

**STUDENTS' COUNCIL OF THE THREE PROFESSIONAL DEPARTMENTS OF EMORY UNIVERSITY**, the departments of law, medicine and theology, where the students have just completed a most successful year of self-government. The council considered and disposed of all of discipline, policies and activities of the students, the University administration reserving the right to veto. This right was not once exercised. In the picture are, left to right: C. E. C. D. Cater, W. R. Cate, vice president; W. H. Moore, P. A. Megahee, president; R. Z. secretary-treasurer; L. E. Hilman, R. G. Noble, W. G. Post, J. F. Terry; standing: W. W. R. T. Henry.

## Views Battle from High Hill—Alone

VA, June 1.—Emperor William the battle front Monday, according to details reaching here from the front. He made the trip in a powerful and camouflaged automobile. Emperor mounted California plaid the summit of Mount Hiver, unaided so as not to attract aerial eyes. Only a few generals at the front were informed of his visit. General Ludendorff rode with the emperor in a second machine were the emperor's staff who followed the progress of the battle. The emperor's powerful glasses, while he viewed the battle, were regarded as significant that the emperor visited the headquarters of the battle, and in the reports of his name of Field Marshal von Hindenburg is not mentioned.

## One of the Crew Survives Amackassin

## German U-Boat Reported Off Virginia Cape

NORFOLK, Va., June 1.—There were persistent reports here tonight that a German submarine is operating off the Virginia Capes, but there was no confirmation. Rear Admiral McLean, commandant of this naval district, said he had heard a report that U-boats were on this side of the Atlantic, but had not received any reports of attacks on vessels. Passengers on one vessel arriving here today said their ship had been warned that the presence of a submarine near the capes was suspected and unusual precautions were taken at night to prevent the ship's detection by any enemy craft.

WASHINGTON, June 1.—No report to confirm the sighting of an enemy submarine off the Atlantic coast had been received tonight by the navy department and officials were inclined to be skeptical. During the past two weeks submarines have been variously reported in the Gulf of Mexico, the West Indies and along the coast, but no reports of ship sinkings have come in.

## SCHOOL OF COMMERCE ENDS A BUSY SESSION

Tech Evening School Shows Increase of 40 Per Cent in Its Attendance

The Georgia Tech Evening School of Commerce closed for the year last week after one of the most flourishing annual sessions since the establishment of the school.

While other institutions the country over have shown a marked decrease in enrollment this year as compared to last, the Georgia Tech Evening School of Commerce had an increase of 40 per cent. Eastern schools of commerce have an average of one student for every 2,000 to 2,500 inhabitants in their territory, but the Tech school has a record of one student to each 1,000 white

## MRS. T. T. STEVENS HEADS DISTRICT CLUBS

Mrs. Richardson, Retiring President, Given Unanimous Vote of Thanks

At the Friday afternoon session of the Fifth district of Women's clubs, which met in the Methodist church at East Point, Mrs. T. T. Stevens, of Atlanta, was unanimously elected president to succeed Mrs. Alonso Richardson, of College Park, whose term of office had expired by limitation. As an evidence of the esteem in which the retiring president is held she was given a unanimous vote of thanks for the splendid way in which she had distinguished her administration. The new president brings to the office splendid executive ability, which was forcefully demonstrated when Mrs. Stevens served in Atlanta as chairman of the women's Liberty Loan drive.

Other officers elected were Mrs. L. S. Bottenfeld, of DeKalb county, vice president; Mrs. Will Harvey, of Fairburn, recording secretary; Mrs. W. P. Morgan, of East Point, corresponding secretary, and Mrs. James Wright, of Douglasville, treasurer.

The conservation session was one of the most interesting and instructive of the convention. This was presided over by Miss Lois Dowdle, special home economic agent for the United States food administration. Practical demonstrations on conservation of food were given by Miss Estelle Bozeman and Miss Floy Shannon, demonstration agents for Fulton county from the State College of Agriculture, and by Miss Rivers, from DeKalb county.

At the child welfare meeting, Mrs. Charles Haden, chairman of the Fulton county unit, and Mrs. Howard McCall, state chairman of the child welfare for the National Council of Defense, were both present. Announcement was made of the appointment of Mrs. Don Pardee for the child welfare work for Fulton county.

Announcement was made that Mrs. Charles Goodman, as chairman of the place and equipment committee, will need many volunteer workers for the baby-saving campaign which will start June 10. This campaign is under government sponsorship. It is estimated that there are 37,000 babies under five years of age in Fulton county and efforts will be made to register each of them. Miss Elizabeth Kelly, who has been sent by the government to aid in this campaign, made an impressive and instructive talk.

War work was discussed before the conference by Mrs. Samuel Lumpkin. Resolutions deploring the illness of Mrs. Nellie Peters Black were passed.

## British Win Success In a Minor Attack

WITH THE BRITISH ARMY IN FRANCE, June 1.—(By the Associated Press.)—The British made a minor attack against a portion of Aveluy Wood early this morning. The attack gave them additional footing in that wooded tract beside the Ancre river. The Germans have very little room

for maneuvering. By attempting a harassing attack, the British are keeping up a steady pressure on the German forces occupying the area.

## How Your Neighbors Ends Her Corn

HAVE you noted how uncommon that pained look—that slipped-off often seen. The reason lies in Blue-Jay corn. An easy, gentle, scientific corn.

Those corn-free folks don't pare corn pads them. They don't use old-time treatments.

When a corn appears they wrap it with a Blue-jay, then forget it. It never pains again.

In two days, usually, the corn disappears. Only rare, tough corns need a second application.

The way is simple, easy, quick. It is right and scientific. A noted chemist evolved it. And it is made

by a working housewife. Learn how to use it. Test your corns. Make it your own.

BAUER & BLACK, Makers of Surgical Dressings, etc.
