

Longitude West from London  
90°

321)

Simplified from maps by Bernard Romans (main map) and by Abraham Bradley (inset map). Originals in the Library of Congress. The map here reproduced is one of a series of similar maps depicting the 13 original States from New Hampshire to Georgia at the time of formation of the Constitution.

There will be at least 18 maps in the series, including Maine, Kentucky, and Tennessee (former portions of Massachusetts, Virginia, and North Carolina, respectively) as well as two maps of the United States of that period. Issued on the 150th anniversary of the ratification of the Constitution by Georgia.
