

Savannah 12th April 1815

272

Sir,

Your letter of the 31st Ult. I received by private conveyance a few days ago - making known your wish to exchange from the State Treasury Northern Money, for that of the State to the Am^t of Ten thousand dollars, and your preference to have it in the Augusta bank- I called at the Planters bank to know whether by making a Deposit in their bank I could obtain a Draft on the Augusta bank, there by placing it more convenient to your call. - The President informed me that no arrangement to that effect existed between the two banks, that he thought the Planters bank should have the preference of the state deposit from the circumstance of the States' having put in circulation their paper the Yazoo deposit.

The Bills of the Farmer's & Merchants bank will answer my purposes in the up Country & I shall have need for that Am^t in that section shortly. Please direct the Treasurer to make subject to my order Ten thousand dollars & on the receipt of his notice, I will give my Draft on the Planters bank for a like sum.

I feel a pleasure in having it in my power to accommodate the wishes of the Executive, who has shone so much liberality to us at a time when assistance could not be obtained elsewhere.

I have the honor to be Sir

with assurances of much Esteem

Army contract

Bond & C

Camden County June 1st 1815

His Excellency

Governor Early

Sir

I had at the time of ordering a detachment of Militia from the 3rd Reg^t. to St Marys for its protection, directed Col^l. Scott (who had tendered his services to Command) to discharge them as soon as he should receive Satisfactory information that their services were no longer materially necessary. I thought it proper to allow him the exercise of such discretion as being on the spot, enabled him to obtain the earliest information which would make a difference of a few days in detaining the men, my object in being thus particular was two fold, first, to avoid unnecessary expense to the State, and the sacrifice of domestic interest at a season when the presence of the farmer was important for the Salvation of his crop. -----

By Col^l. Scotts reports the aggregate number of men who appeared at their post was 94 out of 1200 ordered; he speaks in high terms of their orderly conduct and rapid improvement in discipline. The Colonel has obtained provisions for them on Contract without the price of ration being Stipulated (the inhabitants having neglected to provide for these men as they on the first alarm had offered) the men were on duty ten days when the object of the enemy is Supposed to have been

discovered by an intercepted letter from an officer of the Majestic, directed to his friend in Bermuda - which states that, that vessels was ordered to cruise on this coast untill some time in June, and then proceed to Halifax. this account has so far reconciled the fears of the inhabitants, the enemy having shown no disposition to land or interrupt the inland navigation that the men were discharged on the 25 ultimo.

Mr. Kendricks who furnished the provisions has had the conscience to charge 25 Cents per ration, which I have refused to admit. I had required written proposals for supplying Such of the Militia as should be called out and the lowest offer is 20 Cents per ration. they endeavour to make it appear from the St. Marys prices that the ration will cost 19 Cents.

It is necessary to be informed whether the men who have performed their duty on this occasion are to be entitled to pay. I have not directed their pay rolls to be made out untill I hear from you on the subject, I should be glad to know your Excellency's opinion of the Militia law imposing penalties for refusing or neglecting to repair to the place of rendezvous when required. taking the particulars of this case into consideration. my object in accepting the services of Co^l. Scott was because I thought it very probable that circumstances would make it necessary to augment the command, and because he was much better qualified than the officer on whom the command would

would otherwise have devolved. it is not to be presumed however that he will be entitled to the pay of a Colonel for such a command as turned out. ----- Your Excellency is well aware of the want of system in the Military arrangement of State. It does not appear to me clear, by what authority or by whom, militia ordered out on the Spur of an occasion are to be inspected, without which formality pay rolls cannot be made out and it may be easily imagined what effect will be produced by neglecting to Compensate those who have promptly turned out for the defence of their Country.

The enemys Vessels are occasionally Seen near St. Marys bar. the spaniards are fortifying with great industry at Fernandino and on an extensive Scale. the object cannot promise any advantage to us nor ought these measures to be viewed with indifference. Young the partner of Hibberson a great enemy to our country and who was one of their Judges has been dismissed from office and a Spaniard appointed in his place. ---- The almost certain change of the french dynasty ought to rouse the people of this country. from our knowledge of the character of our enemy, a speedy adjustment of National difference is not to be expected in the full tide of their success.

You have no doubt heard of the death of General Harris. The alauchawan republic may I think be received as being at an end. I have the honor to be very Respectfully Your Excellencys

Mo. Ob^t. Ser^t.

Jno. Floyd

Camden County, Fairfield Place, June 4th

1815

His Excellency Governor Early

Sir

I have the honor to acknowledge the Receipt of your Excellencys letter of the 24th ult. requiring an Explanation on a paragraph of my letter of the 21st of April, as relative to the payment of expenses incurred by a Detachment of Colonel Berriens Cavalry, employed during the State of alarm which at that time Existed.

In Obedience to your request I have to observe, that at the time that I addressed your Excellency on the Subject. I did not know that the a/c in Question was settled. I had previous to my leaving Savannah put in train, its adjustment, but the absence of the Colonel prevented the immediate correction of the informality of his Certificate, which Continued the a/c unsettled when I left the army. In addition to this I enferred from your letter of the 6th of April that you may have made Some arrangement with Genl Pinckney after I left Savannah Calculated to compromise the difference between the Expenses incurred by detachment of Militia unprovided for, and that which is allowed by law for the subsistence of regular troops. In as much as it was Questionable whether the payment of a/c under any other Circumstances would not create Some trouble &c. perplexity with the accomptant of the War department.

Thus Your Excellency will readily perceive what I meant
by the ballance which as the a/c has been paid fully answers
my former enquiry, and I trust now Explains itself.

I have the honor to be Your Excellencys

M^t. Ob^t. Ser^t.

287

Dear Sir,

I am authorized by his Excellency the Governor to request the favor of you, while you remain in the City of New York to procure two Swords for the purpose of being presented in the name of the State of Georgia to Lieut. Col.^o Daniel Appling and Lieutenant James M.^o Intosh, both of the Rifle Corps in the Service of the United States, for their gallant and meritorious conduct on the Canadian Frontier during the late War.

I transmit to you herewith enclosed, a Copy of each of the Resolutions passed by the Legislature on the above mentioned subject which will better enable you to judge of their views & intention on this point.

It is the wish of the Governor that the Swords should be made in a Superior Style having belts all and necessary appendages complete paying due regard however to the Grade of the Officer as stated in the Resolutions.

Let not the Consideration of expence prevent you from engaging to have them finished in a Style which while it may be as intended a flattering badge of distinction & for their gallantry as officers Merit will not lessen the dignity of the State in the presentation of them

It is the further wish of the Governor that the name of the Officer be engraved on the Sword blade or Scabbard (which ever may be most Customary stating it to be "Presented by the Legislature of Georgia to ____ You will have an opportunity while you remain in New York if conversing with different persons on the subject as to the proper manner of having them executed and I doubt not but that you will be able to have them well done & If possible, it would be very desirable you

could have them finished in time to bring them on with you on your returns.

The expence attending on their execution & transportation to this State, together with an additional charge for your trouble & advance of money will be paid to you or your order either here or at the Bank in Savannah whenever the Executive shall be advised by you to that effect.

I will only add the request which I made of you before you left this place, & that is, to procure two boxes of Window Glass for the State House, 12 by 16.

Swords for

Appling &

McIntosh

Sir,

I have had the perusal of a letter written by you from Philadelphia some time during last month to your brother William in this place, requesting him to make certain enquiries of me about the two Swords you were to have made for Col.^o Appling & L.^t McIntosh of this State.

In conversing with the Governor on the subject of your enquiry, he is of opinion that to have the swords executed in the style which you mention would scarcely leave room for a difference of distinction between that procured by the State of Tennessee and Confered Major Gen.^l Jackson for his distinguished services during the late War, & that now proposed to be executed for Col.^o Appling.

It is not so much on account of the expence, as it would be on account of the difference of grade in the Officers, that would make the Governor object to the execution of the Swords in the manner you state. Because we should be conferring on a Lieut Col.^o as high an honorary distinction as that Confered by Tennessee on a Major General, which would in some measure have perhaps the effect of lessening the honor intended to be confered on Gen.^l Jackson.

If you could have a Sword made for Col.^o Appling which will cost about 400 dollars, & the one for L.^t McIntosh about \$200 & executed in a Style proportioned to the price you mention, it would much better suit the views of the Executive, but if you have gone so far as not to be able to retract any Contract you may have made on the subject it can go on.

It is the desire of the Governor that the swords may be yellow, & if it is not impracticable he would be much pleased to see

engraved on them, the name of the battle in which they particularly distinguished themselves, and insted of saying as I advised you in a former letter, "Presented by the Legislature of Georgia to _____" leave out the word Legislature, & say "Presented by the State of Georgia to _____"

If they cannot be executed in time for you to bring them on with you, perhaps you can leave the business in charge of some person to pay for them when executed & forward them on to your order at Savannah.

I am Dear Sir

Your Most Ob.^t

Anthony Porter

Thomas Butler Esq^r

New York.

M^r. Butler mentions in his letter to his Brother the Sword for Col. Appling would Cost \$750 the same that was given by the Gov. of Tennessee for a Sword for Gen^l. Jackson; and that L^t. M^cIntosh's would cost \$350.

A. P.

Washington August 29th 1815

Wilkes County

Sir

The object of my writing to your excellency is to ascertain whether the raising of a Volunteer Infantry Company, to be in uniform, would meet with your approbation and whether you would Commission a Company of that kind, & furnish arms for the training of them. At a period like this, Volunteers are of little service, as well as others of the Military but if our Country should again be engaged in a Contest, a company of Volunteers from this County would ever be ready to embark into any service for its defence.

If Sir You approve it and will grant a Commission let me know, and I will immediately proceed to the raising of them -

I am Yours respectfully

His Excellency Governor Early

Sir

In order to ascertain the Quantity, and Condition of the Arms & Munitions which has been issued to the Brigade of Georgia Militia under my Command, I have thought proper to require of the Several Lieut. Colonels a detailed report of them.

As I have never received any information of what has been furnished, I take the liberty to Solicit your Excellency to Cause a Statement to be furnished me in order to compare the returns when rendered; by which the deficiencies may be discovered; Perhaps the Major Gen^l. could give me this information; But knowing his long absence from his Division; I have thought it advisable to address you on the subject in order to avoid any disappointment, and shall at the same time write to him. Aware of the injury which the Public arms may sustain for the want of proper attention, which cannot be afforded without Expense, I beg that your Excellency will prescribe the mode by which they may be preserved fit for Service. Experience has proven the the Evil tendency of false economy; which I am very certain you will correct as far as you are authorised.

For your information of the Steps which I have taken, I take the liberty of enclosing you a Copy of my Order on this Subject, And have the honor to be with Consideration of high regard.

Your Excellencys, M^o. Ob^t. Ser^t.

Jno. Floyd

REVERSE

Letter from
Brig. Gen^l. Jno. Floyd
dated 30 September 1815 Public Arms
His Excellency Peter Early Governor of Georgia, Milledgeville
Received 17. Oct.
Mail

Camden County Sept: 30, 1815

Brigade Order,

The respective Lieut. Colonels of the first Brigade of Georgia Militia, are hereby ordered to Render to the Brigadier General with as little delay as possible a correct return of all public arms, accoutrements and ammunition, received by them, since the first of January 1812, designating the number of Stand fit for Service, from those unfit, or lost, specifying the precise condition of Such arms and accoutrements, as are in a state of ~~irrepair~~, together with a statement of the quantity, quality, and condition of fixed and loose ammunition on hand, in order that an enquiry may be made into all deficiencies not properly accounted for, as shall appear by a comparison with the gen^l. Statement of issues to the Brigade.---

Unseasonable delay in complying with these orders, will authorise the charge of disobedience, and will warrant the adoption of other measures. The Lieut Colonels will also report the amount of fines collected for default of Militia duty within their respective districts, and the manner in which the monies have been appropriated. They will also be pleased to acknowledge the receipt of these orders.

Jno. Floyd, B. G.

Governor Early Dear Sir.

That part of your order which Reads as follows - Takeing from Each Company Respectively Every Sixth man This call will be Confined to those men who have not heretofore performed a Six Months Tower of Duty -

As this order in the opinion of Some Does not go to Exempt those who Served Sixty Days on the Oakmulgee & those of the third Class who Served a few months under Maj^r Broadnax &c others think your meaning were those only who have Done no part of Duty in Actual Service -

Pleas Inform me by mail which is Consistant with your views as we may make out a Revision of our Muster Rolls for Draft without a Clash &c Dear Sir yours with Respect &c
