FLOUR AND GRIST MILLS—CHEESE, BUTTER, AND CONDENSED MILK FACTORIES.

Products of Industry in The 663 Dist., in the County of Lowndes, State of Georgia during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

D C Ashley

FLOURING AND GRIST-MILLS.

Name of Corporation, Company, or Individual producing to the value of $500 annually.	Capital (Real and Personal) invested in the Business.	Average number of hands employed: Greatest number employed at any one time during the year.	Average number of hands employed: Males above 16 years.	Average number of hands employed: Females above 15 years.	Average number of hands employed: Children and youth.	Wages and hours of labor: Number of hrs. in the ordinary day of labor.	Wages and hours of labor: May to November. Average day's wages for ordinary labor.	Wages and hours of labor: November to May. Average day's wages for ordinary labor.	Wages and hours of labor: Total amount paid in wages during the year.	Months in operation: On full time.	Months in operation: On three-quarter time only.	Months in operation: On half time only.	Months in operation: Idle.	Number of runs of stone.	Estimated maximum capacity per day (in bushels).	Do you do custom work or make only for a market? If the former, what proportion is custom grinding?	Is there an elevator connected with the mill? If so, what capacity in bushels.

CHEESE FACTORIES: BUTTER FACTORIES: COMBINED BUTTER AND SKIM-CHEESE FACTORIES: CONDENSED MILK FACTORIES—Continued.

Name of Corporation, Company, or Individual producing to the value of $500 annually.	Inquiries applicable to butter factories only—Cont'd: Price per 100 pounds paid for cream.	Cost of furnishing per 100 pounds.	Value of butter-milk and skimmed milk.	Inquiries applicable to combined butter and skim-cheese factories only: Number of pounds of butter made.	Number of pounds of cheese made.	Average pounds of milk used per pound of butter produced.	Average pounds of milk used per pound of cheese produced.	Average price per pound at which butter was sold for the season.	Average price per pound at which cheese was sold for the season.	Price per 100 pounds paid for making butter.	Price per 100 pounds paid for making cheese.	Cost of furnishing per 100 pounds of butter.	Cost of furnishing per 100 pounds of cheese.	Value of butter-milk and skimmed milk sold.	Inquiries applicable to condensed milk factories only: Number of pounds of cows' milk used and purchased.	Value of condensed milk produced.	Power used in manufacture: If water-power is used: On what river or stream? (See note below.)	Height of fall, in feet.	Wheels: Number.	Wheels: Kind.	Wheels: Breadth, in feet.	Wheels: Revolutions per minute.	Wheels: Horse-power.	If steam-power is used: Number of boilers.	Number of engines.	Horse-power.
1	25	26	27	28	29	30	31	32	33	34	35	36	37	38	39	40	41	42	43	44	45	46	47	48	49	50

NOTES.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.

The inquiries in respect to the values of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. Mill Supplies and Fuel should be included.

The inquiries in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. Mill Supplies and Fuel should be included in Materials.

The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials.

The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

The cost of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop.

The cost of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop. CHEESE FACTORIES: BUTTER FACTORIES; COMBINED BUTTER AND SKIM-CHEESE FACTORIES: CONDENSED MILK FACTORIES.

GENERAL INQUIRIES APPLICABLE TO ALL FACTORIES NAMED ABOVE.

1 NAME OF CORPORATION, COMPANY, OR INDIVIDUAL PRODUCING TO THE VALUE OF $500 ANNUALLY.	2 CAPITAL (REAL AND PERSONAL) INVESTED IN THE BUSINESS.	3 Greatest number of hands employed at any one time during the year.	AVERAGE NUMBER OF HANDS EMPLOYED: 4 Males above 16 years.	5 Females above 15 years.	6 Children and youth.	WAGES: 7 Average day's wages for a skilled mechanic.	8 Average day's wages for ordinary labor.	9 Total amount paid in wages during the year.	10 Total value of labor performed in the year.	11 Date when manufacturing season opened.	12 Date when manufacturing season closed.	13 Average number of cows furnishing milk during the year.	14 Average yield of milk per 100 days' product in the factory.	15 Total number of pounds of milk used at the factory during the year.

INQUIRIES APPLICABLE TO CHEESE FACTORIES ONLY.

16 Number of pounds of cheese made.	17 Kinds of cheese.	18 Average pounds of milk used per pound of cheese produced.	19 Average price per pound at which cheese was sold for the season.	20 Price per 100 pounds paid for making.	21 Cost of furnishing per 100 pounds.

INQUIRIES APPLICABLE TO BUTTER FACTORIES ONLY.

22 Number of pounds of butter made.	23 Average price at which butter was sold for the season.	24 Average pounds of milk used per pound of butter produced.

CHEESE FACTORIES: BUTTER FACTORIES: COMBINED BUTTER AND SKIM-CHEESE FACTORIES: CONDENSED MILK FACTORIES—Continued.

INQUIRIES APPLICABLE TO BUTTER FACTORIES ONLY—Continued.

25 Price per 100 pounds paid for making.	26 Cost of furnishing per 100 pounds.	27 Value of buttermilk and skimmed milk sold.

INQUIRIES APPLICABLE TO COMBINED BUTTER AND SKIM-CHEESE FACTORIES ONLY.

28 Number of pounds of butter made.	29 Number of pounds of cheese made.	30 Average pounds of milk used per pound of butter produced.	31 Average pounds of milk used per pound of cheese produced.	32 Average price per pound at which butter was sold for the season.	33 Price per 100 pounds paid for making butter.	34 Price per 100 pounds paid for making cheese.	35 Cost of furnishing per 100 pounds of butter.	36 Cost of furnishing per 100 pounds of cheese.	37 Value of buttermilk and skimmed milk sold.

INQUIRIES APPLICABLE TO CONDENSED MILK FACTORIES ONLY.

38 Number of pounds of condensed milk produced.	39 Value of condensed milk produced.

POWER USED IN MANUFACTURE.

IF WATER-POWER IS USED.

40 On what river or stream? (See note below.)	41 Height of fall, in feet.	WHEELS. 42 Number.	43 Kind.	44 Breadth, in feet.	45 Revolutions per minute.	46 Horse-power.

IF STEAM-POWER IS USED.

47 Number of boilers.	48 Number of engines.	49 Horse-power.

NOTES.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.

The inquiries in respect to the values of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto.

The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop.

The inquiries in respect to the value of the product of mills and factories producing for a distant market, means the larger stream or river into which it flows.

POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows.

Only serviceable boilers and engines are to be reported.

HORSE-POWER.—This is an inquiry of great importance. The best information available should be used in filling these columns.

I certify that I have this day Completed the Enumeration of the district assigned me and that the returns have been duly and truthfully made in accordance with law and my oath of Office — H. B. Holliday, Enumerator

July 13th 1880.

CHEESE FACTORIES: BUTTER FACTORIES: COMBINED BUTTER AND SKIM-CHEESE FACTORIES: CONDENSED MILK FACTORIES.

GENERAL INQUIRIES APPLICABLE TO ALL FACTORIES NAMED ABOVE. — INQUIRIES APPLICABLE TO CHEESE FACTORIES ONLY. — INQUIRIES APPLICABLE TO BUTTER FACTORIES ONLY.

Name of corporation, company, or individual producing to the value of $500 annually.	Capital (real and personal) invested in the business.	Greatest number of hands employed at any one time during the year.	Males above 16 years.	Females above 15 years.	Children and youth.	Average day's wages for a dairyman.	Average day's wages for ordinary labor.	Total amount paid in wages during the year.	Total value of labor employed in the year.	Date when manufacturing season opened.	Date when manufacturing season ended.	Average number of cows furnishing milk during the year 1879.	Average cost of milk per 100 lbs., if bought at the factory.	Total number of pounds of milk used at the factory during the year.	Number of pounds of cheese made.	Kinds of cheese.	Average pounds of milk used per pound of cheese produced.	Average price per pound at which cheese was sold for the season.	Price per 100 pounds paid for making.	Cost of furnishing per 100 pounds.	Number of pounds of butter made.	Average pounds of milk used per pound of butter produced.	Average price per pound at which butter was sold for the season.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24

CHEESE FACTORIES: BUTTER FACTORIES: COMBINED BUTTER AND SKIM-CHEESE FACTORIES: CONDENSED MILK FACTORIES—Continued.

INQUIRIES APPLICABLE TO BUTTER FACTORIES ONLY—Cont'd. — INQUIRIES APPLICABLE TO COMBINED BUTTER AND SKIM-CHEESE FACTORIES ONLY. — INQUIRIES APPLICABLE TO CONDENSED MILK FACTORIES ONLY. — POWER USED IN MANUFACTURE: IF WATER-POWER IS USED; IF STEAM-POWER IS USED.

Price per 100 pounds paid for making.	Cost of furnishing per 100 pounds.	Value of buttermilk and skimmed milk sold.	Number of pounds of butter made.	Number of pounds of cheese made.	Average pounds of milk used per pound of butter produced.	Average pounds of milk used per pound of cheese produced.	Average price per pound at which butter was sold for the season.	Average price per pound at which cheese was sold for the season.	Price per 100 pounds paid for making butter.	Price per 100 pounds paid for making cheese.	Cost of furnishing per 100 pounds of butter.	Cost of furnishing per 100 pounds of cheese.	Value of buttermilk and skimmed milk sold.	Number of pounds of condensed milk produced.	Value of condensed milk produced.	On what river or stream? (See note below.)	Height of fall, in feet.	Number.	Kind.	Breadth, in feet.	Revolutions per minute.	Horse-power.	Number of boilers.	Number of engines.	Horse-power.
25	26	27	28	29	30	31	32	33	34	35	36	37	38	39	40	41	42	43	44	45	46	47	48	49	50

NOTES.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.
The inquiries in respect to the values of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto.
The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.
The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop.
POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows.
Only serviceable boilers and engines are to be reported.
HORSE-POWER.—This is an inquiry of great importance. The best information available should be used in filling these columns.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

Columns 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.
Columns 16 to 21 have reference to manufacturers of cheese only.
Columns 22 to 27 have reference to manufacturers of butter only.
Columns 28 to 38 have reference to those factories that manufacture both cheese and butter.
Columns 39 and 40 have reference to manufacturers of condensed milk.

Enumeration Dist. No. 72

The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

(1.) Boot and Shoe Factories.
(2.) Cheese and Butter Factories.
(3.) Flouring and Grist Mills.
(4.) Salt Works.
(5.) Lumber Mills and Saw Mills.
(6.) Brick Yards and Tile Works.
(7.) Paper Mills.
(8.) Coal Mines.
(9.) Agricultural Implement Works.
(10.) Quarries.

SCHEDULE 3.—MANUFACTURES.—Products of Industry in 663 Dist., in the County of Lowndes, State of Georgia, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

Post Office: Valdosta, Ga

D. C. Ashley
Enumerator.

Name of Corporation, Company, or individual producing to the value of $50 annually.	Name of Business, Manufacture, or Product.	Capital (real and personal) invested in the business.	Average number of hands employed. Greatest number of hands employed at any one time during the year.	Males above 15 years.	Females above 15 years.	Children and youth.	Wages and Hours of Labor. Number of Hours in the ordinary day of labor. May to November.	November to May.	Average day's wages for a skilled mechanic.	Average day's wages for an ordinary laborer.	Total amount paid in wages during the year.	Months in Operation. On full time.	On ¾ time only.	On ½ time only.	On ¼ time only.	Idle.	Value of Material (including Mill Supplies and Fuel. Omitting fractions of a dollar).	Value of Product (including Jobbing and Repairing. Omitting fractions of a dollar).	Power used in Manufacture. If water power is used. On what River or Stream?	Height of fall, in feet.	Number.	Kind.	Breadth, in feet.	Revolutions per minute.	Horse-power.	If steam power is used. Number of Boilers.	Number of Engines.	Horse power.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29
Booker A.B.	Carriage manufactory	4500	4	4			10	10	1 50/100	75/100	800	12					200	1500										
Bowe Henry L.	Tin Manufactory	1000	1	1		1	10	10	1 50/100	75/100	100	12					1500	3000								1	1	20
Sharpe W.W.	Furniture Mfg	2000	6	36			12	12	2 50/100	2 40/100	1500	12					1200	2000										
Holder, Benj. F.	Wheelwright shop	175	1	1			10	9	3	1 200		12					100	600										
Palin, Thomas J.	Blacksmithing	800	3	2		1	10	8	2	40/100	175	12					150	1400										

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the product reaches $500 annually, including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts.

COLUMN 2.—The kind of business or the character of product should be described as specifically as possible, thus: Sewing-Machines, Corsets, Furniture, Foundry, Machine Shop, Coopering, Blacksmithing, &c.

COLUMNS 8 to 17.—If it will be found that no ordinary laborers are employed. In this case column 11 will not be filled.

COLUMN 11.—In many establishments (as carpenter shops, blacksmith shops, &c.) it will be found that no ordinary laborers are employed. In this case column 11 will not be filled.

COLUMNS 13 to 17.—All the 12 months of the year should be accounted for in one or more of the columns 13 to 17, thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and 2 months idle.

COLUMNS 18 and 19.—These inquiries are of prime importance. Great care and judgment should be exercised in making the returns relative thereto,—especially in the case of small shops where book-accounts are not kept.

[18.]—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

[19.]—The value of the product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product means the price charged at the shop.

COLUMN 20.—If the stream is a very small one, mention also the larger stream or river into which it flows.

COLUMNS 27 and 28.—Only serviceable boilers and engines are to be reported.

COLUMNS 26 and 29.—This is an inquiry of great importance. The best information available should be used in filling these columns.

Received July 21, 1880.

The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

(1.) Boot and Shoe Factories.
(2.) Cheese and Butter Factories.
(3.) Flouring and Grist Mills.
(4.) Salt Works.
(5.) Lumber Mills and Saw Mills.
(6.) Brick Yards and Tile Works.
(7.) Paper Mills.
(8.) Coal Mines.
(9.) Agricultural Implement Works.
(10.) Quarries.

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the production reaches $500 annually, including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts.

COLUMN 2.—The kind of business or the character of product should be described as specifically as possible, thus: Sewing-Machines, Corsets, Furniture, Foundry, Machine Shop, Coopering, Blacksmithing, &c.

COLUMN 11.—In many establishments (as carpenter shops, blacksmith shops, &c.) it will be found that no ordinary laborers are employed. In this case column 11 will not be filled.

COLUMNS 13 to 17.—All the 12 months of the year should be accounted for in one or more of the columns 13 to 17, thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and 2 months idle.

COLUMNS 18 and 19.—These inquiries are of prime importance. Great care and judgment should be exercised in making the returns relative thereto,—especially in the case of small shops where book-accounts are not kept.

[18.]—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

[19.]—The value of the product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product means the price charged at the shop.

COLUMN 20.—If the stream is a very small one, mention also the larger stream or river into which it flows.

COLUMNS 27 and 28.—Only serviceable boilers and engines are to be reported.

COLUMNS 26 and 29.—This is an inquiry of great importance. The best information available should be used in filling these columns.
