If applicant claims disability from disease contracted in the service, a full and carefully stated history of the disease should be given, tracing the disability by positive proofs to the service.

2. The law makes no allowance for an arm or leg, unless the arm or leg has been rendered substantially and essentially useless.

3. It will not answer to say that an arm is "substantially useless for ordinary pursuits of life, etc." There is no qualification to the clause of the Act in reference to the arm or leg, but the limb must for all purposes be "substantially and essentially useless."

4. If the application is for a wounded leg, it would seem to be a fair construction of the Act, and the words above quoted, to say that unless the injury is such as to require the constant use of crutch or stick, that the leg is not "substantially and essentially useless."

5. If papers are returned for correction, and amendments are added to any of the affidavits, the amendments must be made under oath before an officer, and the proofs must show that the amendments have been duly sworn to.
