NOTE.—The physicians will state fully the extent of the wound and the disability resulting therefrom.

NOTES.

In order to avoid unnecessary delays to applicants, and to enable all parties interested to understand the laws granting allowances to disabled soldiers, as well as the rules adopted by the Governor touching the payments provided, the following suggestions are submitted:

1. If an applicant has been wounded, the description of the wound should be carefully and fully set forth by applicant and physician, and followed by a plain statement of facts showing the extent of the disability. If applicant claims disability from disease contracted in the service, a full and carefully stated history of the disease should be given, tracing the disability by positive proofs to the service.

2. The law makes no allowance for an arm or leg, unless the arm or leg has been rendered substantially and essentially useless.

3. It will not answer to say that an arm is "substantially useless for ordinary pursuits of life, etc." There is no qualification to the clause of the Act in reference to the arm or leg, but the limb must for all purposes be "substantially and essentially useless."

4. If the papers are returned for correction and amendments are added to any of the affidavits, the amendments must be made under oath before an officer, and the proofs must show that the amendments have been duly sworn to.

5. Every application must be certified by the Ordinary of the county of the residence of the applicant. The certificate of any other will not be received in any case.

6. The Ordinaries of the several counties are specially requested to call the attention of the physicians and applicants to these points.

7. No payments can be made for any past year.
