

DEATH OF AN ATHLETE WILL NOT TAKE IT BACK

MR. OLIVER P. LYLE DIES AT THE GRADY HOSPITAL

HE SUSTAINED A VERY UNUSUAL INJURY

While Attempting a Difficult Feat in Tumbling.

He Fell Upon the Back of His Neck and Concession of the Spine Resulted—Lingered for a Month.

Early last night Mr. Oliver P. Lyle, Jr., 23 years of age, who was injured at the Gate City Guard armory about a month ago while practicing some athletic feats, died at the Grady hospital.

It was the purpose of the young man to assist in the production of "Egyptia" at the Grand about a month ago, and he and a friend met at the Gate City Guard armory for the purpose of practicing.

A large mat, probably five-inches thick, was placed on the floor for the two young men to tumble on, and they began to perform. While trying to accomplish a rather difficult feat, Mr. Lyle fell on his neck and injured his spinal column. The hurt did not affect the brain as such an accident does in almost every case, but was felt in the lower extremities of the body, resulting in paralysis of the limbs.

Soon after the accident occurred he was carried to the Grady hospital and put under treatment. He was there exactly one month, and during that time suffered much pain, but never once complained to the physicians or nurses.

The physicians at the hospital did every thing to alleviate the young man's sufferings, but his case was beyond their skill.

Mr. Lyle came to this city one year ago in October from Memphis, Tenn., with his widowed mother. They lived at a private boarding house at 51 W. Mitchell street.

Mr. Lyle visited Mr. Martin Ambrose, of the Atlanta Lumber company, who gave him a position as city bookkeeper, which he held for a year.

By his gentlemanly manners and splendid business qualifications Mr. Lyle won the confidence and esteem of all whom he came in contact with, and though he had only been in Atlanta a short while he made a large circle of friends who will be grieved to learn of his death.

His body was carried to his late home on West Mitchell street by Barclay, Foster & Bränden, the undertakers.

The funeral will occur from that number tomorrow morning at 10 o'clock, and the interment will be at Westview cemetery.

Our men's suits are made to wear well, and are out and finished in the very best style. Elegance pervades this department in our store.

MINISTER'S TESTIMONY—READ IT.

"I Can Walk and Not Falter and Run and Not Get Weary."

TUNNEL HILL, Ga., August 18th, 1893.

Dr. B. M. Wooley, Atlanta, Ga.

DEAR SIR.—You will please not think hard or strange of me for not writing you before now. I have left off taking your medicine for four weeks and have been waiting to see if I was well, and I find myself entirely cured of the morphine habit. I have no more desire for it than for something I have never seen or heard of. I took my last dose the 24th day of April, 1893, and I commenced your medicine on the 25th, and from the first dose I never wanted any more morphine and have never tasted it since. When I commenced to take your medicine my health was so bad that I could not stay up all day, and, strange to say, but true, in one week's time I could plough a \$150 horse all day, and having another employment I have cultivated 12 acres of land in cotton and corn, and have done all of the ploughing myself and helped to do the hoeing and kept up an appointment on Sunday, going three or four miles to preach. I have not felt as well as I do at present in five years. Well, doctor, my youth is renewed like the eagle's and I can walk and not faint and run and not get weary. I tell like I was about sixteen years of age and when I commenced to take your medicine I was somewhere in the bound of four score, though my real age is fifty-six. You can hardly imagine how happy I am. If I only had my other hand that I lost in the battle of New Hope church I would not exchange places with Greyer Cleveland. Instead of a long, and face all in snatching and joy. I thank God that he has raised up and sustains just such a man as yourself, for no man could do these miracles that you do except God be with him. I know that I am well, and expect to stay so. I give you the privilege to use this or any part of it that you may choose to. With much love to you and yours.

REV. J. O. A. HICKMAN.

NEILL STIGES BY THE COTTON CROP ESTIMATE

AND SAYS THAT IT MAY BE INCREASED.

The State Of The Stock And Grain Markets Today.

Stocks Are Unsettled—Yesterday's Bull Movement Discussed—Questions From The Great Exchanges Today.

Liverpool has given a better market today than was anticipated, and the market on that side shows a much better spot appearance. If life can be infused into actual cotton the contract market will take care of itself.

First advices from Liverpool pointed to an advance of two points with the tone of the market steady and with spot sales of 10,000 bales which goes to show that the spinner on that side is taking more interest in the market and in doing good buying. If this continues it will result in a good advance.

The "bears" were not so anxious to sell on this side at the opening, and the undertone to the market was strong. The good disposition to buy put the market up to 51.9 for January in a short while.

The semi-weekly statement at New Orleans brought about renewed selling orders under which the market broke six points, but the better close in Liverpool, and the firm tone to that market started the market reacting again, after which it became steady.

The same "bearish" factors with one exception prevailed today, but that one exception seems to be the most important one. It is Liverpool which seems at present to be the observed of all observers. As long as that market holds up with its firmness it has today there will be but little chance of January cotton going as low as it has been predicted that it would go.

The Galveston News repeats its estimate of several weeks ago of 1,800,000 bales for Texas. Houston gets 7,920 against 6,047 last year.

Mr. H. M. Neill has the following to say: "As so many people have done me the honor to interest themselves in circulating false reports that it was about to reduce, or increase, my estimate of the crop, I take the liberty of stating that I have no reason to change the area of October 27th of 1,700,000 bales. I am, as published with the remark that made that it might be considerably more if the then prevailing weather continued.

The weather since (almost a month) has been perfect so that the improvement hoped for has certainly occurred. It is impossible therefore to name the maximum figure.

H. M. NEILL, Stationer.

MARKET REPORT.

B. W. MARTIN, Manager.

Rooms 312-313 Exchange Building. Orders executed for future delivery merchandise over private wire to Chicago and New York.

Atlanta Cotton.

ATLANTA, Ga., November 15.—Cotton steady at 51.

New York Cotton.

	Nov. 15	Nov. 14	Nov. 13	Nov. 12
January	51.9	51.8	51.7	51.6
