BRICK YARDS AND TILE WORKS—Continued.

PRODUCTS.					POWER USED IN MANUFACTURE.									
Number of thousand bricks.	Number of thousand fire bricks.	Number of thousand paving bricks.	Value of tile.	Value of drain-pipe.	IF WATER POWER IS USED.					IF STEAM-POWER IS USED.				
19	20	21	22	23	24	25	26	27	28	29	30	31	32	33

NOTE.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.
 The inquiries in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto.
 The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.
 The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop.
 POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows.
 Only verifiable boilers and engines are to be reported.
 HOSE-POWER.—This is an inquiry of great importance. The best information available should be used in filling these columns.
