

Special Schedules of Manufactures—Nos. 5 and 6.

NOTE—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle. The inquiries in respect to the value of materials and of product are of prime importance. Great care and judgment should be exercised in making the returns relative to these items. The value of superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods for sale near the neighborhood only, the value of the product means the price charged at the shop. **DO NOT USE IN MANUFACTURE**—If the stream is a very small one, mention also the larger stream or river into which it flows. For verminous bolsters and cushions are to be reported. This is an honest and great importance. The best information available should be given in filling these columns.

(1.) Boot and Shoe Factories. (8.) Lumber Mills and Saw Mills. (9.) Coal Mines.  
(2.) Cheese and Butter Factories. (6.) Brick Yards and Tile Works. (9.) Agricultural Implement Works.  
(3.) Flouring and Grist Mills. (7.) Paper Mills. (10.) Quarries.  
(4.) Salt Works.

**NOTE.**—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle. The inquiries in respect to the values of materials and of products are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials, Mill Supplies and Fuel should be included. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged to the shop.

**POWER USED IN MANUFACTURE.**—If the stream is a very small one, mention also the larger stream or river into which it flows. Only serviceable boilers and engines are to be reported. The best information available should be used in filling these columns.

**HORSE-POWER.**—This is an inquiry of great importance.

|                                   |                                 |                                     |                |                     |                              |                              |                                               |                          |         |       |                |                         |              |                            |                    |              |
|                                   |                                 |                                     |                |                     |                              |                              |                                               |                          |         |       |                |                         |              |                            |                    |              |
|                                   |                                 |                                     |                |                     |                              |                              |                                               |                          |         |       |                |                         |              |                            |                    |              |

NOTE.—All the 12 months of the year should be accounted for this: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle.  
 The inquiry in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto.  
 The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.  
 The cost of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop.  
 POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows.  
 Only reversible boilers and engines are to be reported.  
 HORSE-POWER.—This is an inquiry of great importance. The best information available should be used in filling these columns.

 Enumeration Dist. No. 7

The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

- |                                   |                                  |                                    |
|-----------------------------------|----------------------------------|------------------------------------|
| (1.) Boot and Shoe Factories.     | (5.) Lumber Mills and Saw Mills. | (8.) Coal Mines.                   |
| (2.) Cheese and Butter Factories. | (6.) Brick Yards and Tile Works. | (9.) Agricultural Implement Works. |
| (3.) Flouring and Grist Mills.    | (7.) Paper Mills.                | (10.) Quarries.                    |
| (4.) Salt Works.                  |                                  |                                    |

**SCHEDULE 3.—MANUFACTURES.**—Products of Industry in Dist. 5, Sub-Dist. 7, in the County of Angles, State of Georgia, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

Post Office: \_\_\_\_\_

Enumerator. \_\_\_\_\_

| Name of Corporation, Company, or Individual producing to the value of \$50 annually. | Name of Business, Manufacture, or Product. | Capital (real and personal) invested in the business. | Average number of hands employed.                                  |                                   |                         |                     | Wages and Hours of Labor.                     |                                       |                                        |                                             |                      |                  | Months in Operation. |                   |                          |                         | Value of Material (including Mill Slop, Saw and Fuel, omitting fractions of a dollar). | Value of Product (including Jobbing and Repairing, omitting fractions of a dollar). | Power used in Manufacture. |          |                          |       |                   |                         |              |                         |                    |              |  |
|--------------------------------------------------------------------------------------|--------------------------------------------|-------------------------------------------------------|--------------------------------------------------------------------|-----------------------------------|-------------------------|---------------------|-----------------------------------------------|---------------------------------------|----------------------------------------|---------------------------------------------|----------------------|------------------|----------------------|-------------------|--------------------------|-------------------------|----------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|----------------------------|----------|--------------------------|-------|-------------------|-------------------------|--------------|-------------------------|--------------------|--------------|--|
|                                                                                      |                                            |                                                       | Greatest number of hands employed at any one time during the year. | Average number of hands employed. |                         |                     | Number of hours in the ordinary day of labor. | Average wages for a skilled mechanic. | Average wages for an ordinary laborer. | Total amount paid in wages during the year. | Months in Operation. |                  |                      |                   | On what River or Stream? | If water power is used. |                                                                                        |                                                                                     |                            |          |                          |       |                   |                         |              | If steam power is used. |                    |              |  |
|                                                                                      |                                            |                                                       |                                                                    | Males above 15 years.             | Females above 15 years. | Children and youth. |                                               |                                       |                                        |                                             | May to November.     | November to May. | On full time.        | On 3/4 time only. |                          | On 1/2 time only.       |                                                                                        |                                                                                     | On 1/4 time only.          | On idle. | Height of fall, in feet. | Kind. | Breadth, in feet. | Revolutions per minute. | Horse-power. | Number of Boilers.      | Number of Engines. | Horse-power. |  |
| 1                                                                                    | 2                                          | 3                                                     | 4                                                                  | 5                                 | 6                       | 7                   | 8                                             | 9                                     | 10                                     | 11                                          | 12                   | 13               | 14                   | 15                | 16                       | 17                      | 18                                                                                     | 19                                                                                  | 20                         | 21       | 22                       | 23    | 24                | 25                      | 26           | 27                      | 28                 | 29           |  |

**REMARKS.**—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the production reaches \$500 annually, including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts.

**COLUMN 2.**—The kind of business or the character of product should be described as specifically as possible, thus: Sewing-Machines, Corsets, Furniture, Foundry, Machine Shop, Coopering, Blacksmithing, &c.

**COLUMN 11.**—In many establishments (as carpenter shops, blacksmith shops, &c.) it will be found that no ordinary laborers are employed. In this case column 11 will not be filled.

**COLUMNS 13 to 17.**—All the 12 months of the year should be accounted for in one or more of the columns 13 to 17, thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and 2 months idle.

**COLUMNS 18 and 19.**—These inquiries are of prime importance. Grist care and judgment should be exercised in making the returns relative thereto, especially in the case of small shops where book-accounts are not kept.

**[18.]**—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

**[19.]**—The value of the product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product means the price charged at the shop.

**COLUMN 20.**—If the stream is a very small one, mention also the larger stream or river into which it flows.

**COLUMNS 27 and 28.**—Only serviceable boilers and engines are to be reported.

**COLUMNS 26 and 29.**—This is an inquiry of great importance. The best information available should be used in filling these columns.

The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

Page No. 1

Supervisor's Dist. No. 5-

Enumeration Dist. No. 77/5

- (1.) Boot and Shoe Factories.  
(2.) Cheese and Butter Factories.  
(3.) Flouring and Grist Mills.  
(4.) Salt Works.

- (5.) Lumber Mills and Saw Mills.  
(6.) Brick Yards and Tile Works.  
(7.) Paper Mills.

- (8.) Coal Mines.  
(9.) Agricultural Implement Works.  
(10.) Quarries.

SCHEDULE 3.—MANUFACTURES.—Products of Industry in 1071 East Main (Cedar) in the County of Taylor, State of 44, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

Post Office:

Enumerator:

| 1  | 2 | 3 | 4 | Average number of hands employed.                                  |                                   |                         | Wages and Hogs of Labor.                      |                                    |                                             |               | Months in Operation. |                   |                   | 18 | 19 | Power used in Manufacture. |                         |       |                   |                         |                          | If steam power is used. |                    |                    |              |
|----|---|---|---|--------------------------------------------------------------------|-----------------------------------|-------------------------|-----------------------------------------------|------------------------------------|---------------------------------------------|---------------|----------------------|-------------------|-------------------|----|----|----------------------------|-------------------------|-------|-------------------|-------------------------|--------------------------|-------------------------|--------------------|--------------------|--------------|
|    |   |   |   | Greatest number of hands employed at any one time during the year. | Average number of hands employed. |                         | Number of hours in the ordinary day of labor. | Number of horses or mules or oxen. | Total amount paid in wages during the year. | On full time. | On 3/4 time only.    | On 1/2 time only. | On 1/4 time only. |    |    | On what River or stream?   | If water power is used. |       |                   |                         | Height of fall, in feet. | If steam power is used. |                    |                    |              |
|    |   |   |   |                                                                    | Males above 15 years.             | Females above 15 years. |                                               |                                    |                                             |               |                      |                   |                   |    |    |                            | Number.                 | Kind. | Breadth, in feet. | Revolutions per minute. | Horse-power.             |                         | Number of boilers. | Number of engines. | Horse-power. |
| 5  | 6 | 7 | 8 | 9                                                                  | 10                                | 11                      | 12                                            | 13                                 | 14                                          | 15            | 16                   | 17                | 18                | 19 | 20 | 21                         | 22                      | 23    | 24                | 25                      | 26                       | 27                      | 28                 | 29                 |              |

| 44 |   |   |   |                                                                    |                                   |                         |                                               |                                    |                                             |               |                      |                   |                   |    |    |                            |                         |       |                   |                         |                          |                         |                    |                    |              |
| 45 |   |   |   |                                                                    |                                   |                         |                                               |                                    |                                             |               |                      |                   |                   |    |    |                            |                         |       |                   |                         |                          |                         |                    |                    |              |

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the product reaches \$200 annually, including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts.

COLUMN 2.—The kind of business or the character of product should be described as specifically as possible, thus: Sewing-Machines, Corsets, Furniture, Foundry, Machine Shop, Coopering, Blacksmithing, &c.

COLUMN 11.—In many establishments (as carpenter shops, blacksmith shops, &c.) it will be found that no ordinary laborers are employed. In this case column 11 will not be filled.

COLUMNS 13 to 17.—All the 12 months of the year should be accounted for in one or more of the columns 13 to 17, thus: 12 months on full time; or 3 months on full time and 9 months on half time; or 10 months on full time and 2 months idle.

COLUMNS 18 and 19.—These inquiries are of prime importance. Great care and judgment should be exercised in making the return relative thereto, especially in the case of small shops where book-accounts are not kept.

COLUMNS 20 and 21.—These inquiries are of prime importance. Great care and judgment should be exercised in making the return relative thereto, especially in the case of small shops where book-accounts are not kept.

(16.)—The cost of superintendence, rent, freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

(17.)—The value of the product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product means the price charged at the shop.

COLUMN 20.—If the stream is a very small one, mention also the larger stream or river into which it flows.

COLUMNS 27 and 28.—Only serviceable boilers and engines are to be reported.

COLUMNS 29 and 30.—This is an inquiry of great importance. The best information available should be used in filling these columns.

Supervisor's Dist. No. 5  
 Enumeration Dist. No. 77

|                                                                                    |                                                       |                                   |        |                      |                                                                            |                                                                                |                             |                 |                                                               |                                                               |                                                               |                                                               |                                                               |                                                               |                             |                 |                                                               |                                                               |                                                               |                                                               |                                                               |                                                               |                                                               |

NOTE.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle. The inquiries in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop. POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows. Only serviceable boilers and engines are to be reported. The best information available should be used in filling these columns. HORSE-POWER.—This is an inquiry of great importance.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.  
 COLUMNS 16 to 21 have reference to manufacturers of cheese only.  
 COLUMNS 22 to 27 have reference to manufacturers of butter only.  
 COLUMNS 28 to 33 have reference to those factories that manufacture both cheese and butter.  
 COLUMNS 34 and 40 have reference to manufacturers of condensed milk.

Notes: 1. The number of months required for each type of service shall be determined by the following formula: 12 months on full time; or 8 months on full time and 4 months on half time; or 16 months on full time and two months idle.

The inquiries in respect to the values of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. All the 12 months of the year should be accounted for, thus: 12 months of the same year. The inquiries in respect to the values of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. All the 12 months of the year should be accounted for, thus: 12 months of the same year. The inquiries in respect to the values of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. All the 12 months of the year should be accounted for, thus: 12 months of the same year.

The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a business, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop.

**POWER USED IN MANUFACTURE.**—If the stream is a very small one, mention also the larger stream or river into which it flows.

**HORSE-POWER.**—This is an inquiry of great importance. The best information available should be used in filling these columns.

NOTES RELATIVE TO CHI

Sections 1 to 15 have reference to all factories of this class, and should be filled for every establishment.

COLUMNS 16 to 21 have reference to manufacturers of butter only.

COLUMNS 22 to 27 have reference to manufacturers of cheese and butter.  
COLUMNS 28 to 38 have reference to those factories that manufacture both cheese and butter.  
COLUMNS 39 to 44 have reference to manufacturers of condensed milk.

COLUMNS 39 and 40 have reference to manufacturers or contractors.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

u. Sectors of this class and should be filled for every establishment enumerated.

COLUMNS 1 to 15 have reference to all factories of this class.  
COLUMNS 16 to 21 have reference to manufacturers of cheese only.

COLUMNS 22 to 27 have reference to those factories that manufacture both cheese and butter.

COLUMNS 39 and 40 have reference to manufacturers of condensed milk.
