CHEESE FACTORIES: BUTTER FACTORIES: COMBINED BUTTER AND SKIM-CHEESE FACTORIES: CONDENSED MILK FACTORIES.

GENERAL INQUIRIES APPLICABLE TO ALL FACTORIES NAMED ABOVE.															INQUIRIES APPLICABLE TO CHEESE FACTORIES ONLY.						INQUIRIES APPLICABLE TO BUTTER FACTORIES ONLY.			
NAME OF CORPORATION, COMPANY, OR INDIVIDUAL PRODUCING TO THE VALUE OF \$500 ANNUALLY.	CAPITAL (REAL AND PERSONAL) INVESTED IN THE BUSINESS.	Greatest number of hands employed during the year.	AVERAGE NUMBER OF HANDS EMPLOYED.			WAGES.				Date when manufacturing season opened.	Date when manufacturing season closed.	Average number of cows fed during the year.	Average number of cows fed during the year.	Total number of pounds of cheese made during the year.	Number of pounds of cheese made.	Kind of cheese.	Average number of cows fed during the year.	Average number of cows fed during the year.	Price per 100 pounds paid for milk.	Cost of manufacturing per 100 pounds.	Number of pounds of butter made.	Average number of cows fed during the year.	Average number of cows fed during the year.	
			Males above 15 years.	Females above 15 years.	Children and youth.	Children and youth.	Children and youth.	Total amount paid in wages during the year.	Total value of labor employed in the year.															
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25

CHEESE FACTORIES: BUTTER FACTORIES: COMBINED BUTTER AND SKIM-CHEESE FACTORIES: CONDENSED MILK FACTORIES—Continued.

INQUIRIES APPLICABLE TO COMBINED BUTTER AND SKIM-CHEESE FACTORIES ONLY.										INQUIRIES APPLICABLE TO CONDENSED MILK FACTORIES ONLY.										POWER USED IN MANUFACTURE.									
Price per 100 pounds paid for milk.	Cost of manufacturing per 100 pounds.	Value of butter and skim-milk made.	Number of pounds of butter made.	Number of pounds of cheese made.	Average pounds of milk used per pound of butter.	Average pounds of milk used per pound of cheese.	Average price per pound of butter.	Average price per pound of cheese.	Price per 100 pounds paid for milk.	Price per 100 pounds paid for milk.	Value of condensed milk made.	Number of pounds of condensed milk made.	Value of condensed milk made.	Number of pounds of condensed milk made.	Value of condensed milk made.	Number of pounds of condensed milk made.	Value of condensed milk made.	Number of pounds of condensed milk made.	Value of condensed milk made.	IF WATER-POWER IS USED.						IF STEAM-POWER IS USED.			
27	28	29	30	31	32	33	34	35	36	37	38	39	40	41	42	43	44	45	46	47	48	49	50	51	52	53	54	55	56

NOTE.—All the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle. The inquiry in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged to the consumer. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged to the consumer. POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows. Only mercantile values and figures are to be reported. The best information available should be used in filling these columns. HOUSE-POWER.—This is an inquiry of great importance.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated. COLUMNS 16 to 21 have reference to manufacturers of cheese only. COLUMNS 22 to 27 have reference to manufacturers of butter only. COLUMNS 28 to 33 have reference to those factories that manufacture both cheese and butter. COLUMNS 34 to 39 have reference to those factories that manufacture both cheese and condensed milk. COLUMNS 40 to 46 have reference to manufacturers of condensed milk.

Supervisor's Dist. No. 4
Enumeration Dist. No. 144

Special Schedules of Manufactures—Nos. 7 and 8.

Received August 9, 30.

FLOUR AND GRIST MILLS—CHEESE, BUTTER, AND CONDENSED MILK FACTORIES.

Products of Industry in 330 Mill Mill, in the County of Wilkinson, State of Georgia, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

Joshua M. B...

21	22	23	24	25	26	27	28	29	30	31	32	33	34	35	36	37	38	39	40

NOTE.—All the 12 months of the year should be accounted for: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle. The inquiries in respect to the value of material and of product are of prime importance. Great care and judgment should be exercised in making the returns relative thereto. The cost of Superintendence, Rent, Freight of goods to market, and other general expense of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included. The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop. POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows. Only verifiable figures and engines are to be reported. The best information available should be used in filling these columns. HORSE-POWER.—This is an inquiry of great importance.

NOTES RELATIVE TO CHEESE AND BUTTER FACTORIES.

COLUMNS 1 to 15 have reference to all factories of this class, and should be filled for every establishment enumerated.
 COLUMNS 16 to 21 have reference to manufacturers of cheese only.
 COLUMNS 22 to 27 have reference to manufacturers of butter only.
 COLUMNS 28 to 33 have reference to those factories that manufacture both cheese and butter.
 COLUMNS 34 to 39 have reference to those factories that manufacture condensed milk.
 COLUMNS 40 to 45 have reference to manufacturers of condensed milk.

Enumeration Dist. No.

Special Schedules of Manufactures—Nos. 5 and 6.

LUMBER MILLS AND SAW-MILLS—BRICK YARDS AND TILE WORKS.

Products of Industry in 331⁴⁰ Rainah, in the County of Wilkinson, State of Georgia
during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

[illegible][illegible]

Notes.—If the 12 months of the year should be accounted for thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and two months idle, the time would be exercised in making the return relative thereto.

The interest in respect to the flow of material and of product are of prime importance. Great care and judgment should be used in the inclusion of Materials, Mill Supplies and Fuel should be included.

The cost of transportation, Rent, Freight of goods to market, and other general expenses of a dealer should be included in the value of the product.

The value of the Product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods.

The cost of small shops producing goods or doing work for the neighborhood only, the value of the product means the price charged at the shop.

POWER USED IN MANUFACTURE.—If the stream is a very small one, mention also the larger stream or river into which it flows.

Only weights below and above are to be reported.

HOUSE FURNISH.—This is an inquiry of great importance. The best information available should be used in filling these columns.

Special Schedules of Manufactures—Nos. 5 and 6.

SCHEDULE 3.—MANUFACTURES.—Products of Industry in Summiton, in the County of Williamson, State of Georgia, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

Post Office: Sturanton

James. T. Mason

Enumerato:

[illegible]

... assistance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the proprietor is a resident of the district. The shops should be located in the most accessible places, and should be so arranged as to be convenient to the workers. The shops should be so arranged as to be convenient to the workers. The shops should be so arranged as to be convenient to the workers.

[illegible][illegible]

COLUMEN 12.—In many establishments (as carpenter shops, blacksmiths, etc.) the value of the materials used in the manufacture of the goods is not to be included in Materials. Mill Supplies and Fuel should be included in Materials. In the case of small shops producing goods, or doing work, for the neighborhood only, the value of the products should be included in Materials.

[18.]—The cost of Superintendence, Rent, Freight of goods to market, and other general ex-

COLLECTOR 20.—If the stream is a very small one, mention also the larger stream or river into which it flows.

COLUMBIA 27 and 28.—Only serviceable boilers and engines are to be reported. The best information of great importance.

COLUMNS 96 and 99.—This is an inquiry of great importance. The best information obtainable should be given.
