1. If an applicant has been wounded, the description of the wound should be carefully and fully set forth by applicant and physician, and followed by a plain statement of fact showing the extent of the disability. If applicant claims disability from disease contracted in the service, a full and carefully stated history of the disease should be given, tracing the disability by positive proofs to the service.
2. The law makes no allowance for an arm or leg, unless the arm or leg has been rendered substantially and essentially useless.
3. It will not answer to say that an arm is "substantially useless for ordinary pursuits of life, etc." There is no qualification to the clause of the Act in reference to the arm or leg, but the limb must for all purposes be "substantially and essentially useless."
4. If the application is for a wounded leg, it would seem to be a fair construction of the Act, and the words above quoted, to say that unless the injury is such as to require the constant use of crutch or stick, that the leg is not "substantially and essentially useless."
5. If application is for loss of fingers or toes the proofs must be made to show the number, and points where amputated.
6. If papers are returned for correction, and amendments are added to any of the affidavits, the amendments must be made under oath before an officer, and the proofs must show that the amendments have been duly sworn to.
7. Every application must be certified by the Ordinary of the county of the residence of the applicant. The certificate of any other will not be received in any case.

NOTES.

In order to avoid unnecessary delays to applicants, and to enable all parties interested to understand the laws granting allowances to disabled soldiers, as well as the rules adopted by the Governor regarding the procedure in such cases, the following suggestions are submitted:

1. If an applicant has been discharged from the service, he should first obtain a certificate from the Surgeon-General, or from the Adjutant-General, or from the Secretary of War, stating that he is entitled to an allowance. This certificate should be given, tracing the disability by positive proof to the service, and essentially correct.
2. The applicant should be given, tracing the disability by positive proof to the service, and essentially correct.
3. It will not answer to say that an arm is "substantially useless for ordinary pursuits of life, etc." There is no qualification to the clause of the Act in reference to the arm or leg, but the time must for all purposes be taken into consideration.
4. If the applicant is a soldier, he should be given a fair construction of the Act, and the words above quoted, to say that unless the injury is such as to require the constant use of crutch or stick, that the leg is not "substantially and essentially useless," as to require the constant use of crutch or stick, and the papers are returned for correction, and amendments are added to any of the affidavits, the amendments must be made and sworn to before an officer, and the proofs must show that the amendments have been duly sworn to.
5. Every application must be certified by the Ordinary of the county to the residence of the applicant. The certificate of any other will not be received in any case.
6. The affidavits of the several counties are specially requested to call the attention of the physicians and applicants to these points.

CLAIM OF

WITNESS OF

Filed by

JOHN A. LAWING,

ATTORNEY,

WINCHESTER, - - TENN.

State of Georgia, Campbell county.

Personally came before the undersigned, Richard Parker, who
being duly sworn, says, for amendment to his application for pension
hereto attached, and explaining why he has not filed this amendment
and urged the matter sooner, that when the papers were returned to him
by the pension commissioner soon after they were filed, that he sent
to the State of Tennessee for an affidavit from the witness, E. Fox;
that for a long time he heard nothing from it; that he made every
effort he knew how to make to get it, and finally wrote to the proper
official there before whom the affidavit should have been executed,
and that after a long time he heard from this man, he said the affida-
vit had been sworn to and forwarded to me a long time before that and
must have been lost; that he did not know what other course to pursue
and let the matter lie, thinking there could be nothing done until re-
cently when he took the matter up with Mr. Reid; that he is a man of
limited education and did not know what was the proper course to take;
that he has now lost sight of all the witnesses; that he can get no
trace
of them or hearing from them and thinks they are dead; that he now pro-
duces the very best evidence that can be had in the case, facts which
corroborate his statement by trustworthy men; that he is getting old,
and unless the matter is now allowed him he will never be able to pro-
duce evidence of eye witnesses because it has been too long, and he
will fail to get the pension which he is justly and legally entitled
to under the law.

READ CAREFULLY.—In order to avoid unnecessary delay to applicants, and to enable all parties interested to understand the laws granting allowances to disabled soldiers, as well as the rules adopted by the Governor touching the payments provided, the following suggestions are submitted:

1. If an applicant has been wounded, the description of the wounds should be carefully and fully stated, both by applicant and physician, and followed by a plain statement of facts showing the extent of the disability. If applicant claims inability from disease contracted in the service, full and carefully stated history of the disease should be given, tracing the disability by positive proofs to the service.
2. The law makes no allowance for an arm or leg, unless the arm or leg has been rendered substantially and essentially useless.
3. It will not answer to say that an arm is "substantially useless for ordinary pursuits of life, etc." There is no qualification to the clause of the Act in reference to the arm or leg, but the limb must for all purposes be "substantially and essentially useless."
4. If the papers are returned for correction and amendments are added to any of the affidavits, the amendments must be made *under oath* before an officer, and the proofs must show that the amendments have been fully sworn to.

Our opportunities for knowing that his condition results from the service are as follows: We were present at the time, he was wounded and saw him 30 minutes after he was wounded and knew it was there then and there

NOTE.—The Ordinary will see that the full text of the Affidavit is understood by the witnesses, and that they are legally qualified to the same.

parties interested to understand the laws granting allowances to disabled soldiers, as well as the rules adopted by the Governor touching the payments provided, the following suggestions are submitted:

1. If an applicant has been wounded, the description of the wounds should be carefully and fully set forth by applicant and physician, and followed by a plain statement of facts showing the extent of the disability. If applicant claims disability from disease contracted in the service, a full and carefully stated history of the disease should be given, tracing the disability by positive proofs to the service.
2. The law makes no allowance for an arm or leg, unless the arm or leg has been rendered substantially and essentially useless.
3. It will not answer to say that an arm is "substantially useless for ordinary pursuits of life, etc." There is no qualification to the clause of the Act in reference to the arm or leg, but the limb must for all purposes be "substantially and essentially useless."
4. If the papers are returned for correction and amendments are added to any of the affidavits, the amendments must be made *under oath* before an officer, and the proofs must show that the amendments have been duly sworn to.
5. Every application must be certified by the Ordinary of the County of the residence of the applicant. The certificate of any other will not be received in any case.
6. The Ordinaries of the several Counties are specially requested to call the attention of the physicians and applicants to these points.
7. No payments can be made for any past year.

W. H. HARRISON,
Clerk Ex. Department.

Our opportunities for knowing that his condition results from the service are as follows:

We were present at the time, he was wounded and saw him 30 minutes after he was wounded and knew it was from the service and there
