A LTHOUGH you may have had good luck, with but few failures in making cake and biscuit in the old-fashioned way with soda and sour milk, or soda and cream of tartar, you will have better luck and (following directions) no failures with the Royal Baking Powder. The truth of this must be evident when you remember that in the leading hotels and restaurants, and in the homes of our city cousins, where the latest and best methods are invari-

taurants, and in the homes of our city cousins, where the latest and best methods are invariably employed, and where the most heautiful and dainty food is always set but for the guests, the Royal Baking Powder is exclusively used for all quickly risen food.

Royal Baking Powder never disappoints; never makes sour, soggy or husky food; never spoils good materials; never leaves lumps of alkali in the biscuit or cake; while all these things do happen with the best of cooks who cling to the old-fashioned methods, or who use other Baking Powders.

If you want the best food, Royal Baking Powder is indispensable.
