LEATHER (TANNED AND CURRIED)—Continued.

TANNING—Continued.			CURRYING.							POWER USED IN MANUFACTURE.									
Number of skins of leather.	Number of skins.	Total value of products.	Number of skins of leather.	Number of skins.	Number of palcos of skin.	Total value of all materials.	Number of skins of leather.	Number of skins.	Total value of products.	On what river or stream? (See note below.)	Height of fall, in feet.	Number.	Kind.	Revolutions per minute.	Horse-power.	Number of boilers.	Number of engines.	Horse-power.	
23	24	25	26	27	28	29	30	31	32	23	24	25	26	27	28	29	30	31	32
600	200	1250	300	100	90	50	300	100	1350	Georgia Creek Yellow River	15	1	High Coast	14	20	20			

NOTES.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.
The inquiries in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto.
The cost of superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.
The value of Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop.
POWER USED IN MANUFACTURE.—If the stream is a very small one, mention should be made of larger stream or river into which it flows.
Only servicable boilers and engines are to be reported.
HORSE-POWER.—This is an inquiry of great importance. The best information available should be used in filling these columns.

Special Schedules of Manufactures—Nos. 5 and 6.

Received July 30, 80

Products of Industry in *Nays & Buckstore Districts*, in the County of *Newton*, State of *Georgia*
during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

- (1.) Boot and Shoe Factories.
- (2.) Cheese and Butter Factories.
- (3.) Flouring and Grist Mills.
- (4.) Salt Works.

- (5.) Lumber Mills and Saw Mills.
- (6.) Brick Yards and Tile Works.
- (7.) Paper Mills.

- (8.) Coal Mines.
- (9.) Agricultural Implement Works.
- (10.) Quarries.

 Supervisor's Dist. No. 11
 Enumeration Dist. No. 11

SCHEDULE 3.—MANUFACTURES.—Products of Industry in 5th Dist. N. H., in the County of Union, State of Georgia, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

Post Office: Covington

William D. Davis Enumerator.

Name of Corporation, Company, or Individual producing to the value of \$50 annually.	Name of Business, Manufacture, or Product.	Capital (real and personal) invested in the business.	Average number of hands employed.			Wages and Hours of Labor.						Months in Operation.					Value of Material (including Mill, Bur, glue and Fuel, Omitting Trunking and Freight).	Value of Product (including finishing and Re-finishing. Omitting Trunking and Freight).	Power used in Manufacture.											
			Greatest number during the year.	Average number of hands employed.		Number of hours in the ordinary day of labor.	Average day's wages for an ordinary laborer.	Total amount paid in wages during the year.	On full time.	On 3/4 time only.	On 1/2 time only.	On 1/4 time only.	On 1/8 time only.	If water power is used.					On what River or Stream?	Height of fall, in feet.	Wheels.			Horse-power.	Number of Bales.	Number of Bales.	Horse-power.			
				Males above 15 years.	Females above 15 years.									Children and youth.	May to November.	November to May.					Average day's wages for a skilled laborer.	Average day's wages for an unskilled laborer.	Revolutions per minute.					Revolutions per minute.	Revolutions per minute.	
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	
James B. Davis	Saw mill	3000	7	5			11	8					1000	3	2		7	1100	✓											
W. M. Sullivan	Shoe Shop	300	2	2			11	2					100	3	50	11	1	300	1100											

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the production reaches \$500 annually, including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts.

COLUMN 8.—The kind of business or the character of product should be described as specifically as possible, thus: Sewing Machine, Corsets, Furniture, Foundry, Machine Shop, Coopering, Blacksmithing, &c.

COLUMN 11.—In many establishments (as carpenter shops, blacksmith shops, &c.) it will be found that no ordinary laborers are employed. In this case column 11 will not be filled.

COLUMNS 12 to 17.—All the 12 months of the year should be accounted for in one or more of the columns 12 to 17, thus: 12 months on full time; or 6 months on full time and 6 months on half time; or 10 months on full time and 2 months idle.

COLUMNS 18 and 19.—These inquiries are of prime importance. Great care and judgment should be exercised in making the return relative thereto, especially in the case of small shops where book-accounts are not kept.

[18].—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

[19].—The value of the product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product means the price charged at the shop.

COLUMN 20.—If the stream is a very small one, mention also the larger stream or river into which it flows.

COLUMNS 21 and 22.—Only serviceable bales and engines are to be reported.

COLUMNS 23 and 24.—This is an inquiry of great importance. The best information available should be used in filling these columns.

The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

Enumeration Dist. 112

- (1.) Boot and Shoe Factories. (5.) Lumber Mills and Saw Mills. (8.) Coal Mines.
(2.) Cheese and Butter Factories. (6.) Brick Yards and Tile Works. (9.) Agricultural Implement Works.
(3.) Flouring and Grist Mills. (7.) Paper Mills. (10.) Quarries.
(4.) Salt Works.

SCHEDULE 3.—MANUFACTURES.—Products of Industry in 1249 G M and 463, in the County of Norton, State of Georgia, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

Post Office:

[illegible]

*The term "Productive Industry" must be understood in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the product can be shown usually; including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts.

COLUMN 11.—In many establishments (as carpenter shops, blacksmith shops, &c.) it will be found that no ordinary laborers are employed. In this case column 11 will not be filled.

COLLEMS 13 to 17.—All the 12 months of the year should be accounted for in one or more of the columns 13 to 17, thus: 12 months on full time; or 6 months on full time and 6 months on part time; or 3 months on full time and 9 months on part time; or 1 month on full time and 11 months on part time; or 12 months on part time. Great care and judgment should be exercised in making the returns relative thereto, especially in the case of small shops where book-accounts are not kept.

[18.]—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. With supplies and other expenses, the value of the product means the price.

[19.]-The value of the property charged at the shut.

COLATHEN 20.—If the stream is a very small one, mention also the larger stream or river into which it flows.

COLUMNS 27 and 28.—(Only serviceable boilers and engines are to be reported.)

COLUMNS 26 and 29.—This is an inquiry of great importance. The best information

COLUMNS 26 and 29.—This is an inquiry of great importance. The last information is...

Special Schedules of Manufactures—Nos. 7 and 8.

FLOUR AND GRIST MILLS—CHEESE, BUTTER, AND CONDENSED MILK FACTORIES.

Received July 30, 1880
State of Georgia

Products of Industry in *Rocky Mountain District*, in the County of *Newtown*, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

John P. Campbell

FLOURING AND GRIST-MILLS.

FLOURING AND GRIST-MILLS.																														
NAME OF CORPORATION, COMPANY, OR INDIVIDUAL PERSON, TO THE VALUE OF \$500 ANNUALLY.	CAPITAL (REAL AND PERSONAL) INVESTED IN THE BUSINESS.	Grist-mills employed at any one time during the year.	AVERAGE NUMBER OF MEN EMPLOYED.			WAGES AND HOURS OF LABOR.						MONTHS IN OPERATION.					Do you do custom work or make flour for sale? If so, state the proportion of your product so manufactured.	Is there an elevator connected with your establishment? If so, state its capacity in bushels.	POWER USED IN MANUFACTURE.											
			Males above 15 years.	Females above 15 years.	Children and youth.	Males in November.	Males in May.	Average day's wages for a skilled mechanic.	Average day's wages for an unskilled laborer.	Total amount paid in wages during the year.	On full time.	On three-quarter time only.	On half time only.	Total.	Number of runs of stone.	IF WATER-POWER IS USED.														
																On what river or stream? (See note below.)			Height of fall, in feet.	Number.	Kind.	Breadth, in feet.	Revolutions per minute.	Horse-power.	Number of belting.	Number of engines.	Horse-power.			
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30

Prizes per 100 pounds paid for milk.	Cost of finishing per 100 pounds.	Value of butter-milk and skim-milk sold.	Number of pounds of butter made.	Number of pounds of cheese made.	Average number of milk cows per pound of butter produced.	Average pounds of milk used per pound of butter produced.	Average price per pound of butter.	Average price per pound of cheese.	Prizes per 100 pounds paid for milk.	Cost of finishing per 100 pounds paid for milk.	Value of butter-milk and skim-milk sold.	Number of pounds of condensed milk produced.	Value of condensed milk produced.	On what river or stream? (See note below.)	Height of fall, in feet.	Volume.	Kind.	Months in use.	Resisting per gallon.	Horse-power.	Number of wheels.	Number of engines.	Horse-power.					

NOTE.—All the 12 months of the year should be accounted for: thus 12 months on full time; or 6 months on full time and 4 months on half time; or 10 months on full time and two months idle. The inquiries in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative to these. The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included. The value of the Product; in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop.

POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows. Only serviceable boilers and engines are to be reported. The best information available should be used in filling these columns.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

HORSE POWER.—This is an inquiry of great importance.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

This is an inquiry of great importance. The best information available should be used in filling these columns.

—This is an inquiry of great importance.

COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.

COLUMNS 16 to 21 have reference to manufacturers of cheese only.

COLUMNS 22 to 27 have reference to manufacturers of butter only.

COLUMNS 28 to 33 have reference to those factories that manufacture both cheese and butter.

COLUMNS 34 to 39 have reference to manufacturers of condensed milk.

COLUMNS 40 and 41 have reference to manufacturers of condensed milk.

Supervisor's Dist. No. 7
Enumeration Dist. No. 12

Special Schedules of Manufactures—Nos. 7 and 8.

Received July 30, 80.

FLOUR AND GRIST MILLS—CHEESE, BUTTER, AND CONDENSED MILK FACTORIES.

Products of Industry in ✓, in the County of Norton, State of Georgia
during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

FLOURING AND GRIST-MILLS.

NAME OF CORPORATION, COMPANY, OR INDIVIDUAL PROPRIETOR, TO THE VALUE OF \$500 ANNUALLY.	CAPITAL, IDEAL, AND PERSONAL INVESTED IN THE BUSINESS. 1 INQUIRIES APPLICABLE TO CONDENSED MILK POWER USED IN MANUFACTURE

NOTES.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.
The inquiries in respect to the values of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto.
The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment should be entered to be included in Materials. Mill Supplies and Fuel should be included.
The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop.
Power used in manufacture.—If the stream is a very small one, mention also the larger stream or river into which it flows.
Only serviceable boilers and engines are to be reported.
Horse-power.—This is an inquiry of great importance. The best information available should be used in filling these columns.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.
