

Savannah 30 December 1818.

401

Dear Sir,

I went yesterday in company with Col A. B. Fannin to look at and examine a number of Cavalry Swords, said to be in all about 400; and as it has been frequently heretofore an object with the State to procure Arms & Ammunition, & particularly so during the late War. I presume it is no less an object now during a State of peace to procure & lay up a Supply of all descriptions of Military apparatus, particularly if they can be had cheap, and of good quality - Those Swords which I saw look well, they are neatly finished and have Steel Scabbards - as a proof that they are deemed of good quality as to metal & execution of Workmanship. I understand the Troop of Cavalry in this place, lately reorganized & commanded by Judge Berrien, have purchased one hundred of them for the use of their company. They are far Superior to those manufactured in Milledgeville for the use of the State during the late War. They have no leather belts, nothing but the naked Sword & Scabbard - the belts could be made at any time, & for a trifle - I think if there is any existing laws or Resolutions authorising it, it would be a very excellent opportunity to procure a Bargain in the purchase of them; I understand, unless they are sold here in a short time, it is contemplated to ship them to a market in South America -

Col^d Fannin who first saw them, & who will write to you on the subject of purchasing them for the State, will at the same time apprise you what they can probably be procured for -

I am Dear Sir
Very Respectfully
Your Ob^d Serv^t
Anthony Porter

Dear Sir.

The Chatham troop of Cavalry under the Command of Judge Berrien paraded yesterday for the first time, On receiving their Swords I had an Opportunity of seeing and judging of the quality, They are of a Superior and useful kind - Steel Scabbards blades were polished and deemed of good Metal - There are about four hundred more of the Same kind left, which I think would be well worth the Notice of the State, and with that view I called on the Merchant who imported them and who has them now, and requested him not to dispose of them untill I could Communicate with you in regard to the purchase in behalf of the State. - I well remember how difficult it was during the war to procure this description of Arms and how much the State was imposed on in those she had Made. - I can procure those aluded to at Six dollars a piece & I do think them worth ten, and I very much doubt whether they could be obtained else where in the U. States for that - It seems this Consignment was made during the war, perhaps Smuggled in as prise goods or else they could not be sold at this price. - Porter has examined the quality of the Swords and will write you. and if the Legislature has delegated to you the Authority of adding to the State Arsenal, you can if you think proper instruct me to make the purchase, which it would be well to do Soon for fear they may be shipped

to an other Market. -

Our Cotton Market has declined to 25 to 25½ cts and from the best information I can Obtain from abroad there is no reason to expect it higher this Season -

I tender you my Congratulations on the return of an New Year.

Very respectfully your Excell^y.

Obt. Hu. Ser^t.

Savannah - Jan^y 25th 1819

Sir

You were kind enough to inform me in Milledgeville, that, should I not be able to procure arms for the Volunteer Corps under my command, you would direct a supply of a hundred stand to be sent to me. - In confirmation of what I stated to you in conversation, I can again repeat, that I have found it wholly impossible to procure arms, and that, as far as I can ascertain, there are not sufficient arms in the City of Savannah to arm the white population.

This is the opinion of Col: Marshall, who commands this Regt and a parade on the 19th Inst has confirmed the correctness of that opinion. - The Gentlemen under my command prefer the Whitney (New Haven) guns. - I hope your Excellency will excuse my troubling you with the request that there may be directed to be selected. -

It is needless for me to state that we are much in want of them, but I would remark that an annual detail is made of a Volunteer Corps, who are considered as minute men, always prepared to turn out in case of alarm. - It has so happened that my corps has been designated for this year on that duty, and in the case of a serious disturbance we should be in a singular predicament indeed having not a supply of arms. -

Respectfully Y^r Excellency's

Ovt: St:

Edw.^d F. Tattnall. -

Dr Sir

I take the liberty of again reminding you of the supply of arms which you were so good as to promise me for my corps. We have at this moment upwards of ninety members and our numbers will very soon exceed one hundred.- I therefore renew my request for one hundred stand of the New Haven manufacture, or (if these are not to be had) of the Harper's Ferry.-

The Steam boat is now on her way up and I should be extremely gratified if your Excellency could direct the arms to be sent down in her.-

The arrangements for the cession of the Floridas have no doubt afforded you much satisfaction.- The acquisition of these Provinces is indeed highly important to our State.- Georgia will no longer be disturbed in her repose by the yells of Savages & her borders be the subject of horrid massacres.- We shall henceforth enjoy the same tranquility & uninterrupted security which have fallen to the lot of our Sister Atlantick States.-

There is at present a very considerable military force (say six hundred men) at Fernandina where Genl Gaines has established his Head Quarters.- The troops are in general not very healthy, but are notwithstanding in a very high state of discipline.- The Genl & lady are now at Fernandina, but will in a week or two take a short trip northwardly.- Augustine, it is supposed, will not be occupied until the latter part of August, by our Troops.--

With the most cordial sentiments of respect, I am your
Excellency's

I fear your Excellency will deem my frequent application to you upon the same subject extremely obtrusive, but the destitute situation of the militia of this place in regard to arms, and particularly of the Volunteer Corps under my command and must again be offered by me as my excuse for troubling you with reiteration of my request that 100 stand of arms should be as soon as possible sent down for the purpose of arming my command. Mr McIntosh (who is the bearer of this) will satisfy you of the actual situation in which we are placed.

The President is this day expected in Charleston - He will probably be in this City about the 3rd May. - We are making great preparations for his reception. - Much anxiety has been expressed in this Community that you should come down to receive him. - I am sorry that the avocations of your Excellency have prevented your doing so. - Orders were issued some time since by the Military & Civil authorities of the City to receive you with those honors & demonstrations of respect which are due to the Chief Magistrate of our State & I am satisfied that your feelings would have been gratified with your reception. -

With sincere respect I am Y^r Excellency's Obt: St:

Sir,

Enclosed you have the returns of an Election held this day for officers to command a Volunteer company newly formed in this city to be called the (Augusta Volunteer Guards." as all our volunteer companies have been for some time extinct, permit me to solicit your good offices in furnishing commissions & arms for the Guard as expeditiously as the Public business will admit of.

From the liability of our city to Fire and the immense value of property which must necessarily be exposed in the streets during such an alarming period, it seems to be a matter of the first importance to secure to ourselves a well armed and organised Corps, who can devote themselves exclusively at such a time to the maintenance of good order and the protection of goods &c.

The President it is understood will favour our city with a visit in the course of the ensuing month and it is very desirable that we should be prepared to receive him with at least one volunteer company. about 60 stand of arms will be wanted

Sir/ I herewith Inclose to your Excellency a certified copy of the proceedings of the Court Martial on the trial of Capt Jacob Robinson together with the original remarks of the parties

It will readily be perceived that the charge on which the Court found him guilty ~~was~~ for making out and returning to the Executive of this state a False pay Roll The troops were discharged on the 25th of April and after that time were completely out of service It was after that time that the pay roll was presented to the Executive which constituted the Crime It was from this vein of the subject that Induced me reluctantly, to review and decide on the proceedings of the Court, In doing this I did not think that I had the power to enter into a new investigation and hear argument as some may suppose, (But something like a Judge in ^{view} removing the verdict of a Jury) to see if the case was fairly conducted according to Military law, the Evidence on both sides of the question fairly Examined and finally that the sentence was according to law and Evidence, Nay so far from entering into a rehearing I felt bound to keep the sentence secret until I had decided. It will be seen that the court decided on the 15th of May, and not until the 29th did I perform the painful duty of approving the sentence

It is however with Your Excellency, to determine, whether I have arrogated to my self, powers that did not properly belong to me and if so, whether the court has acted in such manner as to merit the approval of the commander in Chief

I have the Honor to be and remain
