The map shows the northern Adriatic coastline of Italy. Sampling stations are numbered 1 to 10. Station 1 is near the Gulf of Genoa, station 2 is further east, and stations 3 through 10 are distributed along the coast from Liguria to the Marche region. The map includes a coordinate grid with latitude from 43°N to 45°N and longitude from 10°E to 15°E. A scale bar at the bottom indicates distances from 0 to 100 km.

Abstract Made

Greenesborough Feb^y 13th 1794

Sir!

I take the liberty of informing Your Excellency that one Denys Lynch a militia Dragoon of the Troop under my command is declared, by the Surgeon of Lieut. Col^o Melton's Reg^t disabled and rendered incapable of labour from a wound which he received the 21st of Sept. 1793 at the Oakfuskee town - in consequence of which he is also rendered incapable of the Duty of a Dragoon in the Service he is engaged in; therefore beg your Excellency will please order wether or not I am to return him any longer as a Dragoon and further determine upon his fate.

There has been issued to Lieut. Col^o Melton from the State Arsenal 80 musquets, which are now scattered through the Country - Should it please your Excellency to order that the troop under my command shall be provided with them, untill carabines can be procured, it will proove those many advantages to said Troop, that uniformity in arms &c will always give over a mixture of wheapons with which no kind even of manual exercise can be executed.

When your Excellency may think expedient to order into service the 2^d division of the Troop under my command, shall be glad to receive the arms and accoutrements to equip the same with the Shedule of their costs to be deducted out of the pay of the Dragoons, purchasers.

It has pleased Lieut. Col^o Melton to detail the division of the Troop under my command into four detachments at four different ports, where there are no other troops - So that eight troopers, under a Corporal or a Serjeant all inexperienced in their duty are left to do garrison and horsemen's service, whilst in fact that number of best of troops could do neither for any long time, at a fort where two gates, requires two posts at least.

Give me leave to assure your Excellency of the profound respect with which I have the honor to remain

Sir

Your most humble &

most obedient Serv^t

The Honourable George Augustus Elholm Adjutant General of the State of Georgia, having requested of the Justices of the County of Camden and Officers commanding The Militia of the same, to point out to him the Eldest Officer in the County, he being unacquainted with any of them and the Field Officers being both absent, and some persons saying, That Captain Hebbard of the Second District, and others, that a person named Hugh Brown, that way commissioned for the Fourth District, but which hath never resided in the same, since his being Commissioned, was the Oldest; and he is unable to determine or say which is the most legal, We the underwritten, do give it as our opinion, to the Adjutant General, that agreeable to the Militia Law of the State Captain Hebbard is the only legal Officer at present, and that the Command of the Militia of this County ought to devolve on him, in the Absence of the Field Officers. --

Sir

I herewith transmit you the proceedings of the Court Martial on the reconsideration of the trial on Lt Col. Carr, ordered to set agreeable to Gen^l orders dated the third Jany last, as also the former proceedings --

You will observe the Court was composed of Members not of equal rank to the former, as it was not in my power to obtain such- You will also observe that I added four members more then set on the first Court, This was done in consequence of not getting those of equal rank, supposing it to be proper - - - You will Please to inform his Excellency that Lt Col Carr was duly notify'd of the meetg of the Court, but neither informed us by letter (or otherwise) the reason why he did not attend; had Col. Carr requested further indulgence, it undoubtedly would have been granted him, altho it would have added still to the harrassing of the officers, the Court was of opinion (thro this neglect) that he Col. Carr had little or no defence to make, at least not sufficient to exculpate him from the several charges.

I flatter my self that my conduct in this instance may meet his Excellencys approbation, as I declare it is my sole wish to do my duty; and at the same time leave no Just grounds for censure

Inclosed are one Muster Roll and one pay Roll of a detachment of volunteer company of Horse men who inroled themselves and were in service under the command of Abner Hammond Esq.^F previous to the Election of Militia Officers: There being no way of obtaining service at that time except as voluntary.

As M.^F Hammond was elected by These Men to command them in defence of our frontier, I think him the most proper person to sign the muster Roll, but as he is not within the United States and in confinement, I have taken it upon myself as second in command to sign and forward it to you, attested likewise by Lieut.^t Atkinson.

Dear Sir,

It was fully my intention to provide you with a return of my Regiment previous to your leaving the lower district and with a view to effect the measure gave orders to the Majors Commanding the Battalions of which my regiment is composed, to furnish their returns without the least delay. I have consequently been provided with a return of the first or City Battalion, which I herewith send you the Major of the Second Battalion has been absent Since the issuing of my orders, and I find at this late period that the Captains have not received any orders relative to the required returns. Added to which, Several of the Captains have resigned their Commissions - these circumstances have hitherto operated to prevent a completion of the object in View. I have however renewed my orders and shall in a few days be able to transmit you that returns. it is much to be lamented, tho' not to be remedied that the unwieldy situation of my Country Battalion renders the communication of orders very uncertain and when circumstances take place to impede the object orders may have a view, a length of time frequently classes before it is sufficiently known, so as to be remedied. The Second Battalion of my Reg^t consists of about 350 Men the whole of whom well armed & tolerably well accoutred. It is with Satisfaction that I have it in my power to inform you my regiment is fast advancing to a proper degree of organization and that where any default has taken place in either office or private the Law has been enforced rigidly & has been productive of happy effects from inducing the Citizens to Arms & be attentive to the reg-

requisites of the Laws. I have been enabled to furnish my
regiment with a Standard, & the Battalion with each a suit
of Colour paid for out of the moneys collected in conse-
quence of default of duty in sum of the Citizens attached to
the requirments I am D^r Sir with respect

Augusta 6th April 1794

Sir

I yesterday received a few lines from the Adj^t General of this State, reciting an Order from your Excellency for all muster and pay rolls which now are, or may hereafter come into his hands to be lodged with me, as this appeared a very eligible mode toward forwarding the payment of the militia, or at least of drawing the intention of the general government to a point, I with pleasure waited on him in order to receive them, with an intention to ware the punctilio's of my instructions from the Agent of the Department of war, with respect to minuteness on point of form, and to have forwarded them by the first safe hand, with my request for his early instructions concerning the same, Keeping their duplicates in my hands for the purpose of draughts to triplicates to be made out by me on my receiving information of the first being received and passed, but the Adj^t General, not only with propriety demanded my receipt, but also (from principles I am unfortunate in not understanding the necessity off) was for keeping the duplicate muster rolls - still in his hands, thereby depriving me of the means of comparisons on the necessary examinations between the Agent and myself, which with submission to your Excellencies better judgment, I conceive highly necessary in expiditing the purpose in view, & I humbly conceive my receipt specific of the terms of service in the different rolls comprised, a sufficient voucher to that part of the duties of his office, and tho' I view my instructions on that particular as greatly

deficient, at Your Excellencies direction could with safety have undertaken without in anywise committing a breach of them. -

I therefore beg leave to lay before your Excellency my papers, and his consideration of the unpleasantness of the situation I shall be subjected too. If after having given my receipt for those rolls (should a miscarriage happen their passage to the agent) in not having an essential part to show for them, and as I shall be likely to be pleased with a good deal of business with that Gentleman that he would be pleased to draw out by his spicial order the lines of demarkation between us

Muster Roll of The Militia
of Effingham

Abstract made to the President
April the 9th 1794

148

Fort Fidius,
19th April 1794

Sir

I have the honor to inform your excellency that I have received a letter from the Secretary of War, dated the 22^d of February last, containing directions for mustering the hundred horse and hundred foot authorized by the General Government on the thirtieth of May 1793, or any corps in lieu of them.

I have also received a copy of his letter to your excellency of the same date - As it would be almost impossible to muster those detachments of Militia which were in Service last year. I shall not attempt it; but I will receive the returns and rolls mentioned in the Secretary's letter to you.

I shall be obliged to your excellency to direct that the rolls should be made out agreeably to the forms, which I submitted to your predecessor on the ninth of September last - M^r. Dorsey, the paymaster, may afford great assistance on the occasion - It would appear to be justice to the United States, that they should not pay for more Service than has been actually performed - and that, the men belonging to the Several detachments, which have been posted on the frontiers, should not be borne on the rolls for more days than they did duty - your excellency may recollect a conversation we had upon this subject, when you did us the honor to visit this post.

I propose to pay my respects to your Excellency as soon as Major Gaither shall return to this garrison - and it would afford me the greatest pleasure to aid the Militia officers in the arrangement and settlement of their rolls & pay -

I have not heard any thing from M^r. Seagrove lately.

I have the honor to be
with the greatest respect

In the first week of April Court last I was several nights in the Company of Theoderick Scott at M^r. Terandetts but one evening in particular Discovering him to be very plenty of money I observed To him that Money was become plenty since Bank Bills were in Circulation & Mentioned to him if there was no Danger of its being Counterfeited, he said if it was he would Swear it was done by Governor Matthews, Gen.^l Clark & fifty others whom he would Mention, he was no Chicken he would be Damn^d Rather than Let his friends to Suffer — they Trusted him to Do Business & he would come Fully up to it, he Said there were Some good horses up in Greene which he wanted to Purchase for by god he had plenty of Money for that purpose & could get what he wanted. That he, wanted to have went up with Oliver he led a Spare horse but would not Let him ride it was all will enough he wished he might be Damn^d if he Dit not fix a halter round his neck for it, Men who would oblige him he always wished to Serve, & them who would not he would be Damn^d if he Did not Contrive to make them suffer for it.
