MANY PARAMETERS OF THE PARAMET

MISCELLANY.

SATURDAY AFTERNOON.

SALURIDAY AFTERNOO.

BY B F WILLIS.

O'wild and careless play.

And pressuade myself that I am not old,

And my locks are not set gree',

For it starts the blood in an old man's lenter,

And it rapkes his pulses fly.

To eatch the thrill of a hoppy roice.

And the rapke of a phrasan eye.

And the light of a pleasant eye.

I have walked the world for fourcore years
And they say that I am de',
And my heart is tipe for the reaper Death,
And my heart is tipe for the light hold
And my peasa are well sigh hold
And my peasa are well sigh to let
I model to the say time;
I model to the sa

And I half rease my prime.

Play or I play put I am with you there,
In the midst of your asrrying,
I can feel the thrill the there is man,
And the ruth of the there is man,
And the ruth of the moderned call,
And whose stip on the ready floor,
And I care not for the fall.

And care not for the fall.

I am willing to die wheamy time shall come,
And I shall be glad to go,
For the word to thest is a weary place,
And my poles is getting fow;
But the grave is dark, and the heart will fail
is treading its gloomy way;
And it wiles my herat from its dreatiness,
To see the young no gay.

The Fifts Time of Sakking.

"Harry!" said the old gentleman to ne, he we left the Counter's sitting room, a "weily, Harry, thou art the most bearage of the Counter's sitting room, a "weily, Harry, thou art the most brazzen-faced varket in Christeedom', and well discerning through the veil of reproof that acquiescent smile, for which he was so famous, I began to consider not only that there was some truth, but also some merit in the possession of this character. The yet to be one of the most was a high privilege, and I thought I possessed it. Some men are born with faculties which prove curses; some are born with such in the counterlor, two or three years after this time, "jou are aware that I have a feeling—that is, a youthful lists, or otherwise expressed sensition toward Julia—" the was not deal; but a man with corns is always troiden upon. "A definition, uncle, is hard, you know; a hint is had enough, and surely you who have lively public storms can measure the two was not deal; but a measure the sale way boy? I sit the god of arrow, or the sale of the

sendit of your experience—how mn I to ask her in marriage?"

My companion's face fell beneath is forification of societoth, looked rueful, fainthearted, and bilous; in one second it reterification of societoth, looked rueful, fainthearted, and bilous; in one second it reefforts and forced convulsions.

"Brother's son," said he, "you astound
me by your hypocrisy; yea, a man pro
verbially undannted; you, in matters of
the sex, not learn by the you have a contime to the sex of the sex of the sex, not some with so puling a question as the form of an ordinary proposal?

—Pish! runn, you are disgusting."

The former stateliness of nostril returned to my relative with this explosion, and
I ventured to follow up my finst enquiry.
Itituation; that I had meditated long and
uneleasy; that I had framed a thousand intentions, but land not succeeded in
varquishing my irresolution before my
Jolia, and that, in short; he had did instimular case, that I might benefit by his
precedent. This last sentence was gall
and wormwood. He fell away, the a
ship to lesward, and in spin of much
his former point; but after man, minutes
of painful physiognomical discretion, great
travall, and transcendant hideousness—even then I could elicit nothin;—he assured
me "was and tinking! a flash-in-the-pan,

EROW THE SEVENNER ORONGIAN.
REPURE!

On the proposed Canal, connecting the Ala tomaka and Ogescher rivers, comprising the Plan and Estimates of the same, by Advince Causer, Civil Engineer.

[Continued]

It will be necessary to state the way.

[Continued]
It will be necessary to date the quantity of water that will be required to gupply a canal of the proposed dimensions and length. From experiments made on the Ern, it was secretained that the quantity of the canal, in example, the canal of the canal, in example, the canal of the canal, in example, the canal of the ca nal.—Subsequent experiments proved the after the canal had been in operation two or three years, the banks having settled the consumption was reduced nearly one half.

or three years, the banks having seatled, the consumption was reduced nearly one-half.

Frog an average of several canals in France, the quantity of water required per mile per mile per mile the same of the following the same of the s

vage creek, which enters on the Canoachee level, and we have 7.824 cubic feet per minute.

An analysis of 3.574 cubic feet per minute.

The continues are the lead of Cox's milk falls, where the river has a rapid descent, running over a hed of Cox's milk falls, where the river has a rapid descent, running over a hed of sand-stone rock; it continues its course nearly parallel to that continues its course nearly parallel to that the continues its course nearly parallel to that the canal.

The location of the canal and feeder is sufficiently exact to answer the present purposes of the project. Station stakes are placed at distances of six chains, on the propose of the project. Station stakes are placed at distances of six chains, on the forth of the contract of the stakes, on which are marked the number and lift of the lock. The location, however, are subject to paralla alterations, where, are subject to paralla alterations, where, are subject to paralla alterations, where are subject to paralla alterations, where and lifts of the locks in some places can be improved, as circumstances underjor to their distance or the contrary. The sites and lifts of the locks in some places can be improved, as circumstances underjor to their distance and the contract of the line and canadicated as obstacles in the progress of the survey made these changes requisite; in other places the improvement of the line and canadicated as obstacles in the progress of the survey made these changes requisite; in other places the improvement of the line stances connected with it were noted in the field books, which can be referred to when the final location takes place.

The object of this canal is to afford, at alternation of the years, certain, cheep, and

the number or sums are superstained and embankment. These operations are beyond the limits of the present survey, and and embankment and the project.

The object of this canal is to afford, at all times of the year, a certain, cheep, and direct communication between the interior of the State of Georgia, and a point on a superstain of the State of Georgia, and a point on the control of the State of Georgia, and a point on the control of the State of Georgia, and a point on the control of the State of the Country in the State of the State of the Country in the State of the State of the State of the Country in the State of t

1 Captain, or Patero 2 Assistant, or ma'e 24 Potemen, 1 Cook,

gs: 371-2 iled against the es a day; and as represented to

80 tons.

From these data calculations could be made exhibiting a sun which would be a proportion to distance and freight, that would be saved where caugh had to contend with river navigation.

In order to exhibit more elsely the cost of the saveral portions of the canal and feeder, the canal will be divided into three sections.

of the several portions of the cana and feeder, the canal will be divided into three feeders, the canal will be divided into three feeders are the western section will include that portion, from the junction of the canal and feeder to the Altamaha; the middle section from the junction to the eastern termination of the summit level; the eastern canal canal will be eastern the canal will be eastern the canal will be calculated and the canal will be division by itself. Each section will be division by itself. Each section will be division by itself. Each section will be represented singly, with the amount of currently the canal will be found to give a plain and minute description of every large of the fine.

The calculate in the canal will pass, is invariably sand, with take plottern. The calculate at unequal distances from the surface; at places, seven or right feet below it, at others it shows itself on the surface; at places, seven or right feet below it, at others it shows itself on the surface.

face, but is generally met with these below it.

The data upon which the pricts are busined, have been obtained from a comparison between the price of labor in Georgia and at the north, where similar works have been executed, and from information of the cost of constructing the camil nearly completed of constructing the camil nearly completed by the contract of th

creented, and from information of the coat of constructing the canal nearly completed between the Savannah and Ogocches rivers.

The coat of the construction of the locks is bashed upon the contracts that have actually end upon the contracts that have actually end upon the contract that have actually end upon the contract that have been formed to construct the contract price to find y per themsand; the contract price to find the contract price to find the contract price to find the second price to the contract price to find the contract price to find the period of the period of
