1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21

Notes.—All the 12 months of the year should be accounted for: then 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle. The inquiry in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials, Mill Supplies and Fuel should be included. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop. POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows. Only servicable boilers and engines are to be reported. The best information available should be used in filling these columns. HOUSE-POWER.—This is an inquiry of great importance.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.
 COLUMNS 16 to 21 have reference to manufacturers of cheese only.
 COLUMNS 22 to 27 have reference to manufacturers of butter only.
 COLUMNS 28 to 33 have reference to those factories that manufacture both cheese and butter.
 COLUMNS 34 to 40 have reference to manufacturers of condensed milk.

IF STEAM-POWER IS USED.	IF STEAM-POWER IS USED.

[illegible]

Notes.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle. Great care and judgment should be exercised in making the returns relative thereto. The inquiries in respect to the values of material sold, and other incidental expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included. The cost of Depreciation, Rent, Freight of goods to market, and small other items for a distant market, must be included in the value of the product. In the case of mills and flouring producing for a distant market, the value of the product is the whole sale price of the goods. In the case of small scale producing goods doing work for the neighborhood only, the value of the product means the price charged at the shop.

POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the largest stream or river into which it flows. Only servicable bullock and engine are to be reported. The best information available should be used in filling these columns.

Horse-power.—This is an inquiry of great importance.

Notes.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.

The inquiry in regard to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto.

The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

The value of the Product, in the case of cheese and butter, means the wholesale price of the goods. In the case of small shops producing goods for local use only, the value of the product means the price charged at the shop.

POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows.

Only serviceable boilers and engines are to be reported.

Home power.—This is an inquiry of great importance. The best information available should be used in filling these columns.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

- COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.
- COLUMNS 16 to 21 have reference to manufacturers of cheese only.
- COLUMNS 22 to 27 have reference to manufacturers of butter only.
- COLUMNS 28 to 33 have reference to those factories that manufacture both cheese and butter.
- COLUMNS 34 to 39 have reference to those factories that manufacture both cheese and milk.
- COLUMNS 40 to 45 have reference to manufacturers of condensed milk.

Months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.

The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

The value of the Product, in the case of milk and butter, is the price received for the same at the place of sale. In the case of small shops producing goods for sale only, the value of the product means the price charged at the shop.

POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows.

Only responsible butlers and engines are to be reported.

Housepower.—This is a matter of great importance. The best information available should be used in filling these columns.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.

COLUMNS 16 to 21 have reference to manufacturers of butter only.

COLUMNS 22 to 27 have reference to manufacturers of cheese only.

COLUMNS 28 to 33 have reference to those factories that manufacture both cheese and butter.

COLUMNS 34 to 40 have reference to manufacturers of condensed milk.

Superintendent's Dist. No. 2Enumeration Dist. No. 86

Special Schedules of Manufactures—Nos. 7 and 8.

FLOUR AND GRIST MILLS—CHEESE, BUTTER, AND CONDENSED MILK FACTORIES.

Products of Industry in 86 District, in the County of Marion, State of Georgia, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

Months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.

The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

The value of the Product, in the case of milk and butter, is the price received for the same at the time of sale. In the case of small shops producing goods for the neighborhood only, the value of the product means the price charged at the shop.

POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows.

Only responsible buyers and engines are to be reported.

Horsepower.—This is a measure of great importance. The best information available should be used in filling these columns.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.

COLUMNS 16 to 21 have reference to manufacturers of butter only.

COLUMNS 22 to 27 have reference to manufacturers of cheese only.

COLUMNS 28 to 33 have reference to those factories that manufacture both cheese and butter.

COLUMNS 34 to 40 have reference to manufacturers of condensed milk.

																	41	42	43	44	45	46	47	48	49	50					

Note.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.

The inquiries in respect to the values of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto.

The value of the product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop.

Only serviceable horses and engines are to be reported.

Horse-power.—This is an inquiry of great importance. The best information available should be used in filling these columns.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.

COLUMNS 16 to 21 have reference to manufacturers of cheese only.

COLUMNS 22 to 27 have reference to manufacturers of butter only.

COLUMNS 28 to 33 have reference to those factories that manufacture both cheese and butter.

COLUMNS 34 and 40 have reference to manufacturers of condensed milk.

<u>This establishment is run only to supply local demand. McKellan being a known manufacturing firm, supply of bricks is few for brick are made to supply materials for repairing only.</u>														

Notes.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle. The inquiries in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. The cost of superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials, Mill Supplies and Fuel should be included. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop. POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows. Only reversible engines and engines are to be reported. Horse-power.—This is an inquiry of great importance. The best information available should be used in filling these columns.

BRICK YARDS AND TILE WORKS—Continued.

[illegible]

Note.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle. The inquiries in respect to the values of material and of product are of the same importance. Great care and judgment should be exercised in making the returns relative thereto. Materials, Mill Supplies and Fuel should be included. The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop. **POWER USED IN MANUFACTURE.**—If the stream is a very small one, mention also the larger stream or river into which it flows. **FOREIGN TRADE IN MANUFACTURES.**—If the stream is a very small one, mention also the larger stream or river into which it flows. **ONLY SERVICEABLE BELLOWS AND ENGINES ARE TO BE REPORTED.** The best information available should be used in filling these columns. **WATER POWER.**—This is an inquiry of great importance.

The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

- (1.) Boot and Shoe Factories.
- (2.) Cheese and Butter Factories.
- (3.) Flouring and Grist Mills.
- (4.) Salt Works.
- (5.) Lumber Mills and Saw Mills.
- (6.) Brick Yards and Tile Works.
- (7.) Paper Mills.
- (8.) Coal Mines.
- (9.) Agricultural Implement Works.
- (10.) Quarries.

SCHEDULE 3.—MANUFACTURES.—Products of Industry in *The City of Madison*, in the County of *Morgan*, State of *Georgia*, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

Post Office: *Madison Ga*

The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

- (1) Boot and Shoe Factories. (5.) Lumber Mills and Saw Mills. (8) Coal Mines.
(2) Cheese and Butter Factories. (6.) Brick Yards and Tile Works. (9.) Agricultural Implement Works.
(3) Flouring and Grist Mills. (7.) Paper Mills. (10.) Quarries.
(4) Salt Works.

Post Office: *Madison Morgan La Gr*

Enumerator

[illegible]

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the production reaches \$500 annually, including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts.

COLUMNS 1 to 11.—The kind of business or the character of product should be described as thoroughly as possible, thus: Sewing-Machines, Corsets, Furniture, Foundry, Machine Shop, Coopering, Blacksmithing, &c.

COLUMNS 12 to 17.—The number of hands employed should be determined as follows:—In this case column 11 will not be filled.

COLUMNS 18 to 19.—All the 12 months of the year should be accounted for in one or more of the columns 13 to 17, thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and 2 months idle.

COLUMNS 20 to 22.—These inquiries are of prime importance. Great care and judgment should be exercised in making the return relative thereto,—especially in the case of small shops where book-accounts are not kept.

COLUMNS 23 and 24.—These inquiries are of prime importance. Great care and judgment should be exercised in making the return relative thereto,—especially in the case of small shops where book-accounts are not kept.

COLUMNS 25 and 26.—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

COLUMNS 27 and 28.—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

COLUMNS 29 and 30.—The value of the product, in the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product means the price charged at the shop.

COLUMNS 31 and 32.—The value of the product, in the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product means the price charged at the shop.

COLUMNS 33 and 34.—If the business is a very small one, mention also the largest stream or river into which it flows.

COLUMNS 35 and 36.—Only verifiable bolton and engine are to be reported.

COLUMNS 37 and 38.—Only the number of horses and engines are to be reported.

COLUMNS 39 and 40.—Only the number of horses and engines are to be reported.

COLUMNS 41 and 42.—Only the number of horses and engines are to be reported.

COLUMNS 43 and 44.—Only the number of horses and engines are to be reported.

COLUMNS 45 and 46.—Only the number of horses and engines are to be reported.

COLUMNS 47 and 48.—Only the number of horses and engines are to be reported.

COLUMNS 49 and 50.—Only the number of horses and engines are to be reported.

COLUMNS 51 and 52.—Only the number of horses and engines are to be reported.

COLUMNS 53 and 54.—Only the number of horses and engines are to be reported.

COLUMNS 55 and 56.—Only the number of horses and engines are to be reported.

COLUMNS 57 and 58.—Only the number of horses and engines are to be reported.

COLUMNS 59 and 60.—Only the number of horses and engines are to be reported.

COLUMNS 61 and 62.—Only the number of horses and engines are to be reported.

COLUMNS 63 and 64.—Only the number of horses and engines are to be reported.

COLUMNS 65 and 66.—Only the number of horses and engines are to be reported.

COLUMNS 67 and 68.—Only the number of horses and engines are to be reported.

COLUMNS 69 and 70.—Only the number of horses and engines are to be reported.

COLUMNS 71 and 72.—Only the number of horses and engines are to be reported.

COLUMNS 73 and 74.—Only the number of horses and engines are to be reported.

COLUMNS 75 and 76.—Only the number of horses and engines are to be reported.

COLUMNS 77 and 78.—Only the number of horses and engines are to be reported.

COLUMNS 79 and 80.—Only the number of horses and engines are to be reported.

COLUMNS 81 and 82.—Only the number of horses and engines are to be reported.

COLUMNS 83 and 84.—Only the number of horses and engines are to be reported.

COLUMNS 85 and 86.—Only the number of horses and engines are to be reported.

COLUMNS 87 and 88.—Only the number of horses and engines are to be reported.

COLUMNS 89 and 90.—Only the number of horses and engines are to be reported.

COLUMNS 91 and 92.—Only the number of horses and engines are to be reported.

COLUMNS 93 and 94.—Only the number of horses and engines are to be reported.

COLUMNS 95 and 96.—Only the number of horses and engines are to be reported.

COLUMNS 97 and 98.—Only the number of horses and engines are to be reported.

COLUMNS 99 and 100.—Only the number of horses and engines are to be reported.

COLUMNS 101 and 102.—Only the number of horses and engines are to be reported.

COLUMNS 103 and 104.—Only the number of horses and engines are to be reported.

COLUMNS 105 and 106.—Only the number of horses and engines are to be reported.

COLUMNS 107 and 108.—Only the number of horses and engines are to be reported.

COLUMNS 109 and 110.—Only the number of horses and engines are to be reported.

COLUMNS 111 and 112.—Only the number of horses and engines are to be reported.

COLUMNS 113 and 114.—Only the number of horses and engines are to be reported.

COLUMNS 115 and 116.—Only the number of horses and engines are to be reported.

COLUMNS 117 and 118.—Only the number of horses and engines are to be reported.

COLUMNS 119 and 120.—Only the number of horses and engines are to be reported.

COLUMNS 121 and 122.—Only the number of horses and engines are to be reported.

COLUMNS 123 and 124.—Only the number of horses and engines are to be reported.

COLUMNS 125 and 126.—Only the number of horses and engines are to be reported.

COLUMNS 127 and 128.—Only the number of horses and engines are to be reported.

COLUMNS 129 and 130.—Only the number of horses and engines are to be reported.

COLUMNS 131 and 132.—Only the number of horses and engines are to be reported.

COLUMNS 133 and 134.—Only the number of horses and engines are to be reported.

COLUMNS 135 and 136.—Only the number of horses and engines are to be reported.

COLUMNS 137 and 138.—Only the number of horses and engines are to be reported.

COLUMNS 139 and 140.—Only the number of horses and engines are to be reported.

COLUMNS 141 and 142.—Only the number of horses and engines are to be reported.

COLUMNS 143 and 144.—Only the number of horses and engines are to be reported.

COLUMNS 145 and 146.—Only the number of horses and engines are to be reported.

COLUMNS 147 and 148.—Only the number of horses and engines are to be reported.

COLUMNS 149 and 150.—Only the number of horses and engines are to be reported.

COLUMNS 151 and 152.—Only the number of horses and engines are to be reported.

COLUMNS 153 and 154.—Only the number of horses and engines are to be reported.

COLUMNS 155 and 156.—Only the number of horses and engines are to be reported.

COLUMNS 157 and 158.—Only the number of horses and engines are to be reported.

COLUMNS 159 and 160.—Only the number of horses and engines are to be reported.

COLUMNS 161 and 162.—Only the number of horses and engines are to be reported.

COLUMNS 163 and 164.—Only the number of horses and engines are to be reported.

COLUMNS 165 and 166.—Only the number of horses and engines are to be reported.

COLUMNS 167 and 168.—Only the number of horses and engines are to be reported.

COLUMNS 169 and 170.—Only the number of horses and engines are to be reported.

COLUMNS 171 and 172.—Only the number of horses and engines are to be reported.

COLUMNS 173 and 174.—Only the number of horses and engines are to be reported.

COLUMNS 175 and 176.—Only the number of horses and engines are to be reported.

COLUMNS 177 and 178.—Only the number of horses and engines are to be reported.

COLUMNS 179 and 180.—Only the number of horses and engines are to be reported.

COLUMNS 181 and 182.—Only the number of horses and engines are to be reported.

COLUMNS 183 and 184.—Only the number of horses and engines are to be reported.

COLUMNS 185 and 186.—Only the number of horses and engines are to be reported.

COLUMNS 187 and 188.—Only the number of horses and engines are to be reported.

COLUMNS 189 and 190.—Only the number of horses and engines are to be reported.

COLUMNS 191 and 192.—Only the number of horses and engines are to be reported.

COLUMNS 193 and 194.—Only the number of horses and engines are to be reported.

COLUMNS 195 and 196.—Only the number of horses and engines are to be reported.

COLUMNS 197 and 198.—Only the number of horses and engines are to be reported.

COLUMNS 199 and 200.—Only the number of horses and engines are to be reported.

COLUMNS 201 and 202.—Only the number of horses and engines are to be reported.

COLUMNS 203 and 204.—Only the number of horses and engines are to be reported.

COLUMNS 205 and 206.—Only the number of horses and engines are to be reported.

COLUMNS 207 and 208.—Only the number of horses and engines are to be reported.

COLUMNS 209 and 210.—Only the number of horses and engines are to be reported.

COLUMNS 211 and 212.—Only the number of horses and engines are to be reported.

COLUMNS 213 and 214.—Only the number of horses and engines are to be reported.

COLUMNS 215 and 216.—Only the number of horses and engines are to be reported.

COLUMNS 217 and 218.—Only the number of horses and engines are to be reported.

COLUMNS 219 and 220.—Only the number of horses and engines are to be reported.

COLUMNS 221 and 222.—Only the number of horses and engines are to be reported.

COLUMNS 223 and 224.—Only the number of horses and engines are to be reported.

COLUMNS 225 and 226.—Only the number of horses and engines are to be reported.

COLUMNS 227 and 228.—Only the number of horses and engines are to be reported.

COLUMNS 229 and 230.—Only the number of horses and engines are to be reported.

COLUMNS 231 and 232.—Only the number of horses and engines are to be reported.

COLUMNS 233 and 234.—Only the number of horses and engines are to be reported.

COLUMNS 235 and 236.—Only the number of horses and engines are to be reported.

COLUMNS 237 and 238.—Only the number of horses and engines are to be reported.

COLUMNS 239 and 240.—Only the number of horses and engines are to be reported.

COLUMNS 241 and 242.—Only the number of horses and engines are to be reported.

COLUMNS 243 and 244.—Only the number of horses and engines are to be reported.

COLUMNS 245 and 2

Enumeration Dist. No. 83

- (1.) Boot and Shoe Factories.
- (2.) Cheese and Butter Factories.
- (3.) Flouring and Grist Mills.
- (4.) Salt Works.

(5.) Lumber Mills and Saw Mills.
(6.) Brick Yards and Tile Works.
(7.) Paper Mills.

(8.) Coal Mines.
(9.) Agricultural Implement Works
(10.) Quarries.

Post Office: High Shoals Mallon Co

Richard G. Gordon

Enumerator

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the production reaches \$500 annually, including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, and especially those which are situated in several districts.

COLUMBIA 11.—The kind of business or the character of product should be designated. In many cases it may be found that the same establishment manufactures more than one article, such as Sewing-Machines, Corsets, Furniture, Foundry, Machine Shop, Coopering, Blacksmithing, &c.

COLUMBIA 12.—It is many times impossible to find out how many men are employed. It will be found that no ordinary laborers are employed. In this case column 11 will not be filled.

COLUMBIA 13 to 17.—All the 13 months of the year should be accounted for in one or more of the columns 13 to 17, thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and 2 months idle.

COLUMBIA 18 and 19.—These inquiries are of prime importance. Great care and judgment should be exercised in making the returns relative thereto, especially in the case of small shops where book-accounts are not kept.

COLUMBIA 20.—These inquiries are of prime importance. Great care and judgment should be exercised in making the returns relative thereto, especially in the case of small shops where book-accounts are not kept.

(16.)—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

(17.)—The value of the product, in the case of mills and factories producing at a distant market, means the wholesale price of the goods. In the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product means the price charged at the shop.

COLUMBIA 17 and 18.—If the stream is a very small one, mention also the larger stream or river into which it flows.

COLUMBIA 19 and 20.—Only serviceable boilers and engines are to be reported.

COLUMBIA 26 and 29.—This information is important. The best information available should be used in filling these columns.

12

The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

I certify that I have completed the returns of the District assigned me and have the returns duly and faithfully examined according to law and my oath of office—this 21st June 1880
C. W. Baldwin Enumerator
84 Morgan County

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the production reaches \$400 annually, including the cost of material. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts.

COLUMNS 2.—The kind of business or the character of product should be described as specifically as possible, thus: Sewing-Machines, Corsets, Furniture, Foundry, Machine Shop, Coopering, Blacksmithing, &c.

COLUMNS 11.—In many establishments (as carpenter shops, blacksmith shops, &c.) it will be found that no ordinary laborers are employed. In this case column 11 will not be filled.

COLUMNS 12 to 17.—All the 12 months of the year should be accounted for in one or more of the columns 12 to 17, thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and 2 months idle.

COLUMNS 18 and 19.—These inquiries are of prime importance. Great care and judgment should be exercised in making the returns relative thereto, especially in the case of small shops where book-accounts are not kept.

[18].—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

[19].—The value of the product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product means the price charged at the shop.

COLUMNS 20.—If the stream is a very small one, mention also the larger stream or river into which it flows.

COLUMNS 27 and 28.—Only serviceable boilers and engines are to be reported.

COLUMNS 26 and 29.—This is an inquiry of great importance. The best information available should be used in filling these columns.

Special Schedules of Manufactures—Nos. 9 and 10.

Morgan

Products of Industry in _____, in the County of Morgan, State of Georgia
during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

State of Georgia

There is about 500 pounds of beef put to the market in this city daily upon an average but it is butchered in other districts, mostly and brought in upon wagons. The market is not this place seems to think that the Government has not right ask them much meat in dollars is a year. He says he finds it hard to sell enough to feed a considerable town. He says that the market is becoming better every day, something he does not take to answer when they think of going back any day or personal capital in his life and does not know what kind of stuff it is.
