means the price charged at the shop.

COLUMN 20.—If the stream is a very small one, mention also the larger stream or river into which it flows.

COLUMNS 27 and 28.—Only serviceable boilers and engines are to be reported.

COLUMNS 29 and 30.—This is an inquiry of great importance. The best information available should be used in filling these columns.

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the production reaches \$500 annually, including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts. The product should be described as specifically as possible, thus: Sewing Machine, Carriage, Furniture, Foundry Machine Shop, Coopering, Blacksmithing, &c. If the product should be described as "Manufactures," no laborers are employed. In this case column 11 will not be filled.

duction reaches \$500 annually, including the cost of materials, the product should be described as specifically as possible, thus: sewing machines, typewriters, etc. If the product is not a manufactured article, but a service, such as repairs, the service should be described as specifically as possible, thus: repairs on sewing machines, typewriters, etc. If the product is a manufactured article, but the kind of business or the character of the product is not a manufactured article, such as repairs, the service should be described as specifically as possible, thus: repairs on sewing machines, typewriters, etc. If the product is a manufactured article, but the kind of business or the character of the product is not a manufactured article, such as repairs, the service should be described as specifically as possible, thus: repairs on sewing machines, typewriters, etc.

[illegible]

COLUMNS 18 AND 19.—These inquiries are of prime importance. Great care and judgment should be exercised in making them. Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included. In the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product means the price received for it.

[19.]-The value of the product, in the case of mills and factories producing for a distant market, should be the value of the product as charged at the shop.

COLUMN 20.—If the stream is a very small one, mention also the largest mill race, dam, or other structure, and the location of the same. If the stream is a very small one, mention also the largest mill race, dam, or other structure, and the location of the same.

COLUMNS 27 and 28.—Only serviceable soldiers and sailors. The best information is given in the following columns.

COLUMNS 26 and 29.—This is an inquiry.
