800	200	2900	1350	200	60	2300	1250	200	2600													

NOTE.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.

The inquiries in respect to the values of material and of products are of prime importance. Great care and judgment should be exercised in making the returns relative thereto.

The cost of Superintendence, Rent, Freight of goods to market and other general expenses of a manufacturing establishment are not to be included in Materials. MDI Supplies and Fuel should be included.

The value of Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop.

POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows.

Only serviceable boilers and engines are to be reported. The best information available should be used in filling these columns.

HORSE-POWER.—This is an inquiry of great importance.

13.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle. The inquiry in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the return relative thereto. The cost of superintendence, rent, freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop. POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows. Only reasonable boilers and engines are to be reported. The best information available should be used in filling these columns. HOUSE POWER.—This is an inquiry of great importance.

AVERAGE NUMBER OF HANDS EMPLOYED.	WAGES AND HOURS OF LABOR.				MONTHS IN OPERATION.				MATERIALS.				POWER USED IN MANUFACTURE.				PROPER SAW-MILL PRODUCTS.						
				Men above 15 years.	Women above 15 years.	Children and youth.	May to November.	Number of hours in the ordinary day of labor.	November to May.	Average day's wages for a skilled man yearly.	Average day's wages for an ordinary laborer.	Total amount paid in wages during the year.	On full time.	On three-quarter time only.	On half time only.	On idle.	Number of saws in gang.	Number of saws in racks.	Number of employees.	Number of saw-logs.	Value of logs.	Value of mill and plan.	Total value of all materials (including value of logs).	Number of thousand feet of lumber.	Number of thousand bolts.	Number of thousand shingles.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	
W. H. Smith	2000	7	7				10	11	12	13	14	1500	12								2000	500	4000	1865		
W. H. Smith	33000	9	9				10	10	50	56	1500	12									500	500	5800	900		

All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle. The inquiries in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. The cost of superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop. POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows. Only serviceable boilers and engines are to be reported. Horse-power.—This is an inquiry of great importance. The best information available should be used in filling these columns.

Received July 19, 1880.

[7-261.]

The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

- (1.) Boot and Shoe Factories. (5.) Lumber Mills and Saw Mills. (8.) Coal Mines.
 (2.) Cheese and Butter Factories. (6.) Brick Yards and Tile Works. (9.) Agricultural Implement Works.
 (3.) Flouring and Grist Mills. (7.) Paper Mills. (10.) Quarries.
 (4.) Salt Works.

W. H. & Co.	Blacksmith	50					10 10				8 1/2 12						100 600											
De. & Co.	Wagon Shop	500					10 10				12						100 600											
									</																			

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the production reaches \$500 annually, including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts.

INSTRUCTIONS 2.—The kind of business or the character of product should be described as specifically as possible, thus: Sewing-Machines, Cones, Furniture, Foundry, Machine Shop, Coopering, Blacksmithing, &c.

INSTRUCTIONS 11.—In many establishments (as carpenter shops, blacksmith shops, &c.) it will be found that no ordinary laborers are employed. In this case column 11 will not be filled.

INSTRUCTIONS 13 to 17.—All the 12 months of the year should be accounted for in one or more of the columns 13 to 17, thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and 2 months idle.

INSTRUCTIONS 18 and 19.—These inquiries are of prime importance. Great care and judgment should be exercised in making the returns relative thereto, especially in the case of small shops where book-accounts are not kept.

INSTRUCTIONS 20.—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

INSTRUCTIONS 21.—The value of the product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods, or doing work for the neighborhood only, the value of the product means the price charged at the shop.

INSTRUCTIONS 27 and 28.—If the stream is a very small one, mention also the larger stream or river into which it flows.

INSTRUCTIONS 27 and 28.—Only serviceable boilers and engines are to be reported.

INSTRUCTIONS 26 and 29.—This is an inquiry of great importance. The best information available should be used in filling these columns.

Received July 15, 1880.

<u>Richard</u>	<u>Boots & Shoes</u>	<u>1500</u>	<u>5</u>	<u>5</u>		<u>10</u>	<u>10</u>	<u>150</u>	<u>100</u>	<u>1620</u>	<u>12</u>		<u>1650</u>	<u>4050</u>									
<u>Richard</u>	<u>Boots & Shoes</u>	<u>400</u>	<u>2</u>	<u>2</u>		<u>10</u>	<u>10</u>	<u>250</u>	<u>100</u>	<u>600</u>	<u>12</u>		<u>350</u>	<u>725</u>									
<u>Richard</u>	<u>Boots & Shoes</u>	<u>50</u>				<u>10</u>	<u>10</u>				<u>12</u>		<u>122</u>	<u>617</u>									

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the production reaches \$500 annually, including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts.

COLUMN 2.—The kind of business or the character of product should be described as specifically as possible, thus: Sewing Machines, Coopers, Furniture, Foundry, Machine Shop, Coopering, Blacksmithing, &c.

COLUMN 11.—In many establishments (as carpenter shops, blacksmith shops, &c.) it will be found that no ordinary laborers are employed. In this case column 11 will not be filled.

COLUMN 13 to 17.—All the 12 months of the year should be accounted for in one or more of the columns 13 to 17, thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and 2 months idle.

COLUMNS 18 and 19.—These inquiries are of prime importance. Great care and judgment should be exercised in making the returns relative thereto, especially in the case of small shops where book-accounts are not kept.

[18].—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

[19].—The value of the product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods, or doing work for the neighborhood only, the value of the product means the price charged at the shop.

COLUMN 20.—If the stream is a very small one, mention also the larger stream or river into which it flows.

COLUMNS 27 and 28.—Only serviceable boilers and engines are to be reported.

COLUMNS 29 and 30.—This is an inquiry of great importance. The best information available should be used in filling these columns.

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the production reaches \$500 annually, including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts.

COLUMN 2.—The kind of business or the character of product should be described as specifically as possible, thus: Sewing-Machine, Corsets, Fur-trimmed, Flouring, Machine Shop, Coopering, Blacksmithing, &c.

COLUMN 11.—In many establishments (as carpenter shops, blacksmith shops, &c.) it will be found that no ordinary laborers are employed. In this case column 11 will not be filled.

COLUMNS 13 to 17.—All the 12 months of the year should be accounted for in one or more of the columns 13 to 17, thus: 12 months on full time; for 8 months on full time and 4 months on half time; or 10 months on full time and 2 months idle.

COLUMNS 18 and 19.—These inquiries are of prime importance. Great care and judgment should be exercised in making the returns relative thereto, especially in the case of small shops where book-accounts are not kept.

[18.]—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Suppl. and Fuel should be included.

[19.]—The value of the product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product means the price charged at the shop.

COLUMN 20.—If the stream is a very small one, mention also the larger stream or river into which it flows.

COLUMNS 27 and 28.—Only serviceable boilers and engines are to be reported.

COLUMNS 28 and 29.—This is an inquiry of great importance. The best information available should be used in filling these columns.

Received July 19, 1880.

27	28	29	30	31	32	33	34	35	36	37	38	39	40	41	42	43	44	45	46	47	48	49	50	51	52	53	54

Notes.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.

The inquiries in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto.

The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop.

POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows.

Only workable boilers and engines are to be reported.

Horse-power.—This is an inquiry of great importance. The best information available should be used in filling these columns.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.

COLUMNS 16 to 21 have reference to manufacturers of butter only.

COLUMNS 22 to 27 have reference to manufacturers of cheese only.

COLUMNS 28 to 33 have reference to those factories that manufacture both cheese and butter.

COLUMNS 34 to 40 have reference to manufacturers of condensed milk.

Received July 15, 1880.

[illegible]

CHEESE FACTORIES: BUTTER FACTORIES: COMBINED BUTTER AND SKIM-CHEESE FACTORIES: CONDENSED MILK FACTORIES-Continued

[illegible]

NOTES.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle. The inquiries in respect to the values of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. Mill Supplies and Fuel should be included. The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are to be included in Materials. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows. Only serviceable bullocks and engines are to be reported. The best information available should be used in filling these columns. HORSE POWER.—This is an inquiry of great importance.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES

NOTES RELATIVE TO COLUMNS

COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.

COLUMNS 16 to 21 have reference to manufacturers of cheese only.

COLUMNS 22 to 27 have reference to manufacturers of butter only.

COLUMNS 28 to 38 have reference to those factories that manufacture both cheese and butter.

COLUMNS 39 and 40 have reference to manufacturers of condensed milk.

All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle. The inquiries in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. The value of the Product, in the case of milk and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop. Power used in manufacture.—If the stream is a very small one, mention also the larger stream or river into which it flows. Only serviceable boilers and engines are to be reported. Horse-power.—This is an inquiry of great importance. The best information available should be used in filling these columns.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.
 COLUMNS 16 to 21 have reference to manufacturers of cheese only.
 COLUMNS 22 to 27 have reference to manufacturers of butter only.
 COLUMNS 28 to 38 have reference to those factories that manufacture both cheese and butter.
 COLUMNS 39 and 40 have reference to manufacturers of condensed milk.

Special Schedules of Manufactures—Nos. 7 and 8.

FLOUR AND GRIST MILLS—CHEESE, BUTTER, AND CONDENSED MILK FACTORIES.

products of Industry in Georgia, in the County of Rich, State of Georgia
during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

FLOURING AND GRIST-MILLS.

FLOURING AND GRINDING																			POWER USED IN MANUFACTURE									
NAME OF CORPORATION, COMPANY OR INDIVIDUAL PROPRIETOR, AND THE VALUE OF HIS OR ITS ASSETS	CAPITAL (REAL AND PERSONAL) ALL INTERESTED IN THE BUSINESS	Grinding number of barrels supplied daily and capacity during the year, 1906	AVERAGE NUMBER OF HANDS EMPLOYED			WAGES AND HOURS OF LABOR					MOTOR IN OPERATION					Estimated maximum capacity per day in bushels	Do you do custom work or make flour for other parties? If so, what proportion of your product is custom grinding?	Is there an elevator connected with your mill? What capacity? If so, state capacity in bushels	IF WATER-POWER IS USED									
			Males above 16 years.	Females above 16 years.	Children and youths under 16 years.	Males 12 to 14 years.	Males 10 to 12 years.	Number of boys employed for less than 10 days in 1906.	Average day's wages for an ordinary laborer.	Total amount paid in wages during the year.	One full time.	On three-quarter time only.	On half-time only.	Idle.	Number of runs of engine.				On what river or stream? (See note below.)	Height of fall in feet.	WHEELS							
																					Number.	Kind.	Brush, in feet.	Revolutions per minute.	Horsepower.

[illegible]

7. All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two monthly idle. The inquiries in respect to the value of material sold of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. The cost of Superintendence, Rent, Freight of goods to market, and the general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included. The cost of Superintendence, Rent, Freight of goods to market, and the general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included. The cost of Superintendence, Rent, Freight of goods to market, and the general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included. The value of the Product, in the case of mills and factories producing for sale, is the wholesale price of the goods. In the case of small shops producing goods for use only, the value of the product means the price charged at the shop. Power (use of MANUFACTURE) — If the stream is a very small one, mention also the larger stream or river into which it flows. Only serviceable boilers and engines are to be reported. For all information available should be used in filling these columns.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.
COLUMNS 16 to 21 have reference to manufacturers of cheese only.
COLUMNS 22 to 27 have reference to manufacturers of butter only.
COLUMNS 28 to 38 have reference to those factories that manufacture both cheese and butter.
COLUMNS 39 and 40 have reference to manufacturers of condensed milk.
